Authority Granted: Authorizes limited use of the public road rights-of-way to the Northshore Utility District, under RCW 36.55.010, Snohomish County Charter 9.20 and Title 13 of Snohomish County Code.

Background: The District was originally formed in 1947 as the King County Water District No. 79, which operated as a water purveyor until 1979, when it merged with the Northeast Lake Washington Sewer District. After the merger, the district was known as the Northeast Lake Washington Water and Sewer District, until 1992 when the name was changed to the Northshore Utility District.

Most of the service area and facilities are located within King County, with over 22,000 water and sewer service connections. In Snohomish County, the district provides retail service on an interim basis to a small area within the Alderwood Water and Wastewater District corporate boundary near Lockwood Elementary School between the cities of Brier and Bothell.

Snohomish County has previously granted utility franchises to the district in the past, most recently with Ordinance 08-099, which is set to expire on November 16, 2023.

Action Requested: To set time and date for a Public Hearing, suggested date and time of December 13, 2023, at 10:30 am.
