Subject: RE: BRB File #2025-06 Snohomish - North Lake Annexation - please provide your Departments comments by October 30, 2025

Eileen,

Thank you for the opportunity to comment on the City of Snohomish proposed North Lake Annexation, BRB No. 2025-06. In summary, moderate revenue impacts are anticipated. SWM program areas and functions would adjust to the annexation and decreased revenues. Using the comments checklist as a framework for response:

1b. Applicable interlocal or service agreements entered into under RCW 36.115 or RCW 39.34 between a county and cities.

Comments:

There is an existing 2003 Master Annexation ILA (AFN 200304070094). The City and County have executed an Annexation ILA for the proposed North Lake Annexation, which in Sections 4.8, 4.9, 4.10 of the Annexation ILA, provides satisfactory updating amendments to the Surface Water Management provisions in the Master Annexation ILA Section 9.

1g. Location of present / planned future community facilities.

Comments:

There are no projects currently on the 6-year CIP list in the annexation area.

2c. Present cost and adequacy of governmental services and controls.

Comments:

The proposed annexation would moderately reduce SWM service area and would have moderate impact on programs. Program service area and functions would adjust to the annexation.

2e. Probable effect of proposal or alternative on cost and adequacy of services and controls in area and adjacent area.

Comments:

Moderate revenue impact is anticipated. Current revenue (2025) is about \$18,578 annually, and projections of future revenue impact, assuming 2.8% annual increases, in 2026 would be \$19,098, and in 2027 would be \$19,632.

If you have any questions, please let us know.

Thanks again,
Arthur
