All hardware warranties will be in effect for 2 years and covers all manufacturing defects, excluding acts of god, misuse, mishandling, or use other than as intended and prescribed in the user guide and training. The proposal assumes that all network configurations and IP addresses will be supplied to Rhythm Engineering in a timely manner. Rhythm Engineering requires network access via a secure VPN to setup and configure Game|Changer:Network and ancillary software, to provide training, and software updates. Rhythm Engineering has budgeted three hours for network configuration (more than sufficient, normally). If additional hours are needed due to IT department requirements, Client will be charged for additional hours at \$225/hour.
