Change Request Summary

Department: 0024 - District Court
 Change Request: AUTO - 442 - District Court Erosion Evaluation - Cascade Division
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:19 PM (PDT)
 Description: Safety & integrity evaluation of the hillside erosion at District Court Cascade Division.
 Summary:

Justification: The Snohomish County District Court, Cascade Division, is located on the edge of a bank several feet above the Stillaguamish River. In 2015, the MENG analysis noted that the chain link fence separating the area immediately behind the courthouse and the edge of the bank, was bent and damaged due to hillside erosion. In the subsequent nine years, that fence continues to bend further and the sidewalks behind the building are cracking with the erosion of the bank. A current photograph is attached. We have also experienced record setting floods in this area within the past year, requiring Cascade staff to leave early so they could cross bridges and arrive home safely. The Cascade Division courthouse is located only 12 miles from Oso, Washington, the site of one of the deadliest mudslides in US history, in 2014. The Oso landslide was caused by heavy rainfall and soil porosity that loosened up the hillside above the North Fork Stillaguamish River, the same river running behind and below the Cascade Division. The District Court is requesting the evaluation of this site by a geotechnical engineer to determine if it is in a landslide hazard zone as defined by SCC 30.91L.040, and to determine what steps can be taken to ensure the safety and structural integrity of this facility. Facilities has estimated the cost to be \$585,000.

 Description: District Court requests allocation of expenses between the District Court budget and the District Court Probation budget.
 Summary:

For purpose of proper record-keeping and documentation, District Court requests allocation of expenses between the District Court budget and the District Court Probation budget. The following administrative expenses are overhead costs. These expenses will be split between District Court and District Court Probation based on their proportionate share of FTEs. Seventy-nine percent will be expensed to District Court, and twenty-one percent will be expensed to District Court Probation.

Justification: Salary and benefits for the following positions:
 Court Administrator
 Assistant Administrator
 Administrative Analyst
 Administrative Specialist - Accounting
 Administrative Specialist – Public Records
 Network Administrator
 Interfund DIS Overhead
 Interfund Space Rent

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 243 - District Court HR Assistant: 1.0 FTE
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 12, 2024 01:18 PM (PDT)
Description	District Court requests funding for one FTE to provide court-wide Human Resources (HR) support to Snohomish County District Court Administration. This position will provide alignment between District Court and other County departments with the same or similar responsibilities.
Summary	

The District Court Administration is responsible for the operation of court initiatives and administrative functions, eliminating racial and gender bias in the court, attracting, and retaining knowledgeable and skilled staff, ensuring staff diversity, providing access to the courts for all persons, and implementing programs that meet the needs of the public. The District Court Assistant Administrator oversees daily court operations for four court locations as well as the finance department. This position mentors, supports, supervises, and directs five supervisors of court operations (Cascade, Everett, Evergreen, South and Finance) with over 55 staff members. The position description for District Court Assistant Administrator does not mention human resource management, but our Assistant Administrator is also the Human Resource Manager for District Court, providing HR support for approximately 85 staff, not including judicial officers.

The District Court Assistant Administrator's role includes three key elements: Court Operations, Administrative Operations, and Human Resources. As the Human Resource Manager, the Assistant Administrator is the department's HR and Union Liaison. They are responsible for all recruitment processes including NEOGOV applications, interviews, pre-hire coordination, hire offers and onboarding, as well as staff complaints, discipline, separations, staff training requirements, reclassification information, ADA, protected leave, and policy compliance. At a minimum, the Assistant Administrator spends above 50% of their time supporting HR services and recruitment efforts for all divisions, locations, and sub-units of District Court, resulting in less available time to focus on important court operational needs that support growth, technology, and essential services to the public. In the past two years, our Assistant Administrator also served as a project manager for our paperless project. There are far too many tasks for a single FTE to manage.

Justification

While our Accounting Specialist position was reclassified to an Administrative Specialist position in 2024, allowing for some HR responsibilities, the Administrative Specialist position is primarily an accounting position that handles payroll, accounts payable, vendor and staff communications, contracting, purchasing, and travel reimbursements. The position now assists with some HR documentation, but there is insufficient time to devote to HR duties. District Court needs a full-time HR Assistant.

The Superior Court Clerk's Office and the Superior Court have a designated HR Manager or a dedicated Administrative Assistant to support recruitment and all HR-related services. Pierce County District Court, similar in size to Snohomish County District Court, has a dedicated Assistant to the Court Administrator responsible for Human Resources and a designated Court Operations Manager to oversee all non-judicial operations. District Court requests to add a full-time Human Resource Assistant position to support the Assistant Court Administrator in the clerical duties associated with human resources tasks. A dedicated HR Assistant will take on tasks including job postings and recruitment with an emphasis on diversity, equity, and inclusion, track protected leave information, coordinate and track required staff training, and respond to staff inquiries regarding eligible leave, policies, and HR-related procedures. The HR Assistant will be under the direction of the Assistant Court Administrator to carry out duties related to Human Resources needs and to assist with critical DEI initiatives that foster creativity, diversity, and an equitable and comfortable work environment for staff. The Snohomish County position that most closely aligns with District Court needs is the Human Resource Assistant, which is at pay grade 235 Classified Pay Plan. The funding required for 2025 and 2026 salary and benefits at pay grade 235, step 1 for this position is \$89,322 and \$89,615, respectively.

Description	District Court requests funding to hire a full-time in-house Spanish court interpreter to provide equal access to justice through translation for those in need of such services.

Summary

The mission of Snohomish County District Court is to proudly serve our community with integrity and respect while delivering to all persons equal access to justice. One of the main components to effectively delivering equal access to justice to all persons is the ability to communicate. Whether it be over the phone or at the counter with a staff member, through a written document or in the courtroom with a judicial officer, if the communication breaks down or is not available there simply is no equal access to justice.

District Court is required by statute to use interpreters in all court proceedings for participants whose second language is English. Over 10% of our community in Snohomish County is Hispanic. Since the pandemic, it has become more and more challenging to secure the services of a court interpreter in general, Spanish in particular, to physically come to our courts and interpret for those in need of such services. English to Spanish and Spanish to English is the most common interpretation used in our courts. As a court we have been able to take advantage of Zoom virtual hearings to handle some of these matters as the interpreters have been more willing to book jobs that are virtual than those in person. Additionally, the pool of court certified Spanish court interpreters is clearly shrinking and there simply are not as many available as there once was.

Zoom, while extremely efficient for many matters that the court handles, is not acceptable for matters that require in-person interpretation. There is a strong preference for in-person interpretation. The communication is better, and it takes less time as simultaneous interpretation is used, as opposed to consecutive interpretation which must be used for virtual interpretation. Additionally, if the individual requiring interpretation is in court and the interpreter is virtual, private conversations with someone who is also in court is extremely challenging. If the individual requiring interpretation needs to see the front counter after court, it is also challenging.

Court hearings require timely notice to all. It is not unusual for parties to be present and ready to move forward, only to find that there is no interpreter signed up for the job. In 2023, there were 53 calendars that did not have an interpreter signed up to interpret. Hearings without interpreters result in rescheduled hearings. In addition to being costly, it is detrimental to a party to have a time-sensitive hearing delayed because the court cannot communicate with them. Delays deny equal access to justice and can pose safety risks to parties seeking help from the court, are not a good use of resources, and are not an efficient way to serve our community.

Justification

Hiring a full-time Spanish court interpreter as an employee would alleviate many of the aforementioned concerns. The District Court could schedule calendars with proper notice and be certain that an interpreter would be present. Further, the court would have access to interpreter services on a moment's notice for emergency hearings. Additionally, the in-house interpreter could provide services that are difficult to obtain with private interpreters, including translating forms, translating letters and requests from individuals, and assisting in probation meetings at the time needed.

District Court staff reviewed data regarding Spanish court interpreter appearances at District Court hearings. We tracked data from the middle month of each quarter (May 2023, August 2023, November 2023, and February 2024) over a one-year period to determine the annual and monthly average hours actually worked, and the interpreter expenses paid for interpretation and mileage. District Court contracts with interpreters, paying two and four-hour minimums to ensure availability throughout an entire calendar. Not surprisingly, hours paid exceed hours actually worked. During the one-year period we examined, estimated annual payments to Spanish interpreters was \$249,586, which included \$3,297 for mileage costs.

District Court's interpreter program supervisor carefully reviewed the data that was collected. She determined that a full-time in-house interpreter could handle all Spanish interpretation for our in-custody calendars that would otherwise cost an estimated \$45,480 annually and could interpret for

Change Request Summary

additional hearings that would otherwise cost an estimated \$64,297 annually, for total savings of \$109,777. After subtracting \$11,416.86 to account for the employee’s 26 days of leave during which it would be necessary to hire private interpreters, the total cost savings was \$98,360.

Pierce County District Court has an in-house Spanish interpreter. At step one, this position pays \$81,993.60 annually. Adjusted for the cost of living in Snohomish County, the position would pay \$87,943 annually at step one, which aligns with pay grade 243. Salary and benefits for a position at pay grade 243, step one, are \$122,477. The cost savings of \$98,360 for an in-house interpreter, detailed above, is 80% of the in-house interpreter’s salary and benefits. While the savings do not completely pay for the position, it is close. A court interpreter plays an important but invisible role in delivering equal access to justice to limited English-speaking populations. It becomes quite visible and halts such access when one is necessary but not available. Having an in-house interpreter available for hearings that would otherwise need to be rescheduled delivers that necessary access to justice.

District Court requests funding in the amount of \$122,477 for an in-house interpreter, with a reduction of \$98,360 in interpreter funding, which equates to 80% of the interpreter’s salary and benefits.

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 451 - District Court Major Improvements
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 12, 2024 12:18 PM (PDT)
Description	District Court requests major improvements to the three outlying District Court courthouses including the Cascade Division in Arlington, the Evergreen Division in Monroe, and the South Division in Lynnwood.
Summary	

In 2015, Snohomish County commissioned a facilities analysis (the MENG Analysis) to evaluate all Snohomish County facilities, including the three outlying District Court courthouses. The Facility Summary reports, written nine years ago, noted that the MEP (mechanical, electrical and plumbing) systems in the three facilities were “at the end of life, inefficient, with minimal comfort.” In addition, it noted that the fixtures throughout the buildings, while functional, were severely outdated back in 2015. It was noted that MAJOR renovations should be done to upgrade those facilities and to bring them up to code. Except for patchwork repairs, here and there, no such upgrades have occurred in the subsequent nine years since the writing of the reports. The time is now to heed that advice and to complete major renovations to these facilities in order to provide safe, comfortable and efficient buildings for our staff and the communities that we serve.

As noted, all major systems (mechanical, electrical and plumbing) were near end of life in 2015. The HVAC systems needed to be replaced to provide for efficient heating, cooling and air filtering. The electrical systems were insufficient to support expanding technologies and safe use of appliances. The plumbing was nearing end of life. It is time to stop deferring this maintenance that was needed nearly a decade ago.

In addition to the systems that need to be replaced and modernized, there needs to be substantial investments in security upgrades. The MENG analysis suggests upgraded windows and closed circuit security monitors and security systems. In addition, as noted in the reports and as the court has pointed out for the past few years, the fire systems are severely outdated, do not meet current code requirements and lack any form of sprinkler system. All of these issues need to be addressed to improve safety in these high traffic facilities.

Finally, the interiors and fixtures were noted to be outdated in 2015 and they have not aged well in the additional nine years since the reports. The buildings are dingy, the lighting is poor and the fixtures have not been replaced since the buildings were built in the 1970’s. Each of these buildings need complete interior remodels including updated bathrooms and kitchens, updated courtrooms that are ADA compliant, and modernized lobbies. For many people, the District Court is one of their only physical contacts with county government. The public deserves to go into clean, reasonably modern buildings to address their disputes.

Costs for major improvements that were necessary in 2015 were included in the Meng Analysis reports, which are attached. In the ensuing nine years, other major improvements reached the point of requiring attention and action as well.

District Court reached out to Snohomish County Facilities and Fleet (Facilities) for assistance in estimating the current costs of all major improvements needed. Facilities used a 10% per year cost escalation factor for costs set forth in the Meng Analysis’. JaNae Nelson, Director, responded to some of the requests, and Lynn Gray, Facilities Project Leader, responded to other requests. Costs are set forth on the attached spreadsheet, and are color coded based on who provided the information. Expenses for many needed improvements were not available at the time this request was published. The spreadsheet shows itemized costs of \$32,892,524 for major improvements, which District Court believes is far below the actual funding needed to bring the three courthouses up to code, with safe, modern and ADA-compliant furnishings and equipment.

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 259 - District Court Network Administrator: 1.0 FTE
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 12, 2024 01:21 PM (PDT)
Description	District Court requests funding for a permanent FTE Network Administrator.
Summary	

Over the past four years, the District Court has (1) equipped each courtroom with hardware and software to allow court users to appear remotely, and (2) transitioned from paper files to electronic files with a sophisticated (but labor-intensive) document management system. In the next two years, the court will (1) transition to electronic filing through a web portal and (2) replace our 1980's case management system. The new case management system will require significant and extensive work from our Network Administrators (NAs) who will assist in designing business processes that meet the needs of Snohomish County District Court and who will help implement the software and train users.

District Court's second NA was added during the pandemic and has been funded through ARPA, but that funding expires September 30, 2024. Prior to adding the second NA, our courtrooms had only rudimentary equipment for remote appearances and our files were paper. Each of our two NAs are currently assigned to two courthouse locations, and they share the assignment to the administration office which is off campus. They cover for each other when one is responding to an emergency request, is taking leave or is out due to medical or health issues.

Each NA's daily tasks include checking the network connections with the jail and rebooting devices so that they will perform properly for in-custody hearings, rebooting devices that feed into the courtrooms that provide for audio recordings, maintaining and coding the new document management system, addressing all incoming emails and phone calls requesting support and assistance, managing shared folders, user permissions, users' active roles, and responding to the IT service desk troubleshooting tickets. Currently, our network administrators service 80 scanners, 48 printers, 165 computers, 44 cameras, and approximately 44 microphones spread throughout 4 courthouses, 11 courtrooms, and an administration office which is off campus. They also service a recording system that is relatively new but has not functioned well from the beginning. We simply cannot operate effectively with one Network Administrator (NA).

Both NAs document system failures, make all necessary adjustments to equipment as requested by IT, participate in a constant stream of technology-related projects and provide support. One NA is the webmaster for the public website, while the other is the webmaster for District Court's SharePoint site. One NA maintains an inventory of District Court's computers and printers, and they both update and clean-up workstations on an ongoing basis. Both NAs visit their assigned courthouse locations as needed for hands-on repairs, installations, and removals.

The travel distance from Lynnwood (South Division) to Monroe (the Evergreen Division), to Arlington (the Cascade Division), to Everett (the Everett Division), and back to the South Division in Lynnwood is 87 miles. There are times when in-person repairs or assistance are needed in all four locations on the same day. While our NAs make every effort to handle troubleshooting remotely, there are many occasions when this cannot be accomplished. The in-person visits are limited to setting up and replacing equipment, and fixing equipment that cannot be done by walking a staff member through the process. Visits to two or three locations on one day is commonplace. One network administrator cannot cover this area and effectively provide service to five locations and over 90 employees in today's modern courthouse operation.

The Network Administrator in the current permanent position recognizes the dire need for a second administrator, at least until the time when all four District Court divisions and the administration office are co-located in one location. His letter supporting this request is attached. The cost of salary and benefits for this position in 2025 is \$108,501, and in 2026 is \$112,929.

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 263 - District Court New Courthouse
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 11, 2024 11:45 AM (PDT)
Description	District Court requests co-locating the four court division courthouses and the administration office of the Snohomish County District Court at one location in one courthouse.

Summary

In late 2022, the District Court and the Executive’s Office discussed the possibly of co-locating the four court division courthouses and the administration office of the Snohomish County District Court at one location in one courthouse. The Executive’s Office proposed a co-location inside or adjacent to the existing Denney Juvenile Justice Center in Everett. Given the severe facility deficiencies of the existing District Court facilities and inefficiencies of operating out of five different locations, the District Court voted to support this project and worked with the Executive’s office which hired KMD to conduct a feasibility study to examine various options for consolidation. After several meetings and much discussion and deliberation, KMD issued the attached Feasibility Report.

Justification

The distribution of court services across five very outdated locations has resulted in inefficient space utilization and staffing and hampered judicial interaction. The outlying divisions do not meet current fire code requirements, current ADA requirements, or electrical/technical needs of the court. The buildings are no longer safe for staff or the public. A consolidated facility would greatly increase judicial efficiency and environmental efficiency while eliminating the need to do millions of dollars of deferred maintenance on the existing facilities. Supervision of staff and judicial caseloads could be spread evenly resulting in prompt and improved services to the public. In addition, a single co-location of services would allow the court to offer more work flexibility to employees in hopes of attracting and retaining qualified staff.

The District Court Judges unanimously voted to support a co-location of all Snohomish County District Court courthouses and the administration office with the understanding that District Court would not lose square footage or have a staff reduction. The Judges selected option 1, with all courtrooms and all judicial officers and staff located in the same building. The cost of this option with 63,256 square feet is \$103,368,339.

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 455 - District Court Reclassification of Assistant Administrator and Probation & Community Programs Mgr
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 05:56 PM (PDT)
Description	District Court requests funding to align management positions with Superior Court positions with the same responsibilities.
Summary	

Justification: Assistant Administrator: District Court's Assistant Court Administrator oversees day-to-day court operations, supervises five supervisors of five divisions (Cascade, Everett, Evergreen, South and Finance) with 55 staff, and serves as District Court's Human Resources Manager. Their position is management exempt, pay grade 110. The five supervisors that they supervise are management exempt, pay grade 109, only one pay grade below them. Superior Court has two Assistant Court Administrators, one for Juvenile Court operations and one for Superior Court operations. Both Superior Court positions are pay grade 112, two pay grades above the District Court position. The position description for the District Court Assistant Administrator and the Superior Court counterpart, the Assistant Administrator for Superior Court Operations, are nearly identical. The position description for District Court does not mention human resources management, but our Assistant Court Administrator is also our HR Manager, and they do not have an HR assistant. The District Court Administrator position should be reclassified to pay grade 112. Our Assistant Court Administrator is currently pay grade 110, step 15, and would advance to pay grade 112, step 10 if this request is granted. The increased cost in the 2025 budget would be about \$11,913 and the increased cost in the 2026 budget would be about \$14,662. District Court further notes that this request closely aligns with the Segal Compensation Study report which determined the pay for this position, in early 2023, should be pay grade G19, \$99,243 to 132,995. Under any circumstances, including reclassifications related to the Segal Study, the District Court Assistant Administrator position should not be paid less than the Superior Court Assistant Administrator position.

Justification

Probation and Community Programs Manager: Our Probation and Community Programs Manager supervises seven Probation Officers including one lead, two Community Program Coordinators, one Electronic Monitoring Coordinator, and a Mental Health Court Supervisor who supervises the Mental Health Court staff. The Probation and Community Programs Manager not only supervises these positions, but they manage all Probation Department programs and courses and our therapeutic Mental Health Court. Although they supervise, they also manage programs with all of the accompanying responsibilities of program management. Our Probation Department has been incredibly successful under their leadership; earning a statewide award from the Washington State Misdemeanor Probation Association in 2021 for Probation Supervisor of the Year, and two statewide awards in 2022 for Excellence in Action, and Program of the Year for our relicensing program. The position is management exempt, pay grade 109. The position is at the same pay grade as our division supervisors, who supervise staff but do not manage programs. Further, although the Mental Health Court Supervisor is not an exempt employee, their pay range is very similar to the Probation and Community Programs Manager who supervises them. The Superior Court counterpart for this position is the Superior Court Programs Administrator for Specialized Courts, which is management exempt pay grade 110. The District Court Probation and Community Programs Manager performs the same duties as set forth in the position description for the Superior Court Programs Administrator for Specialized Courts, specifically including participating in the development of the budget for probation, community programs, and therapeutic courts, making recommendations for probation, community programs, and therapeutic court expenditures, preparing grant applications, coordinating services with other departments and outside agencies, serving as a member of the District Court management team, and performing duties for the Assistant Court Administrator in their absence. The District Court Probation and Community Programs Manager position should be reclassified to pay grade 110. The incumbent is currently pay grade 109, step 15, and would advance to pay grade 110, step 14 if this request is granted. The increased cost in the 2025 budget would be about \$11,035 and the increased cost in the 2026 budget would be about \$13,581. District Court further notes that the salary range associated with this request is significantly less than the salary range proposed by the Segal Compensation Study report which determined the salary range for this position, in early 2023, should be pay grade G22, \$129,586 to \$173,658. Under any circumstances, including reclassifications under the Segal Study, the District Court Probation and Community Programs Manager should not be paid less than the Superior Court Programs Administrator for Specialized Courts.

Change Request Summary

Department: 0024 - District Court
 Change Request: AUTO - 490 - District Court Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 04:01 PM (PDT)
 Description: District Court Resource Alignment
 Summary: Exec Recommended - restore 50%

County departments and courts have been asked to prepare a plan in anticipation of a 3% reduction in their 2025-2026 general fund budgets in the event that such a reduction is necessary. Snohomish County District Court understands that the 3% reduction will appear as a budget line item in both the Court and Probation general fund budgets.

District Court reviews the Court and Probation budgets on a monthly basis, after the 10th of the month. The Administrative Analyst updates a very comprehensive spreadsheet, and both the Administrative Analyst and the Court Administrator review the completed spreadsheet, look for anomalies, and determine whether District Court is within budget, year to date. The spreadsheet is also presented to the bench at their monthly meeting for review. Discussions are held regarding expenditures. Following this process every month helps us to stay within budget, and we control expenditures as needed. We will continue to use this process. As the 3% reduction will be built into our spreadsheet, we will closely monitor the status of our budgets every month.

Salary and benefits are District Court’s largest budget items. We cannot intentionally delay hiring to fill vacant positions, as District Court is already a very lean entity. We will have some cost savings due to the inability to immediately fill positions, but it will not come close to reducing our budget by 3%. Further, our staff make it possible for the public we serve to come into court to have their issues addressed. The same staff also receive and receipt the fees and fines which provide revenue to the County. We will also closely watch training, travel, and lodging. However, eliminating our training and travel will also not come close to reducing our budget by 3%. Further, much of our training for Probation Officers and Program Coordinators is mandatory. Without the required training, these staff would not be able to see clients or teach classes, all of which bring in revenue.

District Court respectfully requests relief from the 3% budget reduction for District Court in the amount of \$365,126 and from the 3% budget reduction for District Court Probation in the amount of \$80,198 for both 2025 and 2026.

Department	0024 - District Court
Change Request	AUTO - 258 - District Court Underfunded Line Items
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 12, 2024 12:44 PM (PDT)
Description	District Court requests funding for technology equipment and supplies not covered in IT rates, for bilingual stipends paid to staff for translating for court users while not in court, for underfunded communication items including cell phone service and search warrant call service, and for underfunded interpreter expenses and interpreter mileage.
Summary	

Technology Supplies: In 2024, District Court requested separate line items for office supplies and for technology supplies. A new DAC, 002-5242403109, was created for technology supplies. Over the past four years, in response to the pandemic, and in an effort to evolve into a modern court, District Court significantly improved its technology with better cameras and microphones for virtual hearings, a document management system to go paperless, servers for electronic document storage, and new interpreter software, and scanners. While much of this new technology was funded through grants, District Court also funded much of this new technology through its budget and the Trial Court Improvement Account (TCIA). Post-pandemic grants are now few and far between, and the Court has expended approximately 52% of its TCIA balance in the past two years. In 2023, District Court expended approximately 118% in the office supplies and office equipment DAC which include tech supplies. In the first quarter of 2024, District Court has expended 106% in the office supplies, office equipment, and the new tech supplies DAC. 50% of this expenditure was for technology supplies which included monitors, docking stations, keyboards, wiring, etc. After removing the one time purchases in 2024, remaining technology supplies expenses average \$2,237 per month. The 2025 and 2026 proforma budgets allot \$61,833 for office supplies, \$2,422 for office equipment, and zero for tech supplies. Some office supply expenditures will decrease as we are using less paper, will be doing less copying, and will not be buying paper folders and labels. However, District Court's needs for technology supply expenditures will continue and will likely increase due to the addition of a new case management system in 2025 or 2026. District Court is not requesting a funding increase for office supplies and office equipment, but requests that the Executive and Council fund the technology supplies DAC with \$26,841 each year for 2025 and 2026, reflecting our current costs for unfunded technology supplies.

Bilingual Stipend: In 2023, AFCSME entered into an agreement with the County which allowed District Court to pay a monthly premium of \$50 per month to its bilingual staff who assist court users whose primary language is Spanish, outside of court proceedings. District Court adopted a bilingual fluency premium policy in 2023, which is not funded in the 2024 budget. At present, District Court pays \$300 per month to staff who have been determined to be eligible. Accordingly, District Court requests funding of \$3,600 per year for both 2025 and 2026.

Justification

Communications: Expenses for cell phone service and our search warrant call service have increased dramatically due to inflation. We experienced a 36% increase from 2022 to 2023, and we are expecting at least a 15% increase from 2023 to 2024. Our pro forma budget for the communications DAC is \$27,600 for 2025 and \$27,600 for 2026. We request an increase by \$18,934 for 2025 and by \$28,241 for 2026, representing a 20% increase over expected costs for 2024, and another 20% increase over expected costs for 2025.

Interpreters: The Court is requesting an increase of interpreter funding to insure equal access to the Court. District Court's actual expenses for interpreters in 2023 was \$372,104. Although we requested and received an increase in the 2024 budget, our 2024 budget is \$314,793, which represents a deficit of \$57,311. Interpreter expenses in the first four months of 2024 were \$122,010. Projected through December 31, 2024, we anticipate interpreter expenses to be \$366,031, which is \$51,238 over our 2024 budget. Accordingly, we request an increase in interpreter expenses of \$45,979 for 2025, and \$45,979 in 2026, as we anticipate continuing increased expenses. District Court receives partial reimbursement for interpreter costs from AOC which is paid into the general fund. We will continue to contract with AOC and comply with all requirements to receive the reimbursements.

Interpreter Mileage: Currently, District Court's interpreter payment policy indicates that we will pay one-way mileage only for in-person hearings. Since the Covid-19 pandemic, we have experienced difficulty getting interpreters to come to hearings in person. Some hearings require in-person interpreters. GR 11.3 indicates a preference for in-person interpretation. Interpreter jobs for in-person hearings are sometimes not filled, requiring that hearings be rescheduled. Interpreters do not get paid for their travel time to and from the court. District Court is requesting funding so that we can pay interpreters for round-trip mileage so that we can adequately compensate interpreters for their valuable and necessary service. In 2023, we paid approximately \$5,259 in one-way mileage expenses. We request an additional \$5,259 in interpreter funding for roundtrip mileage for both the 2025 and 2026 budgets.

Publish Date Jul 12, 2024 12:20 PM (PDT)
Description District Court requests additional funding for Courthouse workstation changes.
Summary

In our 2022 budget requests, District Court requested \$1,330,668 to carpet and refurbish staff clerical areas at the South Division, the Evergreen Division, and the Cascade Division, and to renovate five unsafe in-court clerk workstations. The Facilities estimate prepared for the Executive budget team was \$1,050,000 to \$1,125,000. District Court received \$1,000,000 non-departmental funds for this project.

District Court and Facilities worked with an architect to obtain multiple designs for newer, safer in-court workstations in the five courtrooms. In 2023, the clerk’s workstation at the South Division, Department 1, was remodeled and plans for carpeting and refurbishing the main clerical area were drafted. In 2024, the South Division work in the main clerical area began with removing high-density shelving which had been used for paper files but was no longer in use as District Court has gone paperless. Asbestos was discovered under the carpet and the County paid for the abatement. The total project cost, excluding asbestos abatement, for the South Division is anticipated to be \$323,607, based on estimates provided by Facilities, with approximately \$300,000 for the clerical area and \$23,607 for the in-court clerk workstation modification. This leaves \$676,393 for four in-court clerk workstation revisions and carpeting and refurbishing the Evergreen and Cascade division clerical areas.

Justification Due to the record escalation of costs in the construction industry since 2021, the cost of labor, supplies, and material has increased dramatically. Facilities has advised there is insufficient funding remaining from the \$1 million fund to pay for all improvements identified in our 2022 budget request, so we have removed items that are not high priority, and are focusing on in-court clerk workstations, high-density shelving removal, carpeting, and refurbishing clerical areas.

Currently, District Court’s highest priority with the remaining funds is modifying the four in-court clerk workstations at Evergreen and Cascade as there are safety issues involved. Courthouses are by their very nature places of conflict. Litigants are often facing very difficult and stressful situations. Recent events both locally and nationally have highlighted the need for strong courthouse safety. The current design of the four in-court workstations at both Cascade and Evergreen do not allow clerks a quick and safe exit route should events require such an exit. This puts them in undue danger in the event of a security issue.

The modification to the in-court workstation at the South Division was relatively simple. However, at Cascade and Evergreen, permits will need to be obtained and ADA adjustments may need to be made due to new construction. Based on the drawings for the in-court workstations, and the need for further modifications by the architect, District Court believes the four in-court clerk workstations at Evergreen and Cascade will cost, on average, a minimum of \$100,000 each, or \$400,000. High-density shelving removal, new carpeting and refurbishing clerical areas for Evergreen and Cascade were considered in the 2022 budget and funded with \$1,000,000. However, that funding is no longer sufficient to cover all costs. Shelving removal, refurbishing, and carpeting the clerical areas will cost \$300,000 for the Evergreen Division and \$300,000 for the Cascade Division. Accordingly, District Court requests funding of \$323,607, the expenses that exceed the 2022 funding.

Change Request Summary

Department	0024 - District Court
Change Request	AUTO - 353 - Therapeutic Court: FTE Increase
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Aug 01, 2024 03:30 PM (PDT)
Description	District Court requests funding to increase the Mental Health Court Program Supervisor and the Legal Processing Assistant II (LPA II) from 0.5 FTE to 1.0 FTE and fund a 1.0 FTE Therapeutic Court Case Manager position. This increase will support the court in providing complete and comprehensive services to participants. The Court was successful in continuing the current grant from AOC. The new grant funding is through June 2025. Executive Recommended Budget adds these as project positions that expire June 30, 2025.
Summary	

Change Request Summary

Mental Health Court (MHC) has been operating within the Fund 124 Program 550 Mental Health and Community Court budget, with a focus on best practices and wrap around services. Despite our attempts at reallocating job duties with our staff, we did not have adequate staffing to fulfill our mission and our legal partners hesitated to refer potential participants.

In Spring of 2022, we applied for and received a grant from the Administrative Office of the Courts (AOC). The grant paid for an additional 0.5 FTE positions for our Mental Health Court Program Supervisor and Legal Processing Assistant II positions and a 1.0 FTE Therapeutic Court Case Manager position. We received the grant in July of 2022, and it ended in June of 2023. With the extra availability of staff and the new case manager position, our legal partners took notice. We applied for and were awarded an AOC grant in July of 2023 that is active until June of 2024. We have applied for the same grant this spring that would run from July of 2024 to June of 2025. We should learn of our status towards the end of June 2024.

With the increase in staff availability and size, we saw an increase in referrals to our court. From January through May 2022, MHC had five (5) active participants. From January through May of 2024, we had seventeen (17) active participants. This increase reflects our legal partners' confidence in the program as a result of the increase in staffing.

Based on our new staffing level, we expanded our court tracks to serve not only high risk/high needs individuals, but also individuals with cognitive impairment impacted by mental health issues which is currently an underserved population. The population includes those with intellectual disabilities and brain injuries who typically have not been eligible for MHC. We have built collaborative relationships with area treatment and resource providers which greatly reduce roadblocks our participants face in obtaining help and services. We have partnered with Superior Court and the Center for Justice Innovation in building a sequential intercept map in an effort to provide services to individuals in a timely manner. Our court has been researched and studied most recently by AOC and has been deemed to be in good standing with national best practices.

Since 2018, participants who graduated from the program did so with no new criminal charges within the twenty-four months after graduation. Of the individuals who failed to complete the program, twenty-five percent (25%) had new criminal charges within the first twenty-four months of their departure from MHC. Conversely, of the individuals who were not referred to the program, or were found not eligible, thirty percent (30%) had new criminal charges within the first twenty-four months of their initial charge. The message is clear – participation in Mental Health Court, even without successful completion, leads to improved outcomes and reduced recidivism.

Sufficient staffing keeps MHC participants engaged and removes roadblocks to success. Engagement increases the likelihood that a participant will stay in the program and graduate, which in turn greatly reduces recidivism. Accordingly, District Court requests funding to increase the permanent 0.5 FTE Program Supervisor and the permanent 0.5 FTE Legal Processing Assistant II to permanent 1.0 FTE positions and to fund a permanent 1.0 FTE case manager position. We would like to continue to provide our current level of service and request funding to support ER&R for transportation of participants by our Case Manager and cell phones for our Program Supervisor, LPA II, Specialty Court Officer and Case Manager to enable timely and productive communication with participants. The total cost of this package is \$222,802 for 2025 and \$229,227 for 2026.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 484 - SCSO_FUND 100 - Community Impact Neutral
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 26, 2024 05:09 PM (PDT)

Description
 This package modifies revenue and related expenditure budgets for direct-award community impact funds from area Tribal Nations. This program is budget neutral; anticipated revenues and expenditures are equal for 2025-2026. NOTE: This request is for the continuation of 1 FTE Crime Analyst project position utilizing special revenue. There is a partner package #422 which moves 1 FTE Crime Analyst in the general fund. If package #422 is adopted, the Crime Analyst position in fund 100 would need to be removed (SHR4341P). The remaining program expenditures could stay in fund 100 and we will utilize remaining grant funds to pay for other community based projects and software enhancements.

Summary
 Since 2006, the Sheriff's Office has received annual awards of funding from The Tulalip Tribes and Stillaguamish Tribes, under their community impact programs. When awards are received, we take time to consider the best use of the limited funds. From 2008 through 2013, funds were used to fund a Director of Community Partnerships position. Reduced funding levels have restricted our use of funds, and types of expenditures since 2014. In 2016 we began investing in crime and data analysis services to bolster efficient deployment of patrol resources through data-driven policing.

Justification
 The budgeted amounts in these programs cannot be increased or decreased without first amending the agreements upon which the programs have been built.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 282 - SCSO_FUND 141 - Helicopter Neutral
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:52 PM (PDT)

Description
 This fund is used toward the repair and maintenance of the Sheriff’s helicopters as needed. The funding source is Federal Revenue sharing money distributed to Snohomish County by virtue of the Secure Rural Schools and Community Self-Determination Act of 2000. The Snohomish County Council has elected to use Title III funds from this source to repair and upgrade the Sheriff’s helicopters which are used primarily for this statutorily required duty to provide search and rescue services. Federal funding continues to be unreliable, leaving little in addition to residual fund balance to supplement operations. It should be noted that available funding has been declining over the last few years.

Summary
 This fund has long been the chief source of funding for repairing the Sheriff’s Office helicopters which are used primarily for search and rescue needs. Our Air Support Unit plays a vital role in responding to emergencies, locating missing persons, providing life-saving assistance during natural disasters. Air Support is the fastest and most efficient method for rescuing and recovering lost or injured hikers throughout the Cascade Mountain Range. The SCSO Air Operations program accomplishes a great deal for the county and the region by greatly leveraging the allocated funds. Repair, maintenance and fuel costs continue to rise while our budget over the past few years has not. There is no ER&R fund to cover the repair and maintenance costs of the helicopters. A separate, partner priority package accompanies this one, and requests ongoing general fund support that will allow our Helicopter program to continue.

Justification
 A County ordinance requires that this fund be used for operations of the Sheriff’s helicopters as needed. The federal act cited above applies as well as to appropriate uses of these federal dollars.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 489 - SCSO_FUND 142 - Task Force Neutral
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:07 PM (PDT)

Description
 This package is budget neutral and reflects a portion of the operating costs of the Snohomish Regional Drug Task Force (SRDTF). Just as the SRDTF is comprised of many different agencies contributing resources, this fund has many different funding sources. The majority of the revenue in the Drug Buy Fund 142 comes from civil asset forfeitures and all proceeds must be expended on narcotics enforcement.

Summary
 Under the supervision of a Task Force Commander, assigned local law enforcement personnel will investigate mid and upper level drug traffickers, both individuals and organizations, who operate within the state of Washington and specifically, Snohomish County. A board governs the Task Force, comprised of one representative from each participating agency that contributes at least one full-time employee to the Task Force. The day-to-day operations are supervised by the Commander through two Lieutenants and two Sergeants.

Justification
 All participating jurisdictions are encouraged to assign manpower when their staffing levels allow for dedicating an officer to the SRDTF. When any of the agencies have a significant drug problem in their jurisdiction that they are unable to deal with effectively they request assistance from the SRDTF. When the Task Force assists in these cases, patrol support is provided by the agency in need.

While different agencies fund the salary and benefits of contributed FTEs, other operational and equipment costs are borne by the SRDTF. Several different grants (See Grant Work Plan) contribute funding to pay for overtime, maintenance of the SRDTF facilities, and some of the operational costs incurred for training, supplies, and equipment. The Task Force Fund 142 provides for the expenditures not covered by grant revenue such as vehicles and maintenance, office and investigative supplies, training, professional legal services, confidential funds and internal County services.

Change Request	AUTO - 505 - SCSO_FUND 194 - Boating Safety Neutral
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:09 PM (PDT)
Description	This package includes budgeted amounts for the revenue and related expenditures of vessel registration fees distributed to the County for approved boating safety programs. This program is budget neutral; anticipated revenues and expenditures are equal for 2025 - 2026.
Summary	<p>The Boating Safety Fund is dedicated by RCW 88.02 to the enhancement of boating safety in Washington State waters. The State collects revenue from boat registrations distributes funds to counties that have approved boating safety programs. The counties in turn must, by interlocal agreement, distribute some of the proceeds to municipalities that also have boating safety programs. In Snohomish County, the cities of Everett and Lake Stevens have such programs.</p>
Justification	<p>Boating revenue funds are used to pay primarily overtime of deputies assigned to boating safety duties during the boating season. Some funds are used for supplies and repairs of the Sheriff's Office boats. No Sheriff's personnel are assigned full-time to marine law enforcement; rather it is an ancillary duty.</p> <p>LEGAL/CONTRACTUAL REQUIRMENT: These funds are made available for a specific purpose and the way they are handled is the subject of Washington Administrative Code 352-65-040 (10). The funds are to be used for education and enforcements in boating safety. Supplanting of these funds is prohibited by law.</p>

Snohomish County Code Chapter 2.38 assigns responsibility to the sheriff for planning, coordination, and provision of security services for county facilities subject to oversight by a county facility security committee composed of county officials representing the executive, legislative, and judicial branches of county government.

Description:

The Security Services internal service fund receives contributions from all County Departments and Offices. The level of service received by those departments is varied, and allocation of annual rates is based upon factors that represent those differences. The cost of providing campus security by the Marshall FTEs and security services contractors is allocated by the total square feet of departments receiving security services, but only in the buildings that are monitored.

The cost of administration of the program is allocated by a department's FTE count. Currently, admin costs consist of one supervisor to provide general coordination of all services and one security support specialist to provide keyless entry services.

Description	The Point Blank body armor worn by our commissioned law enforcement staff comes with a manufacturer ballistic performance warranty of five years from the date of issue to the individual user. The Quartermaster has identified 127 Sheriff's Office law enforcement staff whose body armor will expire out of warranty during 2025 and 2026.
Summary	
Justification	<p>The National Institute of Justice has identified body armor vests as one of the most important pieces of safety equipment used by law enforcement. Wearing body armor can save a deputy from assaults with and without weapons, and even in vehicular accidents. Sheriff's Office policy require all personnel engaged in law enforcement duties while wearing the Office uniform to wear body armor issued by the Office. Additionally, the policy requires body armor to be to be replaced in accordance with the manufacture's recommended replacement schedule. The current vendor requires soft body armor to be replaced every five years. The average cost of new body armor is \$1,000.</p> <p>The Sheriff's Office has identified 29 body armor vests that will need to be replaced in 2025 and another 98 body armor vest to be replaced in 2026. Additionally, the Sheriff's Office is actively hiring to fill 26 vacant (April 2024 numbers) Deputy Sheriff vacancies. Including those vacancies for the 2025 / 2026 budget cycle brings the total number of body armor vests to 153.</p>

Change Request Summary

Department: 0030 - Sheriff
Change Request: AUTO - 185 - SCSO_LE_Bridges DV Coordination Services
Change Request Type: Standard Change Package
Change Request Status: Executive Recommended
Publish Date: Jul 15, 2024 02:10 PM (PDT)

The Sheriff's Office was allocated \$292,000 in ARPA funding during the 2023 budget process. These funds were used to secure a contract with Bridges Domestic Violence Coordination Services. This request will fund the Bridges DV Professional Services contract for an additional two years to continue providing independent professional domestic violence services to victims.

Description: Domestic Violence continues to be a substantial problem for citizens of Snohomish County. During the last three calendar years, The Snohomish County Sheriff's Office responded to an average of over 4100 domestic disturbances each year. During that same time period, an average of over 1500 of those calls resulted in a case report including a charge related to domestic violence. In a recent year, there were approximately 220 requests for follow up investigations submitted to the Sheriff's Office from the Prosecuting Attorney's Office. If the follow up information is not provided within the time frame submitted by the Prosecutor's Office, the case is dismissed. A large percentage of the follow up requests (approximately 80%) involve a gross-misdemeanor assault 4 degree. Follow up requests vary from requests for medical records, additional statements, collection of video evidence, etc. Due to the volume of work, detectives are not able to conduct follow up for misdemeanor crimes. Thus the follow up requests are assigned to patrol deputies. Patrol deputies lack sufficient time to conduct follow up investigations (according to the 2014 Timothy Freesmeyer Staffing Study, Snohomish County deputies have on average 12 minutes of discretionary time per hour while on shift. When deputies do have discretionary time much of it is outside of normal business hours (2:00 am to 8:00 am) when it is not possible to contact businesses, victims, and witnesses.

Summary: The Sheriff's Office recognizes that it must do more to assist the victims of domestic violence as well as the children exposed to violence. A more comprehensive approach to dealing with domestic violence means additional resources are needed. These resources do not necessarily need to be commissioned law enforcement officers. Highly trained social workers who specialize in working with victims of domestic violence and understand the complexities of domestic violence as it relates to the victims, the abuser, law enforcement, prosecution, and the judicial system would be able to fill the void currently existing in the criminal justice system. Trained social workers can provide numerous services to victims, police, and to improve prosecution outcomes to perform work that is beyond our current capacity. Moreover, domestic violence social workers' total compensation costs are significantly less than a commissioned law enforcement officer.

The Sheriff's Office is requesting funding for a Professional Services contract to provide independent professional domestic violence services to victims. The scope of services provided to the victim, law enforcement, and prosecution are extensive:

Victim Services include (in part): support, educate and assist victims of domestic violence through the criminal justice proceedings, in both district and superior courts; provide victims with information on obtaining civil protection/no contact orders; assist victims in completing the many forms and documents required to obtain various protection/no contact orders; assess domestic violence victims immediate needs (safe housing, income, and other necessities); help victims establish an immediate safety plan; provide information and referrals to community resources specifically for victims of domestic violence; provide victims with information regarding criminal justice proceedings and procedures, appear with victims at arraignments and all other court hearings (both criminal and civil); educate victims about the benefits of pursuing prosecution through the legal system.

Law enforcement services include (in part); Provide law enforcement about victim accounts or other undisclosed criminal information; provide follow up services for law enforcement by obtaining additional statements, supplemental paperwork, photographs of injuries and, medical release forms; in concert with law enforcement and the prosecutor's office, develop reference materials to be used by police and prosecution aid in prosecution; assist in training deputies about victim services; and provide community training concerning domestic violence and services available to victims of domestic violence.

Prosecution services include (in part); Provide the deputy prosecuting attorney with status reports concerning the victim, contact information, concerns of victims, and an update on the status of civil court no contact or protection orders; communicate with deputy prosecutors seeking the termination of no contact orders; provide information to the deputy prosecuting attorney on victim’s recommendations/request for defendant services and resources as well as providing sentencing input; coordinate with the prosecutors’ office victim advocates for a smooth transition of services where appropriate.

Justification

In 2021 Washington State Governor Jay Inslee signed into law Engrossed Second Substitute House Bill 1320 into law which amended approximately 80 existing RCW’s relating to domestic violence. In Part I section 3, subsection a, the legislature stated in part, "domestic violence is a problem of immense proportions. About 15 percent of Washington adults report experiencing domestic violence in their lifetime, and women, low-income people, and Black and indigenous communities experience higher rates of domestic violence. When domestic violence victims seek to separate from their abuser, they face increased risk. Forty-five percent of domestic violence homicides occur within 90 days of recent separation, while 75 percent occur within the first six months of separation. Domestic violence has long been recognized as being at the core of other major social problems: child abuse, other crimes of violence against persons or property, homelessness, and alcohol and drug abuse. Research has identified that adverse childhood experiences such as exposure to domestic violence have long-term negative impacts on health, well-being, and life outcomes, including criminal legal system involvement. Washington State studies have found that domestic violence is the most predictive of future violent crime by the perpetrator. Nationwide, domestic violence costs over \$460,000,000,000 each year for health care, absence from work, services to children, and more...Domestic violence should not be minimized or dismissed based on any mental health diagnoses of the perpetrator or the victim. To the contrary, the presence of mental health concerns or substance use of either party increases the likelihood of serious injury or lethality. The legislature finds that it is in the public interest to improve the lives of persons being victimized by the acts and dynamics of domestic violence to provide reasonable, coordinated, measures to prevent domestic violence from occurring and to respond effectively to secure the safety of survivors of domestic violence".

The above statement of the Washington State legislature is further supported by scientific research on the subject of domestic violence particularly as it pertains to children. Specifically, domestic violence has significant deleterious impacts to society, particularly children. Most instances of domestic violence involve children in the home that are 5 years of age or younger (Fantuzzo et al., 1997). Moreover, there is strong evidence to support that domestic violence is intergenerational, even for children who merely witness violence (Gelles & Cavanaugh, 2005). Therefore, without intervention, the cycle of violence is likely to perpetuate itself for children when they reach the age of adulthood.

Children, particularly those who come from historically underserved and marginalized communities deserve to grow up in a home safe from domestic violence. Children are our most vulnerable citizens as well as our future. Victims of domestic violence and their children deserve and should expect that the criminal justice system will respond, support, and advocate for their wellbeing. The system, as it is currently structured, fails to provide the necessary supports to ensure that every reasonable effort is made to safeguard the wellbeing of both the victim and the victim’s children.

Adding a team of highly trained domestic violence social workers will undoubtedly provide critical services both in the social arena and the criminal justice system to domestic violence victims which is currently not available to them. The use of a professional service provider would most certainly lead to more convictions in domestic violence cases. It would provide a conduit to services to the victim both as it relates to social services and navigating the criminal justice system. Domestic violence victims (and their children) would have an assigned social worker who would be able to assist the victim every step of the way as the case makes its way through the system.

 Publish Date: Jul 09, 2024 11:05 PM (PDT)

Description
 The Sheriff's Office has been operating with Two Technical Services Supervisors (TSS) since the mid-end of 2014. Prior to that time, the agency had three TSS'. One was assigned to the Civil Unit, one was assigned to the Records Unit, and one was assigned to the Public Disclosure Unit. In 2014, the third TSS was reclassified to a Lead Law Enforcement Technician. This caused the Records Unit TSS to absorb the TSS duties for the Civil Unit. That position has been carrying that workload for a decade. I would like to reclassify two Law Enforcement Technician (LET) positions to a third TSS position within the Sheriff's Office. This would effectively restore the support staff structure to the 2014 model, while keeping the existing fourth Lead Law Enforcement Technician to keep up with the increased workload over the last several years in Records and Civil.

Summary
 The Civil Unit within the Sheriff's Office is a very niche unit. This unit is responsible for all receiving, reviewing, entering, and maintaining all court-ordered items issued in the Snohomish County Sheriff's Office jurisdiction. These items range from court-order evictions to habeas corpus proceedings, to the different types of issued orders. This unit coordinates with civil deputies to have court orders served and carried out all over the County. Additionally, they coordinate with various private legal entities along with working with members of the Superior Court, District Court, Clerk's Office, and the Prosecuting Attorney's Office in our County.

Justification
 This unit needs a dedicated Technical Services Supervisor. The workload between Records and Civil has become too much for one TSS to adequately manage. The current Lead LET assigned to Civil has been managing the Civil Unit with little assistance from the direct TSS. Essentially, the current Civil Lead has been acting as a TSS for over a year. This current Lead LET is expected to retire within the next year. In an attempt to succession plan, this position needs to be reclassified back to a TSS so we can post the position and fill it with the best applicant. Additionally, this will allow the current Records/Civil TSS to focus solely on supporting Records, which is the largest support group in the Sheriff's Office. This position already exists within the Sheriff's Office, and this is past practice for our department. I also believe creating this promotional opportunity within the support staff group will encourage entry-level staff to stay with the agency and work towards a promotion.

Change Request AUTO - 133 - SCSO_LE_Handgun Replacements
Change Request Type Standard Change Package
Change Request Status Executive Recommended
Publish Date Jul 15, 2024 01:37 PM (PDT)

The Snohomish County Sheriff's Office is in critical need of replacing the 450 department issued .40 caliber handguns as they are currently in year six of the five-year manufacturer recommended life span for a law enforcement firearm. Maintenance records from our factory trained armorers indicate the current handguns are starting to require more maintenance due to failing parts. The wear on the firearms presents a reliability issue if not properly maintained.

Description The handguns used by the Sheriff's Office are on a five-year replacement cycle due to several factors:

- Number of rounds fired through the firearm annually causes significant wear of the fire control group (trigger, firing pin, sear).
- Exposure to extreme temperatures and weather which can lead to rust and corrosion.
- Replacement of internal and external parts.
- Lack of availability of manufacturer parts.
- Newer and safer models of firearm.

Summary

Change Request Summary

The firearm industry is constantly looking for ways to improve the function and safety of their products, especially for law enforcement. Ammunition companies are also looking for new and innovative ways to improve ballistics for the ammunition carried by law enforcement. The duty-issued handgun is designed as the primary weapon for the Snohomish County Sheriff's Office, and is the last line of defense for lethal situations where no reasonable alternative appears to exist. It is imperative that the handgun carried by law enforcement be reliable and of a reputable brand, comfortable to carry, easy to manipulate, have a striker-fired mechanism, and have parts and resources available for repair and maintenance.

The Sheriff's Office range master has conducted testing of different handguns over the last year regarding the appropriate and practical replacement of duty issued handguns and ammunition for the Snohomish County Sheriff's Office. Results showed we are in need of changing to a newer handgun platform and to a new caliber of 9mm with a red dot sight (RDS). Over the past twenty years, law enforcement has been slowly transitioning to the 9mm platform with an electronic red dot sight (RDS). Law enforcement agencies across the nation are issuing handguns chambered in 9mm along with RDS. The most significant benefits to this transition are increased accuracy and shooter confidence. The Snohomish County Sheriff's Office currently issues the .40 caliber handguns. Some issues with the .40 caliber round are:

Justification

- The .40 is considered a "magnum" caliber, and is not easy for everyone to shoot due to the intense recoil.
- Qualification scores are not consistent and even result in failures due to the recoil and anticipation.
- The .40 caliber bullet is less-produced, more expensive, and has weaker ballistics than the 9mm.
- 10% less bullets can be carried in the magazines than the 9mm.

The Red Dot Sight (RDS) is now the industry standard for issue for most law enforcement agencies. Most law enforcement agencies in Snohomish County are issuing a duty handguns in 9mm equipped with RDS. This platform is showing improved shooting accuracy scores, greater reliability and accountability. Improved accuracy is safer for the community.

Snohomish County Sheriff's Office is seeking to replace 450 handguns and holsters. Smith and Wesson offers an M&P 2.0, Metal Frame, Optic-Ready handgun. In an effort to determine an approximate cost, the trade of the existing handguns for the new handguns would result in a \$85,560.00 credit towards the purchase of the new needed handguns. Smith and Wesson is offering \$186.00 for each used gun which is better than their current market value since there is less demand for a .40 caliber handgun anymore. We would get roughly a \$50.00 per gun reduction in price for the new handguns, a \$100.00 reduction in price for each new Swampfox Justice Optic, and a \$100.00 reduction in price for each new RDS ready Safariland model 6360RDS duty holster.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 132 - SCSO_LE_Helicopter Fuel & Regular Maintenance
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:26 PM (PDT)

Description: The Sheriff's Office Air Support Unit provides aerial support services for law enforcement and search and rescue operations. The unit is currently staffed with two commissioned pilots and five volunteer pilots. Current funding for aviation fuel limits annual flight time to approximately 200 hours. This package is a request for \$200,000 in the Sheriff's Office 2025-2026 Law Enforcement general fund budget to replace Title III Federal Funds and maintain our Air Operations program at current service levels.

Summary: Due to the high risk nature of helicopter operations, specifically high altitude wilderness rescue missions, training our pilots is an absolute necessity. Last year we saw an 88% increase in helicopter rescue missions. These missions include recovering subjects with life threatening injuries throughout the Cascade Mountain Range. Helicopter operations occurring in mountain terrain, at high altitude, requires expert level skills from our pilots. Those skills can only be acquired through regular training. Fuel costs continue to rise while our budget over the past few years has not. We estimate that we require a operating budget of \$260,000 annually. We are using fund balance in F141 under a separate package in the amount of \$60,000, leaving \$200,000 to be funded by the general fund.

Justification: SCSO reduces the cost of operations by using trained volunteer aircrew members on a regular basis. The Chief Pilot is a FAA certified Flight Instructor (CFI) and FAA Night Vision Goggle CFI. These qualifications allow SCSO to conduct nearly all training in-house at no added expense to the county.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 342 - SCSO_LE_Reclassification_Director of Communications Pay Grade
 Change Request Type: Position Adjustments
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 11:50 AM (PDT)

Description
 The Snohomish County Sheriff's Office Director of Communications position needs to be moved from Pay Grade 111 to Pay Grade 113, to match other county positions with the same job description, to remain competitive and retain a valuable, experienced staff member who has endured a steady increase in work over the last several years due to increased public demand on more frequent and transparent communication expectations with law enforcement. There is one other Director of Communications position within the county and this equivalent position was moved from a pay grade 111 to a pay grade 113, effective January 2020. These roles share equivalent job descriptions, requiring the same educational qualifications and years of experience. Presently, our Director of Communications is compensated at the same level as the county's Deputy Director of Communications, which does not accurately reflect the scope or responsibilities of the role. Therefore, moving to Pay Grade 113 is essential to recognize the value and demands of this position within our organization and ensuring its equitable standing within our county government.

Summary
 The Snohomish County Sheriff's Office Director of Communications (DOC) position has remained at the same Pay Grade while other county departments with the same position and job descriptions have had an elevation of their Pay Grades for staff, at the same time our department has experienced an increase in work volume in this position. Our Director of Communications has been successful despite a steady escalation in the volume of work in the last several years due to the growth of community expectations regarding transparency and accountability. This person works on-site every day and is not only responsible for the branding and marketing of our agency to our community relative to building trust, but there is also a constant demand to respond to scenes of breaking news and other time sensitive inquiries 24/7, to include social media. This position requires far beyond 40 hours a week in the office, including middle of the night calls, weekday, and weekend work. This position will begin supervising a newly reestablished Public Information Officer (titled Communications Specialist) in 2024 which includes training and daily assignments and oversight of a subordinate. We must provide pay for this position which is consistent with other communications positions in county government and reflect the high expectations of the position, to be competitive as an employer to retain trained and experienced staff.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 343 - SCSO_LE_Reclassification_Sheriff Administrative Assistant Pay Grade
 Change Request Type: Position Adjustments
 Change Request Status: Executive Recommended
 Publish Date: Jul 29, 2024 03:24 PM (PDT)

Description
 The Snohomish County Sheriff’s Office “Administrative Assistant - Sheriff” position needs to be moved from Pay Grade 107 to Pay Grade 109, to match other county positions with the same (or very similar) job description, to remain competitive and retain a valuable, experienced staff member who has seen a constant increase in work over the last several years due to law changes and state certification requirements. Currently, the elected Councilmembers each have a legislative aide, the elected Prosecutor has an administrative assistant, and the elected Executive has four administrative assistants (or like positions) within his office who are all Pay Grade 109. The job duties of these positions closely mirror those of the Sheriff’s Administrative Assistant. In alignment with other positions countywide, it’s imperative that the Sheriff’s Administrative Assistant, who provides support to the elected Sheriff, the undersheriff, the Office of Professional Accountability (internal investigations), and provides administrative support for the largest county department, comprising over 700 employees, receives compensation equal with their counterparts in other elected offices.

Summary
 The Snohomish County Sheriff’s Office “Administrative Assistant – Sheriff” position has remained at the same Pay Grade (107) while other county departments with the same (or similar) position job descriptions work for a higher Pay Grade (109), at the same time that we have observed a steady and consistent increase in work for this position due to law changes, new state certification processes, and an increase in work for public disclosure on confidential administrative cases. This position has worked on site every day and has been impacted by the tripling of staff that this position supports (Office of Professional Accountability). This includes an increase of managing cases with the Prosecutors Office for litigation, confidential files relative to labor groups (such as grievances, demand to bargain assertions, and related PECBA information requests), as well as internal administrative investigations and newly created conduct inquiries. We must provide pay for this position which is consistent with other executive level administrative positions with similar responsibilities in county government, as well as to reflect the increase in volume and the high expectations of this specific position. We must be competitive as an employer to retain trained and experienced staff in this critical position. Moving to Pay Grade 109 matches the job description of other positions that work directly with elected officials, including Council Members, the County Prosecutor, and the Executives Office.

Change Request Summary

Department	0030 - Sheriff
Change Request	AUTO - 344 - SCSO_LE_Reclassification_Technical Services Supervisor Pay Grade
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 03:33 PM (PDT)
Description	The Sheriff's Office currently has two Technical Services Supervisor positions. Those positions oversee the three main support staff units within the Sheriff's Office. One TSS oversees the Civil and Records Units while the other TSS oversees the Public Disclosure Unit. These positions are currently housed in the classified rate table as a 237. Due to the workload, expectations of each assignment, large amount of liability, and the overall increase in the work product these positions have had to manage; I'd like to move them to a higher class in the same rate table. The change would be as follows: Technical Services Supervisor - currently a 237, change to a 242 on the same rate table.
Summary	

Change Request Summary

These positions have been underpaid for several years. The positions in and around Snohomish County which are equal to the TSS positions in description, but not in workload, often make between three hundred (300) to six hundred (600) dollars more per month. The Snohomish County Sheriff's Office is one of the largest police agencies in Washington State. Our agency serves the citizens of Snohomish County, which is one of the fastest growing counties in Washington State. The two TSS supervisor carry a massive workload, and should be compensated for that work.

The Records and Civil TSS currently oversees four Lead Law Enforcement Technicians, approximately 25-32 Law Enforcement Technicians (depending on staffing) and approximately two to six provisional Law Enforcement Technicians (depending on staffing). This TSS is responsible for overseeing the training/mentoring/coaching of all probationary staff in both units. They are also responsible for training and mentoring incoming Lead Law Enforcement Technicians (of which we had two within the past year in a half get added to the roster). This position communicates frequently with patrol members inside/outside of our agency, is responsible for updating procedures and policies within the two units, handling complaints from customers, communicating with the Prosecuting Attorney's Office on civil matters, regular reporting to the Staff Services Manager, and much more. This position carries a large amount of liability and risk due to the decisions it oversees in terms of concealed pistol applications, warrant processing, court order processing, extraditions, etc. This position constantly keeps up with legislative updates relating to the processing of guns, CPLs, court orders, warrants, etc. to best mitigate any potential future liability the agency may face relating to the processing of these items. This TSS also assists with shift coverage and task completion to support both units when there is short staffing and/or when a shift needs assistance with their assigned tasks.

Justification

The Public Disclosure TSS oversees all of the Public Information and Records Specialists within the Sheriff's Office (six total). This position also oversees one Law Enforcement Technician who assists with administrative work in PDU. This TSS doesn't have the assistance of a Lead LET so all of the supervision/training/mentoring of the unit falls on them. Additionally, this TSS works closely with the County Public Records Officer and other public records staff in all other county departments to process public records requests. This position is constantly reviewing updating legislation and court rulings to be sure the Public Disclosure Unit it reviewing and redacting records appropriately and according to the most recent legal updates. The TSS assigned to this unit also cares a full redaction workload (matching that of the PIRS' within the unit) to assist with constantly growing public records requests numbers. This TSS position carries a large amount of liability due to how the Public Records Act is written in our State. It is very difficult for government agencies to receive a favorable ruling in a PRA suit simply because the laws are always changing and require constant attention.

Both Technical Services Supervisors are grossly underpaid for the amount of work both positions complete. While similar positions in other law enforcement agencies in Snohomish County pay their supervisors anywhere between \$85,000 to \$95,000 annually (in many cases more), our TSS' are paid between \$65,600 to \$79,750 annually. The TSS' within the Sheriff's Office oversee some of the largest law enforcement support staff workloads in our State, not to mention in Snohomish County. Bringing their pay up closer to other jurisdictional numbers will allow us to retain the current TSS' we have, while also being able to adequately recruit for applicants in the future if/when needed.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 326 - SCSO_LE_Resource Alignment - Restore Reduction
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 01:25 PM (PDT)
 Description: Sheriff's Office, Law Enforcement, request to fully restore proposed budget cuts
 Summary:

Justification: The proposed budget cuts would have a catastrophic impact to the safety of the citizens of Snohomish County. If the Sheriff's Office was forced to take a 3% budget cut there would be no alternative to achieve a reduction that great without large scale layoffs. On the law enforcement side of the agency, the office would potentially be facing the loss of 16 Deputy Sheriff positions. This would lead to a significant reduction in the amount of law enforcement response that would be provided to the public. The office would not be able to provide even basic patrol services at our current levels. Response times to emergency 911 calls would rise significantly and the office would be forced to make policy decisions on the type of 911 calls deputy sheriffs will even respond to with reduced staffing. Reductions would have to be made in investigations and other support services as well, potentially leaving citizens with very little or no follow up investigations to certain types of crimes. For these reasons we are asking for consideration in fully restoring the Sheriff's Office funding reduction.

Change Request Summary

Department: 0030 - Sheriff
 Change Request: AUTO - 148 - SCSO_LE_Software Upgrade for Body Worn Cameras
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 22, 2024 03:03 PM (PDT)

Description
 This is a partner package with IT: Placeholder package for funding to add the Axon Investigate module to our Axon software contract. At inception of our contract with Axon, they provided our office with a demonstration version of their third party video support feature. Currently, our employees are using the feature extensively, and third party video support has proven to be an invaluable investigative tool in a world that is ever increasing use of digital media. The video support feature offered by AXON has proven to be a critical investigative tool and now that the demonstration period is ending, our office is seeking funding to continue using this time-saving tool.

Summary
 Axon documentation states that more than 80% of investigations involve video evidence. When investigators encounter video evidence with proprietary video formats like .DAV, .IRF, .EXE, .SSF and others, they are left to search for an on-line conversion tool to view the evidence. Improper playback software can alter video evidence and impede investigations. Axon third party video support secures the forensic integrity of each video clip, ensuring media integrity. Axon third party video support dramatically improves the video investigation process, saving officers up to 10 hours per week (an estimate from Axon) searching for conversion tools by providing simple, fast and repeatable workflows. Axon third party video support allows users to review footage from thousands of third-party proprietary video formats and provides immediate access to original metadata including date, time, image numbers, etc. Third party video support allows users to manage and organize hundreds of video sources into one project and create court-ready media. Simply stated, user are assured that media evidence decoded within Axon Evidence.com has not been altered and can withstand the rigorous standards required by the legal system. This may not be the case if investigators must locate conversion tools from the open internet.

Justification
 Axon now bundles their third party video support with their video editing software and call the bundle Axon Investigate.

Change Request Summary

Department: 0030 - Sheriff
Change Request: AUTO - 434 - SCSO_LE_Support Staff Pay Scale Update
Change Request Type: Position Adjustments
Change Request Status: Executive Recommended
Publish Date: Jul 29, 2024 03:49 PM (PDT)

Description: Sheriff's Office support staff groups (Teamsters) need to be moved to an updated pay scale within the Snohomish County pay structure. Currently, the Accounting Technician II, Law Enforcement Technicians, Law Enforcement Secretaries, Lead Law Enforcement Technicians, and Public Information and Records Specialists are paid via the Sheriff Law Enforcement Support 200-600 Rate Table. The four groups listed above are classified as "clerical" staff which is technically not an incorrect description. However, given the advancements in the specific job duties of these four positions; their pay scale should be updated to reflect the work they currently do for the Sheriff's Office and the County. SCSO would like to proposes moving these groups to the 200 Classified Rate Table. The proposed moves are as follows:
Law Enforcement Technicians from a 307 (current teamsters support pay scale) to a 232 (classified scale)
Law Enforcement Secretaries from a 308 (current pay teamsters support scale) to a 233 (classified scale)
Lead Law Enforcement Technicians from a 311 (current teamsters support pay scale) to a 235 (classified scale)
Public Information and Records Specialist from a 311 (current teamsters support pay scale) to a 235 (classified scale)
Accounting Technician II from a 610 (current teamsters support pay scale) to a 235 (classified scale)
Security Support Specialist from a 311 (current teamsters support pay scale) to a 235 (classified scale)

Summary

The LETs, LES', Lead LETs and PIRS' perform the complicated, necessary functions to allow the Sheriff's Office to operate daily. LETs comprise the Records and Civil Units within the Sheriff's Office support structure. This group is responsible for the entry and processing of evictions, entry/modification/updates of protection orders, anti-harassment orders, anti-stalking orders, sexual assault protection orders and extreme risk protection orders. All of these items are on a strict timeline per RCW. This group is also responsible for processing all CPL (concealed pistol applications), entry of stolen vehicles/missing persons/stolen parts/stolen articles/warrants into WACIC/NCIC, management/retention of all roughly 98% of the case reports in the agency (excluding specialty investigation units), and the face of customer service on the fourth floor of the Courthouse. The Lead LETs supervise, mentor, train, and coach all LETs in the agency. They are not only responsible for monitoring and assisting with the various tasks listed above, but they are also responsible for building their individual shift teams. PIRS' process public records requests for the entire agency. They are responsible for reviewing all public records for applicable redactions pursuant to State laws, federal laws, and case law. PIRS' must thoroughly review all case reports which often contain references to sexual assault against adults/children, murders of adults/children, non-sexual assaults of adults/children, mental health/behavioral health contacts, arsons, collisions, etc. They must read each page, review each photo, and listen to/watch each body-worn camera recording.

Justification

The above groups are exceptionally underpaid compared to their counterparts in other law enforcement agencies inside/outside of Snohomish County. These groups are often paid several hundreds of dollars more per month to do the same type of work, but less of it. In 2023, the Sheriff's Office lost approximately one dozen LETs within a few month period. The reasons for LETs leaving the agency varied, but the most common response we heard from departing employees was they weren't paid enough to do the jobs they were expected to do. In a recent negotiation meeting with the Teamster group, one of the shop stewards (who is also a Lead LET with our agency) stated, "we are spending months training new employees only for them to become "more attractive" to other agencies and leave us to work for them. Due to the ripple effect the increase in pay would cause for the LETs, we are asking that the LES', Lead LETs, and PIRS' also be brought to the new pay scale and have their pay increased. The LES group performs very similar functions to that of the Courthouse LETs, but at the precinct level. They provide customer service to community members outside of the Courthouse area, along with performing similar tasks which LETs perform. Coverage in the Records and Civil Units became so scarce in 2023, the LES group stepped in to assist with the mandatory overtime that was occurring on a daily basis. Between October of 2023 and December of 2023, we got a temporary 2.5 overtime rate increase for all staff completing "Records Unit, Civil Unit, and PDU tasks". This overtime was predominantly paid off the salary savings of the several LET openings we had in 2023. PIRS have had their workload almost double due to the implementation of body-worn cameras. The average open public records request in the Sheriff's Office went from between 1500 and 1900 in 2022 to between 2300 and 2600 in 2023. The monthly averages have continued to clime, and the current monthly average is sitting at 2700 open public records requests. The Sheriff's Office processes approximately 75% of the total open requests received by the entire County, yet they are some of the lowest paid public records staff in the County.

We have slowly rebuilt all three of the support staff units, along with the LES and Lead LET ranks over the last six months. However, the cost of living in Snohomish County is so high and our staff don't want to drive over County lines to come to work; we are at risk of having another large loss of staff. The work encompassed by these four groups has become very technical with almost all of the work existing on computers in various computer programs. The increase in pay will allow the Sheriff's Office to recruit and retain appropriate applicants for these positions. The support staff units within the Sheriff's Office have watched the County increase the pay wages of patrol deputies to bring in and keep police staff. We are now asking for the County to move in the direction of what support staff should be paid, and show them they are as important to public safety as other members of the Sheriff's Office.

These groups are some of the lowest paid groups in the County overall, along with being near the bottom of the pay scales in our department. This was evident by the approval of the temporary 2.5 overtime rate increase during the fourth quarter of 2023. Most of that overtime bill was paid with support staff salary savings from 2023. Even with the slight increases we are asking for (moving these groups to an updated pay scale) they will still not be within most of the other law enforcement support staff markets in the State. However, it is a positive move in the right direction. This change will also positively affect the ongoing negotiations between the County this labor group. Currently, the business agent and the shop stewards representing these groups feel the support staff in the Sheriff's Office are expendable and easily replaceable.

Change Request Summary

Department	0031 - Prosecuting Attorney
Change Request	AUTO - 239 - PAO General Fund Housekeeping
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 25, 2024 10:22 AM (PDT)
Description	This Change Request involves annual updates to mostly expenditure DACs to reflect current and/or anticipated expenses.
Summary	
Justification	<p>(1) The Dashboard funds are requested each year until project completion. It is anticipated that we will expend only a fraction of this allocation in 2025-26.</p> <p>(2) Merit Pay increases are calculated per the CBA.</p> <p>(3) Reimbursable salaries and benefits are associated with our employees' work in Fund 124 related efforts. They are calculated on previous work levels and current pay levels.</p> <p>(4) The OpT adjustments support several grant programs. They are calculated on known and projected grant awards. The OpT for the Family Support Division captures the IF expenses that are not associated with Family Support. The Family Support budget includes several IF expenses for all our 36 grant positions; however, Family Support has only 29 grant positions. The OpT is intended to ensure that the state grant funds are used only for expenses related to Family Support positions. The OpT represents 19.4%-19.6% of certain IF costs that Family Support should not incur.</p> <p>(5) The Prosecutor's compensation revenue DAC is based on the latest estimates.</p> <p>(6) The increase for Legal Research reflects previous and future contractual increases.</p>

Change Request Summary

Department: 0031 - Prosecuting Attorney
 Change Request: AUTO - 328 - PAO Grants Housekeeping
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 19, 2024 08:03 AM (PDT)
 Description: This Change Request adjusts our best estimates for grant-related funding, operational transfers, and expenditures.
 Summary:

Justification: The adjustments in this Change Request are needed to balance revenues with expenditures, which is required for each grant program. For the Family Support Grant, the adjustment to the General Fund revenue OpT is necessary to cover the IF expenses that should not be charged to the Family Support Division, but nonetheless are accounted for in the Family Support budget. There are several IF expenses that are calculated on all of our 36 grant positions -- Family Support's 29 positions, and 7 other grant positions. Family Support's fair share of these IF expenses is 80.6% (29 of the 36 grant positions). Therefore, the revised OpT for the biennial budget represents the fair share of IF costs associated with the other 7 grant positions, or 19.4% of the pro forma expenses for Worker's Comp, County Premium, IF Public Records, Contract Security, and IF DIS Overhead. In addition, Family Support's Interfund Rental Space charge includes space that it once occupied (about 19.6% of the IF space rental charges), but that is now occupied by our Appeals Division, which is funded by the General Fund.

The other adjustments are necessary to balance anticipated grant revenue with grant expenditures.

Publish Date	Jul 09, 2024 10:59 PM (PDT)
Description	This Change Request updates our estimate for reimbursable salaries and benefits of employees working on CDMH-related cases.
Summary	
Justification	Fund 124 allows for the capture/reimbursement of General Fund (002) and Insurance Defense Fund (506) compensation expenses of those employees working on CDMH-related cases. Every year, these estimates are adjusted to reflect current compensation levels.

Change Request Summary

Department: 0031 - Prosecuting Attorney
 Change Request: AUTO - 387 - PAO Chief of Staff Compensation
 Change Request Type: Position Adjustments
 Change Request Status: Executive Recommended
 Publish Date: Jul 29, 2024 04:55 PM (PDT)
 Description: This Change Request moves the Chief of Staff position, PRA4450R, from the 114 Management and Exempt Salary Schedule, to a newly created Pay Grade 456.

Summary:

Justification: As second in command, the PAO Chief of Staff has supervisory authority over all Deputy Prosecutors and staff. The current pay grade for the Chief of Staff (114 Management and Exempt Salary Schedule), however, paradoxically compensates the FTE at a salary below that of the office’s Chief Civil, Chief Criminal, and Chief Family Support Deputies positions (455 Pay Grade). This change request cures that chain of command compensatory anomaly. The current classification and pay grade are the same as the other Chief of Staff positions in the County, but the PAO position is distinguished from them by the requirement to hold a law degree, to have experience as a trial practitioner and legal advisor, and to supervise other attorneys. As a result, that classification alignment does not transfer equitably to our department. To create a compensation ascension structure that will ensure equity, we propose the creation of a 456 Pay Grade, with 456/1 equaling the compensation level of 455/2, and 456/2 equaling 2.5% percent more than 455/2. The impact of this change is approximately an increase of \$10,884 in salary authorization in 2025, and in 2026.

Change Request Summary

Department: 0031 - Prosecuting Attorney
Change Request: AUTO - 433 - PAO Resource Alignment Strategy
Change Request Type: Resource Alignment
Change Request Status: Executive Recommended
Publish Date: Jul 30, 2024 01:16 PM (PDT)

Description: This Change Request does not specify precise reductions in our budget to meet the 3% resource alignment. Historically, we have met mandatory budget reductions through salary savings and conservative fiscal practices. We will continue these strategies where we can; however, more drastic measures will be necessary to meet the 3% target.

Summary: Change Request 247 creates 16 new Deputy Prosecuting Attorney positions: six DPA I positions; nine DPA II positions; and, one DPA III position. This request reflects the DPA staffing level increases necessary to actually keep up with the crime rate in Snohomish County and to begin meaningfully addressing the historic backlog of case referrals that was created by, and has only worsened since, the pandemic. It also assumes that through the collective bargaining process DPA salaries will increase to market-rate levels, which will markedly improve our ability to both retain the good people we have and recruit qualified applicants.

Change Request 265 seeks to create 5 more Victim Witness Advocates and transforms a current project advocate position into a permanent FTE. As explained during the 2024 Budget process, The office has only 9 V/W Adv and one project advocate. To provide context, the Pierce County Prosecutor’s Office – an apt comparator due to Pierce County’s similar population size, has 18 advocates. Skagit County, our much smaller neighbor to the north, which has less than one-sixth our population, has 5. Simply dividing the number of advocates by county population gives an idea of where we stand. Pierce County has 1 advocate per 51,388 residents while Skagit County has 1 advocate per 26,200 residents. Here in Snohomish County we are not even in the same ballpark with a meager 1 advocate per 84,000 residents.

