Publish Date	Jul 09, 2024 08:03 PM (PDT)
Description	This package reflects the changes to the baseline Tourism Funds. Fund 116 Lodging Tax - Local Sub-Fund 001 and County-wide Sub Fund 002, as well as the Tourism Promotion Area Fund 100. These changes are consistent with the Six Year Plans.
Summary	

Tourism Promotion Area (TPA) Fund - 100

Expenditures: Base expenditures are adjusted to reflect the 2025 and 2026 Tourism Workplan and Six Year Plan. The \$1.00 increase to the TPA assessment has approximately doubled fund revenues in relation to pre-COVID-19 levels, and significantly increased the ending fund balance. In Q4 of 2023, with by-in from the TPA Advisory Board, County staff submitted an RFP for a third-party consultant to assist the TPA Advisory Board in outlining priorities for eligible use of the funds in the coming years. Third party research was completed in Q2 of 2025, and results of the study will be outlined in the 2025 TPA Business Plan.

Small Fund - Local Hotel/Motel Tax - 116-001

Expenditures: Base expenditures adjusted to reflect 2025 and 2026 Workplan and Six Year Plan. Due to a sustainable revenue stream, the Hotel Motel Grant program has been budgeted to increase \$50,000 in 2025 and 2026, \$650,000 and \$700,000 respectively.

Large Fund - County-wide Hotel/Motel Tax 116-002

Expenditures:

Tourism Programs: Expenditures dedicated to the County Destination Marketing & Management Organization (DMO) are adjusted to cover the full scope of countywide marketing & promotional strategies in 2025 and 2026. Please refer to the 'Fund Recovery' description below for additional details. The County DMO work will continue to prioritize the following: Use of professional digital marketing and public relations services to promote the destination; staff FTE roles to proactively engage industry leaders; manage the DMO and County Lodging Tax Grant programs; and implement the recently updated countywide Strategic Tourism Plan (STP), which sets county tourism goals, outputs.

Adjustments for Long Term Commitments:

Lynnwood Convention Center - ILA - Budgeted for \$985,886. No adjustments will be made to 2024 PFD allocations, as 2023 revenues were higher than projected, and the Lynnwood PFD allocation did not exceed 1/3 of annual receipts per ILA.

Everett Memorial Stadium & Everett PFD - Effective in 2022 Everett will receive the same allocation as Lynnwood per ILA. Budgeted for an aggregate total of \$985,886.

Edmonds Center for the Arts - Per ILA Edmonds will receive 100k per year for years 2021-2025; after which 100k will be available for PFD application.

Fund Recovery:

Actual Large Fund revenues for 2020 and 2021 were measured at 52% and 77% of pre-COVID revenues, respectively. The combination of revenue loss, along with the LTACs decision to hold long-term commitments and reserve levels in place at the end of 2021, has put significant stress on the Large Fund. While revenues are showing significant recuperation, previous depletion of the fund balance has had a lasting impact on countywide tourism programs.

In 2021, Snohomish County Tourism received \$2.1M from the American Rescue Program (ARPA) to support a countywide marketing recovery campaign, to be spent by the end of December 2024.

ARPA dollars significantly assisted in the recovery of the Large Fund. Countywide Hotel Motel Funds allocated to County DMO Professional Services were temporary decreased in 2023 and 2024, allowing for an increase in the ending fund balance year over year. At the May 16, 2023, Lodging Tax Advisory Committee meeting, the committee voted to recommend full funding of the County DDMO, beginning in 2025 onward.

Large Fund expenditures are projected to dip into the fund balance in 2025 and 2026, but level out in 2027. To ensure long-term sustainability of the Large Fund, the tourism staff will consider seeking support from the Tourism Promotion Area Board to supplement portions of the \$1.5M DMO Professional Services budget in 2025 and beyond.

Change Request	AUTO - 391 - Economic Development/ Position Adjustment
Change Request Type	Position Adjustments
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:15 PM (PDT)
Description	This package reflects the proposed reclassification requests for Economic Development FTEs in 2025 and 2026.
Summary	<p>In the effort to establish parity within the Executive's Office, we are recommending all Economic Development FTEs be transferred from Classified to Management and Exempt (M/E) beginning January 1, 2025. The attached "EcoDevo - Reclass Change Request in Questica" outlines proposed classification and step adjustments for each FTE impacted by this change. Reclassification requests are in the process of being reviewed and evaluated by Human Resources.</p>
Justification	<p>All reclassification changes align with the proposed 2025 and 2026 Economic Development organizational chart. Each FTE within Economic Development is split between two or more buckets of work, whether it is tourism, workforce, and/or economic development. As a result, the majority of salaries are associated with tourism and workforce funds, which have the capacity to support the proposed pay ranges long-term. Even with the proposed position adjustments, Economic Development's 2025 and 2026 general fund obligations will still meet the 3% resource alignment requirements.</p>

Change Request	AUTO - 425 - Economic Development/Position Reallocations
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:17 PM (PDT)
Description	This package reflects changes to Economic Development staffing to align with 2025 and 2026 workplans.
Summary	
Justification	Economic Development FTEs have been reallocated to better align fund distribution with 2025 and 2026 staff job duties and tasks. The FTE allocation to general fund has been lower from 1 FTE to .75 FTE to assist in resource alignment. The reallocation of FTEs to workforce and tourism fund is a direct result of the increase scope of work associated with implementing workforce and tourism strategies.

 Change Request: AUTO - 438 - Economic Development/ Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:19 PM (PDT)
 Description: This package reflects the division Economic Development's plan for achieving the 3% reduction in general fund.
 Summary:

Justification: In order to achieve the 3% reduction in general fund, the Economic Development division plans to redistribute FTE allocations between general fund, tourism and workforce development programs. These changes support the 2025 and 2026 division workplans, which outline an increased scope of workforce and tourism work associated with the implementation of tourism and workforce plan strategic initiatives. For additional general economic development work that falls outside the scope of tourism and workforce (specifically WIOA eligibility), the Economic Development division has the ability to lean on contracted industry partners for support.

Change Request Summary

Department	0001 - Executive
Change Request	AUTO - 454 - Economic Development/Revenue Adjustment
Change Request Type	Revenue Adjustment Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:20 PM (PDT)
Description	This package reflects 2025 and 2026 revenue estimates funds associated with tourism, arts, and workforce development.
Summary	<p>TOURISM DEVELOPMENT</p> <p>Tourism Promotion Area (TPA) Fund - 100</p> <p>Revenues: Revenues are set to reflect projected fund recovery in the Six Year Plan. Per the approval of Ordinance # 20-023 amending Title 4, Chapter 118 to increase the Tourism Promotion Area (TPA) lodging charge from \$ 1.00 per night to \$ 2.00 per night. This charge became effective on July 1, 2020 and is reflected in the updated revenues. Estimates for 2025 and 2026 are based on a 3% increase over 2023 actual revenues.</p> <p>Small Fund - Local Hotel/Motel Tax - 116-001</p> <p>Revenues: 2025 and 2026 revenues are set at 3% increase from 2023 actual revenues, as reflected in the Six Year Plan. Small fund revenues did not see a significant negative impact during COVID - this is likely due to high demand of camping and short-term rentals during the pandemic.</p> <p>Large Fund - County-wide Hotel/Motel Tax 116-002</p> <p>Revenues: 2025 and 2026 revenue projections are set at 3% increase from 2023 actual revenues. Tourism industry visitation trends are beginning to stabilize after the COVID-19 pandemic. 2024 actual revenues were higher than anticipated, thus 2025 and 2026 projections have been adjusted to reflect industry recovery</p> <p>WORKFORCE DEVELOPMENT</p> <p>Workforce Innovation and Opportunity Act (WIOA) Grant Fund - 130</p> <p>Revenues: 2025 and 2026 grant revenues are projected to cover all WIOA eligible expenditures.</p> <p>ARTS COMMISSION</p> <p>Arts Fund - 199</p> <p>Revenues: 2025 and 2026 revenues are set to reflect projected income from Parks and Recreation, Fair Park, and Facilities capital projects.</p>

Change Request Summary

Department: 0002 - Legislative
 Change Request: AUTO - 254 - Administrative Assistant - Allocation Change
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:05 PM (PDT)
 Description: allocates 100% of position COU7670 to Legislative Services Program
 Summary:
 Justification: Current state has 40% of the Council's front-desk receptionist allocated to Fund 506 as the position previously provided administrative support to the Prosecuting Attorney's office. The position COU7670 no longer provides administrative support to the PA's office and this change request allocates 100% of the position to the Legislative Services Program.

Description	Adjustments to the PSTAA Program Budget
Summary	
Justification	These adjustments are made to reflect more accurately planned 2025-2026 PSTAA program and direct services activities. Specifically, add an estimate of 4.5% COLA contingency for 2024 plus 2.5% in 2025, and another 2.5% COLA contingency in 2026. Discretionary line items were adjusted based on current and planned activities. Revenues were adjusted based on actual receipts during the period 4/1/2023-3/31/2024.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 175 - HS CD/MH Sales Tax Enhanced Services
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:56 PM (PDT)
 Description: HS Chemical Dependency Mental Health (Sales Tax) contracted and direct services.
 Summary:

These adjustments are made to reflect more accurately planned 2025-2026 Chemical Dependency/Mental Health contracted and direct service activities.

Justification: Line items were adjusted based on current contracts plus 2.5% for 2025 and 2026. Housing Capital grant funds are anticipated to be fully drawn during 2024. Season shelter dollars were increased based on projected need.

CD/MH Sales tax collections are adjusted, based on a projected increase of 5% for 2025 and 5% for 2026. Other revenue sources are adjusted based on current actuals. Use of program fund balance will be adjusted once remaining county departments requests have been submitted.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 200 - HS Housing, Homelessness, and Community Development
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:58 PM (PDT)
 Description: Adjustments to the Housing, Homelessness, and Community Development program budget
 Summary:

Justification: These adjustments are being made to more accurately reflect planned 2025 and 2026 projected activity. This change request includes a request for 6 new Community Services Counselor positions. 3 of these are project positions scheduled to end 12/31/2025, and 2 are regular positions funded with Senior Housing Navigation funds, and 1 is a regular position funded with State grant funds (SDG-HEN).
 A COLA contingency was included of 4.5% for 2024 plus 2.5% in 2025, an additional contingency of 2.5% in 2026. Other changes to discretionary line items were based on planned activities. Revenues were adjusted based on current and projected grant awards.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 202 - HS Position Reclassifications/Pay Range Adjustments
 Change Request Type: Position Adjustments
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:59 PM (PDT)
 Description: This Change Request accounts for the impact of potential reclassifications within the Human Services Department
 Summary:

Human Services has received 8 employee-initiated requests for reclassification and Management has initiated 5 requests. Management initiated requests are an effort to create parity among like and related positions should the employee-initiated requests be approved.

Justification: In addition, Management is initiating 4 salary rate adjustment requests due to changes in grant requirements which have dramatically increased the volume and complexity of the job responsibilities of the 4 identified positions. These 4 positions were also identified in the class/comp study as candidates for salary rate adjustments. The proposed new pay grades most closely align with the wage recommended by the consultant.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 204 - HS Affordable Housing & BH Sales Tax
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:59 PM (PDT)
 Description: Adjustments to the Affordable Housing and Behavioral Health Sales Tax Budget
 Summary:

Justification: These adjustments are made to reflect more accurately planned 2025-2026 Affordable Housing and Behavioral Health Sales Tax activities. Revenue was estimated based on projected receipts. A request for 1 additional Human Services Specialist 2 is included in this change request. Please note that for 2025 and 2026 program numbers were rearranged to more accurately align with the new 6-year plan. Program 465 is utilized for Operations, Evaluation, and Administration; Program 466 for both Affordable housing Construction/Aquisition and Supportive Housing Construction/Acquisition; Program 467 is utilized for Behavioral Health Facility Construction/Acquisition; Program 468 is used for Housing Preservation O&M (Facilities New Start Center O&M use interfund expenditure object 9101); Program 469 is utilized for Supportive Housing Services.

Department: 0004 - Human Services
 Change Request: AUTO - 205 - HS Affordable & Supportive Housing Sales Tax
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:59 PM (PDT)
 Description: Adjustments to the Affordable and Supportive Housing Sales Tax budget
 Summary:

Justification: These adjustments are being made to more accurately reflect planned 2025 and 2026 Affordable and Supportive Housing Sales Tax activities. Revenue receipts were adjusted to reflect estimated collections in 2025 and 2026. Professional services is reduced by \$2m in 2026 as we anticipate many capital projects will be funded during 2025. We estimate that we will utilize \$3m of fund balance in 2025 and another \$988k in 2026. These funds are utilized in addition to 1590 sales tax for Affordable Housing Construction/Acquisition and Supportive Housing Construction/Aquisition.

 Description: Adjustment to the Energy Assessment Program Budget
 Summary:

Justification: These adjustments are made to reflect more accurately planned 2025-2026 Energy Assistance Program and direct services activities. Specifically, add an estimate of 4.5% salary COLA contingency. Adjust discretionary line items based on current trends and planned activities. Adjust estimated program revenues based on the current proforma.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 237 - HS Veterans Assistance
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:03 PM (PDT)
 Description: Adjustments to the 2025-2026 Veterans Assistance Administration Budget.
 Summary:

Justification: These adjustments are made to reflect more accurately planned 2025-2026 Veterans Assistance Administration and direct services activities. Specifically, add an estimate of 4.5% salary COLA contingency. Millage projected for 2025 is based on the 2024 actuals plus 1% each year. Adjust discretionary line items based on current trends and planned activities. Adjust estimated program revenues based on the current proforma.

Net Operating Budget: 247,733

Department: 0004 - Human Services
 Change Request: AUTO - 246 - HS Family Support Centers
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:04 PM (PDT)
 Description: Adjustments to the 2025-2026 Family Support Centers budget.
 Summary:
 Justification: This change request was entered to add 1 additional fully certified Family Support Center (FSC) in 2025, and another in 2026. The additional funding for these FSCs (\$20k in 2025, and \$40k total in 2026) will come from filing fees and/or program fund balance.

 Description: Adjustments to the Chemical Dependency Mental Health 2025-2026 Budget.
 Summary:

These adjustments are made to reflect more accurately planned 2025 and 2026 Chemical Dependency Mental Health (CDMH) Sales Tax activities.

Justification: Specifically, add an estimate of 4.5% 2024 plus 2.5% COLA contingency was added in 2025. We added an estimate of 2.5% for 2026. This change request adds a 1.0 FTE Human Services 2 position to assist with activities of daily living assessments. Other discretionary line items were adjusted based on current trends and planned program activities. Revenues were adjusted based on projected CDMH receipts and anticipated 2025 2026 service fees charged for Social Service Worker services, Involuntary Treatment court fees, and other miscellaneous fees.

Description	Adjustments to the Human Services Case Management budget
Summary	
Justification	Adjustments are necessary to the Proforma budget to reflect current and projected Program activity. This includes adjusting Federal and State revenue estimates to reflect projected caseload growth and increasing fte's in 2025 and 2026 by 10.0 FTE and 5.0 FTE respectively, to respond to impact of the caseload growth.

Description	Adjustments to the Long Term Care and Aging Program budgets.
Summary	These changes are being made to more accurately reflect planned 2025 and 2026 changes.
Justification	<p>We added 12 new FTE's in 2025 and 2 additional in 2026. These position are necessary to accommodate the new WA CARES program and to support MAC/TSOA.</p> <p>Discretionary line items were adjusted based on planned activities.</p> <p>Grant revenues were adjusted based on project grant contracts in 2025-2026.</p>

 Change Request: AUTO - 317 - HS Early Intervention Services
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:11 PM (PDT)
 Description: Adjustments to the Early Intervention Services budget
 Summary:

Justification: Adjustments are necessary to the Proforma budget to accurately reflect projected revenue and expenditures during 2025 - 2026. Specifically, revenues are being adjusted based on current contract estimates, program fund balance is being added to support the program needs and discretionary expenditures are being adjusted based on current spending patterns, including adding a COLA contingency of 4.5% for 2024 and 2.5% for 2025 and 2026. This program also includes the addition of 1.0 FTE's necessary to meet programmatic requirements.

Description	Adjustments to the HS Early Head Start program. (Companion request to Change Request #383)
Summary	
Justification	These adjustments are made to reflect more accurately planned 2025-2026 Early HeadStart Program. Specifically, add an estimate of 4.5% COLA contingency for 2024, 2.5% for 2025, and 2.5% for 2026. Adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in-depth review of award amount and projected program activities. Add additional .93 FTE and reclassifying of 4.0 FTEs of Infant Toddler Specialist to Infant Toddler Specialist-LEAD necessary to meet programmatic requirements.

Change Request	AUTO - 380 - HS Developmental Disabilities
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:14 PM (PDT)
Description	Adjustments to the Developmental Disabilities Administration budget
Summary	
Justification	Adjustments are necessary to the Proforma budget to accurately reflect projected revenue and expenditures during 2025 - 2026. Specifically, revenues are being adjusted based on current contract and millage estimates, and program fund balance is being adjusted based on existing needs. Add an estimate of 4.5% COLA contingency for 2024, and 2.5% for 2025, and 2.5% for 2026. This program also includes the addition of 2.0 FTE's necessary to meet programmatic requirements.

