Change Request	AUTO - 413 - DCNR PARKS - Accounts Payable Support
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:16 PM (PDT)
Description	This Package will add a .75 FTE Accounting Assistant to help with Accounts Payable. The current position name "Secretary" is a working title at present. Parks will be working with Central HR to change the title to Accounting Assistant, since that title is currently not available in this system.
Summary	<p>Given the increased workload associated with processing Cayenta purchase card batches and statements, there is a clear demand for an Accounting Assistant within our organization. This role will play a crucial part in assisting in managing complex financial processes across multiple divisions, ensuring efficiency and accuracy.</p> <p>Position Overview: The Accounting Assistant will be responsible for assisting in processing Accounts Payable transactions for various departments, including Parks, Fairgrounds, Agriculture, Office of Energy & Sustainability (OES), and Extension. Their duties will encompass managing Purchase Order requests, reconciling monthly purchase card statements (approximately 30 cards), handling weekly A/R deposits, and assisting with monthly Payroll JV's for Parks and Fairground staff.</p> <p>Key Contributions:</p> <ul style="list-style-type: none"> • Efficiently process Cayenta purchase card transactions to maintain accurate financial records. • Collaborate with team members to ensure compliance with financial procedures. • Provide essential support to multiple divisions, enhancing overall efficiency and success. <p>Why This Position Matters: Without the Accounting Assistant, our ability to manage these critical financial processes effectively will be severely compromised. The workload is already overwhelming, and the risk of errors increases without dedicated support. By creating this position, we address an urgent need and contribute significantly to the success of our team.</p>

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 421 - DCNR PARKS - Levy Measure Funding Consultant Services
 Change Request Type: CIP - Capital
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:17 PM (PDT)
 Description: This Package is to provide funding to secure a Consultant for a joint County and Cities collaborative levy set for 2026.
 Summary:

A Levy Measure consultant service will play a pivotal role in the success of our joint County and Cities collaborative levy set for 2026. As we embark on this important initiative, having a consulting firm specializing in revenue measures and community outreach will provide significant advantages. The benefits of hiring a Consultant are outlined below:

1. Expertise and Guidance: A Levy Measure consultant brings extensive experience in navigating the complexities of revenue measures, including compliance with legal requirements, feasibility planning, and community engagement. Their expertise ensures that our levy proposal is well-structured and strategically positioned for success.
2. Comprehensive Feasibility Studies: The consulting firm will conduct thorough feasibility studies, analyzing the economic landscape, demographic trends, and local needs. These studies will inform our levy proposal, ensuring that it aligns with the community's priorities and addresses critical areas such as park needs, preferences, and public safety.
3. Community Outreach and Education: Engaging the community is essential for garnering support. The consultant will organize town hall meetings, workshops, and informational sessions to educate residents about the levy's purpose, benefits, and impact. Their outreach efforts will foster transparency and build trust among stakeholders.
4. Polling and Public Opinion Research: The consultant will conduct community polls and surveys to gauge public sentiment regarding the proposed levy. This data will guide our messaging and allow us to tailor our communication to address any concerns or misconceptions.
5. Balloting Process Support: From designing and printing ballots to tabulating results, the consultant will manage the entire balloting process. Meticulous attention to detail will ensure compliance with legal requirements and a smooth voting experience for residents.

Justification: In summary, securing funding for the Levy Measure consultant service is an investment in the success of our collaborative effort. By leveraging their expertise, conducting thorough studies, engaging the community, and managing the balloting process, we can achieve our shared goals.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 426 - DCNR PARKS Historic Fund
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:18 PM (PDT)
Description	DCNR-Historic Preservation fund change request which aligns the expected revenues for the fund with the expected expenses for Historic Preservation project as well as salary and benefits
Summary	
	The Historic Preservation program seeks to preserve Snohomish County's archeological and historical resources, sites and districts by community programming, educational outreach, historical places marketing and the community heritage preservation grant program.
Justification	Due to increased interest rates net recording fees that are recorded to the fund have decreased significantly. We are mainting the amount of Historic Preservation grants available to organizations in 2025 and increasing in 2026 as interest rates are expected to decrease by then. We are utilizing a portion of the Historic Preservation Fund balance to offset some of the decrease in recording. We expect recording fees to increase by 2026.

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 431 - DCNR PARKS FAIRGROUNDS Year-Round Support
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:18 PM (PDT)
 Description: Change request for year-round for support of the Fair Park which includes both fixed cost and year-round programing expenses
 Summary:

Justification: Due to continued inflation many of our expenses will continue to increase in the 2025-2026 fiscal year. Part of the required increases in our spending authority to be able to continue the year-round operations of the fairgrounds including increases in utilities, taxes, and supplies. Programing increases are used to produce events outside of Fair including a winter community event (\$30,000 each year 2025 and 2026) and production of a one-day fair for a private local organization in 2026 (\$73,000) completed biannually. These increase in expenses are all offset by an increase in revenues at the fairgrounds.
 Total year-round support increases are \$142,640 for 2025 and \$246,926 in 2026.
 This change request also adds revenues to balance the fair programs expenses (programs 541, 545 and 548) including preloaded increased interfund and cola expenses.

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 437 - DCNR PARKS FAIR Annual Fair Expense Increases
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:19 PM (PDT)
 Description: DCNR Fair Park expense increases to produce the annual Evergreen State Fair
 Summary:

The annual Evergreen State Fair is one of the largest events produced in Snohomish County and is the largest County Fair in Washington state. Inflationary pressure continues to exist in the pricing of various products and services to produce the fair, this change request addresses the need to increase spending authority to continue this annual community tradition. All expense increases are offset by increased revenue.

Justification: Several contracts will be coming up for new RFP's in 2025 and 2026, which have not been completed since prior to covid. It's expected the cost of these services will increase more than they have historically. These include a new media buyer, Rodeo, Lumberjack Show, Security and Fair decorations. We are expanding the footprint of the fair by including entertainment attractions further east on the fairgrounds and plan on increasing marketing through television and billboard ads.

The total increase in expense request for 2025 is \$157,425 and in 2026 is \$262,328.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 440 - DCNR PARKS GF - RSA Adjustments to Actuals
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:19 PM (PDT)
Description	This Change Request is to show the actual increases in revenues and expenditures needed to be covered on all Reimbursable Service Agreements between Parks and other Departments/Divisions. This also shows increases/decreases to revenues/expenditures for residential rentals, Concessionaire and Facility License agreements, and new Reservation System Transaction Fee Revenue and decreased expenditures.
Summary	
Justification	Parks has reached out to SWM, PDS, and Public Works to verify that all departments/divisions are supportive of increasing our recurring RSA amounts, based on the increased salaries/benefits of the positions being funded. Email communications and signed RSAs between departments/divisions have been attached for those that are increasing. We have also increased rent at Kayak Kottage as well as some of our Concessionaire/FLA agreements.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 497 - DCNR PARKS- FUNDING COORDINATOR
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:21 PM (PDT)
Description	This package is for a Funding Coordinator that will be split between Parks and the Fairgrounds. Hiring a funding coordinator will streamline the process of securing additional funding for the division, ensuring parks receive necessary resources for maintenance and improvements which will enhance experiences for residents and visitors.
Summary	
Justification	Adding a Funding Coordinator for Parks and Fairgrounds will allow the Division to identify additional grant opportunities and can lead to increased financial support for both groups. This approach not only brings additional funding to the Division but will help support continued investment in preservation and improvements within our parks and the Fair Park. Revenues to support this position will be a 50/50 split between Fairground revenues and REET funding.

Description
 As described in SCC 4.87 the Reserve Fund for Evergreen Fairgrounds Capital Improvements was established in 1993 to account for and accumulate monies for expenditure on capital improvements or acquisitions at the Evergreen State Fair Park. It also accounts for and accumulates funds for relief should there be a Fair Park operational deficit. This is considered the Rainy Day Fund with a minimum of \$250,000 held in reserve which we are increasing to \$300,000 in 2025-2026. When the fund took on debt service in 2011 we established an Additional Reserve of \$300,000 as well.

The source of these funds are generated by deposit of 10% on all building and grounds rentals, admission tax and surplus of Fair Park operating as determined at the conclusion of each budget cycle.

This package includes the 2025-2026 Budget for planned new capital expenditure (Machinery/Equipment and Construction) and off-setting revenue.

Summary
 Snohomish County Evergreen State Fair Park is the largest attended recreational facility in the region and provides service to participants and visitors from throughout the Western United States. The 193-acre complex includes multiple buildings and almost 400,000 square feet of indoor space. More than 1,000 events and activities are held here annually. It is the desire of Snohomish County that the facilities be well maintained and improved upon to meet the needs of our community for years to come. A Master Plan was completed in 2015 and it is currently being updated into a new Preferred Plan which will provide direction and priority for projects for long term success. We have updated our pricing for Fair and Year-Round use of the Fairgrounds to be in line with our area market and the Fair Industry and continue to seek opportunities for new revenue for the fairgrounds.

Description
On September 27, 1989, the County Council approved Ordinances #89-103, 89-104 and 89-105 as an interim measure to address developer impacts on parks and recreation and provide a process to collect fees. On July 12, 1991, the County Council approved a new title 26A SCC (Ord 91-026) which codified the requirement of mitigating development impacts on park and recreation facilities. On February 1, 2003, title 26A was replaced by SCC 30.66A (Ord. 02-064). On February 23, 2005 a new GMA compliant SCC 30.66A was approved by the County Council (Ord 04-016) and was updated again by Ordinance 16-099.
The park mitigation requirements authorized by SCC 30.66A are designed to mitigate impacts reasonably related to development by allowing payment of a dollar amount which must be used to acquire land or develop park and recreation facilities, which are identified as "necessary to support development." Collected fees are made up of a regional fee, which is used for projects that provide regional benefit, and sometimes a local fee, which supports community and neighborhood park improvements. Fees are collected within defined park service areas and are utilized within that same area, for community and neighborhood park improvements, or pooled with other collected funds for regional improvements (regional parks and trails).

Summary

Change Request Summary

This fund is a holding account for revenue brought in through Park Mitigation 30.66A. Funds are transferred to Fund 309 for Capital Project Expenditure. These fees are tied to designated parks service areas or are pooled with other funds for regional projects.

Mitigation funding for 2025 is based on revenue collected through April 30, 2024 and allocated to the following projects:

- Dist #1 Arlington Twin Rivers \$1,542 Cricket Pitch
- Dist #5 Granite Falls \$42 Lake Roesiger Playground
- Dist #9 Monroe \$741 Fair Park Winter Dog Park
- Dist #15 Stanwood \$1,034 Lake Goodwin Playground
- Dist #18 Kayak Point \$1,101 Lake Goodwin Playground
- Dist #19 River Meadows Twin Rivers \$22 Cricket Pitch
- Dist #20 Robe Canyon \$225 Lake Roesiger Playground
- Dist #22 Lord Hill \$1,734 Heybrook Parking/Trail
- Dist #23 Centennial \$1,564 CT Machias Playground
- Dist #24 Nakeeta Beach \$267,052 \$50K Forsgren/38,446 MLA Playground/613,700 MLA Pickleball/\$383,500 MLA Renovation (grant match acquisition)
- Dist #25 (Regional) Parks & Trails \$5812 Kayak Point Campground
- Dist #26 (Regional) River Meadows \$18,139 Kayak Point Campground
- Dist #27 (Local) Robe Canyon \$362 Lake Roesiger Playground
- Dist #28 (Regional) Robe Canyon \$1007 Kayak Point Campground
- Dist #30 (Regional) Lord Hill \$504 Kayak Point Campground
- Dist #31 (Regional) Centennial Regional \$44,255 Kayak Point Campground
- Dist #32 (Local) Nakeeta Beach Local \$818,595 same 4 projects as Dist# 24.
- Dist #33 (Regional) Nakeeta Beach \$370,638 Same 4 projects as Dist# 24.

Justification

Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:48 PM (PDT)
Description	<p>Prior to April 1, 2024, SWM submitted management-initiated reclassification requests for three existing filled positions to Central Human Resources. All expenses due to these reclassifications, will be covered by revenue from Utility Service Charges. The need for these reclassifications is caused by higher level duties being necessary for all three positions to keep up with growing demands and requirements for SWM and to avoid the more costly alternative of creating new positions. Without these proposed reclassifications (or new positions), SWM faces the potential of billing errors, of noncompliance with the County's NPDES permit, and of a reduced ability to produce more capital projects.</p>
Summary	<p>Reclassify Utility Billing Assistant to Funding Systems Coordinator – the incumbent has been in a temporary upgrade for two years due to the need for this position to perform more complex tasks to support SWM's utility billing system, which is critical for SWM to produce accurate charges for roughly 109,000 unincorporated county parcels as well as additional parcels for four cities. Higher level support for SWM's billing system is essential due to advancing technologies, coordination with other Snohomish County adopted software applications, and a constantly changing customer base.</p>
Justification	<p>Reclassify Water Quality Specialist II to Water Quality Specialist III – the incumbent was recently placed in a temporary upgrade due to the need for this position to perform higher level functions that are necessary to meet the requirements of the County's NPDES permit. This position is now responsible for three NPDES permit requirements (formerly just one), needs to respond to increased scrutiny from the Dept. of Ecology, needs to understand more WQ standards and protocols, and must interact with more stakeholders.</p> <p>Reclassify Engineer Technician Senior to Engineer Technician Senior Lead– Given the higher levels of available capital funding and the growing demand for SWM to construct more projects, it is becoming increasingly necessary for this position to perform higher level tasks to keep up with this demand. While this position used to focus mostly on performing CADD drafting and management of SWM's CADD system, the higher-level duties needed for this position to produce more capital projects includes reviewing design drawings, training other staff, leading lower level staff, and analyzing and proposing design solutions.</p>

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 98 - DCNR SWM 415 - Maintenance Program Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:49 PM (PDT)

This priority package reflects adjustments to the Surface Water Management Division Maintenance (Program512) non-capital base budget for 2025 and 2026. Overall, the 2025 budget request is an increase of 3% from the 2024 adopted budget and the 2026 budget request is an increase of 3% from the 2025 proposed budget.

Description: Adjustments are in the following areas:

- 1) Drainage System Management (Sub-program 006)
- 2) Drainage Rehabilitation/Investigations (Sub-program 007)

Summary: 1) DRAINAGE SYSTEM MANAGEMENT (Sub-Program 006) – The 2025 budget request is an increase of 3% from the 2024 adopted budget. The 2026 budget request is an increase of 3% from the 2025 proposed budget. The Drainage System Management sub program focuses on inspection, maintenance, and repair of the engineered drainage systems that convey, treat, and manage stormwater runoff. A key aspect of this program is to meet the Stormwater Operations and Maintenance requirements of the Phase1 Municipal Stormwater permit (NPDES permit), mandated under the federal Clean Water Act.

Justification: Change from Proforma Budget:
 The major increase to the budget for Drainage System Management is due to the inflation costs. Otherwise, this budget maintains status quo.

2) DRAINAGE REHABILITATION/INVESTIGATIONS (Sub-Program007) – The 2025 budget request is an increase of 4% from the 2024 adopted budget. The 2026 budget request is an increase of 3% from the 2025 proposed budget. This program responds to requests from County residents and County departments for technical assistance with drainage problems. This program includes field investigations, analysis of individual drainage problems, coordination with Road Maintenance and recommendations for solutions.

Change from Proforma Budget:
 The major increase to the budget for Drainage Rehabilitation/Investigation is due to the inflation costs. Otherwise, this budget maintains status quo.

Change Request Summary

Department	0010 - Assessor
Change Request	AUTO - 307 - Add two new Residential Appraiser I positions
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:11 PM (PDT)
Description	This request is to add two new full time permanent FTE's to the Residential Appraisal division. These appraisers will inspect residential property for revaluation purposes, review permits and inspect new construction to add value to the tax rolls, research property sales and update property records accordingly and assist in preparing responses to valuation appeals to the Board of Equalization. The volume of this work continues to increase every year as parcels are added through subdivision, new structures are built and taxpayers choose to dispute their property assessments before the Board of Equalization.
Summary	The volume of work required of the Residential Appraisal division of the Assessor's office continues to increase every year as parcels are added through subdivision, new structures are built and taxpayers choose to dispute their property assessments before the Board of Equalization. The last few years the Assessor's office has had difficulty meeting or has missed internal deadlines for completing physical inspections, responding to petitions, calculating preliminary values, and inspecting and valuing new construction. These difficulties were due to increases in appeals, parcel count, and the number of permits that needed inspecting doubling. This has resulted in supervisors and a manager participating in these activities in order to finish by the statutory deadlines. The cause of this predicament is a combination of increased workload without reciprocal increases to resources. The data that follows illustrates this point:
Justification	<p>Total number of parcels in Snohomish Co in 2014: 287,454 Total number of parcels in Snohomish Co in 2023: 309,041</p> <p>New single-family residences added from 2014-2023: 26,229</p> <p>5 year average prior to 2021 permit count: 5,331 2021 - 2023 average permit count: 10,805</p> <p>IAAO standard of parcels to appraiser: 5,000 WA State 2022 average of parcels to appraiser by County: 6,260 Snohomish County 2022 parcels per appraiser (including Commercial): 9,238 Snohomish County 2022 Residential Appraisal (24 appraisers, analysts & supervisors), 265,858 residential parcels: 11,077 parcels per appraiser</p>

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 308 - Add one Assessment Technician I position
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:11 PM (PDT)
 Description: Add one Assessment Technician I position to assist with customer service and clerical support
 Summary:

The Assessment Technician I position is the entry level position in the Assessor's office. Staff in these positions provide information and research assistance to customers by phone, email or in person at the Customer Service Counter. They also assist in areas of clerical, data entry, senior citizen exemptions and excise tax affidavits.

Justification: In an attempt to balance work and continue to reduce backlogs, the Assessor's office reclassified one Assessment Tech position to a Property Control Analyst position at the end of 2023. Unfortunately, our 2024 staffing level of 3.5 FTE's does not allow for adequate coverage of phones and counter support in case of unexpected absences or planned leave. As a result, higher level employees are now being called on to perform lower level customer service work when one or more Assessment Technicians are out of the office.

Since this position is our entry level position, we routinely experience turnover in this position as vacancies in higher level positions provide these staff with opportunities to compete for and earn promotions within our office.

This request for funding of one additional Assessment Technician 1 position will provide additional flexibility to cover phone calls, emails and in person customer service for absent co-workers. This position will also be used to provide seasonal clerical support to several divisions within the Assessor's Office including Excise, Exemptions, Appraisal and Property Control.

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 333 - Reclassification of Commercial Appraiser Lead
 Change Request Type: Position Adjustments
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:13 PM (PDT)
 Description: Salary contingency for management-initiated reclassification request for the Commercial Appraiser, Lead that included updated job description and salary review submitted to Human Resources on Feb. 5, 2024.

Summary: The Assessor filed a reclassification request for the Commercial Appraiser Lead position to update the job description and have the classification reviewed and updated as well. Review of the position started prior to and continued during the Class and Compensation Study. The job description is lacking in definition and scope based on current work duties. It also does not accurately describe the level of knowledge, responsibility and expertise needed to fully perform the duties of the position.

Justification: When compared to positions within other county departments such as the Review Appraiser Lead position in Public Works which is at level 244, the compensation level for the Commercial Appraiser Lead is not accurate nor reflective of the correct level within the Assessor's Office. The results of the recent Class and Compensation study confirm these conclusions. The Commercial Division Manager position is at a 245 and this position being a Lead position within the division for the Appraisal unit reporting directly to the Commercial Division Manager, is at a 241 - four classifications below. The Commercial Appraiser Lead position is a professional-level position that requires the occupant to apply advanced skills in research, critical thinking, problem solving and analysis to highly technical real property issues. Responsibilities are comparable to the Review Appraiser Lead position in Public Works. Reclassification of this position should include an upgrade in salary commensurate with its responsibilities, skill and knowledge requirements.

The estimate of costs associated with this reclassification request included in this change request reflect an increase in salary per the current salary structure of two ranges - from 241 to 243. This salary range has not been reviewed by Human Resources yet. Recommended changes from an HR review may be higher or lower. No decision has been made at this time.

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 335 - Reclassification of Residential Appraiser Analyst Supervisor
 Change Request Type: Position Adjustments
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:13 PM (PDT)
 Description: Salary contingency for management-initiated reclassification request to convert one Residential Appraisal Crew Supervisor position to new Residential Appraiser Analyst Supervisor submitted to Human Resources on Jan. 26, 2024. Assessor - Template for Reclash Change Request spreadsheet is attached to Change Request package 333.

Summary: On Jan. 26, 2024, the Assessor requested a new classification and job description for the Residential Appraisal Crew Supervisor position that supervises the residential appraisal modeling functions which includes Residential Appraiser Analyst positions as well as a Residential Analyst Open Space position and a Residential Appraiser Open Space position. This management-initiated reclassification request is based on actual changes to duties for one of three existing Residential Appraisal Crew Supervisor positions. The supervisor for the Residential Modeling team has taken on Increased job duties and expansion of scope of knowledge and abilities require review of job description and classification for this position.

Justification: After the recent Compensation Study review and moving more of the Current Use program duties to the positions within the division, the Assessor requested this particular position be specifically defined and include the oversight of the Current Use program as well as further defining the modeling tasks performed by the team.

The administrative tasks and oversight of such tasks previously were assigned to the Exemption Division Supervisor. Due to an increase in other exemption volumes and in particular, the Senior Citizen Exemption program, the full duties of the Current Use program have shifted to the Residential Appraisal Crew Supervisor overseeing the modeling crew. Additional actions taken have been to increase the Residential Appraiser Open Space position which reports to this Supervisory position from a .5 FTE to a 1.0 FTE. Consideration was given to the type of duties performed which are characteristic of appraisal and auditing functions prior to moving the oversight of the program to this position.

The current Residential Appraisal Crew Supervisor positions and the Exemption Division Supervisor position are currently at the same pay classification. With a broadening of the assigned Current Use Program responsibility and specifically defining the modeling tasks, the Assessor recommends an increase in the pay classification for this position in comparison to the remaining Residential Appraisal Crew Supervisory positions with the understanding the new description will need to be reviewed and scored accordingly.

The estimate of costs associated with this reclassification request reflect an increase in salary per the current salary structure of one range from 241 to 242. This salary range has not been reviewed by Human Resources yet. Recommended changes from an HR review may be higher or lower. Not decision has been made at this time.

Department: 0010 - Assessor
 Change Request: AUTO - 358 - iPads for field inspections
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:14 PM (PDT)
 Description: Purchase 32 new iPads for use with Mobile Assessor integrated with Aumentum.
 Summary:

The real property appraisers in the Assessor's Office use iPads loaded with Mobile Assessor software for conducting field inspections related to revaluation, new construction, sales review and appeal responses. The Assessor's office purchased 28 iPads in 2020 for use with Mobile Assessor integrated with ProVal. Our existing units will be five years old in 2025 and will no longer meet the recommended minimum standards as published by the vendor. The Dept. of Information Technology does not cover the cost of replacing these units as part of the annual Technology Replacement Plan.

Justification: This request includes replacement for 28 existing iPads currently used by Commercial Appraisers, Residential Appraisers and Residential Analysts to conduct field inspections. The Assessor's Office is also asking for funds to purchase 4 additional units for use by the Personal Property team when conducting onsite audits and discovery activities. The integration of Mobile Assessor with Aumentum will provide additional opportunities for our Personal Property team to view both real and personal property records in the field and will enhance their ability to discover and enroll new businesses that have not reported business personal property for taxation purposes.

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 362 - Assessor Housekeeping - update various annual costs
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:14 PM (PDT)

Description: Updated costs for annual expenses such as software licensing, interoffice printing costs for Senior Citizen Exemption and Disabled Persons application packets, postage for annual valuation notices and Personal Property listing forms, conference and continuing education costs.

Summary: Software - Purchase 3 licenses for FME software in 2025 for GIS Analysts and Systems Analyst for use in writing queries to extract data for internal uses and for public consumption. 2026 costs are license renewal costs.

Postage - Need to increase postage to mail Assessment Notices and Personal Property Listings per State Law. Parcel counts and postage rates are increasing every year. The Assessor's office exceeded our 2023 postage budget by \$6633 due to these factors.

Inter-fund Print Shop - Demand for printed applications for Senior Citizen & Disabled Persons Exemptions increased in 2024 due to income limit increasing to \$75,000 for applicants. 2023 actual costs of \$9655 exceeded budget estimates of \$8000.

Meals - Updated estimate for per diem costs for attending conferences and continuing education classes. Assessor's appraisal staff hired in the past two years are still being trained per accreditation and career track requirements. Estimate lower costs in 2026 as our existing staff become fully trained.

Justification: Lodging - Updated estimate for lodging costs based on increasing hotel rates, requirements for staff to travel for onsite education courses and conferences. Estimate lower education related lodging expenses in 2026.

Registration fees - Conference fees have increased in 2024 over our previous expectations.

Printing & Binding - Updated estimate for printing costs for Assessment Notices and Personal Property listings due to higher rates and parcel counts.

Overtime - 2024 budget amount of \$135,000 included \$75,000 that was paid through transfer of funds from I/F Labor - ProVal/Ascend for the Aumentum implementation project. The Assessor's office expects the implementation of Aumentum will be completed in 2024. The net overtime budget for regular maintenance activities was \$60,000 for 2024. We are asking for \$100,000 in overtime in 2025 and 2026 to allow our staff more hours to complete their regular duties as they learn to use the new system and gain experience and speed.

Change Request Summary

Department	0010 - Assessor
Change Request	AUTO - 367 - Professional services for enhanced features and reports for Aumentum
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:14 PM (PDT)
Description	Request to provide funding to purchase Professional Services hours from Aumentum Tech to develop reports and extracts not included in the implementation contract.
Summary	<p>Ongoing testing and configuration of Aumentum has revealed the need for additional reports, data services and program enhancements that were not included in the original contract which was negotiated in 2019. Further development and customization of these tools and services will enable the Assessor to increase productivity, utilize advanced analytical tools to assist in equalizing values, and provide data to the public about assessments using Power BI and other tools that depend on data extracts from or data services in Aumentum.</p>
Justification	<p>Professional Services hours are sometimes included in ongoing maintenance contracts for software services. They have not been included in the contract for Aumentum with Snohomish County that was negotiated in 2019. Over the 25 years that the Assessor's Office has used ProVal and Ascend, our staff have developed extracts and reports that provide data used for audits, analysis, reporting to the State of Washington and mass appraisal reports for the public. While there has been a tremendous amount of development work done by Aumentum Tech to customize Aumentum for use in Washington State, specific needs for data extracts that our office has come to rely in recent years were not all included in the Statement of Work for this implementation project.</p> <p>The Assessor's Office requests a pool of money be put aside to be used to engage Aumentum Tech to help reproduce some of the extracts our in-office resources have created. It will take our team of analysts several years to develop the knowledge and skills needed to write our own custom extracts from the Aumentum database, just as it took many years for those skills to develop related to the ProVal and Ascend database. These funds will help speed that transition and provide enhanced productivity for our staff and transparency for the public and decision makers.</p>

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 370 - Assessor Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:14 PM (PDT)
 Description: The Assessor requests relief from the Resource Alignment amount for 2025-2026.
 Summary:

All of the processes performed in the Assessor’s office are interrelated and integral to producing a roll which allows taxing districts to levy and the Treasurer’s office to collect property taxes.

All functions of the Assessor’s Office are mandated and include specific deadlines. In looking at where we could possibly reduce resources, we do not have a program that can be stopped, reduced or removed and still meet the mandated requirements of the office as listed in state law and by the Department of Revenue. If the Assessor’s Office does not complete its processes in a timely manner, 67 taxing districts that levy property tax will not be funded. The total amount levied for 2024 tax is over \$1.7 billion.

Justification: Any sizeable reduction in \$ resources to this office equates to a loss in staff. The reduction request for the 2025-2026 budget would equal a loss of at least 2 staff per year for a total of 4 positions. We are currently at a minimal staffing level and actually need additional staff in order to continue to meet our mandated requirements and dates. Each budget cycle, our office has provided county comparison reports, industry standards and workload indicators supporting the need for an increased staffing level.

Our workload increases annually with a growing parcel count, land development, new structures, boundary changes and exemption applications to process and administer. Statistical data is tracked and can be provided in support of this fact.

The Assessor’s Office performs core functions in support of the county and all taxing districts with authority to levy. Requirement for Council to appropriately fund is found in RCW 84.41.050.

Please see the attachment to this package for data supporting the request for relief.

Change Request Summary

Department 0010 - Assessor
Change Request AUTO - 395 - Reclassification of Property Segregation Lead position
Change Request Type Position Adjustments
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:15 PM (PDT)
Description Salary contingency for pending reclassification of the Property Segregation Lead position in the Assessor's office. Assessor - Template for Reclass Change Request spreadsheet is attached to Change Request package 333.

Summary
 The Property Segregation Lead position in the Assessor's office was noted in the Compensation and Classification Study to be grossly underpaid when compared to other positions of similar responsibility and difficulty both at Snohomish County and in the jurisdictions used as comparisons by the vendor. The Executive also included this job description on its list of positions it recommended for salary adjustment. The Human Resources Director has reviewed this position and has initiated a process within HR to formally review the classification of this position.

Justification
 When compared to positions within other county departments such as the Right of Way Investigator I (238) and Right of Way Investigator II (239) positions in Public Works, the compensation level for the Property Segregation Lead (236) does not reflect the complexity or scope of the work done by the Property Control Analysts that this position leads/trains nor does it reflect the added responsibilities of a Lead position. The results of the recent Class and Compensation study confirm these conclusions.

The estimate of costs associated with this reclassification request included in this change request reflect an increase in salary per the current salary structure of two ranges - from 236 to 238. However, as of June 4, 2024, Human Resources has not completed a review of the salary range nor have the union negotiations settled on an appropriate rate of pay.

 Change Request: AUTO - 406 - Reclassification of Property Control Analyst positions
 Change Request Type: Position Adjustments
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:16 PM (PDT)
 Description: Salary contingency for pending reclassification of five Property Control Analyst positions in the Assessor's office. Assessor - Template for Reclass Change Request spreadsheet is attached to Change Request package 333.

Summary: The five Property Control Analyst positions in the Assessor's office were noted in the Compensation and Classification Study to be grossly underpaid when compared to other positions of similar responsibility and difficulty both at Snohomish County and in the jurisdictions used as comparisons by the vendor. The Executive also included this job description on its list of positions it acknowledges as needing adjustment. The Human Resources Director has reviewed this position and has initiated a process within HR to formally review the classification of this position.

Justification: When compared to positions within other county departments such as the Right of Way Investigator I (238) and Right of Way Investigator II (239) positions in Public Works, the compensation level for the Property Control Analysts (234) does not reflect the complexity or scope of the work done by the Property Control Analyst positions.

The estimate of costs associated with this reclassification request included in this change request reflect an increase in salary per the current salary structure of two ranges - from 234 to 236. However, as of June 4, 2024, Human Resources has not completed a review of the salary range nor have the union negotiations settled on an appropriate rate of pay.

Change Request Summary

Department	0010 - Assessor
Change Request	AUTO - 407 - Upgrade ArcGIS Desktop to ArcGIS Pro - partner package with IT
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:16 PM (PDT)
Description	Upgrade ArcGIS Desktop to ArcGIS Pro - This request provides funds to engage ESRI to assist in converting the Snohomish County Integrated Land Records (ILR) GIS database from ArcGIS Desktop 10.8.x (ArcMap) to the latest version of ESRI's replacement product, ArcGIS Pro, to support Assessor's office statutory requirements. Partner package with IT Change Request 359.
Summary	ArcGIS Desktop to ArcGIS Pro Proposal
Justification	<p>RCW 84.40.160 states ". . . The assessor shall prepare and possess a complete set of maps drawn to indicate parcel configuration for lands in the county. The assessor shall continually update the maps to reflect transfers, conveyances, acquisitions, or any other transaction or event that changes the boundaries of any parcel and shall renumber the parcels or prepare new map pages for any portion of the maps to show combinations or divisions of parcels."</p> <p>We complete this task through our Assessor's Office GIS Division. The Division's primary function is to maintain and update the County's Integrated Land Records (ILR) geodatabase, which includes the tax parcel base layer used in a multitude of ways by all county offices, other taxing districts, Snohomish County residents, and the Snohomish County business community. This division also assists in application development and appraisal support by providing various electronic mapping applications and map products including parcels, appraisal neighborhood boundaries, taxing district boundaries, annexations, etc. The current software platform used for this development and maintenance process, is ESRI's "ArcGIS Desktop 10.8.x" software suite, more specifically ArcMap.</p> <p>ESRI is slated to end ArcMap compatibility for new platforms at the end of 2024 and will end formal support at the end of February 2026. This package supports the conversion from ArcGIS Desktop 10.8.x (ArcMap), to the latest version of ESRI's replacement product, ArcGIS Pro, to support our statutory requirements.</p>

Change Request Summary

Department: 0011 - Auditor
 Change Request: AUTO - 193 - Housekeeping - from one DAC to another (General Fund)
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:57 PM (PDT)
 Description: Changing from old Advertising DAC to correct Advertising DAC for Elections (General Fund).
 Summary:
 Justification: The Finance Department loaded into Questica the Advertising budget from the General Fund for our Elections Division into an old DAC (002 5114854145); therefore, this Change Request simply reallocates the same dollar amount into the newer, correct DAC for Advertising (002 5114854401).

Department	0011 - Auditor
Change Request	AUTO - 196 - 2/3 retained by Auditor; 1/3 savings for General Fund.
Change Request Type	Resource Alignment
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:57 PM (PDT)
Description	Adding back 2/3 for Dept to retain 2/3 of requested 3% reduction for overall required operations with remaining 1/3 for specific General Fund expenses detailed in separate change request.
Summary	
Justification	The Auditor is independently elected to fulfill several responsibilities under State law, including the administration of fair and accurate elections to sustain our democracy. To fulfill these requirements and Snohomish County goals and mandated programs, Auditor needs to retain at least 2/3 of Resource Alignment for overall operations while remaining 1/3 is available for specific General Fund expenses detailed in a separate Change Request related to several vital positions.

Change Request Summary

Department	0011 - Auditor
Change Request	AUTO - 306 - Auditor adjustments to salaries needed to sustain required administration of accurate elections.
Change Request Type	Position Adjustments
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:11 PM (PDT)
Description	<p>The independently elected Auditor has concluded that these salary adjustments are needed to sustain the required administration of fair and accurate elections and related statutory responsibilities. The net portion of the "Resource Alignment" savings to be retained by the Executive could cover these increases.</p> <p>A. Administrative Assistant to Administrative Analyst: Reclassify this existing Confidential Employee (maintaining current step). B. Elections Workers: Range Adjustment from 237 to at least 239 for existing Election workers who oversee seasonal workers (maintaining their current step levels to effectuate at least a 10% increase). C. Chief Deputy Auditor: Range Adjustment from MGT-EXEMPT 112 to 113 (maintaining current step). D. Project Coordinator: Range Adjustment from 242 to 247 (currently vacant). Please see Justification section and attached spreadsheet for rationale and details.</p>
Summary	
Justification	<p>Big Picture: The independently elected Auditor has concluded that these salary adjustments are needed to sustain the required administration of fair and accurate elections and related statutory responsibilities. The net portion of the "Resource Alignment" savings to be retained by the Executive could cover these increases.</p> <p>A. The Auditor has concluded this Reclassification is justified because this position provides complex and confidential administrative, financial, contract administration, and project support services to the Auditor's Office as directed. The position is vital to the entire Auditor's Office. B. The Auditor has concluded this Range Adjustment is justified because these three positions oversee and train several seasonal workers for the multiple elections each year and have become even more essential for administering accurate elections during these challenging times. There is only one employee in each Job Title. Their Supervisor would still have a sufficiently higher salary at Class 242. The added cost to Regular Salaries of approximately \$24,000 (DAC 002 5114851011) and Personnel Benefits (DAC 002 5114852013) in Election Services would be more than offset by the net savings from the "Resource Alignment" across the Auditor's Office. (The Auditor would also support a Range Adjustment for all five 237 positions in Elections -- from 237 to 239 -- if that is easier to approve and administer.) C. The Chief Deputy Auditor is a unique position among Chief Deputies for several reasons. First and foremost, is the position's unique back-up duty required by State statute (RCW 36.22 as well as related duties in RCW 29A) for the independently elected Auditor in administering elections. In addition, the Auditor's Office for Snohomish County requires additional bandwidth and skill because the scope is not only Elections and Voter Registration, but also Licensing, Recording, and the unique inclusion of Animal Services. Moreover, the risks of taking and staying in the position have increased due to the recent attacks on the administration of elections since 2020. The independently elected Auditor has determined this modest increase through a Range Adjustment is necessary to pay commensurate with the unique responsibilities and risks. D. Twice within the past two years, the employee in this position has left for higher pay at another department (the Exec's Operational Excellence team) to receive salaries equivalent to the 247 to 248 range. This presents clear and compellingly direct evidence that the position is underpaid within the county family. The independently elected Auditor has concluded it is prudent for sustainable operations for this proposed Range Adjustment to bring this position more in line with the Op Ex salaries. Required spreadsheet attached.</p>

Change Request Summary

Department: 0012 - Finance
 Change Request: AUTO - 214 - FIN New Position Risk Management
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:02 PM (PDT)

Description
 This request is to replace temporary contractor staff of approximately 1 FTE with a permanent 1.0 FTE position in the Risk Management division of Finance to handle Public Records Requests (PRRs) for Risk Management, Finance Operations and Budget divisions. We are requesting a Grade 234; this position will handle the more routine aspects of records collection, preparation and communications, taking direction from a records supervisor, who handles the more complex work. This is a permanent need; the department has used external staff for over 5 years to handle the large number of requests and records related to PRRs. This position will save the County money because we will no longer pay overhead to a staffing agency. It will also yield better results because we will have more longevity and consistency with a permanent position, instead of the turnover from temporary staff.

Change Request Summary

Department: 0012 - Finance
 Change Request: AUTO - 215 - FIN Replace Prior Accounting Analyst Senior Position
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:02 PM (PDT)

Description
 In 2024 the Finance Department reclassified a vacant Accounting Analyst Senior position to an Assistant Controller position. The Assistant Controller position will provide supervisory relief to the County Controller, which had 16 direct reports, including 2 supervisors with 10 positions. The Assistant Controller will provide more subject matter expert/technical knowledge and leadership in the future ERP project, as well as direct supervision of the professional accounting staff. The vacancy of the Accounting Analyst Senior position that allowed for the reclass is still necessary to financial operations as the regular, ongoing work still exists. That body of work has not disappeared.

 Change Request: AUTO - 216 - FIN Adding Accounting Specialist – Finance Position
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:02 PM (PDT)

Description
 Due to software challenges and process changes Central Finance Accounts Payable was eight weeks late in completion of the 2023 year-end transactions. The ripple effect was felt throughout the organization as vendor payments and subsequent grant reporting was delayed in early 2024; it also prohibited the closing of the general ledger which caused the 2023 required state financial reporting package to miss a statutory deadline. Despite incurring over 700 hours of overtime in a six-month period the accounts payable team is still in recovery mode. Operational Excellence is in process of reviewing the County-wide approach to accounts payable to access the Central Finance Accounts Payable processes.

Change Request Summary

Department: 0012 - Finance
 Change Request: AUTO - 499 - ERP Finance Project FTEs
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:21 PM (PDT)

Description
 The mission of the ERP project is to scope, select, & implement a new state of the art Enterprise Resource Planning (ERP) system across the County. It has been well established that current Finance and HR systems are no longer able to meet the evolving needs of county operations. Existing applications are out of date with modern operations, disconnected from each other, and are growing in security vulnerability. The new ERP system will enable a new and improved level of efficiency, transparency, and service delivery to the citizens of Snohomish County. For the Finance Department, this change request includes funding for 12 project positions that are to be subject matter experts to support this project and ancillary costs (laptops/monitors) to support them. They will also be known as implementation project FTEs.

Summary
 This change request is being requested and in conjunction with AUTO – 375 and AUTO-487 from Human Resources and Information Technology respectively.

Justification
 The Implementation Project FTEs for Finance will be a critical and required component of the ERP Project. These Project FTEs will be providing informed decision making and expertise on the intricacies of department workflows, compliance requirements and report standards. The Project FTEs will also provide system and process-flow mapping, implementation planning, vendor engagement, and change management. Also, the Project FTEs will train colleagues on the new ERP solution, bridging the gap between technical features and department task-requirements. And finally, the Project FTEs will ensure the new ERP system is properly configured to manage regulatory requirements, sensitive data, financial controls, and collective bargaining agreement terms.

Change Request	AUTO - 539 - Priority Hire Project Costs
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:24 PM (PDT)
Description	Council adopted an ordinance with an amendment for the Purchasing Division to administer a Priority Hire program. In an amendment to the ordinance, the program is to have 2 FTEs and other costs to execute the program.
Summary	
Justification	One FTE is to oversee the program, the other FTE is to provide compliance testing on the program. The miscellaneous costs are to pay for community based organizations to essentially recruit, test, pretrain, etc. future qualifying apprentices for construction jobs that exceed \$5.0 million. There are also professional service costs to help set up the program and a limited amount of supplies costs to run the program.

 Change Request: AUTO - 74 - FIN Relief From Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:48 PM (PDT)

Description
 The Finance Department in the General Fund is basically comprised of Salaries, Benefits and inter-fund rates. The only way the Finance Department can make up the difference is by reducing the hours of labor costs. The Finance Department has been tasked with a future ERP project, finishing the Cayenta Upgrade project, finish implementing the Questica budgeting project, transition to a biennial budget during the 2025/2026 Biennial Budget period. Although the Finance Department anticipates two retirements in 2025 and possibly a third in 2026, it is also anticipating approximately additional \$70,000 plus in retirement payout costs. With that said the Finance Department is requesting relief from its \$337,122 Resource Alignment.

Publish Date	Jul 09, 2024 08:02 PM (PDT)
Description	In April 2024, the Executive approved a contract between Snohomish County and Aspire HR, Inc. for the Central Human Resources' Absence Management System. Central started implementation in May 2024 and is scheduled to release the system to employees in fall 2024. The contract requires Snohomish County (Central HR) to pay annual fees of \$55,800 for ongoing maintenance and support on a five-year contract. Central Human Resources requests that the cost of the annual maintenance and support be included in the IT rate model and allocated in the CHR's IT rates for budget years 2025 and beyond.
Summary	
Justification	IT has the resources and expertise to support and maintain the vendor support agreement.

Description	We will manage operational costs to reach the established targeted reduction. We will do this by prudently reducing all authorized spending, strategically delay filling vacancies and carefully manage our resources.
Summary	
Justification	Central Human Resources is requesting forgiveness for the adjustment of resource alignment. A targeted reduction of 3% will impact operations by reducing our ability to maintain our existing employees as well as our ability to ensure the County is ensuring compliance with the many complex local, state and Federal laws with over 3,4000 employees.

Change Request Summary

Department: 0013 - Human Resources
 Change Request: AUTO - 305 - Labor Negotiator New
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:11 PM (PDT)

Description: Resources needed to meet and sustain successful labor negotiations, build equitable practices and inclusive language into labor agreements, align changes with the County's overall mission, vision and values.

Summary: Currently Snohomish County employs 3,000 represented employees with a staff of 3 in the Labor Relations unit. The Labor Relations unit is comprised of a Human Resources Business Partner (HRBP), Labor Relations Negotiator and Deputy Director/Chief Labor Negotiator. This is a ratio of 1 Labor Relations (LR) position per 1,000 employees. Whereas Pierce County has 3,000 employees and 5 LR positions (ratio 1 LR position per 600 employees) while the City of Everett has 1,200 employees and 3 LR positions (ratio 1 LR position per 400 employees). An additional position would modify our ratio to 1 LR position per 750 employees.

Justification: The additional position would allow the County to be more timely with and responsive to our labor partners in negotiations and daily matters and address issues of availability expressed by our labor partners. This would also enable the County to take a more strategic approach to labor relations as opposed to the primarily reactive approach we are required to take with our current staffing level.

Change Request Summary

Department: 0013 - Human Resources
 Change Request: AUTO - 375 - ERP Human Resources Project FTEs
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:14 PM (PDT)

Description: The mission of the ERP project is to scope, select, & implement a new state of the art Enterprise Resource Planning (ERP) system across the County. It has been well established that current Finance and HR systems are no longer able to meet the evolving needs of county operations. Existing applications are out of date with modern operations, disconnected from each other, and are growing in security vulnerability. The new ERP system will enable a new and improved level of efficiency, transparency, and service delivery to the citizens of Snohomish County.
 For the Human Resources Department, this Priority Package includes funding request for:
 • Implementation Project FTEs: Internal, project-based resources working within the departments as Subject Matter Experts (SME's) to support the implementation efforts.

Summary: This change request is being requested and in conjunction with AUTO – 499 and AUTO-487 from Finance and Information Technology respectively.

Justification: The Implementation Project FTEs for Human Resources will be a critical and required component of the ERP Project. These Project FTEs will be providing informed decision making and expertise on the intricacies of department workflows, compliance requirements and report standards. The Project FTEs will also provide system and process-flow mapping, implementation planning, vendor engagement, and change management. Also, the Project FTEs will train colleagues on the new ERP solution, bridging the gap between technical features and department task-requirements. And finally, the Project FTEs will ensure the new ERP system is properly configured to manage regulatory requirements, sensitive data, financial controls, and collective bargaining agreement terms.

In short, without these Project FTEs the ERP Project will not be able to be accomplished.

Change Request Summary

Department: 0013 - Human Resources
 Change Request: AUTO - 378 - Request to add an HR Assistant (Compensation and Classification).
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:14 PM (PDT)
 Description: Additional position needed to adequately support compensation and classification responsibilities.
 Summary:

Justification: Position needed to ensure FLSA status updates, conduct professionally sound market analyses, on a periodic basis, stay informed of market conditions and report where the county stands with respect to the market as recommended in the 2018 Human Resources audit. The additional position would allow the County to be more timely with and responsive to our internal service customers in daily matters and, for example, allow comp/class to review reclassification requests by conducting desk audits as needed to ensure we strategically approach reclasses and ensure internal equity. This would also enable the County to take a more strategic approach to compensation and classification as opposed to the reactive approach we are required to take with our current staffing level. This year we have experienced a 400% increase in reclassification requests, likely related to the comp/class study being completed. Pierce County has a ratio of 1 Comp/Class staff per 1000 employees. Whereas, the County has a ratio of 1 Comp/Class staff per 1,700 employees.

Publish Date	Jul 09, 2024 08:14 PM (PDT)
Description	Reclassify 2 positions critical for the success of the ERP implementation. Each position plays a role with implementing software systems relative to talent management and learning management system (LMS). I am requesting to reclassify: 1) Human Resources Assistant to a Human Resources Consultant and 2) Human Resources Business Partner to a Human Resources Business Partner II.
Summary	
Justification	***As we move forward we need the higher skill sets. ... here is no impact to the general fund with these reclassification requests. Successful ERP implementation is paramount for the County's critical internal services operations. 1) The HR Assistant will be instrumental assisting with the LMS and talent management software transition. We need this employee's insight for supporting a successful transition from NeoGov Learn to the chosen ERP software solution and 2) The HRBP will be leading the development and delivery of ERP implementation trainings County personnel will need to learn how to use the new software systems. The knowledge this employee has is important to the successful transition from our current systems to the ERP being implemented.

 Description: LinkedIn Recruiter account annual payment
 Summary:

Justification: The LinkedIn County page and Recruiter accounts are used to improve the County’s brand and community reach while establishing a reputation of employer of choice. In the month of May 2024, our third month following a new branding strategy, we featured content provided by or related to the following departments: DCNR (3), Health Department, Human Services, Public Works (4), CHR, Public Advocate, CASA, Executive (2), and OSJ. In addition, we featured two job openings and one employee spotlight post. This allowed us to produce a record 14,079 impressions and 291 reactions, a monthly increase of 628% and 1,119% when compared to July 2023. The Recruiter account allows us to promote up to seven County jobs at any given time. Our strategy is to feature hard-to-fill and critical jobs from all departments. We are currently revising the list every week and feature up to 35 different county jobs each month from all departments.

Description	Reclassify 2 positions: 1) Human Resources Consultant to a Human Resources Business Partner and 2) Human Resources Business Partner to a Human Resources Business Partner II.
Summary	<p>The reclassification of the HR Consultant position to HR Business Partner is justifiable due to the significant evolution of the role, which now includes providing higher-level county-wide services for departments and employees, such as leading the implementation of the Preferred Name Project this spring and offering crucial Highline support to all payroll liaisons, including continuous training launched last year and tailored onboarding for new hires in these areas to streamline support for day to day operations in departments. Additionally, this position is essential for upcoming projects related to implementing new HR systems, as it serves as the primary operational subject matter expert in HR for Highline and NEOGOV Onboard. These expanded responsibilities and the strategic nature of the initiatives undertaken clearly align with the characteristics of an HR Business Partner role, warranting a reevaluation of the position's classification to reflect the level of expertise and expanded responsibilities.</p>
Justification	<p>The reclassification of the HR Business Partner (HRBP) position to HR Business Partner II (HRBP II) is warranted due to the substantial increase in responsibilities. The HRBP II role involves implementing a county-wide new leave and accommodation case management system. This system aims to enhance compliance, streamline processes, and improve efficiency, especially when integrated with the new HR systems slated for implementation in the coming years. The updated system and guidelines will define the workflow for leave documentation in the future, underscoring the need for senior-level expertise and leadership in specific human resources functions. The HRBP II position aligns with the requirements for managing complex projects and personnel, which are crucial for successfully executing strategic initiatives such as the new case management system. In addition, this position will be involved with projects related to the software related to implementation of the new HR systems relative leaves management.</p>

Department: 0014 - Information Services
Change Request: AUTO - 111 - Reclass: Contract Specialist Senior & Business Application Developer 5
Change Request Type: Position Adjustments
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 07:49 PM (PDT)

Contract Specialist Senior: This reclass was submitted in the 2023 & 2024 Budgets, priority package #230 and #223, but they were not funded. This package represents the 2025 & 2026 impact of reclassification of an existing Contract Specialist position to a Contract Specialist, Senior classification. IT authorized a temporary upgrade for the affected employee 2022 in order for the IT department to continue to experience success in managing contract workload with only one contract specialist.

Description: Business Application Developer 5 : This reclass was submitted in the 2023 & 2024 Budgets, priority packages #231 and #224, but they were not funded. In September 2021, the Department of Information Technology underwent a department reorganization with the creation of the new Enterprise Data Management division as well as alignment of work groups to other divisions. David Jones's position (Systems Administrator Support 4) is one of the positions that were affected by the reorganization and moved into the new division. While David was working as a Systems Administrator Support 4 in his previous work group, he provided support and project work consistent with other SAS 4 staff on the team. In addition to this work, he also performs coding and design work for implementing enterprise applications solutions as well as project management and business consultations like other Business Application Developer 5 staff in the Applications division.

Summary

Contract Specialist Senior: The IT administrative services work group consists of 6.0 FTE reporting directly to the Business Operations and Support Manager. Historically, this work group had two contract specialist positions, one of which was a senior classification. In mid-2020, after the departure of several key personnel and the addition of a new manager to the team, the Information Technology (IT) administrative services work group had vacancies in both funded contract positions: Contract Specialist-DIS ("CS") and Contract Specialist, Senior - DIS (CS Senior). To align resources with the strategic objectives of the department, Information Technology (IT) performed a comprehensive review of contract writing, negotiation, coordination and execution. Streamlining tasks and establishing repeatable processes became the focus for improvement, and IT set a course for changing the approach to contract management by the middle of 2020, saving over 1,200 hours of process waste through refining the approach. In August 2020, IT management decided to fill only one of the vacant FTE positions, seeing that new efficiencies might make the reduction a success, and by hiring at the lower of the two classifications (CS), understood that the new hire would take some time to build expertise and competency before producing work product at a "Senior" level (CS-Senior).

The difference in the two classifications is clear. The CS is responsible for coordination and preparation of contract documents pertaining to consultants, RFPs, Bids, Amendments, and Interlocal Agreements. They oversee the process and ensure tasks are completed by others in the contract process as required. The Senior position, CS-Senior, is responsible for coordination and preparation, and also drafting and maintaining master agreement templates, negotiating contracts, developing the procedures, acting as the IT liaison between departments (Risk, PA, Finance), leading groups of project team members, guiding and mentoring others at lower technical levels, and is the principal advocate within the County for the function.

The changes driving this reclassification have occurred gradually since 2021, with the manager still advising and guiding the CS as needed. With the experience, knowledge and capability demonstrated by the current employee, it is necessary to transition to a higher classification mid-2022, as the employee is capable of performing at the CS-Senior classification, and the IT department has a need for that level of work to be completed. By the beginning of March 2022 the CS had completed the final course in WA State Contract Management training, and has shown competency in all facets of the contract management work. It is critical to finish this reclassification as the workload increase for contract negotiation and SME team leadership in the development of contracts for new software and services projects.

We consider this reclassification to be a savings to the County, not only in the efficiency of doing the same work with half the staff, but also in the improved contract timelines and being able to move projects forward even faster. For FY2025 & FY2026, IT represents the cost of this reclassification utilizing IT Fund 505 excess fund balance. The anticipated impact during For FY2025 & FY2026, considering step increases, is estimated at less than \$10,000 in total salary and benefits. If approved, the ongoing position costs will be included in IT's rate model for 2027 and beyond.

Justification

Business Application Developer 5: David Jones was initially hired on as a project position for support of the OpenText solution for PDS. With the need for permanent support resources for OpenText and related applications, David came on in a permanent position. While other SAS 4 staff have provided support when needed, David has continued to be the primary subject matter expert for the OpenText solution, as well as Highview, which includes not only primary support, but development, analysis, and project management as well.

As the organizational model has shifted to align with the IT strategic plan and the SAS 4 position is more focused on support, design, and implementation of enterprise data management solutions, the tasks and work assigned to David expand beyond the typical SAS 4 responsibilities. The reclassification of this position will appropriately reflect the very technical and complex design work that is required of this position. For FY2025 & FY2026, IT represents the cost of this reclassification utilizing IT Fund 505 excess fund balance. If approved, the ongoing position costs will be included in IT's rate model for 2027 and beyond.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 115 - Fund 315 IT Innovation Fund
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:49 PM (PDT)

Description
 The county budget cycle requires long lead-time for any IT projects that support business outcomes. The nature of IT innovation & modernization is such that the planning window is shorter, and the execution model leveraging the agile methods that a modern IT organization follows does not align with the county’s financial planning cycles. The IT innovation fund will set aside a dedicated amount of funding that will be administered by a steering committee of IT, OpEx, Exec, and Business Leadership in support of innovation projects that require the investment in IT solutions or technical IT resources that either do not currently exist, or where capacity is already allocated to other projects and initiatives.

Summary
 Primary justification for this funding line is to have an agile funding model for innovation projects that meet a set of defined criteria around business value and return on investment.

Justification
 Allowing for a governed IT Fund that distributes funding to approved technology projects that are not part of the already funded projects (during budget cycle) has been identified as a high need. The modern world of IT moves very quickly, and therefore a funded mechanism that allows for more agile decision making without having to wait for budget cycles would provide more direct and expedient business value. New ideas and innovation arrive quickly and sometimes unexpectedly. The model has been successful and the managed governance model that provides the guard rails and decision-making model to ensure projects that get funded meet a set of predefined criteria. IT Rapid Innovation & Modernization Fund (sharepoint.com)

Department	0014 - Information Services
Change Request	AUTO - 116 - Innovation: University Interns & Partnerships
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:49 PM (PDT)
Description	Interns: This package represents the cost for salary and benefits of two half-time temporary FTEs to be filled by interns assigned to the IT Department. The requested funding is anticipated to be sufficient for two positions over three separate 11-week quarters during 2025 and 2026 (Winter, Spring and Fall) . This budget package would provide the annual opportunity for up to six different student interns to spend a college quarter investing in their education in partnership with Snohomish County.
	WSU Hackathon: Sponsoring a hackathon for current students at the WSU Everett Campus will provide an opportunity to build engagement with the student body and administration, as well as support the development of solutions for County business problems. This project has been a community partnership success and this package provides direct sponsorship for the Hackathon event, anticipated to occur in early 2025. We plan to partner with the City of Everett and Microsoft to provide resources to support the event, and engage with WSU's software engineering department to support planning for this event. The event has been open to local High Schools as well and we hope to pursue this again through direct engagement and sponsorship by each elected council member to be a sponsor for one or more high schools within their district.
	UW Capstone: The county has an opportunity to bring in a cross-functional team of students from the University of Washington College of Engineering to address a business problem. The Industry Capstone Program brings together UW students and companies to tackle real-world, multidisciplinary engineering problems. Snohomish County IT will bring in a project and provide support to a team of creative, talented engineering seniors who will design and build innovative solutions. The team of 4-6 College of Engineering seniors will be matched to a Snohomish County sponsor and a UW faculty member. This would be worked in partnership with HR to align to the ongoing internship program if and as needed. We are investigating project areas to focus in on where we have an opportunity to look for a combination of workflow streamlining, modernizing of business operations, and introduction of modern technologies to help manage our business.

Summary

Change Request Summary

Interns:
 The Snohomish County Internship Program provides work experience for high school and post-secondary students currently enrolled in an accredited institution. The internship program is designed so that the student/intern will have the opportunity to apply principles and theories learned in the classroom, gain new skills, explore a career path and be supervised and mentored by a professional in their applicable field of study. The student/intern may choose to receive scholastic credit for their internship in accordance with the guidelines set by their school. Snohomish County Code requires that the conditions of employment including salary, hours of work and length of employment be determined by agreement between the county and the college or university.

Justification

WSU Hackathon:
 -Possible outcomes could include delivery of an actual solution for the county for a particularly focused business need.
 -Community and civic engagement
 -Building partnership with WSU Everett, and EVCC

UW Capstone:
 In addition to solving a business problem for the county with anticipated savings, this project provides a high touch engagement opportunity to assess student talent and recruit for jobs. We will build brand recognition for the County among next-generation engineers, and provides a low cost opportunity for a fresh look at a business problem. Secondary benefits include civic engagement benefits by strengthening ties to the UW College of Engineering, as well as professional development opportunity for the technical mentor.

Department: 0014 - Information Services
 Change Request: AUTO - 129 - Security: Hybrid Cloud Data Storage
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)

Description: This package proposes a modern, resilient, streamlined and efficient Hybrid Cloud Storage solution utilizing both cloud and on-premises resources, to form an integrated storage architecture for unstructured (files) data.

Summary: Traditional file storage technologies have size/structural limitations and ongoing data backup/recovery activities take longer due to the County's increasing volume of unstructured (files) data. As a result, it is increasingly difficult and time intensive for IT to manage. To begin addressing these management challenge, IT requests funding to subscribe to a hybrid cloud storage solution designed for scalability, security, and performance. With this solution, IT gains the flexibility to align file storage to business needs and easily adjust and expand without the current constraints. Built-in disaster recovery will reduce the time needed to provide access to impacted file shares, and ransomware detection and mitigation can quickly stop cyber attacks and enable fast recovery. Virtual machines can be deployed to dynamically cache copies of frequently accessed data to deliver high-performance access.

Change Request	AUTO - 131 - Security: IT Security Preparedness
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:50 PM (PDT)
Description	Engage with a Cybersecurity consulting firm to conduct two tabletop exercises intended to assess readiness, educate interested parties, and identify opportunities to advance the County's cyber incident preparedness.
Summary	
Justification	<p>Cybersecurity tabletop exercises provide the opportunity for knowledge sharing between security teams and internal interested parties. By leveraging outside expertise, the goal is to objectively assess and improve the County's readiness for cybersecurity events, educate participants of their roles in the response, and identify opportunities for ongoing improvement.</p> <p>The proposed scope involves contracting with a security consulting firm to conduct two separate cybersecurity tabletop exercises to be conducted in 2025. The first intensive 3-day exercise will involve IT and affiliated teams from within customer departments. The second exercise will be geared toward County leadership and take place on a single day later in the year.</p>

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 142 - Enterprise: Systems PM Resource (Project Position)
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)

Description: This priority package represents the extension of end date for 1.0 full-time project employee from 2024 through 2026 to continue assisting IT service teams and professionals with the planning, coordination, and execution of IT service delivery.

Summary: The IT department handles multiple large and complex technical projects for which a Project Manager makes a significant impact in coordination and service delivery. While OpEx and IT continue to be joined in the support of advancing our technology capabilities, focused assistance is needed within IT to foster rapid growth and maturity. Key focus areas for this position include our cybersecurity posture, data mobilization, privacy, analytics and dashboard development for internal and resident focused outcomes.

Justification: The Information Technology Department is requesting funds to extend the current project position Project Manager to continue leading important current and queued projects through the biennium.

Department	0014 - Information Services
Change Request	AUTO - 150 - Security: Network Engineer (Project Position)
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:50 PM (PDT)
Description	This priority package represents the extension of end date for 1.0 full-time project employee from 2024 through 2026 to continue to assist IT service teams and professionals with the planning, coordination, and execution of IT service delivery.
Summary	
Justification	The IT Infrastructure & Security Division has several projects and initiatives requiring IT networking expertise. These projects include various facility moves or changes (Bomarc build-out, DJJC remodel), refreshing network infrastructure (new wireless solution, hardware replacement), numerous security camera installations, and the Yakima disaster recovery site. The IT Network Engineering team maintains routine operations with limited staff and an additional engineer is needed to ensure fixed deliverable project timelines are not impacted by resource constraints. The Information Technology Department is requesting funds to extend the project position for an IT Network Engineer to assist with these important projects and to ensure support of daily operational needs.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 154 - Security: IT Security Architect
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:50 PM (PDT)
Description	This priority package represents 1.0 full-time employee to join the Information Security team and provide advanced technical planning, design, configuration, administration, and support skills needed to implement and maintain the County's complex security tools and assist in responding to and investigating cybersecurity incidents.
Summary	
Justification	Sophisticated cyber threat actors and nation-states exploit vulnerabilities to steal information and money and are developing capabilities to disrupt, destroy, or threaten the delivery of essential services. By leveraging advanced technologies, fostering collaboration with local/state/federal agencies, and prioritizing cybersecurity education and awareness the County can mitigate some risk. However, these technologies and activities require resources with advanced technical skills to effectively implement, administer, manage, and support them. IT has validated the ongoing need for this position over the last year by having a senior member from the IT Infrastructure team split time between Engineering and Information Security for the last year. This arrangement improved the Security team's ability to deliver projects and manage the County's increasingly complex security technologies. Having demonstrated the need and results of having a dedicated senior technical resource within the IT Security team, IT is asking for the IT Security Architect FTE.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 218 - Reclass: Systems Administration Support 4, IT Planner 4, Systems Engineer 5
Change Request Type	Position Adjustments
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:02 PM (PDT)
Description	<p>This package proposes the reclassification of three existing positions in the IT Department: Systems Administration Support 4: Reclass from Business Applications Support 4 to Systems Administrator Support 4 IT Planner 4: Reclass from Systems Administrator Support 3 to IT Planner 4 Systems Engineer 5: Reclass from Systems Engineer 4 to Systems Engineer 5</p>
Summary	<p>Systems Administration Support 4: The Information Technology department has contracted with a third-party vendor to provide 24x7x365 security monitoring service. With the increased level of vigilance, IT needs to implement a formal on-call process for escalation and response to security-related incidents. By its very nature, Information Security is a 24x7 function and as such, it's vital that all IT Security Analysts be exempt and available to participate in after-hours activities, when necessary. A separate request is being submitted to reclassify the non-exempt, Junior Analyst to an exempt position and this request is a resulting 'ripple effect' of that proposed changed. In addition to the aforementioned 24x7 demands, the role of IT Security Analyst requires specialized technical knowledge including the ability' to investigate and remediate potentially critical risks under pressure, serving in a position of great trust and demonstrating sound judgement, and staying abreast of evolving threats and best practices.</p>
Justification	<p>IT Planner 4: The Information Technology department has contracted with a third-party vendor to provide 24x7x365 security monitoring service. With the increased level of vigilance, IT must implement a formal on-call process for escalation and response to security-related incidents. Currently, the Systems Administrator Support 3 (working title of 'IT Security Analyst 1') is a non-exempt employee which precludes involvement in this process. Given the IT Security team consists of only one other Analyst - Business Applications Support 4 (working title of 'IT Security Analyst 2') - it is not possible to implement an on-call rotation. By its very nature, Information Security is a 24x7 function and as such, it's vital that all IT Security Analysts be exempt and available to participate in after-hours activities, when necessary. In addition to the aforementioned 24x7 demands, the role of IT Security Analyst requires specialized technical knowledge including the ability' to investigate and remediate potentially critical risks under pressure, serving in a position of great trust and demonstrating sound judgement, and staying abreast of evolving threats and best practices.</p> <p>Systems Engineer 5: Reclass initiated by AFSCME and approved by Department for 2025. See attached documents</p>

Department: 0014 - Information Services
 Change Request: AUTO - 244 - Enterprise: IT Service Management Implementation and Expansion
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:04 PM (PDT)

Description: Implement and expand the use of our IT Service Management system.

Summary: IT continues to implement and expand its Information Technology Service Management ticketing and work order system (Easy Vista and the IT Support Portal). This implementation and expansion includes adding capabilities, extending use beyond the Department of IT to IT professionals across the enterprise, creating better support organization and increasing transparency to IT operations. This growth requires dedicated software development and configuration. Funding to provide training and professional development to Department of IT application developers who are doing the work coupled with professional services is necessary for IT to be successful as we move forward.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 250 - Security: Software as a Service (SaaS) Discovery Tool
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:04 PM (PDT)
Description	<p>We lack a systematic tool of identifying, cataloging, and managing SaaS applications used by the County. The core objectives of SaaS discovery encompass achieving a holistic view of the software landscape, understanding usage patterns, optimizing expenditure, fortifying security, and compliance measures, and enhancing operational efficiency.</p> <p>We have some tools within IT to identify SaaS and other types of applications though we don't have a reliable way to identify all the hosted/available through a browser application. This proposal is designed to identify those gaps.</p>
Summary	
Justification	<p>SaaS discovery tool(s) offer a variety of benefits including but not limited to:</p> <ul style="list-style-type: none"> - Reduced wasteful spending - Enhanced security and compliance - Contract management and renewal control - Increase visibility into our data and what level of data is stored across the hosted universe - Identified unsanctioned applications and usage <p>Costs for these types of tools vary greatly and the cost is only an estimate for annual cost</p>

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 251 - Enterprise: Social Media Management
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:04 PM (PDT)
 Description: Purchase an enterprise solution so departments, offices, and courts can centrally manage their social media accounts.
 Summary:

Justification: Social media has become an increasingly important element of civic engagement at Snohomish County. Currently, the County doesn't have enterprise tools for managing social media accounts and platforms apart from archiving posts for public records purposes. The impact of this is that across the county social media is effectively run as separate, individual accounts that are created and utilized by individuals and groups as they deem appropriate and to the best of their abilities. Investing in a social media management solution at the enterprise level will provide better transparency and efficiency by allowing the management of multiple accounts from a single interface/dashboard, leveraging improved analytics across accounts and platforms, increasing the ability of communications resources to collaborate and cooperate, improving customer engagement, promoting more effective social media campaigns, and having a way to establish and monitor consistent use of social media across groups and platforms.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 264 - Innovation: Business Applications Developer 5
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:07 PM (PDT)

Description: This priority package represents 1.0 full-time employee (FTE) to enable the IT Data Analytics team to successfully meet the demands of building, scaling, maintaining, and supporting an ever expanding and business critical data analytics service.

Summary: IT's data analytics service continues to rapidly expand across the enterprise as departments, offices, and courts see the value in making data driven decisions and providing the public access to that information. This service includes IT building and supporting Power BI dashboards (Office of Recovery - Covid-19 Recovery Plan, Prosecuting Attorney - Law and Justice, MAC Group - Drug Overdose, Council - Budget, Assessor - Tax Distribution, etc.) along with providing consultation and subject matter expertise for non-IT County staff to create their own dashboards.

Justification: The data analytics service team currently consists of one Architect and one Analyst. In 2022, 2023 and 2024, these two resources were not sufficient to meet the data analytics resource demand. To meet the 2022 demand, the Office of Recovery secured an external IT staffing resource (1.0 FTE) to build their Covid-19 Recovery Plan dashboard. To meet 2023 and 2024 data analytics demand, the Office of Recovery funded a 0.5 FTE and IT will fund another 0.5 FTE. With the addition of a third FTE to the data analytics team, the need to hire external resources will diminish.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 284 - Enterprise: County Public Website Redesign
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:09 PM (PDT)
 Description: Snohomish County's public facing website redesign and modernization.
 Summary:

Justification: Employees and constituents have clearly voiced that it is difficult to find information on Snohomish County's website. Site editors have expressed that publishing options are limited. To address these deficiencies, Snohomish County IT started a project in 2024 to redesign the County's public website to improve self-service for our constituents, provide a modern and mobile friendly user interface, and enhance the publishing experience to ensure the site is maintainable and follows best practices. This project consists of three phases that include research and planning which is actively being worked on, design and follow-up research, and build and implement. The current research and planning phase is focused on design, accessibility, inclusiveness, search, mobile experience, information architecture, navigation, standardization, publishing, professionalism, approachability, and trustworthiness. The research and planning phase produced both time and cost estimates required to complete the subsequent phases needed to transform the County's website from what it is currently to what it can be in the future to best serve our user base. This package will provide funding for the following two phases of design and follow-up research, and build and implement.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 314 - Data: Data Inventory – Phase 2
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:11 PM (PDT)
 Description: This package is to expand funding for consultant services to complete the data inventory project that was budgeted for and began in 2023.
 Summary:

As part of the Snohomish County Data Governance program, we started work for identifying and understanding the location, retention, and sensitivity of all data and records within the county. The focus of the first phase of the data inventory project was to focus on departments and groups identified as having confidential data (such as PCI and other Personally Identifiable Information) and highly confidential requiring special handling (HIPAA, PHI, CJIS). This package requests funding for the consultant to engage with the remaining departments, offices, and courts in the county.

Justification: By knowing what type of data we have and where it is, we are able to more closely align with industry and federal laws and regulations, as well as meet security and disaster recovery standards and guidelines. We also identify county records and how they align with state retention requirements. This provides clarity to records specialist staff around the county as well as frontline county staff. This also lays the groundwork for implementation of automated retention solutions such as OpenText and SharePoint.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 316 - Enterprise: Power Apps Licenses
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:11 PM (PDT)
Description	Begin purchasing Microsoft Power Apps licenses to enable IT to build low-code/no-code applications that can be leveraged across the County enterprise.
Summary	
Justification	Over the past 5+ years, the IT Applications team has transitioned to using Microsoft’s low-code/no-code Power Apps development platform for creating new and innovative applications that solve our customer’s business problems. IT has also begun modernizing existing legacy applications using these tools as well. This transition from relying on traditional coding tools to low-code/no-code application development is taking place in businesses across the globe because low-code development and deployment is almost always faster, more efficient, and more cost effective than traditional coding. We’ve received very positive feedback from our customers regarding Snohomish County’s transition, and it makes sense to continue investing in this platform. Snohomish County IT sees an investment in Microsoft Power Apps as an affordable and effective option in the coming years. Snohomish County is heavily invested in Microsoft solutions, and Microsoft Power Apps integrates seamlessly with Microsoft365 and other Microsoft solutions. PowerApps has built-in security that helps ensure the applications IT builds consistently have high standards for security and compliance. Microsoft’s multi-app license is affordable, at approximately \$120 per user annually, and real cost benefits can be achieved because any user with a single license can then use unlimited Power Apps applications. This means every application an employee uses after their first is at no additional cost. An investment in Power Apps licenses will allow IT to build applications that can be broadly used across the Snohomish County enterprise and realize the true cost/benefit of a license.

Change Request Summary

Department	0014 - Information Services						
Change Request	AUTO - 345 - Rates: Reducing PDS Workstations						
Change Request Type	Standard Change Package						
Change Request Status	Department Submitted						
Publish Date	Jul 09, 2024 08:13 PM (PDT)						
Description	This package is a placeholder that will reduce IT rates for PDS if it is determined they no longer need premium PCs for remote access in 2025/2026. Up to 12 devices may be cut from the PDS rates in 2025/2026 if an alternate solution is sufficient.						
Summary	PDS has a partner package that represents the reduction in their budget: ID #323						
Justification	To facilitate remote work, PDS has used premium grade PCs as on-premise desktop environments that can handle the processing power, video rendering and network capabilities needed for large data set manipulation of maps and other engineering files. Remote workers use laptops to remotely connect to the on-prem computers. During 2024, the IT Department is launching a virtual desktop environment that may be able to replace the current premium hardware. Testing will commence in Summer 2024, and both departments will determine if the new environment has the capacity to replace individual devices with the central offering.						
	<table border="0"> <tr> <td>12 Premium PCs</td> <td>2025 Rate: \$2033</td> <td>Total: \$24,396 in 2025</td> </tr> <tr> <td></td> <td>2026 Rate: \$2097</td> <td>Total: \$25,164 in 2026</td> </tr> </table>	12 Premium PCs	2025 Rate: \$2033	Total: \$24,396 in 2025		2026 Rate: \$2097	Total: \$25,164 in 2026

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 348 - Innovation: Artificial Intelligence (AI) foundational platform
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:13 PM (PDT)
 Description: Introduce generative AI foundational platform for use across the County.
 Summary:

Justification: Like many local, national, and global jurisdictions, this county has begun to embrace the power of AI tools and opportunities. This package is designed to engage with a platform service that will enable the workforce to be more productive and integrates with many of our current platforms. The first step is implementing a foundational generative AI application which are complex machine learning systems trained on vast quantities of data (text, images, audio or a mix of data types) on a massive scale.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 359 - Rate-Partner: Departments Transfer to IT
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:14 PM (PDT)
Description	This package represents the transferring of costs and management of the licenses or contracts from multiple departments into IT. The departments request that the cost for annual maintenance and support be included in the IT rate model and allocated in each department's IT rates for budget years 2025/26 and beyond.
Summary	<p>Partner package with Sheriff #148: Axon Investigate, \$44,400 in 2025, \$46,620</p> <p>Partner package with DCNR #188: eCognition, Kisters, OneRain, \$54,324 in both 2025 and 2026</p> <p>Partner package with HR #221: Aspire \$55,800 in both 2025 and 2026</p> <p>Partner package with Office of Hearings Administration (OHA) #107: Case Management System \$577,000 in 2025 and \$142,000 in 2026</p> <p>Partner package with Medical Examiner #498: Symmetry Cloud PACS \$7,979 in both 2025 and 2026</p> <p>Partner package with Superior Court #519: FTR (For the Record) \$52,300 in 2025 and \$55,000 in 2026</p>
Justification	<p>Partner package with Assessor #407: designed to support the anticipated and needed migration of conversion from ArcGIS Desktop 10.8.x (ArcMap), to the latest version of Esri's replacement product, ArcGIS Pro, to support our statutory requirements. The Department of IT will partner with the Assessor's Office for this implementation as needed. The work will begin using existing Esri services and funding from the Assessor will cover the remainder of the work.</p> <p>The Assessor's Office writes in their budget request: "RCW 84.40.160 states ". . . The assessor shall prepare and possess a complete set of maps drawn to indicate parcel configuration for lands in the county. The assessor shall continually update the maps to reflect transfers, conveyances, acquisitions, or any other transaction or event that changes the boundaries of any parcel and shall renumber the parcels or prepare new map pages for any portion of the maps to show combinations or divisions of parcels."</p> <p>We complete this task through our Assessor's Office GIS Division. The Division's primary function is to maintain and update the County's Integrated Land Records (ILR) geodatabase, which includes the tax parcel base layer used in a multitude of ways by all county offices, Snohomish County residents, and the Snohomish County business community. This division also assists in application development and appraisal support by providing various electronic mapping applications and map products including parcels, appraisal neighborhood boundaries, taxing district boundaries, annexations, etc. The current software platform used for this development and maintenance process, is Esri's "ArcGIS Desktop 10.8.x" software suite, more specifically ArcMap."</p>

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 397 - Fund 315 Balancing
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:15 PM (PDT)
Description	This package balances revenue and expenditure in Fund 315 for IT Capital Projects. It contains adjustments to our proforma base budget for line items that carried forward from prior year adopted levels. Revenue and expenditure is anticipated to balance in Fund 315 through entries made in this base package at \$3,183,000 in 2025 and \$3,343,000 in 2026.
Summary	This balancing package is necessary to create a foundation that represents the 2025-2026 Technology Replacement Program (TRP) contributions to Fund 315. Expenditures are aligned with our 5-year plan for technology infrastructure improvement.
Justification	From this initial package, adjustments to revenue and expenditure based upon policy decisions can be made through separate packages. Any adjustments to this priority package must be carefully considered and are discouraged; this package is designed to mirror initial rate model design, balances at the program level, matches departmental communications, and ties back to audited rate allocations and the IT department reduction package.

Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:17 PM (PDT)
Description	Enhance our ability to monitor, log and report on end user's internet capability.
Summary	
Justification	We need a more robust way to monitor Internet requests, logs activity, applies Internet usage filters, and reports on activity. The current tool is not designed to provide a good or reliable reporting capability. In addition, we are leveraging valuable IT security professionals to cobble together reporting results where a tool can easily track this high-volume body of work, which is increasing in demand.