Justification: We have been under-staffed for more than a decade. Years of budget cuts, resource realignments, and targeted reductions have been compounded by ever-larger and more labor-intensive caseloads, (the collective consequence of the explosion in of digital media evidence, a demonstrably more zealous defense bar with case load standards, and judicial officers no longer requiring defendants to appear at all hearings resulting in delay in case resolution), and worsened by unprecedented numbers of DPA resignations triggered by below-market wages, and an absence of qualified applicants who are willing to work for what we can pay. The result is that we have more work than we have bodies to perform the work. Our non-violent trial team DPAs are carrying upwards of 150 felony matters pending trial - caseloads so large that we’ve had to substantially reduce the number of new cases being charged to ease the caseload pressure on the trial DPAs. The need to prioritize felony crimes committed against persons has left our depleted non-violent felony charging unit with just 2 DPAs for most of the last two years, forcing the dismissal of hundreds of cases to the statute of limitations and leaving property crime victims without resolution or the possibility of restitution. Our district court unit has been overwhelmed as well with as few as 7 DPAs to cover the 4 divisions and 8 judges – less than half the total number of public defenders allotted to a similar but lesser amount of work (and this does not even consider the number of cases handled by private defense attorneys). And at a number that hovers just under 90 cases, we have more open homicide files in our office than at any time in history. Most homicide cases are staffed with two attorneys. Most go to trial. Each attorney spends an average of 300 hours reviewing, preparing for, and trying the case. That’s 300 hours x 2 x 90 = 54,000 hours, or 10 DPAs (which is the entirety of our violent and major crimes units combined) working full time on nothing but homicides for 2 ½ years straight. Of course, we don’t have that luxury as the approximately 250 other Class A and Class B violent felony cases pending trial or plea would have to be covered by the roughly 40 other criminal DPAs whose caseloads are already beyond manageable, only half of whom have the requisite level of experience required to do so.

The cold reality is that at current staffing levels, the per capita crime rate in Snohomish County (based on criminal referrals, which we’ve no reason to believe is uncommon for a political subdivision of our size and demography), exceeds our ability to timely and effectively prosecute them. For some context to our plight and to this request, we again look to Pierce County as an objectively reliable comparator. In 2022, Pierce County’s population stood at 930,000, approximately 10% larger than ours, at 840,000. Similarly, the number of criminal referrals received by the Pierce County Prosecutor’s Office in 2023 was 12,285, approximately 10% more than what we received, at 11,208. Where we differ drastically, however, is in the number of DPAs employed by our respective offices/counties. We currently have 67 full-time regular criminal DPAs on the payroll (this number does not include the

Change Request Summary

authorized ARPA project positions, which to our dismay have never been fully filled and have sat dormant due to recruitment challenges highlighted by the class and comp study for much of the last two years). Pierce County, on the other hand, has 93 Criminal DPAs on their payroll. The simple math is that Pierce County has 10% more criminal referrals and 50% more attorneys on their current payroll. It demands little imagination to discern which County is doing a better job of holding those who harm persons and property accountable; though it is certainly not for want of trying.

To be clear, we have been anything but idle. In the last twelve months we have had 94 jury trials and we have filed 4321 new criminal cases. We work hard every day to meet, if not exceed, our ethical obligations and professional responsibilities, consistent with our charging and disposition standards, in a manner that best serves our community while protecting the legal rights of both victims and the accused.

Change Request 433 seeks to meet the 3% mandatory resource alignment. A criminal division 3% resource alignment amounts to a General Fund budget reduction of approximately \$580,000, which equates to eliminating 5 entry level DPA positions this year. This reduction will necessitate eliminating either our district court unit altogether, or no longer prosecuting non-violent felony property crimes -- a heart-breaking outcome with far-reaching, adverse consequences beyond the four corners of the proposed budget.

And so, we have arrived at a watershed moment, if not the brink of a community safety crisis. The Executive and the County Council have to decide what priority they place on community safety, because the status quo, let alone and reduction therefrom, is unacceptable. As we embark on the County's first 2-year budget, we are compelled to make clear the total scope of the resources required to handle the public safety needs of our community. This year we are telling you like it really is, what we, and the community we serve, really need.

Department	0032 - Office of Public Defense
Change Request	AUTO - 177 - OPD-Child representation
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:36 PM (PDT)
Description	This package allows OPD to move it's final two contracts from a flat-fee contract to an hourly contract; the move will complete the recommendation from the 2021 Audit recommending hourly contracts and supervision.
Summary	
Justification	RCW 13.34.212 requires the appointment of an attorney for children 12+ who are the subject of dependency proceedings. The State Office of Public Defense contracts with local attorneys to provide lawyers for parents and children under 12. Snohomish County is required to pay for the representation for children 21+. OPD is currently funded to contract with lawyers to represent youth between 12-16 who are the subject of a child dependency action. OPD currently has two lawyer contracts for \$75,000 annually regardless of the number of cases accepted. OPD also has three lawyer contracts for hourly work at rates that differ from the flat-fee contract. OPD is moving to a competitive rate of \$125.00 per hour for all contractors. OPD projects additional \$50,000 for the biennium. The current preloaded budget for this representation is \$239,000.00 for 2025. Based on current billings, OPD predicts a minimal increase in costs and asks for an additional \$25,000 per year to cover increase in cases and attorney billing patterns.

Change Request Summary

Department: 0032 - Office of Public Defense
 Change Request: AUTO - 182 - OPD-Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 01:01 PM (PDT)

OPD proposes this reduction at the Executive’s request. OPD proposes to cut \$321,950.00 for the biennium and ask for forgiveness for the remainder of the budget reduction request. OPD proposes reductions from the following programs:
 The 2024 budgeted amount for Guardianship expert witness Fees is: \$30,900
 The 2024 budgeted amount for Minor Respondents in CPOs is: \$37,500
 The 2024 budgeted amount for Petitioners in CPOS is: \$92,575
 ANNUAL TOTAL:\$160,975

Description: DESCRIPTION:
 OPD has been asked to propose an annual 3% budget reduction. Three percent of OPD’s budget for the biennium is \$979,394.00. Because a majority of OPD’s resources are devoted to Constitutionally required services, it will be impossible for OPD to cut a million dollars from our budget without cutting our entire staff. The Snohomish County Office of Public Defense (OPD) manages the assignment of counsel for all offender and non-offender cases where the right to counsel attaches. This includes assignment of counsel in adult and juvenile criminal cases, juvenile offender cases, misdemeanor appeals and writs, child support enforcement contempt proceedings, and therapeutic courts. Representation in these cases is Constitutionally mandatory and cannot be cut without risk of legal exposure for violating the litigant’s rights.
 It is important to keep in mind that OPD does not drive its workload. Our office is responsive, and must meet the demands of case filings and associated legal mandates, including caseload capacity, expert services programs, and requiring that attorneys not take more than a maximum number of cases per year.
 Because OPD does not drive its workload, we cannot predict caseload filings. OPD continues to work diligently to use County dollars effectively and efficiently. However, a defendant has a right to counsel at all critical stages of a proceeding. This means that from the time charges are filed, a defendant who qualifies for counsel has a right to counsel at public expense. Improperly administered and monitored systems are what caused Grant County and the cities of Mount Vernon and Burlington to be found liable for failure to meet their constitutional mandates.
 OPD proposes cutting \$160,975.00 annually from it’s budget by cutting all funding from all of its non-Constitutionally mandated programs. The only non-Constitutionally mandate programs are representation for petitioners and youth respondents in No Contact Order cases and expert services for Guardianship cases.

Change Request Summary

Department: 0032 - Office of Public Defense
 Change Request: AUTO - 318 - OPD-Electronic Home Monitoring (EHM)
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:56 PM (PDT)

Description
 This package seeks \$300,000 for two years to continue the pilot project for pre- and post-trial Electronic Home Monitoring (EHM). In 2023, Council approved \$150,000 into OPD's expert services DAC to provide electronic home monitoring services to indigent defendants who were court ordered to be placed on home monitoring. Snohomish County previously had an in-house program for EHM, housed in Corrections, that was discontinued in 2012 through budget reductions. Council's appropriation followed years of court orders to the Office of Public Defense to fund EHM through our expert services program. Since the appropriation, OPD has worked with the Courts, public defenders, and probation to streamline a process for funding EHM and the implementation has gone off without a problem. The projected funding appears to be on target for need. The beneficiaries of this program are those indigent accused who are ordered to be on EHM and who cannot otherwise afford it. Without this program, a number of residents would have to spend their pretrial time in custody and away from their family and employment. Others use these funds to serve out their jail sentence through home detention monitored through EHM services. OPD is proposing this package with the knowledge and support of District Court. OPD believes the Court will also support this package.

Summary
 Accused persons have a Constitutional right to counsel based on the Washington and Federal Constitutions and relevant caselaw. Included in the right to counsel is the right to access the services of expert witnesses at public expense when the expert will materially assist counsel in representing the defendant's case. Judges have been ordering OPD to pay for these services under the legal theory that these EHM providers are experts who are assisting in the resolution of the case(s). Regardless of whether this service is funded, OPD will be required to comply with any court orders ordering OPD to pay for these services.

Change Request	AUTO - 322 - Hydraulic Autopsy Tables
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 25, 2024 10:59 AM (PDT)
Description	We are requesting funding to replace our current non-hydraulic autopsy tables.
Summary	Exec Rec: companion CR#410 for ME hydraulic autopsy tables to be purchased in biennium utilizing Facilities F316 funding. Funds were removed here, and are previously appropriated in Fund 316.
Justification	Hydraulic autopsy tables allow for the tables to be raised, lowered, and titled. This allows for better ergonomics when performing autopsies and allows people of different heights to adjust the table height as needed. Tables are currently around \$9,000 each. We request \$27,000 (each year) to purchase 3 new hydraulic tables, for a total of 6 new tables over 2 years.

Change Request	AUTO - 38 - Invitae Genetic Test Funding
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:22 PM (PDT)
Description	We request funding to DAC 0025333204170 to cover the cost of occasional genetic testing on decedent's where the doctor deems the genetic testing necessary to determine the cause and manner of death.
Summary	
Justification	We request \$30,000 funding to DAC 0025333204170 to cover the cost of genetic testing on decedent's where the doctor deems the genetic testing necessary to determine the cause and manner of death. Cases where the cause of death cannot be determined solely from an autopsy and toxicology testing often require genetic testing. The cost of genetic testing has increased significantly and therefore we would like to allocate funds dedicated to those costs.

Change Request Summary

Department	0033 - Medical Examiner
Change Request	AUTO - 219 - NMS
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 25, 2024 10:06 AM (PDT)
Description	We request funding to DAC 0025333204168 in order to fund NMS Toxicology Testing.
Summary	Recommended includes an additional \$50,000, using revenue from an I/F transfer from Fund 100 Opioid Fund.
Justification	We request \$30,000 funding to DAC 0025333204168 in order to fund NMS Toxicology Testing. We must use NMS services for rapid toxicology tests as the state (WSP) toxicology lab has turnaround times which threaten our accreditation which is required by law (RCW 36.24.210). Given that overdoses in the county continue to rise, we are forced to send more and more tests to NMS every year. The 124 CDMH funds \$103,350 of the NMS testing (maximum allowed by the 124 CDMH fund) but we have additional expenses from NMS that must be covered.

Publish Date	Jul 09, 2024 10:43 PM (PDT)
Description	We request an increase in DAC 124502333204128 to fund NMS Toxicology Testing to the extent allowed of 3.35% per year.
Summary	
Justification	We request a \$3,350 increase in DAC 124502333204128 to fund NMS Toxicology Testing (per the extent allowed of 3.35% per year). This would make the DAC funded at a total of \$103,350.00. We continue to utilize NMS for rapid toxicology testing. Given that the rate of fatal overdoses in the county continues to rise, we are forced to send more and more tests to NMS every year. We must use NMS instead of the state lab on cases where toxicology is concerned as the state lab's (WSP) turnaround time would threaten our RCW mandated accreditation (RCW 36.24.210).

Department: 0033 - Medical Examiner
 Change Request: AUTO - 371 - Personnel cost contingency
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 17, 2024 11:48 AM (PDT)
 Description: This request is intended to cover expected 3% COLA increases for our employees funded by the 124 fund.
 Summary: Recommended changed COLA calculation to corrected amounts.

For 2025:

 Danielle Renshaw
 58838 = total salary + benefits
 3% of 58838 = 1765.14

Kate Hagan 75% 124
 116088 total salary + benefits
 75% of 116088 = 87066
 3% of 87066 = 2611.98

Desiree Marshall 60% 124
 360499 = total salary + benefits
 60% of 360499 = 216299.4
 3% of 216299.4 = 6488.982

1765.14+2611.98+6488.982 = 10,866

For 2026: Assuming a slight increase over 2025, so estimating at \$11,200.

Change Request	AUTO - 28 - Resource Alignment
Change Request Type	Resource Alignment
Change Request Status	Executive Recommended
Publish Date	Jul 30, 2024 03:38 PM (PDT)
Description	The Executive recommended reducing the Resource Alignment by 50%.
Summary	The Medical Examiner's Office is asking for forgiveness of the 3% resource alignment. The Executive recommended reducing the Resource Alignment by 50%
Justification	We are a small office that performs state mandated duties. Our budget is already very tight and a resource alignment would have a significant impact. The department still intends to make its best effort to create savings that can be returned at the end of the year, but it may be difficult to do so. Not having the pressure of a required savings would be appreciated, though savings will still be prioritized.

Change Request Summary

Department	0036 - Superior Court
Change Request	AUTO - 53 - Accessibility (ADA) Specialist - Project Position
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 12, 2024 02:20 PM (PDT)
Description	The Court requires an additional FTE to provide this federally mandated service to the public.
Summary	<p>Title II of the Americans with Disabilities Act (ADA) and State Court General Rule 33 (GR 33) require Superior Court to provide accommodations to make each court service, program or activity readily accessible to and usable by a person with a disability. This includes 'making reasonable modifications in policies, practices, and procedures' (GR33(a)(1)(A)) as well as 'furnishing, at no charge, auxiliary aids and services, including but not limited to equipment, devices, materials in alternative formats, qualified interpreters, or readers...' (GR 33(a)(1)(B)).</p> <p>The intent of the ADA and GR 33 are to provide individuals with case and person specific accommodations. This means that each request is accompanied by a unique set of circumstances and no two accommodation requests or approvals are exactly the same. Additionally, in a litigation setting, where the Court must remain fair and impartial, Title II accommodation requests must be viewed with an additional lens to ensure the accommodation does the prejudice the other party(ies).</p> <p>Title II of the ADA requires that any state or local government that has 50 employees or more is required to designate at least one employee responsible for coordinating compliance with the ADA and investigating ADA complaints. Given the Court's unique requirements under the ADA and GR 33, it is important that the Court maintains its own trained and specialized ADA specialist to ensure compliance. Five years ago, the Court received less than 20 requests for accommodation each year and was able to assign this responsibility to an existing employee within its current governance structure. The Court has seen an average increase in requests for accommodation of 27% each year for the past five years. In 2023, the court received 51 requests for accommodation. Based upon the current volume of requests in 2024, the Court is projected to receive 96 accommodation requests this year. It is estimated that each accommodation request requires at least one week to resolve, while more complicated or unique requests can take several weeks to address. The staff that is currently designated as the ADA Specialist under Title II of the ADA can no longer absorb the frequency and breadth of these requests within their current role.</p> <p>The Court requires an additional FTE to provide this federally mandated service to the public. The Court must remain able to respond to requests on short notice to avoid unnecessary delays in case management and resolution. If the Court cannot respond to and accommodate requests under the ADA on short notice, it will create unnecessary barriers to resolution for the parties seeking relief. Additionally, the U.S. Department of Justice Civil Rights Division recommends that the ADA specialist has adequate time to address accommodation requests as well as familiarity with government structure and activities, all ADA laws and rules, alternative formats and technologies that enable people with disabilities to communicate, participate and perform tasks, local disability advocacy groups, experience working with people with a broad range of disabilities and skills and training in negotiation and mediation. Without dedicated accessibility staff, the Court is unable to meet these requirements. ADA Best Practices Tool Kit for State and Local Governments</p> <p>The Court is also aware that the U.S. Department of Justice Civil Rights Division has published a notice of proposed rulemaking that would require the Court to adopt the Web Content Accessibility Guidelines (https://www.w3.org/TR/WCAG21/), comply with the technical standards for web content and mobile apps, and comply with the technical standards for all digitally accessible forms and documents. For a government entity of our size, the Court would only have two years to comply with these guidelines after publication of the final rule. The Court currently maintains vast amounts of web content and hundreds of digitally accessible forms and documents. The work required to update and comply with the proposed accessibility guidelines must begin now.</p> <p>In order to comply with federal law, the court must be afforded a 1.0 FTE dedicated to accessibility accommodations and requirements.</p>

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 55 - Additional Accounting Specialist
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 02:22 PM (PDT)
 Description: This request provides additional support to the Court's finance team.

Summary

The fiscal functions performed within the finance division of The Superior Court have increased in number and processing time. This increase has placed a significant strain on the daily completion of the Court's fiscal duties, up to and including processing invoice payments past 30 days. Since 2020, the Court's invoice count has increased by 65%, which translates to the processing of 5,545 more invoices in 2023 versus 2020. The recent upgrade to the County's financial system has also impacted the Court's fiscal staff in two ways:

1. The average processing time of our Accounts Payable items has increased by 35% with the additional mandate to upload each payment's source of backup into the program. This additional step has our staff manually importing these documents, which is an added process since the upgrade.
2. Due to the upgrade and its requirement for electronic approval routing, the task of processing the thousands of Jury Payroll payments has been reassigned to the Court's fiscal staff. This process has been a partnership between the Clerk's Office and Central Finance, but now, it includes the Superior Court. The additional work associated with processing Jury Payroll has made a tremendous impact to the Court's fiscal staff. Our time and effort study has indicated an additional work increase of up to 4 hours per week, which reduces the overall capacity of our staff by 10% each week.

The volume of financial transactions processed by the Court has substantially changed in sophistication as well as time commitment, and this has placed a strain on the staff within the fiscal team. This strain has had a recognizable impact to the number of tasks our staff can complete each week as well as hindered our ability to provide our community partners with timely payment. The most significant impact has been with our employees as they have been challenged with providing the same work results while being impacted by volume increases as well as added entry and reporting requirements.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 57 - Additional Juvenile Detention Officers
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 02:18 PM (PDT)
 Description: This change request adds two new Juvenile Detention Officers.
 Summary:

Overtime in secure detention continues to be a large annual expense. There are many reasons for this including:

- The availability of WA PFML to staff, allowing up to three months off annually while being paid by the state. An analysis shows that since 2020 when WA PFML started, it has been used 34 times by 19 JDOs. While we believe this benefit is impacting all coverage needs across the county, this has a disproportionate impact on the detention facility as a 24/7 operation with no ability to work remotely.
- Our aging workforce is taking more medical leave for themselves and is doing more caregiving for elderly family members. They additionally have robust leave banks (in addition to WA PFML) that require coverage needs.
- The types of youth in our facility have changed: there are longer stays, more class A violent youth, many with mental health needs and drug use, and a high number of keep separates resulting in needing more staffing for keeping additional units open and the inability to run at a lower rate of staff when call outs occur.

Justification: By adding two additional JDO positions, there will be more robust regular staffing coverage and more unexpected absences will be covered without incurring overtime costs. In 2015 we had 46 detention officers, in 2018 we had 39, and in 2022 we had 31. We attempted to find temporary/on call people to fill in as needed, however, we are unable to find anyone willing to take the on-call position. The preliminary 2023 year-end budget report shows we spent \$370,083 in JDO overtime last year, exceeding our overtime budget by \$70,083. While we recognize that we still have a high staff to youth ratio, due to the building being built to house upwards of 100 youth and contract agreements with language that supported operations of this large and populous facility, we are limited in how we can repurpose staff without compromising safety, missing posts or breaching contract language.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 58 - Additional Juvenile Probation Counselors
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 02:28 PM (PDT)
 Description: The change request will provide two additional Probation Counselors.
 Summary:

Justification:

- Caseload sizes have steadily increased over the course of the last year.
 - o Current average number of youth per caseload: 36-40 youth
 - Numbers have remained steadily in this range since October 2022. January 2024 average number of youth per caseload is up to 42.
 - o We have 5 JPC's (2 Classification, 1 Truancy, 2 ARY/CHINS) who historically have not carried official caseloads. They are all carrying cases currently to ensure youth needs are being met. This keeps us from serving ARY/CHINS, Truancy and detention youth to the extent we would like.
 - o These caseload numbers coupled with the increase in workload now required per case (see below) are resulting in extraordinarily high workloads, even for very experienced JPC's.
- Pre-Adjudicated Cases: JPC's are now supervising far more pre-adjudicated youth and for longer periods of time than ever before. Because youth are being released from detention that would have historically have been held in detention, JPC's are supervising pre-adjudicated youth with very high needs who are much higher risk than in the past.
- Diversions that historically were only offered to low-risk youth with a limit to the number of diversions each youth could receive has changed. Youth are now eligible for unlimited diversions for up to a year each and these are offered to moderate/high risk youth with felonies.
- Increased CMAP-MI Requirements: The State no longer requires JPC's to complete just one level of certification to be compliant with CMAP-MI requirements. JPC's must now pass three different certifications with more possibly to come. The requirements for what is now required as part of this process benefits youth and works to decrease recidivism. The trade-off is that it takes more time to prepare and execute efficiently. Training needs to ensure JPC's are skilled enough to deliver this effective approach has also increased, adding to workload.
- Increased Filings: Snohomish County is the only county in WA that did not experience a decrease in offender filings during COVID. Snohomish County experienced and increase in filings and this trend has not decreased. We are seeing an increase in firearms, felony vehicle theft and other serious offenses that pose a danger to the community, yet we are typically not incarcerating these youth for extended periods of time.
- Most other counties in Washington have a standard 9-month community supervision range, but we have kept a 6-month community supervision standard. We need to move to a 9-month community supervision standard in order to meet the needs of the community and youth, but this will further increase caseload size.
- JPC's in Snohomish County are actively involved with the court process, per RCW guidance. This takes up additional time compared to the ways in which other counties may allocate time.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 44 - CART Services (Communication Access Realtime Translation)
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:37 PM (PDT)

Description: This change request provides funding for required services for translation mandated by the Americans with Disabilities Act, General Rule 33 as well as RCW.

Summary: Title II of the Americans with Disabilities Act and State Court General Rule 33 require Superior Court to provide accommodations to make each court service, program or activity readily accessible to and usable by a person with a disability. This includes 'furnishing, at no charge, auxiliary aids and services, including but not limited to equipment, devices, materials in alternative formats, qualified interpreters, or readers...' (GR 33(a)(1)(B)).

Justification: Communication Access Realtime Transcription (CART) services have been required as an accommodation for deaf or hard of hearing parties to access court proceedings with increasing frequency over the past two years. CART services must be provided by a CART certified reporter or by a qualified interpreter as designated by the office of deaf services (RCW 2.42.130). Without dedicated funding for this purpose, the court spent \$18,881 on CART services in 2023.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 45 - Coordinated Therapeutic Response Project
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 15, 2024 11:48 AM (PDT)
 Description: Request for funds to continue the Coordinated Therapeutic Response Project
 Summary:

Justification: In October 2022 the Center for Justice Innovations (CJI) completed a needs assessment of the Snohomish County therapeutic court/programs and justice system. The assessment reviewed the current state of programs, process, and eligibility criteria and identified areas in need of development to accelerate the assessment of behavioral health needs, referrals to therapeutic programs, and support cross-system collaboration. In 2023 CJI was awarded the Coordinated Therapeutic Courts Project Contract to coordinate a strategic and implementation plan for coordination of services for therapeutic courts and programs. These services will be used for enhanced cross-system collaboration within the criminal justice system and to accelerate the identification of behavioral health needs and referrals to therapeutic courts and programs. In January 2024 the project coordinated a Sequential Intercept Model Workshop to identify resources and gaps along the intercept points from community to prison re-entry. The project's next phase is engaging in stakeholder conversations for strategic planning. The project began in July 2023 and the projected end date is June 2025. The two-year project contract with the Center for Justice Innovations is for \$225,000. Funds of \$50,000 were allocated for 2023 and \$150,000 for 2024. As of February 2024, the project's total expenditure is \$30,000. The request is for the allocation of funds in the 2025 budget for the continuation of the project through June 2025.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 46 - Drug Testing
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:24 PM (PDT)
 Description: Increased costs of required drug testing for participants within Recovery Court.
 Summary:

Justification: All Rise (FKA: National Association of Drug Court Professionals) produced the Adult Drug Court Best Practice Standards through years of research by national experts. The standards provide courts the statements on the core principles of best practice, observable and measurable best practice recommendations, and research commentary and evidence-based guidance on how to implement them in the day-to-day operations. The best practice provides recommendations for drug and alcohol testing that provides accurate, timely, and comprehensive assessment of unauthorized substance use while in a treatment court. Snohomish County Adult and Family Recovery Courts' drug and alcohol testing procedures adhere to the best practice guidelines for providing frequent, random, observed, validated, accurate, and reliable testing. As drug trends evolve, so must the response to drug testing. The opioid crisis has evolved the Recovery Court's drug testing practice and increased testing costs. The additional testing in response to the opioid crisis is essential in providing accurate and timely results to assess the therapeutic needs of a participant. A drug testing panel including Fentanyl increases the costs by 20%. The impacts of the pandemic and inflation rates have increased drug testing collection rates by 50%. The Recovery Courts have been able to absorb the increase in drug testing costs due to a lower program census from the impact of the pandemic. The Recovery Courts censuses are increasing and projected to be pre-pandemic numbers in 2025. Sustaining adherence to best practice standards will not occur without an increase in funding to match the increased costs for testing and inflation.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 52 - Electronic Home Monitoring - Juvenile Court
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:22 PM (PDT)
 Description: This change request provides funding to establish an electronic home monitoring program for Snohomish County Juvenile Court.
 Summary:

Justification: Preserving community safety while balancing the rehabilitation of juveniles is a core value of our Juvenile Court. Our Juvenile Court is committed to using detention as a last resort whenever a youth is unable to be safely managed within the community. Intermediate options that are available to our Juvenile Court Judges are essential in limiting the use of detention. Electric home monitoring (EHM) provides an intermediate option for youth to stay in their community while being monitored and held accountable to conditions of release. Our Juvenile Court is interested in providing this service in order to continue limiting the use of detention and finding alternative ways to safely manage youth in our community.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 47 - GAL/CV Rate Increase
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:40 PM (PDT)

Description: Hourly rate increase for appointed Guardian Ad Litem and Court Visitor.
 Summary: Exec Rec - Increase hourly rate and absorb by utilize historically unspent allocation in CV line item.

Justification: In the past 3 years, we have lost 61% of our county-pay GALs and CVs.
 Guardians Ad Litem (GALs) and Court Visitors (CVs) are appointed at public expense for parties determined to be indigent. GALs and CVs perform the difficult and important task of safeguarding the wellbeing of children and vulnerable adults. Our GALs and CVs provide a voice for those who cannot speak for themselves, strengthening our community by safeguarding families and defending people from unwanted/unjustified guardianships. Following the implementation of Chapter 11.130 RCW in January 2022, the court is statutorily required to appoint CVs in most guardianship cases that are filed. GAL and CV appointments at county expense are no less important than those compensated at the much higher, private pay rates. Currently, the court is experiencing record lows in the number of GALs and CVs on county-pay registries. In fact, there are only 3 active GALs for minor guardianship cases in Snohomish County. County pay rates for compensation are low. Title 26 GALs are compensated at \$65 per hour, title 11 GAL/CVs receive \$50 per hour. Comparatively, King County pays both Title 26 and Title 11 GALs \$70/hour. Superior Court’s rates have not been enough to retain people on our county registries. Currently, we don’t have enough Title 11 GALs or CVs to fill the needs and cases are languishing while waiting on an appointment. We have also experienced periods where there are not enough Title 26 GALs to meet the needs of family law cases. Many former GALs and CVs have cited poor compensation as a determining factor for removing themselves from our registries. The individuals that are still willing to take county pay cases are providing their services despite the low compensation, essentially as an act of subsidized public service. An increase in rates must be considered if we are to retain the GALs and CVs that are willing to engage in this statutorily mandated work.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 355 - Increase is CDMH fund
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:22 PM (PDT)

Description: This change request updates the reimbursable salaries and benefits of those employees who expend time and effort supporting the goals and programs of the CDMH fund.

Summary: It has been several years since the Court has updated it's time and effort expended on serving the County's population who are involved with programs/services/casework which fall within the scope of the CDMH fund. As the County's population grows, so does the number of participants. Over the past several years, we have witnessed an above average growth of the number of programs and cases our staff support for the community.

Justification: Since 2019, the Court has experienced a 26% increase in the number ITA cases bringing a total caseload of 1665 to 2100 and we project this number will continue to grow over the next several years.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 396 - Interpreter Budget Increase
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:35 PM (PDT)
 Description: This change request will fully fund the Court's expenses for legally mandated interpreter services.
 Summary:

Justification: Under Chapter 2.42 RCW and Chapter 2.43 RCW, Title VI of the Civil Rights Act of 1964, the Omnibus Crime Control and Safe Streets Act of 1968, the Americans with Disabilities Act (ADA), and the regulations implementing these federal laws, Washington courts are required to provide language access services to all Limited English Proficient (LEP) and Deaf, Hard of Hearing and deaf-blind (D/HH/DB) individuals. Snohomish County Superior Court is committed to providing quality and timely foreign and sign language interpreter services to LEP and D/HH/DB parties, witnesses, victims and others with a legal interest such as parents, legal guardians or custodians in all court proceedings and operations, both civil and criminal.

The cost of and demand for interpreter services has increased exponentially in the last few years. So far in 2024, Superior Court has experienced a 45% increase in the frequency of paid interpreter assignments and services, as well as a 57% increase in cost over the prior year. Snohomish County Superior Court cannot absorb this impact within the appropriated budget. An increase in the funding for interpreters services is imperative to ensure all court users have equal access to justice.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 48 - Mileage Reimbursement for Court Interpreters
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:36 PM (PDT)
 Description: Provide Court Interpreters reimbursement for mileage traveled to perform interpreting services.
 Summary:

Justification: Snohomish County Superior Court and District Court have a shared payment policy for court interpreters. This shared policy prevents Superior and District Courts from competing with each other for interpreter services. Currently, the travel payment policy for interpreters provides reimbursement for one-way mileage from residence or previous job location to the assignment location. District Court has indicated they would like to change the travel portion of the payment policy to provide round-trip mileage reimbursement to in-person interpreters. This change to the policy would make Snohomish County more competitive with surrounding courts. In-person interpreters are still required for many types of court hearings, including trials, where remote services are not a reasonable or acceptable substitute. In 2023, Superior Court paid for almost 21,000 miles. The cost of this increase cannot be absorbed by the current budget for interpreter services.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 56 - Nursing Services
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:26 PM (PDT)
 Description: This change request will provide funding to fully cover the costs of providing mandated nursing services to the youth in detention.
 Summary:

In 2023, we switched from having two staff RNs and a contracted ARNP, to using all contracted medical staff. The budgeted salary and benefit amounts for the two staff RNs was reallocated moved to the professional services budget to pay for the contracted medical staff. At year end, we found that Medical Services costs were much higher than our budget; the total expenditure for 2023 was \$319,546. When the Court moved to contacted medical staff, the budget was set based on having licensed practical nurses (LPN) at \$72.73 per hour. The agency we use cannot find any LPNs, and per their report, LPN training programs have been phased out in this region in favor of RN programs. As a result, Registered Nurses (RN) cost us \$109.09 an hour. When the agency cannot find us coverage from an RN, detention supervisors have to consult our on-call Advanced Registered Nurse Practitioner (ARNP), at a rate of \$202/ per hour, 2.5 times the rate in our budget for LPN coverage. The agency has also sent an ARNP to cover onsite needs when no RN is available.

Justification: Additionally, reducing staffing hours or moving to a split shift to reduce costs results in the inability to get coverage. Nursing is an incredibly competitive field that has opportunities for nurses that often provide superior pay, experience and growth opportunities than contract positions in our facility. Even with increased costs, we are struggling to maintain consistent coverage.

\$109.09/hour x 2080 hours x 2 RN positions = \$453,814
 4 hours/week ARNP x \$202/hour x 56 weeks = \$45,248
 Total cost of nursing = \$499,062
 Current nursing appropriation - \$300,000
 Difference = \$199,062

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 51 - ProTem Protection Order Case Preparation Pay
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 10:22 PM (PDT)
 Description: This change request provides funding for the Court's Pro Tem Judicial Officers time preparing for protection order cases.
 Summary:

Justification: This request pertains to additional time for pro tem judicial officers to prepare for Protection Order matters. Our court commissioners require coverage whenever they are away from the office. The coverage is provided by qualified and approved attorneys that functions as pro tem judicial officers. These pro tem judicial officers will provide coverage for various types of court calendars including Protection Order proceedings. Protection Order matters are becoming much more complex and the amount of proceedings is also increasing. The evidence that is being presented in support or against a Protection Order request requires more time to review prior to hearing. We provide compensation for pro tem judicial officers to prepare for hearings, but the current amount is inadequate for Protection Order matters. We are requesting resources to support 1.5 hours of additional preparation time for pro tem judicial officers to review Protection Order matters before hearing. We are not requesting additional resources for review of any other type of proceeding at this time. This request applies solely to preparation for Protection Order matters.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 49 - Recovery Court Housing Support
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:25 PM (PDT)
 Description: Provide housing support for those participating in Recovery Court.
 Summary:

The Adult and Family Recovery Courts' purpose is to reduce recidivism, increase child safety, and reunite families by providing therapeutic and legal services for adults affected by substance use disorder and involved with the criminal justice and child welfare system. All Rise (FKA: National Association of Drug Court Professionals) produced the Adult Drug Court Best Practice Standards through years of research by national experts. The standards provide courts the statements on the core principles of best practice, observable and measurable best practice recommendations, and research commentary and evidence-based guidance on how to implement them in the day-to-day operations. Best Practice Standards reports increasing a person's Recovery Capital has been shown to produce significantly longer intervals of drug abstinence, less crime, and fewer legal and psychiatric problems. Recovery Capital is a person's physical capital (basic human needs, housing, transportation), social capital (person's support relationships) and community capital (access to services, pro-social activities, mentorship). The Recovery Courts assess a person's Recovery Capital throughout the program and provide services to increase Recovery Capital to produce better outcomes for sustainable recovery. The services include housing support at sober residences and recovery support services for clothing, household goods, education, and essential needs. A Recovery Court housing voucher provides 6-month rental assistance (3 months 100%, 1 month 75%, 1 month 50%, 1 month 25%) to a state-certified sober residence, Oxford Housing, and program-approved recovery residence. The recovery house rent has continually increased over the last two years. The average housing voucher is \$3,800 per participant. The funding request would support 10 vouchers in the Adult Recovery Court and 4 vouchers in the Family Recovery Court, plus additional funds for recovery support services.

Change Request Summary

Department: 0036 - Superior Court
Change Request: AUTO - 60 - Spanish Staff Interpreter
Change Request Type: Standard Change Package
Change Request Status: Executive Recommended
Publish Date: Jul 12, 2024 02:31 PM (PDT)
Description: This change request adds a Spanish staff interpreter to the Court.
Summary:

Superior Court provides thousands of hours of Spanish interpreting services for litigants in court proceedings or activities each year. Approximately 65% of the Court's interpreter budget is spent on Spanish interpreting services alone. In recent years, Superior Court has scheduled Spanish interpreters for approximately 1,200 assignments and paid out an average of 8.73 hours per day. From 2022 to 2023, the Snohomish County Court System's need for Spanish interpreting services grew by 18.6%. The law requires our Court to use court certified interpreters whenever possible and parties routinely object to the use of uncertified interpreters. These challenges can result in delays to various proceedings, particularly trials. State court rules require that any court activity lasting longer than 1 hour, including trials and extended hearings, have two interpreters for in order to prevent interpreting fatigue. The court must manage the need for interpreters in trials as well as non-trial proceedings throughout 23 courtrooms. Our court has often had difficulty in securing enough state certified interpreters to fill every need each day, resulting in unnecessary delays. In addition to interpreter needs in the courtroom, we are seeing an increasing need to provide interpreter services outside the courtroom. Providing access to justice includes our ability to help non-English speaking individuals before they ever reach the court room.

We believe this position will provide flexibility in scheduling interpreting services for many non-trial proceedings. We expect to realize increased cost effectiveness, fewer scheduling arrangements, and increased availability for the interpreter community to cover trials. In addition, the staff interpreter will provide document translation services, increasing language access for pro se LEP parties. A staff interpreter will assist the court in producing and maintaining Spanish translations of all local court forms, provide walk-in and ad-hoc services for sight translation of English forms and for translation of Spanish materials submitted to the court for review. The staff interpreter would also be able to provide consistent services for Spanish speaking parties involved in therapeutic courts, improving the therapeutic relationship and increasing access to these programs. Currently, the court must pay a two-hour minimum to certified interpreters even if the hearing only lasts 20 minutes. By utilizing a staff interpreter and translator, we can better use county funds for the remainder of that two-hour payment, while providing expanded access to court services for the Spanish-speaking community. Additionally, with the prevalence of remote hearings in courts across the country, the Court is now competing with other states, counties and municipalities for credentialed interpreters. Pierce County Superior Court has raised their rates to \$75 an hour, which in turn will cause surrounding courts to do the same. These cascading increases to remain competitive cannot be absorbed within the court's current budget. Compared to the first quarter of 2023, Superior Court has experienced a 45% increase in the frequency of interpreter assignments and a 57% increase in cost. The Court estimates that a Spanish interpreter would be able to cover at least 550 hours currently attributed to non-trial hearings. This means that interpreter services expenditures of approximately \$35,750 would be absorbed by the duties of the staff interpreter. Additionally, this position decreased the amount the court needed to request for translation of documents.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 50 - Superior Court Commissioner Coverage
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 12, 2024 12:26 PM (PDT)
 Description: Provides appropriate funding to cover accrued leave time for all Superior Court Commissioners.
 Summary:

Justification: The Courts extra help appropriation is spent on pro tem coverage for court commissioners' personal leave, which will total 180 days in 2025 and 2026. Our current appropriation for pro tem commissioners does not meet this need for coverage. The 2023 appropriation for extra help was \$103,073. The cost of providing coverage for the six Superior Court Commissioners totals \$158,020 (8 hours per day x 210 days x \$94.06/hour). This amount reflects the Court's actual cost to provide commissioner coverage for personal leave. These costs are necessary to cover the personal leave that the Commissioners are entitled to take on a yearly basis. The volume of their calendars requires Pro Tem coverage in their absence. The Court has made significant changes to our Commissioner calendars in an effort to consolidate and reduce the need for coverage. There is no capacity for additional consolidation or further adjustment at this time. We will continue to implement principles of effectiveness wherever possible, and we request the commensurate amount of funds to cover personnel leave.

Change Request	AUTO - 99 - Superior Court initiated reclass - Judicial Services Lead
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 05:54 PM (PDT)
Description	Reclass Judicial Services Lead as a result of reclassing Judicial Coordinators
Summary	
Justification	As a result of reclassing the Court's eight Judicial Coordinators, this action created a classification issue whereby the supervisor was classified at the same rate of pay as their direct reports. This change request will correct this issue by increasing the Lead position one step above their direct reports.

Change Request Summary

Department 0036 - Superior Court
Change Request AUTO - 101 - Superior Court initiated reclass - Legal Process Assistant II
Change Request Type Position Adjustments
Change Request Status Executive Recommended
Publish Date Jul 29, 2024 05:16 PM (PDT)
Description This change request will reclass the Court's four Legal Process Assistant II positions.
Summary

Justification Our Legal Process Assistant II (LPA II) positions support important probation functions and court operations within our Juvenile Court Division. This group is deserving of reclassification. The duties of this unit have evolved significantly since the inception of electronic files and further integration of technology into their responsibilities has consistently happened since the pandemic. Their roles have changed in such a way that we believe a reclassification is necessary at this time. Additionally, the same set of positions within District Court were reclassified in January 2022 but an oversight left our positions without any similar consideration. This is unacceptable and creates inequity between the District Court and Superior Court for the exact same position which perform the same set of duties without equivalent compensation. A reclassification of these positions should be conducted to correct this oversight. One additional position of Legal Process Records Coordinator is included within this work unit but performs slightly more sophisticated duties. This position will need to be increased one step above the LPA II reclassification.

Change Request Summary

Department 0036 - Superior Court
Change Request AUTO - 127 - Superior Court initiated reclass - Managers
Change Request Type Position Adjustments
Change Request Status Executive Recommended
Publish Date Jul 29, 2024 05:53 PM (PDT)
Description Reclass all Superior Court managers.
Summary

Justification The Snohomish County Superior Court Clerk’s Office employs several managers that are currently classified at pay grade 111. Our Superior Court managers perform the same types of managerial activities as their counterparts in the Superior Court Clerk’s Office, but some of our managers are classified at a pay grade of 110 and some of our managers are classified below a pay grade of 110. This current scheme creates both internal and external inequity. We are recommending that all Superior Court managers are reclassified at a pay grade 111 to create harmony with other manager positions across the County, including the Superior Court Clerk managers. This change will impact 5 positions in total. Those positions are the Recovery Court Manager, Casflow Manager, Programs Manager, Probation Manager and Detention Manager. If this reclassification is approved, this will have a cascading impact for other administrative positions within our leadership team based on our current pay structure. Our Technology Manager, Human Resources Manager and Budget Manager will need to be adjusted to a pay grade of 112. This will also result in the Assistant Court Administrators for Juvenile Court and Superior Court needing increase to pay grade 113.

Change Request Summary

Department 0036 - Superior Court
Change Request AUTO - 63 - Superior Court initiated reclass-Judicial Coordinators
Change Request Type Position Adjustments
Change Request Status Executive Recommended
Publish Date Jul 29, 2024 04:31 PM (PDT)
Description Reclass 8 Judicial Coordinator positions within Superior Court.
Summary

Justification
Judicial Coordinators perform pivotal work for our Superior Court operations. Their breadth of duties include confirmations, jury management, arbitration, interpreter coordination, trial scheduling, guardian ad litem organization and commissioner support. This group consists of 8 employees and also a Lead position. Their pay classification was set 24 years ago, but their functions and responsibilities have changed dramatically with the expansion of our court operations. Our Superior Court bench was comprised of 14 judges and 4 court commissioners in 2000 when the Judicial Coordinator salary was last established. The bench has grown by 3 judges and 2 court commissioners since that time. This increase in judicial officers has resulted in more support necessary for court operations. The Judicial Coordinators encompass this foundation of support for our court operations. Changing legislation, increased use of technology and expansion of operations over the last 24 years have resulted in a more complex and more sophisticated set of duties for the Judicial Coordinators. Additionally, there are equivalent counterparts throughout the County and within our Court that are paid higher than our Judicial Coordinators. Paralegals in the Prosecuting Attorney's Office and the Court Coordinator within our Juvenile Court division are currently classified at a pay grade 238. We are requesting that our Judicial Coordinators are paid at this same classification.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 519 - Superior Court IT Partner-FTR System
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:09 PM (PDT)

Description Summary: This is a partner package with IT Request #359 and provides continuing funding for an already established program for the Court's new FTR system.

Justification: FTR (For the Record) provided real time translation from spoken work to text. This is used in the courtroom as an accommodation for hearing impaired individuals as well as a backup when an official court reporter is not available. At this time, IT and the Court worked together to bring FTR online in three Juvenile courtrooms as well as two Superior Court courtrooms. Utilizing this system reduces the costs of providing a contractor to support the work of translating spoken word to text. In the future, the Court plans to implement FTR in several more courtrooms but at this time, the Court would like to request continued funding for what we have in place.

Change Request Summary

Department: 0036 - Superior Court
 Change Request: AUTO - 517 - Superior Court Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 04:01 PM (PDT)

Description: This change request addresses the resource alignment entered into the 2025/2026 pro forma budget.

Summary: Exec Recommended - restore 50%

The Court was given a resource allocation line of \$827,249 which equates to 3% of the overall budget in its general fund. As in years past, the Court will manage the resource allocation amount by offsetting it with increased revenues lines, salary savings by strategically managing attrition, and by eliminating the spending on selected line items.

The Court has always worked with the County to ensure our spending is inline with the basic business needs of the Court. As costs for basic business needs continue to increase, we have experienced shortfalls with the funding we receive from the County so this resource allocation amount for 2025/2026 biennium will compound the effects the Court will experience as a result.

Justification: The resource allocation will impact the Court’s business in the following ways:

- All travel for professional conferences attended for continuing education will be eliminated.
- All training will be eliminated.
- Specific budget lines that relate to medical supplies and hygiene for the youth in detention will be reduced as well as the reduction in supplies used in the performance of duty for our detention staff.
- We will strategically hold positions vacant when the Court experiences natural attrition and by doing so, services the Court provides will be impacted causing greater case backlog in both the Juvenile Probation division as well as regular Superior Court cases.
- The community’s access to the Court will suffer due to reduction in service as the Court is short staffed and the required budget cut will mandate a change in staffing as the Court cannot manage the reduction without impacting staff.

The Court respectfully requests the resource alignment amount be removed from it's budget as the impact is too great for the Court as well as the citizens of Snohomish County.

Change Request Summary

Department: 0037 - Clerk
 Change Request: AUTO - 444 - Clerk's Office Resource Alignment
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 31, 2024 02:23 PM (PDT)
 Description: Description on how the Clerk's Office intends to achieve the annual Resource Alignment reduction of \$292,527.
 Summary:

In our 2025 and 2026 Pro Forma budgets, we are tasked with meeting a Resource Alignment to achieve a 3% reduction in expenditures each year. We anticipate achieving the 3% reduction each year through salary savings.

Justification: The Clerk's Office has experienced a high turnover rate and many vacancies since 2021, with most of those vacancies in the Court Operations/Courtroom Clerk division. Several courtroom clerk positions continue to remain unfilled due to the limited number of experienced trainers and training opportunities available, as well as the extensive training involved to ensure clerks can work independently in a courtroom setting. This, combined with normal turnover and a limited pool of qualified applicants, has caused us to experience a higher level of vacancies than preferred. Each of the Clerk's Office FTE positions continue to be necessary to ensure we are performing our mandated duties while continuing to provide a high level of service to the community we serve.

The targeted reduction amount of \$292,527 per year is equal to approximately 3.2 FTEs. This equates to any cumulative combination of vacancies totaling 38 months to accomplish the necessary reduction. To help meet the 3% reduction, we will monitor vacancies, and, if needed, will delay posting vacant positions in order to achieve the intended reduction. Additionally, we will continue to manage all operational costs to ensure we meet the targeted budget reduction.

Change Request Summary

Department: 0037 - Clerk
 Change Request: AUTO - 445 - Salary Contingency 1/10 of 1% Sales Tax Funded Positions
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:06 PM (PDT)
 Description: Request to increase funding in Fund 124 (1/10 1% Sales Tax) to support recently bargained salary increases and COLAs for positions that perform mandated duties in Chemical Dependency / Mental Health cases.

Summary: Due to the increased salaries as a result of the recently ratified SCCA bargaining agreement, we are requesting Salary Contingency funds to support positions funded under Fund 124 - 1/10% of 1% Sales Tax. Additionally, the bargaining agreement allows for a COLA each year equal to the CPI-W ranging from 1%-5%. As a result, we are requesting salary contingency funding to support the anticipated 5% COLA increases each year.

Justification: The 2025 and 2026 funding for regular salaries in Fund 124 currently amounts to \$386,557. This amount is reflective of the 2023 wages prior to ratification of the 2024 SCCA labor agreement. After implementation of the 2024 labor agreement (effective date of 1/1/2024), salaries are estimated to be \$414,424. The salary contingency funding request for 2025 includes \$27,867 to cover the contracted regular salary increases plus \$20,721 for the anticipated 5% COLA increase in 2025. The salary contingency funding request for 2026 includes the same amounts requested in 2025 plus an additional \$21,757 to cover the anticipated 5% COLA increase in 2026.

The salary adjustment will also result in an increase in our personnel benefits, but we are prepared to absorb that increase in the 2025-2026 biennium.

Change Request Summary

Department: 0037 - Clerk
 Change Request: AUTO - 447 - Increase Position #CLK2009R from .5 FTE to 1.0 FTE
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Aug 06, 2024 02:53 PM (PDT)
 Description: Request to increase Judicial Process Assistant-DJJC position #CLK2009R from a .5 FTE to a 1.0 FTE to support the Clerk's Office Juvenile division at the Denney Juvenile Justice Center (DJJC).

Summary: The Clerk's Office Juvenile division has undergone significant changes and growth since 2021, evolving into a fully functional satellite office that is responsible for handling a variety of mandated duties with few FTEs.

Justification: In recent years, the volume of work and responsibility has grown due to Superior Court's decision to increase court calendars to five days per week while adding case types that are not typically heard at DJJC. The addition of calendars, on case types not typically heard at juvenile court, has affected all aspects of the DJJC Clerk's Office and has required clerks to expand their knowledge in order to comply with the Clerk's mandated duties. These changes have increased staff time needed to attend court hearings and trials, added a significant amount of time required to timely process and distribute court documents received for filing; added requirements and training for issuance of writs and letters of office in guardianship matters as well as processing civil protection orders, which includes scanning orders to law enforcement for entry into state and federal law enforcement databases and for service to parties.

While our office has already made several staffing changes to support this division and the considerable increase of work performed there, the need for additional staff support still remains. The current supervisor and lead of the division support all operations of the division but are currently assigned to line staff duties 100% of the time leaving little or no time for necessary lead/supervisor duties. In addition, the manager is also supporting line staff to ensure completion of mandated responsibilities and has provided all staff training and oversight to accommodate the increased variety and volume of daily workload.

The transformation of the Juvenile division within the Clerk's Office represents a significant step forward in enhancing the capabilities and efficiency of the office. To ensure the division's success, it is necessary to increase the .5 JPA position into a full-time position. This will not only accommodate the increased workload but also addresses the needed support to ensure timely compliance with the Clerk's mandated responsibilities.

Department	0037 - Clerk
Change Request	AUTO - 450 - Increase Position #CLK2212R from .625 FTE to 1.0 FTE
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Aug 06, 2024 04:45 PM (PDT)
Description	Request to increase Judicial Process Assistant (JPA) position #CLK2212R from a .625 FTE to a 1.0 FTE to support the Clerk's Office Court Services Protection Order division.
Summary	

Change Request Summary

The Court Services Protection Order division currently consists of 4.625 FTE. Pursuant to RCW 7.105, this division provides specialized information and assistance to victims of domestic violence, harassment, stalking, and sexual assault as well as vulnerable adults seeking protection from predators and for extreme risk protection orders. These services include receiving and reviewing civil protection order petitions for completeness prior to submission to a judicial officer for consideration; providing procedural information, court forms, and instructional materials to customers; responding to customer inquiries; scanning orders to law enforcement for entry into state and federal law enforcement databases and for service to parties; providing records research assistance to law enforcement; and providing assistance in preparation for the Superior Court protection order calendars. Staff also facilitate the court hearing process for all parties and the Superior Court bench.

Since the implementation of HB 1320 and SHB 1901 in 2021, the number of protection order petitions received and processed by the Court Services division has continued to increase year after year resulting in a 34% increase in April 2023 compared to April 2022; a 46% increase in May 2023 compared to May 2022; and a 57% increase in June 2023 compared to June 2022. The increase in petitions has resulted in additional phone calls, in-person inquiries, and emails from parties, law enforcement and attorneys. It is anticipated these upward trends will continue thereby placing a larger workload on staff each month.

The increase in petitions has naturally driven the need for additional court calendars to accommodate the growing amount of protection order cases. In September 2023 staff facilitated up to 10 court calendars each week. Effective February 2024 staff facilitate up to 14 calendars each week.

Additionally, RCW 7.105 applies stricter processing timelines than previously imposed (see RCW 7.105.105, .155 and .325). Staff are now mandated to receive and review petitions, submit for judicial review, send to law enforcement for entry and service, and provide copies to the parties on the same business day, if possible, but not later than the following judicial day. This places an additional burden on staff to complete intakes in the allotted time regardless of how many petitions are received in a single day.

Amendments to protection order legislation results in the Administrative Office of the Courts (AOC) amending the protection order court forms used daily in our office. The Protection Order office is mandated to provide forms to litigants which are available on the Clerk’s website, in person and through Legal Atoms, our electronic submission program. Providing the most current forms to victims is a vital part in filing for a protection order and amendments to forms are significant and can occur multiple times per year. In January 2024 AOC made changes to 16 existing protection order forms and created 3 new forms. It is estimated that the division Lead spent up to 40 hours applying these changes to the self-help packets taking time away from supporting line staff and helping customers.

For all the reasons listed above, the requested increase to a 1.0 FTE would help fill any gaps created by the continued rise in petitions received; would allow court services staff to effectively assist victims seeking protection orders while performing their mandated duties within the time constraints required under RCW 7.105 and would allow for continued support to the Superior Court bench.

Change Request Summary

Department: 0037 - Clerk
 Change Request: AUTO - 456 - Copier Lease and Service Contract
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 09, 2024 11:06 PM (PDT)
 Description: Request to Increase funding in DAC 002 537 231 4801 – Repair and Maintenance from \$7,000 to \$17,000
 Summary:

The Clerk’s Office has a fleet of 11 copiers whose service contract has expired and are currently on a month-to-month lease.

The county has two copier vendors that were awarded contracts through RFP-23-017LY. Under the new contract, replacement of comparable copiers under a new lease agreement plus 2 additional copiers will result in an annual increase of \$7,869. Two additional copiers have been added to our office to address business needs; one will be used by the courtroom clerk during high volume therapeutic court calendars, and the other copier is needed at our Denney Juvenile Justice Center office to facilitate copying and distribution of court orders to various law enforcement agencies. We made every effort to choose copiers that met our business needs without paying for unnecessary, costly options. But even with our careful selection process, we could not avoid the increased costs.

Justification

Our current copier Repair and Maintenance appropriations are \$7,000 annually. However, expenses applied to this DAC over the last 4-years have averaged \$16,171 annually; and expenses in FY2023 were \$20,596. Charges to this DAC include Copier Repair and Maintenance (\$15,000 annual average), as well as Repair and Maintenance for Time Clocks (\$4,000 FY2023) and Microfilm Readers (\$770 FY2023).

We have previously been able to absorb the extra costs in Repairs and Maintenance due to underspending in Rentals. However, with the increased costs for the Copier Lease, we will no longer be able to cover the overage with those savings. We are requesting an additional \$10,000 allocated to DAC 002 537 231 4801 – Repair and Maintenance to bring the total appropriation to \$17,000.

Description	Request to update the job description and for a salary reclassification from paygrade 107 to a paygrade 109 for the exempt Administrative Assistant position #2140 in the Clerk's Office. This request has also been provided to Human Resources through the reclassification request process.
Summary	<p>The original duties of this position were consistent with the current Administrative Assistant job description, but have evolved over time, requiring the need for an updated job description that accurately reflects the current scope of the job and identifies and emphasizes the qualities and skills needed for an executive level Administrative Assistant.</p> <p>Over the last 10 years, it has been necessary for the Clerk's Administrative Assistant position to assume and become knowledgeable in additional responsibilities surrounding human resource functions that include recruitment, onboarding, separation, benefits, and policy changes. This position is also responsible for FMLA/PFML coordination which requires the knowledge and application of state and federal laws; providing payroll/timekeeping and administrative support to department staff; as well as reviewing and processing accounts payable.</p> <p>These assumed job duties on top of the already extensive list of executive support duties to the Clerk and Chief Deputy, as well as the required knowledge of principles and practices within the law and justice system, supports the need to update the job description and a salary grade adjustment to the 109 pay scale.</p>
Justification	<p>In addition, when comparing similar positions across the county, the Clerk's Administrative Assistant position is underpaid and classified at a lower rate. The Auditor's Administrative Assistant (Spec. 6290), Prosecuting Attorney Administrative Assistant (Spec. 6340) and Superior Court's Superior and Juvenile Administrative Assistants (Spec. 5058) are all within pay grade of 240 (Clerical) or 109 (Management Exempt). The Clerk's Administrative Assistant is currently allocated at a pay grade 107 (Management Exempt) for the same scope of work.</p> <p>This request to update the job description and for reclassification from a 107 pay grade to a 109 pay grade is due to the increased knowledge and expertise that is now required of this position because of the increased responsibilities that have occurred over the past 10 years. Alternatives such as task distribution to others or additional FTEs do not apply to this situation.</p> <p>The current job description on file for the Administrative Assistant-Clerks provides for a salary grade of 105, however this position has been paid at a 107 grade since the job description was revised and re-titled in 2008. This may simply be a scrivener's error that was not caught. Because this job is an appointed position it has not been posted for recruitment for more than 15 years.</p>

Change Request Summary

Department 0037 - Clerk
Change Request AUTO - 549 - Jury Postage and Interfund Postage for Juror Notices
Change Request Type Standard Change Package
Change Request Status Executive Recommended
Publish Date Jul 16, 2024 08:35 AM (PDT)
Description Request to increase funding in DAC 002 537 235 4207 – Postage Jury from \$18,000 to \$43,000, and DAC 002 537 235 9201 – Interfund Postage from \$12,400 to \$17,400.

Summary

The Clerk’s Office performs all administrative duties related to jury management for Superior Court and the four divisions of District Court. This includes the printing and mailing of jury summons to ensure an adequate number of jurors are available to hear civil and criminal jury trials. The number of summonses printed and mailed each week is determined by the court and is based on the number of cases ready for trial as well as the criminal charges and anticipated length of trial for each case; the Clerk’s Office has little discretion in determining that number.

There are two sources of postage expenses related to juror management. DAC 002 537 235 4207 – Postage Jury is for the actual postage charges incurred by the contracted vendor who provides the mass printing and mailing services for jury summoning. Currently, the Postage - Jury DAC appropriations are \$18,000 annually. However, expenses applied to this DAC over the last 4-years have averaged \$38,300 annually; expenses in FY2023 were \$56,873. DAC 002 537 235 9201- Interfund Postage is used for all other juror communications sent by the Clerk’s office, this includes letters and postcard notices sent directly to jurors. Current appropriations for this Interfund Postage DAC are \$12,400, but the 4-year average annual expense is \$18,123, with actual expense in FY2023 of \$21,829.

Justification

The cause of the increased expenditures in these DACs is two-fold. The appropriations in each DAC have remained the same since prior to 2018. However, postage rates have increased by 36% during that time, and are scheduled to increase again in July which will result in an overall 46% increase since 2018. It is expected we will continue to see this trend in postage rate increases. In addition to increased rates, the volume of summons being mailed to achieve the desired juror pools has also increased. This is directly related to the COVID pandemic, court backlog and lengthy criminal trials on more serious offenses being tried.

To cover the expenses related to summoning an adequate number of jurors, we are requesting an additional \$25,000 allocated to DAC 002 537 235 4207 – Postage Jury to bring the total appropriations to \$43,000; and an additional \$5,000 increase to DAC 002 537 235 9201 – Interfund Postage to bring the total appropriation to \$17,400.

The expenses related to mailing of jury summons directly impact the Court’s ability to proceed with jury trials. An adequate number of jurors are required to prevent case cancellations and allows for the efficient operation of the justice system.

Department	0038 - Sheriff's Corrections Bureau
Change Request	AUTO - 71 - SCSO_COR_Jail Repeater Replacement Project
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 23, 2024 04:21 PM (PDT)
Description	<p>Our jail radio system has aged, is near EOL (end of life) and the repeaters are a huge part of that. They are in dire need of immediate replacement. The repeaters have been running continuously for nearly 18 years and were out of production at the time of installation. Replacing our existing system needs to occur before it fails. Replacement parts are no longer available for our existing system. The Sheriff's Office and Sno911 are switching to a Digital system. We need to follow suit to maintain interoperability within the County. Analog systems with our operational requirements are on the way to being phased out entirely. Some of our system has already been modernized and repaired, such as the antennas, but more work is required.</p>
Summary	<p>The repeaters have been running continuously for nearly 18 years and are no longer supported nor do replacement parts exist. Contractors that have worked on our system have conducted repairs and upgrades while the system is running. They've communicated concerns that it may not power back up. Typically, the radios are powered down to remove the risk of damaging the equipment, but in our case the risk is too high to do that. If we have any sort of failure, it may be 6 months before a radio channel can be replaced. The main indicator that the repeaters are failing is that regular testing shows that the power output has decreased between 30-60 percent of their rated 100 watts. There has also been frequency drift on our units that cannot be corrected due to age. This results in poor reception which ultimately becomes a safety risk. If we can't hear radio transmissions people could die.</p>
Justification	<p>The repeaters we currently have are the Motorola MTR2000. They are an old analog design that is at least 5 generations behind the current technology. SNO911 will be switching to a Digital system this year and phasing out their analog equipment. Analog equipment in general has been obsolete for some time and the support for it is fading. Additionally, we cannot assign priority radio traffic to CCR with the analog system. Central Control is our dispatch center. They are our communications hub but cannot be given priority over other handheld units. This is a safety risk.</p> <p>Due to our equipment operating at 800 MHZ and the requirement to be P25 compliant, there is only one repeater in production that meets our requirements. This repeater is the Motorola GTR8000. Because of our operating requirements there are no other reasonable alternatives. There are less expensive repeaters in production, but as soon as 800Mhz becomes a factor, the price goes up and the less expensive repeaters would not be compatible. Once the new system is established there is very little in the way of regular operational costs beside electricity. Radio contractors can report at agreed intervals to conduct tests, calibrations, and updates on the new system. This should operate with minimal costs for at least the next decade. The GTR8000 is a new system and will be supported by Motorola for at least that long.</p> <p>After the combiner and antennas were replaced, this fixed our reception issues on the Wall Street building. But as time has passed the reception issues are slowly returning due to failing repeater equipment. If the old, analog repeaters fail we'd be without critical radio communications for months. According to vendors, there is an approximate 6-month turnaround time for ordering repeaters.</p>

Change Request Summary

Department: 0038 - Sheriff's Corrections Bureau
 Change Request: AUTO - 73 - SCSO_COR_Medical Equipment - Smart Watch
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 23, 2024 04:31 PM (PDT)

Description
 We are looking to purchase 50 units for our medical and specialty housing patients. The budget request is for the licensing and subscription fees. With this product we will be able to monitor pulse, temperature, movements and oxygen level of our patients. The device will notify staff if a patient falls about or below preset parameters. Each device can be customized individually for the patient.

Summary
 We have had several overdoses in our medical units over the past year. Some with morbid results. With this monitoring device, we would be alerted sooner to an ill patient. Our response time would be shortened, and we would be able to care for a sick individual sooner, potentially giving us the time to provide life saving care. We have had more patients than ever in our medical units with limited staffing, and those numbers are only increasing. This tool would not negate the need for medical staffing but can be an accessory to our nurses for critical monitoring. We continue to look for efficiencies with existing resources and seeking new literature in standard of care for our patients. Despite these efforts, there continue to be critical gaps in care that we can provide due to staffing shortages and budgetary restrictions. To continue to be the standard of health care in a correctional setting, we must continue to be innovative and find ways to improve patient safety and outcomes.

 Change Request: AUTO - 329 - SCSO_COR_Resource Alignment - Restore Reduction
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 01:19 PM (PDT)
 Description: Sheriff's Office, Corrections Bureau, request to fully restore proposed budget cuts
 Summary:

In 2024, the Medical Housing Unit has been at maximum capacity due to medical detox withdraw watches. Medical housing has 48 beds and is staffed with a nurse and a corrections deputy 24-hours a day. A second module was opened to accommodate the detox withdraw watch overflows. County jails are responsible for providing a constitutionally compliant level of medical and mental health care as would be received in the community. This includes onsite care, emergency medical visits, community health care visits which require two (2) corrections deputies for transport, and prescription medications. The Snohomish County Jail retains its own medical employees, but also has contract employees on staff to augment our workforce. To maintain this high level of care, we cannot reduce staffing levels.

Justification: The Corrections Bureau, detention program, has 211 FTEs, but currently has 51 corrections deputy vacancies. Our Corrections Bureau staff have averaged 7,500 hours of overtime each month in 2024. Much of this overtime is mandatory, and on short notice which can be taxing on staff, and lower morale. Less staff would require us to cut operations and run leaner. The only way to do so is to reduce inmates through booking restrictions, cut municipalities who contract with the jail for misdemeanor level inmate housing, and cut inmate privileges such as time out of their cells. If we were to cut operations, inmate and community safety may suffer gravely. Without adequate staffing, we are unable to safely maintain security, or provide inmate programs and privileges. This is difficult and could compromise our ability to safely manage combative and uncooperative inmates. Our inmate population is having to spend roughly 22 hours a day in their cells which restricts their ability to participate in Adult Basic Education, NA, AA, and other programs/privileges offered in the jail. Additionally, there has been a backlog of jury trials and other court hearings, and we anticipate our Transport Unit will experience a significant increase in court transports. Each jury trial and transport outside the facility requires at least two (2) corrections deputies for security. This could hinder our ability to make the inmates accessible to the courts. The 3% reduction would severely compromise the jail's ability to operate safely.

Change Request Summary

Department	0038 - Sheriff's Corrections Bureau
Change Request	AUTO - 435 - SCSO_COR_Support Staff Pay Scale Update
Change Request Type	Position Adjustments
Change Request Status	Executive Recommended
Publish Date	Jul 29, 2024 05:19 PM (PDT)
Description	Sheriff's Office Corrections Bureau support staff groups (Teamsters) need to be moved to an updated pay scale within the Snohomish County pay structure. Currently, Corrections Receptionist, Inmate Accounts Tech, Records Technician and Booking Support Officers are paid via the "Support ...Rate Table". The four groups listed above are classified as "clerical" staff which is technically not an incorrect description. Given the continual advancements in the specific job duties of these four positions, their pay scale should be updated to reflect the work they currently do for the Sheriff's Office Corrections Bureau. The Corrections Bureau would like to propose moving these groups to the 200 Classified Rate Table.
Summary	

Change Request Summary

The above support groups perform the specialized necessary functions that allow the Sheriff’s Office Corrections Bureau to smoothly operate daily. The Corrections Receptionist is the face of the Jail. They not only check-in the many professionals and volunteers coming in and out of the Jail daily they route calls to the appropriate departments. Most importantly they provide much needed assistance to the public in a very stressful time of their lives. The Corrections Bureau houses an average of 520 inmates but on any given day the count can grow much higher. Inmate Accounts Technicians provide much of the same assistance to the public, but they also process booking and release paperwork on every individual in the Jail. In addition, they are responsible for each inmate’s funds and charges made to these accounts while in custody to include commissary, haircuts, medical and dental charges. They not only process out releases generated from the Jail’s Records Department but take cash bail and bonds at their Public windows. Records Technicians process every court document received on each inmate in custody. They update each charge that an inmate appears in court on and ensures each sentence that an inmate receives from the court is entered correctly. They also are tasked with figuring out the correct credit for time served for every inmate in the Jail that is sentenced to Prison. Booking Support Officers log in and book every individual that comes into the Jail under very chaotic and noisy conditions at times. They make sure that these individuals are booked correctly in a timely manner all the while assisting the arresting agencies face to face and over the phone. They also process each individual’s property which is brought to the Jail in very contaminated conditions at times.

Justification

The above groups are exceptionally underpaid compared to their counterparts in other law enforcement agencies inside/outside of Snohomish County. Those groups are often paid several hundreds of dollars more per month to do the same type of work, but less of it under better working conditions. It has been several years since Inmate Accounts and Booking Support Staff have been fully staffed. As support staff are hired, they continually leave due to higher paying positions at not only other Law Enforcement agencies in the area, but higher paying positions for Snohomish County.

The cost of living in Snohomish County is very high and most staff don’t want to drive over County lines to go to work, but if our wages don’t become more competitive, we will continue to lose the staff that we have spent months training. The increase in pay will allow the Sheriff’s Office Corrections Bureau to recruit and retain appropriate applicants for these positions. The support staff within the Sheriff’s Office Corrections Bureau have watched the County increase the pay wages of Corrections Deputies to bring in and keep. We are now asking the County to move in the direction of what support staff should be paid and show them they are as important to public safety as other members of the Sheriff’s Office.

These groups are some of the lowest paid groups in the County overall, along with being near the bottom of the pay scales in our department. Most of the overtime bill was paid with support staff salary savings from 2023. Even with the slight increases we are asking for by moving these groups to an updated pay scale, they will still not be within most of the other law enforcement support staff wages in the state. This change will positively affect ongoing negotiations between the County and this labor group and be a positive move in the right direction. Currently it appears that support staff in the Sheriff’s Office Corrections Bureau are expendable and easily replaceable.

Change Request Summary

Department	0039 - Dept Emergency Management
Change Request	AUTO - 462 - DEM Deployable Assets
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:06 PM (PDT)
Description	This package proposes one-time funding to support completing the build-out and upgrade to SCDEM's deployable assets.
Summary	

This package seeks the final funding needed to update SCDem's radio communications and deployable assets/vehicles (communications, trailers, and vehicles) and preserve our emergency response capabilities. The funding will support a variety of equipment purchases and installs that either complete projects or update old/obsolete equipment. Maintaining these capabilities ensures that both residents and local government are supported by reliable and robust mobile communications vehicles during emergencies and disasters. These vehicles are designed and equipped to fill gaps in wireless, radio, and internet systems anywhere in the County and ensure that key connectivity remains viable and accessible.

The funds will purchase additional radios/batteries to complete SCDem's deployable radio cache. This cache is made available to law enforcement, public works, and other public safety responders who need extra support in response to emergencies and disasters. The funding will supply emergency radio equipment for key SCDem leadership for disaster communications and ensure radio communications are uninterrupted as they cross county lines (and connect county emergency radio communications systems). These cache radios are regularly deployed during multi-disciplinary responses, and have recently been used for SWAT response as well as the Oso memorial.

The funding will cover the necessary repairs and updates to DEM10, which is a replication of DEM's entire radio room on an ambulance chassis. This is a mobile radio communications resource that supports Search and Rescue, law enforcement, and emergency management activities in both remote and urban settings where augmented communications are necessary. This is not 911 dispatching but can support and integrate with 911 when necessary.

Justification

The funds will provide additional Starlink (satellite-based internet) capacity in the form of 3 additional equipment packages to place in 3 trailers. This will increase internet access for one mobile IT response unit (MITRU); which will result in 2 MITRUs (there are 3 total) having satellite internet access. MITRUs are regularly deployed to provide internet and mobile communications capability to incident command posts throughout the county. The other equipment will provide satellite internet access for the Logistics Support Unit and the trailer that will serve as an alternate EOC (once it is updated). The Logistics Support Unit and the Alternate EOC trailer are designed and being equipped to operate in tandem providing DEM with alternate EOC capability should we be unable to occupy our current facility. These trailers would also be deployed in support of one of the communities we hold an interlocal agreement with during an emergency to support their response efforts. The funding supports the alternate EOC update by installing power (generator, solar, battery), networking capabilities for internet access, and communications equipment for mobile phones and radios of varying frequencies. The funding supports the Logistics Support Unit by carrying items needed to set up a field EOC or command post, such as pop ups, heaters, tables, chairs, light sets, etc. This type of equipment also needs to be added to the remaining MITRUs, each of which is in varying stages of completion. This investment would allow us to surplus VEM16 and remove it from ER&R, for an annual savings of over \$21,000

Lastly, the radio tower and radio room located at the DEM facility requires some maintenance work and minor antenna additions. The funding will cover tower work to install a critical piece of transmission equipment that allows DEM to connect with and broadcast in real time on AM station KRKO during emergencies and disasters where key lifesaving information must be quickly relayed to the public. DEM's longstanding relationship with KRKO/KXA (S-R Broadcasting) is the foundation of emergency plans wherein the radio station has invested significant money into making their radio towers resilient to floods and other hazards. The coverage of the radio station encompasses the majority of the County and can be accessed on any car, home, or transistor style radio. As such, the radio station will make their airwaves available to DEM during extreme disasters where communications methods are significantly impacted, if we install this key radio transmitter. The funding will also cover repairs to damaged antennas, repeaters and replace old/outdated radio room base station equipment.

Change Request	AUTO - 405 - DEM EESCS Fund 156
Change Request Type	Standard Change Package
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 11:01 PM (PDT)
Description	Normal Fund 156 Housekeeping package for 911 funds
Summary	
Justification	This package includes distributing fund balance to SNO911 for use in replacing call processing equipment. It is also move some past expenditures that were invoiced separately to the PSAP distribution. This will reduce staff time at SNO911 creating invoices and at DEM receiving invoices. Revenues are increased at an average of one percent annually which is commensurate with County population increase projections.

Description
This position currently supports DEM's operational readiness program, which coordinates both county emergency operations support but also supports readiness for disaster response within the jurisdictions with ILAs with DEM. This position includes maintaining the readiness of the equipment and procedures for the Snohomish County Emergency Operations Center (EOC); it also includes ensuring we meet the obligations in our interlocal agreements (ILAs) with cities, towns, and Tribes to ensure that their EOC equipment and procedures align with the County's. To accomplish this, the position researches best practices, past After Action Reports/Improvement Plans (e.g. COVID-19, Bolt Creek Fire), and feedback from ILA jurisdictions to incorporate the information into an emergency operations plan. This plan details how the County EOC operates and how each jurisdictional EOC coordinates and aligns with the County's. This position works closely with representatives from many County departments, as well as the various jurisdictions, to develop and facilitate training delivery for EOC responders across county government. These trainings ensure that EOC staff know their role within their respective EOC, that they understand their EOC's operating guidelines, and that they are familiar with the technology used during disaster response. This position also helps develop exercises (i.e., drills) so that EOC staff can practice these skills. The scope of the drills range from exercises to evaluate individual sections of an EOC to multijurisdictional exercises that evaluate our collective ability to coordinate amongst jurisdictions within Snohomish County, with our regional partners, and with our state and federal counterparts. DEM's ILA with local jurisdictions stipulates a countywide exercise in 2027. Extending this position through 2029 would allow it to support the delivery of the exercise and then the incorporation of lessons learned into our EOC procedures.

Summary
This position was initially grant funded, but demonstrated its critical value to the County during the COVID-19 response. Because of the extended duration of that response, we needed to train many people who were new to the EOC. This position was also able to evaluate EOC operations in real-time and implement improvements that not only increased efficiency during the pandemic but identified valuable improvements for future EOC activations. Due to cascading impacts of the COVID response, we are still incorporating those improvements into our plans and making up for lost years of training county department staff on EOC operations.

Justification
When the initial grant expired, DEM identified other grant funding to bridge funding this position through the remainder of 2022. DEM received funding through the General Fund to extend this position through 2024. DEM requests to extend this position through 2029 as it is a cornerstone for the County's comprehensive response capabilities in an emergency or disaster. Maintaining regular funding ensures we are able to fill the role with a consistent employee (reducing the constant need to train a new person in the role before they are able to facilitate ongoing actions).

An additional crucial business need is the recent federal requirement to implement the National Qualification System (NQS). This system ensures standard training and skill development across emergency management. Its purpose is so responding emergency managers have commensurate skillsets and operational capabilities in their home jurisdictions and when assisting other jurisdictions. NQS implementation is an ongoing process that is directly tied to receiving future Emergency Management Performance Grant (EMPG) funds. EMPG is a key operational grant received annually by Snohomish County DEM. Implementing NQS and maintaining compliance year over year is an essential function of this position in maintaining County readiness and preparedness and protecting DEM program funds.

Description	Establish 1 FTE, classified as a 241, in fund 002 when an interlocal agreement is put into effect with South County Regional Fire Authority.
Summary	
Justification	DEM is in initial discussions with South County Fire to enter into an ILA directly with the Regional Fire Authority to do emergency management planning on their behalf. This position would enable DEM to take on the additional workload by supporting 1 FTE dedicated to the identified scope of work in the ILA. This FTE would only be filled if an ILA is enacted that fully funds the position. 2025 is the earliest potential start date and is revenue-backed.