Change Request Summary

Department	0004 - Human Services
Change Request	AUTO - 430 - HS Early Childhood Assistance Program
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:18 PM (PDT)
Description	Adjustments to the 2025-2026 Early Childhood Assistance Program budget.
Summary	
Justification	These adjustments are made to reflect more accurately planned 2025-2026 Early Childhood Assistance Program. Specifically, add an estimate of 4.5 COLA contingency for 2024, 2.5% for 2025, and 2.5% for 2026. Also, to adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in-depth review of award amount and projected program activities. This program also includes the addition of 1.0 FTE's necessary to meet programmatic requirements.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 588 - HS Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:25 PM (PDT)
 Description: The 2025-2026 budget instructions request General Fund departments to submit a Change Request that identifies a plan to achieve a reduction ("Resource Alignment") equivalent to 3% of their pro forma base. For Human Services, this amounts to a total reduction of \$169,712.
 Summary:

To arrive at our Resource Alignment reduction amount, we utilized similar criteria that have been used with previous reduction assignments:

- * Minimize impact to clients
- * Programs that could be backfilled with other resources
- * Minimize community challenges

Justification: We believe both our General funded programs can absorb the reduction within our existing 2025 and 2026 budgets. The CASA program believes they will be able to reduce the amount spent for Attorney fees in 2025-2026 coupled with a decrease in other budget line items will be sufficient to absorb the reduction.

Human Services Administration has a position which will likely remain vacant during 2025, and we've increased our Admin Reimbursables charges to fund 124 programs which have utilized more of Administrative Services staff time during 2023 and YTD 2024. The total increase in reimbursable charges for 2025 and 2026 is \$132,246.

Description	Position Allocation Correction for PDS3404R Code Enforcement Officer Senior
Summary	
Justification	Position # PDS3404R was charged to the incorrect cost center during the budget preload process. This position is a Code Enforcement Officer Senior and should be in cost center 002-521 Code Enforcement. PDS had assigned this position temporarily to Fire Investigations, but it should be in Code Enforcement in the budget.

Change Request	AUTO - 121 - PDS New Positions - Permitting
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:49 PM (PDT)
Description	<p>Request six new positions in Permitting Fund 193 needed to handle increased permit volumes and high workloads, provide acceptable levels of customer service, and meet new review time frames mandated by the Washington State Legislature in Senate Bill 5290. The Washington State Auditor's Office conducted a performance audit of PDS's permit review time frames and found that PDS did not meet minimum time frames set forth in state law. PDS met time frames for only 24% of land use applications, 40% of civil permits, and 91% of building permits. The SAO recommended that PDS "analyze cost of service and staffing levels needed to achieve 120-day performance..." PDS has conducted this review and determined that more staff is needed to perform permit reviews. PDS has reviewed and will continue to review its permit fees and bring forth to Council recommended fee adjustments to support the additional FTEs.</p> <p>Fluctuation in permit and inspection volumes is normal for PDS and we handle it by adjusting staffing levels accordingly. When we need to reduce staff, we do so by not filling vacancies, redirecting existing staff to other areas in need, or eliminating positions in the budget. PDS budgets over the last several years have demonstrated this. When we need to increase staffing in certain areas, we find ways to do so such as by redirecting existing resources or hiring temporary employees. We currently have run out of options with existing budgeted FTEs and simply need to add staffing resources and capacity to handle the permit volumes we are experiencing. The current six-year housing unit forecast through the year 2030, based on current demographics and economic conditions, indicates a steady increase in permitted housing units annually for unincorporated Snohomish County. Therefore, these positions are needed now and well into the future. We feel that our approach to managing PDS resources is fiscally prudent and demonstrates accountability to our customers in terms of our efforts to keep permit fees as low as possible. However, when we cannot deliver good customer service and our time frames are too long, we need to take action to avoid losing credibility. Therefore, we ask for Council's approval to add five staff to the 2024 PDS budget in order to meet our current and future business needs.</p>

Summary

For the past several years, PDS has either reduced staff or managed FTEs very conservatively due to anticipated budget deficits and uncertainty in permit forecasts. A very large backlog of permits in the pipeline has developed, which means that the number of permits assigned to each staff person is unreasonably high and therefore review time frames are higher than what the public expects and what is mandated by SB 5290. A brief description of the business need for each position is noted below:

Justification

1. Plans Examiner - PDS is requesting one new Plans Examiner to perform reviews of residential construction plans. We currently have two Plans Examiners who conduct residential plan review. This is insufficient to handle the high volume of permits needing plan review (there are hundreds of permits in the queue awaiting review). Single family residences, duplexes, accessory buildings, garages, accessory dwelling units, ag buildings, decks, and carports are just a few of the many types of new construction permits that need plans reviewed. There are also many alterations, additions and conversions that require plan review. Current time frames for review are unacceptable to customers. We need to add capacity to the plan review team to provide acceptable levels of service and meet the new time frames set forth in SB 5290.
2. Building Inspector - In 2023, PDS eliminated two Building Inspector positions due to lower inspection volumes. Since then, permit volumes have increased and as a result the average daily inspections has also increased. We need to add back one Building Inspector to handle the additional workload, as well as provide coverage for the inspector team that is already stretched thin when vacations, illnesses or training needs arise. Building inspections are critical to builders during the construction of new buildings and residents who are remodeling their homes. Delays in inspections cost builders time and money. We need to be able to meet the volume of daily inspections scheduled by customers.
3. Site Inspector - PDS is requesting a new Site Inspector to assist with the large volume of residential and commercial land development activity permits. For many years, PDS has had only four site inspectors who handle land use, clearing, grading, drainage, and right-of-way inspections. The work itself is highly specialized and requires a great deal of knowledge and experience in order to achieve proficiency in the position. The position is also needed for succession planning so that when retirements or turnover occurs in the next couple of years, we are ready and have someone trained to maintain existing levels of service.
4. Senior Fire Inspector - A team of four fire inspectors annually perform over 5,000 fire-related inspections; technical plan review for all commercial structures and land use permits to determine fire code compliance; plan review of residential fire sprinkler systems; and plan review of all fire systems. PDS needs another Senior Fire Inspector to perform inspections and fire plan review as part of PDS's overall permit process due to increased permit volumes.
5. Biologist - A Biologist is needed to maintain appropriate levels of service from PDS's environmental group. The environmental group performs reviews of permits for compliance with critical areas and environmental regulations. We currently need to add a Biologist to handle higher permit volumes and shorter review time frames required by SB 5290. This will also create a more equitable mix of biologists and senior environmental planners on the team.
6. Associate Planner - PDS currently has no Associate Planners in its budget. An Associate Planner is needed to support the existing Planner team. There is a high volume of lower-level permit review and administration that could be done by an Associate Planner, which would free up time by the Planners to perform the higher-level reviews. This would make the permit review process more efficient which in turn would help PDS review permits in a more timely manner. This would help us meet required time frames under SB 5290.

Change Request Summary

Department: 0005 - Planning
 Change Request: AUTO - 145 - PDS General Fund Revenue Adjustments
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)
 Description: Revenue adjustments for PDS General Fund programs
 Summary:

Justification: Changes in revenue reflect how much income PDS expects to receive for Fire Investigation, Long Range Planning and Code Enforcement. Adjustments to Interfund Revenue are based on an analysis of time spent and services provided to other departments. The Department of Commerce grant in Long Range Planning was a one-time grant related to the 2024 Comp Plan Update that will not be renewed in 2025 and 2026. Likewise, fees collected for Docket Applications are related to the Comp Plan Update and will not occur in 2025 and 2026. Open Space Fees have been adjusted to projected levels of applications based on recent trends.

Change Request Summary

Department: 0005 - Planning
 Change Request: AUTO - 146 - PDS Permitting Fund 193 Revenue Adjustments
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)
 Description: Revenue forecast adjustments for Permitting Fund 193
 Summary:

Justification: Changes in revenue reflect how much income PDS expects to receive from permit fees; interfund revenue; merchant fee reimbursements from school districts, Parks, Roads, and the Health Department; interest earned; miscellaneous revenue, and administrative allocations to General Fund programs and Snohomish County Tomorrow. Adjustments to Interfund Revenue are based on an analysis of time spent and cost of services provided to other departments. Changes to Interfund Labor reflect updated costs of department overhead (PDS administration and technology support included in cost centers 510 and 512) charged to General Fund programs. A comprehensive permit forecast analysis has resulted in an overall increase in estimated permit fee revenue for 2025 and 2026. PDS also projects an increase in interest income due to higher interest rates and the size of PDS's fund balance. Fund Balance figures are the difference between revenue and expense for each cost center in Fund 193. The net of all the Fund Balance amounts is the amount PDS expects to either contribute to or draw from PDS's fund balance at the end of the biennium. For the 2025-2026 biennium, PDS has budgeted a net loss of \$1,453,355 which is better than the last few PDS annual budgets. Actual cost savings from vacancies and underspending, as well as future fee increases, will help bridge the gap between budgeted revenue and expense.

Department: 0005 - Planning
 Change Request: AUTO - 147 - PDS General Fund Expense Housekeeping Changes
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)
 Description: Adjust expenditures to actual projections for PDS General Fund 002 programs
 Summary:

Justification: This change request adjusts the General Fund expenditures to anticipated 2025 and 2026 costs. Interfund parking and ER&R have been adjusted to actual rates and allocations among cost centers based on vehicle assignments. Expenses were adjusted to reflect the completion of the 2024 Comprehensive Plan Update. Changes to Interfund Professional Services reflect updated costs of department overhead (PDS administration and technology support included in Fund 193 Permitting) allocated to General Fund programs. Other minor changes to expenditure line items were made to adjust to projected expenses in all programs.

 Change Request: AUTO - 209 - PDS SCT Revenue Adjustments
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:02 PM (PDT)
 Description: Adjust SCT revenue projections
 Summary:

Justification: The Snohomish County Tomorrow program is a cooperative forum that involves the county, the cities, the towns and the Tulip Tribes and community members in the resolution of growth management issues of countywide significant. Funding for this program is provided through annual dues paid by the members including the County. Dues are calculated based on per capital population figures. This change request adjusts the dues revenue to match expected expenses and forecasted investment interest. New revenue of \$3,500 was added in 2025 and 2026 for admission fees to be charged to cover the cost of attendance to the annual SCT meeting.

 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:02 PM (PDT)
 Description: Adjust expenditures to actual projections for Fund 190 Snohomish County Tomorrow program.
 Summary:

This change request adjusts the Snohomish County Tomorrow program expenditures to anticipated 2025 and 2026 costs.

Justification: A personal cost contingency of \$10,225 in 2025 and \$14,130 in 2026 was entered for an expected step increase and COLAs of 4% in 2024, 2.5% in 2025 and 2.5% in 2026. The meeting room budget was increased by \$3,500 reflecting the higher cost of hosting the annual SCT meeting. This increase was offset by new revenue of \$3,500 for admission fees to be charged for the annual meeting. Other expenditures are consistent with past years.

Change Request Summary

Department: 0005 - Planning
Change Request: AUTO - 334 - PDS New Position - Fire Investigation
Change Request Type: Standard Change Package
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 08:13 PM (PDT)

Request to add one new Fire Investigator to provide sufficient 24/7 coverage for conducting origin and cause determination of fires throughout Snohomish County and city partners per Interlocal Agreements. County population has grown significantly over the past 30 years, but the number of fire investigators has remained at three. Reasons to add a fourth investigator include: (1) adequate coverage for increased workload (number of annual fire investigations); (2) lack of backup for the small team, and (3) changes in NFPA standards for fire investigations.

Description: RCW 43.44.050(1) (b) delegates the statutory authority of fire investigations within unincorporated Snohomish County to the Fire Marshal's Office to conduct origin and cause investigations. This responsibility is paramount in maintaining public trust, accountability, and insuring equity and justice. Effective fire investigations contribute to public safety by identifying hazards, enforcing regulations, and holding responsible parties accountable for unsafe practices or malicious acts. Actively investigating fires demonstrates a commitment to protecting communities and deterring criminal behavior, which in turn helps property owners by lowering the fire rating within their respective fire districts and keeping the cost of fire insurance affordable. Citizens also have an expectation that there will be an investigation that is impartial and is conducted by investigators who are adequately trained and understand the requirements outlined in NFPA standards. With the increased population and construction in Snohomish County, an additional fire investigator is needed to allow for required training, vacations, illnesses, and assistance with large or complex scenes without an undue hardship on scheduling to meet our basic statutory requirements. This additional fire investigator will also be vital in returning to our previous level of response standards we provided the citizens of Snohomish County, even while meeting the new National Fire Protection Association (NFPA) standards.

Summary

Change Request Summary

Justification

(1) Adequate Coverage: The Fire Marshal's Office has a call-out requirement criteria that we provide to other agencies when they request a fire investigator from our office. Due to the increasing number of calls, the complexities of each case, and the required documentation within NFPA standards, we have had to adjust our response standards to a workload that our three investigators can handle. For example, we have increased the monetary loss threshold so that we do not respond to every request. The demand for our services is greater than our call-out capacity.

(2) Lack of Backup: Fire Investigators are commissioned law enforcement officers requiring specialized training, which makes it more difficult to manage turnover in the team. Onboarding a new fire investigator takes hours of intensive training and potentially sending that person to the fire/police academy for several months. This in turn takes away from the time spent investigating fires and writing reports. One turnover on the team can reduce the overall team productivity by 30% for six months which means the other two team members are overly burdened by the extra workload. In addition, providing 24/7 coverage is difficult when one team member is out sick, on vacation, or at training. For example, if one team member takes a week of vacation, the other two investigators have to be on-call 3-4 days that week which is not sustainable in the long term due to employee burnout.

(3) NFPA Standards: NFPA 921 recommends that two fire investigators be present during fire scene examinations to address safety concerns, particularly in remote locations of the county. We are currently non-compliant with this recommended practice. A new standard, NFPA 1321, will take effect later this year. This standard also includes fire scene safety and incorporates the recommendation that two fire investigators be present at all fire scene investigations for investigator safety and fire scene security. We currently have one investigator out on a scene by himself up to several hours after law enforcement or fire personnel have left, which does not meet the existing nor new NFPA Standards. This change affects our on-call schedule in that we will now have to have two investigators on-call for every overnight shift. Our current practice of sending one investigator to a scene in the middle of the night is no longer sufficient. In addition, we may have two active scenes requiring our presence at the same time which will require us to have four investigators on staff. Meeting the current and new NFPA Standards and Guides requires a higher level of fire scene safety, fire scene security, evidence handling, and documentation which will require an ongoing investment of investigator staff time to better manage the fire investigation unit policies and practices.

Change Request Summary

Department	0005 - Planning
Change Request	AUTO - 493 - Position Reclassifications - Engineering Series (Public Works companion package)
Change Request Type	Position Adjustments
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:21 PM (PDT)
Description	PDS acknowledges and supports Public Works' management-initiated reclassification request for the Engineer I-IV job classifications. Public Works is recommending a one step pay increase for each classification. Public Works has submitted a change package for the compensation adjustments and PDS is doing the same.
Summary	
Justification	PDS has struggled with hiring and retaining engineers which are critical to the permit review process. Currently PDS has several engineering positions which have been vacant for months and years. The extreme shortage of engineering candidates is attributed to an overall market shortage which makes compensation a key issue in recruiting. The county's wages for engineers are far below what other jurisdictions pay and also the private sector. In order to compete for qualified candidates, the county's pay scale for engineers needs to be adjusted. PDS supports the Public Works reclassification request. Attached is a list of engineering positions in PDS which would qualify for a step adjustment if the Public Works request is approved.

Department: 0005 - Planning
 Change Request: AUTO - 62 - PDS Permitting Fund 193 Expense Housekeeping Changes
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: Adjust expenditures to actual projections for Fund 193 Permitting Programs.
 Summary:

Justification: This change request adjusts Permitting expenditures to anticipated 2025 and 2026 costs. Amounts were budgeted for retirement and personnel contingency. The personnel contingency includes (1) corrections for salaries that did not load into the budget correctly, and (2) anticipated COLA salary increases calculated based on 4% in 2024, 2.5% in 2025 and 2.5% in 2026. Interfund parking and ER&R have been adjusted to actual rates and allocations among cost centers based on vehicle assignments. Other minor changes to expenditure line items were made to adjust to projected expenses in all Fund 193 programs.

Change Request	AUTO - 66 - PDS Overhead Allocation
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:47 PM (PDT)
Description	To adjust allocation of overhead among PDS cost centers based on established allocation methods.
Summary	
Justification	The preloaded budget for some types of overhead is placed in two cost centers. Each year, PDS reallocates overhead to the proper cost centers based on revised FTE counts for each program. The same allocation method is used year after year. This year, the allocation overhead resulted in a reduction of \$2,183 to the General Fund programs and an addition of \$3,837 to Snohomish County Tomorrow.

