5. PROJECT/SITE DESCRIPTION:

Please provide a summary paragraph describing the proposed project and how the site will be used. The paragraph should describe the intent of the acquisition and, as appropriate, significant or unique site characteristics, significant or unique site history, relationships to other properties and/or any other unique or special considerations associated with the proposal. Attach graphics illustrating the project including, at a minimum, an aerial photograph (indicating property boundaries) and vicinity map for the property. If the proposed acquisition adds to an existing site, please show the relationship to existing site.

Summary:

This property will be added to the acreage of Flowing Lake Park to expand the recreational opportunities at this destination regional park. The varied topography and open grassy areas open up some great opportunities for expanding hiking trails, new and mountain and lake views and a variety of recreational pursuits.

General Description:

The property was once selectively cleared for a private golf course but stands of mature native evergreens remain interspersed throughout the grassy open areas once used as golf fairways. The large evergreen trees are predominantly Douglas Fir and Western Red Cedar. There are several small ponds and seasonal streams that add to the picturesque quality of this landscape. The original clubhouse and shop are occupied by the owner and his extended family. The reserved Life Estate will allow occupancy to continue for the duration of Mr. Laz' lifetime, preserving the opportunity for public access after his passing.

Vegetation:

This property is grassy, pasture-like open space with groupings of predominantly native second growth evergreen trees. There is also a mix of native deciduous trees and

some deciduous understory plants. The grass areas used to be golf fairways but have not been mowed as such for many years. Currently the owner has cattle on the property.

Threatened & Endangered Species:

There are no known threatened or endangered species on this property. There are wetland areas mostly comprised of small ornamental ponds.

Topography:

The property has level, rolling--gradually slopes to a ridgeline that takes advantage of the elevation to provide scenic views and pastoral setting. The ridge levels out to the east toward Storm Lake road.

Most of the site generally slopes toward the west and Flowing Lake. The majority of the site slopes gently with some spectacular high ground meadows.

Surrounding Land Uses:

