## **1. PURPOSE OF AGREEMENT**

The County received NOAA Habitat Conservation Grant funding from WDFW as part of the “Transformational Chinook Recovery in Whidbey Basin North and South” proposal through the County Grant to implement certain projects as well as to sub-award and perform grant administration for other projects in the South Whidbey Basin. The purpose of this Agreement is to sub-award a portion of the grant funding and to contract with the District for services to implement the Skykomish Riparian Agroforestry Feasibility, Swans Trail Slough, and the Community Engagement, Outreach, and Education in the Stillaguamish Basin Projects described in Appendix A (the “Scope of Work”), attached hereto and incorporated herein by this reference. The source of funds for this Agreement is the County Grant, attached hereto as Appendix E and incorporated herein to the extent referenced by this Agreement. Summary information of the NOAA Grant Award No. NA23NMF4630090 with the County as a pass-through entity is attached hereto as Appendix D.

## **2. DURATION OF AGREEMENT**

- A. The term of this Agreement is the date of execution through April 30, 2027 (the “Term”) unless extended or terminated as provided herein. The County’s obligations after December 31, 2024, are contingent upon local legislative appropriation of necessary funds in accordance with applicable laws and the Snohomish County Charter. In the event funding becomes unavailable for work to be performed pursuant to this Agreement, all work shall terminate in accordance with provisions of this Agreement upon the last day of funding.
- B. As provided by RCW 39.34.040, this Agreement shall not take effect unless and until it has (i) been duly executed by both parties, and (ii) either filed with the County Auditor or posted on the County’s Interlocal Agreements website (the “Effective Date”). Notwithstanding the Effective Date of this Agreement, all activities described in Appendix A to this Agreement that are performed after the NOAA Grant award date of May 1, 2023, shall be eligible for funding under this Agreement.

### **3. SCOPE OF WORK**

- A. The District shall furnish the necessary personnel, equipment, material, parts, and/or services and otherwise to do all the things necessary for or incidental to the performance of work set forth in Appendix A
- B. The District will not be required to perform work for the County in excess of work specified in the Appendices except by mutual agreement to a written amendment to this Agreement.

### **4. PERFORMANCE**

The District agrees to satisfy all aspects of this Agreement, including the Appendices, in a timely and professional manner. At any time that the District cannot fulfill its responsibilities under this Agreement, the District shall notify the County thereof in writing, together with an explanation of why said responsibilities cannot be fulfilled. Failure to perform shall be cause for the County to terminate. A decision by the County not to terminate after a failure by the District to meet its responsibilities shall not constitute a waiver of the right to terminate based on such failed responsibility nor a forfeiture of the County's right to terminate in the future.

### **5. SUBCONTRACTING**

- A. The District shall not enter into any subcontracts for any of the work contemplated under this Agreement without the prior written approval of the County. In no event shall the existence of the subcontract operate to release or reduce the liability of the District to the County for any breach in the performance of the District's duties. This clause does not include contracts of employment between the District and personnel assigned to work under this Agreement.
- B. The District is responsible for ensuring that all terms, conditions, assurances and certifications set forth in this Agreement and the County Grant are carried forward to any subcontracts. The District and its subcontractors agree not to release, divulge, publish, transfer, sell or otherwise make known to unauthorized persons personal information without the express written consent of the County or as provided by law.
- C. If, at any time during the progress of the work, the County determines in its sole judgment that any subcontractor is incompetent, the County shall notify the District, and the District shall take immediate steps to terminate the subcontractor's involvement in the work. The rejection or approval by the County of any subcontractor or the termination of a subcontractor shall not relieve the District of any of its responsibilities under this Agreement, nor be the basis for additional charges to the County.

**15. RESPONSIBILITIES OF THE PARTIES**

Each party to this Agreement hereby assumes responsibility for claims and/or damages to persons and/or property resulting from any act or omission on the part of itself, its employees, its officers, and its agents. Neither party assumes any responsibility to the other party for the consequences of any claim, act or omission of any person, agency, firm, or corporation not a party to this Agreement.

**16. RIGHTS AND REMEDIES**

- A. In no event shall any payment by the County to the District constitute a waiver by the County of any breach of covenant or any default that may exist on the part of the District. The making of any such payment by the County while any such breach or default exists shall in no way impair or prejudice any of the County's rights and remedies, hereby expressly recognized, to recover payments or portions thereof, to which the District was not entitled under this Agreement, where any payments were made by mistake, or to pursue any other remedy available to the County with respect to breach or default of this Agreement.
- B. In the event the County terminates this Agreement pursuant to Sections 14, the County will not be held liable for any monetary loss incurred by the District due to termination.

This indemnification obligation shall include, but is not limited to, all claims against the County by an employee or former employee of the District, and the District, by mutual negotiation, expressly waives all immunity and limitation on liability, as respects the County only, under any industrial insurance act, including Title 51 RCW, other Worker's Compensation act, disability benefit act, or other employee benefit act of any jurisdiction which would otherwise be applicable in the case of such claim.

**APPENDIX A  
SCOPE OF WORK**

**DESCRIPTION:**

Funds in the amount of \$725,000 will be allocated to the Snohomish Conservation District (the “District”) as a Sub-Awardee of a NOAA Conservation Grant through WDFW Grant Agreement No. 23-22747 (the “County Grant”) in support of the Transformational Collaborative Chinook Recovery in Whidbey Basin North and South. The District will implement the Skykomish Riparian Agroforestry feasibility project, advance the Swans Trail Slough project, and lead Community Engagement, Outreach, and Education activities in the Stillaguamish Basins.