Change Request	AUTO - 427 - Records Management Technician
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:18 PM (PDT)
Description	<p>This priority package represents a new 0.5 FTE addition to the records center team. The package is neutral in cost, shifting historically budgeted extra help funding into salary/benefits. This 0.5 FTE will be filled as before, with a half-time employee who will continue to provide support in records center projects, pickups, deliveries, and operational tasks.</p> <p>The position is showing as Records Management Service Specialist because we needed a similar position to copy over in the budgeting tool. The position we are requesting and will be changed to is Records Management Technician.</p>
Summary	
Justification	<p>The records center has hired an .5 FTE project position every year to provide support for the annual records inventory project as well as coverage for pickups, deliveries, and other operational work. Per recommendation from HR, we are requesting a permanent .5 FTE for this work as it is a continual need for the Records Center to keep up with county and state records retention laws and guidelines.</p>

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 429 - Technology Replacement Program (TRP) FTE
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:18 PM (PDT)
Description	<p>This priority package adds a 1.0 FTE Information Technology Support I, replacing extra help funding used in past years for the Technology Replacement Program (TRP). The package is neutral in cost, shifting historically budgeted extra help funding into salary/benefits. This 1.0 FTE will be filled as before, with up to a full-time employee assigned to the annual TRP project, creating resource capacity for the annual County-wide effort of technology hardware refresh, TRP.</p> <p>The position is showing as IT Support 2 because we needed a similar position to copy over in the budgeting tool. The position we are requesting and will be changed to is IT Support 1.</p>
Summary	
Justification	<p>The service desk team oversees the annual refresh cycle of PC and laptop devices for Snohomish County. This effort requires an additional full-time employee to be assigned during the TRP project months, usually spanning 8-10 months of each year. IT has historically used extra help or temporary staffing every year to provide support for TRP. Based on clarification and recommendation from Human Resources, we are requesting a shift from extra help funding to salary/benefits and a 1.0 FTE for this work as it is a continued annual need for the service desk to successfully meet the operational demands of this massive effort.</p>

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 439 - Rates: Software Increases 25-26
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:19 PM (PDT)
Description	This package represents license increases for products that are instrumental to enterprise business operations within Snohomish County. These costs were either unknown or unable to be estimated at the time the 2025-2026 IT rate model was developed and therefore are not included in departmental allocated rates for the proforma budget.
Summary	<p>KnowBe4 2025: \$22,500 2026: \$23,600</p> <p>The County's enterprise NeoGov training platform has been used in the past to provide initial and annual HIPAA compliance training to County employees to ensure compliance with federal privacy laws. The HIPAA training module expired in 2024 and was replaced with KnowBe4 security compliance plus training subscription to provide the County with ongoing HIPAA compliance training, compatible with our enterprise NeoGov training platform.</p> <p>BlueBeam Revu 2025: \$103,000 2026: \$108,000</p> <p>The County planners, engineers, and surveyors use BlueBeam Revu software to gather and assess data and information throughout the lifecycle of a building project. During 2024 BlueBeam licensing is changing the licensing model and will no longer offer subscribers concurrent licenses. The software developer's switch to only offering named user licenses will increase the County's software subscription costs. Rather than being able to share 240 concurrent licenses, each of our over 400 users County-wide will need their own license.</p> <p>MSFT Power Virtual Agent 2025: \$0 2026: \$12,000</p> <p>Civic Engagement is a key strategic focus area for Snohomish County IT and Microsoft's Power Virtual Agent platform would enable IT to provide better solutions to our residents. The County lacks an IT platform to create virtual agents (i.e., chatbots) that can help get users the information they need without requiring them to interact directly with County employees (e.g, via phone, email, or coming in person to County facilities). While there are many chatbot solutions available, Microsoft's Power Virtual Agent platform would allow Snohomish County to custom build virtual agents in 2026 for our many diverse needs, including virtual agents that would allow users outside our network to interact with distinct systems and data sources within the County network (e.g., to schedule an appointment, place an order, or look up the status of a case).</p>
Justification	<p>OpenText Licensing 2025: \$70,000 2026: \$73,500</p> <p>OpenText is used as an enterprise platform for document management. In 2023 and 2024 IT invested in Extended ECM and in order to enable all users in PDS to have full functionality, as well as enable the public search tools, additional Content Server licenses are needed, along with transactional licenses to cover documents retrieved from the system.</p> <p>FME Civic Engagement and Capacity 2025: \$55,000 2026: \$12,000</p>

Change Request Summary

FME is a tool that is commonly used for moving data between systems, creating data extracts, transforming data, checking status of systems/servers, etc. Adding capacity and creating an FME environment for solving civic engagement challenges will allow us to increase FME’s ability to solve business problems.

Currently IT leverages FME for many of our solutions that interact with systems for both automated and ad hoc processes. This includes things like moving data between systems, creating data extracts, transforming data, checking status of systems/servers, etc. Currently we only have FME set up inside the firewall, so only our internal, authenticated users to interact with the solutions we provide. As we try to create more and better solutions for Civic Engagement, it would be useful to have FME configured outside the County firewall so we can also create solutions that allow direct input from our external customers. Currently we have to reject FME as an option when the solution requires this type of engagement with external customers. This investment would allow IT to extend our use of FME, a tool we are already using extensively and have found to provide extensive utility and value to provide solutions that enhance Civic Engagement.

Easy Vista licenses

2025: \$20,000

2026: \$23,000

The IT support portal software EasyVista. Growing this enterprise solution for all IT professionals requires the acquisition of up to 13 additional licenses. Currently Department of IT is consistently utilizing the full allocated/allowed license count and could benefit from a small number of additional licenses. In addition, IT is in the process of building out functionality and onboarding additional IT professionals across the county to use the system for standardization, tracking the IT support burden and costs in a more effective and consistent manner plus easy access to solid data to enable better evidence-based decisions. Expansion is planned and eagerly anticipated by Superior Court, Assessor, PDS, Public Works and more.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 453 - Fund 100 & Fund 130 Balancing
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:20 PM (PDT)
Description	This is a balancing package for Fund 100 Public, Educational, Gov (SnoCoTV) and Fund 130, Grant Control. Entries represent anticipated revenue and expenditure activity over the biennium.
Summary	In 2022 Snohomish County entered into a cable franchise agreement, Ord 22-026 and through said agreement, will be collecting Educational and Governmental Access fees to support related programming. This package establishes adequate budget authority for the receipt and related expenditure of those funds. Fund 100 Should balance at Revenue and Expenditure of 730,000 over the biennium and includes use of fund balance carried over from 2024.
Justification	Annually, the Information Technology department submits a grant application for the State and Local Cybersecurity Grant Program through WA Tech and Washington State EMD for one-time investments in strengthening the County's cybersecurity stance. This package establishes adequate budget authority for the receipt and related expenditure of those funds.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 487 - ERP and Fund 315 to 505 Project Transfer
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:20 PM (PDT)

Description: This package consists of budget-neutral adjustments to accurately account for IT software implementation in a manner consistent with GASB 96 regarding Subscription Based IT Arrangements (SBITAs). We are transferring the full amount of ERP project funds collected in IT Fund 315 into IT Fund 505 for tracking of future implementation efforts, as recommended by Finance.

Summary: This change request is being requested and in conjunction with package 375 and 499 from Human Resources and Finance respectively.

The mission of the ERP project is to scope, select, & implement a new state of the art Enterprise Resource Planning (ERP) system across the County. It has been well established that current Finance and HR systems are no longer able to meet the evolving needs of county operations. Existing applications are out of date with modern operations, disconnected from each other, and are growing in security vulnerability. The new ERP system will enable a new and improved level of efficiency, transparency, and service delivery to the citizens of Snohomish County. The total expenditures for this project fall into the following categories:

- Consulting and Professional Services: Providing strategic guidance and preparatory steps aimed to ensure a successful implementation by addressing operational challenges related to project management, financial management, resource allocation, and client communication.
- Software Licensing: Includes subscription-based (SaaS) recurring license fees calculated on a per-user basis that allows the County ongoing access to the ERP system.
- Software Maintenance and Support: Includes post-implementation support, monitoring and maintaining application and backend servers, incident management and resolution, software update releases, and regular data backups.
- Implementation Vendor Services: Includes consulting, system configuration, data migration, training, and ongoing support to ensure successful adoption and alignment to county strategic objectives system.
- Implementation Project FTE: Internal, project-based resources working within the departments as Subject Matter Experts (SME's) to support the implementation efforts.
- Implementation Project FTE Transfer Funds: Funding to support the Finance and Human Resources ERP Priority Packages as noted in the Introduction above.

JUSTIFICATION
 Implementing a modern ERP system will yield several benefits to Snohomish County:

- Improved Efficiency: Streamlined processes, automated workflows, and reduced manual entry.
- Enhanced Collaboration: Centralized platform for data sharing and collaboration.
- Better Decision Making: Real-time insights and access to accurate data on finance, operations, and performance.
- Scalability and Flexibility: Ability to quickly adapt to changing needs, such as growth or facing new challenges.
- Increased Risk Management: Enforcing compliance with regulations, improving data security, and providing better audit trails – critical for the County's handling of sensitive information and taxpayer funds.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 514 - CIP
 Change Request Type: CIP - Capital
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:22 PM (PDT)

Description
 This package provides a summary of the continued investment by the Department of Information Technology in the regular replacement of aging infrastructure for the County's IT system over the next 48-month period. The Technology Replacement Program (TRP) plan has been established as the county's annual effort to ensure workstation and infrastructure replacement is addressed to optimize system reliability and reduce incidence of critical failure. TRP is funded through a contribution from Fund 505 using rates paid by IT customers based upon allocated metrics, as identified in interlocal agreements and interfund rates assessed to departments.

Projects in Fund 315 that are not related to the TRP are generally funded by sources other than rate contributions from Fund 505. Some TRP categories incur only periodic outlays, but have assessments spread evenly over a multiyear period for consistency in planning for budgetary impact.

See attached.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 70 - Fund 505 Balancing
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)

This package balances revenue and expenditure in Fund 505 for IT Operations. It contains adjustments to our proforma base budget for labor, changes in existing software maintenance contracts, new ERP system, and increases in interfund charges, all of which are anticipated to drive IT costs in 2025 and 2026. The total anticipated base expenditure budget for 2025 is \$40,338,881 and 2026 is \$41,493,836.

Description
 The Department of Information Technology interfund service rate model is built upon this base budget. For 2025, Initial rate allocation to departments totals \$39,388,462 and remaining revenue of \$950,419 from direct services, Fund Balance, and existing interlocal agreements for IT services balance Fund 505 revenue at \$40,338,881. For 2026, Initial rate allocation to departments totals \$39,337,468 and remaining revenue of \$2,156,368 from direct services, Fund Balance, and existing interlocal agreements for IT services balance Fund 505 revenue at \$41,493,836.

Summary
 This balancing package is necessary to create a foundation that represents the fully funded IT rate model for existing operations carried forward into the coming fiscal year. From this initial package, adjustments to revenue and expenditure based upon policy can be made through separate packages. Any adjustments to this priority package must be carefully considered and are discouraged; this package is designed to mirror initial IT rate model design, balances at the program level, matches departmental scenarios and communications, and ties back to our audited rate allocation model.

Justification
 Detailed assumptions in the balancing package include:
 -Allowance for 4% COLA in 2024, 2.5% Salary increases for both 2025 and 2026, and 6% for 2025 & 7% for 2026 in Benefits increases are represented in COLA contingency line items
 -Costs of new ERP system
 -Interfund service line items are budgeted at proforma levels
 -Effort was made to adjust expenditure line items to represent actual cost object codes
 -Six positions are reassigned to programs to correct proforma load and reflect their assigned program

Department	0015 - Health Department
Change Request	AUTO - 469 - 15 - DEPT - CDMH Request Fund 124
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:20 PM (PDT)
Description	<p>The Department would like to continue the following positions for CDMH funding:</p> <ul style="list-style-type: none">1 - Healthy Communities Specialist (Substance use) SHD1208P, 1.0 FTE. Extend Project position through 12/31/20262 - Health Educator (Substance Use) SHD1206P, 1.0 FTE. Extend Project position through 12/31/20263 – Healthy Communities Specialist (Child Death Review) SHD1205P 1.0 FTE. Extend Project position through 12/31/2026.4 - Epidemiologist II – SHD1207P 1.0 FTE in Fund 124, request deleting this FTE. Then adding to opioid settlement funding and reclassifying to Healthy Communities Specialist and Regular.5 - Health Policy Analyst, SHD1209R, 1.0 FTE reduce to .50 FTE and create another position within CDMH6 - Planning role – NEW FTE .50 from SHD1209R
Summary	

Substance Use Prevention program

The Health Department was able to create a Substance Use Prevention program that allows the expansion of the Department's current Healthy Communities staff to focus on issues regarding substance use and misuse in our communities. This new program is centered around tobacco, vaping, marijuana, and opioids. In 2024 the Substance Use Prevention program has been able to continue work and expand into new areas with increased staffing. The Health Department has been participating in various MAC Group activities and lead work where applicable.

Child Death Review Program

The areas of focus are dependent on emerging trends; there is a gap in capacity to adequately address focus areas, especially those identified during child death reviews. Currently, we have a Healthy Communities Specialist that is able to convene a group to review deaths and make recommendations, but we lack the capacity to start to work on ways to prevent further child deaths in Snohomish County. The group reviews not only those children who died due to accidents but also those who may have been exposed to illicit drugs.

Epidemiologist 2 – CDMH Priorities

The Epidemiology and Informatics team plans to use the CDMH funds allocated for a current Epidemiologist II staff member to fund an existing team member. This staff member is doing work directly in line with CDMH goals, such as creation of mental health, injury and violence data dashboards that will help the Health Department understand the burden of these issues in our county and help to develop data-driven strategies for improvement of the health of our population.

Justification

Gold Standard Study Initiative (0.50 FTE)

With the integration of the Snohomish Health District into Snohomish County government emphasis has been placed on strengthening public health and continuing its journey to provide foundational public health services (RCW 43.70.515) to all county residents. As approved by Executive Somers, one recommendation is to complete a comprehensive 'Gold Standard' evaluation of the Health Department. Components of this evaluation include comparisons of current programs, operations, and capacity to state and national standards. These standards include, and are not limited to, identifying data trends on a variety of chronic diseases (including behavioral health), substance use disorder prevention, and access and linkages to behavioral health services. Once complete, a prioritized roadmap will emerge to guide future and ongoing public health investments aimed at strengthening public health countywide. A 0.50 FTE position for the Department is to continue to oversee and project manage efforts and associated contracts. This is a 0.50 FTE reduction from 2024 allocations for this body of work.

Departmental Planning & Evaluation (0.50 FTE)

In 2024, the Gold Standard Initiative work is being accomplished through a 0.50FTE, instead of the approved 1.0 FTE. We propose utilizing the remaining 0.50 FTE to focus on department planning and evaluation. Of immediate need is the establishment of, monitoring, and evaluation of departmental metrics corresponding to the County 5-year plan and the departments strategic plan; both of which are to include public health focused substance use prevention metrics and community health improvement plan (CHIP) process metrics. Strategies supporting the department metrics are the establishment of learning lab styled strategic and annual work plan opportunities and resources for programs. First to utilize the learning labs are the Substance Use Prevention Programs and CHIP areas. This position would be combined with SHD1219R funded through Fund 125 to make this role 1.0 FTE.

Change Request Summary

Department: 0015 - Health Department
 Change Request: AUTO - 491 - 15 - 610 - Opioid Settlement Funding
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:20 PM (PDT)

This request includes:
 1 – Continuation of 1.0 FTE Epidemiologist II (regular) & O/H cost for new FTE 2025 cost with COLA to be \$116,297 and 2026 is \$118,421
 a. – \$10,000 per year Software licensing for Epi II position for STATA, SAS, and Tableau.
 b. – \$1,000 per year for continuing professional development.
 c. – \$3,500 per year for operational costs and supplies
 2 – Purchase of Naloxone/Narcan, \$121,125 annually for the 25/26 biennium
 a. – The Health Department requests an additional \$100,000 to purchase Naloxone/Narcan.
 3 – \$200,000 for a Primary Prevention Educator, inclusive of:
 • Travel - \$2,000
 • Contracts for either rooms or facilitators - \$20,000
 • Other/Misc = \$9,000 (\$1,000 + \$8,000 for IT start-up costs of equip).
 • Funding for a conference or training - \$5,000

Description
 Summary: Continue the Epidemiologist II (regular) now filled, to improve data quality and timeliness as well as expand data sources, including qualitative data from community partners and those directly affected by the opioid crisis; increase staffing closer to a reasonable level for this body of work; diversify and optimize data visualization for consumption by the public as well as external partners and media.

Justification
 Support the First Responder Leave Behind program to reduce the number of overdose deaths by making Narcan/naloxone more readily available via our Fire/EMS and other first responder communities. Request of additional \$100,000 in funds to purchase Narcan for use by community groups outside of the leave behind program.
 \$200,000 request for a Primary Prevention Educator – to provide school-based education to mitigate occurrences of substance use disorder. This is identified in Phase II of the spending plan.

The Department of Emergency Management DEM CR# 541 is the companion request for this SHD CR# 491 request.

Change Request	AUTO - 500 - 15 - 625 - Add 1.5 FTE for Reconciliation to Proforma Budget
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:22 PM (PDT)
Description	Motion 24-147 added 1.0 FTE Epi II (SHD1218R) and 0.5 FTE Epi I (SHD1219R). This request adds these FTEs to the budget since the positions were not created before proforma budget release. This request also adds 0.5 FTE to the 0.5 FTE Epi I to make that a 1.0 FTE. The FTE change was a result of a 0.5 FTE cut from SHD1209R (DEL1509R in CR#469).
Summary	
Justification	The department received additional grant funding through the Emerging Infections Program Network. The grant covers the cost of the additional FTE request.

Change Request Summary

Department: 0015 - Health Department
 Change Request: AUTO - 524 - 15 - 610-09 - PPP - Establish Budget in PPP Job Code
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:22 PM (PDT)
 Requesting the addition of job cost for the Policy, Planning, and Partnerships program area and associated staff and operating budget be moved into a newly created job cost.

Fund: 125

Division 610

Description: Existing positions to be moved to the new job cost are:
 Grant Coordinator (SHD 1152R) - Helen Wong
 Public Affairs & Policy Manager (SHD1165R) - Nicole Thomsen
 Health Policy Analyst (SHD1198R) - Vacant

Summary: Currently, staff and the operating budget for this program area are spread across multiple existing job cost codes (10070, 10059, and 10050). As a result, responding to questions about budget impacts to staffing and the like are very challenging as the existing codes are shared across other programming areas. Since original development and implementation of job cost codes, programming, staffing, revenue, and needs have grown. The ability to manage and monitor costs have grown as well.

Justification: FTE moves are budget neutral.
 Operating budget is not neutral. This request provides reductions in 10070 and 10050. It also increases expenditures in total as program work has expanded to meet needs.

Change Request Summary

Department: 0015 - Health Department
 Change Request: AUTO - 533 - 15 - DEPT - Continue project positions
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:23 PM (PDT)

Description: The Department is requesting to the following project positions.
 1. SHD1194P Program Specialist 2 - Permit Technicians
 2. SHD1195P Program Specialist 2 - Permit Technicians
 3. SHD1131P Sound Foundation Manager
 4. SHD1203P Clinic Manager (Lead Disease Intervention Specialist)
 5. SHD1204P Medical Assistant

Summary: 2.0 FTE Program Specialist 2 - Permit Technicians

The restaurant industry – as part of the hospitality industry - was hit hard during the COVID pandemic. Prolonged closures, delayed openings, as well as costs and delays in reopening all compounded the impact.

Through this project, the Snohomish County Health Department funds two position that supports prospective business owners realize revenue as quickly as possible by addressing the backlog of food permit applications that need to be processed. These positions will assist prospective business owners in completing and submitting their applications for new food service establishment plan reviews.

Justification: 1.0 FTE Sound Foundation Manager

The Sound Foundation for Public Health is a non-profit that is independent of the Health Department with a separate board of directors, bylaws, mission, policies and procedures that has power and authority to solicit, raise, and acquire contributions, grants, gifts, bequests, trusts, and property in accordance with its mission.

2.0 FTE STI Clinic project positions - Clinic Manager and Medical Assistant

The Health Department opened a sexually transmitted infections clinic in December 2023 to serve those in the community that are unable to access traditional healthcare settings. Since December the Health Department has provides services to almost 300 residents utilizing just 1 nurse practitioner. In May of 2024 the Health Department hired a clinical manger position and a medical assistant position to enhance our clinical services.

The clinical manager and medical assistant positions were hired as project. However they are invaluable to our clinic operations and this request would move those positions to regular within the health department.

Public Health work has always had the support of Snohomish County government. The political commitment has grown through the integration of the former Snohomish Health District in becoming the new Snohomish County Health Department. In partnership, we work for a safer and healthier Snohomish County through disease prevention, health promotion, and protection from infectious diseases and environmental threats. Public health is the science and art of promoting health and preventing disease and premature death of a population by systematic efforts of society, communities, or individuals. Our work strives to do that through a blend of health protection, health promotion, and disease prevention efforts.

Description

As part of the commitment of strengthening the public health practices throughout the integration process, this memorandum puts forward a policy consideration for sustainable and predictable funding with a local county contribution for public health. Based on corresponding contributions with comparative WA State local health jurisdictions (LHJs) to Snohomish County, and restored to 2009 budgeted funding levels, where county contributions represented 17% of total operating revenues of the Health District at that time. The request for a restoration amount as a formalized County policy position represents an increase by \$3.77M to a \$6.07M target total County per capita and tuberculosis contribution. This is an increase to the current \$2.3M contribution in 2024 at 6.42% of budgeted operating revenues. The request is in line with intent and goals for strengthening public health given the after-action review from the COVID-19 pandemic and that as a local health jurisdiction (LHJ), Snohomish County is ranked 35th out of 35 LHJs in Snohomish County.

- The cost of doing business as a County Health Department is a projected increase of \$3.15M accumulative in 25-26 biennium.
- Overhead costs as a proportion of total expenditure are projected to more than double, from 6% as the Health District to 13% in each year of the 25-26 biennium as a County Health Department.
- From 2009 at the District's peak prior to the global financial crisis to 2024, the County's contribution has remained stagnant and as a result, decreased as a proportion of total operating revenues from 17% down to 6%. Whereas the population of Snohomish County has increased by over 21% in that same period.

Summary

- The decline in the District's public health capacity through loss of funding and 40% reduction of staff since the global financial crisis (GFC) prior to the pandemic after decades of historical broad scale defunding of public health. Dedicating public health dollars ensures public health objectives of protecting the health of the community and strengthening public health in Snohomish County are achieved.
- The Health Department recognizes that while interfund overhead payments represent the necessary cost of doing business as a new county department and the county's valuable internal services and infrastructure that support public health in Snohomish County, these costs are diverting dollars from funding direct public health services and functions.
- The COVID-19 pandemic has demonstrated that strengthening the monitoring and response capacity of our nation as a whole relies on local investment in public health. Given the significant role of counties in responding to disasters and emergencies, we should ensure that public health has direct resources to assist in the development of a more effective prevention and preparedness system in local communities now and into the future.
- One Health Department FTE equates to an average cost of \$117K in 2024. A reduction of 26.5 FTEs would be needed in order to offset the \$3.15M county interfund overhead costs, representing a 14% cut to the Health Department's essential workforce totaling 197.05 FTEs in 2024. Local health departments, which are underfunded and understaffed, are less likely to be able to prepare and mobilize effectively, leaving our communities incredibly vulnerable. A strong workforce and consistent local investments are essential to the overall health care infrastructure and ensure that our public health system operates efficiently and effectively.
- Local health jurisdictions are at the frontline of unique health problems facing our communities, including the underlying social determinants of health such as racial equity/inequities of health. In 2022, equity was added as an eighth Foundational Capability under the Foundational Public Health Framework, elevating its importance as a cross-cutting skill and capacity, and reinforcing its critical role in ensuring the communities furthest from optimal health are being addressed. A key objective for the Health Department is investigating and strengthening data collection and analytics in

Justification

Snohomish County. The data informs policy and programs that are needed to address better health and wellbeing and intervening on poor health, and preventable early deaths. Local dollars serve to mobilize resources to address the structural and systemic issues in improving the lives of the populations most at risk due to lack of access to health preventive measures and care.

- We continue to see public health threats increase at significant levels such as substance use disorders, community violence, suicides, emerging and increased infectious disease outbreaks and increases in chronic illnesses and local resources have not kept pace other than securing external, while much needed, funding sources such as opioid settlement funds or special tax initiatives that rely precariously on winning constituent voting support.
- Snohomish County Health Department with a 2024 FTE of 197.05 is ranked 35th out of 35 LHJs. Of an estimated population at 2023 of 859K, we serve almost 4,400 Snohomish County residents per FTE. The County’s contribution represents \$2.67 per capita. When reviewed alongside a comparable LHJ such as Tacoma-Pierce Health Department with a population estimate for 2023 of 946K, TPHD serves 2,700 people per FTE and has a per capita contribution from the County of \$4.00 per resident. Snohomish County is the lowest contributing jurisdiction among the sample LHJs.
- NACCHO (National Association of County & City Health Officials) surveys local health departments every three to four years to gather data on the capacity of our local public health system across the nation. The 2022 National Profile of Local Health Departments is useful to compare the Snohomish Health Department to health departments across the country that serve similar size communities. A few salient measures are described here.
 - o Local health departments serving populations of 500,000 – 999,999 have an average of 4.3 FTEs per 10,000 people. Using this a common metric, Snohomish Health Department would need to be staffed at 370 FTEs.
 - o Local health departments serving populations of 500,000 – 999,999, report a median annual expenditure per capita of \$49. Snohomish Health Department’s 2024 budget figure is \$41 per capita, placing well below the median of health departments across the country.
- In the memorandum to Snohomish County Council dated May 24, 2022, it was outlined that while there were some risks to the Health District integrating with the County, “We expect that the risk of later losing funding or staff for public health services will be lessened by integrating public health into the county, where we can focus on sustainable funding, long-term planning, and maintaining adequate public health staffing for a thriving county. Also, we have committed to ensuring no SHD staff lose their jobs as a result of integration.”

Recommendation:

We understand that we have a role in improving the financial situation we are currently in – but we cannot do this without local investments. We are committed to seek grants, diversify our funding, and assure we are fiscally responsible and continue to find ways build a cultural of continuous improvement. Here is the policy direction for additional investments for you to consider.

Option 1: Do nothing/No change

- The \$3.15M accumulative costs that the Health Department is absorbing are attributable to integrating as a county department and contribute to the structural gap. If the Health Department continues to absorb the projected \$3.15M in accumulative county interfund overhead costs since 2023, without additional revenue in:
 - o 2025 projected fund balance reduces to \$12.1M
 - o 2026, total fund balance falls to a projected \$7.9M. 2026 total projected fund balance is insufficient to cover the restricted portion of fund balance.
- The Health Department’s core operations all operate out of Fund 125 and is expected to fully fund public health functions and services with the current levels of external revenue streams it receives from the County, other funders, and fees and charges. The department must address any structural gaps from the fund balance.
- The Health Department has adopted maintaining a targeted unrestricted fund balance of \$ 7% of total operating revenue in its 2024 Five Year Plan, while covering \$9M of restricted fund balance for working capital, emergency surge funds and non-spendable prepayments and revenue collected in advance. Absorbing the additional costs and funding these recurring costs from fund balance results in failing to meet the 7% target in 2026 and the subsequent years.

Option 2: 25-26 Bridge Funding

- Bridge funding in the 25-26 biennial budget to cover additional costs of \$1.58M each year (total \$3.1M) – until the Health Department can renegotiate grants or add to new grants.

Change Request Summary

Option 3: County Public Health Contribution Policy – Preferred Option

- Request an increase by \$3.77M to a \$6.07M target total County per capita and tuberculosis contribution, up from \$2.3M current contribution in 2024 at 6.42% of budgeted operating revenues. At the District’s peak in 2009, the proportion of County funding was 17%.
- The Health Department and previously the former Snohomish Health District, had not requested an increase to the \$626,618 County per capita or \$1,664,640 Tuberculosis Control funding in several years other than in 2022 and 2023 and due to a request for a 4% increase in Tuberculosis control funding and population estimate adjustments for the per capita payment respectively. Labor cost of living increases have outpaced revenue increases.
- Secondly, as a long-term policy measure, we advocate for the lobbying at the State level for legislative change to develop an approach to mandate cities to pay into public health fund for Snohomish County.

 Publish Date: Jul 09, 2024 08:25 PM (PDT)
 Description: Establish budget for the STI clinic expenses
 Summary:

Justification: The Health Department opened a sexually transmitted infections clinic in December 2023 to serve those in the community that are unable to access traditional healthcare settings. Since December the Health Department has provides services to almost 300 residents utilizing just 1 nurse practitioner. In May of 2024 the Health Department added a clinical manger position and a medical assistant position to enhance our clinical services.

The clinical manager and medical assistant positions were hired as project. However they are invaluable to our clinic operations and this request would move those positions to regular within the health department.

Change Request	AUTO - 586 - 15 - Reducing Fund Balance to Balance Departmental Deficits
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:25 PM (PDT)
Description	In order to balance its 2025/2026 biennial budget at both the divisional and department-wide levels, the Health Department will be reducing its fund balance.
Summary	
Justification	The directive to balance our biennial budget at the divisional and department-wide levels requires the use of fund balance to avoid a budget deficit in both 2025 and 2026. The Department has worked to reduce expenditures, but increasing labor costs and expiring funding sources have created a budget deficit that needs to be covered by fund balance.

Change Request Summary

Department: 0016 - Nondepartmental
 Change Request: AUTO - 42 - Operational Excellence
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:46 PM (PDT)
 Description: Adjustment for COLA contingency and the job costing component of TMSS (Highline).
 Summary:

Optimization of the Highline system entails working with vendor consultants to streamline data, improve processing efficiencies and increase the management tools of a system the county currently owns and underutilizes. 2025 will be focused on completion of the implementation of the job costing component of the time management system (TMSS).

Justification: This is a request to re-appropriate \$46,254 previously allocated to this project.

Funding this package provides the opportunity to continue maximizing utility of the HRIS system, decrease costs and increase productivity of multiple department/offices.

Publish Date Jul 09, 2024 07:49 PM (PDT)

Paine Field is a vital commercial service airport and industrial park serving the Puget Sound Region, with over 590 based aircraft, 70 commercial tenants and serving approximately 650,000 passengers annually. Major tenants include the Boeing Company, United Technologies, ATS, Propeller Airports, ZeroAvia, Alaska Airlines, Kenmore Air, Flying Heritage & Combat Armor Museum, Museum of Flight, FedEx, Esterline/Korry Electronics, Collins Aerospace, Everett Community College, Edmonds College, Washington Aerospace Training & Research (WATR) Center, and many more. In addition to tenant revenues, Future of Flight Aviation Center & Boeing Tour in a regular year attracts 150,000 local, national, and international visitors to the County. WSDOT's most recent Aviation Economic Impact Study reports Paine Field as having a total economic impact of \$59.9 billion annually. (WSDOT, 2020)

Airport revenues include hangar; industrial and commercial leases; landing and fuel fees; Passenger Facility Charges (PFC); and a long-term operating agreement with Boeing for use of the main runway. Airport revenues fund airfield operations, maintenance, fire rescue services, law enforcement, public safety programs, building repairs, debt service on loans and bonds, development requirements and operating costs. Budget drivers at the airport include maintenance and support of the airfield to FAA standards, existing buildings, roadways, and utility systems and increasing the long-term revenue and asset base at the airport. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Description The airport maintains a conservative operating structure while maintaining both airside (aviation) and landside (industrial) capital infrastructure projects. The airport is responsible for not only airport owned buildings, but all roadways and sewer infrastructure improvements which are reflected in the 2025-2026 budget. The main airport budget driver is the need to provide a safe environment for aviation and industry by meeting FAA requirements and standards. Over 50,000 jobs depend on the airfield. Boeing, ATS, the FAA and numerous industrial/commercial tenants have contractual agreements with the County for facilities and services provided by the airport. These contracts form legal requirements to maintain airport facilities to FAA and commercial/industrial standards.

The airport works closely with the FAA to provide safe aviation facilities that meet national standards, including regular inspections and audits. The FAA Airport Improvement Program (AIP) provides capital funding for prioritized improvements to the airfield, but it does not provide any funds for operations and maintenance of the airport. The airport's 2025-2026 capital plans are discussed in separate change requests.

Operating revenues are projected at \$42.9 in 2025 and \$44.1M in 2026. The airport is working on updating its three-year market rate appraisal and should have it completed in early 2025. All leases shall be adjusted to fair market value over the next three (3) years, respective to each individual tenant's lease terms. The airport manages about 430 leases that all expire at various times and years which impacts revenues. All tenant changes and estimated revenue increases have been factored into the airport budget for fiscal year 2025-2026 and thereafter.

The airport continues to work hard to meet revenue goals and is proud to serve the aviation community of Snohomish County.

Summary

Change Request Summary

LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

Paine Field is a vital commercial service airport and industrial park serving the Puget Sound Region, with over 590 based aircraft, 70 commercial tenants and serving approximately 650,000 passengers annually. Major tenants include the Boeing Company, United Technologies, ATS, Propeller Airports, ZeroAvia, Alaska Airlines, Kenmore Air, Flying Heritage & Combat Armor Museum, Museum of Flight, FedEx, Esterline/Korry Electronics, Collins Aerospace, Everett Community College, Edmonds College, Washington Aerospace Training & Research (WATR) Center, and many more. In addition to tenant revenues, Future of Flight Aviation Center & Boeing Tour in a regular year attracts 150,000 local, national, and international visitors to the County. WSDOT's most recent Aviation Economic Impact Study reports Paine Field as having a total economic impact of \$59.9 billion annually. (WSDOT, 2020)

Airport revenues include hangar; industrial and commercial leases; landing and fuel fees; Passenger Facility Charges (PFC); and a long-term operating agreement with Boeing for use of the main runway. Airport revenues fund airfield operations, maintenance, fire rescue services, law enforcement, public safety programs, building repairs, debt service on loans and bonds, development requirements and operating costs. Budget drivers at the airport include maintenance and support of the airfield to FAA standards, existing buildings, roadways and utility systems and increasing the long-term revenue and asset base at the airport. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Description The airport maintains a conservative operating structure while maintaining both airside (aviation) and landside (industrial) capital infrastructure projects. The airport is responsible for not only airport owned buildings, but all roadways and sewer infrastructure improvements which are reflected in the 2025-2026 budget. The main airport budget driver is the need to provide a safe environment for aviation and industry by meeting FAA requirements and standards. Over 50,000 jobs depend on the airfield. Boeing, ATS, the FAA and numerous industrial/commercial tenants have contractual agreements with the County for facilities and services provided by the airport. These contracts form legal requirements to maintain airport facilities to FAA and commercial/industrial standards.

The airport works closely with the FAA to provide safe aviation facilities that meet national standards, including regular inspections and audits. The FAA Airport Improvement Program (AIP) provides capital funding for prioritized improvements to the airfield, but it does not provide any funds for operations and maintenance of the airport. The airport's 2025-2026 capital plans are discussed in separate change requests.

Operating expenses are estimated at \$37.6M in 2025 and \$38.7M in 2026. This includes debt service at \$6.8M in 2025 and \$7M in 2026. This is inclusive annually of the FedEx facility (former Boeing Dreamlifter Operations Center) at \$2M, Future of Flight at \$1.4M, PFC projects at \$1.3M, and other various smaller projects. The airport contributes \$5.2M in interfund transfers to the General Fund for services provided in 2025 & 2026. Utilities and Storm Water Management (SWM) are budgeted at \$2M each year (partly funded by tenant utility revenues). The Airport Enterprise Fund is stable and financially self-sufficient.

In addition, the Airport has budgeted extra funds this year in Personnel Cost Contingency (DAC) to cover salary adjustments for step, COLA, and potential market rate compensation adjustments.

The airport continues to work hard to meet revenue goals and is proud to serve the aviation community of Snohomish County.

Summary

Change Request Summary

LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. The Capital projects listed from 2025-2030 address these needs and are supported by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Description: Certain airfield capital improvements are eligible, but not guaranteed, for 90% grant funding by the Federal Aviation Administration (FAA). FAA grants are prioritized by type and are highly competitive. Airfield projects are funded only if they meet FAA guidelines and rank high on the national priority list. FAA Grant Funding is listed in revenues. Grant funded construction projects are started only after the grant funding has been approved.

In 2025-2026, the Airport Capital Improvement Program (ACIP) includes \$100k for closeout of east ramp & taxiway foxtrot pavement rehabilitation; \$8.88M for taxilane echo reconstruction phase II; \$26.97M for reconstruction of runway 16R-34L; \$695k to reconstruct central t-hangar taxilanes including the general aviation apron and taxiway delta, phase I. All projects listed are funded at 90% by FAA Grants with a 10% local match. In total, the airport is receiving approximately \$32.9M in grant funding for 2025-2026 budget.

Summary: LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification: The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. Change Request Summary

Department: 0021 - Airport
 Change Request: AUTO - 222 - Airport - Land Acquisition
 Change Request Type: CIP - Capital
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:02 PM (PDT)

Description: The airport is planning to bond and acquire the Air National Guard’s three properties in the Paine Field Business Park in 2026 at an estimated \$10M. The sale was approved by U.S. Congress in the Department of Defenses, National Defense Authorization Act for Fiscal Year 2024.

Summary: LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification: The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

Change Request Summary

Department: 0021 - Airport
 Change Request: AUTO - 224 - Airport - New FTE Requests
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:03 PM (PDT)

Paine Field Airport Enterprise Fund is a growing lucrative enterprise that requires special considerations to meet increased demand for commercial and other aeronautical services. The airport requires several new FTEs to meet the increased demand and responsibilities.

Description: The airport is requesting nine (9) FTEs in total for 2025-2026 budget. The FTEs requested are as follows:

1. One (1) Government Affairs Manager FTE to assist in new legislative funding in coordination with the Airport Director; and
2. One (1) Accounting Manager FTE to assist in replacement planning in CY2025 and assist in increased grant administration for CY2026 and thereafter; and
3. One (1) Airport Maintenance Technician III FTE for increased airfield maintenance duties; and
4. One (1) Facilities Technician IV FTE to assist with the new airport administration building's ongoing maintenance; and
5. One (1) Operations Supervisor for Federal Aviation Regulations, 14 CFR, Part 139, Index C going to twenty-four operations; and
6. Four (4) Fire Fighter FTEs in anticipation of the Federal Aviation Regulations, 14 CFR, Part 139, Index C requirements.

The four (4) Fire Fighters shall be reimbursed by the terminal if activated due to Index C requirements. All other remaining FTEs requested shall be funded by the Airport Enterprise Fund.

Summary: LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Publish Date Jul 09, 2024 08:08 PM (PDT)

Paine Field Airport Enterprise Fund is a growing lucrative enterprise that requires special considerations to remain competitive in today's work environment and retain talent. The airport has had difficulties in several positions obtaining the necessary talent at current salaries. The airport requires several reclasses to meet the continued on-going operations of the airport and to remain competitive.

Description
Airport FTE reclasses include:
1. AFSCME: Reclass the job title "Electrician-AIR" to move from PG241 to PG242. This is a union request and includes all FTEs in this job description.
2. AFSCME: Reclass on "Electrician-AIR" to an "Electrician Lead-AIR" at PG243.
3. AFSCME: Reclass the "Airport Maintenance Mechanic" to Airport Maintenance Mechanic Lead" from PG239 to a new paygrade that shall be dictated by AFSCME negotiations.
4. Non-represented: Reclass "Engineer I" to an "Engineer II" which is a natural progression due to his years of service.
5. Non-represented: Reclass "Accounting Technician II" to an "Accounting Specialist" from PG310 to PG312. The employees' duties have included more advanced accounting skills outside of their current job duties which warrants an upgrade to her current assigned duties.
6. Non-represented: Reclass all temporary upgrades to their permanent roles with respective individual titles. This is on-going but would like it notated that this leaves a reduction in salaries & benefits that needs to be accounted for in the budget.

Summary
All these have been in part factored into the airport's budget under "personnel cost contingency" DAC (410.5216801104). Please see the attached breakdown template for each individual position and PG.

Justification
LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:13 PM (PDT)

Description: In 2011, the Washington Department of Commerce offered a \$500k interest free Community Economic Revitalization Board (CERB) loan to the County for refurbishment of Building C-71 to expand operations of the Washington Aerospace Training and Research Center (WATR). Revenues from the lease with Edmonds Community College will be applied to fully repay the zero interest CERB loan. Edmonds Community College leased 8,966sf of Building C-71 and with this loan refurbished the space to support aerospace training in the region. This package adjusts and adds the revenues and expenses between 2027-2030.

Change Request Summary

Department: 0021 - Airport
 Change Request: AUTO - 494 - Airport - Fund 130 - SAF
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:21 PM (PDT)

In March 2022, Executive Dave Somers announced that Snohomish County is establishing a world-leading Research and Development (R&D) Center focused on Sustainable Aviation Fuels (SAF) at Paine Field Airport. The County is partnering with Washington State University (WSU) to create the world’s first SAF repository of this type for advancing sustainable aviation fuel technologies and serve the global need for reference samples to support research. The Center will also be the only facility to collect, sample, and distribute SAF at a scale needed for widespread use in the largest aircraft.

Description

As part of the 2023-2025 Transportation Budget, the Washington State Legislature allocated \$6.5 million to Snohomish County for a Research & Development Center for Sustainable Aviation Fuels (SAF) at Snohomish County’s Paine Field Airport.

Base expenditures are set to reflect the SAF R&D Temporary Site and Repository Business Plan. Expenditures include construction of a temporary facility, as well as hiring a project manager to manage funds, apply for grants and oversee project agreements. Expenditures also incorporate work supported by Washington State University, including operation of the temporary repository site for SAF storage, blending and testing. In addition, WSU will support management of intellectual property, proprietary information, and publication management.

This change request addresses the fund balancing.

 Change Request: AUTO - 54 - TRS Revenue adjustments
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: Expected change in Treasurer Department Revenues
 Summary:

Penalty and Interest is coming in higher than projected for 2024 so this line item is increased to \$3.6M for 2025 and 2026.

Investment interest is expected to increase in 2025 by \$1M to \$13.5M and then decrease in 2026 to \$11M. In 2025 the federal reserve is expected to drop short-term rates however we expect the County Pool interest rates to be higher in 2025. ARPA dollars in 2026 should be fully spent down so there will no longer be interest income from those invested funds and the federal reserve is expected to continue to lower interest rates in 2026 so earnings will be lower.

SCIP Investment Pool Fees are expected to increase to \$250K in 2025 and to \$260K in 2026 due to increased costs and increased salaries/benefits for the employees who manage the pool.

Justification: Investment Interest Banking is coming in higher than projected in 2024 so it has been increased to \$150K in 2025. For 2026 Investment Interest Banking is estimated to be \$105K due to expected drop in interest rates.

Investment Service fees are collected from participants that invest in the State Pool through the County Treasurer. We expect the fees to be similar in 2025 as in 2024, which is around \$85K-\$87K. In 2026 we expect those fees to drop to \$75K due to the lower interest rates.

I/F charges - SWM Fee Collection will increase \$14.5K in both 2025 and 2026 as the cost per parcel has increased to \$1.10 per parcel and the SWM parcel count is projected to increase to 171,000.

The I/F Labor - Proval/Ascend interfund transfer from the IT fund is reduced to zero as the remaining funds in IT for the Proval/Ascend project are going to be used for further system enhancements that will be paid out of the IT fund.

Fund 144 Tax Refund Fund has budgeted \$5K of fund balance to be available for court ordered refunds.

Staff Reclasses

Description
The Treasurer's office is requesting a range adjustment and title change reclass for 2 of the represented positions. These two reclass requests reflect not only the natural growth and change in scope of responsibility organic to the position but also the explicit expansion of responsibilities and duties for the position.

The Treasurer is also requesting a title change for 1 position with no salary change to bring consistency to the titles of 3 positions in the office that perform similar work. There will also be a slight modification to the job description to include work on LIDs and RIDs.

The Treasurer's office is also requesting a reclass for 1 unrepresented position to facilitate retention and future recruitment of a highly specialized position.

Summary
Accountant I to Senior Accountant (237 to 241) This position has performed the duties commensurate with a Senior Accountant for multiple years now. This position performs critical and extensive work with the general ledger, the subsidiary ledgers, and the verification and preparation of journal voucher entries. The Accountant I position prepares, converts, and transmits general ledger financial reports on behalf of all school districts in the county. The Accountant I position also tracks and reports on warrants redeemed, EFT's, ACH's, payroll, taxes, investments purchased, bond issuance expenditures, operating transfers, inter-funds and fees for 14 school districts. All of these tasks are essential to support the mission of the office and for the functioning of numerous other municipalities. The Position now routinely performs duties commensurate with a Senior Accountant (241).

Justification
Accounting Investment Technician to Investment Assistant (308 to 311) The reclass request aligns with the Segal study assessment of the tasks performed by an Investment Assistant. The Accounting Investment Technician position serves as the primary backup for the County's Investment Officer. This position also generates investment-related reports, performs required investment tracking, and reports to the State Auditor's Office. A staff member in this position is expected to track the Treasurer's cash, internal/external district liquidity, and balance the cash investments daily. This position ensures that wires for matured investments or new bond purchases are confirmed, received, or sent, and processed. Staff are expected to support the junior taxing districts by maintaining FAQ pages and distributing reports to inform the districts' decision-making. Costs will be partially offset through fees paid for county pool investment services.

Tax Collection Specialist (312) - title change only to Treasury Tax Specialist (312).

Non represented staff reclass
Investment Officer (249/5 to 115/8) This position will be reclassified from the classified manager position to a management-exempt position. The intent is to create a more competitive pay structure to facilitate retention and future recruitment. This position is highly specialized and is responsible for the millions of dollars of interest earnings each year that are brought into the general fund. Additionally, 76% of the costs for this position's salary and benefits are recouped by fees charged to the County pool participants as allowed by RCW.

 Description: Move Overtime budget to Postage budget

Summary:
 Justification: The cost of mailing statements has increased due to the increasing number of parcels each year that the Treasurer bills and collects for, as well as increases in postage costs. There are also unfunded mandates that require two notices be sent per year to all delinquent parcels. To better align the Treasurer's budget we will move \$25,000 of the OT line item to the Postage line item in the 2025 and 2026 budget.

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 243 - District Court HR Assistant: 1.0 FTE
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:03 PM (PDT)
Description	District Court requests funding for one FTE to provide court-wide Human Resources (HR) support to Snohomish County District Court Administration. This position will provide alignment between District Court and other County departments with the same or similar responsibilities.
Summary	

The District Court Administration is responsible for the operation of court initiatives and administrative functions, eliminating racial and gender bias in the court, attracting, and retaining knowledgeable and skilled staff, ensuring staff diversity, providing access to the courts for all persons, and implementing programs that meet the needs of the public. The District Court Assistant Administrator oversees daily court operations for four court locations as well as the finance department. This position mentors, supports, supervises, and directs five supervisors of court operations (Cascade, Everett, Evergreen, South and Finance) with over 55 staff members. The position description for District Court Assistant Administrator does not mention human resource management, but our Assistant Administrator is also the Human Resource Manager for District Court, providing HR support for approximately 85 staff, not including judicial officers.

The District Court Assistant Administrator’s role includes three key elements: Court Operations, Administrative Operations, and Human Resources. As the Human Resource Manager, the Assistant Administrator is the department’s HR and Union Liaison. They are responsible for all recruitment processes including NEOGOV applications, interviews, pre-hire coordination, hire offers and onboarding, as well as staff complaints, discipline, separations, staff training requirements, reclassification information, ADA, protected leave, and policy compliance. At a minimum, the Assistant Administrator spends above 50% of their time supporting HR services and recruitment efforts for all divisions, locations, and sub-units of District Court, resulting in less available time to focus on important court operational needs that support growth, technology, and essential services to the public. In the past two years, our Assistant Administrator also served as a project manager for our paperless project. There are far too many tasks for a single FTE to manage.

Justification

While our Accounting Specialist position was reclassified to an Administrative Specialist position in 2024, allowing for some HR responsibilities, the Administrative Specialist position is primarily an accounting position that handles payroll, accounts payable, vendor and staff communications, contracting, purchasing, and travel reimbursements. The position now assists with some HR documentation, but there is insufficient time to devote to HR duties. District Court needs a full-time HR Assistant.

The Superior Court Clerk’s Office and the Superior Court have a designated HR Manager or a dedicated Administrative Assistant to support recruitment and all HR-related services. Pierce County District Court, similar in size to Snohomish County District Court, has a dedicated Assistant to the Court Administrator responsible for Human Resources and a designated Court Operations Manager to oversee all non-judicial operations. District Court requests to add a full-time Human Resource Assistant position to support the Assistant Court Administrator in the clerical duties associated with human resources tasks. A dedicated HR Assistant will take on tasks including job postings and recruitment with an emphasis on diversity, equity, and inclusion, track protected leave information, coordinate and track required staff training, and respond to staff inquiries regarding eligible leave, policies, and HR-related procedures. The HR Assistant will be under the direction of the Assistant Court Administrator to carry out duties related to Human Resources needs and to assist with critical DEI initiatives that foster creativity, diversity, and an equitable and comfortable work environment for staff. The Snohomish County position that most closely aligns with District Court needs is the Human Resource Assistant, which is at pay grade 235 Classified Pay Plan. The funding required for 2025 and 2026 salary and benefits at pay grade 235, step 1 for this position is \$89,322 and \$89,615, respectively.

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 258 - District Court Underfunded Line Items
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:07 PM (PDT)
Description	District Court requests funding for technology equipment and supplies not covered in IT rates, for bilingual stipends paid to staff for translating for court users while not in court, for underfunded communication items including cell phone service and search warrant call service, and for underfunded interpreter expenses and interpreter mileage.
Summary	

Technology Supplies: In 2024, District Court requested separate line items for office supplies and for technology supplies. A new DAC, 002-5242403109, was created for technology supplies. Over the past four years, in response to the pandemic, and in an effort to evolve into a modern court, District Court significantly improved its technology with better cameras and microphones for virtual hearings, a document management system to go paperless, servers for electronic document storage, and new interpreter software, and scanners. While much of this new technology was funded through grants, District Court also funded much of this new technology through its budget and the Trial Court Improvement Account (TCIA). Post-pandemic grants are now few and far between, and the Court has expended approximately 52% of its TCIA balance in the past two years. In 2023, District Court expended approximately 118% in the office supplies and office equipment DAC which include tech supplies. In the first quarter of 2024, District Court has expended 106% in the office supplies, office equipment, and the new tech supplies DAC. 50% of this expenditure was for technology supplies which included monitors, docking stations, keyboards, wiring, etc. After removing the one time purchases in 2024, remaining technology supplies expenses average \$2,237 per month. The 2025 and 2026 proforma budgets allot \$61,833 for office supplies, \$2,422 for office equipment, and zero for tech supplies. Some office supply expenditures will decrease as we are using less paper, will be doing less copying, and will not be buying paper folders and labels. However, District Court's needs for technology supply expenditures will continue and will likely increase due to the addition of a new case management system in 2025 or 2026. District Court is not requesting a funding increase for office supplies and office equipment, but requests that the Executive and Council fund the technology supplies DAC with \$26,841 each year for 2025 and 2026, reflecting our current costs for unfunded technology supplies.

Bilingual Stipend: In 2023, AFCSME entered into an agreement with the County which allowed District Court to pay a monthly premium of \$50 per month to its bilingual staff who assist court users whose primary language is Spanish, outside of court proceedings. District Court adopted a bilingual fluency premium policy in 2023, which is not funded in the 2024 budget. At present, District Court pays \$300 per month to staff who have been determined to be eligible. Accordingly, District Court requests funding of \$3,600 per year for both 2025 and 2026.

Justification

Communications: Expenses for cell phone service and our search warrant call service have increased dramatically due to inflation. We experienced a 36% increase from 2022 to 2023, and we are expecting at least a 15% increase from 2023 to 2024. Our pro forma budget for the communications DAC is \$27,600 for 2025 and \$27,600 for 2026. We request an increase by \$18,934 for 2025 and by \$28,241 for 2026, representing a 20% increase over expected costs for 2024, and another 20% increase over expected costs for 2025.

Interpreters: The Court is requesting an increase of interpreter funding to insure equal access to the Court. District Court's actual expenses for interpreters in 2023 was \$372,104. Although we requested and received an increase in the 2024 budget, our 2024 budget is \$314,793, which represents a deficit of \$57,311. Interpreter expenses in the first four months of 2024 were \$122,010. Projected through December 31, 2024, we anticipate interpreter expenses to be \$366,031, which is \$51,238 over our 2024 budget. Accordingly, we request an increase in interpreter expenses of \$45,979 for 2025, and \$45,979 in 2026, as we anticipate continuing increased expenses. District Court receives partial reimbursement for interpreter costs from AOC which is paid into the general fund. We will continue to contract with AOC and comply with all requirements to receive the reimbursements.

Interpreter Mileage: Currently, District Court's interpreter payment policy indicates that we will pay one-way mileage only for in-person hearings. Since the Covid-19 pandemic, we have experienced difficulty getting interpreters to come to hearings in person. Some hearings require in-person interpreters. GR 11.3 indicates a preference for in-person interpretation. Interpreter jobs for in-person hearings are sometimes not filled, requiring that hearings be rescheduled. Interpreters do not get paid for their travel time to and from the court. District Court is requesting funding so that we can pay interpreters for round-trip mileage so that we can adequately compensate interpreters for their valuable and necessary service. In 2023, we paid approximately \$5,259 in one-way mileage expenses. We request an additional \$5,259 in interpreter funding for roundtrip mileage for both the 2025 and 2026 budgets.

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 259 - District Court Network Administrator: 1.0 FTE
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:07 PM (PDT)
Description	District Court requests funding for a permanent FTE Network Administrator.
Summary	

Over the past four years, the District Court has (1) equipped each courtroom with hardware and software to allow court users to appear remotely, and (2) transitioned from paper files to electronic files with a sophisticated (but labor-intensive) document management system. In the next two years, the court will (1) transition to electronic filing through a web portal and (2) replace our 1980's case management system. The new case management system will require significant and extensive work from our Network Administrators (NAs) who will assist in designing business processes that meet the needs of Snohomish County District Court and who will help implement the software and train users.

District Court's second NA was added during the pandemic and has been funded through ARPA, but that funding expires September 30, 2024. Prior to adding the second NA, our courtrooms had only rudimentary equipment for remote appearances and our files were paper. Each of our two NAs are currently assigned to two courthouse locations, and they share the assignment to the administration office which is off campus. They cover for each other when one is responding to an emergency request, is taking leave or is out due to medical or health issues.

Each NA's daily tasks include checking the network connections with the jail and rebooting devices so that they will perform properly for in-custody hearings, rebooting devices that feed into the courtrooms that provide for audio recordings, maintaining and coding the new document management system, addressing all incoming emails and phone calls requesting support and assistance, managing shared folders, user permissions, users' active roles, and responding to the IT service desk troubleshooting tickets. Currently, our network administrators service 80 scanners, 48 printers, 165 computers, 44 cameras, and approximately 44 microphones spread throughout 4 courthouses, 11 courtrooms, and an administration office which is off campus. They also service a recording system that is relatively new but has not functioned well from the beginning. We simply cannot operate effectively with one Network Administrator (NA).

Both NAs document system failures, make all necessary adjustments to equipment as requested by IT, participate in a constant stream of technology-related projects and provide support. One NA is the webmaster for the public website, while the other is the webmaster for District Court's SharePoint site. One NA maintains an inventory of District Court's computers and printers, and they both update and clean-up workstations on an ongoing basis. Both NAs visit their assigned courthouse locations as needed for hands-on repairs, installations, and removals.

The travel distance from Lynnwood (South Division) to Monroe (the Evergreen Division), to Arlington (the Cascade Division), to Everett (the Everett Division), and back to the South Division in Lynnwood is 87 miles. There are times when in-person repairs or assistance are needed in all four locations on the same day. While our NAs make every effort to handle troubleshooting remotely, there are many occasions when this cannot be accomplished. The in-person visits are limited to setting up and replacing equipment, and fixing equipment that cannot be done by walking a staff member through the process. Visits to two or three locations on one day is commonplace. One network administrator cannot cover this area and effectively provide service to five locations and over 90 employees in today's modern courthouse operation.

The Network Administrator in the current permanent position recognizes the dire need for a second administrator, at least until the time when all four District Court divisions and the administration office are co-located in one location. His letter supporting this request is attached. The cost of salary and benefits for this position in 2025 is \$108,501, and in 2026 is \$112,929.

Description	District Court requests funding to hire a full-time in-house Spanish court interpreter to provide equal access to justice through translation for those in need of such services.

Summary

The mission of Snohomish County District Court is to proudly serve our community with integrity and respect while delivering to all persons equal access to justice. One of the main components to effectively delivering equal access to justice to all persons is the ability to communicate. Whether it be over the phone or at the counter with a staff member, through a written document or in the courtroom with a judicial officer, if the communication breaks down or is not available there simply is no equal access to justice.

District Court is required by statute to use interpreters in all court proceedings for participants whose second language is English. Over 10% of our community in Snohomish County is Hispanic. Since the pandemic, it has become more and more challenging to secure the services of a court interpreter in general, Spanish in particular, to physically come to our courts and interpret for those in need of such services. English to Spanish and Spanish to English is the most common interpretation used in our courts. As a court we have been able to take advantage of Zoom virtual hearings to handle some of these matters as the interpreters have been more willing to book jobs that are virtual than those in person. Additionally, the pool of court certified Spanish court interpreters is clearly shrinking and there simply are not as many available as there once was.

Zoom, while extremely efficient for many matters that the court handles, is not acceptable for matters that require in-person interpretation. There is a strong preference for in-person interpretation. The communication is better, and it takes less time as simultaneous interpretation is used, as opposed to consecutive interpretation which must be used for virtual interpretation. Additionally, if the individual requiring interpretation is in court and the interpreter is virtual, private conversations with someone who is also in court is extremely challenging. If the individual requiring interpretation needs to see the front counter after court, it is also challenging.

Court hearings require timely notice to all. It is not unusual for parties to be present and ready to move forward, only to find that there is no interpreter signed up for the job. In 2023, there were 53 calendars that did not have an interpreter signed up to interpret. Hearings without interpreters result in rescheduled hearings. In addition to being costly, it is detrimental to a party to have a time-sensitive hearing delayed because the court cannot communicate with them. Delays deny equal access to justice and can pose safety risks to parties seeking help from the court, are not a good use of resources, and are not an efficient way to serve our community.

Justification

Hiring a full-time Spanish court interpreter as an employee would alleviate many of the aforementioned concerns. The District Court could schedule calendars with proper notice and be certain that an interpreter would be present. Further, the court would have access to interpreter services on a moment's notice for emergency hearings. Additionally, the in-house interpreter could provide services that are difficult to obtain with private interpreters, including translating forms, translating letters and requests from individuals, and assisting in probation meetings at the time needed.

District Court staff reviewed data regarding Spanish court interpreter appearances at District Court hearings. We tracked data from the middle month of each quarter (May 2023, August 2023, November 2023, and February 2024) over a one-year period to determine the annual and monthly average hours actually worked, and the interpreter expenses paid for interpretation and mileage. District Court contracts with interpreters, paying two and four-hour minimums to ensure availability throughout an entire calendar. Not surprisingly, hours paid exceed hours actually worked. During the one-year period we examined, estimated annual payments to Spanish interpreters was \$249,586, which included \$3,297 for mileage costs.

District Court's interpreter program supervisor carefully reviewed the data that was collected. She determined that a full-time in-house interpreter could handle all Spanish interpretation for our in-custody calendars that would otherwise cost an estimated \$45,480 annually and could interpret for

Change Request Summary

additional hearings that would otherwise cost an estimated \$64,297 annually, for total savings of \$109,777. After subtracting \$11,416.86 to account for the employee's 26 days of leave during which it would be necessary to hire private interpreters, the total cost savings was \$98,360.

Pierce County District Court has an in-house Spanish interpreter. At step one, this position pays \$81,993.60 annually. Adjusted for the cost of living in Snohomish County, the position would pay \$87,943 annually at step one, which aligns with pay grade 243. Salary and benefits for a position at pay grade 243, step one, are \$122,477. The cost savings of \$98,360 for an in-house interpreter, detailed above, is 80% of the in-house interpreter's salary and benefits. While the savings do not completely pay for the position, it is close. A court interpreter plays an important but invisible role in delivering equal access to justice to limited English-speaking populations. It becomes quite visible and halts such access when one is necessary but not available. Having an in-house interpreter available for hearings that would otherwise need to be rescheduled delivers that necessary access to justice.

District Court requests funding in the amount of \$122,477 for an in-house interpreter, with a reduction of \$98,360 in interpreter funding, which equates to 80% of the interpreter's salary and benefits.

Backup data attached.

Description	District Court requests co-locating the four court division courthouses and the administration office of the Snohomish County District Court at one location in one courthouse.

Summary

In late 2022, the District Court and the Executive’s Office discussed the possibly of co-locating the four court division courthouses and the administration office of the Snohomish County District Court at one location in one courthouse. The Executive’s Office proposed a co-location inside or adjacent to the existing Denney Juvenile Justice Center in Everett. Given the severe facility deficiencies of the existing District Court facilities and inefficiencies of operating out of five different locations, the District Court voted to support this project and worked with the Executive’s office which hired KMD to conduct a feasibility study to examine various options for consolidation. After several meetings and much discussion and deliberation, KMD issued the attached Feasibility Report.

Justification

The distribution of court services across five very outdated locations has resulted in inefficient space utilization and staffing and hampered judicial interaction. The outlying divisions do not meet current fire code requirements, current ADA requirements, or electrical/technical needs of the court. The buildings are no longer safe for staff or the public. A consolidated facility would greatly increase judicial efficiency and environmental efficiency while eliminating the need to do millions of dollars of deferred maintenance on the existing facilities. Supervision of staff and judicial caseloads could be spread evenly resulting in prompt and improved services to the public. In addition, a single co-location of services would allow the court to offer more work flexibility to employees in hopes of attracting and retaining qualified staff.

The District Court Judges unanimously voted to support a co-location of all Snohomish County District Court courthouses and the administration office with the understanding that District Court would not lose square footage or have a staff reduction. The Judges selected option 1, with all courtrooms and all judicial officers and staff located in the same building. The cost of this option with 63,256 square feet is \$103,368,339.

Department	0024 - District Court
Change Request	AUTO - 353 - Therapeutic Court: FTE Increase
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:14 PM (PDT)
Description	District Court requests funding to increase the Mental Health Court Program Supervisor and the Legal Processing Assistant II (LPA II) from 0.5 FTE to 1.0 FTE and fund a 1.0 FTE Therapeutic Court Case Manager position. This increase will support the court in providing complete and comprehensive services to participants.
Summary	

Change Request Summary

Mental Health Court (MHC) has been operating within the Fund 124 Program 550 Mental Health and Community Court budget, with a focus on best practices and wrap around services. Despite our attempts at reallocating job duties with our staff, we did not have adequate staffing to fulfill our mission and our legal partners hesitated to refer potential participants.

In Spring of 2022, we applied for and received a grant from the Administrative Office of the Courts (AOC). The grant paid for an additional 0.5 FTE positions for our Mental Health Court Program Supervisor and Legal Processing Assistant II positions and a 1.0 FTE Therapeutic Court Case Manager position. We received the grant in July of 2022, and it ended in June of 2023. With the extra availability of staff and the new case manager position, our legal partners took notice. We applied for and were awarded an AOC grant in July of 2023 that is active until June of 2024. We have applied for the same grant this spring that would run from July of 2024 to June of 2025. We should learn of our status towards the end of June 2024.

With the increase in staff availability and size, we saw an increase in referrals to our court. From January through May 2022, MHC had five (5) active participants. From January through May of 2024, we had seventeen (17) active participants. This increase reflects our legal partners' confidence in the program as a result of the increase in staffing.

Based on our new staffing level, we expanded our court tracks to serve not only high risk/high needs individuals, but also individuals with cognitive impairment impacted by mental health issues which is currently an underserved population. The population includes those with intellectual disabilities and brain injuries who typically have not been eligible for MHC. We have built collaborative relationships with area treatment and resource providers which greatly reduce roadblocks our participants face in obtaining help and services. We have partnered with Superior Court and the Center for Justice Innovation in building a sequential intercept map in an effort to provide services to individuals in a timely manner. Our court has been researched and studied most recently by AOC and has been deemed to be in good standing with national best practices.

Since 2018, participants who graduated from the program did so with no new criminal charges within the twenty-four months after graduation. Of the individuals who failed to complete the program, twenty-five percent (25%) had new criminal charges within the first twenty-four months of their departure from MHC. Conversely, of the individuals who were not referred to the program, or were found not eligible, thirty percent (30%) had new criminal charges within the first twenty-four months of their initial charge. The message is clear – participation in Mental Health Court, even without successful completion, leads to improved outcomes and reduced recidivism.

Sufficient staffing keeps MHC participants engaged and removes roadblocks to success. Engagement increases the likelihood that a participant will stay in the program and graduate, which in turn greatly reduces recidivism. Accordingly, District Court requests funding to increase the permanent 0.5 FTE Program Supervisor and the permanent 0.5 FTE Legal Processing Assistant II to permanent 1.0 FTE positions and to fund a permanent 1.0 FTE case manager position. We would like to continue to provide our current level of service and request funding to support ER&R for transportation of participants by our Case Manager and cell phones for our Program Supervisor, LPA II, Specialty Court Officer and Case Manager to enable timely and productive communication with participants. The total cost of this package is \$222,802 for 2025 and \$229,227 for 2026.

Department: 0024 - District Court
 Change Request: AUTO - 442 - District Court Erosion Evaluation - Cascade Division
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:19 PM (PDT)
 Description: Safety & integrity evaluation of the hillside erosion at District Court Cascade Division.
 Summary:

Justification: The Snohomish County District Court, Cascade Division, is located on the edge of a bank several feet above the Stillaguamish River. In 2015, the MENG analysis noted that the chain link fence separating the area immediately behind the courthouse and the edge of the bank, was bent and damaged due to hillside erosion. In the subsequent nine years, that fence continues to bend further and the sidewalks behind the building are cracking with the erosion of the bank. A current photograph is attached. We have also experienced record setting floods in this area within the past year, requiring Cascade staff to leave early so they could cross bridges and arrive home safely. The Cascade Division courthouse is located only 12 miles from Oso, Washington, the site of one of the deadliest mudslides in US history, in 2014. The Oso landslide was caused by heavy rainfall and soil porosity that loosened up the hillside above the North Fork Stillaguamish River, the same river running behind and below the Cascade Division. The District Court is requesting the evaluation of this site by a geotechnical engineer to determine if it is in a landslide hazard zone as defined by SCC 30.91L.040, and to determine what steps can be taken to ensure the safety and structural integrity of this facility. Facilities has estimated the cost to be \$585,000.

Department 0024 - District Court
 Change Request AUTO - 443 - District Court Workstation Changes
 Change Request Type Standard Change Package
 Change Request Status Department Submitted
 Publish Date Jul 09, 2024 08:19 PM (PDT)
 Description District Court requests additional funding for Courthouse workstation changes.
 Summary

In our 2022 budget requests, District Court requested \$1,330,668 to carpet and refurbish staff clerical areas at the South Division, the Evergreen Division, and the Cascade Division, and to renovate five unsafe in-court clerk workstations. The Facilities estimate prepared for the Executive budget team was \$1,050,000 to \$1,125,000. District Court received \$1,000,000 non-departmental funds for this project.

District Court and Facilities worked with an architect to obtain multiple designs for newer, safer in-court workstations in the five courtrooms. In 2023, the clerk’s workstation at the South Division, Department 1, was remodeled and plans for carpeting and refurbishing the main clerical area were drafted. In 2024, the South Division work in the main clerical area began with removing high-density shelving which had been used for paper files but was no longer in use as District Court has gone paperless. Asbestos was discovered under the carpet and the County paid for the abatement. The total project cost, excluding asbestos abatement, for the South Division is anticipated to be \$323,607, based on estimates provided by Facilities, with approximately \$300,000 for the clerical area and \$23,607 for the in-court clerk workstation modification. This leaves \$676,393 for four in-court clerk workstation revisions and carpeting and refurbishing the Evergreen and Cascade division clerical areas.

Justification Due to the record escalation of costs in the construction industry since 2021, the cost of labor, supplies, and material has increased dramatically. Facilities has advised there is insufficient funding remaining from the \$1 million fund to pay for all improvements identified in our 2022 budget request, so we have removed items that are not high priority, and are focusing on in-court clerk workstations, high-density shelving removal, carpeting, and refurbishing clerical areas.

Currently, District Court’s highest priority with the remaining funds is modifying the four in-court clerk workstations at Evergreen and Cascade as there are safety issues involved. Courthouses are by their very nature places of conflict. Litigants are often facing very difficult and stressful situations. Recent events both locally and nationally have highlighted the need for strong courthouse safety. The current design of the four in-court workstations at both Cascade and Evergreen do not allow clerks a quick and safe exit route should events require such an exit. This puts them in undue danger in the event of a security issue.

The modification to the in-court workstation at the South Division was relatively simple. However, at Cascade and Evergreen, permits will need to be obtained and ADA adjustments may need to be made due to new construction. Based on the drawings for the in-court workstations, and the need for further modifications by the architect, District Court believes the four in-court clerk workstations at Evergreen and Cascade will cost, on average, a minimum of \$100,000 each, or \$400,000. High-density shelving removal, new carpeting and refurbishing clerical areas for Evergreen and Cascade were considered in the 2022 budget and funded with \$1,000,000. However, that funding is no longer sufficient to cover all costs. Shelving removal, refurbishing, and carpeting the clerical areas will cost \$300,000 for the Evergreen Division and \$300,000 for the Cascade Division. Accordingly, District Court requests funding of \$323,607, the expenses that exceed the 2022 funding.

Department	0024 - District Court
Change Request	AUTO - 451 - District Court Major Improvements
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:19 PM (PDT)
Description	District Court requests major improvements to the three outlying District Court courthouses including the Cascade Division in Arlington, the Evergreen Division in Monroe, and the South Division in Lynnwood.
Summary	

In 2015, Snohomish County commissioned a facilities analysis (the MENG Analysis) to evaluate all Snohomish County facilities, including the three outlying District Court courthouses. The Facility Summary reports, written nine years ago, noted that the MEP (mechanical, electrical and plumbing) systems in the three facilities were “at the end of life, inefficient, with minimal comfort.” In addition, it noted that the fixtures throughout the buildings, while functional, were severely outdated back in 2015. It was noted that MAJOR renovations should be done to upgrade those facilities and to bring them up to code. Except for patchwork repairs, here and there, no such upgrades have occurred in the subsequent nine years since the writing of the reports. The time is now to heed that advice and to complete major renovations to these facilities in order to provide safe, comfortable and efficient buildings for our staff and the communities that we serve.

As noted, all major systems (mechanical, electrical and plumbing) were near end of life in 2015. The HVAC systems needed to be replaced to provide for efficient heating, cooling and air filtering. The electrical systems were insufficient to support expanding technologies and safe use of appliances. The plumbing was nearing end of life. It is time to stop deferring this maintenance that was needed nearly a decade ago.

In addition to the systems that need to be replaced and modernized, there needs to be substantial investments in security upgrades. The MENG analysis suggests upgraded windows and closed circuit security monitors and security systems. In addition, as noted in the reports and as the court has pointed out for the past few years, the fire systems are severely outdated, do not meet current code requirements and lack any form of sprinkler system. All of these issues need to be addressed to improve safety in these high traffic facilities.

Finally, the interiors and fixtures were noted to be outdated in 2015 and they have not aged well in the additional nine years since the reports. The buildings are dingy, the lighting is poor and the fixtures have not been replaced since the buildings were built in the 1970’s. Each of these buildings need complete interior remodels including updated bathrooms and kitchens, updated courtrooms that are ADA compliant, and modernized lobbies. For many people, the District Court is one of their only physical contacts with county government. The public deserves to go into clean, reasonably modern buildings to address their disputes.

Costs for major improvements that were necessary in 2015 were included in the Meng Analysis reports, which are attached. In the ensuing nine years, other major improvements reached the point of requiring attention and action as well.

District Court reached out to Snohomish County Facilities and Fleet (Facilities) for assistance in estimating the current costs of all major improvements needed. Facilities used a 10% per year cost escalation factor for costs set forth in the Meng Analysis’. JaNae Nelson, Director, responded to some of the requests, and Lynn Gray, Facilities Project Leader, responded to other requests. Costs are set forth on the attached spreadsheet, and are color coded based on who provided the information. Expenses for many needed improvements were not available at the time this request was published. The spreadsheet shows itemized costs of \$32,892,524 for major improvements, which District Court believes is far below the actual funding needed to bring the three courthouses up to code, with safe, modern and ADA-compliant furnishings and equipment.

Change Request Summary

Department 0024 - District Court
Change Request AUTO - 455 - District Court Reclassification of Assistant Administrator and Probation & Community Programs Mgr
Change Request Type Position Adjustments
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:20 PM (PDT)
Description District Court requests funding to align management positions with Superior Court positions with the same responsibilities.
Summary

Justification: Assistant Administrator: District Court's Assistant Court Administrator oversees day-to-day court operations, supervises five supervisors of five divisions (Cascade, Everett, Evergreen, South and Finance) with 55 staff, and serves as District Court's Human Resources Manager. Their position is management exempt, pay grade 110. The five supervisors that they supervise are management exempt, pay grade 109, only one pay grade below them. Superior Court has two Assistant Court Administrators, one for Juvenile Court operations and one for Superior Court operations. Both Superior Court positions are pay grade 112, two pay grades above the District Court position. The position description for the District Court Assistant Administrator and the Superior Court counterpart, the Assistant Administrator for Superior Court Operations, are nearly identical. The position description for District Court does not mention human resources management, but our Assistant Court Administrator is also our HR Manager, and they do not have an HR assistant. The District Court Administrator position should be reclassified to pay grade 112. Our Assistant Court Administrator is currently pay grade 110, step 15, and would advance to pay grade 112, step 10 if this request is granted. The increased cost in the 2025 budget would be about \$11,913 and the increased cost in the 2026 budget would be about \$14,662. District Court further notes that this request closely aligns with the Segal Compensation Study report which determined the pay for this position, in early 2023, should be pay grade G19, \$99,243 to 132,995. Under any circumstances, including reclassifications related to the Segal Study, the District Court Assistant Administrator position should not be paid less than the Superior Court Assistant Administrator position.

Justification

Probation and Community Programs Manager: Our Probation and Community Programs Manager supervises seven Probation Officers including one lead, two Community Program Coordinators, one Electronic Monitoring Coordinator, and a Mental Health Court Supervisor who supervises the Mental Health Court staff. The Probation and Community Programs Manager not only supervises these positions, but they manage all Probation Department programs and courses and our therapeutic Mental Health Court. Although they supervise, they also manage programs with all of the accompanying responsibilities of program management. Our Probation Department has been incredibly successful under their leadership; earning a statewide award from the Washington State Misdemeanor Probation Association in 2021 for Probation Supervisor of the Year, and two statewide awards in 2022 for Excellence in Action, and Program of the Year for our relicensing program. The position is management exempt, pay grade 109. The position is at the same pay grade as our division supervisors, who supervise staff but do not manage programs. Further, although the Mental Health Court Supervisor is not an exempt employee, their pay range is very similar to the Probation and Community Programs Manager who supervises them. The Superior Court counterpart for this position is the Superior Court Programs Administrator for Specialized Courts, which is management exempt pay grade 110. The District Court Probation and Community Programs Manager performs the same duties as set forth in the position description for the Superior Court Programs Administrator for Specialized Courts, specifically including participating in the development of the budget for probation, community programs, and therapeutic courts, making recommendations for probation, community programs, and therapeutic court expenditures, preparing grant applications, coordinating services with other departments and outside agencies, serving as a member of the District Court management team, and performing duties for the Assistant Court Administrator in their absence. The District Court Probation and Community Programs Manager position should be reclassified to pay grade 110. The incumbent is currently pay grade 109, step 15, and would advance to pay grade 110, step 14 if this request is granted. The increased cost in the 2025 budget would be about \$11,035 and the increased cost in the 2026 budget would be about \$13,581. District Court further notes that the salary range associated with this request is significantly less than the salary range proposed by the Segal Compensation Study report which determined the salary range for this position, in early 2023, should be pay grade G22, \$129,586 to \$173,658. Under any circumstances, including reclassifications under the Segal Study, the District Court Probation and Community Programs Manager should not be paid less than the Superior Court Programs Administrator for Specialized Courts.

Change Request Summary

Department: 0024 - District Court
 Change Request: AUTO - 490 - District Court Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:20 PM (PDT)
 Description: District Court Resource Alignment
 Summary:

County departments and courts have been asked to prepare a plan in anticipation of a 3% reduction in their 2025-2026 general fund budgets in the event that such a reduction is necessary. Snohomish County District Court understands that the 3% reduction will appear as a budget line item in both the Court and Probation general fund budgets.

District Court reviews the Court and Probation budgets on a monthly basis, after the 10th of the month. The Administrative Analyst updates a very comprehensive spreadsheet, and both the Administrative Analyst and the Court Administrator review the completed spreadsheet, look for anomalies, and determine whether District Court is within budget, year to date. The spreadsheet is also presented to the bench at their monthly meeting for review. Discussions are held regarding expenditures. Following this process every month helps us to stay within budget, and we control expenditures as needed. We will continue to use this process. As the 3% reduction will be built into our spreadsheet, we will closely monitor the status of our budgets every month.

Justification

Salary and benefits are District Court’s largest budget items. We cannot intentionally delay hiring to fill vacant positions, as District Court is already a very lean entity. We will have some cost savings due to the inability to immediately fill positions, but it will not come close to reducing our budget by 3%. Further, our staff make it possible for the public we serve to come into court to have their issues addressed. The same staff also receive and receipt the fees and fines which provide revenue to the County. We will also closely watch training, travel, and lodging. However, eliminating our training and travel will also not come close to reducing our budget by 3%. Further, much of our training for Probation Officers and Program Coordinators is mandatory. Without the required training, these staff would not be able to see clients or teach classes, all of which bring in revenue.