Change Request	AUTO - 77 - Position Reclassification - PDS1961R
Change Request Type	Position Adjustments
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:48 PM (PDT)
Description	Management-initiated Budget Reclass of Records Technician position - PDS1961R
Summary	
Justification	<p>PDS submitted one management-initiated reclassification request to HR and the Union pursuant to the AFSCME contract deadline of April 1st. PDS currently has one employee working out of class and his position needs to be adjusted so that he is fairly compensated. PDS has determined there is a need for the Records Technician to perform work at a Records Specialist level. The work of the Records Team has evolved over the past few years with the implementation of the online Public Records Portal, and we have an ongoing need for a Records Specialist instead of a Records Technician which is the level at which the incumbent was hired. Please see attached memorandum for justification details.</p>

Change Request Summary

Department	0006 - Public Works
Change Request	AUTO - 122 - 192 - Traffic Mitigation Base Revenue Adjustments
Change Request Type	Revenue Adjustment Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:49 PM (PDT)
	Traffic impact mitigation payments are imposed as conditions of approval upon development applications in accordance with the County's traffic mitigation ordinance, SCC Chapter 30.66B. Generally, payments are made prior to building permit issuance. These funds are placed in interest-bearing accounts in the Transportation Mitigation Fund (Fund 192) and held until transferred to the County Road Fund (Fund 102) to offset expenditures on eligible transportation improvement projects.
Description	<p>By statute, funds must be spent on eligible projects within ten (10) years or returned to the property owner. The use of mitigation funds is programmed in the Annual Construction Program for Transportation (ACP) and in the Six Year Transportation Improvement Program (TIP), which are prepared by the Public Works Department and adopted by County Council. Mitigation funds are also being utilized for Transportation Demand Management Programs.</p> <p>This package includes changes to base revenue for estimated fee collection revenues in 2025 and 2026.</p>
Summary	
Justification	Public Works estimates fee collection revenue over the TIP's six-year period, and factors these estimates, together with existing use of available fund balance, into the revenues available for transportation projects.

Change Request	AUTO - 149 - 102 - Salaries and Wages COLA
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:50 PM (PDT)
Description	An annual cost of living adjustment (COLA) has been added for salaries and wages in 2025 and 2026.
Summary	
Justification	The amounts used (4.5% in 2024, 2.5% in 2025, and 2.5% in 2026) are estimates. This will allow budget authority to cover costs when an actual COLA is agreed upon and established through labor negotiations.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 163 - 102 - Funding Utility Franchise Rental
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:51 PM (PDT)

Description
 The financial outlook for the County Road Fund has been negatively impacted by historic cost escalation combined with historically low revenue growth over the last three years. During this time, the cost of materials, fuel, labor, and services has grown at three times the rate of operating revenues. A fundamental structural funding imbalance has been created. In order to maintain the necessary level of service for maintenance, operations and construction in unincorporated Snohomish County transportation system, new funding mechanisms will be proposed.

Summary
 This package is to propose implementation of a Utility Franchise Rental Fee.

Despite ongoing fiscal discipline and rigorous continuous improvement, we anticipate that revenues will be out paced by expenditures by approximately \$15.0 Million per year in the County Road Fund. The imbalance is largely attributed to the impacts of high inflation and CPI numbers without having new revenues or significant enough increases to revenues to offset the expenditures. Unfunded mandates such as NPDES and changes to environmental permitting requirements have also increased overall costs. Due to I-747, barring any jurisdiction from raising the total property tax levy amount (excluding new construction) by over 1% annually, a declining motor vehicle fuel tax, and lagging mitigation revenues from new construction, other funding strategies must be pursued. Although cost control strategies will be assessed and implemented, without additional funding there is no way to close this structural funding gap without reducing or significantly delaying core programs, projects, and services provided by the County Road Fund.

Justification
 In response, new funding mechanisms will be proposed to implement and fund a Transportation Benefit District, implement Utility Franchise Rental fees, and request a voter approved County Road Levy lift. The proposals will be prepared in 2024-25 with anticipated implementation in late 2025 or early 2026.

Without implementation, it is estimated that programs, projects, and services could require cuts up to 20% of current levels.

Utility Franchise Rental Fee -
 APWA views the roadway right of way (RW) as a valuable taxpayer-owned asset—and that not charging “rent” for its use is a taxpayer subsidy. King County started charging “rent” on its RW in 2016—currently generating about \$10M in revenue per year. Implementation in unincorporated Snohomish County would require County Council approval of new franchise agreements as they expire. Revenue would be modest at first until franchise agreements are renewed, but there is potential to generate some revenues in the next couple years, pending upcoming franchise agreement negotiations. Public Works will be preparing a proposal in 2024-25 for implementation of a utility franchise rental fee to generate an estimated \$1.5 million annual revenues effective for 2026, with additional funds to be generated in later years.

Description
 The financial outlook for the County Road Fund has been negatively impacted by historic cost escalation combined with historically low revenue growth over the last three years. During this time, the cost of materials, fuel, labor, and services has grown at three times the rate of operating revenues. A fundamental structural funding imbalance has been created. In order to maintain the necessary level of service for maintenance, operations and construction in unincorporated Snohomish County transportation system, new funding mechanisms will be proposed.

Summary
 This package is to propose implementation and funding of a Transportation Benefit District (TBD)

Despite ongoing fiscal discipline and rigorous continuous improvement, we anticipate that revenues will be out paced by expenditures by approximately \$15.0 Million per year in the County Road Fund. The imbalance is largely attributed to the impacts of high inflation and CPI numbers without having new revenues or significant enough increases to revenues to offset the expenditures. Unfunded mandates such as NPDES and changes to environmental permitting requirements have also increased overall costs. Due to I-747, barring any jurisdiction from raising the total property tax levy amount (excluding new construction) by over 1% annually, a declining motor vehicle fuel tax, and lagging mitigation revenues from new construction, other funding strategies must be pursued. Although cost control strategies will be assessed and implemented, without additional funding there is no way to close this structural funding gap without reducing or significantly delaying core programs, projects, and services provided by the County Road Fund.

Justification
 In response, new funding mechanisms will be proposed to implement and fund a Transportation Benefit District, implement Utility Franchise Rental fees, and request a voter approved County Road Levy lift. The proposals will be prepared in 2024-25 with anticipated implementation in late 2025 or early 2026.
 Without implementation, it is estimated that programs, projects, and services could require cuts up to 20% of current levels.
 Transportation Benefit District (TBD) -
 Snohomish County formed a TBD in 2011, but it has not been implemented or funded to-date. The TBD includes all unincorporated Snohomish County. Several cities within Snohomish County have active TBDs, but this would be the first for unincorporated Snohomish County. Public Works will be preparing a proposal in 2024-25 for implementation of the TBD to generate an estimated \$7 million annual revenues effective for 2026, with additional funds to be generated in later years.

The proposals will be prepared in 2024-25 with anticipated implementation in late 2025 or early 2026.

Without implementation, it is estimated that programs, projects, and services could require cuts up to 20% of current levels.

County Road Levy lift - I-747, passed in 2001, bars any jurisdiction from raising the total property tax levy amount (excluding new construction) by over 1% annually. Due to this limitation, the current County Road Levy rate of \$0.7461 per \$1,000 of assessed value is significantly below the statutory maximum \$2.25. The current levy rate is simply not keeping up with the cost of operations. Voter approval is required to "lift the lid" more than 1%, up to the statutory maximum. Public Works will be preparing a proposal to ask voters in unincorporated Snohomish County for a modest permanent levy lid lift to support the maintenance and preservation of the Snohomish County transportation system. Public Works will be preparing a proposal in 2024-25 for implementation of the Road Levy lift to generate an estimated \$6.5 million annual revenues effective for 2026, with additional funds to be generated in later years.

Description	This package reflects adjustments to the Administrative Operations (AO) Division non-capital base budget.
Summary	Sub program areas include Management, General Services, Training, Transfers Out, Interfund Transfers (preloads), Debt Service, and Public Works Assistance Fund loan program.
Justification	<p>Notable budget items and changes include:</p> <ol style="list-style-type: none"> 1) New contract for Automatic Vehicle Location (AVL) licenses and equipment. The existing AVL contract is approaching expiration and an RFP is planned for a new contract. This will include implementation costs and new equipment. 2) Continued services and annual dues for Kronos (UKG) timekeeping and Aurigo construction management software systems. 3) Annual CPI increase to Surface Water Management fees on Road Fund owned right-of-way. 4) Consultant for special projects. 5) Public Works Assistance Fund loan payouts to awarded cities. Loan payouts are dependent upon timing of loan awards, contract execution, and project progress/completion. 6) Staff training for division and department.

Change Request Summary

Department 0006 - Public Works
Change Request AUTO - 240 - 102 - Road Maintenance Expenditure Adjustments
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:03 PM (PDT)

This package reflects adjustments to the Road Maintenance (RM) Division non-capital base budget.

The overall RM division budget has increased in 2025-26. This is driven by continued trend of high inflation for labor, materials, ER&R/fuel, equipment, and professional services based on recent usage levels and pricing trends. The pricing for materials (e.g., asphalt, concrete, rebar, excavated materials, steel, and fuel) have increased significantly over the last few years.

Description An allocation of costs across RM programs and subprograms is related to an annual shift in work plans. The budget request includes levels of staffing, equipment, and materials necessary to deliver the core maintenance activities, some ACP capital construction work, and some reimbursable services for other County departments and outside agencies.

Additionally, budget authority is included for response to emergency events (snow, ice, flood, etc.), based on prior year costs and trends.

Adjustments have been entered into the following areas:

- 1) Operations Program
- 2) Maintenance Program
- 3) Reimbursable Program

Summary

Change Request Summary

Justification

1) The Operations Program budget is made up of the Facilities and Training sub programs:

The Facilities sub program provides budget to maintain the RM division’s wide array of facilities, which are necessary to operate the Maintenance, Capital, and Reimbursable programs.

The training sub program is necessary to maintain a productive and a safe work environment.

Arlington Shop: Ongoing upkeep efforts at the existing Arlington Shop until the site can be re-developed.

Snohomish Shop property: Ongoing professional services for environmental cleanup and legal services at the Snohomish Shop site, to obtain a No Further Action designation from the Department of Ecology (DOE), and to coordinate with the remediation on the private source property. This includes consultant services to sell the property.

2) The Maintenance Program budget has increased from the prior year. The Maintenance Program is made up of various sub programs, including Roadway/Roadside, Storm Drainage, Structures, Traffic & Pedestrian, and Maintenance Administration/Overhead. These are the primary functions of the RM division. The Maintenance Program budget accounts for about 80%-90% of the total RM division budget annually. Most of the costs are made up of labor, equipment, fuel, and materials to maintain the unincorporated Snohomish County roads system. Also, included is budget capacity for response to small or mid-sized emergency events such as flood and snow fights.

3) The Reimbursable Program budget is in line with the prior year. Reimbursable services fluctuate annually based on available staffing and demand from other PW divisions, other County departments, and cities/local agencies. The RM division balances its reimbursable workload with its county roads system maintenance responsibilities. Much of the reimbursable services work is done for Surface Water Management Division.

Change Request	AUTO - 262 - 102 - Base Revenue Adjustment
Change Request Type	Revenue Adjustment Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:07 PM (PDT)
Description	This package reflects adjustments to County Road Fund base revenues. These revenues fund all program areas of County Road Fund (operations, maintenance, capital, and reimbursable services).
Summary	
Justification	County Road Fund revenues are estimated based on current economic trends, awarded/anticipated grants, and other available funding. Revenue estimates are utilized to develop a financially sustainable expenditure budget/plan. Economic trends can change rapidly, and Public Works monitors closely to adjust plans as needed.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 309 - 102 - Engineering Services Expenditure Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:11 PM (PDT)

This package reflects adjustments to the Engineering Services (ES) Division non-capital base budget. There are minimal changes requested.

The largest component of the ES division budget is the ACP - Annual Construction Program in a separate CIP Change Package.

Description: Adjustments have been entered into the following program areas:
 1) Operations Program
 2) Maintenance Program
 3) Reimbursable Program

Summary: 1) The ES Operations Program budget has minimal change requests from prior year. The changes include replacements and upgrades to specialized Survey and Geotech equipment and software.

Justification: 2) The ES Maintenance (and Bridge Maintenance) Program budget is mostly unchanged from the prior year. This is primarily for bridge inspection work.

3) The ES Reimbursable Program budget is mostly unchanged from the prior year. ES continues to provide reimbursable services to other County divisions, County departments, and outside agencies depending on customer demand and availability of staff. Construction contractor payments are reduced related to anticipated outside agencies work (e.g., wastewater) on County Road construction projects.

Net Operating Budget: 2,510,624

Change Request Summary

Department 0006 - Public Works
Change Request AUTO - 313 - 102 - CIP Capital (Non ACP/TIP)
Change Request Type CIP - Capital
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:11 PM (PDT)

Description CIP capital projects (outside the ACP/TIP) for County Road Fund include:
1 - Cathcart Park and Ride
2 - Cathcart Seismic Building Improvements
3 - Cathcart Offices and Keyless Entry
4 - Cathcart Lighting Materials Yard
5 - Cathcart Paving Materials Yard
6 - Road Maintenance Equipment
7 - Cathcart Landfill Solar Project

Summary

Change Request Summary

CIP capital projects (outside the ACP/TIP) for County Road Fund include:

1 - Cathcart Park and Ride
 Public Works sold the Cathcart South property in 2021 – now referred to as Cathcart Crossing. A condition of the sale was that the developer construct a 150-stall park & ride on the County Road Fund owned property. The park & ride is not required to be constructed until the third phase of development which is projected to be in late 2024. The proposed budget is for potential ancillary facilities associated with the park & ride.

2 - Cathcart Seismic Building Improvements
 In 2021-2022 an evaluation was performed by a consultant (KPPF) on the seismic stability of nine (9) Public Works Facilities. In 2023 KPPF performed development of conceptual retrofit schemes. In early 2024 they completed the rough order of magnitude (ROM) estimates of the cost to construct the retrofits. The proposed budget is for building retrofits at Cathcart Building A and Cathcart Building C.

3 - Cathcart Offices and Keyless Entry
 Finish ongoing updates to Cathcart offices, including update of the former Noxious Weeds room. Add keyless badge entry to multiple locations.

4 - Cathcart Lighting Materials Yard
 Add lighting to the Cathcart materials yard.

5 - Cathcart Paving Materials Yard
 Paving the Cathcart materials yard.

6 - Road Maintenance New Equipment
 Anticipated equipment needs include:
 -Two (2) Van Body Trucks for Surface Water Crews
 -Two (2) trucks for general maintenance
 -Three (3) Auger sanders for Double Axle Dump Trucks
 -Two (2) Expressway plows for Double Axle Dump Trucks
 -One (1) box scraper for Bobcat
 -One (1) Dingo drilling machine and trailer for traffic
 -One (1) Grapple attachment for mini-excavator

7 - Cathcart Solar Project
 For over 10 years Public Works has been collaborating with our local electric utility, Snohomish County Public Utility District No. 1 (SnoPUD) on a project at Cathcart Way Operations Center, (1) to design and permit up to a modular 5 MW solar and battery storage project, (2) construct up to a 500 kW system with 2,400 kWh battery energy storage system. The proposed budget is to complete items (1) and (2) if grant funding can be secured.

Change Request Summary

Department	0006 - Public Works
Change Request	AUTO - 320 - 402 - FTE Additions
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:12 PM (PDT)
Description	This package contains a request for eight (8) additional FTE positions to the Solid Waste Division (SWD) in the 2025-2026 budget. These positions deliver direct and indirect service to customers by providing vital field, administrative and planning support services.
Summary	<p>In 2009, the SWD reduced its total workforce by 40 FTEs, or approximately 25% of the workforce, in response to the economic recession and corresponding reduction in MSW tonnage (approximately 22%). Since 2010, four (4) non-Operations vacant positions have been reclassified to Operations positions to delay requests for new positions. Due to the age of facilities, additional legislation and rulemaking, and a complex set of leave requirements, the SWD realizes it is currently understaffed in its Planning and Accounting/Cashiering programs. The requested eight (8) new positions are a 4.9% increase to the current 163 FTEs in the SWD. These positions are funded through the collection of solid waste tip fees. The SWD is currently conducting a rate analysis where costs will be reevaluated to adequately fund all SWD FTEs.</p> <p>Additional justification by classification follows:</p> <p>Solid Waste Laborer I: Two (2) Laborer I's are required to manage the growing customer service expectations and solid waste program support at the Division's transfer stations. It is increasingly difficult to park customers, monitor the collection areas and process waste with the current staffing level. This will decrease customer wait times and generally improve customer service. These positions are funded through the collection of SWD tip fees.</p> <p>Site Attendant I: Two (2) Site Attendant I's are required to manage the growing customer service expectations and solid waste program support at the Division's rural drop box locations and recycle areas. It is increasingly difficult to process customers, monitor the collection areas and implement new recycling programs with the current staffing level. This will decrease customer wait times, the contamination rate of recyclables, and generally improve customer service. These positions are funded through the collection of SWD tip fees.</p> <p>Heavy Truck Driver: Two (2) Heavy Truck Drivers are required to manage the growing customer service expectations and solid waste program support at the Division's transfer stations and drop boxes. It is increasingly difficult move waste with the current staffing level. This will decrease overtime requirements. These positions are funded through the collection of SWD tip fees.</p> <p>Accounting Technician II: One (1) Accounting Technician II is required to support AP functions of the Division. It is increasingly difficult to process AP, especially with the increased volume of purchases related to the transition to p-card usage over standard accounts. This position is funded through the collection of SWD tip fees.</p> <p>Project Specialist IV: One (1) Project Specialist IV is required to manage the growing need to implement new legislation and regulations relating to a variety of initiatives, such as the diversion of waste from landfills, methane/GHG reduction, organics, product stewardship and outreach/education. This position is funded through the collection of SWD tip fees.</p>

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 350 - 102 - TES Expenditure Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:13 PM (PDT)

This package reflects adjustments to the Transportation & Environmental Services (TES) Division non-capital base budget. The most notable changes are related to traffic equipment and system upgrades and a variety of consultant services.

