INVENTORY STATEMENT VERIFICATION

I, Al Garcia, hereby declare under penalty of perjury pursuant to the laws of the State of Washington that, upon information and belief, the real and personal property inventory reports for the twelve month period ending December 31, 2021, to which this verification is appended, have been compiled by Snohomish County Property Management in accordance with RCW 36.32.210.

Dated this 7<sup>th</sup> day of January, 2022.

Alvin A. Garcia  
Division Manager, Department of Facilities and Fleet

PERSONAL PROPERTY  
INVENTORY

## **EXHIBIT A**

### **Personal Property Inventory Report For 2021**

Property Management maintains a personal property inventory of County owned capitalized assets as required by SCC 4.46.125 and RCW 36.32.210.

An inventory report is submitted to Council no later than February 15 of each calendar year and filed with the County Auditor on the first Monday in March. The inventory report contains assets owned by Snohomish County as of December 31, 2021 and assets deleted during the year.

The personal property inventory report from Property Management is as current as possible from information provided by all County departments and an annual physical inventory.

To make the County inventory an accountable system, Property Management maintains hard files, a barcode database and the inventory report.

Property Management has divided the inventory into department names, location by building, and floor of building. A barcode tag is assigned to each asset with a value of \$5,000 and over throughout each year and scanned at the end of each year. All barcode assets with a value of \$5,000 and over are included in the personal property inventory.

A personal property delete asset history and surplus sales list includes a description of the items, amount paid, date sold, who purchased, and the reason for disposal. The items are assigned a delete file number. This file number refers back to a file on the sale with additional bid information such as who bid, who was highest bidder, bidder address, and amount bid.

In its annual audit, the State Auditor tracks a random item, purchase order or sale item through the custodial department, Property Management and the Finance Department's system. The State Auditor has found he can track County assets but has recommended that the Finance Department and Property Management develop a computer system that would combine information from both departments with each department able to update its own information.

REAL PROPERTY  
INVENTORY

## **EXHIBIT B**

### **Real Property Inventory Report For 2021**

Property Management maintains an inventory of County owned real property as required by SCC 4.46.161.

An inventory report is submitted to Council no later than February 15 of each calendar year and filed with the County Auditor on the first Monday in March. The inventory report contains real property owned by the County as of December 31, 2021 and any real property sales during the year.

The real property inventory report from Property Management is as current as possible from information provided by all County departments that are the custodians of the County own real property, or from deeds, and purchase and sale agreements received by Property Management, as well as some site visits.

To make the County inventory an accountable system, Property Management maintains hard files, a real property database and the inventory report.

Property Management lists real property by department name, which indicates the department that has custodial ownership of the property. A tax account number is used by all County departments as an identifier of real property.

The acreage indicated of each property is calculated by the Assessor's office or by a survey. The Assessor's office performs tax appraisal every year to place an assessed value on the land and buildings. Property Management uses this assessed value as the estimated value and present value of the property.

The purchase date is taken from the purchase and sale agreement, motion, or deed provided from the custodial department that requested acquisition of the property. Property Management keeps these documents in the file to show the purchase price of the property. In the database, additional costs incurred during the ownership of the property are added to the purchase price to track historical costs. Property Management depends on the custodial departments and the Finance Department, Accounting Division to provide additional cost information. The database has the ability to keep current year costs separate until year-end. The current costs are also sent to Property Management by the custodial department and the Department of Budget and Finance Accounting Division.

Special characteristics such as wetlands, cleared land, timbered, wooded, water frontage and type of access are listed in the database if known. Buildings or other improvements are listed by size and assessed value. The custodial department, the Assessor's Office and site visits provide this information.

Comments: Snohomish County acquired this property on September 21, 2012 and assumed an existing lease as the Lessor and the Lessee is Regional Disposal Company. In addition to the lease rent reflected above the County collects leasehold tax of \$.1284. Since 2015 the Lessee is responsible for the cost of the Riverside Business Park Association Dues charged by the Port of Everett to the lease premises. Tenant has sent their notice to exercise their 10-year option beyond January 15, 2018 which will extend the term through January 15, 2028.

Comments: Adopt-A-Stream exercised its final 10-year option to extend the initial term from 3/23/92 to 3/22/22. The existing Lease Agreement was terminated 6-15-2020 and a new Lease Agreement was executed on 6-16-2020 and expires 6-15-2030 with the ability to be extended for one 10-year term beyond June 15, 2030. In lieu of lease rent tenant constructed at its own expense an environmental education and interpretive center for public accessibility and other complimentary improvements associated with the program. The Lessee will conduct low cost environmental education and interpretive workshops and classes for the public; provide scientific research opportunity for the general public; and continue to partner and promote these public opportunity through and in partnership with the County's Department of Parks, Recreation and Tourism.

---	-------------------------	-----------------	-----------	-----	-----	-------------

11928 Beverly Park Road  
Everett, WA 98203

Comments: There are two, 4-year options to extend the initial lease term beyond March 7, 2029. In addition to the Base Rent shown above the Lessee is required to pay any and all taxes and fees including admission tax, sales tax, surface water management fees, and any and all permits fees required to manage and operate the aerial adventure course and premises. The Lessee is also required to provide a security bond in the amount of \$2,000. Amendment #1 was executed to restructure the monthly amounts and due dates for the monthly amounts. The total annual lease rent will remain the same as defined in the lease agreement. In 2020 the Lessee did not operate in April and May due to the COVID Pandemic. The County used the Force Majeure clause to adjust the fees for those two months.
