Exhibit G SEPA Checklist**STATE ENVIRONMENTAL POLICY ACT****ENVIRONMENTAL CHECKLIST***Purpose of Checklist:*

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions to Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Because these questions are very general, it may be helpful to read them in conjunction with the list of elements of the environment.

When answering these questions, be aware of the extent of the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

An increase in these items may occur based on ultimate land use and densities as designated in the City of Lake Stevens Comprehensive and zoning plans after annexation.

Proposed measure to avoid or reduce such increases are:

Necessary permits to be in compliance with all local, state and federal laws and ordinances.

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

General impacts of urbanization/development of the area.

Proposed measures to protect or conserve plants, animals, fish or marine life are:

Mitigation plans will be provided for project specific impacts.

3. How would the proposal be likely to deplete energy or natural resources?

General impacts of urbanization/development of the area.

Proposed measures to protect or conserve energy and natural resources are:

Any future construction would comply with current Washington State Energy Code.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection: such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Unknown.

Proposed measures to protect such resources or to avoid or reduce impacts are:

Comply with any ordinances, rules, and regulations.

5. How would the proposal be likely to affect land use and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with

IV. Environmental

existing plans?

The proposal would allow land to develop according to the designation of The City of Lake Stevens Comprehensive and Zoning plans.

Proposed measures to avoid or reduce shoreline and land use impacts are:

N/A

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Nominal increase on transportation or public services due to urbanization per the future designation of The City of Lake Stevens Comprehensive and Zoning plans. Project specific applications will be required to provide mitigation.

Proposed measures to reduce or respond to such demand(s) are:

Comply with Snohomish County and City of Lake Stevens development rules and regulations including acceptance of standard mitigation requirements.

7. Identify, if possible, whether the proposal may conflict with local, state or federal laws or requirements for the protection of the environment.

No known conflicts.

VII. Objectives

1. Objectives of RCW 36-93-180

The decisions of the boundary review board shall attempt to achieve the following objectives:

(1) Preservation of natural neighborhoods and communities;

The proposed annexation incorporates an area within the Lake Stevens Urban Growth Area into the Lake Stevens Sewer District. The area is currently adjacent to the boundary of Lake Stevens Sewer District.

(2) Use of physical boundaries, including but not limited to bodies of water, highways, and land contours;

The proposed annexation area is located east of the intersection of 117th Drive SE and 16th Place SE.

(3) Creation and preservation of logical service areas;

The proposed annexation area is currently adjacent to the boundary of Lake Stevens Sewer District. This proposal maintains a logical sewer service area.

(4) Prevention of abnormally irregular boundaries;

The proposed annexation extends the Lake Stevens Sewer District boundary with a rectangular shape and will not create an irregular boundary.

(5) Discouragement of multiple incorporations of small cities and encouragement of incorporation of cities in excess of ten thousand population in heavily populated urban areas;

Not applicable. No new or existing municipal annexation is proposed.

(6) Dissolution of inactive special purpose districts;

Not applicable. The Lake Stevens Sewer District is an active special purpose district.

(7) Adjustment of impractical boundaries;

Not applicable. The Lake Stevens Sewer District has regular boundaries in this area.

(8) Incorporation as cities or towns or annexation to cities or towns of unincorporated areas which are urban in character; and

Not applicable. No new or existing municipal annexation is proposed.

(9) Protection of agricultural and rural lands which are designated for long term productive agricultural and resource use by a comprehensive plan adopted by the county legislative authority.

Not applicable. The proposed annexation area is entirely within the Lake Stevens Urban Growth Area.
