5. PROJECT/SITE DESCRIPTION:

Please provide a summary paragraph describing the proposed project and how the site will be used. The paragraph should describe the intent of the acquisition and, as appropriate, significant or unique site characteristics, significant or unique site history, relationships to other properties and/or any other unique or special considerations associated with the proposal. Attach graphics illustrating the project including, at a minimum, an aerial photograph (indicating property boundaries) and vicinity map for the property. If the proposed acquisition adds to an existing site, please show the relationship to existing site.

These properties sit in a critical farming and floodplain corridor of Snohomish County. The most recent USDA analysis reported a decrease in farmland by 10% between 2012 and 2017. Moreover, this rate is likely to have accelerated in the Arlington area with the 2021 construction of a 600,000 sq foot Amazon fulfillment facility, driving up local housing and land prices and incentivizing farmland conversion.

The Kraetz, Foster, and Thomas families all have deep history in the Stillaguamish Valley. Each one of the owners grew up, met their spouses, and raised their families here and they are all deeply committed to preserving the agricultural character and habitat values of their community in the face of increasing pressure from development.

Expected outcomes are 4 conservation easements protecting over 230 acres of land and 5,810 feet of shoreline with both agricultural and habitat value. Most of this land is situated within

the floodway and/or floodplain of the Stillaguamish. Most of it is also regulatory floodway with 1% annual chance of flooding.

Both Mike Thomas and Brian Foster have signed landowner acknowledgments. Loren Kraetz has been in contact with Forterra and is contemplating estate planning of which his parcels will be a part. We are advocating that placing his land into conservation will achieve both financial and preservation goals important to his family and hope to have an answer soon.

6. PROJECT STEWARDSHIP AND RESPONSIBILITY:

Long-term maintenance of the site is a requirement for funding consideration. Please describe to what degree the sponsoring agency and/or long-term property manager is prepared to provide long-term stewardship (maintenance, management, etc.) for the proposed project site. Detail existing programs or plans that may apply to the site. In addition, please describe if there is the potential for future private business use on the site.

The only potential (or existing) private businesses contemplated on these sites will be agricultural/farm operations in alignment with the conservation goals of the conservation easement. Forterra will work with the landowners, the Stillaguamish Tribe and the County to establish baseline documentation reports and draft a Conservation Easement in keeping with the values and goals of all parties. Once the property is placed into conservation our Stewardship Team will keep regular contact with property owners, including phone calls and site visits to ensure the property is being used as agreed. Stewardship Plans will be drafted and implemented to meet any Stewardship Plan requirements by the parties.

7. PROJECT COST (Cost Worksheet):

Please provide a summary of project cost, utilizing the following Cost Worksheet. Indicate on the worksheet any matching funding and/or donation value provided by the project sponsor and total request for funding from the Conservation Futures program, both as a total value and as a percentage of the total project cost. Estimated total land acquisition costs must be derived from one or more of the following sources and include supporting documentation:

1. Independent appraisal*
2. Opinion of value from a qualified representative of the real estate industry
3. Valuation from recent Snohomish County property tax assessment

Describe the basis for estimate for land and improvements (1 through 3 listed above):

Our Team performed comparative sales analysis based on appraisals and review appraisals for conservation easements on neighboring properties dated January 2021 and estimating rise in property values based on rapid increase of development and interest in the area in the year 2021. Once firm agreements are struck with the landowners, full appraisals will be ordered as required.

*Please note that if additional grant funds will be sought from other sources (e.g. Washington State Recreation and Conservation Office (RCO), an appraisal will be required. Additional

acquisition and appraisal requirements for matching grants, administered through RCO, can be found at <https://rco.wa.gov/recreation-and-conservation-office-grants/grant-manuals/>

SECTION IV – PROJECT REVIEW CRITERIA

PROJECT REVIEW CRITERIA: Snohomish County Code Section [4.14.100 \(2\)](#) and [4.14.100 \(3\)](#) establishes baseline criteria with which projects are to be evaluated. Please respond to all the questions below, explaining which of the following criteria the proposed project addresses and how the criteria are addressed. Provide justification for responses, attaching documentation (e.g. WDFW maps) as appropriate.

NOTE: Each project criteria in the application is referenced to a corresponding evaluation guideline in Attachment 2.

