QUARTERLY BUDGET REPORT: MARCH 2023

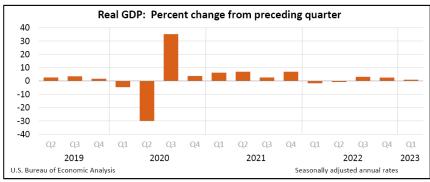

This is the first quarter financial update for 2023 Snohomish County fiscal operations.

COVID Overview

The federal COVID-19 Public Health Emergency (PHE) is scheduled to end on May 11, 2023. The COVID-19 pandemic and resulting social distancing and business shutdowns severely weakened the economy. Economic growth recovered quickly in 2021 and 2022 with the help of fiscal and monetary policy. Strong economic demand fueled by policy responses, combined with ongoing supply issues, caused inflation to spike and remain elevated. The Federal Reserve is attempting to combat inflation by raising rates, although this threatens to slow economic growth. To combat COVID-19 and its secondary economic effects, the County received \$159.6 million from U.S Treasury in the form of the Coronavirus Local Fiscal Recovery (CLFR) American Rescue Plan (ARP) funds. The first of two \$79.8 million tranches of CLFR ARP funds was received in May 2021. The second tranche of \$79.8 million was received in the second quarter of 2022. These funds must be expended or encumbered to projects by the end of 2024.

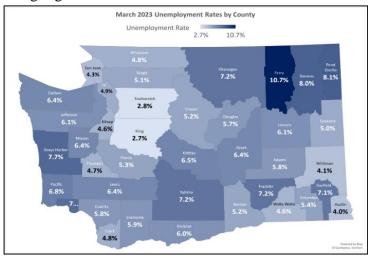

General Economic Overview

Real gross domestic product (GDP) – the net value of the production of goods and services in the United States, adjusted for price changes – increased at an annual rate of 1.1% in the first quarter of 2023, according to the "advance" estimate released by the

Bureau of Economic Analysis on 4/27/23. Q4 2022 was up by 2.6%. Washington's Economic & Revenue Forecast Council (ERFC) forecasted GDP growth for 2023 is now 1.0%, up from 0.2% in the Nov '22 forecast. Future years are forecasted to be 2.0%, 2.0%, and 1.9% for 2025 – 2027, respectively.

Consumer confidence appears to have stabilized somewhat after declining for much of last year. The Conference Board index increased 0.8 points in March although it is down 3.4 since last year. The University of Michigan (UM) consumer sentiment survey decreased by 5.0 points after posting 3 straight gains.

Regarding Washington employment, the ERFC expects a 1.5% increase in Washington employment for 2023 (was 0.9% previously forecasted), and slower growth during the remainder of the forecast as the U.S. economy slows. Growth is expected to average 0.6% per year in 2024 through 2027 (lower than 0.9% previously forecasted).

For Washington state, 2022 closed out the year at 4.2% showing more "normal" activity

in the wake of COVID-19. March 2023 is a little higher at 4.7%.

Snohomish County's March 2023 unemployment rate of 2.8% is a little better than 3.2% last quarter, and better still than March 2022's 2.9%. The County remains in the state's top performers category, 2nd lowest rate behind only King County (see map).

General Fund, Fund Balance

FIGURE 1: GENERAL FUND PROJECTED ENDING BALANCE RECONCILIATION

| Fund Balance Factor | Amount |
|--|-----------------|
| Preliminary Uncommitted ending fund balance 2022 | \$94,551,367 |
| Plus projected 2023 revenue | \$294,773,565 |
| Less projected 2023 expenditures | \$(322,652,438) |
| Plus 2023 anticipated under expenditure | \$4,738,516 |
| Less 2023 planned shift to revenue stabilization fund | \$(1,186,964) |
| Projected 2023 uncommitted fund balance | \$70,224,046 |
| Ratio of uncommitted fund balance to PY revenues | 25.18% |
| | |
| 2022 Revenue Stabilization Fund balance | \$12,039,612 |
| 2023 planned shift to revenue stabilization fund | \$1,186,964 |
| Projected 2023 Revenue Stabilization Fund balance | \$13,226,576 |
| | |
| Proj total 2023 fund balance "uncommitted + rev stabilization" | \$83,450,622 |
| Ratio of fund balance to PY revenues | 29.92% |

The 2022 preliminary uncommitted ending fund balance was \$94.6 million, and the 2022 Revenue Stabilization fund balance was \$12 million. The 2023 adopted budget shifts an additional \$1.2 million to Revenue Stabilization to bring that to a projected \$13.2 million at 12/31/23. The total "uncommitted + revenue stabilization" is projected to be \$83.5 million at 12/31/23.

