MEMORANDUM

TO: Snohomish County Planning Commission

Dave Somers
County Executive

FROM: Diana Dannoun, Planner

SUBJECT: Updating References to 2024 Comprehensive Plan Policies in Title 30 SCC.

DATE: March 25, 2025

This staff report explains the code project updating references to the 2024 Comprehensive Plan Policies in Title 30 SCC at the March 25, 2025, Planning Commission briefing.

INTRODUCTION

This is a non-project proposal for corrections to Title 30 of the Snohomish County Code (SCC). Title 30 SCC, the Unified Development Code (UDC), was initially adopted in December 2002 and has been updated periodically since then. The most recent Snohomish County Comprehensive Plan Update was adopted by Council on December 4th, 2024, and included a reorganization of the Plan and other updates that necessitate amendments to Title 30 SCC for consistency.

The format of the Plan has been revised in several ways:

- No longer includes a General Policy Plan (GPP),
- Reorganizes the chapters previously included in the GPP as elements within the Plan, and
- Consolidates the Capital Facilities and Utilities chapters into one unified Capital Facilities and Utilities Element.

Reference to one comprehensive plan policy (LU 6.A.3) in Title 30 SCC is proposed to be removed. Eleven code sections in Title 30 SCC that previously referenced the General Policy Plan or GPP are proposed to be amended because the updated 2024 comprehensive plan no longer includes a General Policy Plan. All references to the “GPP” or the “General Policy Plan” in Title 30 SCC are proposed to be renamed to GMA Comprehensive Plan (GMACP).

PROPOSED CODE AMENDMENTS

To be consistent with language in the Comprehensive Plan, eleven Title 30 SCC codes have been identified by county staff for correction. The proposed corrections contain references to a repealed

Table 1.

| Proposed Change | Finding |
|---|---|
| 30.21.025 Intent of zones. | There is no longer a GPP within the comprehensive plan with the 2024 update. As a result, Title 30 SCC needs to be amended where GPP is referenced to be consistent with the new comprehensive plan. "General Policy Plan" is proposed to be replaced with <u>"GMA Comprehensive Plan"</u> in SCC 30.21.025(3)(c)(i). |
| 30.27.051 Permitted signs and standards in designated farmlands and land zoned A-10. | There is no longer a GPP or General Policy Plan in the comprehensive plan, so the update is to change "General Policy Plan" to <u>"GMA Comprehensive Plan"</u> in subsection (1). |
| 30.28.076 Recreational facility not otherwise listed. | Replacing "General Policy Plan" to <u>"GMA Comprehensive Plan"</u> in subsection (1). There is no longer a GPP or General Policy Plan in the comprehensive plan. |
| 30.31F.020 Minimum zoning criteria. | Replacing "General Policy Plan" to <u>"GMA Comprehensive Plan"</u> in SCC 30.31F.020(1). There is no longer a GPP or General Policy Plan in the comprehensive plan. |
| 30.32C.020 Relationship to comprehensive plan. | Replacing "General Policy Plan" with <u>"GMA Comprehensive Plan"</u> in section 30.32C.020(2). Also including the phrase "LU policies" in reference to LU policies 9.A.1-LU 9.A.13 in order to stay consistent with the new Land Use element and policy numbers in the 2024 Comprehensive Plan update. |
| 30.42B.020 Applicability. | Removing a policy reference "Policy LU 6.A.3" from SCC 30.42B.020, as it was repealed by the 2024 Comprehensive Plan Update. |
| 30.42D.060 Decision criteria for local essential public facilities. | Revises reference to "the Capital Facilities chapter" to "the Capital Facilities and Utilities Element" for consistency with the updated 2024 Comprehensive Plan. Replaces "General Policy Plan" with <u>"GMA Comprehensive Plan"</u> in SCC 30.42D.060(2)(a). There is no longer a GPP or General Policy Plan in the comprehensive plan. |

ANALYSIS

The following analysis provides a summary of the proposed amendments' compliance with state law as well as regional and countywide planning policies.