1. To what degree does the acquired property preserve open space, farm and agricultural land and timberlands? These acquisitions project farmland within a critical farming and floodplain corridor of Snohomish County. The most recent USDA analysis reported a decrease in farmland by 10% between 2012 and 2017. Moreover, this rate is likely to have accelerated in the Arlington area with the 2021 construction of a 600,000 sq foot Amazon fulfillment facility, driving up local housing and land prices and incentivizing farmland conversion.
2. How does the project conserve opportunities which are otherwise threatened by development? These properties sit in a critical farming and floodplain corridor of Snohomish County. The most recent USDA analysis reported a decrease in farmland by 10% between 2012 and 2017. Moreover, this rate is likely to have accelerated in the Arlington area with the 2021 construction of a 600,000 sq foot Amazon fulfillment facility, driving up local housing and land prices and incentivizing farmland conversion.
3. How does the project establish trail corridors and/or natural area linkage? The Fosters Corn Maze and Produce Stand borders on Portage Creek Preserve, and all projects are within close range of each other.
4. How does the project comprise a portion of a continuum of projects which collectively implement a complete project or objective? These projects are part of a larger Stillaguamish Basin Preservation Initiative which was proposed in the 2023-25 Floodplains by Design package submitted by the Stillaguamish Tribe. A prior Fbd/Conservation Futures Partnership has already served to protect the neighboring Albert Farm with a conservation easement, this would be a continuation of these ongoing efforts in the valley.
5. How does the project enhance or complement an ongoing conservation or preservation program? These projects are part of a larger Stillaguamish Basin Preservation Initiative which was proposed in the 2023-25 Floodplains by Design package submitted by the Stillaguamish Tribe. A prior Fbd/Conservation Futures Partnership has already served to protect the neighboring Albert Farm with a conservation easement, this would be a continuation of these ongoing efforts in the valley.

6. Will the project provide regional or community-wide significance?

Values served include cultural, economic, habitat, and community flood hazard concerns.

The Kraetz, Foster, and Thomas families all have deep history in the Stillaguamish Valley. Each one of the owners grew up, met their spouses, and raised their families here and they are all deeply committed to preserving the agricultural character and habitat values of their community in the face of increasing pressure from development.

These 4 conservation easements will protect over 230 acres of land and 5,810 feet of shoreline with both agricultural and habitat value. Most of this land is situated within the floodway and/or floodplain of the Stillaguamish. Most of it is also regulatory floodway with 1% annual chance of flooding.

These projects impact the local community, economy, and environment by not only maintaining the property's working farm and open space benefits, but also making the land more affordable for farmers in the future, should the owners someday decide to sell. So often, farmers looking to start or expand their businesses are priced out by the high cost of land. This forces farmers to move further from population centers to find affordable land to farm, but can increase the cost to transport goods to regional markets. By preserving a local multi-generational family farm for future generations, this project helps to celebrate the County's working agricultural and resource land heritage.

Protecting open spaces like these farms also helps to provide important habitat for wildlife species and multiple fish such as Chinook, Coho, Bull Trout, and Steelhead. Together, these species and riparian habitat are an ever-increasing regional and community-wide priority.

7. How does the project comply with one or more open space program policies and criteria?

This project directly aligns with the Conservation Futures Program's stated purpose "to acquire interests or rights in real property for the preservation of open space land, farm and agricultural land, and timber land per SCC 4.14.010". In addition, by preserving the agricultural resource land and values of the Albert Farm property in perpetuity, this project aligns with and is prioritized for protection as farmland in numerous local and regional planning efforts, including the Snohomish County Comprehensive Plan and the Snohomish County TDR/PDR program, the Growth Management Act, and the Current Use/Ag Taxation program. Conservation of the 90- acre Albert Farm would accomplish multiple goals and objectives, including conserving agricultural land, protecting the rural character of the area, and balancing natural habitat conservation with agricultural activities.

