Subject: 23SLCGP resubmit project application results - Snohomish County
Date: Monday, March 11, 2024 1:50:22 PM

CAUTION. This email originated from outside of this organization. Please exercise caution with links and attachments.

Hello,

The Cybersecurity Planning Committee has completed their review of the projects selected to be resubmitted under the FY23 State and Local Cybersecurity Grant Program (SLCGP) grant.

- Your project **Proj #1 Disaster Recovery Infrastructure – Compute** was selected for funding in the amount of **\$160,000**.
- Your project **Proj #2 Disaster Recovery Infrastructure – Connectivity/Security** was not selected for funding.

If you'd like to discuss this determination further, please reach out to Zack Hudgins (cc'd on this email) or 360-407-8682.

Approval for funding is a two-step process, while we have completed the state level approval (Planning Committee/State CIO), we must now receive federal approval (Federal Emergency Management Agency [FEMA] review/Cybersecurity and Infrastructure Security Agency [CISA] approval) before projects can commence. Our staff will be submitting the selected projects to FEMA within the next month. Once the projects are approved, funding will be released, and we can move forward with the grant agreement process.

While we wait, staff from our office will be in touch to solidify all details for your grant agreement expediting the execution as much as we can.

Congratulations and we'll be in touch.

Sierra Wardell
