- ☒ Commercial Recycling Firm
- I request to be a ☒ voting member ☐ non-voting member
- ☐ Other Business (specify) _____

The Solid Waste Advisory Committee is tasked with providing an exchange of information between the County, municipalities, citizens, and industries in the County. It provides policy recommendations to the County on solid waste and resource recovery issues that reflects both the needs of residents and the most appropriate use of resources within the requirements of various laws and regulations. The Committee also reviews and comments on plans prepared by the Solid Waste Division.

With the goals of this Committee in mind, please explain why you are a qualified candidate to serve on the Solid Waste Advisory Committee. Include why you are interested and relevant personal or professional experience:

I'm interested in serving on the Snohomish County SWAC to contribute my industry knowledge and support sustainable waste and recycling practices in our community. As a Contract Manager with WM, I can offer insights from one of the largest waste haulers in Snohomish County, and help bridge the gap between policy and operations. With my background in solid waste, recycling, and organics management—both in education and hands-on application—I feel confident in my ability to bring a practical and insightful perspective to the board. I'm eager to learn from fellow members and support meaningful progress in our local waste systems.

I have a professional background in solid waste, recycling, and organics management, with experience in both education and practical implementation. I currently serve as a Contract Manager for WM, where I oversee municipal contract waste services and ensure compliance with service agreements. My professional role allows me to bring a valuable hauler perspective to policy discussions informed by operational insights. With three years working for WM and participating in the industry, paired with a strong commitment to sustainable waste practices, I'm well-prepared to contribute thoughtfully while continuing to grow in this new leadership role. Thank you for your consideration.

Attach a resume or additional sheets, as needed
