Hello,

Attached is my written public comment regarding the Soundview Drive NW right of way and public parking. If possible, please share this with the Council and include it in the record for today's 9:00 a.m. meeting.

Thank you,
K'allen Specht

December 10th, 2025
Snohomish County Council meeting
Oral remarks

Good morning. I am here today to place a single request on the record.

County records indicate that there is no legal parking along Soundview Drive south of 188th, based on the assertion that there is no room. However, the platted right-of-way is 50 feet wide while the paved portion is approximately 20 feet wide. At the same time, private individuals appear to be using areas on both sides of the 20-foot pavement for parking.

My request is that the County take steps to restore the public's ability to access the full width of the Soundview Drive right-of-way. The GIS layer on the SCOPi map shows private development extending to the edge of the paved portion, preventing the public from accessing the remaining right-of-way.

If the County is unsure of the location or extent of the remaining 30 feet of right-of-way, I respectfully ask that it carry out its duty to survey and be responsible for the full platted 50-foot width. The current situation creates the perception that only part of the right-of-way is opened and maintained, while the remainder is being used exclusively for private purposes.

I would appreciate a formal response within the next 14 days so that I can understand the appropriate next steps.

Thank you.
