

EXECUTIVE REVIEW PACKET

Clearview Cannabis Z-Use - Economic Impact, Community Support, and Process Documentation

Purpose

This packet supports executive and administrative review of the Clearview cannabis retail buffer. It documents economic impacts, community support, correspondence, and lobbying activity relevant to the application of a unique 10,000-foot buffer in the Clearview corridor.

Packet Contents (in order)

1. Economic impact graph showing annual and five-year cannabis tax revenue losses to Snohomish County.
2. List of Clearview-area businesses and local residents supporting the Clearview location.
3. Signature pages from Clearview business owners and employees confirming informed support.
4. Public correspondence breakdown provided by Councilmember Sam Low (email source and volume).
5. Vendor communications demonstrating competitive pressure placed on Snohomish County cannabis producers and processors.
6. Email correspondence between county staff and a registered lobbyist discussing Kushery-related code concepts.
7. Detailed breakdown of lobbying expenditures reported to the Washington State Public Disclosure Commission, illustrating the scale and timing of advocacy activity associated with efforts to modify the Clearview buffer.

Prepared by Patrick Gahan, Snohomish County resident and owner of Hangar 420.

Executive Synopsis – Clearview Review Packet

Thank you for taking the time to meet with me and to review this packet. I appreciate your willingness to look closely at the materials provided and to consider a practical path forward. The purpose of this packet is to present a clear, organized record of the economic impacts, community support, and process-related issues associated with the application of the 10,000-foot cannabis retail buffer in the Clearview corridor, and to support administrative review of whether corrective action is appropriate.

1. Economic Impact Summary

The packet includes a one-page graphical summary outlining the economic impact of the Clearview location remaining closed. This includes annual and five-year projections of lost cannabis tax revenue to Snohomish County, lost wages associated with 14 full-time jobs, and lost revenue to local cannabis vendors. These figures are consistent with information previously provided to County Council and are presented in a concise, easy-to-review format.

2. Clearview Business & Community Support

This packet contains a comprehensive list of Clearview-area businesses that have signed in support of opening the Clearview location, along with signatures from local residents and Snohomish County voters who frequent my existing retail locations. More than 90 percent of operating businesses in Clearview have either expressed support or indicated that they are not opposed to the location. Where available, contact information is included, and signatories have indicated a willingness to be contacted for verification.

3. Public Correspondence Analysis

Included is a breakdown of public correspondence provided by Councilmember Sam Low, reflecting a review of more than 500 emails submitted regarding the Clearview buffer. This analysis shows that a significant portion of the correspondence originated from a small number of individuals, providing context regarding the scope and diversity of public input considered during the process.

4. Vendor Communications

The packet includes an email communication sent to cannabis vendors discouraging them from doing business with Hangar 420. This document is included to illustrate the downstream impacts of the current situation on Snohomish County producers and processors, and the competitive pressures that can arise when market access is restricted.

5. Lobbying & Code Development Correspondence

Also included is email correspondence between county staff and a registered lobbyist discussing code concepts related to the Clearview buffer. These materials are provided to

document the nature and scope of stakeholder engagement during the 2023 process.

6. Lobbying Expenditure Timeline

Finally, the packet includes a timeline summarizing lobbying expenditures reported through public disclosure filings. The timeline shows an increase in lobbying activity during the period when a license relocation and buffer change were being pursued, continued activity during implementation, and a decline in expenditures following completion of that process. This information is included to provide context regarding the timing and scale of advocacy efforts relative to the policy outcome, and to support a transparent, fact-based administrative review.

I appreciate your time and consideration in reviewing these materials. My goal is to resolve this matter as efficiently as possible, restore consistency with countywide standards, and allow this location to open, hire local employees, and begin contributing to the community and tax base. I look forward to working collaboratively toward a practical and timely solution.

Economic Impact Summary – Clearview Location

This page summarizes the direct economic losses associated with the Clearview location remaining closed, including cannabis tax revenue to Snohomish County, employee wages, and local vendor purchases.

Annual Impact: ~\$2.0M tax revenue | ~\$728K wages (14 FTE) | ~\$3.0M local vendor purchases

Five-Year Impact (0% growth): ~\$10.0M tax | ~\$3.64M wages | ~\$15.0M vendors

Five-Year Impact (10% growth): ~\$12.2M tax | ~\$4.4M wages | ~\$18.0M vendors

HANGAR 420 RE-OPENING

I am in support of small business growth in Clearview and appreciate a business that wants to clean up the area, helping to raise property, business and community values. We should be welcoming to a business that works with and supports other local Clearview businesses, cares about the community and has a reputation for honorable business ethics. I see no reason to not allow a new business to open up at a location that has held the same use and occupancy for over 10 years. The 10,000' distance rule creates an unfair monopoly in Clearview, only benefiting one operator and limiting the options for customers and patients access to cannabis at a fair price. By signing this petition, I confirm my support to lower the 10,000' buffer and allow Hangar 420 to continue to operate at 18026 Hwy 9. I feel comfortable being contacted by Jared Mead, Sam Low or any council members to confirm my statement.