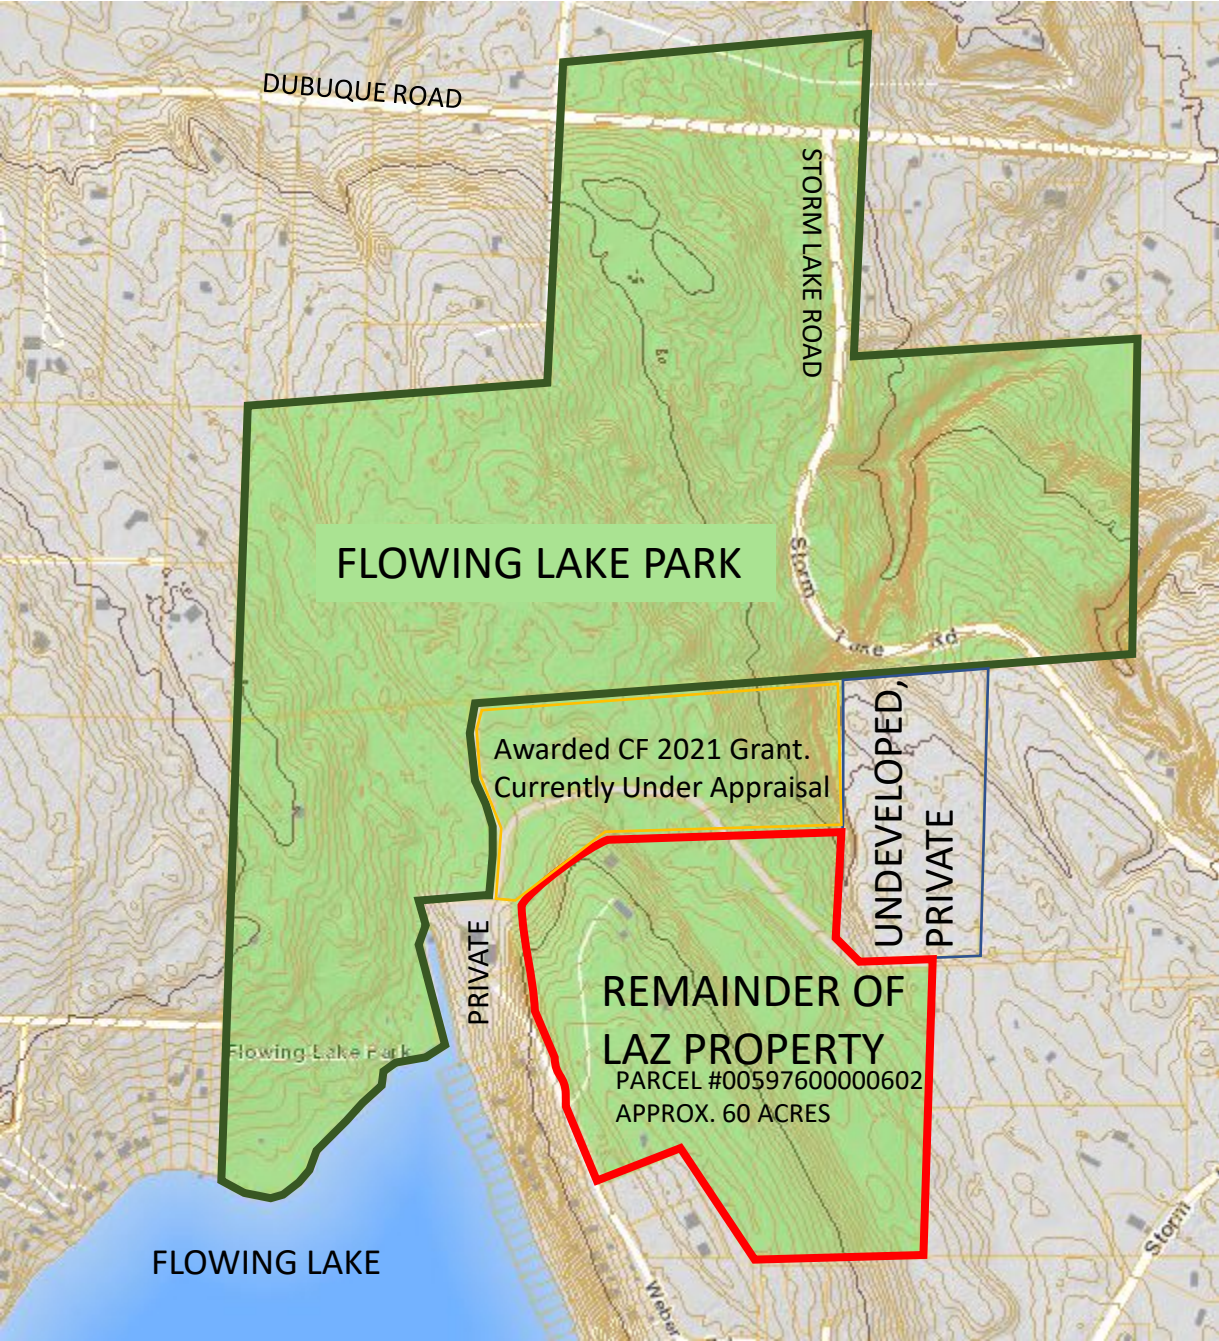

This property is bordered on the west and north property lines by Flowing Lake County Park. The seller will retain a life estate, that will delay development for future public access until the end of Mr. Laz lifetime on the property. The lakefront properties and adjacent land to the south have all been developed as private residential lots..

Relationship to Other Parks & Trails:

The great appeal to purchasing this property is that it adjoins Flowing Lake Park, including 20+ acres currently funded in 2021 for adding to Flowing Lake Park. Flowing Lake Park with its newly renovated entrance, contains trails, camping, waterfront activities, boat launch and a fishing dock.