Change Request Summary

Department 0039 - Dept Emergency Management
Change Request AUTO - 452 - DEM Opioid Coordinator
Change Request Type Standard Change Package
Change Request Status Executive Recommended
Publish Date Jul 17, 2024 04:56 PM (PDT)

Description This position currently supports Emergency Management’s Multiagency Coordination (MAC) Group and helps provide coordination and support to substance use response in Snohomish County. For five years Emergency Management supported the Opioid MAC Group with partial staff allocation. In 2022, a program coordinator was hired to provide full time support to the MAC Group. This position is primarily responsible for ensuring the smooth and continuous function of the MAC Group and providing internal and external coordination.

Summary The workload of coordinating the countywide Opioid Response will continue, and this position plays a critical role in that effort. There are three responsibilities in this position. The first is meeting with external and internal partners to reduce siloing and cultivate and develop partnerships. The second is providing administrative and technical support to multiple MAC Group meetings. And finally, this position helps coordinate, track, and participate in the RFP process to provide Opioid Abatement Funds in the community. Addressing the substance use crisis is a massive, coordinated effort that requires involvement from multiple County departments. This position works and communicates most frequently with the Health Department, Human Services, and the Executive’s Office to promote information sharing and provide better coordination on project work. For example, this position coordinates with MAC Group Leads to track progress updates on short- and long-term SMART Objectives. This ensures that timelines are being met, work is underway, and difficulties or roadblocks are addressed. These updates are then distributed to the larger MAC Group to keep everyone informed. Without this coordinator position, regular coordination would be delayed, reporting would drop or be missed, and the MAC-Groups ability to address problems in meeting goals would suffer. External partners are critical to effectively address substance use in Snohomish County. Last year the DEM Opioids team met with 37 unique partners across 13 different sectors, all of whom are doing work related to MAC Group interests or who are helping address substance use within the Community. The coordinator introduces these partners to the MAC Group efforts and works with those partners who are interested in participating with the MAC Group. The coordinator work with external partners helps identify and address gaps within the community that can go unnoticed except by those working in these positions and helps the County better support and coordinate its work. Coordinating the MAC Group requires high levels of technical and administrative support. There is currently one regular general meeting and five working groups who meet at varying times, with differing goals and capacities. This position coordinates the MAC Group general meetings, the Prevention group meetings, and the Data group meetings. During these meetings the coordinator schedules times, create agendas, take notes, and follows up on identified critical tasks. This position also helps refine and develop SMART objectives for programs that are unfamiliar with this process. Partner capacity to host, take notes, write agendas, and smoothly run the meetings is frequently limited. Lacking this administrative support would delay the effective functioning of these meetings and hinder important project work. Finally, as needed, the coordinator assists with project work identified during these meetings. For example, assisting the Communications group with updating the content of the Snohomish Overdose Prevention Website. Finally, this position helps organize the distribution of the Opioid Abatement funds. The coordinator initially helped develop the spend plan for the Opioid Abatement spending. That person now works with DEM Finance to track fund expenditures and ensure that money is spent in accordance with the One Washington Memorandum of Understanding. The coordinator helped create the RFP process for microservice agreements to distribute \$150,000 in funding to recovery organizations. The coordinator assisted in creating and reviewing guidelines for how the funds will be spent; hosted a webinar to introduce the project to the public and answered questions; reviewed and scored proposals; and will develop an after-action process to improve the program for the next round of microservice agreements. The program coordinator ensures that these funds are spent reliably and smoothly. Without the coordinator’s hard work, the process would take much longer and be less effective. This body of work is too much for the program manager to deliver, in addition to the identified tasks and requirements in the program manager’s work plan.

Description	Public Education and Community Outreach: The proposed outreach budget is for microservice agreements with community organizations to conduct in-language/culturally appropriate disaster preparedness outreach.
Summary	
Justification	This funding allows Snohomish County DEM to continue providing quality community education across the County and build relationships with the organizations that directly serve our most vulnerable populations. Public education and preparedness outreach efforts continue to improve the communities ability to respond during an emergency regardless of language or other barriers to access in a way that is responsive to needs.

Change Request Summary

Department: 0039 - Dept Emergency Management
 Change Request: AUTO - 522 - DEM Radio Officer
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 23, 2024 04:27 PM (PDT)

Description
 DEM is requesting that position # DEM7554R (DEM's Radio Officer) move from fund 130 to fund 002. This is a classified position in range 240 and is currently funded through federal Urban Area Security Initiative (UASI) grants from Homeland Security. UASI funds are received and administered by a core steering committee made up of the member jurisdictions: Snohomish, King, and Pierce Counties and the Cities of Seattle and Bellevue. It is a known certainty that within the next grant cycle, federal funding is being reduced such that the core steering committee will not allocate funds to maintain this position. This is a critical position to Snohomish County and the Department of Emergency Management because this position plays a crucial role in the implementation, management, and maintenance of County Emergency Management's radio communications system and its integration with the Snohomish County 911 Emergency Radio System. This position is also responsible for coordinating the volunteer team of HAM radio operators, known as the Auxiliary Communications Service (ACS), who provide robust and timely emergency communications during times of need. This team of about 200 radio operators also serve as key redundant communications that support emergency management response and recovery when the County 911 Emergency Radio System is overloaded or otherwise inaccessible.

Summary
 This position coordinates and leverages via volunteers made up of retired technical engineers such as electrical and materials engineers, wireless communications engineers, and former law enforcement and medical professionals. Without the general fund investment of 1 FTE, Emergency Management loses over two additional 2 FTE per year of highly skilled volunteer technical expertise and innovation. The volunteer team, under the coordination and management of the Radio Officer, underpins the Emergency Management Program in many ways. On average, they dedicate between 4,000 and 5,000 hours per year enhancing and maintaining emergency management communications in the form of UHF, VHF, and 800 MHz radio systems. They support the communities that DEM holds Interlocal Agreements with by helping establish and maintain linkages to these radio systems at local city halls, fire stations, and hospitals. This team also possesses the expertise and origination of HAMWAN, which is a key method of providing internet redundancy via HAM (UHF) radio bands. The skills and energy invested into multiple radio systems ensures strong, redundant emergency communications during disasters.

Justification
 Losing the funding for our Radio Officer and the key connections to volunteer teams who regularly serve their time and energy would be a major step backwards. Together, these 3 FTE, 2 of which are entirely volunteer, build and maintain the resilient and robust communications systems with local, state and federal partners that we rely on; losing them would be a major step backwards. The valuable resource this position both provides and leverages cannot practicably be taken on with remaining staff and the County's Emergency Management readiness stance would be greatly diminished.

Change Request Summary

Department: 0039 - Dept Emergency Management
 Change Request: AUTO - 464 - DEM Recovery Abatement Agreements
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 23, 2024 04:40 PM (PDT)

Description: This package seeks to continue and increase funding for the Recovery Abatement microservice agreements funded through the opioid settlement funds.

Summary: In 2023, DEM received \$150,000 to distribute to the recovery community in the form of microservice agreements. These agreements assist nonprofits, particularly smaller nonprofits, non-governmental agencies by providing funding that is low-barrier coupled with lower reporting requirements. This element is key because traditional Federal, State, and Local grants often have onerous reporting requirements that cause a high barrier to entry. Smaller organizations may lack the time and capacity to apply for traditional grants and even larger organizations struggle with costly and often overwhelming reporting requirements. As of March 2024, 11 organizations were selected for funding and will receive ~\$80,000 in amounts up to \$7,500. Projects all are in support of recovery and helping build the Snohomish County’s recovery community, examples include, funding community events, purchasing naloxone, training recovery peers and coaches, supporting residents and recovery housing, basic needs of clients in recovery, assisting in transportation to and from medical withdrawal programs. In July 2024, we will begin the funding opportunity again to distribute the remaining ~\$70,000 worth of funding, again, in amounts up to \$7,500. Continued funding of this project will help continue many of these projects, identify new projects, and support those nonprofit, non-governmental organizations who serve the community. Without this funding opportunity these organizations have to make difficult decisions about what programs and areas they want to continue supporting. \$150K/yr is being requested for 2025 and 2026.

 Change Request: AUTO - 291 - DEM Request Restoration
 Change Request Type: Resource Alignment
 Change Request Status: Executive Recommended
 Publish Date: Jul 30, 2024 12:35 PM (PDT)
 Description: Request for restoration of the 3% reduction.
 Summary:

We request full restoration of the reduction for DEM.
 If that is not possible, we will make the following reductions, with their resulting operational impacts.
 1) Remove VEM09 from the DEM fleet, for a 2025 reduction of \$4,810; 2026 reduction of \$5147. This will reduce our fleet by one towing vehicle-- leaving us to potentially rely on a partner vehicle should we need to tow more than two trailers for a response.
 2) Remove VEM16 from ER&R--we will not replace it when it goes out of service. That would save \$21,500 in 2025; and \$23,005 in 2026. This will impact our ability to set up a Mobile EOC if the DEM building cannot be used for whatever reason, though with our other mobile assets we hope to minimize this impact.
 3) Remove ""consultant services"" in 2025 and reduce by \$10,400 in 2026 (we will need to restore the remainder for our accreditation recertification and propose offsetting the difference with the removal of EOC computers below)
 3) Remove 12 laptops from the EOC. This will save \$0 in 2025 (IT Service Rates already calculated) and \$15,396 (\$1283x12) in 2026. This would mean that we would have to rely on some portion EOC responders to bring their own laptops to the EOC during a full scale activation."

Department: 0039 - Dept Emergency Management
 Change Request: AUTO - 461 - DEM Volunteer Management System
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 25, 2024 10:24 AM (PDT)

Description: This package proposes developing a Volunteer Management System using the ESRI Hub template and drafting a Standard Operating Procedure for agencies to train and drill on registration and use.

Summary: DEM is working with OpEx to develop a Volunteer Management System that could be rolled out countywide to support all departmental volunteer management needs. The VMS would collect additional information such as licenses, certifications and equipment, and the goal is to expand it outside of DEM volunteers to be used by other departments. This would help DEM meet emergency worker requirements under WAC 118-04, support other departmental volunteer management efforts, and give all departments a larger pool to recruit volunteers, particularly during emergencies. We are only requesting one time funding, because we anticipate going with an ESRI solution, which, after initial development costs, would be included in the county's current enterprise account with ESRI (at no additional charge).

Change Request Summary

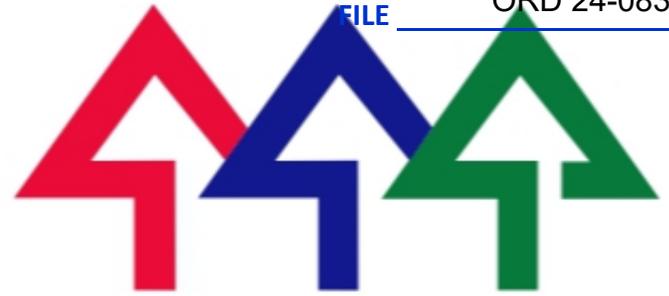

Department: 0039 - Dept Emergency Management
 Change Request: AUTO - 465 - DEM WA Recovery Helpline Contract
 Change Request Type: Standard Change Package
 Change Request Status: Executive Recommended
 Publish Date: Jul 23, 2024 04:39 PM (PDT)
 Description: This package seeks continued and increased funding for the WA Recovery Helpline Contract.
 Summary:

Justification: Washington Recovery Helpline is a resource in Washington State where people in need can call or connect online, any time of day, for empathetic help and to reach local recovery services. Since 2023 the MAC-Group has had an existing contract to receive monthly reports on the number of calls by zip code and specific details about the calls, such as type of substance the caller is struggling with and a few words about the referrals. This data has allowed MAC-Group Data Committee and its epidemiologists to view the burden of substance use disorder in Snohomish County through a different lens. While most surveillance data is based on overdose events, Recovery Helpline data gives a picture into what types of substances people in our community are seeking help with. Understanding the nature of the scenarios in which our community members are seeking referrals to services on a monthly basis can continue to help Snohomish County government agencies plan and respond to need more proactively.

Budget Address

Executive Proposed Biennial Budget

2025-2026

Introduction and Thanks

Good morning. I appreciate the chance to talk with you about my proposed budget for 2025 and 2026. Since this is our first biennial budget, I am thrilled to report that I get to speak for twice as long!

As everyone here probably knows, I am a strong believer in partnerships and collaboration.

County government is a large, complex operation, and we need everyone working together to deliver the best results.

First and foremost among those who make it work are county employees, who are the bedrock of our service to the community. They are the ones who ensure we are fulfilling our responsibilities and serving our residents. I take it as a personal responsibility that we pay them well and give them good benefits, while also living within our means. We have worked hard for the last few years to adjust compensation for inflation and market needs. We will continue to do what we can to improve pay, since this helps us recruit and retain the very best public servants.

I'm grateful for my partnership with the County Council. Even when we have differences, we have built a generally constructive partnership that allows us to find solutions and move forward.

Chair Mead, Vice Chair Nehring, Councilmembers Low, Dunn, and Peterson each bring passion and community support to the work we do, and I am grateful for them.

Our other elected officials at the county—Sheriff Johnson, Prosecuting Attorney Cummings, Auditor Fell, Assessor Hjelle, Treasurer Sullivan, Clerk Percy, and our District and Superior Court judges—have important responsibilities that have real, positive impacts on our residents.

Then we have many others—from department directors to Hearing Examiner Camp, Public Advocate Montes, and our labor partners—who each play key roles in making sure the public is served, we respect the rule of law, and people's rights are protected.

We have a very strong team in Snohomish County. I am incredibly proud of the work we do together.

Systemic Budget Challenges

Since becoming a member of the County Council in 1998, I have seen a dramatic change in Snohomish County's budgets and how we spend taxpayers' money. In 1998, 56% of our General Fund budget was spent on public safety agencies. In 2024, just over 75% of our general fund budget is being spent on those same agencies. In my proposed budget, 75% will be spent on public safety.

This is not only a sign of our prioritizing public safety, but also about the structural challenge of county government. That shift of 20% toward public safety means that our other general fund departments have been squeezed for every bit of efficiency. Let me give just one example: our Parks Division would have been able to improve access, maintain more parks, and hire more Rangers, if they had additional resources.

And believe me, we have looked for savings everywhere. From the over \$80 million that we saved by building a more modest courthouse to marshalling our federal ARPA funding to maximize interest, and using every budget maneuver we can, we have looked to save resources wherever we are able to do so.

At the same time, our population is growing over 15% every ten years. Today we are nearing 900,000 residents, and by 2040, just 16 years from now, we will have over one million residents.

As you know, we are also in a period of inflation. As of June, our region's Consumer Price Index rose by 3.63% from the previous 12 months. We know this has had an impact on our residents, particularly individuals and families with lower incomes. It also impacts how much it costs to run county government, and we have worked very hard to balance the realities of inflation to our financial capacity.

The county is allowed by law to increase property taxes by just over \$3 per year per household with a median home price of \$665,000. Given those constraints, we know that revenue won't keep up with inflation, but the gap between inflation and the allowed increase means we have to find revenue and savings between \$10 and \$15 million every year. If we use our banked capacity—that is, the amount we could have but didn't collect in previous years—and the legislature changed our cap, our General Fund would be sustainable. However, we must recognize that, absent a specific voter-approved levy, future employee growth is unlikely, and we will need to adjust our plans accordingly.

Finally, the significant funding that we received from the federal government for pandemic recovery is now coming to an end. We used ARPA funding for major community needs, including building childcare capacity, expanding broadband access, and serving those most impacted by the pandemic. That funding also allowed us to bridge our budget challenges since 2020, and ensured we could avoid layoffs, maintain services, and work on these important strategic initiatives. With the federal funding expiring, we cannot sustain the service levels they supported.

We have inflation impacting our bottom line, ever more residents to serve, the end of pandemic relief funding, and a systemic budget gap all coming together at the same time.

Even in light of those sobering facts, let me tell you the good news first.

I am proposing a balanced budget without any layoffs.

The less than good news is that we were only able to support partially funding three new positions out of the General Fund budget. They are critical for public safety and our operations. One is due to a change in state law that requires more work on protection orders. The second will ensure we have appropriate oversight of the Enterprise Resource Planning replacement project. Finally, we need to ensure our radio capabilities can be sustained in an emergency. Beyond these partially funded positions, we just don't have the money to do more.

I know that there are real needs and that every department, office, and agency could serve the public better with more staff. But we should not hire people today that we may need to lay off tomorrow. We always look hard for savings during our budget process. However, since over 75% of our general fund budget is dedicated to funding public safety agencies, some of our savings would have to come from those same agencies. There is no other way to balance the budget.

We have spent years scouring the budget for every efficiency, and we are as lean as we can possibly be. In fact, our general fund budget is 73% of Pierce County's, a similarly sized jurisdiction. We'll never match Pierce County's budget levels for the foreseeable future, but we can make a difference through technology upgrades and process improvements that make us more efficient.

The county has also done a great job of leveraging General Fund dollars to secure state and federal grants, stretching our local tax dollars to serve even more people.

One reason we have moved to a biennial budget is to reduce some work every other year. We think that this will allow us to realize some efficiencies and provide a longer planning framework for our departments and offices, allowing us to stay strategically ambitious and yet realistic.

Our Office of Operational Excellence also continues to work with departments and offices to improve processes, reduce redundancies, and provide tools for strengthening our managerial skills. Their work has never been more important.

For our 2025-2026 biennial budget, I am proposing that we use banked capacity to reduce by half the cuts we would have had to absorb in the General Fund departments. This is consistent with voter-approved initiatives, because there are many years when Snohomish County has not taken the minimum allowed under law. I am proposing that this previous unused capacity now be used to help resolve this funding gap. By taking this step, we are able to save jobs and maintain the same level of service we had last year.

This means that our General Fund supported departments can continue to serve. For example, PDS will be able to continue approving building permits in a timely manner, a critical piece of helping address our housing crisis. Parks will continue to provide green space for recreation. Our Medical Examiner's Office can continue to provide their unique scientific expertise to our community. Our Department of Emergency Management will continue to prepare residents for the next disaster, be it a wildfire, landslide, earthquake, or volcanic eruption. And, of course, our Sheriff's Deputies, Prosecuting Attorney's, Public Defenders, and Court personnel can continue to hold people accountable.

The County's Work is Vital

I love Snohomish County, because it is a place that is incredibly beautiful, has hard-working and compassionate residents, and continues to be the center of global innovation.

I also love Snohomish County because of the good that we do.

County employees save lives, reduce human suffering, hold people accountable, and make our community stronger. County government allows us to impact lives in a way that isn't possible at other levels of government.

One of the major issues we are facing right now is the drug epidemic. We can see the impact of dangerous and illicit drugs from east county, to north county, to south county and everywhere in between. Fentanyl in particular has had deadly consequences, with 311 people dying from overdoses in the county last year, 80% of those involving fentanyl, and we have seen it not only in the statistics but also in the suffering and disorder we see in our community.

When these major challenges erupt, we don't have many options for getting ahead of it. We can try to shift resources, but as I mentioned, with over 75% of our general fund budget directed toward public safety agencies, we cannot shift funds without compromising the very agencies we need to address the problem.

Back in 2017, we established the Multi-Agency Coordination Group to bring everyone to the table around the opioid epidemic and establish specific, measurable goals for us to reach. We are grateful that, in addition to many county departments and offices, we were also joined by fire and police agencies, cities and towns, and non-profit organizations in this collaborative effort.

The MAC Group has had a number of achievements to date, including preparing to launch a mobile treatment program for rural parts of the county, a Narcan Leave Behind Program with Fire/EMS, community sponsorships, and training almost 500 county employees to use Narcan. These efforts have been assisted by the opioid settlement dollars coming into the county. But the resources are still inadequate to the problems we are facing.

That is why we are asking the public to weigh in on a Public Safety Sales Tax this November. If the public agrees that we need to do more to address the public's safety and wellbeing, then they can ensure that two cents from a ten dollar purchase will go toward new and expanded programs to help.

No one wants to raise taxes; I sure don't. But we need to be honest with the public when a challenge exceeds our capacity to address it. We have exhausted all other current options for directing more revenue towards public safety, and this is the one that the legislature gave us explicitly for public safety needs.

If it were to pass, then we would be able to:

- Hire more law enforcement officers, Rangers, prosecutors, public defenders, and court staff.

- Build a new secure detox facility right here in Snohomish County.
- Expand access to treatment options in the jail.
- Create a program for graffiti removal and expand our derelict vehicle program.
- Acquire and operate a second resource center like Carnegie to give veterans, seniors, and others a one-stop center for vital services like job training, housing, and health care.
- Lessen the impacts of the drug epidemic on Fire/EMS agencies and emergency rooms.
- Develop or expand programs focused on reducing youth violence.

None of these is a cure-all for our problems, but they would give us the tools we need for enacting our strategy of compassionate accountability. We are very confident we could make more progress on addressing the key public safety challenges across the county with these additional resources. I urge the public to consider the proposal carefully.

Sustaining Our Quality of Life

Snohomish County is beautiful because people have taken care of our natural resources while adapting to the inevitable growth and ensuring our economy is resilient.

We have avoided sprawl, concentrating most growth in urban areas, and the county has been very deliberate about our efforts to improve habitat and protect green spaces.

I know that our PDS team has been working for years on the Comprehensive Plan that will allow us to take the next step in our responsible growth. It is never easy, but we have forwarded for your consideration a comprehensive plan that allows for positive growth while abiding by Pacific Northwest values.

And every day, we have planners issuing permits and code enforcement officers working to keep our communities as livable as possible.

In our proposed budget, we will continue these efforts as well as our work on fixing more culverts to ensure we are doing our part to help protect salmon and the Orca who depend on them.

As you know, the Sustainable Lands Strategy (SLS) is a successful collaboration between Snohomish County, the Tulalip and Stillaguamish Tribes, state and federal partners, and agricultural and environmental stakeholders all working to improve coordination and generate progress for fish, farms, and flood management. Our major restoration projects like Smith Island, Chinook Marsh, and Meadowdale all are possible because we are balancing our shared interests.

The Chinook Marsh project in particular shows the progress we can make when working together. We will continue work on the Chinook Marsh restoration project, the next in a series of major habitat restoration projects, returning the Snohomish River estuary to its historic role of primary habitat for fish on the Puget Sound. I am very grateful for the support we have been given, particularly from our federal delegation. This budget continues our support for the SLS, and I am committed to being as ambitious as possible in pursuit of our habitat restoration goals.

Our Office of Environmental Sustainability will continue to prepare us for climate change, and our Agriculture Office will continue to work with farmers, ranchers, and foresters to ensure we are protecting these vital assets in our community.

The creation of the Department of Conservation and Natural Resources has allowed us to secure more federal grants for critical priorities. DCNR is on the forefront of protecting green spaces, rehabilitating habitat, managing parks, keeping our trail system as robust as possible, and throwing the best party of the year at the Evergreen State Fair. I believe all of these vital responsibilities should continue in the 2025-2026 budget.

Our Public Works team continues to keep people and freight safely moving across our region and our economy growing. They maintain over 1,600 miles of roads and are responsible for ensuring the county's bridges are safe. They also take care of solid waste across the county. They are incredible collaborators and ensure our transportation system functions as well as possible and our county remains livable.

I want to congratulate our team at Paine Field Airport for completing the Master Plan. I know that it took years of work, and now we have a blueprint for the next twenty years of development. Paine Field is the crown jewel of Snohomish County and the very heart of the global aerospace industry, accounting for nearly \$60 billion in yearly economic activity and over 150,000 jobs. Our ability to maintain Paine Field's central position is dependent on thinking ahead and being ready to adapt.

We also have some very exciting developments. First is our plan for the world's first Sustainable Aviation Fuel Research and Development Center. Partnering with WSU, this facility will ensure we remain in the forefront of developing the next generation of aviation fuel, retaining our position as an aerospace innovator, and building a legacy that exceeds our storied history. We also will be working to develop a next generation SAF workforce so that we have well-paying jobs here for generations to come. This is good for the environment, good for our aviation partners, and good for our economy. We also appreciate all of the support we have received from our private, public, and elected partners.

Another very exciting development is the opening of the first light rail line into Snohomish County, which means Link Light Rail to Paine Field and Everett is that much closer. This is one piece of a very complex puzzle about building the infrastructure to serve our county for the next 100 years. We need to find ways to move people on trails, trains, planes, and of course cars to sustain our regional mobility and allow people to get to our job centers. I know that light rail service to Mountlake Terrace and Lynnwood will be transformative. I will continue to push hard for completing the line to Paine Field and Everett as quickly as possible.

I know that there has been great interest in the processing times for food service permits. I wanted to report that we are making progress. As of August, the food safety team had reduced the wait back down to their typical turnaround time, and we are working with the Board of Health to find a sustainable long-term solution.

I am confident that Snohomish County will continue to foster a climate of innovation and sustainability across our entire region.

Compassion and Accountability

Snohomish County is grounded on a balance of compassion and accountability. We know that many of our residents have challenges that require supportive services, and we have been building the infrastructure to help move people from crisis to health and self-sufficiency. With our partners, Snohomish County has created the Office of Neighborhoods, the Snohomish County Outreach Team, the Snohomish County Diversion Center, the Carnegie Resource Center, and we are in the process of creating more capacity for both treatment and bridge housing. In fact our two hotels will be opening next year and will create an opportunity to move over 150 people into stable housing. We have also invested through our Chemical Dependency Mental Health program, including \$3 million for a facility in Lynnwood and \$4 million for a shelter in Everett. Also, we are leveraging Affordable Housing and Behavioral Health funding to create more housing and treatment beds.

Most of these community assets are used by people who have made the decision to address their challenges.

However, not everyone is able to make this move voluntarily. That's why we need accountability. We've learned that offering help can work for many, but for others external motivation is necessary to help guide them toward healthier decisions.

Our Human Services and Health Departments have been at the forefront of creating new strategies and infrastructure for addressing the impacts of drug addiction and other behavioral health conditions, particularly with the unique challenges that have come with fentanyl.

We will continue to invest CDMH dollars in our opioid response work. Our budget will continue to prioritize addressing homelessness, addiction, behavioral health disorders, and other areas of acute community need.

The Health Department has been instrumental in advancing the county's efforts to save lives and improve community health, particularly with their work to better track data on the drug epidemic, train people on delivering Narcan, and distribute it to first responders and others.

They also launched an STI Clinic and have been seeing extraordinarily strong demand, with over 1,000 people receiving care so far this year. We know that stopping disease and infections in their tracks is one of the best ways to prevent bigger problems down the line and reduce devastating consequences for our community. My proposed budget continues support for the STI Clinic and our Narcan efforts.

We have other tools for showing compassion for those in need. We also have tools for accountability. As I mentioned, our law and justice system accounts for over 75% of our General Fund budget. The Sheriff, Prosecuting Attorney, Office of Public Defense, Clerk, District and Superior Courts: all of these operations work together to ensure people are held accountable and can find paths toward more constructive futures.

Sheriff's Office Deputies and our Park Rangers are the people who stand on the front lines to ensure we are safe in our homes, in our neighborhoods, and when we recreate. And our Deputy Prosecuting Attorneys move cases from allegations through our court system and onto a resolution. Public Defenders protect our constitutional rights and provide a service to those most in need of an advocate.

Our Courts have an incredibly complex task, adjudicating the process of justice. And our therapeutic courts have a particularly important part to play, since they give us a tool that holds people accountable, offers resources, gives participants hope, and isn't purely punitive. As any of Snohomish County's judges will tell you, it takes a profound commitment and lots of patience to oversee justice.

Many paths toward justice, recovery, or health do not travel in a straight line. And on October 3rd, Recovery Court will be celebrating their 25th Anniversary. Congratulations to all those involved!

Our Corrections team has been using cutting edge technology and therapies to address the overwhelming number of challenges they face in the county jail. They have a complex job of keeping people safely detained while also being compassionate about their health needs. In this year's budget, I am proposing to fund a pilot program proposed by the Sheriff to provide health monitoring devices for those who are detained in our jail. This could both save lives and reduce liability, and I think it is an innovation worth supporting.

In addition to their work on behavioral health and homelessness, Human Services covers the entire spectrum of human life from birth until death, and their work has never been more important. All of these agencies are supported in my budget, including a yearly appropriation to maintain our search and rescue helicopter capacity, since this function is critical to saving lives.

I know the Sheriff, Prosecutor, Public Defense, and Courts in particular are desperate for more staff and resources. The requests they made are very reasonable, and it's why we are putting Public Safety Sales Tax Proposition 1 before the voters. We cannot hire more people if we don't have additional resources. There is nothing extra in the budget that can be cut without consequences to public safety or our other core responsibilities.

Protecting the Future of Snohomish County

Everything we do is to protect and serve our communities and create the future we choose. Without a doubt, our future has been looking better because of the work of Snohomish County government.

If you haven't yet had a chance to take a tour of the third floor elections center, I highly recommend it. Instead of having our elections operations spread across multiple buildings around the county, we now have a secure and transparent space to fulfill this core function of the county. If we don't have free, fair and transparent elections, we no longer have legitimacy as a democracy and everything else will fail.

I'm very grateful that we have been insulated from the worst political excesses infecting other parts of our country. It's because we focus on solving problems and finding opportunities. We stay away from grandstanding and the performative.

We continue to support all of this great work in the 2025-2026 biennial budget.

Let me quickly mention Human Resources, Facilities and Fleet, Information Technology, and Finance. Without these very lean departments, the county could not function. They have been doing more with less for a long time, and their work is exemplary.

At any given time, Human Resources is handling training, hiring, retirements, benefits, and multiple simultaneous labor negotiations.

Facilities and Fleet keep all of our vehicles in order and look after all county facilities, a huge task. They ensure county infrastructure can serve the public for decades to come.

The Department of Information Technology keeps us connected and allows us to communicate with each other and to the world. Through innovation and hard work, they allow our operations to function 24 hours a day. As we've seen, it is no easy task to keep any enterprise safely operating. This budget includes funding for our new Enterprise Resource Planning tool, since our current systems are becoming obsolete.

Our Finance and Budget team is extraordinarily strong. They ensure we can get everyone paid, keep our books, reduce risk, consistently get clean audits, have an efficient budget process, and otherwise be wise stewards of public resources.

I'd also like to mention the great work of our Office of Social Justice, particularly while we have been conducting a search for a new leader. They have been engaging extensively with community leaders and county staff. I'm happy to announce that our new Chief DEI Officer will be starting later this month, and I expect we will see even more progress over the coming years.

One other county operation that I'd like to highlight is our Animal Services team from the Auditor's Office. Day and night, they are out in the community ensuring people are safe, animals are protected, and people who mistreat animals will be held accountable. What they do is very near and dear to many of our residents' hearts, including mine.

Conclusion

To those who keep us safe and maintain green spaces, help us with wedding certificates and run our jail, assess properties and collect taxes, maintain roads and feed the hungry, and the many other responsibilities reflected in my proposed budget, we are grateful, as is the public. We have diverse responsibilities, and we do a darn good job with the resources we have.

Now the Council portion of the process will start.

I urge Councilmembers, as is your tradition, to thoughtfully examine our proposed budget. We have taken great care to ensure it is balanced and sustainable.

As always, we stand ready to assist the Council in their deliberations, as you decide how best to serve our residents and fulfill the many responsibilities of Snohomish County.

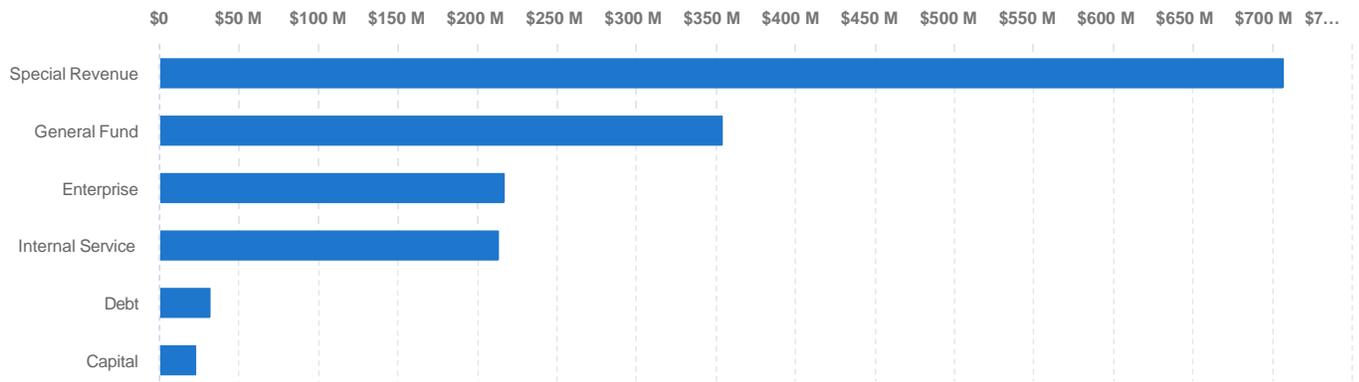

Thank you.

Budget Summary Tables

Distribution of Property Tax Dollar

This exhibit shows the portion of property tax dollars different governmental entities receive. Snohomish County receives 10.34% broken into two parts:

1. 6.13% share paid by all County residents. This finances regional services such as the court system, jail, prosecutors, elections, treasurer, medical examiner, and regional parks.
2. 4.21% share paid by residents who live in unincorporated areas of the County for repair, maintenance, and construction of roads, bridges, and other forms of surface transportation.

The source for this information was the Snohomish County Assessor's Annual Report for 2024 Taxes.

Snohomish County 2025 - 2026 Budget - Executive Recommended

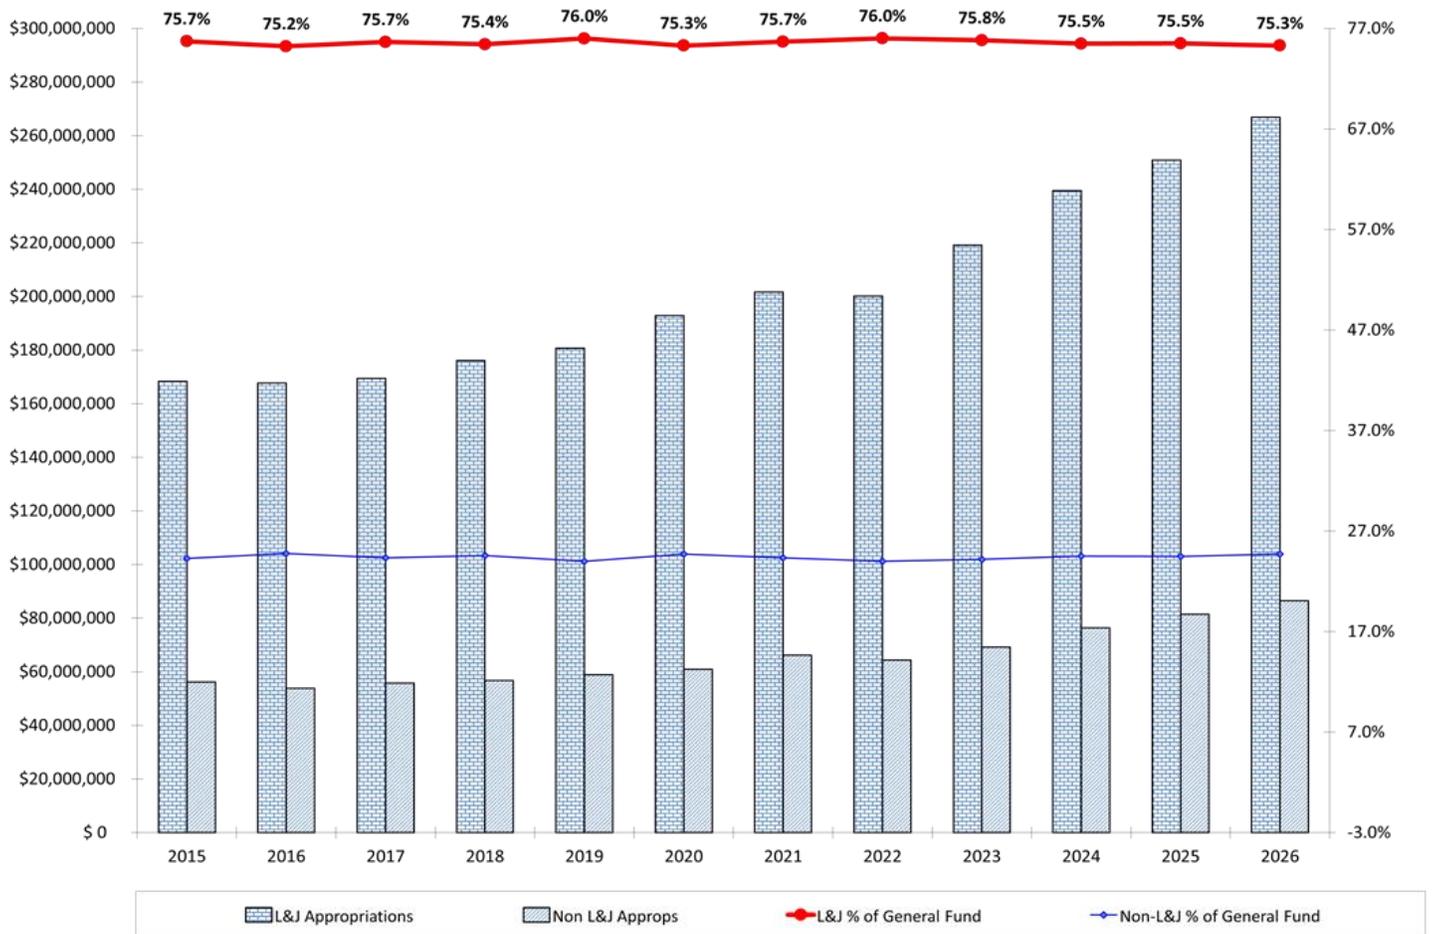

Budget Summary Tables

Law and Justice Appropriations History

This chart tracks the change in law and justice appropriations as well as non-law and justice appropriations in the County General Fund, between the years of 2015 and 2026. The law and justice percentage is based on a simplified distribution methodology.

Law and Justice departments include the categories of Judicial and Law Enforcement referenced in the General Fund Department Comparison table.

The Sheriff's Office moved the majority of their contract law enforcement services out of general fund into a special revenue fund in 2020. Adjustments were made to prior years in this chart for comparability purposes.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0001 - Executive

Department Director: Dave Somers

Financial Consultant: Debbi Mock

Mission Statement:

The mission of the County Executive Office is to provide responsible and responsive County government by ensuring effective, efficient and economical administration in accordance with the County Charter, the Washington State Constitution and other applicable federal, state and local laws, as well as County policy and Executive branch initiatives.

The County Executive supervises Executive departments; enforces all ordinances and state statutes within the County; presents an annual statement of governmental affairs of the County to the Council; prepares and presents the proposed budget and budget message; prepares and presents to the Council comprehensive plans, including capital improvement plans for present and future development within the County; and nominates members of County boards and commissions

Outcomes Generated:

The County Executive oversees the County's 13 administrative departments and coordinates with elected officials who operate the remaining 6 offices. The County Executive works closely with both the Judicial and Legislative branches to ensure cooperation and coordination of efforts.

Department Budget Summary

Department: 0002 - Legislative

Department Director: Heidi Beazizo

Financial Consultant: Debbi Mock

Mission Statement:

The mission of the County Council is to enact legislative and fiscal policies that achieve efficient and effective use of tax dollars. This is accomplished by providing a framework for the county administration to carry out its work efficiently, ensuring that county government responds effectively to the community's needs.

Outcomes Generated:

The County Council is a General Fund department that provides the following services:

- Enacts fiscal and operating policy ordinances, motions and resolutions
- Provides fiscal oversight of administrative and judicial operations
- Enacts land use policies, plans and implementing regulations
- Conducts quasi-judicial appeal hearings of certain land development actions and regulations
- Approves appointments to advisory boards and commissions
- Establishes the salaries of all county employees
- Approves collective bargaining agreements
- Confirms the appointment of Executive department directors.

Department Budget Summary

Department: 0004 - Human Services

Department Director: Mary Jane Brell-Vujovic

Financial Consultant: Vanessa de Salome

Mission Statement:

The mission of Human Services is to help all persons meet their basic needs and develop their potential by providing timely, effective human services and building community.

We are a mission-driven organization guided by a core set of values, and serve as a catalyst to enhance our communities' own intrinsic abilities to support and care for their residents.

Outcomes Generated:

The Human Services Department is comprised of nine program areas funded with Federal, State and local funds which provide the following primary services:

Administration:

Direction and Management; Financial Services; Contract Processing; Administrative Support Services; Planning and Evaluation

Behavioral Health Programs:

Community Behavioral Health; Crisis Services/Involuntary Treatment; Jail Transition Services; Substance Use Disorder Treatment and Prevention

Veterans Assistance Program

Children and Family Services Programs:

Early Childhood Education and Assistance Program (ECEAP); North Snohomish County Early Head Start (EHS); Community Action Agency (CAA)

Developmental Disabilities Programs:

Developmental Disabilities; Early Supports for Infants and Toddlers (ESIT); Local Lead Agency (LLA)

Long Term Care & Aging Programs:

Long Term Care and Aging (Planning and Coordination); Support Services Administration; Home Care Services Network

Snohomish County 2025 - 2026 Budget - Executive Recommended

Management; MAC/TSOA Program Management; Area Agency on Aging (AAA)

Case Management & Home Care Services Program

Housing & Community Services Programs:

Housing & Community Development (HCD); Community and Homeless Services; Energy Assistance

Office of the Court Appointed Special Advocates

Department Budget Summary

Department: 0005 - Planning

Department Director: Mike McCrary

Financial Consultant: Debbi Mock

Mission Statement:

The Department of Planning and Development Services's mission is to enhance the quality of life for current and future generations by promoting protection of natural resources and facilitating the development of safe, sustainable and resilient communities in Snohomish County.

The PDS philosophy is centered on delivering outstanding customer service and enabling the development of attractive and sustainable communities. PDS employees strive to:

Provide the highest quality customer service;

Improve our service by adapting to the demands of a changing world; Work as a cohesive unit;

Create thriving communities;

Develop innovative and cost-effective solutions; and

Balance available resources with future growth demands.

Outcomes Generated:

The Department of Planning and Development Services contains seven organizational units, each of which contribute to the department's overarching goals.

The Long Range Planning program ensures that regional development is well-planned, safe, and sustainable. It conducts comprehensive planning in accordance with the State Growth Management Act (GMA) and assists in the preparation of clear and concise codes to facilitate development. Outcomes generated: a sound regulatory framework for sustainable economic development of the county and protection of its natural resources.

Snohomish County Tomorrow is a cooperative forum that involves the county, the cities, the towns, the Tulalip Tribes and community members in the resolution of growth management issues of countywide significance. Outcomes generated: regional consensus for sustainable economic development of the county and protection of its natural resources.

The Permitting program ensures that land development and use activities are in compliance with state law, regulations, and county code. The programs achieve this through issuance of building permits and land use approvals; residential and commercial plan reviews; and fire, building and site inspections. Outcomes generated: structures and developments that are sound, safe and contribute to economic growth of the county while sustaining our vibrant natural environment.

Snohomish County 2025 - 2026 Budget - Executive Recommended

The Office of the County Fire Marshal reduces the risk of fire loss in Snohomish County and ensures the safety of citizens and property. Staff conduct fire and arson investigations; perform fire life safety inspections; issue certificates of occupancy; regulate firework stands, displays and other special events; and monitor for wildfire risk. The office provides a vital communication link between local fire districts, the county and state government. Outcomes generated: reduced risk of fire-related events in Snohomish County and deterrence of fire accidents and criminal activity.

The Code Enforcement program contributes to safe and sustainable communities by enforcing Snohomish County codes and other regulations to ensure the health, safety and welfare of county citizens and communities. Utilizing a collaborative approach, staff conduct site visits and respond to concerns throughout unincorporated Snohomish County. Outcomes generated: reduced instances of development-related hazards, nuisances, and threats to public health and the environment.

The Administration program, comprised of the Administrative Services Division and the Director's Office, provides shared support services to enhance the department's operational efficiency. Shared services include management, budgeting, finance and accounting, contract administration, recruiting, human resources management, training, records management, public disclosure request services, and general administrative support. Outcomes generated: a strategic course for the department, the sound management of financial resources, and a modern workforce equipped to serve the county's citizens.

The Business Process and Technology program, housed in the Administrative Services Division, leverages technology to improve services provided by the department and provide public access to land use records. It manages the department's permit tracking system, GIS and mapping services, network administration, electronic records management, and business process initiatives. Outcomes generated: information and technological tools that contribute to the economic development of the county, improve the operating efficiency of the department, and provide open access to public records. This program provides the infrastructure necessary to support a modern permitting department that embraces innovation, efficiency, and customer service.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0006 - Public Works

Department Director: Kelly Snyder

Financial Consultant: V. de Salome/J. Woodard

Mission Statement:

To design, construct and maintain transportation and solid waste infrastructure that allows our growing Snohomish County community to prosper and fully enjoy its natural resources. We focus on safety and mobility while protecting and preserving our environment. By responding promptly to community needs, practicing fiscal responsibility and cultivating partnerships; we make positive impacts while taking pride in our work.

Outcomes Generated:

The Public Works Department is responsible for the development and maintenance of the transportation system and the disposal of solid waste generated within Snohomish County. The services provided in these areas are diverse, and the demand for services is directly dependent on the growth we have seen in the past and on future projected growth. This growth directly impacts the amount of traffic on the County's ~1,600 miles of roads and ~200 bridges, the amount and type of solid waste produced, the amount of storm water flows created by the development and construction of new impervious surface, and the creation of additional water pollutants, to meet service requirements.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0007 - Office of Hearings Administration

Department Director: Peter Camp

Financial Consultant: Vanessa de Salome

Mission Statement:

The Office of Hearings Administration consists of the Hearing Examiner and Administrative Hearing Clerks who support the Hearing Examiner, the Boundary Review Board, and Board of Equalization. These quasi-judicial entities are independent by statute and ordinance from the County Executive and County Council.

The Hearing Examiner provides a quasi-judicial forum to hear and decide matters assigned to the office by ordinance (1). The majority of cases involve approvals of preliminary subdivisions, variances, and conditional use permits; environmental (SEPA) appeals; appeals from administrative code enforcement determinations by the department of Planning and Development Services; and appeals from administrative determinations by animal control officers and the business license manager of the Snohomish County Auditor.

The Board of Equalization is an independent board of seven citizens that hears appeals of property valuations, property tax exemption denials, and other Assessor determinations.

The Boundary Review Board (BRB) is an independent board of five citizens. When its jurisdiction is invoked (2), the BRB reviews the creation, incorporation, or change in boundary of cities, towns, or special purpose districts to guide and control "the creation and growth of municipalities in metropolitan areas so that . . . problems [such as the rapid proliferation of municipalities, haphazard extension of and competition to extend municipal boundaries] may be avoided and that residents and businesses in those areas may rely on the logical growth of local government affecting them." RCW 36.93.010 (1967).

(1) Chap. 2.02 Snohomish County Code (SCC).

(2) RCW 36.93.100 (1994).

Outcomes Generated:

The Office of Hearings Administration provides necessary administrative and staffing support to the Board of Equalization, Boundary Review Board, citizens who participate in board proceedings, and the Hearing Examiner.

Department Budget Summary

Department: 0009 - Conservation and Nat Resources

Department Director: Tom Teigen

Financial Consultant: J. Woodard/C. Scheil

Mission Statement:

The DCNR partners with Snohomish County communities to steward resources and manage infrastructure for the purpose of protection, enhancement, use, and enjoyment of our land, air, and water now and into the future. The Division of Parks & Recreation follows this mission by conserving natural and recreational resources for current and future generations, contributing to regional economic sustainability, and enhancing the wellbeing of all Snohomish County residents and visitors through accessible and inclusive parks, facilities, and educational programs. Surface Water Management (SWM) partners with the community to reduce flood damage and to protect and enhance our water resources for future generations by providing customers with services in four core areas to address: drainage and road flooding, water quality, salmon and marine habitat, and river flooding. The Office of Energy and Sustainability leads the County's environmental sustainability initiatives, both internally and within the community and collaborates with a range of stakeholders to conserve natural resources, facilitate environmental stewardship, and develop innovative solutions that support a healthy and vibrant community. The Agriculture Office provides services to local farmers including regulatory, business, technical help, food systems, economic development, education and oversees the Agriculture Advisory Board.

Outcomes Generated:

PARKS & RECREATION DIVISION The Park Division is comprised of three program areas funded through the General Fund, which provide the following primary services: Administration - management, payroll, central reservations/registration services, facility/program marketing, office support, network administration, planning and development, citizen participation, and property management for all divisions; Operations - parkland patrol and code enforcement, routine grounds maintenance, restroom/shelter cleaning, administering camping/boat launch/shelter/yurts, fee collection, educational, recreation camps, and aquatic programs; Maintenance - skilled maintenance projects (electrical, plumbing, etc.), small improvement projects, tenant repair/improvements, preventative maintenance plan and implementation, vehicle and equipment maintenance, mowing and turf management.

EVERGREEN STATE FAIRGROUNDS The Evergreen State Fairgrounds is comprised of three program areas through the General Fund which provide the following primary services: Administration - management, payroll, office support, customer service, contract processing and fair time entertainment; Maintenance - grounds and building maintenance, repairs, improvements and landscaping to provide a clean, safe and pleasant environment for all users; Operations - contract and manage year-round facility use, fair time commercial vendors, safety and physical setup services. Combined, the Evergreen Fairgrounds produces the annual Fair, provides partnerships with the Agricultural Community and provides opportunities for education, entertainment and quality programs.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Facilities are utilized extensively throughout the year with more than 25% of revenues earned derived from non fair related events and activities.

SURFACE WATER MANAGEMENT DIVISION The Surface Water Management (SWM) division is a stormwater utility that is responsible for the management of water resources. SWM provides services for drainage, water quality, aquatic habitat, and floodplains for unincorporated areas of the county. The service area includes urban, rural, and forested lands, with two major river systems and the shoreline of Puget Sound. SWM has a staff of 107 engineers, scientists, habitat biologists, planners, technicians and support teams. Revenues to support the program come primarily from annual utility service charges on all developed properties in unincorporated Snohomish County, with lesser contributions from grants and other revenue sources.

SWM provides a wide variety of services organized in four main lines of service: Drainage & Road Flooding, Water Quality, Salmon & Marine Habitat, River Flooding. SWM also provides other services to support the four lines of service. These services include noxious weed control, GIS, data management, fiscal administration, utility billing, and program administration.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0010 - Assessor

Department Director: Linda Hjelle
Financial Consultant: Jim Woodard

Mission Statement:

Our mission is to administer a property assessment system that meets constitutional and statutory requirements in an efficient and professional manner while striving to provide excellence in service to our customers.

Outcomes Generated:

Property tax is a main component in funding taxing districts and in some cases, their only revenue. The Assessor's Office is responsible for identifying and valuing all taxable real and personal property in incorporated and unincorporated Snohomish County. The Assessor's Office also examines taxing district's budget requests and ordinances for statutory compliance and calculates the tax levy rates for each district.

In 2022 for the 2023 tax year, the Assessor's Office was responsible for valuing over 315,000 tax parcels resulting in a total taxable value of \$218,244,289,386. The value is used as a basis for calculating levy rates and distributing a total tax liability of \$1,669,849,790 which funds 68 taxing districts. These taxing districts provide core services such as fire, hospital, schools, libraries, infrastructure, cities, counties and the state. It is a base source for the general fund.

The responsibilities of the Assessor's Office also include administration of numerous exemption programs, appeal responses, maintenance of the base GIS map parcel layer, account creation and record maintenance and are core functions of County Government. Appropriately funding this office is crucial to the ability of these taxing districts to generate sustainable revenue to function.

The Assessor is required by law to set the value of taxable property at 100% of market value and to ensure that all values are in equalization. The Assessor uses multiple sales of comparable properties and mass appraisal techniques in establishing value as of a January 1st assessment date. New construction is picked up in the summer months and is valued as of a July 1st assessment date. Value of new construction provides for additional revenue to the taxing districts in which it is located.

During 2022 and the first half of 2023, the Assessor's office has continued to fill the vacancies left open during the hiring freeze implemented in 2020. We are getting closer to being fully staffed for the first time in several years. As a result, our office needs funds to train new staff to meet statutory requirements placed on appraisers and other Assessor's office staff. The additional positions added in the 2023 budget, both permanent and project, have been contributing to our efforts to complete our mandated work, reduce backlogs and complete projects.

Snohomish County 2025 - 2026 Budget - Executive Recommended

The Assessor's Office is currently converting and implementing new software to replace our appraisal (ProVal) and administrative (Ascend) systems. We are requesting program funds set aside for this process to provide staffing resources to complete the project and support our regular activities as current staff are pulled from their regular duties to provide expertise and review during conversion.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0011 - Auditor

Department Director: Garth Fell
Financial Consultant: Debbi Mock

Mission Statement:

The Auditor's Office continuously improves the delivery of services to Snohomish County customers in areas of: Recorded Document Services/Marriage Licensing; Vehicle/Vessel/Business Licensing; Animal Services; and Elections/Voter Registration Services.

The Auditor's Office works in partnership with independently elected county officials, County Council, the County Executive, appointed department heads and our stakeholders to achieve countywide goals to enhance our customers' experience by providing efficient government services.

Outcomes Generated:

The Auditor's Office oversees four distinctly different business functions for the county. These divisions share commonality by continually striving to improve public services:

Recording - legal document recording such as deeds and liens, public access to documents, and marriage licenses. Licensing - licensing of vehicles, vessels, and certain businesses.

Animal Services - animal complaint investigations, pet and kennel licenses, compliance with codes and statutes, public education and enforcement actions.

Elections and Voter Registration - primary and general elections, special elections, Presidential primaries, voter registration services, and petition signature verification.

The Auditor's Office also oversees four non-general funds that provide the following services:

Auditor's O&M Fund - dedicated funds are collected from recorded document fees for the Auditor's recording software and technology improvements. The fund also provides archival preservation grants for county offices and departments for historical/archival document maintenance, preservation and access.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Elections Cumulative Reserve Fund - dedicated funds are collected for elections equipment, software, maintaining voter registration files, producing a local voters' pamphlet, and other costs associated with conducting elections.

Animal Benefit Bequest Fund - dedicated funds are received through donations to be used for the benefit of animals in Snohomish County.

Grant Control Fund - monies received from the federal and state government for elections specific activities.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0012 - Finance

Department Director: Nathan Kennedy

Financial Consultant: D. Mock/J. Woodard/S. de Salome

Mission Statement:

The mission of the Finance Department is to provide protection and stewardship of Snohomish County's financial resources, to provide financial leadership and quality information to the staff, citizens, and communities of the County in compliance with legal requirements and policies. Through our diverse activities and duties, we are committed to reach out to County departments and other governmental agencies to cooperate in fulfilling their missions.

Outcomes Generated:

The Finance Department is comprised of division areas which provide the following primary services:

Financial Operations - Provides innovative financial and financial systems services to customer departments. The division is responsible for financial reporting, tax reporting, fiscal management policies and county disbursements (accounts payable and payroll). Administration of the countywide financial and time management systems, integration of customer departments' enterprise systems with the County's financial system, internal control consulting, work flow consulting and accounts receivable support are among the many services provided by the division. Some of those services are also provided to outside junior taxing districts.

Budget & Systems - provides budget development and analytical services, managerial financial reporting, financial analysis, consultation, and information to management and departmental clients, as well as to the Executive and Council. Designs financial system reports to serve as analytical tools for financial analysis. This division is responsible for the development and maintenance of budget, CIP, annexation analysis, cost of compensation analysis, and financial system tools which provide accurate and timely information to all levels of county government and to the public. The division also maintains multi-year financial models to highlight and analyze effects of current actions and events.

Risk Management - Uses industry standards to manage the county's risks. Programs managed include loss control, workers compensation, safety, property claims and property/liability insurance. These programs protect county resources against losses which could significantly affect personnel, property, the budget, or the ability of the county to fulfill its responsibilities.

Employee Benefits Fund - provides financial support and analysis to Snohomish County's Employee Benefits program, as well as the management of employee benefit contracts, associated payments to vendors, and tracking and collection of benefits premiums for county employees, outside district subscribers, COBRA participants, and retirees.

Purchasing Services - Manages the County established purchasing process that includes procurement, competitive solicitation, contracting and other related services for all County departments. **Public Records Services** - provides overall coordination of public records requests for the County and payment of large public records violation claims and settlements.

Department Budget Summary

Department: 0013 - Human Resources

Department Director: Rhea Reynolds

Financial Consultant: Debbi Mock

Mission Statement:

Human Resources aims to achieve the mission and vision of Snohomish County by attracting, developing and retaining peak performing employees. We accomplish our mission by working as a business partner with management and employees of Snohomish County toward resolving issues, assisting management in designing work structures, complying with varying state, federal and local laws, recruiting new employees, and recommending employee training, benefit and reward systems.

Outcomes Generated:

Human Resources provides and administers a professional system of human resources management for County employees through the development, communication and reasoned application of policies, rules and procedures and by selection and implementation of programs which improve the effectiveness and efficiency of the County's human resources.

The department's functional areas include: Employment Services, Training, Classification, Pay Administration, Employee Wellness, Employee benefits, Employee relations, Labor negotiations, Records and Information, and Staff support to human resources boards.

Department Budget Summary

Department: 0014 - Information Services

Department Director: Viggo Forde
Financial Consultant: Stephen de Salome

Mission Statement:

The Department of Information Technology delivers quality business services that empower and support our customers in the accomplishment of their missions.

Outcomes Generated:

The Department of Information Technology (IT) provides county departments and agencies with IT related central services. IT delivers services categorized into the following groups:

- Application Support
- Enterprise Applications
- Geographic Information Systems (GIS) Customer and Workstation
- Business Operations
- Enterprise Technology
- Enterprise Data Management

Services are aligned to mature the County's information and technology capabilities. Additionally, they support improvement and investment in technology, enabling departments and agencies to purchase services from IT based on very clear quality and value definitions while retaining control of tactical decisions to support their business. The leadership team delivers technology planning, reporting and governance, providing countywide IT strategic and budgetary planning, IT project investment oversight and innovation programs to meet emerging and immediate needs for our customers.

Organizational programs delivering IT services include four divisions structured into service teams.

APPLICATIONS DIVISION

Application Support: provides application administration, development, support, and maintenance for department/agency level (differential) applications.

Enterprise Application Support: provides application administration, development, support, and maintenance for applications that benefit all county departments and agencies.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Geographical Information Services (GIS): This service is designed to support the county GIS community through the development, design and support of innovative GIS technology solutions.

BUSINESS OPERATIONS AND SUPPORT DIVISION

Customer and Workstation: manages county workstation deployment, support and replacement through the Technology Replacement Program (TRP). We provide standardized, integrated software and a customer-focused Service Desk as a single point of contact for all county technology needs.

Business Operations: keeps IT business moving efficiently to meet demands in an agile way:

- IT asset management to deliver software as needed and ensure license compliance.
- Contract negotiation and vendor management, essential to reduce liability, obtain value for purchases, and define roles and responsibilities, while maintaining a professional relationship with vendors that provide great service and support.
- IT Finance and Budget supports budget development, forecasts and reporting, transparent rate allocation, acquisition, accounts payable, accounts receivable and payroll.

ENTERPRISE TECHNOLOGY DIVISION

The Enterprise Technology Services team provisions, maintains, secures and supports the countywide enterprise technology infrastructure. This serves as the foundation for delivery of business systems and IT-enabled processes. The team proactively monitors and controls county systems to maximize stability, optimize performance, and administer a comprehensive cybersecurity program focused on managing risk and securing county information assets. The goal of this service is to deliver a reliable and secure technology infrastructure aligned to business needs in a cost-effective manner.

DATA MANAGEMENT DIVISION

Data Management: comprehensive enterprise support services to align county’s approach to data management and governance, along with specialty services:

Records Management: provides record pick-up and storage, record delivery, record destruction, custom reports, and research. Provides guidance and training to county records coordinators.

Print and Mail Services: full-service print, copy, mail, and shipping services with a range of print types and media options using industry standard printshop equipment/tools. The mailroom provides mail digitization delivery services and secure parcel pickup via parcel lockers.

Enterprise Scanning: high-volume document image conversion services covering scanning of paper and microfilm records. Images are provided in several formats and include OCR capabilities.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0015 - Health Department

Department Director: Dennis Worsham
Financial Consultant: Vanessa de Salome

Mission Statement:

The Snohomish County Health Department works to spearhead efforts that protect, promote, and advance the collective health of our community through activities that are grounded in a set of foundational public health services. We believe everyone in our community deserves healthy places to live, work, and play. We are dedicated to promoting healthy habits, addressing health inequities, reducing the spread of communicable diseases, and preventing health threats to and from food, water, and the environments we live, learn, and spend time in.

Outcomes Generated:

The Snohomish County Health Department provides public health services for all of Snohomish County. We work for a safer and healthier community through disease prevention, health promotion, and protection from environmental threats.

The Health Department joined Snohomish County government in January 2023. Prior to that, local public health services were provided by the Snohomish Health District, an independent special purpose district. Former Health District staff and programs were integrated into the county, becoming the Health Department.

Office of the Director

The Office of the Director provides the services and structure to support environmental and preventive health efforts. The programs include;

- Human Resources
- Finance
- Public Health Emergency Preparedness and Response
- Epidemiology and Informatics
- Public Records and Privacy
- Communications and Policy
- Maintenance and Fleet
- Limited IT Support

Environmental Health Division

The Environmental Health division helps ensure the food, water and environment of Snohomish County are safe from health threats such as disease, pollution, pests, and other hazards. Environmental Health issues permits, responds to complaints, and ensures that health regulations such as local sanitary codes are followed.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Environmental Health charges fees for most of its services and is largely self-supporting. Septic system owners and restaurants pay for their permits, as do food handlers. Some programs also receive funding through interlocal agreements, grants and contracts with the state departments of Ecology and Health. Current Environmental Health work includes:

- Food safety
- Drinking water and wells
- Safe environments (schools, water recreation facilities, shellfish harvesting, camps, etc.)
- On-site sewage (septic)
- Solid, business and hazardous waste
- Vital records (birth and death certificates) Prevention Services Division

The Prevention Services division focuses on preventive programs for families and communities. We also focus on the prevention and control of communicable disease through education, monitoring, outbreak response, and vaccination. Public health and disease data are part of this work, as well.

Under state law, health care providers, hospitals, and laboratories are required to report certain diseases to local public health agencies. Prevention services staff receive disease reports, conduct investigations into the cause and possible spread of illness, and initiate disease control measures.

Current Prevention Services work includes:

- Immunization outreach and services
- STD/HIV prevention and response
- Viral hepatitis outreach
- Tuberculosis control
- Refugee health screening
- Communicable disease surveillance and response
- Maternal and child health
- Healthy communities
- Vaccine preventable diseases
- Child care health outreach

Department Budget Summary

Department: 0016 - Nondepartmental

Department Director: Nathan Kennedy
Financial Consultant: D. Mock/B. Haseleu

Mission Statement:

The Nondepartmental Department exists to account for expenditures which serve multiple departments.

Programs and activities include; Real Estate Excise Tax (REET), Public Advocate, E-911, Pending Grants, ARPA, etc...

Outcomes Generated:

The Nondepartmental budgets provides for performance of work or expenditure of funds that cross departmental programs. For example, payment of general items which benefit the county as a whole and do not fit directly within a service program of any specific department or organization are budgeted within the Nondepartmental organization. Most organizations within the interdepartmental agency are administered on behalf of the County Executive by the Department of Finance.

Department Budget Summary

Department: 0018 - Facilities Management

Department Director: JaNae Nelson
Financial Consultant: Vanessa de Salome

Mission Statement:

The primary mission of Facilities and Fleet is to maintain, develop, acquire, and manage County facilities, assets and properties. Our diverse team of professionals provides accessible, efficient, safe and secure county facilities and properties. Through strategic planning and performance, Facilities and Fleet works in a cooperative effort to enable our clients to provide effective services in which we take pride.

Outcomes Generated:

The Department of Facilities and Fleet provides various internal services that support the operations of other County departments, and other support services for County citizens.

These services are as follows:

Facilities Maintenance - provides maintenance, repair and contract janitorial services, building access and utilities management, capital project planning and construction administrative services for departments and agencies in various County administrative facilities and grounds, including the Denney Juvenile Justice Center (DJJC) and Courts, the Medical Examiner's Facility, Records Management Facility, Public Works Facilities and the Department of Corrections detention facilities. In 2024, the Health Department Building on Rucker and New Start Centers in Everett and Edmonds will be added to the portfolio of properties to be maintained by the Facilities division.

Property Management - provides administrative oversight and services related to County owned and leased real property, County- owned personal property including preparation of the annual inventory report, sale of County surplus properties (including tax title properties), lease and license contract negotiations, conference rooms/campus facilities use coordination and vending services management.

Parking Operations - manages the County garage and surface parking lot that provides parking for the public (including event parking for Comcast Arena), employees and jurors.

Office Planning and Move Management - provides services to County departments in reconfiguring their space needs for maximum operational efficiency.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Project Management - manages various capital and major repair projects relating to County facilities.

Employee Commuter Trip Reduction Program - provides administrative support in the registration and subsidy processing of County employees participating in the Employee Commuter Trip Reduction Program.

Fleet Management - replacement and repair of County owned vehicles and equipment..

Department Budget Summary

Department: 0021 - Airport

Department Director: Joshua Marcy

Financial Consultant: Jim Woodard

Mission Statement:

The mission of the Paine Field/Snohomish County Airport is to contribute to the economic vitality and quality of life of the region. This is accomplished by providing high quality aviation and industrial services, facilities, and interaction with customers. Customers include airfield tenants, users, neighbors and the people of Snohomish County.

Outcomes Generated:

Paine Field/Snohomish County Airport is a vital commercial aviation facility and industrial park serving the Puget Sound. Classified by the FAA as a FAR Part 139 commercial service airport, Paine Field serves up to approximately 1,000,000 passengers per year (pre-pandemic); 590 based aircraft; and 140,000 aircraft takeoffs and landings per year. There are nearly 100 businesses on or adjacent to the airport which employ approximately 50,000 locally and 158,000 statewide (WSDOT). Boeing produces the 767, 777, and soon the 737 aircraft at Paine Field. Airport lease revenue and fees cover operating expenses and development. The Airport Enterprise Fund is financially self-sufficient and uses no general fund tax dollars.

The airport's capital program is budgeted at \$44.6M for 2024. The capital program consists of \$7.5M in bonds; \$14.75M in FAA Grants; \$300,000 Passenger Facility Charge (PFC) Funds; and \$22M in local Airport Enterprise Funds. The bonds issued represent \$7.5M of a land acquisition estimated at \$12.5M. Various other programs such as equipment replacement and infrastructure maintenance will be funded by the Airport Enterprise Fund.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0024 - District Court

Department Director: Marianne Boggie

Financial Consultant: Debbi Mock

Mission Statement:

Snohomish County District Court is dedicated to serving our citizens by ensuring equal access to justice and resolving legal matters in a fair, efficient, and timely manner. We are committed to upholding the public trust and confidence in the integrity of the judiciary and the courts. We will treat everyone who comes before the court with courtesy and consideration; and will work to promote an understanding and respect for the law.

Outcomes Generated:

The District Court workload includes administration of the court, clerical services and responsibilities, and adult probation services. Workload is directly impacted by case filings which dictate the need for funding in order to process cases in a fair and timely manner. Legislation, case law, and policy changes also impact workload as they traditionally add requirements that increase the burden of case processing and management. The District Court is responsible for the timely and efficient adjudication of criminal simple and gross misdemeanors; felony probable cause matters; expedited felony filings; petitions for protection orders; petitions for name change; civil traffic, non-traffic, and parking infractions; civil filings with a ceiling of \$100,000; small claims filings with a ceiling of \$5,000; and vehicle impound hearings. This equates to over 75,000 new filings per year. With the responsibility for accepting the aforementioned filings, comes the obligation of timely and efficient adjudication, customer service, record keeping, courtroom support, sentence and judgment implementation, revenue management, and legal action reporting. Adult probation services are also administered by the District Court and is a substantial portion of the Court workload. While the primary purpose of the Probation Department is to hold defendants accountable for their court ordered conditions and provide alternatives to incarceration; Probation uses a therapeutic and holistic probation model that encompasses best practices, use of evidence-based and research-based programs, services, and cognitive behavioral trainings to more effectively monitor and assist offenders in developing skills to promote positive behavioral changes to reduce their dependence on criminal and substance abuse behaviors. Statistics have shown that probation services, such as those provided by District Court, cost approximately one-tenth of the amount of incarceration, yet prove to be as effective in reducing repeat offenses.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0030 - Sheriff

Department Director: Susanna Johnson

Financial Consultant: Jim Woodard

Mission Statement:

The Snohomish County Sheriff's Office will prioritize public trust and community safety by reducing crime through professional policing and correctional services, founded on accountability and compassion.

It is our promise that Snohomish County will have a Sheriff's Office that is community-minded, progressive and professional.

The Snohomish County Sheriff's Office is comprised of people who share a common belief and goal to provide the most progressive and professional services possible to the public. To achieve this, we must accept and adhere to basic values. These values are a vital part of the Sheriff's Office and give us the spirit and direction to achieve our goals:

INTEGRITY

We adopt an uncompromising approach to the highest ethical standards, being honest, truthful, and worthy of trust.

DIGNITY

We believe in the importance of treating others with respect and in conducting ourselves in a manner which inspires respect.

COMMITMENT

We are dedicated to the Office's Mission and Vision, to the development and support of employees and to the highest standards of professional conduct.

PRIDE

As members of this Office we are honored to serve and protect our community.

Outcomes Generated:

Our proposed budget funds the service delivery level that has been provided to county citizens based on restoration of frozen vacancies, maintaining funding for current positions, and adding staffing to our office to account for the shortfall in employees needed by our office. Our outcomes are based on the expected safety and security needs of the citizens of the county and the ability of our personnel to provide the required and expected services needed from law enforcement:

Invest in professional training and development for our personnel through:

Snohomish County 2025 - 2026 Budget - Executive Recommended

- Enhanced practical skills training to help reduce employee injury and county liability
- Formulate plan for accreditation renewal and create framework for future accreditation regeneration
- Initiate state required I-940 training in relation to our budget appropriation
- Policy and procedures developed for the launch of the Sheriff's Office body worn camera program.
- Implementation of the new Taser platform to assist with de-escalation of violent persons in crisis with minimum force applied and reduction of injuries to deputies
- Implement wellness program to help our employees deal with physical, emotional, and financial stress associated with the law enforcement profession

Provide opportunity for community input and engagement through:

- Increased communication through social media platforms
- Creation of SCSO Community Advisory Board for input on development of community engagement strategy
- Continued focus on delivery of professional service within provided resources
- Continued community engagement through the Sheriff's Lead the Way program.
- Increased communication and engagement with the community through the America's Promise Project

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0031 - Prosecuting Attorney

Department Director: Jason Cummings

Financial Consultant: Jim Woodard

Mission Statement:

It is the mission of the Snohomish County Prosecutor's Office to fulfill its legal and constitutional obligations to the citizens of the County and State; to vigorously, fairly, and efficiently prosecute those who commit crimes in Snohomish County; to represent the County in civil litigation; to provide high quality professional advice and service to Snohomish County and State of Washington governments; and to be knowledgeable advocates for improvements in the justice system.

Outcomes Generated:

The Prosecuting Attorney's Office outcomes are generated in three primary program areas:

Criminal - The Criminal Division is responsible for prosecuting all adult felony cases and juvenile criminal cases occurring within Snohomish County, and all adult misdemeanor and gross misdemeanor cases referred by the County Sheriff, the State Patrol, all state agencies, and some cities that have contracted with the county for misdemeanor prosecution services. The Criminal Division participates in Drug Court for adults, and has a deputy prosecutor assigned to the Snohomish Regional Drug and Gang Task Force as well as the Auto Theft Task Force. The Criminal Division provides advocacy services for crime victims. Also, the Criminal Division manages a Therapeutic Alternatives to Prosecution ("TAP") program which holds qualified and eligible first-time offenders accountable for their offenses while avoiding the costs of case filing, court, and incarceration.

Civil - The Civil Division acts as the in-house legal counsel for Snohomish County. The Civil Division represents the County and its employees, as appropriate, in civil litigation in Federal and State courts, arbitrations, mediations, administrative hearings, and appeals. The Civil Division also provides its County clients with a broad range of other legal services, including informal and formal advice, risk management advice, and preparation and review of a broad variety of legal instruments. The Civil Division also represents the mental health division of Human Services in involuntary commitment proceedings.

Family Support - The Family Support Division litigates issues regarding child support in cases referred by the State Department of Social and Health Services, Division of Child Support and defends D.C.S. in actions brought against them. Family Support program expenditures are reimbursed by a combination of state and federal pass-through funds.

Department Budget Summary

Department: 0032 - Office of Public Defense

Department Director: Jason Schwarz
Financial Consultant: Vanessa de Salome

Mission Statement:

It is the mission of the Office of Public Defense to provide indigent defense services in a manner that complies with constitutional and statutory requirements and is cost effective. These services include indigency screening to determine eligibility for services, assignment of counsel, pre-trial assessments, management and compliance review of indigent defense contracts, and management of expert and investigation costs and fees mandated for indigent defense.

Outcomes Generated:

The office shall be responsible for administration of an assigned counsel program to provide indigent defense services in those criminal and civil cases in which loss of liberty is a potential outcome. This includes the management of attorney contracts for indigent defense services, as well as the mandated costs associated with experts and investigators for indigent defense. The office shall also be responsible for administration of a system for providing the court with information pertaining to the setting of bail and release of offenders pending trial.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0036 - Superior Court

Department Director: Andrew Somers

Financial Consultant: Debbi Mock

Mission Statement:

The mission of the Snohomish County Superior Court is to actively manage the business of the court so as to provide for fair, prompt, and efficient resolution of disputes; by assuring due process and individual justice in each case; and maintaining the independence and parity as an equal branch of government. Snohomish County Superior Court serves the public by adjudicating criminal and civil cases while also providing mandated services which enable citizen's ready access to justice. The Juvenile Court works with community youth who are involved with the criminal justice system, civil action and dependency cases. Through many avenues the staff provides a wide range of evidence based programs and accountability for the youth in the juvenile justice system.

Outcomes Generated:

The following factors have a direct impact on Superior Court's workload. Case filings are the primary catalysts which dictate the need for county general fund in order to process cases in a fair and timely manner. Growth in general, and specifically population growth, density, commerce, criminal arrests and referrals, legislation, state and local agency policies, and other social and economic factors impacts case filings.

In Juvenile Court, major factors in determining workload and budget impacts include level of state funding, the average daily population in Detention, gender, number and classification of detention bookings, number of offender referrals and the number of cases filed.

Snohomish County 2025 - 2026 Budget - Executive Recommended

Department Budget Summary

Department: 0037 - Clerk

Department Director: Heidi Percy
Financial Consultant: Stephen de Salome

Mission Statement:

The mission of the County Clerk is to maintain the Superior Court record and provide excellent service to citizens and the court by ensuring:

1. The integrity of and access to the Superior Court record;
2. Accountability of court funds; and
3. Prudent stewardship of public resources entrusted to us.

Outcomes Generated:

The core outcomes generated by the Clerk include maintaining Superior Court case records in perpetuity and providing court records and information that is secure, accurate, timely, and accessible.

Court Funds

The Clerk is the financial officer for Superior Court. This mandated duty includes collecting, managing, and disbursing fees, fines, restitution, and trust funds. Annually, the Clerk accounts for and administers more than \$31 million including more than \$24 million in court registry funds. Program 232 (Judicial Accounting / Judgments) narrative provides detailed information regarding this division's activities.

Court Records and Access to Justice

The Clerk is statutorily required to ensure court records and exhibits are accessible to the public. As "keeper of the court record", the Clerk's statutory responsibilities include accepting and processing all Superior Court new case filings and subsequent pleadings filed both in electronic and paper form. These filings include more than 20,000 new cases filed annually and over 430,000 court documents filed and processed annually which requires accurate and timely entry of information into the state's case and document management system (Odyssey). Program 233 (Case Management) and Program 237 (Juvenile) narratives provide detailed information regarding these mandated duties.