COMPLIANCE WITH STATE LAW

The GMA planning goals adopted in RCW 36.70A.020 guide the development and adoption of comprehensive plans and development regulations. The GMA goals guide the policies in Snohomish County's GMA Comprehensive Plan (GMACP). RCW 36.70A.130(1)(e) requires that any amendment of or revision to development regulations shall be consistent with and implement the comprehensive plan. The code corrections proposed within this staff report aim to increase consistency between the updated GMACP and development regulations of the County. The proposed corrections are consistent with RCW 36.70A.020 and help to implement the GMA goals. The proposed corrections provide consistency between the comprehensive plan and development regulations. The proposal helps to provide consistency in permit processing and code interpretation based upon clarification of regulations and definitions.

COMPLIANCE WITH REGIONAL AND COUNTYWIDE PLANNING POLICIES

Countywide Planning Policies (CPPs) establish a framework for developing and adopting county, city, and town comprehensive plans. The role of the CPPs is to coordinate the comprehensive plans of jurisdictions in the same county regarding regional issues and issues affecting common borders (RCW

Table 2. Compliance with CPPs

Permit the urban growth that is projected to occur in the succeeding twenty-year period (RCW 36.70A.110(2)).</p> | <p>The proposed amendments ensure consistency with the renaming of policies that are in the 2024 Comprehensive Plan update, including the renaming of the capital facilities chapter to the capital facilities and utilities element, and the removal of reference to the GPP.</p> |

COMPLIANCE WITH THE COMPREHENSIVE PLAN

These corrections are proposed to be consistent with the goals, objectives, and policies in the County's 2024 Comprehensive Plan in RCW 36.70A.070. The project is consistent with ED Policy 2.A.1, which requires ensuring that the Snohomish County code is understandable, accessible and a user friendly document. This proposal updates the references to be consistent with the 2024 update into the updated codes cited throughout Title 30 SCC.

This action is considered procedural and is exempt from the State Environmental Policy Act (SEPA), Chapter 43.21C RCW, review pursuant to Section 197-11-800(19)(b) WAC and SCC 30.61.030.

NOTIFICATION OF STATE AGENCIES

Pursuant to RCW 36.70A.106, a notice of intent to adopt the proposed regulations and standards was transmitted to the Washington State Department of Commerce on XXX, 2024, for distribution to state agencies.

EXECUTIVE RECOMMENDATION: Approved by Ken Klein 6/26/25

PURPOSE: Amend Title 30 SCC to incorporate updated references, policy numbers, and chapter elements for consistency with Snohomish County's adopted 2024 Comprehensive Plan.

BACKGROUND: This ordinance amends 11 sections of Title 30 SCC to update references for consistency with Snohomish County's 2024 Comprehensive Plan, adopted by Amended Ordinance No. 24-033. The previous plan, adopted in 2015, included a General Policy Plan (GPP), maintained separate chapters for Capital Facilities and Utilities, and did not structure content into elements. The 2024 Comprehensive Plan eliminates references to the GPP, reorganizes content into elements, and consolidates the Capital Facilities and Utilities chapters into a single element. It also includes numerous updates throughout the plan, including additions, amendments, and deletions of various policies.

5
6 Section 1. The County Council makes the following findings:

7
8 A. The County Council adopts and incorporates the foregoing recitals as findings as if set forth fully
9 herein.

10 B. This ordinance amends eleven sections of Title 30 SCC to update references for consistency with the
11 2024 GMACP, adopted by Amended Ordinance No. 24-033. The previous 2015 GMACP included a
12 General Policy Plan (GPP), did not organize content into elements, and maintained separate
13 chapters for Capital Facilities and Utilities. The 2024 GMACP removed references to the GPP,
14 renamed chapters to elements, and combined the Capital Facilities and Utilities chapters into a
15 single element. Additionally, the 2024 GMACP removed, amended, and added policies throughout
16 the plan.

