ANNUAL INVENTORY
REPORT

SNOHOMISH COUNTY COUNCIL
Snohomish County, Washington

MOTION NO. 23-058

APPROVING THE ANNUAL INVENTORIES OF COUNTY OWNED
PERSONAL AND REAL PROPERTY

WHEREAS, the Department of Facilities and Fleet is responsible for the preparation of the annual inventories of County owned personal and real property pursuant to Chapter 4.46 of the Snohomish County Code (SCC); and

WHEREAS, SCC 4.46.121, 4.46.125, and 4.46.161 requires Property Management to submit the inventory to the County Council by February 15 of each year; and

WHEREAS, upon County Council approval of the inventory Property Management will record the approved council motion and the annual inventory report with the Snohomish County Auditor's Office on the first Monday in March of each year in accordance with the requirement of RCW 36.32.210; and

WHEREAS, the deadline for recording the 2022 inventory report will be March 6, 2023; and

WHEREAS, a complete copy of the inventory report is located at the Department of Facilities and Fleet or it is also accessible through the Snohomish County Auditor's website under the public records search;

NOW, THEREFORE, ON MOTION, the Snohomish County Council approves of the annual inventories of County owned personal and real property including related reports for recording at the Snohomish County Auditor's Office as submitted by the Department of Facilities and Fleet in accordance with Chapter 4.46 SCC and RCW 36.32.210, provided they are first verified under oath as provided for in RCW 36.32.210.

PASSED this 7th day of February, 2023.

SNOHOMISH COUNTY COUNCIL
Snohomish County, Washington

Council Chair

ATTEST:

Deputy Clerk of the Council

INVENTORY STATEMENT

VERIFICATION

INVENTORY STATEMENT VERIFICATION

I, Al Garcia hereby declare under penalty of perjury pursuant to the laws of the State of Washington that, upon information and belief, the real and personal property inventory reports for the twelve month period ending December 31, 2022, to which this verification is appended, have been compiled by Snohomish County Property Management in accordance with RCW 36.32.210.

Dated this 26th day of January, 2023.

Garcia, Al

 Digitally signed by Garcia, Al
Date: 2023.01.26 17:19:34 -08'00'

Division Manager, Department of Facilities and Fleet

PERSONAL PROPERTY

INVENTORY

EXHIBIT A

Personal Property Inventory Report For 2022

Property Management maintains a personal property inventory of County owned capitalized assets as required by SCC 4.46.125 and RCW 36.32.210.

An inventory report is submitted to Council no later than February 15 of each calendar year and filed with the County Auditor on the first Monday in March. The inventory report contains assets owned by Snohomish County as of December 31, 2022 and assets deleted during the year.

The personal property inventory report from Property Management is as current as possible from information provided by all County departments.

To make the County inventory an accountable system, Property Management maintains hard files, a barcode database and the inventory report.

Property Management has divided the inventory into department names, location by building, and floor of building. A barcode tag is assigned to each asset with a value of \$5,000 and over throughout each year and scanned at the end of each year. All barcode assets with a value of \$5,000 and over are included in the personal property inventory.

A personal property delete asset history and surplus sales list includes a description of the items, amount paid, date sold, who purchased, and the reason for disposal. The items are assigned a delete file number. This file number refers back to a file on the sale with additional bid information such as who bid, who was highest bidder, bidder address, and amount bid.

In its annual audit, the State Auditor tracks a random item, purchase order or sale item through the custodial department, Property Management and the Finance Department's system. The State Auditor has found he can track County assets, but has recommended that the Finance Department and Property Management develop a computer system that would combine information from both departments with each department able to update its own information.

REAL PROPERTY

INVENTORY

EXHIBIT B

Real Property Inventory Report For 2022

Property Management maintains an inventory of County owned real property as required by SCC 4.46.161.

An inventory report is submitted to Council no later than February 15 of each calendar year and filed with the County Auditor on the first Monday in March. The inventory report contains real property owned by the County as of December 31, 2022 and any real property sales during the year.

The real property inventory report from Property Management is as current as possible from information provided by all County departments that are the custodians of the County own real property, or from deeds, and purchase and sale agreements received by Property Management, as well as some site visits.

To make the County inventory an accountable system, Property Management maintain shard files, a real property database and the inventory report.

Property Management lists real property by department name, which indicates the department that has custodial ownership of the property. A tax account number is used by all County departments as an identifier of real property.

The acreage indicated of each property is calculated by the Assessor's office or by a survey. The Assessor's office performs tax appraisal every year to place an assessed value on the land and buildings. Property Management uses this assessed value as the estimated value and present value of the property. The attached report may not state the most current assessed value of the County property listed. To ensure the most accurate information, the Property Account Summary database on the County Assessor's website should be checked. The County is currently exploring ways to link the most current assessed value of County owned property to its working database of County owned real estate.

The purchase date is taken from the purchase and sale agreement, motion, or deed provided from the custodial department that requested acquisition of the property. Property Management keeps these documents in the file to show the purchase price of the property. In the database, additional costs incurred during the ownership of the property are added to the purchase price to track historical costs. Property Management depends on the custodial departments and the Finance Department, Accounting Division to provide additional cost information. The database has the ability to keep current year costs separate until year-end. The current costs are also sent to Property Management by the custodial department and the Department of Budget and Finance Accounting Division.

Special characteristics such as wetlands, cleared land, timbered, wooded, water frontage and type of access are listed in the database if known. Buildings or other improvements are listed by size and assessed value. The custodial department, the Assessor's Office and site visits provide this information.