Site History:

As mentioned, the waterfront property was originally owned by the Laz family, along with the adjacent acreage that is now developed residences. The property was developed as a golf course, which ceased operations in 2009. The owner maintains the grounds by grazing cattle.

6. PROJECT STEWARDSHIP AND RESPONSIBILITY:

Long-term maintenance of the site is a requirement for funding consideration. Please describe to what degree the sponsoring agency and/or long-term property manager is prepared to provide long-term stewardship (maintenance, management, etc.) for the proposed project site. Detail existing programs or plans that may apply to the site. In addition, please describe if there is the potential for future private business use on the site.

The Snohomish County Department of Parks & Recreation (Parks) currently stewards approximately 12,000 acres of land throughout the County. The Department was officially formed in 1963 and prior to that, park lands were acquired and managed through various departments. Earliest park acquisitions managed by the County date back to 1909 and demonstrate the commitment of Snohomish County to maintain and steward public property.

Parks has three divisions, Planning, Maintenance and Operations, all of which are dedicated to different aspects of land management. Parks' staff includes professional Landscape Architects, a Soil Scientist, a Real Estate Administrator, Arborists, Certified Erosion and Sediment Control Leads, an Engineer, an Archaeologist, landscape specialists, specially commissioned Rangers and maintenance specialists, all engaged in the development and implementation of sound stewardship practices. All Parks managed properties are regularly monitored and maintained at a level appropriate for the individual site.

Specific plans for the proposed acquisition have not yet been developed and will be based upon a public process to identify property priorities, while adhering to the intent of the Conservation Futures program and site restrictions.

Snohomish County Parks strives to generate revenue to help support the Parks system and public/private partnerships are sometimes used as a means of increasing operational sustainability. No specific private business use is planned for the proposed acquisition but may be considered if a suitable partnership were identified that met the intent of the property and acquisition funding.

7. PROJECT COST (Cost Worksheet):

Please provide a summary of project cost, utilizing the following Cost Worksheet. Indicate on the worksheet any matching funding and/or donation value provided by the project sponsor and total request for funding from the Conservation Futures program, both as a total value and as a percentage of the total project cost. Estimated total land acquisition costs must be derived from one or more of the following sources and include supporting documentation:

1. Independent appraisal*
2. Opinion of value from a qualified representative of the real estate industry
3. Valuation from recent Snohomish County property tax assessment

Describe the basis for estimate for land and improvements (1 through 3 listed above):

The estimate of value for this property has been established by a qualified real estate professional.

SECTION IV – PROJECT REVIEW CRITERIA

PROJECT REVIEW CRITERIA: Snohomish County Code Section [4.14.100 \(2\)](#) and [4.14.100 \(3\)](#) establishes baseline criteria with which projects are to be evaluated. Please respond to all the questions below, explaining which of the following criteria the proposed project addresses and how the criteria are addressed. Provide justification for responses, attaching documentation (e.g. WDFW maps) as appropriate.

NOTE: Each project criteria in the application is referenced to a corresponding evaluation guideline in Attachment 2.

1. To what degree does the acquired property preserve open space, farm and agricultural land and timberlands?

Purchasing this property will protect it from being developed into a single-family housing development and the land will be included with Flowing Lake Park and preserved as open space. The most likely development scenario would be as a rural cluster development as seen on the adjacent properties that have been developed. The rural cluster rules are being revised to favor these types of rural developments that permit ½-1 ½ acre single family developments zoned R-5. See map that illustrates this point. Protecting this legacy property from residential development is the primary motivation for the owner to sell to Snohomish County. Mr. Laz has received multiple inquiries from developers looking to purchase his land to build single-family homes. However, Mr. Laz believes the best outcome for the property is to add it to Flowing Lake Park.