8. How does the project provide multi-jurisdictional benefit?

Acquisition of a conservation easement over these properties provides multi-jurisdictional benefits to Snohomish County, the Town of Arlington, State of Washington, Department of Ecology, Stillaguamish Tribe, Washington State Conservation Commission, and the agricultural community. Conservation of this farmland preserves historic family farms, maintains the rural character of the Arlington area, retains open space and wildlife habitats, protects salmon habitat, and provides the agricultural community and future farmers with contiguous farmland. In addition, see letters of support from the Snohomish County Conservation District and Washington Farmland Trust.

9. How will the project provide for public use and enjoyment?

Although the working lands conserved by Forterra are typically privately owned and protected via a conservation easement, protection of habitat for fish and wildlife species enhances the likelihood that the public will enjoy these opportunities along the Stillaguamish River and in nearby public lands. Forterra also works with landowner partners to encourage voluntary farm tours, educational events for the public, and opportunities for volunteers to participate in any restoration activities, such as plantings and invasive species removal.

10. Does this project represent a unique or special opportunity?

Snohomish County farmland is at risk. The SCCFP has a unique opportunity to complete protection of 4 high priority farmland properties in the Stillaguamish Valley, leveraging state funding from Floodplains by Design. Due to state funding deadlines, project partners cannot complete all four farmland protection projects without a SCCFP grant to bridge the funding gap. This grant application is of utmost need and a unique opportunity to quickly and decisively protect keystone farmland in a region where it is rapidly under threat.

ATTACHMENT 2: EVALUATION CRITERIA

Provided for Information Only

EVALUATION CRITERIA

The following material provides guidelines with which the Conservation Futures Program Advisory Board will evaluate project proposals. Separate guidelines are provided for several of the criteria, which differentiate between types of projects. Applicants should select the group which mostly closely aligns with their project, unless it is a combination of both, in which case both guidelines should be addressed. Guidelines are provided only to demonstrate typical considerations under each criterion. The guidelines provided are not intended to limit responses and applicants should address each criterion in their best judgment to fully represent their project.

Evaluation judgments will be made taking into consideration all the information and documentation provided in the application, as well as data gathered from proponent presentations and other CFPAB criteria. Applicants should provide justification for responses, attaching documentation (e.g. WDFW maps) as appropriate.

NOTE: Projects will be evaluated using a CFPAB approved review method. The CFPAB, at its discretion, may apply weighting factors to criteria it chooses to emphasize.

4. TO WHAT DEGREE DOES THE PROJECT COMPRISE A PORTION OF A CONTINUUM OF PROJECTS WHICH COLLECTIVELY IMPLEMENT A COMPLETE PROJECT OR OBJECTIVE?

This evaluation criteria responds to the desire that, as often as possible, funds from the Conservation Futures Program should support well defined larger plans or projects.

Related to larger planning document	Related to larger project
Maximum points will be awarded to project proposals that are part of a larger plan, which has been established to achieve specific goals or objectives. Responses to this criterion may be focused on larger, regional plans directed toward achieving a specific goal or may be focused on a single, larger land based project which is anticipated to be completed through multiple phases of acquisition.	
<p>Applicants should demonstrate how their project fits into a larger, regional plan. Items to address, as appropriate, include, but are not limited to:</p> <ul style="list-style-type: none"> • Identification of planning document which proposed project helps complete and/or supports. - Applicant demonstrates that the proposed project supports goals, objectives or defined phases of a larger plan or project but is not strongly linked to a specific phase of the planning document or project. Additionally, proposed projects may receive moderate scores related to this criterion if the referenced plan or project has not been formally vetted or did not include a rigorous outreach and stakeholder involvement process.
- Project is not part of a larger plan (lowest score).

5. TO WHAT DEGREE DOES THE PROJECT ENHANCE OR COMPLEMENT AN ONGOING CONSERVATION OR PRESERVATION PROGRAM?

10. TO WHAT DEGREE DOES THE PROJECT REPRESENT A UNIQUE OR SPECIAL OPPORTUNITY?

All project types
Maximum points will be awarded to those proposals which provide, to the greatest degree possible, a unique or special opportunity that occurs infrequently or which is one of a kind (e.g. the acquisition of a large or very rare property of rare habitat, open space, recreation, or historical value). Please note that Conservation Futures funding awards will be reimbursed based upon total actual project cost, at an amount not to exceed that percentage identified for Conservation Futures support on the Cost Worksheet and/or total funding award

recommended by CFPAB and authorized through County Council action (whichever is lower). Match documentation will be required prior to reimbursement.