17
18 C. In developing the code amendments, the County considered the goals and requirements of the GMA
19 as follows:

20
21 1. RCW 36.70A.130(1)(e) specifies that any amendment of or revision to development
22 regulations shall be consistent with and implement the comprehensive plan.

23
24 The amendments ensure that the development regulations are consistent with the comprehensive plan.

25
26 2. The amendments are consistent with the following goals of the GMA in RCW 36.70A.020:

27
28 GMA Goal 11 – Citizen participation and coordination. Encourage the involvement of citizens in
29 the planning process, including the participation of vulnerable populations and overburdened
30 communities, and ensure coordination between communities and jurisdictions to reconcile
31 conflicts

32
33 The amendments ensure the consistency of the 2024 Comprehensive Plan policy references and
34 elements with Title 30 SCC. This change ensures that the public has access to the latest and correct
35 information and policy references in the SCC.

36
37 GMA Goal 7 – Permits. Applications for both state and local government permits should be
38 processed in a timely and fair manner to ensure predictability.

CODE

PAGE 2 OF 23

1 The amendments ensure the consistency of the 2024 Comprehensive Plan policy references and
2 elements with Title 30 SCC. This change facilitates easier review for permits by both the staff and the
3 public.

4

5 D. The amendments will better achieve, comply with, and implement the goals and policies contained
6 within the Countywide Planning Policies (CPPs), including:

7

8 1. CPP- ED-16- The expeditious processing of development applications shall not result in the
9 reduction of environmental and land use standards.

10

11 The amendments to SCC 30.42B.020 and SCC 30.32C.020, which align those code provisions with the
12 2024 Comprehensive Plan by revising or removing Land Use policy references for consistency with the
13 updated 2024 Comprehensive Plan, facilitate the expeditious processing of development applications
14 consistent with the County's land use policies.

15

16 2. DP-5: "The County and cities shall adopt comprehensive plans and development regulations
17 (RCW 36.70A.040). In Urban Growth Areas (UGAs), such plans and regulations shall: a.
18 Achieve urban uses and densities; b. Provide for urban governmental services and capital
19 facilities sufficient to accommodate the broad range of needs and uses that will accompany
20 the projected urban growth; and c. Permit the urban growth that is projected to occur in the
21 succeeding twenty-year period (RCW 36.70A.110(2))."

22

23 The amendments to SCC 30.42D.060 and SCC 30.66C.055 reflect that the 2024 Comprehensive Plan
24 update consolidated chapters into a single "Capital Facilities and Utilities element (CUE)," which
25 streamlines policies designed to address the provision of government services. The amendments
26 provide consistency with the renaming of consolidated Capital Facilities and Utilities element in the
27 2024 Comprehensive Plan.

28

29 E. The amendments will better achieve, comply with, and implement the goals and policies of the
30 Puget Sound Regional Council's VISION 2050, the Multicounty Planning Policies (MPPs), including:

31

32 1. MPP-RGS-1: "Implement the Regional Growth Strategy through regional policies and
33 programs, countywide planning policies and growth targets, local plans, and
34 development regulations."

35

36 The amendments help create consistency between the county's development regulations and the
37 updates brought forth with the GMACP.

38

39 F. The amendments will better achieve, comply with, and implement the goals, objectives, and policies
40 of the GMACP, including:

The Washington State Attorney General last issued an advisory memorandum, as required by RCW 36.70A.370, in October 2024 entitled “Advisory Memorandum and Recommended Process for Evaluating Proposed Regulatory or Administrative Actions to Avoid Unconstitutional Takings of Private Property” to help local governments avoid the unconstitutional taking of private property. The process outlined in the State Attorney General’s 2024 advisory memorandum was used by Snohomish County in objectively evaluating the regulatory changes proposed by this ordinance.

