- a. Begins during the policy period;
- b. Begins at an identified time and place;
- c. Ends, in its entirety, at an identified time within forty-eight (48) hours of the beginning of the discharge, dispersal, release or escape of the "pollutants"; and
- d. Does not originate from an "underground storage tank".

To be a "short-term pollution event", the discharge, dispersal, release or escape of "pollutants" need not be continuous. However, if the discharge, dispersal, release or escape is not continuous, then all discharges, dispersals, releases or escapes of the same "pollutants" from essentially the same source, considered together, must satisfy paragraphs **a.** through **d.** of this definition to be considered a "short-term pollution event".

"Temporary worker" means a person who is furnished to you to substitute for a permanent "employee" on leave or to meet seasonal or short-term workload conditions. A substitute teacher is not a "temporary worker".

"Underground storage tank" means any storage tank, including any attached pumps, valves or piping, buried below the surface of the ground or water, or which, at any time, had been buried under the surface of the ground or water and then subsequently exposed by any means. For the purposes of this definition, buried means that at least 10% of it is below the surface of the ground or water.

"Violation" means any actual or alleged failure to comply with the regulations included in HIPAA.
