

SKETCHED MAP SHEET REQUIRED

Please sketch a representative drawing of your property which clearly locates all buildings, sheds, forestlands, wetlands, buffers, roads, trails, etc. An aerial map may be attached, accepted as a replacement for this detailed sketch, as aerial maps may not always reflect on the property.

Snohomish County
Park

Centennial trail

Pasture

Pilchuck River

All the pasture is
considered flood plane
and is non buildable

The blue areas are
susceptible to being
under 6' of water when
it floods multiple times
a year and are wetlands

The green area is
about 1 1/2 acres that
I lost to river washout,
now instead of pasture it is
a gravel bar.