District Court respectfully requests relief from the 3% budget reduction for District Court in the amount of \$365,126 and from the 3% budget reduction for District Court Probation in the amount of \$80,198 for both 2025 and 2026.

 Description: District Court requests allocation of expenses between the District Court budget and the District Court Probation budget.
 Summary:

For purpose of proper record-keeping and documentation, District Court requests allocation of expenses between the District Court budget and the District Court Probation budget. The following administrative expenses are overhead costs. These expenses will be split between District Court and District Court Probation based on their proportionate share of FTEs. Seventy-nine percent will be expensed to District Court, and twenty-one percent will be expensed to District Court Probation.

Justification: Salary and benefits for the following positions:
 Court Administrator
 Assistant Administrator
 Administrative Analyst
 Administrative Specialist - Accounting
 Administrative Specialist – Public Records
 Network Administrator

Change Request Summary

Department	0030 - Sheriff
Change Request	AUTO - 125 - SCSO_LE_X-Ray Machine Repair & Maintenance
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:50 PM (PDT)
Description	We are requesting \$76,000.00 in the Campus Security repair and maintenance budget for planned replacement and other scheduled service costs for courthouse x-ray machines. The Campus Security budget previously included funds for this purpose, however, those funds were eliminated in 2022.
Summary	<p>The Campus Security budget covers the purchase and maintenance of the x-ray machines used in the main courthouse, jail lobby, DJJC and South District Court. There are a total of six machines. Each machine requires a yearly service which costs approximately \$750.00.</p> <p>Like other technology, x-ray machines experience normal wear and tear which may require us to take them offline to be refurbished. The manufacturer and vendor recommend they be refurbished every 7 to 10 years. This costs approximately \$16,000.00 per machine. All of our x-ray machines have been placed on a service, refurbish and replacement schedule based on the manufacturer and vendor recommendations.</p>
Justification	<p>During this budget cycle, we need to have two x-ray machines refurbished and one x-ray machine replaced. A replacement unit costs approximately \$35,000.00. These services are necessary for continued operation and security of our court facilities in accordance with RCW 9.41.300.</p> <p>Properly funding this repair and maintenance account will ensure the Sheriff's Office can provide uninterrupted security operations at each of the facilities.</p>

Publish Date	Jul 09, 2024 07:50 PM (PDT)
Description	The Point Blank body armor worn by our commissioned law enforcement staff comes with a manufacturer ballistic performance warranty of five years from the date of issue to the individual user. The Quartermaster has identified 127 Sheriff's Office law enforcement staff whose body armor will expire out of warranty during 2025 and 2026.
Summary	
Justification	<p>The National Institute of Justice has identified body armor vests as one of the most important pieces of safety equipment used by law enforcement. Wearing body armor can save a deputy from assaults with and without weapons, and even in vehicular accidents. Sheriff's Office policy require all personnel engaged in law enforcement duties while wearing the Office uniform to wear body armor issued by the Office. Additionally, the policy requires body armor to be to be replaced in accordance with the manufacture's recommended replacement schedule. The current vendor requires soft body armor to be replaced every five years. The average cost of new body armor is \$1,000.</p> <p>The Sheriff's Office has identified 29 body armor vests that will need to be replaced in 2025 and another 98 body armor vest to be replaced in 2026. Additionally, the Sheriff's Office is actively hiring to fill 26 vacant (April 2024 numbers) Deputy Sheriff vacancies. Including those vacancies for the 2025 / 2026 budget cycle brings the total number of body armor vests to 153.</p>

Department: 0030 - Sheriff
 Change Request: AUTO - 128 - SCSO_LE_Precinct Radio Project
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)

Description: In 2025 SNO911, which manages the Sheriff's Office radio system, will be completing a radio upgrade project which will cause the remote radio handsets in our precincts to become obsolete. To correct this issue \$100,000 is needed.

Summary: In 2025 SNO911 will complete the current radio upgrade project, switching our current radio system from an analog technology to a digital technology. Much of this upgrade does not affect SCSO budget due to the project being funded through a voter approved initiative. However, the radio upgrade project does not cover "peripheral equipment", which SNO911 has identified our current desktop remote handsets as meeting that definition.

Justification: Each of the Sheriff's Office Precincts are equipped with a single dedicated emergency radio to allow for communication between field personnel, office personnel, and SNO911. Each precinct is equipped with one or more desktop remote handset which allows for remote control and monitoring of the precinct radio throughout the building. Often times patrol is operating on two separate radio frequencies throughout the day and this equipment allows for the precinct staff, patrol sergeants, detectives, and precinct commander to adequately monitor and communicate with field personnel enhancing safety for our staff and community.

The initial quote for just the equipment is approximately \$66,000 and does not account for installation costs. Installation costs are estimated to be around \$34,000.

Description	The Snohomish County Sheriff's Office, Small Unmanned Aerial Systems (sUAS) currently lacks the basic funding needed to successfully maintain a sUAS Unit. We have aging equipment that lacks the thermal and weather proofing capabilities that are needed for successful sUAS operations in Snohomish County and in the PNW Climate.
Summary	
Justification	<p>The majority of the equipment (9 sUAS) was purchased in 2019, before the inception of a sUAS Unit and Policy. The bulk of sUAS equipment is now obsolete. It is no longer being manufactured nor supported by the manufacture. It lacks the crucial thermal technology and weather proofing needed for successful operations. Last year, the sUAS Unit deployed on 208 calls for service and located 21 different individuals. With the updated equipment we aim at enhancing those numbers while increasing public safety and officer safety. Additionally, the upgrade promises increased operational efficiency by providing real-time data, thus enhancing decision-making and outcomes in various critical law enforcement scenarios like, K9 contacts, officer-involved shootings and high-speed chases. Which should result in, a decrease of civil litigations on calls that the sUAS unit is deployed on.</p> <p>By adding a line item budget for the sUAS Unit, it would allow us to continue to grow the unit by replacing the aging equipment at a 3-4 year life cycle. The plan includes acquiring 2-3 outdoor thermal and weather rated drones annually until the outdated equipment is replaced. The funding would also allow to pay for FAA Registrations/Certifications, equipment supplemental damage insurance, and keep up with general maintenance.</p>

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 132 - SCSO_LE_Helicopter Fuel & Regular Maintenance
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)

Description: The Sheriff's Office Air Support Unit provides aerial support services for law enforcement and search and rescue operations. The unit is currently staffed with two commissioned pilots and five volunteer pilots. Current funding for aviation fuel limits annual flight time to approximately 200 hours. This package is a request for \$200,000 in the Sheriff's Office 2025-2026 Law Enforcement general fund budget to replace Title III Federal Funds and maintain our Air Operations program at current service levels.

Summary: Due to the high risk nature of helicopter operations, specifically high altitude wilderness rescue missions, training our pilots is an absolute necessity. Last year we saw an 88% increase in helicopter rescue missions. These missions include recovering subjects with life threatening injuries throughout the Cascade Mountain Range. Helicopter operations occurring in mountain terrain, at high altitude, requires expert level skills from our pilots. Those skills can only be acquired through regular training. Fuel costs continue to rise while our budget over the past few years has not. We estimate that we require a operating budget of \$260,000 annually. We are using fund balance in F141 under a separate package in the amount of \$60,000, leaving \$200,000 to be funded by the general fund.

Justification: SCSO reduces the cost of operations by using trained volunteer aircrew members on a regular basis. The Chief Pilot is a FAA certified Flight Instructor (CFI) and FAA Night Vision Goggle CFI. These qualifications allow SCSO to conduct nearly all training in-house at no added expense to the county.

The Snohomish County Sheriff's Office is in critical need of replacing the 450 department issued .40 caliber handguns as they are currently in year six of the five-year manufacturer recommended life span for a law enforcement firearm. Maintenance records from our factory trained armorers indicate the current handguns are starting to require more maintenance due to failing parts. The wear on the firearms presents a reliability issue if not properly maintained.

Description The handguns used by the Sheriff's Office are on a five-year replacement cycle due to several factors:

- Number of rounds fired through the firearm annually causes significant wear of the fire control group (trigger, firing pin, sear).
- Exposure to extreme temperatures and weather which can lead to rust and corrosion.
- Replacement of internal and external parts.
- Lack of availability of manufacturer parts.
- Newer and safer models of firearm.

Summary

Change Request Summary

The firearm industry is constantly looking for ways to improve the function and safety of their products, especially for law enforcement. Ammunition companies are also looking for new and innovative ways to improve ballistics for the ammunition carried by law enforcement. The duty-issued handgun is designed as the primary weapon for the Snohomish County Sheriff's Office, and is the last line of defense for lethal situations where no reasonable alternative appears to exist. It is imperative that the handgun carried by law enforcement be reliable and of a reputable brand, comfortable to carry, easy to manipulate, have a striker-fired mechanism, and have parts and resources available for repair and maintenance.

The Sheriff's Office range master has conducted testing of different handguns over the last year regarding the appropriate and practical replacement of duty issued handguns and ammunition for the Snohomish County Sheriff's Office. Results showed we are in need of changing to a newer handgun platform and to a new caliber of 9mm with a red dot sight (RDS). Over the past twenty years, law enforcement has been slowly transitioning to the 9mm platform with an electronic red dot sight (RDS). Law enforcement agencies across the nation are issuing handguns chambered in 9mm along with RDS. The most significant benefits to this transition are increased accuracy and shooter confidence. The Snohomish County Sheriff's Office currently issues the .40 caliber handguns. Some issues with the .40 caliber round are:

Justification

- The .40 is considered a "magnum" caliber, and is not easy for everyone to shoot due to the intense recoil.
- Qualification scores are not consistent and even result in failures due to the recoil and anticipation.
- The .40 caliber bullet is less-produced, more expensive, and has weaker ballistics than the 9mm.
- 10% less bullets can be carried in the magazines than the 9mm.

The Red Dot Sight (RDS) is now the industry standard for issue for most law enforcement agencies. Most law enforcement agencies in Snohomish County are issuing a duty handguns in 9mm equipped with RDS. This platform is showing improved shooting accuracy scores, greater reliability and accountability. Improved accuracy is safer for the community.

Snohomish County Sheriff's Office is seeking to replace 450 handguns and holsters. Smith and Wesson offers an M&P 2.0, Metal Frame, Optic-Ready handgun. In an effort to determine an approximate cost, the trade of the existing handguns for the new handguns would result in a \$85,560.00 credit towards the purchase of the new needed handguns. Smith and Wesson is offering \$186.00 for each used gun which is better than their current market value since there is less demand for a .40 caliber handgun anymore. We would get roughly a \$50.00 per gun reduction in price for the new handguns, a \$100.00 reduction in price for each new Swampfox Justice Optic, and a \$100.00 reduction in price for each new RDS ready Safariland model 6360RDS duty holster.

 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)

Description: This is a partner package with IT: Placeholder package for funding to add the Axon Investigate module to our Axon software contract. At inception of our contract with Axon, they provided our office with a demonstration version of their third party video support feature. Currently, our employees are using the feature extensively, and third party video support has proven to be an invaluable investigative tool in a world that is ever increasing use of digital media. The video support feature offered by AXON has proven to be a critical investigative tool and now that the demonstration period is ending, our office is seeking funding to continue using this time-saving tool.

Summary: Axon documentation states that more than 80% of investigations involve video evidence. When investigators encounter video evidence with proprietary video formats like .DAV, .IRF, .EXE, .SSF and others, they are left to search for an on-line conversion tool to view the evidence. Improper playback software can alter video evidence and impede investigations. Axon third party video support secures the forensic integrity of each video clip, ensuring media integrity. Axon third party video support dramatically improves the video investigation process, saving officers up to 10 hours per week (an estimate from Axon) searching for conversion tools by providing simple, fast and repeatable workflows. Axon third party video support allows users to review footage from thousands of third-party proprietary video formats and provides immediate access to original metadata including date, time, image numbers, etc. Third party video support allows users to manage and organize hundreds of video sources into one project and create court-ready media. Simply stated, user are assured that media evidence decoded within Axon Evidence.com has not been altered and can withstand the rigorous standards required by the legal system. This may not be the case if investigators must locate conversion tools from the open internet.

Justification: Axon now bundles their third party video support with their video editing software and call the bundle Axon Investigate.

Department: 0030 - Sheriff
 Change Request: AUTO - 151 - SCSO_LE_Ammunition Inventory & Caliber Upgrade
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)

Description
 The Snohomish County Sheriff's Office has a low supply of ammunition for duty issue and training. The agency firearms training encompasses several Departments of the county to include Law Enforcement, Corrections, Animal Control and the Fire Marshal's Office. The combined total of all county personnel trained in the SCSO range annually is roughly 420. The ammunition used by each employee, both rifle and handgun, is about 500 rounds per year for a total annual ammunition need of about 210,000 rounds. This does not account for the thousands of bullets fired by the SWAT team annually for training. Over the next year, the Snohomish County Sheriff's Office will be changing handgun calibers from .40 caliber to 9mm, and there will be a transition period where training will need be required for the new red dot optics on the 9mm handgun. This transition training will require 216,000 rounds of practice ammunition and 60,000 rounds of duty ammunition. There is also a need for 100,000 rounds of 5.56 (.223) caliber rifle training and duty ammunition for the Sheriff's Office. Supply is hard to acquire due to the demand for the 5.56 caliber world-wide, so the more we can keep on hand the better it will be for the agency.

Summary
 The annual average ammunition used by each employee issued a handgun and/or rifle is roughly 500 rounds. The cost of ammunition is significant and continues to rise annually. Switching from the .40 caliber handgun round to the 9mm handgun round will be a significant reduction in cost (approximately 19% less).

Justification
 The Snohomish County Sheriff's Office is progressively trying to change handgun calibers to the profession standard of 9mm with a red dot optic. The new optic is becoming the standard issued equipment for law enforcement to improve accuracy and round accountability. There is a two-day, 600 round mandatory training course that must be completed by each employee before carrying the red dot handgun platform. The need for a minimum 216,000 rounds for this training is imperative to make sure the best possible training is being conducted. In conjunction with the 9mm training, the Sheriff's Office will also need 60,000 rounds of 9mm duty ammunition and an additional 40,000 rounds of practice ammunition for routine training throughout the year.

There is also a need for 5.56 (.223) caliber training and duty ammunition for the patrol rifle. The Snohomish County Sheriff's Office firearms training incorporates handgun and rifle into every range session with the focus being on familiarity, confidence in use, and transitioning from handgun to rifle, and rifle to handgun. There is a significant volume of rifle ammunition used for trainings and optic zeroing which is why the Sheriff's Office needs to maintain a stock of this ammunition which is becoming harder to obtain due to world-wide demand and slow production rates.

The firearms training for the Snohomish County Sheriff's Office is conducted every other month for the safety and protection of the law enforcement personnel and the community.

Department: 0030 - Sheriff
 Change Request: AUTO - 152 - SCSO_LE_Tire Deflation Devices - Replenish Reserve Inventory
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)

Description
 Tire Deflation Devices - Replenish reserve inventory due to the growth of our agency and the replacement of tire deflation devices used during vehicle pursuits, the Snohomish County Sheriff's Office (SCSO) has completely depleted the extra Stop Sticks and Piranha Tire Deflation Devices (TDD) we had in stock. The SCSO has approximately 330 commissioned personnel who all have a possibility of responding to, or intervening in, a pursuit. Out of the 330 commissioned personnel, approximately 236 are driving a marked patrol vehicle. Commissioned personnel driving either a marked or unmarked patrol vehicle can assist in incidents where it is necessary to deflate a suspect's tires by using Stop Sticks or a Piranha TDD in an effort to quickly bring the pursuit to an end. Stop Sticks and TDD are a one-time use tool that must be replaced when deployed effectively. Effective June 6, 2024, Washington State law will change to allow for law enforcement to use greater discretion, realizing that each situation is different, prior to initiating a pursuit. The SCSO should be well equipped for the change and anticipate a greater need to replace tire deflation devices which can help keep the public safe by ending pursuits earlier or stop them from even happening. Their use does reduce liability and can assist in identifying or helping to apprehend a suspect and keeping the citizens of Snohomish County safe.

Summary
 Washington State Law (RCW 10.116.060 (2) (e)) requires a law enforcement officer to have bi-annual training in pursuit intervention techniques to put an end to a pursuit. Deploying Stop Sticks or TDD are some of the intervention techniques the SCSO is trained on.

Justification
 Pursuit intervention is an attempt to stop the suspect's ability to continue to flee in a vehicle through tactical application of technology, tire deflation devices, pinning, PIT, ramming or roadblock procedures. During a pursuit a deputy or supervisor may request that additional vehicles join the pursuit. All other deputies should remain alert to its progress and location to assist with stop sticks, if needed.

Department	0030 - Sheriff
Change Request	AUTO - 156 - SCSO_LE_Security Camera System- North Precinct
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:50 PM (PDT)
Description	The camera system at the North Precinct, installed in 2016, is now outdated and non-functional. We need to update this system to ensure security measures that protect our staff, the citizens visiting the precinct, and reduce the county's liability. The new surveillance cameras will enhance security, promoting transparency and accountability within our department.
Summary	It is important to equip the North Precinct with efficient surveillance equipment for continuous monitoring of both its interior and exterior, thus deterring crime and improving safety for our employees and visitors. A high-quality surveillance system is essential for tracking activities at key points like entrances, exits, holding cell areas, and parking, while also enhancing accountability and building trust within the community through increased transparency in police operations. Given the fast pace of technological advancements, it's crucial to secure funding for this project immediately to optimize precinct operations.
Justification	<p>This proposal includes installing a network of cameras that will connect to the county system for remote access. Cameras will be added to the two precinct holding cells, the evidence bay, the precinct lobby interior, the west exterior, the north exterior monitoring the patrol vehicle parking area, and the east wall overlooking the parking lot and lobby entrance, for a total of 13 cameras. The total cost for this security upgrade is \$30,167.74, which includes installation of the cameras and necessary wiring.</p> <p>This investment is essential for improving our facility's security and protecting our staff and residents.</p> <p>To scale this project, we could reduce the number of cameras installed. Alternatively, getting different types of cameras with varying image quality could save around \$2,800. However, opting for lower-quality cameras can compromise security.</p>

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 158 - SCSO_LE_ALERT Regional Law Enforcement Emergency Response Team
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:50 PM (PDT)

Description: The Sheriff's Office is requesting \$67,000 to train and equip ten (10) deputies to join the existing Snohomish County ALERT Team, in accordance with RCW 36.28.010. Currently, the Sheriff's Office is not a participant in ALERT and does not have crowd control training, which leaves us particularly vulnerable and unprepared for a large-scale event. By joining ALERT, the Sheriff's Office will be better equipped to maintain order during times of civil unrest and riots.

Summary: The Sheriff's Office doesn't currently have a team trained in crowd control. Snohomish County ALERT Team consists of members from multiple police agencies. In comparison to other crowd control teams, ALERT is considered a smaller team and is in need of additional members. ALERT prioritizes their response to incidents based on agencies that participate. The team's primary functions include but are not limited to:

- Protect life
- Protect the rights of peaceful assembly and free speech
- Protect the right to safe and unhindered passage
- Maintain / restore order
- Protect / secure critical locations
- Arrest violators
- Protect property
- Rapid mobilization and deployment of a large element of law enforcement resources
- Contain and isolate expanding incidents
- Disperse and demoralize disorderly groups
- Restore normalcy

Change Request Summary

Department	0030 - Sheriff
Change Request	AUTO - 161 - SCSO_LE_FARO 3-D Scanner for Scene Mapping
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:51 PM (PDT)
Description	FARO 3-D Scanner for Scene Mapping. Our Collision Investigation Unit (CIU) investigates criminal traffic collisions, and collisions resulting in death. This includes vehicular homicides and vehicular assaults. It also responds to major crime scenes to map the scene, sometimes at different stages (such as an initial scan, then another scan when evidence placards are placed.)These cases involve the use of the current technology used by the Sheriff's Office, a laser scanner which has the ability to conduct 3-D scanning of a scene, indoors or out, and later render precise measurements and 3-D modeling of the scene and evidence.
Summary	CIU currently has one such scanner. The unit needs a second to maintain its ability to respond and map scenes, have a readily available scanner, and be able to respond to multiple scenes with timeliness. If the sole scanner became inoperable, SCSO would have to rely on locating another agency available to respond to map our crime scenes unit we were able to get ours repaired. Additionally, CIU is working to achieve the ability to manage call outs by having two-detective pairs available to respond to incidents to conduct mapping. Finally, the intersection of CIU and major crimes cases have begun to show the need for a second available scanner as we have begun to see multiple unrelated incidents happening close together in time.
Justification	<p>CIU is moving toward a model of having two teams of detectives available and equipped to respond into the field. Having the second scanner will allow them to work independently on most cases, allowing one team to not be constantly concerned about call outs during off duty time. This will increase detective wellness.</p> <p>The scanners can work in unison, each scanning different sections of a scene that can then be combined for a total overall scan. This will allow Snohomish County to more quickly process large scenes or scenes in very public or traveled areas, causing less disruption to the public and traffic flow by being able to release a scene more rapidly.</p>

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 162 - SCSO_LE_Drone Equipment dedicated to SWAT Program
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:51 PM (PDT)

Description
 Drone Equipment dedicated to SWAT Program. In the past several years, drone technology has been valuable in resolving police incidents. They gather more information and are less intrusive than other methods. The Avata drone is a fairly inexpensive drone to deploy quickly. The Brinc Lemur 2 drone can be used externally and internally and allows for two way communication. It also provides an internal map of the structure and allows for a live stream during incidents. This would be a valuable tool for the SWAT team to use during incidents. The Brinc Lemur 2 is a five year service plan at \$34,999 per year, \$174,995 total. This includes all replacement, upgrades, hardware and software. The Avata Drones are \$2,294.15 each. The SWAT team has used these drones from patrol and it is common to require three to four of them in a residence since they have a short flying time and are easily disabled by a suspect. They would also require approximately \$400 per drone per year for continued maintenance costs.

Summary
 While the Sheriff's Office has a robust drone unit, the SWAT team does not currently have any of them assigned to the team. The SWAT team has specific requirements for drones which are not satisfied with the current Sheriff's Office inventory. Use of a patrol drone would also require an operator who is not on the SWAT team. That operator does not have the specialized training or equipment that a team member would have and exposes that operator to increased risk. If SWAT were able to have interior drones, this would increase the safety of the team since they could be used to assist in building searches. The Avata 2 drones are small and inexpensive and can be used to quickly search rooms before the team makes entry. The Lemur 2 drones are equipped with two way communications which would allow for the team to fly it into a room with a subject and attempt communication and deescalation in order to resolve the situation peacefully. The Lemur 2 is also capable of live streaming and composing a floorplan of the structure which would be beneficial to the command in operational decision making.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 166 - SCSO_LE_Marine Unit Outboard Motors
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:51 PM (PDT)

Description
 Replacement/Upgrade of 3 Marine Unit outboard motors. The current outboard motors have reached the end of their useful life, have components that require replacement for continued safe use of the 33' SAFE boat used by our Marine and Dive Team, and are frequently unavailable due to continued maintenance issues. The Snohomish County Marine Unit plays a pivotal role in ensuring the safety and security of our waterways. The efficiency, reliability, and performance of the unit's equipment are fundamental to the success of its operations. Recognizing the critical need for modernizing our assets, we propose the repowering of our 33 ft SAFE (Secure All-around Flotation Equipped) boat with three Yamaha 250 HP outboard motors equipped with Digital Electronic Controls (DEC).

Summary
 This upgrade will significantly enhance our operational capabilities, ensuring that we continue to provide exceptional public safety services. The current motors and electronics have reached the end of their usable life span and require replacement. The 33' SAFE boat is used by our Marine and Dive Team. This boat is more stable than other options in choppy water or inclement weather due to its size. During Dive Team responses, the team and their gear often exceeds the capacities of a smaller boat. Having the 33' boat operational enhances our ability to quickly deliver a larger rescue response than smaller boats would. During the search for Officer Cortez in 2020, the 33' was the only boat safe to operate in the weather and water conditions. The new motors and electronics package increase the 33' boat's maneuverability in the water and the new motors will offer more reliability. Unfortunately, due to the number of operational hours in salt water, the motors and electronics require replacement for continued safe use of this boat. In 2023, it had to be taken out of service five times due to maintenance issues. If these components are not replaced, the boat will be unavailable for longer and longer periods and unable to assist in rescue and recovery efforts.

Department	0030 - Sheriff
Change Request	AUTO - 168 - SCSO_LE_Zencity-Blockwise Community Survey Software Platform
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:51 PM (PDT)
Description	The Sheriff's Office would like to enter into a 2-year contract with Zencity for Public Safety to implement Blockwise, a community survey platform, to identify and address safety, crime and trust issues within our communities. Zencity is a purpose built platform for public safety organizations to engage with community members through social media channels. Community members receive a survey alert through their use of a variety of social media applications. Questions are designed to elicit their perspective on safety, crime and overall trust in police.
Summary	Data from these surveys is analyzed and would provide the Sheriff's Office the "big picture" of our community so that we can better respond to our residents' real needs and priorities. Unlike other software that relies on actual community member and police interaction, the Zencity platform is able to connect with our citizen's who may never deal with police, but still have concerns.
Justification	The true benefit of this program is increased trust and transparency. All data is public facing and can identify issues within a specific neighborhood, from citizens who actually live there. With this information, the Sheriff's Office can create unique response plans utilizing our Crime Prevention Officers address concerns. We have received a reduced introductory rate for 2025 only.

Change Request Summary

Department: 0030 - Sheriff
Change Request: AUTO - 185 - SCSO_LE_Bridges DV Coordination Services
Change Request Type: Standard Change Package
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 07:57 PM (PDT)

The Sheriff's Office was allocated \$292,000 in ARPA funding during the 2023 budget process. These funds were used to secure a contract with Bridges Domestic Violence Coordination Services. This request will fund the Bridges DV Professional Services contract for an additional two years to continue providing independent professional domestic violence services to victims.

Description: Domestic Violence continues to be a substantial problem for citizens of Snohomish County. During the last three calendar years, The Snohomish County Sheriff's Office responded to an average of over 4100 domestic disturbances each year. During that same time period, an average of over 1500 of those calls resulted in a case report including a charge related to domestic violence. In a recent year, there were approximately 220 requests for follow up investigations submitted to the Sheriff's Office from the Prosecuting Attorney's Office. If the follow up information is not provided within the time frame submitted by the Prosecutor's Office, the case is dismissed. A large percentage of the follow up requests (approximately 80%) involve a gross-misdemeanor assault 4 degree. Follow up requests vary from requests for medical records, additional statements, collection of video evidence, etc. Due to the volume of work, detectives are not able to conduct follow up for misdemeanor crimes. Thus the follow up requests are assigned to patrol deputies. Patrol deputies lack sufficient time to conduct follow up investigations (according to the 2014 Timothy Freesmeyer Staffing Study, Snohomish County deputies have on average 12 minutes of discretionary time per hour while on shift. When deputies do have discretionary time much of it is outside of normal business hours (2:00 am to 8:00 am) when it is not possible to contact businesses, victims, and witnesses.

Summary: The Sheriff's Office recognizes that it must do more to assist the victims of domestic violence as well as the children exposed to violence. A more comprehensive approach to dealing with domestic violence means additional resources are needed. These resources do not necessarily need to be commissioned law enforcement officers. Highly trained social workers who specialize in working with victims of domestic violence and understand the complexities of domestic violence as it relates to the victims, the abuser, law enforcement, prosecution, and the judicial system would be able to fill the void currently existing in the criminal justice system. Trained social workers can provide numerous services to victims, police, and to improve prosecution outcomes to perform work that is beyond our current capacity. Moreover, domestic violence social workers' total compensation costs are significantly less than a commissioned law enforcement officer.

The Sheriff's Office is requesting funding for a Professional Services contract to provide independent professional domestic violence services to victims. The scope of services provided to the victim, law enforcement, and prosecution are extensive:

Victim Services include (in part): support, educate and assist victims of domestic violence through the criminal justice proceedings, in both district and superior courts; provide victims with information on obtaining civil protection/no contact orders; assist victims in completing the many forms and documents required to obtain various protection/no contact orders; assess domestic violence victims immediate needs (safe housing, income, and other necessities); help victims establish an immediate safety plan; provide information and referrals to community resources specifically for victims of domestic violence; provide victims with information regarding criminal justice proceedings and procedures, appear with victims at arraignments and all other court hearings (both criminal and civil); educate victims about the benefits of pursuing prosecution through the legal system.

Law enforcement services include (in part); Provide law enforcement about victim accounts or other undisclosed criminal information; provide follow up services for law enforcement by obtaining additional statements, supplemental paperwork, photographs of injuries and, medical release forms; in concert with law enforcement and the prosecutor's office, develop reference materials to be used by police and prosecution aid in prosecution; assist in training deputies about victim services; and provide community training concerning domestic violence and services available to victims of domestic violence.

Prosecution services include (in part); Provide the deputy prosecuting attorney with status reports concerning the victim, contact information, concerns of victims, and an update on the status of civil court no contact or protection orders; communicate with deputy prosecutors seeking the termination of no contact orders; provide information to the deputy prosecuting attorney on victim’s recommendations/request for defendant services and resources as well as providing sentencing input; coordinate with the prosecutors’ office victim advocates for a smooth transition of services where appropriate.

Justification

In 2021 Washington State Governor Jay Inslee signed into law Engrossed Second Substitute House Bill 1320 into law which amended approximately 80 existing RCW’s relating to domestic violence. In Part I section 3, subsection a, the legislature stated in part, "domestic violence is a problem of immense proportions. About 15 percent of Washington adults report experiencing domestic violence in their lifetime, and women, low-income people, and Black and indigenous communities experience higher rates of domestic violence. When domestic violence victims seek to separate from their abuser, they face increased risk. Forty-five percent of domestic violence homicides occur within 90 days of recent separation, while 75 percent occur within the first six months of separation. Domestic violence has long been recognized as being at the core of other major social problems: child abuse, other crimes of violence against persons or property, homelessness, and alcohol and drug abuse. Research has identified that adverse childhood experiences such as exposure to domestic violence have long-term negative impacts on health, well-being, and life outcomes, including criminal legal system involvement. Washington State studies have found that domestic violence is the most predictive of future violent crime by the perpetrator. Nationwide, domestic violence costs over \$460,000,000,000 each year for health care, absence from work, services to children, and more...Domestic violence should not be minimized or dismissed based on any mental health diagnoses of the perpetrator or the victim. To the contrary, the presence of mental health concerns or substance use of either party increases the likelihood of serious injury or lethality. The legislature finds that it is in the public interest to improve the lives of persons being victimized by the acts and dynamics of domestic violence to provide reasonable, coordinated, measures to prevent domestic violence from occurring and to respond effectively to secure the safety of survivors of domestic violence".

The above statement of the Washington State legislature is further supported by scientific research on the subject of domestic violence particularly as it pertains to children. Specifically, domestic violence has significant deleterious impacts to society, particularly children. Most instances of domestic violence involve children in the home that are 5 years of age or younger (Fantuzzo et al., 1997). Moreover, there is strong evidence to support that domestic violence is intergenerational, even for children who merely witness violence (Gelles & Cavanaugh, 2005). Therefore, without intervention, the cycle of violence is likely to perpetuate itself for children when they reach the age of adulthood.

Children, particularly those who come from historically underserved and marginalized communities deserve to grow up in a home safe from domestic violence. Children are our most vulnerable citizens as well as our future. Victims of domestic violence and their children deserve and should expect that the criminal justice system will respond, support, and advocate for their wellbeing. The system, as it is currently structured, fails to provide the necessary supports to ensure that every reasonable effort is made to safeguard the wellbeing of both the victim and the victim’s children.

Adding a team of highly trained domestic violence social workers will undoubtedly provide critical services both in the social arena and the criminal justice system to domestic violence victims which is currently not available to them. The use of a professional service provider would most certainly lead to more convictions in domestic violence cases. It would provide a conduit to services to the victim both as it relates to social services and navigating the criminal justice system. Domestic violence victims (and their children) would have an assigned social worker who would be able to assist the victim every step of the way as the case makes its way through the system.

Description	The Sheriff's Office needs funding to replace ongoing broken equipment, gear, and technical supplies that are constantly used up or broken due to normal wear and tear. The Sheriff's Office is proposing to add \$150,000 to our miscellaneous line item.
Summary	
Justification	The Sheriff's Office has transitioned into a highly technical organization with a large amount of electronic and technical equipment that needs to be replaced on a regular basis. The office needs to replace broken firearms, tasers, computer screens, scanners, car printers, flashlights, body cameras and a myriad of other equipment that routinely breaks on a regular basis.

 Change Request: AUTO - 282 - SCSO_FUND 141 - Helicopter Neutral
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:09 PM (PDT)

Description
 This fund is used toward the repair and maintenance of the Sheriff's helicopters as needed. The funding source is Federal Revenue sharing money distributed to Snohomish County by virtue of the Secure Rural Schools and Community Self-Determination Act of 2000. The Snohomish County Council has elected to use Title III funds from this source to repair and upgrade the Sheriff's helicopters which are used primarily for this statutorily required duty to provide search and rescue services. Federal funding continues to be unreliable, leaving little in addition to residual fund balance to supplement operations. It should be noted that available funding has been declining over the last few years.

Summary
 This fund has long been the chief source of funding for repairing the Sheriff's Office helicopters which are used primarily for search and rescue needs. Our Air Support Unit plays a vital role in responding to emergencies, locating missing persons, providing life-saving assistance during natural disasters. Air Support is the fastest and most efficient method for rescuing and recovering lost or injured hikers throughout the Cascade Mountain Range. The SCSO Air Operations program accomplishes a great deal for the county and the region by greatly leveraging the allocated funds. Repair, maintenance and fuel costs continue to rise while our budget over the past few years has not. There is no ER&R fund to cover the repair and maintenance costs of the helicopters. A separate, partner priority package accompanies this one, and requests ongoing general fund support that will allow our Helicopter program to continue.

Justification
 A County ordinance requires that this fund be used for operations of the Sheriff's helicopters as needed. The federal act cited above applies as well as to appropriate uses of these federal dollars.

Description: To provide adequate security services to the Courthouse, the County Campus, outlying District Courts, and the Denney Juvenile Justice Center the Sheriff's Office needs to expand the Security Unit a total of (7) additional FTEs. The additional FTEs includes one (1) additional law enforcement sergeant and six (6) additional Marshal positions.

Summary

In 2006, when the current Marshal Unit began, the National Center for State Courts (NCSC) authored a report recommending a total of 8.0 Marshal FTEs for the Courthouse alone. At that time the unit was staffed with only five Marshals and did not provide security to Denny Juvenile Justice Center (DJJC) or the three outlying district courts. Since the inception of the Marshal Unit, staffing was increased by an additional four FTEs only after the Marshals were assigned to provide services to the three outlying district courts and DJJC. These 4 FTE's are not assigned to the courthouse, so as a result, the net gain in Marshal staffing at the Snohomish County campus in the last 18 years has been zero (0%). In the past 18 years the duties of the Marshal Unit have expanded due to the expectations of the partners around the county campus and the increase in services being provided at the campus. Since the inception of the unit the county has increased services provided at the county campus to populations struggling with addiction and or mental health issues, and as a result the Marshals are being called upon more frequently to deal with more disgruntled individuals who are seeking services at the campus. The Marshals are primarily responsible for the safety and security of the Courthouse, acting also as the bailiffs for each of the court rooms, but they are also responsible for responding to calls for service at all areas of the county campus, the Carnegie Building, and the Diversion Center which also have increased services. In 2021 the Courthouse addition and remodel was completed, increasing the Courthouse by 28,000 square feet which included additional court rooms that the Marshals are now responsible to provide security.

In 2023 National Center for State Courts (NCSC) was asked by Superior Court Administration to conduct a security assessment of the Courthouse and the Denney Juvenile Justice Center. The recommendation for staffing was for one Marshal to be assigned to each courtroom during all proceedings. It was noted in the report this would be an extreme undertaking. The compromise suggested by the NCSC was at a minimum one Marshal be assigned to each floor of the Courthouse. This means there needs to be one Marshals assigned to each floor (5 floors), two Marshals at the main entry overseeing security screening, and four Marshals available to patrol and respond to calls at the campus complex. Currently there are only six FTE's assigned to the Campus, with the need to have (11) eleven FTEs assigned to the campus. With this, we need to increase the Marshals at the County Campus by an additional (5) five FTEs.

Justification: The NCSC also evaluated the security at the Denney Juvenile Justice Center (DJJC). Currently there is one Marshal assigned to the entire DJJC facility. This does not allow for the Marshal to safely leave their station at the front of the building so they can respond to issues in the court room or around the grounds of the DJJC campus. The recommendation by the NCSC is to have (2) two Marshals assigned to the DJJC campus, necessitating the addition of (1) additional FTE.

At the present time there is one Law Enforcement Deputy Sheriff's Sergeant who is the assigned as the

supervisor for the Marshals. The sergeant is responsible for the supervision of (9) FTEs, and they also act as a liaison between all county departments who the Marshals provide safety and security for on the Campus as well as four remote locations. The recommended span of control in law enforcement for a first line supervisor is ideally six or seven. Currently, the span of control for the Sergeant is greater than this recommendation, which does increase the liability for our employees and the Sheriff's Office. With the addition of the proposed increase in FTEs to the Marshals unit, it becomes necessary to also add an FTE for a second sergeant to assist in overseeing the daily operations of the Marshals at the County Campus and other remote courts.

Lastly, by increasing the number of FTEs to the Marshals unit it should allow for the amount of overtime being expended by the unit to decrease. The unit has mandatory staffing minimums that need to be met for court operations to be conducted, these minimums have been set by Court Administrative Rule. As a result, even when the unit is fully staffed if one person is on leave and another Marshal calls out sick, we are required to bring in a law enforcement deputy or sergeant to backfill on overtime. The overtime cost associated with either a deputy or a sergeant is significantly higher than that of the Marshal. As a consequence, this unit has been significantly exceeding overtime budget every year for the past at least 4 years.

Based on two separate assessments completed by the National Center for State Courts, conducted 17 years apart, Snohomish County has been operating under the recommended 2006 manpower standard the entire time the Marshals unit has been in existence. During that time county has been fortunate we have only had a few major security incidents, with the most recent being in December of 2022 when an individual entered the security screening area wearing a bullet proof vest and armed with multiple firearms, forcing a lockdown of the entire county campus. Since the inception of the Marshal unit, the team has handled hundreds of firearms related incidents, and even dealt with a hand grenade being brought to the visitor lobby of the Snohomish County Jail. Not adequately funding and staffing this unit not only exposes Snohomish County to civil liability, but it also places the campus staff, judicial staff, campus visitors, and the Marshals themselves at undue risk.

It should be noted this proposal is endorsed by the Court Administration.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 288 - SCSO_LE_Patrol Ops Administrative Sergeants
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:09 PM (PDT)

Description
 This proposal requests the addition of 2.0 FTE Sergeant (Patrol Admin) position, with a start date of July 1, 2025. It includes a funding request for six months of salary and benefits, along with ongoing operational expenses and initial startup costs. This role is a supervisory position, overseeing administrative tasks in the patrol division. One Administrative Sergeant will be stationed at the South Precinct, with another overseeing both the North and East Precincts from the North Precinct.

Summary
 At present, the Sheriff's Office lacks a specific Administration Sergeant. The Sergeant for the Robbery and Burglary Unit is dividing her time, partially overseeing case management in New World Systems. This approach is not viable for an organization of our size. We are lagging in processing investigation requests from the prosecutor's office. Appointing an Administrative Sergeant could streamline and enhance this process.
 The Administrative Sergeant plays a critical role by overseeing core police duties such as quality control of investigations and reports. This position also supports patrol sergeants, lightening their administrative burden to enable greater focus on field supervision. An Administrative Sergeant will oversee case monitoring in New World Systems and support the prosecutor's office by gathering essential information for case success.

Justification
 As our county's population grows, our patrol supervisors require assistance in case management. Introducing Administrative Sergeants will greatly benefit our agency by enhancing work quality. Ultimately, this will lead to thorough investigations and ensure justice for victims.
 The Administrative Sergeant can oversee case management in our patrol division and handle additional tasks like reviewing Body Worn Camera footage regarding Use of Force, enriching training, and increasing transparency in our community. They can also assist in managing daily precinct operations. Taking on these extra responsibilities will allow our precinct commanders to focus more on overseeing patrol operations.
 We could reduce expenses by assigning a single full-time Administrative Sergeant to oversee all three precincts.

We could also use the Administrative Sergeant to manage detective Sergeant responsibilities out of our North and East Precincts.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 292 - SCSO_LE_Increase in Patrol Deputies 2025, adding six (6) with a July 2025 start date.
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:10 PM (PDT)
 Description: Increase in Patrol Deputies 2025, adding six (6) with a July 2025 start date.
 Summary:

We have used public funds for multiple professional, external staffing studies relative to the amount of deputy sheriffs we have serving our unincorporated population of Snohomish County. No matter which scholarly staffing model has been used over the decades (such as based upon population served or the data from public demand through 911 calls for service), there is no argument that Washington State has the lowest number of law enforcement serving communities in the country, and Snohomish County is far behind other agencies within our state. In fact, we have less than half of the commissioned deputies than jurisdictions that serve smaller populations. Having a clear plan to incrementally add deputy sheriff positions every year is the only way we start to meet government’s obligation to provide an appropriate level of public safety services. This will not only address this long-time publicly acknowledged detriment, but it is critical to start now as our county population continues to increase.

Justification: The best way to make real changes to our ability to better serve Snohomish County residents is to increase our daily patrol staffing. Well established and accepted law enforcement staffing models recognize that it takes more than five full time positions (or six total) to have an increase of a single deputy, for an added area beat 24/7/365. With six added deputy sheriff positions, we can fully staff an additional deputy position full time, to increase minimum staffing one more each year. This means one more deputy will always be working to provide patrol resources; respond to calls, investigate crime, and serve community needs. Incrementally adding an additional deputy position each year over the next five years will help to improve response times, provide better resources for Crisis Intervention and de-escalation, and provide more time for investigative follow-up and crime prevention efforts by patrolling our neighborhoods.

 Description: Increase in Patrol Deputy positions, adding six (6) with a July 2026 start date.
 Summary:

We have used public funds for multiple professional, external staffing studies relative to the amount of deputy sheriffs we have serving our unincorporated population of Snohomish County. No matter which scholarly staffing model has been used over the decades (such as based upon population served or the data from public demand through 911 calls for service), there is no argument that Washington State has the lowest number of law enforcement serving communities in the country, and Snohomish County is far behind other agencies within our state. In fact, we have less than half of the commissioned deputies than jurisdictions that serve smaller populations. Having a clear plan to incrementally add deputy sheriff positions every year is the only way we start to meet government’s obligation to provide an appropriate level of public safety services. This will not only address this long-time publicly acknowledged detriment, but it is critical to start now as our county population continues to increase.

Justification: The best way to make real changes to our ability to better serve Snohomish County residents is to increase our daily patrol staffing. Well established and accepted law enforcement staffing models recognize that it takes more than five full time positions (or six total) to have an increase of a single deputy, for an added area beat 24/7/365. With six added deputy sheriff positions, we can fully staff an additional deputy position full time, to increase minimum staffing one more each year. This means one more deputy will always be working to provide patrol resources; respond to calls, investigate crime, and serve community needs. Incrementally adding an additional deputy position each year over the next five years will help to improve response times, provide better resources for Crisis Intervention and de-escalation, and provide more time for investigative follow-up and crime prevention efforts by patrolling our neighborhoods.

Description	Add 2 Lieutenant Positions
Summary	

Justification

These positions are needed to meet required work that has been added to the Snohomish County Sheriff’s Office. There has been an increase in expectations for law enforcement relative to internal accountability to increase public trust, specifically the addition of Body Worn Cameras. As an industry standard, the Snohomish County Sheriff’s Office has protocols in place where footage is reviewed relative to certain types of incidents, to include use of force, administrative investigations, collisions, and pursuits. The amount of administrative time this requirement has impacted us is just now being realized, a year after full implementation. In addition to this work, we have steadily increased additional work for lieutenants as other state mandates for certifications and training has increased, as well as increased work with other Departments, such as the Department of Emergency Management, Human Services, and to support partnerships for shared community resources.

Change Request Summary

Department 0030 - Sheriff
Change Request AUTO - 299 - SCSO_LE_Add 2 Domestic Violence Detectives
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:10 PM (PDT)

Description The addition of 2 domestic violence detectives would provide the resources needed to actively work with other stake-holders (child advocates, domestic violence advocates, school counselors, psychologists, the Prosecutor's Office, and the courts) in the community to intervene at the earliest possible time and break the cycle of abuse. While all domestic violence cases are serious, detectives would focus on paying special attention to victims who are represent underserved communities, communities of color, and those individuals who live outside of the margins. The implementation for this unit could be immediate. The detectives could be phased in over the course of the year to offset the startup costs of new FTE's. The effect of this unit would be immediate and long-term. Repeated calls to residences for domestic violence complaints would go down thus, freeing up more time for patrol deputies. Arrests that are made (along with mandatory bookings) would decrease because the number of prosecutable cases would be reduced. Abusers would be held accountable and see that there are swift and sure consequences for violence. Victims would have access to a law enforcement liaison who would work closely with victim advocates to help alleviate new incidents of violence and assist in helping victims move into a more stable and safe home life. By adding detectives who can complete follow ups and collaborate with social workers, the criminal justice system and the social services systems become more efficient thus costing less money because the problem (of domestic violence) is addressed from the outset

Summary

Domestic Violence continues to be a substantial problem for citizens of Snohomish County. During the last three calendar years, The Snohomish County Sheriff’s Office responded to an average of over 4100 domestic disturbances each year. During that same time period, an average of over 1500 of those calls resulted in a case report including a charge related to domestic violence. In a recent year, there were approximately 220 requests for follow up investigations submitted to the Sheriff’s Office from the Prosecuting Attorney’s Office. If the follow up information is not provided within the time frame submitted by the Prosecutor’s Office, the case is dismissed. A large percentage of the follow up requests (approximately 80%) involve a gross-misdemeanor assault 4 degree. Follow up requests vary from requests for medical records, additional statements, collection of video evidence, etc. Due to the volume of work, detectives are not able to conduct follow up for misdemeanor crimes. Thus the follow up requests are assigned to patrol deputies. Patrol deputies lack sufficient time to conduct follow up investigations (according to the 2014 Timothy Freesmeyer Staffing Study, Snohomish County deputies have on average 12 minutes of discretionary time per hour while on shift. When deputies do have discretionary time much of it is outside of normal business hours (2:00 am to 8:00 am) when it is not possible to contact businesses, victims, and witnesses.

Justification

Intimate partner violence (IPV) or domestic violence is a major problem in America today and a major problem in Snohomish County. IPV includes many types of abuses including, sexual and physical violence, stalking, economic, emotional, and psychological abuse. Perhaps most disturbing are recent scientific research which confirms that intimate partner violence disproportionately affects minorities and impoverished groups within our community, particularly, individuals whose first language is not English. According to a meta-analysis study conducted by The Journal of Women’s Health (2015), which reviewed 36 different studies involving intimate partner violence and found that marginalized populations such as African American, Latinas, Native American, Asian women, and members of the LGBTQ communities are much more likely to experience intimate partner violence at a rate of 48%-60% more than their White counterparts. According to the Journal on Women’s Health, these increased rates of violence correlate to increased negative outcomes in physical health, mental health, and reproductive health specifically, physical injuries, eating disorders, depression, suicidality, PTSD, and mood disorders. Given the disproportionate rates of intimate partner violence among ethnic minority women and those who are marginalized, as well as the associated health inequities associated with this violence, there is a need to acknowledge the role of sociopolitical dynamics, including immigration, acculturation, housing insecurities, and food insecurities, and other institutional impediments which prevent access to justice for those particular victims.

Domestic violence not only has deleterious impacts on adults, but its impacts are also particularly injurious to children. Most instances of domestic violence involve children who reside in the home. The affects on children can vary depending on a host of variables, such as the child’s age, the nature and severity of the violence, other risk factors such as poverty, or parental substance abuse, and whether the child is also directly physically abused. There is no disputing that in general, childhood exposure to IPV can be associated with increased display of aggressive behavior, increased emotional problems such as depression and anxiety, lower levels of social competence, and poorer academic functioning (Fantuzzo et al., 1997). Moreover, there is strong evidence to support that domestic violence is intergenerational, even for children who merely witness violence (Gelles & Cavanaugh, 2005). Therefore, without intervention, the cycle of violence is likely to perpetuate itself for children when they reach the age of adulthood. Not surprisingly then, each form of IPV begets interrelated forms of violence. The “cycle of abuse” is often continued by the very children who were exposed to IPV into their own adult lives.

To provide adequate investigative services to sexual assault victims the Sheriff's Office needs to add two (2) additional detective FTEs.

Description The Sheriff's Office Special Investigations Unit (SIU) is responsible for investigating sexual assaults on adults and children as well as assaults and abuse of children cases. The unit consists of one sergeant and 8 detectives, all working at Dawson's Place. This unit focuses its efforts on working collaboratively with partners at Dawson's Place to provide timely, effective interaction with victims to ensure their healing and ability to move forward while investigating and prosecuting the offenders involved.

SIU is tasked with a large number of cases where the Sheriff's Office is mandated by law to investigate thoroughly; this results in a situation where there is no reasonable way to avoid the caseload we have. Caseloads have been and continue to be high in the unit, with negative results.

By adding two additional detectives to the unit, the average caseload of the unit will drop by 20%. Cases will not linger as long, and we will better serve our victims as a result. Additionally, more investigative staff time could be used to investigate other child crimes that are currently not being looked at.

Summary Detective caseload in SIU is high. Currently there are 278 active cases assigned out in the unit, resulting in an average case load of 34 cases per detective.

There is not an option to simply not assign cases in this unit. This causes issues, for example when detectives regularly are assigned new cases, some of which require immediate investigative work, the existing cases will wait until the detective catches up and returns to them.

Currently cases in SIU range in age from recent to 4 years. (Fortunately, SIU has very few cold case sexual assaults.) These cases age due to the length of time some investigations take and the above issue with new cases constantly coming in that need immediate attention, causing other cases to wait for detective time.

Justification The high number of cases to track and work, the subject matter of the cases, and having to keep leaving older cases to work newer cases with time sensitive needs all contribute to a high level of stress among detectives in SIU.

Because of mandated investigations and high case load, SIU prioritizes crimes involving actual sexual assaults. While the Sheriff's Office is, by way of SIU, part of the Washington Internet Crimes Against Children Task Force (ICAC). However, we are unable to provide investigative staff time to pursue these cases. ICAC crimes include all forms of soliciting minors online.

To reduce the time cases take for completion, ensure the wellness of our staff, and provide better service and protection to the public, we must increase the staffing level of SIU.

Change Request Summary

Department 0030 - Sheriff
Change Request AUTO - 324 - SCSO_LE_Training Budget Increase
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:12 PM (PDT)
Description The Sheriff's Office currently staffs 405.5 employees in Law Enforcement, with 32 vacant positions. Presently, the training budget allots approximately \$437.00 per employee. Training costs are increasing due to the rising costs of external training programs, travel expenses, per diem allowances, and for our staff to attend state mandated annual in-service training (24 hours) and I-940 training.

Summary
 WAC 139-05-300 mandates that all certified officers must complete a minimum of 24 hours of annual in-service training. Additionally, Washington's I-940, now known as the Law Enforcement Training and Community Safety Act (LETCSA), mandates a 40-hour training program for all commissioned law enforcement officers in an effort to establish higher training requirements and police accountability standards. This program, which emphasizes, de-escalation techniques, and mental health training, must be repeated every three years. Increasing funding will enhance our capacity to conduct this essential training without depleting staffing levels. Typically, patrol crews experience shortages that are difficult to fill without the use of overtime when deputies and instructors are attending this required training. Additional funds will also support the development of more in-house instructors to deliver the LETCSA curriculum.

Justification
 Many positions in our office necessitate training and certifications that exceed the capabilities of our internal resources. Such training often takes place beyond our local area, incurring higher expenses due to travel, daily allowances, and registration fees. Beyond meeting state mandatory training requirements, it's essential to invest in our staff's growth and retention by offering more opportunities for professional development. Training ensures our team stays informed on the latest concepts, strategies, technologies, and information in the ever-changing field of law enforcement. By increasing the discretionary training budget, we can provide more external training opportunities for our deputies, offsetting the rising costs associated with such professional development.

 Description: Sheriff's Office, Law Enforcement, request to fully restore proposed budget cuts
 Summary:

Justification: The proposed budget cuts would have a catastrophic impact to the safety of the citizens of Snohomish County. If the Sheriff's Office was forced to take a 3% budget cut there would be no alternative to achieve a reduction that great without large scale layoffs. On the law enforcement side of the agency, the office would potentially be facing the loss of 16 Deputy Sheriff positions. This would lead to a significant reduction in the amount of law enforcement response that would be provided to the public. The office would not be able to provide even basic patrol services at our current levels. Response times to emergency 911 calls would rise significantly and the office would be forced to make policy decisions on the type of 911 calls deputy sheriffs will even respond to with reduced staffing. Reductions would have to be made in investigations and other support services as well, potentially leaving citizens with very little or no follow up investigations to certain types of crimes. For these reasons we are asking for consideration in fully restoring the Sheriff's Office funding reduction.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 341 - SCSO_LE_Security Services_Marshal Overtime Costs
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:13 PM (PDT)

Description: The Courthouse Security Unit (Marshals) overtime budget has been funded at \$56,170 for the past 4-years. We are requesting an increase in this overtime budget due to the pay raises obtained through collective bargaining. The average annual OT cost for the Marshal unit over the last 3 years is \$232,403.00.

Summary: The Security Unit is required by law to provide security at the county Court of Record (Superior Courts) and also provide security at each of the three district courts, as well as the Denney Juvenile Justice Center. The overtime budget has remained unchanged for the past 4-years. We have exceeded this budget each year due to staffing shortages. Because of vacant Marshal FTEs, these shifts are filled by members of the Deputy Sheriff's Association at an overtime rate significantly higher than the Marshal overtime rate. Staffing these vacancies has created a situation where we have exceeded the budgeted amount for Marshal overtime:

- Justification:
- Expended 132% of funds in 2021
 - Expended 532% of funds in 2022
 - Expended 453% of funds in 2023
 - As of April 2024 82% of funds expended.

Marshal staffing has improved, but we currently have 1 FTE vacancy and another FTE that is on long term leave. We have requested additional Marshal FTEs in a related budget package, but the funded overtime still needs to improve.

Adding Marshal FTEs will provide more flexibility to staff required positions, however, an increase in funds needs to be considered to account for projected shortfalls. Reliance on members of the Deputy Sheriff's Association has a much greater impact on overtime funds.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 342 - SCSO_LE_Reclassification_Director of Communications Pay Grade
 Change Request Type: Position Adjustments
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:13 PM (PDT)

Description
 The Snohomish County Sheriff's Office Director of Communications position needs to be moved from Pay Grade 111 to Pay Grade 113, to match other county positions with the same job description, to remain competitive and retain a valuable, experienced staff member who has endured a steady increase in work over the last several years due to increased public demand on more frequent and transparent communication expectations with law enforcement. There is one other Director of Communications position within the county and this equivalent position was moved from a pay grade 111 to a pay grade 113, effective January 2020. These roles share equivalent job descriptions, requiring the same educational qualifications and years of experience. Presently, our Director of Communications is compensated at the same level as the county's Deputy Director of Communications, which does not accurately reflect the scope or responsibilities of the role. Therefore, moving to Pay Grade 113 is essential to recognize the value and demands of this position within our organization and ensuring its equitable standing within our county government.

Summary
 The Snohomish County Sheriff's Office Director of Communications (DOC) position has remained at the same Pay Grade while other county departments with the same position and job descriptions have had an elevation of their Pay Grades for staff, at the same time our department has experienced an increase in work volume in this position. Our Director of Communications has been successful despite a steady escalation in the volume of work in the last several years due to the growth of community expectations regarding transparency and accountability. This person works on-site every day and is not only responsible for the branding and marketing of our agency to our community relative to building trust, but there is also a constant demand to respond to scenes of breaking news and other time sensitive inquiries 24/7, to include social media. This position requires far beyond 40 hours a week in the office, including middle of the night calls, weekday, and weekend work. This position will begin supervising a newly reestablished Public Information Officer (titled Communications Specialist) in 2024 which includes training and daily assignments and oversight of a subordinate. We must provide pay for this position which is consistent with other communications positions in county government and reflect the high expectations of the position, to be competitive as an employer to retain trained and experienced staff.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 343 - SCSO_LE_Reclassification_Sheriff Administrative Assistant Pay Grade
 Change Request Type: Position Adjustments
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:13 PM (PDT)

Description
 The Snohomish County Sheriff’s Office “Administrative Assistant - Sheriff” position needs to be moved from Pay Grade 107 to Pay Grade 109, to match other county positions with the same (or very similar) job description, to remain competitive and retain a valuable, experienced staff member who has seen a constant increase in work over the last several years due to law changes and state certification requirements. Currently, the elected Councilmembers each have a legislative aide, the elected Prosecutor has an administrative assistant, and the elected Executive has four administrative assistants (or like positions) within his office who are all Pay Grade 109. The job duties of these positions closely mirror those of the Sheriff’s Administrative Assistant. In alignment with other positions countywide, it’s imperative that the Sheriff’s Administrative Assistant, who provides support to the elected Sheriff, the undersheriff, the Office of Professional Accountability (internal investigations), and provides administrative support for the largest county department, comprising over 700 employees, receives compensation equal with their counterparts in other elected offices.

Summary
 The Snohomish County Sheriff’s Office “Administrative Assistant – Sheriff” position has remained at the same Pay Grade (107) while other county departments with the same (or similar) position job descriptions work for a higher Pay Grade (109), at the same time that we have observed a steady and consistent increase in work for this position due to law changes, new state certification processes, and an increase in work for public disclosure on confidential administrative cases. This position has worked on site every day and has been impacted by the tripling of staff that this position supports (Office of Professional Accountability). This includes an increase of managing cases with the Prosecutors Office for litigation, confidential files relative to labor groups (such as grievances, demand to bargain assertions, and related PECBA information requests), as well as internal administrative investigations and newly created conduct inquiries. We must provide pay for this position which is consistent with other executive level administrative positions with similar responsibilities in county government, as well as to reflect the increase in volume and the high expectations of this specific position. We must be competitive as an employer to retain trained and experienced staff in this critical position. Moving to Pay Grade 109 matches the job description of other positions that work directly with elected officials, including Council Members, the County Prosecutor, and the Executives Office.

Department	0030 - Sheriff
Change Request	AUTO - 344 - SCSO_LE_Reclassification_Technical Services Supervisor Pay Grade
Change Request Type	Position Adjustments
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:13 PM (PDT)
Description	The Sheriff's Office currently has two Technical Services Supervisor positions. Those positions oversee the three main support staff units within the Sheriff's Office. One TSS oversees the Civil and Records Units while the other TSS oversees the Public Disclosure Unit. These positions are currently housed in the classified rate table as a 237. Due to the workload, expectations of each assignment, large amount of liability, and the overall increase in the work product these positions have had to manage; I'd like to move them to a higher class in the same rate table. The change would be as follows: Technical Services Supervisor - currently a 237, change to a 242 on the same rate table.
Summary	

Change Request Summary

These positions have been underpaid for several years. The positions in and around Snohomish County which are equal to the TSS positions in description, but not in workload, often make between three hundred (300) to six hundred (600) dollars more per month. The Snohomish County Sheriff's Office is one of the largest police agencies in Washington State. Our agency serves the citizens of Snohomish County, which is one of the fastest growing counties in Washington State. The two TSS supervisor carry a massive workload, and should be compensated for that work.

The Records and Civil TSS currently oversees four Lead Law Enforcement Technicians, approximately 25-32 Law Enforcement Technicians (depending on staffing) and approximately two to six provisional Law Enforcement Technicians (depending on staffing). This TSS is responsible for overseeing the training/mentoring/coaching of all probationary staff in both units. They are also responsible for training and mentoring incoming Lead Law Enforcement Technicians (of which we had two within the past year in a half get added to the roster). This position communicates frequently with patrol members inside/outside of our agency, is responsible for updating procedures and policies within the two units, handling complaints from customers, communicating with the Prosecuting Attorney's Office on civil matters, regular reporting to the Staff Services Manager, and much more. This position carries a large amount of liability and risk due to the decisions it oversees in terms of concealed pistol applications, warrant processing, court order processing, extraditions, etc. This position constantly keeps up with legislative updates relating to the processing of guns, CPLs, court orders, warrants, etc. to best mitigate any potential future liability the agency may face relating to the processing of these items. This TSS also assists with shift coverage and task completion to support both units when there is short staffing and/or when a shift needs assistance with their assigned tasks.

Justification

The Public Disclosure TSS oversees all of the Public Information and Records Specialists within the Sheriff's Office (six total). This position also oversees one Law Enforcement Technician who assists with administrative work in PDU. This TSS doesn't have the assistance of a Lead LET so all of the supervision/training/mentoring of the unit falls on them. Additionally, this TSS works closely with the County Public Records Officer and other public records staff in all other county departments to process public records requests. This position is constantly reviewing updating legislation and court rulings to be sure the Public Disclosure Unit it reviewing and redacting records appropriately and according to the most recent legal updates. The TSS assigned to this unit also cares a full redaction workload (matching that of the PIRS' within the unit) to assist with constantly growing public records requests numbers. This TSS position carries a large amount of liability due to how the Public Records Act is written in our State. It is very difficult for government agencies to receive a favorable ruling in a PRA suit simply because the laws are always changing and require constant attention.

Both Technical Services Supervisors are grossly underpaid for the amount of work both positions complete. While similar positions in other law enforcement agencies in Snohomish County pay their supervisors anywhere between \$85,000 to \$95,000 annually (in many cases more), our TSS' are paid between \$65,600 to \$79,750 annually. The TSS' within the Sheriff's Office oversee some of the largest law enforcement support staff workloads in our State, not to mention in Snohomish County. Bringing their pay up closer to other jurisdictional numbers will allow us to retain the current TSS' we have, while also being able to adequately recruit for applicants in the future if/when needed.

Change Request Summary

Department 0030 - Sheriff
Change Request AUTO - 411 - SCSO_LE_Increase Major Crimes Investigative Capacity
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:16 PM (PDT)

To provide adequate investigative services to major crimes victims the Sheriff's Office needs to add three (3) additional detective FTEs and one (1) detective sergeant FTE.

The Snohomish County Sheriff's Office Major Crimes Unit (MCU) is responsible for investigating homicides, felony assaults, kidnapping, missing persons, cold case homicides, and other serious crimes against persons investigations. The unit is currently authorized 9 detectives and one sergeant assigned to MCU. The Major Crimes Unit must have an additional 4 commissioned FTE's added to handle the case load that come in to the Sheriff's Office. The best model for this is one detective sergeant and three detectives.

There are two ways to mitigate case load using existing manpower. One is to utilize overtime to work additional cases. This is not desirable as it leads to detective burnout and lower overall unit efficiency. Additionally, the unit already works considerable overtime to respond to and immediately and thoroughly investigate new crimes that occur. These crimes occur all hours of the day or night, and usually require overtime to ensure evidence is located and preserved, suspect(s) and witness(s) are located and interviewed, and immediate leads in the case are followed up on. A second way to mitigate case load is to reduce the number of cases assigned out for investigation. That is the process the Sheriff's Office had used over the past 5-7 years to reduce detective burnout and ensure that the highest priority cases are properly investigated. We simply cannot take on more investigative work than we already do.

The MCU sergeant's responsibilities include responding to on-call consultations 24-7. This includes many consultations where MCU detectives do not respond, but the supervisor still must evaluate the case and provide input and guidance to field staff. In addition, the MCU sergeant screens all cases coming in to MCU, and supervises a large number of detectives working very complex cases. To ask a supervisor to handle all this duty is not realistic, an additional supervisor needs to be added to the unit.

Due to the increasing complexity of cases and the lack of any decrease in cases, additional staff are needed to keep up with demands for high level detective work. Because of the complexity of each investigation, the supervisor's span of control is beyond its limit - the unit needs additional staff and one additional supervisor. This proposal creates two Major Crimes Unit squads, one investigating the most recent less complicated cases and one tasked with cases with increased complexity or that have have not been solved in a relatively short amount of time.

Summary

The Major Crimes Unit is understaffed and overworked. The Sheriff's Office is unable to honor our commitment to the victims of the most serious crime to ensure suspect(s) are brought to justice. The current caseload and workload is unsustainable.

In 2023, 1,351 cases were referred to MCU for investigation and review. This included 8 homicides, 3 kidnappings, 307 serious assaults, and 171 adult missing persons cases. There are currently 170 cases assigned out in the unit including 27 homicides and 39 serious assaults. In addition to homicides assigned to detectives, there are an additional 60 homicides and 29 other serious cases (missing persons, unsolved deaths) that are currently inactive and not being looked at by any investigators. Serious assaults not being investigated / followed up on by MCU rely solely on the initial patrol investigation to provide a complete case to the Prosecutor's Office.

MCU cases are time-sensitive and highly complex. A review of four sample homicide cases over the past few years provides some context to demonstrate their complexity and requisite time commitment. This review showed the cases contained 350 pages, 171 pages, 528 pages, and 270 pages each. The average of the written documentation for just the lead detective in the case is 329 pages. In a typical homicide, initially the entire team responds, and each detective takes on a specific role, and will also document their work in detailed reports. This might include work regarding photographs, collecting/logging/booking evidence, witness/victim interviews, suspect interviews or search warrants (for evidence on persons, vehicles, properties or for cell phone location data, text data, or social media data) and working on initial leads and tips on the case. Note that a search warrant is required for each phone or each social media account for each person involved in a case. Additionally, the Sheriff's Office recently started using body worn cameras (BWCs). In each case, detectives have to review and associate everything on BWC's with the initial responding deputies' reports. All interviews must be transcribed and reviewed for accuracy by the detective.

The time intensive work that MCU detectives perform cannot be overstated. For example, the average felony assault case investigated by a MCU detective will contain numerous search warrant affidavits. For assaults, each affidavit will be approximately 25 pages in length. It is not uncommon to have 10-12 search warrant affidavits for homicide cases totaling well over 125 pages in length. While it is difficult to exactly quantify, it is not uncommon in most felony assault and homicide cases to have hundreds of pieces of evidence. Each item of evidence must be photographed, collected, packaged, logged, and then booked into evidence. In cases where a suspect is in custody, detectives must ensure that all of the many digital evidence items and documents are given to the Prosecutor's Office in a timely manner to ensure proper discovery to the defense in the case.

MCU usually has 6-8 homicide cases scheduled for jury trial throughout a year. The average length of a homicide trial is 4-5 weeks and some may last up to 2 months. While a trial is in progress, the lead detective assigned to that case will also be in trial. While in trial, that detective is not able to accept new cases. While the time for the average felony assault case is less (2-3 weeks), the impact for the lead detective is the same. Thus they are unavailable for new case assignments or call outs during that time, increasing the workload on other detectives.

Change Request	AUTO - 419 - SCSO_LE_Overtime Budget Increase
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:17 PM (PDT)
Description	<p>The Sheriff's Office relies on overtime funds to meet patrol staffing minimums, conduct special operations, provide mandatory training, and maintain specialty unit certifications. Despite these needs, the overtime budget has not increased since 2019. In 2021, the Deputy Sheriff's Association reached a labor agreement with Snohomish County, resulting in a 23.1% wage increase for Deputy Sheriffs and Sergeants from 2021-2025. There is an urgent need to increase the overtime budget to adequately staff patrol, ensure ongoing training, and support after-hours call-outs.</p> <p>Increasing the overtime budget by 23.1% will guarantee sufficient patrol staffing, support ongoing mandatory training, and maintain our personnel's ability to respond to after-hours call outs.</p>
Summary	<p>Each of the Sheriff's Office bureaus offer critical services to our community. However, maintaining minimum patrol staffing levels remains a challenge due to numerous vacancies, often requiring frequent reliance on overtime. In 2023, the Operations Bureau exceeded its overtime budget by 37%, the Special Operations Bureau by 32%, and the Administrative Services Bureau by 54%.</p> <p>Overtime also covers after-hours call outs for our detective and specialty units. This includes deputies who are assigned to our major crimes unit, collision investigations unit, SWAT team, Search & Rescue, Dive Team, Bomb Team, Robbery Burglary Unit, and Special Investigations Unit. For many deputies in Special Operations, this is an additional duty beyond their regular work hours. These specially selected and trained deputies are on call 24/7, relying heavily on overtime funds for their missions and mandatory training. Increasing overtime funding is crucial to maintaining training standards and enhancing our after-hours emergency response capabilities.</p>
Justification	<p>In 2025, the Sheriff's Office will gain two newly trained and deployable bomb technicians. These specialists will join the Washington State Patrol Inter-agency Bomb Squad. Bomb technicians must complete 288 hours of mandatory annual training. Since this role is an additional duty, attending the required training often incurs overtime costs for either attendance or staffing coverage.</p> <p>Police work is unpredictable, requiring us to maintain minimum staffing levels to respond effectively to service calls and ensure community safety. Facing multiple deputy vacancies, we need a sufficient overtime budget to cover staffing needs and address after-hours incidents that demand significant police or specialized unit responses.</p> <p>Offering scalability options without compromising quality investigations may jeopardize community safety and the safety of our employees.</p>

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 422 - SCSO_LE_Crime Analyst - move current to GF and additional Crime Analyst
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:17 PM (PDT)

The Sheriff's Office is requesting the funding for our current (1 FTE) Crime Analyst be moved to the General Fund from Fund 100, and we are also requesting the addition of a second FTE Crime Analyst in the General Fund. It is our intention to begin using Fund 100 impact funds for other community based projects and software enhancements. Sole reliance on Impact Fees for funding the Crime Analyst position creates undue stress on our employees who don't know from year to year whether their position will be funded. Hiring a second Crime Analyst will be difficult if we're not able to ensure they'll have a job in the next fiscal year.

Crime analysis has become a common feature of U.S. law enforcement agencies. Unfortunately, the field has not provided many cost-benefit studies of crime analysts to date. With that being said, virtually everything law enforcement agencies do is intended to contribute to public safety. With crime analysis, the question regarding our cost benefit to having crime analysts can be broken down into their purpose and types of analysis.

What is their purpose: the value of integrating crime analysis in the Snohomish County Sheriff's Office is to increase the effectiveness of our crime reduction strategies and direct limited resources in controlling, reducing, and preventing crime and disorder. Crime analysts help our organization to make sense of the deluge of data collected in the course of our work, so that we can respond more swiftly and appropriately to emergent public safety issues.

Description: What types of crime analysis do they perform:

1. Strategic: Analysis for long-term planning at the command level including rigorous evaluation of crime-control programs and workforce optimization.
2. Operational: Analysis to identify problems, direct resources, and show results; intended mainly for midlevel management including hot-spot analysis and density mapping; correlation analysis related to neighborhood features associated with crime (i.e., poor lighting, landscaping, etc.); analysis to reveal commonalities involving cases or serial events; and CompStat week-to-week results assessment.
3. Tactical: Descriptive statistics and summary information intended mainly for patrol staff and the public to include weekly crime and arrest counts; year-to-year crime comparisons; suspect bulletins for crimes and officer safety; and territory mapping (i.e., gangs, trespass, etc.).

Current literature does not provide answers about the economic return of investing in the crime-analyst position. However, the importance of crime analysis cannot be understating in terms of organizational efficiency, transparency, equity, cost reduction, liability reduction, impacts to investments, data evaluation, inclusion, process evaluation, decreased victimization through awareness and identity, and officer safety

Summary

The Crime Analyst position originated as a contractor position and was first migrated to be an internal employee in 2019. The support of Tulalip Tribes and Stillaguamish Tribe of Indians have funded these positions via impact funds. The COVID outbreak caused those funds to freeze without warning, which jeopardized what have become a critical position within the Snohomish County Sheriff's Office. While the funds have resumed for this year, it is unknown if they will be available in 2025. Hence, we are requesting that both (2) Law Enforcement Crime Analysts be funded through the general budget in 2025 and beyond.

The following bullet points are just some of the highlights and undertakings that this unit has been able to accomplish since 2020, when the impact funds became unstable:

Introduced new factual metrics for evaluating officer productivity and addressing allegations of wrongdoing or bias, independent of any internal or external complaint.

Developed reports that look at the census metrics of the populations we serve (both offenders and victims) for any inequalities.

Served as subject matter experts on the "Law and Justice Dashboard initiative". This initiative seeks to build on existing data resources to collectively enhance the County's use of data to inform decision-making and policy discussion, particularly as these relate to both understanding and addressing racial and ethnic disparities across the local justice system.

Research crime reports and related data through analytical procedures to disclose patterns, trends, and/or evidence of criminal activity including crime pattern detection, suspect-crime correlations, target-suspect profiles, and crime forecasting; prepare stats, charts and maps for patrol, investigations, and command staff.

Been a key component in building relationships with the business community to take a multi-faceted approach to crime mitigation and prevention.

Performed crime prevention thru environmental design (CPTED) assessments at local businesses so that existing businesses will stay, remain viable, and inspire new ones to relocate to our region.

Continuing to work with the Office of Neighborhoods to ensure that nuisance properties are dealt with both expeditiously and in the most compassionate way possible thru a holistic approach that involves not just law enforcement and social workers, but community stakeholders as well. By bringing the data to the table when these groups meet, the analysts take the emotion out of what is an otherwise very heated topic.

Working in tandem with County Department of Emergency Management crime analysts ensure all individuals wishing to exercise their first amendment rights are both doing so in a lawful manner and are protected from anyone who may wish to interfere with their exercise of their rights.

Served as subject matter experts on the regional MAC Opioid subgroup, partnering with other law enforcement, the health department, the medical examiner, and regional hospitals to help solve not just illicit narcotic distribution but the drug problem in our county as a whole.

The analyst for the Snohomish County Sheriff's Office is currently funded by tribal agencies through impact funding. The analyst has been vetted and hired with the county as full-time employees. Although critical for organizational success, these positions have not been approved through the budget request process on several attempts. With budget approval, these crucial positions would maintain viability and provide continuity of employment for both analysts.

 Description: Washington State Criminal Justice Training Commission - Basic Law Enforcement Academy (BLEA) State Mandated Training for new Deputy recruits.
 Summary:

Per RCW 43.101.200, all law enforcement personnel, except volunteers, and reserve officers whether paid or unpaid, initially employed on or after January 1, 1990, shall commence basic training during the first six months of employment unless the basic training requirement is otherwise waived or extended by the Criminal Justice Training Commission. Successful completion of basic training is requisite to the continuation of employment for those personnel. The Basic Law Enforcement Academy (BLEA) is Washington’s mandated training academy for all city and county entry-level peace officers in the state.

Justification: The Sheriff’s Office anticipates needing to send 23 recruits to the Basic Law Enforcement Academy in 2025 and another 12 recruits in 2026. These estimates are based off current vacancies and the number of people sent in 2023 (22 recruits). The cost per recruit is \$4,947 per 720-hour session. This represents a 17% increase over the 2023 rate.

Per RCW 43.101.200; RCW 43.101.220; RCW 43.101.230

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 428 - SCSO_LE_LES Special Ops MCU_SIU
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:18 PM (PDT)

Description
 The Major Crimes Unit (MCU) Law Enforcement Secretary (LES) is an integral part of the unit, not only handling workflow and records management tasks, but also transcribing the growing number of audio/video recordings that are created by deputies and detectives in the process of an investigation. The Special Investigations Unit (SIU) LES does essentially the same work. Both LES's are currently tasked beyond their available work time with these tasks, and LES overtime is required to complete transcriptions. With an increased focus on quality work and managing caseloads in both MCU and SIU, we need to add another LES to take on work that is either undone, or being managed in a crisis mode. With the proposed additional supervisor and second squad formation in MCU, there is an opportunity to add an LES, giving each squad an LES. This LES would also take on transcription workload from SIU, ensuring that we are able to handle all work in a more timely manner without risk of LES burnout.

Summary
 Currently, the MCU LES is focused mainly on transcription tasks. In addition, other LES staff do MCU transcriptions on overtime aside from their regular duties to help with the workload. Additionally, the MCU LES is not able to handle the bulk of the case workflow in terms of ensuring completed work product gets to the Prosecutor's Office. Detectives ensure the large and complicated case information is completely transmitted to the Prosecutor to avoid discovery issues at trial. While this process is partially in place because the lead detective of a case is most familiar with it, it is also in part due to the fact there is not enough administrative support to have a different, reliable process in place. Separately, the SIU LES does not have enough work time available to handle the volume of work tasked. With proposed additional detectives in that unit, additional LES work hours will be needed to process cases and transcriptions to ensure

Justification
 The Sheriff's Office is moving toward splitting MCU into two detective squads, each with a particular tasking in handling types of MCU cases. This will require additional LES support to properly complete the work detectives are tasked with. For example, there are a large volume of pre-2016 cases which are simply not in our current digital case management system, and exist in volumes of paper binders which need to be placed in our digital environment. This is an administrative task that takes detectives away from time spent reviewing and working leads on a case.