2. How does the project conserve opportunities which are otherwise threatened by development?

This property was used as a private golf course that opened in 1994. The owners closed the course in 2008 after they decided that operating it as a golf course was no longer economically feasible. In December 2021 Snohomish County Council, on recommendation from the Conservation Futures Board, funded a partial acquisition of 20+ acres of the Laz 80.66 acre property in order to keep Mr. Laz from selling to a developer, with the hope of eventually acquiring the remaining 59.64 acres. This acquisition is underway, and Mr. Laz is willing to sell the remaining property now, reserving a Life Estate to ensure that the property becomes a future addition to Flowing Lake Park. The remaining acreage has the best views of the Cascades, the former clubhouse and shop, which are occupied by Mr. Laz and his extended family.

Once completed. This destination Park will include 300 acres of waterfront, timberland, and rolling view pastureland suitable for camping, hiking, trails within a pristine location preserved with future generations in mind.

3. How does the project establish trail corridors and/or natural area linkage?

Acquiring this property will likely increase recreational capacity of Flowing Lake, and expand recreational trail opportunities with the additional 59.64 acres adjacent to Flowing Lake Park. Because the property is maintained as open pasture, the natural linkage to the existing Park is evident. Once added to the Park, hikers will naturally gravitate to the high, open ground graced with mature evergreens to enjoy spectacular views of the Cascade Mountain range and Flowing Lake.

4. How does the project comprise a portion of a continuum of projects which collectively implement a complete project or objective?

This property is a valuable addition to the Flowing Lake Park. The north 157 acres was purchased with Conservation Futures funds in 2014 so this acquisition comprises a continuation of Conservation Futures investment in Flowing Lake Park.

The proposed acquisition supports several County identified long-term priorities, which are contained within Snohomish County's Comprehensive Plan and which together represent the plan for Snohomish County through 2035. The Snohomish County Comprehensive Plan is updated every eight years and identifies specific tools to achieve the long-term vision for the County. The Comprehensive Plan is developed through an extensive public process including

public meetings, solicitation of input via websites, Planning Commission review and final adoption by the Snohomish County Council.

The Comprehensive Plan consists of several documents and two of them are directly related to the proposed acquisition. These documents are the Snohomish County Park and Recreation Element and the Snohomish County General Policy Plan. These two documents address how acquisition of this type of property helps to realize the long-range vision that has been developed for Snohomish County. Specific points included in these two documents, which the proposed acquisition addresses are:

- *Provide open space and natural areas with appropriate public access to promote understanding and support of the natural environment and the benefits these lands provide. (Snohomish County General Policy Plan, Goal PR 5)*
- *Identify and protect open space, natural and scenic resources and shoreline areas. (Snohomish County General Policy Plan, Goal LU 10)*
- *Provide new recreation amenities to serve the County's growing population by continuing to meet level-of-service standards. (Snohomish County Park and Recreation Element, Recommended Park Improvements)*

Level of Service Identified Improvements:

- *Make additional improvements to existing parks to serve needs associated with growth, when appropriate (Snohomish County Park and Recreation Element, Recommended Park Improvements – Additional park improvements)*
- *Provide park-based trail access. (Snohomish County Park and Recreation Element, Recommended Park Improvements – Trails)*

5. How does the project enhance or complement an ongoing conservation or preservation program?

The proposed acquisition will ensure that this property is held in perpetuity as open space and for public benefit, as described in RCW 84.34.200. This acquisition meets the intent of the Conservation Futures Program by protecting "...open areas and spaces of varied size and character... having significant recreational, social, scenic, or esthetic values." (Portion of RCW 84.34.200).

The proposed acquisition will be managed as a part of the Snohomish County Parks' open space program as outlined in the Snohomish County Park and Recreation Element and Snohomish County General Policy Plan. These two documents are developed and adopted as part of the County's larger Growth Management Act Comprehensive Plan and included extensive public input and review as part of the adoption process. The proposed project will provide needed recreation and open space to County residents and further the goals, policies, objectives and priorities of these documents.

6. Will the project provide regional or community-wide significance?

The proposed project has regional significance. By adding the prime 59.64 acres to Flowing Lake Park, it becomes one of the larger Regional County Parks in the area and expands the recreational opportunities for park visitors.

