21

22 WHEREAS, GMA Goal 12, RCW 36.70A.020(12), regarding public facilities and services,
23 addresses the need to ensure the adequacy of public facilities and services to serve the

25 current levels of service below locally established minimum standards; and
26

27 WHEREAS, RCW 36.70A.130(2)(a)(iv) allows the County to amend the GMACP more
28 frequently than once per year if the amendment is to the capital facilities element and occurs
29 concurrently with the adoption or amendment of the County's budget; and
30

31 WHEREAS, GMACP - General Policy Plan (GPP) Capital Facilities Objective 1.B and
32 associated policies require the County to develop a six-year financing program for capital facilities
33 that meets the requirements of the GMA; and
34

35 WHEREAS, on June 28, 1995, the Snohomish County Council (the "County Council") first
36 adopted a capital facilities plan as required by the GMA, the 1995-2000 Capital Facilities Plan,
37 along with other mandatory elements of Snohomish County's GMACP; and
38

39 WHEREAS, on June 10, 2015, the County Council adopted the 2015 Comprehensive Plan
40 Update, which included reassessment and updates to the Land Use Element, Transportation
41 Element, Parks and Recreation Element, Capital Facilities Plan Element, Future Land Use Map,

1
2 WHEREAS, the 2015 CFP identifies the following public capital facilities as necessary to
3 support development: fire protection services, surface transportation, park land and recreational
4 facilities, surface water management, electric power, schools, public wastewater systems, and

6

7 WHEREAS, Snohomish County Code (SCC) 4.26.024 requires the Snohomish County

10

11 WHEREAS, section 6.50 of the County Charter requires the County Council to adopt a six-
12 year CIP as an adjunct to the annual budget, including a balance of proposed expenses and
13 potential revenue sources; and
14

15 WHEREAS, the six-year CIP is the document developed by the County to detail the funding
16 sources for County capital projects over the next six years and assess whether funding sources
17 and regulatory mechanisms are sufficient to maintain the minimum LOS for those capital facilities
18 necessary to support development; and
19

20 WHEREAS, on November 12, 2019, the County adopted the 2020-2025 Capital Improvement
21 Program by Amended Ordinance 19-072, and has adopted regular updates to the capital

44

1
2 NOW, THEREFORE, BE IT ORDAINED:
3

4 Section 1. The County Council adopts the following findings in support of this ordinance:
5

6 A. The foregoing recitals are adopted as findings as if set forth in full herein.
7

8 B. The ordinance adopts the County's 2021-2026 CIP.
9

10 C. The 2021-2026 CIP was developed for compliance with the following GMA requirements:
11

12 1. RCW 36.70A.070(3) "A capital facilities plan element consisting of: (a) An inventory
13 of existing capital facilities owned by public entities, showing the locations and
14 capacities of the capital facilities; (b) a forecast of the future needs for such capital
15 facilities; (c) the proposed locations and capacities of expanded or new capital
16 facilities; (d) at least a six-year plan that will finance such capital facilities within
17 projected funding capacities and clearly identifies sources of public money for such
18 purposes; and (e) a requirement to reassess the land use element if probable
19 funding falls short of meeting existing needs and to ensure that the land use
20 element, capital facilities plan element, and financing plan within the capital facilities
21 plan element are coordinated and consistent. Park and recreation facilities shall be
22 included in the capital facilities plan element." The 2021-2026 CIP includes a six-
23 year financing plan for all of the County's capital facilities. The 2021-2026 CIP also
24 assesses the adequacy of funding and regulatory mechanisms for those public
25 capital facilities necessary to support development to maintain their respective
26 minimum level of service (LOS).
27