Yes ____ No ____

C. IS THE PROJECT SPONSOR PREPARED TO PROVIDE LONG-TERM STEWARDSHIP FOR THE PROPOSED PROJECT?

Does the project proponent guarantee long-term maintenance and upkeep of the project site? Sponsors should reference their response to question 6 of Section II in answering this criterion. Yes ____ No ____

D. DOES THE PROJECT PROMOTE THE GOAL OF DISTRIBUTING CONSERVATION FUTURES FUNDING, OVER TIME, THROUGHOUT THE COUNTY?

B. Enforcement Mechanisms and Remedial Measures. If the Grantee finds what it believes to be a violation of this Conservation Easement, it may, at its discretion, use any available legal or equitable remedy to secure compliance, including but not limited to seeking injunctive relief and/or specific performance requiring the Grantor to cease and desist all activity in violation of the terms of this Conservation Easement and to return the Protected Property to its condition prior to any violation(s). Except when an imminent violation could irreversibly diminish or impair the Conservation Values of the Protected Property, the Grantee shall give the Grantor written notice of the violation and thirty (30) days in which to take corrective action prior to commencing any legal action. The failure of Grantee to discover a violation or to take immediate legal action shall not bar it from doing so at a later time or constitute a waiver of its rights. Grantee may use the Baseline Documentation as a basis for enforcing the provisions of this Conservation Easement but is not limited to the use of the Baseline Documentation to show a change of conditions.

C. Emergency Enforcement. If Grantee, in its sole discretion, determines that circumstances require immediate action to prevent or mitigate significant damages to the Conservation Values of the Protected Property, Grantee may pursue its remedies under this section without prior notice to Grantor or without waiting for the period provided for cure to expire.

D. Scope of Relief. Grantee's rights under this section apply equally in the event of either actual or threatened violations of the terms of this Conservation Easement. Grantor agrees that the Grantee's remedies at law for any violation of the terms of this Conservation Easement are inadequate and that Grantee shall be entitled to the injunctive relief described in this section, both prohibitive and mandatory, in addition to such other relief to which Grantee may be entitled, including specific performance of the terms of this Conservation Easement, without the necessity of proving either actual damages or the inadequacy of otherwise available legal

remedies. Grantee's remedies described in this section shall be cumulative and shall be in addition to all remedies now or hereafter existing at law or in equity.

E. Costs of Enforcement. In the event Grantee must enforce the terms of this Conservation Easement, any costs of restoration necessitated by acts or omissions of Grantor, its agents, employees, contractors, invitees or licensees in violation of the terms of this Conservation Easement and Grantee's reasonable enforcement expenses, including reasonable attorneys' and consultants' fees and costs, shall be borne by Grantor, its successors or assigns.

F. Waiver of Defenses. Grantor acknowledges it has carefully reviewed this Conservation Easement and has consulted or had the opportunity to consult with counsel of its terms and requirements. In full knowledge of the provisions of this Conservation Easement, Grantor hereby waives any claim or defense it may have against Grantee or its successors or assigns under or pertaining to this Conservation Easement based upon waiver, laches, estoppel or prescription.

G. Acts Beyond Grantor's Control. Nothing contained in this Conservation Easement shall be construed to entitle the Grantee to bring any action against Grantor to abate, correct or restore any condition in the Protected Property or to recover damages for any injury to or change in the Protected Property resulting from causes beyond Grantor's control, including fire, flood, storm, and earth movement or the like.

XII. Hold Harmless. Grantor hereby agrees to release and hold harmless, indemnify and defend Grantee, its officers, elected and appointed officials, employees and agents (collectively "Indemnified Parties") from all liabilities, penalties, costs, losses, damages, expenses, causes of action, claims, demands or judgments, including, without limitation, reasonable attorneys' and consultants' fees arising from or in any way connected with:

A. Injury to or the death of any person, or physical damage to any property, resulting from any act, omission, condition or other matter related to or occurring on or about the Protected Property that is not a consequence of an activity of the Indemnified Parties undertaken under the rights granted to Grantee under this Conservation Easement;