**TASK 1: GRANT ADMINISTRATION AND REPORTING**

---

The District will prepare and submit Progress Reports, invoicing, and Final Reports as follows:

- The District shall work directly with Washington Department of Fish and Wildlife (WDFW) Estuary and Salmon Recovery Program (ESRP) and the National Oceanic and Atmospheric Administration (NOAA) to develop NOAA Progress Reports for the Skykomish Riparian Agroforestry Project, Swans Trail Slough restoration project, and Community Engagement, Outreach, and Education activities, including report content that describes project milestones and activities.
- The District will submit NOAA Progress Reports and Final Reports as directed by WDFW and as scheduled in the table below and provide copies to Snohomish County.
- Snohomish County grant support staff and technical staff may advise the District on any reporting outputs required by WDFW and NOAA, as appropriate or if requested by WDFW.
- The District will submit project invoicing directly to Snohomish County under the terms of this Agreement and Appendix B.
- Snohomish County will work with WDFW to ensure the work performed under this Agreement adheres to NOAA award policies and applicable federal laws.

<b>Deliverable</b>	<b>Deliverable Description</b>	<b>Due</b>
1.1	NOAA Progress Reports	Bi-Annually: April and October
1.2	Invoicing due to County	Quarterly
1.3	Final Report	End of project or 4/30/2027

**NOAA Grant = \$38,000**

## TASK 2: SKYKOMISH RIPARIAN AGROFORESTRY

---

The goal of the Skykomish Riparian Agroforestry project is to incorporate agroforestry strategies and elements into the design of restoration projects in the Skykomish River Basin to develop biodiverse riparian forests with higher social, cultural, and economic value that benefit landowners and communities. The District will leverage agricultural resources to support integrated riparian restoration projects and will work with stakeholders to design and prototype appropriate riparian forest cultivation and management. The District will develop mechanisms so that people can visit, contribute directly to restoration, and learn about river and forest ecology. The District's aim is to shift riparian forest restoration from an underfunded intervention in a neglected landscape, to a community-building effort that strengthens rural economies with riparian forest designs that produce native plant seeds, cuttings and divisions to support restoration, and generate food, floral, craft and medicinal products for specialty markets.

- The District will work directly with WDFW Estuary and Salmon Restoration Program (ESRP) to develop a draft and final Agroforestry Project Plan and provide copies of each to Snohomish County. Snohomish County may advise on the plan contents as appropriate or if requested by WDFW.
- The District will work with NOAA, Tulalip Tribes, and other South Whidbey partners as applicable, agricultural lessees, and property owners involved in the agroforestry work to develop public workshops and learning or engagement opportunities.

<b>Deliverable</b>	<b>Deliverable Description</b>	<b>Due to WDFW and County</b>
2.1	Draft Agroforestry Restoration Program Plan	6/10/2024

## TASK 3: SWANS TRAIL SLOUGH

---

The Swans Trail Slough Multi-benefit Project is located in the Snohomish Estuary adjacent to Chinook Marsh. The District is working with Drainage Improvement District 13 (a 580-acre agricultural District with over 400 acres of prime commercial farmland) to implement off-channel habitat restoration to increase habitat availability and quality for juvenile salmon and increase agricultural resilience to climate change. The project is located along Swans Trail Slough, a natural drainage/distributary slough to the Snohomish River. If the current preferred alternative is constructed (Alternative 2 in the Conceptual Design Report 2021), this project will implement 1.3 miles of channel length and between 10 and 35 acres of tidal wetland/slough habitat restoration.

The District will perform the following work to advance the project under this Agreement:

INTERLOCAL AGREEMENT BETWEEN SNOHOMISH COUNTY AND  
SNOHOMISH CONSERVATION DISTRICT FOR THE SKYKOMISH RIPARIAN  
AGROFORESTRY FEASIBILITY, SWANS TRAIL SLOUGH, AND COMMUNITY  
ENGAGEMENT, OUTREACH AND EDUCATION PROJECTS IN THE STILLAGUAMISH  
BASIN

- Development and completion of final designs based on the preliminary design products for the Preferred Alternative (Alternative 2 in the Conceptual Design Report 2021).
- Continue stakeholder and landowner engagement.
- Coordinate with Snohomish County on any public hearings, public workshops, or other community/public engagement initiatives that may occur related to the Chinook Marsh restoration project.
- Develop permit applications and obtain all necessary permits and approvals for any early action construction activities identified through the preliminary and final design phases.

- The District will work directly with WDFW ESRP to develop a draft and final Outreach Plan and provide copies of each to Snohomish County. Snohomish County may advise on the plan contents as appropriate or if requested by WDFW.
- The District will provide, either directly or through a consultant, facilitation support, technical advice coordination, and multi-partner strategic communication and capacity planning services to the Stillaguamish Basin Integration/Implementation Team (IT).
- The District (or consultant) will work with the Snohomish Basin IT (or their consultant) to coordinate a minimum of three (3) “Disappearing Task Groups” (DTG):
  - At least two (2) DTGs focused on the Swans Trail Slough restoration project; and
