Authority Granted:

Approves and authorizes the County Executive to execute Amendment 12 to the Software License Agreement for Permit Tracking Software System (AMANDA).

Background:

In 1994, Snohomish County entered into a software agreement with Sequent Computer Systems Incorporated, after being chosen as the successful bid winner for RFP 06-13, following all Federal, State and County policies, to provide hardware and permitting software to be installed, implemented, and supported. The AMANDA software tracks all Planning and Development Services (PDS) permits, in conjunction with Public Works permits, and all related permit fees.

The AMANDA product was purchased from CSDC Systems, Inc. as successor in interest to Sequent Computer Systems Incorporated. In 2019, CSDC was rebranded and became known as Calytera US, Inc. In 2020, Calytera was acquired by Granicus, who in-turn assumed the previously agreed to software license agreement for AMANDA.

PDS desires to streamline the review of building permit and land use applications using the Bluebeam Connector License offered by Granicus which is an integration of the AMANDA Permit Tracking Software and Bluebeam Revu plan review and markup software.

Request: Move Motion 25-514 to GLS for consideration on 12-17-2025.
