To Whom is May Concern,

Please approve the budget including amendment 1A. This funding is vital to our community as it addresses funding needed for our food banks. As a teacher I see, first hand, the positive effects that the Food Bank has on our students and community members and without the proper funding this can not be a reality.

Thank you,

Randi VanHooser

To Whom It May Concern,

I am writing to express support for the approval of Budget to Include Amendment 1A in next year's budget. The Lake Stevens Food Bank has a great need for a new building to meet the growing needs of the community. Lake Stevens is growing so quickly, and we need a facility to help support all of the valuable members of our community that need this critical resource. Please consider the value this money would provide.

Nathan Packard