B. Violations or alleged violations of, or other failure to comply with, any federal, state or local law or regulation relating to pollutants or hazardous, toxic or dangerous substances or materials, including without limitation CERCLA (42 U.S.C. 9601 et seq.) and MTCA (Ch. 70.105D RCW), by any person other than any of the Indemnified Parties, in any way affecting, involving or relating to the Protected Property, unless such violations or alleged violations are due to the sole acts or omissions of any of the Indemnified Parties on the Protected Property;

C. The presence or release in, on, from or about the Protected Property, at any time, of any substance now or hereafter defined, listed or otherwise classified pursuant to any federal, state or local law, regulation or requirement of any substance hazardous, toxic or dangerous to

the air, water or soil, or in any way harmful or threatening to human health or the environment, unless caused solely by any of the Indemnified Parties.

XIII. Recordation. Grantee shall record this instrument in the Office of the Snohomish County Auditor and may re-record it at any time.

XIV. Notices. Any notice, demand, request, consent, approval, or communication that any party desires or is required to give to another party under the terms of this Conservation Easement shall be in writing and either served at or mailed to:

Grantee: Snohomish County
County Executive Office
3000 Rockefeller Avenue, M/S #407

or to such other address as any party from time to time shall designate by written notice to others.

XV. General Provisions.

A. **Amendment.** If circumstances arise under which an amendment to this Conservation Easement would be appropriate, the Grantor and Grantee may jointly amend this Conservation Easement by a written instrument to be recorded with the Snohomish County Auditor, provided that such an amendment does not diminish the effectiveness of this Conservation Easement in carrying out its purpose to permanently preserve and protect in perpetuity the Conservation Values of the Protected Property.

B. **Controlling Law.** The interpretation or performance of this Conservation Easement shall be governed by the laws of the State of Washington and the Laws of the United States. Any legal proceeding regarding this Conservation Easement shall be initiated in Snohomish County Superior Court.

C. **Interpretation.** This Conservation Easement shall be interpreted to resolve any ambiguities and questions of the validity of specific provisions to give maximum effect to its preservation purpose, as stated in Section II, above. If the Grantor has any doubt concerning the Conservation Easement, covenants, conditions, limitations or restrictions herein contained with respect to any particular use of the said Protected Property, it may submit a written request to the Grantee for consideration and approval of such use.

D. Definitions. Any masculine term used in this Conservation Easement shall include the female gender. The terms "Grantor" and "Grantee," wherever used in this Conservation Easement, and any pronouns used in their place, shall be held to mean and include respectively the above-named Grantor, its successors, and assigns, and the above-named Grantee, its successors and assigns.

E. Entire agreement. This Conservation Easement sets forth the entire agreement of the parties with respect to the issues addressed herein and supersedes all prior discussions, negotiations, understandings, or agreements relating to these issues, all of which are merged herein.

F. No forfeiture. Nothing in this Conservation Easement shall result in a forfeiture or revision of Grantor's title in any respect.

G. Successors. As stated in the above recitals, all covenants, terms, conditions, and restrictions of this Conservation Easement shall run with the land and be binding upon, and inure to the benefit of, the parties hereto and their respective successors and assigns.

H. Severability. If any portion of this Conservation Easement is declared unlawful or invalid, the remainder of the Conservation Easement shall remain in full force and effect.

I. Authority of signatories. The individuals executing this Conservation Easement warrant and represent that they are duly authorized to execute and deliver this Conservation Easement.

J. No merger. If Grantee at some future time acquires the underlying fee title in the Protected Property, the interest conveyed by this Deed will not merge with fee title but will continue to exist and be managed as a separate estate.

XVI. Environmental Compliance.

A. Grantor represents and warrants that, after reasonable investigation and to the best of Grantor's knowledge, Grantor and the Protected Property are in compliance with all federal, state and local laws, regulations and requirements applicable to the Protected Property and its use, including without limitation all federal, state and local environmental laws, regulations and requirements.