Customer Services

The Clerk assists agencies and citizens of Snohomish County who seek information on court processes and access to the court record. This encompasses in-person services, telephone contacts, and electronic requests for information and services;

Snohomish County 2025 - 2026 Budget - Executive Recommended

additional mandated services include issuing writs, subpoenas, warrants, certified copies, and other duties. Further, the Clerk provides procedural assistance to self-represented litigants on family law and guardianship processes; as well as instructional information/resources to those seeking domestic violence, harassment, extreme risk, stalking, sexual assault, and vulnerable adult protection orders. Program 236 (Customer Services) narrative provides detailed information regarding these duties.

Judgments

The Clerk is statutorily required to enter and keep a public record of all judgments. This includes the original judgment, amendments and any subsequent partial- or full-satisfactions. Judgments are the official decision rendered by the court and details the award of money or property. Judgments are an integral part of the escrow process in real estate transactions and serve as the basis for subsequent court proceedings, such as foreclosures or garnishments. Program 232 (Judicial Accounting/Judgments) narrative provides detailed information regarding these mandated duties.

Courtroom Support and Jury Management

The Clerk is responsible for attending and creating an independent record of all hearings and trials in Superior and Juvenile court. This encompasses creating contemporaneous minutes and exhibit indexes, marking, and maintaining control of exhibits, receiving jury verdicts, and jury management for the Superior and District Courts. Program 235 (Courtroom Operations) narrative provides detailed information regarding these mandated duties.

Administrative Services

The Administration Division manages and supports all divisions of the Clerk’s Office by providing policy, planning, managerial and administrative support, and budgetary direction. Additionally, this division responds to time-sensitive requests from Snohomish County and Superior Court Administration, the Washington State Administrative Office of the Courts (AOC), and the Law and Justice Community as a whole. Day-to-day operations in Administration ensure that critical functions are achieved while minimizing the impacts on operational staff. Program 231 (Administration) narrative provides detailed information regarding these mandated duties.

Department Budget Summary

Department: 0038 - Sheriff's Corrections Bureau

Department Director: Susanna Johnson

Financial Consultant: Jim Woodard

Mission Statement:

The Mission of the Snohomish County Sheriff's Office is to provide safe communities through dedicated and professional services.

It is our promise that Snohomish County will have a Sheriff's Office that is community-minded, progressive and professional.

The Snohomish County Sheriff's Office is comprised of people who share a common belief and goal to provide the most progressive and professional services possible to the public. To achieve this, we must accept and adhere to basic values. These values are a vital part of the Sheriff's Office and give us the spirit and direction to achieve our goals:

INTEGRITY

We adopt an uncompromising approach to the highest ethical standards, being honest, truthful, and worthy of trust.

DIGNITY

We believe in the importance of treating others with respect and in conducting ourselves in a manner which inspires respect.

COMMITMENT

We are dedicated to the Office's Mission and Vision, to the development and support of employees and to the highest standards of professional conduct.

PRIDE

As members of this Office we are honored to serve and protect our community.

Outcomes Generated:

Our proposed budget funds the service delivery level outlined in our strategic plan. We have prioritized and believe we can attain desired outcomes:

Invest in professional development for our employees through:

- Enhancements to and implementation of safety initiatives

Snohomish County 2025 - 2026 Budget - Executive Recommended

- Maintain accreditation certification
- Improved internal communication and support
- Leadership development and mentoring program

Provide opportunity for community engagement through:

- Expanding our marketing platform
- Development of sustainable community-focused programs
- Continued focus on delivery of professional service

Implement efficiency measures through technology and innovation:

- Search out opportunity for software and related workflow improvements
- Robust research and planning for next-generation hardware evolution

Department Budget Summary

Department: 0039 - Dept Emergency Management

Department Director: Lucia Schmit
Financial Consultant: Vanessa de Salome

Mission Statement:

Be leaders and integral partners in all five phases of emergency management (prevention, mitigation, preparedness, response, and recovery); and support efficient, reliable, and integrated 911 service to enhance the resilience of Snohomish County.

Outcomes Generated:

- A comprehensive emergency management plan (CEMP) that enhances the county's ability to respond to disasters by coordinating departments', partners', and jurisdictions' efforts.
- Coordinated pre-disaster mitigation and preparedness/outreach efforts that reduce risk to life and property and educate the whole community about how to prepare for hazards, respectively.
- Coordinated post-disaster recovery efforts that leverage partnerships and resources to ensure the timely return to a "new normal" following a disaster.
- Maintenance of an emergency operations center (EOC) that, when activated, provides County leadership with situational awareness and acquires and allocates necessary resources to support emergency responders.
- Delivery of training and exercises that promotes improved capabilities in all facets of emergency management and tests/validates the plans and procedures of DEM and its partners.
- Interoperable communications that allow us to communicate with local, state, and federal emergency management agencies.

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

Preface

The 2025 – 2030 Capital Improvement Program (CIP) is a component of the 2015 Capital Facilities Plan. This Snohomish County Executive’s Recommended CIP was forwarded to the Council for their adoption on September 04, 2024, in conjunction with the Executive’s 2025 – 2026 Biennial Recommended Budget.

The Plan was submitted to the Snohomish County Planning Commission for their review in a public hearing on August 27, 2024.

Chapter I: Introduction and Background

Snohomish County adopts a six-year Capital Improvement Program (CIP) as part of the budget process. While the CIP is a component of the Capital Facilities and Utilities Element of the Comprehensive Plan, it is a physically separate document that fulfills two separate, but related, responsibilities of the County under state and local law:

1. The Snohomish County Charter requires adoption of a CIP for all county facilities as a part of the budget process. This six-year capital plan includes 2025 and 2026 budget elements as the first biennium of the CIP and projected elements for the years that follow.
2. In addition, the state Growth Management Act (GMA) requires adoption of a six-year financing program “that will finance . . . capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes.” RCW 36.70A.070(3)(d).

Pursuant to [Snohomish County Code \(SCC\) 4.26.024](#), the County combines the CIP required by the charter and the six-year financing program required by the GMA into one document.

The CIP document fulfills the County’s financial planning responsibilities under two separate mandates. It includes discussion and analysis of public facilities necessary to support development under the Growth Management Act (GMA facilities), as well as other public facilities and services that are provided by the County but are not “necessary to support development” (non-GMA facilities). The CIP distinguishes between GMA and non-GMA facilities, as does the 2024 update to the comprehensive plan, because the GMA requires additional analysis to determine whether funding meets existing needs in those services that are necessary for development.

The CIP includes a six-year capital construction and investment program for specific projects. It also includes purchases for public facilities and services owned by the County. The CIP specifies revenues that will finance such capital facilities within projected funding capacities. Part of the function of the CIP is to clearly identify sources of public money for such purposes. The CIP incorporates by reference the annual Transportation Improvement Program (TIP) and its supporting documents for the surface transportation capital construction program. The CIP also includes a determination, for GMA facilities, consistent with [RCW 36.70A.070\(3\)\(e\)](#) and [RCW 36.70A.020\(12\)](#)(Goal 12), as to whether probable funding and other measures fall short of meeting existing needs as determined by the adopted minimum level of service standards. If funding and other measures are found to be insufficient to ensure that new development will be served by adequate facilities, the GMA requires the County to take action to ensure that existing identified needs are met. This process is known as “Goal 12 Reassessment” and is discussed in Chapter V.

The 2025-2030 CIP divides the County’s capital projects into three broad categories: 1) General Governmental; 2) Transportation; and 3) Proprietary. General Governmental activities are primarily tax and user fee supported and are organized by facility type. Several departments are represented in the general governmental category, including Conservation & Natural Resources/Parks and Recreation, Information Technology, and Facilities Management.

The GMA calls for transportation to be examined as part of the Transportation Element of the comprehensive plan. The Transportation Element is implemented by the separately adopted 2025-2030 Transportation Improvement Program (TIP). The TIP should be referred to for any details regarding the location and timing for specific transportation projects. Summary information for transportation projects is also included in this document solely for coordination with other capital facility programming to facilitate a comprehensive look at the County’s capital financing needs.

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

Proprietary activities rely primarily on fees generated from the sale of goods and services for their operations. The proprietary category includes Conservation & Natural Resources/Surface Water, Solid Waste and Airport.

The process for developing the County’s CIP is integrated with the budget development process. During the budget preparation process, departments submit their requests for capital dollars, including major capital facility project requests. This information is transmitted to the County Finance Department, which updates the database and works with departments to refine figures and develop improved maintenance and operation costs. The County Executive then develops a recommended CIP for presentation to the Council as part of the biennial budget. Starting in 2025, the County will be transitioning from an annual to biennial budget process.

Chapter II: Financing Strategies

Capital funding for general government, transportation, and proprietary projects emanates primarily from operating revenues, grants, local improvement districts, latecomer fees, and mitigation fees. General governmental, transportation, and proprietary operations all use such debt financing strategies as bonding and leasing to help fund improvements. At this point the similarities between general governmental and proprietary capital projects end.

In Washington State it is generally easier to fund proprietary capital improvements than general governmental improvements. Should a council decide that it is in the municipalities' best interest to carry out a proprietary improvement; it may unilaterally elect to increase charges for commodities like surface water, solid waste tipping fees, or airport leases.

In the general governmental area however, Washington state law limits: 1) The sources municipalities can use to raise funds for capital improvements; 2) The tax rates that can be charged to raise funds for capital improvements; and 3) The amount of general obligation debt (capacity) that can be issued to raise funds for capital improvements. Another complicating factor in general governmental capital funding is reliance on voter approved bond issues. This creates uncertainty regarding if, and when, certain improvements will take place.

After reviewing the extensive list of capital requests submitted by departments, and comparing them with anticipated revenues, it is apparent that financing capital needs will be challenging in future years. In response, the 2025-2030 CIP adopts the following general strategies.

General Strategies

Looking across all department lines, the program calls for:

1. Non-“brick & mortar” solutions be utilized wherever possible;
2. Similar departmental capital needs be combined wherever possible for efficiencies and cost savings;
3. Stretch Real Estate Excise Tax (REET) dollars by issuing intermediate term bonds;
4. Existing resources be fully utilized prior to the purchase, or construction of new facilities;
5. Revenue generating activities move to funding capital improvements from receipts, rather than relying on REET or General Fund revenues.

Snohomish County's six-year capital financing plan utilizes Real Estate Excise Taxes (REET), voter approved issues, General Fund, special revenue funds, enterprise funds, internal service funds, and other RCW allowed sources.

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

Voted Issues

Voter approved issues add a level of uncertainty to funding capital projects. If the voters vote no, the revenue required to fund the project would not be available. The 2025-2030 CIP proposes no voter-approved issues. For information purposes, Table 1 indicates possible election dates and the date Council approved and Executive signed ordinances are due to the County Auditor during the period 2025-2030 that would be critical if the County sought to put voter approved issues on the ballot.

Table 1. Future Election Dates and Related Milestones

Financing Method

Below is a description of the various revenue sources used to fund the Capital Improvement Program. The County Council must appropriate all revenue sources before they are used on a capital project.

Table 2: Description of Revenue Sources

Method of Funding	Description
REET I & II	Real Estate Excise Taxes (REET) are taxes applied to sale of real estate. In unincorporated areas, the County collects an amount equal to 0.5% of the transaction. The proceeds are divided equally between REET I and REET II. REET I may be used for planning, acquisition, construction, repair or improvement of roads, surface water, parks, law enforcement, fire protection, or County administration projects. REET II may be used for planning, acquisition, construction, repair or improvement of roads, surface water, or parks projects. Projects must be included in the Capital Improvement Program to qualify. (See Exhibit 4).
General Fund	General Fund appropriations are funds appropriated by the County Council from the County's General Fund. General Fund revenue supports general government services including most law and justice services. Sources of general fund revenue include property taxes, sales tax, fines, fees, and charges for services and investment earnings.
Special Revenue Funds	Special Revenue Funds, like the General Fund, derive revenue from taxes, charges for services, and other general governmental sources such as state shared revenues. Unlike the General Fund, Special Revenue Fund expenditures are limited by statute or ordinance to specific purposes. The Road Fund, Brightwater Mitigation Fund, and Planning's Community Development Fund are examples of Special Revenue Funds.

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

Method of Funding <i>(continued from prior page)</i>	Description
Debt Proceeds	In many instances, the County funds a major capital improvement with short term or long-term debt. An example in this CIP is the Campus Redevelopment Infrastructure (CRI). The County will identify a stream of revenue within its budget for paying debt service. Sources of this stream of revenue include the other fund elements referenced within this exhibit. In the instance of the Campus Redevelopment Initiative, the County is funding debt service through appropriations from REET I and the General Fund.
Proprietary Funds	Proprietary Funds include the following funds: Solid Waste, Airport, Surface Water Management. Each of these proprietary funds has a dedicated source of revenue that may be appropriated by the County Council for capital projects. Sources of proprietary funds include fees, taxes, grants, local improvement district charges, impact fees, investment earnings, and charges for services rendered.
Councilmanic Bond Funds	Councilmanic Bond Funds are proceeds of debt authorized under the authority of the County Council. While limits exist for Councilmanic and Voted Bond funds, the County's level of related bond debt is well below limits in both categories.
Voted Bond Funds	Voted Bond Funds are the proceeds of debt authorized through a public election.
Mitigation Fees	Mitigations Fees are fees charged to new construction projects within the County. The proceeds are used in Roads and Parks Special Revenue Funds to pay for construction and land purchases that respond to impacts from growth within the County.
Other Funds	This designation of funding for CIP projects includes specific funds that are not specifically identified in the CIP because of their size. Revenues from these funds must meet the same tests as other fund sources for revenue adequacy.
Prior Year Appropriations	When capital construction fund amounts are set aside from prior year appropriations, they are being reserved for projects referenced within the CIP. However, since the projects are not complete and portions or all of the related expenditures have not yet been made, the projects still are included in the CIP. The amounts are shown as funding sources in the year that they will be expended.

Revenue Estimates

Many sources of government revenue are fairly predictable (e.g., property tax). However, some revenue sources (e.g., federal and state grants) are difficult to predict on a case-by-case basis but can be reasonably predicted in the aggregate. Future year revenues are predicted based upon known commitments and historical trends adjusted for specific economic or other relevant information. The qualitative objective in projecting future revenues available to fund CIP projects is to estimate a reasonable and probable level of future funding.

Chapter III: 2025-2030 CIP Project Summary

This section presents a summary of capital projects contained in the 2025-2030 Capital Improvement Program. It provides several facets of information presented by departments.

Capital Definition

The following rules were used in identifying projects other than real property purchase or improvements that are included in the CIP:

1. Individual pieces (and replacement) of equipment with costs of less than \$50,000 are not included;
2. Large automated systems are regarded as single pieces of equipment;
3. Repair or maintenance expenditures are not included unless an expenditure significantly enhances the value of the property;
4. REET expenditures are included;
5. Where possible, like projects from one department are aggregated into a single CIP project.

Capital projects can be classified in the following categories:

Table 3: Classification of Departmental Projects by Category

Category	Department/Program	Sub-Category
General Governmental	Facilities Management Information Services Technology Plan Equipment Rental & Replacement	General Services
	Conservation & Natural Resources	Parks and Recreation
	Corrections Sheriff 800-Megahertz Project	Law Enforcement
	Non-Departmental	REET Debt Service
Transportation	Public Works Roads	Ground Transportation
Proprietary	Conservation & Natural Resources	Surface Water
	Public Works Solid Waste	Solid Waste
	Airport	Airport Investments

On the following pages, five exhibits present various fiscal summaries of the 2025-2030 Capital Improvement Program. Exhibit 1 summarizes improvements by category and type. Exhibit 2 summarizes all projects by revenue source. Exhibit 3 compares multiple years’ investment in infrastructure. Exhibit 4 lists REET funded projects and is also sorted by the department requesting funding for the project. Exhibit 5 includes projects by County department.

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

Projects by Classification

The following matrix provides a high-level description of projects within this Capital Improvement Program (CIP) by sub-category classification.

Table 4: Description of Projects by Classification

Sub-Category	Summary Description of Projects Included in the CIP
Park Land and Recreational Facilities	Parks and Recreation (a division of Conservation & Natural Resources) CIP projects are centered on four main priorities: meeting level of service (LOS) (largely funded through park impact mitigation fees, REET, and grants), taking care of existing assets (e.g. pavement preservation, playground replacement and renovation of existing parks), expansion of revenue producing amenities, and development of a regional trail system. Whenever possible, grant funds and other outside funds are sought to support park capital improvements and significant funding has been provided in the past from the Washington State Recreation and Conservation Office, donations and other sources.
REET Debt Service	Snohomish County allocates Real Estate Excise Tax (REET) funds within the Capital Improvement Program to provide debt service for its outstanding Limited Tax General Obligation Bonds. These bond issuances have been used to finance a variety of County capital needs, including a new Courthouse addition, a number of County facility remodels, various County Parks projects, and the Campus Redevelopment Initiative (CRI) which included a correctional facility, parking garage, and administration building.
Surface Transportation	<p>The Department of Public Works (DPW) – Transportation and Environmental Services (TES) division’s Transportation Improvement Program (TIP) includes a wide variety of capital projects that are grouped into several categories:</p> <ul style="list-style-type: none"> A. <u>Miscellaneous Engineering & Studies</u>: This category funds preliminary project planning, feasibility studies, and specialized reviews associated with initial project development; B. <u>Preservation/Overlay & ADA</u>: DPW uses a pavement management system that provides a systematic approach to lengthen roadway life through timely maintenance and preservation. Overlay projects and the associated ADA ramp upgrades are programmed in this category. Also budgeted here is the County’s ADA transition program and County contributions to local agency projects; C. <u>Non-Motorized/Transit/High Occupancy Vehicle</u>: This category funds projects to promote active transportation and improve multi-modal connections along major roadways and in growing urban areas. Improvements enhance walking conditions along popular routes between schools, transit stops, and residential and commercial areas. These facilities help to ensure resident safety, reduce vehicle trips, and improve access to public transportation and park and ride opportunities; D. <u>Traffic Safety/Intersections</u>: These projects provide safety improvements at spot locations and are designed to improve traffic flow and eliminate hazards. Projects include turn lane additions, neighborhood traffic calming devices, traffic signals, guardrail installation, road bank stabilization, and flood repair projects; E. <u>Capacity Improvements</u>: Projects in this category are designed to increase vehicle carrying capacity on the county arterial system and provide satisfactory levels-of-service to meet transportation system concurrency requirements. Projects include corridor widenings, new alignments, and major intersection improvements; F. <u>Bridge Replacement and Rehabilitation</u>: This category funds the replacement or rehabilitation of deficient county bridges identified through federal and state inspections; G. <u>Drainage</u>: Drainage projects improve and preserve drainage infrastructure on the county road system. A component of this category is replacement of culverts under county roads to improve fish passage.

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

Sub-Category	Summary Description of Projects Included in the CIP
Airport Facilities	<p>Many Snohomish County Airport (Paine Field) capital projects are multi-year construction projects and respond to existing or prospective customer needs that preserve and increase the asset and revenue base of the Airport. These include airfield upgrades; new building construction; road construction for improved transportation access to these new developments; and miscellaneous repairs to existing facilities and infrastructure. Aviation-related capital improvements may be eligible for funding from two sources; grant funding from the Federal Aviation Administration (“FAA”) at 90%; and/or from local Passenger Facility Charges (“PFC”) which is at \$4.50 per enplaned passenger. Local PFC funds are restricted to FAA approved projects only. The FAA funds runway and safety improvements, obstruction removal and other capital projects to meet or maintain FAA standards and preserve or enhance capacity.</p>
Technology Plan	<p>Capital projects for Information Technology (IT) typically involve multi-year efforts to upgrade or replace the technology systems of Snohomish County. The County uses a 36-month IT strategic plan to define the priorities for technology investments, and they plan these priorities in conjunction with customer agencies who propose projects to advance those strategies. Over the next six years, most capital projects will focus on “application modernization” –modernizing and replacing aging legacy applications in order to support more efficient and effective operations and services. Details about both current projects and future IT strategies are published in IT’s annual report as required by County code.</p>
Surface Water Management	<p>Projects of Surface Water Management (SWM) (a division of Conservation & Natural Resources) are undertaken for the purposes stated in Snohomish County Code. The projects reduce drainage problems, improve aquatic habitat, improve the water quality of the County’s drainage systems and local streams and lakes, address local drainage and flood protection needs, as well as respond to Federal mandates to protect habitat and water quality under the Endangered Species and Clean Water Acts.</p> <p>SWM’s six-year CIP (2025-2030) continues to implement drainage, water quality, aquatic habitat and river protection projects as follows:</p> <ol style="list-style-type: none"> <li data-bbox="526 1121 1429 1304">1. <u>Flooding, Erosion & Habitat Restoration Projects</u>: The Stream and River Capital sub program includes river, sediment, and erosion control projects on large rivers, and feasibility analysis, design and construction of projects to restore or improve habitat and water quality in rivers and streams. This Program operates and maintains dikes and levees within the county and works with FEMA to mitigate future property losses through the acquisition, elevation, or relocation of risk-prone structures. <p>Habitat restoration capital efforts are focused on implementation of the County’s Salmon Recovery Plans organized around WRIA 5 (Stillaguamish), WRIA 7 (Snohomish) and WRIA 8 (South County Lake Washington) and implementation of project recommendations from the Sustainable Lands Strategy (SLS) process.</p> <li data-bbox="526 1451 1429 1915">2. <u>Drainage, Fish Passage and Water Quality Projects</u>: The Drainage, Fish Passage and Water Quality Capital sub program provides engineering planning and analysis, project design, and project construction to solve drainage problems, improve culverts for fish passage, and improve water quality throughout the County. The projects include upsizing culverts or drainage systems, installing new drainage or infiltration systems to reduce road flooding, and retrofitting drainage and stormwater facilities to increase stormwater detention and /or improve water quality. This program has four main components: <ul style="list-style-type: none"> <li data-bbox="574 1703 1429 1818">• Drainage and Flooding Reduction projects: These projects resolve neighborhood and basin wide drainage and road flooding problems. The projects are developed from drainage complaints, referrals from other County departments and divisions, Master Drainage Plans and other engineering studies; <li data-bbox="574 1829 1429 1915">• Fish Passage Improvement projects: This includes the development and implementation of a program to replace existing fish blockage culverts with systems that allow and encourage fish passage;

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

Sub-Category	Summary Description of Projects Included in the CIP
	<ul style="list-style-type: none"> • Master Drainage Planning, basin planning, and Water Quality Facility Planning: This program includes analysis of specific geographic areas and preliminary design to resolve existing and predicted future drainage, water quality and habitat problems; and • NPDES and water quality-focused projects: These projects include retrofitting stormwater facilities to improve water quality and improving County drainage systems to reduce water quality problems.
Solid Waste Facilities	<p>The Solid Waste Division (Public Works) 2025-2030 CIP identifies the following projects:</p> <ul style="list-style-type: none"> • ARTS H2S Mitigation Installation. (2025) • SWRTS Scale House Roof and HVAC Replacement: (2025) • NCRTS Transfer Station Replacement Feasibility Study: (2025) • NCRTS Leachate System Improvements: (2025) • NCRTS Property Acquisition – Recycle Area: (2025-2028) • ESS Building K Retrofit/Building M Replacement: (2025) • Intermodal Facility Property Improvements Phase II: (2025-2027) • CWRTS Tip Floor Replacement: (2025) • Diesel-Electric Loader: (2025) • Excavator: (2025) • Scale Automation Software RFP / Procurement: (2025) • Sisco Landfill Closure Design/Permitting: (2025-2026) • Intermodal Facility Property Improvements: Phase II: (2025-2027) • Intermodal Facility (IM) Burlington Northern Santa Fe (BNSF) Re-alignment: (2025-2029) • Sisco Landfill Closure Design & Construction: (2026)
General Government Facilities	<p>Facility capital projects are planned and prioritized in alignment with the department strategic plan and the latest facility condition assessment report. The County is also planning capital improvement projects which support compliance with the Clean Buildings Act. The County is in the planning and design phase of the construction of Arlington Operations Center to house the road maintenance and fleet services divisions servicing the north county area. The County's general government facility inventory is growing and the programmatic and operational needs within each facility are growing, ths the County will see a correlating rise in capital needs. Many of the capital projects are multi-year stewardship projects focused on sustainable preservation of capital assets.</p>
Fleet Services	<p>Fleet Services' 2025-2030 CIP consists of equipment replacement for individual equipment costing over \$50,000. On-going efforts to electrify the fleet where feasible and appropriate continue.</p>

Chapter IV: Departmental Capital Improvement Program Detail

Descriptions, justifications, projected costs, and funding sources for each project are summarized in this section. The order that the worksheets are presented is determined by the County department initiating the request and by the fund of that department.

Similar projects from one department are sometimes aggregated into a single Capital Improvement Project. They may be grouped into a single project because of a similar purpose, type of expense, and funding source. Detail on transportation projects of this nature, on a project-by-project basis, is included in the County's 2025-2030 Transportation Improvement Program.

Funding source is driven by the year of project expense rather than the year of funding receipt or project authorization.

2025-2030 Capital Improvement Program – Executive Recommended
Change Request Summary

Department	0006 - Public Works
Change Request	AUTO - 313 - 102 - CIP Capital (Non ACP/TIP)
Change Request Type	CIP - Capital
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:55 PM (PDT)
	CIP capital projects (outside the ACP/TIP) for County Road Fund include:
	1 - Cathcart Park and Ride
	2 - Cathcart Seismic Building Improvements
Description	3 - Cathcart Offices and Keyless Entry
	4 - Cathcart Lighting Materials Yard
	5 - Cathcart Paving Materials Yard
	6 - Road Maintenance Equipment
	7 - Cathcart Landfill Solar Project
Summary	CIP capital projects (outside the ACP/TIP) for County Road Fund include:
	1 - Cathcart Park and Ride
	Public Works sold the Cathcart South property in 2021 – now referred to as Cathcart Crossing. A condition of the sale was that the developer construct a 150-stall park & ride on the County Road Fund owned property. The park & ride is not required to be constructed until the third phase of development which is projected to be in late 2024. The proposed budget is for potential ancillary facilities associated with the park & ride.
	2 - Cathcart Seismic Building Improvements
	In 2021-2022 an evaluation was performed by a consultant (KPPF) on the seismic stability of nine (9) Public Works Facilities. In 2023 KPPF performed development of conceptual retrofit schemes. In early 2024 they completed the rough order of magnitude (ROM) estimates of the cost to construct the retrofits. The proposed budget is for building retrofits at Cathcart Building A and Cathcart Building C.
	3 - Cathcart Offices and Keyless Entry
	Finish ongoing updates to Cathcart offices, including update of the former Noxious Weeds room. Add keyless badge entry to multiple locations.
Justification	4 - Cathcart Lighting Materials Yard
	Add lighting to the Cathcart materials yard.
	5 - Cathcart Paving Materials Yard
	Paving the Cathcart materials yard.
	6 - Road Maintenance New Equipment
	Anticipated equipment needs include:
	-Two (2) Van Body Trucks for Surface Water Crews
	-Two (2) trucks for general maintenance
	-Three (3) Auger sanders for Double Axle Dump Trucks
	-Two (2) Expressway plows for Double Axle Dump Trucks
	-One (1) box scraper for Bobcat
	-One (1) Dingo drilling machine and trailer for traffic
	-One (1) Grapple attachment for mini-excavator
	7 - Cathcart Solar Project
	For over 10 years Public Works has been collaborating with our local electric utility, Snohomish County Public Utility District No. 1 (SnoPUD) on a project at Cathcart Way Operations Center, (1) to design and permit up to a modular 5 MW solar and battery storage project, (2) construct up to a 500 kW system with 2,400 kWh battery energy storage system. The proposed budget is to complete items (1) and (2) if grant funding can be secured.

Change Request Summary

Department	0006 - Public Works
Change Request	AUTO - 384 - 102 - Transportation Improvement Program
Change Request Type	CIP - Capital
Change Request Status	Executive Recommended
Publish Date	Aug 01, 2024 10:40 AM (PDT)
Description	<p>The Annual Construction Program (ACP) is updated each year along with the six-year Transportation Improvement Program (TIP) to specify the transportation capital program in accordance with the adopted Comprehensive Plan, which sets the stage for future land use and growth through 2035. To meet the needs of an estimated 238,000 new residents, the ACP & TIP provides for new and/or enhanced capital improvements to create a viable arterial network.</p> <p>The 2025 ACP and County Road Fund expenditure budget includes construction of grant-funded transportation improvements. In addition, the capital program continues to invest in pavement preservation, ADA, safety, and non-motorized programs. The ACP continues to stretch and leverage local Road Fund dollars.</p>
Summary	<p>ANNUAL CONSTRUCTION PROGRAM COMPONENTS:</p> <p>This package describes the capital road construction program and provides staffing support, consultants, and contract services necessary to design, acquire right-of-way (R/W), and construct capital improvement projects. These projects will provide for a safe, efficient transportation system that meets the growing needs of Snohomish County residents and businesses. The ACP includes the following categories:</p> <p>A. ENGINEERING & STUDIES. This category funds preliminary project planning and specialized reviews directly associated with the ACP projects needed to ensure transportation infrastructure meets the County's growing needs.</p> <p>B. PAVEMENT PRESERVATION AND REHABILITATION PROGRAM. Snohomish County uses a Pavement Management System, which provides a systematic approach to lengthen roadway life by timely preservation and maintenance. When road reconstruction is warranted, these projects fall under this category along with the associated ADA ramp upgrades. Additionally, implementation of the County's ADA Transition Plan is budgeted here.</p> <p>C. NON-MOTORIZED/TRANSIT/HIGH OCCUPANCY VEHICLE. This category funds projects to improve pedestrian and multi-modal connections along major roadways and in growing urban areas. Projects seek to improve walking conditions along popular routes between schools, transit stops, and residential and commercial areas. Safer walking conditions make it easier for citizens to take advantage of alternative modes of driving. Well-planned connections promote an area's vitality and sense of community. This category includes the County's payments to Community Transit for the Curb the Congestion program.</p> <p>D. TRAFFIC SAFETY/INTERSECTIONS. These projects provide safety improvements to spot locations, which are designed to improve traffic flow and eliminate hazards. Projects include adding turn lanes, neighborhood traffic calming devices, traffic signals, guard rail installation, and road bank stabilization projects. This category also includes the Index Galena Road and Goodman Creek Culvert flood repair projects.</p> <p>E. CAPACITY IMPROVEMENTS. Projects in this expenditure category are designed to increase vehicle carrying capacity on the County's road system. The projects provide satisfactory levels of service to meet transportation system concurrency requirements identified in the Transportation Element of the County's Comprehensive Plan. Where warranted, capacity projects add travel lanes along corridors and improve major intersections. New roadway alignments are also included in this category. Generally, these projects include bike lanes, sidewalks, landscaping and illumination.</p> <p>F. BRIDGE REPLACEMENT & REHABILITATION. This category funds replacement and rehabilitation of deficient County bridges. Bridge projects are identified through federal and state bridge condition inspection findings and the County's Annual Bridge Condition Report.</p> <p>G. DRAINAGE. Drainage projects improve and preserve drainage infrastructure on the County road system. These projects lie within County road right of way, are an integral part of the road system, and are necessary to maintain and preserve system condition. A component of this category is replacement of culverts under County roads that are currently fish blockages.</p>

Change Request	AUTO - 75 - 306 - Arlington Operations Center Project
Change Request Type	CIP - Capital
Change Request Status	Executive Recommended
Publish Date	Jul 09, 2024 10:25 PM (PDT)

The Road Maintenance Division (Road Maintenance) operates from two locations: the Arlington Shop and the Cathcart Way Operations Center, maintaining approximately 1,600 road miles and more than 200 bridges. Road Maintenance has approximately 70 full time staff based at the Arlington Shop and 110 staff based at Cathcart, with high levels of seasonal staff added during summer months. Road Maintenance provides day-to-day maintenance and small project construction services. It is also an important emergency responder for flooding, landslides, opening roads for utilities, and other emergency services. The Arlington Shop serves the north county (RM District 1), which has approximately 562 road miles. It also is the location of the Bridge Crew, which maintains all the County’s bridges.

The Fleet Services Division, Facilities and Fleet, operates an equipment maintenance shop at the Arlington Shop site with a staff of eight mechanics, one supervisor, and one storekeeper. The shop repairs and maintains the trucks and heavy equipment used by the road crews at Arlington. The shop also repairs and maintains Solid Waste trucks equipment and performs urgent repairs on Sheriff’s vehicles. Fleet Stores purchases and maintains an inventory of material and supplies that support the road crews, including guardrail, bridge timbers and components, drainage structures and culverts, and other supplies.

The proposed Arlington Operations Center project will provide approximately 15,000 square feet of staff office and meeting space. The project will include a redevelopment plan for the Arlington Shop site, including the eventual replacement of the ER&R Maintenance Shop (construction for ER&R shop not included in this CIP request), to be completed in a later phase as funding is available. This project will also develop the Granite Falls property that was purchased in 2021 for a replacement material storage site after the sale of the formerly owned Sand Hill pit. The development of the Granite Falls property will provide this Arlington Shop project a necessary crew staging area to facilitate the continuous operations needed during the construction of the Arlington Shop site.

This package requests expenditure authority for design and construction of the new administrative/crew building, remediation of contaminated soil, along with utility, stormwater, parking and security improvements. The project is funded by \$38,000,000 in bond proceeds received in 2022 with a twenty-year payback period.

Arlington office and staff facilities consist of a modular office building that needs significant repair and is too small to serve current crew size. The vehicle storage facilities are deficient for the number and size of vehicles, and some of the existing structures are requiring demolition. The facilities are old, dilapidated, and beyond their useful life. Material storage is deficient for today’s permitting requirements, and what does exist needs enlargement over their existing size. The overall site is lacking several features for safety, security, and is inefficient for current operations.

Through preparation of the Public Works Continuity of Operations Plan (COOP) and participation in the 2016 Cascadia Rising Exercise, it has become clear that uninterrupted operation of both Road Maintenance facilities (Arlington & Cathcart) is necessary for emergency response and recovery during a major earthquake or other disaster event. In contrast to Arlington, the Cathcart Way Operations Center is built on consolidated glacial till, has modern steel construction, back-up generators and a secure fueling station. The Arlington Shop site is located on some unconsolidated sands, gravels, and silts that would be prone to liquefaction in a seismic event. Analysis has shown that an earthquake in the M7.0 to M9.0 range on either the Cascadia Fault or South Whidbey Island Fault could result in ground settlement of up to 7-inches causing the Arlington Shop to be potentially compromised. In response to this risk, it is recommended that the existing shop site be redeveloped to be resilient with proper building foundations, parking, and driveways that will survive the seismic liquefaction for continued operation after such an event.

The Arlington Shop is identified in the COOP plan as an alternate work location for Fleet’s other two shops (Cathcart and McDougall). The McDougall Shop is vulnerable in an earthquake due to the unreinforced concrete block wall construction. McDougall is the location where law enforcement and other emergency vehicles (DEM, Medical Examiner, Animal Control, SERS, etc.) are serviced and repaired. In an emergency that closes McDougall, it is critical to be up and running at another shop as quickly as possible to support law enforcement and emergency responders. If McDougall and the existing Arlington Shop were unusable at the same time, as could happen in a major earthquake, Fleet would not have the capacity to service these vehicles.

This package includes the 2025 and 2026 portion of the 6-year Capital Improvement Plan (CIP) for the Solid Waste Management Division (SWMD).

The 2025 Capital Program includes:

- ARTS H2S Mitigation Installation (\$95k)
- SWRTS Scale House Roof and HVAC Replacement (\$225k)
- NCRTS Transfer Station Feasibility Study (\$25k)
- NCRTS Leachate System Improvements (\$135k)
- NCRTS Recycle Area Property Acquisition (\$500k)
- ESS Bldg. K Retrofit/Bldg. M Replacement (\$1.0m)
- Intermodal Facility Property Improvements – Phase II PE & SEPA (\$50k)
- Intermodal Facility BNSF Re-alignment PE & NEPA(\$166.5k)
- CWRTS Tip Floor Replacement (\$975k)
- CWRTS Diesel-Electric Loader (\$575k)
- SWRTS Excavator Upsize (125k)
- Scale Automation Software RFP / Procurement (\$550k)
- Sisco Landfill Closure Design/Permitting (\$75k)
- Contingency funding for unanticipated repair (\$350k)

Description

The 2026 Capital Program includes:

- NCRTS Transfer Station Replacement Project Engineering (PE) & State Environmental Policy Act (SEPA) (\$25k)
- Intermodal Facility Property Improvements – Phase II PE & SEPA (\$50k)
- Intermodal Facility BNSF Re-alignment Project Engineering (PE) & National Environmental Policy Act (NEPA) (\$166.5k)
- Sisco Landfill Closure Design & Construction (\$5.65m)
- Contingency funding for unanticipated repair (\$350k)

Summary

2025 Capital Program:

ARTS H2S Mitigation Installation - The Airport Road Recycling and Transfer Station (ARTS) in Everett has a large amount of Hydrogen Sulfide (H2S) in the effluent that flows to the local wastewater treatment plant. Per a new discharge agreement with the Mukilteo Water and Wastewater District, the County must mitigate H2S. These funds will pay for final design and construction of this system.

SWRTS Scale House Roof and HVAC Replacement– The Southwest Recycling and Transfer Station (SWRTS) has substantial roof leaks and can no longer be patched. In addition, the original HVAC system is failing and parts are no longer available. These funds will pay for the design and construction of a new roof and HVAC system.

NCRTS Transfer Station Replacement Feasibility Study– NCRTS was commissioned in 1988, and at that time was a state-of-the-art transfer station. Although still functional, the station is not properly designed or sized to handle current customer counts, tonnage or support new diversion/recycling mandates. Other significant design flaws include the lack of any surge capacity, and poorly designed environmental handling of stormwater and leachate. This study will determine the feasibility of replacing the transfer station on existing property, thereby eliminating the need for a siting process.

NCRTS Leachate System Improvements – The County recently received a NOV for the leachate effluent that flows into the City of Arlington’s wastewater treatment system. The leachate system is not designed to treat and/or reduce contaminant concentrations to the city’s standards. This project will retrofit and/or install new equipment capable of meeting the city’s IWDP requirements.

NCRTS Property Acquisition – Recycle Area – Public Works is acquiring property to facilitate the North County Roads Shop project. When Road Maintenance is done with the temporary use of this parcel, the Solid Waste Division will purchase it from the Road Fund to utilize as a Recycle Area in conjunction with the replacement of the North County Transfer Station.

ESS Building K Retrofit/Building M Replacement – The Cashiering Section of Solid Waste works out of Building M at CWOC, a very old triple wide mobile home that has numerous structural and mechanical issues. This building will need to be demolished in place, as it has no resale value. The Division has spare space in the warehouse section of Building K. This project will design and construct office space in Building K to relocate the staff from Building M.

2025-2030 Capital Improvement Program – Executive Recommended

Change Request Summary

AUTO - 389 - 402 - CIP

Intermodal Facility Property Improvements: Phase II - Phase II of this project will expand access to 1,270' of existing clear track storage which is currently not accessible as a working surface designed to support a reach stacker that was never installed. Phase II will provide direct access to otherwise inaccessible existing track and dramatically increase rail capacity at the IM. Additional efficiencies to be gained by the Phase II improvements include safer site operations and increased storage capacity of intermodal containers.

Intermodal Facility BNSF Re-alignment - The IM is served directly from the Rodgers Main Line which is the main north-south BNSF line serving the Puget Sound region. Switches to the IM must be coordinated with all passenger (Amtrak and Sounder) and freight (coal, oil, grain, etc.) service through Everett. By increasing the length of working track at the IM, it is estimated that the number of switches across the Rodgers Main line will decrease by 30%, thereby relieving congestion in the Everett area for other priority service. The budget funds will support planning and design efforts for the possible track realignment. Note, this is subject to a CRISI grant which will be considered for award in fall 2024. The total cost of the project is \$2.5m, which is subject to 20% match. The County's total portion of this match is \$500k, spent over 3 years (2025-2027).

CWRTS Tip Floor Replacement – The tipping floor at CWRTS has reached the end of its useful life and requires replacement. These funds will pay for an overlay over the entire tip floor.

Justification

Diesel-Electric Loader – Since CWRTS opened in January 2023, a loader has been rented to operate the facility. These funds will buy a new energy efficient unit that will be placed in the ER&R fund and replace the rental unit.

Excavator – The excavator at SWRTS has reached the end of its useful life and must be replaced. There is the need for a unit with slightly larger capacity. These funds will supplement the ER&R replacement fund to procure a larger excavator.

Scale Automation Software RFP / Procurement – The current scale automation contract was established via RFP in 1993 and is renewed annually. After decades of service, there are technology, programmatic and functional updates that need to be incorporated into the Solid Waste system. The SWMD will go through a RFP-S process to select and implement a new scale automation system.

Sisco Landfill Closure Design/Permitting – As part of a settlement agreement, the County will use restricted third-party funds to pay for closure of the Sisco Landfill in accordance with state and local regulations. The Division is in the final stages of acquiring land associated with the Sisco Landfill. The Division is working with Ecology to move the Sisco Landfill from the MTCA VCP process to an Agreed Order in order to permit, design and perform final closure of the landfill. These funds will pay for consulting and legal fees to assist the Division with permitting and design.

Contingency funding for unanticipated repairs – Funding to support repairs for unanticipated equipment failures.

2026 Capital Program:

NCRTS Transfer Station Replacement PE & SEPA– NCRTS was commissioned in 1988, and at that time was a state-of-the-art transfer station. Although still functional, the station is not properly designed or sized to handle current customer counts, tonnage or support new diversion/recycling mandates. Other significant design flaws include the lack of any surge capacity, and poorly designed environmental handling of stormwater and leachate. This PE and SEPA work is needed to replace the station in 2028.

Intermodal Facility Property Improvements: Phase II - Phase II of this project will expand access to 1,270' of existing clear track storage which is currently not accessible as a working surface designed to support a reach stacker that was never installed. Phase II will provide direct access to otherwise inaccessible existing track and dramatically increase rail capacity at the IM. Additional efficiencies to be gained by the Phase II improvements include safer site operations and increased storage capacity of intermodal containers.

Intermodal Facility (IM) Burlington Northern Santa Fe (BNSF) Re-alignment - The IM is served directly from the Rodgers Main Line which is the main north-south BNSF line serving the Puget Sound region. Switches to the IM must be coordinated with all passenger (Amtrak and Sounder) and freight (coal, oil, grain, etc.) service through Everett. By increasing the length of working track at the IM, it is estimated that the number of switches across the Rodgers Main line will decrease by 30%, thereby relieving congestion in the Everett area for other priority service. The budget funds will support planning and design efforts for the possible track realignment. Note, this is subject to a CRISI grant which will be considered for award in fall 2024. The total cost of the project is \$2.5m, which is subject to 20% match. The County's total portion of this match is \$500k, spent over 3 years (2025-2027).

Sisco Landfill Closure Design & Construction – As part of a settlement agreement, the County will use restricted third-party funds to pay for closure of the Sisco Landfill in accordance with state and local regulations. The Division is in the final stages of acquiring land associated with the Sisco Landfill. The Division is working with Ecology to move the Sisco Landfill from the MTCA VCP process to an Agreed Order in order to permit, design and perform final closure of the landfill. These funds will pay for design and construction costs.

Description As described in SCC 4.87 the Reserve Fund for Evergreen Fairgrounds Capital Improvements was established in 1993 to account for and accumulate monies for expenditure on capital improvements or acquisitions at the Evergreen State Fair Park. It also accounts for and accumulates funds for relief should there be a Fair Park operational deficit. This is considered the Rainy Day Fund with a minimum of \$250,000 held in reserve which we are increasing to \$300,000 in 2025-2026. When the fund took on debt service in 2011 we established an Additional Reserve of \$300,000 as well.

The source of these funds are generated by deposit of 10% on all building and grounds rentals, admission tax and surplus of Fair Park operating as determined at the conclusion of each budget cycle.

This package includes the 2025-2026 Budget for planned new capital expenditure (Machinery/Equipment and Construction) and off-setting revenue.

Summary Snohomish County Evergreen State Fair Park is the largest attended recreational facility in the region and provides service to participants and visitors from throughout the Western United States. The 193-acre complex includes multiple buildings and almost 400,000 square feet of indoor space. More than 1,000 events and activities are held here annually. It is the desire of Snohomish County that the facilities be well maintained and improved upon to meet the needs of our community for years to come. A Master Plan was completed in 2015 and it is currently being updated into a new Preferred Plan which will provide direction and priority for projects for long term success. We have updated our pricing for Fair and Year-Round use of the Fairgrounds to be in line with our area market and the Fair Industry and continue to seek opportunities for new revenue for the fairgrounds.

The Snohomish County Conservation Futures Program is responsible for administering funds for the purpose of acquiring interests or rights in real property located within Snohomish County which meet open space and conservation requirements as per RCW 84.34.230 and S.C.C. 4.14. Funding for the program is through the collection of up to \$0.0625 per \$1,000 of assessed valuation against all taxable real property within Snohomish County.

Description S.C.C. 4.14.080 establishes a Conservation Futures Advisory Board, consisting of the County representative, two County Council representatives, two elected officials from cities within the county, and two citizen representatives, to make recommendations for projects funded by Conservation Futures revenue. Projects are evaluated and prioritized based on various criteria, including regional significance, multijurisdictional benefit, enhancement to current conservation programs, consequences from development, compliance with open space policies, and/or establishment of a trail corridor or natural area linkage. The board meets as necessary and make recommendations which are forwarded to the County Executive for transmittal to the County Council for final action.

This budget reflects the balance of funding for projects to be completed in 2024 that were approved by County Council as well as operations and maintenance plus bond debt payment and mandatory capital interfund costs. The budget also allows for available funding for new projects as recommended by the Conservation Futures Advisory Board.

Summary PRESERVE OR IMPROVE THE UNIQUE QUALITY OF SNOHOMISH COUNTY'S NATURAL RESOURCES AND ENVIRONMENT
The projects identified in the package meet the purpose specified in Snohomish County Code of acquiring interest or rights in real property for the preservation of open space land, farm and agricultural land and timber land. These are the projects approved and the estimated balances into 2025; the Conservation Futures Board may meet and changes may occur during the budget approval process.

Justification 2025 PLANNED CAPITAL EXPENDITURES - Approved in 2024

COMMUNITY PARKS – Program 44**CR# 29**

Community parks are facilities which are typically located near population hubs and provide a mix of recreational amenities that are selected to serve the surrounding community. Amenities provided within community parks often serve the needs of Parks' level-of-service standards and population growth. Community Park projects included in the six-year capital program include property acquisition, development and/or improvements to provide new amenities to serve new and existing population.

Snohomish County Parks' capital improvement program for community parks consists of the following projects:

1. BRIGHTWATER MITIGATION PROGRAM / CAROUSEL RANCH

Park acquisition and development project funded through a mitigation agreement with King County/METRO for the Brightwater Sewage Treatment Plant. Remaining improvements identified as part of this agreement are planned to be completed at the Carousel Ranch property, which was acquired in 2015 for this purpose. The design includes a dog park, sport fields and parking. Funding is proposed as follows:

- Prior Year Balance: \$17,602,647 (Brightwater Mitigation: Brightwater 01&02 and Carousel Maltby Area)
- 2025: \$2,367,410 (other)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2013/2030
- Project Status: Carousel Ranch project is being considered as a site for the future Mountain Bike Park. Funding may be used for projects within the Brightwater area for active recreation.
- Changes Since the 2024 Budget: Added interest earnings to prior year balance and removed \$350,000 of forfeited RCO grant funding

2. CAVALERO HILL PARK DEVELOPMENT

Development of the first phase of the preferred plan was completed in 2018. Additional funds are being transferred to complete other projects in the same park service area. Funding is proposed as follows:

- Prior Year Balance: -\$29,690
- 2025: \$29,690 (Other)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2014/2021
- Project Status: Project complete
- Changes Since the 2024 Budget: Transfer funds from other project due to error in 2024.

3. CORCORAN MEMORIAL PARK

Construction of a new playground will be completed in 2024. Budget in future years is for Phase 2 improvements to support the playground including a gravel parking lot and active and passive recreation to be identified through a public outreach process. Funding is proposed as follows:

- Prior Year Balance: \$24,720 (Other)
- 2025: \$0
- 2026: \$0
- Future Years: 2028 - \$100,000 (Mitigation); 2030 - \$590,000 (REET 2)
- Project Start/End Date: 2019/2031

- Project Status: Construction of the new playground will be completed in 2024. Future phases will be developed to implement a cohesive park site plan and incorporate community input.
- Changes Since the 2024 Budget: Changes to funding amounts anticipated in future years.

4. COUNTY PARTNERSHIP PROJECTS

Funding provided via interlocal agreements to local jurisdictions for completion of capital park projects.

Funding is proposed as follows:

- Prior Year Balance: \$1,300,754 (REET 2/REET 1)
- 2025: \$750,000
- 2026: \$750,000
- Future Years: 2027-2030 \$500,000
- Project Start/End Date: 2021/2030
- Project Status: ongoing program
- Changes Since the 2024 Budget: None

5. ESPERANCE PLAYGROUND/SITE IMPROVEMENTS

Completion of the forest play area. Funding is proposed as follows:

- Prior Year Balance: \$295,031 (Mitigation)
- 2025: \$0
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2021/2024
- Project Status: Sport court surfacing is complete; design and construction of play area improvements is planned for 2025
- Changes Since the 2024 Budget: None

6. FORSGREN – PLAYGROUND REPLACEMENT/SITE IMPROVEMENTS

Playground construction will include life-cycle replacements of the existing equipment, drainage improvements, and replacement of the play surfacing. Additional funds were received through the County Partnership Projects program and will help fund the replacement playground. Additional funds requested for 2025 will be used for installation of a picnic shelter, site furnishings, and paving improvements to meet ADA accessibility guidelines. Funding is proposed as follows:

- Prior Year Balance: \$349,598 (REET 2)
- 2025: \$50,000 (Mitigation), \$200,000 (REET2 transfer from SR 530 Slide Memorial Project)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2022/2026
- Project Status: Public outreach and design process are complete; staff is preparing construction contract documents for bidding. Construction is anticipated in 2024.
- Changes Since the 2024 Budget: Additional funding for new shade structure and transferred funding to allow for unitary surfacing for a more inclusive playground.

7. FORSGREN – PARKING LOT IMPROVEMENTS

Pavement repair, replacement, and preservation at aging parking lots. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0

- 2026: \$0
- Future Years: 2027 – \$100,000 (REET 2)
- Project Start/End Date: 2026/2027
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Added as a new project

8. LAKE GOODWIN – PLAYGROUND & ACCESS IMPROVEMENTS - NEW

Funding includes installation of a playground communication board to support inclusive play and addition of a. ADA beach access mat. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$1,034 (Mitigation SEPA); \$1,101 (Mitigation GMA)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2025/2025
- Project Status: Project pending funding availability.
- Changes Since the 2024 Budget: Added as a new project

9. LAKE ROESIGER – NEW PLAYGROUND

Based on requests from the community and the need for additional playgrounds in this geographic area, this project will construct a new playground at Lake Roesiger Park. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$41.54 (Mitigation SEPA); \$587.24 (Mitigation GMA)
- Future Years: 2027 - \$400,000 (Mitigation)
- Project Start/End Date: 2026/2027
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Changes to mitigation funding amounts and project timing in future years.

10. LAKE STICKNEY – PARK DEVELOPMENT PHASE II

Site improvements based upon completed Preferred Plan. Phase I improvements were completed in 2018 and funding is proposed to be accumulated for the second phase. Funding is proposed as follows:

- Prior Year Balance: \$980,030 (REET2, Mitigation)
- 2025: \$0
- 2026: \$0
- Future Years: 2027 - \$500,000 (RCO grant application potential)
- Project Start/End Date: 2024/2027
- Project Status: Project was delayed due to staff availability. Phase II plans to begin in 2024 and apply for grants in 2026
- Changes Since the 2024 Budget: Remove spending authority of \$500,000 for RCO grant that was not applied for

11. MARTHA LAKE AIRPORT – PLAYGROUND

Installation of additional playground features at Martha Lake Airport Park to provide additional active recreation opportunities. Funding is proposed as follows:

- Prior Year Balance: \$100,500 (REET2)
- 2025: \$38,446 (Mitigation)

- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2024/2028
- Project Status: Staff applied for RCO grant for Pickleball courts in 2024, this work may be combined into one project for construction
- Changes Since the 2024 Budget: Added mitigation funding

12. MARTHA LAKE AIRPORT – PICKLEBALL

Add 8 new pickleball courts and amenities / support facilities to the existing park due to strong community interest in pickleball facilities. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$613,700 (Mitigation GMA); \$325,000 (REET 2); \$1,396,000 (Other)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2022/2026
- Project Status: RCO grant was applied for in May 2024
- Changes Since the 2024 Budget: Added as a new project

13. MARTHA LAKE – RENOVATION

Life cycle replacement of playground(s) at Martha Lake Park, parking area improvements, waterfront improvements such as the beach and docks. Address accessibility barrier at the west end of the park where frontage improvements include a stairway, which is a barrier to visitors who need to enter the park with a ramp or sloped path. Address public safety and security issues. Funding is proposed as follows:

- Prior Year Balance: \$50,000
- 2025: \$383,500 (Mitigation GMA); \$100,000 (REET 2); \$383,500 (Other)
- 2026: \$105,000 (REET 2)
- Future Years: 2027 - \$995,000 (REET 2); \$500,000 (Other); 2030 - \$900,000 (Mitigation)
- Project Start/End Date: 2024/2030
- Project Status: Project pending funding availability; staff applied for RCO grant in May 2024 to acquire parcel directly adjacent to the existing park
- Changes Since the 2024 Budget: Added funding for out years.

14. PAINE FIELD PARK IMPROVEMENTS AND PLAYGROUND REPLACEMENT

Life-cycle replacement of the playground at Paine Field and improvements to the ballfield area of the park. Playground replacement design and construction is anticipated to be contracted while other improvements may be completed as identified and prioritized by athletic field users and maintenance staff. Funding is proposed as follows:

- Prior Year Balance: \$30,186 (REET2)
- 2025: \$450,000 (REET 2)
- 2026: \$0
- Future Years: None
- Project Start/End Date: 2025/2025
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Additional construction funding allocated

15. PAINE FIELD PARK BALLFIELD RENOVATION

Life-cycle replacement of ballfields and support facilities and other related improvements. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0
- 2026: \$0
- Future Years: 2027 - \$250,000 (REET 2); \$1,500,000 (Other)
- Project Start/End Date: 2025/2028
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Added as a new project

16. PELZ IMPROVEMENTS

Minor, on-going park improvements utilizing park impact mitigation fees collected within the Tulalip collection area. Projects will be selected and completed as funding is available. Funding is proposed as follows:

- Prior Year Balance: \$2,661
- 2025: \$0
- 2026: \$0
- Future Years: None
- Project Start/End Date: On-going program
- Project Status: Funding is expended as projects are identified and sufficient funding is available for a project.
- Changes Since the 2024 Budget: None

17. SILVER CREEK PLAYGROUND REPLACEMENT

Life cycle replacement of playground at Silver Lake Park. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$370,000
- 2026: \$0
- Future Years: None
- Project Start/End Date: 2024/2025
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Project start time moved forward due to need for playground replacement

18. SOUTHWEST COUNTY UGA COMMUNITY PARK ACQUISITION AND DEVELOPMENT

Acquisition and development of new Community Park amenities in the Southwest UGA. Goals for future funding include development of existing property and/or acquiring a new park property, particularly in areas of need and near future light rail station development. Project may be completed through possible partnership with city jurisdiction(s). Refer to Item 19 below for further information about a new park identified for this funding. Funding is proposed as follows:

- Prior Year Balance: \$4,404,478
- 2025: -\$4,000,000 (Mitigation)
- 2026: \$0
- Future Years: 2029 - \$700,000 (Mitigation)
- Project Start/End Date: 2017/2030

- Project Status: Identification of property suitable for acquisition has been identified by staff. Working with other jurisdictions to identify possible partnership opportunities and planning for additional LOS park needs because of light rail improvements and associated additional housing and development density in the Southwest UGA.
- Changes Since the 2024 Budget: Moved funding to supplement the development of Doc Hageman Park

19. SOUTHWEST COUNTY UGA COMMUNITY PARK – DOC HAGEMAN PARK

Acquisition and development of new Community Park amenities in the Southwest UGA. Goals for future funding include development of existing property and/or acquiring a new park property, particularly in areas of need and near future light rail station development. Project may be completed through possible partnership with city jurisdiction(s). An existing park has been identified as a good fit for this funding – this park is Doc Hageman Park currently owned by the City of Lynnwood. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$4,000,000 (Mitigation)
- Future Years: \$0
- Project Start/End Date: 2025/TBD
- Project Status: Site proposed as the acquisition and development site noted in item 18 above. Ongoing coordination with City of Lynnwood
- Changes Since the 2024 Budget: Added as a new project

20. TAMBARK CREEK – PAVEMENT PRESERVATION

Pavement preservation includes sealing and restriping, applying crack seal, and repairing potholes to preserve pavement integrity. Work is planned to minimize the need for future larger-scale renovations. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0
- 2026: \$160,000 (REET 2)
- Future Years: None
- Project Start/End Date: 2026/2026
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Project timeline moved from 2025 to 2026

21. TAMBARK CREEK – TURF REPLACEMENT

Life cycle replacement of artificial turf field. Tracking this project as a potential for RCO grant applications. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0
- 2026: \$0
- Future Years: 2027- \$600,000 (REET 2) and \$1,500,000 (Other); 2028- \$400,000 (REET 2)
- Project Start/End Date: 2026/2028
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Adjusted out years budget

22. TWIN RIVERS – CRICKET PITCH & PARKING LOT IMPROVEMENTS

Cricket is a sport that is gaining popularity with youth and adults in our region and Snohomish County Parks has limited cricket fields and cricket pitches. This project would install a new cricket pitch at Twin Rivers Park

within the existing grass ballfield area. Cricket fields are among the largest sports field and Twin Rivers is an ideal site that is level and will allow for a full cricket field of play. Parking improvements are also needed to support the increased use of the park that this project will bring. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$1,542 (Mitigation SEPA); \$22 (Mitigation GMA)
- 2026: \$0
- Future Years: 2027 - \$150,000 (Mitigation); 2028 - \$150,000 (Mitigation)
- Project Start/End Date: 2025/2028
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Adjusted out years budget and timeline

23. WILLIS D. TUCKER PARK – BALLFIELD LIGHTING

In partnership with the Mill Creek Little League, this project will add lights to Ballfield #2 to increase capacity for games, practices, and a variety of sports played on the field. Funding is proposed as follows:

- Prior Year Balance: \$576,693
- 2025: \$0
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2023/2025
- Project Status: Construction documents are complete, permit received, awaiting bid advertisement for construction
- Changes Since the 2024 Budget: None

24. WILLIS D. TUCKER – FURNACE REPLACEMENT

Complete a life-cycle replacement of the furnace in the Willis Tucker Admin Building. Approximately 16 years old, the aging furnace requires almost weekly maintenance, especially in the summer and winter months. A new furnace will contribute to better working conditions for staff at Willis Tucker but will also alleviate the many hours of maintenance time dedicated to fixing the existing furnace. Some additional funding for the furnace replacement is available from the 309 General Improvements fund. Funding is proposed as follows:

- Prior Year Balance: \$40,500 (REET2)
- 2025: \$0
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2021/2024
- Project Status: Updated project for replacement of the building furnace
- Changes Since the 2024 Budget: None

25. WILLIS D. TUCKER PARK – PAVEMENT PRESERVATION

Pavement preservation includes sealing and restriping, applying crack seal, and repairing potholes to preserve pavement integrity. Work is planned to minimize the need for future larger-scale renovations. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0
- 2026: \$100,000 (REET 2)
- Future Years: 2028 - \$200,000 (REET 2)
- Project Start/End Date: 2026/2028

- Project Status: Project pending funding availability
Changes Since the 2024 Budget: Shifted project into out years and increased budget due to inflation

26. WILLIS D. TUCKER – PLAYGROUND REPLACEMENT

Life cycle replacement of playground and spray park at Willis D. Tucker Park. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2024: \$0
- Future Years: 2027 - \$400,000 (REET 2); 2028 - \$500,000; 2029 - \$2,100,000 (Other)
- Project Start/End Date: 2026/2029
- Project Status: Project pending funding availability; staff has targeted this project for a potential grant application in 2026
- Changes Since the 2024 Budget: Budget increase to account for unitary surfacing at the playground and adding the spray park to the project scope

**Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended**

Change Request Summary

Department 0009 - Conservation and Nat Resources

Change Request AUTO - 30 - DCNR PARKS 309 - OPEN SPACE/PRESERVE PARKS

Change Request Type CIP - Capital

Change Request Status Executive Recommended

Publish Date Jul 09, 2024 10:21 PM (PDT)

Description Park facilities play a major role in habitat conservation and stormwater quality in Snohomish County. Park lands provide open space, resource protection and wildlife habitat. The Snohomish County DCNR Parks and Recreation Division maintains and provides stewardship for a significant number of properties that are classified as open space/preserve. These properties are managed for resource protection and some sites provide opportunities for public access, when appropriate. The projects identified within this program are focused on providing appropriate public access to these areas.

Summary Snohomish County Parks' capital improvement program for open space/preserve parks consists of the following projects:
1. PARADISE VALLEY CONSERVATION AREA IMPROVEMENTS

Development of parking lot to serve park users. Funding is proposed as follows:

- Prior Year Balance: \$418,317

- 2025: \$0

- 2026: \$0

- Future Years: 2027 - \$500,000 (REET 2)

- Project Start/End Date: 2021/2027

- Project Status: Initial lot design has been completed and needs to be reviewed prior to permit submittal. Project is awaiting project charter for restart.

- Changes Since the 2024 Budget: Shifted out years budget

2. SUNDQUIST FAMILY NATURE PARK

Justification Develop preferred plan and project list to improve park, including sidewalk connections between existing walkways for safe access to the park and the adjacent elementary school, providing ranger and maintenance vehicle access while keeping most of the park protected for natural habitat areas. Potential matching grant applications can be sought from Safe Route to Schools/Parks.

- Prior Year Balance: \$0

- 2025: \$0

- 2026: \$0

- Future Years: 2028 - \$150,000 (Mitigation); 2029 - \$150,000 (Mitigation) and \$500,000 (Other); 2029 \$150,000 (Mitigation)

- Project Start/End Date: 2025/2030

- Project Status: Project pending funding availability

- Changes Since the 2024 Budget: Shifted funding into out years

END OF PROGRAM 45

OPEN SPACE / PRESERVE PARKS – Program 45**CR#30**

Park facilities play a major role in habitat conservation and stormwater quality in Snohomish County. Park lands provide open space, resource protection and wildlife habitat. The Snohomish County DCNR Parks and Recreation Division maintains and provides stewardship for a significant number of properties that are classified as open space/preserve. These properties are managed for resource protection and some sites provide opportunities for public access, when appropriate. The projects identified within this program are focused on providing appropriate public access to these areas.

Snohomish County Parks' capital improvement program for open space/preserve parks consists of the following projects:

1. ATKINSON DONATION – MITIGATION MONITORING 10 YEAR

This project will include hiring a consulting firm to complete the mitigation monitoring requirements for year 10 of 10 of the required mitigation site monitoring. Funding is proposed as follows.

- Prior Year Balance: \$0
- 2025/2026: \$0
- Future Years: 2027 - \$30,000 (REET 2)
- Project Start/End Date: 2016/2027
- Project Status: Current year monitoring is ongoing. Final monitoring year is in 2027.
- Changes Since the 2024 Budget: Added as a new project

1. PARADISE VALLEY CONSERVATION AREA IMPROVEMENTS

Development of parking lot to serve park users. Funding is proposed as follows:

- Prior Year Balance: \$418,317
- 2025: \$0
- 2026: \$0
- Future Years: 2027 - \$500,000 (REET 2)
- Project Start/End Date: 2021/2027
- Project Status: Initial lot design has been completed and needs to be reviewed prior to permit submittal. Project is awaiting project charter for restart.
- Changes Since the 2024 Budget: Shifted out years budget

2. SPENCER ISLAND BRIDGE PAINTING

Life-cycle maintenance of the Jack Knife Bridge, which serves as the entrance to Spencer Island. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025/2026: \$0
- Future Years: 2030 - \$400,000 (REET 2)
- Project Start/End Date: 2030/2030
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Moved to out-years and increased budget based on coordination with Public Works' bridge crews' estimates and inflation.

3. SUNDQUIST FAMILY NATURE PARK

Develop preferred plan and project list to improve park, including sidewalk connections between existing walkways for safe access to the park and the adjacent elementary school, providing ranger and maintenance

vehicle access while keeping most of the park protected for natural habitat areas. Potential matching grant applications can be sought from Safe Route to Schools/Parks.

- Prior Year Balance: \$0
- 2025: \$0
- 2026: \$0
- Future Years: 2028 - \$150,000 (Mitigation); 2029 - \$150,000 (Mitigation) and \$500,000 (Other); 2029 \$150,000 (Mitigation)
- Project Start/End Date: 2025/2030
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Shifted funding into out years

 Publish Date Aug 20, 2024 07:21 PM (PDT)

Description Snohomish County currently operates parks that feature major natural resources which serve as a backdrop for recreational opportunities. These parks draw users from across the County and are classified as regional parks. Features within these parks range from forests, lakes, rivers and saltwater waterfronts to historic rural properties and unique natural features. Amenities provided at regional parks typically include day use areas, picnicking, camping, boating, hiking, horseback riding, or other recreational activities that meet regional demand. Many of these amenities are included within Parks’ level-of-service methodology and, as such, may help address needs related to population growth. Regional parks offer substantial recreational opportunities and include several parks which have been in use since the 1970’s. Renovation and maintenance of aging facilities is a priority in order to ensure that high quality recreation experiences continue to be provided. Expansion and acquisition are also a priority for regional parks to expand opportunities available to serve the county’s growing population.

Summary Dept requested removal of \$5M grant not awarded, and correction of Prior Yr Funds

Justification Please see attached WORD document for REGIONAL program 46 justifications.

REGIONAL PARKS – Program 46

Snohomish County currently operates parks that feature major natural resources which serve as a backdrop for recreational opportunities. These parks draw users from across the County and are classified as regional parks. Features within these parks range from forests, lakes, rivers and saltwater waterfronts to historic rural properties and unique natural features. Amenities provided at regional parks typically include day use areas, picnicking, camping, boating, hiking, horseback riding, or other recreational activities that meet regional demand. Many of these amenities are included within Parks' level-of-service methodology and, as such, may help address needs related to population growth. Regional parks offer substantial recreational opportunities and include several parks which have been in use since the 1970's. Renovation and maintenance of aging facilities is a priority in order to ensure that high quality recreation experiences continue to be provided. Expansion and acquisition are also a priority for regional parks to expand opportunities available to serve the county's growing population.

Snohomish County Parks' capital improvement program for regional parks consists of the following projects:

1. FLOWING LAKE – SHELTER REPLACEMENT

In 2022, a structural evaluation of the picnic shelter was conducted, and it was determined that there are several structural issues to be addressed and the shelter needs to be renovated or replaced. This project will include demolition of the aged shelter and replace with a new shelter. Funding is proposed as follows:

- Prior Year Balance: \$131,432 (REET2)
- 2025: \$0
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2022/2025
- Project Status: Plans are in-progress for the new shelter and construction is anticipated to begin in 2025.
- Changes Since the 2024 Budget: Updated timeline for construction.

2. FLOWING LAKE – DOCK REPLACEMENT

This funding will allow for the removal of the existing, aged dock and replacement with a new dock. This project is a good candidate for \$500,000 of grant funds in the 2024 RCO grant cycle and this \$500,000 of REET 2 funding will provide the County's matching funds. Funding is proposed as follows:

- Prior Year Balance: \$165,000(REET 2)
- 2025: \$50,000 (Mitigation); 657,505 (REET2); \$500,000 (Other/Grant)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2024/2026
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Grant applications submitted and matching fund dollars identified.

3. HEYBROOK RIDGE – DEVELOPMENT

Second phase of trail improvements at Heybrook Ridge focused on ADA accessible trail development through lower portion of park. Funding is proposed as follows:

- Prior Year Balance: \$339,349 (\$136,731 REET 2; \$34,546 Mitigation; \$168,071.62 Other/Grant)
- 2025: \$1734 (Mitigation)
- 2026: \$0
- Future Years: \$0

- Project Start/End Date: 2018/2025
- Project Status: Design and permitting for the second phase of development is underway.
- Changes Since the 2024 Budget: Additional mitigation funding available.

4. HOLE IN THE SKY

Expenditure of site dedicated funding as projects are identified. Project funding originated from sale of a portion of the property to WSDOT for Hwy 9 widening and is required to be used on-site. Funding is proposed as follows:

- Prior Year Balance: \$21,037 (Other/WSDOT)
- 2025/2026: \$0
- Future Years: \$0
- Project Start/End Date: TBD/TBD
- Project Status: Pending project identification
- Changes Since the 2024 Budget: None

5. JORDAN BRIDGE DECKING

Replacement of decking on Jordan Bridge. Funding is proposed as follows:

- Prior Year Balance: \$125,000 (REET2)
- 2025/2026: \$0
- Future Years: None
- Project Start/End Date: 2023/2024
- Project Status: Project construction planning has begun.
- Changes Since the 2024 Budget: None

6. KAYAK POINT – CAMPGROUND

Development of additional camping facilities at this popular regional park. Campsites are known to be in limited supply within the county and a previously completed preferred plan for Kayak Point identified locations for camping expansion. Addition of camping facilities at this site are favored due to existing infrastructure and on-site ranger presence. Provision of camping will also address level-of-service needs. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$230,354 (Mitigation); \$150,000 (REET2)
- 2026: \$200,000 (REET2)
- Future Years: 2027 - \$100,000 (Mitigation); 2028 - \$300,000 (Mitigation) \$300,000 (REET2); 2029 - \$400,000 (Mitigation) \$300,000 (REET2); 2030 - \$400,000 (Mitigation)
- Project Start/End Date: 2025/2030
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Reallocated funding to meet budget targets and added construction funding for later years.

7. KAYAK POINT – DAY USE RENOVATION

Phased renovation of the day-use area of this popular Regional Park. The park was originally opened in the 1970's and the infrastructure needs to be updated and the overall park redesign improves park usage. This funding is for both Phase 1 and Phase 2 which includes renovation of the playground to include unitary surfacing and inclusive play design, and three new picnic shelters. Funding is proposed as follows:

- Prior Year Balance: \$3,999,496 (REET2; Mitigation; Other/Grants)

- 2025: \$7,000,000 (Grants/Other)
- 2026: \$100,000 (REET2)
- Future Years: \$0
- Project Start/End Date: 2015/2030
- Project Status: Construction started in 2023 and will be completed in phases through 2025. Long term maintenance for permit requirements anticipated through 2030.
- Changes Since the 2024 Budget: Adjustment of funding based on additional anticipated grant funding.

8. KAYAK POINT – RANGER OFFICE

Replacement of Ranger office at Kayak Point Park. The current structure is planned to be demolished and new structure located according to the Preferred Plan for the park. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025/2026: \$0
- Future Years: 2028 - \$300,000 (REET 2)
- Project Start/End Date: 2028/20230
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Adjusted funding years and reduced budget for cost savings until design estimates are complete.

9. LAKE CASSIDY – DEVELOPMENT & PAVEMENT REPAIRS – NEWLORD HILL – PREFERRED PLAN IMPLEMENTATION

The Lord Hill Preferred Plan was completed in 2022 and now implementation of the high priority elements is ongoing. The updates will address current park use patterns and land acquisitions, for which conceptual solutions have been identified in the preferred plan. \$50K in 2024 will be dedicated to the design for the Sunrise Trail which requires infrastructure to cross a fish bearing stream and permitting with WDFW. Funding is proposed as follows:

- Prior Year Balance: \$252,638 (REET2; Mitigation; Other)
- 2025: \$0
- 2026: \$70,000 (REET2)
- Future Years: 2028 - \$250,000 (REET2); 2029 - \$75,000 (REET2); 2030 - \$200,000 (REET2)
- Project Start/End Date: 2023/2031
- Project Status: Implementation of improvements prioritized in the preferred plan are underway, including Sunrise Trail, new equestrian/hiker trail on the east side of the park, signage updates, Tester Parking Lot improvements (located at south end of the park), Rogue Knight Trail re-route, general expenses for trail gravel and geotextile.
- Changes Since the 2024 Budget: Re-allocated budget to align with current cost estimates and implementation planning.

10. LORD HILL – SEPTIC IMPROVEMENTS

Identified need for mitigation in the floodplain at will require septic system improvements for the caretaker house. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0
- 2026: \$400,000 (REET2)
- Future Years: \$0
- Project Start/End Date: 2026/2026

- Project Status: Project was identified as a priority during the preferred plan process, and is scheduled for implementation when funding is available.
- Changes Since the 2024 Budget: None.

11. LORD HILL – PARKING LOT IMPROVEMENTS

Improvements of the General Parking Lot (known as the ‘upper parking lot’) and potential other parking and entry improvements as identified in the Preferred Plan. The scope may include improvements such as signage, wheel stops, Sani cans, surfacing, and grading and drainage improvements. The Upper General Parking Lot grading and drainage design will require consultant services. Funding is proposed as follows:

- Prior Year Balance: \$179,690 (REET2)
- 2025: -\$29,690 (remove mistaken mitigation funding transfer)
- 2026: \$0
- Future Years: 2029 - \$900,000 (REET2); 2030 - \$1,100,000 (REET2)
- Project Start/End Date: 2026/2031
- Project Status: Project charter and initial community and stakeholder outreach has been completed. Project description has been adjusted based upon findings.
- Changes Since the 2024 Budget: Funding moved to out-years to fit CIP budget constraints. Revised scope of project to put a hold on the General & Equestrian parking lot swap to focus on overall parking improvements especially to the upper/general parking lot.

12. MCCOLLUM PARK – SNOHOMISH COUNTY FOOD & FARMING CENTER

Development of a Food and Farming Center at McCollum Park. Project will include a building designed to support local farmers and food distribution as well as an indoor farmer’s market. This project is being completed in partnership with the Snohomish County Agriculture Coordinator. Funding is proposed as follows:

- Prior Year Balance: \$6,451,300 (REET2, Other/General Fund, Other/Grants)
- 2025: \$5,000,000 (Other/HUD grant)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2021/2028
- Project Status: Anticipate progressive design-build team project kick-off in 2024
- Changes Since the 2024 Budget: Added HUD grant funding spending authority in 2025.