Description: Adjustments have been entered into the following areas:

- 1) Operations Program
- 2) Maintenance Program
- 3) Reimbursable Program

Summary: 1) The most notable increases to the TES Operations budget are related to traffic equipment and traffic system upgrades and a variety of consultant services. This includes support for migration of old, unstable Microsoft Access databases. Additionally, consultant services are requested for two transportation planning studies to fulfill regulatory requirements related to HB 1181. Grant funds will be pursued for the two transportation planning studies.

Justification: 2) The most notable increases to the TES Maintenance budget are related to environmental services for noxious weeds control and mitigation site maintenance and monitoring. Services will be provided by a combination of PW temporary positions, Washington Conservations Corps (WCC) staff, and Surface Water Management staff. There is also budget included for some ongoing miscellaneous traffic signal equipment replacements and upgrades.

3) The TES Reimbursable Program budget is mostly unchanged from the prior year.

Change Request	AUTO - 384 - 102 - Transportation Improvement Program
Change Request Type	CIP - Capital
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:15 PM (PDT)
Description	<p>The Annual Construction Program (ACP) is updated each year along with the six-year Transportation Improvement Program (TIP) to specify the transportation capital program in accordance with the adopted Comprehensive Plan, which sets the stage for future land use and growth through 2035. To meet the needs of an estimated 238,000 new residents, the ACP & TIP provides for new and/or enhanced capital improvements to create a viable arterial network.</p>
Summary	<p>The 2025 ACP and County Road Fund expenditure budget includes construction of grant-funded transportation improvements. In addition, the capital program continues to invest in pavement preservation, ADA, safety, and non-motorized programs. The ACP continues to stretch and leverage local Road Fund dollars.</p>

ANNUAL CONSTRUCTION PROGRAM COMPONENTS:

This package describes the capital road construction program and provides staffing support, consultants, and contract services necessary to design, acquire right-of-way (R/W), and construct capital improvement projects. These projects will provide for a safe, efficient transportation system that meets the growing needs of Snohomish County residents and businesses. The ACP includes the following categories:

- A. ENGINEERING & STUDIES. This category funds preliminary project planning and specialized reviews directly associated with the ACP projects needed to ensure transportation infrastructure meets the County’s growing needs.
- B. PAVEMENT PRESERVATION AND REHABILITATION PROGRAM. Snohomish County uses a Pavement Management System, which provides a systematic approach to lengthen roadway life by timely preservation and maintenance. When road reconstruction is warranted, these projects fall under this category along with the associated ADA ramp upgrades. Additionally, implementation of the County’s ADA Transition Plan is budgeted here.
- C. NON-MOTORIZED/TRANSIT/HIGH OCCUPANCY VEHICLE. This category funds projects to improve pedestrian and multi-modal connections along major roadways and in growing urban areas. Projects seek to improve walking conditions along popular routes between schools, transit stops, and residential and commercial areas. Safer walking conditions make it easier for citizens to take advantage of alternative modes to driving. Well-planned connections promote an area’s vitality and sense of community. This category includes the County’s payments to Community Transit for the Curb the Congestion program.
- D. TRAFFIC SAFETY/INTERSECTIONS. These projects provide safety improvements to spot locations, which are designed to improve traffic flow and eliminate hazards. Projects include adding turn lanes, neighborhood traffic calming devices, traffic signals, guard rail installation, and road bank stabilization projects. This category also includes the Index Galena Road and Goodman Creek Culvert flood repair projects.
- E. CAPACITY IMPROVEMENTS. Projects in this expenditure category are designed to increase vehicle carrying capacity on the County’s road system. The projects provide satisfactory levels of service to meet transportation system concurrency requirements identified in the Transportation Element of the County’s Comprehensive Plan. Where warranted, capacity projects add travel lanes along corridors and improve major intersections. New roadway alignments are also included in this category. Generally, these projects include bike lanes, sidewalks, landscaping and illumination.
- F. BRIDGE REPLACEMENT & REHABILITATION. This category funds replacement and rehabilitation of deficient County bridges. Bridge projects are identified through federal and state bridge condition inspection findings and the County’s Annual Bridge Condition Report.
- G. DRAINAGE. Drainage projects improve and preserve drainage infrastructure on the County road system. These projects lie within County road right of way, are an integral part of the road system, and are necessary to maintain and preserve system condition. A component of this category is replacement of culverts under County roads that are currently fish blockages.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 388 - 192 - Traffic Mitigation Expenditure Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:15 PM (PDT)

This package reflects transfers from Transportation Mitigation Program Fund 192 to County Road Fund 102 to support the Transportation Annual Construction Program (ACP) and six (6) year Transportation Improvement Program (TIP).

Traffic impact mitigation payments are imposed as conditions of approval upon development applications in accordance with the County's traffic mitigation ordinance, SCC Chapter 30.66B. Generally, payments are made prior to building permit issuance. These funds are placed in interest-bearing accounts in the Transportation Mitigation Fund (Fund 192) and held until transferred to the County Road Fund (Fund 102) to offset expenditures on eligible transportation improvement projects.

Description
 By statute, funds must be spent on eligible projects within ten (10) years or returned to the property owner. The use of mitigation funds is programmed in the Annual Construction Program for Transportation (ACP) and in the Six-Year Transportation Improvement Program (TIP), which are prepared by the Public Works Department and adopted by County Council. Mitigation funds are also being utilized for Transportation Demand Management Programs.

Fee collections have hit historic lows in recent years despite a 2021 fee model update. There has been an overall downturn in permit applications and commercial development in the unincorporated areas of Snohomish County. If this trend continues it will reduce available dollars for future County Road Fund capital projects.

Summary
 Public Works estimates fee collection revenue over the TIP's six-year period, and factors these estimates, together with existing use of available fund balance, into the revenues available to transfer for eligible transportation projects.

Change Request: AUTO - 389 - 402 - CIP
Change Request Type: CIP - Capital
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 08:15 PM (PDT)
Description: This package includes the 2025 and 2026 portion of the 6-year Capital Improvement Plan (CIP) for the Solid Waste Management Division (SWMD).
Summary:

The 2025 Capital Program includes:

- ARTS H2S Mitigation Installation (\$95k)
- SWRTS Scale House Roof and HVAC Replacement (\$225k)
- SWRTS Inbound Lane Improvements (\$285k)
- SWRTS H2S Mitigation Installation (\$95k)
- NCRS Transfer Station Feasibility Study (\$25k)
- NCRS Leachate System Improvements (\$135k)
- NCRS Recycle Area Property Acquisition (\$500k)
- Dubuque Drop Box Planning & Construction (\$6.25m)
- ESS Bldg. K Retrofit/Bldg. M Replacement (\$1.0m)
- Vactor Facility Expansion Feasibility Study (\$25k)
- Intermodal Facility Property Improvements – Phase II PE & SEPA (\$50k)
- Intermodal Facility BNSF Re-alignment PE & NEPA(\$166.5k)
- CWRTS Tip Floor Replacement (\$975k)
- CWRTS Diesel-Electric Loader (\$575k)
- SWRTS Excavator Upsize (125k)
- Scale Automation Software RFP / Procurement (\$550k)
- Sisco Landfill Closure Design/Permitting (\$75k)
- Contingency funding for unanticipated repair (\$350k)

Justification

The 2026 Capital Program includes:

- ARTS Compactor Replacement (\$4.265m)
- NCRS Transfer Station Replacement Project Engineering (PE) & State Environmental Policy Act (SEPA) \$100k
- Vactor Facility Expansion Design & Construction (\$1.575m)
- Intermodal Facility Property Improvements – Phase II PE & SEPA (\$50k)
- Intermodal Facility BNSF Re-alignment Project Engineering (PE) & National Environmental Policy Act (NEPA) (\$166.5k)
- Sisco Landfill Closure Design & Construction (\$5.5m)
- Contingency funding for unanticipated repair (\$350k)

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 402 - 402 - Expenditure Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:16 PM (PDT)
 Description: This package reflects adjustments to the Solid Waste Division (SWD) non-capital base budget.
 Summary:

Justification: Municipal Solid Waste (MSW) tip fees account for over 80% of SWD's revenue. The MSW tip fee has not been adjusted since 2009, yet SWD expenses have increased significantly during this 15-year period. The SWD is currently conducting a comprehensive rate study, which should be finalized in November 2024. Since the final rates are not available at this time, the division recommends 55.2% MSW rate fee increase effective January 1, 2025, to keep the division from using excessive fund balance in 2025. The proposed MSW tip fee of \$163 per ton will stabilize the budget until the final rates are available. As a result of this recommended rate increase, Solid Waste revenue in 2025 will increase by 45.6% from the 2024 budget. The SWD will initiate an ECAF to move the proposed rate increase through the required process for approval. Budgeted operating expenses (excluding capital expenditures) are increasing in 2025 by 3.7% from the 2024 budget. This is due to increases driven by the consumer price index related to the waste export disposal contract and other inflationary factors. Capital costs are decreasing 32% in 2025. The projects are largely infrastructure improvements at disposal facilities. Note, the County applied for a \$2.5m CRISI grant from the Federal Railroad Administration (FRA), but a final decision on award will not be issued until Q4 2024.

Change Request Summary

Department	0006 - Public Works
Change Request	AUTO - 69 - 102 - Staff Allocation to Sub Programs
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:47 PM (PDT)
Description	This package is to reallocate the staffing (labor) budget across the various program and subprogram activities to reflect where work efforts will be focused. Allocations are necessary to assure sufficient budget authority exists in program and subprogram budgets.
Summary	
Justification	County Road Fund staff conduct work in multiple program areas (Operations, Maintenance, Capital, and Reimbursable). Within these program areas, additional sub programs exist. It is important for each program and sub program to have sufficient budget authority to complete the work. The re-allocation of staffing (labor) budget across programs and subprograms is a net zero change in total labor cost allocations.

Change Request Summary

Department 0006 - Public Works
Change Request AUTO - 75 - 306 - Arlington Operations Center Project
Change Request Type CIP - Capital
Change Request Status Department Submitted
Publish Date Jul 09, 2024 07:48 PM (PDT)

Description

The Road Maintenance Division (Road Maintenance) operates from two locations: the Arlington Shop and the Cathcart Way Operations Center, maintaining approximately 1,600 road miles and more than 200 bridges. Road Maintenance has approximately 70 full time staff based at the Arlington Shop and 110 staff based at Cathcart, with high levels of seasonal staff added during summer months. Road Maintenance provides day-to-day maintenance and small project construction services. It is also an important emergency responder for flooding, landslides, opening roads for utilities, and other emergency services. The Arlington Shop serves the north county (RM District 1), which has approximately 562 road miles. It also is the location of the Bridge Crew, which maintains all the County's bridges.

The Fleet Services Division, Facilities and Fleet, operates an equipment maintenance shop at the Arlington Shop site with a staff of eight mechanics, one supervisor, and one storekeeper. The shop repairs and maintains the trucks and heavy equipment used by the road crews at Arlington. The shop also repairs and maintains Solid Waste trucks equipment and performs urgent repairs on Sheriff's vehicles. Fleet Stores purchases and maintains an inventory of material and supplies that support the road crews, including guardrail, bridge timbers and components, drainage structures and culverts, and other supplies.

The proposed Arlington Operations Center project will provide approximately 15,000 square feet of staff office and meeting space. The project will include a redevelopment plan for the Arlington Shop site, including the eventual replacement of the ER&R Maintenance Shop (construction for ER&R shop not included in this CIP request), to be completed in a later phase as funding is available. This project will also develop the Granite Falls property that was purchased in 2021 for a replacement material storage site after the sale of the formerly owned Sand Hill pit. The development of the Granite Falls property will provide this Arlington Shop project a necessary crew staging area to facilitate the continuous operations needed during the construction of the Arlington Shop site.

This package requests expenditure authority for design and construction of the new administrative/crew building, remediation of contaminated soil, along with utility, stormwater, parking and security improvements. The project is funded by \$38,000,000 in bond proceeds received in 2022 with a twenty-year payback period.

Summary

Change Request Summary

Justification

Arlington office and staff facilities consist of a modular office building that needs significant repair and is too small to serve current crew size. The vehicle storage facilities are deficient for the number and size of vehicles, and some of the existing structures are requiring demolition. The facilities are old, dilapidated, and beyond their useful life. Material storage is deficient for today’s permitting requirements, and what does exist needs enlargement over their existing size. The overall site is lacking several features for safety, security, and is inefficient for current operations.

Through preparation of the Public Works Continuity of Operations Plan (COOP) and participation in the 2016 Cascadia Rising Exercise, it has become clear that uninterrupted operation of both Road Maintenance facilities (Arlington & Cathcart) is necessary for emergency response and recovery during a major earthquake or other disaster event. In contrast to Arlington, the Cathcart Way Operations Center is built on consolidated glacial till, has modern steel construction, back-up generators and a secure fueling station. The Arlington Shop site is located on some unconsolidated sands, gravels, and silts that would be prone to liquefaction in a seismic event. Analysis has shown that an earthquake in the M7.0 to M9.0 range on either the Cascadia Fault or South Whidbey Island Fault could result in ground settlement of up to 7-inches causing the Arlington Shop to be potentially compromised. In response to this risk, it is recommended that the existing shop site be redeveloped to be resilient with proper building foundations, parking, and driveways that will survive the seismic liquefaction for continued operation after such an event.

The Arlington Shop is identified in the COOP plan as an alternate work location for Fleet’s other two shops (Cathcart and McDougall). The McDougall Shop is vulnerable in an earthquake due to the unreinforced concrete block wall construction. McDougall is the location where law enforcement and other emergency vehicles (DEM, Medical Examiner, Animal Control, SERS, etc.) are serviced and repaired. In an emergency that closes McDougall, it is critical to be up and running at another shop as quickly as possible to support law enforcement and emergency responders. If McDougall and the existing Arlington Shop were unusable at the same time, as could happen in a major earthquake, Fleet would not have the capacity to service these vehicles.

Change Request Summary

Department	0007 - Hearing Examiner
Change Request	AUTO - 107 - OHA Case Management System
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:49 PM (PDT)
Description	This is a partner package with IT Package #359. This is a carryover of 2024 approved funding for implementation of Case Management software, and funding of software maintenance and support for the Office of Hearings Administration to improve workflow, introduce efficiencies and provide greater access for the public.
Summary	<p>Council previously approved funding of \$250,000 in IT's 2024 budget for procurement and implementation of a case management software (CMS) system.</p> <p>Six vendors responded to a request for proposed solutions, and phase three evaluations/demos are scheduled for early July.</p> <p>This package is a placeholder based on the initial proposed cost from the highest of the three top-rated vendors, and the numbers will be refined later in the summer. The top three proposals range from a low of \$146,000 to a high of \$577,000 for procurement and implementation (median of \$251,775). Annual maintenance and support also range widely from \$27,000 to \$142,000, which would be for the second and third year following implementation.</p>
Justification	<p>The Office of Hearings Administration (OHA) needs a case management system to streamline processes, increase productivity, and provide improved access and service to our citizens. OHA provides a quasi-judicial forum to hear and decide matters for the Hearing Examiner, the Board of Equalization, and the Boundary Review Board. Cases can include hundreds of exhibits and public comments, all of which are part of the hearing record. OHA currently processes matters and documents by hand, tracking hearings, deadlines, and documents using Adobe Acrobat, MS Outlook, MS Word, and MS Excel. Processing and tracking are very laborious and time intensive; for example, just one of the processes of adding a public comment to a file can take up to 20 minutes for each comment, and controversial land use applications have hundreds of comments. Interested members of the public cannot view the record, prompting some to ask for copies multiple times throughout the hearing process. The Snohomish County Superior and District Courts, Snohomish County Office of Public Defense, Snohomish County Prosecuting Attorney's Office, state Office of Environment and Land Use Hearings Office, state Office of Administrative Hearings, King County Hearing Examiner, and City of Seattle Hearing Examiner all use case management software tools to manage their cases. Some of these jurisdictions, most notably the City of Seattle Hearing Examiner, have a public-facing portal that allows the public to view the current, dynamic file. Furthermore, public commenters and parties may directly submit information via the Seattle Hearing Examiner's web interface instead of through email.</p> <p>Thus, OHA requests a carryover of \$250,000 funding from 2024 plus \$327,000 for a total of \$577,000 in the 2025 budget for implementation, and second year maintenance and support costs of \$142,000. In the event a contract is executed and implemented in 2024, the 2025 request would be reduced to \$142,000 for maintenance and support. The budgetary need would be further reduced if a vendor is selected who has lower pricing. This request is consistent with the adopted 2024 budget in that we are requesting the funding be included in the IT budget as it was in 2024 with the annual operating costs being added to our interfund IT rates once implementation is complete. IT has the resources and expertise required to support and maintain the vendor support agreement.</p>

Change Request Summary

Department: 0007 - Hearing Examiner
 Change Request: AUTO - 267 - OHA Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:07 PM (PDT)
 Description: Resource Alignment for 2025 and 2026 Budget
 Summary:

The Office of Hearings Administration (OHA) has been asked to provide a Resource Alignment in the amount of \$27,217 (\$5,117 for program 424 and \$22,100 for Program 860) for each year. As the second smallest office/department in Snohomish County, this would be devastating to our operations.