B. Grantor further represents and warrants that there has been no release, dumping, burying, abandonment or migration from offsite onto the Property of any substances, materials or wastes that are hazardous, toxic, dangerous or harmful or are designated as, or contain components that are subject to regulation as hazardous, toxic, dangerous or harmful by any federal, state or local law, regulation, statute or ordinance. There is no pending or threatened litigation affecting the Property or any portion of the Property that will materially impair the Conservation Values. No civil or criminal proceedings have been instigated or are pending

C. Remediation. If at any time there occurs or has occurred a release in, on or about the Property of any substances now or hereafter defined, listed or otherwise classified pursuant to any federal, state or local law, regulation or requirement as hazardous, toxic or dangerous to the air, water or soil, or in any way harmful or threatening to human health or environment, Grantor agrees to take all steps necessary to assure its containment and remediation, including any cleanup that may be required, unless the release was caused by the Grantee, in which case Grantee shall be responsible for remediation.

Snohomish County
Conservation Futures Program Advisory Board

Re: Letter of support for Forterra's preservation funds request; Stillaguamish Farm Projects

Dear Conservation Futures Program Advisory Board,

The Snohomish Conservation District fully supports Forterra's application for funding to preserve 234 acres of prime farmland on the Kraetz, Foster, and Thomas Farms. We have worked with Forterra, Washington Farmland Trust, and our local farmers for the past four years to prioritize protection of agricultural land at risk of development. Your support of Forterra's request will secure this important agricultural land in perpetuity.

Approval of this funding request will support the viability of the Kraetz, Foster, and Thomas Farms today and into the future. Moreover, it will support the viability of agriculture overall in Snohomish County, as preserving our active farmland is imperative to maintain a healthy infrastructure for all farmers in the region.

In addition, preserving the Kraetz, Foster, and Thomas Farms also contributes to flood mitigation and wildlife habitat protection. Because of the location of the majority of this land is along the Stillaguamish river or on its floodplain, preserving them as farmland protects downstream properties from flooding and contributes to juvenile salmonid survival by lowering the velocity of the floodwaters.

The CFPAB's support of this proposal will leverage existing funding from the Washington State Conservation Commission and the Department of Ecology's Floodplains by Design program. With Conservation Futures funding, the Snohomish Conservation District and Forterra will fully fund and secure conservation easements on each of the 5 properties. These easements will contribute to preserving a viable farming economy in the Stillaguamish Valley, reducing flood risk, and protecting wildlife habitat. Thank you for your consideration of this proposal.

Sincerely,

Conservation Futures Program Advisory Board

Re: Letter of support for Forterra's preservation funds request; Stillaguamish Farm Projects

Dear Conservation Futures Program Advisory Board,

The Stillaguamish Tribe of Indians, Natural Resources Department supports Forterra's application for funding to preserve 234 acres of farmland on the Kraetz, Foster, and Thomas Farms. These farms were included in our application submitted for the 2023-2025 round of funding from the Washington State Conservation Commission and the Department of Ecology's Floodplains by Design program. The CFPAB's support of this proposal will thereby leverage this funding to ensure it is used as intended to protect land in the Stillaguamish Valley.

We have worked with Forterra, Washington Farmland Trust, and other partners to prioritize protection of land in the historic floodplain that is at increased risk of development. Suburban development is a significant pressure in the Stillaguamish watershed, with homes springing up in a several mile radius from these farms, all of which are zoned Ag-10 and have buildable lots.

Protecting the land and preventing development in the floodplain maintains open space, reduces flood risk to downstream and adjacent properties, and allows for future restoration opportunities that will benefit fish and wildlife populations in the Stillaguamish watershed.

Your support of Forterra's request will help meet these goals and secure this important land in perpetuity. Thank you for your consideration of this proposal.

Sincerely,

Sara Thitiprasert

RECITALS

- A FOSTER is the owner of approximately 57 acres of property

Approximately 7.3 acres of this property, which is legally described on the attached Exhibit "A", has been designated by Snohomish County to be in the CITY's urban growth area (UGA) (hereafter "the Property") The approximately 50 acre balance of FOSTER's land shall be referred to herein as "the Lowland Property"
- B FOSTER has petitioned to the CITY to have the Property annexed to the CITY
- C An appeal has been filed of the County's designation of the Property as within the CITY's UGA by Futurewise, the Pilchuck Audobon Society and others ("FUTUREWISE")
- D The CITY, acting in its legislative capacity, has a willingness to annex the Property, upon certain terms and conditions

