STATEMENT OF WORK

Public Health Seattle & King County Warehouse Providing Medication Services for Snohomish County

Introduction: Snohomish County (Agency) desires to have Contractor act as their pharmacy provider. The Contractor will complete activities as outlined in this scope of work to accomplish the following goals: 1) Support Agency to secure medications for their client purposes. 2) Aid Agency in controlling their pharmaceutical expenses by acting as the designated 340B pharmacy for Agency. 3) Utilize all other contract pricing that is available to Agency.

I. Tasks: The following tasks will be performed to produce associated deliverables to achieve the above stated goals.

A. Licensing:

Deliverable: The Contractor will assure that they maintain the appropriate licensure to prepackage medications

B. 340 B Contract:

Deliverable: Agency will designate the Contractor's Downtown Pharmacy as **Ship To** Address submitting all appropriate paperwork to HRSA Office of Pharmacy Affairs.

C. Setting up Direct Cost Vendors:

Deliverable: Agency shall establish accounts with vendors and/or contractors and will be directly billed and responsible for paying said Direct costs for the Program. Expected Direct Costs include but are not limited to the following:

- i. Medication Cost: Agency shall set up an account with Cardinal Health and authorize the Contractor to order supplies on their behalf. All supplies and drugs under the account will be billed directly to Agency and shipped to the Contractor. Agency owns and maintains title of covered drugs. The Contractor will compare all shipments received to the orders and inform Agency of any discrepancy within five (5) business days of receipt. The Contractor will order on Agency's behalf, as required, from Cardinal to maintain the program for Agency. Agency will make timely payments to Cardinal Health for items ordered under this paragraph. Any credits for expired drugs for said program shall be directed to Agency Account at Cardinal.
- ii. Shipping Cost: Agency shall set up the Contractor as an extension of their existing account so that all shipping bills related to this project are directly billed and paid by Agency.
- iii. The Contractor will verify the invoices received with the order. They will verify that the drug, quantity and pricing are correct. Pharmacy will sign and date the invoice to indicate it is correct.
- iv. Contractor will mail the invoices, credits and any other materials received from the wholesaler once a week to the designated Agency location for payment.

- v. Agency shall be solely responsible for remitting payment to their Direct Cost Vendors under this Section I. D.
- vi. Packaging Cost: Agency is responsible for any cost for packaging, i.e. bubble packing, which can be ordered through Agency's Cardinal Account.

D. Work Flow: The Contractor along with Agency will establish the work flow associated with running the medication delivery program for Agency to include the following:

Deliverable:

- A) Agency will place orders once per week via fax, unless otherwise directed by the Contractor. Orders will be placed by Agency on a mutually agreed upon day.
- B) Turn around: Orders faxed into pharmacy will be released within 4 business days or within 5 business days for special packaging request (bubble packing); this allows for a Cardinal order to be placed should a medication be required that is not in Agency's current inventory. Shipping will be 2-day delivery unless Agency instructs differently.
- C) Agency inventory shall be stored separate from the Contractor's inventory. Anticipated space required to maintain said inventory is 1 shelving system; approx 4ft wide by 8 ft tall.

II. Costs

Agency shall reimburse Contractor as follows:

Agency will pay a one-time setup fee of \$500 to cover Contractor's costs to set up the agreement. Contractor will fill the first 50 items at no additional charge aside from those identified in section I.C. of the Scope of work. Any items beyond the first 50 shall be assessed an additional service fee of \$10.00 per item. Should bubble packaging be requested then the service fee would be \$14.00 per item and the first 35 items then would be at no additional charge until the \$500 one-time setup fee has been exhausted.

III. Additional Terms and Conditions

1. Agency will verify, using the Contractor's (readily retrievable) customary business records, that a tracking system exists which will ensure that drugs purchased under the 340B Drug program as well as any other drugs purchased on behalf of Agency are used only for Agency. Such records can include: Prescription files, velocity reports, and records of ordering and receipt. These records will be maintained for the period of time required by State law and regulations.
2. Prior to the Contractor providing pharmacy services pursuant to this Agreement, Agency will have the opportunity, upon reasonable notice and during business hours, to examine the tracking system. For example, such a tracking system may include a monthly sample comparison of medications purchased on behalf of Agency to medications filled and shipped to Agency to remaining inventory. The Contractor will permit Agency or its duly authorized representatives to have reasonable access to Contractor's facilities and records during the term of this Agreement in order to make periodic checks regarding the efficacy of such tracking systems. The Contractor agrees to make any and all adjustments to the tracking system which Agency advises are reasonably necessary to prevent diversion of covered drugs to individuals who are not patients of Agency.

3. The Contractor will dispense covered drugs only in the following circumstances: (a) Upon presentation of a prescription bearing Agency's name, and the signature of a legally qualified health care provider affiliated with Agency; or (b) receipt of a prescription or a prescription ordered by telephone or other means of electronic transmission that is permitted by State or local law on behalf of an eligible patient by a legally qualified health care provider affiliated with Agency who states that the prescription is intended for an eligible patient. Agency will furnish a list to the Contractor's pharmacy of all such qualified health care prescribers and will update the list of prescribers to reflect any changes. If the Contractor is found to have violated the drug diversion prohibition, the contract pharmacy will pay Agency the amount of the discount in question so that Agency can reimburse the manufacturer.
4. The Contractor and Agency will adhere to all Federal, State, and local laws and requirements.
5. The parties will develop a system to verify patient eligibility for discounted medications, such as through the 340B Drug Pricing Program and other medication discounting programs, as defined by HRSA guidelines.