Change Request Summary

Department 0030 - Sheriff
Change Request AUTO - 434 - SCSO_LE_Support Staff Pay Scale Update
Change Request Type Position Adjustments
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:18 PM (PDT)

Description Sheriff's Office support staff groups (Teamsters) need to be moved to an updated pay scale within the Snohomish County pay structure. Currently, the Accounting Technician II, Law Enforcement Technicians, Law Enforcement Secretaries, Lead Law Enforcement Technicians, and Public Information and Records Specialists are paid via the Sheriff Law Enforcement Support 200-600 Rate Table. The four groups listed above are classified as "clerical" staff which is technically not an incorrect description. However, given the advancements in the specific job duties of these four positions; their pay scale should be updated to reflect the work they currently do for the Sheriff's Office and the County. SCSO would like to proposes moving these groups to the 200 Classified Rate Table. The proposed moves are as follows:
Law Enforcement Technicians from a 307 (current teamsters support pay scale) to a 232 (classified scale)
Law Enforcement Secretaries from a 308 (current pay teamsters support scale) to a 233 (classified scale)
Lead Law Enforcement Technicians from a 311 (current teamsters support pay scale) to a 235 (classified scale)
Public Information and Records Specialist from a 311 (current teamsters support pay scale) to a 235 (classified scale)
Accounting Technician II from a 610 (current teamsters support pay scale) to a 235 (classified scale)
Security Support Specialist from a 311 (current teamsters support pay scale) to a 235 (classified scale)

Summary

The LETs, LES', Lead LETs and PIRS' perform the complicated, necessary functions to allow the Sheriff's Office to operate daily. LETs comprise the Records and Civil Units within the Sheriff's Office support structure. This group is responsible for the entry and processing of evictions, entry/modification/updates of protection orders, anti-harassment orders, anti-stalking orders, sexual assault protection orders and extreme risk protection orders. All of these items are on a strict timeline per RCW. This group is also responsible for processing all CPL (concealed pistol applications), entry of stolen vehicles/missing persons/stolen parts/stolen articles/warrants into WACIC/NCIC, management/retention of all roughly 98% of the case reports in the agency (excluding specialty investigation units), and the face of customer service on the fourth floor of the Courthouse. The Lead LETs supervise, mentor, train, and coach all LETs in the agency. They are not only responsible for monitoring and assisting with the various tasks listed above, but they are also responsible for building their individual shift teams. PIRS' process public records requests for the entire agency. They are responsible for reviewing all public records for applicable redactions pursuant to State laws, federal laws, and case law. PIRS' must thoroughly review all case reports which often contain references to sexual assault against adults/children, murders of adults/children, non-sexual assaults of adults/children, mental health/behavioral health contacts, arsons, collisions, etc. They must read each page, review each photo, and listen to/watch each body-worn camera recording.

Justification

The above groups are exceptionally underpaid compared to their counterparts in other law enforcement agencies inside/outside of Snohomish County. These groups are often paid several hundreds of dollars more per month to do the same type of work, but less of it. In 2023, the Sheriff's Office lost approximately one dozen LETs within a few month period. The reasons for LETs leaving the agency varied, but the most common response we heard from departing employees was they weren't paid enough to do the jobs they were expected to do. In a recent negotiation meeting with the Teamster group, one of the shop stewards (who is also a Lead LET with our agency) stated, "we are spending months training new employees only for them to become "more attractive" to other agencies and leave us to work for them. Due to the ripple effect the increase in pay would cause for the LETs, we are asking that the LES', Lead LETs, and PIRS' also be brought to the new pay scale and have their pay increased. The LES group performs very similar functions to that of the Courthouse LETs, but at the precinct level. They provide customer service to community members outside of the Courthouse area, along with performing similar tasks which LETs perform. Coverage in the Records and Civil Units became so scarce in 2023, the LES group stepped in to assist with the mandatory overtime that was occurring on a daily basis. Between October of 2023 and December of 2023, we got a temporary 2.5 overtime rate increase for all staff completing "Records Unit, Civil Unit, and PDU tasks". This overtime was predominantly paid off the salary savings of the several LET openings we had in 2023. PIRS have had their workload almost double due to the implementation of body-worn cameras. The average open public records request in the Sheriff's Office went from between 1500 and 1900 in 2022 to between 2300 and 2600 in 2023. The monthly averages have continued to clime, and the current monthly average is sitting at 2700 open public records requests. The Sheriff's Office processes approximately 75% of the total open requests received by the entire County, yet they are some of the lowest paid public records staff in the County.

We have slowly rebuilt all three of the support staff units, along with the LES and Lead LET ranks over the last six months. However, the cost of living in Snohomish County is so high and our staff don't want to drive over County lines to come to work; we are at risk of having another large loss of staff. The work encompassed by these four groups has become very technical with almost all of the work existing on computers in various computer programs. The increase in pay will allow the Sheriff's Office to recruit and retain appropriate applicants for these positions. The support staff units within the Sheriff's Office have watched the County increase the pay wages of patrol deputies to bring in and keep police staff. We are now asking for the County to move in the direction of what support staff should be paid, and show them they are as important to public safety as other members of the Sheriff's Office.

These groups are some of the lowest paid groups in the County overall, along with being near the bottom of the pay scales in our department. This was evident by the approval of the temporary 2.5 overtime rate increase during the fourth quarter of 2023. Most of that overtime bill was paid with support staff salary savings from 2023. Even with the slight increases we are asking for (moving these groups to an updated pay scale) they will still not be within most of the other law enforcement support staff markets in the State. However, it is a positive move in the right direction. This change will also positively affect the ongoing negotiations between the County this labor group. Currently, the business agent and the shop stewards representing these groups feel the support staff in the Sheriff's Office are expendable and easily replaceable.

ADD Fiscal and Security Specialist

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 436 - SCSO_LE_Convert 2 LETs to 1 TS Supervisor
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:18 PM (PDT)

Description
 The Sheriff's Office has been operating with Two Technical Services Supervisors (TSS) since the mid-end of 2014. Prior to that time, the agency had three TSS'. One was assigned to the Civil Unit, one was assigned to the Records Unit, and one was assigned to the Public Disclosure Unit. In 2014, the third TSS was reclassified to a Lead Law Enforcement Technician. This caused the Records Unit TSS to absorb the TSS duties for the Civil Unit. That position has been carrying that workload for a decade. I would like to reclassify two Law Enforcement Technician (LET) positions to a third TSS position within the Sheriff's Office. This would effectively restore the support staff structure to the 2014 model, while keeping the existing fourth Lead Law Enforcement Technician to keep up with the increased workload over the last several years in Records and Civil.

Summary
 The Civil Unit within the Sheriff's Office is a very niche unit. This unit is responsible for all receiving, reviewing, entering, and maintaining all court-ordered items issued in the Snohomish County Sheriff's Office jurisdiction. These items range from court-order evictions to habeas corpus proceedings, to the different types of issued orders. This unit coordinates with civil deputies to have court orders served and carried out all over the County. Additionally, they coordinate with various private legal entities along with working with members of the Superior Court, District Court, Clerk's Office, and the Prosecuting Attorney's Office in our County.

Justification
 This unit needs a dedicated Technical Services Supervisor. The workload between Records and Civil has become too much for one TSS to adequately manage. The current Lead LET assigned to Civil has been managing the Civil Unit with little assistance from the direct TSS. Essentially, the current Civil Lead has been acting as a TSS for over a year. This current Lead LET is expected to retire within the next year. In an attempt to succession plan, this position needs to be reclassified back to a TSS so we can post the position and fill it with the best applicant. Additionally, this will allow the current Records/Civil TSS to focus solely on supporting Records, which is the largest support group in the Sheriff's Office. This position already exists within the Sheriff's Office, and this is past practice for our department. I also believe creating this promotional opportunity within the support staff group will encourage entry-level staff to stay with the agency and work towards a promotion.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 484 - SCSO_FUND 100 - Community Impact Neutral
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:20 PM (PDT)

Description
 This package modifies revenue and related expenditure budgets for direct-award community impact funds from area Tribal Nations. This program is budget neutral; anticipated revenues and expenditures are equal for 2025-2026. NOTE: This request is for the continuation of 1 FTE Crime Analyst project position utilizing special revenue. There is a partner package #422 which moves 1 FTE Crime Analyst in the general fund. If package #422 is adopted, the Crime Analyst position in fund 100 would need to be removed (SHR4341P). The remaining program expenditures could stay in fund 100 and we will utilize remaining grant funds to pay for other community based projects and software enhancements.

Summary
 Since 2006, the Sheriff's Office has received annual awards of funding from The Tulalip Tribes and Stillaguamish Tribes, under their community impact programs. When awards are received, we take time to consider the best use of the limited funds. From 2008 through 2013, funds were used to fund a Director of Community Partnerships position. Reduced funding levels have restricted our use of funds, and types of expenditures since 2014. In 2016 we began investing in crime and data analysis services to bolster efficient deployment of patrol resources through data-driven policing.

Justification
 The budgeted amounts in these programs cannot be increased or decreased without first amending the agreements upon which the programs have been built.

Change Request Summary

Department	0030 - Sheriff
Change Request	AUTO - 489 - SCSO_FUND 142 - Task Force Neutral
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:20 PM (PDT)
Description	This package is budget neutral and reflects a portion of the operating costs of the Snohomish Regional Drug Task Force (SRDTF). Just as the SRDTF is comprised of many different agencies contributing resources, this fund has many different funding sources. The majority of the revenue in the Drug Buy Fund 142 comes from civil asset forfeitures and all proceeds must be expended on narcotics enforcement.
Summary	Under the supervision of a Task Force Commander, assigned local law enforcement personnel will investigate mid and upper level drug traffickers, both individuals and organizations, who operate within the state of Washington and specifically, Snohomish County. A board governs the Task Force, comprised of one representative from each participating agency that contributes at least one full-time employee to the Task Force. The day-to-day operations are supervised by the Commander through two Lieutenants and two Sergeants.
Justification	All participating jurisdictions are encouraged to assign manpower when their staffing levels allow for dedicating an officer to the SRDTF. When any of the agencies have a significant drug problem in their jurisdiction that they are unable to deal with effectively they request assistance from the SRDTF. When the Task Force assists in these cases, patrol support is provided by the agency in need. While different agencies fund the salary and benefits of contributed FTEs, other operational and equipment costs are borne by the SRDTF. Several different grants (See Grant Work Plan) contribute funding to pay for overtime, maintenance of the SRDTF facilities, and some of the operational costs incurred for training, supplies, and equipment. The Task Force Fund 142 provides for the expenditures not covered by grant revenue such as vehicles and maintenance, office and investigative supplies, training, professional legal services, confidential funds and internal County services.

Department	0030 - Sheriff
Change Request	AUTO - 505 - SCSO_FUND 194 - Boating Safety Neutral
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:22 PM (PDT)
Description	This package includes budgeted amounts for the revenue and related expenditures of vessel registration fees distributed to the County for approved boating safety programs. This program is budget neutral; anticipated revenues and expenditures are equal for 2025 - 2026.
Summary	<p>The Boating Safety Fund is dedicated by RCW 88.02 to the enhancement of boating safety in Washington State waters. The State collects revenue from boat registrations distributes funds to counties that have approved boating safety programs. The counties in turn must, by interlocal agreement, distribute some of the proceeds to municipalities that also have boating safety programs. In Snohomish County, the cities of Everett and Lake Stevens have such programs.</p>
Justification	<p>Boating revenue funds are used to pay primarily overtime of deputies assigned to boating safety duties during the boating season. Some funds are used for supplies and repairs of the Sheriff's Office boats. No Sheriff's personnel are assigned full-time to marine law enforcement; rather it is an ancillary duty.</p> <p>LEGAL/CONTRACTUAL REQUIRMENT: These funds are made available for a specific purpose and the way they are handled is the subject of Washington Administrative Code 352-65-040 (10). The funds are to be used for education and enforcements in boating safety. Supplanting of these funds is prohibited by law.</p>

Snohomish County Code Chapter 2.38 assigns responsibility to the sheriff for planning, coordination, and provision of security services for county facilities subject to oversight by a county facility security committee composed of county officials representing the executive, legislative, and judicial branches of county government.

Description: The Security Services internal service fund receives contributions from all County Departments and Offices. The level of service received by those departments is varied, and allocation of annual rates is based upon factors that represent those differences. The cost of providing campus security by the Marshall FTEs and security services contractors is allocated by the total square feet of departments receiving security services, but only in the buildings that are monitored.

The cost of administration of the program is allocated by a department's FTE count. Currently, admin costs consist of one supervisor to provide general coordination of all services and one security support specialist to provide keyless entry services.

Publish Date	Jul 09, 2024 08:22 PM (PDT)
Description	License Plate Reader Camera platform that would pay for 12 cameras to be installed (anywhere in Snohomish County where we see a need), and allow access to all Sheriff's Office commissioned employees the information within their nation-wide network to identify and help located wanted vehicles.
Summary	
Justification	This camera system only looks at vehicles (plates and physical characteristics), not the drivers, and has worked effectively throughout the nation and our state to provide notice of where wanted vehicles have been, if they have traveled past a Flock camera (license plate reader). It does not track people and therefor the race or gender of the driver does not impact this information. This system has shown to help reduce the needs for pursuits, is an effective tool in identifying and locating suspects who commit violent crimes, as well as can help find missing or endangered people. This is a force multiplier and law enforcement can enter plate information into the system, such as a dementia patient who has driven away from their residence and provide us helpful information if they have driven passed one of these Flock locations. Annual cost includes 12 cameras we can have placed along public roadways by Flock (they maintain them and replace them without charge, if needed), which would be in compliment to some surrounding agencies that already have these devices in the jurisdiction. The community has been supportive of this as a resource and do partner with Flock by adding their own cameras into our shared network (such as at businesses and apartment complexes).

 Change Request: AUTO - 239 - PAO General Fund Housekeeping
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:03 PM (PDT)
 Description: This Change Request involves annual updates to mostly expenditure DACs to reflect current and/or anticipated expenses.
 Summary:

Justification:

(1) The Dashboard funds are requested each year until project completion. It is anticipated that we will expend only a fraction of this allocation in 2025-26.
 (2) Merit Pay increases are calculated per the CBA.
 (3) Reimbursable salaries and benefits are associated with our employees' work in Fund 124 related efforts. They are calculated on previous work levels and current pay levels.
 (4) The OpT adjustments support several grant programs. They are calculated on known and projected grant awards. The OpT for the Family Support Division captures the IF expenses that are not associated with Family Support. The Family Support budget includes several IF expenses for all our 36 grant positions; however, Family Support has only 29 grant positions. The OpT is intended to ensure that the state grant funds are used only for expenses related to Family Support positions. The OpT represents 19.4%-19.6% of certain IF costs that Family Support should not incur.
 (5) The Prosecutor's compensation revenue DAC is based on the latest estimates.
 (6) The increase for Legal Research reflects previous and future contractual increases.

Change Request	AUTO - 247 - PAO Criminal DPA Staffing Capacity
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:04 PM (PDT)
Description	This Change Request creates 16 new Deputy Prosecuting Attorney positions: six DPA I positions; nine DPA II positions; and, one DPA III position.
Summary	

Change Request 247 creates 16 new Deputy Prosecuting Attorney positions: six DPA I positions; nine DPA II positions; and, one DPA III position. This request reflects the DPA staffing level increases necessary to actually keep up with the crime rate in Snohomish County and to begin meaningfully addressing the historic backlog of case referrals that was created by, and has only worsened since, the pandemic. It also assumes that through the collective bargaining process DPA salaries will increase to market-rate levels, which will markedly improve our ability to both retain the good people we have and recruit qualified applicants.

Change Request 265 seeks to create 5 more Victim Witness Advocates and transforms a current project advocate position into a permanent FTE. As explained during the 2024 Budget process, The office has only 9 V/W Adv and one project advocate. To provide context, the Pierce County Prosecutor’s Office – an apt comparator due to Pierce County’s similar population size, has 18 advocates. Skagit County, our much smaller neighbor to the north, which has less than one-sixth our population, has 5. Simply dividing the number of advocates by county population gives an idea of where we stand. Pierce County has 1 advocate per 51,388 residents while Skagit County has 1 advocate per 26,200 residents. Here in Snohomish County we are not even in the same ballpark with a meager 1 advocate per 84,000 residents.

We have been under-staffed for more than a decade. Years of budget cuts, resource realignments, and targeted reductions have been compounded by ever-larger and more labor-intensive caseloads, (the collective consequence of the explosion in of digital media evidence, a demonstrably more zealous defense bar with case load standards, and judicial officers no longer requiring defendants to appear at all hearings resulting in delay in case resolution), and worsened by unprecedented numbers of DPA resignations triggered by below-market wages, and an absence of qualified applicants who are willing to work for what we can pay. The result is that we have more work than we have bodies to perform the work. Our non-violent trial team DPAs are carrying upwards of 150 felony matters pending trial - caseloads so large that we’ve had to substantially reduce the number of new cases being charged to ease the caseload pressure on the trial DPAs. The need to prioritize felony crimes committed against persons has left our depleted non-violent felony charging unit with just 2 DPAs for most of the last two years, forcing the dismissal of hundreds of cases to the statute of limitations and leaving property crime victims without resolution or the possibility of restitution. Our district court unit has been overwhelmed as well with as few as 7 DPAs to cover the 4 divisions and 8 judges – less than half the total number of public defenders allotted to a similar but lesser amount of work (and this does not even consider the number of cases handled by private defense attorneys). And at a number that hovers just under 90 cases, we have more open homicide files in our office than at any time in history. Most homicide cases are staffed with two attorneys. Most go to trial. Each attorney spends an average of 300 hours reviewing, preparing for, and trying the case. That’s 300 hours x 2 x 90 = 54,000 hours, or 10 DPAs (which is the entirety of our violent and major crimes units combined) working full time on nothing but homicides for 2 ½ years straight. Of course, we don’t have that luxury as the approximately 250 other Class A and Class B violent felony cases pending trial or plea would have to be covered by the roughly 40 other criminal DPAs whose caseloads are already beyond manageable, only half of whom have the requisite level of experience required to do so.

The cold reality is that at current staffing levels, the per capita crime rate in Snohomish County (based on criminal referrals, which we’ve no reason to believe is uncommon for a political subdivision of our size and demography), exceeds our ability to timely and effectively prosecute them. For some context to our plight and to this request, we again look to Pierce County as an objectively reliable comparator. In 2022, Pierce County’s population stood at 930,000, approximately 10% larger than ours, at 840,000. Similarly, the number of criminal referrals received by the Pierce County Prosecutor’s Office in 2023 was 12,285, approximately 10% more than what we received, at 11,208. Where we differ drastically, however, is in the number of DPAs employed by our respective offices/counties. We currently have 67 full-time regular criminal DPAs on the payroll (this number does not include the authorized ARPA project positions, which to our dismay have never been fully filled and have sat dormant due to recruitment challenges highlighted by the class and comp study for much of the last two years). Pierce County, on the other hand, has 93 Criminal DPAs on their payroll. The simple math

Change Request Summary

is that Pierce County has 10% more criminal referrals and 50% more attorneys on their current payroll. It demands little imagination to discern which County is doing a better job of holding those who harm persons and property accountable; though it is certainly not for want of trying.

To be clear, we have been anything but idle. In the last twelve months we have had 94 jury trials and we have filed 4321 new criminal cases. We work hard every day to meet, if not exceed, our ethical obligations and professional responsibilities, consistent with our charging and disposition standards, in a manner that best serves our community while protecting the legal rights of both victims and the accused.

Change Request 433 seeks to meet the 3% mandatory resource alignment. A criminal division 3% resource alignment amounts to a General Fund budget reduction of approximately \$580,000, which equates to eliminating 5 entry level DPA positions this year. This reduction will necessitate eliminating either our district court unit altogether, or no longer prosecuting non-violent felony property crimes -- a heart-breaking outcome with far-reaching, adverse consequences beyond the four corners of the proposed budget.

And so, we have arrived at a watershed moment, if not the brink of a community safety crisis. The Executive and the County Council have to decide what priority they place on community safety, because the status quo, let alone and reduction therefrom, is unacceptable. As we embark on the County's first 2-year budget, we are compelled to make clear the total scope of the resources required to handle the public safety needs of our community. This year we are telling you like it really is, what we, and the community we serve, really need.

Change Request	AUTO - 265 - PAO Victim Witness Advocate Staffing Capacity
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:07 PM (PDT)
Description	This Change Request creates five additional Victim Witness Advocate positions and transforms a current Project Advocate position - already approved for funding in 2025 - into a Regular Advocate position in 2026.

Summary

Change Request 247 creates 16 new Deputy Prosecuting Attorney positions: six DPA I positions; nine DPA II positions; and, one DPA III position. This request reflects the DPA staffing level increases necessary to actually keep up with the crime rate in Snohomish County and to begin meaningfully addressing the historic backlog of case referrals that was created by, and has only worsened since, the pandemic. It also assumes that through the collective bargaining process DPA salaries will increase to market-rate levels, which will markedly improve our ability to both retain the good people we have and recruit qualified applicants.

Change Request 265 seeks to create 5 more Victim Witness Advocates and transforms a current project advocate position into a permanent FTE. As explained during the 2024 Budget process, The office has only 9 V/W Adv and one project advocate. To provide context, the Pierce County Prosecutor’s Office – an apt comparator due to Pierce County’s similar population size, has 18 advocates. Skagit County, our much smaller neighbor to the north, which has less than one-sixth our population, has 5. Simply dividing the number of advocates by county population gives an idea of where we stand. Pierce County has 1 advocate per 51,388 residents while Skagit County has 1 advocate per 26,200 residents. Here in Snohomish County we are not even in the same ballpark with a meager 1 advocate per 84,000 residents.

Justification

We have been under-staffed for more than a decade. Years of budget cuts, resource realignments, and targeted reductions have been compounded by ever-larger and more labor-intensive caseloads, (the collective consequence of the explosion in of digital media evidence, a demonstrably more zealous defense bar with case load standards, and judicial officers no longer requiring defendants to appear at all hearings resulting in delay in case resolution), and worsened by unprecedented numbers of DPA resignations triggered by below-market wages, and an absence of qualified applicants who are willing to work for what we can pay. The result is that we have more work than we have bodies to perform the work. Our non-violent trial team DPAs are carrying upwards of 150 felony matters pending trial - caseloads so large that we’ve had to substantially reduce the number of new cases being charged to ease the caseload pressure on the trial DPAs. The need to prioritize felony crimes committed against persons has left our depleted non-violent felony charging unit with just 2 DPAs for most of the last two years, forcing the dismissal of hundreds of cases to the statute of limitations and leaving property crime victims without resolution or the possibility of restitution. Our district court unit has been overwhelmed as well with as few as 7 DPAs to cover the 4 divisions and 8 judges – less than half the total number of public defenders allotted to a similar but lesser amount of work (and this does not even consider the number of cases handled by private defense attorneys). And at a number that hovers just under 90 cases, we have more open homicide files in our office than at any time in history. Most homicide cases are staffed with two attorneys. Most go to trial. Each attorney spends an average of 300 hours reviewing, preparing for, and trying the case. That’s 300 hours x 2 x 90 = 54,000 hours, or 10 DPAs (which is the entirety of our violent and major crimes units combined) working full time on nothing but homicides for 2 ½ years straight. Of course, we don’t have that luxury as the approximately 250 other Class A and Class B violent felony cases pending trial or plea would have to be covered by the roughly 40 other criminal DPAs whose caseloads are already beyond manageable, only half of whom have the requisite level of experience required to do so.

The cold reality is that at current staffing levels, the per capita crime rate in Snohomish County (based on criminal referrals, which we’ve no reason to believe is uncommon for a political subdivision of our size and demography), exceeds our ability to timely and effectively prosecute them. For some context to our plight and to this request, we again look to Pierce County as an objectively reliable comparator. In 2022, Pierce County’s population stood at 930,000, approximately 10% larger than ours, at 840,000. Similarly, the number of criminal referrals received by the Pierce County Prosecutor’s Office in 2023 was 12,285, approximately 10% more than what we received, at 11,208. Where we differ drastically, however, is in the number of DPAs employed by our respective offices/counties. We currently have 67 full-time regular criminal DPAs on the payroll (this number does not include the authorized ARPA project positions, which to our dismay have never been fully filled and have sat dormant due to recruitment challenges highlighted

Change Request Summary

by the class and comp study for much of the last two years). Pierce County, on the other hand, has 93 Criminal DPAs on their payroll. The simple math is that Pierce County has 10% more criminal referrals and 50% more attorneys on their current payroll. It demands little imagination to discern which County is doing a better job of holding those who harm persons and property accountable; though it is certainly not for want of trying.

To be clear, we have been anything but idle. In the last twelve months we have had 94 jury trials and we have filed 4321 new criminal cases. We work hard every day to meet, if not exceed, our ethical obligations and professional responsibilities, consistent with our charging and disposition standards, in a manner that best serves our community while protecting the legal rights of both victims and the accused.

Change Request 433 seeks to meet the 3% mandatory resource alignment. A criminal division 3% resource alignment amounts to a General Fund budget reduction of approximately \$580,000, which equates to eliminating 5 entry level DPA positions this year. This reduction will necessitate eliminating either our district court unit altogether, or no longer prosecuting non-violent felony property crimes -- a heart-breaking outcome with far-reaching, adverse consequences beyond the four corners of the proposed budget.

And so, we have arrived at a watershed moment, if not the brink of a community safety crisis. The Executive and the County Council have to decide what priority they place on community safety, because the status quo, let alone and reduction therefrom, is unacceptable. As we embark on the County's first 2-year budget, we are compelled to make clear the total scope of the resources required to handle the public safety needs of our community. This year we are telling you like it really is, what we, and the community we serve, really need.

 Change Request: AUTO - 328 - PAO Grants Housekeeping
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:12 PM (PDT)
 Description: This Change Request adjusts our best estimates for grant-related funding, operational transfers, and expenditures.
 Summary:

Justification: The adjustments in this Change Request are needed to balance revenues with expenditures, which is required for each grant program. For the Family Support Grant, the adjustment to the General Fund revenue OpT is necessary to cover the IF expenses that should not be charged to the Family Support Division, but nonetheless are accounted for in the Family Support budget. There are several IF expenses that are calculated on all of our 36 grant positions -- Family Support's 29 positions, and 7 other grant positions. Family Support's fair share of these IF expenses is 80.6% (29 of the 36 grant positions). Therefore, the revised OpT for the biennial budget represents the fair share of IF costs associated with the other 7 grant positions, or 19.4% of the pro forma expenses for Worker's Comp, County Premium, IF Public Records, Contract Security, and IF DIS Overhead. In addition, Family Support's Interfund Rental Space charge includes space that it once occupied (about 19.6% of the IF space rental charges), but that is now occupied by our Appeals Division, which is funded by the General Fund.

The other adjustments are necessary to balance anticipated grant revenue with grant expenditures.

Change Request Summary

Department: 0031 - Prosecuting Attorney
 Change Request: AUTO - 387 - PAO Chief of Staff Compensation
 Change Request Type: Position Adjustments
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:15 PM (PDT)

Description: This Change Request moves the Chief of Staff position, PRA4450R, from the 114 Management and Exempt Salary Schedule, to a newly created Pay Grade 456.

Summary: As second in command, the PAO Chief of Staff has supervisory authority over all Deputy Prosecutors and staff. The current pay grade for the Chief of Staff (114 Management and Exempt Salary Schedule), however, paradoxically compensates the FTE at a salary below that of the office’s Chief Civil, Chief Criminal, and Chief Family Support Deputies positions (455 Pay Grade). This change request cures that chain of command compensatory anomaly. The current classification and pay grade are the same as the other Chief of Staff positions in the County, but the PAO position is distinguished from them by the requirement to hold a law degree, to have experience as a trial practitioner and legal advisor, and to supervise other attorneys. As a result, that classification alignment does not transfer equitably to our department. To create a compensation ascension structure that will ensure equity, we propose the creation of a 456 Pay Grade, with 456/1 equaling the compensation level of 455/2, and 456/2 equaling 2.5% percent more than 455/2. The impact of this change is approximately an increase of \$10,884 in salary authorization in 2025, and in 2026.

Justification: (See Summary above)

Change Request Summary

Department: 0031 - Prosecuting Attorney
 Change Request: AUTO - 418 - PAO Public Records Staffing Capacity
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:17 PM (PDT)
 Description: This Change Request creates one new position in our Criminal Division: a Records Specialist, Senior.
 Summary:

At present, our Criminal Division has approximately 2.70 FTEs responding to about 825 open active public records requests -- about 200 for our Paralegal (0.70 FTE), and more than 300 each for our two Public Information & Records Specialists. In the first half of 2024, they responded to 869 new requests. They continue to actively produce records for 457 requests opened in 2024 alone. At this rate, we will reach more than 1,000 active open requests by the end of the year.

Justification: Our current response time to requests is 8 to 10 weeks; however, the response time varies depending on the nature of the request. Responses to simple requests take 4-8 weeks (1-2 installments); responses to complex requests can take 18 to 24 months (12-20 installments). Expanding our staffing capacity would not only ease the workload on staff but also decrease our response time to requestors.

As explained in our other staffing requests, the current Criminal Division workload is untenable. We have seen a dramatic increase in homicide cases requiring more paralegal time as we prepare and go to trial. Therefore, we are seeking relief for homicide trials by increasing our staffing capacity in public records to allow our paralegal to focus on criminal trials. The new Records Specialist, Senior position would take over the supervising duties of the Paralegal, as well respond to the on-going queue of requests.

Change Request Summary

Department: 0031 - Prosecuting Attorney
Change Request: AUTO - 433 - PAO Resource Alignment Strategy
Change Request Type: Resource Alignment
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 08:18 PM (PDT)

Description: This Change Request does not specify precise reductions in our budget to meet the 3% resource alignment. Historically, we have met mandatory budget reductions through salary savings and conservative fiscal practices. We will continue these strategies where we can; however, more drastic measures will be necessary to meet the 3% target.

Summary: Change Request 247 creates 16 new Deputy Prosecuting Attorney positions: six DPA I positions; nine DPA II positions; and, one DPA III position. This request reflects the DPA staffing level increases necessary to actually keep up with the crime rate in Snohomish County and to begin meaningfully addressing the historic backlog of case referrals that was created by, and has only worsened since, the pandemic. It also assumes that through the collective bargaining process DPA salaries will increase to market-rate levels, which will markedly improve our ability to both retain the good people we have and recruit qualified applicants.

Change Request 265 seeks to create 5 more Victim Witness Advocates and transforms a current project advocate position into a permanent FTE. As explained during the 2024 Budget process, The office has only 9 V/W Adv and one project advocate. To provide context, the Pierce County Prosecutor’s Office – an apt comparator due to Pierce County’s similar population size, has 18 advocates. Skagit County, our much smaller neighbor to the north, which has less than one-sixth our population, has 5. Simply dividing the number of advocates by county population gives an idea of where we stand. Pierce County has 1 advocate per 51,388 residents while Skagit County has 1 advocate per 26,200 residents. Here in Snohomish County we are not even in the same ballpark with a meager 1 advocate per 84,000 residents.

Justification: We have been under-staffed for more than a decade. Years of budget cuts, resource realignments, and targeted reductions have been compounded by ever-larger and more labor-intensive caseloads, (the collective consequence of the explosion in of digital media evidence, a demonstrably more zealous defense bar with case load standards, and judicial officers no longer requiring defendants to appear at all hearings resulting in delay in case resolution), and worsened by unprecedented numbers of DPA resignations triggered by below-market wages, and an absence of qualified applicants who are willing to work for what we can pay. The result is that we have more work than we have bodies to perform the work. Our non-violent trial team DPAs are carrying upwards of 150 felony matters pending trial - caseloads so large that we’ve had to substantially reduce the number of new cases being charged to ease the caseload pressure on the trial DPAs. The need to prioritize felony crimes committed against persons has left our depleted non-violent felony charging unit with just 2 DPAs for most of the last two years, forcing the dismissal of hundreds of cases to the statute of limitations and leaving property crime victims without resolution or the possibility of restitution. Our district court unit has been overwhelmed as well with as few as 7 DPAs to cover the 4 divisions and 8 judges – less than half the total number of public defenders allotted to a similar but lesser amount of work (and this does not even consider the number of cases handled by private defense attorneys). And at a number that hovers just under 90 cases, we have more open homicide files in our office than at any time in history. Most homicide cases are staffed with two attorneys. Most go to trial. Each attorney spends an average of 300 hours reviewing, preparing for, and trying the case. That’s 300 hours x 2 x 90 = 54,000 hours, or 10 DPAs (which is the entirety of our violent and major crimes units combined) working full time on nothing but homicides for 2 ½ years straight. Of course, we don’t have that luxury as the approximately 250 other Class A and Class B violent felony cases pending trial or plea would have to be covered by the roughly 40 other criminal DPAs whose caseloads are already beyond manageable, only half of whom have the requisite level of experience required to do so.

The cold reality is that at current staffing levels, the per capita crime rate in Snohomish County (based on criminal referrals, which we’ve no reason to believe is uncommon for a political subdivision of our size and demography), exceeds our ability to timely and effectively prosecute them. For some context to our plight and to this request, we again look to Pierce County as an objectively reliable comparator. In 2022, Pierce County’s population stood at 930,000, approximately 10% larger than ours, at 840,000. Similarly, the number of criminal referrals received by the Pierce County Prosecutor’s Office in 2023 was 12,285, approximately 10% more than what we received, at 11,208. Where we differ drastically, however, is in the number of DPAs employed by our respective offices/counties. We currently have 67 full-time regular criminal DPAs on the payroll (this number does not include the

authorized ARPA project positions, which to our dismay have never been fully filled and have sat dormant due to recruitment challenges highlighted by the class and comp study for much of the last two years). Pierce County, on the other hand, has 93 Criminal DPAs on their payroll. The simple math is that Pierce County has 10% more criminal referrals and 50% more attorneys on their current payroll. It demands little imagination to discern which County is doing a better job of holding those who harm persons and property accountable; though it is certainly not for want of trying.

To be clear, we have been anything but idle. In the last twelve months we have had 94 jury trials and we have filed 4321 new criminal cases. We work hard every day to meet, if not exceed, our ethical obligations and professional responsibilities, consistent with our charging and disposition standards, in a manner that best serves our community while protecting the legal rights of both victims and the accused.

Change Request 433 seeks to meet the 3% mandatory resource alignment. A criminal division 3% resource alignment amounts to a General Fund budget reduction of approximately \$580,000, which equates to eliminating 5 entry level DPA positions this year. This reduction will necessitate eliminating either our district court unit altogether, or no longer prosecuting non-violent felony property crimes -- a heart-breaking outcome with far-reaching, adverse consequences beyond the four corners of the proposed budget.

And so, we have arrived at a watershed moment, if not the brink of a community safety crisis. The Executive and the County Council have to decide what priority they place on community safety, because the status quo, let alone and reduction therefrom, is unacceptable. As we embark on the County's first 2-year budget, we are compelled to make clear the total scope of the resources required to handle the public safety needs of our community. This year we are telling you like it really is, what we, and the community we serve, really need.

Department	0032 - Office of Public Defense
Change Request	AUTO - 177 - OPD-Child representation
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:57 PM (PDT)
Description	This package allows OPD to move it's final two contracts from a flat-fee contract to an hourly contract; the move will complete the recommendation from the 2021 Audit recommending hourly contracts and supervision.
Summary	
Justification	RCW 13.34.212 requires the appointment of an attorney for children 12+ who are the subject of dependency proceedings. The State Office of Public Defense contracts with local attorneys to provide lawyers for parents and children under 12. Snohomish County is required to pay for the representation for children 21+. OPD is currently funded to contract with lawyers to represent youth between 12-16 who are the subject of a child dependency action. OPD currently has two lawyer contracts for \$75,000 annually regardless of the number of cases accepted. OPD also has three lawyer contracts for hourly work at rates that differ from the flat-fee contract. OPD is moving to a competitive rate of \$125.00 per hour for all contractors. OPD projects additional \$50,000 for the biennium. The current preloaded budget for this representation is \$239,000.00 for 2025. Based on current billings, OPD predicts a minimal increase in costs and asks for an additional \$25,000 per year to cover increase in cases and attorney billing patterns.

Change Request Summary

Department	0032 - Office of Public Defense
Change Request	AUTO - 178 - OPD-Legal Coordinator - NEW
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:57 PM (PDT)
Description	<p>OPD seeks to add one (1.0) full-time FTE Legal Coordinator to the OPD staff. In 2025, we expect .75 FTE to allow time for hiring. OPD currently has 6 Legal Coordinators whose duties historically have included:</p> <ul style="list-style-type: none">• screen every person seeking appointment of counsel in criminal cases• assigning lawyers in criminal cases• assign lawyers in civil cases where the right to counsel attaches.• appear at jail video calendars as well as remote arraignment calendars to screen new defendants.• work with the courts and prosecutor’s office to assure that each person on any county arraignment calendar is contacted in advance of the calendar to screen for a lawyer.• work with OPD contracted lawyers and agencies to collect expert service requests and work with Snohomish County Finance to assure that those requests are paid.
Summary	<p>OPD has requested an additional Legal Coordinator since 2020.</p> <p>In March of 2020, OPD had 7 Legal Coordinators. After the COVID hiring freeze, OPD was not allowed to rehire for this position, and it has since been removed from our budget. Since March of 2022, OPD has taken on additional work that is straining our current workload capacity. OPD has</p> <ul style="list-style-type: none">• taken on increased conflict criminal cases with additional conflicts per case to manage• taken on new programs to assign lawyers for Minor Guardianship cases after a change in the law in 2021;• taken on new programs to assign lawyers for Vulnerable Adult Guardianship cases after a change in the law in 2022;• taken on a new program to assign lawyers in civil no contact order cases after a change in the law in 2022;• taken on additional criminal expert service requests;• three times as many criminal conflict panel contracts as we had in 2019, requiring continued work with county departments to generate and process new contracts;
Justification	<ul style="list-style-type: none">• processed 50% more invoices for legal work in 2023 as a result of change to hourly compensation for the conflict panel and increased expert witness invoicing;• taken on additional work related to the County’s financial system upgrade. The manual processing time that is required to upload supporting documents into the system, the multi-level approval process, and follow up has resulted in increased staff time and attention to comply with the County’s needs;• growing State Dependency workload/filing of petitions with no compensation;• maintaining growing in custody and out of custody workloads with Everett Municipal Court;• taken the lead in administering the Electronic Home Monitoring program for the County that used to reside in Corrections. <p>If there was an unwillingness to add an additional FTE, OPD will need some relief. Our staff have been stretched since COVID staffing reductions and increased workload. As an alternative, OPD requests additional funds be added to overtime.</p>

Change Request Summary

Department	0032 - Office of Public Defense
Change Request	AUTO - 179 - OPD- Overhead for Snoh. Co. Public Defender Association (SCPDA)
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:57 PM (PDT)
Description	<p>This priority package is for the Snoh. Co. Public Defender Association (SCPDA) Overhead costs for 2025-26 to maintain required overhead at SCPDA for current staffing levels. This funding is mandated by the Washington State Supreme Court and Washington State Bar Association Indigent Defense Standards. This priority package is both legally and contractually mandated.</p> <p>Snohomish County Office of Public Defense (OPD) manages the County’s constitutional mandate to provide efficiency and cost-savings to the county. This is driven by the responsive contract that SCPDA has with OPD. Under the contract with SCPDA, the County must pay for overhead needs. Indigent defense mandates require that the County provide for the management, supervision, clerical support, and overhead for indigent defense services.</p>
Summary	<p>The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is “effective assistance of counsel”. State standards codified by reference in S.C.C. 2.09 establish the measurements.</p>
Justification	<p>Washington State Bar Association (WSBA) standards for indigent defense, standard seven requires that administrative costs be provided for indigent defense counsel, including overhead. Recent litigation in both Grant County and Burlington and Mount Vernon also provide important guidance on funding levels for indigent defense to avoid litigation for failure to meet the County’s constitutional mandates.</p>

Change Request Summary

Department 0032 - Office of Public Defense
Change Request AUTO - 180 - OPD- Recruitment and Training for Snoh. Co. Public Defender Association
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 07:57 PM (PDT)
Description This request is for the Snohomish County Public Defender Association (SCPDA) to provide necessary training and recruitment. The package would allow SCPDA funds to develop a training plan, compensate trainers, and assure that their staff are meeting necessary qualifications and best practices. The package would also provide SCPDA with funds to recruit lawyers to fill future needs.

Summary
 SCPDA is one of the largest public defense agencies in Washington without an employee responsible for employee trainings. The county currently does not contribute to internal training despite imposing a contractual condition upon SCPDA to provide training. In past years, SCPDA and OPD have requested funds for a training coordinator. The position has been perennially denied. In 2023, the Council approved funds for a training supervisor at the Prosecutor’s Office. The position is for a senior DPA. Training is essential, particularly as the organization grows and there are increased expectations on lawyers. Given the historic lack of funding for a funding FTE, this package provides funding for SCPDA to compensate trainers for training programming.

Justification
RECRUITING
 The package provides additional funds to recruit new attorneys. There is a statewide shortage of public defenders that makes recruiting new attorneys challenging. Already many counties have faced lawyer shortages that have prevented cases from being timely prosecuted. While we have thus far avoided that problem, it’s folly to think we are immune from the same problems facing other counties. In addition, the Washington State Bar Association has promulgated revised Indigent Defense Caseload Standards which, when fully staffed, will require additional lawyers and staff. This package would allow SCPDA to get a start on recruiting to avoid any gaps in representation that would result in cases not being timely prosecuted. The funds would allow SCPDA to advertise positions nationally, fund travel to and from recruitment events at law schools and other events and develop a recruiting process that can be replicated annually, if needed.

Change Request Summary

Department: 0032 - Office of Public Defense
 Change Request: AUTO - 182 - OPD-Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:57 PM (PDT)

OPD proposes this reduction at the Executive’s request. OPD proposes to cut \$321,950.00 for the biennium and ask for forgiveness for the remainder of the budget reduction request. OPD proposes reductions from the following programs:
 The 2024 budgeted amount for Guardianship expert witness Fees is: \$30,900
 The 2024 budgeted amount for Minor Respondents in CPOs is: \$37,500
 The 2024 budgeted amount for Petitioners in CPOS is: \$92,575
 ANNUAL TOTAL:\$160,975

Description
DESCRIPTION:
 OPD has been asked to propose an annual 3% budget reduction. Three percent of OPD’s budget for the biennium is \$979,394.00. Because a majority of OPD’s resources are devoted to Constitutionally required services, it will be impossible for OPD to cut a million dollars from our budget without cutting our entire staff. The Snohomish County Office of Public Defense (OPD) manages the assignment of counsel for all offender and non-offender cases where the right to counsel attaches. This includes assignment of counsel in adult and juvenile criminal cases, juvenile offender cases, misdemeanor appeals and writs, child support enforcement contempt proceedings, and therapeutic courts. Representation in these cases is Constitutionally mandatory and cannot be cut without risk of legal exposure for violating the litigant’s rights.
 It is important to keep in mind that OPD does not drive its workload. Our office is responsive, and must meet the demands of case filings and associated legal mandates, including caseload capacity, expert services programs, and requiring that attorneys not take more than a maximum number of cases per year.
 Because OPD does not drive its workload, we cannot predict caseload filings. OPD continues to work diligently to use County dollars effectively and efficiently. However, a defendant has a right to counsel at all critical stages of a proceeding. This means that from the time charges are filed, a defendant who qualifies for counsel has a right to counsel at public expense. Improperly administered and monitored systems are what caused Grant County and the cities of Mount Vernon and Burlington to be found liable for failure to meet their constitutional mandates.
 OPD proposes cutting \$160,975.00 annually from it’s budget by cutting all funding from all of its non-Constitutionally mandated programs. The only non-Constitutionally mandate programs are representation for petitioners and youth respondents in No Contact Order cases and expert services for Guardianship cases.

Change Request	AUTO - 184 - OPD-Caseload Compliance
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:57 PM (PDT)
Description	<p>This package seeks to bring Snohomish County into compliance with the 2024 revised Indigent Defense Standards that will go into effect in July of 2025. OPD seeks \$2,487,843 to continue funds to bring OPD's primary contractor into compliance for 2025-26. In the event these necessary funds are not appropriated, OPD would still be Constitutionally required to provide lawyers for the accused. OPD would need to recruit additional private contracts at the estimated cost of \$3,062,585.98.</p> <p>2025-26 Snohomish County Public Defense Caseload Compliance Package Details: OPD has analyzed the 2023 criminal case filing and projects annual absolute bare minimum needs as follows: 2025 - starting in July of 2025: five (5) felony lawyers, one (1) social worker, one (1) legal assistant, and one (1) Human Resources/Finance Assistant (this one starting 1/1/25) 2026 – starting in July of 2026: five (5) felony lawyers, one (1) misdemeanor lawyer, one (1) investigator, and one (1) lawyer supervisor position</p>
Summary	

Justification

Standards Background: In March of 2024, the Washington State Bar Association revised its Indigent Defense Standards - see attached link. These revised standards of practice will go into effect in July of 2025. The caseload standards dictate that public defenders need more time per case to be effective for their clients. The previous caseload standards simply dictated that no felony attorney could represent more than 150 cases annually and no misdemeanor attorney could represent more than 300 cases. The revised standards cap caseloads at 47 weighted felony cases and 120 weighted misdemeanor cases. A "weighted case" is one which categorizes cases based on their complexity and the legal expertise required to represent a person charged. For example, in the former standards, each case was weighted the same, which means that it was assumed each case would take 12 hours to resolve, regardless of whether it was a cold case murder with 100,000 pages of evidence or a simple stolen vehicle case with one page of evidence and misdemeanor plea offer. The current standards are based on published national public defense caseload standards, which was itself based on 17 studies of the amount of time it takes public defense lawyers to represent people in 10 different categories of criminal cases (murder, sex offense, serious felony, DUI, etc.). In addition, the revised Standards require that public defense funders provide adequate funds to provide administrative and other support staff necessary to the operations of work demanded of the public defenders. Upon publication of the National Caseload Study, the Justice of the Washington State Supreme Court requested the Washington State Bar Association promulgate new public defense standards to respond to the increased demands placed upon public defenders.

In addition to making recommendations about attorney caseloads, the WSBA Standards have been revised to update language around support staff, including paralegals, legal assistants, investigators, and social work experts. In 2028, the last implementation phase requires that public defense firms employ investigators, social workers, and legal support staff at revised ratios designated by the Standards. The previous version of the standards required public defense providers to employ one investigator for every four lawyers. The revised standards change the ration to 3:1, enforceable in 2028. The Standards create a new required ration of 3:1 social workers and mitigation specialists.

The PD Caseload Standards also require that public defense funders fund public defense firms with the tools and human resources necessary to administer the contract. For larger firms, the Standards suggest the inclusion of positions like human resources staff, IT staff, data, and finance staff. Many Washington jurisdictions have seen the efficiency and value in providing these firm-related resources to public defense firms. For example, Thurston County Public Defenders are staffed with a Fiscal Manager and Accounting Assistant to address the fiscal needs of the unit. King County Department of Public Defense has its own Data Management and Communications staff to address requests for data from funders and the public. The Director of the Thurston, Pierce, King, and Spokane public defense offices have Executive Assistants to assist the Director with administrative tasks. Of additional notable comparison is the Snohomish County Prosecuting Attorney's Office (PAO). The PAO Criminal Division has a lawyer:staff ratio of 1:2, while the ratio at SCPDA 1:4. The WSBA Indigent Defendant Standards have demanded a ratio of 1:4 since 2012 and will be changing in 2028 to 1:3. Despite the existence of standards in public defense, prosecutors are still more successful than public defense at securing necessary support staff to complete its operations.

Snohomish Public Defense Background Request:

The package assembled reflects the minimums under the revised Standards to bring public defense into compliance. In addition to the attorney needs, OPD is advocating for a HR/Finance position at SCPDA and believes this is needed and necessary. OPD has historically annually asked the Executive to fund one non-attorney, non-required staff position to allow for growth of administrative staff at the Snohomish County Public Defender Association (SCPDA). The County has funded one position: a 2023 IT Support Staff. SCPDA's growth as an organization, and its ability to professionally respond to requests for data are limited by insufficient staff to provide the functions otherwise available to all other County departments and private law firms. The lack of a fiscal manager and human resource manager at the Public Defender Association is handicapping our ability to get needed data and forecast costs. Currently, when the County has requests for data, those requests are processed at SCPDA by the Director - there is not data support or even administrative staff to respond to requests.

Background impacts of not funding minimum standards:

If the County were to not fund SCPDA up to required standards, the agency could only take cases based on current staffing. Some contracts require agencies to take cases, regardless of staffing and caseload limits. Our contract with SCPDA is not like that. They are allowed and expected to refuse cases that would imperil their ability to certify their ethical compliance with the Standards. OPD has a pool of other lawyers qualified to take cases that SCPDA cannot. However, they are staffed to handle the amount of criminal legal conflicts that we forecast; they are not staffed to handle the volume of cases that would be assigned if SCPDA met its caseload capacity for its current staffing. If cases were sent to our panel of lawyers, we would need to contract with additional lawyers. This would result in an increased number of cases sent to contracted attorneys who OPD pays hourly for their representation. To meet this increased demand on the contract attorney panel, in 2025 OPD will need approximately \$3,062,585 in its Conflict Felony Attorney DAC code to manage this workload at the current filing rates.

Change Request Summary

Department: 0032 - Office of Public Defense
 Change Request: AUTO - 226 - OPD-Conflict Panel
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:03 PM (PDT)

This package adds \$100,000.00 annually to the Conflict Felony attorney fees. There has been an increase in the volume of cases and work sent to the panel. OPD asked for additional funds in 2022 and 2023. OPD will need \$100,000.00 in additional to the 2025 preloaded budget.

BACKGROUND

Description
 OPD is required to appoint counsel when the Snohomish County Public Defender Association (SCPDA), the County’s chief public defense contractor, cannot accept a criminal case assignment. A conflict occurs when there are co-defendants, former witnesses or victims represented by SCPDA, or where defendants allege conflicts with their lawyer. OPD traditionally has a list of attorneys with whom we contract to accept the cases that SCPDA cannot. OPD has historically had a flat rate for compensation for each Class of felony case. The 2022 audit found those flat rates to be non-competitive and impacting OPD’s ability to recruit and retain conflict panel lawyers.
 WSBA Indigent Defense Standard No 1 provides that “[f]or assigned counsel, reasonable compensation should be provided. Compensation should reflect the time and labor required to be spent by the attorney and the degree of professional experience demanded by the case.”
 OPD’s current panel is barely sufficient to cover the current volume of cases, but the amount of work per case has increased and we need additional funds to cover the volume of work. Currently, all qualified OPD conflict lawyers have refused multiple cases this year because they do not have capacity. If there were to be any increase in case filings or additional reductions in the availability of panel lawyers, OPD will not be able to meet the demand in filed cases. When OPD cannot assign a case to one of our panel contractors, we are still constitutional required to find counsel. Failure to provide constitutionally required counsel puts the County at risk of a lawsuit like the ones that occurred in Grant and Skagit counties.

Summary
 The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is “effective assistance of counsel.” State standards codified by reference in S.C.C. 2.09 establish the measurements.

Justification
 OPD is requesting funding to pay Conflict Panel Attorneys an hourly rate, consistent with WSBA Indigent Defense Standard No 1 provides that “[f]or assigned counsel, reasonable compensation should be provided. Compensation should reflect the time and labor required to be spent by the attorney and the degree of professional experience demanded by the case.” The goal is to retain attorneys and ensure they are compensated at a fair market rate, lessening the number of cases declined due to inadequate compensation.
 Snohomish County receives funds from the State Office of Public Defense for public defense improvement since 2007. RCW 10.101.050 requires that the Washington State Office of Public Defense “shall disburse appropriated funds to counties and cities for the purpose of improving the quality of public defense services.” RCW 10.101.50 requires the caveat that these funds must be used to “improve the quality of services” provided for indigent defense. This priority package for public defense improvements properly complies with RCW 10.101.050, as well as with the contract that Snohomish County signs with the State Office of Public Defense in order to receive these funds. With this funding, OPD and its contractors would come closer to complying with the Washington State Bar Association Indigent Defense Standard One.

Change Request Summary

Department: 0032 - Office of Public Defense
 Change Request: AUTO - 318 - OPD-Electronic Home Monitoring (EHM)
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:12 PM (PDT)

Description
 This package seeks \$300,000 for two years to continue the pilot project for pre- and post-trial Electronic Home Monitoring (EHM). In 2023, Council approved \$150,000 into OPD's expert services DAC to provide electronic home monitoring services to indigent defendants who were court ordered to be placed on home monitoring. Snohomish County previously had an in-house program for EHM, housed in Corrections, that was discontinued in 2012 through budget reductions. Council's appropriation followed years of court orders to the Office of Public Defense to fund EHM through our expert services program. Since the appropriation, OPD has worked with the Courts, public defenders, and probation to streamline a process for funding EHM and the implementation has gone off without a problem. The projected funding appears to be on target for need. The beneficiaries of this program are those indigent accused who are ordered to be on EHM and who cannot otherwise afford it. Without this program, a number of residents would have to spend their pretrial time in custody and away from their family and employment. Others use these funds to serve out their jail sentence through home detention monitored through EHM services. OPD is proposing this package with the knowledge and support of District Court. OPD believes the Court will also support this package.

Summary
 Accused persons have a Constitutional right to counsel based on the Washington and Federal Constitutions and relevant caselaw. Included in the right to counsel is the right to access the services of expert witnesses at public expense when the expert will materially assist counsel in representing the defendant's case. Judges have been ordering OPD to pay for these services under the legal theory that these EHM providers are experts who are assisting in the resolution of the case(s). Regardless of whether this service is funded, OPD will be required to comply with any court orders ordering OPD to pay for these services.

 Change Request: AUTO - 496 - OPD - Study for SCPDA Second division
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:21 PM (PDT)

Description
 This is a placeholder package for funds for an outside expert or auditor to study the efficiency and feasibility of sending work to SCPDA from our conflict panel attorneys. It is possible that Operational Excellence will be able to assist us, but if not, we may need funds to contract with an outside expert.
 Currently, when SCPDA cannot take a case because of a legal conflict, that case is sent to one of our conflict panel attorneys or law firm contracted with OPD. These conflict cases are billed at hourly rates and their experts (social workers, investigators, legal assistants) are also billed hourly. This has come at some cost to the County. The conflicts have also become challenging to administer given the limited availability of lawyers and the Court's need for counsel at a hearing on a specified date and time.
 One solution would be for SCPDA to separate into two divisions, one of which could handle the majority of our conflicts. This would allow SCPDA to, in essence, be able to absorb its own conflicts through an agency that is ethically screened from the other.
 If needed, this outside expert or auditor would assist OPD in determining whether sending this work to SCPDA would be an efficiency, and if so, how much of one.

Change Request Summary

Department: 0033 - Medical Examiner
 Change Request: AUTO - 219 - NMS
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:02 PM (PDT)
 Description: We request funding to DAC 0025333204168 in order to fund NMS Toxicology Testing.
 Summary:

Justification: We request \$30,000 funding to DAC 0025333204168 in order to fund NMS Toxicology Testing. We must use NMS services for rapid toxicology tests as the state (WSP) toxicology lab has turnaround times which threaten our accreditation which is required by law (RCW 36.24.210). Given that overdoses in the county continue to rise, we are forced to send more and more tests to NMS every year. The 124 CDMH funds \$103,350 of the NMS testing (maximum allowed by the 124 CDMH fund) but we have additional expenses from NMS that must be covered.

Publish Date	Jul 09, 2024 08:02 PM (PDT)
Description	We request an increase in DAC 124502333204128 to fund NMS Toxicology Testing to the extent allowed of 3.35% per year.
Summary	
Justification	We request a \$3,350 increase in DAC 124502333204128 to fund NMS Toxicology Testing (per the extent allowed of 3.35% per year). This would make the DAC funded at a total of \$103,350.00. We continue to utilize NMS for rapid toxicology testing. Given that the rate of fatal overdoses in the county continues to rise, we are forced to send more and more tests to NMS every year. We must use NMS instead of the state lab on cases where toxicology is concerned as the state lab's (WSP) turnaround time would threaten our RCW mandated accreditation (RCW 36.24.210).

 Change Request: AUTO - 28 - Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:45 PM (PDT)
 Description: The Medical Examiner's Office is asking for forgiveness of the 3% resource alignment.
 Summary:
 Justification: We are a small office that performs state mandated duties. Our budget is already very tight and a resource alignment would have a significant impact. The department still intends to make its best effort to create savings that can be returned at the end of the year, but it may be difficult to do so. Not having the pressure of a required savings would be appreciated, though savings will still be prioritized.

 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:14 PM (PDT)
 Description: This request is intended to cover expected 3% COLA increases for our employees funded by the 124 fund.
 Summary:

For 2025:

 Danielle Renshaw
 58838 = total salary + benefits
 3% of 58838 = 1765.14

 Kate Hagan 75% 124
 116088 total salary + benefits
 75% of 116088 = 87066
 3% of 87066 = 2611.98

 Desiree Marshall 60% 124
 360499 = total salary + benefits
 60% of 360499 = 216299.4
 3% of 216299.4 = 6488.982

 1765.14+2611.98+6488.982 = 10,866

Justification:

 For 2026: Assuming a slight increase over 2025, so estimating at \$11,200.

Change Request	AUTO - 38 - Invitae Genetic Test Funding
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:46 PM (PDT)
Description	We request funding to DAC 0025333204170 to cover the cost of occasional genetic testing on decedent's where the doctor deems the genetic testing necessary to determine the cause and manner of death.
Summary	
Justification	We request \$30,000 funding to DAC 0025333204170 to cover the cost of genetic testing on decedent's where the doctor deems the genetic testing necessary to determine the cause and manner of death. Cases where the cause of death cannot be determined solely from an autopsy and toxicology testing often require genetic testing. The cost of genetic testing has increased significantly and therefore we would like to allocate funds dedicated to those costs.

Change Request Summary

Department 0036 - Superior Court
Change Request AUTO - 101 - Superior Court initiated reclass - Legal Process Assistant II
Change Request Type Position Adjustments
Change Request Status Department Submitted
Publish Date Jul 09, 2024 07:49 PM (PDT)
Description This change request will reclass the Court's four Legal Process Assistant II positions.
Summary

Justification Our Legal Process Assistant II (LPA II) positions support important probation functions and court operations within our Juvenile Court Division. This group is deserving of reclassification. The duties of this unit have evolved significantly since the inception of electronic files and further integration of technology into their responsibilities has consistently happened since the pandemic. Their roles have changed in such a way that we believe a reclassification is necessary at this time. Additionally, the same set of positions within District Court were reclassified in January 2022 but an oversight left our positions without any similar consideration. This is unacceptable and creates inequity between the District Court and Superior Court for the exact same position which perform the same set of duties without equivalent compensation. A reclassification of these positions should be conducted to correct this oversight. One additional position of Legal Process Records Coordinator is included within this work unit but performs slightly more sophisticated duties. This position will need to be increased one step above the LPA II reclassification.

Department 0036 - Superior Court
Change Request AUTO - 127 - Superior Court initiated reclass - Managers
Change Request Type Position Adjustments
Change Request Status Department Submitted
Publish Date Jul 09, 2024 07:50 PM (PDT)
Description Reclass all Superior Court managers.
Summary

Justification The Snohomish County Superior Court Clerk’s Office employs several managers that are currently classified at pay grade 111. Our Superior Court managers perform the same types of managerial activities as their counterparts in the Superior Court Clerk’s Office, but some of our managers are classified at a pay grade of 110 and some of our managers are classified below a pay grade of 110. This current scheme creates both internal and external inequity. We are recommending that all Superior Court managers are reclassified at a pay grade 111 to create harmony with other manager positions across the County, including the Superior Court Clerk managers. This change will impact 5 positions in total. Those positions are the Recovery Court Manager, Casflow Manager, Programs Manager, Probation Manager and Detention Manager. If this reclassification is approved, this will have a cascading impact for other administrative positions within our leadership team based on our current pay structure. Our Technology Manager, Human Resources Manager and Budget Manager will need to be adjusted to a pay grade of 112. This will also result in the Assistant Court Administrators for Juvenile Court and Superior Court needing increase to pay grade 113.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 355 - Increase is CDMH fund
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:14 PM (PDT)

Description: This change request updates the reimbursable salaries and benefits of those employees who expend time and effort supporting the goals and programs of the CDMH fund.

Summary: It has been several years since the Court has updated it's time and effort expended on serving the County's population who are involved with programs/services/casework which fall within the scope of the CDMH fund. As the County's population grows, so does the number of participants. Over the past several years, we have witnessed an above average growth of the number of programs and cases our staff support for the community.

Justification: Since 2019, the Court has experienced a 26% increase in the number ITA cases bringing a total caseload of 1665 to 2100 and we project this number will continue to grow over the next several years.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 396 - Interpreter Budget Increase
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:15 PM (PDT)
 Description: This change request will fully fund the Court's expenses for legally mandated interpreter services.
 Summary:

Justification: Under Chapter 2.42 RCW and Chapter 2.43 RCW, Title VI of the Civil Rights Act of 1964, the Omnibus Crime Control and Safe Streets Act of 1968, the Americans with Disabilities Act (ADA), and the regulations implementing these federal laws, Washington courts are required to provide language access services to all Limited English Proficient (LEP) and Deaf, Hard of Hearing and deaf-blind (D/HH/DB) individuals. Snohomish County Superior Court is committed to providing quality and timely foreign and sign language interpreter services to LEP and D/HH/DB parties, witnesses, victims and others with a legal interest such as parents, legal guardians or custodians in all court proceedings and operations, both civil and criminal.

The cost of and demand for interpreter services has increased exponentially in the last few years. So far in 2024, Superior Court has experienced a 45% increase in the frequency of paid interpreter assignments and services, as well as a 57% increase in cost over the prior year. Snohomish County Superior Court cannot absorb this impact within the appropriated budget. An increase in the funding for interpreters services is imperative to ensure all court users have equal access to justice.

Change Request Summary

Department	0036 - Superior Court
Change Request	AUTO - 44 - CART Services (Communication Access Realtime Translation)
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:47 PM (PDT)
Description	This change request provides funding for required services for translation mandated by the Americans with Disabilities Act, General Rule 33 as well as RCW.
Summary	Title II of the Americans with Disabilities Act and State Court General Rule 33 require Superior Court to provide accommodations to make each court service, program or activity readily accessible to and usable by a person with a disability. This includes 'furnishing, at no charge, auxiliary aids and services, including but not limited to equipment, devices, materials in alternative formats, qualified interpreters, or readers...' (GR 33(a)(1)(B).
Justification	Communication Access Realtime Transcription (CART) services have been required as an accommodation for deaf or hard of hearing parties to access court proceedings with increasing frequency over the past two years. CART services must be provided by a CART certified reporter or by a qualified interpreter as designated by the office of deaf services (RCW 2.42.130). Without dedicated funding for this purpose, the court spent \$18,881 on CART services in 2023.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 45 - Coordinated Therapeutic Response Project
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: Request for funds to continue the Coordinated Therapeutic Response Project
 Summary:

Justification: In October 2022 the Center for Justice Innovations (CJI) completed a needs assessment of the Snohomish County therapeutic court/programs and justice system. The assessment reviewed the current state of programs, process, and eligibility criteria and identified areas in need of development to accelerate the assessment of behavioral health needs, referrals to therapeutic programs, and support cross-system collaboration. In 2023 CJI was awarded the Coordinated Therapeutic Courts Project Contract to coordinate a strategic and implementation plan for coordination of services for therapeutic courts and programs. These services will be used for enhanced cross-system collaboration within the criminal justice system and to accelerate the identification of behavioral health needs and referrals to therapeutic courts and programs. In January 2024 the project coordinated a Sequential Intercept Model Workshop to identify resources and gaps along the intercept points from community to prison re-entry. The project's next phase is engaging in stakeholder conversations for strategic planning. The project began in July 2023 and the projected end date is June 2025. The two-year project contract with the Center for Justice Innovations is for \$225,000. Funds of \$50,000 were allocated for 2023 and \$150,000 for 2024. As of February 2024, the project's total expenditure is \$30,000. The request is for the allocation of funds in the 2025 budget for the continuation of the project through June 2025.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 46 - Drug Testing
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: Increased costs of required drug testing for participants within Recovery Court.
 Summary:

Justification: All Rise (FKA: National Association of Drug Court Professionals) produced the Adult Drug Court Best Practice Standards through years of research by national experts. The standards provide courts the statements on the core principles of best practice, observable and measurable best practice recommendations, and research commentary and evidence-based guidance on how to implement them in the day-to-day operations. The best practice provides recommendations for drug and alcohol testing that provides accurate, timely, and comprehensive assessment of unauthorized substance use while in a treatment court. Snohomish County Adult and Family Recovery Courts' drug and alcohol testing procedures adhere to the best practice guidelines for providing frequent, random, observed, validated, accurate, and reliable testing. As drug trends evolve, so must the response to drug testing. The opioid crisis has evolved the Recovery Court's drug testing practice and increased testing costs. The additional testing in response to the opioid crisis is essential in providing accurate and timely results to assess the therapeutic needs of a participant. A drug testing panel including Fentanyl increases the costs by 20%. The impacts of the pandemic and inflation rates have increased drug testing collection rates by 50%. The Recovery Courts have been able to absorb the increase in drug testing costs due to a lower program census from the impact of the pandemic. The Recovery Courts censuses are increasing and projected to be pre-pandemic numbers in 2025. Sustaining adherence to best practice standards will not occur without an increase in funding to match the increased costs for testing and inflation.

Change Request Summary

Department	0036 - Superior Court
Change Request	AUTO - 47 - GAL/CV Rate Increase
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:47 PM (PDT)
Description	Hourly rate increase for appointed Guardian Ad Litem and Court Visitor.
Summary	

In the past 3 years, we have lost 61% of our county-pay GALs and CVs.

Justification

Guardians Ad Litem (GALs) and Court Visitors (CVs) are appointed at public expense for parties determined to be indigent. GALs and CVs perform the difficult and important task of safeguarding the wellbeing of children and vulnerable adults. Our GALs and CVs provide a voice for those who cannot speak for themselves, strengthening our community by safeguarding families and defending people from unwanted/unjustified guardianships. Following the implementation of Chapter 11.130 RCW in January 2022, the court is statutorily required to appoint CVs in most guardianship cases that are filed. GAL and CV appointments at county expense are no less important than those compensated at the much higher, private pay rates. Currently, the court is experiencing record lows in the number of GALs and CVs on county-pay registries. In fact, there are only 3 active GALs for minor guardianship cases in Snohomish County. County pay rates for compensation are low. Title 26 GALs are compensated at \$65 per hour, title 11 GAL/CVs receive \$50 per hour. Comparatively, King County pays both Title 26 and Title 11 GALs \$70/hour. Superior Court's rates have not been enough to retain people on our county registries. Currently, we don't have enough Title 11 GALs or CVs to fill the needs and cases are languishing while waiting on an appointment. We have also experienced periods where there are not enough Title 26 GALs to meet the needs of family law cases. Many former GALs and CVs have cited poor compensation as a determining factor for removing themselves from our registries. The individuals that are still willing to take county pay cases are providing their services despite the low compensation, essentially as an act of subsidized public service. An increase in rates must be considered if we are to retain the GALs and CVs that are willing to engage in this statutorily mandated work.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 48 - Mileage Reimbursement for Court Interpreters
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: Provide Court Interpreters reimbursement for mileage traveled to perform interpreting services.
 Summary:

Justification: Snohomish County Superior Court and District Court have a shared payment policy for court interpreters. This shared policy prevents Superior and District Courts from competing with each other for interpreter services. Currently, the travel payment policy for interpreters provides reimbursement for one-way mileage from residence or previous job location to the assignment location. District Court has indicated they would like to change the travel portion of the payment policy to provide round-trip mileage reimbursement to in-person interpreters. This change to the policy would make Snohomish County more competitive with surrounding courts. In-person interpreters are still required for many types of court hearings, including trials, where remote services are not a reasonable or acceptable substitute. In 2023, Superior Court paid for almost 21,000 miles. The cost of this increase cannot be absorbed by the current budget for interpreter services.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 49 - Recovery Court Housing Support
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: Provide housing support for those participating in Recovery Court.
 Summary:

Justification: The Adult and Family Recovery Courts' purpose is to reduce recidivism, increase child safety, and reunite families by providing therapeutic and legal services for adults affected by substance use disorder and involved with the criminal justice and child welfare system. All Rise (FKA: National Association of Drug Court Professionals) produced the Adult Drug Court Best Practice Standards through years of research by national experts. The standards provide courts the statements on the core principles of best practice, observable and measurable best practice recommendations, and research commentary and evidence-based guidance on how to implement them in the day-to-day operations. Best Practice Standards reports increasing a person's Recovery Capital has been shown to produce significantly longer intervals of drug abstinence, less crime, and fewer legal and psychiatric problems. Recovery Capital is a person's physical capital (basic human needs, housing, transportation), social capital (person's support relationships) and community capital (access to services, pro-social activities, mentorship). The Recovery Courts assess a person's Recovery Capital throughout the program and provide services to increase Recovery Capital to produce better outcomes for sustainable recovery. The services include housing support at sober residences and recovery support services for clothing, household goods, education, and essential needs. A Recovery Court housing voucher provides 6-month rental assistance (3 months 100%, 1 month 75%, 1 month 50%, 1 month 25%) to a state-certified sober residence, Oxford Housing, and program-approved recovery residence. The recovery house rent has continually increased over the last two years. The average housing voucher is \$3,800 per participant. The funding request would support 10 vouchers in the Adult Recovery Court and 4 vouchers in the Family Recovery Court, plus additional funds for recovery support services.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 50 - Superior Court Commissioner Coverage
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: Provides appropriate funding to cover accrued leave time for all Superior Court Commissioners.
 Summary:

Justification: The Courts extra help appropriation is spent on pro tem coverage for court commissioners' personal leave, which will total 180 days in 2025 and 2026. Our current appropriation for pro tem commissioners does not meet this need for coverage. The 2023 appropriation for extra help was \$103,073. The cost of providing coverage for the six Superior Court Commissioners totals \$158,020 (8 hours per day x 210 days x \$94.06/hour). This amount reflects the Court's actual cost to provide commissioner coverage for personal leave. These costs are necessary to cover the personal leave that the Commissioners are entitled to take on a yearly basis. The volume of their calendars requires Pro Tem coverage in their absence. The Court has made significant changes to our Commissioner calendars in an effort to consolidate and reduce the need for coverage. There is no capacity for additional consolidation or further adjustment at this time. We will continue to implement principles of effectiveness wherever possible, and we request the commensurate amount of funds to cover personnel leave.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 51 - ProTem Protection Order Case Preparation Pay
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: This change request provides funding for the Court's Pro Tem Judicial Officers time preparing for protection order cases.
 Summary:

Justification: This request pertains to additional time for pro tem judicial officers to prepare for Protection Order matters. Our court commissioners require coverage whenever they are away from the office. The coverage is provided by qualified and approved attorneys that functions as pro tem judicial officers. These pro tem judicial officers will provide coverage for various types of court calendars including Protection Order proceedings. Protection Order matters are becoming much more complex and the amount of proceedings is also increasing. The evidence that is being presented in support or against a Protection Order request requires more time to review prior to hearing. We provide compensation for pro tem judicial officers to prepare for hearings, but the current amount is inadequate for Protection Order matters. We are requesting resources to support 1.5 hours of additional preparation time for pro tem judicial officers to review Protection Order matters before hearing. We are not requesting additional resources for review of any other type of proceeding at this time. This request applies solely to preparation for Protection Order matters.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 517 - Superior Court Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:22 PM (PDT)
 Description: This change request addresses the resource alignment entered into the 2025/2026 pro forma budget.
 Summary:

The Court was given a resource allocation line of \$827,249 which equates to 3% of the overall budget in its general fund. As in years past, the Court will manage the resource allocation amount by offsetting it with increased revenues lines, salary savings by strategically managing attrition, and by eliminating the spending on selected line items.

The Court has always worked with the County to ensure our spending is inline with the basic business needs of the Court. As costs for basic business needs continue to increase, we have experienced shortfalls with the funding we receive from the County so this resource allocation amount for 2025/2026 biennium will compound the effects the Court will experience as a result.

Justification: The resource allocation will impact the Court's business in the following ways:

- All travel for professional conferences attended for continuing education will be eliminated.
- All training will be eliminated.
- Specific budget lines that relate to medical supplies and hygiene for the youth in detention will be reduced as well as the reduction in supplies used in the performance of duty for our detention staff.
- We will strategically hold positions vacant when the Court experiences natural attrition and by doing so, services the Court provides will be impacted causing greater case backlog in both the Juvenile Probation division as well as regular Superior Court cases.
- The community's access to the Court will suffer due to reduction in service as the Court is short staffed and the required budget cut will mandate a change in staffing as the Court cannot manage the reduction without impacting staff.

The Court respectfully requests the resource alignment amount be removed from it's budget as the impact is too great for the Court as well as the citizens of Snohomish County.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 519 - Superior Court IT Partner-FTR System
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:22 PM (PDT)

Description: This is a partner package with IT Request #359 and provides continuing funding for an already established program for the Court's new FTR system.
 Summary:

Justification: FTR (For the Record) provided real time translation from spoken work to text. This is used in the courtroom as an accommodation for hearing impaired individuals as well as a backup when an official court reporter is not available. At this time, IT and the Court worked together to bring FTR online in three Juvenile courtrooms as well as two Superior Court courtrooms. Utilizing this system reduces the costs of providing a contractor to support the work of translating spoken word to text. In the future, the Court plans to implement FTR in several more courtrooms but at this time, the Court would like to request continued funding for what we have in place.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 52 - Electronic Home Monitoring - Juvenile Court
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: This change request provides funding to establish an electronic home monitoring program for Snohomish County Juvenile Court.
 Summary:

Justification: Preserving community safety while balancing the rehabilitation of juveniles is a core value of our Juvenile Court. Our Juvenile Court is committed to using detention as a last resort whenever a youth is unable to be safely managed within the community. Intermediate options that are available to our Juvenile Court Judges are essential in limiting the use of detention. Electric home monitoring (EHM) provides an intermediate option for youth to stay in their community while being monitored and held accountable to conditions of release. Our Juvenile Court is interested in providing this service in order to continue limiting the use of detention and finding alternative ways to safely manage youth in our community.

Change Request Summary

Department: 0036 - Superior Court
Change Request: AUTO - 53 - Accessibility (ADA) Specialist - Project Position
Change Request Type: Standard Change Package
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 07:47 PM (PDT)
Description: The Court requires an additional FTE to provide this federally mandated service to the public.
Summary:

Justification

Title II of the Americans with Disabilities Act (ADA) and State Court General Rule 33 (GR 33) require Superior Court to provide accommodations to make each court service, program or activity readily accessible to and usable by a person with a disability. This includes 'making reasonable modifications in policies, practices, and procedures' (GR33(a)(1)(A)) as well as 'furnishing, at no charge, auxiliary aids and services, including but not limited to equipment, devices, materials in alternative formats, qualified interpreters, or readers...' (GR 33(a)(1)(B)). The intent of the ADA and GR 33 are to provide individuals with case and person specific accommodations. This means that each request is accompanied by a unique set of circumstances and no two accommodation requests or approvals are exactly the same. Additionally, in a litigation setting, where the Court must remain fair and impartial, Title II accommodation requests must be viewed with an additional lens to ensure the accommodation does not prejudice the other party(ies).

Title II of the ADA requires that any state or local government that has 50 employees or more is required to designate at least one employee responsible for coordinating compliance with the ADA and investigating ADA complaints. Given the Court's unique requirements under the ADA and GR 33, it is important that the Court maintains its own trained and specialized ADA specialist to ensure compliance. Five years ago, the Court received less than 20 requests for accommodation each year and was able to assign this responsibility to an existing employee within its current governance structure. The Court has seen an average increase in requests for accommodation of 27% each year for the past five years. In 2023, the court received 51 requests for accommodation. Based upon the current volume of requests in 2024, the Court is projected to receive 96 accommodation requests this year. It is estimated that each accommodation request requires at least one week to resolve, while more complicated or unique requests can take several weeks to address. The staff that is currently designated as the ADA Specialist under Title II of the ADA can no longer absorb the frequency and breadth of these requests within their current role.

The Court requires an additional FTE to provide this federally mandated service to the public. The Court must remain able to respond to requests on short notice to avoid unnecessary delays in case management and resolution. If the Court cannot respond to and accommodate requests under the ADA on short notice, it will create unnecessary barriers to resolution for the parties seeking relief. Additionally, the U.S. Department of Justice Civil Rights Division recommends that the ADA specialist has adequate time to address accommodation requests as well as familiarity with government structure and activities, all ADA laws and rules, alternative formats and technologies that enable people with disabilities to communicate, participate and perform tasks, local disability advocacy groups, experience working with people with a broad range of disabilities and skills and training in negotiation and mediation. Without dedicated accessibility staff, the Court is unable to meet these requirements. ADA Best Practices Tool Kit for State and Local Governments

The Court is also aware that the U.S. Department of Justice Civil Rights Division has published a notice of proposed rulemaking that would require the Court to adopt the Web Content Accessibility Guidelines (<https://www.w3.org/TR/WCAG21/>), comply with the technical standards for web content and mobile apps, and comply with the technical standards for all digitally accessible forms and documents. For a government entity of our size, the Court would only have two years to comply with these guidelines after publication of the final rule. The Court currently maintains vast amounts of web content and hundreds of digitally accessible forms and documents. The work required to update and comply with the proposed accessibility guidelines must begin now.