HANGAR 420 RE-OPENING

I am in support of small business growth in Clearview and appreciate a business that wants to clean up the area, helping to raise property, business and community values. We should be welcoming to a business that works with and supports other local Clearview businesses, cares about the community and has a reputation for honorable business ethics. I see no reason to not allow a new business to open up at a location that has held the same use and occupancy for over 10 years. The 10,000' distance rule creates an unfair monopoly in Clearview, only benefiting one operator and limiting the options for customers and patients access to cannabis at a fair price. By signing this petition, I confirm my support to lower the 10,000' buffer and allow Hangar 420 to continue to operate at 18026 Hwy 9. I feel comfortable being contacted by Jared Mead, Sam Low or any council members to confirm my statement.

HANGAR 420 RE-OPENING

I am in support of small business growth in Clearview and appreciate a business that wants to clean up the area, helping to raise property, business and community values. We should be welcoming to a business that works with and supports other local Clearview businesses, cares about the community and has a reputation for honorable business ethics. I see no reason to not allow a new business to open up at a location that has held the same use and occupancy for over 10 years. The 10,000' distance rule creates an unfair monopoly in Clearview, only benefiting one operator and limiting the options for customers and patients access to cannabis at a fair price. By signing this petition, I confirm my support to lower the 10,000' buffer and allow Hangar 420 to continue to operate at 18026 Hwy 9. I feel comfortable being contacted by Jared Mead, Sam Low or any council members to confirm my statement.

HANGAR 420 RE-OPENING

I am in support of small business growth in Clearview and appreciate a business that wants to clean up the area, helping to raise property, business and community values. We should be welcoming to a business that works with and supports other local Clearview businesses, cares about the community and has a reputation for honorable business ethics. I see no reason to not allow a new business to open up at a location that has held the same use and occupancy for over 10 years. The 10,000' distance rule creates an unfair monopoly in Clearview, only benefiting one operator and limiting the options for customers and patients access to cannabis at a fair price. By signing this petition, I confirm my support to lower the 10,000' buffer and allow Hangar 420 to continue to operate at 18026 Hwy 9. I feel comfortable being contacted by Jared Mead, Sam Low or any council members to confirm my statement.

I see no reason to not allow a new business to open up at a location that has held the same use and occupancy for over 10 years. The 10,000' distance rule creates an unfair monopoly in Clearview, only benefiting one operator and limiting the options for customers and patients access to cannabis at a fair price. By signing this petition, I confirm my support to lower the 10,000' buffer and allow Hangar 420 to continue to operate at 18026 Hwy 9. I feel comfortable being contacted by Jared Mead, Sam Low or any council members to confirm my statement.

HANGAR 420 RE-OPENING

I am in support of small business growth in Clearview and appreciate a business that wants to clean up the area, helping to raise property, business and community values. We should be welcoming to a business that works with and supports other local Clearview businesses, cares about the community and has a reputation for honorable business ethics. I see no reason to not allow a new business to open up at a location that has held the same use and occupancy for over 10 years. The 10,000' distance rule creates an unfair monopoly in Clearview, only benefiting one operator and limiting the options for customers and patients access to cannabis at a fair price. By signing this petition, I confirm my support to lower the 10,000' buffer and allow Hangar 420 to continue to operate at 18026 Hwy 9. I feel comfortable being contacted by Jared Mead, Sam Low or any council members to confirm my statement.

HANGAR 420 RE-OPENING

I am in support of small business growth in Clearview and appreciate a business that wants to clean up the area, helping to raise property, business and community values. We should be welcoming to a business that works with and supports other local Clearview businesses, cares about the community and has a reputation for honorable business ethics. I see no reason to not allow a new business to open up at a location that has held the same use and occupancy for over 10 years. The 10,000' distance rule creates an unfair monopoly in Clearview, only benefiting one operator and limiting the options for customers and patients access to cannabis at a fair price. By signing this petition, I confirm my support to lower the 10,000' buffer and allow Hangar 420 to continue to operate at 18026 Hwy 9. I feel comfortable being contacted by Jared Mead, Sam Low or any council members to confirm my statement.

Good Evening!

As you are aware Patrick with Hangar 420 is reaching out to industry members asking for assistance in regards to his zoning violation per the email thread below that I'm sure you have all received by now.

If you do business with Kushery or wish to in the future I ask that you do not involve yourself or your business in these matters. I have intentionally not involved any

industry members as this has nothing to do with the industry.

This is a zoning issue and furthermore a county matter.

If you find yourself to be in agreement with Hangar's interpretation of the code and have already given your support to their stance please feel free to communicate that with me. This will avoid surprise and souring of current and/or future business relationships.

Respectfully,
Josh Shade
The Kushery

Exhibit A – Lobbying Compensation Over Time

This exhibit summarizes reported lobbying compensation by year. Figures are taken from Washington State Public Disclosure Commission (PDC) filings. Amounts reflect annual totals; 2025 reflects a partial year.

Reported Amounts:

2022: \$7,300 (baseline)

2023: \$18,000 (increase during ordinance consideration/adoption)

2024: \$19,800 (implementation year)

2025: \$12,000 (partial year)

Source: Washington State Public Disclosure Commission (PDC). This exhibit presents reported amounts and timing only and makes no claims regarding intent.