13. MCCOLLUM PARK – DEMOLITION OF POOL AND POOL HOUSE

In support of the Food and Farming Center, this project includes the demolition of the existing pool and the pool house which is the tentative location for the future indoor farmer’s market. Funding is proposed as follows:

- Prior Year Balance: \$500,212 (REET 2)
- 2024: \$0
- Future Years: \$0
- Project Start/End Date: 2023/2025
- Project Status: Project plans, specs, and permitting coordination in progress. May be combined with Food & Farming Center scope and built into the progressive design-build project.
- Changes Since the 2024 Budget: None

14. MCCOLLUM PARK – PLAYGROUND REPLACEMENT

Life-cycle replacement of the playground at McCollum Regional Park. Funding is proposed as follows:

- Prior Year Balance: \$49,137
- 2025/2026: \$0
- Future Years: 2027 - \$350,000 (REET2), \$150,000 (Mitigation), \$500,000 (Grant/Other)
- Project Start/End Date: 2026/2028
- Project Status: Project pending funding availability.
- Changes Since the 2024 Budget: Adjusted out-years budget

15. MEADOWDALE – ESTUARY RESTORATION MONITORING

Water access reconstruction to address problems associated with public access to the beach at this popular park. Construction closeout and construction of a retaining wall at the southernmost entrance will be completed in 2024. 10-years of estuary and stream monitoring is required by permits and grants for the Meadowdale Park Improvements project. Parks will be working with SWM and consultants to complete the monitoring work. This project is created to track funding for the monitoring work separately and will use funding remaining from the Meadowdale Park Improvements project. Funding is proposed as follows:

Funding is proposed as follows:

- Prior Year Balance: \$53,943 (REET2; Other/SWM)
- 2025/2026: \$0
- Future Years: \$0
- Project Start/End Date: 2024/2027
- Project Status: Monitoring work is ongoing and a consultant contract has been executed to cover monitoring years 2024 through 2027.
- Changes Since the 2024 Budget: Added as a new project to better track the long-term monitoring budget

16. MEADOWDALE PARK - TRAILHEAD AND TRAIL DEVELOPMENT

Project to identify and design additional trailhead and trail access into Meadowdale Park to address the high level of usage the park receives and the limited parking currently available at the trailhead. This project will develop a concept plan for access and is anticipated to also provide a preliminary design. Funding has been added for 2025 for construction costs and the planning group may apply for an RCO grant for construction in the 2024 RCO application cycle. Funding is proposed as follows:

- Prior Year Balance: \$493,764 (REET2/Other Meadowdale project funding)
- 2025/2026: \$0
- Future Years: 2027 - \$500,000 (Mitigation) \$1,000,000 (Other/potential grant); 2028 - \$500,000 (Mitigation)
- Project Start/End Date: 2022/2029
- Project Status: Conceptual trailhead designs are underway
- Changes Since the 2024 Budget: Re-allocated future year funding for construction

17. NORTH CREEK – PARK IMPROVEMENTS

North Creek Regional Park improvements include expanded parking to provide overflow access to the park and serve as a trailhead for the North Creek Trail, life-cycle replacement of the playground, and updating the existing boardwalks, replacing outdated wooden boards and installing new floats for the floating dock. Funding is proposed as follows:

- Prior Year Balance: \$351,203 (Mitigation; Other)
- 2025/2026: \$0
- Future Years: 2029 - \$400,000 (REET 2)
- Project Start/End Date: 2026/2030
- Project Status: The parking lot and playground should be designed and built at the same time. Public Works is planning to construct Phase 2 of the North Creek Trail around 2028.
- Changes Since the 2024 Budget: Funding moved to out years to align with trail project planning.

18. O'REILLY ACRES BRIDGE REPLACEMENT

Replace the existing bridge at O'Reilly Acres. Funding is proposed as follows:

- Prior Year Balance: \$20,442 (Mitigation)
- 2025: \$234,600 (REET2)
- 2026: \$305,400 (REET2)
- Future Years: 2028 - \$875,000 (REET 2)
- Project Start/End Date: 2025/2028
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Re-allocated funding to fit into out-years budget and plan for design, site studies and permitting to begin in 2025.

19. PICNIC POINT PARKING AREA RENOVATION

Parking lot and other site improvements. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$230,793 (REET2)
- 2026: \$300,000 (REET2)
- Future Years: \$0
- Project Start/End Date: 2025/2026
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Increased budget for drainage repairs, hiring a design consultant, rebuilding the existing parking lot and replacing existing site features such as asphalt, striping, curb, signage, wheel stops.

20. RIVER MEADOWS FENCE REPLACEMENT

Replace 2-rail cedar fencing along main road. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2026: \$100,000 (REET 2)
- Future Years: \$0
- Project Start/End Date: 2026/2026
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: None

21. ROBE CANYON PARKING LOT

Development of new parking area near the Mountain Loop Highway. Funding is proposed as follows:

- Prior Year Balance: \$3,364 (Mitigation)
- 2025/2026: \$0
- Future Years: 2030 - \$200,000 (REET 2)
- Project Start/End Date: 2029/2030

- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Re-allocated to out-years to accommodate budget constraints

22. SR 530 SLIDE MEMORIAL

Development of memorial for the 2014 SR 530 landslide. Funding is proposed as follows.

- Prior Year Balance: \$410,583 (REET2; Mitigation)
- 2025: -\$200,000 (REET2)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2016/2024
- Project Status: Construction is complete but final artwork documentation and project closeout is still underway. Remaining balance will be transferred to other park projects in future years.
- Changes Since the 2024 Budget: Transfer funding to Forsgren Park for unitary playground surfacing.

23. SQUIRE CREEK – BANK STABILIZATION

This project will include design and construction for bank stabilization of the creek near the campground. Funding is proposed as follows.

- Prior Year Balance: \$0
- 2025/2026: \$0
- Future Years: 2029 - \$500,000 (REET2)
- Project Start/End Date: 2029/2030
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: New project

24. STEELHEAD PARK DEVELOPMENT

Project to develop preferred plan for park development. Amenities such as a disc golf course, water access opportunities, and habitat restoration will be explored. Funding is proposed as follows:

- Prior Year Balance: \$689 (Mitigation)
- 2025/2026: \$0
- Future Years: 2027 - \$150,000 (Mitigation)
- Project Start/End Date: 2026/2026
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Shifted out-years budget

25. TENTH STREET BOAT LAUNCH

Support for renovation needs at the Tenth St. Boat Launch, which is owned in partnership with the City of Everett and Port of Everett. Funding is proposed as follows:

- Prior Year Balance: \$130,974 (REET2)
- 2025: \$50,000 (REET2)
- 2026: \$50,000 (REET2)
- Future Years: 2027 - \$50,000 (REET2), 2028 - \$50,000 (REET2), 2029 - \$50,000 (REET2)
- Project Start/End Date: On-going program through 2029
- Project Status: On-going program through 2029
- Changes Since the 2024 Budget: None

26. THOMAS' EDDY – WATER ACCESS & PARKING LOT

Project will coincide with the SWM restoration project at the site and will incorporate water access, accessibility, educational, and passive recreation improvements. Potential candidate for a future RCO grant application. Funding is proposed as follows:

- Prior Year Balance: \$200,000 (REET2)
- 2025/2026: \$0
- Future Years: \$0
- Project Start/End Date: 2024/2026
- Project Status: Project pending coordination with SWM construction and grant funding
- Changes Since the 2024 Budget: None

27. WENBERG – UPLAND RENOVATION

Repair paving throughout the park, demolish concession stand, address other improvements identified through planning process. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0
- 2025 - \$300,000 (REET 2)
- Future Years: 2029 - \$400,000 (REET 2)
- Project Start/End Date: 2025/2030
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Added budget to out-years to address identified pavement restoration needs throughout the upland park area.

28. WENBERG – CAMPGROUND FENCE REPLACEMENT

Replacement of the existing fence, which is in disrepair, with a new privacy fence between the campground and adjacent residence. Funding is proposed as follows:

- Prior Year Balance: \$148,589 (REET 2)
- 2025/2026: \$0
- Future Years: \$0
- Project Start/End Date: 2023/2024
- Project Status: Project construction anticipated in 2024.
- Changes Since the 2024 Budget: None

29. WHITEHORSE PARK IMPROVEMENTS

Facility improvements for Phase 2 at Whitehorse Community Park, including installation of campground and new restroom. Funding is proposed as follows:

- Prior Year Balance: \$9,579 (REET 2)
- 2025/2026: \$0
- Future Years: \$0
- Project Start/End Date: 2018/2023
- Project Status: Final construction closeout and installation of storage building anticipated..
- Changes Since the 2024 Budget: None

SPECIAL USE – Program 47 CR#32

Snohomish County parks that offer unique and specialized facilities are classified as special use parks. These parks, also have the unique advantage of generating revenue which can support the maintenance and operations of the park system. Special Use projects include improvements to existing facilities and planning or developing additional facilities that may be completed through public/private partnerships.

Snohomish County Parks' capital improvement program for special use parks consists of the following:

1. EVERGREEN STATE FAIR PARK IMPROVEMENTS

On-going program for improvements to the Fair Park, including facility renovation, equestrian arena motorsports improvements, motorsports arena feasibility study, camping area enhancements. Funding is proposed as follows:

- Prior Year Balance: \$2,615,089 (REET2, Mitigation)
- 2025: \$741 (Mitigation); \$560,000 (REET 2)
- 2026: \$300,000 (REET 2)
- Future Years: 2027 - \$300,000 (REET2), 2028 - \$300,000 (REET2); 2029 - \$300,000 (REET2); 2030 - \$300,000 (REET2)
- Project Start/End Date: On-going program
- Project Status: Improvements progressing in 2024 include a new wash bay, Grandstand structural assessment, the Beef Arena, and Equestrian Park improvements, motorsports arena equestrian improvements.
- Changes Since the 2024 Budget: Increased 2025 budget and decreased future year funding

2. MOUNTAIN BIKING PARK – FEASIBILITY STUDY

This funding will be for consultant services and site studies to complete a feasibility study and report to identify a candidate site for a new Mountain Biking Park which is anticipated to draw strong community support. Funding is proposed as follows:

- Prior Year Balance: \$28,922 (REET 2)
- 2025: \$0
- 2026: \$0
- Future Years: None
- Project Start/End Date: 2023/2024
- Project Status: Feasibility study is progressing and is anticipated to be complete in 2024
- Changes Since the 2024 Budget: Construction funding moved to a new project

3. MOUNTAIN BIKING PARK

This will be the next phase of work following the feasibility study and identification of a site or sites for the Mountain Biking Park. Project funding is for consultant design, permitting, and construction of the new facility. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$40,770 (REET2)
- 2026: \$410,000 (REET 2)
- Future Years: 2028 - \$250,000 (Mitigation); 2029 - \$200,000 (Mitigation)
- Project Start/End Date: 2025/2029
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Added as a new project

4. KAYAK POINT GOLF COURSE – CLUB HOUSE ABATEMENT

This funding will allow for asbestos abatement at the Club House. Funding is proposed as follows:

- Prior Year Balance: \$50,000
- 2025: \$0
- 2026: \$0
- Future Years: None
- Project Start/End Date: 2025/2025
- Project Status: Awaiting project start
- Changes Since the 2024 Budget: None

5. KAYAK POINT GOLF COURSE – DISC GOLF NPDES IMPROVEMENTS

Drainage improvements at the disc golf course for NPDES compliance. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$100,000 (REET 2)
- 2026: \$300,000 (REET 2)
- Future Years: 2027 - \$350,000 (REET 2); 2029 - \$300,000 (REET 2); 2030 - \$300,000 (REET 2)
- Project Start/End Date: 2025/2030
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Added as a new project

6. SKY VALLEY SPORTSMANS PARK DEVELOPMENT

Development of a master plan to guide future development of a marksmanship park through a public/private partnership. Phase 1 design and permitting can begin in out years. Funding is proposed as follows:

- Prior Year Balance: \$40,770 (REET 2)
- 2025: -\$40,770 (REET 2)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2014/TBD
- Project Status: Community meetings held in 2024; project is on hold
- Changes Since the 2024 Budget: Transferred funding to the new Mountain Biking Park.

TRAILS – Program 48 CR#33

The regional trail system developed by Snohomish County Parks is a major county asset. Providing non-motorized recreational connections attracts hundreds of thousands of users and supports economic development and active transportation in the county. Trails are a major priority for Snohomish County Parks and requires building and maintaining the entire trail system, including preserving existing regional trails, completing missing links, and developing new opportunities. Future development of all regional trail corridors will depend upon local resources as well as funding from state and federal grant sources.

Snohomish County Parks’ capital improvement program for trails consists of the following projects:

1. CENTENNIAL TRAIL – MACHIAS PLAYGROUND REPLACEMENT

Life-cycle replacement of playground at Machias Trailhead. Additional funding was added to allow for installation of a playground communication board and unitary play surfacing instead of engineered wood fiber surfacing. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$1,564 (Mitigation)
- 2026: \$425,000 (REET2)
- Future Years: \$0
- Project Start/End Date: 2025/2026
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Increased budget due to inflation. Moved this project timeline earlier due to condition of existing playground.

2. CENTENNIAL TRAIL – PAVEMENT PRESERVATION

Pavement preservation includes cut/patch, root removal and sealing to preserve pavement integrity. Work is planned to minimize the need for future larger-scale renovation. Funding is proposed as follows:

- Prior Year Balance: \$150,000
- 2025: \$250,000 (REET 2)
- 2026: \$250,000 (REET 2)
- Future Years: 2027 - \$250,000 (REET 2); 2028 - \$250,000 (REET 2); 2029 - \$250,000 (REET 2); 2030 - \$250,000 (REET 2)
- Project Start/End Date: On-going program
- Project Status: Several areas have been completed or are in progress for 2024
- Changes Since the 2024 Budget: Increased budget due to need and inflation

3. CENTENNIAL TRAIL – STILLAGUAMISH PIER REPAIR (HALLER BRIDGE)

Repair of Centennial Trail bridge footing in the Stillaguamish River, north of Arlington, which is being scoured by river action. Funding is proposed as follows:

- Prior Year Balance: \$644,137 (REET2)
- 2025: \$0
- 2026: \$0
- Future Years: 2029 - \$450,000 (REET2); 2030 - \$450,000 (REET2)
- Project Start/End Date: 2016/2031
- Project Status: Permitting and design is ongoing.
- Changes Since the 2024 Budget: Moved project into out years.

4. CENTENNIAL TRAIL SOUTH

Development of the eastside rail corridor from the City of Snohomish to the King County border, as an extension of the current Centennial Trail. This segment will ultimately extend the Centennial Trail from Skagit County all the way to King County and add an additional 12 miles to the trail. Centennial Trail South is proposed to be developed as a paved, multi-use trail. Funding is proposed as follows:

- Prior Year Balance: \$1,649,177 (REET2; Mitigation; Other/Grant)
- 2025: \$0
- 2026: \$362,221 (REET2)
- Future Years: \$0
- Project Start/End Date: 2014/2030
- Project Status: Awaiting railbanking decision so staff can hire consultant and begin design and permitting process. Planning for future funding sources and securing the trail corridor is ongoing.
- Changes Since the 2024 Budget: none

5. CENTENNIAL TRAIL – STAIRS NEAR HALLER PARK

Development of stairs in the location of a footpath between Haller Park in Arlington and the Centennial Trail. The footpath is causing erosion issues and is beginning to undermine the trail paving. This project will also restore smaller footpaths and install measures to prevent future footpaths that would lead to erosion. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$100,000 (REET2)
- 2026: \$0
- Future Years: None
- Project Start/End Date: 2025/2025
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Added as a new project

6. INTERURBAN TRAIL – 128th SEGMENT DEMO

Removal and restoration of the trail north of 128th St. as required by agreement with WSDOT based upon relocation of this section through an adjacent development project. Funding is proposed as follows:

- Prior Year Balance: \$200,356 (REET2)
- 2025: \$0
- 2026: \$0
- Future Years: None
- Project Start/End Date: 2020/2025
- Project Status: Initial project scoping of trail removal has been completed, including coordination with WSDOT. Initiation of removal and restoration work is anticipated to begin in 2024.
- Changes Since the 2024 Budget: None

7. INTERURBAN TRAIL – IMPROVEMENTS

Provide for future trail improvements, in support of anticipated use associated with light rail improvements and associated population, wayfinding and paving preservation. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0
- 2026: \$0
- Future Years: 2027 - \$100,000 (REET 2); 2028 - \$100,000 (REET 2); 2029 - \$100,000 (REET 2)

- Project Start/End Date: 2027/2030
- Project Status: Project planning to begin pending funding availability
- Changes Since the 2024 Budget: Reduced future funding

8. SNOHOMISH RIVER REGIONAL TRAIL

Planning, acquisition, and development for a future regional trail between the Cities of Snohomish and Everett and connecting to the Centennial Trail in Snohomish. Funding is proposed as follows:

- Prior Year Balance: \$653,374 (\$624,062 REET2; \$29,312 Mitigation)
- 2025: \$542,000 (REET2); \$2,000,000 (Other)
- 2026: \$0
- Future Years: None
- Project Start/End Date: 2018/2028
- Project Status: Consultant team was hired in 2024 to begin feasibility planning phase. Acquisition for needed property is ongoing.
- Changes Since the 2024 Budget: Adjusted 2025 funding to account for next phase of consultant design services and grant applications. Removed construction funding out of the CIP, as the source for this funding is not currently identified. It is included as part of the Tier 2 package.

9. WHITEHORSE TRAIL – IMPROVEMENTS

Continuing improvements to the Whitehorse Trail to open the full corridor and complete bank stabilization projects. Funding is proposed as follows:

- Prior Year Balance: \$2,963,694
- 2025: \$250,000 (REET 2)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2021/2026
- Project Status: Project design and permitting is ongoing. Construction anticipated to begin in 2025.
- Changes Since the 2024 Budget: Added funding to meet current cost estimate

END OF PROGRAM 48

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended
Change Request Summary

Department	0009 - Conservation and Nat Resources
Change Request	AUTO - 34 - DCNR PARKS 309 - SUPPORT
Change Request Type	CIP - Capital
Change Request Status	Executive Recommended
Publish Date	Aug 15, 2024 09:03 AM (PDT)
Description	Parks requires a variety of professional staff to support the Parks Department's capital planning, public participation, grant writing, contracts, interlocal cooperation agreements, acquisitions, design and engineering, program supervision, and construction management. In addition, funding for smaller capital projects that may be constructed by Parks maintenance staff is included in this package.
Summary	Recommended has been adjusted to remove from REET2, salary & benefits for a requested 0.5 FTE Funding Coordinator (not an eligible use of REET2), and salary & benefits for the 1.0 FTE in OES that is funded through LCI.
Justification	Please see attached WORD document for SUPPORT program 49 justifications.

SUPPORT – Program 49 CR#34

Parks requires a variety of professional staff to support the Parks Department's capital planning, public participation, grant writing, contracts, interlocal cooperation agreements, acquisitions, design and engineering, program supervision, and construction management. In addition, funding for smaller capital projects that may be constructed by Parks maintenance staff is included in this package.

The Snohomish County Parks' capital improvement program provides support for park acquisition, development, and improvement projects includes:

1. GENERAL IMPROVEMENTS – PARKS

Funding for small capital or other REET 2 eligible projects. These projects are typically accomplished by the Parks maintenance group and are focused on priorities such as Americans with Disabilities Act (ADA) compliance and stormwater improvements as required by the National Pollutant Discharge Elimination System (NPDES) permit, life-cycle replacements and operational efficiencies. Funding is proposed as follows:

- Prior Year Balance: \$1,348,439
- 2025: \$400,000 (REET 2)
- 2026: \$400,000 (REET 2)
- Future Years: 2027 - \$400,000 (REET2); 2028 - \$400,000 (REET2); 2029 - \$400,000 (REET2); 2030 - \$400,000 (REET2)
- Project Start/End Date: On-going program
- Project Status: A list of projects to be completed in 2025 and 2026 has been generated and is ranked for completion.
- Changes Since the 2024 Budget: Added out years funding

2. CAPITAL SUPPORT/SALARIES, OVERHEAD AND BENEFITS

On-going funding for professional staff to support Parks' capital program. Capital staffing includes planners, landscape architects, contract administration and property acquisition specialists. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$1,685,101 (REET 2), \$99,833 (Other)
- 2026: \$1,591,688 (REET2), \$95,403 (Other)
- Future Years: 2027 - \$1,671,272 (REET2); 2028 - \$1,754,836 (REET 2); 2029 - \$1,842,578 (REET 2); 2030 - \$1,934,707 (REET 2)
- Project Start/End Date: On-going program
- Project Status: The Parks planning group progressed and completed a wide variety of projects in 2024 including grant applications and management, land acquisitions, design, permitting, construction documentation, construction management, life-cycle renovations, long-range planning processes, public outreach, and others.
- Changes Since the 2024 Budget: Updated for current projected salary calculations

3. DEFERRED COMP

On-going funding for deferred compensation for professional staff to support Parks' capital program. Capital staffing includes planners, landscape architects, contract administration and property acquisition specialists. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$424,177 (REET 2)

- 2026: \$419,081 (REET2)
- Future Years: 2027 - \$440,035 (REET2); 2028 - \$462,037 (REET 2); 2029 - \$485,139 (REET 2); 2030 - \$509,396 (REET 2)
- Project Start/End Date: On-going program
- Project Status: Ongoing
- Changes Since the 2024 Budget: Added line item for clarity, previous budgets had this line item lumped into Capital Support/Salaries, Overhead and Benefits

4. SUPPLIES/JANITORIAL

On-going funding for supplies and janitorial services to support Parks' capital program. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$50,000 (REET 2)
- 2026: \$50,000 (REET2)
- Future Years: 2027 - \$50,000 (REET2); 2028 - \$50,000 (REET 2); 2029 - \$50,000 (REET 2); 2030 - \$50,000 (REET 2)
- Project Start/End Date: On-going program
- Project Status: Ongoing
- Changes Since the 2024 Budget: Added line item for clarity, previous budgets had this line item lumped into Capital Support/Salaries, Overhead and Benefits

5. 2013 BOND REPAYMENT

Repayment of a bond issued in 2013 to fund a variety of capital improvements. Repayment of this bond will continue over the coming years. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$113,354 (REET 2)
- 2026: \$117,354 (REET 2)
- Future Years: 2027 - \$116,062 (REET 2), 2028 - \$119,624 (REET 2), 2029 - \$117,952 (REET 2); 2030 - \$117,952 (REET 2)
- Project Start/End Date: 2013/2032
- Project Status: On-going repayment project
- Changes Since the 2024 Budget: None

6. 2021 BOND REPAYMENT

Repayment of a bond issued in 2021 to fund a variety of capital improvements. Repayment of this bond will continue over the coming years. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$266,500 (REET 2)
- 2026: \$262,000 (REET 2)
- Future Years: 2027 - \$262,250 (REET 2), 2028 - \$267,000 (REET 2), 2029 - \$266,000 (REET 2); 2030 - \$266,000 (REET2)
- Project Start/End Date: 2021/2032
- Project Status: On-going repayment project
- Changes Since the 2024 Budget: None

7. SMALL CAPITAL IMPROVEMENTS PROGRAM

This program completes small park capital projects using in-house staff. Typical projects include fencing replacement, ADA improvements, trail construction, asphalt preservation and miscellaneous projects that are often difficult to advertise for public bid (e.g., various fence repairs/replacement). Efficiencies are gained through reduced project completion time, reduced costs to complete the project, and incorporation of lower maintenance materials. Funding is proposed as follows:

- Prior Year Balance: \$441,288 (REET 2)
- 2025: \$183,839 (REET 2)
- 2026: \$194,504 (REET2)
- Future Years: 2027 - \$200,339 (REET 2); 2028 - \$206,349 (REET 2), 2029 - \$212,540 (REET 2); 2030 - \$218,916 (REET2)
- Project Start/End Date: On-going program
- Project Status: On-going program
- Changes Since the 2024 Budget: Updated for current projected salary calculations

8. SCIP INTERFUND TRANSFER TO 430

The SCIP program completes small park capital projects using in-house staff. Typical projects include fencing replacement, ADA improvements, trail construction, asphalt preservation and miscellaneous projects that are often difficult to advertise for public bid (e.g., various fence repairs/replacement). Efficiencies are gained through reduced project completion time, reduced costs to complete the project, and incorporation of lower maintenance materials. At the end of the year funding is transferred to the Maintenance fund in accordance with SCIP staff hours reported. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$90,000 (REET 2)
- 2026: \$90,000 (REET2)
- Future Years: 2027 - \$100,000 (REET 2); 2028 - \$100,000 (REET 2), 2029 - \$100,000 (REET 2); 2030 - \$100,000 (REET2)
- Project Start/End Date: On-going program
- Project Status: On-going program
- Changes Since the 2024 Budget: Added line item for clarity, previous years' budgets had this line item lumped into Small Capital Improvements Program.

9. COUNTY ARCHAEOLOGIST

Park projects often include a requirement to perform cultural resources review, which includes tribal consultation and sometimes requires a cultural resources study or construction observation. In 2018 Snohomish County hired a full-time Archaeologist and Parks provides a portion of the salary for this position. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$30,000 (REET 2)
- 2026: \$30,000 (REET2)
- Future Years: 2027 - \$30,000 (REET 2); 2028 - \$30,000 (REET 2); 2029 - \$30,000 (REET 2); 2030 - \$30,000 (REET 2)
- Project Start/End Date: On-going program
- Project Status: On-going program
- Changes Since the 2024 Budget: None

10. EQUIPMENT PURCHASE

To help maintain park properties that address level-of-service needs, a small portion of mitigation fee collection is directed toward equipment acquisition. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$10,000 (Mitigation)
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: On-going program
- Project Status: On-going program
- Changes Since the 2024 Budget: deleted future years funding

11. LAND CONSERVATION INITIATIVE

Program aimed at identifying priority properties across Snohomish County to be preserved for the reasons of agricultural production, recreation, habitat, carbon sequestration, urban green space, and other values. In addition to identifying priority properties, this project will also develop an acquisition prioritization approach, identify funding strategies, address operation and maintenance needs and provide seed money for a TDR program, as well as the County's Healthy Forest Initiative. Funding is proposed as follows:

- Prior Year Balance: \$3,653,730
- 2025: \$0
- 2026: \$0
- Future Years: \$0
- Project Start/End Date: 2021/on-going
- Project Status: On-going program
- Changes Since the 2024 Budget: None

12. THREE LAKES SHOP ROOF REPLACEMENT

Life-cycle replacement of the roof on the Three Lakes Ranger office. Funding is proposed as follows:

- Prior Year Balance: \$0
- 2025: \$0
- 2026: \$100,000 (REET 2)
- Future Years: \$0
- Project Start/End Date: 2026/2026
- Project Status: Project pending funding availability
- Changes Since the 2024 Budget: Increased budget due to inflation

13. PROPERTY ACQUISITION SUPPORT

Parks' Real Property Administrator is tasked with evaluating and processing property acquisition projects. This may include unanticipated projects such as donation properties, small portions of property that will help complete an ongoing project (e.g., easements or access parcels) and others. These projects often require survey, appraisals and/or other costs which cannot be completed with other available funding within Parks' budget. Funding is proposed as follows:

- Prior Year Balance: \$147,966 (REET 1)
- 2025: \$0
- 2-26: \$0
- Future Years: None
- Project Start/End Date: On-going program

- Project Status: On-going program
- Changes Since the 2024 Budget: None

Publish Date Jul 09, 2024 10:44 PM (PDT)

Description This priority package describes the Annual Construction Plan (ACP) and the Six-Year Capital Improvement Plan (CIP) for the Surface Water Management (SWM) Division of Conservation & Natural Resources and reflects adjustments to the Capital (Program 513) base capital budget for 2025-26. Overall, the 2025 budget request for SWM Capital increased by 39% compared to 2024 and the 2026 budget request for SWM Capital increased by 18% compared the proposed 2025 budget. This is primarily due to grant funded projects that impact revenue/expenses. Adjustments are in the following areas:

- 1) Stream and River Capital (Sub-Program 003)
- 2) Drainage and Water Quality Capital (Sub-Program 008)

Summary 1) STREAM AND RIVER CAPITAL (Sub-Program 003) – The 2025-26 budget request reflects an increase of 60% in 2025 compared to the 2024 approved budget and a decrease of 6% in 2026 from the proposed 2025 budget. The Stream and River Capital sub program includes design and construction of projects to restore or improve habitat and water quality in rivers and streams. This subprogram is funded by a combination of SWM service charge revenues and grant funds.

Change from Proforma Budget

Increases to the Stream and River Capital budget is primarily due to the work at Thomas’s Eddy scheduled to take place in 2025 and Shinglebolt Slough in 2026. Both projects are primarily grant funded.

Thomas’s Eddy is a 200-acre Floodplain Restoration project on the mainstem of the Snohomish River, between the City of Monroe and the City of Snohomish. This project will involve lowering of existing levees to promote river reconnections, native plantings, trail improvements and replacement of an access road culvert, large wood structures and replacement of two farm culverts.

Shinglebolt Slough is a 40-acre Floodplain Restoration project on the mainstem of the Lower Skykomish River, a tributary of the Snohomish River near the City of Sultan, and the confluence of the Sultan River. This project will reconnect isolated side channels, restore up to 20 acres of riparian habitat, as well implementing large wood structures and water quality improvements.

2) DRAINAGE and WATER QUALITY CAPITAL (Sub-Program 008) – The 2025-26 budget request is an increase of 26% in 2025 compared to the 2024 approved budge and an increase of 37% in 2026 from the proposed 2025 budget. The Drainage and Water Quality Capital subprogram provides engineering planning and analysis, project design, and project construction for drainage and water quality concerns throughout the County. SWM Drainage and Water Quality projects are funded with a combination of SWM service base charges and fund balance, Roads - Interfund Professional Services, grants, and REET II revenues.

The Drainage and Water Quality Capital sub-program has the following main components:

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended
Change Request Summary

AUTO - 229 - DCNR SWM 415 - Capital CIP

- Justification
- 1) Drainage and Flooding Reduction projects
 - 2) Fish Passage Improvement projects
 - 3) Master Drainage Planning and Water Quality Facility Planning
 - 4) NPDES and water quality-focused projects

Change from Proforma Budget
 The increase in 2025 and 2026 to the Drainage Water Quality Capital sub-program is primarily due to additional grant funds available to work on culverts to improve fish passage.

In 2025 the SWM Capital Projects team is advancing a variety of projects to construction, including 4 larger fish passage culvert projects and a large flood reduction project. The culvert replacement near 7616 Sexton Rd, costing roughly \$2M is a joint effort with WSDOT to replace fish passage barrier culverts within both County and WSDOT right-of-way. The Culvert Replacement near 26622 Monroe Camp Road, costing roughly \$3.2M, replaces a failed culvert crossing and satisfies an obligation with the Department of Washington Fish and Wildlife. Culvert replacements on Cedardale Loop, \$1.1M, and Grandview Rd, \$1.6M, each replace fish passage barrier culverts that are failing and are of interest with key tribal partners. Lastly, the Flood Reduction on Elliot Rd. project resolved long standing flooding issues along a key roadway in the County. Given the poor soil conditions at the site construction of the improvements must be broken into two phases, with construction of Phase 1 in 2025 (\$1.6M) and Phase 2 in 2026 (\$1.6M).

In 2026 we are advancing a variety of projects to construction, including 4 larger fish passage culvert projects, a large flood reduction project, and a large water quality improvement project. The North Martha Lake Inlet Water Quality Improvement project, costing \$3.68M, leverages Surface Water Utility funds and grant funds to improve storm water quality entering the lake while also fulfilling MS4 Permit requirements. The Culvert Replacement Project near 19224 Marine Drive (\$2.17M) replaces a fish passage barrier and leverages legislatively appropriated federal funding. The Culvert Replacements on 167th Ave (French Creek) (\$3.7M) and on S. Machias Rd. (\$2.35M), leverage federal grant funds to replace fish passage barriers on two different creeks. Lastly, the Culvert Replacement on 19th Ave. NE (Hibulb Crk) (\$1M) replaces a fish passage barrier.

Description This package provides a summary of the continued investment by the Department of Information Technology in the regular replacement of aging infrastructure for the County’s IT system over the next 48-month period. The Technology Replacement Program (TRP) plan has been established as the county’s annual effort to ensure workstation and infrastructure replacement is addressed to optimize system reliability and reduce incidence of critical failure. TRP is funded through a contribution from Fund 505 using rates paid by IT customers based upon allocated metrics, as identified in interlocal agreements and interfund rates assessed to departments.

Projects in Fund 315 that are not related to the TRP are generally funded by sources other than rate contributions from Fund 505. Some TRP categories incur only periodic outlays, but have assessments spread evenly over a multiyear period for consistency in planning for budgetary impact.

Change Request AUTO - 409 - FAC New Maintenance Vehicles for Maintenance
Change Request Type CIP - Capital
Change Request Status Executive Recommended
Publish Date Jul 09, 2024 11:01 PM (PDT)

Description The Facilities O&M division has a need for 2 additional vehicles for maintenance use at emergency bridge housing locations. These vehicles will be used for landscaping, hauling needs, and for pushing snow during snow events. Having a county vehicle available at each emergency bridge housing facility will allow employees to report directly to their work location and have available transportation for material/parts pickup, snowplowing, landscape hauling, etc. It is unrealistic to pull another staff member from main campus to deliver a vehicle for use and saves courier or delivery costs and time for items needed in an emergency situation.

Publish Date	Jul 29, 2024 08:42 AM (PDT)

We recommend these projects in the 2025 budget:

PROJECT OFFICE EXPENSES (PROJECT MANAGER/PROJECT COORDINATOR) - \$260,000
 Annual allowance for the personnel cost of a Capital Projects Manager (project position) & related overhead costs

Description

MISSION BUILDING IMPROVEMENTS - \$1,460,000

Clock tower - Cleaning, repair, & paint

The Mission clock tower being a focal point in the greater Everett downtown area is in dire need of reconditioning to include cleaning, stucco repairs, LED lighting upgrades & repainting to preserve this historic building

Replace wastewater lines, storm water lines, plumbing lines & fixtures.

The Mission building has many water lines existing that are from original construction. Many of these lines are cast iron & are beginning to fail with cracking & joint deterioration. To prevent flooding issues & water damage potential these compromised lines require replacement.

MEDICAL EXAMINER BUILDING IMPROVEMENTS - \$80,000

Backup morgue cooling system – Existing is beyond useful life

Currently there is an aging existing morgue cooling system, this system has had periodic breakdowns causing serious potential issues where cooling is required. This project will involve installation of a backup system creating redundancy for this critical system.

We recommend these projects in the 2026 budget:

PROJECT OFFICE EXPENSES (PROJECT MANAGER/PROJECT COORDINATOR) - \$260,000
 \$200,000 annual allowance for the personnel cost of a Capital Projects Manager (project position) & related overhead costs.

EVERGREEN DISTRICT COURT IMPROVEMENTS - \$243,000

Replace obsolete controls for HVAC & sanitary sewer pumps, & in-vault piping

Many of the components of the Evergreen Dist. Court HVAC system are becoming obsolete, this project will replace the aging condensing unit with a new high efficiency unit, additionally the control are at obsolescence with many components difficult to source, this project will upgrade the HVAC controls to meet county standards. The sanitary lift station at the Evergreen Dist. Court is in need of rebuilding, many components are rusted, corroding & at the end of useful life. This project will replace pumps, controls, and in-vault piping as needed.

CARNEGIE BUILDING IMPROVEMENTS - \$100,000

Re-seal exterior brick

Several years ago the Carnegie building underwent a major renovation, in part the project preserved the original brick work & mortar with sealant to prevent deterioration & water infiltration, it is time to have the building re-cleaned & resealed to continue the protective sealant of the masonry façade.

ADMIN WEST IMPROVEMENTS - \$700,000 (PROJECT FUNDS TO DATE: \$1.3 MILLION)

Re-roofing project

The roof covering the upper level of the 6th floor is at the end of its useful life, this project will replace the existing aging bitumen roofing & address insulation replacement where needed

SOUTH DISTRICT COURT IMPROVEMENTS - \$497,000

Replace heating system

This project will replace the duct heating system which is at end of useful life, these 1970 vintage coil heaters will be replaced with new more efficiency units. Controls will be replace with this project.

Security & Fire alarm system

This project will replace the antiquated & obsolete security & fire communications system & bring the building up to county standards

Change Request Summary

Department **0018 - Facilities Management**
Change Request AUTO - 479 - FAC Fleet - CIP Electrification M&E
Change Request Type CIP - Capital
Change Request Status Executive Recommended
Publish Date Jul 17, 2024 10:29 AM (PDT)

Our current budget requests reflect DAC 502.5188606402 for fleet electrification. The administration of the \$2.2 million allocated to Fleet Management in 2022, has now been depleted to \$464,652. This fund was directed towards the purchase of 21 zero-emission, all-electric vehicles, comprising 4 Ford E-Transit vans, 15 Ford Mach-E, and 1 Ford Lightning, along with 1 Kenworth K270E all-electric box van. Additionally, we anticipate receiving 10 more Ford Lightnings in the next two months.

Description
Frontier Energy, in conjunction with PUD, completed an evaluation of the County’s current fleet composition and made recommendations to efficiently and effectively procure and install electric vehicle supply equipment at each of the County’s existing fleet facilities to meet the current and near future EV purchases. The total plan identified \$5 million in infrastructure requirements.

To sustain and support transition to zero-emission vehicles, this request is for an additional \$1.5 million in 2025 and \$1.5 million in 2026. This amount will fund the purchase and installation of chargers at County-owned properties most convenient for County EVs to charge.

In summary, the additional funding will enable us to not only support our growing electrical vehicle inventory but also accelerate our ability to transition to zero-emission vehicles, thereby reducing our carbon footprint and contributing to environmental sustainability efforts.

Exec Rec: yes on carry-forward of PY funding

2025-2030 Capital Improvement Program – Executive Recommended
Change Request Summary

Department 0021 - Airport
Change Request AUTO - 187 - Airport - Grant Funded Projects
Change Request Type CIP - Capital
Change Request Status Executive Recommended
Publish Date Jul 09, 2024 10:37 PM (PDT)

Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. The Capital projects listed from 2025-2030 address these needs and are supported by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Description Certain airfield capital improvements are eligible, but not guaranteed, for 90% grant funding by the Federal Aviation Administration (FAA). FAA grants are prioritized by type and are highly competitive. Airfield projects are funded only if they meet FAA guidelines and rank high on the national priority list. FAA Grant Funding is listed in revenues. Grant funded construction projects are started only after the grant funding has been approved.

In 2025-2026, the Airport Capital Improvement Program (ACIP) includes \$3,000,000 to complete the east ramp & taxiway foxtrot pavement rehabilitation; \$8.88M for taxilane echo reconstruction phase II; \$26.97M for reconstruction of runway 16R-34L; \$695k to reconstruct central t-hangar taxilanes including the general aviation apron and taxiway delta, phase I. All projects listed are funded at 90% by FAA Grants with a 10% local match. In total, the airport is receiving approximately \$32.9M in grant funding for 2025-2026 budget.

Summary LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

Description
 Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. The Capital projects listed from 2025-2030 address these needs and are supported by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Other Improvements, capital projects consist of airside and landside projects that maintain targeted safety standards for airport Infrastructure. Airside projects consist of, but not limited to, runways, ramps, and taxiways while landside projects consist of roadways, stormwater, sewer, security, and other infrastructure. Various infrastructure projects are budgeted at \$5.05M in 2025-2026 and being funded entirely by the Airport Enterprise Fund.

Summary
 LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

Justification
 The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2025-2026 Airport budget.

Commercial and industrial building related capital projects are tied to existing county owned infrastructure, future tenant demand, and maintaining or generating revenues for the Airport Enterprise Fund. A total of \$14.5M is budgeted for, but not limited to, the following projects: t-hangar renovations; building C-3 new HVAC, roof, and interior renovations; renovations of the airport administration building; building 1116 roof replacement; IT server permanent relocation; fire station addition and renovations; and miscellaneous additional repairs for the airport’s aging infrastructure.

Chapter V: Statement of Assessment on GMA Goal 12

The purpose of this statement of assessment is to determine if there are any probable funding shortfalls or regulatory inadequacies that could jeopardize the implementation of the Snohomish County Comprehensive Plan or satisfaction of Goal 12 of the Growth Management Act (GMA) to provide adequate public facilities. As of this review, it is important to report that the Marysville School District is experiencing a budget deficit and has entered into binding conditions with the state to address this issue. It is anticipated that the Marysville School District will develop a budget plan and capital facilities plan as part of its work with the state. Financial challenges were described by other school district due to failed bond measures. However, these districts will continue to work with their school boards and communities to propose new capital bonds to fund capital projects.

Snohomish County has found no other probable funding shortfalls or regulatory inadequacies with other public facilities or services that could jeopardize the implementation of the County’s Comprehensive Plan or satisfaction of GMA Goal 12.

This statement of assessment examines those public facilities explicitly identified as necessary to support development in the County’s Capital Facilities and Utilities Element of the Comprehensive Plan and listed in Table 5 below. A distinction is made between urban and rural development within the context of the GMA. Each capital facility may require different levels of service for different types (urban or rural) of facilities.

Table 5. Facilities Necessary to Support Development*

Public Facility	Necessary for Urban Development**	Necessary for Rural Development
Surface Transportation	Yes (Public streets and transit routes)	Yes (Public roads)
Surface Water Management	Yes	Yes
Park Land and Recreational Facilities	Yes (Community park land and recreation facilities, regional trails, open space/preserve)	Yes (Community park land and recreation facilities, regional trails)
Public Water Supply System	Yes	No
Public Wastewater System	Yes	No
Fire Protection Service	Yes	No
Electric Power	Yes	Yes
Public Schools	Yes	Yes

*The Capital Facilities and Utilities Element of the Comprehensive Plan includes additional capital facilities and services (general government facilities, law and justice facilities, solid waste facilities, and airport facilities). The general government facilities, law and justice facilities, solid waste facilities, and airport facilities are included in the financial sections of the CIP but are not included in the statement of assessment because these facilities are not identified as necessary to support development.
 ** Urban development is considered development activity located inside an urban growth area.

Each public facility listed in Table 5 necessary to support development is examined from three perspectives:

- the sufficiency of the capital improvement program(s) of service providers to achieve minimum acceptable levels of service (LOS);
- the adequacy of the funding that supports the CIP; and

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

- the adequacy of regulatory mechanisms to ensure that facilities expand in concert with development.

All these facilities are supported by CIPs prepared and adopted by their respective purveyor agencies.

The relevant Snohomish County departments and non-County agencies for each facility have prepared facility-specific statements of assessment in Chapter V, Sections 5.1 and 5.2. This information is summarized in Table 6.

In reporting the statement of assessment for public schools, the responses reflect the budget deficit of the Marysville School District. As of July 19, 2024, the Marysville School District has entered into binding conditions with the Washington State Office of Superintendent of Public Instruction (OSPI) and the Northwest Education Services District (NESD) to address its financial issues. At this time, the school district is considering the closure of schools and changes to school boundaries as part of its plan to address its deficit. PDS will continue to monitor this situation and update the status of public schools including the Marysville School District in the next CIP update.

Table 6. Summary of Capital Facilities Statements of Assessment

	Surface Transportation	Park Land & Recreational Facilities	Surface Water Management	Public Water Supply	Public Wastewater Systems	Electric Power	Public Schools	Fire Protection Services
Are current minimum levels of service (LOS) being met?	Yes	Yes	Yes	DOH standards are being met	Ecology standards are being met	Yes	Yes*	Yes
Funding is adequate for capital projects over the next six years	Yes	Yes	Yes	Yes	Yes	Yes	Yes**	Yes
Are there any projected funding shortfalls?	No	No	No	No	No	No	No***	No
Corresponding minimum levels of service should be met over the next six years?	Yes	Yes	Yes	DOH standards expected to be met	Ecology standards expected to be met	Yes	Yes	Yes
Will regulatory measures appropriately ensure that new development will not occur unless the necessary facilities are available to support the development at the adopted minimum level of service?	Yes – Concurrency regulations. If the LOS falls below the minimum standard, new development cannot be permitted.	Yes – Impact fees also required	Yes	Yes – Developers generally pay directly for permitted infrastructure extensions****	Yes – Developers generally pay directly for permitted infrastructure extensions	Yes LOS is met under the Requirements of service provider	N/A LOS is met under the Requirements of service provider	Yes

*Marysville School District has entered into binding conditions with the state, that may impact its ability to meet level of service (LOS) requirements. The County is monitoring the situation.

**Marysville School District has entered into binding conditions with the state, that may impact its ability to meet funding for capital projects over the next six years. The County is monitoring the situation.

***Marysville School District has entered into binding conditions with the state, there may be projected funding shortfalls. The County is monitoring the situation.

****Seven Lakes Water Association is limited on new water service connections due the nature of its water rights. Snohomish County is monitoring growth trends in this rural area of limited growth. The Town of Index currently has a moratorium on new connections pending the release of federal funds for a new meter. However, the Washington State Department of Ecology has authorized a small number of new services to be issued between now and when the moratorium can be lifted.

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

Growth Management Act and the CIP

The GMA (Chapter 36.70A RCW) requires the development of a comprehensive plan and periodic updates to address new population and employment growth forecasts for a 20-year planning period. As of the writing of this section, the 2024 Comprehensive Plan is not yet adopted so the analysis is based on the executive recommendation. The CIP needs to be adopted by Fall 2024 so the CIP could not wait for the final adoption of the comprehensive plan. The proposed 2024 Comprehensive Plan includes a complete reassessment of land use and transportation in the context of additional growth forecasted through the year 2035. Snohomish County addressed issues of funding, levels of service, and land use as part of the comprehensive plan update process. Snohomish County's next comprehensive plan update is due before the end of 2024. This update revisits capital infrastructure and includes an updated reassessment of land use and transportation in the context of additional growth forecasted through the next 20-year planning horizon of 2044.

One important indicator of whether public facilities are being adequately provided to support the Snohomish County Comprehensive Plan's expected growth is the County's recent performance in accommodating growth. The Snohomish County Tomorrow (SCT) 2020 Growth Monitoring Report showed that the estimated population of the total unincorporated UGA by 2020 had already exceeded its 2035 population target – 15 years ahead of schedule. The degree to which population growth by 2020 had exceeded the 2035 population growth targets was most pronounced in the Bothell and Mill Creek unincorporated Municipal Urban Growth Areas (MUGAs).

The issue regarding the pace of unincorporated UGA population growth causing many areas to already exceed their 2015-2035 growth targets raises concerns about the possibility for growth adding stress to the infrastructure in certain areas. Per the 2021 Buildable Land Report, overall, at the countywide UGA level there is adequate land capacity to accommodate the adopted 2035 total UGA population, housing, and employment growth targets. This is also the case for cities overall, and the unincorporated UGA overall. The City of Everett is the only jurisdiction facing a significant shortfall in population and housing capacity.¹ This issue was evaluated in further detail in the County's 2024 Comprehensive Plan update. In addition, the 2024 Comprehensive Plan updates will address growth to the year 2044.

The Snohomish County Countywide Planning Policies (CPPs) were updated with the 2044 population targets currently used by the county and the cities as the foundation for the growth assumptions used for the 2024 comprehensive plan updates. Importantly, the 2044 population targets resolve the issue of actual growth by 2020 exceeding the 2035 targets in many areas of the unincorporated UGA described above. This can be seen in the SCT 2023 Growth Monitoring Report which shows that 2020-2023 population growth in the total unincorporated UGA has been aligned much better with the 2044 population growth targets than had previously been the case with the 2035 targets. The unincorporated UGA has accommodated 25% of the county's total population growth from 2020-2023, compared with its 28% projected share from 2020-2044. Overall, the estimated total population countywide in 2023 of 859,800 is only 0.8% lower than the county's projected total population for 2023.

The County Charter requires that the County Council adopt a six-year CIP concurrently with the budget (Section 6.50). The Snohomish County CIP is updated and approved as part of the biennial budget

¹ See Snohomish County *2021 Buildable Land Report*, p.7-8, <https://snohomishcountywa.gov/DocumentCenter/View/84919/Letter-to-Dept-of-Commerce---Snohomish-County-Buildable-Lands-Report?bidId=>

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

process. Many cities and special districts that provide other facilities addressed herein follow a similar practice. These CIPs, in turn, are generally based on longer range capital facilities plans that identify long-term facility needs. Level of Service (LOS) targets and minimum standards are usually defined or embodied within the longer-range plan. Multi-year CIPs prepared by provider agencies demonstrate that funding is projected to be adequate for all the facilities/projects (county and noncounty) addressed by this statement of assessment for 2025-2030. The CIPs are typically funded at a level that produces a facility LOS somewhere between the agencies preferred or targeted LOS and the minimum acceptable LOS.

Reassessment Options

Snohomish County is required to initiate a reassessment program if the LOS for public facilities necessary for development cannot be maintained, funding shortfalls are projected, or regulatory measures do not reasonably ensure that new development will not occur unless the necessary facilities are available at the adopted LOS. The reassessment would include an analysis of potential options for achieving coordination and consistency. If such a reassessment is required, there are a range of options to consider:

- Reduce the standard of service, which will reduce the cost.
- Increase revenues to pay for the proposed standard of service (higher rates for existing revenues, and/or new sources of revenue).
- Reduce the average cost of the capital facility (i.e., alternative technology or alternative ownership or financing), thus reducing the total cost (and possibly the quality).
- Reduce the demand by restricting population (i.e., revise the land use element), which may cause growth to occur in other jurisdictions.
- Reduce the demand by reducing consumption or use of the facility (i.e., transportation demand management, recycling solid waste, water conservation, etc.), which may cost more money initially, but which may save even more money later.
- Any combination of the options listed above.

Statement of Assessment

Based on the information provided, none of the capital facilities evaluated in this CIP are projected to experience shortfalls in funding as defined by GMA Goal 12.² While concerns have been raised regarding the long-term effects of the COVID-19 pandemic, the impacts of climate change, and new state requirements, those impacts might be better known in the coming years. Therefore, no immediate reassessment actions are recommended or required at this time given the current and projected status of all the capital facilities that are “necessary to support development.”

² [RCW 36.70A.020](#) – “Public facilities and services. Ensure that those public facilities and services necessary to support development shall be adequate to serve the development at the time the development is available for occupancy and use without decreasing current service levels below locally established minimum standards.”

Section 5.1 – Assessment of County Capital Facilities

Part 5.1a – Surface Transportation

Sufficiency of Capital Improvement Program

Snohomish County’s Transportation Element (TE) is a primary component of the Snohomish County Comprehensive Plan. It adopts a transportation level of service (LOS) standard, policies for the development and maintenance of the transportation system, and strategies for implementing the policies and the LOS standard. The TE also identifies major road projects needed to support the development planned in the future land use map (FLUM) and maintain the County’s adopted LOS. The Transportation Needs Reports (TNR) prioritizes the TE projects and identifies the projects that provide the cost basis of the County’s GMA transportation impact fee (impact fee projects). The TNR is also the foundation for the six-year Transportation Improvement Program (TIP) that is updated and approved annually and reflected within the County’s CIP.

Funding Adequacy

The TIP identifies capital transportation improvements including preservation, safety, non-motorized, capacity, and bridge projects. Project expenditures are programmed over the six-year period and balanced with projected revenues. The 2025-2030 TIP has been developed to ensure that the investments necessary to support the FLUM have been adequately funded. Consequently, the investment identified in the TIP for transportation projects is sufficient to meet the minimum LOS standard identified in the TE of the Snohomish County Comprehensive Plan for the next six years.

The growth in expenditures has outpaced revenue growth at levels that, if left unchanged, will hinder future program delivery. The 2025-2030 TIP required several projects to be delayed or tabled to balance revenues and expenditures. Public Works continues to assess and adapt to impacts from cost escalation experienced at historically high levels in recent years. The costs for most goods and services that Public Works relies upon to perform its work have increased 20% to 30% over the last three years.

Despite these financial challenges, Snohomish County continues to find ways to invest in a robust six-year TIP while keeping up with the necessary maintenance and operation of the existing system. Traditionally, this has been achieved by successfully securing and leveraging funds from transportation grants, transportation impact fees, and some available County Road Levy. However, like developing the 2025-2030 TIP, future TIP development will become more difficult if new sources of revenue are not leveraged. The 2024 update to the TE identifies a number of increased or new revenue sources that will need to be implemented if transportation improvements are to keep pace with rapid population growth. The new revenue could include a County Road Levy lid lift, a Transportation Benefit District (TBD) vehicle license fee, impact fee increases, Utility Franchise ROW rental fee and others. Without increased revenue transportation system maintenance could suffer or other tools, such as concurrency moratoriums on new development, might need to be implemented. Public Works will continue to work actively and strategically to overcome future funding shortfalls and position the County to support the FLUM and maintain adequate LOS standards.

Adequacy of Regulatory Mechanisms

The County has adopted a transportation concurrency system through Snohomish County Code (SCC) [Chapter 30.66B](#) that monitors the LOS of the County’s arterial road network and restricts new

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

development permits if the LOS on an arterial unit falls below the adopted LOS standard. This regulatory system supplements and assists the County’s construction program in assuring that new development will be supported by adequate transportation facilities as defined by the County’s adopted LOS standard.

The County’s concurrency management system works as follows:

- When the Average Daily Trips (ADT) on an arterial unit reaches the thresholds identified in [SCC 30.66B.101](#), the County measures the travel speed on the arterial unit;
- when the travel speed on an arterial unit is within 2 mph of the speed representing a LOS below the adopted standard, the arterial unit is considered to be “At Risk”; and
- when an arterial unit falls below the adopted LOS, or within six years is forecasted to fall below the adopted LOS, and there are no projects or strategies programmed and funded to raise the LOS within six years, that arterial unit is designated as an “Arterial Unit in Arrears.”

No development can be approved that would add three or more peak hour trips to an Arterial Unit in Arrears until improvements adding additional capacity to raise the LOS to the adopted standard are either constructed or funded and programmed to be constructed within six years. Developments generating more than 50 peak-hour trips must also look at future conditions to evaluate whether they will cause an arterial unit to fall into arrears or impact an arterial unit expected to fall into arrears within six years.

An arterial unit may be determined by the County Council to be at “Ultimate Capacity” when the arterial has been improved to its maximum extent and further improvements would require unwarranted public expenditure or would have severe impacts to the environment or community. Ultimate Capacity provides for an alternative LOS. Additional Transportation Demand Management (TDM) measures are required for developments impacting “Ultimate Capacity” arterial units to encourage the use of transit and help reduce the need for single-occupancy vehicles.

An arterial may also be designated a Multimodal Corridor. These are arterial units which meet the county’s criteria for being supportive of vehicular, public transit, and non-motorized modes of transportation and where additional vehicular capacity on the corridor has been determined unnecessary to meet the comprehensive plan’s mobility goals. “Multimodal Corridors” have an alternative level of service reflecting higher densities and increased transportation options along the arterial. Additional Transportation Demand Management (TDM) measures are required for developments impacting “Ultimate Capacity” arterial units to encourage the use of transit and help reduce the need for single-occupancy vehicles.

The County summarizes the monitoring of its arterial road network in an annual concurrency report. The most recent report, the 2023 Concurrency Report addresses the LOS on county arterial units from January 1, 2023, to December 31, 2023. The 2023 Concurrency Report indicates the County had zero Arterial Units in Arrears, seven arterial units At Risk of falling into arrears, six arterial units designated as Ultimate Capacity, and one unit designated as a Multimodal Arterial. Annual concurrency reports can be found at the Public Works [Traffic Mitigation and Concurrency \(UDC Chapter 30.66B SCC\) webpage](#).

2025-2030 Capital Improvement Program – Executive Recommended

Statement of Assessment

An update to the Snohomish County Comprehensive will be adopted in 2024, this statement of assessment is based on the 2024 Executive Recommendation draft. This update includes a new FLUM, forecasted impacts to the transportation system, revisions to the transportation LOS standard, and a new 20-year transportation forecast. The forecast was used to develop a new 20-year project list and funding strategy necessary to support the FLUM and maintain the adopted levels of service.

The projected level of progress over the next six-year period as proposed in the TIP is sufficient to ensure meeting the LOS standards required for transportation. Revenue projections will continue to be watched closely and, if necessary, strategic adjustments may need to be made. As discussed above, the 2024 update identifies a number of new revenue sources for transportation, many of which will need to be implemented in the next 20 years if construction of transportation improvements is to keep pace with rapid land use growth without slowing or restricting new development.

Construction and Programming of Major Road Improvements

The Transportation Element is based on an analysis of transportation deficiencies and future needs within unincorporated Snohomish County. Consistent with the GMA, it has identified 47 arterial improvements needed to support future land use. Importantly, it provides a financial strategy and implementation timeline to plan and guide the county in financing the recommended arterial improvement projects.

A forecast schedule for delivery of the projects contained in the TE is shown in Table 7. The first time period, 2025-2030, represents the projects included in the draft TIP.

Table 7. Completion of Transportation Element Projects

Forecast for Delivery of 2024 TE Project List			
	2025-2030	2031- 2037	2038 - 2044
Projects to be Completed	6	21	21
Cumulative Completed	6	26	47
Cumulative Percent	13%	45%	100%

The timing for implementation of major system improvements needed to serve growth varies depending on how any given area develops and the resulting infrastructure needs relative to priorities throughout the county. Arterial improvements are prioritized and constructed within available funding. Funding for these system improvements is balanced with other transportation needs that implement the county’s safety, operations, and maintenance goals. If additional funding strategies are realized, project completion may be accelerated.

Part 5.1b – Surface Water Management

Sufficiency of Capital Improvement Program

The adopted LOS for surface water facilities is based on two standards and one target. These are defined in the Snohomish County Capital Facilities and Utilities Element of the Comprehensive Plan.

- The first standard consists of stormwater regulations for new development as defined in Chapter 30.63A SCC. All new development must comply with the defined stormwater regulations to obtain permit approval.
- The second standard requires a minimum County investment in surface water capital facilities of \$8.35 million over a six-year period. The CIP for the Surface Water Management (SWM) division of the Department of Conservation & Natural Resources is specifically dedicated to investments in surface water capital facilities.
- The County adopted a target LOS for surface water facilities as part of the executive recommended 2024 Comprehensive Plan update. At the time of writing of this section, the 2024 Comprehensive Plan has not been adopted. The target is that the most frequent known urban flooding problems that occur within County rights-of-way or that are associated with drainage systems maintained by the County would be resolved. Specifically, the most frequent flooding problems would be defined as those that occur at least an average of once every two years.

Funding Adequacy for CIP

Much of the funding for meeting the LOS standard based on stormwater requirements for new development would come from the private sector as new growth is approved. However, some of the funding would also come from the public sector as public projects, such as county road improvements and park projects, are approved.

The primary funding source for meeting the LOS standard, based on a minimum public investment in surface water capital facilities of \$8.35 million over the next six years, is funds from the SWM utility, as shown in the SWM Division budget. The revenue sources currently used include SWM utility charges, which are collected from utility ratepayers and are used within the SWM utility district; real estate excise taxes (REET II), usable throughout the county for capital projects; the County Road Fund; and various grants, which are limited to specific projects.

The County meets the minimum level of investment in surface water capital facilities. A total of \$145 million has been identified for surface water capital facilities in the 2025-2030 CIP. The County recognizes that the County investments in surface water capital projects far exceeds the minimum LOS established in 1995. In addition to funding SWM's capital program, the SWM service charges are the primary revenue source for SWM's non-capital programs. Some of these non-capital programs, such as stormwater facility maintenance, salmon planning, and water quality monitoring, are increasingly mandated through various state and federal programs. A lower surface water capital facility LOS allows the County the maximum flexibility to accommodate future capital and non-capital state or federal mandates.

The primary funding source for meeting the LOS target of solving all known two-year flooding problems along drainage systems maintained by the County is, likewise, funds from the SWM utility, as shown in the SWM Division budget. The list of projects that address two-year flooding problems will change over time as drainage problems are resolved through public and private investment and as new drainage

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

problems arise. The 2025-2030 CIP contains projects that contribute to meeting this LOS target.

Adequacy of Regulatory Mechanisms

Current County regulations are only relevant to the surface water LOS standard that applies to new development. This standard is achieved by requiring that new private developments and public construction projects comply with the requirements of the County’s drainage code, Chapter 30.63A SCC. In 2016, Chapter 30.63A SCC was revised to provide for a generally higher level of water quality and flood protection in response to more stringent requirements of the County’s National Pollutant Discharge Elimination System (NPDES) permit.

Statement of Assessment

Based on the proposed budget and six-year CIP, as well as the existing regulations, Snohomish County will continue to achieve the minimum LOS for surface water.

Part 5.1c – Park Land and Recreational Facilities

Sufficiency of Capital Improvement Program

The 2024 Snohomish County Park and Recreation Element (PRE) of the Comprehensive Plan was adopted by the County Council in 2024 and contains a LOS methodology that is based on the provision of active and passive recreation facilities, regional trail miles, campsites, parking spaces, and urban open space/preserve acres within Neighborhood, Community, Regional, Special Use, and Open Space Parks and Regional Trails. The PRE takes into consideration this LOS, as well as the inventory of existing facilities, community demand for property acquisition and facilities, projections of population growth (number, demographics, and distribution), and estimation of future revenues. The PRE provides a list of required and recommended park improvements based upon this analysis. Those improvements that are not necessary to maintain LOS standards are identified within the PRE for completion as funding is available and appropriate to complete the project. Projects based on LOS proposed in the CIP are selected to meet minimum LOS standards.

Funding Adequacy for CIP

Assuming that the current economic trends and priorities continue, the Snohomish County Division of Parks & Recreation projects should receive adequate revenue through Park Impact Mitigation Fee collections and REET revenues. REET revenues are allocated across several departments by the County Council through the biennial budget process to support projects over the six-year period covered by the CIP. Recent trends in REET, as well as Park Impact Mitigation Fee collections, will allow the program to maintain the minimum LOS called for in the PRE. These revenues will support the property acquisition and facility development projects needed to serve the existing and projected population. The Division of Parks & Recreation will also continue to establish partnerships with sports associations, community-based non-profit associations, cities, and school districts, some of which have contributed significant funding to the creation or rehabilitation of sports fields, playgrounds, and other capital facilities. Future partnerships will only add to the facility development resources available to the Division of Parks & Recreation.

Adequacy of Regulatory Mechanisms

Snohomish County began collecting Park Impact Mitigation Fees from residential development under the authority of SEPA in 1991. This program was re-designed as a GMA based program in 2004. It is governed by Chapter 30.66A SCC and involves standardized mitigation amounts on a per unit basis for single-family and multi-family residential development. The program has generated a substantial share of the revenues available for park land acquisition and facility development and provides an option for land dedication in lieu of payments. Impact mitigation revenues are an important funding source for park projects in the County CIP.

Statement of Assessment

The Snohomish County 2024 Capital Facilities & Utilities Element designates Community Park Land and Recreational Facilities, Regional Trails, and Open Space/Preserve as necessary to support development. This designation allows Park Impact Mitigation Fees to be used for expansion of facilities within these classifications of park properties and the LOS described within the PRE sets the minimum standard by which provision is measured. Park land and recreational facility LOS is considered a “facility capacity,” rather than a “land capacity” methodology. It is based on the premise that by providing additional facilities (e.g. playgrounds, miles of soft surface trails, etc.) additional population is served, even if the new facilities are added to an existing park. This creates cost and staff efficiencies and takes advantage

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

of parks where the capacity for additional amenities is present. Acquisition of new properties to meet LOS may be required in some cases and the 2025-2030 CIP includes one acquisition targeted at meeting LOS standards, as well as the development of undeveloped facilities.

Capacity of the Division of Parks & Recreation resources and programs to meet the requirements of the CFP:

- The LOS methodology contained in the PRE and referenced in Part 6.2b of this CIP meets the requirements of the CFP. The projects proposed in the CIP will maintain the identified park LOS. Park acquisition and facility development projects projected through the six-year horizon of the CIP are designed to meet the defined proposed park LOS, addressing the needs of existing and projected future population growth both in terms of numbers and geographic distribution.
- There are no projected shortfalls in funding for necessary park services that will warrant a reassessment of Snohomish County's Comprehensive Plan at this time. The Division of Parks & Recreation generates revenue through Park Impact Mitigation Fee collections and anticipates REET II revenues to be allocated by the County Council through the biennial budget process over the six-year period covered by this CIP.
- Future partnerships will only add to the facility development resources available to the Division of Parks & Recreation. Grant revenue available through the State of Washington Recreation and Conservation Office, the Salmon Recovery Board, the Department of Natural Resources and the federal government through National Park Service, U.S. Department of Transportation, and the National Oceanic and Atmospheric Administration programs may be available to augment capital resources obtainable by the division. These grants have not been assumed to be secured within the CIP and are, in all cases, competitive on a regional, statewide, or national basis. The Division of Parks & Recreation has a history of success in grant writing, resulting in a portion of project costs for acquisition and development being covered by non-county revenue for some projects. This history provides cautious optimism that additional partnership-based funding will be available to supplement projects. While partnership funding may be available for park projects, construction costs are significantly more expensive than in past years and grant availability has not increased significantly.
- There is no evidence that necessary park facilities will be unavailable to support the development at the adopted minimum LOS. The property acquisition and park development program projected through the six-year horizon of the CIP are designed to meet the adopted park LOS, addressing the needs of existing and projected future population growth both in terms of numbers and geographic distribution.
- Municipal annexations, UGA expansions, and zoning changes could affect the availability of park impact fees in the future, and the availability of local funds to support acquisition and development of future parks could be impacted as a result. REET II funds, which are a major source of park capital funding, are directly associated with real estate markets and subject to market pressures. As such, limited availability from REET II funds for future park projects must be considered.

A review of these considerations concludes that under existing policies and programs, projected levels of development will be supported by adequate park facilities at LOS standards that meet or exceed, minimum levels identified in the PRE.

Part 5.2 – Assessment of Non-County Capital Facilities

Part 5.2a – Public Water Supply

Sufficiency of Capital Improvement Program

Public water supply and distribution facilities are provided by cities, special purpose districts, community associations, and companies in Snohomish County. The Washington State Department of Health (DOH) has basic operational requirements and standards for all water supply systems. Each water system’s comprehensive plan includes a description of the purveyor’s system design standards. These standards typically address the design and performance of the transmission, storage, and distribution components, including facilities for storage and pressure maintenance. Standards for fire flow, for example, are a primary determinant of pipe size and pipe looping in the distribution system as well as for the size and location of reservoirs. Water system standards are influenced heavily by fire insurance ratings and DOH standards, although they are a matter of local choice. They apply to facilities built by a public water purveyor as well as to facilities built by developers and other private parties that are dedicated to a purveyor or connected to a purveyor’s system. These standards generally constitute the LOS for the system.

Counties and cities are subject to the GMA and have effectively applied GMA standards to the review of water comprehensive plans. Water purveyors are not directly regulated by the GMA, but water purveyor’s comprehensive plans are required to be consistent with County land use plans and are subject to review by the County and the cities they serve. Therefore, water purveyor updating their comprehensive water plans routinely incorporate the appropriate city and County land use and population forecasts into their projections of future demand. This aids in achieving consistency between the County’s land use plan and the water purveyor system plan for water supply. The cities and water purveyors that provide public water service to Snohomish County have a long and generally consistent record of preparing and implementing capital facility programs to serve demand. Future water system plan updates are compared with growth forecasts through the year 2044 adopted as part of the County’s 2024 Comprehensive Plan. Water purveyor must meet the following requirements under Washington Administrative Code ([WAC 246-290-100](#)) regarding water system plans.

[WAC 246-290-100](#) Water system plan

- (9) Department approval of a water system plan is effective for ten years from the date of written approval unless:
- (a) The purveyor requests and receives a plan approval period of less than ten years; or
 - (b) The department requests an updated plan.
- (11) Water system plan amendments. A purveyor may submit an amendment to its current approved water system plan for department approval at any time during the plan approval period. Project reports may be included in a water system plan amendment to meet the requirements under [WAC 246-290-110](#)(3). Department approval of a water system plan amendment does not alter the current plan approval period in accordance with subsection (9) of this section and does not satisfy the requirement of subsection (2) of this section to update the water system plan.

The following table lists key water purveyors along with the year of their known most recent comprehensive water plan update.

Table 8. Water Purveyors

Purveyor	Most Recent Comprehensive Water Plan
SOUTHWEST COUNTY

** Pending approval for 2020 Plan

The North Snohomish County Coordinated Water System Plan (CWSP) coordinates public water provisions between Snohomish County, Snohomish County Health Department, DOH, and the various public water purveyors in the service area. The service area covered by the CWSP include much of the unincorporated area outside of the Southwest UGA and west of the national forest land. This area includes many smaller “Group A” water purveyors, or those that have 15+ connections or 25+ people per day for 60 or more days. The CWSP serves as the County’s adopted coordinating document guided by [RCW 70A.100](#) and [WAC 246-293](#). The document includes an inventory of the number of approved and actual system connections for each purveyor. Revisions to the North Snohomish County CWSP were last completed in December 2010 and approved by DOH in January 2011. An update to the CWSP is anticipated in 2024.

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

Funding Adequacy

Each water purveyor’s system plan typically includes a six to ten-year CIP that corresponds to the “financing plan” required by the GMA. The CIP for the water system is like those adopted by counties and cities – it identifies projects, costs, and funding sources to carry out the plan over the chosen time period. Funding inadequacies are addressed either by developer improvements or by water district capital projects using various funding mechanisms.

Below are the primary sources of construction funds for large water system projects constructed by the purveyor:

- Property developers build (and pay for) new facilities needed to serve a subdivision or commercial property and dedicate the new facilities to the water purveyor to maintain.
- The agency collects a “connection charge” from developers who want to connect to the system, so that “growth pays for growth,” and these revenues are available to pay for system improvements beyond the bounds of the development.
- The agency may pay for system improvements with available cash accumulated from ratepayer income.

Other funding mechanisms include:

- Utility local improvement district (ULID) financing that derives from special property tax assessments levied against owners within a defined district or benefit area.
- Revenue bonds backed by regular rate charges and hook-up fees levied against all system customers.

These funding sources may be supplemented by other funds, such as those from state grants and loans, the Public Works Trust Fund, and other locally generated sources. ULIDs typically fund projects associated with the geographical expansion of the system into a developed, but previously un-served area. Revenue bonds are typically used to fund all other types of district projects not provided by private developers. Operating funds may also be used to fund smaller projects or capital replacement and maintenance programs for the distribution pipe system.

Utility funds are usually a reliable source of funding, and the purveyors in Snohomish County have all been operating their utilities for many years. The most recent comprehensive water plans approved by DOH do not indicate any reason to expect that any district or city will experience a probable funding shortfall that could jeopardize the achievement of minimum LOS standards. Water purveyors typically plan ample lead time to secure funding before any anticipated funding limitations occur.

Major capital facilities improvements are potentially a funding challenge for smaller cities and districts. Various water purveyors are constantly assessing the need for capital improvements to continue to support demand. A recent trend driven by the need for storage capacity as well as general system updates and upgrades, is the need for rural water purveyors to improve their infrastructure. Two water associations, Seven Lakes and Roosevelt, currently have reservoirs under construction to serve rural customers.

Adequacy of Regulatory Mechanisms

State statute [RCW 58.17.110](#) requires that local authorities review subdivision applications to determine that adequate provisions are made for a variety of public facilities, including potable water supply. [RCW](#)

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

[19.27.097](#) regards water determination made for all building permits. To this end, Snohomish County, through [Chapter 30.41A SCC](#) and other applicable County Code provisions, requires development applications to demonstrate that a source of potable water is capable of serving the proposed development. A letter to the County is generally required from the purveyor stating that the water system is available and capable of serving the proposal if the area is within the district or service boundaries of a public water system. This assures not only that public or potable water supply is available, but that any expansion of the distribution system for new development will meet the purveyor's construction and maintenance standards. Most areas within the established urban growth area (UGA) boundaries, and many rural areas, are within water system service areas.

Currently, the Town of Index is the only water purveyor known to have a moratorium on new water service connections. As of 2024, the Town of Index is updating its Water System Plan, and during that process determined that its source meter is not reading correctly. Engineering assumptions used for water usage put Index as potentially exceeding their water right, a moratorium is in place while Index seeks funds for a new source meter. In 2019 the Department of Ecology denied the application of Seven Lakes Water Association which serves north Snohomish County, north of the Tulalip Indian Reservation and west of the City of Marysville, to receive additional water rights. The area served by Seven Lakes Water Association is zoned for rural uses. The Land Use Element of the Snohomish County Comprehensive Plan establishes land use policies that provide for limited growth in rural areas, including goals, objectives, and policies to reduce the rate of growth. The Snohomish County Tomorrow 2020 Growth Monitoring Report indicates that population growth since 2011 has generally been in line with the 2011-2035 growth share expectations for the non-UGA subarea.³ Snohomish County will continue to monitor growth trends and does not recommend reassessment at this time.

All Group A public water purveyors must prepare a water system plan as per [WAC 246-290-100](#). Under state law, a comprehensive system plan must be updated when the construction of water supply facilities – transmission line, treatment facility, pump station, etc. – that are not accounted for in the current system plan become necessary. These facilities may be needed to accommodate unanticipated growth or growth occurring beyond the current plan's horizon year in response to changes in state water quality regulations or to address any other source of demand on the system. Outside of the need for unexpected facilities, DOH requires system plans in the growing areas of the county to be updated (and approved by DOH) every six or ten years.

Applicants who propose to access water from wells are required to demonstrate that ground water is available in adequate supply without impacting senior water rights. Water quality reviews for well system development proposals outside UGA boundaries or defined water service areas are performed by the Snohomish County Health Department. The *Whatcom County v Hirst, Futurewise, et al. (2016)* Washington State Supreme Court decision has resulted in legislation that requires a higher level of coordination with rural water purveyors at the time of development application. Specific requirements vary by water resource inventory area. The regulatory impacts of this decision are still in the process of being fully realized and implemented at the county level.

Statement of Assessment

The City of Everett serves as a regional water supplier through its major supply, treatment, and transmission facilities in the Sultan watershed. The Everett water system serves much of urbanized Snohomish County and the City of Everett hosts the Everett Water Utility Committee (EWUC) for water

³ Snohomish County Tomorrow, [Snohomish County Tomorrow 2020 Growth Monitoring Report, p.16](#)

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

purveyors purchasing city water in the south and eastern areas of Snohomish County. The centralized Everett water system results in more unified facility and performance standards among its customers. The City of Everett holds water rights that ensure adequate water supply for county residents and businesses in its service areas for many years to come.

Several other jurisdictions or districts also maintain, in part or in whole, their own separate water supply: Arlington, Marysville, Sultan, Stanwood, Darrington, Gold Bar, Index, Snohomish County PUD (Public Utility District), Startup, Cross Valley, and Olympic View. As noted above, the Town of Index currently has a moratorium on new connections. However, the Washington State Department of Ecology has authorized a small number of new services to be issued between now and when the moratorium can be lifted. A small portion of the Southwest UGA is also served by the City of Seattle through the Olympic View Water and Sewer District. The City of Bothell also purchases water from the City of Seattle. State law and County code allow the County to ensure that adequate provisions are made for public water supply systems within the UGAs, and such provisions are made through the CIP.

Snohomish County and the North County water purveyors meet on a regular basis via the Water Utility Coordinating Committee (WUCC) to implement requirements under [RCW 70A.100](#) and the North Snohomish County Coordinated Water System Plan. In joint meetings with wastewater service providers, Snohomish County, and the water purveyors also discuss potential infrastructure problems that could result from future land use decisions.

The public water supply systems overall appear to be positioned to support the growth anticipated in the comprehensive plans of the cities and the County. Aging infrastructure and potential impacts of climate change are variables that are being considered for impacts on public water supply in and beyond the six-year CIP horizon and through the County's comprehensive plan.

Part 5.2b – Public Wastewater Systems

Sufficiency of Capital Improvement Program

Wastewater collection and treatment is considered a public facility necessary to support urban development. The connective nature of wastewater systems, and the impact of topography on gravity-reliant mains, as well as increasing regulations on treatment plants, makes wastewater services relatively expensive for households. In addition, the reality that suburban and urban development requires sewer systems means that drawing wastewater service boundaries is a significant growth management issue in Snohomish County and elsewhere. The Washington State Department of Ecology (Ecology) has basic operational requirements and standards for all wastewater systems and treatment facilities. Each wastewater system’s comprehensive plan also includes a description of the system’s design standards. These standards primarily address collection systems, including facilities built by a public wastewater system as well as facilities built by developers and other private parties that are dedicated to a public wastewater system or connected to its system. These operational requirements and standards generally constitute the level of service (LOS) for the system.

Wastewater systems fall into two broad categories: dedicated sanitary systems, and combined systems. The former systems are designed to handle only sanitary wastes from homes and businesses, although groundwater (Inflow and Infiltration) does seep into the pipes through illegal surface water connections as well as cracks and joints. Combined systems are designed to handle sanitary wastes as well as surface water runoff during major storm events. Again, the agency sets standards for the construction and maintenance of these facilities, whether sanitary or combined.