In order to comply with federal law, the court must be afforded a 1.0 FTE dedicated to accessibility accommodations and requirements.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 55 - Additional Accounting Specialist
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: This request provides additional support to the Court's finance team.
 Summary:

The fiscal functions performed within the finance division of The Superior Court have increased in number and processing time. This increase has placed a significant strain on the daily completion of the Court's fiscal duties, up to and including processing invoice payments past 30 days. Since 2020, the Court's invoice count has increased by 65%, which translates to the processing of 5,545 more invoices in 2023 versus 2020. The recent upgrade to the County's financial system has also impacted the Court's fiscal staff in two ways:

Justification:

1. The average processing time of our Accounts Payable items has increased by 35% with the additional mandate to upload each payment's source of backup into the program. This additional step has our staff manually importing these documents, which is an added process since the upgrade.
2. Due to the upgrade and its requirement for electronic approval routing, the task of processing the thousands of Jury Payroll payments has been reassigned to the Court's fiscal staff. This process has been a partnership between the Clerk's Office and Central Finance, but now, it includes the Superior Court. The additional work associated with processing Jury Payroll has made a tremendous impact to the Court's fiscal staff. Our time and effort study has indicated an additional work increase of up to 4 hours per week, which reduces the overall capacity of our staff by 10% each week. The volume of financial transactions processed by the Court has substantially changed in sophistication as well as time commitment, and this has placed a strain on the staff within the fiscal team. This strain has had a recognizable impact to the number of tasks our staff can complete each week as well as hindered our ability to provide our community partners with timely payment. The most significant impact has been with our employees as they have been challenged with providing the same work results while being impacted by volume increases as well as added entry and reporting requirements.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 56 - Nursing Services
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: This change request will provide funding to fully cover the costs of providing mandated nursing services to the youth in detention.
 Summary:

In 2023, we switched from having two staff RNs and a contracted ARNP, to using all contracted medical staff. The budgeted salary and benefit amounts for the two staff RNs was reallocated moved to the professional services budget to pay for the contracted medical staff. At year end, we found that Medical Services costs were much higher than our budget; the total expenditure for 2023 was \$319,546. When the Court moved to contacted medical staff, the budget was set based on having licensed practical nurses (LPN) at \$72.73 per hour. The agency we use cannot find any LPNs, and per their report, LPN training programs have been phased out in this region in favor of RN programs. As a result, Registered Nurses (RN) cost us \$109.09 an hour. When the agency cannot find us coverage from an RN, detention supervisors have to consult our on-call Advanced Registered Nurse Practitioner (ARNP), at a rate of \$202/ per hour, 2.5 times the rate in our budget for LPN coverage. The agency has also sent an ARNP to cover onsite needs when no RN is available.

Justification: Additionally, reducing staffing hours or moving to a split shift to reduce costs results in the inability to get coverage. Nursing is an incredibly competitive field that has opportunities for nurses that often provide superior pay, experience and growth opportunities than contract positions in our facility. Even with increased costs, we are struggling to maintain consistent coverage.

\$109.09/hour x 2080 hours x 2 RN positions = \$453,814
 4 hours/week ARNP x \$202/hour x 56 weeks = \$45,248
 Total cost of nursing = \$499,062
 Current nursing appropriation - \$300,000
 Difference = \$199,062

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 57 - Additional Juvenile Detention Officers
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: This change request adds two new Juvenile Detention Officers.
 Summary:

Justification

Overtime in secure detention continues to be a large annual expense. There are many reasons for this including:

- The availability of WA PFML to staff, allowing up to three months off annually while being paid by the state. An analysis shows that since 2020 when WA PFML started, it has been used 34 times by 19 JDOs. While we believe this benefit is impacting all coverage needs across the county, this has a disproportionate impact on the detention facility as a 24/7 operation with no ability to work remotely.
- Our aging workforce is taking more medical leave for themselves and is doing more caregiving for elderly family members. They additionally have robust leave banks (in addition to WA PFML) that require coverage needs.
- The types of youth in our facility have changed: there are longer stays, more class A violent youth, many with mental health needs and drug use, and a high number of keep separates resulting in needing more staffing for keeping additional units open and the inability to run at a lower rate of staff when call outs occur.

By adding two additional JDO positions, there will be more robust regular staffing coverage and more unexpected absences will be covered without incurring overtime costs. In 2015 we had 46 detention officers, in 2018 we had 39, and in 2022 we had 31. We attempted to find temporary/on call people to fill in as needed, however, we are unable to find anyone willing to take the on-call position. The preliminary 2023 year-end budget report shows we spent \$370,083 in JDO overtime last year, exceeding our overtime budget by \$70,083. While we recognize that we still have a high staff to youth ratio, due to the building being built to house upwards of 100 youth and contract agreements with language that supported operations of this large and populous facility, we are limited in how we can repurpose staff without compromising safety, missing posts or breaching contract language.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 58 - Additional Juvenile Probation Counselors
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: The change request will provide two additional Probation Counselors.
 Summary:

Justification:

- Caseload sizes have steadily increased over the course of the last year.
 - o Current average number of youth per caseload: 36-40 youth
 - Numbers have remained steadily in this range since October 2022. January 2024 average number of youth per caseload is up to 42.
 - o We have 5 JPC's (2 Classification, 1 Truancy, 2 ARY/CHINS) who historically have not carried official caseloads. They are all carrying cases currently to ensure youth needs are being met. This keeps us from serving ARY/CHINS, Truancy and detention youth to the extent we would like.
 - o These caseload numbers coupled with the increase in workload now required per case (see below) are resulting in extraordinarily high workloads, even for very experienced JPC's.
- Pre-Adjudicated Cases: JPC's are now supervising far more pre-adjudicated youth and for longer periods of time than ever before. Because youth are being released from detention that would have historically have been held in detention, JPC's are supervising pre-adjudicated youth with very high needs who are much higher risk than in the past.
- Diversions that historically were only offered to low-risk youth with a limit to the number of diversions each youth could receive has changed. Youth are now eligible for unlimited diversions for up to a year each and these are offered to moderate/high risk youth with felonies.
- Increased CMAP-MI Requirements: The State no longer requires JPC's to complete just one level of certification to be compliant with CMAP-MI requirements. JPC's must now pass three different certifications with more possibly to come. The requirements for what is now required as part of this process benefits youth and works to decrease recidivism. The trade-off is that it takes more time to prepare and execute efficiently. Training needs to ensure JPC's are skilled enough to deliver this effective approach has also increased, adding to workload.
- Increased Filings: Snohomish County is the only county in WA that did not experience a decrease in offender filings during COVID. Snohomish County experienced and increase in filings and this trend has not decreased. We are seeing an increase in firearms, felony vehicle theft and other serious offenses that pose a danger to the community, yet we are typically not incarcerating these youth for extended periods of time.
- Most other counties in Washington have a standard 9-month community supervision range, but we have kept a 6-month community supervision standard. We need to move to a 9-month community supervision standard in order to meet the needs of the community and youth, but this will further increase caseload size.
- JPC's in Snohomish County are actively involved with the court process, per RCW guidance. This takes up additional time compared to the ways in which other counties may allocate time.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 60 - Spanish Staff Interpreter
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 07:47 PM (PDT)
 Description: This change request adds a Spanish staff interpreter to the Court.
 Summary:

Superior Court provides thousands of hours of Spanish interpreting services for litigants in court proceedings or activities each year. Approximately 65% of the Court’s interpreter budget is spent on Spanish interpreting services alone. In recent years, Superior Court has scheduled Spanish interpreters for approximately 1,200 assignments and paid out an average of 8.73 hours per day. From 2022 to 2023, the Snohomish County Court System’s need for Spanish interpreting services grew by 18.6%. The law requires our Court to use court certified interpreters whenever possible and parties routinely object to the use of uncertified interpreters. These challenges can result in delays to various proceedings, particularly trials. State court rules require that any court activity lasting longer than 1 hour, including trials and extended hearings, have two interpreters for in order to prevent interpreting fatigue. The court must manage the need for interpreters in trials as well as non-trial proceedings throughout 23 courtrooms. Our court has often had difficulty in securing enough state certified interpreters to fill every need each day, resulting in unnecessary delays. In addition to interpreter needs in the courtroom, we are seeing an increasing need to provide interpreter services outside the courtroom. Providing access to justice includes our ability to help non-English speaking individuals before they ever reach the court room.

We believe this position will provide flexibility in scheduling interpreting services for many non-trial proceedings. We expect to realize increased cost effectiveness, fewer scheduling arrangements, and increased availability for the interpreter community to cover trials. In addition, the staff interpreter will provide document translation services, increasing language access for pro se LEP parties. A staff interpreter will assist the court in producing and maintaining Spanish translations of all local court forms, provide walk-in and ad-hoc services for sight translation of English forms and for translation of Spanish materials submitted to the court for review. The staff interpreter would also be able to provide consistent services for Spanish speaking parties involved in therapeutic courts, improving the therapeutic relationship and increasing access to these programs. Currently, the court must pay a two-hour minimum to certified interpreters even if the hearing only lasts 20 minutes. By utilizing a staff interpreter and translator, we can better use county funds for the remainder of that two-hour payment, while providing expanded access to court services for the Spanish-speaking community. Additionally, with the prevalence of remote hearings in courts across the country, the Court is now competing with other states, counties and municipalities for credentialed interpreters. Pierce County Superior Court has raised their rates to \$75 an hour, which in turn will cause surrounding courts to do the same. These cascading increases to remain competitive cannot be absorbed within the court’s current budget. Compared to the first quarter of 2023, Superior Court has experienced a 45% increase in the frequency of interpreter assignments and a 57% increase in cost. The Court estimates that a Spanish interpreter would be able to cover at least 550 hours currently attributed to non-trial hearings. This means that interpreter services expenditures of approximately \$35,750 would be absorbed by the duties of the staff interpreter. Additionally, this position decreased the amount the court needed to request for translation of documents.

Change Request Summary

Department: 0036 - Superior Court
Change Request: AUTO - 63 - Superior Court initiated reclass-Judicial Coordinators
Change Request Type: Position Adjustments
Change Request Status: Department Submitted
Publish Date: Jul 09, 2024 07:47 PM (PDT)

Description: Reclass 8 Judicial Coordinator positions within Superior Court.

Summary:
Justification: Judicial Coordinators perform pivotal work for our Superior Court operations. Their breadth of duties include confirmations, jury management, arbitration, interpreter coordination, trial scheduling, guardian ad litem organization and commissioner support. This group consists of 8 employees and also a Lead position. Their pay classification was set 24 years ago, but their functions and responsibilities have changed dramatically with the expansion of our court operations. Our Superior Court bench was comprised of 14 judges and 4 court commissioners in 2000 when the Judicial Coordinator salary was last established. The bench has grown by 3 judges and 2 court commissioners since that time. This increase in judicial officers has resulted in more support necessary for court operations. The Judicial Coordinators encompass this foundation of support for our court operations. Changing legislation, increased use of technology and expansion of operations over the last 24 years have resulted in a more complex and more sophisticated set of duties for the Judicial Coordinators. Additionally, there are equivalent counterparts throughout the County and within our Court that are paid higher than our Judicial Coordinators. Paralegals in the Prosecuting Attorney's Office and the Court Coordinator within our Juvenile Court division are currently classified at a pay grade 238. We are requesting that our Judicial Coordinators are paid at this same classification.

Change Request Summary

Department 0037 - Clerk
Change Request AUTO - 444 - Clerk's Office Resource Alignment
Change Request Type Resource Alignment
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:19 PM (PDT)
Description Description on how the Clerk's Office intends to achieve the annual Resource Alignment reduction of \$292,527.
Summary

In our 2025 and 2026 Pro Forma budgets, we are tasked with meeting a Resource Alignment to achieve a 3% reduction in expenditures each year. We anticipate achieving the 3% reduction each year through salary savings.

The Clerk's Office has experienced a high turnover rate and many vacancies since 2021, with most of those vacancies in the Court Operations/Courtroom Clerk division. Several courtroom clerk positions continue to remain unfilled due to the limited number of experienced trainers and training opportunities available, as well as the extensive training involved to ensure clerks can work independently in a courtroom setting. This, combined with normal turnover and a limited pool of qualified applicants, has caused us to experience a higher level of vacancies than preferred. Each of the Clerk's Office FTE positions continue to be necessary to ensure we are performing our mandated duties while continuing to provide a high level of service to the community we serve.

The targeted reduction amount of \$292,527 per year is equal to approximately 3.2 FTEs. This equates to any cumulative combination of vacancies totaling 38 months to accomplish the necessary reduction. To help meet the 3% reduction, we will monitor vacancies, and, if needed, will delay posting vacant positions in order to achieve the intended reduction. Additionally, we will continue to manage all operational costs to ensure we meet the targeted budget reduction.

Change Request Summary

Department: 0037 - Clerk
 Change Request: AUTO - 445 - Salary Contingency 1/10 of 1% Sales Tax Funded Positions
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:19 PM (PDT)
 Description: Request to increase funding in Fund 124 (1/10 1% Sales Tax) to support recently bargained salary increases and COLAs for positions that perform mandated duties in Chemical Dependency / Mental Health cases.

Summary: Due to the increased salaries as a result of the recently ratified SCCA bargaining agreement, we are requesting Salary Contingency funds to support positions funded under Fund 124 - 1/10% of 1% Sales Tax. Additionally, the bargaining agreement allows for a COLA each year equal to the CPI-W ranging from 1%-5%. As a result, we are requesting salary contingency funding to support the anticipated 5% COLA increases each year.

Justification: The 2025 and 2026 funding for regular salaries in Fund 124 currently amounts to \$386,557. This amount is reflective of the 2023 wages prior to ratification of the 2024 SCCA labor agreement. After implementation of the 2024 labor agreement (effective date of 1/1/2024), salaries are estimated to be \$414,424. The salary contingency funding request for 2025 includes \$27,867 to cover the contracted regular salary increases plus \$20,721 for the anticipated 5% COLA increase in 2025. The salary contingency funding request for 2026 includes the same amounts requested in 2025 plus an additional \$21,757 to cover the anticipated 5% COLA increase in 2026.

The salary adjustment will also result in an increase in our personnel benefits, but we are prepared to absorb that increase in the 2025-2026 biennium.

Change Request Summary

Department	0037 - Clerk
Change Request	AUTO - 447 - Increase Position #CLK2009R from .5 FTE to 1.0 FTE
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:19 PM (PDT)
Description	Request to increase Judicial Process Assistant-DJJC position #CLK2009R from a .5 FTE to a 1.0 FTE to support the Clerk's Office Juvenile division at the Denney Juvenile Justice Center (DJJC).

Summary

The Clerk's Office Juvenile division has undergone significant changes and growth since 2021, evolving into a fully functional satellite office that is responsible for handling a variety of mandated duties with few FTEs.

Justification

In recent years, the volume of work and responsibility has grown due to Superior Court's decision to increase court calendars to five days per week while adding case types that are not typically heard at DJJC. The addition of calendars, on case types not typically heard at juvenile court, has affected all aspects of the DJJC Clerk's Office and has required clerks to expand their knowledge in order to comply with the Clerk's mandated duties. These changes have increased staff time needed to attend court hearings and trials, added a significant amount of time required to timely process and distribute court documents received for filing; added requirements and training for issuance of writs and letters of office in guardianship matters as well as processing civil protection orders, which includes scanning orders to law enforcement for entry into state and federal law enforcement databases and for service to parties.

While our office has already made several staffing changes to support this division and the considerable increase of work performed there, the need for additional staff support still remains. The current supervisor and lead of the division support all operations of the division but are currently assigned to line staff duties 100% of the time leaving little or no time for necessary lead/supervisor duties. In addition, the manager is also supporting line staff to ensure completion of mandated responsibilities and has provided all staff training and oversight to accommodate the increased variety and volume of daily workload.

The transformation of the Juvenile division within the Clerk's Office represents a significant step forward in enhancing the capabilities and efficiency of the office. To ensure the division's success, it is necessary to increase the .5 JPA position into a full-time position. This will not only accommodate the increased workload but also addresses the needed support to ensure timely compliance with the Clerk's mandated responsibilities.

Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:19 PM (PDT)
Description	Request to increase Judicial Process Assistant (JPA) position #CLK2212R from a .625 FTE to a 1.0 FTE to support the Clerk's Office Court Services Protection Order division.
Summary	

Change Request Summary

The Court Services Protection Order division currently consists of 4.625 FTE. Pursuant to RCW 7.105, this division provides specialized information and assistance to victims of domestic violence, harassment, stalking, and sexual assault as well as vulnerable adults seeking protection from predators and for extreme risk protection orders. These services include receiving and reviewing civil protection order petitions for completeness prior to submission to a judicial officer for consideration; providing procedural information, court forms, and instructional materials to customers; responding to customer inquiries; scanning orders to law enforcement for entry into state and federal law enforcement databases and for service to parties; providing records research assistance to law enforcement; and providing assistance in preparation for the Superior Court protection order calendars. Staff also facilitate the court hearing process for all parties and the Superior Court bench.

Since the implementation of HB 1320 and SHB 1901 in 2021, the number of protection order petitions received and processed by the Court Services division has continued to increase year after year resulting in a 34% increase in April 2023 compared to April 2022; a 46% increase in May 2023 compared to May 2022; and a 57% increase in June 2023 compared to June 2022. The increase in petitions has resulted in additional phone calls, in-person inquiries, and emails from parties, law enforcement and attorneys. It is anticipated these upward trends will continue thereby placing a larger workload on staff each month.

The increase in petitions has naturally driven the need for additional court calendars to accommodate the growing amount of protection order cases. In September 2023 staff facilitated up to 10 court calendars each week. Effective February 2024 staff facilitate up to 14 calendars each week.

Additionally, RCW 7.105 applies stricter processing timelines than previously imposed (see RCW 7.105.105, .155 and .325). Staff are now mandated to receive and review petitions, submit for judicial review, send to law enforcement for entry and service, and provide copies to the parties on the same business day, if possible, but not later than the following judicial day. This places an additional burden on staff to complete intakes in the allotted time regardless of how many petitions are received in a single day.

Amendments to protection order legislation results in the Administrative Office of the Courts (AOC) amending the protection order court forms used daily in our office. The Protection Order office is mandated to provide forms to litigants which are available on the Clerk’s website, in person and through Legal Atoms, our electronic submission program. Providing the most current forms to victims is a vital part in filing for a protection order and amendments to forms are significant and can occur multiple times per year. In January 2024 AOC made changes to 16 existing protection order forms and created 3 new forms. It is estimated that the division Lead spent up to 40 hours applying these changes to the self-help packets taking time away from supporting line staff and helping customers.

For all the reasons listed above, the requested increase to a 1.0 FTE would help fill any gaps created by the continued rise in petitions received; would allow court services staff to effectively assist victims seeking protection orders while performing their mandated duties within the time constraints required under RCW 7.105 and would allow for continued support to the Superior Court bench.

Change Request Summary

Department: 0037 - Clerk
 Change Request: AUTO - 456 - Copier Lease and Service Contract
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:20 PM (PDT)
 Description: Request to Increase funding in DAC 002 537 231 4801 – Repair and Maintenance from \$7,000 to \$17,000
 Summary:

The Clerk’s Office has a fleet of 11 copiers whose service contract has expired and are currently on a month-to-month lease.

The county has two copier vendors that were awarded contracts through RFP-23-017LY. Under the new contract, replacement of comparable copiers under a new lease agreement plus 2 additional copiers will result in an annual increase of \$7,869. Two additional copiers have been added to our office to address business needs; one will be used by the courtroom clerk during high volume therapeutic court calendars, and the other copier is needed at our Denney Juvenile Justice Center office to facilitate copying and distribution of court orders to various law enforcement agencies. We made every effort to choose copiers that met our business needs without paying for unnecessary, costly options. But even with our careful selection process, we could not avoid the increased costs.

Justification

Our current copier Repair and Maintenance appropriations are \$7,000 annually. However, expenses applied to this DAC over the last 4-years have averaged \$16,171 annually; and expenses in FY2023 were \$20,596. Charges to this DAC include Copier Repair and Maintenance (\$15,000 annual average), as well as Repair and Maintenance for Time Clocks (\$4,000 FY2023) and Microfilm Readers (\$770 FY2023).

We have previously been able to absorb the extra costs in Repairs and Maintenance due to underspending in Rentals. However, with the increased costs for the Copier Lease, we will no longer be able to cover the overage with those savings. We are requesting an additional \$10,000 allocated to DAC 002 537 231 4801 – Repair and Maintenance to bring the total appropriation to \$17,000.

Change Request Summary

Department	0037 - Clerk
Change Request	AUTO - 459 - Administrative Assistant Reclassification
Change Request Type	Position Adjustments
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:20 PM (PDT)
Description	Request to update the job description and for a salary reclassification from paygrade 107 to a paygrade 109 for the exempt Administrative Assistant position #2140 in the Clerk's Office. This request has also been provided to Human Resources through the reclassification request process.
Summary	<p>The original duties of this position were consistent with the current Administrative Assistant job description, but have evolved over time, requiring the need for an updated job description that accurately reflects the current scope of the job and identifies and emphasizes the qualities and skills needed for an executive level Administrative Assistant.</p> <p>Over the last 10 years, it has been necessary for the Clerk's Administrative Assistant position to assume and become knowledgeable in additional responsibilities surrounding human resource functions that include recruitment, onboarding, separation, benefits, and policy changes. This position is also responsible for FMLA/PFML coordination which requires the knowledge and application of state and federal laws; providing payroll/timekeeping and administrative support to department staff; as well as reviewing and processing accounts payable.</p> <p>These assumed job duties on top of the already extensive list of executive support duties to the Clerk and Chief Deputy, as well as the required knowledge of principles and practices within the law and justice system, supports the need to update the job description and a salary grade adjustment to the 109 pay scale.</p>
Justification	<p>In addition, when comparing similar positions across the county, the Clerk's Administrative Assistant position is underpaid and classified at a lower rate. The Auditor's Administrative Assistant (Spec. 6290), Prosecuting Attorney Administrative Assistant (Spec. 6340) and Superior Court's Superior and Juvenile Administrative Assistants (Spec. 5058) are all within pay grade of 240 (Clerical) or 109 (Management Exempt). The Clerk's Administrative Assistant is currently allocated at a pay grade 107 (Management Exempt) for the same scope of work.</p> <p>This request to update the job description and for reclassification from a 107 pay grade to a 109 pay grade is due to the increased knowledge and expertise that is now required of this position because of the increased responsibilities that have occurred over the past 10 years. Alternatives such as task distribution to others or additional FTEs do not apply to this situation.</p> <p>The current job description on file for the Administrative Assistant-Clerks provides for a salary grade of 105, however this position has been paid at a 107 grade since the job description was revised and re-titled in 2008. This may simply be a scrivener's error that was not caught. Because this job is an appointed position it has not been posted for recruitment for more than 15 years.</p>

Change Request Summary

Department: 0037 - Clerk
 Change Request: AUTO - 549 - Jury Postage and Interfund Postage for Juror Notices
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:24 PM (PDT)
 Description: Request to increase funding in DAC 002 537 235 4207 – Postage Jury from \$18,000 to \$43,000, and DAC 002 537 235 9201 – Interfund Postage from \$12,400 to \$17,400.

Summary

The Clerk’s Office performs all administrative duties related to jury management for Superior Court and the four divisions of District Court. This includes the printing and mailing of jury summons to ensure an adequate number of jurors are available to hear civil and criminal jury trials. The number of summonses printed and mailed each week is determined by the court and is based on the number of cases ready for trial as well as the criminal charges and anticipated length of trial for each case; the Clerk’s Office has little discretion in determining that number.

There are two sources of postage expenses related to juror management. DAC 002 537 235 4207 – Postage Jury is for the actual postage charges incurred by the contracted vendor who provides the mass printing and mailing services for jury summoning. Currently, the Postage - Jury DAC appropriations are \$18,000 annually. However, expenses applied to this DAC over the last 4-years have averaged \$38,300 annually; expenses in FY2023 were \$56,873. DAC 002 537 235 9201- Interfund Postage is used for all other juror communications sent by the Clerk’s office, this includes letters and postcard notices sent directly to jurors. Current appropriations for this Interfund Postage DAC are \$12,400, but the 4-year average annual expense is \$18,123, with actual expense in FY2023 of \$21,829.

Justification

The cause of the increased expenditures in these DACs is two-fold. The appropriations in each DAC have remained the same since prior to 2018. However, postage rates have increased by 36% during that time, and are scheduled to increase again in July which will result in an overall 46% increase since 2018. It is expected we will continue to see this trend in postage rate increases. In addition to increased rates, the volume of summons being mailed to achieve the desired juror pools has also increased. This is directly related to the COVID pandemic, court backlog and lengthy criminal trials on more serious offenses being tried.

To cover the expenses related to summoning an adequate number of jurors, we are requesting an additional \$25,000 allocated to DAC 002 537 235 4207 – Postage Jury to bring the total appropriations to \$43,000; and an additional \$5,000 increase to DAC 002 537 235 9201 – Interfund Postage to bring the total appropriation to \$17,400.

The expenses related to mailing of jury summons directly impact the Court’s ability to proceed with jury trials. An adequate number of jurors are required to prevent case cancellations and allows for the efficient operation of the justice system.

Change Request Summary

Department	0037 - Clerk
Change Request	AUTO - 574 - Implement Security Assessment Recommendations
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:25 PM (PDT)
Description	The Courthouse and Mission buildings were recently evaluated for security risks by the National Center for State Courts. The Security Assessment Report documented a strong need for added security measures throughout various areas of the law and justice buildings. This request is to address security issues within the Clerk's Office control only.
Summary	

The Courthouse and Mission buildings have experienced a marked increase in the need for added and more stringent security. The Clerk’s Office remains to be the point of contact for all parties as they navigate their court proceedings, including continued interactions after their hearing or trial. The nature of the work that we do will not change and the recognized fact is that there will be a continued rise in frustration, fear and distress for individuals who are faced with the unwelcomed need to navigate the court system through extremely difficult and life changing events. As a result, these high stress situations oftentimes lead to individuals who respond in a violent and erratic manner.

As outlined in the Security Assessment, there are many challenges in correcting the identified areas of concern. With this request, our office is committed to make every conceivable effort to address the concerns raised in the report that are within our department areas.

The security deficiencies that were identified in the assessment have also been brought forward by staff and the Clerk’s Safety Committee members – further reinforcing our commitment to addressing them. The items listed below are identified deficiencies and recommendations from the Security Assessment that our office has prioritized for purposes of this request.

Clerk’s Office main campus - Estimated Costs: \$200,000

1. Install security camera behind our customer service counters.
2. Replace Clerk’s Office public access doors at main office, court services and facilitator offices. Doors will be more secure and will allow for interior locking mechanism in the event of an active shooter/lock down situation.
3. Install duress alarms at one or more workstations located behind and/or away from the public counter.

Clerk’s Office juvenile campus - Estimated Costs: \$325,000

1. Install security camera behind our customer service counters.
2. Replace public access door. Door will be more secure and will allow for interior locking mechanism in the event of an active shooter/lock down situation.
3. Replace customer service counter; this will allow for additional security and installation of 24-36 inch high plexiglass protective barrier on top of counters.
4. Install duress alarms at one or more workstations located behind and/or away from the public counter.

Some of the recommendations identified in the security assessment for the Clerk’s main office have not been requested because they were cost prohibitive due to the current design and structure of the main office’s front lobby counters. At our Denney Juvenile Justice Center office, it is more cost-effective to remodel the front counter and lobby entrance in order to mitigate the identified security risks.

The Clerk’s Office recognizes that these security measures can be costly and that all security risks can never be eliminated. As the assessment recognized – with attention and care, it can however, be minimized.

Change Request Summary

Department	0038 - Sheriff's Corrections Bureau
Change Request	AUTO - 71 - SCSO_COR_Jail Repeater Replacement Project
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 07:48 PM (PDT)
Description	Our jail radio system has aged, is near EOL (end of life) and the repeaters are a huge part of that. They are in dire need of immediate replacement. The repeaters have been running continuously for nearly 18 years and were out of production at the time of installation. Replacing our existing system needs to occur before it fails. Replacement parts are no longer available for our existing system. The Sheriff's Office and Sno911 are switching to a Digital system. We need to follow suit to maintain interoperability within the County. Analog systems with our operational requirements are on the way to being phased out entirely. Some of our system has already been modernized and repaired, such as the antennas, but more work is required.
Summary	The repeaters have been running continuously for nearly 18 years and are no longer supported nor do replacement parts exist. Contractors that have worked on our system have conducted repairs and upgrades while the system is running. They've communicated concerns that it may not power back up. Typically, the radios are powered down to remove the risk of damaging the equipment, but in our case the risk is too high to do that. If we have any sort of failure, it may be 6 months before a radio channel can be replaced. The main indicator that the repeaters are failing is that regular testing shows that the power output has decreased between 30-60 percent of their rated 100 watts. There has also been frequency drift on our units that cannot be corrected due to age. This results in poor reception which ultimately becomes a safety risk. If we can't hear radio transmissions people could die.
Justification	<p>The repeaters we currently have are the Motorola MTR2000. They are an old analog design that is at least 5 generations behind the current technology. SNO911 will be switching to a Digital system this year and phasing out their analog equipment. Analog equipment in general has been obsolete for some time and the support for it is fading. Additionally, we cannot assign priority radio traffic to CCR with the analog system. Central Control is our dispatch center. They are our communications hub but cannot be given priority over other handheld units. This is a safety risk.</p> <p>Due to our equipment operating at 800 MHZ and the requirement to be P25 compliant, there is only one repeater in production that meets our requirements. This repeater is the Motorola GTR8000. Because of our operating requirements there are no other reasonable alternatives. There are less expensive repeaters in production, but as soon as 800Mhz becomes a factor, the price goes up and the less expensive repeaters would not be compatible. Once the new system is established there is very little in the way of regular operational costs beside electricity. Radio contractors can report at agreed intervals to conduct tests, calibrations, and updates on the new system. This should operate with minimal costs for at least the next decade. The GTR8000 is a new system and will be supported by Motorola for at least that long.</p> <p>After the combiner and antennas were replaced, this fixed our reception issues on the Wall Street building. But as time has passed the reception issues are slowly returning due to failing repeater equipment. If the old, analog repeaters fail we'd be without critical radio communications for months. According to vendors, there is an approximate 6-month turnaround time for ordering repeaters.</p>

Publish Date	Jul 09, 2024 07:48 PM (PDT)
Description	We are looking to purchase 50 units for our medical and specialty housing patients. The budget request is for the licensing and subscription fees. With this product we will be able to monitor pulse, temperature, movements and oxygen level of our patients. The device will notify staff if a patient falls about or below preset parameters. Each device can be customized individually for the patient.
Summary	
Justification	We have had several overdoses in our medical units over the past year. Some with morbid results. With this monitoring device, we would be alerted sooner to an ill patient. Our response time would be shortened, and we would be able to care for a sick individual sooner, potentially giving us the time to provide life saving care. We have had more patients than ever in our medical units with limited staffing, and those numbers are only increasing. This tool would not negate the need for medical staffing but can be an accessory to our nurses for critical monitoring. We continue to look for efficiencies with existing resources and seeking new literature in standard of care for our patients. Despite these efforts, there continue to be critical gaps in care that we can provide due to staffing shortages and budgetary restrictions. To continue to be the standard of health care in a correctional setting, we must continue to be innovative and find ways to improve patient safety and outcomes.

Description 2023/2024 has highlighted out opiate and mental health epidemic. We continue to see the critical lessons learned from the pandemic in the public health sector and evaluate where further achievements can be made. We have seen our facility above capacity for medical and mental health patients over the last year. Our patients are being placed in non-medical units and the nurses are having to cover these patients throughout the jail. There has been an increase in critical incidences with medical emergencies, specifically overdoses. For us to safely care and manage our patient load, we need for nurses to care for these patients. We believe that the necessary investments will improve the safety of our vulnerable population. The jail is a unique environment where we get to care and treat those with substance use disorder whether they want to withdraw from the substance or not. These patients are sicker and require more extensive care than in the past. They are having more symptoms and are staying in the medical units longer. With the introduction of our MOUD program, it requires longer administration times for Subutex (15-minute observations time per group). This nurse must give their full attention to that person or group for 15 minutes. This means that we have had to designate a nurse to only give Subutex and take them away from a regular medication administration. We currently have 15 registered nurse (RN) positions, 7 licensed practical nurse (LPN) positions and 5 medical assistant (MA) positions. We are asking for 4 more RN positions to cover our increase in withdrawal management patients, 2 more LPN and 2 more MA positions to cover the medication administration load and daily tasks. We are also asking for an increase in our agency nurse allowance to continue to provide coverage for sick calls, vacancies and vacations. Quality agency staffing is expensive and we need an increase in our budget to continue the high level of care that we provide.

Summary

Change Request Summary

June 2023 the Justice Department's Bureau of Justice Assistance (BJA), one of six program offices within the Office of Justice Programs (OJP), and the National Institute of Corrections (NIC) today announced the release of Guidelines for Managing Substance Withdrawal in Jails: A Tool for Local Government Officials, Jail Administrators, Correctional Officers and Health Care Professionals. This groundbreaking document supports the department's commitment to increasing access to evidence-based treatment for individuals with substance use disorders (SUD) and those at risk for overdose, including individuals who are incarcerated or reentering their communities. The recommendation for opiate withdrawal patients is assessments every 4 hours for the first 72 hours that they are withdrawing. Currently, we are able to do assessments every 8 hours. In the community nurse to patient ratio for an actively withdrawing patient is 1:4-6. Our patient ratio is 1:20-30. In 2025, we are going to be required to release inmates with a 30-day prescription to meet Medicaid reimbursement. Increasing our LPN and MA FTEs will help with the increased workload that this will require. We will have to order in medications from the pharmacy and have release planning in place for all inmates that take medications.

Justification

I cannot emphasize enough the expenditures necessary for the health workforce so that the people in that workforce are supported, are appropriately trained, and have the tools needed to do their work today and in the future. This means that we must invest in ways that we have not before. We need the fiscal resources to amply staff to care for our withdrawing and medically fragile patients. We believe necessary investments will improve quality of patient care and have better patient outcomes. We understand that resources are spread thin, but patient care and the care of those incarcerated should be prioritized over the next two fiscal years.

We continue to look for efficiencies with existing resources and seeking new literature in standard of care for our patients. Despite these efforts, there continue to be critical gaps in care that we can provide due to staffing shortages and budgetary restrictions. To continue to be the standard of health care in a correctional setting, we must have a strong and robust workforce, see sustained investments in continued education, and promote health and well-being to our patients. We supplement with agency staffing to help bridge the gap in our current FTE allowance. This is a temporary fix with a temporary worker. We need more nurses and an increase in our agency nurse allowance to continue to maintain a high level of care.

Department: 0038 - Sheriff's Corrections Bureau
 Change Request: AUTO - 275 - SCSO_COR_Increase Behavioral Health Staffing Capacity
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:07 PM (PDT)

Description
 Enhancing access to mental health services is a key priority for the Snohomish County Jail. Many of our inmates suffer from mental illness. They often are not stable on medications when incarcerated and we are the start on their road to stabilization on medications. We are requesting an increase to our Mental Health Professional (MHP) FTEs and to create an agency staffing budget for our MHPs. Our staff excels in identifying mental health disorders and treating those disorders. Without an increase to staffing, we are unable to provide more resources than crisis management. This funding will allow our staff to focus on patients and their road to recovery and mental health stabilization. This would allow us to focus on release planning and transitions to the community. 2023/2024 has highlighted our opiate epidemic and mental health epidemic. We continue to see the critical lessons learned from the pandemic in the public health sector and continue to evaluate where further achievements can be made. We have seen our facility above capacity for those needing medical and mental health care. For us to safely provide for and manage our patient load, we need more MHPs to care for these patients. We believe that the necessary investments will improve safety of our vulnerable population. We currently are only budgeted for 5 MHPs and no supplemental agency funding. We are requesting an additional MHP (FTE) to help cover our substance use disorder patients and agency staff funding.

Summary
 A focus on the County and State level has been care of our MOUD and behavioral health patients. Currently, we are able to provide crisis management with little to no follow up. With the increase in our budget, we would be able to help provide MOUD counseling and case management to our behavioral health patients. I cannot emphasize enough the expenditures necessary for the health workforce so that our personnel in that workforce are supported, are appropriately trained, and have the tools needed to do their work today and in the future. This means that we must invest in ways that we have not before. We need the fiscal resources to adequately staff in order to care for our MOUD and behavioral health patients. We believe necessary investments will improve quality of patient care and have better patient outcomes. We understand that resources are spread thin, but patient care and the care of those incarcerated should be prioritized over the next two fiscal years. In 2023, we spent *** on agency staffing.

Justification
 We continue to look for efficiencies with existing resources and seeking new literature in standard of care for our behavioral health patients. Despite these efforts, there continue to be critical gaps in care that we can provide due to staffing shortages and budgetary restrictions. To continue to be the standard of mental health care in a correctional setting, we must have a strong and robust workforce, see sustained investments in continued education, and promote health and well-being to our patients. We supplement with agency staffing to help bridge the gap in our current FTE allowance. This is a temporary fix with a temporary worker that is not invested in the Snohomish County mission or high standards. We need more MHPs to expand our programs and maintain a high level of behavioral health care.

Change Request Summary

Department	0038 - Sheriff's Corrections Bureau
Change Request	AUTO - 277 - SCSO_COR_Opioid Use Disorder (OUD) Methadone Program
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:08 PM (PDT)
Description	<p>February 2, 2024, The Federal Register/Vol. 89, No.23 was updated to include facilities to be able to treat and manage those with opiate use disorder with methadone if they are registered with the DEA as a hospital/clinic. With this update, once with register with the DEA, we will be able to induct our patients with methadone to secondarily treat opiate use disorder. We have the opportunity to be the first jail in the state to accomplish this. We could pave the way and set the standard for other jails in the state and across the country. We are always looking or innovative ways to offer treatment to those we have in custody and better our communities. With this we have to opportunity to create a robust and dynamic OUD program. In July of 2025, there is an 1115 Medicaid wavier that is going into effect. With this waiver, we will be able to bill Medicaid for Opiate/Alcohol treatment, medications and clinic services. In order to be able to do this, we will need to add a FTE to our finance team for medical billing, upgrade to a system that will allow Medicaid billing, provide a 30 day supply of medications and have case management(new FTE) for individuals releasing to the community. We are requesting a ARNP designated to treat and induct our opiate use disorder patients with methadone, a registered nurse to assist with inductions and care management through release to connect our patients to community partners, a mental health professional to provide counseling and additional nursing staff (LPN) for medication management and patient care.</p> <p>There are grant dollars available from the State to assist with program start-up, initial staff training and technology upgrades.</p> <p>The Accounting Project Specialist would be an addition to the Teamster Corrections Support Union Group.</p>
Summary	<p>Opiate use disorder in our communities is running rampant. With new programing and staff, we have to opportunity to offer methadone as an additional treatment option to our patients.</p> <p>I cannot emphasize enough the expenditures necessary for the health workforce so that the people in that workforce are supported, are appropriately trained, and have the tools needed to do their work today and in the future. This means that we must invest in ways that we have not before. We need the fiscal resources to amply staff to care for our withdrawing and medically fragile patients. We believe necessary investments will improve quality of patient care and have better patient outcomes. We understand that resources are spread thin, but patient care and the care of those incarcerated should be prioritized over the next two fiscal years. According to the National Drug Institute on Drug Abuse (NIH), patients on methadone had 33 percent fewer opioid-positive drug tests and were 4.44 times more likely to stay in treatment compared to control. This is not a new medication for OUD, regulations are just loosening so that it is more available to those who need and want this medication for OUD. The more options that we are able to give our patients, the better choices they can make for themselves and improve outcomes and compliance.</p>
Justification	<p>The funding we have currently through human resources does not cover methadone induction, counseling or case management for these patients while in custody for release planning. We continue to look for efficiencies with existing resources and seeking new literature in standard of care for our patients. Despite these efforts, there continue to be critical gaps in care that we can provide due to staffing shortages and budgetary restrictions. To continue to be the standard of health care in a correctional setting, we must have a strong and robust workforce, see sustained investments in continued education, and promote health and well-being to our patients. With the 1115 Medicaid waiver, there will be some revenue that we will be able to procure to help with the mainentance with this program.</p>

Change Request Summary

Department	0038 - Sheriff's Corrections Bureau
Change Request	AUTO - 325 - SCSO_COR_Corrections K9 Vehicle
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:12 PM (PDT)
Description	Intel/K9 Unit requires a specialized K9 Kennel Transport System vehicle. The Corrections Bureau is currently borrowing a vehicle (2009 Jeep Laredo/NN231) from the Snohomish County Regional Drug Task Force for the Bureau's new K9 team in 2024. The old Jeep currently has over 159,000 miles on it. The vehicle doesn't have any specialized transport system such as K9 Transport Insert causing a significant safety/security problem. In the future, a K9 vehicle insert is desired and essential in order to keep our drug detection dog and handler safe and comfortable inside the vehicle during transportation but, for now, we're in dire need of a reliable, safe, and efficient vehicle.
Summary	<p>The detection dog will play a crucial role to save lives and make the jail a safer environment for staff, inmates, and visitors. Our K9 team needs a specialized vehicle to perform their duties effectively, stay safe, and maintain peak performance while serving and protecting our community for the following reasons:</p> <ol style="list-style-type: none"> 1. Safety and Comfort <ul style="list-style-type: none"> o Specialized vehicle will provide a safe and comfortable environment for both the K9 handler and K9 during transportation. o The vehicle is equipped with features like secure cages, ventilation, and temperature control to ensure the well-being of the detection dog. 2. Transporting K9 Dog <ul style="list-style-type: none"> o K9 needs to be transported quickly and efficiently to the jail for emergencies. o K9 vehicle is specially designed to accommodate the dog, allowing the dog to travel securely and without stress. 3. Equipment Storage <ul style="list-style-type: none"> o Detection dog will carry essential equipment such as training aids. o Specialized vehicle has secure compartments to store K9 equipment, ensuring it's readily accessible when needed especially during the outside training and/or events. 4. Health and Hygiene <ul style="list-style-type: none"> o K9 vehicle is equipped with features like easy-to-clean surfaces to maintain hygiene. o Proper ventilation prevents overheating, especially during hot weather or intense activities. 5. Community Engagement: <ul style="list-style-type: none"> o The vehicle will serve as a symbol of dedication to public safety and community service for Public Demonstrations. o K9 Team may participate in educational demonstrations, fostering positive interactions between law enforcement and the public.
Justification	<p>Full funding would need to be granted to successfully fill this critical role. The cost of the new K9 Kennel Transport System vehicle is \$51,110. This is an unmarked K9 PIU Explorer which is \$18,233.55 less cost than the latest K9 PIU Explorer from the Patrol K9 unit (\$76,918.55).</p>

Change Request Summary

Department: 0038 - Sheriff's Corrections Bureau
 Change Request: AUTO - 329 - SCSO_COR_Resource Alignment - Restore Reduction
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:12 PM (PDT)
 Description: Sheriff's Office, Corrections Bureau, request to fully restore proposed budget cuts
 Summary:

In 2024, the Medical Housing Unit has been at maximum capacity due to medical detox withdraw watches. Medical housing has 48 beds and is staffed with a nurse and a corrections deputy 24-hours a day. A second module was opened to accommodate the detox withdraw watch overflows. County jails are responsible for providing a constitutionally compliant level of medical and mental health care as would be received in the community. This includes onsite care, emergency medical visits, community health care visits which require two (2) corrections deputies for transport, and prescription medications. The Snohomish County Jail retains its own medical employees, but also has contract employees on staff to augment our workforce. To maintain this high level of care, we cannot reduce staffing levels.

Justification: The Corrections Bureau, detention program, has 211 FTEs, but currently has 51 corrections deputy vacancies. Our Corrections Bureau staff have averaged 7,500 hours of overtime each month in 2024. Much of this overtime is mandatory, and on short notice which can be taxing on staff, and lower morale. Less staff would require us to cut operations and run leaner. The only way to do so is to reduce inmates through booking restrictions, cut municipalities who contract with the jail for misdemeanor level inmate housing, and cut inmate privileges such as time out of their cells. If we were to cut operations, inmate and community safety may suffer gravely. Without adequate staffing, we are unable to safely maintain security, or provide inmate programs and privileges. This is difficult and could compromise our ability to safely manage combative and uncooperative inmates. Our inmate population is having to spend roughly 22 hours a day in their cells which restricts their ability to participate in Adult Basic Education, NA, AA, and other programs/privileges offered in the jail. Additionally, there has been a backlog of jury trials and other court hearings, and we anticipate our Transport Unit will experience a significant increase in court transports. Each jury trial and transport outside the facility requires at least two (2) corrections deputies for security. This could hinder our ability to make the inmates accessible to the courts. The 3% reduction would severely compromise the jail's ability to operate safely.

Change Request Summary

Department	0038 - Sheriff's Corrections Bureau
Change Request	AUTO - 435 - SCSO_COR_Support Staff Pay Scale Update
Change Request Type	Position Adjustments
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:18 PM (PDT)
Description	Sheriff's Office Corrections Bureau support staff groups (Teamsters) need to be moved to an updated pay scale within the Snohomish County pay structure. Currently, Corrections Receptionist, Inmate Accounts Tech, Records Technician and Booking Support Officers are paid via the "Support ...Rate Table". The four groups listed above are classified as "clerical" staff which is technically not an incorrect description. Given the continual advancements in the specific job duties of these four positions, their pay scale should be updated to reflect the work they currently do for the Sheriff's Office Corrections Bureau. The Corrections Bureau would like to propose moving these groups to the 200 Classified Rate Table.
Summary	

Change Request Summary

The above support groups perform the specialized necessary functions that allow the Sheriff’s Office Corrections Bureau to smoothly operate daily. The Corrections Receptionist is the face of the Jail. They not only check-in the many professionals and volunteers coming in and out of the Jail daily they route calls to the appropriate departments. Most importantly they provide much needed assistance to the public in a very stressful time of their lives. The Corrections Bureau houses an average of 520 inmates but on any given day the count can grow much higher. Inmate Accounts Technicians provide much of the same assistance to the public, but they also process booking and release paperwork on every individual in the Jail. In addition, they are responsible for each inmate’s funds and charges made to these accounts while in custody to include commissary, haircuts, medical and dental charges. They not only process out releases generated from the Jail’s Records Department but take cash bail and bonds at their Public windows. Records Technicians process every court document received on each inmate in custody. They update each charge that an inmate appears in court on and ensures each sentence that an inmate receives from the court is entered correctly. They also are tasked with figuring out the correct credit for time served for every inmate in the Jail that is sentenced to Prison. Booking Support Officers log in and book every individual that comes into the Jail under very chaotic and noisy conditions at times. They make sure that these individuals are booked correctly in a timely manner all the while assisting the arresting agencies face to face and over the phone. They also process each individual’s property which is brought to the Jail in very contaminated conditions at times.

Justification

The above groups are exceptionally underpaid compared to their counterparts in other law enforcement agencies inside/outside of Snohomish County. Those groups are often paid several hundreds of dollars more per month to do the same type of work, but less of it under better working conditions. It has been several years since Inmate Accounts and Booking Support Staff have been fully staffed. As support staff are hired, they continually leave due to higher paying positions at not only other Law Enforcement agencies in the area, but higher paying positions for Snohomish County.

The cost of living in Snohomish County is very high and most staff don’t want to drive over County lines to go to work, but if our wages don’t become more competitive, we will continue to lose the staff that we have spent months training. The increase in pay will allow the Sheriff’s Office Corrections Bureau to recruit and retain appropriate applicants for these positions. The support staff within the Sheriff’s Office Corrections Bureau have watched the County increase the pay wages of Corrections Deputies to bring in and keep. We are now asking the County to move in the direction of what support staff should be paid and show them they are as important to public safety as other members of the Sheriff’s Office.

These groups are some of the lowest paid groups in the County overall, along with being near the bottom of the pay scales in our department. Most of the overtime bill was paid with support staff salary savings from 2023. Even with the slight increases we are asking for by moving these groups to an updated pay scale, they will still not be within most of the other law enforcement support staff wages in the state. This change will positively affect ongoing negotiations between the County and this labor group and be a positive move in the right direction. Currently it appears that support staff in the Sheriff’s Office Corrections Bureau are expendable and easily replaceable.

Department: 0038 - Sheriff's Corrections Bureau
 Change Request: AUTO - 477 - SCSO_COR_Additional Nursing Supervisor
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:20 PM (PDT)

Description
 With the opioid epidemic, we have seen higher patient acuity and an increase in the need for medical services and resources. We have found that with just two nursing supervisors, we are falling short on the needs for supervising and guiding our medical staff members in a 24 hour facility. There is a gap in coverage on the weekends and at night and our current nursing supervisors are having to fill that gap and be on call every other weekend. This is not sustainable to have them be on alert and on call every other weekend. They are receiving a high volume of calls due to scheduling issues and patient care related phone calls. We are having a high rate of turnover in staff and agency staff. The nursing supervisors are having to on board, train and seek out new agency and county staff frequently. We need to add an additional nursing supervisor to cover agency onboarding, training, weekend coverage and oversight of our improved opiate management programs.

Summary
 With short staffing, our nursing supervisors are having to help fill the gaps in care when there is a call out and no one available to cover the shift. Our supervisors are having to do more care management and care coordination than ever in the past. With this new FTE, we would have a Clinical Nursing supervisor, an operations nursing supervisor and a special projects nursing supervisor. The clinical nursing supervisor would oversee patient care, clinical management and case management of our patients. The operations nursing supervisor would oversee schedules, pay roll, hiring and onboarding of staff. The special projects nursing supervisor would oversee ideal options, training for staff, the occupational health nurse, emergency management training and staff discipline.

Department 0039 - Dept Emergency Management
 Change Request AUTO - 286 - DEM EOC Analyst
 Change Request Type Standard Change Package
 Change Request Status Department Submitted
 Publish Date Jul 09, 2024 08:09 PM (PDT)

Description This position currently supports DEM's operational readiness program, which coordinates both county emergency operations support but also supports readiness for disaster response within the jurisdictions with ILAs with DEM. This position includes maintaining the readiness of the equipment and procedures for the Snohomish County Emergency Operations Center (EOC); it also includes ensuring we meet the obligations in our interlocal agreements (ILAs) with cities, towns, and Tribes to ensure that their EOC equipment and procedures align with the County's. To accomplish this, the position researches best practices, past After Action Reports/Improvement Plans (e.g. COVID-19, Bolt Creek Fire), and feedback from ILA jurisdictions to incorporate the information into an emergency operations plan. This plan details how the County EOC operates and how each jurisdictional EOC coordinates and aligns with the County's. This position works closely with representatives from many County departments, as well as the various jurisdictions, to develop and facilitate training delivery for EOC responders across county government. These trainings ensure that EOC staff know their role within their respective EOC, that they understand their EOC's operating guidelines, and that they are familiar with the technology used during disaster response. This position also helps develop exercises (i.e., drills) so that EOC staff can practice these skills. The scope of the drills range from exercises to evaluate individual sections of an EOC to multijurisdictional exercises that evaluate our collective ability to coordinate amongst jurisdictions within Snohomish County, with our regional partners, and with our state and federal counterparts. DEM's ILA with local jurisdictions stipulates a countywide exercise in 2027. Extending this position through 2029 would allow it to support the delivery of the exercise and then the incorporation of lessons learned into our EOC procedures.

Summary This position was initially grant funded, but demonstrated its critical value to the County during the COVID-19 response. Because of the extended duration of that response, we needed to train many people who were new to the EOC. This position was also able to evaluate EOC operations in real-time and implement improvements that not only increased efficiency during the pandemic but identified valuable improvements for future EOC activations. Due to cascading impacts of the COVID response, we are still incorporating those improvements into our plans and making up for lost years of training county department staff on EOC operations.

Justification When the initial grant expired, DEM identified other grant funding to bridge funding this position through the remainder of 2022. DEM received funding through the General Fund to extend this position through 2024. DEM requests to extend this position through 2029 as it is a cornerstone for the County's comprehensive response capabilities in an emergency or disaster. Maintaining regular funding ensures we are able to fill the role with a consistent employee (reducing the constant need to train a new person in the role before they are able to facilitate ongoing actions).

An additional crucial business need is the recent federal requirement to implement the National Qualification System (NQS). This system ensures standard training and skill development across emergency management. Its purpose is so responding emergency managers have commensurate skillsets and operational capabilities in their home jurisdictions and when assisting other jurisdictions. NQS implementation is an ongoing process that is directly tied to receiving future Emergency Management Performance Grant (EMPG) funds. EMPG is a key operational grant received annually by Snohomish County DEM. Implementing NQS and maintaining compliance year over year is an essential function of this position in maintaining County readiness and preparedness and protecting DEM program funds.

Change Request Summary

Department: 0039 - Dept Emergency Management
 Change Request: AUTO - 291 - DEM Request Restoration
 Change Request Type: Resource Alignment
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:10 PM (PDT)
 Description: Request for restoration of the 3% reduction.
 Summary:

Justification:

We request full restoration of the reduction for DEM.
 If that is not possible, we will make the following reductions, with their resulting operational impacts.
 1) Remove VEM09 from the DEM fleet, for a 2025 reduction of \$4,810; 2026 reduction of \$5147. This will reduce our fleet by one towing vehicle-- leaving us to potentially rely on a partner vehicle should we need to tow more than two trailers for a response.
 2) Remove VEM16 from ER&R--we will not replace it when it goes out of service. That would save \$21,500 in 2025; and \$23,005 in 2026. This will impact our ability to set up a Mobile EOC if the DEM building cannot be used for whatever reason, though with our other mobile assets we hope to minimize this impact.
 3) Remove ""consultant services"" in 2025 and reduce by \$10,400 in 2026 (we will need to restore the remainder for our accreditation recertification and propose offsetting the difference with the removal of EOC computers below)
 3) Remove 12 laptops from the EOC. This will save \$0 in 2025 (IT Service Rates already calculated) and \$15,396 (\$1283x12) in 2026. This would mean that we would have to rely on some portion EOC responders to bring their own laptops to the EOC during a full scale activation."

Change Request Summary

Department 0039 - Dept Emergency Management
Change Request AUTO - 452 - DEM Opioid Coordinator
Change Request Type Standard Change Package
Change Request Status Department Submitted
Publish Date Jul 09, 2024 08:19 PM (PDT)

Description This position currently supports Emergency Management’s Multiagency Coordination (MAC) Group and helps provide coordination and support to substance use response in Snohomish County. For five years Emergency Management supported the Opioid MAC Group with partial staff allocation. In 2022, a program coordinator was hired to provide full time support to the MAC Group. This position is primarily responsible for ensuring the smooth and continuous function of the MAC Group and providing internal and external coordination.

Summary The workload of coordinating the countywide Opioid Response will continue, and this position plays a critical role in that effort. There are three responsibilities in this position. The first is meeting with external and internal partners to reduce siloing and cultivate and develop partnerships. The second is providing administrative and technical support to multiple MAC Group meetings. And finally, this position helps coordinate, track, and participate in the RFP process to provide Opioid Abatement Funds in the community. Addressing the substance use crisis is a massive, coordinated effort that requires involvement from multiple County departments. This position works and communicates most frequently with the Health Department, Human Services, and the Executive’s Office to promote information sharing and provide better coordination on project work. For example, this position coordinates with MAC Group Leads to track progress updates on short- and long-term SMART Objectives. This ensures that timelines are being met, work is underway, and difficulties or roadblocks are addressed. These updates are then distributed to the larger MAC Group to keep everyone informed. Without this coordinator position, regular coordination would be delayed, reporting would drop or be missed, and the MAC-Groups ability to address problems in meeting goals would suffer. External partners are critical to effectively address substance use in Snohomish County. Last year the DEM Opioids team met with 37 unique partners across 13 different sectors, all of whom are doing work related to MAC Group interests or who are helping address substance use within the Community. The coordinator introduces these partners to the MAC Group efforts and works with those partners who are interested in participating with the MAC Group. The coordinator work with external partners helps identify and address gaps within the community that can go unnoticed except by those working in these positions and helps the County better support and coordinate its work. Coordinating the MAC Group requires high levels of technical and administrative support. There is currently one regular general meeting and five working groups who meet at varying times, with differing goals and capacities. This position coordinates the MAC Group general meetings, the Prevention group meetings, and the Data group meetings. During these meetings the coordinator schedules times, create agendas, take notes, and follows up on identified critical tasks. This position also helps refine and develop SMART objectives for programs that are unfamiliar with this process. Partner capacity to host, take notes, write agendas, and smoothly run the meetings is frequently limited. Lacking this administrative support would delay the effective functioning of these meetings and hinder important project work. Finally, as needed, the coordinator assists with project work identified during these meetings. For example, assisting the Communications group with updating the content of the Snohomish Overdose Prevention Website. Finally, this position helps organize the distribution of the Opioid Abatement funds. The coordinator initially helped develop the spend plan for the Opioid Abatement spending. That person now works with DEM Finance to track fund expenditures and ensure that money is spent in accordance with the One Washington Memorandum of Understanding. The coordinator helped create the RFP process for microservice agreements to distribute \$150,000 in funding to recovery organizations. The coordinator assisted in creating and reviewing guidelines for how the funds will be spent; hosted a webinar to introduce the project to the public and answered questions; reviewed and scored proposals; and will develop an after-action process to improve the program for the next round of microservice agreements. The program coordinator ensures that these funds are spent reliably and smoothly. Without the coordinator’s hard work, the process would take much longer and be less effective. This body of work is too much for the program manager to deliver, in addition to the identified tasks and requirements in the program manager’s work plan.

Change Request Summary

Department	0039 - Dept Emergency Management
Change Request	AUTO - 461 - DEM Volunteer Management System
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:20 PM (PDT)
Description	This package proposes developing a Volunteer Management System using the ESRI Hub template and drafting a Standard Operating Procedure for agencies to train and drill on registration and use.
Summary	
Justification	DEM is working with OpEx to develop a Volunteer Management System that could be rolled out countywide to support all departmental volunteer management needs. The VMS would collect additional information such as licenses, certifications and equipment, and the goal is to expand it outside of DEM volunteers to be used by other departments. This would help DEM meet emergency worker requirements under WAC 118-04, support other departmental volunteer management efforts, and give all departments a larger pool to recruit volunteers, particularly during emergencies. We are only requesting one time funding, because we anticipate going with an ESRI solution, which, after initial development costs, would be included in the county's current enterprise account with ESRI (at no additional charge).

Change Request Summary

Department	0039 - Dept Emergency Management
Change Request	AUTO - 462 - DEM Deployable Assets
Change Request Type	Standard Change Package
Change Request Status	Department Submitted
Publish Date	Jul 09, 2024 08:20 PM (PDT)
Description	This package proposes one-time funding to support completing the build-out and upgrade to SCDEM's deployable assets.
Summary	

This package seeks the final funding needed to update SCDem's radio communications and deployable assets/vehicles (communications, trailers, and vehicles) and preserve our emergency response capabilities. The funding will support a variety of equipment purchases and installs that either complete projects or update old/obsolete equipment. Maintaining these capabilities ensures that both residents and local government are supported by reliable and robust mobile communications vehicles during emergencies and disasters. These vehicles are designed and equipped to fill gaps in wireless, radio, and internet systems anywhere in the County and ensure that key connectivity remains viable and accessible.

The funds will purchase additional radios/batteries to complete SCDem's deployable radio cache. This cache is made available to law enforcement, public works, and other public safety responders who need extra support in response to emergencies and disasters. The funding will supply emergency radio equipment for key SCDem leadership for disaster communications and ensure radio communications are uninterrupted as they cross county lines (and connect county emergency radio communications systems). These cache radios are regularly deployed during multi-disciplinary responses, and have recently been used for SWAT response as well as the Oso memorial.

The funding will cover the necessary repairs and updates to DEM10, which is a replication of DEM's entire radio room on an ambulance chassis. This is a mobile radio communications resource that supports Search and Rescue, law enforcement, and emergency management activities in both remote and urban settings where augmented communications are necessary. This is not 911 dispatching but can support and integrate with 911 when necessary.

The funds will provide additional Starlink (satellite-based internet) capacity in the form of 3 additional equipment packages to place in 3 trailers. This will increase internet access for one mobile IT response unit (MITRU); which will result in 2 MITRUs (there are 3 total) having satellite internet access. MITRUs are regularly deployed to provide internet and mobile communications capability to incident command posts throughout the county. The other equipment will provide satellite internet access for the Logistics Support Unit and the trailer that will serve as an alternate EOC (once it is updated). The Logistics Support Unit and the Alternate EOC trailer are designed and being equipped to operate in tandem providing DEM with alternate EOC capability should we be unable to occupy our current facility. These trailers would also be deployed in support of one of the communities we hold an interlocal agreement with during an emergency to support their response efforts. The funding supports the alternate EOC update by installing power (generator, solar, battery), networking capabilities for internet access, and communications equipment for mobile phones and radios of varying frequencies. The funding supports the Logistics Support Unit by carrying items needed to set up a field EOC or command post, such as pop ups, heaters, tables, chairs, light sets, etc. This type of equipment also needs to be added to the remaining MITRUs, each of which is in varying stages of completion. This investment would allow us to surplus VEM16 and remove it from ER&R, for an annual savings of over \$21,000

Lastly, the radio tower and radio room located at the DEM facility requires some maintenance work and minor antenna additions. The funding will cover tower work to install a critical piece of transmission equipment that allows DEM to connect with and broadcast in real time on AM station KRKO during emergencies and disasters where key lifesaving information must be quickly relayed to the public. DEM's longstanding relationship with KRKO/KXA (S-R Broadcasting) is the foundation of emergency plans wherein the radio station has invested significant money into making their radio towers resilient to floods and other hazards. The coverage of the radio station encompasses the majority of the County and can be accessed on any car, home, or transistor style radio. As such, the radio station will make their airwaves available to DEM during extreme disasters where communications methods are significantly impacted, if we install this key radio transmitter. The funding will also cover repairs to damaged antennas, repeaters and replace old/outdated radio room base station equipment.

Change Request Summary

Department: 0039 - Dept Emergency Management
 Change Request: AUTO - 465 - DEM WA Recovery Helpline Contract
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:20 PM (PDT)
 Description: This package seeks continued and increased funding for the WA Recovery Helpline Contract.
 Summary:

Justification: Washington Recovery Helpline is a resource in Washington State where people in need can call or connect online, any time of day, for empathetic help and to reach local recovery services. Since 2023 the MAC-Group has had an existing contract to receive monthly reports on the number of calls by zip code and specific details about the calls, such as type of substance the caller is struggling with and a few words about the referrals. This data has allowed MAC-Group Data Committee and its epidemiologists to view the burden of substance use disorder in Snohomish County through a different lens. While most surveillance data is based on overdose events, Recovery Helpline data gives a picture into what types of substances people in our community are seeking help with. Understanding the nature of the scenarios in which our community members are seeking referrals to services on a monthly basis can continue to help Snohomish County government agencies plan and respond to need more proactively.

Change Request Summary

Department: 0039 - Dept Emergency Management
 Change Request: AUTO - 522 - DEM Radio Officer
 Change Request Type: Standard Change Package
 Change Request Status: Department Submitted
 Publish Date: Jul 09, 2024 08:22 PM (PDT)

Description
 DEM is requesting that position # DEM7554R (DEM's Radio Officer) move from fund 130 to fund 002. This is a classified position in range 240 and is currently funded through federal Urban Area Security Initiative (UASI) grants from Homeland Security. UASI funds are received and administered by a core steering committee made up of the member jurisdictions: Snohomish, King, and Pierce Counties and the Cities of Seattle and Bellevue. It is a known certainty that within the next grant cycle, federal funding is being reduced such that the core steering committee will not allocate funds to maintain this position. This is a critical position to Snohomish County and the Department of Emergency Management because this position plays a crucial role in the implementation, management, and maintenance of County Emergency Management's radio communications system and its integration with the Snohomish County 911 Emergency Radio System. This position is also responsible for coordinating the volunteer team of HAM radio operators, known as the Auxiliary Communications Service (ACS), who provide robust and timely emergency communications during times of need. This team of about 200 radio operators also serve as key redundant communications that support emergency management response and recovery when the County 911 Emergency Radio System is overloaded or otherwise inaccessible.

Summary
 This position coordinates and leverages via volunteers made up of retired technical engineers such as electrical and materials engineers, wireless communications engineers, and former law enforcement and medical professionals. Without the general fund investment of 1 FTE, Emergency Management loses over two additional 2 FTE per year of highly skilled volunteer technical expertise and innovation. The volunteer team, under the coordination and management of the Radio Officer, underpins the Emergency Management Program in many ways. On average, they dedicate between 4,000 and 5,000 hours per year enhancing and maintaining emergency management communications in the form of UHF, VHF, and 800 MHz radio systems. They support the communities that DEM holds Interlocal Agreements with by helping establish and maintain linkages to these radio systems at local city halls, fire stations, and hospitals. This team also possesses the expertise and origination of HAMWAN, which is a key method of providing internet redundancy via HAM (UHF) radio bands. The skills and energy invested into multiple radio systems ensures strong, redundant emergency communications during disasters.

Justification
 Losing the funding for our Radio Officer and the key connections to volunteer teams who regularly serve their time and energy would be a major step backwards. Together, these 3 FTE, 2 of which are entirely volunteer, build and maintain the resilient and robust communications systems with local, state and federal partners that we rely on; losing them would be a major step backwards. The valuable resource this position both provides and leverages cannot practicably be taken on with remaining staff and the County's Emergency Management readiness stance would be greatly diminished.

Publish Date	Jul 09, 2024 08:23 PM (PDT)
Description	Establish 1 FTE, classified as a 241, in fund 002 when an interlocal agreement is put into effect with South County Regional Fire Authority.
Summary	
Justification	DEM is in initial discussions with South County Fire to enter into an ILA directly with the Regional Fire Authority to do emergency management planning on their behalf. This position would enable DEM to take on the additional workload by supporting 1 FTE dedicated to the identified scope of work in the ILA. This FTE would only be filled if an ILA is enacted that fully funds the position. 2025 is the earliest potential start date and is revenue-backed.

Publish Date	Jul 28, 2024 05:47 PM (PDT)
Description	This package reflects the changes to the baseline Tourism Funds. Fund 116 Lodging Tax - Local Sub-Fund 001 and County-wide Sub Fund 002, as well as the Tourism Promotion Area Fund 100. These changes are consistent with the Six Year Plans.
Summary	

Tourism Promotion Area (TPA) Fund - 100

Expenditures: Base expenditures are adjusted to reflect the 2025 and 2026 Tourism Workplan and Six Year Plan. The \$1.00 increase to the TPA assessment has approximately doubled fund revenues in relation to pre-COVID-19 levels, and significantly increased the ending fund balance. In Q4 of 2023, with by-in from the TPA Advisory Board, County staff submitted an RFP for a third-party consultant to assist the TPA Advisory Board in outlining priorities for eligible use of the funds in the coming years. Third party research was completed in Q2 of 2025, and results of the study will be outlined in the 2025 TPA Business Plan.

Small Fund - Local Hotel/Motel Tax - 116-001

Expenditures: Base expenditures adjusted to reflect 2025 and 2026 Workplan and Six Year Plan. Due to a sustainable revenue stream, the Hotel Motel Grant program has been budgeted to increase \$50,000 in 2025 and 2026, \$650,000 and \$700,000 respectively.

Large Fund - County-wide Hotel/Motel Tax 116-002

Expenditures:

Tourism Programs: Expenditures dedicated to the County Destination Marketing & Management Organization (DMO) are adjusted to cover the full scope of countywide marketing & promotional strategies in 2025 and 2026. Please refer to the 'Fund Recovery' description below for additional details. The County DMO work will continue to prioritize the following: Use of professional digital marketing and public relations services to promote the destination; staff FTE roles to proactively engage industry leaders; manage the DMO and County Lodging Tax Grant programs; and implement the recently updated countywide Strategic Tourism Plan (STP), which sets county tourism goals, outputs.

Adjustments for Long Term Commitments:

Lynnwood Convention Center - ILA - Budgeted for \$985,886. No adjustments will be made to 2024 PFD allocations, as 2023 revenues were higher than projected, and the Lynnwood PFD allocation did not exceed 1/3 of annual receipts per ILA.

Everett Memorial Stadium & Everett PFD - Effective in 2022 Everett will receive the same allocation as Lynnwood per ILA. Budgeted for an aggregate total of \$985,886.

Edmonds Center for the Arts - Per ILA Edmonds will receive 100k per year for years 2021-2025; after which 100k will be available for PFD application.

Fund Recovery:

Actual Large Fund revenues for 2020 and 2021 were measured at 52% and 77% of pre-COVID revenues, respectively. The combination of revenue loss, along with the LTACs decision to hold long-term commitments and reserve levels in place at the end of 2021, has put significant stress on the Large Fund. While revenues are showing significant recuperation, previous depletion of the fund balance has had a lasting impact on countywide tourism programs.

In 2021, Snohomish County Tourism received \$2.1M from the American Rescue Program (ARPA) to support a countywide marketing recovery campaign, to be spent by the end of December 2024.

ARPA dollars significantly assisted in the recovery of the Large Fund. Countywide Hotel Motel Funds allocated to County DMO Professional Services were temporary decreased in 2023 and 2024, allowing for an increase in the ending fund balance year over year. At the May 16, 2023, Lodging Tax Advisory Committee meeting, the committee voted to recommend full funding of the County DDMO, beginning in 2025 onward.

Large Fund expenditures are projected to dip into the fund balance in 2025 and 2026, but level out in 2027. To ensure long-term sustainability of the Large Fund, the tourism staff will consider seeking support from the Tourism Promotion Area Board to supplement portions of the \$1.5M DMO Professional Services budget in 2025 and beyond.

Change Request Summary

Department	0001 - Executive
Change Request	AUTO - 391 - Economic Development /Exec Position Adjustments
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 31, 2024 02:41 PM (PDT)
Description	This package reflects the proposed reclassification requests for Economic Development/ Exec FTEs in 2025 and 2026.
Summary	In the effort to establish parity within the Executive's Office, we are recommending all Economic Development FTEs be transferred from Classified to Management and Exempt (M/E) beginning January 1, 2025. The attached "EcoDevo - Reclass Change Request in Questica" outlines proposed classification and step adjustments for each FTE impacted by this change. Reclassification requests are in the process of being reviewed and evaluated by Human Resources.
Justification	All reclassification changes align with the proposed 2025 and 2026 Economic Development organizational chart. Each FTE within Economic Development is split between two or more buckets of work, whether it is tourism, workforce, and/or economic development. As a result, the majority of salaries are associated with tourism and workforce funds, which have the capacity to support the proposed pay ranges long-term. Even with the proposed position adjustments, Economic Development's 2025 and 2026 general fund obligations will still meet the 3% resource alignment requirements.

Change Request Summary

Department	0001 - Executive
Change Request	AUTO - 425 - Economic Development/Position Reallocations
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Aug 20, 2024 04:34 PM (PDT)
Description	This package reflects changes to Economic Development staffing to align with 2025 and 2026 workplans.
Summary	
Justification	Economic Development FTEs have been reallocated to better align fund distribution with 2025 and 2026 staff job duties and tasks. The FTE allocation to general fund has been lower from 1 FTE to .75 FTE to assist in resource alignment. The reallocation of FTEs to workforce and tourism fund is a direct result of the increase scope of work associated with implementing workforce and tourism strategies.

Change Request Summary

Department: 0001 - Executive
 Change Request: AUTO - 438 - Economic Development/ Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 29, 2024 10:32 AM (PDT)
 Description: This package reflects the division Economic Development's plan for achieving the 3% reduction in general fund.
 Summary:

Justification: In order to achieve the 3% reduction in general fund, the Economic Development division plans to redistribute FTE allocations between general fund, tourism and workforce development programs. These changes support the 2025 and 2026 division workplans, which outline an increased scope of workforce and tourism work associated with the implementation of tourism and workforce plan strategic initiatives. For additional general economic development work that falls outside the scope of tourism and workforce (specifically WIOA eligibility), the Economic Development division has the ability to lean on contracted industry partners for support.

Change Request	AUTO - 454 - Economic Development/Revenue Adjustment
Change Request Type	Revenue Adjustment Package
Change Request Status	Executive Recommended
Publish Date	Aug 20, 2024 04:55 PM (PDT)
Description	This package reflects 2025 and 2026 revenue estimates funds associated with tourism, arts, and workforce development.
Summary	<p>TOURISM DEVELOPMENT</p> <p>Tourism Promotion Area (TPA) Fund - 100</p> <p>Revenues: Revenues are set to reflect projected fund recovery in the Six Year Plan. Per the approval of Ordinance # 20-023 amending Title 4, Chapter 118 to increase the Tourism Promotion Area (TPA) lodging charge from \$ 1.00 per night to \$ 2.00 per night. This charge became effective on July 1, 2020 and is reflected in the updated revenues. Estimates for 2025 and 2026 are based on a 3% increase over 2023 actual revenues.</p> <p>Small Fund - Local Hotel/Motel Tax - 116-001</p> <p>Revenues: 2025 and 2026 revenues are set at 3% increase from 2023 actual revenues, as reflected in the Six Year Plan. Small fund revenues did not see a significant negative impact during COVID - this is likely due to high demand of camping and short-term rentals during the pandemic.</p> <p>Large Fund - County-wide Hotel/Motel Tax 116-002</p> <p>Revenues: 2025 and 2026 revenue projections are set at 3% increase from 2023 actual revenues. Tourism industry visitation trends are beginning to stabilize after the COVID-19 pandemic. 2024 actual revenues were higher than anticipated, thus 2025 and 2026 projections have been adjusted to reflect industry recovery</p> <p>WORKFORCE DEVELOPMENT</p> <p>Workforce Innovation and Opportunity Act (WIOA) Grant Fund - 130</p> <p>Revenues: 2025 and 2026 grant revenues are projected to cover all WIOA eligible expenditures.</p> <p>ARTS COMMISSION</p> <p>Arts Fund - 199</p> <p>Revenues: 2025 and 2026 revenues are set to reflect projected income from Parks and Recreation, Fair Park, and Facilities capital projects.</p>

Change Request Summary

Department: 0002 - Legislative
 Change Request: AUTO - 254 - Administrative Assistant - Allocation Change
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 15, 2024 01:41 PM (PDT)
 Description: allocates 100% of position COU7670 to Legislative Services Program
 Summary:
 Justification: Current state has 40% of the Council's front-desk receptionist allocated to Fund 506 as the position previously provided administrative support to the Prosecuting Attorney's office. The position COU7670 no longer provides administrative support to the PA's office and this change request allocates 100% of the position to the Legislative Services Program.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 205 - HS Affordable & Supportive Housing Sales Tax
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:39 PM (PDT)
 Description: Adjustments to the Affordable and Supportive Housing Sales Tax budget
 Summary:

Justification: These adjustments are being made to more accurately reflect planned 2025 and 2026 Affordable and Supportive Housing Sales Tax activities. Revenue receipts were adjusted to reflect estimated collections in 2025 and 2026. Professional services is reduced by \$2m in 2026 as we anticipate many capital projects will be funded during 2025. We estimate that we will utilize \$3m of fund balance in 2025 and another \$988k in 2026. These funds are utilized in addition to 1590 sales tax for Affordable Housing Construction/Acquisition and Supportive Housing Construction/Aquisition.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 204 - HS Affordable Housing & BH Sales Tax
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:39 PM (PDT)
 Description: Adjustments to the Affordable Housing and Behavioral Health Sales Tax Budget
 Summary:

Justification: These adjustments are made to reflect more accurately planned 2025-2026 Affordable Housing and Behavioral Health Sales Tax activities. Revenue was estimated based on projected receipts. A request for 1 additional Human Services Specialist 2 is included in this change request. Please note that for 2025 and 2026 program numbers were rearranged to more accurately align with the new 6-year plan. Program 465 is utilized for Operations, Evaluation, and Administration; Program 466 for both Affordable housing Construction/Aquisition and Supportive Housing Construction/Acquisition; Program 467 is utilized for Behavioral Health Facility Construction/Acquisition; Program 468 is used for Housing Preservation O&M (Facilities New Start Center O&M use interfund expenditure object 9101); Program 469 is utilized for Supportive Housing Services.

Description	Adjustments to the Human Services Case Management budget
Summary	
Justification	Adjustments are necessary to the Proforma budget to reflect current and projected Program activity. This includes adjusting Federal and State revenue estimates to reflect projected caseload growth and increasing fte's in 2025 and 2026 by 10.0 FTE and 5.0 FTE respectively, to respond to impact of the caseload growth.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 256 - HS CD/MH Admin & Operations
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 15, 2024 10:42 AM (PDT)
 Description: Adjustments to the Chemical Dependency Mental Health 2025-2026 Budget.
 Summary:

These adjustments are made to reflect more accurately planned 2025 and 2026 Chemical Dependency Mental Health (CDMH) Sales Tax activities.

Justification: Specifically, add an estimate of 4.5% 2024 plus 2.5% COLA contingency was added in 2025. We added an estimate of 2.5% for 2026. This change request adds a 1.0 FTE Human Services 2 position to assist with activities of daily living assessments. Other discretionary line items were adjusted based on current trends and planned program activities. Revenues were adjusted based on projected CDMH receipts and anticipated 2025 2026 service fees charged for Social Service Worker services, Involuntary Treatment court fees, and other miscellaneous fees.

 Description: HS Chemical Dependency Mental Health (Sales Tax) contracted and direct services.
 Summary:

These adjustments are made to reflect more accurately planned 2025-2026 Chemical Dependency/Mental Health contracted and direct service activities.

Justification: Line items were adjusted based on current contracts plus 2.5% for 2025 and 2026. Housing Capital grant funds are anticipated to be fully drawn during 2024. Season shelter dollars were increased based on projected need.

CD/MH Sales tax collections are adjusted, based on a projected increase of 5% for 2025 and 5% for 2026. Other revenue sources are adjusted based on current actuals. Use of program fund balance will be adjusted once remaining county departments requests have been submitted.

Publish Date	Aug 02, 2024 03:53 PM (PDT)
Description	Adjustments to the HS Early Head Start program. (Companion request to Change Request #383)
Summary	
Justification	These adjustments are made to reflect more accurately planned 2025-2026 Early HeadStart Program. Specifically, add an estimate of 4.5% COLA contingency for 2024, 2.5% for 2025, and 2.5% for 2026. Adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in-depth review of award amount and projected program activities. Add additional .93 FTE and reclassifying of 4.0 FTEs of Infant Toddler Specialist to Infant Toddler Specialist-LEAD necessary to meet programmatic requirements.

