Snohomish County Council Members

Ordinance 22-006

I want to express my support of Ordinance 22-006.

As you are aware, housing is very expensive in Snohomish County. I believe that passing this ordinance will help multigenerational families support each other by living near each other. It is my opinion that allowing more flexibility regarding ADU's will give County residents much needed housing choices and income options.

I also support allowing ADU's to be more than 100 feet from the primary residence. In addition, I support allowing ADU's to be located on properties smaller than 5 acres. I do not believe that adding one ADU per rural property causes urban sprawl.

Passing this ordinance will help many families for years to come and will also address housing affordability issues that are so prevalent in our County.