The treatment plants are considered “essential public facilities” within Snohomish County pursuant to the Growth Management Act (GMA). This service is provided by cities and special purpose districts. A city or district will generally update a comprehensive system plan when it needs to construct a facility - trunk sewer, treatment facility, lift station, etc. - not accounted for in its current system plan. An operating agency must begin preliminary design on the expansion of the plant’s capacity when a treatment facility reaches 85% of its rated capacity under its National Pollutant Discharge Elimination System (NPDES) permit. Therefore, formal system plans tend to be done on an irregular basis and is based on the growth rates in specific UGA’s. Most plans are updated at least once every seven to 10 years, but, unlike with water purveyors, there is not an established minimum timeline for plan updates.⁴

Each comprehensive wastewater system plan includes a CIP. Most current system plans have followed GMA guidelines and specifications although special districts are not directly subject to the GMA. District plans are subject to review by the cities they serve and approval by Snohomish County. The County and cities are bound by the GMA and have effectively applied GMA planning standards to the review of these plans. Special districts have now generally all prepared comprehensive wastewater plans that have incorporated the appropriate city and County land use and population forecasts into their projections of future wastewater flows. Future wastewater system plan updates will be compared with growth forecasts through the year 2044 adopted as part of the Snohomish County comprehensive plan.

³ [WAC 173-240-030](#) requires sewer plans be submitted prior to constructing or modifying wastewater facilities. Sewer line extensions, including pump stations, can be exempted from separate plan submittals so long as information demonstrating the extensions conformance with the general sewer plan is submitted to the Department of Ecology.

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

The following table lists key wastewater purveyors along with the year of their known most recent comprehensive wastewater plan update and projected year of the next plan update.

Table 9. Wastewater Purveyors

Lake Stevens Sewer District	2022
City of Monroe	2015
City of Snohomish	2010
City of Sultan	2019

Funding Adequacy

Each wastewater system plan typically includes a six to ten-year financing plan (or CIP) as required by the GMA. Each CIP is like those adopted by counties and cities in that they identify projects, estimated costs, and funding sources.

Wastewater facilities are funded through one or more of the following methods:

- 1) Property developers build (and pay for) new mains and lift stations needed to serve a subdivision or commercial property and dedicate the new facilities to the wastewater agency to maintain.
- 2) The agency collects a “connection charge” from developers who want to connect to the system, so that “growth pays for growth,” and these revenues are available to pay for system improvements beyond the bounds of the development.
- 3) The agency may pay for system improvements with available cash accumulated from ratepayer income.
- 4) The agency may issue revenue bonds backed by ratepayer revenues.
- 5) A utility local improvement district (ULID) may be established to collect special property tax

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

assessments levied against owners within a defined district or benefit area, typically to shift an established neighborhood from septic systems to sewers.

These primary sources may be supplemented by other funds, such as those from state grants and loans and other locally generated sources. Other potential funding sources for wastewater service providers are the Public Works Trust Fund, State Revolving Funds, and water reclamation, i.e., revenue from distributing reclaimed water.

The cities and districts that serve unincorporated urban growth areas (UGAs) have capital improvement programs that call for upgrades, expansions, and extensions of the major system components – trunk lines, lift stations, and treatment facilities. These plans indicate that the system providers should be able to stay ahead of the projected service demands on their facilities. Several wastewater purveyors and sewer system managers will be conducting rate studies in the coming years based on capacity limitations to accommodate growth and to determine if a rate increase is warranted.

Adequacy of Regulatory Mechanisms

State statute [RCW 58.17.110](#) requires that local authorities review plat applications to determine that adequate provisions are made for a variety of public facilities, including “sanitary wastes.” Snohomish County, through provisions of County code, requires development applications within urban areas to demonstrate that a public wastewater collection system is available and capable of serving the proposed development with a limited number of exceptions provided in [Chapter 30.29 SCC](#). A letter is generally required from the purveyor stating that the sewer purveyor whose district the proposed development is located has sufficient system capacity to serve the additional demand expected from the proposal. These reviews provide a failsafe to assure that public sewerage infrastructure and treatment systems are available and that the expansion of the system into the new development will meet the purveyor’s construction standards. Developments within UGAs generally obtain such assurances from sewer purveyors except in limited instances. Some areas of the county are within “un-sewered” urban enclaves where sewer service is not currently available, and the nearest purveyor is unable to provide timely service. Occasionally, the rate of development has prompted a district or city to temporarily impose a hook up moratorium.

Statement of Assessment

The Brightwater Treatment Plant is in the Maltby area of south Snohomish County. Owned and operated by King County, it treats wastewater from a significant portion of southern Snohomish County as well as portions of north King County. Brightwater has the capacity to treat an average of 36 million gallons per day (mgd). In the future, treatment capacity may be expanded to 54 mgd to help serve the north and northeast portions of the plant’s service area, including southern Snohomish County. Elements of expansion are expected to begin by 2025 and continue into the 2030s. The service area includes much of the areas served by the Alderwood Water and Wastewater District and Cross Valley Water District and a lesser portion of the Silver Lake Water and Sewer District. Approximately 20% of Silver Lake Water and Sewer District’s service area when fully developed would discharge sewer flows to the Alderwood Drainage Basin for treatment by King County.

King County owns and operates three trunk sewer interceptors in Snohomish County: Swamp Creek, North Creek, and Bear Creek Trunks. The interceptors receive sewage flows from local wastewater service providers, including Alderwood Water and Wastewater District. In 2019, King County completed

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

the North Creek Interceptor project to increase the system capacity and reliability to address overflows that had occurred since 2012. The 2017 Conveyance System Improvement Plan Updated identified medium priority capacity needs and conceptual projects for the North Creek Trunk and the Swamp Creek Trunk and did not identify a capacity need for the Bear Creek Trunk. These conceptual projects are estimated for project completion in the 2040-2050 timeframe.

Everett's Water Pollution Control Facility (EWPCF) is a regional wastewater treatment that provides service for the following entities: Everett, Mukilteo WWD, Silver Lake WSD, and Alderwood WWD. The plant, which services some of the potential locations of future light rail stations, is located on a 350-acre land parcel owned by Everett on Smith Island, east of the Snohomish River and is bordered by Interstate 5 to the west, Snohomish River to the south, and Union Slough to the east. A dike system protects the plant, located within the Snohomish River flood plain, from flooding. The EWPCF is designed for a maximum monthly design flow of 40.3 mgd. Everett provides effluent pumping services to the deep-water outfall for the City of Marysville during summer low-river flow months (July through October) each year. During these months the Marysville Wastewater Treatment Plant conveys effluent through a 36-inch Port Gardner Bay Outfall pipe across the Ebey, Steamboat, and Union Sloughs and then through twin 26-inch pipes to the City of Everett's South End Pump Station (SEPS). From there it is discharged to the outfall in Puget Sound.

There have been significant improvements in the Lake Stevens wastewater system over the years. The most notable improvement has been the relocation of the main sewage treatment facility to an area outside the floodplain (east of the Sunnyside area). This project was completed and placed into service in 2012. The design of the new treatment plant was modeled after the processes within the Brightwater plant. There are currently three moratoria basins in the Lake Stevens wastewater system. One capital improvement project, which was recently completed is the first phase of a solution to lift all three. The Sewer District is studying the areas in moratorium to determine the capacity impact of the capital project and may be able to lift all three. Due to rapid growth, the district may have to issue bonds in the 2022-2027 time frame to finance an upgrade to the wastewater treatment plant due to hydraulic capacity limitations. It is anticipated that the district's wastewater treatment facility will reach the 85% capacity planning threshold in 2023 or 2024. The treatment plant may near the 5.1 mgd capacity due to the rapid growth in population.

Staff from Snohomish County and wastewater purveyors meet on a regular basis to discuss potential sewer infrastructure problems that could result from or impact future land use decisions. Isolated capacity issues in parts of sewer systems in Stanwood are being addressed. Granite Falls continues to experience a moratorium on certain development activities and sewer connections due to capacity issues. The City's 2018 Wastewater Facilities Plan (Plan) was adopted by the Granite Falls City Council in 2019. The Plan establishes the basis for upgrades and the expansion of the existing wastewater treatment facility. The existing wastewater treatment facility does not have the capacity to adequately treat the wastewater projected flows and loadings due to population growth. In addition, a recent TMDL placed upon the Pilchuck River will require additional upgrades to the plant to achieve water quality compliance. Before completion of the upgrades and expansion projects, and before any increase in effluent loading limits is permitted, the City of Granite Falls must complete a Tier II Antidegradation Analysis and it must complete plans to address various parameters associated with the effluent (BOD₅, temperature, and phosphorus). Therefore, the City is actively seeking assistance for funding through

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

various agencies. The County will need to monitor the situation, but no reassessment action is required at this time.

One countywide wastewater issue of concern is a proposal by Ecology to require facilities sending effluent to Puget Sound to meet nutrient reduction standards currently under development. The Ecology issued the first Puget Sound Nutrient General Permit on Dec 1, 2021.⁵ The permit is effective on January 1, 2022, and expires on December 31, 2026. Since the implications of those regulations are not yet fully known, wastewater purveyors do not know whether they will be able to comply through operational changes or by making minor facility improvements, or whether significant capital improvements will be needed. It is also possible that changing facility operations to reduce nutrients in the effluent will reduce the plant's effective capacity. This in turn could necessitate major capital construction to add capacity. Lacking such improvements, agencies may not be able to provide the minimum service levels prescribed in their plans due to a reduction in capacity, thereby necessitating a moratorium on connections. Ecology has issued a new draft Financial Capability Assessment Guidance to analyze the financial impacts of meeting the permit requirements. This is an ongoing review process between Ecology and the wastewater providers. The County will continue to monitor the development of new nutrient reduction standards and the potential impacts on sewer capacity and funding needs that may result.

Some of these eventualities could require agencies to raise significant amounts of capital resources. Given the condition of the State Public Works Trust Fund and the State Budget, it is likely that such funding will have to be raised locally. This would in most cases mean selling revenue bonds, requiring potentially significant increases in customer rates.

⁵ Department of Ecology, State of Washington, [Puget Sound Nutrient General Permit](#).

Part 5.2c – Fire Protection Services

Sufficiency of Capital Improvement Program

Fire districts are not required by the Growth Management Act (GMA) to prepare long range plans. However, most fire districts use their annual budgeting process to anticipate and plan for any capital improvement needs. Construction of new fire stations is often funded by bonds approved by district residents which are retired through property tax revenues.

Service level standards for fire protection are frequently expressed in terms of response times, equipment capacity, personnel training, and fire flow. However, there is great variation for many of these standards based on the intensity of development they serve and differences in each agencies' organizational structure and equipment. Water system fire flow protection serves as a consistent metric for minimum levels of fire protection service, regardless of which agency provides the service. Each water system's comprehensive plan includes a description of the purveyor's system design standards. Standards for fire flow are a primary determinant of pipe size and pipe looping in the distribution system as well as for the size and location of reservoirs. Overall water service standards are influenced heavily by fire insurance ratings and Department of Health (DOH) standards, although they are a matter of local choice. Actual fire flow standards, however, are established by County code and administered by the Snohomish County Fire Marshal's Office (FMO).

Snohomish County has designated fire protection service infrastructure as necessary to support urban development. The minimum fire protection service LOS is the provision of sufficient fire flow to provide protection commensurate with planned intensities of future development adopted in the comprehensive plan. The LOS applies to urban facilities built by a special purpose water district as well as to facilities built by developers and other private parties that are dedicated to a water district or connected to a water district's system.

Funding Adequacy

Funding adequacy that maintains minimum LOS for fire protection services comes via water purveyors in Snohomish County. Each water purveyor's comprehensive system plan typically includes a six to ten-year CIP that corresponds to the "financing plan" required by the GMA. The CIP is similar to those adopted by counties and cities – it identifies projects, costs, and funding sources to carry out the plan over the chosen time period.

Water purveyors, either municipal or water district, typically require private developers to fund the cost of pipes and distribution systems that deal with urban area fire flow. Storage facilities, which also affect fire flows and durations, are generally the responsibility of the purveyor. Revenue bonds are typically used to fund these, and all other types of district projects not provided by private developers. Operating funds may also be used to fund smaller projects or capital replacement and maintenance programs for the distribution pipe system.

The most recent comprehensive water plans approved by the DOH do not indicate any reason to expect that any district or city will experience a funding shortfall that could jeopardize the achievement of minimum LOS standards for fire protection services.

Adequacy of Regulatory Mechanisms

The FMO helps to provide safe, livable environments through inspections, investigations, and education. The FMO provides fire inspection and fire investigation services to unincorporated areas of the county and to other jurisdictions on contract basis. Snohomish County does not directly provide any fire suppression services. In addition to municipal fire departments, there are several fire districts and two regional fire authorities. All fire service providers within Snohomish County supply basic emergency medical service (EMS) and fire suppression services.

The Capital Facilities and Utilities Element of the Comprehensive Plan provides the basis for establishing fire service protection minimum LOS. Goal CUE 11 is “Water supply systems shall provide sufficient fire flow, as established by County development regulations, in order to provide protection at a level of service commensurate with the planned intensity of future development adopted in the comprehensive plan.”

Standards for fire flow are determined and enforced by the local fire marshal and then implemented by the water purveyor. The practical basic operational requirements for fire protection service are from [SCC 30.53A.514\(3\)](#) - Fire protection water supply:

- (3) “A water supply shall consist of reservoirs, pressure tanks, elevated tanks, water mains or other fixed systems capable of providing the required fire flow. Required water supply for fire protection shall include:
 - (a) An approved water supply capable of supplying the required water flow for fire protection shall be provided to premises upon which facilities, buildings or portions of buildings are hereafter constructed or moved into or within the jurisdictions.
 - (b) All land upon which buildings or portions of buildings are or may be constructed, erected, enlarged, altered, repaired, moved into the jurisdiction, or improved, shall be served by a water supply designed to meet the required fire flow for fire protection as set out in appendix B of the IFC, except that fire flow requirements for rural areas outside of an Urban Growth Area shall be reduced by 25 percent. Fire flow requirements for structures with a supervised fire alarm system connected to an Underwriters Laboratory, Inc. approved fire alarm center may be reduced by an additional 25 percent.
 - (c) Prior to final approval of any subdivision or short subdivision, written verification by the water purveyor of actual fire flow, calculated in accordance with appendix B of the IFC, shall be provided to the fire marshal for review and approval.
 - (d) Prior to combustible construction of a single-family detached unit (SFDU) project the developer shall provide a final certificate of water availability indicating that all hydrants have been installed, charged and are operational. The hydrants shall provide a minimum 1,000 gpm for a 1-hour duration at 20 psi.

Exemptions: Except as provided in [IFC section 507](#), the following permits and approvals are exempt from the water supply and fire hydrant requirements of this chapter:

- (1) Subdivisions and short subdivisions in which all lots have a lot area of 43,560 square feet (one acre) or more in size;
- (2) Building permits for structures classified by the building code as Group U occupancies (agricultural buildings, private garages, carports, and sheds) that are restricted to private residential use only, provided that riding arenas or other agricultural type

- structures used or accessed by the public shall not be exempt;
- (3) A building permit for a single-family detached dwelling, duplex, or mobile home to be placed on a lot with a lot area of 43,560 square feet (one acre) or more in size; and
 - (4) Mobile home permits for mobile homes in established mobile home parks.”

Each water system comprehensive plan includes a description of the purveyor’s system design standards. These standards address the design and performance of the system’s transmission, and distribution components, including facilities for storage and pressure maintenance, all of which directly affect fire flow.

Statement of Assessment

The Capital Facilities and Utilities Element of the Comprehensive Plan identifies fire service as necessary to support urban development, and therefore a minimum LOS has been established for fire service in urban areas. Adequate water system fire flow must be provided regardless of which fire district or municipality provides fire suppression service to an urban area. Fire flow and sprinkler requirements are established in the building and fire codes adopted by the County. Therefore, the minimum LOS is technically provided and maintained by water purveyors. None of the current comprehensive water plans report any difficulties meeting current fire flow standards.

Part 5.2d – Electric Power

Sufficiency of Capital Improvement Program

Snohomish County is served by the Snohomish County Public Utility District No. 1 (PUD) for its electric power needs. The PUD Charter requires that service be made available to all residential units and commercial establishments within Snohomish County and Camano Island. The PUD is a non-profit, community-owned, and governed utility that provides electric distribution, transmission, and generation services. The PUD has an elected board of commissioners which sets policy. Since the PUD is a non-profit, publicly owned utility, rates are based only on the cost of service. The PUD is the second largest publicly owned utility district in the northwest and the 12th largest in the United States by electric customers served, with approximately 373,000 as of December 2022. The PUD is also the largest customer of the Bonneville Power Administration (BPA) and purchases over 75% of its total power supply from this agency each year.⁶

The PUD electric system planning objectives are to:

- (1) anticipate and accommodate changing consumer energy needs,
- (2) provide continued operation and dependability of existing electric system assets,
- (3) ensure sufficient reliability, capacity, and upgrades to meet future service needs,
- (4) comply with federal, state, and local regulations, and
- (5) modernize the electric system to be capable of providing real-time energy use information and integrating external system resources such as renewable distributed generation and energy efficiency initiatives.

The PUD has an annual CIP review and budget process that is described below under the Statement of Assessment.

Funding Adequacy

Funding for the PUD’s capital plan is provided primarily from electric rates as charges for service. Bonds are issued as needed against future revenues from rate charges to customers to raise the capital needed for major system upgrades and expansions such as new transmission lines and substations. The PUD’s capital funding sources are generally stable and reliable, although they can be impacted by the cost of purchasing outside power. An unexpected impact on funding from rate changes in 2020/2021 was due to the COVID-19 pandemic.⁷

A large part of the new customer line extension work is funded directly by the customer, whether it is distribution system expansion to serve a new subdivision or a new transformer to serve a new industrial customer.

A New Load Policy (NLP) was created to be an extension of the PUD’s Line Extension Policies and applies to common purpose load increases of over 2.5 MVA. The NLP requires that one-time connection fees be imposed to recover the costs of expanding the District’s electric system for new or existing loads that grow by more than 2.5 MVA. Some of these fees are reimbursed back to the customer if the system load develops as planned. This is to prevent existing PUD customers from having to pay for stranded

⁶ Snohomish County Public Utility District No 1, [“About Us”](#),

⁷ Snohomish County Public Utility District No 1, [Finance & Investor Relations](#).

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

investments where the new, large customer's subsequent energy use does not generate the expected revenue to cover the capital improvements.

A concern for the future is climate change. With an emphasis on electric heating in buildings, increased adoption of residential air conditioning, and accelerated roll-out of Electric Vehicles (EV), this could result in a need to rapidly increase both the capacity of the electric grid and purchased energy.

Adequacy of Regulatory Mechanisms

Snohomish County considers the availability of electrical service in its decision-making process for development proposals. Chapters 30.41A and 30.41B SCC specifically require proof of electrical availability before a final plat or short plat can be certified by the County. This requirement assures that adequate electrical system facilities are available or can be made available to any plat before lots are legally created and can be used for building purposes. A similar review of power availability occurs at the building permit stage for commercial and industrial, as well as residential development.

The PUD designs its electrical facilities to meet its Standards and General Planning Guidelines (GPG) which are either set by the PUD or based on the National Electric Safety Code (NESC), Washington Administration Code (WAC), Revised Code of Washington (RCW), and other applicable laws and regulations.

Statement of Assessment

Every year the PUD develops a 5-year Electric System CIP summarizing new electric facilities needed over the next five years for:

- (1) Customer load growth;
- (2) Expansion projects;
- (3) Upgrade projects;
- (4) Reliability improvement projects;
- (5) Asset management replacements;
- (6) Public right-of-way relocations; and
- (7) Capital operation/maintenance improvements.

The PUD monitors annual winter and summer peak loads. System Planning then models its electrical system using a software application called Synergi. Anticipated future load growth forecasts are included in the model 10 years out in the future, along with other potential system impacts. The PUD customer base is expected to grow by approximately 3,300 new customer meters annually over the next 5 years.

This system expansion can best be achieved in a cost-effective manner with PUD knowledge of the County's long-range growth projections for different areas and includes review of:

- (1) The Snohomish County comprehensive land use plan,
- (2) Buildable Lands Reports,
- (3) Growth Management Act,
- (4) Growth Monitoring Report, and
- (5) Review of future development project and Environmental Impact Statement applications.

The minimum Level of Service (LOS) investment standards are addressed in the Electric System Capital Plan and are based on the following general planning guidelines:

1. The expenditures projected for the Electric System Capital Plan for the next five years include necessary support from the Distribution & Engineering Services Division and other District divisions. This Plan is updated annually.
2. The Electric System Capital Plan is developed using the “Final Projections of the Total Resident Population for the Growth Management Act Medium Series.” Planning for the electric system must be prudent and flexible to accommodate the growth forecast and to meet customer requests that vary yearly.
3. The system peak load for this plan has been normalized by temperature-adjusting the actual peak loads for average winter temperatures. The capacity of the electric system will continue to be increased to accommodate projected increases in the number of customers and local area system load additions.
4. The process to determine infrastructure needs to meet projected loads involves matching substation and circuit loading data with the district’s small area load forecasts. The District’s Small Area Electric System forecast is used to identify the timing and location of expected new residential and commercial loads.
5. The electric system is planned so that it will be capable of adequate performance at peak load periods with any single electrical element out of service.
6. The district also publishes a 20-Year Capital Plan and a Horizon Plan, both of which use land-use data to estimate future loads and determine the optimal infrastructure to reliably serve those loads. These plans are updated about every ten years.

Service reliability is another aspect of the plan. The worst performing circuits in terms of the number and impacts of outages are reviewed to identify system improvements to maintain and increase the reliability of service. Service reliability is greatly impacted by public and private right-of-way maintenance practices.

1. Right of way clearing to avoid tree-related outages (preventable) and to maintain access to roads to quickly make repairs from trees falling from off the right-of-way (non-preventable).
2. Aged asset replacement to reduce equipment failures.
3. Control zones projects to help reduce car/pole accidents.
4. New and improved system loops with new protective devices and switches for the ability to reroute supply from different sources, including new Distribution Automation (DA) infrastructure to automatically isolate and restore customers during outage events.
5. System upgrades to reduce the likelihood of utility infrastructure igniting wildfires.

The PUD periodically updates its comprehensive [Integrated Resource Plan \(IRP\)](#). This plan evaluates a range of possible futures in customer growth and supply needs and outlines a direction for the PUD to cost effectively manage risks, such as short-term market price volatility.⁸

Overall, the PUD capital infrastructure appears to be positioned to support the growth anticipated in the comprehensive plans of the cities and the County. Unforeseen customer development and land use within Snohomish County, at times, impacts the availability of substation sites and line rights-of-way and

⁸ A complete list of sources of power supply and the latest IRP can be found on the PUD website <https://www.snopud.com/about/quick-facts/>

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

generally increases electric design and construction costs. The PUD regularly engages in capital planning and, historically, has been able to generate the fiscal resources necessary to implement its capital plan.

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

Part 5.2e – Public Schools

Sufficiency of Capital Improvement Program

To inform the Statement of Assessment for the CIP, the County referenced information from the Capital Facilities Plans (CFPs) from the school districts participating in the County’s school impact fee program. Of the fifteen school districts operating in Snohomish County, eleven school districts submitted CFPs to the County for this 2024 biennial CFP update, as required by Chapter 30.66 SCC, *School Impact Mitigation*. The eleven-school district CFPs were reviewed by County staff and found to meet the review criteria for school district CFPs contained in Appendix F of the County’s comprehensive plan. Planning Commission review is scheduled for August 2024, and County Council adoption is anticipated in fall of 2024.

Once adopted by the County Council, the eleven-school district CFPs will be incorporated by reference into the Capital Facilities and Utilities Element (CUE) of the County’s comprehensive to meet the GMA requirements for facilities and services necessary to support development. The County’s biennial review and adoption process for the school CFPs constitutes a regularly programmed reassessment of this component of the comprehensive plan. The individual school district CFPs listed in Table 5.2e-1 are available on the [2024 Biennial Update to School District Capital Facilities Plans \(CFPs\) webpage](#).

Table 10. School Districts Participating in the County’s 2024 Biennial CFP Update

Arlington School District No. 16	Monroe School District No. 103
Edmonds School District No. 15	Mukilteo School District No. 6
Everett School District No. 2	Northshore School District No. 417
Granite Falls School District No. 332	Snohomish School District No. 201
Lake Stevens School District No. 4	Sultan School District No. 311
Lakewood School District No. 306	

To gather the necessary information from the other four school districts, the County reached out directly to each school district, consulted with the state Office of Superintendent of Public Instruction (OSPI) website, and referenced previous CFPs.

School districts’ CFPs include, as required by the GMA, an inventory of existing facilities, student enrollment projections, a forecast of future needs, a minimum level of service standard, and a six-year financing plan that addresses capital projects. The districts’ CFPs are like those adopted by counties and cities – it identifies projects, costs, and funding sources. In general, school districts must meet state standards which are reported with the state’s OSPI. Each school district establishes its minimum level of service standards (MLOS) in its CFP. Other standards can address such things as educational standards, building construction, maximum class size, optimum school capacity, and the use of portable classrooms. Some standards are set by the state and are generally uniform across Washington. Others are subject to local discretion and may vary between districts. Each school CFP includes a description of the district’s program related educational standards that correlate to school capacity.

Funding Adequacy

There are two primary sources of construction funds for public schools:

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

- (1) Local voter-approved bond issues based on property tax levies; and
- (2) State matching funds.

These primary sources may be supplemented by other local funds such as those generated by the sale of assets and by impact fee collections. The school districts' CFPs generally indicate whether a capital project is to be funded by the proceeds from an approved bond issue or by a future bond issue not yet approved by the voters. It will also indicate the state matching funds that are anticipated. Virtually all school district CFPs are characterized by a degree of uncertainty because voter approval of future bond issues cannot be assured, and enrollment in each grade level is difficult to predict. Impact fees are a supplemental funding source for capital projects that are collected from new developments. Chapter 30.66C SCC is the regulation implementing the school impact fee program that requires the payment of school impact fees for new residential development.

Based on the eleven-school district CFPs, bond and levy failures remain a long-term concern for many school districts facing aging facilities and the possibility of enrollment exceeding permanent school capacity. School districts that have experienced repetitive failures of bonds and/or levies are working closely with their school boards for future bond and/or levy proposals as well as other tools and resources to address capacity, maintenance, and administrative needs.

The Marysville School District, which did not submit a CFP as part of the County's 2024 biennial update, is facing financial uncertainty. As of July 19, 2024, the Marysville School District has entered into binding conditions with the Washington State Office of Superintendent of Public Instruction (OSPI) and the Northwest Education Services District (NESD) to address its financial deficit. At this time, it is uncertain which actions the district will take to meet the state's conditions and improve its finances.

Adequacy of Regulatory Mechanisms

Schools are not a "concurrency facility" within the County's GMA Comprehensive Plan, so there is no concurrency management system for schools as there is for transportation in [Chapter 30.66B SCC](#). However, the County does provide school districts the opportunity to comment on residential development proposals within their district boundaries as a part of the County's development-application review process. State statute [RCW 58.17.110](#) directs local authorities to review plat applications to see that a variety of public facilities have adequate provisions including schools and walkways to ensure safe walking conditions for school children. This creates an opportunity either through the State Environmental Policy Act review or as part of the development approval process to secure from the development additional off-site facilities such as bus pullouts or safe walkways for children that assist the schools in achieving their mission.

Statement of Assessment

With the exception of the Marysville School District, the other fourteen school districts appear to be meeting their established MLOS standards and educational standards and have tools and plans to address any funding shortfalls. However, as previously mentioned, several school districts have experienced failed bond and/or levy measures. The eleven school districts that have submitted their 2024 CFP update to the County, will be working to implement those CFPs in the next two years and the

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

County will report on their progress in the next biennial CIP.

Chapter VI: Statement of Assessment
Minimum Level of Service Reports

As required by the GMA (RCW 36.70A.020), the following information summarizes the minimum level of service (LOS) status for surface transportation, park land and recreational facilities, surface water management, electric power, and public schools. The information directly corresponds to information in the particular “Chapter V: Statement of Assessment” text. As noted in Parts 5.2a and 5.2b, the Capital Facilities and Utilities Element of the Comprehensive Plan does not identify a singular LOS standard for public water systems and wastewater collection and treatment facilities. Snohomish County and the water and wastewater purveyors meet at regular intervals to discuss infrastructure issues. This includes during the biennial CIP update, the Comprehensive Plan update, and other meetings as required. The purveyors also now provide annual reports documenting capacity and/or service problems. These reports include documentation of any Snohomish County land use decisions that may contribute to or cause service, capacity, or financial problems.

General Resource Documents

Documents available from the County’s Department of Planning and Development Services (PDS) include the:

- County’s GMA Comprehensive Plan
 - Capital Facilities and Utilities Element
 - Transportation Element
 - Parks and Recreation Element

Documents available from the County’s Department of Public Works (DPW) include the:

- [Transportation Needs Reports \(TNR\)](#)
- [Concurrency Reports](#)
- [Transportation Improvement Program \(TIP\)](#)

Documents available from external service providers include the:

- [Capital Facility Plans \(CFPs\)](#) for participating school districts
- The Snohomish County Public Utility District No. 1 Electric System Capital Plan
- Water and sewer system plans from individual districts and cities

Section 6.1 – Level of Investment

Part 6.1a Surface Water Management and Electric Power Level of Service Report

Minimum LOS for surface water management and electric power facilities is expressed in terms of “minimum level of investment” in infrastructure over time. The LOS for surface water management and electric power are included together because they both utilize this measurement, which is summarized in Table 10.

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

Table 11. Minimum Level of Investment

Capital Facility	Minimum Level of Investment Standard	Actual Level of Projected Investment	Comments
Surface Water Management	\$8.35 million should be invested over a 6-year period	\$145 million between 2025 and 2030.	The majority of funding is from SWM utility revenues, which are collected from properties and roads. The SWM Six-Year CIP for 2025-2030 assumes a utility rate of \$140.07 per single-family household in 2025 with a 2.8% annual cost adjustment (ACA) each subsequent year.
Electric Power	Approximately \$525 million should be invested over a five-year period	Approximately \$525 million is invested over a five-year period.	This is based on load growth projections, aged-asset replacement, relocation of electrical facilities on public rights-of-way due to widening or Control Zone requirements, and accommodation of new technologies such as Electric Vehicles (EVs). Snohomish PUD tries to level their annual budget by increasing or decreasing asset replacement based on fluctuating capital requirements for load growth due to economic factors.

Section 6.2- Level of Service

Part 6.2a – Surface Transportation Level of Service Report

The annual concurrency report summarizes the level of service (LOS) of Snohomish County’s arterial road system and the strategies by the Department of Public Works to remedy LOS deficiencies.

Concurrency Management System

Information on the County’s concurrency management system is available on the [Traffic Mitigation and Concurrency](#) webpage. This includes the most current concurrency report, concurrency reports from prior years, and other documents related to the County’s traffic mitigation and concurrency regulations.

Arterial Unit Status Definitions

Arterial Units at Risk of Falling into Arrears

Arterial units (AU) that are close to being deficient (i.e., 1-2 mph above LOS F urban or LOS D rural) are at risk of falling into arrears. For arterial units meeting these criteria, Public Works monitors the units with travel time and delay studies conducted on an annual or biannual basis.

Arterial Units in Arrears (AUIA)

Snohomish County Code defines an Arterial Unit in Arrears (AUIA) as any arterial unit operating, or within six years forecast to operate, below the adopted LOS standard, unless a financial commitment (or strategies) is in place for improvements to remedy the deficiency within six years. The adopted LOS standard for the urban area is LOS E and in the rural area it is LOS C.

Arterial Units at Ultimate Capacity

[SCC 30.66B.110\(1\)](#) states, “When the county council determines that excessive expenditure of public funds is not warranted for the purpose of making further improvements on certain arterial units, the county council may designate, by motion, following a public hearing, such arterial unit as being at ultimate capacity.”

The following arterial units are designated at “Ultimate Capacity”:

1. Snohomish-Woodinville Road (AU# 211) – This urban arterial unit was designated at Ultimate Capacity in 1997.
2. 164th Street SW/SE east of Interstate 5 (AU# 218) – This urban arterial unit was designated at Ultimate Capacity in 2007.
3. 164th Street SW west of Interstate 5 (AU# 219) – This urban arterial unit was designated at Ultimate Capacity in 2007.
4. 35th Avenue SE corridor from SR 524 to Seattle Hill Rd (AU# 204, 207/336, 337/420) - This corridor consisting of five urban arterial units was designated at Ultimate Capacity in 2022.

Snohomish County
2025-2030 Capital Improvement Program – Executive Recommended

Multimodal Arterial Units

SCC 30.91A.300 "Arterial unit, multimodal" ("Multimodal arterial unit") means an arterial unit which meets the county’s criteria for being supportive of vehicular, public transit, and non-motorized modes of transportation. Multimodal arterials have an alternative level of service reflecting higher densities and increased transportation options along the arterial.

The following arterial units are designated “Multimodal”:

1. Airport Road/ 128th Street SW from SR 99 to I-5 SB On & Off Ramps (AU# 228) – This unit was designated Multimodal in 2022.

Table 12. Summary of Arterial Units at Risk, in Arrears, and Designated as Ultimate Capacity

Status of Arterial Units	2022	2023
Arterial Units at Risk of Falling into Arrears	14	7
Arterial Units in Arrears	0	0
Arterial Units Designated as Ultimate Capacity*	6	6
Multimodal Arterial Units	1	1

*Table 11 summarizes the status of arterial units as contained in the most recent Annual Concurrency Report, which in 2022 included six AUs designated as Ultimate Capacity.

Table 13. Summary of Level of Service (LOS) Status

	2017	2018	2019	2020	2021	2022	2023	Percent of 2022 AUs to Total AUs
LOS above screening level**	236	236	236	235	229	234	235	87.7%
LOS below screening level	37	37	37	37	39	34	33	12.3%

Chapter VII: Hazard Mitigation Planning

Summary Report

Introduction

Since 2005, Snohomish County and a partnership of local communities, Tribes, and districts have maintained a [Hazard Mitigation Plan \(HMP\)](#) to reduce future loss of life and destruction of property resulting from disasters. Hazard mitigation is the identification and implementation of short and long-term strategies to reduce loss of life, alleviate personal injury, and reduce property damage resulting from natural or human caused (technical) disasters. Virtually all the County’s capital facilities are susceptible to some type of disaster. Minimizing or reducing the impact of disasters on capital facilities is an intrinsic goal of hazard mitigation planning. This is why hazard mitigation is included in the capital facilities plan (CFP) and integrated into the evaluation and prioritization of all CIP projects.

The guide to integrating hazard mitigation practices into planning published by the American Planning Association (APA) in partnership with the Federal Emergency Management Agency (FEMA) states that “the Capital Improvements Program (CIP) lays out a jurisdiction’s medium term (five- to six-year) spending plan for capital projects that support existing and future development such as roadways and sewer and water systems. As such, it represents the locality’s commitments to major expenditures and is concrete evidence of its priorities for implementing its policies and plans, including those for hazard mitigation and plans, including those for hazard mitigation.”⁹

Snohomish County consistently ranks among the highest number of repetitive flood loss counties in FEMA Region 10. The County and a planning partnership of over 30 municipalities and special purpose districts within the county boundaries embraced the concept of the Disaster Mitigation Act (DMA) and prepared a multi-jurisdictional hazard mitigation plan. The planning area boundary is the Snohomish County boundary, excluding tribes and the cities of Bothell, Everett, and Marysville who maintain their own hazard mitigation plans and emergency management programs. An inventory of the numbers and types of structures was developed using the County Assessor’s data and GIS applications. Snohomish County’s HMP assesses hazard risks, identifies impacts, surveys planning policy and development trends, and identifies a list of potential action item projects and activities that can mitigate the impacts of hazards before they occur. The County is in the process of updating the HMP, with an approval timeline of 2025.

Funding Sources and Adequacy

The projects identified in the HMP are based on the hazard assessment and input from the participating planning partners and members of the public. In previous updates, these projects were not necessarily part of a work program or improvement plan but do include recommended action items related to the County comprehensive plan, CFP, development regulations, and County policies. The risk reduction projects are individually assessed using a mitigation priority strategy and ranked high, medium, or low based on benefits conferred on the County (or implementing jurisdiction), whether the benefits exceed the costs, whether the project is grant eligible, or whether they can be funded under existing programs or budgets.

⁹ See the American Planning Association Planning Advisory Service Report 560, [Hazard Mitigation: Integrating Best Practices into Planning](#), p. 53

The HMP identifies goals and objectives at the county level. Mitigation actions presented in this update are activities designed to reduce or eliminate losses resulting from hazards and can be found in each jurisdiction’s annex. Through the update process, the Steering Committee and Planning Team determined that the countywide goals and objectives established effective coordination between jurisdictions and agencies for hazard mitigation actions. These potential projects were further identified as having secured funding or not, and a timeline for implementation (within five years or greater than five years). This level of financial analysis is to the extent that can be accomplished for potential projects that may or may not have recognized and secured funding. When a project becomes an implementation reality, further analysis of funding mechanisms (existing budget, grant funds, leveraged project, etc.) should take place.

In April 2023, FEMA released an updated Local Mitigation Planning Policy Guide which narrowed the requirements for mitigation actions. This includes the specific identification of funding sources, the creation of a process to prioritize proposed mitigation actions, and defined timelines for implementation. FEMA also emphasizes that local governments incorporate the requirements of the mitigation plan into other planning mechanisms including the CIP.¹⁰

Mitigation Goals and Objectives

The Steering Committee established goals, and the Planning Team established objectives for the 2020 HMP.

Table 18 Mitigation Goals and Objectives

Goal 1: Reduce hazard and threat-related injury and loss of life.	
Item	Objectives
1.1	Develop and implement policies that integrate hazard and risk information into building codes and land use planning that promote resilient and safe development in high-risk areas.
1.2	Strengthen tools to remove threatened uses in hazardous areas and relocate them where risk reduction measures support development to a tolerable level.
1.3	Reduce the adverse impacts from and leverage the beneficial functions of natural hazards.
1.4	Develop continuity of operations plans and community-based continuity plans to mitigate the impacts of hazards becoming disasters, and support disaster preparedness, response, and recovery.
1.5	Develop, implement, and sustain programs that promote reliable, redundant, and resilient lifeline systems.
Goal 2: Promote resilient communities, resilient economy, sustainable growth, and hazard prevention.	
Item	Objectives
2.1	Provide incentives that support the mitigation of impacts to critical business operations, including small businesses and those located in high-risk areas.
2.2	Increase the resilience of critical services, facilities, and infrastructure through applicable retrofits, sustainable funding programs, and zoning and development changes, and reduce exposure/vulnerability to all hazards.
2.3	Promote the ability of communities to mitigate, prepare for, respond to, and recover from an emergency or disaster through the strengthening of community networks and development of community-based emergency planning (e.g., evacuation zones and routes and micro-infrastructure networks).
Goal 3: Consider equity when enhancing public awareness and community members’ ability to mitigate, prepare for, respond to, and recover from a disaster.	
Item	Objectives
3.1	Reduce the adverse impacts of disasters on vulnerable communities.

¹⁰ See [FEMA Local Mitigation Planning Policy Guide](#), April 2022, p. 24-28

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

3.2	Create and enhance equitable public information programs and access to hazard information that promotes actionable preparedness and mitigation measures.
3.3	Identify and prioritize opportunities to increase capacity and redundancy for critical services, facilities and infrastructure to vulnerable communities, with special emphasis on communities that are at risk of isolation.
Goal 4: Make decisions through regional collaboration.	
Item	Objectives
4.1	Support the alignment and integration of the 2020 HMP goals, objectives, and strategies with other planning processes.
4.2	Develop a coordinated incentive programs for eligible entities to adapt to risk through structural and nonstructural measures (e.g., acquisition program for homes or other uses located within high-risk hazard areas).
4.3	Use the best available science when developing new or updating existing plans to prepare for and adapt to climate impacts (e.g., update conservation requirements to minimize impacts of drought).
4.4	Support improved data collection, assessment, analysis, and implementation for all hazards.
4.5	Develop a coordinated flood mitigation strategy that leverages sustainable funding sources for flood control improvements and identifies opportunities for multi-agency collaboration.

Regulatory Mechanisms Summary

The HMP is not a regulatory plan, and it is not a federal or state mandate. However, to compete for mitigation grant funds from the federal government to pay for risk reduction projects, a FEMA-approved HMP must be in effect per the federal Disaster Mitigation Act of 2000 (DMA2K). These plans are updated, reviewed by FEMA, and locally adopted every five years.

The DMA2K emphasizes the importance of community hazard mitigation planning before disasters occur and encourages state and local authorities to work together on pre-disaster planning. Snohomish County developed its first HMP in 2005 according to the requirements of the DMA2K and Chapter 44 of the Code of Federal Regulations (44CFR). It was approved by the Federal FEMA Region 10 in 2005 and locally adopted that same year. It was updated in 2010, 2015, and again in 2020. The next update is currently under way and expected in 2025.

The implementation rules for the DMA2K in the CFR establish the federal intent that local governments integrate those plans. The clearest statement on this point is in Section 201.6(c)(4)(ii), which states that mitigation plan content “must include”: “(4) A plan maintenance process that includes: (ii) A process by which local governments incorporate the requirements of the mitigation plan into other planning mechanisms such as comprehensive or capital improvement plans, when appropriate.” FEMA restates in the Local Mitigation Planning Handbook, “Mitigation plans must describe how the community will integrate the data, analysis, mitigation goals and actions into other planning mechanisms.”¹¹ Ensuring these elements are appropriately addressed will be a focus of the 2025 HMP update.

While the HMP does not act as a regulatory plan, parts of the HMP document and process can be and are used by other County departments to meet regulatory compliance. For example, the Department of Conservation and Natural Resources (DCNR) uses the HMP Annual Progress Report to comply with the Community Rating System (CRS) Annual Recertification process by submitting it for the required Floodplain Management Plan annual progress report.

The HMP Progress Report parallels the CRS format and lists the Action Items recommended for each mitigation strategy developed in Volume 2 of the HMP. County departments are surveyed once a year

¹¹ See [FEMA Local Mitigation Planning Handbook](#), May 2023, p. 109

on the status of Action Items, along with cities and special districts, and any funding or timeline issues are noted in the survey as well. The CRS recertification process requires that the Annual Progress Report is submitted for review to a governing board and the media. Beginning in 2022, DEM has submitted a supplemental Report Card with the Annual Progress Report to the County Council and will be developing an Action Item map to better quantitatively track progress and funding of projects.

CIP Linkage to Hazard Mitigation Planning

Identifying and implementing pre-disaster risk reduction activities can minimize the physical, social, and economic impacts to the county when disasters do occur. Building resilience into capital facilities and implementing risk reduction projects on existing capital facilities can strengthen the ability of such facilities to bounce back after disasters, especially as climate change affects hazards over time.

The 2015 HMP identified and assessed climate change as a gradually manifesting hazard facing Snohomish County. The 2020 HMP further refined those analyses to incorporate into each of the other hazards both natural and human caused. Some of the indicators identified over the next 35 to 65 years to be included in the 2025 HMP include cascading impacts from sea level change, increasing severity and frequency of flooding and storms, as well as seasonally early loss of snowpack in the high Cascades, resulting in hotter, drier summers that increase wildfire hazards. Extreme heat events also affect vulnerable populations at a higher rate, increasing the need for cooling centers, and potentially clean air centers to mitigate the impacts of wildfire smoke.

The APA and FEMA assert that the integration of hazards into planning implementation tools has three primary goals:

- Keeping future development out of known hazard areas and guiding it towards safe growth locations;
- Keeping hazards from affecting existing developed areas through structural mitigation projects or environmental management techniques; and
- Strengthening existing development to resist hazards by enacting and enforcing construction code provisions concerning hazard stresses and impacts.¹²

Factoring in hazard information as new capital facilities are constructed makes financial sense and can alleviate disaster impact costs and reduce time out of service. County facilities also play a key role in disaster response and recovery, and it is important to plan, update, retrofit, and build these facilities in a way that is resilient to the impacts of climate change. As such, ensuring new facilities are resilient, including building to earthquake standards, locating facilities in low-risk areas, and equipping them with resilient infrastructure including communications, power, and water is an integral part of effective post-disaster response and recovery. Completing a hazard analysis of proposed CIP projects using GIS layers developed during the update of the HMP will provide the information needed to ensure projects meet those standards. The Conservation Futures program should develop a process to include criteria for the acquisition or easement of frequently flooded areas in the evaluation and scoring process to ensure the program is being utilized in conjunction with the Hazard Mitigation Grant Program to reduce impacts in these areas. Additional mitigation measures can be included to incorporate water and energy conservation and efficiency measures that decrease the risk of climate impacts and ensure that facilities operate with maximum efficiency. Snohomish County DEM supports the development of climate change

¹² See the American Planning Association Planning Advisory Service Report 560, [Hazard Mitigation: Integrating Best Practices into Planning](#), p. 48

Snohomish County

2025-2030 Capital Improvement Program – Executive Recommended

modeling to assess the impacts of climate change on County capital facilities and infrastructure, and to ensure we are planning future facilities in locations with reduced risk.

Lastly, coordinated efforts between other County plans (such as the Capital Facilities Plan, Comprehensive Plan, Continuity of Operations Plans, and Comprehensive Emergency Management Plans) and other planning mechanisms, such as the GMA, contribute to improvements that maximize facility resilience and utility. Other mitigation measures may include ensuring County facilities meet applicable wildfire defensible space programs and, when possible, are incorporated into a community wildfire protection and risk reduction strategy. By incorporating and considering mitigation objectives and Action Items, County projects may also be eligible for hazard mitigation grants.

Snohomish Council

2025 - 2026 Budget - Council

Department: 0001 - Executive**Department Director:** Dave Somers**Financial Consultant:** Debbi Mock**Legislative Analyst:** Jim Martin**Mission Statement:**

The mission of the County Executive Office is to provide responsible and responsive County government by ensuring effective, efficient and economical administration in accordance with the County Charter, the Washington State Constitution and other applicable federal, state and local laws, as well as County policy and Executive branch initiatives.

The County Executive supervises Executive departments; enforces all ordinances and state statutes within the County; presents an annual statement of governmental affairs of the County to the Council; prepares and presents the proposed budget and budget message; prepares and presents to the Council comprehensive plans, including capital improvement plans for present and future development within the County; and nominates members of County boards and commissions

Outcomes Generated:

The County Executive oversees the County's 13 administrative departments and coordinates with elected officials who operate the remaining 6 offices. The County Executive works closely with both the Judicial and Legislative branches to ensure cooperation and coordination of efforts.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0002 - Legislative

Department Director: Heidi Beazizo

Financial Consultant: Debbi Mock

Legislative Analyst: Jim Martin

Mission Statement:

The mission of the County Council is to enact legislative and fiscal policies that achieve efficient and effective use of tax dollars. This is accomplished by providing a framework for the county administration to carry out its work efficiently, ensuring that county government responds effectively to the community's needs.

Outcomes Generated:

The County Council is a General Fund department that provides the following services:

- Enacts fiscal and operating policy ordinances, motions and resolutions
- Provides fiscal oversight of administrative and judicial operations
- Enacts land use policies, plans and implementing regulations
- Conducts quasi-judicial appeal hearings of certain land development actions and regulations
- Approves appointments to advisory boards and commissions
- Establishes the salaries of all county employees
- Approves collective bargaining agreements
- Confirms the appointment of Executive department directors.

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0004 - Human Services

Department Director: Mary Jane Brell-Vujovic

Financial Consultant: Vanessa de Salome

Legislative Analyst: Heidi Beazizo

Mission Statement:

The mission of Human Services is to help all persons meet their basic needs and develop their potential by providing timely, effective human services and building community.

We are a mission-driven organization guided by a core set of values, and serve as a catalyst to enhance our communities' own intrinsic abilities to support and care for their residents.

Outcomes Generated:

The Human Services Department is comprised of nine program areas funded with Federal, State and local funds which provide the following primary services:

Administration:

Direction and Management; Financial Services; Contract Processing; Administrative Support Services; Planning and Evaluation

Behavioral Health Programs:

Community Behavioral Health; Crisis Services/Involuntary Treatment; Jail Transition Services; Substance Use Disorder Treatment and Prevention

Veterans Assistance Program

Children and Family Services Programs:

Early Childhood Education and Assistance Program (ECEAP); North Snohomish County Early Head Start (EHS); Community Action Agency (CAA)

Developmental Disabilities Programs:

Developmental Disabilities; Early Supports for Infants and Toddlers (ESIT); Local Lead Agency (LLA)

Long Term Care & Aging Programs:

Long Term Care and Aging (Planning and Coordination); Support Services Administration; Home Care Services Network Management; MAC/TSOA Program Management; Area Agency on Aging (AAA)

Case Management & Home Care Services Program

Housing & Community Services Programs:

Housing & Community Development (HCD); Community and Homeless Services; Energy Assistance

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0005 - Planning
Department Director: Mike McCrary
Financial Consultant: Debbi Mock
Legislative Analyst: Ryan Countryman

Mission Statement:

The Department of Planning and Development Services's mission is to enhance the quality of life for current and future generations by promoting protection of natural resources and facilitating the development of safe, sustainable and resilient communities in Snohomish County.

The PDS philosophy is centered on delivering outstanding customer service and enabling the development of attractive and sustainable communities. PDS employees strive to:

Provide the highest quality customer service;
Improve our service by adapting to the demands of a changing world;
Work as a cohesive unit;
Create thriving communities;
Develop innovative and cost-effective solutions; and
Balance available resources with future growth demands.

Outcomes Generated:

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

The Department of Planning and Development Services contains seven organizational units, each of which contribute to the department's overarching goals.

The Long Range Planning program ensures that regional development is well-planned, safe, and sustainable. It conducts comprehensive planning in accordance with the State Growth Management Act (GMA) and assists in the preparation of clear and concise codes to facilitate development. Outcomes generated: a sound regulatory framework for sustainable economic development of the county and protection of its natural resources.

Snohomish County Tomorrow is a cooperative forum that involves the county, the cities, the towns, the Tulalip Tribes and community members in the resolution of growth management issues of countywide significance. Outcomes generated: regional consensus for sustainable economic development of the county and protection of its natural resources.

The Permitting program ensures that land development and use activities are in compliance with state law, regulations, and county code. The programs achieve this through issuance of building permits and land use approvals; residential and commercial plan reviews; and fire, building and site inspections. Outcomes generated: structures and developments that are sound, safe and contribute to economic growth of the county while sustaining our vibrant natural environment.

The Office of the County Fire Marshal reduces the risk of fire loss in Snohomish County and ensures the safety of citizens and property. Staff conduct fire and arson investigations; perform fire life safety inspections; issue certificates of occupancy; regulate firework stands, displays and other special events; and monitor for wildfire risk. The office provides a vital communication link between local fire districts, the county and state government. Outcomes generated: reduced risk of fire-related events in Snohomish County and deterrence of fire accidents and criminal activity.

The Code Enforcement program contributes to safe and sustainable communities by enforcing Snohomish County codes and other regulations to ensure the health, safety and welfare of county citizens and communities. Utilizing a collaborative approach, staff conduct site visits and respond to concerns throughout unincorporated Snohomish County. Outcomes generated: reduced instances of development-related hazards, nuisances, and threats to public health and the environment.

The Administration program, comprised of the Administrative Services Division and the Director's Office, provides shared support services to enhance the department's operational efficiency. Shared services include management, budgeting, finance and accounting, contract administration, recruiting, human resources management, training, records management, public disclosure request services, and general administrative support. Outcomes generated: a strategic course for the department, the sound management of financial resources, and a modern workforce equipped to serve the county's citizens.

The Business Process and Technology program, housed in the Administrative Services Division, leverages technology to improve services provided by the department and provide public access to land use records. It manages the department's permit tracking system, GIS and mapping services, network administration, electronic records management, and business process initiatives. Outcomes generated: information and technological tools that contribute to the economic development of the county, improve the operating efficiency of the department, and provide open access to public records. This program provides the infrastructure necessary to support a modern permitting department that embraces innovation, efficiency, and customer service.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0006 - Public Works
Department Director: Kelly Snyder
Financial Consultant: V. de Salome/J. Woodard
Legislative Analyst: Deb Evison Bell

Mission Statement:

To design, construct and maintain transportation and solid waste infrastructure that allows our growing Snohomish County community to prosper and fully enjoy its natural resources. We focus on safety and mobility while protecting and preserving our environment. By responding promptly to community needs, practicing fiscal responsibility and cultivating partnerships; we make positive impacts while taking pride in our work.

Outcomes Generated:

The Public Works Department is responsible for the development and maintenance of the transportation system and the disposal of solid waste generated within Snohomish County. The services provided in these areas are diverse, and the demand for services is directly dependent on the growth we have seen in the past and on future projected growth. This growth directly impacts the amount of traffic on the County's ~1,600 miles of roads and ~200 bridges, the amount and type of solid waste produced, the amount of storm water flows created by the development and construction of new impervious surface, and the creation of additional water pollutants, to meet service requirements.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0007 - Office of Hearings Administration

Department Director: Peter Camp

Financial Consultant: Vanessa de Salome

Legislative Analyst: Ryan Countryman

Mission Statement:

Purpose:

The Office of Hearings Administration consists of the Hearing Examiner and Administrative Hearing Clerks who support the Hearing Examiner, the Boundary Review Board, and Board of Equalization. These quasi-judicial entities are independent by statute and ordinance from the County Executive and County Council.

The Hearing Examiner provides a quasi-judicial forum to hear and decide matters assigned to the office by ordinance (1). The majority of cases involve approvals of preliminary subdivisions, variances, and conditional use permits; environmental (SEPA) appeals; appeals from administrative code enforcement determinations by the department of Planning and Development Services; and appeals from administrative determinations by animal control officers and the business license manager of the Snohomish County Auditor.

The Board of Equalization is an independent board of seven citizens that hears appeals of property valuations, property tax exemption denials, and other Assessor determinations.

The Boundary Review Board (BRB) is an independent board of five citizens. When its jurisdiction is invoked (2), the BRB reviews the creation, incorporation, or change in boundary of cities, towns, or special purpose districts to guide and control "the creation and growth of municipalities in metropolitan areas so that . . . problems [such as the rapid proliferation of municipalities, haphazard extension of and competition to extend municipal boundaries] may be avoided and that residents and businesses in those areas may rely on the logical growth of local government affecting them." RCW 36.93.010 (1967).

(1) Chap. 2.02 Snohomish County Code (SCC).

(2) RCW 36.93.100 (1994).

Outcomes Generated:

The Office of Hearings Administration provides necessary administrative and staffing support to the Board of Equalization, Boundary Review Board, citizens who participate in board proceedings, and the Hearing Examiner.

Department Budget Summary

Department: 0009 - Conservation and
Nat Resources

Department Director: Tom Teigen

Financial Consultant: J. Woodard/C. Scheil

Legislative Analyst: Nicole Gorle

Mission Statement:

The DCNR partners with Snohomish County communities to steward resources and manage infrastructure for the purpose of protection, enhancement, use, and enjoyment of our land, air, and water now and into the future. The Division of Parks & Recreation follows this mission by conserving natural and recreational resources for current and future generations, contributing to regional economic sustainability, and enhancing the wellbeing of all Snohomish County residents and visitors through accessible and inclusive parks, facilities, and educational programs. Surface Water Management (SWM) partners with the community to reduce flood damage and to protect and enhance our water resources for future generations by providing customers with services in four core areas to address: drainage and road flooding, water quality, salmon and marine habitat, and river flooding. The Office of Energy and Sustainability leads the County's environmental sustainability initiatives, both internally and within the community and collaborates with a range of stakeholders to conserve natural resources, facilitate environmental stewardship, and develop innovative solutions that support a healthy and vibrant community. The Agriculture Office provides services to local farmers including regulatory, business, technical help, food systems, economic development, education and oversees the Agriculture Advisory Board.

2025 - 2026 Budget - Council

Department Budget Summary

PARKS & RECREATION DIVISIONThe Park Division is comprised of three program areas funded through the General Fund, which provide the following primary services: Administration - management, payroll, central reservations/registration services, facility/program marketing, office support, network administration, planning and development, citizen participation, and property management for all divisions Operations - parkland patrol and code enforcement, routine grounds maintenance, restroom/shelter cleaning, administering camping/boat launch/shelter/yurts, fee collection, educational, recreation camps, and aquatic programs Maintenance - skilled maintenance projects (electrical, plumbing, etc.), small improvement projects, tenant repair/improvements, preventative maintenance plan and implementation, vehicle and equipment maintenance, mowing and turf management. **EVERGREEN STATE FAIRGROUND**The Evergreen State Fairgrounds is comprised of three program areas through the General Fund which provide the following primary services: Administration - management, payroll, office support, customer service, contract processing and fairtime entertainment Maintenance - grounds and building maintenance, repairs, improvements and landscaping to provide a clean, safe and pleasant environment for all users Operations - contract and manage year-round facility use, fair time commercial vendors, safety and physical setup services Combined, the Evergreen Fairgrounds produces the annual Fair, provides partnerships with the Agricultural Community and provides opportunities for education, entertainment and quality programs. Facilities are utilized extensively throughout the year with more than 25% of revenue earned derived from non fair related events and activities. **SURFACE WATER MANAGEMENT DIVISION**The Surface Water Management (SWM) division is a stormwater utility that is responsible for the management of water resources. SWM provides services for drainage, water quality, aquatic habitat, and floodplains for unincorporated areas of the county. The service area includes urban, rural, and forested lands, with two major river systems and the shoreline of Puget Sound. SWM has a staff of 107 engineers, scientists, habitat biologists, planners, technicians and support teams. Revenues to support the program come primarily from annual utility service charges on all developed properties in unincorporated Snohomish County, with lesser contributions from grants and other revenue sources. SWM provides a wide variety of services organized in four main lines of service: Drainage & Road Flooding Water Quality Salmon & Marine Habitat River Flooding Drainage & Road Flooding: SWM inspects and maintains drainage systems, responds to neighborhood drainage problems and complaints, and constructs projects to reduce local flooding. SWM provides the following types of drainage services: Master Drainage Planning Inspection and Maintenance of Stormwater Facilities Drainage Problem Investigations Repair/Replacement of Failing Infrastructure Design and Construction of Drainage Projects Water Quality: SWM is responsible for protecting and monitoring water quality in our rivers, streams, and lakes, and in certain marine shoreline and shellfish areas; responding to water quality problems and complaints; and working with the public, other agencies, and advisory groups to take actions to protect water quality. SWM provides the following types of water quality services: Water Quality Resource Planning Water Quality Monitoring and Assessment of Streams, Lakes, Rivers, and Stormwater Facilities Lake Management Marine Resources Shellfish Protection Stewardship, Education, and Outreach Business Inspections Water Quality Investigations Design and Construction of Water Quality Facility Improvements Salmon & Marin

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0010 - Assessor

Department Director: Linda Hjelle

Financial Consultant: Jim Woodard

Legislative Analyst: Jim Martin

Mission Statement:

Our mission is to administer a property assessment system that meets constitutional and statutory requirements in an efficient and professional manner while striving to provide excellence in service to our customers.

Outcomes Generated:

Property tax is a main component in funding taxing districts and in some cases, their only revenue. The Assessor's Office is responsible for identifying and valuing all taxable real and personal property in incorporated and unincorporated Snohomish County. The Assessor's Office also examines taxing district's budget requests and ordinances for statutory compliance and calculates the tax levy rates for each district.

In 2022 for the 2023 tax year, the Assessor's Office was responsible for valuing over 315,000 tax parcels resulting in a total taxable value of \$218,244,289,386. The value is used as a basis for calculating levy rates and distributing a total tax liability of \$1,669,849,790 which funds 68 taxing districts. These taxing districts provide core services such as fire, hospital, schools, libraries, infrastructure, cities, counties and the state. It is a base source for the general fund.

The responsibilities of the Assessor's Office also include administration of numerous exemption programs, appeal responses, maintenance of the base GIS map parcel layer, account creation and record maintenance and are core functions of County Government. Appropriately funding this office is crucial to the ability of these taxing districts to generate sustainable revenue to function.

The Assessor is required by law to set the value of taxable property at 100% of market value and to ensure that all values are in equalization. The Assessor uses multiple sales of comparable properties and mass appraisal techniques in establishing value as of a January 1st assessment date. New construction is picked up in the summer months and is valued as of a July 1st assessment date. Value of new construction provides for additional revenue to the taxing districts in which it is located.

During 2022 and the first half of 2023, the Assessor's office has continued to fill the vacancies left open during the hiring freeze implemented in 2020. We are getting closer to being fully staffed for the first time in several years. As a result, our office needs funds to train new staff to meet statutory requirements placed on appraisers and other Assessor's office staff. The additional positions added in the 2023 budget, both permanent and project, have been contributing to our efforts to complete our mandated work, reduce backlogs and complete projects.

The Assessor's Office is currently converting and implementing new software to replace our appraisal (ProVal) and administrative (Ascend) systems. We are requesting program funds set aside for this process to provide staffing resources to complete the project and support our regular activities as current staff are pulled from their regular duties to provide expertise and review during conversion.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0011 - Auditor

Department Director: Garth Fell

Financial Consultant: Debbi Mock

Legislative Analyst: Jim Martin

Mission Statement:

The Auditor's Office continuously improves the delivery of services to Snohomish County customers in areas of: Recorded Document Services/Marriage Licensing; Vehicle/Vessel/Business Licensing; Animal Services; and Elections/Voter Registration Services.

The Auditor's Office works in partnership with independently elected county officials, County Council, the County Executive, appointed department heads and our stakeholders to achieve countywide goals to enhance our customers' experience by providing efficient government services.

Outcomes Generated:

The Auditor's Office oversees four distinctly different business functions for the county. These divisions share commonality by continually striving to improve public services:

Recording - legal document recording such as deeds and liens, public access to documents, and marriage licenses.

Licensing - licensing of vehicles, vessels, and certain businesses.

Animal Services - animal complaint investigations, pet and kennel licenses, compliance with codes and statutes, public education and enforcement actions.

Elections and Voter Registration - primary and general elections, special elections, Presidential primaries, voter registration services, and petition signature verification.

The Auditor's Office also oversees four non-general funds that provide the following services:

Auditor's O&M Fund - dedicated funds are collected from recorded document fees for the Auditor's recording software and technology improvements. The fund also provides archival preservation grants for county offices and departments for historical/archival document maintenance, preservation and access.

Elections Cumulative Reserve Fund - dedicated funds are collected for elections equipment, software, maintaining voter registration files, producing a local voters' pamphlet, and other costs associated with conducting elections.

Animal Benefit Bequest Fund - dedicated funds are received through donations to be used for the benefit of animals in Snohomish County.

Grant Control Fund - monies received from the federal and state government for elections specific activities.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0012 - Finance
Department Director: Nathan Kennedy
Financial Consultant: D. Mock/J. Woodard/S. de Salome
Legislative Analyst: Jim Martin

Mission Statement:

The mission of the Finance Department is to provide protection and stewardship of Snohomish County's financial resources, to provide financial leadership and quality information to the staff, citizens, and communities of the County in compliance with legal requirements and policies. Through our diverse activities and duties, we are committed to reach out to County departments and other governmental agencies to cooperate in fulfilling their missions.

Outcomes Generated:

The Finance Department is comprised of division areas which provide the following primary services: Financial Operations - Provides innovative financial and financial systems services to customer departments. The division is responsible for financial reporting, tax reporting, fiscal management policies and county disbursements (accounts payable and payroll). Administration of the countywide financial and time management systems, integration of customer departments' enterprise systems with the County's financial system, internal control consulting, work flow consulting and accounts receivable support are among the many services provided by the division. Some of those services are also provided to outside junior taxing districts. Budget & Systems - provides budget development and analytical services, managerial financial reporting, financial analysis, consultation, and information to management and departmental clients, as well as to the Executive and Council. Designs financial system reports to serve as analytical tools for financial analysis. This division is responsible for the development and maintenance of budget, CIP, annexation analysis, cost of compensation analysis, and financial system tools which provide accurate and timely information to all levels of county government and to the public. The division also maintains multi-year financial models to highlight and analyze effects of current actions and events. Risk Management - Uses industry standards to manage the county's risks. Programs managed include loss control, workers compensation, safety, property claims and property/liability insurance. These programs protect county resources against losses which could significantly affect personnel, property, the budget, or the ability of the county to fulfill its responsibilities. Employee Benefits Fund - provides financial support and analysis to Snohomish County's Employee Benefits program, as well as the management of employee benefit contracts, associated payments to vendors, and tracking and collection of benefits premiums for county employees, outside district subscribers, COBRA participants, and retirees. Purchasing Services - Manages the County established purchasing process that includes procurement, competitive solicitation, contracting and other related services for all County departments. Public Records Services - provides overall coordination of public records requests for the County and payment of large public records violation claims and settlements.

Department Budget Summary

Department: 0013 - Human Resources

Department Director: Rhea Reynolds

Financial Consultant: Debbi Mock

Legislative Analyst: Jim Martin

Mission Statement:

Human Resources aims to achieve the mission and vision of Snohomish County by attracting, developing and retaining peak performing employees. We accomplish our mission by working as a business partner with management and employees of Snohomish County toward resolving issues, assisting management in designing work structures, complying with varying state, federal and local laws, recruiting new employees, and recommending employee training, benefit and reward systems.

Outcomes Generated:

Human Resources provides and administers a professional system of human resources management for County employees through the development, communication and reasoned application of policies, rules and procedures and by selection and implementation of programs which improve the effectiveness and efficiency of the County's human resources.

The department's functional areas include: Employment Services, Training, Classification, Pay Administration, Employee Wellness, Employee benefits, Employee relations, Labor negotiations, Records and Information, and Staff support to human resources boards.

Department Budget Summary

<u>Department:</u>	0014 - Information Services
<u>Department Director:</u>	Viggo Forde
<u>Financial Consultant:</u>	Stephen de Salome
<u>Legislative Analyst:</u>	Deb Evison Bell

Mission Statement:

The Department of Information Technology delivers quality business services that empower and support our customers in the accomplishment of their missions.

Outcomes Generated:

The Department of Information Technology (IT) provides county departments and agencies with IT related central services. IT delivers services categorized into the following groups:

Application Support
Enterprise Applications
Geographic Information Systems (GIS)
Customer and Workstation
Business Operations
Enterprise Technology
Enterprise Data Management

Services are aligned to mature the County's information and technology capabilities. Additionally, they support improvement and investment in technology, enabling departments and agencies to purchase services from IT based on very clear quality and value definitions while retaining control of tactical decisions to support their business. The leadership team delivers technology planning, reporting and governance, providing countywide IT strategic and budgetary planning, IT project investment oversight and innovation programs to meet emerging and immediate needs for our customers.

Organizational programs delivering IT services include four divisions structured into service teams.

APPLICATIONS DIVISION

Application Support: provides application administration, development, support, and maintenance for department/agency level (differential) applications.

Enterprise Application Support: provides application administration, development, support, and maintenance for applications that benefit all county departments and agencies.

Geographical Information Services (GIS): This service is designed to support the county GIS community through the development, design and support of innovative GIS technology solutions.

BUSINESS OPERATIONS AND SUPPORT DIVISION

Customer and Workstation: manages county workstation deployment, support and replacement through the Technology Replacement Program (TRP). We provide standardized, integrated software and a customer-focused Service Desk as a single point of contact for all county technology needs.

Business Operations: keeps IT business moving efficiently to meet demands in an agile way:

- IT asset management to deliver software as needed and ensure license compliance.
- Contract negotiation and vendor management, essential to reduce liability, obtain value for purchases, and define roles and responsibilities, while maintaining a professional relationship with vendors that provide great service and support.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

- IT Finance and Budget supports budget development, forecasts and reporting, transparent rate allocation, acquisition, accounts payable, accounts receivable and payroll.

ENTERPRISE TECHNOLOGY DIVISION

The Enterprise Technology Services team provisions, maintains, secures and supports the countywide enterprise technology infrastructure. This serves as the foundation for delivery of business systems and IT-enabled processes. The team proactively monitors and controls county systems to maximize stability, optimize performance, and administer a comprehensive cybersecurity program focused on managing risk and securing county information assets. The goal of this service is to deliver a reliable and secure technology infrastructure aligned to business needs in a cost-effective manner.

DATA MANAGEMENT DIVISION

Data Management: comprehensive enterprise support services to align county’s approach to data management and governance, along with specialty services:

Records Management: provides record pick-up and storage, record delivery, record destruction, custom reports, and research. Provides guidance and training to county records coordinators.

Print and Mail Services: full-service print, copy, mail, and shipping services with a range of print types and media options using industry standard printshop equipment/tools. The mailroom provides mail digitization delivery services and secure parcel pickup via parcel lockers.

Enterprise Scanning: high-volume document image conversion services covering scanning of paper and microfilm records. Images are provided in several formats and include OCR capabilities.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

<u>Department:</u>	0015 - Health Department
<u>Department Director:</u>	Dennis Worsham
<u>Financial Consultant:</u>	Vanessa de Salome
<u>Legislative Analyst:</u>	Jim Martin

Mission Statement:

The Snohomish County Health Department works to spearhead efforts that protect, promote, and advance the collective health of our community through activities that are grounded in a set of foundational public health services. We believe everyone in our community deserves healthy places to live, work, and play. We are dedicated to promoting healthy habits, addressing health inequities, reducing the spread of communicable diseases, and preventing health threats to and from food, water, and the environments we live, learn, and spend time in.

Outcomes Generated:

The Snohomish County Health Department provides public health services for all of Snohomish County. We work for a safer and healthier community through disease prevention, health promotion, and protection from environmental threats.

The Health Department joined Snohomish County government in January 2023. Prior to that, local public health services were provided by the Snohomish Health District, an independent special purpose district. Former Health District staff and programs were integrated into the county, becoming the Health Department.

Office of the Director

The Office of the Director provides the services and structure to support environmental and preventive health efforts. The programs include;

- Human Resources
- Finance
- Public Health Emergency Preparedness and Response
- Epidemiology and Informatics
- Public Records and Privacy
- Communications and Policy
- Maintenance and Fleet
- Limited IT Support

Environmental Health Division

The Environmental Health division helps ensure the food, water and environment of Snohomish County are safe from health threats such as disease, pollution, pests, and other hazards. Environmental Health issues permits, responds to complaints, and ensures that health regulations such as local sanitary codes are followed.

Environmental Health charges fees for most of its services and is largely self-supporting. Septic system owners and restaurants pay for their permits, as do food handlers. Some programs also receive funding through interlocal agreements, grants and contracts with the state departments of Ecology and Health.

Current Environmental Health work includes:

- Food safety
- Drinking water and wells
- Safe environments (schools, water recreation facilities, shellfish harvesting, camps, etc.)
- On-site sewage (septic)
- Solid, business and hazardous waste

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

- Vital records (birth and death certificates)

Prevention Services Division

The Prevention Services division focuses on preventive programs for families and communities. We also focus on the prevention and control of communicable disease through education, monitoring, outbreak response, and vaccination. Public health and disease data are part of this work, as well.

Under state law, health care providers, hospitals, and laboratories are required to report certain diseases to local public health agencies. Prevention services staff receive disease reports, conduct investigations into the cause and possible spread of illness, and initiate disease control measures.

Current Prevention Services work includes:

- Immunization outreach and services
- STD/HIV prevention and response
- Viral hepatitis outreach
- Tuberculosis control
- Refugee health screening
- Communicable disease surveillance and response
- Maternal and child health
- Healthy communities
- Vaccine preventable diseases
- Child care health outreach

Department Budget Summary

Department: 0016 - Nondepartmental

Department Director: Nathan Kennedy

Financial Consultant: D. Mock/B. Haseleu

Legislative Analyst: Jim Martin

Mission Statement:

The Nondepartmental Department exists to account for expenditures which serve multiple departments.

Programs and activities include; Real Estate Excise Tax (REET), Public Advocate, E-911, Pending Grants, ARPA, etc..

Outcomes Generated:

The Nondepartmental budgets provides for performance of work or expenditure of funds that cross departmental programs. For example, payment of general items which benefit the county as a whole and do not fit directly within a service program of any specific department or organization are budgeted within the Nondepartmental organization. Most organizations within the interdepartmental agency are administered on behalf of the County Executive by the Department of Finance.

Department Budget Summary

Department: 0018 - Facilities Management
Department Director: JaNae Nelson
Financial Consultant: Vanessa de Salome
Legislative Analyst: Deb Evison Bell

Mission Statement:

The primary mission of Facilities and Fleet is to maintain, develop, acquire, and manage County facilities, assets and properties. Our diverse team of professionals provides accessible, efficient, safe and secure county facilities and properties. Through strategic planning and performance, Facilities and Fleet works in a cooperative effort to enable our clients to provide effective services in which we take pride.

Outcomes Generated:

The Department of Facilities and Fleet provides various internal services that support the operations of other County departments, and other support services for County citizens.

These services are as follows:

Facilities Maintenance - provides maintenance, repair and contract janitorial services, building access and utilities management, capital project planning and construction administrative services for departments and agencies in various County administrative facilities and grounds, including the Denney Juvenile Justice Center (DJJC) and Courts, the Medical Examiner's Facility, Records Management Facility, Public Works Facilities and the Department of Corrections detention facilities. In 2024, the Health Department Building on Rucker and New Start Centers in Everett and Edmonds will be added to the portfolio of properties to be maintained by the Facilities division.

Property Management - provides administrative oversight and services related to County owned and leased real property, County- owned personal property including preparation of the annual inventory report, sale of County surplus properties (including tax title properties), lease and license contract negotiations, conference rooms/campus facilities use coordination and vending services management.

Parking Operations - manages the County garage and surface parking lot that provides parking for the public (including event parking for Comcast Arena), employees and jurors.

Office Planning and Move Management - provides services to County departments in reconfiguring their space needs for maximum operational efficiency.

Project Management - manages various capital and major repair projects relating to County facilities.

Employee Commuter Trip Reduction Program - provides administrative support in the registration and subsidy processing of County employees participating in the Employee Commuter Trip Reduction Program.

Fleet Management - replacement and repair of County owned vehicles and equipment..

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0021 - Airport

Department Director: Joshua Marcy

Financial Consultant: Jim Woodard

Legislative Analyst: Jim Martin

Mission Statement:

The mission of the Paine Field/Snohomish County Airport is to contribute to the economic vitality and quality of life of the region. This is accomplished by providing high quality aviation and industrial services, facilities, and interaction with customers. Customers include airfield tenants, users, neighbors and the people of Snohomish County.

Outcomes Generated:

Paine Field/Snohomish County Airport is a vital commercial aviation facility and industrial park serving the Puget Sound. Classified by the FAA as a FAR Part 139 commercial service airport, Paine Field serves up to approximately 1,000,000 passengers per year (pre-pandemic); 590 based aircraft; and 140,000 aircraft takeoffs and landings per year. There are nearly 100 businesses on or adjacent to the airport which employ approximately 50,000 locally and 158,000 statewide (WSDOT). Boeing produces the 767, 777, and soon the 737 aircraft at Paine Field. Airport lease revenue and fees cover operating expenses and development. The Airport Enterprise Fund is financially self-sufficient and uses no general fund tax dollars.

The airport's capital program is budgeted at \$44.6M for 2024. The capital program consists of \$7.5M in bonds; \$14.75M in FAA Grants; \$300,000 Passenger Facility Charge (PFC) Funds; and \$22M in local Airport Enterprise Funds. The bonds issued represent \$7.5M of a land acquisition estimated at \$12.5M. Various other programs such as equipment replacement and infrastructure maintenance will be funded by the Airport Enterprise Fund.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0024 - District Court

Department Director: Kathryn Koehler

Financial Consultant: Debbi Mock

Legislative Analyst: Nicole Gorle

Mission Statement:

Snohomish County District Court is dedicated to serving our citizens by ensuring equal access to justice and resolving legal matters in a fair, efficient, and timely manner. We are committed to upholding the public trust and confidence in the integrity of the judiciary and the courts. We will treat everyone who comes before the court with courtesy and consideration; and will work to promote an understanding and respect for the law.

