#### Project Short Description:

The TECT Aerospace Everett (Site) is generally located at 2933 109th St. SW in Everett, Washington (CSID 12071, FSID 17392). The Site is being cleaned up under Agreed Order No. DE 21781. The work to be performed under this Agreement includes Remedial Investigations, Feasibility Study, and preparation of a Draft Cleanup Action Plan.

#### Project Long Description:

The TECT Aerospace Everett (Site) is generally located at 2933 109th St. SW in Everett, Washington (CSID 12071, FSID 17392). The Site is being cleaned up under Agreed Order No. DE 21781.

The Site is approximately 39 acres in size and is comprised of multiple properties located in the southeastern portion of the Snohomish County Airport (Airport), which is also known as Paine Field Airport. Site parcels are owned by Snohomish County and were formerly or are currently leased by Airport tenants.

Agreement No: TCPRA-2527-SnCoAD-00002  
Project Title: TECT Aerospace Everett  
Recipient Name: Snohomish County - Airport Division

#### History, Land Uses, and Ownership:

The Site consists of a series of existing and former buildings located at the Airport that have historical uses associated primarily with the aerospace manufacturing industry. Contaminated soil and groundwater are present beneath and around these structures. Building C-19 is owned by Giddens Living Trust Agreement with the underlying land owned by and leased from the RECIPIENT. The Site boundary has been significantly delineated, and the remedial investigation field activities are nearly complete.

The Airport was constructed beginning in 1936. The area around the Site was first developed by the US Army Air Corps (Army), which leased the airport from the RECIPIENT beginning in 1940, and then acquired the airport in 1941 for use as an Army airfield named Paine Field. Portions of Buildings C-20 to C-23 were constructed during this period. Buildings C-20 to C-22 were under construction starting in the late 1950s. Identified uses of the Site by the Army included a bulk fuel storage, reclamation yard, barracks, and warehousing. The RECIPIENT regained ownership of the airport in 1948.

The RECIPIENT began leasing the area around the Site to various aerospace manufacturing companies beginning in the 1950s. The use of the Site and Site buildings for aerospace manufacturing continued until 2019 when primary Site use shifted to non-manufacturing activities.

Historical manufacturing processes/structures in this area of the Site included: maintenance shop, freezer, brake press, tumbler (Building C-20); sheet metal fabrication, forming, welding, heat treating (Building C-21); machining, stretch form, and hammer shop (Building C-22); and machining, hand forming, trimming, assembly, painting, and deburring (Building C-23). Building C-29 was formerly used as a chemical storage shed prior to demolition in 1996. Currently only building C-19 is occupied. Buildings C-20 through C-23 were demolished in early 2024.

#### Environmental Issues and Contaminants of Concern:

The shallow soil and perched groundwater contain elevated levels of trichloroethylene (TCE) beneath several distinct areas of the Site including the south end of Building C-19; former Buildings C-20 to C-22; and former Buildings C-27 and C-29. TCE concentrations in perched groundwater exceed 100 milligrams per liter (mg/l) near former Building C-27 where additional investigation is needed to more fully delineate the extent of contamination.

If left unmitigated, the contaminated soil and groundwater may pose a vapor intrusion risk to inhabitants of buildings constructed over the contamination. Petroleum hydrocarbon constituents, arsenic, and chromium are also present in soil and groundwater at concentrations above applicable cleanup levels in the Former East Fuel Farm area. Hydrocarbon constituents are comingled with TCE and other volatile organic compounds in this specific area.

#### Summary of Remedial Actions Performed:

Previous Remedial Investigation (RI) activities performed at the Site under Agreed Order No. DE 21781 include:

- May 2024: RI Work Plan
- May 2024 to September 2025: RI field work
- November 2024: Phase I RI Interim Data Report
- May 2025: Phase II RI Interim Data Report

### a) For Cause

ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

**Failure to Commence Work.** ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

**Non-Performance.** The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

**Non-Allocation of Funds.** ECOLOGY's ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the Agreement, in whole or part, or renegotiate the Agreement, subject to new funding limitations or conditions.

ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the RECIPIENT through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the RECIPIENT. In no event shall ECOLOGY's reimbursement exceed ECOLOGY's total responsibility under the Agreement and any amendments.

Agreement No: TCPRA-2527-SnCoAD-00002

Project Title: TECT Aerospace Everett

Recipient Name: Snohomish County - Airport Division

If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.

ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

d) In Event of Termination

All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

29. THIRD PARTY BENEFICIARY

RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such.

30. WAIVER

Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.
