Statement of Work Purpose: The purpose of this statement of work is for Snohomish Health District to conduct weekly mosquito surveillance for West Nile virus (WNV) in Snohomish County during mosquito season, June through September. The detection of the virus in mosquito populations serves as an early warning of disease risk in the localized area. It alerts the local health department to strengthen educational outreach and mosquito control to minimize the health impact of mosquito-borne disease on communities. In addition, data generated by surveillance advances our understanding of the emergence and spread of vector mosquitoes and pathogens in western Washington.