28 2. GMA planning Goal 12 (RCW 36.70A.020(12)) "Public facilities and services.
29 Ensure that those public facilities and services necessary to support development
30 shall be adequate to serve the development at the time the development is available
31 for occupancy and use without decreasing current service levels below locally
32 established minimum standards." The 2021-2026 CIP specifies proposed funding
33 sources for the planned capital facilities and contains a "statement of assessment"
34 which addresses the need for a reassessment of land use or other comprehensive
35 plan elements if there is a projected shortfall in revenue (between 2021 and 2026)
36 that causes the LOS for a facility classified as necessary to support development to
37 fall below the minimum level identified in the capital facilities plan. The statement of
38 assessment portion of the 2021-2026 CIP finds that there are no funding shortfalls
39 or regulatory inadequacies that would affect the ability to maintain the minimum LOS
40 for those capital facilities necessary to support development.
41

42 D. The 2021-2026 CIP was developed for consistency with Puget Sound Regional Council
43 Vision 2040 Multicounty Planning Policies (MPP) including: MPP-PS-2 "Time and phase
44 services and facilities to guide growth and development in a manner that supports the
45 regional vision." The County's CFP and the 2021-2026 CIP align with the regional vision to
46 direct growth into urban areas where adequate public infrastructure and services are
47

1 available or can be provided in an efficient manner by establishing minimum LOS for those
2 public capital facilities necessary to support development and by ensuring that adequate
3 funding and regulatory mechanisms are in place to maintain those minimum LOS.
4

5 E. The 2021-2026 CIP was developed for consistency with Snohomish County Countywide
6 Planning Policy (CPP) PS-13 "Jurisdictions should adopt capital facilities plans, and
7 coordinate with other service providers, to provide the appropriate level of service to
8 support planned growth and development in Urban Growth Areas." The 2021-2026 CIP, a
9 component of the County's CFP, is developed through a coordinated and collaborative
10 process between the County and non-County service providers of public capital facilities
11 such as schools, water and sewer infrastructure and services, and electric power.
12

13 F. The 2021-2026 CIP was developed to comply with and implement the following County
14 directives:

15
16 1. Section 6.50 of the County Charter "...The county council in considering the budget
17 ordinance proposed by the county executive, may delete or add items, may reduce
18 or increase the proposed appropriations and may add provisions restricting the
19 expenditure of certain appropriations, provided that the county council shall adopt a
20 six (6) year capital improvement program as an adjunct to the budget, including a
21 balance of proposed expenses and potential revenue sources." The County's
22 annual capital improvement program, including the 2021-2026 CIP, is considered
23 and adopted as part of the annual budget.
24

25 2. SCC 4.26.024 "The executive shall on an annual basis prepare a capital
26 improvement program for the next six fiscal years pursuant to the county charter
27 and chapter 36.70A RCW." The County's annual capital improvement programs,

34 2021-2026 CIP contains: 1) an adequate financing plan for all County capital
35 facilities, including those necessary to support development, 2) the minimum LOS
36 for those capital facilities necessary to support development, including roads and
37 transit, and 3) a statement of assessment that finds adequate funding and

39 facilities necessary to support development.
40

41 G. The 2021-2026 CIP will comply with and implement the following goals, objectives, and
42 policies of the GPP because it is developed in coordination with other providers of public
43 capital facilities and it provides: 1) a six-year financing plan for all County and non-County
44 capital facilities that identifies the funding sources, projects, and schedule, and 2) an
45 assessment of the adequacy of funding and regulatory mechanisms for those public capital
46 facilities necessary to support development to maintain their established minimum LOS:

Mr. Tom Teigen, Director
Snohomish County Parks, Recreation and Tourism
6705 Puget Park Drive
Snohomish, WA 98296

Dear Mr. Teigen,

The City of Stanwood, in partnership with the Washington Department of Transportation and Island County, is studying how to improve traffic flow on SR 532 from Camano Island to I-5, including possible roundabout locations. One of the project goals is determine how best to maintain adequate traffic operations for expected growth and while ensuring that Stanwood maintains its historic downtown sense-of-place.

In 2020 the City conducted an origins and destinations study using “Streetlight” data to better understand traffic volumes on SR 532 and where people are going. The study showed that approximately 20% of the daily traffic on SR 532 was heading north to Skagit County via 102nd Avenue or Pioneer Highway.

