workforce and must consider the staffing and training needs for their proposed program design, including necessary compensation and staff supports to implement a sustainable high-quality program. Further guidance on strategies to support the Head Start workforce can be found in ACF-IM-HS-22-06 Strategies to Stabilize the Head Start Workforce.

Additional guidance on making program adjustments necessary to maintain a high-quality program with qualified staff can be found in ACF-IM-HS-22-09 Enrollment Reductions and Conversion of Head Start Slots to Early Head Start Slots.

Program Improvement (One-Time) Requests & Request Related to Health and Safety

Grant recipients encountering program improvement needs that cannot be supported by the agency budgets or other resources are invited to apply for one-time funding. This funding must be applied for separately through the *Supplement or Supplement—Facilities 1303* amendment type in HSES. Please select the appropriate amendment based on the description in HSES. Requests generally include but not limited to facility projects (construction, purchase, or major renovations requiring 1303 applications, including costs necessary to determine eligibility to submit a 1303 application, and/or costs necessary to prepare and submit a 1303 application); minor repairs and enhancements; playground installations or upgrades; funding to support transportation needs with making investments in buses or other vehicles necessary to operate the program; or security and surveillance investments to assure maximum safety of children. Requests are prioritized and funded based on funding availability and may require additional time before a final decision.