More than 70% of the 2025 and 2026 OHA budget for both programs (424 and 860) is allocated to salaries, benefits, hearing examiner pro tem expenses, and statutorily established board member reimbursements. Interfund charges account for more than 27% of our budget, which leaves less than 3% for necessary items such as copier rental, postage, and supplies. The proposed Resource alignment of \$27,217 would wipe out the entire 3% upon which we rely for operational expenses – and we would still fall short of meeting the proposed alignment by approximately \$1,300.

Even a small reduction places a significant strain on the Office of Hearings Administration, but we understand the difficulty of attaining a balanced and sustainable budget and the need for all offices and departments to do their part as best they can. Therefore, we propose a Resource Alignment for this office of 20% of the proposed \$27,217, which equates to a total reduction of \$5,500 (\$1,025 and \$4,450 for programs 424 and 860 respectively) for each of the 2025 and 2026 budget years.

Description	Reclassification of OHA staff to ensure that job titles and descriptions accurately reflect current duties and requirements.
Summary	

The role of the Office of Hearings Administration (OHA) is unique in that it is the only county office that provides quasi-judicial services and is not part of either the judicial or executive branch. In 2013, County Council passed chap. 2.02 SCC and merged the separate offices of Hearing Examiner and Board of Equalization/Boundary Review Board into a single office titled "Office of Hearings Administration" administered by the Hearing Examiner. One purpose of the office merger was to create the flexibility of allowing any of the clerks to work for any of the three decision-makers and to handle back-office functions if the volume of work required more than one clerk or if a clerk was absent. The combined offices had an authorized support staff of 4.75 FTEs. Through dynamic administration of the budget and staff, staff support has been decreased to three FTEs. These staff support the three decision-makers (the Hearing Examiner, Board of Equalization, and Boundary Review Board) and are the gatekeepers between the decision makers and both the public and the parties in proceedings. Staff process submittals of hearing exhibits, set up hearing rooms and recording equipment, create and maintain the official record of proceedings, prepare written transcripts, schedule, and publish hearings and meetings, ensure compliance with the Open Public Meetings Act, recruit board members, and coordinate with other government agencies such as the Washington State Department of Revenue. Additionally, they provide back-office support of payroll, budgeting, public records management, accounts payable, and coordinate with other county departments (e.g., Council and Executive staff, IT, Central Human Resources, Planning and Development Services, Assessor's Office, Auditor's Office, and Facilities).

During the Hearing Examiner's meeting with the consultant team of Segal Partners and Central Human Resources staff for the 2023 compensation study, the consultants noted the disparity in job descriptions and pay between the administrative specialist and hearings clerks; they opined that all three should have the same job description and compensation because all three are responsible for and expected to perform all the duties in the office. The Administrative Hearings Clerk pay grade (315) ranges from \$31.291/hour to \$38.042/hour and the Administrative Specialist pay grade (238) ranges from \$33.166/hour to \$40.303/hour. Both are classified and not represented by a bargaining unit. Furthermore, the current job descriptions are inadequate because they do not comprehensively capture the work performed or expected, nor do they reflect the flexibility required for the positions. Reviewing existing job descriptions, the Municipal Clerk series most closely matches the breadth and depth of the work in this office, though they lack the additional back-office functions performed by OHA staff.

Justification This budget package requests that funding be provided and either: 1) job descriptions of all three staff be reclassified to replace the existing Administrative Hearings Clerk job description with the Municipal Clerk I job description plus back-office functions and revised pay grade of 243 (\$42.280/hour to \$51.415/hour) or 2) all three be reclassified to Municipal Clerk I. The financial impact of this change would increase the annual budget of the Office by approximately 3.5%, as explained below.

The first year that OHA existed as a comprehensive unit (2014), budgeted expenditures exceeded \$1 million. The Hearing Examiner steadily reduced expenditures for the following seven years. Although expenditures began to increase again in 2022 due to interfund charges and COLAs, the cumulative savings since 2014 have been significant: if the 2014 authorized budget of \$1,056,215 had been carried forward each year through 2024 without any increase, the savings to the county would be \$1.56 million. However, if the 2014 authorized budget increased at the rate of the Consumer Price Index, the cumulative savings would be \$2.835 million!

The financial impact of reclassifying staff from their current pay grades to the first step of Municipal Clerk I pay grade is small and, particularly so when considered against the budget amounts saved by this Office since its creation. The 2024 annual budget of the Office is approximately \$870,000, and the reclassification (including benefits) would increase the Office budget by approximately \$31,000 for 2025 - only 3.5% of the total Office budget, and approximately \$25,000 for 2026.

In addition, an OHA clerk is now leaving county employment for an administrative position in another government entity whose pay range starts above the top step of the Administrative Hearings Clerk pay range. She advised that compensation was the main factor in her decision. In some offices and departments, the loss of one team member is not significant, but OHA only has three team members—we've lost 1/3 of our skilled and talented workforce. Too, all OHA positions take many months to learn. Losing trained team members due to compensation inequities is a loss for the stakeholders as well as county government and OHA.

Fairness and equity require that people performing the same work be compensated the same. Each of the three Hearings Administration staff perform the same work as the other and the work they perform includes the work performed by a Municipal Clerk I plus back-office responsibilities. The financial cost of fairness is minimal, and the job descriptions should be revised to capture the functions accurately and comprehensively and assigned an appropriate pay grade. The employees are classified and not represented, so this request does not implicate any collective bargaining issues.

Change Request	AUTO - 108 - DCNR Parks 123 - 4H
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:49 PM (PDT)
Description	This change request reflects an increase in the Professional Services line item within the Youth and Family budget to help cover the cost of expected Cola increases and steps for WSU Faculty and Staff paid partially through an ILA between WSU and Snohomish County.
Summary	
Justification	<p>An Interlocal Agreement defines responsibilities of both parties and provides the vehicle for the County to pay for its share of salaries for WSU employees assigned to Snohomish County. The WSU partnership has been in place for over 100 years with Snohomish County and WSU sharing staffing costs within the Snohomish County Extension Office.</p> <p>Exhibit B is amended at a minimum once each year, in order to authorize payment of a share of salaries and benefits for WSU faculty and staff. Contracts and Agreements account for approximately \$222,184.00 with general funds providing approximately \$164,190.00 of total ILA funds. As noted above these figures change yearly.</p> <p>With costs still increasing from 2023 inflation rates, there are expected cost of living increases, step increases and performance based raises within the WSU faculty and staff. Snohomish County will need to cover a portion of these increases.</p>

Change Request Summary

Department 0009 - Conservation and Nat Resources
Change Request AUTO - 119 - DCNR SWM 415 - Operations Program Adjustments
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 07:49 PM (PDT)

This priority package reflects adjustments to the Surface Water Management Division Operations (Program 511) non-capital base budget for 2025-2026. Overall, the 2025 budget request for SWM Operations decreased by 6% compared to 2024 and the 2026 budget request for SWM Operations decreased by 4% compared the proposed 2025 budget. This decrease is largely due to a 2024 one-time expense associated with a pond excavation in floodplain Services Sub-Program 005.

Description Adjustments are in the following areas:
1) Fiscal Services (Sub-Program 001)
2) Program Planning (Sub-Program 002)
3) Noxious Weeds (Sub-Program 003)
4) Resource Monitoring (Sub-Program 004)
5) Floodplain Services (Sub-Program 005)

Summary

1) FISCAL SERVICES (Sub-Program 001) - The 2025 budget request is a decrease of approximately 8% and the 2026 budget requests a decrease of approximately 1% from the from the 2025 proposed budget. The Fiscal Services sub program provides financial and administrative support for all SWM programs.

Change from Proforma Budget

The decrease in the proforma budget is primarily due to a one-time expense for SWM to relocate offices.

2) PROGRAM PLANNING (Sub-Program 002) - The 2025 budget request is an increase of approximately 17% and the 2026 budget requests a decrease of approximately 5% from the from the 2025 proposed budget. The Program Planning sub program coordinates water resource-related planning efforts

including salmon and Puget Sound recovery, water quality, shellfish protection, marine resources, and the Sustainable Lands Strategy. The program also includes education and outreach efforts for the county's National Pollution Discharge Elimination System (NPDES) permit.

Change from Proforma Budget

Increases stem from pass through grant expenses and revenues in the Phase II and III of the existing Floodplains by Design grant. Pass through partners include Tulalip Tribes, Snohomish Conservation District, Washington Farmland Trust, Adopt A Stream Foundation, and Ducks Unlimited.

3) NOXIOUS WEEDS (Sub-Program 003) - The 2025 budget request is a decrease of approximately 19% and the 2026 budget requests a decrease of approximately 9% from the from the 2025 proposed budget. The program addresses the control and management of exotic and invasive weeds as part of a larger effort in WA state. Priority species include Japanese Knotweed and Scotch Broom as designated by the Washington Invasive Species Council.

Change from Proforma Budget

The decrease to the Noxious Weeds budget is primarily due to a one-time expense in 2024 for a Noxious Weeds office/trailer.

4) RESOURCE MONITORING (Sub-Program 004) - The 2025 budget request is an increase of approximately 4% and the 2026 budget requests an increase of approximately 2% from the from the 2025 proposed budget. The Resource Monitoring sub program provides the scientific basis and support for actions and programs to protect and restore water quality and improve aquatic habitat and implements NPDES programs related to finding and stopping water pollution.

Change from Proforma Budget

The increase to the Resource Monitoring budget is due to step increases in salary, which are reflected in the preloaded proforma budget and the purchase of 10 sensors and RTK equipment for survey and drone flight.

5) FLOODPLAIN SERVICES (Sub-Program 005) - The 2025 budget request is a decrease of approximately 47% and the 2026 budget requests a decrease of approximately 20% from the from the 2025 proposed budget. Floodplain Services implements the non-capital flood hazard and floodplain management aspects of the Surface Water program.

Change from Proforma Budget:

Decreases to the Floodplain Services budget are primarily due to the 2024 onetime expense to excavate the Smith Island Pond and the 2025 expense to lift the Smith Island Levee.

Change Request AUTO - 120 - DCNR OES 002
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 07:49 PM (PDT)

This change request requests a total of \$685,306 for the following projects:

- 1. \$350,000 in funds for professional services
- 2. \$145,306 (increased from \$62,656), in miscellaneous/matching funding
- 3. \$160,000 for additional help
- 4. \$16,000 (increased from \$10,000) in supplies
- 5. \$14,000 for dues and subscriptions
- 6. \$1,300 for communication

Description

This change request requests a total of \$613,950 for the following projects in 2025-2026:

- 1. \$350,000 in funds for professional services
- 2. \$145,306 (increased from \$62,656), in miscellaneous/matching funding
- 3. \$160,000 for additional help
- 4. \$16,000 (increased from \$10,000) in supplies
- 5. \$14,000 for dues and subscriptions
- 6. \$1,300 for communication

Summary

The change request meets the County's mission, vision, and value goals by ensuring both innovative and new, as well as ongoing programs, projects and plans to provide the County's diverse internal and external customers with service that is both equitable and excellent.

The application includes project funding for consultant project support, additional help and supply funds for several direct projects benefiting Snohomish County.

The majority of the funding coming into OES through this request will be used to support ongoing regional and local climate resiliency consulting contracts as well as facilitation of a wide variety of internal and external programs that are focused on meeting state and local climate goals. The details of this spending are as follows:

OES General Fund 002:

24101 - Professional Services: Consultant Services

Community Climate Resiliency Plan (formerly the Community Climate Action Plan) funding reallocation: \$250,000

DCNR-OES requests the re allocation of \$250,000 for the continued payments for the professional services contract to create the county's first community-wide climate action plan. Cascadia Consulting is leading this work, including developing a project schedule to meet project timeline/deadlines, leading public outreach and engagement, and the scheduled delivery of a final professional quality plan in early 2026.

Social equity is a central to plan development, and a portion of the total request is being used to ensure equitable and meaningful public, particularly with the county's BIPOC and frontline and Tribal communities. Project funds include robust internal and public engagement, and inclusion of subject matter experts from county departments via the County Interdepartmental Climate Resiliency Committee. The County's Climate Action Advisory Committee also plays a key role in providing input on the plan.

The full \$250,000 cost of the contract for the Community Climate Resiliency Plan will extend into 2026 and not be expended by the end of December 2024.

Public Electric Vehicle Infrastructure and Location Feasibility Study: \$100,000

DCNR-OES is requesting \$100,000 to retain a consultant to complete a Snohomish County public facing electric vehicle charging infrastructure and location feasibility study. OES is leading the Metropolitan Statistical Area's (MSA) efforts to plan for regional public facing electric vehicle charging infrastructure. The resulting information will allow the county to plan to meet growing demand as well as align with state climate resiliency targets and provide equitable, economical and grid sized appropriate public facing infrastructure, by capturing grant opportunities that require such an assessment as criteria for award.

Justification

24901- Miscellaneous: \$145,306

Matching Funds for Emergent Grant Opportunities: \$82,650

DCNR-OES requests \$82,650 in addition to the Pro Forma \$62,656 in miscellaneous funding to use for matching funds for grant opportunities applied for in 2024. Many grants that OES applies for require a match. In this case, an Inflation Reduction Act (IRA) Urban Forest Grant, applied for by OES staff in 2024, is expected to be awarded and these funds will be used as a portion of the required match for that and other grant opportunities that emerge in 2025 and 2026. Grant funding will provide for (among other things) the Snohomish County Healthy Forest program, additional project staffing for the Snohomish County Land Conservation Initiative and consulting planning services for the Snohomish County Evergreen Communities designation.

21500 - Extra Help: \$160,000

OES is requesting \$160,000 in Extra Help in the 2025-26 budget. OES facilitates both the Snohomish County Climate Action Advisory Committee as well as the Snohomish County Interdepartmental Climate Resiliency Committee (ICRC). Additionally, the division represents the Snohomish County as a core member of the (new) Environmental Protection Agency (EPA) Regional MSA Grant project and the NOAA grant funded \$72 million Coastal Climate Resiliency program. DCNR-OES is expected to regularly report to the Snohomish County Tomorrow Steering Committee and other regional and environmental groups on Snohomish County climate change resiliency initiatives. Additionally, OES facilitates several programs and other work

Change Request Summary

such as the development of the Community Wide Climate Resiliency Plan, the Land Conservation Strategy Plan, and the Sustainable Operations Plan.

OES also manages the Snohomish County Commercial Property Assessed Clean Energy and Resiliency Program, the Energy Smart Loan Program, and the County’s Weatherization Program, all which offer innovative financing mechanisms to help commercial, industrial, agricultural, and low income residential and multi-family buildings become more efficient and resilient.

To adequately fulfill the expectations, needs and development of both the interdepartmental and external members of these groups and programs, as well as facilitate meetings, agendas, public and internal meeting notes, briefings, reports and data management, the OES requests \$160,000. Funds would provide two temporary staff/pay grade 240 + benefits.

23101 – Supplies: \$16,000

DCNR-OES is requesting an increase to funding for supplies in the amount of \$6,000 for a total supply budget of \$16,000. The department is required to fund supply costs for several annual public outreach and other events as well as facilitate public meetings including the County public facing Earth Day event as well as support the supply needs of OES staff. These funds also cover the cost of new technical equipment for the OES temp staff and Funding Coordinator positions.

24951 - Dues Subscriptions and Reg: \$14,000

DCNR-OES is requesting \$14,000 in subscription and registration fees to cover the County’s enrollment with the Urban Sustainability Director’s Network which facilitates access to Climate Resiliency training, data and other resources to County Planning and Development Services, Department of Emergency Management, Office of Energy and Sustainability, Parks and other departments working on County climate planning.

24201 – Communications: \$1,300

DCNR-OES is requesting \$1,300 for cellular and data service for external and internal communication.