Outcomes Generated:

The District Court workload includes administration of the court, clerical services and responsibilities, and adult probation services. Workload is directly impacted by case filings which dictate the need for funding in order to process cases in a fair and timely manner. Legislation, case law, and policy changes also impact workload as they traditionally add requirements that increase the burden of case processing and management.

The District Court is responsible for the timely and efficient adjudication of criminal simple and gross misdemeanors; felony probable cause matters; expedited felony filings; petitions for protection orders; petitions for name change; civil traffic, non-traffic, and parking infractions; civil filings with a ceiling of \$100,000; small claims filings with a ceiling of \$5,000; and vehicle impound hearings. This equates to over 75,000 new filings per year. With the responsibility for accepting the aforementioned filings, comes the obligation of timely and efficient adjudication, customer service, record keeping, courtroom support, sentence and judgment implementation, revenue management, and legal action reporting.

Adult probation services are also administered by the District Court and is a substantial portion of the Court workload. While the primary purpose of the Probation Department is to hold defendants accountable for their court ordered conditions and provide alternatives to incarceration; Probation uses a therapeutic and holistic probation model that encompasses best practices, use of evidence-based and research-based programs, services, and cognitive behavioral trainings to more effectively monitor and assist offenders in developing skills to promote positive behavioral changes to reduce their dependence on criminal and substance abuse behaviors. Statistics have shown that probation services, such as those provided by District Court, cost approximately one-tenth of the amount of incarceration, yet prove to be as effective in reducing repeat offenses.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

<u>Department:</u>	0030 - Sheriff
<u>Department Director:</u>	Susanna Johnson
<u>Financial Consultant:</u>	Jim Woodard
<u>Legislative Analyst:</u>	Heidi Beazizo

Mission Statement:

The Snohomish County Sheriff's Office will prioritize public trust and community safety by reducing crime through professional policing and correctional services, founded on accountability and compassion.

It is our promise that Snohomish County will have a Sheriff's Office that is community-minded, progressive and professional.

The Snohomish County Sheriff's Office is comprised of people who share a common belief and goal to provide the most progressive and professional services possible to the public. To achieve this, we must accept and adhere to basic values. These values are a vital part of the Sheriff's Office and give us the spirit and direction to achieve our goals:

INTEGRITY

We adopt an uncompromising approach to the highest ethical standards, being honest, truthful, and worthy of trust.

DIGNITY

We believe in the importance of treating others with respect and in conducting ourselves in a manner which inspires respect.

COMMITMENT

We are dedicated to the Office's Mission and Vision, to the development and support of employees and to the highest standards of professional conduct.

PRIDE

As members of this Office we are honored to serve and protect our community.

Outcomes Generated:

Our proposed budget funds the service delivery level that has been provided to county citizens based on restoration of frozen vacancies, maintaining funding for current positions, and adding staffing to our office to account for the shortfall in employees needed by our office. Our outcomes are based on the expected safety and security needs of the citizens of the county and the ability of our personnel to provide the required and expected services needed from law enforcement:

Invest in professional training and development for our personnel through:

- Enhanced practical skills training to help reduce employee injury and county liability
- Formulate plan for accreditation renewal and create framework for future accreditation regeneration
- Initiate state required I-940 training in relation to our budget appropriation
- Policy and procedures developed for the launch of the Sheriff's Office body worn camera program.
- Implementation of the new Taser platform to assist with de-escalation of violent persons in crisis with minimum force applied and reduction of injuries to deputies
- Implement wellness program to help our employees deal with physical, emotional, and financial stress associated with the law enforcement profession

Provide opportunity for community input and engagement through:

- Increased communication through social media platforms
- Creation of SCSO Community Advisory Board for input on development of community engagement strategy
- Continued focus on delivery of professional service within provided resources
- Continued community engagement through the Sheriff's Lead the Way program.
- Increased communication and engagement with the community through the America's Promise Project

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0031 - Prosecuting Attorney
Department Director: Jason Cummings
Financial Consultant: Jim Woodard
Legislative Analyst: Heidi Beazizo

Mission Statement:

It is the mission of the Snohomish County Prosecutor's Office to fulfill its legal and constitutional obligations to the citizens of the County and State; to vigorously, fairly, and efficiently prosecute those who commit crimes in Snohomish County; to represent the County in civil litigation; to provide high quality professional advice and service to Snohomish County and State of Washington governments; and to be knowledgeable advocates for improvements in the justice system.

Outcomes Generated:

The Prosecuting Attorney's Office outcomes are generated in three primary program areas:

Criminal - The Criminal Division is responsible for prosecuting all adult felony cases and juvenile criminal cases occurring within Snohomish County, and all adult misdemeanor and gross misdemeanor cases referred by the County Sheriff, the State Patrol, all state agencies, and some cities that have contracted with the county for misdemeanor prosecution services. The Criminal Division participates in Drug Court for adults, and has a deputy prosecutor assigned to the Snohomish Regional Drug and Gang Task Force as well as the Auto Theft Task Force. The Criminal Division provides advocacy services for crime victims. Also, the Criminal Division manages a Therapeutic Alternatives to Prosecution ("TAP") program which holds qualified and eligible first-time offenders accountable for their offenses while avoiding the costs of case filing, court, and incarceration.

Civil - The Civil Division acts as the in-house legal counsel for Snohomish County. The Civil Division represents the County and its employees, as appropriate, in civil litigation in Federal and State courts, arbitrations, mediations, administrative hearings, and appeals. The Civil Division also provides its County clients with a broad range of other legal services, including informal and formal advice, risk management advice, and preparation and review of a broad variety of legal instruments. The Civil Division also represents the mental health division of Human Services in involuntary commitment proceedings.

Family Support - The Family Support Division litigates issues regarding child support in cases referred by the State Department of Social and Health Services, Division of Child Support and defends D.C.S. in actions brought against them. Family Support program expenditures are reimbursed by a combination of state and federal pass-through funds.

Mission Statement:

It is the mission of the Office of Public Defense to provide indigent defense services in a manner that complies with constitutional and statutory requirements and is cost effective. These services include indigency screening to determine eligibility for services, assignment of counsel, pre-trial assessments, management and compliance review of indigent defense contracts, and management of expert and investigation costs and fees mandated for indigent defense.

Outcomes Generated:

The office shall be responsible for administration of an assigned counsel program to provide indigent defense services in those criminal and civil cases in which loss of liberty is a potential outcome. This includes the management of attorney contracts for indigent defense services, as well as the mandated costs associated with experts and investigators for indigent defense. The office shall also be responsible for administration of a system for providing the court with information pertaining to the setting of bail and release of offenders pending trial.

Department: 0033 - Medical Examiner

Department Director: Dr. John Lacy

Financial Consultant: Cynthia Scheil

Legislative Analyst: Heidi Beazizo

Mission Statement:

The mission of the Medical Examiner's Office is to provide the citizens of Snohomish County a modern medicolegal death investigation system and to assure that their interests and those of the deceased and their loved ones are safeguarded during their time of personal loss.

Outcomes Generated:

The Medical Examiner's Office provides the citizens of Snohomish County with quality, timely, and independent medicolegal investigations to determine cause and manner of death of deceased persons who come under its jurisdiction so that:

1. The innocent are exonerated.
2. Homicide is recognized.
3. Critical medical evidence is documented for criminal and civil legal proceedings.
4. Unrecognized hazards to public health and safety will be revealed.
5. Industrial hazards will be exposed.

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0036 - Superior Court

Department Director: Andrew Somers

Financial Consultant: Debbi Mock

Legislative Analyst: Nicole Gorle

Mission Statement:

The mission of the Snohomish County Superior Court is to actively manage the business of the court so as to provide for fair, prompt, and efficient resolution of disputes; by assuring due process and individual justice in each case; and maintaining the independence and parity as an equal branch of government. Snohomish County Superior Court serves the public by adjudicating criminal and civil cases while also providing mandated services which enable citizen's ready access to justice. The Juvenile Court works with community youth who are involved with the criminal justice system, civil action and dependency cases. Through many avenues the staff provides a wide range of evidence based programs and accountability for the youth in the juvenile justice system.

Outcomes Generated:

The following factors have a direct impact on Superior Court's workload. Case filings are the primary catalysts which dictate the need for county general fund in order to process cases in a fair and timely manner. Growth in general, and specifically population growth, density, commerce, criminal arrests and referrals, legislation, state and local agency policies, and other social and economic factors impacts case filings. In Juvenile Court, major factors in determining workload and budget impacts include level of state funding, the average daily population in Detention, gender, number and classification of detention bookings, number of offender referrals and the number of cases filed.

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0037 - Clerk
Department Director: Heidi Percy
Financial Consultant: Stephen de Salome
Legislative Analyst: Heidi Beazizo

Mission Statement:

The mission of the County Clerk is to maintain the Superior Court record and provide excellent service to citizens and the court by ensuring:

1. The integrity of and access to the Superior Court record;
2. Accountability of court funds; and
3. Prudent stewardship of public resources entrusted to us.

Outcomes Generated:

Snohomish Council

2025 - 2026 Budget - Council

Department Budget Summary

The core outcomes generated by the Clerk include maintaining Superior Court case records in perpetuity and providing court records and information that is secure, accurate, timely, and accessible.

Court Funds

The Clerk is the financial officer for Superior Court. This mandated duty includes collecting, managing, and disbursing fees, fines, restitution, and trust funds. Annually, the Clerk accounts for and administers more than \$31 million including more than \$24 million in court registry funds. Program 232 (Judicial Accounting / Judgments) narrative provides detailed information regarding this division's activities.

Court Records and Access to Justice

The Clerk is statutorily required to ensure court records and exhibits are accessible to the public. As "keeper of the court record", the Clerk's statutory responsibilities include accepting and processing all Superior Court new case filings and subsequent pleadings filed both in electronic and paper form. These filings include more than 20,000 new cases filed annually and over 430,000 court documents filed and processed annually which requires accurate and timely entry of information into the state's case and document management system (Odyssey). Program 233 (Case Management) and Program 237 (Juvenile) narratives provide detailed information regarding these mandated duties.

Customer Services

The Clerk assists agencies and citizens of Snohomish County who seek information on court processes and access to the court record. This encompasses in-person services, telephone contacts, and electronic requests for information and services; additional mandated services include issuing writs, subpoenas, warrants, certified copies, and other duties. Further, the Clerk provides procedural assistance to self-represented litigants on family law and guardianship processes; as well as instructional information/resources to those seeking domestic violence, harassment, extreme risk, stalking, sexual assault, and vulnerable adult protection orders. Program 236 (Customer Services) narrative provides detailed information regarding these duties.

Judgments

The Clerk is statutorily required to enter and keep a public record of all judgments. This includes the original judgment, amendments and any subsequent partial- or full-satisfactions. Judgments are the official decision rendered by the court and details the award of money or property. Judgments are an integral part of the escrow process in real estate transactions and serve as the basis for subsequent court proceedings, such as foreclosures or garnishments. Program 232 (Judicial Accounting/Judgments) narrative provides detailed information regarding these mandated duties.

Courtroom Support and Jury Management

The Clerk is responsible for attending and creating an independent record of all hearings and trials in Superior and Juvenile court. This encompasses creating contemporaneous minutes and exhibit indexes, marking, and maintaining control of exhibits, receiving jury verdicts, and jury management for the Superior and District Courts. Program 235 (Courtroom Operations) narrative provides detailed information regarding these mandated duties.

Administrative Services

The Administration Division manages and supports all divisions of the Clerk's Office by providing policy, planning, managerial and administrative support, and budgetary direction. Additionally, this division responds to time-sensitive requests from Snohomish County and Superior Court Administration, the Washington State Administrative Office of the Courts (AOC), and the Law and Justice Community as a whole. Day-to-day operations in Administration ensure that critical functions are achieved while minimizing the impacts on operational staff. Program 231 (Administration) narrative provides detailed information regarding these mandated duties.

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0038 - Sheriff's
Corrections Bureau

Department Director: Susanna Johnson

Financial Consultant: Jim Woodard

Legislative Analyst: Heidi Beazizo

Mission Statement:

The Mission of the Snohomish County Sheriff's Office is to provide safe communities through dedicated and professional services.

It is our promise that Snohomish County will have a Sheriff's Office that is community-minded, progressive and professional.

The Snohomish County Sheriff's Office is comprised of people who share a common belief and goal to provide the most progressive and professional services possible to the public. To achieve this, we must accept and adhere to basic values. These values are a vital part of the Sheriff's Office and give us the spirit and direction to achieve our goals:

INTEGRITY

We adopt an uncompromising approach to the highest ethical standards, being honest, truthful, and worthy of trust.

DIGNITY

We believe in the importance of treating others with respect and in conducting ourselves in a manner which inspires respect.

COMMITMENT

We are dedicated to the Office's Mission, to the development and support of employees and to the highest standards of professional conduct.

PRIDE

As members of this Office we are honored to serve and protect our community.

Outcomes Generated:

Our proposed budget funds the service delivery level outlined in our strategic plan. We have prioritized and believe we can attain desired outcomes:

Invest in professional development for our employees through:

- Enhancements to and implementation of safety initiatives
- Maintain accreditation certification
- Improved internal communication and support
- Leadership development and mentoring program

Provide opportunity for community engagement through:

- Expanding our marketing platform
- Development of sustainable community-focused programs
- Continued focus on delivery of professional service

Implement efficiency measures through technology and innovation:

- Search out opportunity for software and related workflow improvements
- Robust research and planning for next-generation hardware evolution

2025 - 2026 Budget - Council

Department Budget Summary

Department: 0039 - Dept Emergency Management

Department Director: Lucia Schmit

Financial Consultant: Vanessa de Salome

Legislative Analyst: Ryan Countryman

Mission Statement:

Be leaders and integral partners in all five phases of emergency management (prevention, mitigation, preparedness, response, and recovery); and support efficient, reliable, and integrated 911 service to enhance the resilience of Snohomish County.

Outcomes Generated:

- A comprehensive emergency management plan (CEMP) that enhances the county's ability to respond to disasters by coordinating departments', partners', and jurisdictions' efforts.
- Coordinated pre-disaster mitigation and preparedness/outreach efforts that reduce risk to life and property and educate the whole community about how to prepare for hazards, respectively.
- Coordinated post-disaster recovery efforts that leverage partnerships and resources to ensure the timely return to a "new normal" following a disaster.
- Maintenance of an emergency operations center (EOC) that, when activated, provides County leadership with situational awareness and acquires and allocates necessary resources to support emergency responders.
- Delivery of training and exercises that promotes improved capabilities in all facets of emergency management and tests/validates the plans and procedures of DEM and its partners.
- Interoperable communications that allow us to communicate with local, state, and federal emergency management agencies.

Program: 0001-100-002-002-332 - Office of Social Justice

Program Description:

The Office of Social Justice was established to undo institutional and structural racism that exists in the County. The work is lead and guided by the Executive's Office. OSJ is led by the Chief Diversity, Equity & Inclusion Officer with support from two other staff. The office works in collaboration with Executive Departments, Separately Elected Offices, Council, and the community to advance equity and social justice.

Fund/Subfund: 100/ 015 - Tourism Promotion Area

Division: 200 - Economic Development

Department: Executive

Program: 0001-200-100-015-410 - Economic Development

Program Description:

The Tourism Promotion Area (TPA) was established by the lodging industry to generate revenues for tourism promotion and development within Snohomish County. The TPA is intended for tourism marketing & promotion related projects that will increase overnight stays in Snohomish County, and to position the County more competitively as a regional and national tourism destination including for conferences and large events. The TPA Advisory Board, which includes countywide representation, selects projects and directs use of funding, with final approval from the County Council. As a self-generating funding source, the TPA assessment has no negative fiscal impact to Snohomish County or cities located within the County. The TPA does not replace or impact city or county lodging tax revenues or the processes in place through which cities and the County utilize their lodging taxes.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 116/ 001 - Local Hotel/Motel Tax

Division: 200 - Economic Development

Department: Executive

Program: 0001-200-116-001-410 - Economic Development

Program Description:

"The county receives a rebate of one-third of the State's share of sales tax on transient lodging sales in unincorporated Snohomish County and in those cities that do not claim the rebate for themselves. Revenues accrue to the Local Hotel/Motel Tax fund (also called the Small Fund) and are allocated to public and non-profit agencies for projects that attract visitors to the county.

The County Council has adopted policies and guidelines for allocating these funds to large regional projects and to investments in tourism assets of regional scope and impact that provide the maximum return on the public investment. The fund will support a diversity of tourism development projects and strive for a geographic distribution of projects."

Fund/Subfund: 130/ 339 - Support Grant

Division: 200 - Economic Development

Department: Executive

Program: 0001-200-130-339-300 - Executive Grants Programs

Program Description:

As part of the countywide workforce system, Snohomish County works closely with the Future Workforce Alliance (FWA) and Workforce Snohomish to establish a gold-standard workforce system that is centered on racial equity and inclusion, data informed decision-making, and strong collaboration among workforce and community partners.

This work includes:

- Cultivating a community-based workforce system that that serves career-ready adults and youth across Snohomish County with a focus on meeting communities where they are best served.
- Developing pathways into high-quality careers that provide living wage jobs, career progression, and training opportunities to support Snohomish County's driver industries of aerospace, advanced manufacturing, maritime, life sciences, information technology, and agriculture.
- Advancing apprenticeship and pre-apprenticeship opportunities to train the next generation of skilled workers to support industry needs today and in the future.

Snohomish County staff time dedicated to workforce is paid for on a reimbursement basis through Workforce Innocation and Opportunity Act (WIOA) funds.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 130/ 375 - American Rescue Plan Act

Division: 200 - Economic Development

Department: Executive

Program: 0001-200-130-375-311 - Office of Recovery

Program Description:

Snohomish County Executive Dave Somers established the Office of Recovery & Resilience (ORR) to guide the County's recovery work by ensuring the \$160 million in federal American Rescue Plan Act (ARPA) funds the County received is administered quickly and equitably.

Using federal American Rescue Plan Act funding, Executive Somers is proposing significant investments to address the effects of the pandemic and set Snohomish County on the road to recovery. ARPA investments must comply with at least one of the following categories determined and monitored by the United States Treasury: Support COVID-19 response efforts to continue to decrease spread of the virus; replace lost revenue for governments to strengthen support for vital public services and help retain jobs; support immediate economic stabilization for households and businesses; and address systemic social and economic challenges that contribute to the unequal impact of the pandemic.

ORR's goal is to invest this \$160 million quickly and equitably and make smart allocations with these one-time dollars and avoid creating funding cliffs, whereby programs would have to be cut for lack of sustainable funding. The county is committed to making data and community-driven decisions and constantly evaluating the efficacy of its programs and investments.

Department: Executive

Program: 0001-200-199-001-440 - Arts Commission

Program Description:

Established in 2004, the Arts Commission fulfills its obligations as codified in Chapter SCC2.95 by developing and maintaining processes relating to the development of the Cultural arts.

According to data from WSAC's Creative Vitality Index (CVI), in 2014 Washington State had over 147,106 jobs that were directly related to the creative economy, including actors, editors, graphic designers, photographers, writers, etc.

Snohomish County has more than 10,000 total creative jobs - up 1% since 2013.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 200 - Council

Department: Legislative

Program: 0002-200-002-002-160 - Legislative Svs.

Program Description:

Legislative Services are those activities of the County Council that are based on state law, the County Charter, and interlocal agreement. They include: 1) enactment of fiscal and operating policy through ordinances, motions and resolutions; 2) fiscal oversight of administrative and judicial operations to ensure that public services are efficient and economical; 3) land use and growth management policy; and 4) quasi-judicial appeal hearings of developmental proposals.

Activities are carried out through a weekly schedule of public hearings and public meetings of the council on the record; committees of the whole; subcommittees for Finance, Public Works, Law & Justice/Human Services, Operations and Planning and Community Development; individual meetings with citizens and interest groups; and participation in regional and statewide organizations.

Activities based on the County Charter include: 1) operating and capital budget review and adoption; 2) land-use policy and development regulation; 3) contract review and approval; and 4) comprehensive plan adoption.

Ordinance and interlocal agreement based activities include: 1) tourism and economic development; 2) regional transportation program review and planning; 3) public health; 4) mental health; 5) public transit; 6) emergency dispatch and Enhanced 911 communications; and 7) growth management.

Activities based on state statute include: 1) appropriation for state mandated government services; 2) regional transit planning, and 3) state legislature liaison through the Washington State Association of Counties.

160 - Legislative Svs.

Performance Auditing

Program Description:

Performance Auditing addresses Priorities 6 &7: "Effective, Efficient, Transparent Government." The Performance Audit division evaluates county programs and processes, works with Departments and Offices to improve effectiveness and efficiency, and informs the community of outcomes of the inquiries.

Snohomish County Charter mandated Performance Auditing in 1996. In 2006, the voters passed an amendment to the Charter which removed the Performance Audit function from the Auditor's Office and placed it under the supervision of County Council. This change was effective July 1, 2007.

The Performance Audit program accomplishes its mandates through a combination of contracted performance audit services and county performance audit staff.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 001 - Human Services Administration

Department: Human Services

Program: 0004-001-002-002-400 - Human Services Administration

Program Description:

The Administrative Services Division is responsible for the efficient and effective operation of the department. In addition, this division offers information, advice, and assistance to other County departments and the community at-large.

This division provides administrative services for other divisions within the department. Pooling administrative staff is more cost effective than stationing clerical, fiscal, research and analysis, and technology staff in each division/program. Although all of these services are needed by each program, grant funding restrictions seldom allow us to charge all of the actual costs of these services to the grants. By supporting these costs with County General funds, the County is able to leverage millions of federal and state dollars to support local human services programs.

Most grant funded programs cannot redirect dollars from service provision to administrative costs due to contract limitations. Therefore, reductions in administrative staff would severely limit the effectiveness of our internal controls. Weak controls would create a potential risk for the loss of future funding. Loss of funding would severely impact the lives of low-income and/or disabled Snohomish County residents who depend upon our services to meet their basic needs and/or sustain themselves as independently as possible, resulting in a cost savings of inestimable value. Increased homelessness, institutionalization, crime, incarceration, and substance use would all be potential consequences of the loss of Human Services programs.

The Administrative Services Division indirectly supports the department goals to promote and sustain dignity and independence, regardless of social, health, or economic status, through a responsible and accessible human services network, and to promote safe and healthy communities. In addition, this division supports the department in its goal to provide quality administration and operations by promoting effective and efficient opportunities for good stewardship through:

- Quality program specific support services.
- Accurate and reliable information and assistance to help others increase their capacity to identify and address community issues.
- Efficient and effective operation of the department's computers, computer networking, and office automation decision making.
- Compliance with federal, state, local and grantor requirements and generally accepted accounting principles.
- Maintenance of a high standard of professionalism, quality administrative support, and excellent customer service.
- Development and sustenance of a collaborative and cooperative work environment.
- Overall timely processes.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 124/ 005 - PSTAA Tax

Division: 002 - Children's Services

Department: Human Services

Program: 0004-002-124-005-192 - PSTAA Educational Services

Program Description:

The Puget Sound Taxpayer Accountability Account (PSTAA) was created as an amendment to the 2015 State Transportation Revenue Package by the Washington State Legislature and is funded by a percentage of sales and use taxes collected from Sound Transit construction projects. PSTAA funds are to be distributed to King, Pierce, and Snohomish counties proportionally based on the population of each county that lives within Sound Transit's jurisdictional boundaries.

Pursuant to RCW 43.79.520, counties may use distributions from the PSTAA account only to improve educational outcomes in early learning, K-12, and higher education including, but not limited to, for facilities and programs for children and youth that are low-income, homeless, or in foster care, or other vulnerable populations; and to start endowments to provide support for improving educational outcomes in early learning, K-12, and higher education.

Snohomish County Human Services has been designated to manage interlocal agreements with the five (5) school districts and three (3) institutions of higher education to design and implement programs and projects consistent with the intent of and requirements related to PSTAA funds.

Goals and Objectives:

- Increase early learning outcomes related to child development: social emotional, physical, language, literacy, and math.
- Increase early learning outcomes related to family engagement.
- Increase early learning outcomes related to racial equity.
- Increase educational outcomes for higher education related to access, retention and completion.

Program Detail

Fund/Subfund: 124/ 124 - Human Services Fund **Division:** 002 - Children's Services
Department: Human Services **Program:** 0004-002-124-124-110 - CAP/CSBG

Program Description:

Federal funds are passed through the Washington State Department of Commerce (COM) to Snohomish County as a designated Community Action Agency for the expressed purpose of ameliorating the causes and/or symptoms of poverty. The goal of the Community Services Block Grant (CSBG) is to enhance self-sufficiency among low-income families by providing coordination and linkages to increase access to services and resources that address critical needs, as identified in the Human Service Department's Community Needs Assessment (CNA). These include: housing, food and other basic needs, emergency/disaster support, domestic violence, legal assistance, employment support, medical and dental care, mental health including substance use disorder, child care assistance and early learning services. Any funding recommendations are made through the Community Services Advisory Council, as required by federal legislation, and are subcontracted with qualified local agencies.

Goals and Objectives:

- * Distribute and inform community members on the results of the CNA.
- * Support, and fund as resources are available, services and interventions that address identified need(s) in the CNA.
- * Develop linkages with other programs and local communities to improve access to self-sufficiency services.
- * Coordinate with other community and county-based groups to achieve a more comprehensive approach to addressing poverty countywide.
- * Work to educate the community around poverty related issues and advocate for those living in, and impacted by, poverty in Snohomish County.
- * Promote and support equitable strategies for eliminating poverty.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 124/ 124 - Human Services Fund

Division: 002 - Children's Services

Department: Human Services

Program: 0004-002-124-124-116 - Family Support Services

Program Description:

The County supports eight Family Support Centers (FSCs) and two family services programs in Snohomish County. FSCs provide a single community-based resource for families living in poverty, facing crisis, struggling with increasing housing costs, who may be stymied by the complex systems they need to access for assistance. FSCs are the first point of contact made by many families under stress and are seen as the information center and access point to local services as they try to address their needs. In many ways, the FSCs are functioning as local "triage" sites assisting their participants with job applications, providing food and clothing, advocating for family members in need, and providing support in accessing housing, behavioral health services, and mainstream services, such as DSHS and WorkSource. Lastly, the centers are providing access to opportunities to increase social support networks.

Planning for a new FSC certification began in June 2018 and was implemented in 2019. The existing FSCs applied and received final certification approval in 2021. Since that time two additional FSCs have completed the certification process. There are two new family service programs, Korean Community Service Center (South County) and The Clear Water School (South County), that received ARPA funds to support capacity building and are expected to complete the certification process in 2024-2025. The certification process includes: Threshold eligibility review for minimum requirements; review of 25 FSC quality standards in five sections (Family Centeredness, Family Strengthening, Embracing Diversity, Community Building, and Evaluation); site visits to review the applicant's ability to meet standards, a Certification Review Committee to make recommendations for certification and the final approval. The request for support includes the FSCs that have completed and those expected to complete and receive certification by the end of 2024 to be eligible to receive FSC funding.

Funding from Snohomish County establishes the base funding by paying for space (rent, utilities, phone, etc.), general operating costs (postage, supplies, childcare, etc.), and staff salaries (program coordinator, etc.) in eight FSCs throughout the County, including: Sky Valley Community Resource Center; Stanwood Camano Community Resource Center; Everett Community Resource Center; Darrington Family Community Resource Center; Arlington Community Resource Center, Monroe Take the Next Step, Lake Stevens Community Resource Center, and Marysville LINC NW.

The FSCs continue to play a critical focal point for community members during an emergency or disaster. Their support during COVID-19 and the subsequent recovery have been instrumental in ensuring that community residents have access to accurate information, financial support, basic needs referrals, and community connections to foster stability and resiliency. They provide a safe haven for families and individuals seeking assistance and support and they provide space for other service providers to offer assistance to those in need. This demonstrates both the need and success of having FSCs embedded in communities to meet the everyday needs of families and to be a hub for times of great stress that communities might experience.

The County helped to establish these centers to decentralize services from the urban core in Everett and along the I-5 corridor to foster a stronger sense of "community" locally. Family Support Centers bring services to the community. They are especially helpful in rural areas where transportation is a significant barrier to services. FSCs are guided by ten principles that direct centers to be responsive to community needs, inclusive to all members, and dedicated to reducing barriers to service access, such as no income or other eligibility criteria. Community members can access services without being categorized or labeled.

Division: 002 - Children's Services

Department: Human Services

Program: 0004-002-124-124-193 - ECEAP Administration

Program Description:

The Human Services Department administers the Early Childhood Education and Assistance Program (ECEAP) in Snohomish County by providing grants management services, program development and administration, organization and support of the Policy and Advisory Council and the Health Advisory Committee, and coordination with the primary funding source, the Department of Children, Youth and Families, for at least 1,587 early childhood slots.

Goals and Objectives:

- To provide education and family support services to at least 1,500 ECEAP children and their families
- To ensure that 80% of ECEAP children participating in services for at least six-months demonstrate increased or on-target social-emotional skills per widely held expectations related to early learning development
- To ensure that 90% of ECEAP children complete medical exams
- To ensure that 90% of ECEAP children complete dental screenings
- To ensure that families receive a minimum of three (3) parent-teacher conferences and three (3) family support visits
- To increase the number of families participating in program strategic planning and implementation

Division: 002 - Children's Services

Department: Human Services

Program: 0004-002-124-124-197 - Early Head Start Admin

Program Description:

The Human Services Department administers the Early Head Start (EHS) program in Snohomish County by providing grants management services, program development, program administration, staff training, and organization and support of the Policy Council and the Governance Advisory Committee. The Human Services Department administers the EHS program in coordination with the funding source, the Office of Head Start in the Department of Health and Human Services, for 82 EHS slots.

Goals and Objectives:

- To serve, at a minimum, 82 EHS children and their families including 10 or more pregnant people;
- To ensure that 85%% of weekly home visits are completed;
- To ensure that the Head Start Performance Standards are implemented and monitored according to federal regulations.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 124/ 124 - Human Services Fund

Division: 002 - Children's Services

Department: Human Services

Program: 0004-002-124-124-198 - Early Head Start Ops

Program Description:

Early Head Start provides home-based, family-centered services for low-income families with children age birth to 3 years, and for low-income pregnant women. Program services promote healthy child development through strong, positive, parent-child relationships. Services also support families to increase economic stability and well-being. The program serves at least 82 pregnant women, infants, toddlers, and their families in all Snohomish County communities.

Goals and Objectives:

- Improve the children’s health and nutrition, including medical and dental;
- Support the physical, social-emotional, cognitive, and language development of each child;
- Support pregnant people to have safe and healthy pregnancies and deliveries;
- Support increased parent/caregiver understanding of their child’s development;
- Support the development of strong, healthy, parent-child relationships;
- Strengthen program services and processes to foster increased equitable services for children, families, and staff;
- Support parents/caregivers to increase their capacity to advocate on their child’s behalf;
- Partner with families to access and utilize community services and resources;
- Provide coaching to assist families to assess strengths and areas for growth and to identify and achieve SMARTE goals towards increased economic stability and well-being;
- Connect families with children who have suspected disabilities to early intervention services and assist parents/caregivers of children with disabilities to understand their child’s special needs and interests and to fully access and utilize related community supports;
- Facilitate parents’/caregivers’ role as the first and best teacher of their child; and
- Collect and evaluate assessment data related to children’s development and family well-being to determine program goals and services.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 124/ 124 - Human Services Fund

Division: 003 - Aging

Department: Human Services

Program: 0004-003-124-124-511 - Aging Administration

Program Description:

As the designated Area Agency on Aging (AAA), the mission of the Snohomish County Aging & Disability Services (ADS) Division is to provide community leadership on issues related to aging. ADS has two work units: The Title XIX Case Management (CM) program and the Long-Term Care & Aging (LTCA) Unit. LTCA plans, coordinates, and advocates for the development and delivery of a wide range of services that help older adults and adults with disabilities maximize their independence in the living environment of their choice throughout Snohomish County. This is accomplished by:

- Collaborating with provider agencies, local governments, and businesses to plan for the changing demographics of our community;
- Advocating, monitoring, evaluating, educating, and commenting about policies, programs, and other community actions that impact older adults and adults with disabilities;
- Targeted efforts to best serve the most economically, socially, and physically vulnerable members of our community;
- Providing support to unpaid caregivers and assisting them in sustaining their caregiving efforts;
- Maintaining an emphasis on minority, marginalized, and underserved populations; and
- Assisting adults with functional impairments in accessing, obtaining, and effectively using necessary services which will enable them to maintain the highest level of independence in the least restrictive setting and avoid or delay institutionalization.

ADS supports the Department outcome to enhance services that help older adults and individuals with disabilities function independently. Goals and Objectives:

- Implement the 2024-2027 Area Plan.
- Provide staff support to the Council on Aging as they advocate their legislative priorities to the State Legislature and to Congress. Mandated by the Older Americans Act, the role of the all-volunteer member COA is to advise the AAA relative to the development of the area plan, the administration of the plan, and operations conducted under the Area Plan.
- Support the development and/or enhancement of a network of services to assist unpaid family caregivers.
- Assist one-half to two-thirds of the 171,000 Snohomish County residents age 60+.
- Manage over 100 service contracts with community-based agencies which directly serve over 65,000 older adults to access services to maintain their independence.
- Implement the Medicaid Transformation Project (MTP) which provides supports to help keep individuals in their home and prevent or delay a need for a higher level of care. MTP also provides supports to unpaid family caregivers so they can continue their caregiving and focus on their own wellbeing.
- Implement the Hospital Care Transitions Program which supports patients aged 55 and older, discharge home from the hospital throughout Snohomish County. The goals of the program are to help patients successfully transition from hospital to home, increase community resource access, and reduce hospital readmissions.
- Snohomish County ARP Act funds were awarded to Homage Senior Services to provide short-term counseling services, supplement congregate meals, and fund a Black Community Outreach worker. ARP funds were also used to contract with area senior centers to implement programs to reduce social isolation.
- Implement Kinship Support Programs which offers information, referral, and follow-up services to relatives raising kin-children to link them to the services that they or the children need. Kinship Caregiver program also provides limited, financial support to kinship caregivers.
- Implement WA Cares Outreach and support launch of WA Cares in Snohomish County.
- Support countywide Family Caregiver Support Program (FCSP) contracted client services programs and goods and services referrals.

Fund/Subfund: 124/ 124 - Human Services Fund

Division: 003 - Aging

Department: Human Services

Program: 0004-003-124-124-520 - Aging Services Programs

Program Description:

This program accounts for those programs funded with County General Revenues and subcontracted to local service providers, including:

- Snohomish County Aging and Disabilities Network (ADRN) – a subcontracted service and the publicly recognized access point for individuals with disabilities or chronic illness into the aging and disability services network in Snohomish County;
- Adult Day Care/Health (ADC/H) – an inclusive, structured group program that provides a variety of health, social and related support services to eligible older adults and developmentally disabled adults who do not require 24-hour institutional care, and yet are not capable of full-time independent living;
- Home Delivered Meals (HDM) – provides nutritious meals and other nutrition services such as nutrition counseling and education to older persons who are homebound by reason of illness, an incapacitating disability, or are otherwise isolated and are unable to prepare a nutritious meal on their own;
- Retired Senior Volunteer Program (RSVP) – provides meaningful opportunities for volunteers age 55 and over to serve in public or private non-profit organizations on a regular basis;
- Geriatric Depression Screening – provides outreach and early intervention, education, health screening, and advocacy for non-institutionalized, Snohomish County residents sixty (60) years of age and older; and
- Senior Centers Contracts – provide limited funding to support operations of senior centers in Snohomish County.

Program: 0004-003-124-124-541 -
Transportation

Program Description:

Transportation Assistance Program (TAP) is a subcontracted service that provides rural para-transit services to qualified older adults and people with disabilities within Snohomish County who are not served by Everett Para Transit or Community Transit DART Paratransit service. TAP provides transportation for qualified persons between their homes and social services, medical appointments, places of employment, essential shopping, recreation, and transfers to Everett Para Transit or Community Transit DART service. Snohomish County has participated in TAP since 1992. Funding comes from the County Roads Fund, which is used as matching funds for federal and state grants obtained by Homage Senior Services. Management of this program was transferred from Public Works to the Human Services Department in 2007. TAP continues to operate 6 routes, with the buses usually filled to capacity and many repeat riders relying regularly on the program to reach critical appointments. TAP continued to operate as described through the pandemic, however the program experienced reduced ridership. TAP helped to supplement drivers for existing meal delivery programs. In 2023, TAP was contracted to provide approximately 10,000 one-way passenger trips and 5,000 hours of service to eligible persons to places of employment, medical services, shopping, school, recreation, and similar activities. Homage is currently contracted for TAP.

TAP Outreach provides information about travel options to special needs groups (e.g. older adults, people with disabilities, and low-income individuals) on all aspects of trip planning and travel instruction, including the use of public transit, TAP, Pay Your Pal, ORCA card use, obtaining reduced fare permits, and other vital transportation information that will assist the target population in traveling safely throughout the region and between modes of transportation. This Contract with Snohomish County provides local match funds to fulfill the grant requirements for TAP Outreach to receive funding from the Puget Sound Regional Council (PSRC). For 2023, TAP Outreach was contracted to provide at least fifteen (15) presentations attended by at least one hundred (100) new unduplicated individuals.

Ethnic Meal Site Transportation, now called "Multicultural Meal Site Transportation," is a subcontracted service that provides point-to-point transportation services for minority elders from their homes to ethnic meal sites. The meal sites are open to any person aged 60 and older and serve ethnically appropriate meals. Transportation is contracted for delivery at least four days per week. The meal sites operate under the same conditions and specifications as the other congregate meal sites. For 2023, 3,000 one-way trips were contracted. Homage is currently contracted for Multicultural Meal Site Transportation.

Pay Your Pal is a subcontracted service which provides mileage reimbursement to volunteer drivers for people who live in urban or rural areas and have a disability which prevents them from driving themselves or taking public transportation. Eligible clients must live outside the 3/4-mile corridor served by public paratransit agencies as established by the Americans with Disabilities Act (ADA). Reimbursement is provided only for trips to work, school, training, and medical appointments, and is based upon an Individual Transportation Plan that specifies approved destinations and miles allowed. Pay Your Pal clients are responsible for recruiting their own volunteer driver and vehicle. Pay Your Pal provides over 935 trips annually. Homage is currently contracted for the Pay Your Pal program.

Goals and Objectives:

- Optimize funding to maximize passenger trips.

Program Detail

Fund/Subfund: 124/ 124 - Human Services Fund

Division: 003 - Aging

Department: Human Services

Program: 0004-003-124-124-543 - Case Management

Program Description:

The Case Management Program maintains and enhances the ability of approximately 4,350 low-income adults to live independently in spite of disabling illness or injuries. Individuals who would otherwise require placement in a care facility can safely have their care needs met while remaining in their own homes. Quality of life is improved, and the cost of Medicaid funded long term care is reduced. Program data consistently shows that far less than one percent of Case Management clients (approximately 2 out of every 1,000 individuals) who receive services are placed in a Nursing Facility, a high level of success. Keeping people at home for as long as possible not only honors the residential setting preferred by most Americans aged 45 and older (as noted by research performed by AARP) it is also fiscally responsible.

As the general population ages, the need for aging-related programs and services will expand dramatically. As of April 1, 2023, there were an estimated 189,471 persons aged 60 and over in Snohomish County. Currently, those age 60+ comprise 21.8% of the Snohomish County population. In 2025, it is anticipated that 22% of the population (207,492) will be age 60 and over. The proportion of the population 60 and older is anticipated to grow to 28.1% by 2040. As the need for long term care services increases with an aging population, safe and effective in-home care options will cost taxpayers far less than the alternative – nursing home care

Goals and Objectives:

- 58 Case Managers and 3 Registered Nurses make home visits and phone calls to assess care needs and determine eligibility for in-home services for approximately 4,350 older and disabled Snohomish County residents; 21 Case Managers are bilingual and able to communicate with clients in 14 languages including Amharic, Arabic, Cambodian, Farsi, German, Ilocano, Japanese, Korean, Russian, Spanish, Swahili, Tagalog, Ukrainian, and Vietnamese.
- Individual plans of care are implemented, authorized and monitored, including Medicaid funded personal care services like bathing, toileting and assistance with medication administration as well as a broad array of community-based services like home delivered meals, wheelchair ramps, essential medical supplies and equipment, nutritional counseling, training in independent living skills, Adult Day Health services and a personal emergency response system.
- The program contracts with Consumer Directed of WA State to contract Independent Providers and Home Care provider agencies to support client choice and maintain a comprehensive network of community-based services.

Fund/Subfund: 124/ 124 - Human Services Fund

Division: 003 - Aging

Department: Human Services

Program: 0004-003-124-124-593 - Senior Center Operations

Program Description:

A senior center is a community facility where Snohomish County residents, aged 55 and over, come together for services and participate in activities that reflect their experience and interests, enhance their dignity, support their independence, and encourage involvement in and with the senior center and the community. Senior centers offer a gathering place and help reduce social isolation. While senior centers typically provide nutrition, recreation, social/educational services, unpaid caregiver supports, and comprehensive information and referral, many centers have programs such as fitness activities and internet training to meet the needs and interests of the new generation of seniors. Additionally, senior centers also offer helpful resources to older adults, offer the entire community with information on aging, provide training for professional and community leaders and students, and help in the development of innovative approaches to addressing aging issues.

While the COVID pandemic had notable impacts on senior centers, many senior centers contracted with the AAA are operating at pre-pandemic levels following the May 11, 2023, declaration of the end of the Federal COVID-19 Public Health Emergency (PHE). As of August 2023, Snohomish County Human Services Department (HSD) has active contracts with senior centers throughout Snohomish County, including:

- Carl Gipson Center (Everett);
- Cascade Senior Center (Darrington);
- Edmonds Senior Center;
- Lake Stevens Senior Center;
- Lynnwood Senior Center;
- Lincoln Hill Retirement Community (Stanwood);
- Marysville Senior Center;
- Mill Creek Senior Center (operated as a Northshore Senior Center satellite);
- Monroe Senior Center;
- Multicultural Senior Center (Lynnwood);
- Mukilteo Senior Center;
- Snohomish Senior Center; and
- Stillaguamish Senior Center (Arlington).

While most senior centers in Snohomish County choose to contract with the AAA, not all do, so the above list may not reflect every senior center in Snohomish County. There is also a large senior center located just south of the Snohomish County line in Bothell (Northshore Senior Center) serving a large population of Snohomish County residents. The Homage Multicultural Senior Center operates in Lynnwood serving Korean, Southeast Asian, Chinese, Filipino, and Hispanic elderly. A senior center located on the Tulalip Reservation serves Native American elders.

Program: 0004-004-124-124-118 - Community Information Line

Program Description:

North Sound 2-1-1 (formerly Community Information Line) provides information and referral services through a call center to citizens seeking social and human services. It also provides maintenance, quality control and retention of centralized data.

North Sound 2-1-1 links all aspects of our community (business, government, schools, libraries, and human services agencies) in the North Sound 2-1-1 data bank. This information is routinely updated to assure its accuracy. This service benefits everyone community-wide. As part of the national 2-1-1 network, information about available resources in other parts of the country is also available aiding family members across the country.

North Sound 2-1-1 is a designated participant in federal and state emergency response systems locally. It is the designated communication system for victims of a disaster to learn about FEMA services available and other critical services needed during the time of a disaster.

Funds are core funding for the North Sound 2-1-1 operated by Volunteers of America. This service was developed in response to requests from the county, the private sector, and social service agencies to maintain and manage accurate information about human services available in the county and region including but not limited to rent and mortgage assistance, mental and behavioral health assistance, substance abuse intervention and treatment and basic needs such as food, clothing and transportation. This funding has more value than monetary as it demonstrates local support thereby leveraging funds from the state, federal and grant sources.

Goals and Objectives:

- * Provide accurate and timely information to Snohomish County residents about community and human services resources.
- * Maintain a centralized data bank of accurate information on community resources that is accessible by telephone, through a printed document, or through the "Community Key," an on-site computer system.
- * Be an active affiliate of the regional and national 2-1-1 network to provide human service information and referral services in a time of personal need or during a disaster.
- * Provide referrals for Prevention Navigation and Housing Navigation.

Program: 0004-004-124-124-210 - Energy Administration

Program Description:

The Energy Assistance Program provides Snohomish County low-income households with resources to help heat and cool their homes. This program provides direct support to clients, such as eligibility and benefits determination, outreach, information and referral, and informational materials about the Energy Assistance Program.

Goals and Objectives:

- In compliance with all federal, state, and local laws, provide heating fuel assistance and energy conservation education to the number of eligible low-income households specified in energy grants, an actual 7,188 total households were served by the three Energy Assistance Program components (LIHEAP, LIHWAP, PSE HELP LIP,) during the 2023/2024 season. These figures are the actual service rate from the Low-Income Home Energy Assistance Program (LIHEAP), Low-Income Household Water Assistance Program (LIHWAP), and PSE funding levels in 2023/2024. The new heating season begins October 2024 for LIHEAP, SHEAP (State Home Energy Assistance Program), and PSE HELP LIP and is expected to run through September 30, 2025 for LIHEAP, PSE HELP LIP, and SHEAP, which is a new 2024 state-funded program.
- The LIHEAP funding also provides homeowners with furnace repairs or replacements, as needed.
- The LIHEAP funding also provides Crisis Assistance for families with a past due balances/arrearages.
- The LIHEAP funding also provides portable air conditioners for families who need them.

Calculation:

4,035 for LIHEAP, 2,467 for PSE LIP, 28 for LIHWAP, 11 OES Furnace Repairs, 647 OES Air Conditioners, . 7,188 total.

Program: 0004-004-124-124-360 - Veterans Relief

Program Description:

RCW 73.08 mandates that counties establish a Veterans Assistance Fund to aid indigent and low income Veterans. This program fulfills this requirement through the provision of emergency vouchers for rent, food, utilities, transportation, medical and burial to indigent Veterans and their eligible family members annually as well as housing resources. The program also provides outreach and referral activities to community services in Snohomish County. Staff are on target to provide approximately 12,000 Veterans Service Officer sessions in 2024.

Goals and Objectives:

- To provide effective emergency assistance, advocacy, information and/or referral to all eligible Snohomish County Veterans.
- Partner in providing housing services and support for homeless veterans and veterans at imminent risk of homelessness.
- To assist Veterans in receiving State and Federal benefits to which they are entitled by filing VA claims for individual veterans who reside in Snohomish County.
- Provide specialized Veterans Service Officer services to Snohomish County Veterans.
- Spearhead a coordinated system of care for Snohomish County Veterans.

Program: 0004-005-124-124-411 - Behavioral Health

Program Description:

The Behavioral Health unit provides leadership to the community in establishing responsive and appropriate behavioral health services to individuals with major mental illnesses, substance use disorders, and to persons in crisis. The unit administers and monitors contracts with community behavioral health providers and coordinates with the North Sound Behavioral Health Administrative Services Organization (North Sound BH-ASO). This unit is responsible for planning and community organizing to ensure that areas of unmet need are addressed as well as providing some direct services. The unit employs staff who administer various behavioral health programs as well as staff who provide direct behavioral health related services to our citizens most in need.

Goals and Objectives:

- Initiate system improvements through contracts and amendments.
- Coordinate processes related to the development of community behavioral health programs.
- Represent Snohomish County interests in regional planning/contracting efforts.
- Coordinate processes related to 1/10th of 1% Sales Tax.
- Collaborate with judicial partners including Corrections and local law enforcement agencies.
- Provide direct behavioral health services

Program: 0004-005-124-124-471 - Involuntary Treatment Admin

Program Description:

The Behavioral Health Involuntary Treatment Program implements and coordinates the administration of the Behavioral Health Involuntary Treatment State law for adults, RCW 71.05 and for juveniles, RCW 71.34. Individuals who suffer from an acute behavioral health disorder and, as a result, present as an imminent danger to self, others, property or are gravely disabled may be involuntarily admitted to a psychiatric evaluation and treatment facility or secured detox program. Effective July 2019, this program also provides voluntary crisis outreach services. Both programs operate 24/7. A case coordination component was added in June 2023.

Goals and Objectives:

* Comply with state law in the administration of involuntary treatment services for individuals experiencing a behavioral health crisis and provide voluntary crisis outreach services for individuals able to benefit from a less restrictive alternative than detention.

* Provide prompt evaluations determining if voluntary or involuntary services are most appropriate and then linking individuals suffering from mental illness or substance use disorder to treatment while protecting public safety.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 124/ 124 - Human Services Fund

Division: 005 - Mental Health/Dev Dis

Department: Human Services

Program: 0004-005-124-124-472 - Resource Management

Program Description:

The Quality and Resource Management Program advocates for mental health services for persons with serious behavioral health issues. Behavioral Health Community Support Specialists provide various services in our community: they provide linkages between jails and community-based treatment for adults and youth, they work in our community educating and assisting individuals in accessing care. The Social Services Workers are embedded with Monroe and Arlington Police Departments, Community Transit, and Snohomish County's Sheriff's Office, Office of Neighborhoods, assisting homeless individuals in accessing behavioral health services as well as working with community entities who are also committed to working with persons who are unsheltered and have behavioral health needs.

Goals and Objectives:

- Provide transition services for incarcerated individuals with severe mental illnesses.
- Connect with homeless individuals with behavioral health issues and work to connect them to community-based or residential treatment services followed by sustainable housing.
- Reduce the number of individuals with serious mental illness from further involvement with the criminal justice system.
- Assure that individuals are able to access their mental health and substance use disorder benefits through their insurance provider.

These goals and objectives support the Department outcomes to:

- Sustain people with major mental illness and other behavioral health issues in the community close to their homes.
- Support residents who have behavioral health issues, and who may be experiencing homelessness, in accessing services and finding housing,

Division: 005 - Mental Health/Dev Dis

Department: Human Services

Program: 0004-005-124-124-811 - Dev Dis Program Admin

Program Description:

It is the mission of Developmental Disabilities to administer, coordinate, plan and contract for services for children and adults with developmental disabilities in Snohomish County.

Goals and Objectives of the Program:

- To develop and implement programs and contracts that provide direct services and support for approximately 2,000 individuals with developmental disabilities, following the direction established by a community planning process.
- To implement and coordinate employment support services for approximately 900 adults age twenty-one and older, to access community based employment and community inclusion providing individuals increased access to their community.
- To support individuals in their transition to community work/life and connect to community resources for up to 100 graduates from local special education high school programs.
- To support implementation of critical early support services for approximately 3,010 children per year from birth to three years of age that have developmental delays, and their families.
- To establish community action grants that support positive change and access to information for individuals with developmental disabilities and their families guided by the community plan and regular community forums.
- To develop, implement, support and monitor for success approximately 30 subcontractors who utilize county/state/federal funds to facilitate successful community inclusion and employment for adults, critical early support services for children with developmental disabilities, information and education efforts and support to their families as the primary caregivers.
- To develop and implement a comprehensive information and education initiative as a service to the community at large, including families, school districts, businesses and other civic groups.
- To provide ongoing support and leadership to community planning, resource development, and other activities through the Citizen Advisory Board for Developmental Disabilities.

These goals and objectives support the Department outcome to:

- Develop and promote inclusive communities and equitable systems in which individuals with developmental disabilities can fully access, contribute, and participate in their community

Division: 005 - Mental Health/Dev Dis

Department: Human Services

Program: 0004-005-124-124-851 - Infant Toddler Early Intervent

Program Description:

The Developmental Disabilities program is the designated County Lead Agency (CLA) for the state's Early Support for Infants and Toddlers Program (ESIT), funded by the federal Individuals with Disabilities Education Act (IDEA). This federal grant program assists states in operating a comprehensive program for early support services for infants and toddlers with disabilities, from birth to age 3 years old.

Goals and Objectives of the Program:

- Provide leadership and assure that local early support services are coordinated in a manner that meets the developmental needs of each eligible child and the needs of the family related to enhancing each child's development.
- To implement and coordinate critical early support services for approximately 3,010 children per year from birth to three years of age that have developmental delays, and their families.
- Identify, account for, and coordinate all state and federal Part C (IDEA) funds on behalf of eligible children and families.
- Develop formal working agreements and partnerships with all early support providers and local school districts, on behalf of the eligible children and families.
- Assure that each child/family is linked to a Family Resources Coordinator (FRC) and has an Individual Family Services Plan (IFSP) that identifies and arranges for the services needed by each child.
- Assure the formal transition of the child/family to their local school district at age three, through a formal transition plan at least 90 days prior to the child's 3rd birthday.
- Assure that services are family centered and are delivered in natural environments, by providing training and technical assistance as needed.
- Assure community and family involvement in the design of the local service system through regular public meetings of the local Family Interagency Coordinating Council (Family ICC).
- Strengthen program services, environments, and systems to foster increased equitable services for children, families and staff.

These goals and objectives support the Department outcome to:

- Increase the capacity of individuals with developmental disabilities and their families to receive the supports needed and be able to access services and their community

Program Detail

Fund/Subfund: 124/ 004 - Affordable Housing Trust **Division:** 007 - Housing & Homeless Services

Department: Human Services **Program:** 0004-007-124-004-462 - Housing, Homeless Services

Program Description:

The Division of Housing and Community Services' Office of Housing and Community Development (OHCD) and Office of Community and Homeless Services (OCHS) manage locally generated funds, which are administered by the County. These funds are used for the development of affordable housing, and maintenance and operation of shelters and affordable rental housing for low to moderate income households, and housing and services for those experiencing or at-risk of homelessness. The funds are authorized under State law and have required uses to promote affordable housing production, maintaining or operating affordable housing or shelter, and activities to reduce homelessness. OHCD/OCHS administer these funds under the Affordable Housing Trust Fund (AHTF) and Ending Homelessness Program (EHP). Most of these funds are passed through to community based organizations which engage in specific projects to further the goals of each funding source. In addition, AHTF and EHP funds leverage other federal and state dollars.

Goals and Objectives:

- Increase and optimize Self-Sufficiency through financially supporting capital projects, operating and maintenance activities, and supportive services for low-moderate income and homeless households.
- Strengthen and Support Families of low-moderate income households by providing housing and service support from local funding sources.
- Enhance Our Physical Environment by use of funds carefully directed to key capital enhancement projects by use of local funds.
- Leverage other funds to Promote Community and Economic Development utilizing CDBG-CV funds by providing employment services; move people experiencing homelessness to shelter, temporary and permanent housing utilizing Continuum of Care and System Demonstration funding; and leverage federal and state funding to promote a range of services.
- Develop Healthy Communities by leveraging other funding and enhancing partnerships to support a network of resources, housing, and services.
- Increase Healthy Behaviors by leveraging local funding to establish services and linkages to services that promote access to mental health and substance abuse services and other services that promote well-being.

Program Detail

Fund/Subfund: 124/ 006 - Affdbl & Spprt Hsng Sales Tax **Division:** 007 - Housing & Homeless Services
Department: Human Services **Program:** 0004-007-124-006-463 - A&SH Sales Tax

Program Description:

Chapter 338, Laws of 2019 imposed a sales and use tax which is a tax credit to Snohomish County from a portion that would otherwise be collected or paid to the Department of Revenue. The funds may be used for acquisition, rehabilitation, or construction of new units of affordable housing or supportive housing and funding the operations and maintenance costs of new units of affordable or supportive housing. Snohomish County Ordinance 19-062 created the Affordable and Supportive Housing (A&SH) Sales Tax Credit Fund and added Chapter 4.122 to SCC. In the 2023 Legislative session, the Legislature passed SSB 5604 which expands the eligible use of these funds to include rental assistance. Revenues collected are deposited into the affordable housing and behavioral health program fund SCC 4.122. The Director of the Human Services Department is the fund manager.

Revenue for this fund started collecting in December 2019. Funds collected will be allocated consistent with the Snohomish County Housing Affordability Regional Task Force (HART) Plan published January 2020 or as amended. In 2019, the Snohomish County Executive created the HART to bring together elected leaders from cities and towns across the county. These leaders meet numerous times to assess needs for housing affordability and develop a plan to address the needs and challenges collaboratively and proactively.

The HART Action Plan is based on five framework goals:

- Promote greater housing growth and diversity of housing types and all levels of affordability and improve jobs/housing connection.
- Identify and preserve existing housing at risk of rapid rent escalation or redevelopment balancing this with the need for more density.
- Increase housing density on transit corridors and/or in job centers, while also working to create additional housing across the entire county.
- Implement outreach and education program for use countywide and by individual jurisdictions to raise awareness of housing affordability challenges and support for action.
- Track progress and support ongoing regional collaborations.

The Affordable Housing and Behavioral Health (AHBH) Capital Fund Plan includes 1406 funding. The plan includes the framework and productions goals for use of A&SH funds and 1590 sales tax funding.

The A&SH Sales Tax, anticipated to leverage other federal, state, or local funds, will support implementation of the HART and AHBH Capital Fund Plan. Given that the eligibility criteria for the use of these funds closely aligns with the criteria for the use of Affordable Housing & Behavioral Health Sales Tax funds under SCC 4.126 with relation to affordable housing, we are integrating both sets of funds into a single business plan.

The first AHBH funding round started in 2024. It is anticipated that most awarded projects will have development activities underway in 2025.

Program Detail

Fund/Subfund: 124/ 009 - Afford. Hsing. & BH Sales Tax **Division:** 007 - Housing & Homeless Services
Department: Human Services **Program:** 0004-007-124-009-465 - Afford
Hsing & BH Program

Program Description:

Chapter 220, Laws of 2020 allowed councilmanic action to impose a sales and use tax of up to one-tenth of one percent for affordable housing and behavioral health facilities and related services. On December 16, 2021, the Snohomish County Council passed Ordinance 21-098 authorizing a sales and use tax for affordable housing, behavioral health facilities, related services and providing for administration of the tax and added to Title 4 of the Snohomish County Code a new chapter, 4.126. In the 2021 Legislative session, the Legislature passed ESHB 1070 which clarified that affordable housing includes emergency, transitional, and supportive housing. Revenues collected are deposited into the affordable housing and behavioral health program fund SCC 4.126.040. The Director of the Human Services Department is the fund manager.

The funds may be used for construction and acquisition of affordable housing including emergency, transitional, and supportive housing; facilities providing housing related services; acquiring land for these purposes; construction or acquisition of behavioral health related facilities or land for that purpose; and funding operations and maintenance costs of new affordable housing, facilities for housing related services, and newly constructed evaluation and treatment centers.

Revenue for this fund started collecting in April 2022. Funds collected will be allocated consistent with the Snohomish County 1590 Business Plan. A draft 1590 Business Plan was developed in November 2021 addressing challenges identified by local elected officials and goals/strategies identified by the Housing Affordability Regional Task Force (HART) Plan and the North Sound Behavioral Health Administrative Services Organization (NSBH-ASO). A final 1590 Business Plan, the Affordable Housing and Behavioral Health (AHBH) Capital Fund Plan was approved by County Council December 13, 2023. The final plan included a summary of and reflects feedback collected from HART and various community partners, residents, and elected officials.

The Strategic Commitments outlined in the Snohomish County AHBH Capital Fund Plan include:

- Data-informed iterative use of quantitative data, including feedback from people with lived experience, to drive investments
- Fiscal responsibility in use of funds in conformance with HB 1590 requirements while maximizing the leverage of other resources and existing plans
- Equitability in investment in strategies that address disproportionality by race, ethnicity, and among individuals living with mental illness, families with children experiencing homelessness, veterans, unaccompanied homeless youth, seniors, survivors of domestic violence, and persons with disabilities
- Transparency and accountability in reporting on investments and outcomes in a clear and accountable manner to elected officials, community partners, and the individuals most impacted by these investments in Snohomish County
- Sustainability in achieving lasting impact and enhancing future resilience of individuals, families, neighborhoods, jurisdictions, and our county as a whole.

The 1590 tax, anticipated to leverage other federal, state, and local funds, will support implementation of the HART and the NSBH-ASO plans as well as the strategic commitments of the Snohomish County AHBH Capital Fund Plan. Given that the eligibility criteria for the use of these funds closely aligns with the criteria for the use of Affordable and Supportive Housing Sales Tax funds under SCC 4.122 with relation to affordable housing, we have integrated both sets of funds into the final Plan.

The first AHBH Capital Fund application round is occurring in 2024 with the first awards expected in September/October 2024. It is anticipated that these initial projects will be under development in 2025.

Fund/Subfund: 124/ 009 - Afford. Hsing. & BH Sales Tax **Division:** 007 - Housing & Homeless Services
Department: Human Services **Program:** 0004-007-124-009-467 - Behavioral Health

Program Description:

The Behavioral Health unit provides leadership to the community in establishing responsive and appropriate behavioral health services to individuals with major mental illnesses, substance use disorders, and to persons in crisis. The unit administers and monitors contracts with community behavioral health providers and coordinates with the North Sound Behavioral Health Administrative Services Organization (North Sound BH-ASO). This unit is responsible for planning and community organizing to ensure that areas of unmet need are addressed as well as providing some direct services. The unit employs staff who administer various behavioral health programs as well as staff who provide direct behavioral health related services to our citizens most in need.

Goals and Objectives:

- * Initiate system improvements through contracts and amendments.
- * Coordinate processes related to the development of community behavioral health programs.
- * Represent Snohomish County interests in regional planning/contracting efforts.
- * Coordinate processes related to the implementation of the 1/10th of 1% Sales Tax and subsequent programs.
- * Collaborate with judicial partners including Corrections and local law enforcement agencies.
- * Provide direct behavioral health services.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 124/ 124 - Human Services Fund

Division: 007 - Housing & Homeless Services

Department: Human Services

Program: 0004-007-124-124-461 - Housing, Homeless, Comm Dev

Program Description:

The Housing and Community Services (HCS) Division manages federal, state, and local funds for: development, operations/maintenance of affordable housing, rental assistance, supportive services for homeless and lower income households, and public facilities/infrastructure projects in low-mod income neighborhoods. Most funds are passed through to community-based organizations or local municipalities. This program represents the internal County costs associated with managing the funds in compliance with laws and regulations.

Approximately 10,600 households contacted the homeless response system to report homelessness or presented at an emergency shelter, transitional housing, or street outreach from July 2020 through June 2023. The system sheltered/housed 2,551 people in 1,690 households during PY 2022-2023; over 1,260 households accessed the homeless prevention system; and about 890 maintained permanent housing.

In PY 2022-2023: 6,908 people in 3,949 households contacted the Coordinated Entry System; 494 persons received outreach services; 1,769 people in 1,201 households received emergency shelter; 37 persons in 27 households received transitional housing; 779 persons in 537 households received rapid rehousing; 210 persons in 125 households received permanent supportive housing; and 125 persons in 40 households received permanent housing.

HCS developed a 5-Year Consolidated Plan to address housing, services, public infrastructure, and economic development for low-moderate income households and areas. HCS leads the local Continuum of Care (CoC) which addresses the needs for housing and homeless/homeless prevention services and worked with the CoC Board to develop and update the Homeless Prevention and Response System Strategic Plan in 2017 and 2019. Planning is underway for the 2025 Plan.

HCS enhanced Data and Analytics includes Tableau Dashboards. We experienced a notable increase in data being used to inform planning and continuous improvement in the homeless crisis response system.

HCS provides administrative/technical support to the CoC Board to integrate/sustain equity practices within the homelessness housing system and Board. HCS supported the creation of the Racial Equity Advisory Board (REAB) which provides recommendations/guidance to develop/sustain future equity strategies for housing/homeless services. REAB is developing equity targets for the CoC and creating a training plan to further equity and cultural humility. HCS completed an Equity Analysis in 2023 of the Homelessness Management Information System (HMIS) data. For CY2022, analysis showed that participants representing HUD racial categories reflected disparities. In CY's 2024/2025, HCS and the Board will begin to engage impacted communities, persons with lived expertise, and homeless housing and services providers to create a qualitative report to identify barriers and to assess equal access to services and resources.

HCS partners with the Housing Authority of Snohomish County (HASCO) and State Department of Children, Youth, and Families (DCYF) to implement the Family Unification Program (FUP); HASCO and Everett Housing Authority (EHA) to implement HUD Emergency Housing Vouchers; and HASCO and Veteran's Administration (VA) for VASH Voucher placements. HCS provides services for 50 families with FUP Vouchers.

In 2022, the Hope Options Program from EHA became HCS' Senior Housing Stability Program for seniors experiencing homelessness or housing instability.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 124/ 002 - 1/10% Sales Tax

Division: 009 - Chem Dependency/Mental Hlth Srvs

Department: Human Services

Program: 0004-009-124-002-900 - Human Serv Ops CD/MH Enhan Svs

Program Description:

This program provides for the operation or delivery of chemical dependency or/and mental health treatment and therapeutic court programs and services. RCW 82.14.460 authorizes counties to implement a one-tenth of one percent sales and use tax to support these services which includes, but is not limited to, treatment services, case management, and housing that are a component of a coordinated chemical dependency or mental health treatment program or service.

Goals and Objectives:

- Reduce the incidence and severity of chemical dependency and/or mental health disorders in adults and youth
- Reduce the number of individuals with chemical dependency and/or mental health disorders using costly interventions such as hospitals, emergency rooms or jails
- Diversion of adults and youth with chemical dependency and/or mental health disorders from initial or further involvement with the criminal justice system
- Support linkages with other county efforts
- Provide outreach to underserved populations
- Provide culturally appropriate service delivery

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 011 - CASA

Department: Human Services

Program: 0004-011-002-002-730 - CASA

Program Description:

The CASA Program has a statutory requirement under RCW 13.34 to provide best-interest advocacy for abused and neglected children who are the subject of dependency matters. At any given time in Snohomish County, there are approximately 600 children in the child welfare system in need of a court appointed special advocate (CASA).

Most children are fortunate to rely on their parents as their safety net. For abused and neglected children, however, their parents are not a resource, leaving these children further traumatized and silenced. The CASA Program fills the gap for our most vulnerable population in Snohomish County by recruiting, training, supporting and supervising a network of quality volunteer CASAs.

In accordance with RCW 13.34.105, when a CASA volunteer is appointed by a Superior Court judge to advocate for a child, the CASA is required to investigate, collect relevant information about the child's situation, and report to the court factual information regarding the best interests of the child. Judges rely on CASA volunteers to be their eyes and ears on a child's case to help them make informed decisions. CASA volunteers are appointed for the life of the case, an average of 15 months. The CASA is often the only stable, consistent person in the child's life and is often the glue that connects the pieces in a complicated child welfare system.

The CASA Program is central to fulfilling society's most fundamental obligation by making sure a qualified, compassionate adult will fight for and protect a child's right to be safe, to be treated with dignity and respect, and to learn and grow in the security of a loving family. The CASA volunteer can make a tremendous difference in the life of a child and the CASA Program is in place to ensure volunteers are well supported, supervised and trained throughout the process.

Our vision is to grow and diversify the program and volunteer network so that every child who needs a CASA will have one and that no child's voice will be left unheard. We currently have 140 children waiting for our vision to become a reality

Division: 511 - Land Development

Department: Planning

Program: 0005-511-193-193-511 - Business Process & Development

Program Description:

The Technology program tracks the collection and use of funds collected through technology fees. Technology fees were authorized in 2009 under SCC 30.86.030 and provide the funds necessary for the department to invest in needed technological projects. Over the past five years, PDS has been focused on upgrading and enhancing the PDS permit tracking system (AMANDA) and implementing an Electronic Content Management System. In 2021-2023, the technology team continued to focus on process improvements and technology enhancements to existing systems. PDS has begun a comprehensive analysis of its entire permit processing technology systems with a focus on streamlining the process from beginning to end and examining whether the department can improve it's front-end intake system.

Program: 0005-520-002-002-517 - County Fire Marshal

Program Description:

The Office of the County Fire Marshal program is responsible for ensuring fire and life safety and reducing the risk of fire loss in Snohomish County. The office conducts fire and arson investigations to determine responsibility in criminal and non-criminal fires. These investigations play a significant role in the deterrence of criminal behavior and promotion of fire safety. The office collaborates with various state and local jurisdictions, and assists with investigations for local fire and police departments when requested.

Fund/Subfund: 002/ 002 - General Fund

Division: 520 - Planning

Department: Planning

Program: 0005-520-002-002-520 - Long Range Planning

Program Description:

The Long Range Planning Division focuses on comprehensive planning for the unincorporated portions of Snohomish County in accordance with state mandates as well as involvement in major regional issues affecting local governments in the central Puget Sound area. Land use planning based on the State Growth Management Act (GMA) includes work both within the urban growth areas (UGAs) to accommodate current and future growth, and in the rural areas to preserve and protect agriculture, forest and resource lands. Two major roles of the Long Range Planning division are updating the Comprehensive Plan and the Unified Development Code (UDC). The Comprehensive Plan is the blueprint for promoting growth and economic development in the county while preserving valued natural resources and enhancing the quality of life in our communities. The UDC is the regulatory tool for implementing the Comprehensive Plan.

Program: 0005-520-002-002-521 - Code Enforcement

Program Description:

The Code Enforcement division enforces compliance with Snohomish County codes and other mandated regulations to ensure the health, safety and welfare of county citizens and the environment. The division receives and responds to notifications of non-compliance with codes and regulations. Issues addressed by this division include housing, dangerous buildings, homeless encampments, illegal businesses, protection and restoration of the natural environment, water quality, zoning, drainage, land disturbing activities and flood hazards. In addition to directly responding to reports of non-compliance, the division educates citizens, collaborates with relevant agencies and departments, and meets with complainants, violators and community groups.

Department: Planning **Program:** 0005-520-190-190-190 - Snohomish County Tomorrow

Program Description:

The Snohomish County Tomorrow program is a cooperative forum that involves the county, the cities, the towns, the Tulalip Tribes and community members in the resolution of growth management issues of countywide significance. The six technical and policy committees that make up SCT build agreement and implement a common vision for sustainable growth of the county and its infrastructure as well as protection of its natural resources. Funding for this program is provided through annual dues paid by the members (19 cities, the Tulalip Tribes and the county). PDS staff supports the six committees through managing meeting logistics, leading collaborative discussions and overseeing key projects.

Program Description:

The Permitting program processes permit and land use applications for unincorporated Snohomish County. The permitting process ensures that development is in compliance with state and local regulations, codes, and standards.

Staff process applications for large and small-scale developments, residential and commercial units, subdivisions, zoning, shorelines, right-of-way, and utility permits. Certain applications may also require the department to conduct site inspections, environmental and critical area reviews.

Staff also performs all functions related to county-wide commercial and residential building applications, including customer service, engineering and architectural plan review, as well as on-site building inspections during construction. Through these activities, the division promotes the health, safety and welfare of occupants and users of buildings and structures in unincorporated Snohomish County by ensuring regulatory compliance. The team reviews compliance with performance requirements and accepted standards for construction and construction materials as provided by the International Building, Residential, Mechanical, and Fire codes, as well as the Uniform Plumbing Code and the Washington State Energy code.

For the county's Comprehensive Annual Financial Report (CAFR), Permitting has two subcategories of costs that are tracked separately: Building Inspections and Fire Inspections.

Division: 401 - Solid Waste Administratio

Department: Public Works

Program: 0006-401-402-402-700 - Solid Waste Administratio

Program Description:

The Administration program provides overall direction, coordination, and leadership to the Solid Waste Management division, as well as office support services.

Goals & Objectives:

- * To provide division direction and support
- * To provide administrative services, equipment, and materials
- * To coordinate division efforts with other Public Works divisions, other County departments, the Executive Office, the County Council, Solid Waste Management customers, and the public
- * To assure the division provides efficient, convenient, and courteous service to County citizens and businesses
- * To assure that the division finances are prudently managed
- * To foster regional waste-handling and recycling coordination

Fund/Subfund: 402/ 402 - Solid Waste Management

Division: 404 - Solid Waste Operations

Department: Public Works

Program: 0006-404-402-402-704 - Solid Waste Operations

Program Description:

The Solid Waste Operations program provides environmentally safe disposal and diversion of all solid waste brought to Snohomish County waste handling facilities. This is accomplished through the safe and efficient operation of three urban transfer stations and three rural drop box facilities, all of which also offer a full complement of recycling services. Waste is received from both commercial and self-hauler customers, processed, and delivered to the rail yard in Everett via intermodal containers for rail transport to Republic's landfill in Roosevelt WA. The group must comply with the RCW and WAC as regulated by the Health District, and Department of Ecology's minimum functional standards.

Division: 407 - Environmental Services

Department: Public Works

Program: 0006-407-402-402-707 - Solid Waste Ess

Program Description:

The Solid Waste Environmental Services Section (ESS) operates the leachate pretreatment plant and landfill gas systems at closed landfills, and performs environmental monitoring and sampling at all solid waste facilities and closed landfills in accordance with local and state regulations. ESS also manages and treats water from the vector decant facility and the Cathcart Way Transfer Station. Additionally, staff operates pretreatment facilities at each of the three transfer stations to comply with permits issued by the local regulatory authorities.

Fund/Subfund: 402/ 402 - Solid Waste Management

Division: 408 - Vector Program

Department: Public Works

Program: 0006-408-402-402-708 - Vector Program

Program Description:

Private companies and public agencies perform storm water management, as required by law, with vector trucks that generate large quantities of liquid and solid material. The Solid Waste Management division recognized the need for proper management of vector wastes and constructed a facility at Cathcart for the decanting and proper handling of both the liquid and solid wastes from vector trucks.

The Vector program provides all maintenance and operation of the vector facility, including labor, equipment, utility charges, required testing of the vector waste, and disposal of the vector grit. These costs are reimbursed, in full, through a user fee paid by the companies and agencies that use the facility.

Department: Public Works **Program:** 0006-610-192-701-701 - Transportation Syst Impact Fee

Program Description:

Traffic impact mitigation fees are imposed as conditions of development approval, in accordance with the County's traffic mitigation ordinance, Chapter 30.66B SCC. Traffic impact mitigation proceeds are placed in interest-bearing accounts in the Traffic Mitigation Fund (Fund 192), where they are held until being transferred to the County Road Fund (Fund 102) to offset expenditures on eligible transportation improvement projects in the County's Annual Construction Program for Transportation (ACP) and its Six-Year Transportation Improvement Program (TIP).

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 102/ 102 - County Road

Division: 620 - Road Maintenance

Department: Public Works

Program: 0006-620-102-102-201 - RM Operations

Program Description:

The RM Operations program funds the Road Maintenance division's training and facilities elements.

The Division's Training element funds the training required by Law such as Defensive Driving, CPR, Flagger, confined space and equipment training; the mandatory Human Resource training required of all new temporary and regular employees; and the mandatory and discretionary training provided supervisory employees by Human Resources. The program funds the trainer who provides CPR, Defensive Driving, and similar classes for all County employees at no cost to them.

The Division's Facilities element funds all costs associated with running and maintaining the Division's primary maintenance yards at Arlington and Cathcart, and approximately a dozen minor yards such as Clearview and the Darrington properties which have facilities that are used periodically. This program element supports all of the utilities to operate the shops, funds minor and major repairs of the facilities, and maintenance of the buildings and the grounds.

Program: 0007-303-002-002-424 - Board of Equalization

Program Description:

The Office of Hearings Administration was created by the County Council through the adoption of Ordinance 13-043, effective January 1, 2014. It provides staff and administrative services to the Board of Equalization, as well as staff and administration for the Hearing Examiner and the Boundary Review Board. Chap. 2.02 SCC. State law establishes the Board of Equalization for Snohomish County. It is comprised of appointed citizen members who operate independently of the County Council and County Executive. The Board hears and decides appeals by property owners of: (1) property valuations set by the Assessor for tax assessment purposes; (2) classification of forest land, timber, and open space classifications; and (3) denials of senior citizen and disability exemptions and deferrals. Board of Equalization decisions are final unless appealed to the Washington State Board of Tax Appeals.

