Description of Work

Provide design Services necessary to completed technical reports, plans, estimates, and specifications (PS&E) and environmental permitting coordination for spot safety improvements on 84th St NE Corridor from SR9 to SR92. 84th St NE Corridor carries high number of vehicles traveling at high speeds which has resulted in high crash rates. This project is to design and implement the recommended near-term improvements outlined in the 84th St NE Corridor Implementation Action Plan.

The Local Agency of Snohomish County desires to supplement the Agreement entered into with **PH Consulting, LLC** and executed on July 25, 2023, as amended by Supplement No. 1 on June 28, 2024, and by Supplement No. 2 on July 24, 2024, and by Supplement No. 3 on October 18, 2024, and Supplement No. 4 on January 26, 2025, and identified as Agreement No. CCF04-23. All provisions in the basic agreement remain in effect except as expressly modified by this supplement.

The changes to the Agreement are described as follows:

ı

The "Maximum Amount Payable" on the Agreement title page is amended as follows:

Maximum Amount Payable \$128,646.49

Ш

**EXHIBIT A-1 Supplemental Scope of Work**, attached hereto and by this reference made part of the original Agreement, as additional work to be performed under Exhibit A.

Ш

**EXHIBIT D Prime Consultant Cost Computations**, attached hereto and by this reference made part of the original Agreement and adds supplemental cost computations for the additional work to be performed under Exhibit A-1 of this Agreement and has been further amended and hereby supplements the Fee Schedule portion of the original Exhibit D. If you concur with this supplement and agree to the changes as stated above, please sign in the appropriate spaces below and return to this office for final action.

The scope of services for Supplement No. 5 are added in the applicable sections of the original scope below.

### 1. General Activities

Additional Project Management time is needed to administer new design direction and contract changes. Additional Coordination & Meeting time is needed for additional design review meetings for new design direction, PUD construction approach revisions, and additional environmental/TESC design requirements.

# 3. Preliminary Design Submission

Additional time is added to revised plans, specifications, and estimates to account for design/construction approach changes to incorporate county chip seal project into construction, additional environmental design requirements, new TESC design requirements, new direction for speed feedback sign design placement.

## 4. Environmental Permitting Coordination

Additional time is added for new design coordination and plan requirements.