28 Section 4. Snohomish County Code Section 30.21.025, last amended by Amended Ordinance No. 24-
29 065 on December 4, 2024, is amended to read:

30
31 **30.21.025 Intent of zones.**

32
33 This section describes the intent of each use zone. Snohomish County’s use zones are categorized and
34 implemented consistent with the comprehensive plan. The comprehensive plan establishes guidelines to
35 determine the compatibility and location of use zones. The intent of each zone is established pursuant
36 to SCC Table 30.21.020 and is set forth below in subsections (1) through (4) of this section.
37

38 (1) *Urban Zones.* The urban zones category consists of residential, commercial, and industrial zoning
39 classifications in Urban Growth Areas (UGAs) located outside of cities in unincorporated Snohomish
40 County. These areas are either already characterized by, or are planned for, urban growth consistent
41 with the comprehensive plan.

(a) *Single Family Residential.* The intent and function of Single Family Residential zones is to provide for predominantly single family residential development that achieves a minimum net density of four dwelling units per net acre. These zones may be used as holding zones for properties that are designated Urban Medium-Density Residential, Urban High-Density Residential, Urban Commercial, Urban Industrial, Public/Institutional use (P/IU), or Other land uses in the comprehensive plan. The official Snohomish County zoning maps prepared pursuant to SCC 30.21.030 shall use the suffix "P/IU" to indicate all areas in which these zones implement the P/IU designation (e.g., R-7,200-P/IU). Single family residential zones consist of the following:

- (i) Residential 7,200 sq. ft. (R-7,200);
- (ii) Residential 8,400 sq. ft. (R-8,400); and
- (iii) Residential 9,600 sq. ft. (R-9,600).

(b) *Multiple Family Residential.* Multiple Family Residential zones provide for predominantly apartment and townhouse development in designated medium- and high-density residential locations. Multiple Family Residential zones consist of the following:

- (i) *Townhouse (T).* The intent and function of the Townhouse zone is to:
 - (A) provide for single family dwellings, both attached and detached, or different styles, sizes, and prices at urban densities greater than those for strictly single family detached development, but less than multifamily development;
 - (B) provide a flexible tool for the development of physically suitable, skipped-over, or under-used lands in urban areas without adversely affecting adjacent development; and
 - (C) provide design standards and reviews which recognize the special characteristics of townhouses, to ensure the development of well-planned communities, and ensure the compatibility of such housing developments with adjacent, existing, and planned uses. Townhouses are intended to serve the housing needs of a variety of housing consumers and producers. Therefore, townhouses may be built for renter occupancy of units on a site under single ownership, owner agreements pursuant to chapters 64.32 or 64.34 RCW, or owner or renter occupancy of separately conveyed units on individual lots created through formal subdivision pursuant to chapter 58.17 RCW;

- (ii) *Low-Density Multiple Residential (LDMR).* The intent and function of the Low-Density Multiple Residential zone is to provide a variety of low-density, multifamily housing including townhouses, multifamily structures, and attached or detached homes on small lots;
- (iii) *Multiple Residential (MR).* The intent and function of the Multiple Residential zone is to provide for high-density development, including townhouses and multifamily structures, generally near other high-intensity land uses; and
- (iv) *Mobile Home Park (MHP).* The intent and function of the Mobile Home Park zone is to provide and preserve high density, affordable residential development consisting of mobile homes for existing mobile home parks as a source of affordable detached single-family and senior housing. This zone is assigned to existing mobile home parks which contain rental pads, as opposed to fee simple owned lots, and as such are more susceptible to future development.