NOW, THEREFORE, the parties do agree as follows

COVENANTS

- 1 Agreement to Annex Subject to applicable legal requirements, the CITY agrees to annex the Property, subject to the following additional conditions

- a FOSTER shall take all steps necessary to cause the Lowland Property to participate in the City of Arlington-Snohomish County Transfer of Development Rights (TDR) program, by which FOSTER agrees to sell the development rights to the Lowland Property at fair market rates in exchange for a permanent easement which will permanently restrict and limit the Lowland Property's use to agricultural uses
 - b FOSTER shall dedicate, whether by easement, by reduction of the annexation property, by restrictive covenant, or by other legal means, approximately one acre of the Property to be permanently used for barns or other structures necessary for the support of the agricultural and agri-tourism uses on the Lowland Property
 - c FOSTER shall dedicate an easement across the Property sufficiently wide to provide access for tractors and farm equipment to access 59th Drive NE from the Lowland Property to limit the need for said equipment to utilize State Highway 530, thereby reducing congestion and protecting the safety of agricultural workers and the traveling public
- 2 Obligations of FOSTER FOSTER agrees to execute whatever additional documents may be reasonably required to fully implement this agreement, including, but not limited to, those easements, restrictive covenants, or other documents which may

relate to the use of one acre of the Property for barns or other farming structures, and the access easement described in paragraphs 1(b) and 1(c), above

- 3 CITY may Condition Development on Compliance In addition to whatever other regulations of general application (e g , the CITY land use code, zoning restrictions, environmental laws) may apply to the Property, FOSTER agrees that the CITY may further condition any future development within the property to be annexed to the CITY upon compliance with the terms and conditions of this agreement. If deemed necessary, the CITY may deny development applications upon the Property until such time as FOSTER has completed the dedications, easements, or other conveyances required by this agreement, provided, however, that sale of the development rights shall not be required as a condition so long as FOSTER continues to participate in the TDR program.
- 4 Covenant on Property This agreement shall be a covenant on the Property and shall bind the heirs, executors, assigns, and successors in interest of the undersigned relating to the Property.
- 5 Dispute Resolution The CITY and FOSTER mutually agree to use a formal dispute process such as mediation, through an agreed upon mediator and process, if agreement cannot be reached regarding interpretation or implementation of any provision of this Agreement. The parties shall use the mediation process in good faith.

to attempt to come to Agreement prior to any other litigation or administrative process for the adjudication of their relative rights and responsibilities

- 6 Relationship To Existing Laws And Statutes This Agreement in no way modifies or supersedes existing laws and statutes. In meeting the commitments encompassed in this Agreement, all parties shall comply with the requirements of the Growth Management Act, State Environmental Policy Act, Annexation Statutes, and other applicable federal, state or local law.
- 7 Severability Should a court of competent jurisdiction declare any clause, phrase, sentence or paragraph of this AGREEMENT invalid or void, the remaining provisions of this AGREEMENT not so declared shall remain in full force and effect.
- 8 Exercise Of Rights Or Remedies Failure of either party to exercise any rights or remedies under this AGREEMENT shall not be a waiver of any obligation by either party and shall not prevent either party from pursuing that right at any future time.

AMENDED AGREEMENT REGARDING CONDITIONS OF ANNEXATION

The parties to this agreement are LAURIN FOSTER and BETTY FOSTER, husband and wife (hereinafter "FOSTER") and the CITY OF ARLINGTON, a municipal corporation of the state of Washington (hereinafter "CITY")

RECITALS

- A FOSTER is the owner of approximately 57 acres of property

Approximately 73 acres of this property, which is legally described on the attached Exhibit "A", has been designated by Snohomish County to be in the CITY's urban growth area (UGA) (hereafter "the Property") The approximately 50 acre balance of FOSTER's land shall be referred to herein as "the Lowland Property"
- B FOSTER has petitioned to the CITY to have the Property annexed to the CITY and the City approved an annexation based on an agreement entitled "Agreement Regarding Conditions of Annexation" which was previously recorded under Snohomish County Auditor's File No 200703290903
- C The parties wish to amend their prior agreement described in paragraph (B) of RECITALS, above This Amended Agreement Regarding Conditions of Annexation supersedes and replaces the prior Agreement Regarding Conditions of Annexation described in paragraph (B) of RECITALS, above