Publish Date	Jul 09, 2024 10:55 PM (PDT)
Description	Adjustments to the Early Intervention Services budget
Summary	
Justification	Adjustments are necessary to the Proforma budget to accurately reflect projected revenue and expenditures during 2025 - 2026. Specifically, revenues are being adjusted based on current contract estimates, program fund balance is being added to support the program needs and discretionary expenditures are being adjusted based on current spending patterns, including adding a COLA contingency of 4.5% for 2024 and 2.5% for 2025 and 2026. This program also includes the addition of 1.0 FTE's necessary to meet programmatic requirements.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 246 - HS Family Support Centers
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:45 PM (PDT)
 Description: Adjustments to the 2025-2026 Family Support Centers budget.
 Summary:

Justification: This change request was entered to add 1 additional fully certified Family Support Center (FSC) in 2025, and another in 2026. The additional funding for these FSCs (\$20k in 2025, and \$40k total in 2026) will come from filing fees and/or program fund balance.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 200 - HS Housing, Homelessness, and Community Development
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 02, 2024 03:59 PM (PDT)
 Description: Adjustments to the Housing, Homelessness, and Community Development program budget
 Summary:

Justification: These adjustments are being made to more accurately reflect planned 2025 and 2026 projected activity. This change request includes a request for 6 new Community Services Counselor positions. 3 of these are project positions scheduled to end 12/31/2025, and 2 are regular positions funded with Senior Housing Navigation funds, and 1 is a regular position funded with State grant funds (SDG-HEN).
 A COLA contingency was included of 4.5% for 2024 plus 2.5% in 2025, an additional contingency of 2.5% in 2026. Other changes to discretionary line items were based on planned activities. Revenues were adjusted based on current and projected grant awards.

Net Operating Budget: (107,478)
 Net Capital Budget: -
 Net Budget: (107,478)

Operating Budget Details

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 280 - HS LTCA
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:51 PM (PDT)
 Description: Adjustments to the Long Term Care and Aging Program budgets.
 Summary:

These changes are being made to more accurately reflect planned 2025 and 2026 changes.

Justification: We added 12 new FTE's in 2025 and 2 additional in 2026. These position are necessary to accommodate the new WA CARES program and to support MAC/TSOA.
 Discretionary line items were adjusted based on planned activities.
 Grant revenues were adjusted based on project grant contracts in 2025-2026.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 202 - HS Position Reclassifications/Pay Range Adjustments
 Change Request Type: Position Adjustments
 Change Request Status: Executive Recommended
 Publish Date: Jul 31, 2024 02:27 PM (PDT)
 Description: This Change Request accounts for the impact of potential reclassifications within the Human Services Department
 Summary:

Human Services has received 8 employee-initiated requests for reclassification and Management has initiated 5 requests. Management initiated requests are an effort to create parity among like and related positions should the employee-initiated requests be approved.

Justification: In addition, Management is initiating 4 salary rate adjustment requests due to changes in grant requirements which have dramatically increased the volume and complexity of the job responsibilities of the 4 identified positions. These 4 positions were also identified in the class/comp study as candidates for salary rate adjustments. The proposed new pay grades most closely align with the wage recommended by the consultant.

Change Request	AUTO - 174 - HS Puget Sound Taxpayers Accountability Act
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:35 PM (PDT)
Description	Adjustments to the PSTAA Program Budget
Summary	
Justification	These adjustments are made to reflect more accurately planned 2025-2026 PSTAA program and direct services activities. Specifically, add an estimate of 4.5% COLA contingency for 2024 plus 2.5% in 2025, and another 2.5% COLA contingency in 2026. Discretionary line items were adjusted based on current and planned activities. Revenues were adjusted based on actual receipts during the period 4/1/2023-3/31/2024.

Change Request Summary

Department: 0004 - Human Services
 Change Request: AUTO - 588 - HS Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 04:56 PM (PDT)

Description: The 2025-2026 budget instructions request General Fund departments to submit a Change Request that identifies a plan to achieve a reduction ("Resource Alignment") equivalent to 3% of their pro forma base. For Human Services, this amounts to a total reduction of \$169,712.

Summary: To arrive at our Resource Alignment reduction amount, we utilized similar criteria that have been used with previous reduction assignments:

- * Minimize impact to clients
- * Programs that could be backfilled with other resources
- * Minimize community challenges

Justification: We believe both our General funded programs can absorb the reduction within our existing 2025 and 2026 budgets. The CASA program believes they will be able to reduce the amount spent for Attorney fees in 2025-2026 coupled with a decrease in other budget line items will be sufficient to absorb the reduction.

Human Services Administration has a position which will likely remain vacant during 2025, and we've increased our Admin Reimbursables charges to fund 124 programs which have utilized more of Administrative Services staff time during 2023 and YTD 2024. The total increase in reimbursable charges for 2025 and 2026 is \$132,246.

 Change Request: AUTO - 237 - HS Veterans Assistance
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:44 PM (PDT)
 Description: Adjustments to the 2025-2026 Veterans Assistance Administration Budget.
 Summary:

Justification: These adjustments are made to reflect more accurately planned 2025-2026 Veterans Assistance Administration and direct services activities. Specifically, add an estimate of 4.5% salary COLA contingency. Millage projected for 2025 is based on the 2024 actuals plus 1% each year. Adjust discretionary line items based on current trends and planned activities. Adjust estimated program revenues based on the current proforma.

 Change Request: AUTO - 147 - PDS General Fund Expense Housekeeping Changes
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 06, 2024 04:46 PM (PDT)
 Description: Adjust expenditures to actual projections for PDS General Fund 002 programs
 Summary:

Justification: This change request adjusts the General Fund expenditures to anticipated 2025 and 2026 costs. Interfund parking and ER&R have been adjusted to actual rates and allocations among cost centers based on vehicle assignments. Expenses were adjusted to reflect the completion of the 2024 Comprehensive Plan Update. Changes to Interfund Professional Services reflect updated costs of department overhead (PDS administration and technology support included in Fund 193 Permitting) allocated to General Fund programs. Other minor changes to expenditure line items were made to adjust to projected expenses in all programs.

 Change Request: AUTO - 145 - PDS General Fund Revenue Adjustments
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:27 PM (PDT)
 Description: Revenue adjustments for PDS General Fund programs

Summary

Changes in revenue reflect how much income PDS expects to receive for Fire Investigation, Long Range Planning and Code Enforcement. Adjustments to Interfund Revenue are based on an analysis of time spent and services provided to other departments. The Department of Commerce grant in Long Range Planning was a one-time grant related to the 2024 Comp Plan Update that will not be renewed in 2025 and 2026. Likewise, fees collected for Docket Applications are related to the Comp Plan Update and will not occur in 2025 and 2026. Open Space Fees have been adjusted to projected levels of applications based on recent trends.

Change Request Summary

Department: 0005 - Planning
Change Request: AUTO - 334 - PDS New Position - Fire Investigation
Change Request Type: Standard Change Package
Change Request Status: Executive Recommended
Publish Date: Jul 12, 2024 12:57 PM (PDT)

Request to add one new Fire Investigator to provide sufficient 24/7 coverage for conducting origin and cause determination of fires throughout Snohomish County and city partners per Interlocal Agreements. County population has grown significantly over the past 30 years, but the number of fire investigators has remained at three. Reasons to add a fourth investigator include: (1) adequate coverage for increased workload (number of annual fire investigations); (2) lack of backup for the small team, and (3) changes in NFPA standards for fire investigations.

Description: RCW 43.44.050(1) (b) delegates the statutory authority of fire investigations within unincorporated Snohomish County to the Fire Marshal's Office to conduct origin and cause investigations. This responsibility is paramount in maintaining public trust, accountability, and insuring equity and justice. Effective fire investigations contribute to public safety by identifying hazards, enforcing regulations, and holding responsible parties accountable for unsafe practices or malicious acts. Actively investigating fires demonstrates a commitment to protecting communities and deterring criminal behavior, which in turn helps property owners by lowering the fire rating within their respective fire districts and keeping the cost of fire insurance affordable. Citizens also have an expectation that there will be an investigation that is impartial and is conducted by investigators who are adequately trained and understand the requirements outlined in NFPA standards. With the increased population and construction in Snohomish County, an additional fire investigator is needed to allow for required training, vacations, illnesses, and assistance with large or complex scenes without an undue hardship on scheduling to meet our basic statutory requirements. This additional fire investigator will also be vital in returning to our previous level of response standards we provided the citizens of Snohomish County, even while meeting the new National Fire Protection Association (NFPA) standards.

Summary

Change Request Summary

(1) Adequate Coverage: The Fire Marshal's Office has a call-out requirement criteria that we provide to other agencies when they request a fire investigator from our office. Due to the increasing number of calls, the complexities of each case, and the required documentation within NFPA standards, we have had to adjust our response standards to a workload that our three investigators can handle. For example, we have increased the monetary loss threshold so that we do not respond to every request. The demand for our services is greater than our call-out capacity.

(2) Lack of Backup: Fire Investigators are commissioned law enforcement officers requiring specialized training, which makes it more difficult to manage turnover in the team. Onboarding a new fire investigator takes hours of intensive training and potentially sending that person to the fire/police academy for several months. This in turn takes away from the time spent investigating fires and writing reports. One turnover on the team can reduce the overall team productivity by 30% for six months which means the other two team members are overly burdened by the extra workload. In addition, providing 24/7 coverage is difficult when one team member is out sick, on vacation, or at training. For example, if one team member takes a week of vacation, the other two investigators have to be on-call 3-4 days that week which is not sustainable in the long term due to employee burnout.

(3) NFPA Standards: NFPA921 recommends that two fire investigators be present during fire scene examinations to address safety concerns, particularly in remote locations of the county. We are currently non-compliant with this recommended practice. A new standard, NFPA 1321, will take effect later this year. This standard also includes fire scene safety and incorporates the recommendation that two fire investigators be present at all fire scene investigations for investigator safety and fire scene security. We currently have one investigator out on a scene by himself up to several hours after law enforcement or fire personnel have left, which does not meet the existing nor new NFPA Standards. This change affects our on-call schedule in that we will now have to have two investigators on-call for every overnight shift. Our current practice of sending one investigator to a scene in the middle of the night is no longer sufficient. In addition, we may have two active scenes requiring our presence at the same time which will require us to have four investigators on staff. Meeting the current and new NFPA Standards and Guides requires a higher level of fire scene safety, fire scene security, evidence handling, and documentation which will require an ongoing investment of investigator staff time to better manage the fire investigation unit policies and practices.

Change Request AUTO - 121 - PDS New Positions - Permitting
Change Request Type Standard Change Package
Change Request Status Executive Recommended
Publish Date Jul 09, 2024 10:26 PM (PDT)

Request six new positions in Permitting Fund 193 needed to handle increased permit volumes and high workloads, provide acceptable levels of customer service, and meet new review time frames mandated by the Washington State Legislature in Senate Bill 5290. The Washington State Auditor's Office conducted a performance audit of PDS's permit review time frames and found that PDS did not meet minimum time frames set forth in state law. PDS met time frames for only 24% of land use applications, 40% of civil permits, and 91% of building permits. The SAO recommended that PDS "analyze cost of service and staffing levels needed to achieve 120-day performance..." PDS has conducted this review and determined that more staff is needed to perform permit reviews. PDS has reviewed and will continue to review its permit fees and bring forth to Council recommended fee adjustments to support the additional FTEs.

Description
Fluctuation in permit and inspection volumes is normal for PDS and we handle it by adjusting staffing levels accordingly. When we need to reduce staff, we do so by not filling vacancies, redirecting existing staff to other areas in need, or eliminating positions in the budget. PDS budgets over the last several years have demonstrated this. When we need to increase staffing in certain areas, we find ways to do so such as by redirecting existing resources or hiring temporary employees. We currently have run out of options with existing budgeted FTEs and simply need to add staffing resources and capacity to handle the permit volumes we are experiencing. The current six-year housing unit forecast through the year 2030, based on current demographics and economic conditions, indicates a steady increase in permitted housing units annually for unincorporated Snohomish County. Therefore, these positions are needed now and well into the future. We feel that our approach to managing PDS resources is fiscally prudent and demonstrates accountability to our customers in terms of our efforts to keep permit fees as low as possible. However, when we cannot deliver good customer service and our time frames are too long, we need to take action to avoid losing credibility. Therefore, we ask for Council's approval to add five staff to the 2024 PDS budget in order to meet our current and future business needs.

Summary

For the past several years, PDS has either reduced staff or managed FTEs very conservatively due to anticipated budget deficits and uncertainty in permit forecasts. A very large backlog of permits in the pipeline has developed, which means that the number of permits assigned to each staff person is unreasonably high and therefore review time frames are higher than what the public expects and what is mandated by SB 5290. A brief description of the business need for each position is noted below:

Justification

1. Plans Examiner - PDS is requesting one new Plans Examiner to perform reviews of residential construction plans. We currently have two Plans Examiners who conduct residential plan review. This is insufficient to handle the high volume of permits needing plan review (there are hundreds of permits in the queue awaiting review). Single family residences, duplexes, accessory buildings, garages, accessory dwelling units, ag buildings, decks, and carports are just a few of the many types of new construction permits that need plans reviewed. There are also many alterations, additions and conversions that require plan review. Current time frames for review are unacceptable to customers. We need to add capacity to the plan review team to provide acceptable levels of service and meet the new time frames set forth in SB 5290.
2. Building Inspector - In 2023, PDS eliminated two Building Inspector positions due to lower inspection volumes. Since then, permit volumes have increased and as a result the average daily inspections has also increased. We need to add back one Building Inspector to handle the additional workload, as well as provide coverage for the inspector team that is already stretched thin when vacations, illnesses or training needs arise. Building inspections are critical to builders during the construction of new buildings and residents who are remodeling their homes. Delays in inspections cost builders time and money. We need to be able to meet the volume of daily inspections scheduled by customers.
3. Site Inspector - PDS is requesting a new Site Inspector to assist with the large volume of residential and commercial land development activity permits. For many years, PDS has had only four site inspectors who handle land use, clearing, grading, drainage, and right-of-way inspections. The work itself is highly specialized and requires a great deal of knowledge and experience in order to achieve proficiency in the position. The position is also needed for succession planning so that when retirements or turnover occurs in the next couple of years, we are ready and have someone trained to maintain existing levels of service.
4. Senior Fire Inspector - A team of four fire inspectors annually perform over 5,000 fire-related inspections; technical plan review for all commercial structures and land use permits to determine fire code compliance; plan review of residential fire sprinkler systems; and plan review of all fire systems. PDS needs another Senior Fire Inspector to perform inspections and fire plan review as part of PDS's overall permit process due to increased permit volumes.
5. Biologist - A Biologist is needed to maintain appropriate levels of service from PDS's environmental group. The environmental group performs reviews of permits for compliance with critical areas and environmental regulations. We currently need to add a Biologist to handle higher permit volumes and shorter review time frames required by SB 5290. This will also create a more equitable mix of biologists and senior environmental planners on the team.
6. Associate Planner - PDS currently has no Associate Planners in its budget. An Associate Planner is needed to support the existing Planner team. There is a high volume of lower-level permit review and administration that could be done by an Associate Planner, which would free up time by the Planners to perform the higher-level reviews. This would make the permit review process more efficient which in turn would help PDS review permits in a more timely manner. This would help us meet required time frames under SB 5290.

Change Request Summary

Department: 0005 - Planning
 Change Request: AUTO - 66 - PDS Overhead Allocation
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:23 PM (PDT)

Description: To adjust allocation of overhead among PDS cost centers based on established allocation methods.

Summary:
 Justification: The preloaded budget for some types of overhead is placed in two cost centers. Each year, PDS reallocates overhead to the proper cost centers based on revised FTE counts for each program. The same allocation method is used year after year. This year, the allocation overhead resulted in a reduction of \$2,183 to the General Fund programs and an addition of \$3,837 to Snohomish County Tomorrow.

Change Request Summary

Department: 0005 - Planning
 Change Request: AUTO - 62 - PDS Permitting Fund 193 Expense Housekeeping Changes
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 12, 2024 04:21 PM (PDT)
 Description: Adjust expenditures to actual projections for Fund 193 Permitting Programs.
 Summary:

Justification: This change request adjusts Permitting expenditures to anticipated 2025 and 2026 costs. Amounts were budgeted for retirement and personnel contingency. The personnel contingency includes (1) corrections for salaries that did not load into the budget correctly, and (2) anticipated COLA salary increases calculated based on 4% in 2024, 2.5% in 2025 and 2.5% in 2026. Interfund parking and ER&R have been adjusted to actual rates and allocations among cost centers based on vehicle assignments. Other minor changes to expenditure line items were made to adjust to projected expenses in all Fund 193 programs.

Change Request Summary

Department: 0005 - Planning
 Change Request: AUTO - 146 - PDS Permitting Fund 193 Revenue Adjustments
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 12, 2024 04:27 PM (PDT)
 Description: Revenue forecast adjustments for Permitting Fund 193
 Summary:

Justification: Changes in revenue reflect how much income PDS expects to receive from permit fees; interfund revenue; merchant fee reimbursements from school districts, Parks, Roads, and the Health Department; interest earned; miscellaneous revenue, and administrative allocations to General Fund programs and Snohomish County Tomorrow. Adjustments to Interfund Revenue are based on an analysis of time spent and cost of services provided to other departments. Changes to Interfund Labor reflect updated costs of department overhead (PDS administration and technology support included in cost centers 510 and 512) charged to General Fund programs. A comprehensive permit forecast analysis has resulted in an overall increase in estimated permit fee revenue for 2025 and 2026. PDS also projects an increase in interest income due to higher interest rates and the size of PDS's fund balance. Fund Balance figures are the difference between revenue and expense for each cost center in Fund 193. The net of all the Fund Balance amounts is the amount PDS expects to either contribute to or draw from PDS's fund balance at the end of the biennium. For the 2025-2026 biennium, PDS has budgeted a net loss of \$1,453,355 which is better than the last few PDS annual budgets. Actual cost savings from vacancies and underspending, as well as future fee increases, will help bridge the gap between budgeted revenue and expense.

Description	Reduce certain expense line items to offset targeted reduction (Resource Alignment)
Summary	Exec Recommended - restore 50%
Justification	PDS can reduce some expenditures in its General Fund programs to offset the targeted reductions. This package makes those adjustments in the 2025-2026 budget.

 Change Request: AUTO - 211 - PDS SCT Expense Adjustments Housekeeping
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:43 PM (PDT)
 Description: Adjust expenditures to actual projections for Fund 190 Snohomish County Tomorrow program.
 Summary:

This change request adjusts the Snohomish County Tomorrow program expenditures to anticipated 2025 and 2026 costs.

Justification: A personal cost contingency of \$10,225 in 2025 and \$14,130 in 2026 was entered for an expected step increase and COLAs of 4% in 2024, 2.5% in 2025 and 2.5% in 2026. The meeting room budget was increased by \$3,500 reflecting the higher cost of hosting the annual SCT meeting. This increase was offset by new revenue of \$3,500 for admission fees to be charged for the annual meeting. Other expenditures are consistent with past years.

 Change Request: AUTO - 209 - PDS SCT Revenue Adjustments
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:43 PM (PDT)
 Description: Adjust SCT revenue projections
 Summary:

Justification: The Snohomish County Tomorrow program is a cooperative forum that involves the county, the cities, the towns and the Tulip Tribes and community members in the resolution of growth management issues of countywide significant. Funding for this program is provided through annual dues paid by the members including the County. Dues are calculated based on per capital population figures. This change request adjusts the dues revenue to match expected expenses and forecasted investment interest. New revenue of \$3,500 was added in 2025 and 2026 for admission fees to be charged to cover the cost of attendance to the annual SCT meeting.

Description	Position Allocation Correction for PDS3404R Code Enforcement Officer Senior Position allocation update for PDS2004R - offsetting cost reductions in Change Request #147
Summary	
Justification	Position # PDS3404R was charged to the incorrect cost center during the budget preload process. This position is a Code Enforcement Officer Senior and should be in cost center 002-521 Code Enforcement. PDS had assigned this position temporarily to Fire Investigations, but it should be in Code Enforcement in the budget.

Description	Management-initiated Budget Reclass of Records Technician position - PDS1961R
Summary	
Justification	<p>PDS submitted one management-initiated reclassification request to HR and the Union pursuant to the AFSCME contract deadline of April 1st. PDS currently has one employee working out of class and his position needs to be adjusted so that he is fairly compensated. PDS has determined there is a need for the Records Technician to perform work at a Records Specialist level. The work of the Records Team has evolved over the past few years with the implementation of the online Public Records Portal, and we have an ongoing need for a Records Specialist instead of a Records Technician which is the level at which the incumbent was hired. Please see attached memorandum for justification details.</p>

Change Request	AUTO - 493 - Position Reclassifications - Engineering Series (Public Works companion package)
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 04:29 PM (PDT)
Description	PDS acknowledges and supports Public Works' management-initiated reclassification request for the Engineer I-IV job classifications. Public Works is recommending a one step pay increase for each classification. Public Works has submitted a change package for the compensation adjustments and PDS is doing the same.
Summary	
Justification	PDS has struggled with hiring and retaining engineers which are critical to the permit review process. Currently PDS has several engineering positions which have been vacant for months and years. The extreme shortage of engineering candidates is attributed to an overall market shortage which makes compensation a key issue in recruiting. The county's wages for engineers are far below what other jurisdictions pay and also the private sector. In order to compete for qualified candidates, the county's pay scale for engineers needs to be adjusted. PDS supports the Public Works reclassification request. Attached is a list of engineering positions in PDS which would qualify for a step adjustment if the Public Works request is approved.

Department	0006 - Public Works
Change Request	AUTO - 228 - 102 - Admin Operations Expenditure Adjustments
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:44 PM (PDT)
Description	This package reflects adjustments to the Administrative Operations (AO) Division non-capital base budget.
Summary	Sub program areas include Management, General Services, Training, Transfers Out, Interfund Transfers (preloads), Debt Service, and Public Works Assistance Fund loan program.
Justification	<p>Notable budget items and changes include:</p> <ol style="list-style-type: none"> 1) New contract for Automatic Vehicle Location (AVL) licenses and equipment. The existing AVL contract is approaching expiration and an RFP is planned for a new contract. This will include implementation costs and new equipment. 2) Continued services and annual dues for Kronos (UKG) timekeeping and Aurigo construction management software systems. 3) Annual CPI increase to Surface Water Management fees on Road Fund owned right-of-way. 4) Consultant for special projects. 5) Public Works Assistance Fund loan payouts to awarded cities. Loan payouts are dependent upon timing of loan awards, contract execution, and project progress/completion. 6) Staff training for division and department.

Publish Date	Aug 01, 2024 11:07 AM (PDT)
Description	This package reflects adjustments to County Road Fund base revenues. These revenues fund all program areas of County Road Fund (operations, maintenance, capital, and reimbursable services).
Summary	
Justification	County Road Fund revenues are estimated based on current economic trends, awarded/anticipated grants, and other available funding. Revenue estimates are utilized to develop a financially sustainable expenditure budget/plan. Economic trends can change rapidly, and Public Works monitors closely to adjust plans as needed.

6 - Road Maintenance Equipment
7 - Cathcart Landfill Solar Project

Summary

Change Request Summary

CIP capital projects (outside the ACP/TIP) for County Road Fund include:

1 - Cathcart Park and Ride
Public Works sold the Cathcart South property in 2021 – now referred to as Cathcart Crossing. A condition of the sale was that the developer construct a 150-stall park & ride on the County Road Fund owned property. The park & ride is not required to be constructed until the third phase of development which is projected to be in late 2024. The proposed budget is for potential ancillary facilities associated with the park & ride.

2 - Cathcart Seismic Building Improvements
In 2021-2022 an evaluation was performed by a consultant (KPPF) on the seismic stability of nine (9) Public Works Facilities. In 2023 KPPF performed development of conceptual retrofit schemes. In early 2024 they completed the rough order of magnitude (ROM) estimates of the cost to construct the retrofits. The proposed budget is for building retrofits at Cathcart Building A and Cathcart Building C.

3 - Cathcart Offices and Keyless Entry
Finish ongoing updates to Cathcart offices, including update of the former Noxious Weeds room. Add keyless badge entry to multiple locations.

4 - Cathcart Lighting Materials Yard
Add lighting to the Cathcart materials yard.

5 - Cathcart Paving Materials Yard
Paving the Cathcart materials yard.

6 - Road Maintenance New Equipment
Anticipated equipment needs include:
-Two (2) Van Body Trucks for Surface Water Crews
-Two (2) trucks for general maintenance
-Three (3) Auger sanders for Double Axle Dump Trucks
-Two (2) Expressway plows for Double Axle Dump Trucks
-One (1) box scraper for Bobcat
-One (1) Dingo drilling machine and trailer for traffic
-One (1) Grapple attachment for mini-excavator

7 - Cathcart Solar Project
For over 10 years Public Works has been collaborating with our local electric utility, Snohomish County Public Utility District No. 1 (SnoPUD) on a project at Cathcart Way Operations Center, (1) to design and permit up to a modular 5 MW solar and battery storage project, (2) construct up to a 500 kW system with 2,400 kWh battery energy storage system. The proposed budget is to complete items (1) and (2) if grant funding can be secured.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 309 - 102 - Engineering Services Expenditure Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:55 PM (PDT)

This package reflects adjustments to the Engineering Services (ES) Division non-capital base budget. There are minimal changes requested.

The largest component of the ES division budget is the ACP - Annual Construction Program in a separate CIP Change Package.

Description: Adjustments have been entered into the following program areas:
 1) Operations Program
 2) Maintenance Program
 3) Reimbursable Program

Summary: 1) The ES Operations Program budget has minimal change requests from prior year. The changes include replacements and upgrades to specialized Survey and Geotech equipment and software.

Justification: 2) The ES Maintenance (and Bridge Maintenance) Program budget is mostly unchanged from the prior year. This is primarily for bridge inspection work.

3) The ES Reimbursable Program budget is mostly unchanged from the prior year. ES continues to provide reimbursable services to other County divisions, County departments, and outside agencies depending on customer demand and availability of staff. Construction contractor payments are reduced related to anticipated outside agencies work (e.g., wastewater) on County Road construction projects.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 163 - 102 - Funding Utility Franchise Rental
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:28 PM (PDT)

Description
 The financial outlook for the County Road Fund has been negatively impacted by historic cost escalation combined with historically low revenue growth over the last three years. During this time, the cost of materials, fuel, labor, and services has grown at three times the rate of operating revenues. A fundamental structural funding imbalance has been created. In order to maintain the necessary level of service for maintenance, operations and construction in unincorporated Snohomish County transportation system, new funding mechanisms will be proposed.

Summary
 This package is to propose implementation of a Utility Franchise Rental Fee.

Despite ongoing fiscal discipline and rigorous continuous improvement, we anticipate that revenues will be out paced by expenditures by approximately \$15.0 Million per year in the County Road Fund. The imbalance is largely attributed to the impacts of high inflation and CPI numbers without having new revenues or significant enough increases to revenues to offset the expenditures. Unfunded mandates such as NPDES and changes to environmental permitting requirements have also increased overall costs. Due to I-747, barring any jurisdiction from raising the total property tax levy amount (excluding new construction) by over 1% annually, a declining motor vehicle fuel tax, and lagging mitigation revenues from new construction, other funding strategies must be pursued. Although cost control strategies will be assessed and implemented, without additional funding there is no way to close this structural funding gap without reducing or significantly delaying core programs, projects, and services provided by the County Road Fund.

Justification
 In response, new funding mechanisms will be proposed to implement and fund a Transportation Benefit District, implement Utility Franchise Rental fees, and request a voter approved County Road Levy lift. The proposals will be prepared in 2024-25 with anticipated implementation in late 2025 or early 2026.

Without implementation, it is estimated that programs, projects, and services could require cuts up to 20% of current levels.

Utility Franchise Rental Fee -
 APWA views the roadway right of way (RW) as a valuable taxpayer-owned asset—and that not charging “rent” for its use is a taxpayer subsidy. King County started charging “rent” on its RW in 2016—currently generating about \$10M in revenue per year. Implementation in unincorporated Snohomish County would require County Council approval of new franchise agreements as they expire. Revenue would be modest at first until franchise agreements are renewed, but there is potential to generate some revenues in the next couple years, pending upcoming franchise agreement negotiations. Public Works will be preparing a proposal in 2024-25 for implementation of a utility franchise rental fee to generate an estimated \$1.5 million annual revenues effective for 2026, with additional funds to be generated in later years.

Change Request Summary

Department 0006 - Public Works
Change Request AUTO - 240 - 102 - Road Maintenance Expenditure Adjustments
Change Request Type Standard Change Package
Change Request Status Executive Recommended
Publish Date Jul 09, 2024 10:44 PM (PDT)

This package reflects adjustments to the Road Maintenance (RM) Division non-capital base budget.

The overall RM division budget has increased in 2025-26. This is driven by continued trend of high inflation for labor, materials, ER&R/fuel, equipment, and professional services based on recent usage levels and pricing trends. The pricing for materials (e.g., asphalt, concrete, rebar, excavated materials, steel, and fuel) have increased significantly over the last few years.

Description An allocation of costs across RM programs and subprograms is related to an annual shift in work plans. The budget request includes levels of staffing, equipment, and materials necessary to deliver the core maintenance activities, some ACP capital construction work, and some reimbursable services for other County departments and outside agencies.

Additionally, budget authority is included for response to emergency events (snow, ice, flood, etc.), based on prior year costs and trends.

Adjustments have been entered into the following areas:

- 1) Operations Program
- 2) Maintenance Program
- 3) Reimbursable Program

Summary

Change Request Summary

Justification

1) The Operations Program budget is made up of the Facilities and Training sub programs:

The Facilities sub program provides budget to maintain the RM division’s wide array of facilities, which are necessary to operate the Maintenance, Capital, and Reimbursable programs.

The training sub program is necessary to maintain a productive and a safe work environment.

Arlington Shop: Ongoing upkeep efforts at the existing Arlington Shop until the site can be re-developed.

Snohomish Shop property: Ongoing professional services for environmental cleanup and legal services at the Snohomish Shop site, to obtain a No Further Action designation from the Department of Ecology (DOE), and to coordinate with the remediation on the private source property. This includes consultant services to sell the property.

2) The Maintenance Program budget has increased from the prior year. The Maintenance Program is made up of various sub programs, including Roadway/Roadside, Storm Drainage, Structures, Traffic & Pedestrian, and Maintenance Administration/Overhead. These are the primary functions of the RM division. The Maintenance Program budget accounts for about 80%-90% of the total RM division budget annually. Most of the costs are made up of labor, equipment, fuel, and materials to maintain the unincorporated Snohomish County roads system. Also, included is budget capacity for response to small or mid-sized emergency events such as flood and snow fights.

3) The Reimbursable Program budget is in line with the prior year. Reimbursable services fluctuate annually based on available staffing and demand from other PW divisions, other County departments, and cities/local agencies. The RM division balances its reimbursable workload with its county roads system maintenance responsibilities. Much of the reimbursable services work is done for Surface Water Management Division.

Publish Date	Jul 09, 2024 10:27 PM (PDT)
Description	An annual cost of living adjustment (COLA) has been added for salaries and wages in 2025 and 2026.
Summary	
Justification	The amounts used (4.5% in 2024, 2.5% in 2025, and 2.5% in 2026) are estimates. This will allow budget authority to cover costs when an actual COLA is agreed upon and established through labor negotiations.

Change Request Summary

Department	0006 - Public Works
Change Request	AUTO - 69 - 102 - Staff Allocation to Sub Programs
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:23 PM (PDT)
Description	This package is to reallocate the staffing (labor) budget across the various program and subprogram activities to reflect where work efforts will be focused. Allocations are necessary to assure sufficient budget authority exists in program and subprogram budgets.
Summary	
Justification	County Road Fund staff conduct work in multiple program areas (Operations, Maintenance, Capital, and Reimbursable). Within these program areas, additional sub programs exist. It is important for each program and sub program to have sufficient budget authority to complete the work. The re-allocation of staffing (labor) budget across programs and subprograms is a net zero change in total labor cost allocations.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 350 - 102 - TES Expenditure Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:58 PM (PDT)

This package reflects adjustments to the Transportation & Environmental Services (TES) Division non-capital base budget. The most notable changes are related to traffic equipment and system upgrades and a variety of consultant services.

Description: Adjustments have been entered into the following areas:

- 1) Operations Program
- 2) Maintenance Program
- 3) Reimbursable Program

Summary: 1) The most notable increases to the TES Operations budget are related to traffic equipment and traffic system upgrades and a variety of consultant services. This includes support for migration of old, unstable Microsoft Access databases. Additionally, consultant services are requested for two transportation planning studies to fulfill regulatory requirements related to HB 1181. Grant funds will be pursued for the two transportation planning studies.

Justification: 2) The most notable increases to the TES Maintenance budget are related to environmental services for noxious weeds control and mitigation site maintenance and monitoring. Services will be provided by a combination of PW temporary positions, Washington Conservations Corps (WCC) staff, and Surface Water Management staff. There is also budget included for some ongoing miscellaneous traffic signal equipment replacements and upgrades.

3) The TES Reimbursable Program budget is mostly unchanged from the prior year.

Net Operating Budget: (701,500)
 Net Capital Budget: -
 Net Budget: (701,500)

Department	0006 - Public Works
Change Request	AUTO - 384 - 102 - Transportation Improvement Program
Change Request Type	CIP - Capital
Change Request Status	Executive Recommended
Publish Date	Aug 01, 2024 10:40 AM (PDT)
Description	<p>The Annual Construction Program (ACP) is updated each year along with the six-year Transportation Improvement Program (TIP) to specify the transportation capital program in accordance with the adopted Comprehensive Plan, which sets the stage for future land use and growth through 2035. To meet the needs of an estimated 238,000 new residents, the ACP & TIP provides for new and/or enhanced capital improvements to create a viable arterial network.</p> <p>The 2025 ACP and County Road Fund expenditure budget includes construction of grant-funded transportation improvements. In addition, the capital program continues to invest in pavement preservation, ADA, safety, and non-motorized programs. The ACP continues to stretch and leverage local Road Fund dollars.</p>
Summary	

ANNUAL CONSTRUCTION PROGRAM COMPONENTS:

This package describes the capital road construction program and provides staffing support, consultants, and contract services necessary to design, acquire right-of-way (R/W), and construct capital improvement projects. These projects will provide for a safe, efficient transportation system that meets the growing needs of Snohomish County residents and businesses. The ACP includes the following categories:

- A. ENGINEERING & STUDIES. This category funds preliminary project planning and specialized reviews directly associated with the ACP projects needed to ensure transportation infrastructure meets the County’s growing needs.
- B. PAVEMENT PRESERVATION AND REHABILITATION PROGRAM. Snohomish County uses a Pavement Management System, which provides a systematic approach to lengthen roadway life by timely preservation and maintenance. When road reconstruction is warranted, these projects fall under this category along with the associated ADA ramp upgrades. Additionally, implementation of the County’s ADA Transition Plan is budgeted here.
- C. NON-MOTORIZED/TRANSIT/HIGH OCCUPANCY VEHICLE. This category funds projects to improve pedestrian and multi-modal connections along major roadways and in growing urban areas. Projects seek to improve walking conditions along popular routes between schools, transit stops, and residential and commercial areas. Safer walking conditions make it easier for citizens to take advantage of alternative modes to driving. Well-planned connections promote an area’s vitality and sense of community. This category includes the County’s payments to Community Transit for the Curb the Congestion program.
- D. TRAFFIC SAFETY/INTERSECTIONS. These projects provide safety improvements to spot locations, which are designed to improve traffic flow and eliminate hazards. Projects include adding turn lanes, neighborhood traffic calming devices, traffic signals, guard rail installation, and road bank stabilization projects. This category also includes the Index Galena Road and Goodman Creek Culvert flood repair projects.
- E. CAPACITY IMPROVEMENTS. Projects in this expenditure category are designed to increase vehicle carrying capacity on the County’s road system. The projects provide satisfactory levels of service to meet transportation system concurrency requirements identified in the Transportation Element of the County’s Comprehensive Plan. Where warranted, capacity projects add travel lanes along corridors and improve major intersections. New roadway alignments are also included in this category. Generally, these projects include bike lanes, sidewalks, landscaping and illumination.
- F. BRIDGE REPLACEMENT & REHABILITATION. This category funds replacement and rehabilitation of deficient County bridges. Bridge projects are identified through federal and state bridge condition inspection findings and the County’s Annual Bridge Condition Report.
- G. DRAINAGE. Drainage projects improve and preserve drainage infrastructure on the County road system. These projects lie within County road right of way, are an integral part of the road system, and are necessary to maintain and preserve system condition. A component of this category is replacement of culverts under County roads that are currently fish blockages.

Change Request Summary

Department	0006 - Public Works
Change Request	AUTO - 385 - 102 - Transportation Improvement Program (back out labor contingency)
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:00 PM (PDT)
Description	This package backs out labor cost contingency amounts budgeted in the 102 - Transportation Improvement Program (CIP Capital Change Package #384). The net impact of the overall changes to the budget is zero.
Summary	
Justification	This package and the corresponding entries in package #384 are necessary to show labor costs in Change Package #384 and reconcile the total amount of the change package to the submitted ACP/TIP.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 122 - 192 - Traffic Mitigation Base Revenue Adjustments
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 01, 2024 10:47 AM (PDT)

Traffic impact mitigation payments are imposed as conditions of approval upon development applications in accordance with the County's traffic mitigation ordinance, SCC Chapter 30.66B. Generally, payments are made prior to building permit issuance. These funds are placed in interest-bearing accounts in the Transportation Mitigation Fund (Fund 192) and held until transferred to the County Road Fund (Fund 102) to offset expenditures on eligible transportation improvement projects.

Description: By statute, funds must be spent on eligible projects within ten (10) years or returned to the property owner. The use of mitigation funds is programmed in the Annual Construction Program for Transportation (ACP) and in the Six Year Transportation Improvement Program (TIP), which are prepared by the Public Works Department and adopted by County Council. Mitigation funds are also being utilized for Transportation Demand Management Programs.

Summary: This package includes changes to base revenue for estimated fee collection revenues in 2025 and 2026.

Justification: Public Works estimates fee collection revenue over the TIP's six-year period, and factors these estimates, together with existing use of available fund balance, into the revenues available for transportation projects.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 388 - 192 - Traffic Mitigation Expenditure Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 01, 2024 10:45 AM (PDT)

This package reflects transfers from Transportation Mitigation Program Fund 192 to County Road Fund 102 to support the Transportation Annual Construction Program (ACP) and six (6) year Transportation Improvement Program (TIP).

Traffic impact mitigation payments are imposed as conditions of approval upon development applications in accordance with the County's traffic mitigation ordinance, SCC Chapter 30.66B. Generally, payments are made prior to building permit issuance. These funds are placed in interest-bearing accounts in the Transportation Mitigation Fund (Fund 192) and held until transferred to the County Road Fund (Fund 102) to offset expenditures on eligible transportation improvement projects.

Description
 By statute, funds must be spent on eligible projects within ten (10) years or returned to the property owner. The use of mitigation funds is programmed in the Annual Construction Program for Transportation (ACP) and in the Six-Year Transportation Improvement Program (TIP), which are prepared by the Public Works Department and adopted by County Council. Mitigation funds are also being utilized for Transportation Demand Management Programs.

Fee collections have hit historic lows in recent years despite a 2021 fee model update. There has been an overall downturn in permit applications and commercial development in the unincorporated areas of Snohomish County. If this trend continues it will reduce available dollars for future County Road Fund capital projects.

Summary
 Public Works estimates fee collection revenue over the TIP's six-year period, and factors these estimates, together with existing use of available fund balance, into the revenues available to transfer for eligible transportation projects.

Change Request Summary

Department 0006 - Public Works
Change Request AUTO - 75 - 306 - Arlington Operations Center Project
Change Request Type CIP - Capital
Change Request Status Executive Recommended
Publish Date Jul 09, 2024 10:25 PM (PDT)

Description

The Road Maintenance Division (Road Maintenance) operates from two locations: the Arlington Shop and the Cathcart Way Operations Center, maintaining approximately 1,600 road miles and more than 200 bridges. Road Maintenance has approximately 70 full time staff based at the Arlington Shop and 110 staff based at Cathcart, with high levels of seasonal staff added during summer months. Road Maintenance provides day-to-day maintenance and small project construction services. It is also an important emergency responder for flooding, landslides, opening roads for utilities, and other emergency services. The Arlington Shop serves the north county (RM District 1), which has approximately 562 road miles. It also is the location of the Bridge Crew, which maintains all the County's bridges.

The Fleet Services Division, Facilities and Fleet, operates an equipment maintenance shop at the Arlington Shop site with a staff of eight mechanics, one supervisor, and one storekeeper. The shop repairs and maintains the trucks and heavy equipment used by the road crews at Arlington. The shop also repairs and maintains Solid Waste trucks equipment and performs urgent repairs on Sheriff's vehicles. Fleet Stores purchases and maintains an inventory of material and supplies that support the road crews, including guardrail, bridge timbers and components, drainage structures and culverts, and other supplies.

The proposed Arlington Operations Center project will provide approximately 15,000 square feet of staff office and meeting space. The project will include a redevelopment plan for the Arlington Shop site, including the eventual replacement of the ER&R Maintenance Shop (construction for ER&R shop not included in this CIP request), to be completed in a later phase as funding is available. This project will also develop the Granite Falls property that was purchased in 2021 for a replacement material storage site after the sale of the formerly owned Sand Hill pit. The development of the Granite Falls property will provide this Arlington Shop project a necessary crew staging area to facilitate the continuous operations needed during the construction of the Arlington Shop site.

This package requests expenditure authority for design and construction of the new administrative/crew building, remediation of contaminated soil, along with utility, stormwater, parking and security improvements. The project is funded by \$38,000,000 in bond proceeds received in 2022 with a twenty-year payback period.

Summary

Change Request Summary

Justification

Arlington office and staff facilities consist of a modular office building that needs significant repair and is too small to serve current crew size. The vehicle storage facilities are deficient for the number and size of vehicles, and some of the existing structures are requiring demolition. The facilities are old, dilapidated, and beyond their useful life. Material storage is deficient for today's permitting requirements, and what does exist needs enlargement over their existing size. The overall site is lacking several features for safety, security, and is inefficient for current operations.

Through preparation of the Public Works Continuity of Operations Plan (COOP) and participation in the 2016 Cascadia Rising Exercise, it has become clear that uninterrupted operation of both Road Maintenance facilities (Arlington & Cathcart) is necessary for emergency response and recovery during a major earthquake or other disaster event. In contrast to Arlington, the Cathcart Way Operations Center is built on consolidated glacial till, has modern steel construction, back-up generators and a secure fueling station. The Arlington Shop site is located on some unconsolidated sands, gravels, and silts that would be prone to liquefaction in a seismic event. Analysis has shown that an earthquake in the M7.0 to M9.0 range on either the Cascadia Fault or South Whidbey Island Fault could result in ground settlement of up to 7-inches causing the Arlington Shop to be potentially compromised. In response to this risk, it is recommended that the existing shop site be redeveloped to be resilient with proper building foundations, parking, and driveways that will survive the seismic liquefaction for continued operation after such an event.

The Arlington Shop is identified in the COOP plan as an alternate work location for Fleet's other two shops (Cathcart and McDougall). The McDougall Shop is vulnerable in an earthquake due to the unreinforced concrete block wall construction. McDougall is the location where law enforcement and other emergency vehicles (DEM, Medical Examiner, Animal Control, SERS, etc.) are serviced and repaired. In an emergency that closes McDougall, it is critical to be up and running at another shop as quickly as possible to support law enforcement and emergency responders. If McDougall and the existing Arlington Shop were unusable at the same time, as could happen in a major earthquake, Fleet would not have the capacity to service these vehicles.

Change Request Summary

Department: 0006 - Public Works
Change Request: AUTO - 389 - 402 - CIP
Change Request Type: CIP - Capital
Change Request Status: Executive Recommended
Publish Date: Jul 31, 2024 11:10 AM (PDT)

This package includes the 2025 and 2026 portion of the 6-year Capital Improvement Plan (CIP) for the Solid Waste Management Division (SWMD).

The 2025 Capital Program includes:

- ARTS H2S Mitigation Installation (\$95k)
- SWRTS Scale House Roof and HVAC Replacement (\$225k)
- NCRS Transfer Station Feasibility Study (\$25k)
- NCRS Leachate System Improvements (\$135k)
- NCRS Recycle Area Property Acquisition (\$500k)
- ESS Bldg. K Retrofit/Bldg. M Replacement (\$1.0m)
- Intermodal Facility Property Improvements – Phase II PE & SEPA (\$50k)
- Intermodal Facility BNSF Re-alignment PE & NEPA(\$166.5k)
- CWRTS Tip Floor Replacement (\$975k)
- CWRTS Diesel-Electric Loader (\$575k)
- SWRTS Excavator Upsize (125k)
- Scale Automation Software RFP / Procurement (\$550k)
- Sisco Landfill Closure Design/Permitting (\$75k)
- Contingency funding for unanticipated repair (\$350k)

Description

The 2026 Capital Program includes:

- NCRS Transfer Station Replacement Project Engineering (PE) & State Environmental Policy Act (SEPA) (\$25k)
- Intermodal Facility Property Improvements – Phase II PE & SEPA (\$50k)
- Intermodal Facility BNSF Re-alignment Project Engineering (PE) & National Environmental Policy Act (NEPA) (\$166.5k)
- Sisco Landfill Closure Design & Construction (\$5.65m)
- Contingency funding for unanticipated repair (\$350k)

Summary

2025 Capital Program:
ARTS H2S Mitigation Installation - The Airport Road Recycling and Transfer Station (ARTS) in Everett has a large amount of Hydrogen Sulfide (H2S) in the effluent that flows to the local wastewater treatment plant. Per a new discharge agreement with the Mukilteo Water and Wastewater District, the County must mitigate H2S. These funds will pay for final design and construction of this system.
SWRTS Scale House Roof and HVAC Replacement– The Southwest Recycling and Transfer Station (SWRTS) has substantial roof leaks and can no longer be patched. In addition, the original HVAC system is failing and parts are no longer available. These funds will pay for the design and construction of a new roof and HVAC system.

NCRS Transfer Station Replacement Feasibility Study– NCRS was commissioned in 1988, and at that time was a state-of-the-art transfer station. Although still functional, the station is not properly designed or sized to handle current customer counts, tonnage or support new diversion/recycling mandates. Other significant design flaws include the lack of any surge capacity, and poorly designed environmental handling of stormwater and leachate. This study will determine the feasibility of replacing the transfer station on existing property, thereby eliminating the need for a siting

process.

NCRTS Leachate System Improvements – The County recently received a NOV for the leachate effluent that flows into the City of Arlington’s wastewater treatment system. The leachate system is not designed to treat and/or reduce contaminant concentrations to the city’s standards. This project will retrofit and/or install new equipment capable of meeting the city’s IWDP requirements.

NCRTS Property Acquisition – Recycle Area – Public Works is acquiring property to facilitate the North County Roads Shop project. When Road Maintenance is done with the temporary use of this parcel, the Solid Waste Division will purchase it from the Road Fund to utilize as a Recycle Area in conjunction with the replacement of the North County Transfer Station.

ESS Building K Retrofit/Building M Replacement – The Cashiering Section of Solid Waste works out of Building M at CWOC, a very old triple wide mobile home that has numerous structural and mechanical issues. This building will need to be demolished in place, as it has no resale value. The Division has spare space in the warehouse section of Building K. This project will design and construct office space in Building K to relocate the staff from Building M.

Intermodal Facility Property Improvements: Phase II - Phase II of this project will expand access to 1,270’ of existing clear track storage which is currently not accessible as a working surface designed to support a reach stacker that was never installed. Phase II will provide direct access to otherwise inaccessible existing track and dramatically increase rail capacity at the IM. Additional efficiencies to be gained by the Phase II improvements include safer site operations and increased storage capacity of intermodal containers.

Intermodal Facility BNSF Re-alignment - The IM is served directly from the Rodgers Main Line which is the main north-south BNSF line serving the Puget Sound region. Switches to the IM must be coordinated with all passenger (Amtrak and Sounder) and freight (coal, oil, grain, etc.) service through Everett. By increasing the length of working track at the IM, it is estimated that the number of switches across the Rodgers Main line will decrease by 30%, thereby relieving congestion in the Everett area for other priority service. The budget funds will support planning and design efforts for the possible track realignment. Note, this is subject to a CRISI grant which will be considered for award in fall 2024. The total cost of the project is \$2.5m, which is subject to 20% match. The County’s total portion of this match is \$500k, spent over 3 years (2025-2027).

CWRTS Tip Floor Replacement – The tipping floor at CWRTS has reached the end of its useful life and requires replacement. These funds will pay for an overlay over the entire tip floor.

Diesel-Electric Loader – Since CWRTS opened in January 2023, a loader has been rented to operate the facility. These funds will buy a new energy efficient unit that will be placed in the ER&R fund and replace the rental unit.

Excavator – The excavator at SWRTS has reached the end of its useful life and must be replaced. There is the need for a unit with slightly larger capacity. These funds will supplement the ER&R replacement fund to procure a larger excavator.

Scale Automation Software RFP / Procurement – The current scale automation contract was established via RFP in 1993 and is renewed annually. After decades of service, there are technology, programmatic and functional updates that need to be incorporated into the Solid Waste system. The SWMD will go through a RFP-S process to select and implement a new scale automation system.

Sisco Landfill Closure Design/Permitting – As part of a settlement agreement, the County will use restricted third-party funds to pay for closure of the Sisco Landfill in accordance with state and local regulations. The Division is in the final stages of acquiring land associated with the Sisco Landfill. The Division is working with Ecology to move the Sisco Landfill from the MTCA VCP process to an Agreed Order in order to permit, design and perform final closure of the landfill. These funds will pay for consulting and legal fees to assist the Division with permitting and design.

Contingency funding for unanticipated repairs – Funding to support repairs for unanticipated equipment failures.

2026 Capital Program:

Justification

Change Request Summary

NCRTS Transfer Station Replacement PE & SEPA– NCRTS was commissioned in 1988, and at that time was a state-of-the-art transfer station. Although still functional, the station is not properly designed or sized to handle current customer counts, tonnage or support new diversion/recycling mandates. Other significant design flaws include the lack of any surge capacity, and poorly designed environmental handling of stormwater and leachate. This PE and SEPA work is needed to replace the station in 2028.

Intermodal Facility Property Improvements: Phase II - Phase II of this project will expand access to 1,270' of existing clear track storage which is currently not accessible as a working surface designed to support a reach stacker that was never installed. Phase II will provide direct access to otherwise inaccessible existing track and dramatically increase rail capacity at the IM. Additional efficiencies to be gained by the Phase II improvements include safer site operations and increased storage capacity of intermodal containers.

Intermodal Facility (IM) Burlington Northern Santa Fe (BNSF) Re-alignment - The IM is served directly from the Rodgers Main Line which is the main north-south BNSF line serving the Puget Sound region. Switches to the IM must be coordinated with all passenger (Amtrak and Sounder) and freight (coal, oil, grain, etc.) service through Everett. By increasing the length of working track at the IM, it is estimated that the number of switches across the Rodgers Main line will decrease by 30%, thereby relieving congestion in the Everett area for other priority service. The budget funds will support planning and design efforts for the possible track realignment. Note, this is subject to a CRISI grant which will be considered for award in fall 2024. The total cost of the project is \$2.5m, which is subject to 20% match. The County's total portion of this match is \$500k, spent over 3 years (2025-2027).

Sisco Landfill Closure Design & Construction – As part of a settlement agreement, the County will use restricted third-party funds to pay for closure of the Sisco Landfill in accordance with state and local regulations. The Division is in the final stages of acquiring land associated with the Sisco Landfill. The Division is working with Ecology to move the Sisco Landfill from the MTCA VCP process to an Agreed Order in order to permit, design and perform final closure of the landfill. These funds will pay for design and construction costs.

Contingency funding for unanticipated repairs – Funding to support repairs for unanticipated equipment failures.

Change Request Summary

Department: 0006 - Public Works
 Change Request: AUTO - 402 - 402 - Expenditure Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 31, 2024 11:13 AM (PDT)
 Description: This package reflects adjustments to the Solid Waste Division (SWD) non-capital base budget.
 Summary:

Municipal Solid Waste (MSW) tip fees account for over 80% of SWD's revenue. The MSW tip fee has not been adjusted since 2009, yet SWD expenses have increased significantly during this 15-year period. The SWD is currently conducting a comprehensive rate study, which should be finalized in November 2024. Rate recommendations will be presented after the study is complete.

Justification: Capital costs are decreasing 71% in 2025. The projects are largely infrastructure improvements at disposal facilities and equipment purchases. Note, the County applied for a \$2.5m CRISI grant from the Federal Railroad Administration (FRA), but a final decision on award will not be issued until Q4 2024.

Change Request Summary

Department	0006 - Public Works
Change Request	AUTO - 320 - 402 - FTE Additions
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:56 PM (PDT)
Description	This package contains a request for eight (8) additional FTE positions to the Solid Waste Division (SWD) in the 2025-2026 budget. These positions deliver direct and indirect service to customers by providing vital field, administrative and planning support services.
Summary	<p>In 2009, the SWD reduced its total workforce by 40 FTEs, or approximately 25% of the workforce, in response to the economic recession and corresponding reduction in MSW tonnage (approximately 22%). Since 2010, four (4) non-Operations vacant positions have been reclassified to Operations positions to delay requests for new positions. Due to the age of facilities, additional legislation and rulemaking, and a complex set of leave requirements, the SWD realizes it is currently understaffed in its Planning and Accounting/Cashiering programs. The requested eight (8) new positions are a 4.9% increase to the current 163 FTEs in the SWD. These positions are funded through the collection of solid waste tip fees. The SWD is currently conducting a rate analysis where costs will be reevaluated to adequately fund all SWD FTEs.</p> <p>Additional justification by classification follows:</p> <p>Solid Waste Laborer I: Two (2) Laborer I's are required to manage the growing customer service expectations and solid waste program support at the Division's transfer stations. It is increasingly difficult to park customers, monitor the collection areas and process waste with the current staffing level. This will decrease customer wait times and generally improve customer service. These positions are funded through the collection of SWD tip fees.</p> <p>Site Attendant I: Two (2) Site Attendant I's are required to manage the growing customer service expectations and solid waste program support at the Division's rural drop box locations and recycle areas. It is increasingly difficult to process customers, monitor the collection areas and implement new recycling programs with the current staffing level. This will decrease customer wait times, the contamination rate of recyclables, and generally improve customer service. These positions are funded through the collection of SWD tip fees.</p> <p>Heavy Truck Driver: Two (2) Heavy Truck Drivers are required to manage the growing customer service expectations and solid waste program support at the Division's transfer stations and drop boxes. It is increasingly difficult move waste with the current staffing level. This will decrease overtime requirements. These positions are funded through the collection of SWD tip fees.</p> <p>Accounting Technician II: One (1) Accounting Technician II is required to support AP functions of the Division. It is increasingly difficult to process AP, especially with the increased volume of purchases related to the transition to p-card usage over standard accounts. This position is funded through the collection of SWD tip fees.</p> <p>Project Specialist IV: One (1) Project Specialist IV is required to manage the growing need to implement new legislation and regulations relating to a variety of initiatives, such as the diversion of waste from landfills, methane/GHG reduction, organics, product stewardship and outreach/education. This position is funded through the collection of SWD tip fees.</p>

Change Request Summary

Department	0007 - Hearing Examiner
Change Request	AUTO - 107 - OHA Case Management System
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 16, 2024 09:22 AM (PDT)
Description	This is a partner package with IT Package #359. This is a carryover of 2024 approved funding for implementation of Case Management software, and funding of software maintenance and support for the Office of Hearings Administration to improve workflow, introduce efficiencies and provide greater access for the public.
Summary	<p>Council previously approved funding of \$250,000 in IT's 2024 budget for procurement and implementation of a case management software (CMS) system.</p> <p>Six vendors responded to a request for proposed solutions, and phase three evaluations/demos are scheduled for early July.</p> <p>This package is a placeholder based on the initial proposed cost from the highest of the three top-rated vendors, and the numbers will be refined later in the summer. The top three proposals range from a low of \$146,000 to a high of \$577,000 for procurement and implementation (median of \$251,775). Annual maintenance and support also range widely from \$27,000 to \$142,000, which would be for the second and third year following implementation.</p>
Justification	<p>The Office of Hearings Administration (OHA) needs a case management system to streamline processes, increase productivity, and provide improved access and service to our citizens. OHA provides a quasi-judicial forum to hear and decide matters for the Hearing Examiner, the Board of Equalization, and the Boundary Review Board. Cases can include hundreds of exhibits and public comments, all of which are part of the hearing record. OHA currently processes matters and documents by hand, tracking hearings, deadlines, and documents using Adobe Acrobat, MS Outlook, MS Word, and MS Excel. Processing and tracking are very laborious and time intensive; for example, just one of the processes of adding a public comment to a file can take up to 20 minutes for each comment, and controversial land use applications have hundreds of comments. Interested members of the public cannot view the record, prompting some to ask for copies multiple times throughout the hearing process. The Snohomish County Superior and District Courts, Snohomish County Office of Public Defense, Snohomish County Prosecuting Attorney's Office, state Office of Environment and Land Use Hearings Office, state Office of Administrative Hearings, King County Hearing Examiner, and City of Seattle Hearing Examiner all use case management software tools to manage their cases. Some of these jurisdictions, most notably the City of Seattle Hearing Examiner, have a public-facing portal that allows the public to view the current, dynamic file. Furthermore, public commenters and parties may directly submit information via the Seattle Hearing Examiner's web interface instead of through email.</p> <p>Thus, OHA requests a carryover of \$250,000 funding from 2024 plus \$327,000 for a total of \$577,000 in the 2025 budget for implementation, and second year maintenance and support costs of \$142,000. In the event a contract is executed and implemented in 2024, the 2025 request would be reduced to \$142,000 for maintenance and support. The budgetary need would be further reduced if a vendor is selected who has lower pricing. This request is consistent with the adopted 2024 budget in that we are requesting the funding be included in the IT budget as it was in 2024 with the annual operating costs being added to our interfund IT rates once implementation is complete. IT has the resources and expertise required to support and maintain the vendor support agreement.</p>

Change Request Summary

Department	0007 - Hearing Examiner
Change Request	AUTO - 267 - OHA Resource Alignment
Change Request Type	Resource Alignment
Change Request Status	Executive Recommended
Publish Date	Jul 30, 2024 01:18 PM (PDT)
Description	Resource Alignment for 2025 and 2026 Budget
Summary	

The Office of Hearings Administration (OHA) has been asked to provide a Resource Alignment in the amount of \$27,217 (\$5,117 for program 424 and \$22,100 for Program 860) for each year. As the second smallest office/department in Snohomish County, this would be devastating to our operations.

More than 70% of the 2025 and 2026 OHA budget for both programs (424 and 860) is allocated to salaries, benefits, hearing examiner pro tem expenses, and statutorily established board member reimbursements. Interfund charges account for more than 27% of our budget, which leaves less than 3% for necessary items such as copier rental, postage, and supplies. The proposed Resource alignment of \$27,217 would wipe out the entire 3% upon which we rely for operational expenses – and we would still fall short of meeting the proposed alignment by approximately \$1,300.

Even a small reduction places a significant strain on the Office of Hearings Administration, but we understand the difficulty of attaining a balanced and sustainable budget and the need for all offices and departments to do their part as best they can. Therefore, we propose a Resource Alignment for this office of 20% of the proposed \$27,217, which equates to a total reduction of \$5,500 (\$1,025 and \$4,450 for programs 424 and 860 respectively) for each of the 2025 and 2026 budget years.

Change Request Summary

Department	0007 - Hearing Examiner
Change Request	AUTO - 268 - OHA Reclassification
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 02:09 PM (PDT)
Description	Reclassification of OHA staff to ensure that job titles and descriptions accurately reflect current duties and requirements.
Summary	

The role of the Office of Hearings Administration (OHA) is unique in that it is the only county office that provides quasi-judicial services and is not part of either the judicial or executive branch. In 2013, County Council passed chap. 2.02 SCC and merged the separate offices of Hearing Examiner and Board of Equalization/Boundary Review Board into a single office titled "Office of Hearings Administration" administered by the Hearing Examiner. One purpose of the office merger was to create the flexibility of allowing any of the clerks to work for any of the three decision-makers and to handle back-office functions if the volume of work required more than one clerk or if a clerk was absent. The combined offices had an authorized support staff of 4.75 FTEs. Through dynamic administration of the budget and staff, staff support has been decreased to three FTEs. These staff support the three decision-makers (the Hearing Examiner, Board of Equalization, and Boundary Review Board) and are the gatekeepers between the decision makers and both the public and the parties in proceedings. Staff process submittals of hearing exhibits, set up hearing rooms and recording equipment, create and maintain the official record of proceedings, prepare written transcripts, schedule, and publish hearings and meetings, ensure compliance with the Open Public Meetings Act, recruit board members, and coordinate with other government agencies such as the Washington State Department of Revenue. Additionally, they provide back-office support of payroll, budgeting, public records management, accounts payable, and coordinate with other county departments (e.g., Council and Executive staff, IT, Central Human Resources, Planning and Development Services, Assessor's Office, Auditor's Office, and Facilities).

During the Hearing Examiner's meeting with the consultant team of Segal Partners and Central Human Resources staff for the 2023 compensation study, the consultants noted the disparity in job descriptions and pay between the administrative specialist and hearings clerks; they opined that all three should have the same job description and compensation because all three are responsible for and expected to perform all the duties in the office. The Administrative Hearings Clerk pay grade (315) ranges from \$31.291/hour to \$38.042/hour and the Administrative Specialist pay grade (238) ranges from \$33.166/hour to \$40.303/hour. Both are classified and not represented by a bargaining unit. Furthermore, the current job descriptions are inadequate because they do not comprehensively capture the work performed or expected, nor do they reflect the flexibility required for the positions. Reviewing existing job descriptions, the Municipal Clerk series most closely matches the breadth and depth of the work in this office, though they lack the additional back-office functions performed by OHA staff.

Justification This budget package requests that funding be provided and either: 1) job descriptions of all three staff be reclassified to replace the existing Administrative Hearings Clerk job description with the Municipal Clerk I job description plus back-office functions and revised pay grade of 243 (\$42.280/hour to \$51.415/hour) or 2) all three be reclassified to Municipal Clerk I. The financial impact of this change would increase the annual budget of the Office by approximately 3.5%, as explained below.

The first year that OHA existed as a comprehensive unit (2014), budgeted expenditures exceeded \$1 million. The Hearing Examiner steadily reduced expenditures for the following seven years. Although expenditures began to increase again in 2022 due to interfund charges and COLAs, the cumulative savings since 2014 have been significant: if the 2014 authorized budget of \$1,056,215 had been carried forward each year through 2024 without any increase, the savings to the county would be \$1.56 million. However, if the 2014 authorized budget increased at the rate of the Consumer Price Index, the cumulative savings would be \$2.835 million!

The financial impact of reclassifying staff from their current pay grades to the first step of Municipal Clerk I pay grade is small and, particularly so when considered against the budget amounts saved by this Office since its creation. The 2024 annual budget of the Office is approximately \$870,000, and the reclassification (including benefits) would increase the Office budget by approximately \$31,000 for 2025 - only 3.5% of the total Office budget, and approximately \$25,000 for 2026.

In addition, an OHA clerk is now leaving county employment for an administrative position in another government entity whose pay range starts above the top step of the Administrative Hearings Clerk pay range. She advised that compensation was the main factor in her decision. In some offices and departments, the loss of one team member is not significant, but OHA only has three team members—we've lost 1/3 of our skilled and talented workforce. Too, all OHA positions take many months to learn. Losing trained team members due to compensation inequities is a loss for the stakeholders as well as county government and OHA.

Fairness and equity require that people performing the same work be compensated the same. Each of the three Hearings Administration staff perform the same work as the other and the work they perform includes the work performed by a Municipal Clerk I plus back-office responsibilities. The financial cost of fairness is minimal, and the job descriptions should be revised to capture the functions accurately and comprehensively and assigned an appropriate pay grade. The employees are classified and not represented, so this request does not implicate any collective bargaining issues.

Change Request	AUTO - 36 - DCNR PARKS - FIXED COST INCREASES
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 15, 2024 11:31 AM (PDT)
Description	This Change Request reflects cost increases for Utilities, SWM Fees, Machinery & Equipment, Operating Equipment, Repairs & Maintenance, Professional Services, Overtime, ER&R and Uniform expenses coming in 2025-2026 for our 430 (Maintenance) and 680 (Operations) budgets. With costs still increasing from the 2023 inflation rates, the cost for all these services is continuing to go up and we are asking for support to help level off these budgets to reflect the actual expenditures that are currently being paid in 2024 and beyond. It also includes a fixed cost increase request for the Agriculture Division for expenditures for the Division Manager and new Project Specialist II position.
Summary	Due to constrains on General Fund, one-half of this request is recommended.
Justification	Please see attachment for individual budgeted line item requests. Cynthia, document is attached.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 201 - DCNR GENERAL FUND RESOURCE ALIGNMENT
Change Request Type	Resource Alignment
Change Request Status	Executive Recommended
Publish Date	Jul 30, 2024 04:09 PM (PDT)
	The Executive recommended reducing the Resource Alignment by 50%
Description	This Change Request is to address the 3% requested resource alignment for DCNR. This request affects our 112, 122,123, 411, 430 and 680 general funds, for a total of \$298,736.
Summary	<p>The Executive recommended reducing the Resource Alignment by 50%</p> <p>DCNR fully understands the need behind the requested resource realignment and the County's General Fund concerns. We respectfully request however for relief from the reduction based on recognition of the current deficit we are operating under for GF staff positions and the impact that reductions would have on programs.</p> <p>The impact of reductions on our GF programs would include:</p> <p>Maintenance (430)</p> <ul style="list-style-type: none">Additional reduction in mowing – frequency and areasReduction in watering and ballfield topdressing and fertilizationReduction in preventative maintenanceRemoval of training programReduction of rental budgetRemoval of Juvenile Program <p>Rangers/Operations (680)</p> <ul style="list-style-type: none">Reduced work release utilization – would impact graffiti clean upShortened seasons for sanicans and waste managementCuts to seasonal staff budgetEliminate one Park Ranger position <p>Additional savings in Parks' operation and maintenance program could be realized by moving some vehicles out of ER&R and handling repairs with in-house staff.</p> <p>Extension (122 & 123)</p> <p>Deferring Maintenance and Repairs will create a larger future need for WSU Snohomish County Extension that will put more pressure on the 2027/2028 biennial budget. We are already stretched thin with space and storage and need consistent operations funding for repairs and maintenance that considers and matches inflationary costs.</p> <p>Reducing communications and mileage will limit our ability to perform crucial Community Needs Assessments across our programs. Outreach and education to outlying communities, which are already underserved and in the most need, will be decreased. Our ability to conduct analyses of how we are doing with meeting our programmatic goals as well as what is needed in the future is dependent upon our ability to reach our audiences through our comms and outreach efforts.</p>
Justification	Our Extension programming is experiencing an increase in demand and effectiveness across the county despite having our facilities shuttered due to environmental concerns at McCollum Park during the pandemic. We have already done more with less. And so now, due to Snohomish County residents and our communities of practice telling us they want more educational access and programming, we are seeing an opportunity to increase our impact. However, the county funding is not keeping up. We need funding increases for our 4H, Horticulture, Forestry, Environment and Community Outreach programs and our administrative support. So, in the face of funding cuts instead of funding increases, we would be losing our

Change Request Summary

capacity to deliver world class education and programming to our county residents who are asking for more.

OES (112) – (Please note that the OES General Fund budget for 2024 reflected a 27% decrease over the 2023 request) A 3% reduction would result in reduced funding for:
Miscellaneous fund/grant matching which may impact County Inflation Reduction Act and other grant award opportunities.

We greatly appreciate the support in the 2024 budget for the addition of one additional Maintenance position and have information to present this year demonstrating that Parks’ operation and maintenance staffing deficit is actually a full 17 positions. Parks has a long history of operating extremely leanly (“penny pinching parks”) but have hit a point of increasing complaints from the public, frustrated staff and the understanding that, for the foreseeable future, there will not be sufficient General Funds to fully support provision of services desired by the public. In light of this, we are actively seeking to continue to build upon our efficiencies, transfer facilities, develop additional revenue opportunities, be innovative in funding opportunities and are actively working with our City and Town partners to vet the viability of a bond/levy measure. We understand however that these efforts are not likely either to fully support provision of services desired by the public and see that General Fund support will be needed into the future to continue to provide the Parks, WSU Extension and OES services that the public values.

We are projecting new revenue in 2025 to help offset General Fund needs:
New Parks reservation system – will reduce expenditures and increase revenues to a projected net gain in 2025 of \$117,656
Reduction in utilities associated with Twin Lakes Park upon transfer to the City of Marysville 1/1/25 - \$7,800
Currently investigating the possibility of additional cell tower leases for steady annual income
Currently working with the City of Lake Stevens on possible transfer of Lake Stevens Community Park, Cavalero and that portion of the Centennial Trail within the City of Lake Stevens

In conclusion, we appreciate the position that the County is in regarding General Funds. DCNR continues to focus on great responsibility in fiscal management and innovative approaches to provide the services that we do and that the public values. We appreciate the collaboration, support and flexibility in thinking of innovative ways to provide great services and the consideration of this request for relief from the General Fund budget reduction.

This change request requests a total of \$685,306 for the following projects:

- 1. \$350,000 in funds for professional services
- 2. \$145,306 (increased from \$62,656), in miscellaneous/matching funding
- 3. \$160,000 for additional help
- 4. \$16,000 (increased from \$10,000) in supplies
- 5. \$14,000 for dues and subscriptions
- 6. \$1,300 for communication

Description

This change request requests a total of \$613,950 for the following projects in 2025-2026:

- 1. \$350,000 in funds for professional services
- 2. \$145,306 (increased from \$62,656), in miscellaneous/matching funding
- 3. \$160,000 for additional help
- 4. \$16,000 (increased from \$10,000) in supplies
- 5. \$14,000 for dues and subscriptions
- 6. \$1,300 for communication

Summary

The change request meets the County’s mission, vision, and value goals by ensuring both innovative and new, as well as ongoing programs, projects and plans to provide the County’s diverse internal and external customers with service that is both equitable and excellent.

The application includes project funding for consultant project support, additional help and supply funds for several direct projects benefiting Snohomish County.

The majority of the funding coming into OES through this request will be used to support ongoing regional and local climate resiliency consulting contracts as well as facilitation of a wide variety of internal and external programs that are focused on meeting state and local climate goals. The details of this spending are as follows:

OES General Fund 002:

24101 - Professional Services: Consultant Services

Community Climate Resiliency Plan (formerly the Community Climate Action Plan) funding reallocation: \$250,000

DCNR-OES requests the re allocation of \$250,000 for the continued payments for the professional services contract to create the county's first community-wide climate action plan. Cascadia Consulting is leading this work, including developing a project schedule to meet project timeline/deadlines, leading public outreach and engagement, and the scheduled delivery of a final professional quality plan in early 2026.

Social equity is a central to plan development, and a portion of the total request is being used to ensure equitable and meaningful public, particularly with the county's BIPOC and frontline and Tribal communities. Project funds include robust internal and public engagement, and inclusion of subject matter experts from county departments via the County Interdepartmental Climate Resiliency Committee. The County's Climate Action Advisory Committee also plays a key role in providing input on the plan.

The full \$250,000 cost of the contract for the Community Climate Resiliency Plan will extend into 2026 and not be expended by the end of December 2024.

Public Electric Vehicle Infrastructure and Location Feasibility Study: \$100,000

DCNR-OES is requesting \$100,000 to retain a consultant to complete a Snohomish County public facing electric vehicle charging infrastructure and location feasibility study. OES is leading the Metropolitan Statistical Area's (MSA) efforts to plan for regional public facing electric vehicle charging infrastructure. The resulting information will allow the county to plan to meet growing demand as well as align with state climate resiliency targets and provide equitable, economical and grid sized appropriate public facing infrastructure, by capturing grant opportunities that require such an assessment as criteria for award.

Justification

24901- Miscellaneous: \$145,306

Matching Funds for Emergent Grant Opportunities: \$82,650

DCNR-OES requests \$82,650 in addition to the Pro Forma \$62,656 in miscellaneous funding to use for matching funds for grant opportunities applied for in 2024. Many grants that OES applies for require a match. In this case, an Inflation Reduction Act (IRA) Urban Forest Grant, applied for by OES staff in 2024, is expected to be awarded and these funds will be used as a portion of the required match for that and other grant opportunities that emerge in 2025 and 2026. Grant funding will provide for (among other things) the Snohomish County Healthy Forest program, additional project staffing for the Snohomish County Land Conservation Initiative and consulting planning services for the Snohomish County Evergreen Communities designation.

21500 - Extra Help: \$160,000

OES is requesting \$160,000 in Extra Help in the 2025-26 budget. OES facilitates both the Snohomish County Climate Action Advisory Committee as well as the Snohomish County Interdepartmental Climate Resiliency Committee (ICRC). Additionally, the division represents the Snohomish County as a core member of the (new) Environmental Protection Agency (EPA) Regional MSA Grant project and the NOAA grant funded \$72 million Coastal Climate Resiliency program. DCNR-OES is expected to regularly report to the Snohomish County Tomorrow Steering Committee and other regional and environmental groups on Snohomish County climate change resiliency initiatives. Additionally, OES facilitates several programs and other work

Change Request Summary

such as the development of the Community Wide Climate Resiliency Plan, the Land Conservation Strategy Plan, and the Sustainable Operations Plan.

OES also manages the Snohomish County Commercial Property Assessed Clean Energy and Resiliency Program, the Energy Smart Loan Program, and the County’s Weatherization Program, all which offer innovative financing mechanisms to help commercial, industrial, agricultural, and low income residential and multi-family buildings become more efficient and resilient.

To adequately fulfill the expectations, needs and development of both the interdepartmental and external members of these groups and programs, as well as facilitate meetings, agendas, public and internal meeting notes, briefings, reports and data management, the OES requests \$160,000. Funds would provide two temporary staff/pay grade 240 + benefits.

23101 – Supplies: \$16,000

DCNR-OES is requesting an increase to funding for supplies in the amount of \$6,000 for a total supply budget of \$16,000. The department is required to fund supply costs for several annual public outreach and other events as well as facilitate public meetings including the County public facing Earth Day event as well as support the supply needs of OES staff. These funds also cover the cost of new technical equipment for the OES temp staff and Funding Coordinator positions.

24951 - Dues Subscriptions and Reg: \$14,000

DCNR-OES is requesting \$14,000 in subscription and registration fees to cover the County’s enrollment with the Urban Sustainability Director’s Network which facilitates access to Climate Resiliency training, data and other resources to County Planning and Development Services, Department of Emergency Management, Office of Energy and Sustainability, Parks and other departments working on County climate planning.

24201 – Communications: \$1,300

DCNR-OES is requesting \$1,300 for cellular and data service for external and internal communication.

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 413 - DCNR PARKS - Accounts Payable Support
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 07, 2024 10:11 AM (PDT)
 Executive Recommended added \$23,000 for Extra Help

Description
 This Package will add a .75 FTE Accounting Assistant to help with Accounts Payable. The current position name "Secretary" is a working title at present. Parks will be working with Central HR to change the title to Accounting Assistant, since that title is currently not available in this system.

Summary
 Due to constraints on General Fund, this request is not recommended as requested by department. Executive Recommended added \$23,000 for Extra Help
 Given the increased workload associated with processing Cayenta purchase card batches and statements, there is a clear demand for an Accounting Assistant within our organization. This role will play a crucial part in assisting in managing complex financial processes across multiple divisions, ensuring efficiency and accuracy.

Justification
 Position Overview: The Accounting Assistant will be responsible for assisting in processing Accounts Payable transactions for various departments, including Parks, Fairgrounds, Agriculture, Office of Energy & Sustainability (OES), and Extension. Their duties will encompass managing Purchase Order requests, reconciling monthly purchase card statements (approximately 30 cards), handling weekly A/R deposits, and assisting with monthly Payroll JV's for Parks and Fairground staff.
 Key Contributions:
 • Efficiently process Cayenta purchase card transactions to maintain accurate financial records.
 • Collaborate with team members to ensure compliance with financial procedures.
 • Provide essential support to multiple divisions, enhancing overall efficiency and success.
 Why This Position Matters: Without the Accounting Assistant, our ability to manage these critical financial processes effectively will be severely compromised. The workload is already overwhelming, and the risk of errors increases without dedicated support. By creating this position, we address an urgent need and contribute significantly to the success of our team.

Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:44 PM (PDT)
Description	<p>This change request reflects two different scenarios. First it increases both Revenue and Expenses in accordance with an increase in anticipated contract changes.</p> <p>Secondly an increase in the Professional Services line item within the Agriculture/Horticulture budget to help cover the cost of expected Cola increases and steps for WSU Faculty and Staff paid partially through an ILA between WSU and Snohomish County.</p>
Summary	<p>The RSA with Surface Water Management will be increased by \$1,340.00 in 2025 and \$2,740.00 in 2026.</p>
Justification	<p>An Interlocal Agreement defines responsibilities of both parties and provides the vehicle for the County to pay for its share of salaries for WSU employees assigned to Snohomish County. The WSU partnership has been in place for over 100 years with Snohomish County and WSU sharing staffing costs within the Snohomish County Extension Office.</p> <p>Exhibit B is amended at a minimum once each year, in order to authorize payment of a share of salaries and benefits for WSU faculty and staff. Contracts and Agreements account for approximately \$222,184.00 with general funds providing approximately \$164,190.00 of total ILA funds. As noted above these figures change yearly.</p> <p>With costs still increasing from 2023 inflation rates, there are expected cost of living increases, step increases and performance based raises within the WSU faculty and staff. Snohomish County will need to cover a portion of these increases.</p>

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 238 - DCNR Parks 125 - Storage Shed
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:44 PM (PDT)

Description: This package is a one-time expense to purchase a storage shed, set a cement pad for delivery and add electrical, locks and shelving. This shed will be used to store outreach materials for the various programs conducted by Extension.