Note: the 2022 Annual Comprehensive Financial Report (ACFR) is anticipated to show ending fund balance of approximately \$96.7 million due to a non-cash accounting adjustment related to unrealized losses on investments assets. This difference is caused by a material change in market interest rates; however, the County anticipates these unrealized losses will never be realized and do not depict said adjustment on this quarterly report.

Year-to-Date Revenue

Figure 2 on the following page depicts preliminary year-end estimates for 2023 general fund revenue.

Investment interest is projected to be \$4.9 million higher than budgeted due to significant increases in the Federal Funds rate. Sales tax in 2022 was strong, coming in at 7.71% higher than 2021 receipts, even though growth tailed off at the end of the year. The current estimate for 2023 is approximately 4% growth from 2022 actuals, which is \$2.2 million lower than the 2023 budgeted amount. Recording of Legal Instruments is projected to be \$1.2 million lower than budget also due to increased interest rates slowing refinancing activity. Adult Probation costs are projected to be \$650 thousand below budget amounts, and District Court fines and forfeitures are estimated to be \$400 thousand lower than budgeted for 2023.

In aggregate, the 2023 year-end preliminary revenue is estimated to be \$294.8 million, which is \$278 thousand higher than budgeted levels.

Year-to-Date Expenditures

In aggregate, 2023 preliminary general fund expenditures are at 21.0% through the end of first quarter.

2023 Five Year Plan

The five-year plan (see Figure 3) has been updated to include the 2023 preliminary year-end revenue and expenditures, and the 2023 Adopted Budget.

Real Estate Excise Tax

Real estate excise tax (REET) is an important source of revenue and an indicator of the condition of the Snohomish County economy.

2022 REET receipts started the first part of the year strong, continuing the trend from 2021. In June, the monthly year-over-year change turned negative. This continued throughout 2022 due to increasing mortgage interest rates, and the softening of the real estate market.

2023 has been as expected so far, on course to slightly miss \$21 million budgeted revenue. We will continue to monitor the trend closely going forward

FIGURE 4: REAL ESTATE EXCISE TAX REVENUES

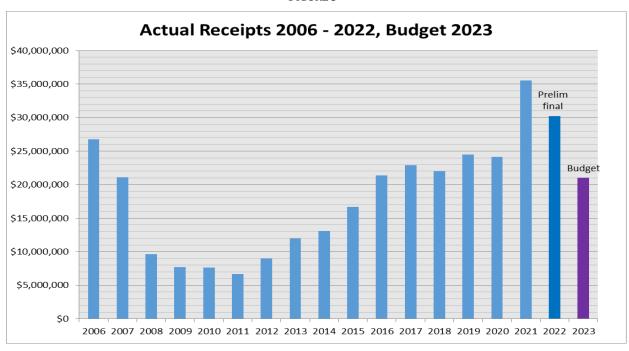

| | 2023 |
|--|--------------|
| Actual Preliminary Receipts - 2023 | \$ 3,913,435 |
| Budgeted Amount for Full Year | 21,000,000 |
| Preliminary Year End Surplus (Shortfall) | (\$ 500,000) |

Washington housing construction is lower than ERFC's November forecast. Permits declined throughout 2022 and averaged 49,300 for the year. ERFC believes the first quarter of this year will be the trough and that permits will recover through the remainder of 2023 and 2024. The forecast expects 38,000 housing units this year (down from 42,800). Permits should average 44,100 units in 2024 through 2027 (down from 46,300 in previous forecast).

Seattle home prices (non-seasonally adjusted), according to the S&P/Case-Shiller Home Price Indices with data through February 2023, show a year-over-year decrease of -9.33%, the biggest decrease since Nov 2009 during the Great Recession. Prices are also down from the prior quarter by -3.48%. Florida again holds the top 2 spots with Miami at 10.8%, and Tampa at 7.7%, and then Atlanta comes in 3rd at 6.6% with the highest year-over-year gains among the 20 cities in February. Seattle comes in at 19th place, just above San Francisco's -10.0%, for home price changes after appearing in the top 3 for much of 2021.

Figure 5 (below) shows REET revenues over the past several years and illustrates the effects of the housing bubble and the Great Recession. As indicated above, the late-2020 recovery carried over into a record-breaking 2021. These significant changes and rapid rise and fall depicted here serve as a reminder of REET volatility.

