**ERP Project  
Update to County Council**

**March 17, 2026**

**Snohomish County**

**PHOENIX**  
an ERP modernization project

- Time-machine journey**
- Project overview and status**
- Project management approach**
- How we engage with County staff**
- Closure and Q&A**

# Time Machine:

Presented to County Council Q3 2023 - Key Tenants for an ERP Project

- Adhere to Snohomish County IT Strategic focus of “**cloud first**”
- Identify a solution that is **platform based** (Composable ERP)
- **Leverage knowledge** and **experience** from our peer counties (and other agencies) who have implemented ERPs recently
- Invest in **external partner advice** to support pre-planning related to business and technical capabilities
- Invest in **external systems integrators** to support implementation of chosen ERP solution
- High focus on **internal change management** to ready the organization for a new ERP

## Why are we doing this?

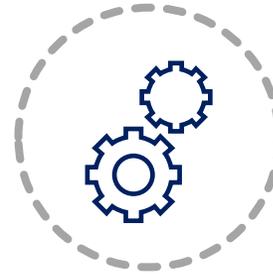

- **Current System Limitations:** Cayenta lacks modern cloud solutions and integration capabilities, leading to technical debt and sustainability concerns.
- **Digital Transformation need:** Addressing long-term viability by modernizing systems and processes is crucial.
- **Cloud-First Principle:** Preference for cloud solutions, with a cloud-based ERP as a central component.
- **Comprehensive ERP Solution:** Integration of HR and Finance functions with a modular approach using composable ERPs.
- **Data Protection & Security:** Our current mix of cobbled together solutions and workflows increase our data protection risks very dramatically. Security is built in by definition in Oracle Fusion

## Project Objective:

### Enhance Employee Productivity

- Implement user-friendly tools and workflows to empower employees, streamline tasks, and improve overall productivity.
- Comprehensive training to ensure employees are proficient with new technology, fostering confidence and maximizing the benefits of the Oracle Cloud Fusion ERP.
- Promote collaboration: Encourage departments to work together via a growth mindset and use new technical skills to drive innovation.

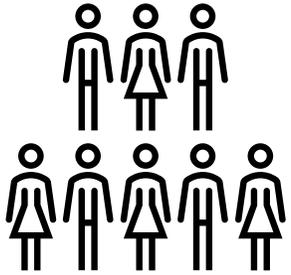

### Optimize and Integrate Processes

- Consolidate disparate systems into a unified ERP solution to simplify processes, reduce redundancy, and improve operational efficiency.

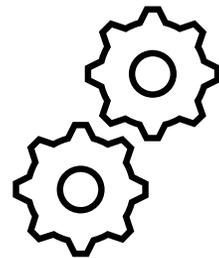

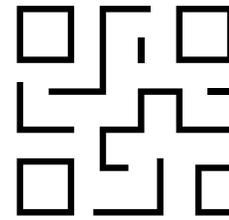

### Improve Data Management and Reporting

- Simplify reporting and data analysis by leveraging integrated, real-time data to support informed decision-making and reduce costs.
- Reduce security risks and ensure compliance with all security standards
- Reduce costs

- ✓ 3,000+ Employees
- ✓ 43 Collective Bargaining Agmts
- ✓ 25+ Offices & Dept's
- ✓ 40+ Junior Taxing Districts
- ✓ 1,300+ Supplemental Staff

- ✓ 800+ Job Codes
- ✓ 1,400+ Pay Codes
- ✓ 125 Benefit Plans

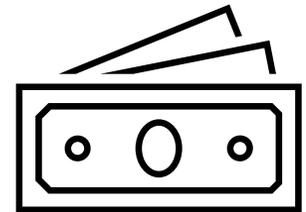

- ✓ 250+ Active Grants
- ✓ 15,000+ Assets

**Snohomish County  
Government**

**Founded  
January 14, 1861**

- ✓ 34,000+ G/L Codes
- ✓ 250,000+ Vendors
- ✓ 10,000+ Invoices/Mo.