A bypass has been suggested as a possible way reduce traffic volumes on SR 532 between 102nd Avenue and I-5, thereby reducing the need for roadway widening in downtown Stanwood. The City is requesting a grant to prepare a feasibly study to consider alignment options to locate potential alignments and understand intersection traffic operations at each bypass endpoint.

The City of Stanwood appreciates your consideration of this grant request. If you have any questions, you may contact Patricia Love, Community Development Director at 360-454-5206 or Patricia.Love@ci.stanwood.wa.us.

Sincerely,

Jennifer Ferguson
City Administrator

Description of Project

Attachment D: Description of Project

The City of Stanwood will prepare a SR 532 Bypass Feasibility Study to consider possible routes to reduce traffic volumes on SR 532 between 102nd Avenue and I-5. The bypass routes are intended to reduce the need for roadway widening in downtown Stanwood and preserve the City's historic downtown character. Work will include three major tasks:

1. Bypass Feasibility Analysis:

Using the 2020 Streetlight origin and destination analysis, 2-3 potential Downtown Bypass alignments will be prepared. Along with the bypass routes, the analysis will evaluate potential "bookend" roundabouts nears Ovenell Park and 98th Avenue. The major purpose of this traffic analysis is to identify the type and scale of traffic control needed at each bypass terminus. Preliminary cost estimates for the preferred alignment will be prepared.

2. Develop Roadway Layout Concept Between Roundabouts:

The purpose of this task is to consider roadway configurations on SR 532 between the proposed bypass locations and the roundabouts to determine how roadway would work between the two endpoints. The purpose is to provide cost effective concepts that will be used in future community outreach efforts.

3. Community Outreach

Three outreach efforts will be conducted to discuss bypass alignments and SR 532 roadway configurations. One major feature of the community outreach is to highlight how the Bypass may help to preserve a smaller SR 532 corridor through Stanwood Downtown, which would help achieve some of the livability goals in the downtown area. These outreach efforts include:

- Staff/Project Team Virtual Charette: Meeting with City, County, and WSDOT
- Stanwood City Council Virtual Work Session: Meeting with City Council
- Online Open House: Hold an online public open house that provides opportunities for public comment. This online meeting will be open to the public for one month with comment collected during that time. This task will involve developing an online survey that can be linked to the City's website. Graphics developed under task 2 above be used.

Attachment F: Description of the City's Involvement in the Planning, Design, Construction, Maintenance, Operation and Ongoing Role with the Project

The City of Stanwood will be acting as the lead agency on the Feasibility Study. We will be coordinating with WSDOT, Island County, Snohomish County, and the public to determine the best options for improving traffic flow on SR 532.

The Feasibility Study will include recommendations for moving forward, including potential bypass route options, SR 532 roadway configuration, cost estimates and potential future grant funding options. The City will take this information and begin building a future capital improvement project including design, property acquisition, permitting, and construction.

Ownership and maintenance of the bypass road when constructed will depend on where the roadway is built in relationship to jurisdictional boundaries.

Re: City of Stanwood
SR 532 Roadway Design and Bypass Study

Evidence of Coverage

The City of Stanwood is a member of the Washington Cities Insurance Authority (WCIA), which is a self-insured pool of over 160 public entities in the State of Washington.

WCIA has at least \$4 million per occurrence limit of liability coverage in its self-insured layer that may be applicable in the event an incident occurs that is deemed to be attributed to the negligence of the member. Liability coverage includes general liability, automobile liability, stop-gap coverage, errors or omissions liability, employee benefits liability and employment practices liability coverage.

WCIA provides contractual liability coverage to the City of Stanwood. The contractual liability coverage provides that WCIA shall pay on behalf of the City of Stanwood all sums which the member shall be obligated to pay by reason of liability assumed under contract by the member.

WCIA was created by an interlocal agreement among public entities and liability is self-funded by the membership. As there is no insurance policy involved and WCIA is not an insurance company, your organization cannot be named as an additional insured.

Sincerely,

Rob Roscoe
Deputy Director