Commercial. The Commercial zones provide for neighborhood, community and urban center commercial, and mixed use developments that offer a range of retail, office, personal service, wholesale uses. Commercial zones consist of the following:

- (i) *Neighborhood Business (NB).* The intent and function of the Neighborhood Business zone is to provide for local facilities that serve the everyday needs of the surrounding neighborhood, rather than the larger surrounding community;
- (ii) *Planned Community Business (PCB).* The intent and function of the Planned Community Business zone is to provide for community business enterprises in areas desirable for business but having highly sensitive elements of vehicular circulation, or natural site and environmental conditions, while minimizing impacts upon these elements through the establishment of performance criteria. Performance criteria for this zone are intended to control external as well as internal effects of commercial development. It is the goal of this zone to discourage "piecemeal" and strip development by encouraging development under unified control;
- (iii) *Community Business (CB).* The intent and function of the Community Business zone is to provide for businesses and services designed to serve the needs of several neighborhoods;
- (iv) *General Commercial (GC).* The intent and function of the General Commercial zone is to provide for a wide variety of retail and nonretail commercial and business uses. General commercial sites are auto-oriented as opposed to pedestrian or neighborhood oriented. Certain performance standards, subject to review and approval of an official site plan, are contained in chapter 30.31B SCC;

1
2 (v) *Business Park (BP)*. The intent and function of the Business Park zone is to provide
3 for those business/industrial uses of a professional office, wholesale, and
4 manufacturing nature which are capable of being constructed, maintained, and
5 operated in a manner uniquely designed to be compatible with adjoining residential,
6 retail commercial, or other less intensive land uses, existing or planned. Strict zoning
7 controls must be applied in conjunction with private covenants and unified control
8 of land; many business/industrial uses otherwise provided for in the zoning code will
9 not be suited to the BP zone due to an inability to comply with its provisions and
10 achieve compatibility with surrounding uses. The BP zone, under limited
11 circumstances, may also provide for residential development where sites are large
12 and where compatibility can be assured for on-site mixed uses and uses on adjacent
13 properties;

14
15 (vi) *Light Industrial (LI)*. The intent and function of the Light Industrial zone is to
16 promote, protect, and provide for light industrial uses while also maintaining
17 compatibility with adjacent nonindustrial areas;

18
19 (vii) *Heavy Industrial (HI)*. The intent and function of the Heavy Industrial zone is to
20 promote, protect, and provide for heavy industrial uses while also maintaining
21 compatibility with adjacent nonindustrial areas; and

22
23 (viii) *Industrial Park (IP/PIP)*. The intent and function of the Industrial Park and
24 Planned Industrial Park zones is to provide for heavy and light industrial
25 development under controls to protect the higher uses of land and to stabilize
26 property values primarily in those areas in close proximity to residential or other
27 less intensive development. The IP and remaining Planned Industrial Park (PIP)
28 zones are designed to ensure compatibility between industrial uses in industrial
29 centers and thereby maintain the attractiveness of such centers for both existing
30 and potential users and the surrounding community. Vacant/undeveloped land
31 which is currently zoned PIP shall be developed pursuant to industrial park zone
32 regulations (chapter 30.31A SCC).

33
34 (d) *Industrial Zones*. The Industrial zones provide for a range of industrial and manufacturing uses
35 and limited commercial and other nonindustrial uses necessary for the convenience of industrial
36 activities. Industrial zones consist of the following:

37
38 (i) *Business Park (BP)*. See description under subsection (1)(c)(v) of this section;

39
40 (ii) *Light Industrial (LI)*. See description under subsection (1)(c)(vi) of this section;

41
42 (iii) *Heavy Industrial (HI)*. See description under subsection (1)(c)(vii) of this section; and

(iv) *Industrial Park (IP)*. See description under subsection (1)(c)(viii) of this section.

(e) *Urban Center (UC).* The intent and function of the Urban Center zone is to implement the Urban Center designation on the future land use map by providing a zone that allows a mix of high-density residential, office and retail uses with public and community facilities and pedestrian connections located within one-half mile of existing or planned stops or stations for high capacity transit routes such as light rail or commuter rail lines, regional express bus routes, or transit corridors that contain multiple bus routes or which otherwise provide access to such transportation.