Summary: For storage Extension currently utilizes space at the Fairgrounds and Willis Tucker Park as well as renting a container unit. This storage shed would take the place of the container unit which we currently rent for \$3,500.00 per year. However, it comes with its share of issues. There is no electricity so lighting for access after dark is problematic. There is also an issue with condensation causing moist documents, moldy utensils and musty canopies. Being a rental unit we cannot attach hooks, or any other type of organizational tools. By purchasing rather than renting we will recover all funds within 6 years assuming the rent stays the same and of course there is no guarantee that will happen. Extension programs are far reaching and multi faceted they currently store everything from sewing machines to crab pots, from clinic boxes to sign boards, from curriculum to cooking supplies, from tables to canopies and everything in between. The space needs to be accessible on both nights and weekends since Extension programs are conducted when people are able to participate. Extension is always organizing, downsizing and prioritizing all stored materials in order to keep only what is needed and frequently utilized even with this process storage is always at a premium.

Description

The Snohomish County Conservation Futures Program is responsible for administering funds for the purpose of acquiring interests or rights in real property located within Snohomish County which meet open space and conservation requirements as per RCW 84.34.230 and S.C.C. 4.14. Funding for the program is through the collection of up to \$0.0625 per \$1,000 of assessed valuation against all taxable real property within Snohomish County.

S.C.C. 4.14.080 establishes a Conservation Futures Advisory Board, consisting of the County representative, two County Council representatives, two elected officials from cities within the county, and two citizen representatives, to make recommendations for projects funded by Conservation Futures revenue. Projects are evaluated and prioritized based on various criteria, including regional significance, multijurisdictional benefit, enhancement to current conservation programs, consequences from development, compliance with open space policies, and/or establishment of a trail corridor or natural area linkage. The board meets as necessary and make recommendations which are forwarded to the County Executive for transmittal to the County Council for final action.

This budget reflects the balance of funding for projects to be completed in 2024 that were approved by County Council as well as operations and maintenance plus bond debt payment and mandatory capital interfund costs. The budget also allows for available funding for new projects as recommended by the Conservation Futures Advisory Board.

Summary

Change Request Summary

PRESERVE OR IMPROVE THE UNIQUE QUALITY OF SNOHOMISH COUNTY'S NATURAL RESOURCES AND ENVIRONMENT
 The projects identified in the package meet the purpose specified in Snohomish County Code of acquiring interest or rights in real property for the preservation of open space land, farm and agricultural land and timber land. These are the projects approved and the estimated balances into 2025; the Conservation Futures Board may meet and changes may occur during the budget approval process.

Change Request Summary

Department: 0009 - Conservation and Nat Resources
Change Request: AUTO - 64 - DCNR PARKS 196 - MITIGATION FUND
Change Request Type: Standard Change Package
Change Request Status: Executive Recommended
Publish Date: Aug 14, 2024 04:26 PM (PDT)

Department requested the amounts that rolled over to 2026 be removed from the budget, as they missed adding that to the CR in the Dept phase. The Executive Recommended budget includes the entries to zero out those amounts.

Description: On September 27, 1989, the County Council approved Ordinances #89-103, 89-104 and 89-105 as an interim measure to address developer impacts on parks and recreation and provide a process to collect fees. On July 12, 1991, the County Council approved a new title 26A SCC (Ord 91-026) which codified the requirement of mitigating development impacts on park and recreation facilities. On February 1, 2003, title 26A was replaced by SCC 30.66A (Ord. 02-064). On February 23, 2005 a new GMA compliant SCC 30.66A was approved by the County Council (Ord 04-016) and was updated again by Ordinance 16-099. The park mitigation requirements authorized by SCC 30.66A are designed to mitigate impacts reasonably related to development by allowing payment of a dollar amount which must be used to acquire land or develop park and recreation facilities, which are identified as "necessary to support development." Collected fees are made up of a regional fee, which is used for projects that provide regional benefit, and sometimes a local fee, which supports community and neighborhood park improvements. Fees are collected within defined park service areas and are utilized within that same area, for community and neighborhood park improvements, or pooled with other collected funds for regional improvements (regional parks and trails).

Summary: Department requested the amounts that rolled over to 2026 be removed from the budget, as they missed adding that to the CR in the Dept phase. The Executive Recommended budget includes the entries to zero out those amounts.

Change Request Summary

This fund is a holding account for revenue brought in through Park Mitigation 30.66A. Funds are transferred to Fund 309 for Capital Project Expenditure. These fees are tied to designated parks service areas or are pooled with other funds for regional projects.

Mitigation funding for 2025 is based on revenue collected through April 30, 2024 and allocated to the following projects:

- Dist #1 Arlington Twin Rivers \$1,542 Cricket Pitch
- Dist #5 Granite Falls \$42 Lake Roesiger Playground
- Dist #9 Monroe \$741 Fair Park Winter Dog Park
- Dist #15 Stanwood \$1,034 Lake Goodwin Playground
- Dist #18 Kayak Point \$1,101 Lake Goodwin Playground
- Dist #19 River Meadows Twin Rivers \$22 Cricket Pitch
- Dist #20 Robe Canyon \$225 Lake Roesiger Playground
- Dist #22 Lord Hill \$1,734 Heybrook Parking/Trail
- Dist #23 Centennial \$1,564 CT Machias Playground
- Dist #24 Nakeeta Beach \$267,052 \$50K Forsgren/38,446 MLA Playground/613,700 MLA Pickleball/\$383,500 MLA Renovation (grant match acquisition)
- Dist #25 (Regional) Parks & Trails \$5812 Kayak Point Campground
- Dist #26 (Regional) River Meadows \$18,139 Kayak Point Campground
- Dist #27 (Local) Robe Canyon \$362 Lake Roesiger Playground
- Dist #28 (Regional) Robe Canyon \$1007 Kayak Point Campground
- Dist #30 (Regional) Lord Hill \$504 Kayak Point Campground
- Dist #31 (Regional) Centennial Regional \$44,255 Kayak Point Campground
- Dist #32 (Local) Nakeeta Beach Local \$818,595 same 4 projects as Dist# 24.
- Dist #33 (Regional) Nakeeta Beach \$370,638 Same 4 projects as Dist# 24.

Justification

TOTAL MITIGATION FUNDING FOR2022 PROJECTS: \$1,534,369

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 29 - DCNR PARKS 309 - COMMUNITY PARKS
 Change Request Type: CIP - Capital
 Change Request Status: Executive Recommended
 Publish Date: Jul 26, 2024 01:22 PM (PDT)

Description: Community parks are facilities which are typically located near population hubs and provide a mix of recreational amenities that are selected to serve the surrounding community. Amenities provided within community parks often serve the needs of Parks' level-of-service standards and population growth. Community Park projects included in the six-year capital program include property acquisition, development and/or improvements to provide new amenities to serve new and existing population.

Summary: Recommended budget includes funds for Council County/City projects.
 Justification: Please see attached WORD document for Community program 44 justifications.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 30 - DCNR PARKS 309 - OPEN SPACE/PRESERVE PARKS
Change Request Type	CIP - Capital
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:21 PM (PDT)
Description	Park facilities play a major role in habitat conservation and stormwater quality in Snohomish County. Park lands provide open space, resource protection and wildlife habitat. The Snohomish County DCNR Parks and Recreation Division maintains and provides stewardship for a significant number of properties that are classified as open space/preserve. These properties are managed for resource protection and some sites provide opportunities for public access, when appropriate. The projects identified within this program are focused on providing appropriate public access to these areas.
Summary	<p>Snohomish County Parks' capital improvement program for open space/preserve parks consists of the following projects:</p> <p>1. PARADISE VALLEY CONSERVATION AREA IMPROVEMENTS Development of parking lot to serve park users. Funding is proposed as follows: - Prior Year Balance: \$418,317 - 2025: \$0 - 2026: \$0 - Future Years: 2027 - \$500,000 (REET 2) - Project Start/End Date: 2021/2027 - Project Status: Initial lot design has been completed and needs to be reviewed prior to permit submittal. Project is awaiting project charter for restart. - Changes Since the 2024 Budget: Shifted out years budget</p> <p>2. SUNDQUIST FAMILY NATURE PARK Develop preferred plan and project list to improve park, including sidewalk connections between existing walkways for safe access to the park and the adjacent elementary school, providing ranger and maintenance vehicle access while keeping most of the park protected for natural habitat areas. Potential matching grant applications can be sought from Safe Route to Schools/Parks. - Prior Year Balance: \$0 - 2025: \$0 - 2026: \$0 - Future Years: 2028 - \$150,000 (Mitigation); 2029 - \$150,000 (Mitigation) and \$500,000 (Other); 2029 \$150,000 (Mitigation) - Project Start/End Date: 2025/2030 - Project Status: Project pending funding availability - Changes Since the 2024 Budget: Shifted funding into out years END OF PROGRAM 45</p> <p>This is also attached as a separate document.</p>

 Change Request: AUTO - 31 - DCNR PARKS 309 - REGIONAL PARKS
 Change Request Type: CIP - Capital
 Change Request Status: Executive Recommended
 Publish Date: Aug 20, 2024 07:21 PM (PDT)

Description
 Snohomish County currently operates parks that feature major natural resources which serve as a backdrop for recreational opportunities. These parks draw users from across the County and are classified as regional parks. Features within these parks range from forests, lakes, rivers and saltwater waterfronts to historic rural properties and unique natural features. Amenities provided at regional parks typically include day use areas, picnicking, camping, boating, hiking, horseback riding, or other recreational activities that meet regional demand. Many of these amenities are included within Parks' level-of-service methodology and, as such, may help address needs related to population growth. Regional parks offer substantial recreational opportunities and include several parks which have been in use since the 1970's. Renovation and maintenance of aging facilities is a priority in order to ensure that high quality recreation experiences continue to be provided. Expansion and acquisition are also a priority for regional parks to expand opportunities available to serve the county's growing population.

Summary: Dept requested removal of \$5M grant not awarded, and correction of Prior Yr Funds

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 32 - DCNR PARKS 309 - SPECIAL USE PARKS
 Change Request Type: CIP - Capital
 Change Request Status: Executive Recommended
 Publish Date: Jul 17, 2024 04:09 PM (PDT)

Description: Snohomish County parks that offer unique and specialized facilities are classified as special use parks. These parks, also have the unique advantage of generating revenue which can support the maintenance and operations of the park system. Special Use projects include improvements to existing facilities and planning or developing additional facilities that may be completed through public/private partnerships.

Summary:
 Justification: Please see attached WORD document for Special Use program 47 justifications.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 34 - DCNR PARKS 309 - SUPPORT
Change Request Type	CIP - Capital
Change Request Status	Executive Recommended
Publish Date	Aug 15, 2024 09:03 AM (PDT)
Description	Parks requires a variety of professional staff to support the Parks Department's capital planning, public participation, grant writing, contracts, interlocal cooperation agreements, acquisitions, design and engineering, program supervision, and construction management. In addition, funding for smaller capital projects that may be constructed by Parks maintenance staff is included in this package.
Summary	Recommended has been adjusted to remove from REET2, salary & benefits for a requested 0.5 FTE Funding Coordinator (not an eligible use of REET2), and salary & benefits for the 1.0 FTE in OES that is funded through LCI.
Justification	Please see attached WORD document for SUPPORT program 49 justifications.

Change Request	AUTO - 374 - DCNR PARKS 309 - SUPPORT (Salary/Ben Contingency removal)
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Aug 11, 2024 04:55 PM (PDT)
Description	This package is created to remove the Salary/Benefits/other contingency line items that were added to the Support 49 budget, to get it into the capital book.
Summary	
Justification	Cynthia explained that we needed to add the salary/benefit contingency line items into our Support 49 budget Change Request, in order to show the amounts in the Capital Book, however since the salaries/benefits were already added to the ProForma budget, we now need to reduce the contingency line item in order to not double the salaries/benefits entries.

 Change Request: AUTO - 33 - DCNR PARKS 309 - TRAILS
 Change Request Type: CIP - Capital
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:21 PM (PDT)

Description
 The regional trail system developed by Snohomish County Parks is a major county asset. Providing non-motorized recreational connections attracts hundreds of thousands of users and supports economic development and active transportation in the county. Trails are a major priority for Snohomish County Parks and requires building and maintaining the entire trail system, including preserving existing regional trails, completing missing links, and developing new opportunities. Future development of all regional trail corridors will depend upon local resources as well as funding from state and federal grant sources.

Summary
 Justification: Please see attached WORD document for TRAILS program 48 justifications.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 160 - DCNR PARKS 430- BRIDGE INSPECTION & REPAIR
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 15, 2024 11:40 AM (PDT)
Description	<p>This funding package aims to address the increasing costs of bridge inspections and maintenance within the Maintenance Team 480 Outside Repair and Maintenance budget. In 2024, removal of debris from one bridge after a flood event cost \$25,000. We will be spending about \$70,000 for bridge maintenance on two bridges. We currently have about 45 bridges system wide and will be adding an additional 7 when Centennial Trail South opens, one of which is 0.35 miles of trestle and historic railroad bridge over the Snohomish River and BNSF main rail line.</p> <p>The allocated funds will be utilized for two primary purposes: bridge inspections and maintenance throughout our park system. By prioritizing inspections, we will enhance the safety of park visitors and nearby residents. Additionally, the funds will be utilized to ensure that bridges are well-maintained, ultimately improving the overall experience for park users.</p> <p>By addressing these crucial aspects of bridge inspections and maintenance, we can create a safer and more enjoyable environment for everyone who utilizes our parks, while also accounting for the rising costs associated with these services.</p>
Summary	<p>Due to constrains on General Fund, this request is recommended at \$25,000</p> <p>Given the constraints of our limited maintenance staff who do not have the technical expertise in structural bridge repair we are requesting additional funds to hire external services. This additional support will assist our maintenance team in effectively managing bridges spread across our park system.</p>
Justification	<p>By using external services, we aim to ensure that these maintenance tasks are addressed promptly and efficiently. The funds will enable us to engage qualified professionals who specialize in bridge inspections and maintenance. Their expertise and assistance will alleviate the burden on our current staff, allowing them to focus on other essential tasks while ensuring that the maintenance needs are met in a timely manner.</p> <p>By investing in these external services, we can streamline our operations, improve response times, and effectively maintain the multitude bridges throughout our parks system. This strategic approach will enhance the overall upkeep and functionality of our parks, ultimately benefiting park visitors and nearby residents.</p>

Change Request	AUTO - 253 - DCNR PARKS 680- RANGER PROJECT POSITION
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:46 PM (PDT)
Description	This package re-establishes one project position that is in partnership with Snohomish County Airport, and which was zeroed out in the Position Allocation Base. This position is important for providing efficient, quality services and are all supported by revenue from the Airport. Revenues to support these positions are included in 680 base revenue as Interfund Services. This package supports County priorities to meet the needs of County residents efficiently and with excellent service.
Summary	
Justification	Continued Snohomish County Airport funding of one .75 FTE Park Ranger Project position to provide operational management for the Narbeck Wetlands Sanctuary, which included the cost of .75 FTE Park Ranger and uniform; (other .25 is base General Fund approved) a support vehicle and supplies are paid directly by the Airport. Since this position was established in 2013 it has been reviewed every two years to determine the continuation of the program and extension of the position. The Airport and Parks have agreed on a perpetual agreement. The following project position is fully revenue supported. NEW0901P/PRK7234P - Filled - Park Ranger - 1.0 FTE Narbeck Sanctuary (Program in place since 2013)

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 437 - DCNR PARKS FAIR Annual Fair Expense Increases
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:05 PM (PDT)
 Description: DCNR Fair Park expense increases to produce the annual Evergreen State Fair
 Summary:

The annual Evergreen State Fair is one of the largest events produced in Snohomish County and is the largest County Fair in Washington state. Inflationary pressure continues to exist in the pricing of various products and services to produce the fair, this change request addresses the need to increase spending authority to continue this annual community tradition. All expense increases are offset by increased revenue.

Justification: Several contracts will be coming up for new RFP's in 2025 and 2026, which have not been completed since prior to covid. It's expected the cost of these services will increase more than they have historically. These include a new media buyer, Rodeo, Lumberjack Show, Security and Fair decorations. We are expanding the footprint of the fair by including entertainment attractions further east on the fairgrounds and plan on increasing marketing through television and billboard ads.

The total increase in expense request for 2025 is \$157,425 and in 2026 is \$262,328.

 Change Request Type: CIP - Capital
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:12 PM (PDT)

Description
 As described in SCC 4.87 the Reserve Fund for Evergreen Fairgrounds Capital Improvements was established in 1993 to account for and accumulate monies for expenditure on capital improvements or acquisitions at the Evergreen State Fair Park. It also accounts for and accumulates funds for relief should there be a Fair Park operational deficit. This is considered the Rainy Day Fund with a minimum of \$250,000 held in reserve which we are increasing to \$300,000 in 2025-2026. When the fund took on debt service in 2011 we established an Additional Reserve of \$300,000 as well.

The source of these funds are generated by deposit of 10% on all building and grounds rentals, admission tax and surplus of Fair Park operating as determined at the conclusion of each budget cycle.

This package includes the 2025-2026 Budget for planned new capital expenditure (Machinery/Equipment and Construction) and off-setting revenue.

Summary
 Snohomish County Evergreen State Fair Park is the largest attended recreational facility in the region and provides service to participants and visitors from throughout the Western United States. The 193-acre complex includes multiple buildings and almost 400,000 square feet of indoor space. More than 1,000 events and activities are held here annually. It is the desire of Snohomish County that the facilities be well maintained and improved upon to meet the needs of our community for years to come. A Master Plan was completed in 2015 and it is currently being updated into a new Preferred Plan which will provide direction and priority for projects for long term success. We have updated our pricing for Fair and Year-Round use of the Fairgrounds to be in line with our area market and the Fair Industry and continue to seek opportunities for new revenue for the fairgrounds.

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 431 - DCNR PARKS FAIRGROUNDS Year-Round Support
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:05 PM (PDT)
 Description: Change request for year-round for support of the Fair Park which includes both fixed cost and year-round programing expenses
 Summary:

Justification: Due to continued inflation many of our expenses will continue to increase in the 2025-2026 fiscal year. Part of the required increases in our spending authority to be able to continue the year-round operations of the fairgrounds including increases in utilities, taxes, and supplies. Programing increases are used to produce events outside of Fair including a winter community event (\$30,000 each year 2025 and 2026) and production of a one-day fair for a private local organization in 2026 (\$73,000) completed biannually. These increase in expenses are all offset by an increase in revenues at the fairgrounds.
 Total year-round support increases are \$142,640 for 2025 and \$246,926 in 2026.
 This change request also adds revenues to balance the fair programs expenses (programs 541, 545 and 548) including preloaded increased interfund and cola expenses.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 440 - DCNR PARKS GF - RSA Adjustments to Actuals
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:06 PM (PDT)
Description	This Change Request is to show the actual increases in revenues and expenditures needed to be covered on all Reimbursable Service Agreements between Parks and other Departments/Divisions. This also shows increases/decreases to revenues/expenditures for residential rentals, Concessionaire and Facility License agreements, and new Reservation System Transaction Fee Revenue and decreased expenditures.
Summary	
Justification	Parks has reached out to SWM, PDS, and Public Works to verify that all departments/divisions are supportive of increasing our recurring RSA amounts, based on the increased salaries/benefits of the positions being funded. Email communications and signed RSAs between departments/divisions have been attached for those that are increasing. We have also increased rent at Kayak Kottage as well as some of our Concessionaire/FLA agreements.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 426 - DCNR PARKS Historic Fund
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:04 PM (PDT)
Description	DCNR-Historic Preservation fund change request which aligns the expected revenues for the fund with the expected expenses for Historic Preservation project as well as salary and benefits
Summary	
	The Historic Preservation program seeks to preserve Snohomish County's archeological and historical resources, sites and districts by community programming, educational outreach, historical places marketing and the community heritage preservation grant program.
Justification	Due to increased interest rates net recording fees that are recorded to the fund have decreased significantly. We are mainting the amount of Historic Preservation grants available to organizations in 2025 and increasing in 2026 as interest rates are expected to decrease by then. We are utilizing a portion of the Historic Preservation Fund balance to offset some of the decrease in recording. We expect recording fees to increase by 2026.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 497 - DCNR PARKS- FUNDING COORDINATOR
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 18, 2024 08:20 AM (PDT)
Description	This package is for a Funding Coordinator that will be split between Parks and the Fairgrounds. Hiring a funding coordinator will streamline the process of securing additional funding for the division, ensuring parks receive necessary resources for maintenance and improvements which will enhance experiences for residents and visitors.
Summary	This request is not an acceptable position in REET2 but is in as a recommended 0.5 FTE in Fair Admin .
Justification	Adding a Funding Coordinator for Parks and Fairgrounds will allow the Division to identify additional grant opportunities and can lead to increased financial support for both groups. This approach not only brings additional funding to the Division but will help support continued investment in preservation and improvements within our parks and the Fair Park. Revenues to support this position will be a 50/50 split between Fairground revenues and REET funding.

This package addresses reclass requests for numerous positions, some of which have been working out of class for multiple years.

Fairgrounds Superintendent Coordinator proposed to Fair Programs Specialist-Competitive Exhibits
This position will be funded by Fair revenues. This position is currently filled and the employee has been working out of class for a number of years. We are submitting this request as her duties have evolved due to significant changes at the Fair Park and her role has expanded. This reclass is supported by management & the union.

Programs Specialist proposed to Parks & Recreation Programs Supervisor
This position will be funded by Fair revenues. This position is currently filled and the employee has been working out of class for a number of years. We are submitting this request as the employee's role has evolved significantly, adapting to changes and needs at the Fair Park and within Parks as a whole. Over time she has taken on additional duties and staff supervision. Her duties better align with the Parks and Recreation Programs Supervisor position.

Accounting Technician II proposed to Accounting Technician III
This position is currently filled and employee has been working out of class for a number of years. We are submitting this request as duties have evolved due to significant changes in Parks and her role has expanded. This reclass is supported by management & the union.

Facility Maintenance Work IV proposed to Electrician III
This position is currently filled and employee's primary duties involve electrical task and should be reclassified as an electrician. The proposed reclassification accurately reflects the actual duties and responsibilities performed by the employee, ensuring the job title aligns with the specific skills and tasks handled. This reclass is supported by management & the union.

Description

Facility Maintenance Work IV proposed to Parks Maintenance Systems Technician
This request is for a title change only and will not affect pay range. This position is currently filled. The proposed reclassification accurately reflects the actual duties and responsibilities performed by the employee, ensuring the job title aligns with the specific skills and tasks he handles. This reclass is supported by management & the union.

Facility Maintenance Work IV proposed to Facility Maintenance Worker NPDES
This request is for job description update and won't affect pay range. This position is currently filled. The proposed reclassification accurately reflects the actual duties and responsibilities performed by the employee, ensuring the job title aligns with the specific skills and tasks he handles. This reclass is supported by management & the union.

Communications Specialist I proposed to Project Specialist
This position will be offset by sponsorships that are brought in. This position is currently filled. The employee's duties have evolved and this position has been focused on supporting Parks' expanding sponsorship/partnership program and the change is needed to pursue innovative projects as well as funding support. This reclassification is being pursued to align with needed job duties and skills.

Administrative Analyst proposed to Fiscal Resource Analyst Senior
This position will be funded by Fair revenues. This position is currently filled and the employee's role has evolved beyond her current job description. She now supervises staff, develops and analyzes fiscal forecasting models and programs, manages capital grants and contracts, and determines revenue requirements and operational costs.

Fiscal Resource Analyst proposed to Fiscal Resource Analyst Senior
This position is currently filled and the employee's role has evolved beyond her current job description. She now supervises staff, develops and analyzes fiscal forecasting models and programs, manages capital grants and contracts, monitors multiple funds, determines revenue requirements and operational costs.

Summary

Justification

Snohomish County Parks staff are hardworking, efficient and are willing to take on more to support the department. These reclasses are justified by the amount of work these staff have taken on while our department and the park system only continues to grow. We have had staff working out of class for years, who have been accommodated within our budget, so it only makes sense to permanently move them into those positions.

Reclassifying positions ensures that job titles and descriptions accurately reflect current duties and expectations. This also establishes clear career progression paths for employees, helping to motivate and retain skilled workers while ensuring the workforce is well prepared to meet both current and future needs.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 229 - DCNR SWM 415 - Capital CIP
Change Request Type	CIP - Capital
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:44 PM (PDT)
Description	<p>This priority package describes the Annual Construction Plan (ACP) and the Six-Year Capital Improvement Plan (CIP) for the Surface Water Management (SWM) Division of Conservation & Natural Resources and reflects adjustments to the Capital (Program 513) base capital budget for 2025 -26. Overall, the 2025 budget request for SWM Capital increased by 39% compared to 2024 and the 2026 budget request for SWM Capital increased by 18% compared the proposed 2025 budget. This is primarily due to grant funded projects that impact revenue/expenses. Adjustments are in the following areas:</p> <ul style="list-style-type: none">1) Stream and River Capital (Sub-Program 003)2) Drainage and Water Quality Capital (Sub-Program 008)
Summary	

1) STREAM AND RIVER CAPITAL (Sub-Program 003) – The 2025-26 budget request reflects an increase of 60% in 2025 compared to the 2024 approved budget and a decrease of 6% in 2026 from the proposed 2025 budget. The Stream and River Capital sub program includes design and construction of projects to restore or improve habitat and water quality in rivers and streams. This subprogram is funded by a combination of SWM service charge revenues and grant funds.

Change from Proforma Budget

Increases to the Stream and River Capital budget is primarily due to the work at Thomas’s Eddy scheduled to take place in 2025 and Shinglebolt Slough in 2026. Both projects are primarily grant funded.

Thomas’s Eddy is a 200-acre Floodplain Restoration project on the mainstem of the Snohomish River, between the City of Monroe and the City of Snohomish. This project will involve lowering of existing levees to promote river reconnections, native plantings, trail improvements and replacement of an access road culvert, large wood structures and replacement of two farm culverts.

Shinglebolt Slough is a 40-acre Floodplain Restoration project on the mainstem of the Lower Skykomish River, a tributary of the Snohomish River near the City of Sultan, and the confluence of the Sultan River. This project will reconnect isolated side channels, restore up to 20 acres of riparian habitat, as well implementing large wood structures and water quality improvements.

2) DRAINAGE and WATER QUALITY CAPITAL (Sub-Program008) – The 2025-26 budget request is an increase of 26% in 2025 compared to the 2024 approved budget and an increase of 37% in 2026 from the proposed 2025 budget. The Drainage and Water Quality Capital subprogram provides engineering planning and analysis, project design, and project construction for drainage and water quality concerns throughout the County. SWM Drainage and Water Quality projects are funded with a combination of SWM service base charges and fund balance, Roads - Interfund Professional Services, grants, and REET II revenues.

The Drainage and Water Quality Capital sub-program has the following main components:

- 1) Drainage and Flooding Reduction projects
- 2) Fish Passage Improvement projects
- 3) Master Drainage Planning and Water Quality Facility Planning
- 4) NPDES and water quality-focused projects

Change from Proforma Budget

The increase in 2025 and 2026 to the Drainage Water Quality Capital sub-program is primarily due to additional grant funds available to work on culverts to improve fish passage.

In 2025 the SWM Capital Projects team is advancing a variety of projects to construction, including 4 larger fish passage culvert projects and a large flood reduction project. The culvert replacement near 7616 Sexton Rd, costing roughly \$2M is a joint effort with WSDOT to replace fish passage barrier culverts within both County and WSDOT right-of-way. The Culvert Replacement near 26622 Monroe Camp Road, costing roughly \$3.2M, replaces a failed culvert crossing and satisfies an obligation with the Department of Washington Fish and Wildlife. Culvert replacements on Cedardale Loop, \$1.1M, and Grandview Rd, \$1.6M, each replace fish passage barrier culverts that are failing and are of interest with key tribal partners. Lastly, the Flood Reduction on Elliot Rd. project resolved long standing flooding issues along a key roadway in the County. Given the poor soil conditions at the site construction of the improvements must be broken into two phases, with construction of Phase 1 in 2025 (\$1.6M) and Phase 2 in 2026 (\$1.6M).

In 2026 we are advancing a variety of projects to construction, including 4 larger fish passage culvert projects, a large flood reduction project, and a large water quality improvement project. The North Martha Lake Inlet Water Quality Improvement project, costing \$3.68M, leverages Surface Water Utility funds and grant funds to improve storm water quality entering the lake while also fulfilling MS4 Permit requirements. The Culvert Replacement Project near 19224 Marine Drive (\$2.17M) replaces a fish passage barrier and leverages legislatively appropriated federal funding. The Culvert Replacements on 167th Ave (French Creek) (\$3.7M) and on S. Machias Rd. (\$2.35M), leverage federal grant funds to replace fish passage barriers on two different creeks. Lastly, the Culvert Replacement on 19th Ave. NE (Hibulb Crk) (\$1M) replaces a fish passage barrier.

Change Request Summary

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 98 - DCNR SWM 415 - Maintenance Program Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:25 PM (PDT)

This priority package reflects adjustments to the Surface Water Management Division Maintenance (Program512) non-capital base budget for 2025 and 2026. Overall, the 2025 budget request is an increase of 3% from the 2024 adopted budget and the 2026 budget request is an increase of 3% from the 2025 proposed budget.

Description: Adjustments are in the following areas:
 1) Drainage System Management (Sub-program 006)
 2) Drainage Rehabilitation/Investigations (Sub-program 007)

Summary: 1) DRAINAGE SYSTEM MANAGEMENT (Sub-Program 006) – The 2025 budget request is an increase of 3% from the 2024 adopted budget. The 2026 budget request is an increase of 3% from the 2025 proposed budget. The Drainage System Management sub program focuses on inspection, maintenance, and repair of the engineered drainage systems that convey, treat, and manage stormwater runoff. A key aspect of this program is to meet the Stormwater Operations and Maintenance requirements of the Phase1 Municipal Stormwater permit (NPDES permit), mandated under the federal Clean Water Act.

Justification: Change from Proforma Budget:
 The major increase to the budget for Drainage System Management is due to the inflation costs. Otherwise, this budget maintains status quo.

2) DRAINAGE REHABILITATION/INVESTIGATIONS (Sub-Program007) – The 2025 budget request is an increase of 4% from the 2024 adopted budget. The 2026 budget request is an increase of 3% from the 2025 proposed budget. This program responds to requests from County residents and County departments for technical assistance with drainage problems. This program includes field investigations, analysis of individual drainage problems, coordination with Road Maintenance and recommendations for solutions.

Change from Proforma Budget:
 The major increase to the budget for Drainage Rehabilitation/Investigation is due to the inflation costs. Otherwise, this budget maintains status quo.

Change Request Summary

Department 0009 - Conservation and Nat Resources
Change Request AUTO - 119 - DCNR SWM 415 - Operations Program Adjustments
Change Request Type Standard Change Package
Change Request Status Executive Recommended
Publish Date Jul 09, 2024 10:26 PM (PDT)

This priority package reflects adjustments to the Surface Water Management Division Operations (Program 511) non-capital base budget for 2025-2026. Overall, the 2025 budget request for SWM Operations decreased by 6% compared to 2024 and the 2026 budget request for SWM Operations decreased by 4% compared the proposed 2025 budget. This decrease is largely due to a 2024 one-time expense associated with a pond excavation in floodplain Services Sub-Program 005.

Description Adjustments are in the following areas:
1) Fiscal Services (Sub-Program 001)
2) Program Planning (Sub-Program 002)
3) Noxious Weeds (Sub-Program 003)
4) Resource Monitoring (Sub-Program 004)
5) Floodplain Services (Sub-Program 005)

Summary

1) FISCAL SERVICES (Sub-Program 001) - The 2025 budget request is a decrease of approximately 8% and the 2026 budget requests a decrease of approximately 1% from the from the 2025 proposed budget. The Fiscal Services sub program provides financial and administrative support for all SWM programs.

Change from Proforma Budget

The decrease in the proforma budget is primarily due to a one-time expense for SWM to relocate offices.

2) PROGRAM PLANNING (Sub-Program 002) - The 2025 budget request is an increase of approximately 17% and the 2026 budget requests a decrease of approximately 5% from the from the 2025 proposed budget. The Program Planning sub program coordinates water resource-related planning efforts

including salmon and Puget Sound recovery, water quality, shellfish protection, marine resources, and the Sustainable Lands Strategy. The program also includes education and outreach efforts for the county's National Pollution Discharge Elimination System (NPDES) permit.

Change from Proforma Budget

Increases stem from pass through grant expenses and revenues in the Phase II and III of the existing Floodplains by Design grant. Pass through partners include Tulalip Tribes, Snohomish Conservation District, Washington Farmland Trust, Adopt A Stream Foundation, and Ducks Unlimited.

3) NOXIOUS WEEDS (Sub-Program 003) - The 2025 budget request is a decrease of approximately 19% and the 2026 budget requests a decrease of approximately 9% from the from the 2025 proposed budget. The program addresses the control and management of exotic and invasive weeds as part of a larger effort in WA state. Priority species include Japanese Knotweed and Scotch Broom as designated by the Washington Invasive Species Council.

Change from Proforma Budget

The decrease to the Noxious Weeds budget is primarily due to a one-time expense in 2024 for a Noxious Weeds office/trailer.

4) RESOURCE MONITORING (Sub-Program 004) - The 2025 budget request is an increase of approximately 4% and the 2026 budget requests an increase of approximately 2% from the from the 2025 proposed budget. The Resource Monitoring sub program provides the scientific basis and support for actions and programs to protect and restore water quality and improve aquatic habitat and implements NPDES programs related to finding and stopping water pollution.

Change from Proforma Budget

The increase to the Resource Monitoring budget is due to step increases in salary, which are reflected in the preloaded proforma budget and the purchase of 10 sensors and RTK equipment for survey and drone flight.

5) FLOODPLAIN SERVICES (Sub-Program 005) - The 2025 budget request is a decrease of approximately 47% and the 2026 budget requests a decrease of approximately 20% from the from the 2025 proposed budget. Floodplain Services implements the non-capital flood hazard and floodplain management aspects of the Surface Water program.

Change from Proforma Budget:

Decreases to the Floodplain Services budget are primarily due to the 2024 onetime expense to excavate the Smith Island Pond and the 2025 expense to lift the Smith Island Levee.

Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 72 - DCNR SWM 415 - Position Reclassifications
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 04:47 PM (PDT)
Description	<p>Prior to April 1, 2024, SWM submitted management-initiated reclassification requests for three existing filled positions to Central Human Resources. All expenses due to these reclassifications, will be covered by revenue from Utility Service Charges. The need for these reclassifications is caused by higher level duties being necessary for all three positions to keep up with growing demands and requirements for SWM and to avoid the more costly alternative of creating new positions. Without these proposed reclassifications (or new positions), SWM faces the potential of billing errors, of noncompliance with the County's NPDES permit, and of a reduced ability to produce more capital projects.</p>
Summary	<p>Reclassify Utility Billing Assistant to Funding Systems Coordinator – the incumbent has been in a temporary upgrade for two years due to the need for this position to perform more complex tasks to support SWM's utility billing system, which is critical for SWM to produce accurate charges for roughly 109,000 unincorporated county parcels as well as additional parcels for four cities. Higher level support for SWM's billing system is essential due to advancing technologies, coordination with other Snohomish County adopted software applications, and a constantly changing customer base.</p>
Justification	<p>Reclassify Water Quality Specialist II to Water Quality Specialist III – the incumbent was recently placed in a temporary upgrade due to the need for this position to perform higher level functions that are necessary to meet the requirements of the County's NPDES permit. This position is now responsible for three NPDES permit requirements (formerly just one), needs to respond to increased scrutiny from the Dept. of Ecology, needs to understand more WQ standards and protocols, and must interact with more stakeholders.</p> <p>Reclassify Engineer Technician Senior to Engineer Technician Senior Lead– Given the higher levels of available capital funding and the growing demand for SWM to construct more projects, it is becoming increasingly necessary for this position to perform higher level tasks to keep up with this demand. While this position used to focus mostly on performing CADD drafting and management of SWM's CADD system, the higher-level duties needed for this position to produce more capital projects includes reviewing design drawings, training other staff, leading lower level staff, and analyzing and proposing design solutions.</p>

Department: 0009 - Conservation and Nat Resources
 Change Request: AUTO - 393 - DCNR-OES-Weatherization-221-Program Support
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:00 PM (PDT)

Description: This priority package requests a revenue change to the OES-Weatherization 221 Program Support budget. All included weatherization grants have shown steady increases to historic funding levels to support the Washington State efforts surrounding serving low-income residents, lower GHG emissions, and reducing the carbon footprint created by heating and electric production.

Summary: The package meets the County’s mission, vision, and value goals by ensuring new and ongoing programs, projects and plans provide the County’s diverse internal and external customers with service that is equitable, excellent, and effective. This increased funding will be used in all areas of Snohomish County perform repairs and efficiency improvements for residents not able to otherwise afford similar efforts through for-profit companies.

All of the funding included in this revenue package adjustment will promote increased staff training, engagement, learning opportunities, and production through increases to the following budgets:

Justification: Weatherization Program Support 221:
 2102 – ARPA-LIHEAP: \$(258,957)
 This funding has ended and needs to be removed from the program budget.
 8104 – DOE: \$99,505
 Expected funding allocations for this grant have increased.
 18104 – BIL-DOE: \$196,695
 Expected funding allocations for this grant have increased.
 8199 – DOE-BPA: \$23,176
 Expected funding allocations for this grant have increased.
 9356 – DHHS-LIHEAP: \$49,337
 Expected funding allocations for this grant have increased.
 0420 - Matchmakers: \$485,432
 Expected funding allocations for this grant have increased.
 4590 - PUD: \$97,000
 Expected funding allocations for this grant have increased.
 6711 - PSE: \$66,420
 Expected funding allocations for this grant have increased.
 6712 - CNG: \$1,350
 Expected funding allocations for this grant have increased.

Description	This priority package requests a budget change to the OES-Weatherization 221 Program Support budget. All included weatherization grants have shown steady increases to historic funding levels to support the Washington State efforts surrounding serving low-income residents, lower GHG emissions, and reducing the carbon footprint created by heating and electric production.
Summary	<p>The package meets the County’s mission, vision, and value goals by ensuring new and ongoing programs, projects and plans provide the County’s diverse internal and external customers with service that is equitable, excellent, and effective.</p> <p>This increased funding will be used in all areas of Snohomish County perform repairs and efficiency improvements for residents not able to otherwise afford similar efforts through for-profit companies.</p> <p>All of the funding included in this budget package adjustment will promote increased staff training, engagement, learning opportunities, and production through increases to the following budgets:</p> <p>Weatherization Program Support 221: 4101 – Professional Services: \$586,732 These funds will promote the option to replace the antiquated Weatherization Program software (WAP) to an new, updated cloud-based program able to modify and adapt to changes in funding and program requirements beyond the current system capabilities. It will also allow for greater flexibility to contract inspection and audit processes for larger multi-family projects beyond current program scope and knowledge base. 3104 – Operating Equipment: \$17,000 These funds will support maintaining additional staffing in effective program implementation. It will also allow for purchasing new and update equipment to ensure highest quality service delivery. 4305 – Lodging: \$2,100 These funds will support maintaining additional staffing in effective program implementation. 4933 – Registration Fees: \$5,100 These funds will support maintaining additional staffing in effective program implementation. 4304 – Meals: \$1,700 These funds will support maintaining additional staffing in effective program implementation. 3101 – Supplies: \$2,500 This will cover additional supplies needed for increased support for the Weatherization Program, which also includes supplies for remote work. 3105 – Software: \$5,000 This will cover additional software needs for planned program all-digital implementation, and additional staff needs. 4145 – Advertising: \$1,500 This will cover increased outreach efforts for program engagement. 4201 – Communications: \$2,000 This will cover increased outreach efforts for program engagement. 4301 – Travel: \$7,500 These funds will support maintaining additional staffing in effective program implementation. 4303 – Mileage: \$3,000 These funds will support maintaining additional staffing in effective program implementation. 4801 – Repair/Maintenance: \$11,000 This will cover additional calibration and equipment repair needs for increased field staffing.</p>
Justification	

Change Request Summary

4926 – Printing & Binding: \$2,075

This will cover additional outreach efforts for program engagement.

6401 – Machinery & Equipment: \$100,000

This will cover additional needed equipment, as well as two new replacement weatherization vehicles to replace outdated vehicles currently in use.

4504 – Space Rental - Outside: \$500

This will cover additional fees related to offsite storage for the Program.

Personnel Increases:

Energy Conservation & Repair Analyst NEW0916P:

This position is entirely grant funded by the weatherization program and will maintain and extend the currently filled CNR0902P. This position is required to fully implement and support the needed production and goals of the program to serve residents of the County with efficiency and health-and-safety repairs and preserve low-income housing.

Administrative Coordinator NEW0917P:

This position is entirely grant funded by the weatherization program and will maintain and extend the currently filled CNR0903P. This position is required to fully implement and support the needed production and goals of the program to serve residents of the County with efficiency and health-and-safety repairs and preserve low-income housing.

Human Resources Specialist NEW0915P:

This is a placeholder position to be changed to an Environmental Specialist Senior position prior to active job posting. This position is entirely grant funded by the Weatherization Program and will act as a lead technical position for the Weatherization Program. This position is required to fully support the needed production and goals of the program to serve residents of the County with efficiency and health-and-safety repairs and preserve low-income housing.

0916P & 0917P - Personal Benefits: \$93,816

Covering the benefits allocated to the above positions.

0916P & 0917P - Regular Salaries: \$205,468

Covering the salaries allocated to the above positions.

Publish Date	Aug 07, 2024 03:55 PM (PDT)
Description	This priority package requests a budget change to the OES-Weatherization 220 Program Administrative budget. All included weatherization grants have shown steady increases to historic funding levels to support the Washington State efforts surrounding serving low-income residents, lower GHG emissions, and reducing the carbon footprint created by heating and electric production.
Summary	

Change Request Summary

The package meets the County’s mission, vision, and value goals by ensuring new and ongoing programs, projects and plans provide the County’s diverse internal and external customers with service that is equitable, excellent, and effective. This increased funding will be used in all areas of Snohomish County perform repairs and efficiency improvements for residents not able to otherwise afford similar efforts through for-profit companies.

All of the funding included in this revenue package adjustment will promote increased staff training, engagement, and learning opportunities through increases to the following budgets:

Weatherization Administrative 220:
 4101-Administrative Professional Services: \$81,317
 These funds will promote the option to replace the antiquated Weatherization Program software (WAP) to an new, updated cloud-based program able to modify and adapt to changes in funding and program requirements beyond the current system capabilities.
 4303-Mileage: \$2,000
 These funds will further promote management and administrative staff to engage with the community, receive additional trainings to grow program knowledge, and increase paths to improved leadership efforts.
 4305 – Lodging: \$3,100
 These funds will further promote management and administrative staff to engage with the community, receive additional trainings to grow program knowledge, and increase paths to improved leadership efforts.
 4933 – Registration Fees: \$2,900
 These funds will further promote management and administrative staff to engage with the community, receive additional trainings to grow program knowledge, and increase paths to improved leadership efforts.
 4304 – Meals: \$3,340
 These funds will further promote management and administrative staff to engage with the community, receive additional trainings to grow program knowledge, and increase paths to improved leadership efforts.
 3101 – Supplies: \$1,713
 This will cover additional supplies needed for increased administrative support for the Weatherization Program, which also includes supplies for remote work.

Justification

Personnel Increases:
 Fiscal Resources Analyst:
 This position is half funded by the emerging NOAA grant and half by Weatherization Administration and will report directly to the Office of Energy and Sustainability Manager. This position would be funded to track the complexity of financial tracking and spending for Weatherization, which can include more than 10 different grants during a calendar year.

0912P - Personal Benefits: \$17,269
 Covering the benefits allocated to the above position.
 0912P - Regular Salaries: \$43,972
 Covering the salary allocated to the above position.

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 333 - Reclassification of Commercial Appraiser Lead
 Change Request Type: Position Adjustments
 Change Request Status: Executive Recommended
 Publish Date: Aug 06, 2024 03:43 PM (PDT)
 Description: Salary contingency for management-initiated reclassification request for the Commercial Appraiser, Lead that included updated job description and salary review submitted to Human Resources on Feb. 5, 2024.

Summary: The Assessor filed a reclassification request for the Commercial Appraiser Lead position to update the job description and have the classification reviewed and updated as well. Review of the position started prior to and continued during the Class and Compensation Study. The job description is lacking in definition and scope based on current work duties. It also does not accurately describe the level of knowledge, responsibility and expertise needed to fully perform the duties of the position.

Justification: When compared to positions within other county departments such as the Review Appraiser Lead position in Public Works which is at level 244, the compensation level for the Commercial Appraiser Lead is not accurate nor reflective of the correct level within the Assessor's Office. The results of the recent Class and Compensation study confirm these conclusions. The Commercial Division Manager position is at a 245 and this position being a Lead position within the division for the Appraisal unit reporting directly to the Commercial Division Manager, is at a 241 - four classifications below. The Commercial Appraiser Lead position is a professional-level position that requires the occupant to apply advanced skills in research, critical thinking, problem solving and analysis to highly technical real property issues. Responsibilities are comparable to the Review Appraiser Lead position in Public Works. Reclassification of this position should include an upgrade in salary commensurate with its responsibilities, skill and knowledge requirements.

The estimate of costs associated with this reclassification request included in this change request reflect an increase in salary per the current salary structure of two ranges - from 241 to 243. This salary range has not been reviewed by Human Resources yet. Recommended changes from an HR review may be higher or lower. No decision has been made at this time.

Change Request Summary

Department 0010 - Assessor
Change Request AUTO - 335 - Reclassification of Residential Appraiser Analyst Supervisor
Change Request Type Position Adjustments
Change Request Status Executive Recommended
Publish Date Aug 06, 2024 03:44 PM (PDT)
Description Salary contingency for management-initiated reclassification request to convert one Residential Appraisal Crew Supervisor position to new Residential Appraiser Analyst Supervisor submitted to Human Resources on Jan. 26, 2024. Assessor - Template for Reclass Change Request spreadsheet is attached to Change Request package 333.

Summary
 On Jan. 26, 2024, the Assessor requested a new classification and job description for the Residential Appraisal Crew Supervisor position that supervises the residential appraisal modeling functions which includes Residential Appraiser Analyst positions as well as a Residential Analyst Open Space position and a Residential Appraiser Open Space position. This management-initiated reclassification request is based on actual changes to duties for one of three existing Residential Appraisal Crew Supervisor positions. The supervisor for the Residential Modeling team has taken on Increased job duties and expansion of scope of knowledge and abilities require review of job description and classification for this position.

Justification
 After the recent Compensation Study review and moving more of the Current Use program duties to the positions within the division, the Assessor requested this particular position be specifically defined and include the oversight of the Current Use program as well as further defining the modeling tasks performed by the team.

The administrative tasks and oversight of such tasks previously were assigned to the Exemption Division Supervisor. Due to an increase in other exemption volumes and in particular, the Senior Citizen Exemption program, the full duties of the Current Use program have shifted to the Residential Appraisal Crew Supervisor overseeing the modeling crew. Additional actions taken have been to increase the Residential Appraiser Open Space position which reports to this Supervisory position from a .5 FTE to a 1.0 FTE. Consideration was given to the type of duties performed which are characteristic of appraisal and auditing functions prior to moving the oversight of the program to this position.

The current Residential Appraisal Crew Supervisor positions and the Exemption Division Supervisor position are currently at the same pay classification. With a broadening of the assigned Current Use Program responsibility and specifically defining the modeling tasks, the Assessor recommends an increase in the pay classification for this position in comparison to the remaining Residential Appraisal Crew Supervisory positions with the understanding the new description will need to be reviewed and scored accordingly.

The estimate of costs associated with this reclassification request reflect an increase in salary per the current salary structure of one range from 241 to 242. This salary range has not been reviewed by Human Resources yet. Recommended changes from an HR review may be higher or lower. Not decision has been made at this time.

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 358 - iPads for field inspections
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:58 PM (PDT)
 Description: Purchase 32 new iPads for use with Mobile Assessor integrated with Aumentum.
 Summary:

The real property appraisers in the Assessor's Office use iPads loaded with Mobile Assessor software for conducting field inspections related to revaluation, new construction, sales review and appeal responses. The Assessor's office purchased 28 iPads in 2020 for use with Mobile Assessor integrated with ProVal. Our existing units will be five years old in 2025 and will no longer meet the recommended minimum standards as published by the vendor. The Dept. of Information Technology does not cover the cost of replacing these units as part of the annual Technology Replacement Plan.

Justification: This request includes replacement for 28 existing iPads currently used by Commercial Appraisers, Residential Appraisers and Residential Analysts to conduct field inspections. The Assessor's Office is also asking for funds to purchase 4 additional units for use by the Personal Property team when conducting onsite audits and discovery activities. The integration of Mobile Assessor with Aumentum will provide additional opportunities for our Personal Property team to view both real and personal property records in the field and will enhance their ability to discover and enroll new businesses that have not reported business personal property for taxation purposes.

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 362 - Assessor Housekeeping - update various annual costs
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:58 PM (PDT)

Description: Updated costs for annual expenses such as software licensing, interoffice printing costs for Senior Citizen Exemption and Disabled Persons application packets, postage for annual valuation notices and Personal Property listing forms, conference and continuing education costs.

Summary: Software - Purchase 3 licenses for FME software in 2025 for GIS Analysts and Systems Analyst for use in writing queries to extract data for internal uses and for public consumption. 2026 costs are license renewal costs.

Postage - Need to increase postage to mail Assessment Notices and Personal Property Listings per State Law. Parcel counts and postage rates are increasing every year. The Assessor's office exceeded our 2023 postage budget by \$6633 due to these factors.

Inter-fund Print Shop - Demand for printed applications for Senior Citizen & Disabled Persons Exemptions increased in 2024 due to income limit increasing to \$75,000 for applicants. 2023 actual costs of \$9655 exceeded budget estimates of \$8000.

Meals - Updated estimate for per diem costs for attending conferences and continuing education classes. Assessor's appraisal staff hired in the past two years are still being trained per accreditation and career track requirements. Estimate lower costs in 2026 as our existing staff become fully trained.

Justification: Lodging - Updated estimate for lodging costs based on increasing hotel rates, requirements for staff to travel for onsite education courses and conferences. Estimate lower education related lodging expenses in 2026.

Registration fees - Conference fees have increased in 2024 over our previous expectations.

Printing & Binding - Updated estimate for printing costs for Assessment Notices and Personal Property listings due to higher rates and parcel counts.

Overtime - 2024 budget amount of \$135,000 included \$75,000 that was paid through transfer of funds from I/F Labor - ProVal/Ascend for the Aumentum implementation project. The Assessor's office expects the implementation of Aumentum will be completed in 2024. The net overtime budget for regular maintenance activities was \$60,000 for 2024. We are asking for \$100,000 in overtime in 2025 and 2026 to allow our staff more hours to complete their regular duties as they learn to use the new system and gain experience and speed.

Change Request Summary

Department	0010 - Assessor
Change Request	AUTO - 367 - Professional services for enhanced features and reports for Aumentum
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:58 PM (PDT)
Description	Request to provide funding to purchase Professional Services hours from Aumentum Tech to develop reports and extracts not included in the implementation contract.
Summary	<p>Ongoing testing and configuration of Aumentum has revealed the need for additional reports, data services and program enhancements that were not included in the original contract which was negotiated in 2019. Further development and customization of these tools and services will enable the Assessor to increase productivity, utilize advanced analytical tools to assist in equalizing values, and provide data to the public about assessments using Power BI and other tools that depend on data extracts from or data services in Aumentum.</p>
Justification	<p>Professional Services hours are sometimes included in ongoing maintenance contracts for software services. They have not been included in the contract for Aumentum with Snohomish County that was negotiated in 2019. Over the 25 years that the Assessor's Office has used ProVal and Ascend, our staff have developed extracts and reports that provide data used for audits, analysis, reporting to the State of Washington and mass appraisal reports for the public. While there has been a tremendous amount of development work done by Aumentum Tech to customize Aumentum for use in Washington State, specific needs for data extracts that our office has come to rely in recent years were not all included in the Statement of Work for this implementation project.</p> <p>The Assessor's Office requests a pool of money be put aside to be used to engage Aumentum Tech to help reproduce some of the extracts our in-office resources have created. It will take our team of analysts several years to develop the knowledge and skills needed to write our own custom extracts from the Aumentum database, just as it took many years for those skills to develop related to the ProVal and Ascend database. These funds will help speed that transition and provide enhanced productivity for our staff and transparency for the public and decision makers.</p>

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 370 - Assessor Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 31, 2024 02:07 PM (PDT)
 Description: The Assessor requests relief from the Resource Alignment amount for 2025-2026.
 Summary:

All of the processes performed in the Assessor’s office are interrelated and integral to producing a roll which allows taxing districts to levy and the Treasurer’s office to collect property taxes.

All functions of the Assessor’s Office are mandated and include specific deadlines. In looking at where we could possibly reduce resources, we do not have a program that can be stopped, reduced or removed and still meet the mandated requirements of the office as listed in state law and by the Department of Revenue. If the Assessor’s Office does not complete its processes in a timely manner, 67 taxing districts that levy property tax will not be funded. The total amount levied for 2024 tax is over \$1.7 billion.

Justification: Any sizeable reduction in \$ resources to this office equates to a loss in staff. The reduction request for the 2025-2026 budget would equal a loss of at least 2 staff per year for a total of 4 positions. We are currently at a minimal staffing level and actually need additional staff in order to continue to meet our mandated requirements and dates. Each budget cycle, our office has provided county comparison reports, industry standards and workload indicators supporting the need for an increased staffing level.

Our workload increases annually with a growing parcel count, land development, new structures, boundary changes and exemption applications to process and administer. Statistical data is tracked and can be provided in support of this fact.

The Assessor’s Office performs core functions in support of the county and all taxing districts with authority to levy. Requirement for Council to appropriately fund is found in RCW 84.41.050.

Please see the attachment to this package for data supporting the request for relief.

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 395 - Reclassification of Property Segregation Lead position
 Change Request Type: Position Adjustments
 Change Request Status: Executive Recommended
 Publish Date: Aug 06, 2024 03:40 PM (PDT)
 Description: Salary contingency for pending reclassification of the Property Segregation Lead position in the Assessor's office. Assessor - Template for Reclass Change Request spreadsheet is attached to Change Request package 333.

Summary: The Property Segregation Lead position in the Assessor's office was noted in the Compensation and Classification Study to be grossly underpaid when compared to other positions of similar responsibility and difficulty both at Snohomish County and in the jurisdictions used as comparisons by the vendor. The Executive also included this job description on its list of positions it recommended for salary adjustment. The Human Resources Director has reviewed this position and has initiated a process within HR to formally review the classification of this position.

Justification: When compared to positions within other county departments such as the Right of Way Investigator I (238) and Right of Way Investigator II (239) positions in Public Works, the compensation level for the Property Segregation Lead (236) does not reflect the complexity or scope of the work done by the Property Control Analysts that this position leads/trains nor does it reflect the added responsibilities of a Lead position. The results of the recent Class and Compensation study confirm these conclusions.

The estimate of costs associated with this reclassification request included in this change request reflect an increase in salary per the current salary structure of two ranges - from 236 to 238. However, as of June 4, 2024, Human Resources has not completed a review of the salary range nor have the union negotiations settled on an appropriate rate of pay.

Change Request Summary

Department: 0010 - Assessor
 Change Request: AUTO - 406 - Reclassification of Property Control Analyst positions
 Change Request Type: Position Adjustments
 Change Request Status: Executive Recommended
 Publish Date: Aug 06, 2024 03:41 PM (PDT)

Description: Salary contingency for pending reclassification of five Property Control Analyst positions in the Assessor's office. Assessor - Template for Reclass Change Request spreadsheet is attached to Change Request package 333.

Summary: The five Property Control Analyst positions in the Assessor's office were noted in the Compensation and Classification Study to be grossly underpaid when compared to other positions of similar responsibility and difficulty both at Snohomish County and in the jurisdictions used as comparisons by the vendor. The Executive also included this job description on its list of positions it acknowledges as needing adjustment. The Human Resources Director has reviewed this position and has initiated a process within HR to formally review the classification of this position.

Justification: When compared to positions within other county departments such as the Right of Way Investigator I (238) and Right of Way Investigator II (239) positions in Public Works, the compensation level for the Property Control Analysts (234) does not reflect the complexity or scope of the work done by the Property Control Analyst positions.

The estimate of costs associated with this reclassification request included in this change request reflect an increase in salary per the current salary structure of two ranges - from 234 to 236. However, as of June 4, 2024, Human Resources has not completed a review of the salary range nor have the union negotiations settled on an appropriate rate of pay.

Change Request Summary

Department	0010 - Assessor
Change Request	AUTO - 407 - Upgrade ArcGIS Desktop to ArcGIS Pro - partner package with IT
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:01 PM (PDT)
Description	Upgrade ArcGIS Desktop to ArcGIS Pro - This request provides funds to engage ESRI to assist in converting the Snohomish County Integrated Land Records (ILR) GIS database from ArcGIS Desktop 10.8.x (ArcMap) to the latest version of ESRI's replacement product, ArcGIS Pro, to support Assessor's office statutory requirements. Partner package with IT Change Request 359.
Summary	ArcGIS Desktop to ArcGIS Pro Proposal
Justification	<p>RCW 84.40.160 states ". . . The assessor shall prepare and possess a complete set of maps drawn to indicate parcel configuration for lands in the county. The assessor shall continually update the maps to reflect transfers, conveyances, acquisitions, or any other transaction or event that changes the boundaries of any parcel and shall renumber the parcels or prepare new map pages for any portion of the maps to show combinations or divisions of parcels."</p> <p>We complete this task through our Assessor's Office GIS Division. The Division's primary function is to maintain and update the County's Integrated Land Records (ILR) geodatabase, which includes the tax parcel base layer used in a multitude of ways by all county offices, other taxing districts, Snohomish County residents, and the Snohomish County business community. This division also assists in application development and appraisal support by providing various electronic mapping applications and map products including parcels, appraisal neighborhood boundaries, taxing district boundaries, annexations, etc. The current software platform used for this development and maintenance process, is ESRI's "ArcGIS Desktop 10.8.x" software suite, more specifically ArcMap.</p> <p>ESRI is slated to end ArcMap compatibility for new platforms at the end of 2024 and will end formal support at the end of February 2026. This package supports the conversion from ArcGIS Desktop 10.8.x (ArcMap), to the latest version of ESRI's replacement product, ArcGIS Pro, to support our statutory requirements.</p>

Change Request Summary

Department: 0011 - Auditor
 Change Request: AUTO - 193 - Housekeeping - from one DAC to another (General Fund)
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:37 PM (PDT)
 Description: Changing from old Advertising DAC to correct Advertising DAC for Elections (General Fund).
 Summary:
 Justification: The Finance Department loaded into Questica the Advertising budget from the General Fund for our Elections Division into an old DAC (002 5114854145); therefore, this Change Request simply reallocates the same dollar amount into the newer, correct DAC for Advertising (002 5114854401).

Change Request	AUTO - 196 - Auditor Resource Alignment
Change Request Type	Resource Alignment
Change Request Status	Executive Recommended
Publish Date	Jul 30, 2024 04:00 PM (PDT)
Description	Adding back 2/3 for Dept to retain 2/3 of requested 3% reduction for overall required operations with remaining 1/3 for specific General Fund expenses detailed in separate change request. Exec Recommended -restore 50%
Summary	
Justification	The Auditor is independently elected to fulfill several responsibilities under State law, including the administration of fair and accurate elections to sustain our democracy. To fulfill these requirements and Snohomish County goals and mandated programs, Auditor needs to retain at least 2/3 of Resource Alignment for overall operations while remaining 1/3 is available for specific General Fund expenses detailed in a separate Change Request related to several vital positions.

Change Request Summary

Department	0011 - Auditor
Change Request	AUTO - 217 - Memorializing existing change from "GIS Technician" to "GIS Analyst" already filled and funded.
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 03:55 PM (PDT) This is merely memorializing an existing change from "GIS Technician" to "GIS Analyst" already filled and funded within our Elections Division. (Classification Log # 024-001-001.) Current Pay Grade 240 and "Proposed" Pay Grade 240.
Description	<p>Per emails 5/14/2024 and 5/21/2024 from SHR-CompClass: "Central HR provides confirmation to Department and Union via email that the request was received." Next Step: "Department submits supported classification request with Budget proposal."</p> <p>Per guidance from the budget analyst assigned to the Auditor's Office, we have created this Position Adjustment request in Questica, even though the existing baseline budget and Finance's pro forma already include the funding. Therefore, this is a narrative only with the template spreadsheet form (from Questica's SharePoint site) submitted along with this request.</p>

Change Request Summary

Department	0011 - Auditor
Change Request	AUTO - 306 - Auditor adjustments to salaries needed to sustain required administration of accurate elections.
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Aug 06, 2024 04:25 PM (PDT)
Description	<p>The independently elected Auditor has concluded that these salary adjustments are needed to sustain the required administration of fair and accurate elections and related statutory responsibilities. The net portion of the "Resource Alignment" savings to be retained by the Executive could cover these increases.</p> <p>A. Administrative Assistant to Administrative Analyst: Reclassify this existing Confidential Employee (maintaining current step). B. Elections Workers: Range Adjustment from 237 to at least 239 for existing Election workers who oversee seasonal workers (maintaining their current step levels to effectuate at least a 10% increase). C. Chief Deputy Auditor: Range Adjustment from MGT-EXEMPT 112 to 113 (maintaining current step). D. Project Coordinator: Range Adjustment from 242 to 247 (currently vacant). Please see Justification section and attached spreadsheet for rationale and details.</p>
Summary	
Justification	<p>Big Picture: The independently elected Auditor has concluded that these salary adjustments are needed to sustain the required administration of fair and accurate elections and related statutory responsibilities. The net portion of the "Resource Alignment" savings to be retained by the Executive could cover these increases.</p> <p>A. The Auditor has concluded this Reclassification is justified because this position provides complex and confidential administrative, financial, contract administration, and project support services to the Auditor's Office as directed. The position is vital to the entire Auditor's Office. B. The Auditor has concluded this Range Adjustment is justified because these three positions oversee and train several seasonal workers for the multiple elections each year and have become even more essential for administering accurate elections during these challenging times. There is only one employee in each Job Title. Their Supervisor would still have a sufficiently higher salary at Class 242. The added cost to Regular Salaries of approximately \$24,000 (DAC 002 5114851011) and Personnel Benefits (DAC 002 5114852013) in Election Services would be more than offset by the net savings from the "Resource Alignment" across the Auditor's Office. (The Auditor would also support a Range Adjustment for all five 237 positions in Elections -- from 237 to 239 -- if that is easier to approve and administer.) C. The Chief Deputy Auditor is a unique position among Chief Deputies for several reasons. First and foremost, is the position's unique back-up duty required by State statute (RCW 36.22 as well as related duties in RCW 29A) for the independently elected Auditor in administering elections. In addition, the Auditor's Office for Snohomish County requires additional bandwidth and skill because the scope is not only Elections and Voter Registration, but also Licensing, Recording, and the unique inclusion of Animal Services. Moreover, the risks of taking and staying in the position have increased due to the recent attacks on the administration of elections since 2020. The independently elected Auditor has determined this modest increase through a Range Adjustment is necessary to pay commensurate with the unique responsibilities and risks. D. Twice within the past two years, the employee in this position has left for higher pay at another department (the Exec's Operational Excellence team) to receive salaries equivalent to the 247 to 248 range. This presents clear and compellingly direct evidence that the position is underpaid within the county family. The independently elected Auditor has concluded it is prudent for sustainable operations for this proposed Range Adjustment to bring this position more in line with the Op Ex salaries. Required spreadsheet attached.</p>

 Change Request: AUTO - 74 - FIN Relief From Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 02:09 PM (PDT)

Description
 The Finance Department in the General Fund is basically comprised of Salaries, Benefits and inter-fund rates. The only way the Finance Department can make up the difference is by reducing the hours of labor costs. The Finance Department has been tasked with a future ERP project, finishing the Cayenta Upgrade project, finish implementing the Questica budgeting project, transition to a biennial budget during the 2025/2026 Biennial Budget period. Although the Finance Department anticipates two retirements in 2025 and possibly a third in 2026, it is also anticipating approximately additional \$70,000 plus in retirement payout costs. With that said the Finance Department is requesting relief from its \$337,122 Resource Alignment.

Change Request Summary

Department: 0012 - Finance
 Change Request: AUTO - 214 - FIN New Position Risk Management
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:43 PM (PDT)

Description
 This request is to replace temporary contractor staff of approximately 1 FTE with a permanent 1.0 FTE position in the Risk Management division of Finance to handle Public Records Requests (PRRs) for Risk Management, Finance Operations and Budget divisions. We are requesting a Grade 234; this position will handle the more routine aspects of records collection, preparation and communications, taking direction from a records supervisor, who handles the more complex work. This is a permanent need; the department has used external staff for over 5 years to handle the large number of requests and records related to PRRs. This position will save the County money because we will no longer pay overhead to a staffing agency. It will also yield better results because we will have more longevity and consistency with a permanent position, instead of the turnover from temporary staff.

Change Request Summary

Department: 0012 - Finance
 Change Request: AUTO - 215 - FIN Replace Prior Accounting Analyst Senior Position
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 12, 2024 12:14 PM (PDT)

Description: In 2024 the Finance Department reclassified a vacant Accounting Analyst Senior position to an Assistant Controller position. The Assistant Controller position will provide supervisory relief to the County Controller, which had 16 direct reports, including 2 supervisors with 10 positions. The Assistant Controller will provide more subject matter expert/technical knowledge and leadership in the future ERP project, as well as direct supervision of the professional accounting staff. The vacancy of the Accounting Analyst Senior position that allowed for the reclass is still necessary to financial operations as the regular, ongoing work still exists. That body of work has not disappeared.

"This position will be partially funded (approximately 40%) with revenue from the cost allocation plan as all General Fund Finance positions are funded. This revenue from other non-General Funds will include not only salaries and benefits but also interfund rates that are charged to the Finance Department within the General Fund."

Change Request Summary

Department: 0012 - Finance
 Change Request: AUTO - 499 - ERP Finance Project FTEs
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 19, 2024 02:35 PM (PDT)

Description
 The mission of the ERP project is to scope, select, & implement a new state of the art Enterprise Resource Planning (ERP) system across the County. It has been well established that current Finance and HR systems are no longer able to meet the evolving needs of county operations. Existing applications are out of date with modern operations, disconnected from each other, and are growing in security vulnerability. The new ERP system will enable a new and improved level of efficiency, transparency, and service delivery to the citizens of Snohomish County. For the Finance Department, this change request includes funding for 12 project positions that are to be subject matter experts to support this project and ancillary costs (laptops/monitors) to support them. They will also be known as implementation project FTEs.

Summary
 This change request is being requested and in conjunction with AUTO – 375 and AUTO-487 from Human Resources and Information Technology respectively.
 Adjusted I/F Revenue to cover cost for two existing project positions that rolled forward in proforma budget. Positions FIN8056P and FIN1402P are current project positions that are now part the ERP Project Implementation Team.

Justification
 The Implementation Project FTEs for Finance will be a critical and required component of the ERP Project. These Project FTEs will be providing informed decision making and expertise on the intricacies of department workflows, compliance requirements and report standards. The Project FTEs will also provide system and process-flow mapping, implementation planning, vendor engagement, and change management. Also, the Project FTEs will train colleagues on the new ERP solution, bridging the gap between technical features and department task-requirements. And finally, the Project FTEs will ensure the new ERP system is properly configured to manage regulatory requirements, sensitive data, financial controls, and collective bargaining agreement terms.

In short, without these Project FTEs the ERP Project will not be able to be accomplished

Change Request Summary

Department	0013 - Human Resources
Change Request	AUTO - 379 - 2 Reclassifications L&D
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 05:50 PM (PDT)
Description	Reclassify 2 positions critical for the success of the ERP implementation. Each position plays a role with implementing software systems relative to talent management and learning management system (LMS). I am requesting to reclassify: 1) Human Resources Assistant to a Human Resources Consultant and 2) Human Resources Business Partner to a Human Resources Business Partner II.
Summary	
Justification	***As we move forward we need the higher skill sets. ... here is no impact to the general fund with these reclassification requests. Successful ERP implementation is paramount for the County's critical internal services operations. 1) The HR Assistant will be instrumental assisting with the LMS and talent management software transition. We need this employee's insight for supporting a successful transition from NeoGov Learn to the chosen ERP software solution and 2) The HRBP will be leading the development and delivery of ERP implementation trainings County personnel will need to learn how to use the new software systems. The knowledge this employee has is important to the successful transition from our current systems to the ERP being implemented.

Change Request Summary

Department	0013 - Human Resources
Change Request	AUTO - 424 - 2 Reclassifications Employee Experience & Leaves
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 05:51 PM (PDT)
Description	Reclassify 2 positions: 1) Human Resources Consultant to a Human Resources Business Partner and 2) Human Resources Business Partner to a Human Resources Business Partner II.
Summary	<p>The reclassification of the HR Consultant position to HR Business Partner is justifiable due to the significant evolution of the role, which now includes providing higher-level county-wide services for departments and employees, such as leading the implementation of the Preferred Name Project this spring and offering crucial Highline support to all payroll liaisons, including continuous training launched last year and tailored onboarding for new hires in these areas to streamline support for day to day operations in departments. Additionally, this position is essential for upcoming projects related to implementing new HR systems, as it serves as the primary operational subject matter expert in HR for Highline and NEOGOV Onboard. These expanded responsibilities and the strategic nature of the initiatives undertaken clearly align with the characteristics of an HR Business Partner role, warranting a reevaluation of the position's classification to reflect the level of expertise and expanded responsibilities.</p>
Justification	<p>The reclassification of the HR Business Partner (HRBP) position to HR Business Partner II (HRBP II) is warranted due to the substantial increase in responsibilities. The HRBP II role involves implementing a county-wide new leave and accommodation case management system. This system aims to enhance compliance, streamline processes, and improve efficiency, especially when integrated with the new HR systems slated for implementation in the coming years. The updated system and guidelines will define the workflow for leave documentation in the future, underscoring the need for senior-level expertise and leadership in specific human resources functions. The HRBP II position aligns with the requirements for managing complex projects and personnel, which are crucial for successfully executing strategic initiatives such as the new case management system. In addition, this position will be involved with projects related to the software related to implementation of the new HR systems relative leaves management.</p>

Change Request	AUTO - 249 - Alignment
Change Request Type	Resource Alignment
Change Request Status	Executive Recommended
Publish Date	Jul 30, 2024 04:02 PM (PDT)
Description	We will manage operational costs to reach the established targeted reduction. We will do this by prudently reducing all authorized spending, strategically delay filling vacancies and carefully manage our resources.
Summary	Exec Recommended - restore 50%
Justification	Central Human Resources is requesting forgiveness for the adjustment of resource alignment. A targeted reduction of 3% will impact operations by reducing our ability to maintain our existing employees as well as our ability to ensure the County is ensuring compliance with the many complex local, state and Federal laws with over 3,4000 employees.

Change Request Summary

Department: 0013 - Human Resources
 Change Request: AUTO - 375 - ERP Human Resources Project FTEs
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 15, 2024 07:36 PM (PDT)

Description
 The mission of the ERP project is to scope, select, & implement a new state of the art Enterprise Resource Planning (ERP) system across the County. It has been well established that current Finance and HR systems are no longer able to meet the evolving needs of county operations. Existing applications are out of date with modern operations, disconnected from each other, and are growing in security vulnerability. The new ERP system will enable a new and improved level of efficiency, transparency, and service delivery to the citizens of Snohomish County.
 For the Human Resources Department, this Priority Package includes funding request for:
 • Implementation Project FTEs: Internal, project-based resources working within the departments as Subject Matter Experts (SME's) to support the implementation efforts.

Summary
 This change request is being requested and in conjunction with AUTO – 499 and AUTO-487 from Finance and Information Technology respectively.

Justification
 The Implementation Project FTEs for Human Resources will be a critical and required component of the ERP Project. These Project FTEs will be providing informed decision making and expertise on the intricacies of department workflows, compliance requirements and report standards. The Project FTEs will also provide system and process-flow mapping, implementation planning, vendor engagement, and change management. Also, the Project FTEs will train colleagues on the new ERP solution, bridging the gap between technical features and department task-requirements. And finally, the Project FTEs will ensure the new ERP system is properly configured to manage regulatory requirements, sensitive data, financial controls, and collective bargaining agreement terms.

In short, without these Project FTEs the ERP Project will not be able to be accomplished.

Change Request Summary

Department: 0013 - Human Resources
 Change Request: AUTO - 305 - Labor Negotiator New
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 01:08 PM (PDT)

Description: Resources needed to meet and sustain successful labor negotiations, build equitable practices and inclusive language into labor agreements, align changes with the County's overall mission, vision and values.

Summary: Currently Snohomish County employs 3,000 represented employees with a staff of 3 in the Labor Relations unit. The Labor Relations unit is comprised of a Human Resources Business Partner (HRBP), Labor Relations Negotiator and Deputy Director/Chief Labor Negotiator. This is a ratio of 1 Labor Relations (LR) position per 1,000 employees. Whereas Pierce County has 3,000 employees and 5 LR positions (ratio 1 LR position per 600 employees) while the City of Everett has 1,200 employees and 3 LR positions (ratio 1 LR position per 400 employees). An additional position would modify our ratio to 1 LR position per 750 employees.

Justification: The additional position would allow the County to be more timely with and responsive to our labor partners in negotiations and daily matters and address issues of availability expressed by our labor partners. This would also enable the County to take a more strategic approach to labor relations as opposed to the primarily reactive approach we are required to take with our current staffing level.

 Description: LinkedIn Recruiter account annual payment
 Summary:

Justification: The LinkedIn County page and Recruiter accounts are used to improve the County’s brand and community reach while establishing a reputation of employer of choice. In the month of May 2024, our third month following a new branding strategy, we featured content provided by or related to the following departments: DCNR (3), Health Department, Human Services, Public Works (4), CHR, Public Advocate, CASA, Executive (2), and OSJ. In addition, we featured two job openings and one employee spotlight post. This allowed us to produce a record 14,079 impressions and 291 reactions, a monthly increase of 628% and 1,119% when compared to July 2023. The Recruiter account allows us to promote up to seven County jobs at any given time. Our strategy is to feature hard-to-fill and critical jobs from all departments. We are currently revising the list every week and feature up to 35 different county jobs each month from all departments.

Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:43 PM (PDT)
Description	In April 2024, the Executive approved a contract between Snohomish County and Aspire HR, Inc. for the Central Human Resources' Absence Management System. Central started implementation in May 2024 and is scheduled to release the system to employees in fall 2024. The contract requires Snohomish County (Central HR) to pay annual fees of \$55,800 for ongoing maintenance and support on a five-year contract. Central Human Resources requests that the cost of the annual maintenance and support be included in the IT rate model and allocated in the CHR's IT rates for budget years 2025 and beyond.
Summary	
Justification	IT has the resources and expertise to support and maintain the vendor support agreement.

Change Request Summary

Department: 0013 - Human Resources
 Change Request: AUTO - 378 - Request to add an HR Assistant (Compensation and Classification).
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 01:10 PM (PDT)
 Description: Additional position needed to adequately support compensation and classification responsibilities.
 Summary:

Justification: Position needed to ensure FLSA status updates, conduct professionally sound market analyses, on a periodic basis, stay informed of market conditions and report where the county stands with respect to the market as recommended in the 2018 Human Resources audit. The additional position would allow the County to be more timely with and responsive to our internal service customers in daily matters and, for example, allow comp/class to review reclassification requests by conducting desk audits as needed to ensure we strategically approach reclasses and ensure internal equity. This would also enable the County to take a more strategic approach to compensation and classification as opposed to the reactive approach we are required to take with our current staffing level. This year we have experienced a 400% increase in reclassification requests, likely related to the comp/class study being completed. Pierce County has a ratio of 1 Comp/Class staff per 1000 employees. Whereas, the County has a ratio of 1 Comp/Class staff per 1,700 employees.

Description
 This package provides a summary of the continued investment by the Department of Information Technology in the regular replacement of aging infrastructure for the County's IT system over the next 48-month period. The Technology Replacement Program (TRP) plan has been established as the county's annual effort to ensure workstation and infrastructure replacement is addressed to optimize system reliability and reduce incidence of critical failure. TRP is funded through a contribution from Fund 505 using rates paid by IT customers based upon allocated metrics, as identified in interlocal agreements and interfund rates assessed to departments.

Projects in Fund 315 that are not related to the TRP are generally funded by sources other than rate contributions from Fund 505. Some TRP categories incur only periodic outlays, but have assessments spread evenly over a multiyear period for consistency in planning for budgetary impact.