NOW, THEREFORE, the parties do agree as follows

COVENANTS

1. Agreement to Annex Subject to applicable legal requirements, the CITY has agreed to annex the Property, subject to the following additional conditions.
 - a. FOSTER shall take all steps necessary to cause the Lowland Property to participate in the City of Arlington-Snohomish County Transfer of Development Rights (TDR) program, by which FOSTER agrees to sell the development rights to the Lowland Property at fair market rates based upon appraisal principles. If the City of Arlington-Snohomish County Transfer of Development Rights (TDR) program is discontinued or terminated before FOSTER has sold all or any portion of FOSTER's development rights pursuant to said program, then FOSTER shall not be further obligated to participate in such program in regard to their remaining development rights. "Discontinued or terminated", as used above, shall include a situation in which the TDR program has no receiving area, either formally proposed or in existence, to which FOSTER's development rights can be transferred.
 - b. FOSTER shall dedicate, whether by easement, by reduction of the annexation property, by restrictive covenant, or by other legal means, approximately one acre of the Property to be permanently used for barns or other structures necessary for the support of the agricultural and agri-tourism uses on the Lowland Property. The City shall expeditiously consider a subdivision or other process to separate the approximately one acre from the remainder of the Property. The uses on the

approximately one acre may include a single family residence. The CITY agrees it shall not apply the zoning regulations applicable in its General Commercial zone to the approximately one acre of property once it is subdivided or separated from the remainder of the property, if it is being utilized to support agricultural and agri-tourism uses on the Lowland Property. The CITY agrees that the approximately one acre was "prior converted farmland" and should continue to be treated as such.

- c. FOSTER shall dedicate an easement across the Property sufficiently wide to provide access for tractors and farm equipment to access 59th Drive NE from the Lowland Property. Said access may be included within the approximate one acre parcel described in paragraph 1(b) above.

- 2. Obligations of the Parties FOSTER and the CITY agree to execute whatever additional documents may be reasonably required to fully implement this agreement, including, but not limited to, those easements, restrictive covenants, or other documents which may relate to the use of one acre of the Property for barns or other farming structures, and the access easement or access through the approximately one acre described in paragraphs 1(b) and 1(c), above.

- 3. CITY may Condition Development on Compliance In addition to whatever other regulations of general application (e.g., the CITY land use code, zoning restrictions,

environmental laws) may apply to the Property, FOSTER agrees that the CITY may further condition any future development within the property to be annexed to the CITY upon compliance with the terms and conditions of this agreement. If deemed necessary, the CITY may deny development applications upon the Property until such time as FOSTER has completed the dedications, easements, or other conveyances required by this agreement, provided, however, that sale of the development rights shall not be required as a condition so long as FOSTER continues to participate in the TDR program.

4. Covenant on Property This agreement shall be a covenant on the Property and shall bind the heirs, executors, assigns, and successors in interest of the undersigned relating to the Property. Upon request from FOSTER, the CITY will release all but the approximately one acre of the property from the terms and conditions of this agreement, but only to the extent that FOSTER or their successors and assigns have fully complied with the terms and conditions of this agreement.

5. Dispute Resolution The CITY and FOSTER mutually agree to use a formal dispute process such as mediation, through an agreed upon mediator and process, if agreement cannot be reached regarding interpretation or implementation of any provision of this Agreement. The parties shall use the mediation process in good faith to attempt to come to Agreement prior to any other litigation or administrative process for the adjudication of their relative rights and responsibilities.

- 6 Relationship To Existing Laws And Statutes This Agreement in no way modifies or supersedes existing laws and statutes. In meeting the commitments encompassed in this Agreement, all parties shall comply with the requirements of the Growth Management Act, State Environmental Policy Act, Annexation Statutes, and other applicable federal, state or local law.
- 7 Severability Should a court of competent jurisdiction declare any clause, phrase, sentence or paragraph of this AGREEMENT invalid or void, the remaining provisions of this AGREEMENT not so declared shall remain in full force and effect.
- 8 Exercise Of Rights Or Remedies Failure of either party to exercise any rights or remedies under this AGREEMENT shall not be a waiver of any obligation by either party and shall not prevent either party from pursuing that right at any future time.