Change Request Summary

Department 0009 - Conservation and Nat Resources
Change Request AUTO - 155 - DCNR PARKS 680- ARMING RANGERS
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 07:50 PM (PDT)

Snohomish County Park Rangers are dedicated to providing safe and attractive parks for the community to enjoy. Embracing the versatility of their roles, our Rangers perform a wide range of tasks including law enforcement duties, campground operations, maintenance, and general janitorial duties.

Given the increasing challenges they face, such as weekly encounters with individuals under the influence of drugs, the unhoused, or violent individuals, we propose arming our commissioned Park Rangers. This policy aligns with National Park Service standards and practices of many agencies in Washington State.

Description Park Rangers frequently interact with armed visitors, both those who open carry and those who conceal carry. In many situations, disengagement is not an option, and circumstances can change rapidly. Arming our Rangers provides them with an additional tool to ensure their safety and that of the public. We recommend that all newly hired commissioned Park Rangers be required to carry a firearm. Current Rangers who prefer not to carry can opt out by signing a waiver.

The presence of Park Rangers is a strong deterrent for criminal activities and preventing such activities from taking place in our parks. Use of force amongst our team has been very low, which we account to our stellar verbal tactics, however we do not always have the option to talk our ways out of a situation.

Allowing our Rangers to carry firearms will provide them with an additional means to ensure their safety and that of the community.

Summary All of our current commissioned Park Rangers have received extensive firearms training at the Park Ranger Law Enforcement Academy or the Basic Law Enforcement Academy where they are required to meet stringent qualifications for proficiency to receive their certification and graduate the program. Rangers are also taught and tested on knowledge of constitutional law and laws governing use for force and when the use of force is necessary.

Justification Snohomish County Sheriff's Office (SCSO) will provide our Park Rangers, who choose to carry a firearm, with initial Firearms safety Training Course, facilitate firearms qualification annually and provide monthly training at no cost to the department. Inventory and record keeping will also be maintained by the SCSO Rangemaster.

By following equipment standards by the Sheriff's office this will allow us to keep costs low and will be used from our current 680 supplies budget.

Firearm cost: - \$6,500.00
Required equipment costs (holsters, magazine holders, lock boxes): \$5,000.00.
Annual ammunition cost: (practice and duty rounds) \$6,380.00

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 160 - DCNR PARKS 430- BRIDGE INSPECTION & REPAIR
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:51 PM (PDT)

This funding package aims to address the increasing costs of bridge inspections and maintenance within the Maintenance Team 480 Outside Repair and Maintenance budget. In 2024, removal of debris from one bridge after a flood event cost \$25,000. We will be spending about \$70,000 for bridge maintenance on two bridges. We currently have about 45 bridges system wide and will be adding an additional 7 when Centennial Trail South opens, one of which is 0.35 miles of trestle and historic railroad bridge over the Snohomish River and BNSF main rail line.

Description: The allocated funds will be utilized for two primary purposes: bridge inspections and maintenance throughout our park system. By prioritizing inspections, we will enhance the safety of park visitors and nearby residents. Additionally, the funds will be utilized to ensure that bridges are well-maintained, ultimately improving the overall experience for park users.

By addressing these crucial aspects of bridge inspections and maintenance, we can create a safer and more enjoyable environment for everyone who utilizes our parks, while also accounting for the rising costs associated with these services.

Summary: Given the constraints of our limited maintenance staff who do not have the technical expertise in structural bridge repair we are requesting additional funds to hire external services. This additional support will assist our maintenance team in effectively managing bridges spread across our park system.

Justification: By using external services, we aim to ensure that these maintenance tasks are addressed promptly and efficiently. The funds will enable us to engage qualified professionals who specialize in bridge inspections and maintenance. Their expertise and assistance will alleviate the burden on our current staff, allowing them to focus on other essential tasks while ensuring that the maintenance needs are met in a timely manner.

By investing in these external services, we can streamline our operations, improve response times, and effectively maintain the multitude bridges throughout our parks system. This strategic approach will enhance the overall upkeep and functionality of our parks, ultimately benefiting park visitors and nearby residents.

Change Request Summary

Department: 0009 - Conservation and Nat Resources
Change Request: AUTO - 201 - DCNR GENERAL FUND RESOURCE ALIGNMENT
Change Request Type: Resource Alignment
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 07:59 PM (PDT)
Description: This Change Request is to address the 3% requested resource alignment for DCNR. This request affects our 112, 122,123, 411, 430 and 680 general funds, for a total of \$298,736.

Summary: DCNR fully understands the need behind the requested resource realignment and the County’s General Fund concerns. We respectfully request however for relief from the reduction based on recognition of the current deficit we are operating under for GF staff positions and the impact that reductions would have on programs.

The impact of reductions on our GF programs would include:
Maintenance (430)
Additional reduction in mowing – frequency and areas
Reduction in watering and ballfield topdressing and fertilization
Reduction in preventative maintenance
Removal of training program
Reduction of rental budget
Removal of Juvenile Program

Rangers/Operations (680)
Reduced work release utilization – would impact graffiti clean up
Shortened seasons for sanicans and waste management
Cuts to seasonal staff budget
Eliminate one Park Ranger position

Additional savings in Parks’ operation and maintenance program could be realized by moving some vehicles out of ER&R and handling repairs with in-house staff.

Extension (122 & 123)
Deferring Maintenance and Repairs will create a larger future need for WSU Snohomish County Extension that will put more pressure on the 2027/2028 biennial budget. We are already stretched thin with space and storage and need consistent operations funding for repairs and maintenance that considers and matches inflationary costs.
Reducing communications and mileage will limit our ability to perform crucial Community Needs Assessments across our programs. Outreach and education to outlying communities, which are already underserved and in the most need, will be decreased. Our ability to conduct analyses of how we are doing with meeting our programmatic goals as well as what is needed in the future is dependent upon our ability to reach our audiences through our comms and outreach efforts.

Justification: Our Extension programming is experiencing an increase in demand and effectiveness across the county despite having our facilities shuttered due to environmental concerns at McCollum Park during the pandemic. We have already done more with less. And so now, due to Snohomish County residents and our communities of practice telling us they want more educational access and programming, we are seeing an opportunity to increase our impact. However, the county funding is not keeping up. We need funding increases for our 4H, Horticulture, Forestry, Environment and Community Outreach programs and our administrative support. So, in the face of funding cuts instead of funding increases, we would be losing our capacity to deliver world class education and programming to our county residents who are asking for more.

Change Request Summary

OES (112) – (Please note that the OES General Fund budget for 2024 reflected a 27% decrease over the 2023 request) A 3% reduction would result in reduced funding for:
Miscellaneous fund/grant matching which may impact County Inflation Reduction Act and other grant award opportunities.

We greatly appreciate the support in the 2024 budget for the addition of one additional Maintenance position and have information to present this year demonstrating that Parks’ operation and maintenance staffing deficit is actually a full 17 positions. Parks has a long history of operating extremely leanly (“penny pinching parks”) but have hit a point of increasing complaints from the public, frustrated staff and the understanding that, for the foreseeable future, there will not be sufficient General Funds to fully support provision of services desired by the public. In light of this, we are actively seeking to continue to build upon our efficiencies, transfer facilities, develop additional revenue opportunities, be innovative in funding opportunities and are actively working with our City and Town partners to vet the viability of a bond/levy measure. We understand however that these efforts are not likely either to fully support provision of services desired by the public and see that General Fund support will be needed into the future to continue to provide the Parks, WSU Extension and OES services that the public values.

We are projecting new revenue in 2025 to help offset General Fund needs:
New Parks reservation system – will reduce expenditures and increase revenues to a projected net gain in 2025 of \$117,656
Reduction in utilities associated with Twin Lakes Park upon transfer to the City of Marysville 1/1/25 - \$7,800
Currently investigating the possibility of additional cell tower leases for steady annual income
Currently working with the City of Lake Stevens on possible transfer of Lake Stevens Community Park, Cavalero and that portion of the Centennial Trail within the City of Lake Stevens

In conclusion, we appreciate the position that the County is in regarding General Funds. DCNR continues to focus on great responsibility in fiscal management and innovative approaches to provide the services that we do and that the public values. We appreciate the collaboration, support and flexibility in thinking of innovative ways to provide great services and the consideration of this request for relief from the General Fund budget reduction.

Description

This package addresses reclass requests for numerous positions, some of which have been working out of class for multiple years.

Fairgrounds Superintendent Coordinator proposed to Fair Programs Specialist-Competitive Exhibits
This position will be funded by Fair revenues. This position is currently filled and the employee has been working out of class for a number of years. We are submitting this request as her duties have evolved due to significant changes at the Fair Park and her role has expanded. This reclass is supported by management & the union.

Programs Specialist proposed to Parks & Recreation Programs Supervisor
This position will be funded by Fair revenues. This position is currently filled and the employee has been working out of class for a number of years. We are submitting this request as the employee's role has evolved significantly, adapting to changes and needs at the Fair Park and within Parks as a whole. Over time she has taken on additional duties and staff supervision. Her duties better align with the Parks and Recreation Programs Supervisor position.

Accounting Technician II proposed to Accounting Technician III
This position is currently filled and employee has been working out of class for a number of years. We are submitting this request as duties have evolved due to significant changes in Parks and her role has expanded. This reclass is supported by management & the union.

Facility Maintenance Work IV proposed to Electrician III
This position is currently filled and employee's primary duties involve electrical task and should be reclassified as an electrician. The proposed reclassification accurately reflects the actual duties and responsibilities performed by the employee, ensuring the job title aligns with the specific skills and tasks handled. This reclass is supported by management & the union.

Facility Maintenance Work IV proposed to Parks Maintenance Systems Technician
This request is for a title change only and will not affect pay range. This position is currently filled. The proposed reclassification accurately reflects the actual duties and responsibilities performed by the employee, ensuring the job title aligns with the specific skills and tasks he handles. This reclass is supported by management & the union.

Facility Maintenance Work IV proposed to Facility Maintenance Worker NPDES
This request is for job description update and won't affect pay range. This position is currently filled. The proposed reclassification accurately reflects the actual duties and responsibilities performed by the employee, ensuring the job title aligns with the specific skills and tasks he handles. This reclass is supported by management & the union.

Communications Specialist I proposed to Project Specialist
This position will be offset by sponsorships that are brought in. This position is currently filled. The employee's duties have evolved and this position has been focused on supporting Parks' expanding sponsorship/partnership program and the change is needed to pursue innovative projects as well as funding support. This reclassification is being pursued to align with needed job duties and skills.

Administrative Analyst proposed to Fiscal Resource Analyst Senior
This position will be funded by Fair revenues. This position is currently filled and the employee's role has evolved beyond her current job description. She now supervises staff, develops and analyzes fiscal forecasting models and programs, manages capital grants and contracts, and determines revenue requirements and operational costs.

Fiscal Resource Analyst proposed to Fiscal Resource Analyst Senior
This position is currently filled and the employee's role has evolved beyond her current job description. She now supervises staff, develops and analyzes fiscal forecasting models and programs, manages capital grants and contracts, monitors multiple funds, determines revenue requirements and operational costs.

Summary

Snohomish County Parks staff are hardworking, efficient and are willing to take on more to support the department. These reclasses are justified by the amount of work these staff have taken on while our department and the park system only continues to grow. We have had staff working out of class for years, who have been accommodated within our budget, so it only makes sense to permanently move them into those positions.

Justification

Reclassifying positions ensures that job titles and descriptions accurately reflect current duties and expectations. This also establishes clear career progression paths for employees, helping to motivate and retain skilled workers while ensuring the workforce is well prepared to meet both current and future needs.

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 223 - DCNR PARKS 309 - TIER 2 New Improvements
 Change Request Type: CIP - Capital
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:03 PM (PDT)

Description: The following potential projects are from multiple programs (support, community parks, regional parks, open space/preserve, special use, and trails). Each of the Tier 2 projects have been identified as a suitable project for meeting the goals of Snohomish County. Funding for these projects exceeds what is typically available for Parks budgeting, so they have been included for consideration as "Tier 2." New Park Improvements proposed will help to meet population growth demand and need.

Summary: Justification: Please see attached WORD document for TIER 2 - NEW PARK IMPROVEMENTS justifications.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 229 - DCNR SWM 415 - Capital CIP
Change Request Type	CIP - Capital
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:03 PM (PDT)
Description	<p>This priority package describes the Annual Construction Plan (ACP) and the Six-Year Capital Improvement Plan (CIP) for the Surface Water Management (SWM) Division of Conservation & Natural Resources and reflects adjustments to the Capital (Program 513) base capital budget for 2025 -26. Overall, the 2025 budget request for SWM Capital increased by 39% compared to 2024 and the 2026 budget request for SWM Capital increased by 18% compared the proposed 2025 budget. This is primarily due to grant funded projects that impact revenue/expenses. Adjustments are in the following areas:</p> <ol style="list-style-type: none">1) Stream and River Capital (Sub-Program 003)2) Drainage and Water Quality Capital (Sub-Program 008)
Summary	

1) STREAM AND RIVER CAPITAL (Sub-Program 003) – The 2025-26 budget request reflects an increase of 60% in 2025 compared to the 2024 approved budget and a decrease of 6% in 2026 from the proposed 2025 budget. The Stream and River Capital sub program includes design and construction of projects to restore or improve habitat and water quality in rivers and streams. This subprogram is funded by a combination of SWM service charge revenues and grant funds.

Change from Proforma Budget

Increases to the Stream and River Capital budget is primarily due to the work at Thomas’s Eddy scheduled to take place in 2025 and Shinglebolt Slough in 2026. Both projects are primarily grant funded.

Thomas’s Eddy is a 200-acre Floodplain Restoration project on the mainstem of the Snohomish River, between the City of Monroe and the City of Snohomish. This project will involve lowering of existing levees to promote river reconnections, native plantings, trail improvements and replacement of an access road culvert, large wood structures and replacement of two farm culverts.

Shinglebolt Slough is a 40-acre Floodplain Restoration project on the mainstem of the Lower Skykomish River, a tributary of the Snohomish River near the City of Sultan, and the confluence of the Sultan River. This project will reconnect isolated side channels, restore up to 20 acres of riparian habitat, as well implementing large wood structures and water quality improvements.

2) DRAINAGE and WATER QUALITY CAPITAL (Sub-Program008) – The 2025-26 budget request is an increase of 26% in 2025 compared to the 2024 approved budget and an increase of 37% in 2026 from the proposed 2025 budget. The Drainage and Water Quality Capital subprogram provides engineering planning and analysis, project design, and project construction for drainage and water quality concerns throughout the County. SWM Drainage and Water Quality projects are funded with a combination of SWM service base charges and fund balance, Roads - Interfund Professional Services, grants, and REET II revenues.

The Drainage and Water Quality Capital sub-program has the following main components:

- 1) Drainage and Flooding Reduction projects
- 2) Fish Passage Improvement projects
- 3) Master Drainage Planning and Water Quality Facility Planning
- 4) NPDES and water quality-focused projects

Change from Proforma Budget

The increase in 2025 and 2026 to the Drainage Water Quality Capital sub-program is primarily due to additional grant funds available to work on culverts to improve fish passage.

In 2025 the SWM Capital Projects team is advancing a variety of projects to construction, including 4 larger fish passage culvert projects and a large flood reduction project. The culvert replacement near 7616 Sexton Rd, costing roughly \$2M is a joint effort with WSDOT to replace fish passage barrier culverts within both County and WSDOT right-of-way. The Culvert Replacement near 26622 Monroe Camp Road, costing roughly \$3.2M, replaces a failed culvert crossing and satisfies an obligation with the Department of Washington Fish and Wildlife. Culvert replacements on Cedardale Loop, \$1.1M, and Grandview Rd, \$1.6M, each replace fish passage barrier culverts that are failing and are of interest with key tribal partners. Lastly, the Flood Reduction on Elliot Rd. project resolved long standing flooding issues along a key roadway in the County. Given the poor soil conditions at the site construction of the improvements must be broken into two phases, with construction of Phase 1 in 2025 (\$1.6M) and Phase 2 in 2026 (\$1.6M).