See attached.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 284 - Enterprise: County Public Website Redesign
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 12, 2024 03:01 PM (PDT)
 Description: Snohomish County's public facing website redesign and modernization.
 Summary:

Justification: Employees and constituents have clearly voiced that it is difficult to find information on Snohomish County's website. Site editors have expressed that publishing options are limited. To address these deficiencies, Snohomish County IT started a project in 2024 to redesign the County's public website to improve self-service for our constituents, provide a modern and mobile friendly user interface, and enhance the publishing experience to ensure the site is maintainable and follows best practices. This project consists of three phases that include research and planning which is actively being worked on, design and follow-up research, and build and implement. The current research and planning phase is focused on design, accessibility, inclusiveness, search, mobile experience, information architecture, navigation, standardization, publishing, professionalism, approachability, and trustworthiness. The research and planning phase produced both time and cost estimates required to complete the subsequent phases needed to transform the County's website from what it is currently to what it can be in the future to best serve our user base. This package will provide funding for the following two phases of design and follow-up research, and build and implement.

 Change Request: AUTO - 244 - Enterprise: IT Service Management Implementation and Expansion
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 19, 2024 03:58 PM (PDT)
 Description: Implement and expand the use of our IT Service Management system.
 Summary:

Justification: IT continues to implement and expand its Information Technology Service Management ticketing and work order system (Easy Vista and the IT Support Portal). This implementation and expansion includes adding capabilities, extending use beyond the Department of IT to IT professionals across the enterprise, creating better support organization and increasing transparency to IT operations. This growth requires dedicated software development and configuration. Funding to provide training and professional development to Department of IT application developers who are doing the work coupled with professional services is necessary for IT to be successful as we move forward.

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 251 - Enterprise: Social Media Management
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 19, 2024 04:31 PM (PDT)
 Description: Purchase an enterprise solution so departments, offices, and courts can centrally manage their social media accounts.
 Summary:

Justification: Social media has become an increasingly important element of civic engagement at Snohomish County. Currently, the County doesn't have enterprise tools for managing social media accounts and platforms apart from archiving posts for public records purposes. The impact of this is that across the county social media is effectively run as separate, individual accounts that are created and utilized by individuals and groups as they deem appropriate and to the best of their abilities. Investing in a social media management solution at the enterprise level will provide better transparency and efficiency by allowing the management of multiple accounts from a single interface/dashboard, leveraging improved analytics across accounts and platforms, increasing the ability of communications resources to collaborate and cooperate, improving customer engagement, promoting more effective social media campaigns, and having a way to establish and monitor consistent use of social media across groups and platforms.

Change Request	AUTO - 142 - Enterprise: Systems PM Resource (Project Position)
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 19, 2024 03:13 PM (PDT)
Description	This priority package represents the extension of end date for 1.0 full-time project employee from 2024 through 2026 to continue assisting IT service teams and professionals with the planning, coordination, and execution of IT service delivery.
Summary	The IT department handles multiple large and complex technical projects for which a Project Manager makes a significant impact in coordination and service delivery. While OpEx and IT continue to be joined in the support of advancing our technology capabilities, focused assistance is needed within IT to foster rapid growth and maturity. Key focus areas for this position include our cybersecurity posture, data mobilization, privacy, analytics and dashboard development for internal and resident focused outcomes.
Justification	The Information Technology Department is requesting funds to extend the current project position Project Manager to continue leading important current and queued projects through the biennium. Change Request Summary

Department: 0014 - Information Services
Change Request: AUTO - 487 - ERP and Fund 315 to 505 Project Transfer
Change Request Type: Standard Change Package
Change Request Status: Executive Recommended
Publish Date: Aug 16, 2024 08:47 AM (PDT)

Description: This package consists of budget-neutral adjustments to accurately account for IT software implementation in a manner consistent with GASB 96 regarding Subscription Based IT Arrangements (SBITAs). We are transferring the full amount of ERP project funds collected in IT Fund 315 into IT Fund 505 for tracking of future implementation efforts, as recommended by Finance.

Summary: This change request is being requested and in conjunction with package 375 and 499 from Human Resources and Finance respectively.

The mission of the ERP project is to scope, select, & implement a new state of the art Enterprise Resource Planning (ERP) system across the County. It has been well established that current Finance and HR systems are no longer able to meet the evolving needs of county operations. Existing applications are out of date with modern operations, disconnected from each other, and are growing in security vulnerability. The new ERP system will enable a new and improved level of efficiency, transparency, and service delivery to the citizens of Snohomish County. The total expenditures for this project fall into the following categories:

- Consulting and Professional Services: Providing strategic guidance and preparatory steps aimed to ensure a successful implementation by addressing operational challenges related to project management, financial management, resource allocation, and client communication.
- Software Licensing: Includes subscription-based (SaaS) recurring license fees calculated on a per-user basis that allows the County ongoing access to the ERP system.
- Software Maintenance and Support: Includes post-implementation support, monitoring and maintaining application and backend servers, incident management and resolution, software update releases, and regular data backups.
- Implementation Vendor Services: Includes consulting, system configuration, data migration, training, and ongoing support to ensure successful adoption and alignment to county strategic objectives system.
- Implementation Project FTE: Internal, project-based resources working within the departments as Subject Matter Experts (SME's) to support the implementation efforts.
- Implementation Project FTE Transfer Funds: Funding to support the Finance and Human Resources ERP Priority Packages as noted in the Introduction above.

JUSTIFICATION
Implementing a modern ERP system will yield several benefits to Snohomish County:

- Improved Efficiency: Streamlined processes, automated workflows, and reduced manual entry.
- Enhanced Collaboration: Centralized platform for data sharing and collaboration.
- Better Decision Making: Real-time insights and access to accurate data on finance, operations, and performance.
- Scalability and Flexibility: Ability to quickly adapt to changing needs, such as growth or facing new challenges.
- Increased Risk Management: Enforcing compliance with regulations, improving data security, and providing better audit trails – critical for the County's handling of sensitive information and taxpayer funds.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 453 - Fund 100 & Fund 130 Balancing
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:06 PM (PDT)
Description	This is a balancing package for Fund 100 Public, Educational, Gov (SnoCoTV) and Fund 130, Grant Control. Entries represent anticipated revenue and expenditure activity over the biennium.
Summary	In 2022 Snohomish County entered into a cable franchise agreement, Ord 22-026 and through said agreement, will be collecting Educational and Governmental Access fees to support related programming. This package establishes adequate budget authority for the receipt and related expenditure of those funds. Fund 100 Should balance at Revenue and Expenditure of 730,000 over the biennium and includes use of fund balance carried over from 2024.
Justification	Annually, the Information Technology department submits a grant application for the State and Local Cybersecurity Grant Program through WA Tech and Washington State EMD for one-time investments in strengthening the County's cybersecurity stance. This package establishes adequate budget authority for the receipt and related expenditure of those funds.

Department	0014 - Information Services
Change Request	AUTO - 397 - Fund 315 Balancing
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:01 PM (PDT)
Description	This package balances revenue and expenditure in Fund 315 for IT Capital Projects. It contains adjustments to our proforma base budget for line items that carried forward from prior year adopted levels. Revenue and expenditure is anticipated to balance in Fund 315 through entries made in this base package at \$3,183,000 in 2025 and \$3,343,000 in 2026.
Summary	This balancing package is necessary to create a foundation that represents the 2025-2026 Technology Replacement Program (TRP) contributions to Fund 315. Expenditures are aligned with our 5-year plan for technology infrastructure improvement.
Justification	From this initial package, adjustments to revenue and expenditure based upon policy decisions can be made through separate packages. Any adjustments to this priority package must be carefully considered and are discouraged; this package is designed to mirror initial rate model design, balances at the program level, matches departmental communications, and ties back to audited rate allocations and the IT department reduction package.

Department: 0014 - Information Services
 Change Request: AUTO - 115 - Fund 315 IT Innovation Fund
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 02, 2024 03:51 PM (PDT)

Description: The county budget cycle requires long lead-time for any IT projects that support business outcomes. The nature of IT innovation & modernization is such that the planning window is shorter, and the execution model leveraging the agile methods that a modern IT organization follows does not align with the county’s financial planning cycles. The IT innovation fund will set aside a dedicated amount of funding that will be administered by a steering committee of IT, OpEx, Exec, and Business Leadership in support of innovation projects that require the investment in IT solutions or technical IT resources that either do not currently exist, or where capacity is already allocated to other projects and initiatives.

Summary: Primary justification for this funding line is to have an agile funding model for innovation projects that meet a set of defined criteria around business value and return on investment.

Justification: Allowing for a governed IT Fund that distributes funding to approved technology projects that are not part of the already funded projects (during budget cycle) has been identified as a high need. The modern world of IT moves very quickly, and therefore a funded mechanism that allows for more agile decision making without having to wait for budget cycles would provide more direct and expedient business value. New ideas and innovation arrive quickly and sometimes unexpectedly. The model has been successful and the managed governance model that provides the guard rails and decision-making model to ensure projects that get funded meet a set of predefined criteria. IT Rapid Innovation & Modernization Fund (sharepoint.com)

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 70 - Fund 505 Balancing
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 21, 2024 03:40 PM (PDT)

This package balances revenue and expenditure in Fund 505 for IT Operations. It contains adjustments to our proforma base budget for labor, changes in existing software maintenance contracts, new ERP system, and increases in interfund charges, all of which are anticipated to drive IT costs in 2025 and 2026. The total anticipated base expenditure budget for 2025 is \$40,338,881 and 2026 is \$41,493,836.

Description: The Department of Information Technology interfund service rate model is built upon this base budget. For 2025, Initial rate allocation to departments totals \$39,388,462 and remaining revenue of \$950,419 from direct services, Fund Balance, and existing interlocal agreements for IT services balance Fund 505 revenue at \$40,338,881. For 2026, Initial rate allocation to departments totals \$39,337,468 and remaining revenue of \$2,156,368 from direct services, Fund Balance, and existing interlocal agreements for IT services balance Fund 505 revenue at \$41,493,836.

Summary: This balancing package is necessary to create a foundation that represents the fully funded IT rate model for existing operations carried forward into the coming fiscal year. From this initial package, adjustments to revenue and expenditure based upon policy can be made through separate packages. Any adjustments to this priority package must be carefully considered and are discouraged; this package is designed to mirror initial IT rate model design, balances at the program level, matches departmental scenarios and communications, and ties back to our audited rate allocation model.

Justification: Detailed assumptions in the balancing package include:
 -Allowance for 4% COLA in 2024, 2.5% Salary increases for both 2025 and 2026, and 6% for 2025 & 7% for 2026 in Benefits increases are represented in COLA contingency line items
 -Costs of new ERP system
 -Interfund service line items are budgeted at proforma levels
 -Effort was made to adjust expenditure line items to represent actual cost object codes
 -Six positions are reassigned to programs to correct proforma load and reflect their assigned program

Change Request Summary

Department: 0014 - Information Services
Change Request: AUTO - 116 - Innovation: University Interns & Partnerships
Change Request Type: Standard Change Package
Change Request Status: Executive Recommended
Publish Date: Jul 19, 2024 04:39 PM (PDT)

Interns:
This package represents the cost for salary and benefits of two half-time temporary FTEs to be filled by interns assigned to the IT Department. The requested funding is anticipated to be sufficient for two positions over three separate 11-week quarters during 2025 and 2026 (Winter, Spring and Fall) . This budget package would provide the annual opportunity for up to six different student interns to spend a college quarter investing in their education in partnership with Snohomish County.

WSU Hackathon:
Sponsoring a hackathon for current students at the WSU Everett Campus will provide an opportunity to build engagement with the student body and administration, as well as support the development of solutions for County business problems. This project has been a community partnership success and this package provides direct sponsorship for the Hackathon event, anticipated to occur in early 2025. We plan to partner with the City of Everett and Microsoft to provide resources to support the event, and engage with WSU's software engineering department to support planning for this event. The event has been open to local High Schools as well and we hope to pursue this again through direct engagement and sponsorship by each elected council member to be a sponsor for one or more high schools within their district.

UW Capstone:
The county has an opportunity to bring in a cross-functional team of students from the University of Washington College of Engineering to address a business problem. The Industry Capstone Program brings together UW students and companies to tackle real-world, multidisciplinary engineering problems. Snohomish County IT will bring in a project and provide support to a team of creative, talented engineering seniors who will design and build innovative solutions. The team of 4-6 College of Engineering seniors will be matched to a Snohomish County sponsor and a UW faculty member. This would be worked in partnership with HR to align to the ongoing internship program if and as needed. We are investigating project areas to focus in on where we have an opportunity to look for a combination of workflow streamlining, modernizing of business operations, and introduction of modern technologies to help manage our business.

Summary

Change Request Summary

Interns:
 The Snohomish County Internship Program provides work experience for high school and post-secondary students currently enrolled in an accredited institution. The internship program is designed so that the student/intern will have the opportunity to apply principles and theories learned in the classroom, gain new skills, explore a career path and be supervised and mentored by a professional in their applicable field of study. The student/intern may choose to receive scholastic credit for their internship in accordance with the guidelines set by their school. Snohomish County Code requires that the conditions of employment including salary, hours of work and length of employment be determined by agreement between the county and the college or university.

Justification

WSU Hackathon:
 -Possible outcomes could include delivery of an actual solution for the county for a particularly focused business need.
 -Community and civic engagement
 -Building partnership with WSU Everett, and EVCC

UW Capstone:
 In addition to solving a business problem for the county with anticipated savings, this project provides a high touch engagement opportunity to assess student talent and recruit for jobs. We will build brand recognition for the County among next-generation engineers, and provides a low cost opportunity for a fresh look at a business problem. Secondary benefits include civic engagement benefits by strengthening ties to the UW College of Engineering, as well as professional development opportunity for the technical mentor.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 359 - Rate-Partner: Departments Transfer to IT
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Aug 07, 2024 11:18 AM (PDT)
Description	This package represents the transferring of costs and management of the licenses or contracts from multiple departments into IT. The departments request that the cost for annual maintenance and support be included in the IT rate model and allocated in each department's IT rates for budget years 2025/26 and beyond.
Summary	<p>Partner package with Sheriff #148: Axon Investigate, \$44,400 in 2025, \$46,620</p> <p>Partner package with DCNR #188: eCognition, Kisters, OneRain, \$54,324 in both 2025 and 2026</p> <p>Partner package with HR #221: Aspire \$55,800 in both 2025 and 2026</p> <p>Partner package with Office of Hearings Administration (OHA) #107: Case Management System \$577,000 in 2025 and \$142,000 in 2026</p> <p>Partner package with Medical Examiner #498: Symmetry Cloud PACS \$7,979 in both 2025 and 2026</p> <p>Partner package with Superior Court #519: FTR (For the Record) \$52,300 in 2025 and \$55,000 in 2026</p>
Justification	<p>Partner package with Assessor #407: designed to support the anticipated and needed migration of conversion from ArcGIS Desktop 10.8.x (ArcMap), to the latest version of Esri's replacement product, ArcGIS Pro, to support our statutory requirements. The Department of IT will partner with the Assessor's Office for this implementation as needed. The work will begin using existing Esri services and funding from the Assessor will cover the remainder of the work.</p> <p>The Assessor's Office writes in their budget request: "RCW 84.40.160 states ". . . The assessor shall prepare and possess a complete set of maps drawn to indicate parcel configuration for lands in the county. The assessor shall continually update the maps to reflect transfers, conveyances, acquisitions, or any other transaction or event that changes the boundaries of any parcel and shall renumber the parcels or prepare new map pages for any portion of the maps to show combinations or divisions of parcels."</p> <p>We complete this task through our Assessor's Office GIS Division. The Division's primary function is to maintain and update the County's Integrated Land Records (ILR) geodatabase, which includes the tax parcel base layer used in a multitude of ways by all county offices, Snohomish County residents, and the Snohomish County business community. This division also assists in application development and appraisal support by providing various electronic mapping applications and map products including parcels, appraisal neighborhood boundaries, taxing district boundaries, annexations, etc. The current software platform used for this development and maintenance process, is Esri's "ArcGIS Desktop 10.8.x" software suite, more specifically ArcMap."</p>

Change Request Summary

Department	0014 - Information Services						
Change Request	AUTO - 345 - Rates: Reducing PDS Workstations						
Change Request Type	Standard Change Package						
Change Request Status	Executive Recommended						
Publish Date	Aug 12, 2024 02:59 PM (PDT)						
Description	This package is a placeholder that will reduce IT rates for PDS if it is determined they no longer need premium PCs for remote access in 2025/2026. Up to 12 devices may be cut from the PDS rates in 2025/2026 if an alternate solution is sufficient.						
Summary	PDS has a partner package that represents the reduction in their budget: ID #323						
Justification	To facilitate remote work, PDS has used premium grade PCs as on-premise desktop environments that can handle the processing power, video rendering and network capabilities needed for large data set manipulation of maps and other engineering files. Remote workers use laptops to remotely connect to the on-prem computers. During 2024, the IT Department is launching a virtual desktop environment that may be able to replace the current premium hardware. Testing will commence in Summer 2024, and both departments will determine if the new environment has the capacity to replace individual devices with the central offering.						
	<table border="0"> <tr> <td>12 Premium PCs</td> <td>2025 Rate: \$2033</td> <td>Total: \$24,396 in 2025</td> </tr> <tr> <td></td> <td>2026 Rate: \$2097</td> <td>Total: \$25,164 in 2026</td> </tr> </table>	12 Premium PCs	2025 Rate: \$2033	Total: \$24,396 in 2025		2026 Rate: \$2097	Total: \$25,164 in 2026

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 439 - Rates: Software Increases 25-26
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Aug 07, 2024 11:06 AM (PDT)
Description	This package represents license increases for products that are instrumental to enterprise business operations within Snohomish County. These costs were either unknown or unable to be estimated at the time the 2025-2026 IT rate model was developed and therefore are not included in departmental allocated rates for the proforma budget.
Summary	<p>KnowBe4 2025: \$22,500 2026: \$23,600</p> <p>The County's enterprise NeoGov training platform has been used in the past to provide initial and annual HIPAA compliance training to County employees to ensure compliance with federal privacy laws. The HIPAA training module expired in 2024 and was replaced with KnowBe4 security compliance plus training subscription to provide the County with ongoing HIPAA compliance training, compatible with our enterprise NeoGov training platform.</p> <p>BlueBeam Revu 2025: \$103,000 2026: \$108,000</p> <p>The County planners, engineers, and surveyors use BlueBeam Revu software to gather and assess data and information throughout the lifecycle of a building project. During 2024 BlueBeam licensing is changing the licensing model and will no longer offer subscribers concurrent licenses. The software developer's switch to only offering named user licenses will increase the County's software subscription costs. Rather than being able to share 240 concurrent licenses, each of our over 400 users County-wide will need their own license.</p> <p>MSFT Power Virtual Agent 2025: \$0 2026: \$12,000</p> <p>Civic Engagement is a key strategic focus area for Snohomish County IT and Microsoft's Power Virtual Agent platform would enable IT to provide better solutions to our residents. The County lacks an IT platform to create virtual agents (i.e., chatbots) that can help get users the information they need without requiring them to interact directly with County employees (e.g, via phone, email, or coming in person to County facilities). While there are many chatbot solutions available, Microsoft's Power Virtual Agent platform would allow Snohomish County to custom build virtual agents in 2026 for our many diverse needs, including virtual agents that would allow users outside our network to interact with distinct systems and data sources within the County network (e.g., to schedule an appointment, place an order, or look up the status of a case).</p> <p>OpenText Licensing 2025: \$70,000 2026: \$73,500</p> <p>OpenText is used as an enterprise platform for document management. In 2023 and 2024 IT invested in Extended ECM and in order to enable all users in PDS to have full functionality, as well as enable the public search tools, additional Content Server licenses are needed, along with transactional licenses to cover documents retrieved from the system.</p> <p>FME Civic Engagement and Capacity 2025: \$55,000 2026: \$12,000</p>

Justification

Change Request Summary

FME is a tool that is commonly used for moving data between systems, creating data extracts, transforming data, checking status of systems/servers, etc. Adding capacity and creating an FME environment for solving civic engagement challenges will allow us to increase FME’s ability to solve business problems.

Currently IT leverages FME for many of our solutions that interact with systems for both automated and ad hoc processes. This includes things like moving data between systems, creating data extracts, transforming data, checking status of systems/servers, etc. Currently we only have FME set up inside the firewall, so only our internal, authenticated users to interact with the solutions we provide. As we try to create more and better solutions for Civic Engagement, it would be useful to have FME configured outside the County firewall so we can also create solutions that allow direct input from our external customers. Currently we have to reject FME as an option when the solution requires this type of engagement with external customers. This investment would allow IT to extend our use of FME, a tool we are already using extensively and have found to provide extensive utility and value to provide solutions that enhance Civic Engagement.

Easy Vista licenses

2025: \$20,000

2026: \$23,000

The IT support portal software EasyVista. Growing this enterprise solution for all IT professionals requires the acquisition of up to 13 additional licenses. Currently Department of IT is consistently utilizing the full allocated/allowed license count and could benefit from a small number of additional licenses. In addition, IT is in the process of building out functionality and onboarding additional IT professionals across the county to use the system for standardization, tracking the IT support burden and costs in a more effective and consistent manner plus easy access to solid data to enable better evidence-based decisions. Expansion is planned and eagerly anticipated by Superior Court, Assessor, PDS, Public Works and more.

Change Request Summary

Department 0014 - Information Services
Change Request AUTO - 111 - Reclass: Contract Specialist Senior & Business Application Developer 5
Change Request Type Position Adjustments
Change Request Status Executive Recommended
Publish Date Jul 29, 2024 02:34 PM (PDT)

Contract Specialist Senior: This reclass was submitted in the 2023 & 2024 Budgets, priority package #230 and #223, but they were not funded. This package represents the 2025 & 2026 impact of reclassification of an existing Contract Specialist position to a Contract Specialist, Senior classification. IT authorized a temporary upgrade for the affected employee 2022 in order for the IT department to continue to experience success in managing contract workload with only one contract specialist.

Description Business Application Developer 5 : This reclass was submitted in the 2023 & 2024 Budgets, priority packages #231 and #224, but they were not funded.
In September 2021, the Department of Information Technology underwent a department reorganization with the creation of the new Enterprise Data Management division as well as alignment of work groups to other divisions. David Jones's position (Systems Administrator Support 4) is one of the positions that were affected by the reorganization and moved into the new division. While David was working as a Systems Administrator Support 4 in his previous work group, he provided support and project work consistent with other SAS 4 staff on the team. In addition to this work, he also performs coding and design work for implementing enterprise applications solutions as well as project management and business consultations like other Business Application Developer 5 staff in the Applications division.

Summary

Contract Specialist Senior: The IT administrative services work group consists of 6.0 FTE reporting directly to the Business Operations and Support Manager. Historically, this work group had two contract specialist positions, one of which was a senior classification. In mid-2020, after the departure of several key personnel and the addition of a new manager to the team, the Information Technology (IT) administrative services work group had vacancies in both funded contract positions: Contract Specialist-DIS ("CS") and Contract Specialist, Senior - DIS (CS Senior). To align resources with the strategic objectives of the department, Information Technology (IT) performed a comprehensive review of contract writing, negotiation, coordination and execution. Streamlining tasks and establishing repeatable processes became the focus for improvement, and IT set a course for changing the approach to contract management by the middle of 2020, saving over 1,200 hours of process waste through refining the approach. In August 2020, IT management decided to fill only one of the vacant FTE positions, seeing that new efficiencies might make the reduction a success, and by hiring at the lower of the two classifications (CS), understood that the new hire would take some time to build expertise and competency before producing work product at a "Senior" level (CS-Senior).

The difference in the two classifications is clear. The CS is responsible for coordination and preparation of contract documents pertaining to consultants, RFPs, Bids, Amendments, and Interlocal Agreements. They oversee the process and ensure tasks are completed by others in the contract process as required. The Senior position, CS-Senior, is responsible for coordination and preparation, and also drafting and maintaining master agreement templates, negotiating contracts, developing the procedures, acting as the IT liaison between departments (Risk, PA, Finance), leading groups of project team members, guiding and mentoring others at lower technical levels, and is the principal advocate within the County for the function.

The changes driving this reclassification have occurred gradually since 2021, with the manager still advising and guiding the CS as needed. With the experience, knowledge and capability demonstrated by the current employee, it is necessary to transition to a higher classification mid-2022, as the employee is capable of performing at the CS-Senior classification, and the IT department has a need for that level of work to be completed. By the beginning of March 2022 the CS had completed the final course in WA State Contract Management training, and has shown competency in all facets of the contract management work. It is critical to finish this reclassification as the workload increase for contract negotiation and SME team leadership in the development of contracts for new software and services projects.

We consider this reclassification to be a savings to the County, not only in the efficiency of doing the same work with half the staff, but also in the improved contract timelines and being able to move projects forward even faster. For FY2025 & FY2026, IT represents the cost of this reclassification utilizing IT Fund 505 excess fund balance. The anticipated impact during For FY2025 & FY2026, considering step increases, is estimated at less than \$10,000 in total salary and benefits. If approved, the ongoing position costs will be included in IT's rate model for 2027 and beyond.

Justification

Business Application Developer 5: David Jones was initially hired on as a project position for support of the OpenText solution for PDS. With the need for permanent support resources for OpenText and related applications, David came on in a permanent position. While other SAS 4 staff have provided support when needed, David has continued to be the primary subject matter expert for the OpenText solution, as well as Highview, which includes not only primary support, but development, analysis, and project management as well.

As the organizational model has shifted to align with the IT strategic plan and the SAS 4 position is more focused on support, design, and implementation of enterprise data management solutions, the tasks and work assigned to David expand beyond the typical SAS 4 responsibilities. The reclassification of this position will appropriately reflect the very technical and complex design work that is required of this position. For FY2025 & FY2026, IT represents the cost of this reclassification utilizing IT Fund 505 excess fund balance. If approved, the ongoing position costs will be included in IT's rate model for 2027 and beyond.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 218 - Reclass: Systems Administration Support 4, IT Planner 4, Systems Engineer 5
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 02:39 PM (PDT)
Description	<p>This package proposes the reclassification of three existing positions in the IT Department:</p> <p>Systems Administration Support 4: Reclass from Business Applications Support 4 to Systems Administrator Support 4</p> <p>IT Planner 4: Reclass from Systems Administrator Support 3 to IT Planner 4</p> <p>Systems Engineer 5: Reclass from Systems Engineer 4 to Systems Engineer 5</p>
Summary	<p>Systems Administration Support 4: The Information Technology department has contracted with a third-party vendor to provide 24x7x365 security monitoring service. With the increased level of vigilance, IT needs to implement a formal on-call process for escalation and response to security-related incidents. By its very nature, Information Security is a 24x7 function and as such, it's vital that all IT Security Analysts be exempt and available to participate in after-hours activities, when necessary. A separate request is being submitted to reclassify the non-exempt, Junior Analyst to an exempt position and this request is a resulting 'ripple effect' of that proposed change.</p> <p>In addition to the aforementioned 24x7 demands, the role of IT Security Analyst requires specialized technical knowledge including the ability' to investigate and remediate potentially critical risks under pressure, serving in a position of great trust and demonstrating sound judgement, and staying abreast of evolving threats and best practices.</p>
Justification	<p>IT Planner 4: The Information Technology department has contracted with a third-party vendor to provide 24x7x365 security monitoring service. With the increased level of vigilance, IT must implement a formal on-call process for escalation and response to security-related incidents. Currently, the Systems Administrator Support 3 (working title of 'IT Security Analyst 1') is a non-exempt employee which precludes involvement in this process. Given the IT Security team consists of only one other Analyst - Business Applications Support 4 (working title of 'IT Security Analyst 2') - it is not possible to implement an on-call rotation. By its very nature, Information Security is a 24x7 function and as such, it's vital that all IT Security Analysts be exempt and available to participate in after-hours activities, when necessary.</p> <p>In addition to the aforementioned 24x7 demands, the role of IT Security Analyst requires specialized technical knowledge including the ability' to investigate and remediate potentially critical risks under pressure, serving in a position of great trust and demonstrating sound judgement, and staying abreast of evolving threats and best practices.</p>

Change Request Summary

Department: 0014 - Information Services
 Change Request: AUTO - 427 - Records Management Technician
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 22, 2024 11:43 AM (PDT)

Description
 This priority package represents a new 0.5 FTE addition to the records center team. The package is neutral in cost, shifting historically budgeted extra help funding into salary/benefits. This 0.5 FTE will be filled as before, with a half-time employee who will continue to provide support in records center projects, pickups, deliveries, and operational tasks. The position is showing as Records Management Service Specialist because we needed a similar position to copy over in the budgeting tool. The position we are requesting and will be changed to is Records Management Technician.

Summary
 The records center has hired an .5 FTE project position every year to provide support for the annual records inventory project as well as coverage for pickups, deliveries, and other operational work. Per recommendation from HR, we are requesting a permanent .5 FTE for this work as it is a continual need for the Records Center to keep up with county and state records retention laws and guidelines.

Description	Engage with a Cybersecurity consulting firm to conduct two tabletop exercises intended to assess readiness, educate interested parties, and identify opportunities to advance the County's cyber incident preparedness.
Summary	
Justification	<p>Cybersecurity tabletop exercises provide the opportunity for knowledge sharing between security teams and internal interested parties. By leveraging outside expertise, the goal is to objectively assess and improve the County's readiness for cybersecurity events, educate participants of their roles in the response, and identify opportunities for ongoing improvement.</p> <p>The proposed scope involves contracting with a security consulting firm to conduct two separate cybersecurity tabletop exercises to be conducted in 2025. The first intensive 3-day exercise will involve IT and affiliated teams from within customer departments. The second exercise will be geared toward County leadership and take place on a single day later in the year.</p>

Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 19, 2024 04:09 PM (PDT)
Description	This priority package represents the extension of end date for 1.0 full-time project employee from 2024 through 2026 to continue to assist IT service teams and professionals with the planning, coordination, and execution of IT service delivery.
Summary	
Justification	The IT Infrastructure & Security Division has several projects and initiatives requiring IT networking expertise. These projects include various facility moves or changes (Bomarc build-out, DJJC remodel), refreshing network infrastructure (new wireless solution, hardware replacement), numerous security camera installations, and the Yakima disaster recovery site. The IT Network Engineering team maintains routine operations with limited staff and an additional engineer is needed to ensure fixed deliverable project timelines are not impacted by resource constraints. The Information Technology Department is requesting funds to extend the project position for an IT Network Engineer to assist with these important projects and to ensure support of daily operational needs.

Change Request Summary

Department	0014 - Information Services
Change Request	AUTO - 429 - Technology Replacement Program (TRP) FTE
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Aug 08, 2024 04:59 PM (PDT)
Description	<p>This priority package adds a 1.0 FTE Information Technology Support I, replacing extra help funding used in past years for the Technology Replacement Program (TRP). The package is neutral in cost, shifting historically budgeted extra help funding into salary/benefits. This 1.0 FTE will be filled as before, with up to a full-time employee assigned to the annual TRP project, creating resource capacity for the annual County-wide effort of technology hardware refresh, TRP.</p> <p>The position is showing as IT Support 2 because we needed a similar position to copy over in the budgeting tool. The position we are requesting and will be changed to is IT Support 1.</p> <p>Exe Rec Funding for TRP project position is in 315 request # 397 TRP Extra Help project dollars.</p>
Summary	<p>The service desk team oversees the annual refresh cycle of PC and laptop devices for Snohomish County. This effort requires an additional full-time employee to be assigned during the TRP project months, usually spanning 8-10 months of each year. IT has historically used extra help or temporary staffing every year to provide support for TRP. Based on clarification and recommendation from Human Resources, we are requesting a shift from extra help funding to salary/benefits and a 1.0 FTE for this work as it is a continued annual need for the service desk to successfully meet the operational demands of this massive effort.</p>

Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:06 PM (PDT)
Description	<p>The Department would like to continue the following positions for CDMH funding:</p> <ul style="list-style-type: none">1 - Healthy Communities Specialist (Substance use) SHD1208P, 1.0 FTE. Extend Project position through 12/31/20262 - Health Educator (Substance Use) SHD1206P, 1.0 FTE. Extend Project position through 12/31/20263 – Healthy Communities Specialist (Child Death Review) SHD1205P 1.0 FTE. Extend Project position through 12/31/2026.4 - Epidemiologist II – SHD1207P 1.0 FTE in Fund 124, request deleting this FTE. Then adding to opioid settlement funding and reclassifying to Healthy Communities Specialist and Regular.5 - Health Policy Analyst, SHD1209R, 1.0 FTE reduce to .50 FTE and create another position within CDMH6 - Planning role – NEW FTE .50 from SHD1209R

Summary

Substance Use Prevention program

The Health Department was able to create a Substance Use Prevention program that allows the expansion of the Department's current Healthy Communities staff to focus on issues regarding substance use and misuse in our communities. This new program is centered around tobacco, vaping, marijuana, and opioids. In 2024 the Substance Use Prevention program has been able to continue work and expand into new areas with increased staffing. The Health Department has been participating in various MAC Group activities and lead work where applicable.

Child Death Review Program

The areas of focus are dependent on emerging trends; there is a gap in capacity to adequately address focus areas, especially those identified during child death reviews. Currently, we have a Healthy Communities Specialist that is able to convene a group to review deaths and make recommendations, but we lack the capacity to start to work on ways to prevent further child deaths in Snohomish County. The group reviews not only those children who died due to accidents but also those who may have been exposed to illicit drugs.

Epidemiologist 2 – CDMH Priorities

The Epidemiology and Informatics team plans to use the CDMH funds allocated for a current Epidemiologist II staff member to fund an existing team member. This staff member is doing work directly in line with CDMH goals, such as creation of mental health, injury and violence data dashboards that will help the Health Department understand the burden of these issues in our county and help to develop data-driven strategies for improvement of the health of our population.

Justification

Gold Standard Study Initiative (0.50 FTE)

With the integration of the Snohomish Health District into Snohomish County government emphasis has been placed on strengthening public health and continuing its journey to provide foundational public health services (RCW 43.70.515) to all county residents. As approved by Executive Somers, one recommendation is to complete a comprehensive 'Gold Standard' evaluation of the Health Department. Components of this evaluation include comparisons of current programs, operations, and capacity to state and national standards. These standards include, and are not limited to, identifying data trends on a variety of chronic diseases (including behavioral health), substance use disorder prevention, and access and linkages to behavioral health services. Once complete, a prioritized roadmap will emerge to guide future and ongoing public health investments aimed at strengthening public health countywide. A 0.50 FTE position for the Department is to continue to oversee and project manage efforts and associated contracts. This is a 0.50 FTE reduction from 2024 allocations for this body of work.

Departmental Planning & Evaluation (0.50 FTE)

In 2024, the Gold Standard Initiative work is being accomplished through a 0.50FTE, instead of the approved 1.0 FTE. We propose utilizing the remaining 0.50 FTE to focus on department planning and evaluation. Of immediate need is the establishment of, monitoring, and evaluation of departmental metrics corresponding to the County 5-year plan and the departments strategic plan; both of which are to include public health focused substance use prevention metrics and community health improvement plan (CHIP) process metrics. Strategies supporting the department metrics are the establishment of learning lab styled strategic and annual work plan opportunities and resources for programs. First to utilize the learning labs are the Substance Use Prevention Programs and CHIP areas. This position would be combined with SHD1219R funded through Fund 125 to make this role 1.0 FTE.

Change Request Summary

Department: 0015 - Health Department
 Change Request: AUTO - 550 - 15 - 610 - Add Expenditure Line Items in Job Code 10055
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:12 PM (PDT)

Description: Request to add Current software licenses to budget in the 25/26 biennium for the Department.
 1. TalentLMS - \$8,000/2025 and \$9,000/2026
 2. CivicPlus \$9,000/2025 and \$10,000/2026
 3. Euna/eCivis \$11,500 for both 2025 and 2026
 4. Tableau \$7,000/2025 and \$7,450/2026 - 7 licenses
 5. Statistical Analysis System (SAS) \$21,875 for both 2025 and 2026 - 7 licenses

Summary: TalentLMS is the learning management system that the department's HR staff use to push out department specific trainings to employees. CivicPlus is the platform that hosts our departments website. Euna, was eCivis, is the department's grant management platform. The platform identifies grants and facilitates management of the award and reporting.

Justification: Tableau is a software that helps employees explore, manage, and share data insights through intuitive visualization. This program is utilized by the departments Epidemiology and Informatics program. SAS is a command-driven statistical software suite widely used for statistical data analysis and visualization. This program is utilized by the departments Epidemiology and Informatics program.

Change Request Summary

Department: 0015 - Health Department
 Change Request: AUTO - 537 - 15 - 610 - County Per Capita Funding Increase
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 01, 2024 09:45 AM (PDT)

Public Health work has always had the support of Snohomish County government. The political commitment has grown through the integration of the former Snohomish Health District in becoming the new Snohomish County Health Department. In partnership, we work for a safer and healthier Snohomish County through disease prevention, health promotion, and protection from infectious diseases and environmental threats. Public health is the science and art of promoting health and preventing disease and premature death of a population by systematic efforts of society, communities, or individuals. Our work strives to do that through a blend of health protection, health promotion, and disease prevention efforts.

Description

As part of the commitment of strengthening the public health practices throughout the integration process, this memorandum puts forward a policy consideration for sustainable and predictable funding with a local county contribution for public health. Based on corresponding contributions with comparative WA State local health jurisdictions (LHJs) to Snohomish County, and restored to 2009 budgeted funding levels, where county contributions represented 17% of total operating revenues of the Health District at that time. The request for a restoration amount as a formalized County policy position represents an increase by \$3.77M to a \$6.07M target total County per capita and tuberculosis contribution. This is an increase to the current \$2.3M contribution in 2024 at 6.42% of budgeted operating revenues. The request is in line with intent and goals for strengthening public health given the after-action review from the COVID-19 pandemic and that as a local health jurisdiction (LHJ), Snohomish County is ranked 35th out of 35 LHJs in Snohomish County.

- The cost of doing business as a County Health Department is a projected increase of \$3.15M accumulative in 25-26 biennium.
- Overhead costs as a proportion of total expenditure are projected to more than double, from 6% as the Health District to 13% in each year of the 25-26 biennium as a County Health Department.
- From 2009 at the District’s peak prior to the global financial crisis to 2024, the County’s contribution has remained stagnant and as a result, decreased as a proportion of total operating revenues from 17% down to 6%. Whereas the population of Snohomish County has increased by over 21% in that same period.

Summary

- The decline in the District’s public health capacity through loss of funding and 40% reduction of staff since the global financial crisis (GFC) prior to the pandemic after decades of historical broad scale defunding of public health. Dedicating public health dollars ensures public health objectives of protecting the health of the community and strengthening public health in Snohomish County are achieved.
- The Health Department recognizes that while interfund overhead payments represent the necessary cost of doing business as a new county department and the county’s valuable internal services and infrastructure that support public health in Snohomish County, these costs are diverting dollars from funding direct public health services and functions.
- The COVID-19 pandemic has demonstrated that strengthening the monitoring and response capacity of our nation as a whole relies on local investment in public health. Given the significant role of counties in responding to disasters and emergencies, we should ensure that public health has direct resources to assist in the development of a more effective prevention and preparedness system in local communities now and into the future.
- One Health Department FTE equates to an average cost of \$117K in 2024. A reduction of 26.5 FTEs would be needed in order to offset the \$3.15M county interfund overhead costs, representing a 14% cut to the Health Department’s essential workforce totaling 197.05 FTEs in 2024. Local health departments, which are underfunded and understaffed, are less likely to be able to prepare and mobilize effectively, leaving our communities incredibly vulnerable. A strong workforce and consistent local investments are essential to the overall health care infrastructure and ensure that our public health system operates efficiently and effectively.
- Local health jurisdictions are at the frontline of unique health problems facing our communities, including the underlying social determinants of health such as racial equity/inequities of health. In 2022, equity was added as an eighth Foundational Capability under the Foundational Public Health Framework, elevating its importance as a cross-cutting skill and capacity, and reinforcing its critical role in ensuring the communities furthest from optimal health are being addressed. A key objective for the Health Department is investigating and strengthening data collection and analytics in

Justification

Snohomish County. The data informs policy and programs that are needed to address better health and wellbeing and intervening on poor health, and preventable early deaths. Local dollars serve to mobilize resources to address the structural and systemic issues in improving the lives of the populations most at risk due to lack of access to health preventive measures and care.

- We continue to see public health threats increase at significant levels such as substance use disorders, community violence, suicides, emerging and increased infectious disease outbreaks and increases in chronic illnesses and local resources have not kept pace other than securing external, while much needed, funding sources such as opioid settlement funds or special tax initiatives that rely precariously on winning constituent voting support.
- Snohomish County Health Department with a 2024 FTE of 197.05 is ranked 35th out of 35 LHJs. Of an estimated population at 2023 of 859K, we serve almost 4,400 Snohomish County residents per FTE. The County’s contribution represents \$2.67 per capita. When reviewed alongside a comparable LHJ such as Tacoma-Pierce Health Department with a population estimate for 2023 of 946K, TPHD serves 2,700 people per FTE and has a per capita contribution from the County of \$4.00 per resident. Snohomish County is the lowest contributing jurisdiction among the sample LHJs.
- NACCHO (National Association of County & City Health Officials) surveys local health departments every three to four years to gather data on the capacity of our local public health system across the nation. The 2022 National Profile of Local Health Departments is useful to compare the Snohomish Health Department to health departments across the country that serve similar size communities. A few salient measures are described here.
 - o Local health departments serving populations of 500,000 – 999,999 have an average of 4.3 FTEs per 10,000 people. Using this a common metric, Snohomish Health Department would need to be staffed at 370 FTEs.
 - o Local health departments serving populations of 500,000 – 999,999, report a median annual expenditure per capita of \$49. Snohomish Health Department’s 2024 budget figure is \$41 per capita, placing well below the median of health departments across the country.
- In the memorandum to Snohomish County Council dated May 24, 2022, it was outlined that while there were some risks to the Health District integrating with the County, “We expect that the risk of later losing funding or staff for public health services will be lessened by integrating public health into the county, where we can focus on sustainable funding, long-term planning, and maintaining adequate public health staffing for a thriving county. Also, we have committed to ensuring no SHD staff lose their jobs as a result of integration.”

Recommendation:

We understand that we have a role in improving the financial situation we are currently in – but we cannot do this without local investments. We are committed to seek grants, diversify our funding, and assure we are fiscally responsible and continue to find ways build a cultural of continuous improvement. Here is the policy direction for additional investments for you to consider.

Option 1: Do nothing/No change

- The \$3.15M accumulative costs that the Health Department is absorbing are attributable to integrating as a county department and contribute to the structural gap. If the Health Department continues to absorb the projected \$3.15M in accumulative county interfund overhead costs since 2023, without additional revenue in:
 - o 2025 projected fund balance reduces to \$12.1M
 - o 2026, total fund balance falls to a projected \$7.9M. 2026 total projected fund balance is insufficient to cover the restricted portion of fund balance.
- The Health Department’s core operations all operate out of Fund 125 and is expected to fully fund public health functions and services with the current levels of external revenue streams it receives from the County, other funders, and fees and charges. The department must address any structural gaps from the fund balance.
- The Health Department has adopted maintaining a targeted unrestricted fund balance of \$ 7% of total operating revenue in its 2024 Five Year Plan, while covering \$9M of restricted fund balance for working capital, emergency surge funds and non-spendable prepayments and revenue collected in advance. Absorbing the additional costs and funding these recurring costs from fund balance results in failing to meet the 7% target in 2026 and the subsequent years.

Option 2: 25-26 Bridge Funding

- Bridge funding in the 25-26 biennial budget to cover additional costs of \$1.58M each year (total \$3.1M) – until the Health Department can renegotiate grants or add to new grants.

Change Request Summary

Option 3: County Public Health Contribution Policy – Preferred Option

- Request an increase by \$3.77M to a \$6.07M target total County per capita and tuberculosis contribution, up from \$2.3M current contribution in 2024 at 6.42% of budgeted operating revenues. At the District’s peak in 2009, the proportion of County funding was 17%.
- The Health Department and previously the former Snohomish Health District, had not requested an increase to the \$626,618 County per capita or \$1,664,640 Tuberculosis Control funding in several years other than in 2022 and 2023 and due to a request for a 4% increase in Tuberculosis control funding and population estimate adjustments for the per capita payment respectively. Labor cost of living increases have outpaced revenue increases.
- Secondly, as a long-term policy measure, we advocate for the lobbying at the State level for legislative change to develop an approach to mandate cities to pay into public health fund for Snohomish County.

 Description: Requesting modifications to job cost 10070 funding levels in the previously established object codes based on two years of expenditure data.
 Summary:

Two changes are pending that impact this job cost (10070).
 Currently, job cost 10070 hosts staff and the operating budget for multiple program areas including existing job cost codes (10050, 10059, & 23774). A separate change request is submitted to establish and align staff and an operating budget for a new job cost – Policy, Planning, & Partnerships.
 WA Department of Health Consolidated Contract CLH31027 scope of work for COVID19 Vaccines and COVID19 R4 are slated to sunset June 30, 2024. A request for extension through 12/31/2025 has been submitted. At the time of this change request, an extension has not been received.

Justification:
 Assumptions:
 No additional staff for 2025/2026
 Maintained FPHS revenue of \$200K for 10070 staffing and operations.
 Net Operating Budget: (5,620)
 Net Capital Budget: -

Department 0015 - Health Department
Change Request AUTO - 524 - 15 - 610-09 - PPP - Establish Budget in PPP Job Code
Change Request Type Standard Change Package
Change Request Status Executive Recommended
Publish Date Jul 09, 2024 11:10 PM (PDT)
 Requesting the addition of job cost for the Policy, Planning, and Partnerships program area and associated staff and operating budget be moved into a newly created job cost.

Fund: 125
 Division 610

Description
 Existing positions to be moved to the new job cost are:
 Grant Coordinator (SHD 1152R) - Helen Wong
 Public Affairs & Policy Manager (SHD1165R) - Nicole Thomsen
 Health Policy Analyst (SHD1198R) - Vacant

Summary
 Currently, staff and the operating budget for this program area are spread across multiple existing job cost codes (10070, 10059, and 10050). As a result, responding to questions about budget impacts to staffing and the like are very challenging as the existing codes are shared across other programming areas. Since original development and implementation of job cost codes, programming, staffing, revenue, and needs have grown. The ability to manage and monitor costs have grown as well.

Justification
 FTE moves are budget neutral.
 Operating budget is not neutral. This request provides reductions in 10070 and 10050. It also increases expenditures in total as program work has expanded to meet needs.

 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:13 PM (PDT)
 Description: Establish budget for the STI clinic expenses
 Summary:

Justification: The Health Department opened a sexually transmitted infections clinic in December 2023 to serve those in the community that are unable to access traditional healthcare settings. Since December the Health Department has provides services to almost 300 residents utilizing just 1 nurse practitioner. In May of 2024 the Health Department added a clinical manger position and a medical assistant position to enhance our clinical services.

The clinical manager and medical assistant positions were hired as project. However they are invaluable to our clinic operations and this request would move those positions to regular within the health department.

Change Request	AUTO - 500 - 15 - 625 - Add 1.5 FTE for Reconciliation to Proforma Budget
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:09 PM (PDT)
Description	Motion 24-147 added 1.0 FTE Epi II (SHD1218R) and 0.5 FTE Epi I (SHD1219R). This request adds these FTEs to the budget since the positions were not created before proforma budget release. This request also adds 0.5 FTE to the 0.5 FTE Epi I to make that a 1.0 FTE. The FTE change was a result of a 0.5 FTE cut from SHD1209R (DEL1509R in CR#469).
Summary	
Justification	The department received additional grant funding through the Emerging Infections Program Network. The grant covers the cost of the additional FTE request.

Change Request Summary

Department: 0015 - Health Department
 Change Request: AUTO - 533 - 15 - DEPT - Continue project positions
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 22, 2024 02:58 PM (PDT)

Description: The Department is requesting to the following project positions.
 1. SHD1194P Program Specialist 2 - Permit Technicians
 2. SHD1195P Program Specialist 2 - Permit Technicians
 3. SHD1131P Sound Foundation Manager
 4. SHD1203P Clinic Manager (Lead Disease Intervention Specialist)
 5. SHD1204P Medical Assistant

Summary: 2.0 FTE Program Specialist 2 - Permit Technicians
 The restaurant industry – as part of the hospitality industry - was hit hard during the COVID pandemic. Prolonged closures, delayed openings, as well as costs and delays in reopening all compounded the impact.

Justification: Through this project, the Snohomish County Health Department funds two position that supports prospective business owners realize revenue as quickly as possible by addressing the backlog of food permit applications that need to be processed. These positions will assist prospective business owners in completing and submitting their applications for new food service establishment plan reviews.

1.0 FTE Sound Foundation Manager
 The Sound Foundation for Public Health is a non-profit that is independent of the Health Department with a separate board of directors, bylaws, mission, policies and procedures that has power and authority to solicit, raise, and acquire contributions, grants, gifts, bequests, trusts, and property in accordance with its mission.
 2.0 FTE STI Clinic project positions - Clinic Manager and Medical Assistant
 The Health Department opened a sexually transmitted infections clinic in December 2023 to serve those in the community that are unable to access traditional healthcare settings. Since December the Health Department has provides services to almost 300 residents utilizing just 1 nurse practitioner. In May of 2024 the Health Department hired a clinical manger position and a medical assistant position to enhance our clinical services.

This request adjusts Foundational Public Health Service revenue budgets for department 0015 in fund 125 for programs 610, 625, and 630 in 2025 and 2026 by the following amounts to match the department's internal allocations of this fund:

Description:
 610: Increase by \$147,000 in 2025 and 2026
 625: Increase by \$688,193 in 2025 and 2026
 630: Decrease by \$1,114,079 in 2025 and 2026

Summary:
 Justification: This request is necessary to accurately reflect internal FPHS revenue budget allocations amongst programs in the 2025 and 2026 biennium.
 Net Operating Budget: (278,886)
 Net Capital Budget: -

Change Request Summary

Department	0015 - Health Department
Change Request	AUTO - 586 - 15 - Reducing Fund Balance to Balance Departmental Deficits
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:13 PM (PDT)
Description	In order to balance its 2025/2026 biennial budget at both the divisional and department-wide levels, the Health Department will be reducing its fund balance.
Summary	
Justification	The directive to balance our biennial budget at the divisional and department-wide levels requires the use of fund balance to avoid a budget deficit in both 2025 and 2026. The Department has worked to reduce expenditures, but increasing labor costs and expiring funding sources have created a budget deficit that needs to be covered by fund balance.

Change Request Summary

Department: 0016 - Nondepartmental
 Change Request: AUTO - 42 - Operational Excellence
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:22 PM (PDT)
 Description: Adjustment for COLA contingency and the job costing component of TMSS (Highline).
 Summary:

Optimization of the Highline system entails working with vendor consultants to streamline data, improve processing efficiencies and increase the management tools of a system the county currently owns and underutilizes. 2025 will be focused on completion of the implementation of the job costing component of the time management system (TMSS).

Justification: This is a request to re-appropriate \$46,254 previously allocated to this project.

Funding this package provides the opportunity to continue maximizing utility of the HRIS system, decrease costs and increase productivity of multiple department/offices.

Change Request Summary

Department: 0018 - Facilities Management
 Change Request: AUTO - 295 - FAC Architectural and Construction Manager - Project to Regular Position
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 17, 2024 11:06 AM (PDT)

Description: Request change position status from Project to Regular. Position to take over Special Projects Manager (retiring within the first 6 months of 2025) to manage the County's portfolio of facilities related projects, including related planning, execution and closeout activities. For fiscal year 2025, 65% of this position's personnel cost will be funded by ARPA. The remaining 35% will be funded by local County funds for capital projects appropriated during the biennial budget process. In 2026, ARPA share will be reduced to 25% while 75% will be funded by local County funds.

Department 0018 - Facilities Management
Change Request AUTO - 457 - FAC Facilities Projects CIP 2025-2030
Change Request Type CIP - Capital
Change Request Status Executive Recommended
Publish Date Jul 29, 2024 08:42 AM (PDT)

We recommend these projects in the 2025 budget:

PROJECT OFFICE EXPENSES (PROJECT MANAGER/PROJECT COORDINATOR) - \$260,000
Annual allowance for the personnel cost of a Capital Projects Manager (project position) & related overhead costs

MISSION BUILDING IMPROVEMENTS - \$1,460,000

Clock tower - Cleaning, repair, & paint

The Mission clock tower being a focal point in the greater Everett downtown area is in dire need of reconditioning to include cleaning, stucco repairs, LED lighting upgrades & repainting to preserve this historic building

Replace wastewater lines, storm water lines, plumbing lines & fixtures.

The Mission building has many water lines existing that are from original construction. Many of these lines are cast iron & are beginning to fail with cracking & joint deterioration. To prevent flooding issues & water damage potential these compromised lines require replacement.

MEDICAL EXAMINER BUILDING IMPROVEMENTS - \$80,000

Backup morgue cooling system – Existing is beyond useful life

Currently there is an aging existing morgue cooling system, this system has had periodic breakdowns causing serious potential issues where cooling is required. This project will involve installation of a backup system creating redundancy for this critical system.

We recommend these projects in the 2026 budget:

PROJECT OFFICE EXPENSES (PROJECT MANAGER/PROJECT COORDINATOR) - \$260,000
\$200,000 annual allowance for the personnel cost of a Capital Projects Manager (project position) & related overhead costs.

EVERGREEN DISTRICT COURT IMPROVEMENTS - \$243,000

Replace obsolete controls for HVAC & sanitary sewer pumps, & in-vault piping

Many of the components of the Evergreen Dist. Court HVAC system are becoming obsolete, this project will replace the aging condensing unit with a new high efficiency unit, additionally the control are at obsolescence with many components difficult to source, this project will upgrade the HVAC controls to meet county standards. The sanitary lift station at the Evergreen Dist. Court is in need of rebuilding, many components are rusted, corroding & at the end of useful life. This project will replace pumps, controls, and in-vault piping as needed.

CARNEGIE BUILDING IMPROVEMENTS - \$100,000

Re-seal exterior brick

Several years ago the Carnegie building underwent a major renovation, in part the project preserved the original brick work & mortar with sealant to prevent deterioration & water infiltration, it is time to have the building re-cleaned & resealed to continue the protective sealant of the masonry façade.

ADMIN WEST IMPROVEMENTS - \$700,000 (PROJECT FUNDS TO DATE: \$1.3 MILLION)

Re-roofing project

The roof covering the upper level of the 6th floor is at the end of its useful life, this project will replace the existing aging bitumen roofing & address insulation replacement where needed

Description

Change Request Summary

SOUTH DISTRICT COURT IMPROVEMENTS - \$497,000

☐ Replace heating system

This project will replace the duct heating system which is at end of useful life, these 1970 vintage coil heaters will be replaced with new more efficiency units. Controls will be replace with this project.

☐ Security & Fire alarm system

This project will replace the antiquated & obsolete security & fire communications system & bring the building up to county standards

Additional Projects not included in the annual \$1.8M requested above:

Increase Jail Intercom Project to add Repeater \$103,000

- Companion CR#71 in Corrections

Funding to complete Dist Ct. Improvements \$323,607

- District Court has requested to add the moving of jury and witness casework, which is major modifications not in the original scope. This requires architectural involvement to confirm exiting and ADA compliance, rewiring, A/V, flooring and hazmat work. Companion CR#443 in Dist Ct.

Security Assessment/Study/Implementation Plan \$750K in 25 & 26 = \$1.5M total

- Companion to CR#41 in Dept 16

 Change Request: AUTO - 287 - FAC Facilities Technical Adjustments
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 29, 2024 06:10 PM (PDT)

Description: This package reconciles the 2025/2026 Proforma Budget for Facilities Management Fund 511 to the projected 2024 budget levels needed to continue operating at an efficient level. The labor upload includes the anticipated 8% COLA for all Facilities staff except for those covered by labor contracts in the Corrections Maintenance Division. Also included are contingencies allocated from fund balance to absorb unanticipated expenditures and inflationary impacts.

Change Request Summary

Department: 0018 - Facilities Management
 Change Request: AUTO - 330 - FAC Facilities Technician II MAC Activities - New FTE
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 17, 2024 09:30 AM (PDT)
 Description: New position to help with move, add, change (MAC) activities associated with facilities project processes.
 Summary:

Justification: We have a priority need for an additional dedicated FTE to handle the heavy volume of move, add, change work including furniture reconfiguration, constant carpet replacement and patching, painting, remodel work, surplus furniture handling, new furniture installations, repair and maintenance, AV/whiteboard/photo/artwork/picture mounting, ergonomic furniture adjustments, major and minor moves, inventory control, recycling, equipment connections, elections support, event setup and teardown support, maintenance emergency coverage, fire watch, widow covering installations, etc. We have been hiring out to contractors for much of this work over the past two years. The savings from bringing this one position in-house instead of paying a contractor would more than pay for this position.

Change Request Summary

Department	0018 - Facilities Management
Change Request	AUTO - 372 - FAC Facilities Technician II/Courier
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 17, 2024 09:21 AM (PDT)
Description	New FTE to serve as courier between selected Couy buildings during regular business hours and to assist other maintenance technicians in completed work orders.
Summary	
Justification	The County Courier retired in May 2024 and there is currently no one couriating mail, warrants, licenses, etc. for county departments and this is causing a hardship for many departments and also puts undue pressure on existing staff bandwidth to perform these duties and increases the number of vehicles and trips by various departments to courier necessary items. Consolidating this service into one department, an internal service department, would minimize the number of trips and time in motion for all other departments and provide this necessary service across the county. To complete a full time equivalent, we propose adding small equipment repair services out of the Arlington shop to provide additional support for the north end of county and eliminate the need for departments to travel to Cathcart for small engine repairs. This will reduce the number of trips for other departments and provide a much needed service for all departments.

Change Request Summary

Department: 0018 - Facilities Management
 Change Request: AUTO - 479 - FAC Fleet - CIP Electrification M&E
 Change Request Type: CIP - Capital
 Change Request Status: Executive Recommended
 Publish Date: Jul 17, 2024 10:29 AM (PDT)

Our current budget requests reflect DAC 502.5188606402 for fleet electrification. The administration of the \$2.2 million allocated to Fleet Management in 2022, has now been depleted to \$464,652. This fund was directed towards the purchase of 21 zero-emission, all-electric vehicles, comprising 4 Ford E-Transit vans, 15 Ford Mach-E, and 1 Ford Lightning, along with 1 Kenworth K270E all-electric box van. Additionally, we anticipate receiving 10 more Ford Lightnings in the next two months.

Description: Frontier Energy, in conjunction with PUD, completed an evaluation of the County’s current fleet composition and made recommendations to efficiently and effectively procure and install electric vehicle supply equipment at each of the County’s existing fleet facilities to meet the current and near future EV purchases. The total plan identified \$5 million in infrastructure requirements.

To sustain and support transition to zero-emission vehicles, this request is for an additional \$1.5 million in 2025 and \$1.5 million in 2026. This amount will fund the purchase and installation of chargers at County-owned properties most convenient for County EVs to charge. In summary, the additional funding will enable us to not only support our growing electrical vehicle inventory but also accelerate our ability to transition to zero-emission vehicles, thereby reducing our carbon footprint and contributing to environmental sustainability efforts.
 Exec Rec: yes on carry-forward of PY funding

 Publish Date: Jul 09, 2024 10:50 PM (PDT)

Description: Adjustments to the 2025/2026 BDT allocations and base budget amounts. This package reconciles proforma budget numbers to projected base revenue and expenses. Realignment of prior year appropriations in multi-year capital funds for better project tracking and resource allocation are also included in this standard change package, as well as correcting technical and clerical errors that happen during the course of developing the annual budget proposal. All other budgetary activities not included in the base are requested in separate packages.

Change Request Summary

Department: 0018 - Facilities Management
 Change Request: AUTO - 410 - FAC Fund 316 - Annual Reserve Contribution
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 25, 2024 10:38 AM (PDT)
 Fund 316 is utilized to gather annual fund contributions with the objective of gathering sufficient funds to replace specialized equipment in various general fund departments.

Description: In 2019 the budget included initial contributions of \$50,000 for Sheriff-Corrections and \$24,000 for the Medical Examiner equipment. In 2020 additional funds were added for DJJC equipment (\$50k) and the Sheriff Gun Range (\$15k), as these entities will need to replace specialized equipment in the future. These allocations were repeated during subsequent budgets, and for 2024 as we continue to build this capital equipment replacement fund. Amounts remain unchanged for 2025-2026
 Exec Rec: companion CR#322 for ME hydraulic autopsy tables to be purchased in biennium utilizing Facilities F316 funding

Change Request Summary

Department: 0018 - Facilities Management
 Change Request: AUTO - 409 - FAC New Maintenance Vehicles for Maintenance
 Change Request Type: CIP - Capital
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:01 PM (PDT)

Description: The Facilities O&M division has a need for 2 additional vehicles for maintenance use at emergency bridge housing locations. These vehicles will be used for landscaping, hauling needs, and for pushing snow during snow events. Having a county vehicle available at each emergency bridge housing facility will allow employees to report directly to their work location and have available transportation for material/parts pickup, snowplowing, landscape hauling, etc. It is unrealistic to pull another staff member from main campus to deliver a vehicle for use and saves courier or delivery costs and time for items needed in an emergency situation.

Paine Field is a vital commercial service airport and industrial park serving the Puget Sound Region, with over 590 based aircraft, 70 commercial tenants and serving approximately 650,000 passengers annually. Major tenants include the Boeing Company, United Technologies, ATS, Propeller Airports, ZeroAvia, Alaska Airlines, Kenmore Air, Flying Heritage & Combat Armor Museum, Museum of Flight, FedEx, Esterline/Korry Electronics, Collins Aerospace, Everett Community College, Edmonds College, Washington Aerospace Training & Research (WATR) Center, and many more. In addition to tenant revenues, Future of Flight Aviation Center & Boeing Tour in a regular year attracts 150,000 local, national, and international visitors to the County. WSDOT's most recent Aviation Economic Impact Study reports Paine Field as having a total economic impact of \$59.9 billion annually. (WSDOT, 2020)

Airport revenues include hangar; industrial and commercial leases; landing and fuel fees; Passenger Facility Charges (PFC); and a long-term operating agreement with Boeing for use of the main runway. Airport revenues fund airfield operations, maintenance, fire rescue services, law enforcement, public safety programs, building repairs, debt service on loans and bonds, development requirements and operating costs. Budget drivers at the airport include maintenance and support of the airfield to FAA standards, existing buildings, roadways, and utility systems and increasing the long-term revenue and asset base at the airport. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Description The airport maintains a conservative operating structure while maintaining both airside (aviation) and landside (industrial) capital infrastructure projects. The airport is responsible for not only airport owned buildings, but all roadways and sewer infrastructure improvements which are reflected in the 2025-2026 budget. The main airport budget driver is the need to provide a safe environment for aviation and industry by meeting FAA requirements and standards. Over 50,000 jobs depend on the airfield. Boeing, ATS, the FAA and numerous industrial/commercial tenants have contractual agreements with the County for facilities and services provided by the airport. These contracts form legal requirements to maintain airport facilities to FAA and commercial/industrial standards.

The airport works closely with the FAA to provide safe aviation facilities that meet national standards, including regular inspections and audits. The FAA Airport Improvement Program (AIP) provides capital funding for prioritized improvements to the airfield, but it does not provide any funds for operations and maintenance of the airport. The airport's 2025-2026 capital plans are discussed in separate change requests.

Operating revenues are projected at \$42.9 in 2025 and \$44.1M in 2026. The airport is working on updating its three-year market rate appraisal and should have it completed in early 2025. All leases shall be adjusted to fair market value over the next three (3) years, respective to each individual tenant's lease terms. The airport manages about 430 leases that all expire at various times and years which impacts revenues. All tenant changes and estimated revenue increases have been factored into the airport budget for fiscal year 2025-2026 and thereafter.

The airport continues to work hard to meet revenue goals and is proud to serve the aviation community of Snohomish County.

Summary

Change Request Summary

LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

In addition to tenant revenues, Future of Flight Aviation Center & Boeing Tour in a regular year attracts 150,000 local, national, and international visitors to the County. WSDOT's most recent Aviation Economic Impact Study reports Paine Field as having a total economic impact of \$59.9 billion annually. (WSDOT, 2020)

Airport revenues include hangar; industrial and commercial leases; landing and fuel fees; Passenger Facility Charges (PFC); and a long-term operating agreement with Boeing for use of the main runway. Airport revenues fund airfield operations, maintenance, fire rescue services, law enforcement, public safety programs, building repairs, debt service on loans and bonds, development requirements and operating costs. Budget drivers at the airport include maintenance and support of the airfield to FAA standards, existing buildings, roadways and utility systems and increasing the long-term revenue and asset base at the airport. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Description

The airport maintains a conservative operating structure while maintaining both airside (aviation) and landside (industrial) capital infrastructure projects. The airport is responsible for not only airport owned buildings, but all roadways and sewer infrastructure improvements which are reflected in the 2025-2026 budget. The main airport budget driver is the need to provide a safe environment for aviation and industry by meeting FAA requirements and standards. Over 50,000 jobs depend on the airfield. Boeing, ATS, the FAA and numerous industrial/commercial tenants have contractual agreements with the County for facilities and services provided by the airport. These contracts form legal requirements to maintain airport facilities to FAA and commercial/industrial standards.

The airport works closely with the FAA to provide safe aviation facilities that meet national standards, including regular inspections and audits. The FAA Airport Improvement Program (AIP) provides capital funding for prioritized improvements to the airfield, but it does not provide any funds for operations and maintenance of the airport. The airport's 2025-2026 capital plans are discussed in separate change requests.

Operating expenses are estimated at \$37.6M in 2025 and \$38.7M in 2026. This includes debt service at \$6.8M in 2025 and \$7M in 2026. This is inclusive annually of the FedEx facility (former Boeing Dreamlifter Operations Center) at \$2M, Future of Flight at \$1.4M, PFC projects at \$1.3M, and other various smaller projects. The airport contributes \$5.2M in interfund transfers to the General Fund for services provided in 2025 & 2026. Utilities and Storm Water Management (SWM) are budgeted at \$2M each year (partly funded by tenant utility revenues). The Airport Enterprise Fund is stable and financially self-sufficient.

In addition, the Airport has budgeted extra funds this year in Personnel Cost Contingency (DAC) to cover salary adjustments for step, COLA, and potential market rate compensation adjustments.

The airport continues to work hard to meet revenue goals and is proud to serve the aviation community of Snohomish County.

 Publish Date: Jul 09, 2024 10:37 PM (PDT)

Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. The Capital projects listed from 2025-2030 address these needs and are supported by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Description: Certain airfield capital improvements are eligible, but not guaranteed, for 90% grant funding by the Federal Aviation Administration (FAA). FAA grants are prioritized by type and are highly competitive. Airfield projects are funded only if they meet FAA guidelines and rank high on the national priority list. FAA Grant Funding is listed in revenues. Grant funded construction projects are started only after the grant funding has been approved.

In 2025-2026, the Airport Capital Improvement Program (ACIP) includes \$3,000,000 to complete the east ramp & taxiway foxtrot pavement rehabilitation; \$8.88M for taxilane echo reconstruction phase II; \$26.97M for reconstruction of runway 16R-34L; \$695k to reconstruct central t-hangar taxilanes including the general aviation apron and taxiway delta, phase I. All projects listed are funded at 90% by FAA Grants with a 10% local match. In total, the airport is receiving approximately \$32.9M in grant funding for 2025-2026 budget.

Summary: LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification: The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

Change Request Summary

Department: 0021 - Airport
 Change Request: AUTO - 194 - Airport - Other Improvements
 Change Request Type: CIP - Capital
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:37 PM (PDT)

Description
 Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. The Capital projects listed from 2025-2030 address these needs and are supported by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Other Improvements, capital projects consist of airside and landside projects that maintain targeted safety standards for airport Infrastructure. Airside projects consist of, but not limited to, runways, ramps, and taxiways while landside projects consist of roadways, stormwater, sewer, security, and other infrastructure. Various infrastructure projects are budgeted at \$5.05M in 2025-2026 and being funded entirely by the Airport Enterprise Fund.

Summary
 LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification
 The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

Change Request Summary

Department: 0021 - Airport
 Change Request: AUTO - 224 - Airport - New FTE Requests
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 25, 2024 11:01 AM (PDT)

Paine Field Airport Enterprise Fund is a growing lucrative enterprise that requires special considerations to meet increased demand for commercial and other aeronautical services. The airport requires several new FTEs to meet the increased demand and responsibilities.

Description: The airport is requesting nine (9) FTEs in total for 2025-2026 budget. The FTEs requested are as follows:
 1. One (1) Government Affairs Manager FTE to assist in new legislative funding in coordination with the Airport Director; and
 2. One (1) Accounting Manager FTE to assist in replacement planning in CY2025 and assist in increased grant administration for CY2026 and thereafter; and
 3. One (1) Airport Maintenance Technician III FTE for increased airfield maintenance duties; and
 4. One (1) Facilities Technician IV FTE to assist with the new airport administration building's ongoing maintenance; and
 5. One (1) Operations Supervisor for Federal Aviation Regulations, 14 CFR, Part 139, Index C going to twenty-four operations; and
 6. Four (4) Fire Fighter FTEs in anticipation of the Federal Aviation Regulations, 14 CFR, Part 139, Index C requirements.

The four (4) Fire Fighters shall be reimbursed by the terminal if activated due to Index C requirements. All other remaining FTEs requested shall be funded by the Airport Enterprise Fund.

Summary: LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Change Request Summary

Department 0021 - Airport
Change Request AUTO - 279 - Airport - FTE Reclass Requests
Change Request Type Position Adjustments
Change Request Status Executive Recommended
Publish Date Aug 01, 2024 02:00 PM (PDT)

Paine Field Airport Enterprise Fund is a growing lucrative enterprise that requires special considerations to remain competitive in today's work environment and retain talent. The airport has had difficulties in several positions obtaining the necessary talent at current salaries. The airport requires several reclasses to meet the continued on-going operations of the airport and to remain competitive.

- Airport FTE reclasses include:
- 1. AFSCME: Reclass the job title "Electrician-AIR" to move from PG241 to PG242. This is a union request and includes all FTEs in this job description.
 - 2. AFSCME: Reclass on "Electrician-AIR" to an "Electrician Lead-AIR" at PG243.
 - 3. AFSCME: Reclass the "Airport Maintenance Mechanic" to Airport Maintenance Mechanic Lead" from PG239 to a new paygrade that shall be dictated by AFSCME negotiations.
 - 4. Non-represented: Reclass "Engineer I" to an "Engineer II" which is a natural progression due to his years of service.
 - 5. Non-represented: Reclass "Accounting Technician II" to an "Accounting Specialist" from PG310 to PG312. The employees' duties have included more advanced accounting skills outside of their current job duties which warrants an upgrade to her current assigned duties.
 - 6. Non-represented: Reclass all temporary upgrades to their permanent roles with respective individual titles. This is on-going but would like it notated that this leaves a reduction in salaries & benefits that needs to be accounted for in the budget.

All these have been in part factored into the airport's budget under "personnel cost contingency" DAC (410.5216801104). Please see the attached breakdown template for each individual position and PG.

Summary

LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

 Change Request: AUTO - 336 - Airport - FUND 130 - CERB
 Change Request Type: Revenue Adjustment Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:57 PM (PDT)

Description: In 2011, the Washington Department of Commerce offered a \$500k interest free Community Economic Revitalization Board (CERB) loan to the County for refurbishment of Building C-71 to expand operations of the Washington Aerospace Training and Research Center (WATR). Revenues from the lease with Edmonds Community College will be applied to fully repay the zero interest CERB loan. Edmonds Community College leased 8,966sf of Building C-71 and with this loan refurbished the space to support aerospace training in the region. This package adjusts and adds the revenues and expenses between 2027-2030.

Change Request Summary

Department: 0021 - Airport
 Change Request: AUTO - 494 - Airport - Fund 130 - SAF
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:07 PM (PDT)

In March 2022, Executive Dave Somers announced that Snohomish County is establishing a world-leading Research and Development (R&D) Center focused on Sustainable Aviation Fuels (SAF) at Paine Field Airport. The County is partnering with Washington State University (WSU) to create the world’s first SAF repository of this type for advancing sustainable aviation fuel technologies and serve the global need for reference samples to support research. The Center will also be the only facility to collect, sample, and distribute SAF at a scale needed for widespread use in the largest aircraft.

Description

As part of the 2023-2025 Transportation Budget, the Washington State Legislature allocated \$6.5 million to Snohomish County for a Research & Development Center for Sustainable Aviation Fuels (SAF) at Snohomish County’s Paine Field Airport.

Base expenditures are set to reflect the SAF R&D Temporary Site and Repository Business Plan. Expenditures include construction of a temporary facility, as well as hiring a project manager to manage funds, apply for grants and oversee project agreements. Expenditures also incorporate work supported by Washington State University, including operation of the temporary repository site for SAF storage, blending and testing. In addition, WSU will support management of intellectual property, proprietary information, and publication management.

This change request addresses the fund balancing.

 Description: Expected change in Treasurer Department Revenues
 Summary:

Penalty and Interest is coming in higher than projected for 2024 so this line item is increased to \$3.6M for 2025 and 2026.

Investment interest is expected to increase in 2025 by \$1M to \$13.5M and then decrease in 2026 to \$11M. In 2025 the federal reserve is expected to drop short-term rates however we expect the County Pool interest rates to be higher in 2025. ARPA dollars in 2026 should be fully spent down so there will no longer be interest income from those invested funds and the federal reserve is expected to continue to lower interest rates in 2026 so earnings will be lower.

SCIP Investment Pool Fees are expected to increase to \$250K in 2025 and to \$260K in 2026 due to increased costs and increased salaries/benefits for the employees who manage the pool.

Justification: Investment Interest Banking is coming in higher than projected in 2024 so it has been increased to \$150K in 2025. For 2026 Investment Interest Banking is estimated to be \$105K due to expected drop in interest rates.

Investment Service fees are collected from participants that invest in the State Pool through the County Treasurer. We expect the fees to be similar in 2025 as in 2024, which is around \$85K-\$87K. In 2026 we expect those fees to drop to \$75K due to the lower interest rates.

I/F charges - SWM Fee Collection will increase \$14.5K in both 2025 and 2026 as the cost per parcel has increased to \$1.10 per parcel and the SWM parcel count is projected to increase to 171,000.

The I/F Labor - Proval/Ascend interfund transfer from the IT fund is reduced to zero as the remaining funds in IT for the Proval/Ascend project are going to be used for further system enhancements that will be paid out of the IT fund.

Fund 144 Tax Refund Fund has budgeted \$5K of fund balance to be available for court ordered refunds.

Staff Reclasses

Description
The Treasurer's office is requesting a range adjustment and title change reclass for 2 of the represented positions. These two reclass requests reflect not only the natural growth and change in scope of responsibility organic to the position but also the explicit expansion of responsibilities and duties for the position.

The Treasurer is also requesting a title change for 1 position with no salary change to bring consistency to the titles of 3 positions in the office that perform similar work. There will also be a slight modification to the job description to include work on LIDs and RIDs.

The Treasurer's office is also requesting a reclass for 1 unrepresented position to facilitate retention and future recruitment of a highly specialized position.

Summary
Accountant I to Senior Accountant (237 to 241) This position has performed the duties commensurate with a Senior Accountant for multiple years now. This position performs critical and extensive work with the general ledger, the subsidiary ledgers, and the verification and preparation of journal voucher entries. The Accountant I position prepares, converts, and transmits general ledger financial reports on behalf of all school districts in the county. The Accountant I position also tracks and reports on warrants redeemed, EFT's, ACH's, payroll, taxes, investments purchased, bond issuance expenditures, operating transfers, inter-funds and fees for 14 school districts. All of these tasks are essential to support the mission of the office and for the functioning of numerous other municipalities. The Position now routinely performs duties commensurate with a Senior Accountant (241).

Justification
Accounting Investment Technician to Investment Assistant (308 to 311) The reclass request aligns with the Segal study assessment of the tasks performed by an Investment Assistant. The Accounting Investment Technician position serves as the primary backup for the County's Investment Officer. This position also generates investment-related reports, performs required investment tracking, and reports to the State Auditor's Office. A staff member in this position is expected to track the Treasurer's cash, internal/external district liquidity, and balance the cash investments daily. This position ensures that wires for matured investments or new bond purchases are confirmed, received, or sent, and processed. Staff are expected to support the junior taxing districts by maintaining FAQ pages and distributing reports to inform the districts' decision-making. Costs will be partially offset through fees paid for county pool investment services.

Tax Collection Specialist (312) - title change only to Treasury Tax Specialist (312).

Non represented staff reclass
Investment Officer (249/5 to 115/8) This position will be reclassified from the classified manager position to a management-exempt position. The intent is to create a more competitive pay structure to facilitate retention and future recruitment. This position is highly specialized and is responsible for the millions of dollars of interest earnings each year that are brought into the general fund. Additionally, 76% of the costs for this position's salary and benefits are recouped by fees charged to the County pool participants as allowed by RCW.

 Description: Move Overtime budget to Postage budget
 Summary:

Justification: The cost of mailing statements has increased due to the increasing number of parcels each year that the Treasurer bills and collects for, as well as increases in postage costs. There are also unfunded mandates that require two notices be sent per year to all delinquent parcels. To better align the Treasurer's budget we will move \$25,000 of the OT line item to the Postage line item in the 2025 and 2026 budget.

Change Request Summary

Department: 0022 - Treasurer
 Change Request: AUTO - 157 - TRS REAL DEPT 22
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Aug 07, 2024 08:33 AM (PDT)

Description: In order to accommodate the 3% budget cut in each of the 2025 and 2026 budget years (\$151,154 each year) the Treasurer's office will do a one-time transfer of an additional \$110,000 from the Treasurer's O&M fund in both 2025 & 2026 to support the cost of foreclosure. The remaining \$41,154 resource alignment will be met by shifting overtime budget to the resource alignment to effectively zero out the REAL.