- ✓ 80+ Apps
- ✓ 100+ Integrations
- ✓ 1,000+ Access Databases

## ERP

 **Finance**

 **Human Resources**

 **Operations**

 **Payroll**

 **Purchasing**

- ✓ The project remains on track, on schedule, on budget
- ✓ We have reached final agreement with IBM (systems integrator) with contract currently in final legal review
- ✓ Council can expect to see approval package by EOM
- ✓ Phase0 – ~April 1
- ✓ Phase1 implementation work kicking off this summer

**2024**

## **BUILDING THE FOUNDATION**

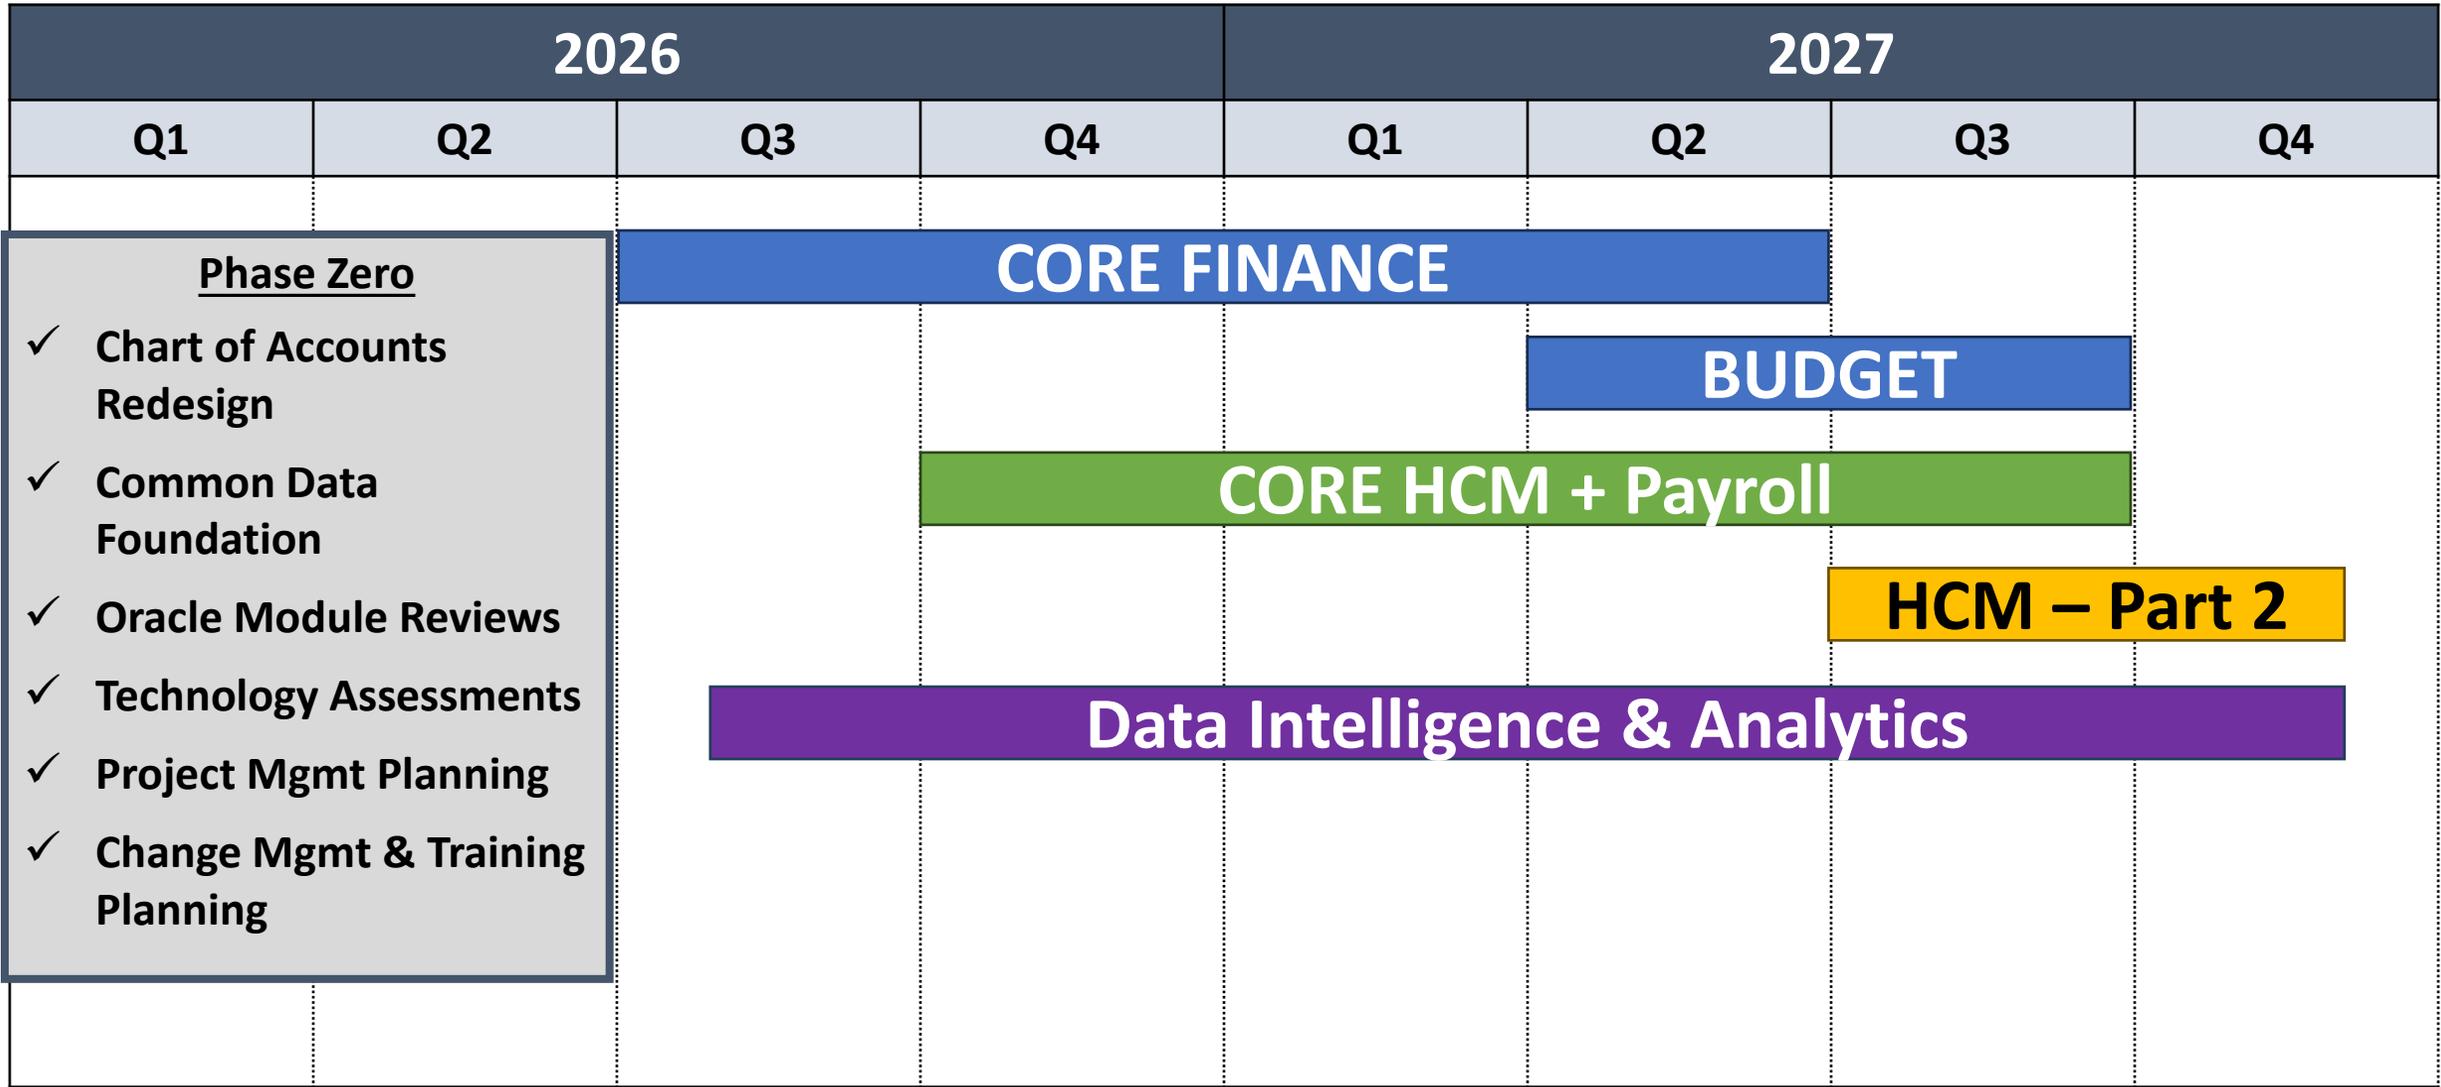

- ✓ Selected Oracle as the ERP platform
- ✓ Formed the Steering Committee
- ✓ Completed baseline business analysis
- ✓ Department outreach: early engagement and needs assessment