(f) *Mixed Use Corridor (MUC).* The intent and function of the Mixed Use Corridor zone is to implement the Mixed Use Corridor designation on the future land use map by providing a zone along state routes and county arterials in the Urban Core Subarea that allows a mix of high-density residential, office, and commercial uses with public and community facilities and pedestrian connections.

(2) *Rural Zones.* The Rural zones category consists of zoning classifications applied to lands located outside UGAs that are not designated as agricultural or forest lands of long-term commercial significance. These lands have existing or planned rural services and facilities, and rural fire and police protection services. Rural zones may be used as holding zones for properties that are primarily a transition area within UGAs on steep slopes adjacent to non-UGA lands designated rural or agriculture by the comprehensive plan. Rural zones consist of the following:

(a) *Rural Diversification (RD)*. The intent and function of the Rural Diversification zone is to provide for the orderly use and development of the most isolated, outlying rural areas of the county and at the same time allow sufficient flexibility so that traditional rural land uses and activities can continue. These areas characteristically have only rudimentary public services and facilities, steep slopes and other natural conditions, which discourage intense development, and a resident population, which forms an extremely rural and undeveloped environment. The resident population of these areas is small and highly dispersed. The zone is intended to protect, maintain, and encourage traditional and appropriate rural land uses, particularly those which allow residents to earn a satisfactory living on their own land. The following guidelines apply:

- (i) a minimum of restrictions shall be placed on traditional and appropriate rural land uses;

- (ii) the rural character of these outlying areas will be protected by carefully regulating the size, location, design, and timing of large-scale, intensive land use development; and

- (iii) large residential lots shall be required with the intent of preserving a desirable rural lifestyle as well as preventing intensive urban- and suburban-density development, while also protecting the quality of ground and surface water supplies and other natural resources;
- (b) *Rural Resource Transition - 10 Acre (RRT-10)*. The intent and function of the Rural Resource Transition - 10 Acre zone is to implement the Rural Residential-10 (resource transition) designation and policies in the comprehensive plan, which identify and designate rural lands with forestry resource values as a transition between designated forest lands and rural lands;
- (c) *Rural-5 Acre (R-5)*. The intent and function of the Rural-5 Acre zone is to maintain rural character in areas that lack urban services;
- (d) *Rural Business (RB)*. The intent and function of the Rural Business zone is to permit the location of small-scale commercial retail businesses and personal services which serve a limited service area and rural population outside established UGAs. This zone is to be implemented as a "floating zone" and will be located where consistent with specific locational criteria. The Rural Business zone permits small-scale retail sales and services located along county roads on small parcels that serve the immediate rural residential population, and for a new rural business, are located two and one-half miles from an existing rural business, rural freeway service zone, or commercial designation in the rural area. Rural businesses, which serve the immediate rural population, may be located at crossroads of county roads, state routes, and major arterials;
- (e) *Clearview Rural Commercial (CRC)*. The intent and function of the CRC zone is to permit the location of commercial businesses and services that primarily serve the rural population within the defined boundary established by the CRC land use designation. Uses and development are limited to those compatible with existing rural uses that do not require urban utilities and services;
- (e) *Rural Freeway Service (RFS)*. The intent and function of the Rural Freeway Service zone is to permit the location of small-scale, freeway-oriented commercial services in the vicinity of on/off ramp frontages and access roads of interstate highways in areas outside a designated UGA boundary and within rural areas of the county. Permitted uses are limited to commercial establishments dependent upon highway users; and
- (f) *Rural Industrial (RI)*. The intent and function of the Rural Industrial zone is to provide for small-scale light industrial, light manufacturing, recycling, mineral processing, and resource-based goods production uses that are compatible with rural character and do not require an urban level of utilities and services.

