

Petition

We the undersigned residents along 51st Ave SE in unincorporated Everett hereby petition the Snohomish County Council to install traffic calming devices along 51st Ave SE to encourage adherence to the 25-mph speed limit. Traffic calming devices could include a combination of solar-powered speed limit signs, speed humps (less aggressive than speed bumps) and/or traffic roundabouts. Currently vehicles often travel down 51st Ave SE at excessive speed well in excess of 25-mph and often do not observe stop signs causing hazardous conditions for the residents. We would appreciate your quick resolution as this lawlessness has been going on since the road was extended down to Lowell-Larimer Road.
