Subject: Dissolving the Lochsloy Pilchuck Flood Control District.

Scope: The proposed Ordinance 25-018 will dissolve the Lochsloy Pilchuck Flood Control District, as it meets the requirements under RCW 36.96.010 for being considered inactive.

Duration: NA

Fiscal Impact: Current Year Multi-Year N/A

Authority Granted: The County Council adopts the recitals as findings of fact and conclusions as set forth in Ordinance 25-018, under RCW 36.96 and dissolved the Lochsloy Pilchuck Flood Control District under RCW 36.96.040.

Background: The Lochsloy Pilchuck Flood Control District was first created in 2016, with all initial commissioners appointed by Council at that time. No elections have been held in the preceding years, nor has the district carried out any of the purposes or functions for which it was formed (meets requirements/conditions for being considered inactive under RCW 36.96.010).

The district commissioners have declined to propose any improvements or levy assessments, due to the estimated costs of the proposed improvements and the inability to obtain necessary permits for the improvements. The district has no known assets.

Stormwater Management has mailed letters to all commissioners and district residents requesting feedback or concerns about dissolving the district, with no response.

Action Requested: For Council to set time and date for a Public Hearing, with the suggested date and time of April 16th, 2025, at 10:30 am.