- (a) *Forestry (F)*. The intent and function of the Forestry zone is to conserve and protect forest lands for long-term forestry and related uses. Forest lands are normally large tracts under one ownership and located in areas outside UGAs and away from residential and intense recreational use;
- (b) *Forestry and Recreation (F&R)*. The intent and function of the Forestry and Recreation zone is to provide for the development and use of forest land for the production of forest products as well as certain other compatible uses such as recreation, including recreation uses where remote locations may be required, and to protect publicly-owned parks in UGAs;
- (c) *Agriculture-10 Acre (A-10)*. The intent and function of the Agricultural-10 Acre zone is:
 - (i) To implement the goals and objectives of the County ((General Policy Plan,)) GMA Comprehensive Plan which include the goals of protecting agricultural lands and promoting agriculture as a component of the County economy;
 - (ii) To protect and promote the continuation of farming in areas where it is already established and in locations where farming has traditionally been a viable component of the local economy; and
 - (iii) To permit in agricultural lands, with limited exceptions, only agricultural land uses and activities and farm-related uses that provide a support infrastructure for farming, or that support, promote or sustain agricultural operations and production including compatible accessory commercial or retail uses on designated agricultural lands.
 - (iv) Allowed uses include, but are not limited to:
 - (A) Storage and refrigeration of regional agricultural products;
 - (B) Production, sales and marketing of value-added agricultural products derived from regional sources;
 - (C) Supplemental sources of on-farm income that support and sustain on-farm agricultural operations and production;
 - (D) Support services that facilitate the production, marketing and distribution of agricultural products;

1 (E) Off-farm and on-farm sales and marketing of predominately regional
2 agricultural products from one or more producers, agriculturally related
3 experiences, products derived from regional agricultural production,
4 products including locally made arts and crafts, and ancillary sales or service
5 activities; and

6 (F) Accessory commercial or retail uses which shall be accessory to the growing
7 of crops or raising of animals and which shall sell products predominately
8 produced on-site, agricultural experiences, or products, including arts and
9 crafts, produced on-site. Accessory commercial or retail sales shall offer for
10 sale a significant amount of products or services produced on-site.

11 (v) Allowed uses shall comply with all of the following standards:

12 (A) The uses shall be compatible with resource land service standards.
13
14 (B) The allowed uses shall be located, designed and operated so as not to
15 interfere with normal agricultural practices.
16
17 (C) The uses may operate out of existing or new buildings with parking and
18 other supportive uses consistent with the size and scale of agricultural
19 buildings but shall not otherwise convert agricultural land to non-
20 agricultural uses.
21
22

23
24 (4) *Other Zones.* The Other zones category consists of existing zoning classifications that are no longer
25 primary implementing zones but may be used in special circumstances due to topography, natural
26 features, or the presence of extensive critical areas. Other zones consist of the following:
27
28

29 (a) Suburban Agriculture-1 Acre (SA-1);
30
31 (b) Rural Conservation (RC);
32
33 (c) Rural Use (RU);

37 (e) Residential 12,500 sq. ft. (R-12,500); and
38
39 (f) Waterfront beach (WFB).

Authority Granted:

Authorizes the County Executive to execute amendments to title 30 SCC that incorporate updated references, policy numbers, and chapter elements for consistency with Snohomish County's adopted 2024 Comprehensive Plan.

Background:

This ordinance amends 11 sections of Title 30 SCC to update references for consistency with Snohomish County's 2024 Comprehensive Plan, adopted by Amended Ordinance No. 24-033. The previous plan, adopted in 2015, included a General Policy Plan (GPP), maintained separate chapters for Capital Facilities and Utilities, and did not structure content into elements. The 2024 Comprehensive Plan eliminates references to the GPP, reorganizes content into elements, and consolidates the Capital Facilities and Utilities chapters into a single element. It also includes numerous updates throughout the plan, including additions, amendments, and deletions of various policies.

Request: Move Ordinance 25-044 to GLS on July 23rd to set a time and date for consideration.