FIGURE 5

Economic Outlook

<u>Aerospace Industry</u>

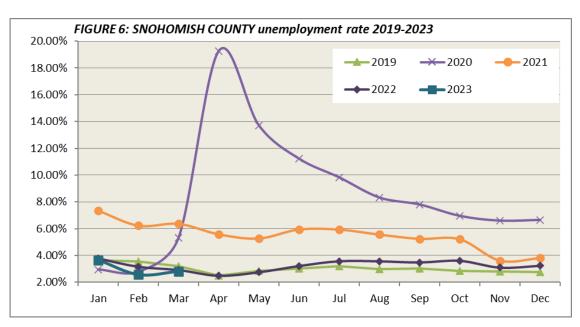

Boeing, a major driver of economic conditions in Snohomish County, reported 2023 Q1 revenue of \$17.9 billion, a 28% increase over Q1 2022's \$14.0 billion, primarily reflecting 130 commercial deliveries. A Q1 2023 net loss of \$425 million was much better than Q1 2022's \$1.24 billion loss. Boeing delivered 130 commercial planes for \$6.7 billion in revenue during the quarter, compared to 95 deliveries for \$4.2 billion during the same period a year earlier. The backlog included over 4,500 airplanes valued at \$334 billion.

After the grounding of the 737 Max and then the pandemic, Washington's aerospace employment declined from 89,600 at end of 2019 to a low of 66,800 in August 2021, a loss of 22,700 jobs. Since August 2021, the industry added back 5,800 jobs, bringing the level to 72,600 in December 2022. On an annual average basis, the ERFC expects aerospace employment to grow 5.9% this year, slowing to 2.9% in 2024, 0.3% in 2025, -0.1% in 2026, and 0.5% in 2027. In March 2023, employment in aerospace manufacturing in the county accounted for 13.5% of all private sector jobs in Snohomish County (12.6% in last quarter). Aerospace product and parts manufacturing jobs increased by 2,200 jobs in the County when compared to March 2022 – the fourth consecutive increase following an 8-quarter streak of decreases since June 2020.

Employment

Estimates in the State's Employment Security Department's Monthly Employment Report from March 2022 through March 2023, on a not seasonally adjusted basis, indicate an increase in employment of 113,400 for the state (private sector +95,900 jobs, public sector +17,500 jobs).

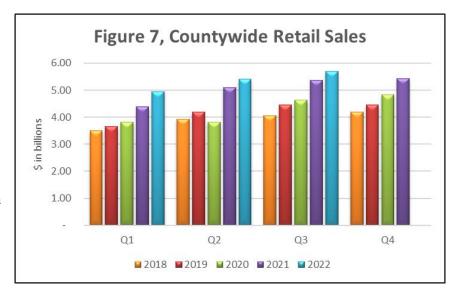

Figure 6 below shows how current employment conditions in Snohomish County compare to preceding years (2019 - 2022). The County's unemployment rate in 2020 spiked up to 19.3% in April before coming all the way back down to 6.7% by December. In March 2023, the rate was 2.8% which improved from December 2022's 3.2% and is also better than 2.9% in March 2022.

County Taxable Retail Sales

Figure 7 (at right) and Figure 8 (on the next page) document County-wide taxable retail sales information provided by the Washington State Department of Revenue (DOR). Taxable retail sales data are a good indicator of economic activity and the financial health of entities that are funded through sales tax. This information is two quarters behind, so the most recent data is from Q3 2022.

years. Except for Q2 2020, quarterly sales have been higher than each preceding year. The atypical decrease in Q2 2020 of -9.4% shows the impact of COVID-19 (second green bar above) but we can see how quickly sales recovered by the very next quarter, Q3 2020 (third green bar).

The information in Figure 8 on the following page details specific areas of business activity within Snohomish County. Q3 of 2022 with \$5.7B in total retail sales (3rd light blue bar above) came in at 6.3% higher than Q3 2022.

In Snohomish County during the quarter, Retail Trade increased year-over-year by 3.7% and continues to be the top industry category in sales dollars (\$2.75B), which is just less than half of all retail sales. The top three sales dollars within the Retail Trade category are in:

- 1) motor vehicles & parts
- 2) sporting goods, hobby, musical instrument, book, misc. retailers *
- 3) miscellaneous retailers

Note in Figure 8, Motor Vehicles & Parts brought in \$743 million representing 13.0%, about 1/8th, of all retail sales in the County, and continues to be the highest ranked category within Retail Trade for sales dollars. Q3 2022 year-over-year change in this category was 5.78%. The Construction industry, second highest in sales dollars (\$1.09 billion), grew 10.9% year-over-year showing continued strength after being hit by COVID's impact in 2020-2021.

* The Dept of Revenue did some recategorization of industries at the beginning of 2022. The 2nd highest Retail category was "Miscellaneous Retailers" in previous reports. That category is now just a component of the larger category of Sporting Goods, Hobby, etc., as seen above.

FIGURE 8: THIRD QUARTER 2022 SNOHOMISH COUNTY TAXABLE RETAIL SALES