In 2026 we are advancing a variety of projects to construction, including 4 larger fish passage culvert projects, a large flood reduction project, and a large water quality improvement project. The North Martha Lake Inlet Water Quality Improvement project, costing \$3.68M, leverages Surface Water Utility funds and grant funds to improve storm water quality entering the lake while also fulfilling MS4 Permit requirements. The Culvert Replacement Project near 19224 Marine Drive (\$2.17M) replaces a fish passage barrier and leverages legislatively appropriated federal funding. The Culvert Replacements on 167th Ave (French Creek) (\$3.7M) and on S. Machias Rd. (\$2.35M), leverage federal grant funds to replace fish passage barriers on two different creeks. Lastly, the Culvert Replacement on 19th Ave. NE (Hibulb Crk) (\$1M) replaces a fish passage barrier.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 233 - DCNR Parks 122 - Agriculture/Horticulture
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:03 PM (PDT)
Description	<p>This change request reflects two different scenarios. First it increases both Revenue and Expenses in accordance with an increase in anticipated contract changes.</p> <p>Secondly an increase in the Professional Services line item within the Agriculture/Horticulture budget to help cover the cost of expected Cola increases and steps for WSU Faculty and Staff paid partially through an ILA between WSU and Snohomish County.</p>
Summary	<p>The RSA with Surface Water Management will be increased by \$1,340.00 in 2025 and \$2,740.00 in 2026.</p>
Justification	<p>An Interlocal Agreement defines responsibilities of both parties and provides the vehicle for the County to pay for its share of salaries for WSU employees assigned to Snohomish County. The WSU partnership has been in place for over 100 years with Snohomish County and WSU sharing staffing costs within the Snohomish County Extension Office.</p> <p>Exhibit B is amended at a minimum once each year, in order to authorize payment of a share of salaries and benefits for WSU faculty and staff. Contracts and Agreements account for approximately \$222,184.00 with general funds providing approximately \$164,190.00 of total ILA funds. As noted above these figures change yearly.</p> <p>With costs still increasing from 2023 inflation rates, there are expected cost of living increases, step increases and performance based raises within the WSU faculty and staff. Snohomish County will need to cover a portion of these increases.</p>

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 238 - DCNR Parks 125 - Storage Shed
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:03 PM (PDT)

Description: This package is a one-time expense to purchase a storage shed, set a cement pad for delivery and add electrical, locks and shelving. This shed will be used to store outreach materials for the various programs conducted by Extension.

Summary: For storage Extension currently utilizes space at the Fairgrounds and Willis Tucker Park as well as renting a container unit.

This storage shed would take the place of the container unit which we currently rent for \$3,500.00 per year. However, it comes with its share of issues. There is no electricity so lighting for access after dark is problematic. There is also an issue with condensation causing moist documents, moldy utensils and musty canopies. Being a rental unit we cannot attach hooks, or any other type of organizational tools.

Justification: By purchasing rather than renting we will recover all funds within 6 years assuming the rent stays the same and of course there is no guarantee that will happen.

Extension programs are far reaching and multi faceted they currently store everything from sewing machines to crab pots, from clinic boxes to sign boards, from curriculum to cooking supplies, from tables to canopies and everything in between.

The space needs to be accessible on both nights and weekends since Extension programs are conducted when people are able to participate. Extension is always organizing, downsizing and prioritizing all stored materials in order to keep only what is needed and frequently utilized even with this process storage is always at a premium.

Change Request Summary

Department 0009 - Conservation and Nat Resources
Change Request AUTO - 245 - DCNR OES Grants
Change Request Type Revenue Adjustment Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:04 PM (PDT)

This priority package requests a revenue change to the OES budget resulting from a grant award in the amount of 71,917,933\$ allocated over 5 years (2025 through 2029), 25/26 will consist of: 30,738,833\$. This revenue will be divided into the following spending categories:
1- 21,910,370\$ pass through to regional community specific projects.
2- 5,519,384\$ for regional projects administered thorough Snohomish County OES.
3- 2,471,200\$ in professional services for a consultant overseeing execution of regional and community specific projects.
4- 837,879\$ in management and administration funding for OES to administer funding and deliverables tracking.
The grant source is administered through the National Oceanic and Atmospheric Administration’s Coastal Resiliency Regional Challenge grant funded through the Inflation Reduction Act. Funding opportunity number NOAA-NOS-OCM-2023-2008068. Application number GRANT14068025.

The application includes project funding for 17 jurisdictions included in Washington State Homeland Security region 1 (HLS-1), with funding for consultant project support, management and administration, and several direct projects benefiting Snohomish County.
The majority of the funding coming into OES through this grant application will be passed through to one of the jurisdictions from HLS- 1 to fund specific projects proposed by subject matter experts and selected for funding by an oversight selection committee administered by NOAA. The details of this spending are as follows:

1- Jurisdictional community specific projects; These are projects which have been developed, proposed and budgeted by subject matter experts in costal resilience, environmental mitigation planning, and project management by one of the communities from HLS- 1. There are 24 projects overall, covering a range of deliverables from planning to execution of mitigation action items. Each project will be overseen by a project management team or point of contact within their own jurisdiction.
2- Regionally applicable projects are intended to benefit each of the jurisdictions within HLS- 1 with as much equality as possible. There are 20 projects in this category spanning direct pass through funding for youth education programing, native plant species support and installation, to projects managed through OES to the benefit of all jurisdictions, such as regional mapping and assessment projects. These projects will execute work or fund projects both inside and outside of Snohomish County at the direction of OES staff and the Project Management Office of HLS- 1.
3- Project Management Office funding is intended to ease the burden of funding administration, project oversight, and reporting on smaller disadvantaged communities, track and report on spending to the oversight board of HLS- 1 and OES and coordinate further funding opportunities. This contracted service will also organize and administer regular status reporting meetings and semi-annual conferences for regional stakeholders during which they will organize presentations and reports on the status of projects funded by NOAA’s CRRC.
4- The management and administration budget for the NOAA CRRC grant will cover two and a half additional positions to be staffed at OES. These positions will oversee status reporting and tracking of projects both to HLS- 1 regional executive sponsors and to the State and Federal agencies. Included in that funding is supporting training and development for the included positions and associated staff, tools and equipment purchase for staff support, and funding for fellowships and internships to develop future staff.
The package meets the County’s mission, vision and value goals by ensuring both innovative and new, as well as ongoing programs, projects and plans to provide the County’s diverse internal and external customers with service that is both equitable and excellent.

Description	This package re-establishes one project position that is in partnership with Snohomish County Airport, and which was zeroed out in the Position Allocation Base. This position is important for providing efficient, quality services and are all supported by revenue from the Airport. Revenues to support these positions are included in 680 base revenue as Interfund Services. This package supports County priorities to meet the needs of County residents efficiently and with excellent service.
Summary	
Justification	Continued Snohomish County Airport funding of one .75 FTE Park Ranger Project position to provide operational management for the Narbeck Wetlands Sanctuary, which included the cost of .75 FTE Park Ranger and uniform; (other .25 is base General Fund approved) a support vehicle and supplies are paid directly by the Airport. Since this position was established in 2013 it has been reviewed every two years to determine the continuation of the program and extension of the position. The Airport and Parks have agreed on a perpetual agreement. The following project position is fully revenue supported. NEW0901P/PRK7234P - Filled - Park Ranger - 1.0 FTE Narbeck Sanctuary (Program in place since 2013)

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 255 - DCNR PARKS - RIGHT SIZING STAFF
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:05 PM (PDT)

In recent years, there has been an escalation in tensions around staff shortages within Parks, which have led to complaints from the public about issues such as lack of mowing of the Whitehorse Trail, to comments from the Fair Board about deferred maintenance at the Fair Park, to important projects such as removal of the illicit pump track at Southwest County Park being delayed. Additionally 28% of staff that participated in the DCNR Stay Survey, noted that one of the things they like least, or would change, was related to lack of staff or too much work.

Staffing levels for Rangers and Maintenance have essentially not changed in over 20 years (17.75 Rangers and 26 Maintenance Staff in 2003 vs 18 Rangers and 28 Maintenance Staff in 2024), while at the same time County population has increased 20% and the number of parks in Snohomish County's system has increased from 103 to 120. In this time additionally, the following parks and facilities have been opened to public use and operational management: Willis D. Tucker, Whitehorse Park (ballfields and campground), Lake Goodwin, Wenberg, Tambark Creek, Miner's Corner, River Meadow's Yurt Village, 10 new campsites at Flowing Lake, Heybrook Ridge, Paradise Valley Conservation Area, Lake Stickney, Lake Stevens, Cavalero, Martha Lake Airport, SR 530 Slide Memorial and Corcoran Park, 8 miles of the Centennial Trail and 21.5 miles of Whitehorse Trail.

Description: Compared to other jurisdictions, Snohomish County has been operating extremely leanly. The National Recreation and Parks Association (NRPA) reports in the 2024 Agency Performance Review that agencies servicing more than 250,000 people have a staff of 263 FTEs. About 46% are responsible for operations and maintenance. By this standard, Snohomish County should be providing a total of 121 operation and maintenance staff. More locally, partial information from other park providers within Snohomish County noted an average ratio of operation and maintenance staff/capita as 1/5,001 (Monroe, Mukilteo, Snohomish and Stanwood data not provided), while Snohomish County provides 1 operation and maintenance staff per 9,300 (this calculation excludes fair maintenance staff). City jurisdictions typically operate under a different operating model however, with a heavy emphasis on events and programming, so comparing Snohomish County to other County, State and Boroughs across the country with populations between 250,000 and 500,000, the average number of FTEs per 10,000 population is 4 with 46% of that number equating to 69 FTEs dedicated to operation and maintenance. By this standard, Snohomish County is operating with an overall deficit of 23 maintenance and operation FTEs.

This package proposes to begin right sizing Parks' operation and maintenance staff over the two year budget. Parks worked with the Continuous Improvement team to complete an 'operators needed' assessment that is specific to the Snohomish County Parks system and provides a level of operation that is appropriate for our system. This analysis identified a shortage of 17 operation and maintenance staff, which are proposed below and include a Volunteer Coordinator, in order to improve support for this program, and a Habitat Steward, to focus on native plant management.

- For 2025, this package requests:
- One dedicated Volunteer Coordinator
 - Two Facility Maintenance II Workers for Fairgrounds- supported by Fair revenues.
 - Two Facility Maintenance III Workers
 - Two Park Rangers

- For 2026, this package requests:
- Three Facility Maintenance II Workers
 - Three Facility Maintenance III Workers
 - One Habitat Steward Crew Lead
 - Three Park Rangers

Summary

Change Request Summary

Snohomish County Parks staff are pretty amazing. Through creativity, hard work and efficient management of the Snohomish County park system, they are supporting provision of an award winning system which is highly valued by county residents for recreation, open space, environmental benefits and economic development.

Justification

At the core of Parks' employees is the desire to serve our community and provide quality service. It has caused increasing stress however over the years to feel like staff are not meeting minimal needs and to receive complaints such as "The way this park is treated y'all should be ashamed" and "It would be great if they actually answered the phone... just as you keep ignoring all the other complaints" and "The White Horse Trail would also be a draw, if it was maintained." While Parks has continually refocused around top priorities (e.g. clean, safe and open) even meeting that standard has been difficult and the risks around staff burn out, community frustration and poor park conditions are significant concerns.

- This package seeks to be a beginning step to address operation and maintenance shortages and is structured to:
- Focus first on a Volunteer Coordinator, which can support operations and maintenance needs while promoting community involvement in parks
 - Addressing maintenance and ranger staffing needs
 - Add a Native Plant Specialist to help support our Forester and our NPDES requirements

Change Request Summary

Department: 0009 - Conservation and Nat Resources
Change Request: AUTO - 266 - DCNR OES Grants
Change Request Type: Standard Change Package
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 08:07 PM (PDT)

This priority package requests a revenue change to the OES budget resulting from a grant award in the amount of 71,917,933\$ allocated over 5 years (2025 through 2029), 25/26 will consist of: 30,738,833\$. This revenue will be divided into the following spending categories:

- 1. 21,910,370\$ pass through to regional community specific projects.
 - 2. 5,519,384\$ for regional projects administered thorough Snohomish County OES.
 - 3. 2,471,200\$ in professional services for a consultant overseeing execution of regional and community specific projects.
 - 4. 837,879\$ in management and administration funding for OES to administer funding and deliverables tracking.
- The grant source is administered through the National Oceanic and Atmospheric Administration’s Coastal Resiliency Regional Challenge grant funded through the Inflation Reduction Act. Funding opportunity number NOAA-NOS-OCM-2023-2008068. Application number GRANT14068025.

Summary

Justification:
The package meets the County’s mission, vision, and value goals by ensuring both innovative and new, as well as ongoing programs, projects and plans to provide the County’s diverse internal and external customers with service that is both equitable and excellent. The application includes project funding for 17 jurisdictions included in Washington State Homeland Security region 1 (HLS-1), with funding for consultant project support, management and administration, and several direct projects benefiting Snohomish County. The majority of the funding coming into OES through this grant application will be passed through to one of the jurisdictions from HLS- 1 to fund specific projects proposed by subject matter experts and selected for funding by an oversight selection committee administered by NOAA. The details of this spending are as follows:

OES Grants Regional Climate Resilience Program 300:
44101 - Professional Services: Consultant Services
Jurisdictional community specific projects: \$21,910,370
These are projects which have been developed, proposed, and budgeted by subject matter experts in costal resilience, environmental mitigation planning, and project management by one of the communities from HLS-1. There are 24 projects overall, covering a range of deliverables from planning to execution of mitigation action items. Each project will be overseen by a project management team or point of contact within their own jurisdiction. OES will create and manage an MOU to pass funding through to the appropriate jurisdiction for them to manage and administer their communities project.

Regionally applicable projects: \$5,519,384
These projects are intended to benefit each of the jurisdictions within HLS-1 with as much equality as possible. There are 20 projects in this category spanning direct pass-through funding for youth education programing, native plant species support and installation, to projects managed through OES to the benefit of all jurisdictions, such as regional mapping and assessment projects. These projects will execute work or fund projects both inside and outside of Snohomish County at the direction of OES staff and the Project Management Office of HLS-1.

Project Management Office: \$2,471,200
This funding is intended to retain the services of a consultant who will ease the burden of funding administration, project oversight, and reporting on smaller disadvantaged communities, track and report on spending to the oversight board of HLS-1 and OES and coordinate further funding opportunities. This contracted service will also organize and administer regular status reporting meetings and semi-annual conferences for regional stakeholders during which they will organize presentations and reports on the status of projects funded by NOAA’s CRRC.

46401 - Machinery and Equipment: \$138,072
This funding will cover purchasing one electric vehicle staff car, charging infrastructure, and associated operating costs. Additionally, funding can be used to support training and conference attendance for staff associated with climate resilience work.

Justification

43101 – Supplies: \$43,016
Covering the annual IT and facilities support for 3.5 increased staff, two full time FTE, a 0.5 FTE and one fellow/intern.
Grant Funded Management and Administration:
The management and administration budget for the NOAA CRRC grant will cover two and a half new positions as well as a fellowships/internship to be staffed at OES. These positions will oversee status reporting and tracking of projects both to HLS-1 regional executive sponsors and to the State and Federal agencies. Included in that funding is: training and development for the included positions and associated IT support, tools and equipment purchase for staff support.
Personal Increases:
Regional Costal Resiliency Planning Supervisor:
This position will oversee regional execution of tasks and deliverables, organize regional conferences and facilitate regional working groups. The role will report to the OES management and coordinate on further grant opportunity development and oversight with county and regional resources in pursuit of further funding for costal resilience work. As a new, fully grant funded position, this role will have the opportunity to significantly benefit the county at little to no additional cost to the taxpayers. This position will maintain oversight and control on 20 regional projects having a wide-ranging impact on a significant area of the state with integrated operations with neighboring and state-wide agencies. Additionally, this position will maintain awareness and integration into 24 community specific projects reporting to the executive oversight board for HLS-1 and continuing development of funding opportunities for follow up projects.
Administrative Analyst:
This position will report to the Regional Costal Resiliency Planning Supervisor and will schedule and facilitate project meetings, regional coordination meetings, create and maintain regional reporting tools, coordinate RFPs and oversee consultants in execution of work, gather and consolidate reporting from stakeholders. This position will also work closely with the PMO in outreach to regional partners to fund expansion opportunities, pursue additional grant funding, elevating and amplifying underserved community voices, development of curriculum for youth engagement opportunities, evaluate and publicize successful mitigation actions and facilitate regional data gathering.
Fiscal Resources Analyst:
This position is half funded by the emerging NOAA grant and half by Weatherization Administration and will report directly to the Office of Energy and Sustainability Manager. The NOAA CRRC grant includes 44 unique projects, each of which will have a deliverable timetable, funding benchmarks, financial distributions, and tracking. An estimated 20 of these projects will require RFP and selection processes run through OES, and the remaining 24 projects may require MOUs and financial tracking. This position would be funded to track the complexity of financial tracking and spending for this regional project.

42013 - Personal Benefits: \$160,040
Covering the benefits allocated to the above positions.
41011 - Regular Salaries: \$424,750
Covering the salaries allocated to the above positions.
41500 - Extra Help: \$62,000
Snohomish County’s Office of Energy & Sustainability (OES) and the NOAA funded Regional Climate Resiliency Program (RCRP) collaborates with regional, state, and federal stakeholders to conserve natural resources, address climate change, facilitate environmental stewardship, and develop innovative solutions that support a healthy and vibrant community. Snohomish county climate resiliency efforts have expanded to include a many layered approaches to this most pressing issue. To adequately fulfill the expectations, needs and development of both these internal and external stakeholders, groups and programs, as well as facilitate meetings, agendas, public and internal meeting notes, briefings, reports and data management, the additional funding in temporary extra staffing help will reduce the burden on communities and staff in engaging disadvantaged and LIDAC communities. This funding will support additional temporary hire staffing and sponsoring fellowships/internships to engage in climate resiliency work for Snohomish County and the region.