**2025**

## **MOBILIZATION AND READINESS**

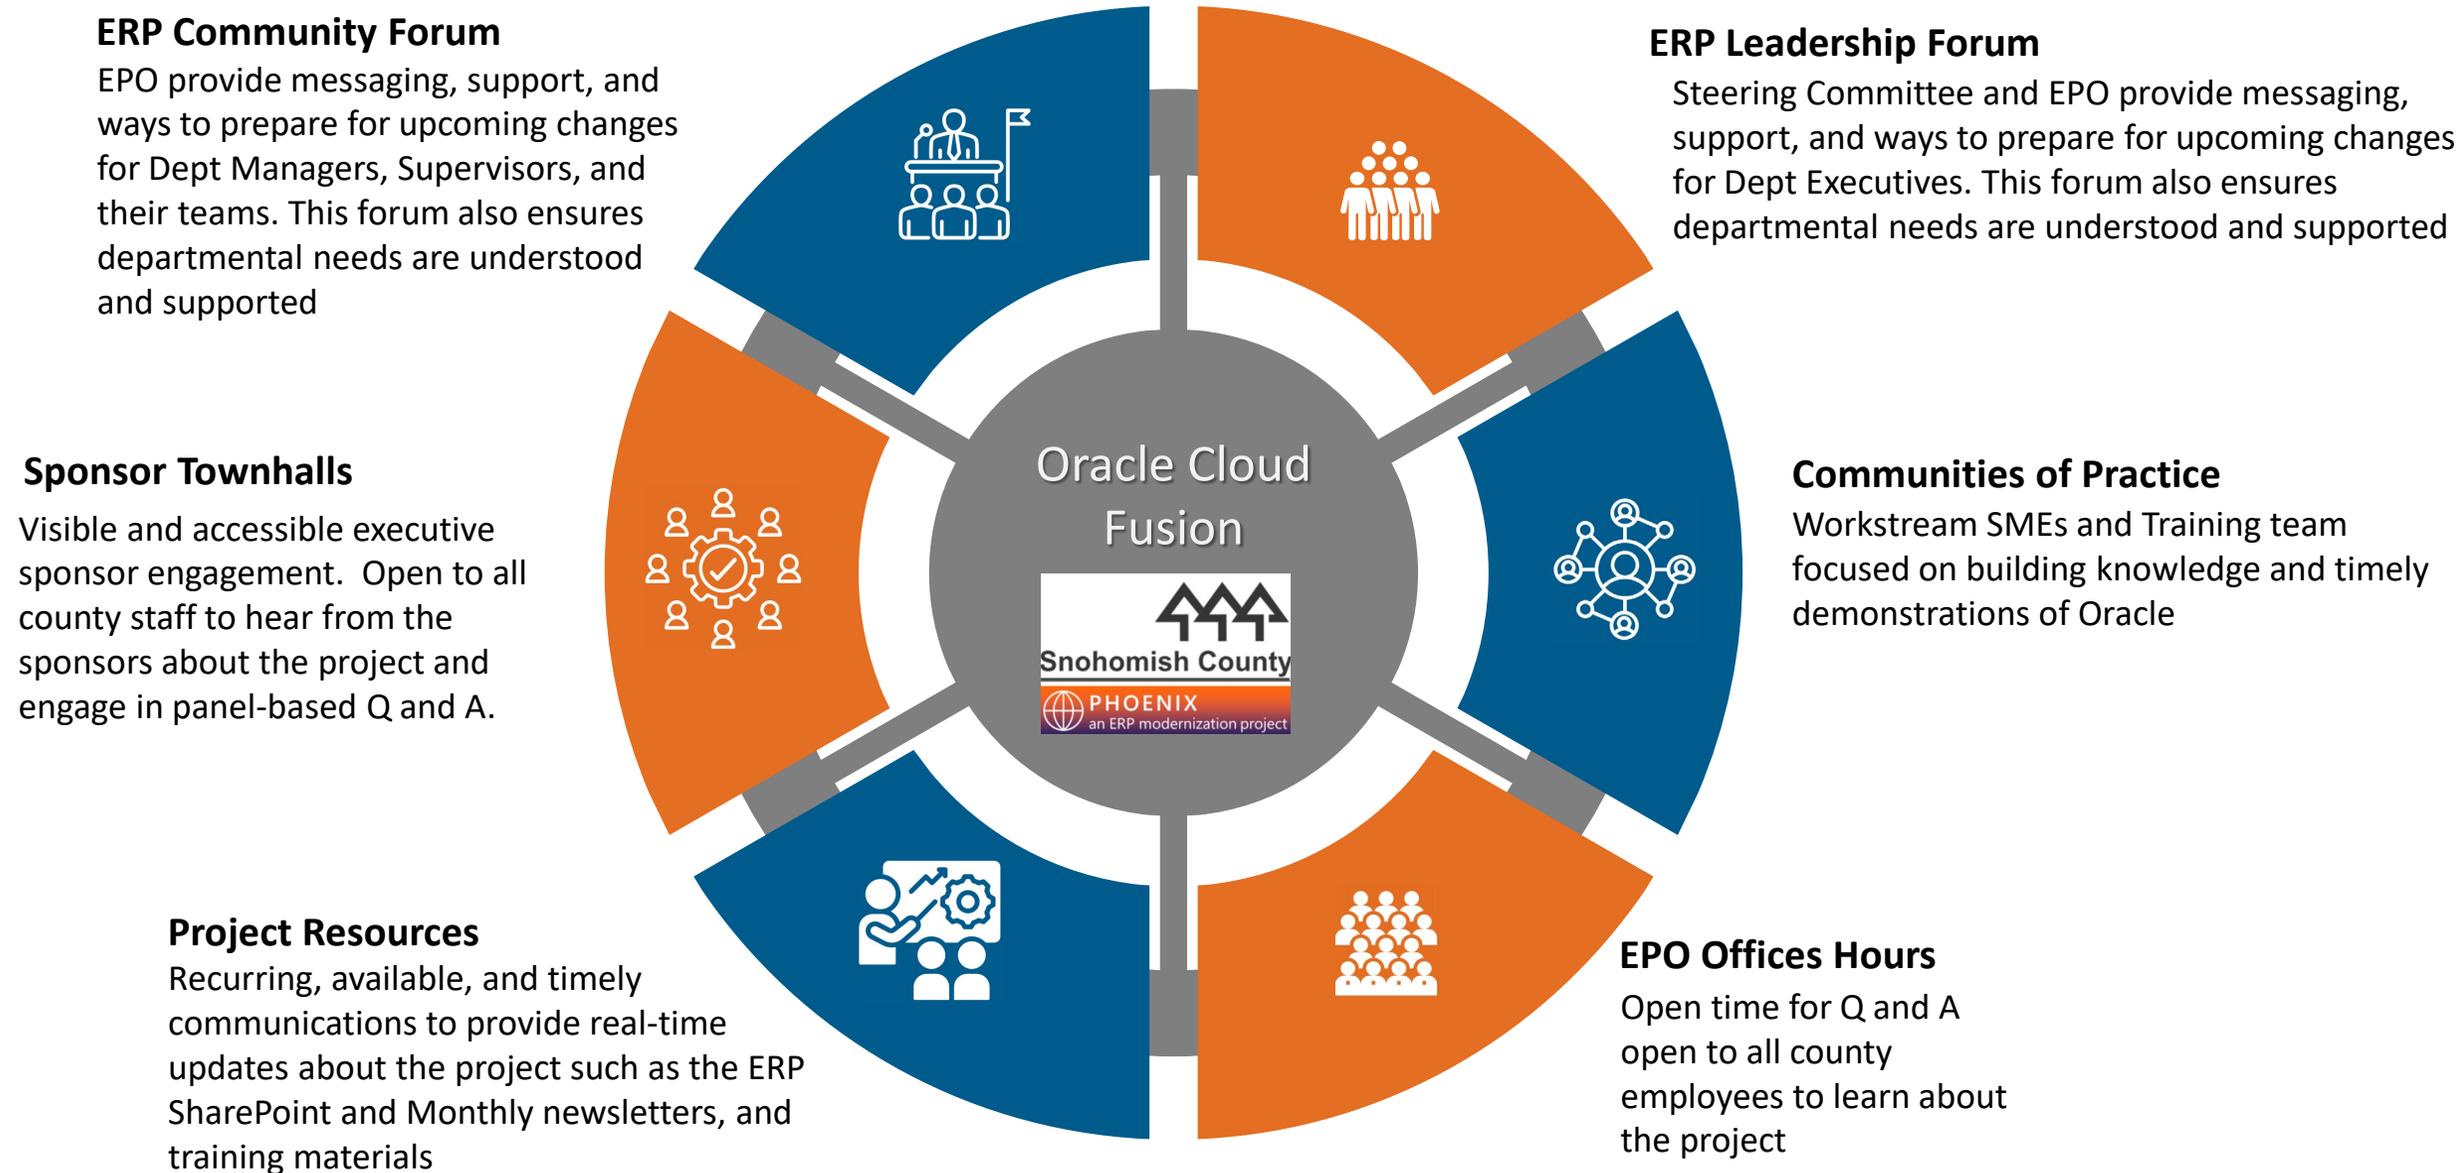

- ✓ Selected IBM as the Systems Integrator
- ✓ Formed the ERP Project Office (EPO)
- ✓ Finalized governance and project controls
- ✓ Department outreach: preparing leaders and teams for change
- ✓ Planning workshops and analysis
- ✓ Training strategy

**2026**

PROJECT STATUS			<b>CELEBRATING THE TEAM</b>	
<b>Project Governance</b>	↓	Risks/Issues/Decisions accumulating	✓	<i>SI SOW negotiations complete</i>
<b>Project Execution</b>	↔	P-0 scope at risk due to compressed timeline	✓	<i>Systems Inventory and analysis framework complete</i>
<b>Project Team Readiness</b>	↔	Project FTE turnover & undecided scope	✓	<i>Training strategy complete</i>
<b>Technical Readiness</b>	↔	Initial system inventory complete and moving to next steps	✓	<i>Tech Team and HR workshops completed</i>
<b>County Readiness</b>	↓	Need for greater awareness & comms at the department level	✓	<i>2026 Comms Plan w/ updated newsletter</i>
Current Activities		Risks, Issues, Decisions	Looking Ahead

County Newsletter		A		A		A	Audience-All staff Owner-Kari Bray

**A=Active SA=Sponsor Focused/Active**

# Key Takeaways and Success Factors

- **Leadership engagement and sponsorship.** Specifically:
  - Exec Office/Council/Separate Elected and all department leader's support
  - Department resourcing to support deliverables
- **Protection of project funding.** Specifically:
  - IBM contract approval followed by strict adherence to contract SOW & deliverables
  - Project impact if planned resources can't support project → stay on time, on budget
- **Future savings potential.** Specifically:
  - Deliver financial roadmap that shows expected savings through portfolio simplification through retirement of old systems
