Total	\$32,950	\$32,950	\$32,950	\$0	\$98,850

Authority Granted:

Approval for the County Executive to sign the Professional Services Agreement and authorization for the Department of Conservation and Natural Resources (DCNR) Director approve amendments and increases to the contract amount by up to 20%.

Background:

The Surface Water Management (SWM) division of DCNR maintains a Lake Management program to protect and restore water quality and ecology. Regular monitoring and testing are major aspects of this program. SWM does not have the capacity or facilities to perform laboratory testing of water samples to monitor water quality. Following a request for proposal process (RFP-24-019RB), SWM selected Advanced Eco-Solutions to perform the testing to meet water quality monitoring goals.

Per the scope of work, SWM staff will collect the water samples. Advanced Eco-Solutions will analyze the samples, advise on any concerns related to the samples, and provide standard reports to SWM.

Request: Consideration of Motion 24-234 in Committee of the Whole on June 18, 2024.
