Dear Mr. Phillips,

Below is a Scope of Work for review of site plans and reports submitted by applicants for land development permit applications. The purpose of the review is to determine the applicant's compliance with the Snohomish County Code, Snohomish County Drainage Manual and the Engineering Design and Development Standards, which is required before a land development permit may be issued. The COUNTY will provide the stormwater site plans, drainage reports, final traffic memo, hearing examiner decision, traffic review checklist and any other relevant application materials in Bluebeam Revu 20 format to the CONSULTANT. The CONSULTANT will review the materials and will provide mark ups and review comments to COUNTY which could then be transmitted to the applicant.