7. How does the project comply with one or more open space program policies and criteria?

As noted previously, the proposed acquisition complies with several County policies and criteria related to open space:

- *Provide open space and natural areas with appropriate public access to promote understanding and support of the natural environment and the benefits these lands provide. (Snohomish County General Policy Plan, Goal PR 5)*
- *Identify and protect open space, natural and scenic resources and shoreline areas. (Snohomish County General Policy Plan, Goal LU 10)*

The Snohomish County General Policy Plan, Goal LU 10, provides further direction, related to specific types of properties that should be protected as open space and the following Objective and Policies are met by the proposed acquisition:

Objective LU 10.A Identify and preserve an integrated open space network

Policy LU 10.A.1 The county shall consider the following features for inclusion in an open space system:

(a) natural or scenic resource areas;

(b) water supply protection areas (public watersheds) and natural drainage easements;

(c) urban and rural landscaped areas, such as public or private golf courses, public or private school yards, cemeteries, active parks and arboretums;

(d) public and private low intensity park and recreation sites such as wildlife preserves, nature reservations, sanctuaries, or hiking, equestrian and biking trails;

(j) lands that link existing open space and recreation areas;

8. How does the project provide multi-jurisdictional benefit?

Flowing Lake is a destination Regional Park. The addition 80.66 acres to the existing park, including the 20+ acres funded in 2021 adds additional options and capacity for the increasing urban population within a half hour drive from major population centers.

9. How will the project provide for public use and enjoyment?

The 80.66 acres was developed as a golf course, currently grazed by cattle to keep the pastures open. The property is spectacular with many mature conifers, several small ponds, high ground with open grassy meadows. Visitors will enjoy hiking through the property, picnicking, and enjoying other developed features that are yet to be planned for the future. Securing this prime property in its current state for future generations will be something we look back on and breathe a sigh of relief that someone had the vision to set it aside for the public to enjoy.

10. Does this project represent a unique or special opportunity?

The unique features of this property are the high ground vistas, mature stands of native conifers, and the opportunity to add substantial pristine open space to an existing destination Park. Additionally, this Regional Park is just a stone's throw from our rapidly urbanizing communities clamoring for recreational opportunities. As it gets more and more congested to drive long distances for recreational opportunities, these suburban regional Parks become more and more vital to the well-being of the residents that we serve. Mr. Laz has stewarded this property with the dream of keeping it from private development. His words, "This property should be added to the Park!"

RE: Voluntary Acquisition Notice

Dear Stanley Laz,

Per your request to sell your property to Snohomish County ("County") for Park purposes, the County may consider applying for a Conservation Futures grant for that purpose. The County would like to acquire the property identified as 5001 Weber Road, Snohomish, Tax Account No. 00597600000602 if a satisfactory agreement can be reached. At this time, you have offered to sell fee title to a portion of the property, and a conservation easement on the remainder. We may negotiate a different acquisition configuration until we have reached an agreement on price and terms for the purchase of the property.

Because state or federal money may be used as match in the future to develop or expand the future Park, we are required to let you know that the sale is voluntary. If you do not wish to sell, we will not acquire your property. The County cannot acquire your property by condemnation (i.e., through powers of eminent domain). Because the purchase would be voluntary, you would not be eligible for relocation payments or other relocation assistance under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 or the state Real Property Acquisition Policy (Chapter 8.26 Revised Code of Washington) or any other law or regulation. However, any tenants that are eligible displaced people located on the property will be offered relocation assistance.

Again, please understand that if you do not wish to sell your property, we will take no further action to acquire it. If you are willing to sell all or a portion of the property, the purchase price will be established by a Fair Market Value independent appraisal and review. If you have any questions, please contact me at 425-388-6623.

Please fill in the appropriate areas on the Property Owner Acknowledgement and return this form to Kye Iris at Snohomish County Parks and Recreation, 6705 Puget Park Drive, Snohomish WA 98296.