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 29 - DCNR PARKS 309 - COMMUNITY PARKS
 Change Request Type: CIP - Capital
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:45 PM (PDT)

Description: Community parks are facilities which are typically located near population hubs and provide a mix of recreational amenities that are selected to serve the surrounding community. Amenities provided within community parks often serve the needs of Parks' level-of-service standards and population growth. Community Park projects included in the six-year capital program include property acquisition, development and/or improvements to provide new amenities to serve new and existing population.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 30 - DCNR PARKS 309 - OPEN SPACE/PRESERVE PARKS
Change Request Type	CIP - Capital
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:46 PM (PDT)
Description	Park facilities play a major role in habitat conservation and stormwater quality in Snohomish County. Park lands provide open space, resource protection and wildlife habitat. The Snohomish County DCNR Parks and Recreation Division maintains and provides stewardship for a significant number of properties that are classified as open space/preserve. These properties are managed for resource protection and some sites provide opportunities for public access, when appropriate. The projects identified within this program are focused on providing appropriate public access to these areas.
Summary	<p>Snohomish County Parks' capital improvement program for open space/preserve parks consists of the following projects:</p> <p>1. PARADISE VALLEY CONSERVATION AREA IMPROVEMENTS Development of parking lot to serve park users. Funding is proposed as follows: - Prior Year Balance: \$418,317 - 2025: \$0 - 2026: \$0 - Future Years: 2027 - \$500,000 (REET 2) - Project Start/End Date: 2021/2027 - Project Status: Initial lot design has been completed and needs to be reviewed prior to permit submittal. Project is awaiting project charter for restart. - Changes Since the 2024 Budget: Shifted out years budget</p> <p>2. SUNDQUIST FAMILY NATURE PARK Develop preferred plan and project list to improve park, including sidewalk connections between existing walkways for safe access to the park and the adjacent elementary school, providing ranger and maintenance vehicle access while keeping most of the park protected for natural habitat areas. Potential matching grant applications can be sought from Safe Route to Schools/Parks. - Prior Year Balance: \$0 - 2025: \$0 - 2026: \$0 - Future Years: 2028 - \$150,000 (Mitigation); 2029 - \$150,000 (Mitigation) and \$500,000 (Other); 2029 \$150,000 (Mitigation) - Project Start/End Date: 2025/2030 - Project Status: Project pending funding availability - Changes Since the 2024 Budget: Shifted funding into out years END OF PROGRAM 45</p> <p>This is also attached as a separate document.</p>

 Change Request: AUTO - 300 - DCNR PARKS 309 - TIER 2 EXISTING PARK REPAIRS
 Change Request Type: CIP - Capital
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:10 PM (PDT)

Description: The following potential projects are from multiple programs (support, community parks, regional parks, open space/preserve, special use, and trails). Each of the Tier 2 projects have been identified as a suitable project for meeting the goals of Snohomish County. Funding for these projects exceeds what is typically available for Parks budgeting, so they have been included for consideration as "Tier 2." Existing Park Repair projects proposed will provide safety or life-cycle upgrades to existing park infrastructure. These projects also include updates to existing parks that are requested by the public.

Summary: Please see attached WORD document for TIER 2 - Existing Repairs justifications.
 Justification: Please see attached WORD document for TIER 2 - Existing Repairs justifications.

The Snohomish County Conservation Futures Program is responsible for administering funds for the purpose of acquiring interests or rights in real property located within Snohomish County which meet open space and conservation requirements as per RCW 84.34.230 and S.C.C. 4.14. Funding for the program is through the collection of up to \$0.0625 per \$1,000 of assessed valuation against all taxable real property within Snohomish County.

S.C.C. 4.14.080 establishes a Conservation Futures Advisory Board, consisting of the County representative, two County Council representatives, two elected officials from cities within the county, and two citizen representatives, to make recommendations for projects funded by Conservation Futures revenue. Projects are evaluated and prioritized based on various criteria, including regional significance, multijurisdictional benefit, enhancement to current conservation programs, consequences from development, compliance with open space policies, and/or establishment of a trail corridor or natural area linkage. The board meets as necessary and make recommendations which are forwarded to the County Executive for transmittal to the County Council for final action.

This budget reflects the balance of funding for projects to be completed in 2024 that were approved by County Council as well as operations and maintenance plus bond debt payment and mandatory capital interfund costs. The budget also allows for available funding for new projects as recommended by the Conservation Futures Advisory Board.

Summary

Change Request Summary

PRESERVE OR IMPROVE THE UNIQUE QUALITY OF SNOHOMISH COUNTY'S NATURAL RESOURCES AND ENVIRONMENT
 The projects identified in the package meet the purpose specified in Snohomish County Code of acquiring interest or rights in real property for the preservation of open space land, farm and agricultural land and timber land. These are the projects approved and the estimated balances into 2025; the Conservation Futures Board may meet and changes may occur during the budget approval process.

Description
 Snohomish County currently operates parks that feature major natural resources which serve as a backdrop for recreational opportunities. These parks draw users from across the County and are classified as regional parks. Features within these parks range from forests, lakes, rivers and saltwater waterfronts to historic rural properties and unique natural features. Amenities provided at regional parks typically include day use areas, picnicking, camping, boating, hiking, horseback riding, or other recreational activities that meet regional demand. Many of these amenities are included within Parks' level-of-service methodology and, as such, may help address needs related to population growth. Regional parks offer substantial recreational opportunities and include several parks which have been in use since the 1970's. Renovation and maintenance of aging facilities is a priority in order to ensure that high quality recreation experiences continue to be provided. Expansion and acquisition are also a priority for regional parks to expand opportunities available to serve the county's growing population.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 319 - DCNR-OES-WEATHERIZATION-Program 220
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:12 PM (PDT)
Description	This priority package requests a budget change to the OES-Weatherization 220 Program Administrative budget. All included weatherization grants have shown steady increases to historic funding levels to support the Washington State efforts surrounding serving low-income residents, lower GHG emissions, and reducing the carbon footprint created by heating and electric production.
Summary	

Change Request Summary

The package meets the County’s mission, vision, and value goals by ensuring new and ongoing programs, projects and plans provide the County’s diverse internal and external customers with service that is equitable, excellent, and effective. This increased funding will be used in all areas of Snohomish County perform repairs and efficiency improvements for residents not able to otherwise afford similar efforts through for-profit companies.

All of the funding included in this revenue package adjustment will promote increased staff training, engagement, and learning opportunities through increases to the following budgets:

Weatherization Administrative 220:

4101-Administrative Professional Services: \$81,317

These funds will promote the option to replace the antiquated Weatherization Program software (WAP) to an new, updated cloud-based program able to modify and adapt to changes in funding and program requirements beyond the current system capabilities.

4303-Mileage: \$2,000

These funds will further promote management and administrative staff to engage with the community, receive additional trainings to grow program knowledge, and increase paths to improved leadership efforts.

4305 – Lodging: \$3,100

These funds will further promote management and administrative staff to engage with the community, receive additional trainings to grow program knowledge, and increase paths to improved leadership efforts.

4933 – Registration Fees: \$2,900

These funds will further promote management and administrative staff to engage with the community, receive additional trainings to grow program knowledge, and increase paths to improved leadership efforts.

4304 – Meals: \$3,340

These funds will further promote management and administrative staff to engage with the community, receive additional trainings to grow program knowledge, and increase paths to improved leadership efforts.

3101 – Supplies: \$1,713

This will cover additional supplies needed for increased administrative support for the Weatherization Program, which also includes supplies for remote work.

Justification

Personnel Increases:

Fiscal Resources Analyst:

This position is half funded by the emerging NOAA grant and half by Weatherization Administration and will report directly to the Office of Energy and Sustainability Manager. This position would be funded to track the complexity of financial tracking and spending for Weatherization, which can include more than 10 different grants during a calendar year.

0912P - Personal Benefits: \$17,269

Covering the benefits allocated to the above position.

0912P - Regular Salaries: \$43,972

Covering the salary allocated to the above position.

 Change Request Type: CIP - Capital
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:46 PM (PDT)

Description
 The regional trail system developed by Snohomish County Parks is a major county asset. Providing non-motorized recreational connections attracts hundreds of thousands of users and supports economic development and active transportation in the county. Trails are a major priority for Snohomish County Parks and requires building and maintaining the entire trail system, including preserving existing regional trails, completing missing links, and developing new opportunities. Future development of all regional trail corridors will depend upon local resources as well as funding from state and federal grant sources.

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 36 - DCNR PARKS - FIXED COST INCREASES
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:46 PM (PDT)

Description
 This Change Request reflects cost increases for Utilities, SWM Fees, Machinery & Equipment, Operating Equipment, Repairs & Maintenance, Professional Services, Overtime, ER&R and Uniform expenses coming in 2025-2026 for our 430 (Maintenance) and 680 (Operations) budgets. With costs still increasing from the 2023 inflation rates, the cost for all these services is continuing to go up and we are asking for support to help level off these budgets to reflect the actual expenditures that are currently being paid in 2024 and beyond. It also includes a fixed cost increase request for the Agriculture Division for expenditures for the Division Manager and new Project Specialist II position.

Summary
Justification: Please see attachment for individual budgeted line item requests. Cynthia, document is attached.

Change Request	AUTO - 361 - DCNR PARKS 411 REGIONAL TRAILS EASTRAILS PARTNERSHIP
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:14 PM (PDT)
Description	Yearly dues to participate with Eastrail Partners whose mission is to create a thriving trail that reflects the diversity of the Puget Sound in partnership with communities, business, and governments to raise awareness, secure trail funding, and connect people to each other and the trail.
Summary	
Justification	Investing in membership dues for Eastrail Partners is vital not only for the development of a thriving, inclusive Eastrail (known as Centennial Trail South in Snohomish County) but also for the construction of key Snohomish County Trails such as the Snohomish River Regional Trail and Centennial to Snoqualmie Valley Trail. As the nonprofit spearheading the Eastrail effort, Eastrail Partners plays a pivotal role in advocacy, coalition building, shared communications, and community engagement, all aimed at securing funding and connecting people to this transformative project and its surrounding trails. Their successes in securing funding, fostering partnerships, and elevating project milestones extend beyond the Eastrail itself, benefiting the broader trail network in Snohomish County and beyond. By supporting Eastrail Partners, stakeholders ensure that not only the Eastrail but also these vital county trails are developed and maintained to enrich the lives of residents and visitors alike, reflecting the principle that trails should be accessible and enjoyed by everyone, every day.

Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:14 PM (PDT)
Description	This package is created to remove the Salary/Benefits/other contingency line items that were added to the Support 49 budget, to get it into the capital book.
Summary	
Justification	Cynthia explained that we needed to add the salary/benefit contingency line items into our Support 49 budget Change Request, in order to show the amounts in the Capital Book, however since the salaries/benefits were already added to the ProForma budget, we now need to reduce the contingency line item in order to not double the salaries/benefits entries.

Description	This priority package requests a budget change to the OES-Weatherization 221 Program Support budget. All included weatherization grants have shown steady increases to historic funding levels to support the Washington State efforts surrounding serving low-income residents, lower GHG emissions, and reducing the carbon footprint created by heating and electric production.
Summary	<p>The package meets the County’s mission, vision, and value goals by ensuring new and ongoing programs, projects and plans provide the County’s diverse internal and external customers with service that is equitable, excellent, and effective.</p> <p>This increased funding will be used in all areas of Snohomish County perform repairs and efficiency improvements for residents not able to otherwise afford similar efforts through for-profit companies.</p> <p>All of the funding included in this budget package adjustment will promote increased staff training, engagement, learning opportunities, and production through increases to the following budgets:</p> <p>Weatherization Program Support 221: 4101 – Professional Services: \$586,732 These funds will promote the option to replace the antiquated Weatherization Program software (WAP) to an new, updated cloud-based program able to modify and adapt to changes in funding and program requirements beyond the current system capabilities. It will also allow for greater flexibility to contract inspection and audit processes for larger multi-family projects beyond current program scope and knowledge base. 3104 – Operating Equipment: \$17,000 These funds will support maintaining additional staffing in effective program implementation. It will also allow for purchasing new and update equipment to ensure highest quality service delivery. 4305 – Lodging: \$2,100 These funds will support maintaining additional staffing in effective program implementation. 4933 – Registration Fees: \$5,100 These funds will support maintaining additional staffing in effective program implementation. 4304 – Meals: \$1,700 These funds will support maintaining additional staffing in effective program implementation. 3101 – Supplies: \$2,500 This will cover additional supplies needed for increased support for the Weatherization Program, which also includes supplies for remote work. 3105 – Software: \$5,000 This will cover additional software needs for planned program all-digital implementation, and additional staff needs. 4145 – Advertising: \$1,500 This will cover increased outreach efforts for program engagement. 4201 – Communications: \$2,000 This will cover increased outreach efforts for program engagement. 4301 – Travel: \$7,500</p>
Justification	<p>These funds will support maintaining additional staffing in effective program implementation. 4303 – Mileage: \$3,000 These funds will support maintaining additional staffing in effective program implementation. 4801 – Repair/Maintenance: \$11,000 This will cover additional calibration and equipment repair needs for increased field staffing.</p>

Change Request Summary

4926 – Printing & Binding: \$2,075

This will cover additional outreach efforts for program engagement.

6401 – Machinery & Equipment: \$100,000

This will cover additional needed equipment, as well as two new replacement weatherization vehicles to replace outdated vehicles currently in use.

4504 – Space Rental - Outside: \$500

This will cover additional fees related to offsite storage for the Program.

Personnel Increases:

Energy Conservation & Repair Analyst NEW0916P:

This position is entirely grant funded by the weatherization program and will maintain and extend the currently filled CNR0902P. This position is required to fully implement and support the needed production and goals of the program to serve residents of the County with efficiency and health-and-safety repairs and preserve low-income housing.

Administrative Coordinator NEW0917P:

This position is entirely grant funded by the weatherization program and will maintain and extend the currently filled CNR0903P. This position is required to fully implement and support the needed production and goals of the program to serve residents of the County with efficiency and health-and-safety repairs and preserve low-income housing.

Human Resources Specialist NEW0915P:

This is a placeholder position to be changed to an Environmental Specialist Senior position prior to active job posting. This position is entirely grant funded by the Weatherization Program and will act as a lead technical position for the Weatherization Program. This position is required to fully support the needed production and goals of the program to serve residents of the County with efficiency and health-and-safety repairs and preserve low-income housing.

0916P & 0917P - Personal Benefits: \$93,816

Covering the benefits allocated to the above positions.

0916P & 0917P - Regular Salaries: \$205,468

Covering the salaries allocated to the above positions.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 399 - DCNR-OES-Weatherization-222 Direct Service-REV
Change Request Type	Revenue Adjustment Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:15 PM (PDT)
Description	This priority package requests a revenue change to the OES-Weatherization 222 Direct Service budget. All included weatherization grants have shown steady increases to historic funding levels to support the Washington State efforts surrounding serving low-income residents, lower GHG emissions, and reducing the carbon footprint created by heating and electric production.
Summary	<p>The package meets the County’s mission, vision, and value goals by ensuring new and ongoing programs, projects and plans provide the County’s diverse internal and external customers with service that is equitable, excellent, and effective.</p> <p>This increased funding will be used in all areas of Snohomish County perform repairs and efficiency improvements for residents not able to otherwise afford similar efforts through for-profit companies.</p> <p>All of the funding included in this revenue package adjustment will promote increased staff training, engagement, learning opportunities, and production through increases to the following budgets:</p> <p>Weatherization Direct Service 222: 2102 – ARPA-LIHEAP: \$(313,542) This funding has ended and needs to be removed from the program budget. 8104 – DOE: \$144,950 Expected funding allocations for this grant have increased. 18104 – BIL-DOE: \$82,031 Expected funding allocations for this grant have increased. 8199 – DOE-BPA: \$58,082 Expected funding allocations for this grant have increased. 19356 – DHHS-LIHEAP: \$224,825 Expected funding allocations for this grant have increased. 0420 - Matchmakers: \$750,000 Expected funding allocations for this grant have increased. 4590 - PUD: \$360,000 Expected funding allocations for this grant have increased. 6711 - PSE: \$237,100 Expected funding allocations for this grant have increased. 6712 - CNG: \$9,000 Expected funding allocations for this grant have increased.</p>

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 401 - DCNR Parks - Donation Fund 100
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:15 PM (PDT)
Description	This program provides Parks with spending authority based on donations fund balance revenue plus projected new donations.
Summary	Sub-Fund 003 Parks Donations - This fund is utilized to account for donations received for everything from dedicated memorial benches or trees to youth development scholarships and earmarked capital improvements.
Justification	The adjustments to base are based on fund balance and projected new donations. Sub-Fund 018 SR 530 Memorial Donations - This fund is dedicated to donations/expenditures related to the SR%#) Memorial Project - it is hard to determine projected revenues/expenditures - we have budgeted based on history. Actual revenues will dictate expenditure levels.