Fund/Subfund: 130/ 367 - Facilities-Weatherization

Division: 001 - Weatherization

Department: Conservation and Nat Resources

Program: 0009-001-130-367-220 -
Weatherization Administration

Program Description:

The Weatherization Program provides for the installation of comprehensive energy conservation measures into the homes of low-income Snohomish County residents. This program supports the administrative overhead expenses associated with the County's comprehensive Weatherization Program.

This program is supported by six funding sources: the Low-Income Home Energy Assistance Program (LIHEAP); the Bonneville Power Administration (BPA); the Department of Energy (DOE); Matchmaker Program funds from the Department of Commerce (COM), PUD Cash Matching funds, and PSE Low Income Weatherization funds.

Goals and Objectives:

* In compliance with all federal, state, and local laws, estimated to provide long-term energy conservation measures to an estimated 100 units will be completed in 2019/2020, pending receipt of adequate grant funds.

* Improve the quality of life for low-income residents by increasing energy efficiency, performing weatherization-related repairs and correcting health and safety hazards.

Weatherization Program Support

Program Description:

The Weatherization Program provides for the installation of comprehensive energy conservation measures into the homes of low-income Snohomish County residents. This program supports the direct program support expenses associated with the County's comprehensive Weatherization Program.

This program is supported by six funding sources: the Low-Income Home Energy Assistance Program (LIHEAP); the Bonneville Power Administration (BPA); the Department of Energy (DOE); Matchmaker Program funds from the Department of Commerce (COM), PUD Cash Matching funds, and PSE Low Income Weatherization funds.

Goals and Objectives:

* In compliance with all federal, state, and local laws, estimated to provide long-term energy conservation measures to an estimated 100 units will be completed in 2019/2020, pending receipt of adequate grant funds.

* Improve the quality of life for low-income residents by increasing energy efficiency, performing weatherization-related repairs and correcting health and safety hazards.

Division: 200 - Economic Development

Department: Conservation and Nat Resources

Program: 0009-200-100-011-441 - Historic Preservation

Program Description:

This program funds activities of the Historic Preservation Commission. The Commission is advisory to the County Council and has a mandate to serve as the Design Review Board for special valuation, a state tax incentive for rehabilitation of historic properties. It surveys and inventories historic resources, nominates properties to the local, state and national registers of historic places, reviews proposals, to modify historic register structures, and conducts educational public programming related to historic preservation and archaeological protection. The Commission also awards projects on a competitive basis to assist community heritage organizations in the areas of professional development, public education, capital and collections management.

Program Detail

Fund/Subfund: 415/ 415 - Surface Water Management **Division:** 357 - Surface Water Management
Department: Conservation and Nat Resources **Program:** 0009-357-415-415-511 - SWM Operations

Program Description:

Program 511 SWM Operations

Key components of Program 511 Surface Water Operations include the following sub programs:

- 1) Fiscal Services (Sub-program 001)
- 2) Program Planning (Sub-program 002)
- 3) Resource Monitoring (Sub-program 004)
- 4) Floodplain Services (Sub-program 005)

1) Fiscal Services (Sub-program 001)

Fiscal Services provides financial, administrative, and support services for all SWM programs. Services include budget development and financial analysis, billing and collection of utility service charges, grant preparation and administration, tracking of project expenditures, accounts payable, website and technology management, and support for the County's Savvy Septic program.

2) Program Planning (Sub-program 002)

Program Planning coordinates a variety of watershed planning and outreach efforts, including salmon recovery, water quality, floodplain management, shellfish protection, and marine resources. These efforts involve significant coordination with a broad range of partners, such as local and state government agencies, Non-Governmental Organizations (NGOs), tribal entities, and the general public. This sub-program provides staff to coordinate the Snohomish River Basin Salmon Recovery Forum, the Stillaguamish Watershed Council (SWC), the Sustainable Lands Strategy (SLS) Executive Committee, the Marine Resources Committee (MRC), and the Local Integration Organization (LIO) committees for the Snohomish and Stillaguamish watersheds. The program also provides education and outreach efforts designed for landowners and residents to learn and implement actions that protect water quality and habitat.

3) Resource Monitoring (Sub-program 004)

Resource Monitoring provides the scientific basis and support for actions and programs intended to protect and restore water quality and improve aquatic habitat. One aspect of the sub-program is to collect information so the public knows the health of nearby rivers, streams, and lakes. The water quality section focuses on NPDES permit compliance by monitoring streams and rivers to identify and eliminate illicit discharges to surface waters and the County's MS4. The water quality complaint investigation section investigates and resolves water pollution problems. The NPDES administration section provides the County advice on NPDES compliance and requirements. The habitat science section provides support to capital project development, salmon recovery planning and technical assistance to other County departments and residents on beaver-related problems. The lake management section includes citizen volunteer monitoring of lakes, screening for toxic algae, invasive aquatic weed control, and the LakeWise program, which promotes lake stewardship by lake watershed property owners. The gauging section operates and improves the County's real-time river and precipitation network, which informs flood forecasting and emergency response. This includes the County's online flood warning system.

4) Floodplain Services (Sub-program 005)

Floodplain Services implements capital and non-capital flood hazard and floodplain management projects. The sub-program encompasses a broad range of river-related activities, including dike and levee inspection and maintenance, support to diking and drainage districts, and coordination of flood response activities. The sub-program also includes development and updates of flood hazard management plans that identify structural and non-structural solutions to flooding problems. Capital projects include floodplain restoration and flood risk reduction projects. Floodplain Services runs a watershed steward program and manages a native plant nursery staffed by a WCC work crew. The sub-program also includes the Geographic Information Services (GIS) technical expertise, which provides advanced analysis for a wide variety of SWM programs.

The County's Noxious Weeds program is moving from Road Maintenance to SWM Operations in 2023.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 415/ 415 - Surface Water Management **Division:** 357 - Surface Water Management
Department: Conservation and Nat Resources **Program:** 0009-357-415-415-512 - SWM Maintenance

Program Description:

Program 512 SWM Maintenance

Key components of Program 512, Surface Water Maintenance, include the following sub programs:

- 1) Drainage System Management (Sub-program 006)
- 2) Drainage Rehabilitation/Investigations (Sub-program 007)

1) Drainage System Management (Sub-program 006)

The emphasis of Drainage System Management work is on inspection, maintenance, and repair of the engineered drainage systems that convey, treat, and manage stormwater runoff. A key aspect of the sub-program is to meet the requirements of the Western Washington Phase 1 Municipal Stormwater permit, which is mandated under the National Pollutant Discharge Elimination System (NPDES) section of the Federal Clean Water Act. Senior staff design, coordinate and implement projects, develop policies and procedures, assess risks and liabilities, forecast costs, prioritize services, and create surface water utility plans.

Drainage System Management is divided into three key workgroups: Drainage Inventory, Drainage Operations and Maintenance, and Pollution Source Control.

The Drainage Inventory workgroup includes field technicians and computer analysts who use high precision survey equipment and mapping software to collect and map drainage system inventory data, as required by the County's NPDES permit. These data provide critical spatial and qualitative information on the storm system and the watershed, such as flow directions of streams and conveyance systems, stormwater discharge locations, and treatment and flow control facilities. This information is necessary to perform stormwater operations and enables local and state agencies to respond to environmental emergencies such as a flooding and spills. The development community and the public also benefit from the publicly-available data.

The Drainage Operations and Maintenance workgroup consists of engineering technicians who regularly inspect and oversee the maintenance and repairs of drainage infrastructure within the county, both publicly and privately owned. Working in partnership with DPW Road Maintenance, this group is responsible to inspect all systems in the right-of-way and on SWM-managed tracts and easements, including over 1,000 public systems. The commercial and residential program includes ~1,400 private drainage systems, and requires providing technical assistance and communications to business owners, property management companies, and homeowners associations. Regular maintenance and repair of the engineered drainage system contributes to protecting the public from flooding and pollution, and helps the county meet NPDES stormwater permit obligations.

The Pollution Source Control workgroup consists of water quality planners who ensure water pollution controls are implemented at existing developed properties where commercial activities are performed that have a potential to pollute waterways. Focused on providing technical assistance to ensure code compliance, the group helps businesses, institutional, and industrial properties learn about their specific sources of pollution and required best management practices on controlling, preventing, and reducing pollution from entering local water bodies. Regular inspection helps ensure the county meets its source control NPDES stormwater permit obligations.

2) Drainage Rehabilitation/Investigations (Sub-program 007)

The emphasis of Drainage Rehabilitation/Investigations work is responding to requests from County residents and County departments for technical assistance with drainage problems. This work includes field investigations, analysis of individual drainage problems, coordination with Road Maintenance, and recommendations for solutions.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 415/ 415 - Surface Water Management **Division:** 357 - Surface Water Management
Department: Conservation and Nat Resources **Program:** 0009-357-415-415-513 - SWM Capital

Program Description:

Program 513 - SWM Capital

Key components of Program 513 Surface Water Capital include the following sub programs:

- 1) Stream and River Capital (Sub-Program 003)
- 2) Drainage and Water Quality Capital (Sub-Program 008)

1) Stream and River Capital (Sub-Program 003)

The Stream and River Capital sub-program includes river, sediment, and erosion control projects on large rivers, and feasibility analysis, design and construction of projects to restore or improve habitat and water quality in rivers and streams. This sub-program operates and maintains county-owned dikes and levees, and works with FEMA to mitigate future property losses through the acquisition, elevation, or relocation of risk-prone structures.

Habitat restoration capital efforts are focused on implementation of the County's Salmon Recovery Plans organized around WRIA 5 (Stillaguamish), WRIA 7 (Snohomish) and WRIA 8 (South County Lake Washington) and implementation of project recommendations from the Sustainable Lands Strategy (SLS) process. Restoration projects include large estuary projects designed to improve estuary habitat for salmon, such as Smith Island Restoration, and smaller restoration projects such as installing wood structures in the river system to provide habitat for fish. This program includes river assessments, which are used to understand river processes and to identify potential capital improvements for fish habitat and other floodplain goals.

2) Drainage and Water Quality Capital (Sub-Program 008)

The Drainage and Water Quality Capital sub-program provides engineering planning and analysis, project design, and project construction for drainage and water quality problems throughout the County. The projects include upsizing culverts or drainage systems, installing new drainage or infiltration systems to reduce road flooding, and retrofitting drainage and stormwater facilities to increase stormwater detention and/or improve water quality.

This sub-program has the following main components:

Drainage and Flooding Reduction projects:

These projects resolve neighborhood and basin-wide drainage and road flooding problems. The projects are developed from drainage complaints, referrals from other County departments and divisions, Master drainage plans, and other engineering studies.

Fish Passage Improvement projects:

This includes the development and implementation of a program to replace existing fish blockage culverts with systems that allow and encourage fish passage.

Master Drainage Planning, basin planning, and Water Quality Facility Planning:

This program includes analysis of specific geographic areas and preliminary design to resolve existing and predicted future drainage, water quality, and habitat problems

NPDES and water quality-focused projects:

These projects include new water quality treatment facilities and retrofitting of existing stormwater facilities to improve water quality and improve County drainage systems to reduce water quality problems.

Fund/Subfund: 130/ 368 - Energy Office Grants

Division: 801 - Energy Office

Department: Conservation and Nat Resources

Program: 0009-801-130-368-300 - Energy Office Grants

Program Description:

Urban Forest Grant: The county has made a public commitment to begin work on a Land Conservation Initiative in 2022. After a delay due to staffing shortages in 2022, the professional service consultant contract for this work was approved in mid-2023. In addition to the consultant planning, work on the Healthy Forest Program, a sub program within the LCI, has resulted in an increase in volunteer and park steward activity. Additional funding from the Urban Forest Grant will ensure that the Healthy Forest Program staff support is funded for the next 5 years, that the program supplies and other expenses can be met and that a consultant can be hired to assess the needs to implement the county's Evergreen Communities' designation.

Candidate Species Conservation Grant: Declining pollinator species presents a very real threat to human food sources. Work to support pollination species conservation is a natural fit for existing Office of Energy and Sustainability programs, like the Healthy Forest Program. With staffing support funded by combined grants, this additional funding will allow for the addition of a pollinator species conservation project in county parks enrolled in the Healthy Forest Program.

Youth Engagement and Employment Grant: Engaging and employment of youth county programs is essential to support future conservation efforts. Funding from this grant will provide training, supplies, outreach efforts and other work required to encourage and support young volunteers and interns for county conservation programs like the Healthy Forest Program.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 952 - Cooperative Ext Service

Department: Conservation and Nat Resources

Program: 0009-952-002-002-122 - Agriculture

Program Description:

WSU Extension is a three-way partnership between the U.S. Department of Agriculture, Washington State University and Snohomish County. Agriculture Extension provides non-credit, practical education and educational outreach to farmers and rural residents living in Snohomish County. Extension fosters community development and disseminates agricultural research and information to the entire County.

Extension connects local producers with resources from the land grant university system, state research stations, national, state and community organizations, and regional agriculture teams. Extension farm programs are designed to improve the sustainability of the Snohomish County crop and livestock industries by providing evidence-based science and research information, educating producers to enhance their knowledge and skills, increase production, reduce risk and enable profitable business practices while protecting farmland and our natural resources.

Workshops and courses educate new farmers on management basics while more advanced topics are offered for existing and experienced producers.

Examples of programming include:

- * Cultivating Success, focused on the knowledge and tools needed for success, helps train new and beginning farmers to start and expand small farms in the region.
- * Growing Groceries series, done in partnership with the Master Gardener, includes fifteen classes on the latest research-based practices for planting, growing, and harvest success for home and farm growers alike.
- * Preserving the Harvest, a series that includes workshops on canning, fermenting, and pickling to share research-based recipes and techniques with the public.
- * Other workshops offered on topics ranging from beekeeping, pasture management, livestock guardian dogs, tree fruit production, beaver management, and other topics selected based on public-expressed issues and needs.

Goals and Objectives:

- Goal 1 Provide farmers, ranchers, landowners, and home gardeners with the resources, services, and knowledge to be successful while protecting land, water quality, and natural resources.
- Goal 2 Partner with regional groups, agencies, and non-profits to expand programming reach and effectiveness.
- Goal 3 Bring essential food safety information to consumers and families through classes, events, and online resources.
- Goal 4 Answer queries from the public and farm personnel regarding anything from pest management and production techniques to marketing and business information.

The Master Gardener program focuses on providing science and research-based home horticulture education to home gardeners. In 2022, 300 trained volunteers donated over 20,673 hours of their time and technical expertise teaching the public. Through plant clinics, demonstration gardens, classes, and garden tours, our volunteers reached 9,039 residents in Snohomish County including 1,468 youth in 2022.

Our office clinic lab provides advanced diagnostics to help home gardeners properly identify pest and disease issues and provide science-based, environmentally sensitive advice on remediation options.

Master Gardener volunteers are required to complete annual continuing education to maintain their certification. Each year they are offered in-depth advanced diagnostics training.

The annual Growing Groceries ten-week class series focuses on teaching County residents how to sustainably grow healthy food.

Local partnerships with the County's Surface Water Management and Solid Waste Division, and the city of Everett have expanded our reach to include supporting their programs in Natural Yard Care, RainScaping, and proper disposal of household hazardous waste including pesticides and chemical fertilizers.

Snohomish County 2025 - 2026 Budget

Program Detail

We aim to contribute to healthy people and a healthy planet by focusing on the following 9 priorities: climate change, clean water, water conservation, soil health, pollinators, local food, plant biodiversity, nearby nature, and wildfire prepared

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 952 - Cooperative Ext Service

Department: Conservation and Nat Resources

Program: 0009-952-002-002-123 - Youth and Family

Program Description:

WSU Extension is an educational program within the Department of Conservation and Natural Resources that focuses on community issues. It is jointly funded by Washington State University and Snohomish County. Extension Educators, faculty of WSU, work together with County employees and community members in developing and implementing programs. To keep up with increasing service demands and to keep staffing costs in line, Extension continues to use trained volunteers to implement most programs.

The 4-H Youth Development programs provide prevention activities to assist young people in developing life and job skills in leadership, communications, decision-making and enhancing self-esteem. Nationally, the 4-H Youth Development Program utilizes an Essential Elements model that seeks to create positive places for youth (Belonging), assist youth to gain skills and knowledge (Mastery), create environments for youth to begin directing their own futures (Independence), and engage youth in service activities to foster a sense of giving back to their community (Generosity). Nearly three hundred (300) trained volunteers are engaged in mentoring youth and leading activities throughout the County (numbers based on 2021-2022 4-H year). Youth are engaged through 4-H clubs, in schools, at public events and in partnership with other youth serving organizations. Each year, between 1,300 and 2,000 youth participate in the 4-H Youth Development Program. WSU Extension, Snohomish County 4-H offers educational workshops for volunteers in areas such as volunteer administration, teaching experientially, mental health and suicide prevention, working with youth with special and unique needs, and facilitation of youth groups.

Recent initiatives this year include volunteer development opportunities in diversity and inclusion, working with neurodivergent youth and adults, providing genuine youth leadership experiences, and mental health and suicide prevention. Recent initiatives for youth include providing college and career readiness through workshops such as Google Apps and Public Speaking, and through internships at our annual Military Teen Adventure Camp. Additional initiatives include growing and strengthening the partnerships between Snohomish County 4-H and community organizations, such as the Glacier Peak Institute, The Snohomish County Y, Schools Out WA, and various prevention coalitions. The goals and objectives outlined below will continue to carry the 4-H program through the end of 2023, while new goals and objectives are currently being developed based on ongoing program evaluation and needs assessments. A complete strategic plan and progress report can be found on the 4-H website: <https://extension.wsu.edu/snohomish/4h/>

Goals and Objectives:

Goal 1: Strategically plan and improve the office environment for volunteers, youth, and public.

Goal 2: Improve electronic, in-person, and print communication with volunteers and community.

Goal 3: Increase engagement and recruitment of diverse volunteers, youth, and community partners.

Goal 4: Improve youth development educational, leadership, and college/future preparedness offerings.

Goal 5: Grow the 4-H volunteer pool and strategically evaluate and improve the volunteer training program currently in existence.

Goal 6: Grow and strengthen Snohomish County 4-H/community partners and outreach activities.

Goal 7: Build a data collection, analysis, and reporting plan that will tell the Snohomish County 4-H story.

Goal 8: Develop and implement a spending plan, revenue generation plan, and reporting process.

The Strengthening Families Program for Parents and Youth ages 10 - 14 is a parent, youth, and family skills-building 7-week series that focuses on strengthening parenting skills, building family strengths, and preventing teen substance abuse and other behavioral problems. The Strengthening Families Program (SFP10-14) strives to improve parental nurturing and limit-setting

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 952 - Cooperative Ext Service

Department: Conservation and Nat Resources

Program: 0009-952-002-002-124 - Natural Resources

Program Description:

The rapidly growing population of Snohomish County places tremendous pressure on the County's natural areas and resources. Extension Natural Resources Programs focus on educating citizens about the importance of the County's natural resources, inspiring their sense of personal stewardship and empowering them to adopt behaviors that protect, restore, and conserve forests, watersheds, and Puget Sound, as well as preserving the ecosystem services that all residents rely upon. These programs are directed by university faculty and staff, with support from well over 180 university-trained volunteers. Innovative outreach techniques include webinars, field days, Pre-k to 8th grade classroom education, diversity initiatives and support from volunteer educators and citizen scientists.

Unlike other Snohomish County Extension programs, the natural resources programs have not been receiving any general fund allocations. The 2023 budget is the first year that the each Watchers received general funds. Some funding has come from partnerships with the Surface Water Management (SWM) and Solid Waste divisions of Public Works, Snohomish Conservation District, tribes, cities and the County Airport. For example, Extension has helped SWM implement its federal NPDES permit for stormwater by engaging citizens in education for improved water and land stewardship. Extension works with Solid Waste to do research and education to improve the quality of curbside recycling, appropriate disposal of household hazardous waste and encourage reuse and reduction. Extension also works with the Snohomish County Marine Resources Committee to implement marine strategies that align with their conservation and education priorities.

SPECIFIC PROGRAMS INCLUDE:

* FORESTRY - Snohomish County has the highest number of small forest landowners in the state, and is experiencing enormous population growth. The Forestry Program helps these landowners implement land management practices that improve habitat and water quality, decrease invasive species presence, and generate revenue from locally produced timber and non-timber forest products.

* BEACH WATCHERS and BEACH NATURALISTS - The Beach Watcher program is comprised of expert trained volunteers who are dedicated to protecting the Salish Sea and Puget Sound through education, research and stewardship. They come from all walks of life and bring a rich cross section of backgrounds, experience, service and talents. The WSU Beach Watchers volunteer their time through a variety of programs at many beaches in Snohomish County including Mukilteo Lighthouse Park, Kayak Point and Edmonds Olympic Beach

* SUSTAINABLE COMMUNITY STEWARDS - These are trained volunteers who work in the community to engage and educate the public, as well as change personal behaviors, on climate change issues such as energy, food, soil, water, climate, and waste

* PROMOTORES DEL MEDIO AMBIENTE - Latino residents receive research-based Spanish language training on solid waste, energy issues, stormwater pollution (started in 2018) and outreach techniques, and in turn serve as educators with other Latinos in the community.

These programs achieve significant, measurable results that demonstrate a progression that starts with knowledge change, continues as behavior change, and results in condition changes that include decreased stormwater pollution, increased water and soil conservation, increased wildlife presence, decreased invasive species presence, greater regulatory compliance, increased recycling and composting, safer disposal of hazardous waste, lower air pollution, and economic development from locally produced products.

These program impacts help maintain intact and functioning forests, waterways, and coastal areas, which are critical for the efficient and effective natural stormwater management that minimizes the costly construction and maintenance of stormwater infrastructure. Empowering citizens, including those un

Division: 966 - Evergreen Fair

Department: Conservation and Nat Resources

Program: 0009-966-002-002-548 - Fair Operations General

Program Description:

Fair Park Operations responsibility includes providing quality services for the enjoyment and education of citizens of Snohomish County, as established in the Fair Park’s mission and value statements.

Annual 11-day Fair - Operations supports and coordinates with Fair Parks administration, programming, marketing and maintenance the planning, promotion, and management of the annual 11-day fair. Operations responsibility includes contracting and oversight of competitive and commercial exhibitors and concessionaires, security, traffic and parking controls, safety, risk management, emergency procedures, concert and guest support services.

In addition, Operations Competitive Exhibits Coordinator oversees over 1,000 fair-time competitive exhibit support extra-help and volunteers (superintendents/coordinators/judges/clerks/vet services), 25,000 static and live exhibits, 4,000 adult and youth exhibitors, and distribution of over \$168,000 in awards. In 2015, the Coordinator assumed responsibility for instituting and monitoring the Fair’s Zoonotic Bio-hazard security program; and in 2016 established and oversees the Youth Livestock Sale program.

Year-round - Operations coordinates with maintenance, use of the multi-purpose event facilities by scheduling, contracting, and overseeing production of agricultural, equestrian, youth, educational, private and community sponsored events and activities. Operations also monitors long-term lease agreements with the race track and museum.

Fund/Subfund: 180/ 180 - Evergreen Fairground Cum Reser **Division:** 966 - Evergreen Fair

Department: Conservation and Nat Resources **Program:** 0009-966-180-180-545 - Fairgrounds Maintenance

Program Description:

The Resource Management Section is made up of a team of highly skilled Park technicians that review, prioritize and schedule service and project requests for maintenance, construction, reconstruction, repairs, rehabilitation, and improvements for the grounds and facilities at the Evergreen State Fairgrounds. This work group is responsible for a wide variety of skilled grounds and structural maintenance activities to support the Fairgrounds' diverse programs and events promoting a healthy lifestyle. Primary responsibilities of this key work group involve the protection and preservation of county assets. Staff also endeavors to coordinate and schedule activities for the day to day operation of the fairgrounds and provide a clean, safe environment for all users of the facilities.

WHAT WE DO

- Mow and maintain the landscape, and lawn areas;
- Skilled maintenance repair projects (including carpentry, electrical and plumbing);
- Small capital improvement projects;
- Inspect, maintain and repair the equestrian facility;
- Maintain and repair the RV parks;
- Perform structural repair and improvements on Speedway;
- Maintenance, repair, and implementation of Cross Connection Control program on the water system;
- Maintenance, repair, and monitoring of the sewer system;
- Implement automation and energy efficiencies consistent with the County's Sustainable Operating Action Plan (SOAP);
- Implement all NPDES related activities including maintenance of all control structures;
- Implement Zero Waste initiative;
- Support and set up of all Fairground events including the annual Fair;
- Implementation of the preventative maintenance work plan for all Fairground assets.

The Resource Management section's primary shop is located at the Evergreen State Fairgrounds. The facility includes equipment that aid with welding and metal fabrication, wood working and carpentry, as well as vehicle and equipment maintenance.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 100/ 018 - SR530 Memorial Donations **Division:** 985 - Parks And Recreation - Ad
Department: Conservation and Nat Resources **Program:** 0009-985-100-018-411 - Division Management

Program Description:

The Parks and Recreation Division is responsible to provide quality and effective management of the County's parks and the Evergreen State Fair Park.

Division Management Sections

The Division Administrative Section is responsible to establish and implement procedures to ensure consistent and extraordinary delivery of recreational services to the general public. Additionally, the Parks Division Administration Section is responsible for implementing county policy, setting Division priorities, and managing the Park Division administration operations.

WHAT WE DO

- Plan, manage, provide and administer operations required to deliver park and recreation services to the public through County park facilities and the Evergreen State Fair and Fair Park.
- Administer the Recreational Lake Water Use Code, Parks Code (Rules and Regulations), and Conservation Futures Program for the County.
- Administer and manage administrative operations, maintain central files and information base, maintain financial records, and support reservation and clerical services for the Parks Division.
- Provide direction, set priorities, and monitor production and efficiency of Division programs.
- Process, monitor, and record all financial transactions required for the operational budget, capital improvements, grants and revenues; implement and complete all contract administration/compliance and reporting requirements associated with these functions.
- Administer and provide contract compliance for residential rental contracts.

Parks Planning Section

The Parks Planning Section is responsible for the coordination, research, and administering of comprehensive long range and short-term planning programs for active parks, open space/conservation based properties, new park facilities, major trail corridors and rehabilitation and restoration of existing facilities. The Planning Section, through staff or consultants, is responsible for design, obtaining permits, construction management, monitoring and tracking expenditures and negotiating fees to ensure capital projects come in at or under budget. The Planning Section is responsible for developing RFP's and RFQ's and identifying scope of work or services that need to be performed for various capital projects. Through the RFQ process consultants with special skill sets or experience are chosen to assist the Planning Section with permitting, design, and occasionally construction management. The Planning Section is responsible to ensure that the Parks Department complies with NPDES, ADA, and any and all regulatory permit and code requirements either through scheduled inspections and/or best management practices.

Through public meetings, surveys, phone inquiries, and emails the Planning Section generates citizen participation and input into parks properties. The Planning Section identifies from this information the short and long term goals for park properties, acquisitions and Master/Preferred or Adaptive Site Management Plans.

The Planning Staff is responsible to develop a six (6) year Park and Recreation Visioning Plan and through this document keeps the Division eligible for state and other grant programs. The Planning Staff is responsible to identify appropriate grant opportunities, develop grant applications and make presentations to grant committees. Planning Staff are also responsible for the development of a six (6) year Capital Improvement Program as part of the annual budget process.

The Planning Staff works closely with numerous not-for-profit partners that manage some of the County park properties by reviewing, inspecting, creating building standards, and approving park property alterations submitted by our partners to ensure that they are consistent with the overall plan for the park, incorporate best management practices, and do not

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 185/ 185 - Conservation Futures Tax Fund **Division:** 985 - Parks And Recreation - Ad
Department: Conservation and Nat Resources **Program:** 0009-985-185-185-191 - Conservation Futures

Program Description:

The Snohomish County Conservation Futures Program has responsibility for administering funds for the purpose of acquiring interests or rights in real property located within Snohomish County which meet open space and conservation requirements as per RCW 84.34.230 and SCC 4.14. Funding for the program is available through the collection of up to \$0.0625 per \$1,000.00 of assessed valuation against all taxable real property within Snohomish County.

Goals and Objectives:

- * Staff the Conservation Futures Program Advisory Board, coordinate, administer and manage the program and funded projects.
- * Coordinate, administer and manage, through an effective public information process and interlocal cooperation, a significant open space acquisition program.
- * Provide technical assistance to Snohomish County departments, municipalities, and special purpose districts for the acquisition of eligible and appropriate open space projects.
- * Preserve, protect and otherwise enhance, for future public use and enjoyment, selected open space, farm and agricultural land, and timber land through acquisition, easements, purchase of development rights, covenant, or other contractual methods and manage Conservation Futures funded properties in the County's inventory.

Fund/Subfund: 196/ 025 - Regional Parks and Trails **Division:** 985 - Parks And Recreation - Ad
Department: Conservation and Nat Resources **Program:** 0009-985-196-025-701 - Park Mitigation

Program Description:

On September 27, 1989, the County Council approved Ordinances #89-103, 89-104 and 89-105 as an interim measure to address developer impacts on parks and recreation and provide a process to collect fees. On July 12, 1991, the County Council approved a new Title 26A SCC (Ord 91-026), which codified the requirement of mitigating development impacts on park and recreation facilities, On February 1, 2003, title 26A was replaced by SCC 30.66A (Ord 02-064).

The park mitigation requirements authorized by SCC 30.66A are designed to mitigate impacts reasonably related to a proposed subdivision or development by allowing payment of a dollar amount which must be used to acquire land or develop parks & recreation facilities.

Division: 100 - Auditor

Department: Auditor

Program: 0011-100-002-002-410 - Administration

Program Description:

The Auditor's Office administration oversees all division programs, budgets, personnel matters, strategic planning, communications, purchasing, payroll, accounts payable, and accounts receivable. Administration consists of five full-time staff members: the Auditor, Chief Deputy Auditor, Communications and Public Engagement Officer, Project Coordinator, and an Administrative Assistant.

The Auditor is a nationally certified Elections Administrator and works closely with the state legislature and other elected officials to represent the interests of Snohomish County. Members of the Auditor's Office administration serve on task forces and/or committees that focus on county-wide issues.

The Auditor's Office administration also coordinates the continuous improvement program for the office.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 100 - Auditor

Department: Auditor

Program: 0011-100-002-002-430 - Records Services

Program Description:

The Recording Division of the Snohomish County Auditor's Office is dedicated to safeguarding and preserving the history of land ownership in Snohomish County. The Recording Division is the "keeper of the record" for a multitude of documents including deeds, maps, easements, agreements, federal tax liens, and marriage records.

The Recording Division functions primarily under RCW Chapter 36.22 and Title 65. Other related RCWs, WACs and SCCs dictate the business functions of the Recording Division, which includes the fees and surcharges collected on behalf of various state and county agencies.

Since 1855, the citizens of Snohomish County have entrusted the Recording Division to permanently preserve recorded documents and make them accessible to the public, to certify copies of recorded documents and to conduct recorded document searches for customers.

The Recording Division provides indexed internet access to recorded documents from 1976 to the present. Documents prior to 1976 are currently available in the customer service center on microfilm. All documents prior to 1976 are digitized and the Auditor is currently working with a vendor to index all historical documents and make them available to customers online.

The Recording Division can record paper documents and documents submitted electronically. The division continues to implement new technologies and workflow improvements to enhance accuracy and productivity. Customers can order and/or purchase recorded documents online.

Marriage applicants can now fill out their marriage application online prior to coming into the Auditor's Office. The ability to apply online has streamlined the process, helping to minimize wait times and to ensure that information on the marriage documentation is more accurate and legible.

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 100 - Auditor

Department: Auditor

Program: 0011-100-002-002-481 - Licensing

Program Description:

The Licensing Division of the Auditor's Office provides vehicle/vessel title and registration services and certain business licensing services.

The County Auditor is appointed as an agent for the state of Washington, Department of Licensing (DOL) pursuant to Chapter 46.01.130 RCW and operates under contract to provide state vehicle and vessel title and licensing services.

The County Auditor has contractual agreements with approximately 16 license subagents that provide vehicle/vessel title and licensing services to communities throughout the county. The Auditor's Office is responsible for ensuring subagents are providing quality customer service, administering all RCWs correctly and collecting state and county fees accurately.

The division also licenses a variety of county business activities prescribed by Title 6 Snohomish County Code to protect the health, safety and welfare of citizens in unincorporated Snohomish County.

Department: Auditor

Program: 0011-100-002-002-483 - Animal Services

Program Description:

The Animal Services Division provides responsive public service to protect the health, safety and welfare of animals and people in Snohomish County.

Administrative staff respond to citizen inquiries, receive animal complaints and dispatch calls to animal control officers in the field. Animal Services staff administer the county's pet and animal business licensing programs.

Animal control officers investigate dog bites, reports of animal cruelty, vicious dogs, injured/sick animals, stray animals, and loose livestock in unincorporated Snohomish County.

Officers work with animal owners to promote responsible animal ownership and achieve compliance with applicable state and county codes. When necessary, officers issue civil fines and refer criminal charges to the Prosecutor's Office.

Animal control officers respond to emergencies dispatched through Snohomish 911. Officers assist the Sheriff's Office by securing and impounding animals from arrests, collisions, and other incidents when necessary.

The Animal Services Division is responsible for assisting in the creation of Snohomish County's emergency preparedness plan regarding animals in disasters.

Fund/Subfund: 002/ 002 - General Fund

Division: 120 - Election Services

Department: Auditor

Program: 0011-120-002-002-485 - Election Services

Program Description:

Election Services conducts fair, transparent, and accountable elections and provides accurate, secure and timely results.

Election Services with support from Voter Registration Services is responsible for all aspects of conducting elections in Snohomish County. By law, there may be as many as four elections per year (in addition to a Presidential Primary every four years unless cancelled by legislative action). The biennium includes both an even-year election cycle and an odd-year election cycle and will feature state, county, and local races. Levy and bond measures and/or statewide initiatives and referendums may also appear on the ballot in 2025 and 2026.

Elections Services continues to make significant program changes to serve the electorate in the most cost-effective manner. Providing postage paid ballots, same-day registration and operating thirty-five, 24-hour ballot drop boxes across the county are ongoing initiatives that provide additional convenient options for voting and returning ballots.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 120 - Election Services

Department: Auditor

Program: 0011-120-002-002-486 - Voter Registration Servic

Program Description:

Voter Registration Services maintains the voter registration files on a daily basis by adding, updating, and transferring records as well as by placing voters in inactive status to keep all records current. This unit also verifies voter signatures on ballots and on initiative petitions, and serves as primary customer service support for voters, jurisdictions and the general public at the Auditors Office and our accessible voting sites during elections.

It is expected that in 2025 there will be approximately 530,000 registered voters in Snohomish County and that figure will continue to grow. Voter Registration staff process voter registration transactions by adding new voters, moving voters within or out of the county or deleting voters due to death or felony convictions. Accurate voter rolls are critical to a voter's ability to participate in the voting process and have a direct impact on the trust and confidence citizens have in local government.

The implementation of automatic voter registration for those obtaining an enhanced drivers' license, the pre-registration of 16- and 17-year olds, and same day registration has had a profound impact on the voter registration division.

Voter Registration Services takes pride in the accuracy, accountability, security and transparency of our elections in Snohomish County.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 186/ 186 - Auditor's O & M

Division: 130 - Auditor O & M

Department: Auditor

Program: 0011-130-186-186-430 - Records Services

Program Description:

Revenue for the O&M fund is derived from surcharges on most recorded documents. Four dollars and eighty-three cents (\$4.83) is deposited directly into the Auditor's O&M fund, and an additional two dollar (\$2.00) surcharge is sent to the state and then reapportioned back to the O&M Fund based on Snohomish County's population.

Auditor's O&M Recording System - This portion of the O&M Fund is used to implement and maintain the Recording System as authorized by RCW 36.18.010 and 36.22.160. Since 1990, this funding has supported the installation and ongoing maintenance and enhancement of the Auditor's document imaging system. The Recording Division recently implemented a new recording system that was paid for entirely by O&M Funds.

Auditor's O&M Archival Preservation Fund – In years when funding is available, this portion of the Auditor's O&M Fund allocates funds for ongoing preservation of historical documents in Snohomish County government offices and departments as authorized by RCW 36.22.170. Archival records have historical, artifactual or research value as defined by the Washington State Archives.

Division: 370 - Health Insurance Services

Department: Finance

Program: 0012-370-508-508-730 - Health Insurance Services

Program Description:

This program provides financial support and analysis to Snohomish County's Employee Benefits program, as well as the management of employee benefit contracts, associated payments to vendors, and tracking and collection of benefits premiums for county employees, outside district subscribers, COBRA participants, and retirees. Wellness and other cost containment measures are also included.

Department: Human Resources

Program: 0013-300-002-002-670 - Equal Employ Opportunity Inv

Program Description:

This program delivers prompt investigations into complaints of discrimination and hostile working environment based on race, gender, age, national origin, religion, sexual orientation, disability. The Equal Employment Opportunity (EEO) Investigator position also assists in the development of prevention programs designed to instruct managers and non-management employees into the expectations of these protections as they relate to workplace actions and conduct. The EEO Investigator works very closely with the Prosecuting Attorney's Office to defend claims brought to the Equal Employment Opportunity Commission (EEOC), Justice Department, Human Rights Commission of Washington State and Superior Court.

Division: 300 - Human Resources Admin

Department: Human Resources

Program: 0013-300-512-512-650 -
Countywide Training & Develop

Program Description:

This program delivers cost-effective training and development programs and tools for employees and managers at a price that exceeds local and national market pricing. We deliver ad hoc training in key HR topics on demand, planned classroom training, a self-directed training library, and new employee orientation including a nationally recognized on-line "On Boarding" system. Departments are able to author on-line courses for their own tailored needs. HR is able to combine e-learning with platform training and videos for the best training design needed to deliver key learning objectives. Mandatory training such as Drug Free Workplace, EEO and Violence in the Workplace training are produced by this program. A high-level Training Advisory Team is used to make key decisions around training curriculum.

Division: 370 - Employee Benefit Trust

Department: Human Resources

Program: 0013-370-508-508-730 - Health Insurance Services

Program Description:

This program focuses on providing specific programs designed to increase overall, long-range health and wellbeing of Snohomish County employees and dependents so that health care dollars are spent according to a "value based" model that focuses on effective disease management and long-range overall cost savings. We assist employees and insurance providers in day-to-day problem solving related to medical billing and eligibility. The Employee Assistance Program (EAP) is administered by this program.

Division: 400 - Enterprise Application Service

Department: Information Services

Program: 0014-400-505-505-880 - Enterprise Application Service

Program Description:

The acquisition, implementation, and support of Enterprise Applications. While they may have limited users, Enterprise Applications are operated for the financial viability and/or operational benefit of the entire organization (High Line, Cayenta, Actuate Reporting, Proval, Ascend, Campus Surveillance, Skillport, AccessData, CoSign), rather than applications limited to individual departments or offices. They typically support operational functions that are common to enterprises similar to the County, and have a 10-20 year lifecycle.

Fund/Subfund: 315/ 002 - Data Processing Capital

Division: 425 - Orthophotos/Imagery Updates

Department: Information Services

Program: 0014-425-315-002-418 -
Orthophotos/Imagery Updates

Program Description:

This project accumulates funding via a multi-year fund to acquire fly-over images to support the enterprise GIS community including direct access by five citizen website applications. Aerial imagery is of significant and often vital importance to all county departments. Its use overlaps many county functions mandated by county, state, and federal regulation. Aerial imagery (orthophotography in digital format) must be compatible with all county imaging systems, GIS analysis, and document recording through identified technical requirements. Aerial photography has been used in this county for landscape verification, evaluation, and interpretation since 1947. Taken in sequential time frames, it provides a unique view/record of landscape change. County citizens use this same data via website, hard copy, and/or as secondary graphics with other mapped data.

SubFund 315 is intended to be closed out and no longer in use after 2023

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 505/ 505 - Information Services

Division: 450 - Customer and Workstation Servi

Department: Information Services

Program: 0014-450-505-505-888 - Customer and Workspace Service

Program Description:

Office Automation program assists departments in making the best possible use of office automation technologies. The program provides support, maintenance, and operational services for technology assets including network infrastructure, workstation, and office automation application structures managed by the Department of Information Services.

Core service philosophies for supporting network infrastructure lead to keeping an inventory of provisions to maintain secure, reliable, and low cost local wide-area connectivity; delivering network products and services to meet typical user needs; and managing the infrastructure for long-term, high performance of application structures. The workstation assets are managed to consistently support user needs and meet growing demand. The program assists departments in establishing configuration rules and standards to maintain the integrity of the workstation and help control the cost of ownership.

Network infrastructure, workstation assets, and office automation application structures combine to provide a strong architecture for strategic applications and a productivity resource base for county employees. Enterprise applications managed by the program include network authentication, transport, security, file and print services; the delivery of standard office automation tools including word processing, spreadsheet, database, e-mail, calendar, graphics; and access to other state and local agencies and the Internet. Each of these assets are managed and supported to consistently support users' needs and meet growing demands through evolving departmental configuration rules, standards, and administrative practices.

Fund/Subfund: 191/ 002 - 2nd Qtr % REET (ESHB 2929) **Division:** 651 - Shb 2929 Capital Improvem

Department: Nondepartmental **Program:** 0016-651-191-002-700 - SHB 2929
-- REET 2

Program Description:

There are two components of Real Estate Excise Tax (REET) in Snohomish County. Revenues from both of these sources accrue to the County from real estate sales that occur in unincorporated areas in the County.

REET 2 is the second component. In 1990 the state legislature passed HB 2929 granting the county authority to levy an additional 1/4% real estate excise tax. This revenue is strictly segregated and separately tracked, and may be used solely for financing capital projects specified in a capital facilities plan element of a comprehensive plan (RCW 82.46.010 (2)).

700 - SHB 2929 -- REET 2

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 130/ 130 - Grant Control

Division: 653 - Pending Grants

Department: Nondepartmental

Program: 0016-653-130-130-460 - Grant Administration

Program Description:

The Pending Grants budget represents estimated multi-year grant carryover amounts or grant funding, which is anticipated but not yet awarded. When actual project allocations are approved and contracts executed, a budget transfer is initiated per the Snohomish County Code rules.

The Pending Grants budget is not utilized for actual receipts or expenditures. Departments only include known and certain anticipated revenues within their program budgets. The pending grants program allows departments more timely opportunity to handle additional rewarded grants and provide services to citizens. All new grants and grant amendment contracts and the subsequent budget transfers still are required to go through the review and approval process as defined by SCC.

Department: Nondepartmental **Program:** 0016-657-100-004-932 - Trial Court Improvement

Program Description:

The Trial Court Improvement account was created by the State Legislature in 2005 to provide revenues for improvements to the Courts. Revenues are generated through State reimbursement of one half of District Court Judges salaries. This Special Revenue fund was created to deposit the new revenues and provide the expenditure authority for improvements to the court system.

Department: Facilities Management **Program:** 0018-600-002-502-502-860 - Fleet Mgt - Maint & Opera

Program Description:

Fleet Management’s maintenance and operations program includes the staffing, assets, facilities, tools and equipment, and administration and support necessary to acquire, operate, manage, maintain, repair and dispose of fleet vehicles, heavy equipment, and two-way radios. There are three fleet shops where vehicles and equipment are maintained and repaired; two of those (Arlington and Cathcart) service light and medium duty vehicles and heavy equipment. The McDougall garage services light-duty vehicles and specializes in the outfitting and maintenance of police cars. There are forty-one budgeted positions in maintenance and operations including the Fleet Manager, administrative support staff, three shop supervisors, two radio repair technicians, and thirty-three mechanics and crew chiefs.

Program: 0018-801-511-511-001 - County Parking Operations

Program Description:

The County's parking facilities in downtown Everett include a 1200-plus stall underground parking garage and a 95-stall surface lot at the corner of Wall and Oakes street. Our parking facilities are primarily used by County employees, citizens visiting the County offices, jurors, and patrons of the Everett Event Center. The day-to-day operations of the parking facilities are currently managed by Republic Parking Northwest, Inc. Facilities Management works together with Republic Parking to ensure that Parking Operations adheres to County goals, policies and procedures.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 410/ 410 - Airport Operation & Maint. **Division:** 100 - Airport
Department: Airport **Program:** 0021-100-410-410-680 - Operations-General

Program Description:

Paine Field is a vital commercial service airport and industrial park serving the Puget Sound Region, with over 590 based aircraft, 70 commercial tenants and serving approximately 650,000 passengers annually. Major tenants include the Boeing Company, United Technologies, ATS, Propeller Airports, ZeroAvia, Alaska Airlines, Kenmore Air, Flying Heritage & Combat Armor Museum, Museum of Flight, FedEx, Esterline/Korry Electronics, Collins Aerospace, Everett Community College, Edmonds College, Washington Aerospace Training & Research (WATR) Center, and many more. In addition to tenant revenues, Future of Flight Aviation Center & Boeing Tour in a regular year attracts 150,000 local, national, and international visitors to the County. WSDOT's most recent Aviation Economic Impact Study reports Paine Field as having a total economic impact of \$59.9 billion annually. (WSDOT, 2020)

Airport revenues include hangar; industrial and commercial leases; landing and fuel fees; Passenger Facility Charges (PFC); and a long-term operating agreement with Boeing for use of the main runway. Airport revenues fund airfield operations, maintenance, fire rescue services, law enforcement, public safety programs, building repairs, debt service on loans and bonds, development requirements and operating costs. Budget drivers at the airport include maintenance and support of the airfield to FAA standards, existing buildings, roadways, and utility systems and increasing the long-term revenue and asset base at the airport. Asset and revenue growth at the airport leads to increased economic development, growth, and vitality to the County. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

The airport has three (3) areas of emphasis: Administration, Maintenance and Fire Rescue. Law enforcement is funded through the Sheriff's Department. Airport Administration includes the Airport Director, Finance & Business Development, Administrative Programs, Engineering & Planning, Operations, Environmental, and various administrative support services. It oversees and manages budget, payroll, accounting, airfield certification, operations, leasing, construction management, marketing, airside, and landside development, planning and capital improvements, environmental compliance, and grants. Airport Maintenance maintains all facilities, utilities, electrical systems, landscaping, winter storm response and conducts FAA-required inspections of the air operations area. The Fire Fighting and Security unit at Paine Field is one of the few in the state responsible for Aircraft Rescue and Firefighting (ARFF), structural firefighting, and emergency medical response. The airport has also developed a Paine Field Fire Equipment Maintenance Program to meet our higher standards for fire trucks and equipment and also provides fire equipment service to the City of Mukilteo and other government entities.

Paine Field contributes to the economic vitality and the quality of life in the region by providing passenger service, high-quality aviation, and industrial services. Paine Field provides Snohomish County residents and businesses access to the world. Our customers are the airfield tenants and users, our neighbors, the people of Snohomish County, and the worldwide aviation community. The airport constantly strives to provide a safe environment for aviation & industrial activities and respond to any incidents or accidents.

Program Detail

Fund/Subfund: 410/ 410 - Airport Operation & Maint.

Division: 110 - Main Runway

Department: Airport

Program: 0021-110-410-410-680 - Operations

Program Description:

Paine Field/Snohomish County Airport is a vital commercial aviation facility and industrial park serving the Puget Sound. Classified by the FAA as a FAR Part 139 commercial service airport, Paine Field serves approximately 650,000 passengers per year; 590 based aircraft; and 140,000 aircraft takeoffs and landings per year. There are nearly 100 businesses on or adjacent to the airport which employ approximately 50,000 locally and 158,000 statewide (WSDOT). Boeing produces the 767, 777, and soon the 737 aircraft at Paine Field. Airport lease revenue and fees cover operating expenses and development. The Airport Enterprise Fund is financially self-sufficient and uses no general fund tax dollars.

The Airport Enterprise Fund is broken up into division based on the Boeing Joint Use Agreement reimbursement formula. The divisions represent a portion of the formula used to calculate the reimbursement and are broken into these divisions: Indirect (100), Main Runway (110), Aviation (111), Commercial (112). Please see division 100 for the department narrative.

Program Detail

Fund/Subfund: 130/ 377 - Sustainable Aviation Fuel

Division: 111 - Aviation

Department: Airport

Program: 0021-111-130-377-105 - Sustainable Aviation Fuel

Program Description:

In March 2022, Executive Dave Somers announced that Snohomish County is establishing a world-leading Research and Development (R&D) Center focused on Sustainable Aviation Fuels (SAF) at Paine Field Airport. The County is partnering with Washington State University (WSU) to create the world's first SAF repository of this type for advancing sustainable aviation fuel technologies and serve the global need for reference samples to support research. The Center will also be the only facility to collect, sample, and distribute SAF at a scale needed for widespread use in the largest aircraft.

As part of the 2023-2025 Transportation Budget, the Washington State Legislature allocated \$6.5 million to Snohomish County for a Research & Development Center for Sustainable Aviation Fuels (SAF) at Snohomish County's Paine Field Airport.

Base expenditures are set to reflect the SAF R&D Temporary Site and Repository Business Plan. Expenditures include construction of a temporary facility, as well as hiring a project manager to manage funds, apply for grants and oversee project agreements. Expenditures also incorporate work supported by Washington State University, including operation of the temporary repository site for SAF storage, blending and testing. In addition, WSU will support management of intellectual property, proprietary information, and publication management.

Program Detail

Fund/Subfund: 130/ 373 - CERB

Division: 112 - Industrial

Department: Airport

Program: 0021-112-130-373-680 - Operations

Program Description:

In 2011, the Washington Department of Commerce offered a \$500k interest free Community Economic Revitalization Board (CERB) loan to the County for refurbishment of Building C-71 to expand operations of the Washington Aerospace Training and Research Center (WATR). Revenues from the lease with Edmonds Community College will be applied to fully repay the zero interest CERB loan. Edmonds Community College leased 8,966sf of Building C-71 and with this loan refurbished the space to support aerospace training in the region.

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 200 - Treasurer

Department: Treasurer

Program: 0022-200-002-002-410 - Administration

Program Description:

The Treasurer's Office provides services in two broad categories for the County and Special Purpose Taxing Districts; property tax administration and financial management. Property tax administration refers to the efficient administration of property tax and special assessment billings, collections, and distributions. This includes real and personal property taxes, assessments, excise taxes, special levies and fees. Financial management includes cash and debt management, investing, management of banking services, warrant payment processing, financial reporting and accounting.

Program Detail

Fund/Subfund: 124/ 002 - 1/10% Sales Tax

Division: 124 - 1/10 % Sales Tax

Department: District Court

Program: 0024-124-124-002-550 - MH/Community Court

Program Description:

Snohomish County Mental Health Court is a diversion program for individuals with serious mental illness who have been charged with one or more criminal offenses. The program is designed to provide improved access to public mental health treatment services, process the case faster and in a more meaningful way, improve the overall well being of participants all while holding the offender accountable to the community. Successful completion of the program often leads to dismissal of the criminal charge and improved public safety for the community.

Program: 0024-401-002-002-330 - Probation & Parole Services

Program Description:

While the primary purpose of the Probation Department is to hold defendants accountable for their court ordered conditions and provide alternatives to incarceration; Probation uses a therapeutic and holistic probation model that encompasses best practices, use of evidence-based and research-based programs, services, and cognitive behavioral trainings to more effectively monitor and assist offenders in developing skills to promote positive behavioral changes to reduce their dependence on criminal and substance abuse behaviors.

The department staff gathers, evaluates and provides the judges with current data resources essential for the pre-trial and post-trial functions of the Court. The department officers recommend treatment and/or counseling programs tailored to an individual's needs, as alternatives to incarceration. Statistics have shown that probation services cost approximately one-tenth of the costs of incarceration yet prove to be as effective in reducing repeat offenses. An alternative to incarceration includes probation monitored Electronic Home Monitoring Programs, that holds offenders accountable, yet allow them to continue with their employment, treatment or education plans. Probation also conducts community based programs such as: Domestic Violence Moral Reconciliation Treatment in partnership with Everett Municipal Court, which helps offenders take accountability for their violent actions and provide positive resolution skills in an effort to break the cycle of violence, and the Snohomish Traffic Opportunity Program (STOP), a program consisting of National Safety Council defensive driver courses and driver assistance services.

Division: 401 - District Court

Department: District Court

Program: 0024-401-002-002-450 - Dispute Resolution Center

Program Description:

Established by RCW 7.75, the Snohomish County Dispute Resolution Center (DRC) provides mediation services for the citizens of Snohomish county. The DRC established under this chapter provides dispute resolution services either without charge to the participants or for a fee which is based upon the applicant's ability to pay.

A surcharge of \$10.00 is imposed upon the filing fee for civil actions in district courts (SCC 2.550.060). The surcharges imposed are be collected by the clerk of each district court where a civil or small claims filing occurs. Surcharges collected are remitted to the county treasurer for deposit in a separate account to be used solely for dispute resolution centers established under this chapter.

District Court employs DRC services for small claims filings. All small claims matters must engage in mediation prior to a trial date being set. Mandatory mediation via DRC services has proven to be successful in resolving the majority of small claims matters filed in District Court which generally equates to more satisfying outcomes for litigants.

Program: 0030-003-002-002-170 - Traffic Policing

Program Description:

The Traffic Enforcement Unit provides traffic law enforcement on county roads and in school zones for the purposes of driver behavior modification and collision prevention. Motor vehicle collision investigation including serious injury and fatal collisions is handled by this program, as well as police-involved and other County-owned vehicle collisions. This program supports vehicular-involved accident investigations that are on par with homicide investigations and require detectives to have specialized technical skill in collision reconstruction.

Fund/Subfund: 130/ 307 - PA Grants

Division: 106 - Stop Grant

Department: Prosecuting Attorney

Program: 0031-106-130-307-524 - STOP Grant

Program Description:

The STOP Grant is federally funded through the Violence Against Women Act. Funds are passed through the Washington State Office of Crime Victims Advocacy to each county and divided equally among law enforcement, prosecution, and victim services. The prosecution portion of the grant is used to partially fund a Deputy Prosecuting Attorney (DPA) with expertise in the screening, filing, and prosecution of domestic violence cases. This DPA is involved in community prevention and education programs, and serves as a resource to other prosecutors who handle these cases at the misdemeanor level in municipal and district courts.

Program: 0031-131-002-002-700 - Op Transfers

Program Description:

This program provides funding from the General Fund to balance revenues with expenditures in a given grant program. Frequently, grant funds support only a portion of an FTE under a grant and the Operational Transfers (OpTs) fill that gap. Applied in this way, they can represent the county's contribution or match to a grant.

Program: 0031-131-130-307-525 - Failure to Register Grant

Program Description:

The purpose of the Registered Sex Offender program (aka, Failure to Register Grant) is to strengthen the County's efforts to verify the addresses and residency of registered sex offenders and to confirm that each registered sex offender has a DNA sample on file. Under this program, the Prosecuting Attorney's Office will file criminal charges if a registered sex offender is found to be out of compliance with the terms of the court's sentence.

The RSO/FTR program, which is funded by the state, supports one deputy prosecuting attorney, one deputy sheriff, and one Everett police officer. SCSO receives the grant funds and disburses them to the Prosecutor's Office and the Everett Police Department.

Program: 0031-131-130-307-526 - Auto Theft Task Force

Program Description:

With funding provided by the Washington Auto Theft Prevention Authority (WATPA), the Snohomish County Sheriff's Office created a multi-jurisdictional auto theft task force in partnership with six Snohomish County agencies, including the Prosecutor's Office and the Washington State Patrol. The Prosecutor's Office receives funding on a reimbursement basis from the Sheriff's Office which receives funding from WATPA. The Prosecuting Attorney's Office uses these funds to help support one dedicated deputy prosecuting attorney who serves on the Task Force and a Legal Secretary.

The Task Force focuses its efforts on auto theft, chop shop operations, and other vehicle-related crimes (i.e. prowls). The recovery of stolen property also is a high priority for the Task Force. This multi-agency collaborative effort has helped to target and reduce the incidents of vehicle theft in the County, through coordinated investigations and prosecutions.

FinancialFraud & IDTheft Crime

Program Description:

In 2008, the state legislature created a financial fraud and identify theft crime investigation and prosecution program in the Department of Commerce. DOC awarded a grant to the Greater Puget Sound Financial Fraud and Identity Theft Task Force, of which the Snohomish County Prosecuting Attorney's Office is a member. Our office receives grant funds annually from the task force to support a DPA who is dedicated solely to the prosecution of financial fraud and identity theft cases.

Program: 0031-131-130-307-531 - LEAD

Program Description:

In June 2020, the PAO received a \$1.6 million grant from the Health Care Authority (HCA) for a Law Enforcement Assisted Diversion (LEAD) program. The Department is spearheading the implementation of this program and acting as the fiscal agent. This grant is pass-through only; the Department will receive no reimbursement for its involvement in the grant. The LEAD program is a priority for the Department because it supports a coordinated response by law enforcement, prosecutors, social workers, treatment providers, and community resources as an alternative to traditional criminal enforcement, prosecution, and incarceration. It is an outgrowth of the Prosecutor’s Innovative Justice Program and is consistent with a larger interest in responsible, meaningful criminal justice reform.

In December 2021, the PAO received a \$1.2 million grant from the US Department of Justice to expand the LEAD Program. In April 2022, the PAO entered into a contract with the North Sound Behavioral Health Administrative Services Organization for \$512,455 to expand the LEAD Program and support the Resource Navigator role and services in conjunction with LEAD.

The Prosecuting Attorney’s Office is partnering with the police departments from Lynnwood and Everett, as well as the Public Defender’s Association and Evergreen Recovery Center to implement this pilot program.

Division: 134 - Prosecuting Atty - Victim

Department: Prosecuting Attorney

Program: 0031-134-118-118-570 - Crime Victim Services

Program Description:

The Victim Witness Assistance Program (Fund 118) provides a wide array of statutorily mandated services to crime victims. These include: informing victims about the prosecution and court process; explaining to victims their constitutional and statutory rights; referring victims and families to community-based counseling, advocacy and medical services; providing support during appointments with prosecutors and defense attorneys; consulting with prosecutors about effective ways to work with victims and their families; assisting victims with obtaining no contact orders; assisting victims with making their voices heard at bail hearings and trial continuance motions; preparing victims to testify in trials; notifying victims of court dates and changes to those court dates; providing a supportive and guiding presence for victims and their families during trials and hearings; helping victims and families prepare Victim Impact Statements for sentencing hearings; assisting victims with restitution claims and with Crime Victims Compensation Fund claims; educating community-based agencies and citizens about crime prevention and intervention, and about participating in the criminal justice system; advising the elected prosecutor of program needs; and working with law enforcement and community partners to develop an integrated and efficient system to satisfy victim needs. The Victim Witness Assistance Program fulfills state constitutional and statutory mandates to uphold the rights of crime victims. The Department has 10 Victim Witness Advocates (9.5 FTEs).

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 195/ 195 - Antiprofitteering Revolving **Division:** 135 - Pros Atty/Antiprofitteerin
Department: Prosecuting Attorney **Program:** 0031-135-195-195-521 - Criminal

Program Description:

The Criminal Division deputy prosecutors are mandated to represent the county or state: (1) in District Court, on all misdemeanor and gross misdemeanor cases occurring within unincorporated Snohomish County, (2) in Juvenile Court, on all crimes committed by persons under the age of 18 occurring within the county; and (3) in Superior court, on all adult felony cases occurring within the county. The Criminal Division handles all court appearances, negotiations, hearings, trials, supervision violation hearings, and post-sentencing appeals regarding these cases.

To maximize efficiency, the Criminal Division is divided into units that specialize in the prosecution of a particular subset of cases. These units include: District Court, Violent/Domestic Assault, Non-Violent/Drugs, Special Assault, Juvenile, Felony Traffic Offenses, Major Crimes, Financial Fraud and Identity Theft, Auto Theft (Auto Theft Task Force), Drugs and Gangs (the Snohomish County Regional Drug Task Force), Adult Drug Court, Mental Health Court, and Appeals.

Broadly speaking, a Criminal deputy prosecuting attorney reviews referrals (law enforcement reports alleging illegal activity) from law enforcement and determines an appropriate response. A DPA may decide to file charges, to request additional information, to decline filing charges, or to refer the case elsewhere. If a charge is filed, a Criminal DPA will represent the county or the state in the court proceedings.

While the majority of the work in the Criminal Division is supported by the General Fund, the Department relies on grants to support certain areas of work including domestic violence, victim/witness assistance, auto theft, identity theft, registered sex offenders, and DUI rush filings. In addition, the Department receives support from Fund 124 to address criminal cases involving defendants with mental health and/or chemical dependency issues.

Superior Court Drug Treatment Court Programs

This program focuses on activities related to chemical dependency, mental health and therapeutic courts. This funding supports the work of the Court by funding all drug treatment courts operations and the involuntary treatment process. New in 2016, funding was awarded to support a Case Management component for all families.

Staff Contact: Jamie Reed

Superior Court Drug Treatment Court Programs

The Superior Court Drug Court Program consists of three (3) separate and distinct programs. They are Adult Drug Court, Family Drug Treatment Court, and staffing component for the adult DOSA calendar. The funding for the Drug Treatment Court Program comes from .1% Chemical Dependency/ Mental Health Fund established by the County Council in late 2008 as well as state and federal grant funds.

Over the last several years, using a combination of federal, state and local resources, we have managed to enhance our drug treatment courts and the services provided to our participants. For example, policies and procedures reflect national best practice standards for drug court; substance abuse treatment and mental health counseling are provided using evidence based programs; a web based drug court case management system is used to track and analyze data for program improvement; families are engaged with their youth using Functional Family Therapy; a comprehensive bio psychosocial assessment tool is used to determine need and key to individualized treatment planning as well as identifying other ancillary services necessary to help our participants successfully address their addiction and criminogenic thinking and be contributing members of our community.

Each Drug Treatment Court has a team that identifies enhancements and strategies to build a more effective program to address the needs of our high risk and high need participants. The Drug Treatment Court Program has developed and implemented a plan for statistical analysis and strategies related to best practices to track case outcomes, increase collaboration, and the use of evidence based treatment models. The Drug Treatment Court Program is currently managing one federal grant that provides evidence based program enhancements to the juvenile drug treatment court including Functional Family Therapy, Mental Health Counseling and Moral Reconciliation Therapy. Our current federal grant is for \$156,872 per year for three years (2014 -2017). In 2014, the Court received final evaluations done on the adult, family and juvenile offender drug treatment courts, validating the improvements we have implemented in our programs. It is anticipated that a request for a follow up evaluation of our drug treatment courts will be submitted as part of the 2019 budget process.

Future federal funding is very competitive and cannot be used to sustain programs. Funding solicitations are targeted at implementing new drug treatment courts or expanding/enhancing services of existing drug treatment courts. Our current federal grant allowed us to provide additional evidence based programs that were identified during an evaluation of our juvenile drug treatment courts. Sustainability for drug treatment courts is dependent upon local 1/10th of 1% sales and use tax funds.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 730 - Juvenile Court Operations

Department: Superior Court

Program: 0036-730-002-002-730 - Juvenile Court Operations

Program Description:

Juvenile Court Operations

PROBATION SERVICES

Probation is comprised of three different units; Court Services, Supervision Services, and Youth Enrichment Services. The programs are supported through a combination of general fund and CJS Block grant from the state.

Court Services

Court Services is responsible for processing new criminal referrals and diversion referrals from inception to adjudication. They utilize risk assessment tools such as Positive Assessment Change Tool (PACT), GAIN-SS, dispositional sentences, and alternatives to detention programs available through Youth Enrichment Services (YES).

Two probation counselors are assigned to classification where they work in secure detention to provide assessment of youth at the time of intake including unit classification, they act as the law enforcement and community liaison, and offer general support to detained youth.

One probation counselor is assigned to assist families navigating the At Risk Youth process through the court system. This position is currently funded through the .01% Sales Tax fund through the county. The probation counselor meets with the youth and their family to determine current needs and assists with referrals to services such as parenting training, mental health and substance abuse disorder treatment.

All Probation Counselors are processing diversions. Legislative changes in recent years have allowed up to three diversions if eligible. The changes in the law and decreased referrals presented an opportunity to better serve youth through programs targeting prevention of youth from going deeper into our system and utilize evidence-based program resources on the front end. Legislatively, juvenile courts are encouraged to use, and the state funding authority requires juvenile courts to use, a validated assessment tool to determine needs of the youth and family to engage and participate in programs which may include services demonstrated to improve behavioral health and reduce recidivism.

Supervision Services

Supervision Services staff receive cases upon adjudication, for youth sentenced to a term of Probation. In addition to monitoring court-ordered conditions of community supervision, Juvenile Probation Counselors specialize in assessing a youth's risk to re-offend in the community. A standardized risk assessment tool is used in conjunction with specialized training to engage and motivate youth to change behaviors that get them in trouble with the law. Depending on their assessed risk to re-offend, youth may be placed on a variety of different caseloads. Staff utilize motivational interviewing and principles of case management theory for best practice interventions using research-based and evidence-based models such as Aggression Replacement Training (WSART), Functional Family Therapy (FFT), and Coordination of Services (COS). The majority of the Community Juvenile Accountability Act (CJAA) Block grant and Evidence Based Expansion (EBE) grant funding (over \$1.5 million) is directly tied to this scope of work. Snohomish County also has collaborated with community stakeholders to create the Promising Artists in Recovery (PAIR) program, the Music Futures program, Arts with a Purpose, a collaboration to provide dance and performing arts to youth, educational transitional services and a mentoring program that is accessible to treatment court and diversion youth.

Becca Bill Implementation – Provides for community assistance in the facilitation and monitoring of Truancy, At Risk Youth (ARY), and Children in Need of Services (CHINS) petitions. Recent changes to Truancy Legislation has offered the opportunity for juvenile court staff, school representatives and community partners to collaborate on the development of Truancy Advisory Committee (TAC) tasked with establishing a "blueprint" for truancy protocol in Snohomish County. The legislative intent is to increase access to Community Truancy Boards (CTB), interventions and prevention.

Program Description:

Consolidated Juvenile Services (CJS)

County Juvenile Court Block Grant

The County Juvenile Court Block Grant through DSHS, Juvenile Rehabilitation Administration, includes funding for: the Chemical Dependency Disposition Alternative (CDDA); the Special Sex Offender Disposition Alternative (SSODA); the At-Risk Youth Program (supervision and services for youth sentenced to community supervision); the Community Juvenile Accountability Act (CJAA), and provides the evidence based intervention Aggression Replacement Training (ART). The state funding supports the staffing required to administer the Washington State Risk Assessment and Case Management Assessment Process (CMAP), monitor youth compliance and provide targeted interventions based on the risk factors that contributed to the youth entering the criminal justice system, with the overall goal to reduce the risk to re-offend, refer for chemical dependency assessments and treatment, and sex offender evaluations and treatment to support the youth that have been placed on supervision in our community.

In addition, the Juvenile Courts in Washington State are mandated to address Racial and Ethnic Disparities (RED) as a condition to receive state funding. In response to this, we have created a Cultural Advisory Committee comprised of community leaders, court staff and chaired by a Judicial Officer to identify strategies that will result in measurable improvements to engage youth of color in evidence based interventions.

Fund/Subfund: 130/ 309 - Community Corrections

Division: 730 - Juvenile Court Operations

Department: Superior Court

Program: 0036-730-130-309-733 - Expansion Programs

Program Description:

CJAA Evidence Based Expansion

The Community Juvenile Accountability Act (CJAA) provides additional state dollars for Evidence Based Program Expansion to serve juvenile justice involved youth and families at the county level. With this additional Washington State funding, Snohomish County has expanded the following CJAA approved programs; Washington State Aggression Replacement Training (WSART), Coordination of Services (COS), and Functional Family Therapy (FFT). These three programs have been expanded in Snohomish County following careful analysis of the needs of juvenile court involved youth and the local community.

The FFT program was added to the list of juvenile justice services in Snohomish County in 2012 following a review of the research behind this evidence-based program as well as an evaluation of the local juvenile offender population. The FFT program has been shown to be cost effective, with the Washington State Institute for Public Policy reporting, "The internal rate of return on investment is an astounding 641 percent". Since the FFT program was implemented. Between July 1, 2013 and April of 2015 Snohomish County has served 92 youth with FFT services. Of those, 75 families successfully completed services resulting in an 82% completion rate.

The WSART program has been provided to Snohomish County juvenile justice involved youth for over a decade. The evidence-based intervention is a 10 week group training program provided to moderate and high-risk juvenile justice involved youth. The WSART program was expanded in 2007 through the Evidence-Based Expansion funding to serve additional Court involved youth. The WSART expansion program has delivered social skills, anger control, and moral reasoning training to court referred youth over the past two years. With a total monetary benefit of \$34,566 per youth served, the WSART program has the largest cost benefit ratio among all Washington State EBE probation programs. Between July 1, 2013 and April 2015, Snohomish County has served 195 youth through evidence based expansion funding.

The COS program serves juvenile court involved youth and the intervention (known as WayOUT) is provided by Snohomish County Juvenile Court's community partner, Cocoon House. The two 6-hour seminars are offered approximately every 6 weeks to both English and Spanish speaking youth and their families. The program is intended to reduce risky behaviors and prevent recidivism while increasing the supportive relationships between youth and parents/caretakers. From July 1, 2013 to April 2015, Snohomish County has served 188 youth through the COS evidence based expansion funding. Our completion rates remain in the high 90 percentile range. The estimated 'life-cycle' and 'present-value' monetary benefits is over 1 million taxpayer and non-taxpayer dollars for this two year period.

Program: 0036-730-130-340-746 - Unified Family Court

Program Description:

Unified Family Court (UFC) Family and Juvenile Court Improvement Pilot) (FJCIP):

FJCIP funding is provided by AOC.

The Unified Family Court Program is a project developed to promote effective judicial coordination of cases involving children. The focus is to coordinate information, hearings, and services for families involved in a Dependency action and one or more related family court proceedings.

A Unified Family Court Coordinator works with the Judiciary and other Dependency Court parties to facilitate the timely handling of dependency cases in need of completion of a parenting plan in order to bring the case to closure and accomplish timely permanency for the children involved."

Division: 740 - Superior Court Operations

Department: Superior Court

Program: 0036-740-002-002-740 - Superior Court Operations

Program Description:

Superior Court Operations:

As a court of general jurisdiction, the Superior Court initially hears and decides cases not specifically assigned by law to another court according to the U.S. and Washington constitutions, and applicable laws, rules and case law. The workload includes felony criminal cases; a wide variety of civil cases; domestic relations (divorce, domestic violence, etc.) cases; probate cases (administration of wills); juvenile offender and dependency (abuse and neglect) cases; paternity, guardianship, adoption, truancy, At-Risk Youth, Children in Need of Services, drug courts, and mental health cases. The Superior Court also serves as an appellate court, hearing appeals from the District and Municipal Courts, Commissioner's proceedings, and certain state and local administrative and legislative agencies.

The court is comprised of seventeen (17) Judges, six (6) appointed Commissioners, (13) Court Reporters, and (15) Law Clerks. Court Administration is responsible for the overall business, program and service functions of the court. These programs and services include Trial Setting, Judge Trades with other Counties, Pro Tem scheduling and payment, Special Set Judicial Calendars, Judicial Information System background checks, Interpreter scheduling, monitoring and payment, ADA Program and services, Jury Services, Guardianship Monitoring Program, Guardian Ad Litem assignment for Family Law, maintaining the GAL registries, Arbitration, Working Copies and Judicial/Commissioner Correspondence, Law Books and Legal Resources, Facility complaints/request for services, Expert Witness fee request approval and payment and Public Disclosure.

Division: 750 - Administrative Services

Department: Superior Court

Program: 0036-750-002-002-750 -
Administrative Services

Program Description:

Administrative Services

Fiscal - provides accounts payable, accounts receivable, payroll, grant and general fund budget preparation, grants management, contract development and management, account reconciliation, and other financial related functions in support of Superior Court. (4 FTEs)

Human Resources - includes recruitment, testing, and selection for vacant positions, union contract negotiations, work place investigation and personnel action, maintenance of personnel files and records, interpretation of personnel guidelines and labor contracts, consultation regarding personnel actions, staffing operational/employee improvement committees, Long Range Planning and program implementation to meet diversity objectives, training in employment related topics, and applicability to Family Medical Leave Act (FMLA), Americans With Disability Act (ADA), Fair Labor Standards Act (FLSA) and other regulatory personnel related laws. (1 FTE)

Technology supports hardware and software applications for all Superior Court staff, and provides liaison with the Office for Administration of the Courts as they upgrade and/or develop technology requiring interface between the state system and local county systems in the area of case management and related procedures and the county Department of Information Services as they work to enhance the technology that supports Superior Court operations and programs. (3 FTEs)

The Trial Court Improvement Account was established by state legislation approximately 10 years ago. It is a special revenue account that distributes funds to the trial courts (superior, district and municipal) to assist with funding issues pertaining to the effectiveness of trial court operations. The source of the revenue is a combination of sources at the state level. The funds are distributed to those courts that elect their judges. In Snohomish County that is superior court, district court and Everett, Edmonds and Marysville Municipal courts. By mutual agreement of the superior court and district court the two courts split the revenue distribution from the state (AOC) on a 50/50 basis. This results in each court receiving approximately \$100,000 each year since the fund's creation (2007). The superior court historically has used the funding to support the technology needs in the court. In 2016 the court implemented the statewide case management system and acquired hardware to facilitate the change of converting to less paper within the courtrooms. In 2018 the court expects that the fund will receive an approximately \$100,000 which will be used to further efficiencies within the court.

Blanche Miller Fund

Blanche Miller, a former Snohomish County Probation Manager, bequeathed funds to Juvenile Court. These funds are to be used to improve the lives of youth involved with Juvenile Court. To that end, the Miller Trust Fund Committee was established by County Ordinance to determine how best to use the money.

In 2017 the Blanche Miller Committee funded an Artist/Mentor program, the Trails to Success Program offering youth work force readiness skills as well as a two week paid internship with Snohomish County Parks, GED funding for youth and grants in kind where Probation Counselors apply for small grants for youth who need specialized help in areas where funds are not traditionally available. Such things may be a car battery to maintain a job, interview clothes, the rental or purchase of an instrument, tattoo removal, etc..

Fund/Subfund: 124/ 002 - 1/10% Sales Tax

Division: 124 - 1/10% Sales Tax

Department: Clerk

Program: 0037-124-124-002-235 - Courtroom Operations

Program Description:

This program focuses on the Clerk’s mandated duties related to chemical dependency and mental health therapeutic courts consisting of recovery courts, involuntary treatment act (ITA) and drug offense sentencing alternatives. The Chemical Dependency/Mental Health (CDMH) .1% Sales Tax provides the funding for courtroom clerks to attend all hearings and trials to prepare complex and detailed, contemporaneous minutes and exhibit indexes. In addition, courtroom clerks maintain control of all exhibits; accept, distribute and file court documents received; act as liaison and provide assistance to Judicial Officers, the public, and attorneys on behalf of the Clerk’s Office.

Our Case Management staff funded through this program provide accurate and timely mandated processing and distribution of court documents filed in therapeutic courts which includes preserving the integrity and security of those documents in perpetuity. Case documents are indexed and stored electronically in the State's case and document management system (Odyssey). These divisions have stringent document and information processing guidelines and timelines which are strictly adhered to, ensuring the timely availability of and access to court records by the court, government agencies, legal community, and the public.

Fund/Subfund: 002/ 002 - General Fund

Division: 700 - County Clerk

Department: Clerk

Program: 0037-700-002-002-231 - Administration

Program Description:

The County Clerk’s Administration Division manages and supports all divisions of the Clerk’s Office by providing policy, planning, managerial and administrative support, and budgetary direction. Additionally, this division responds to time-sensitive requests from Snohomish County and Superior Court Administration, the Washington State Administrative Office of the Courts (AOC), and the Law and Justice Community as a whole. Day-to-day operations in Administration ensure that critical functions are achieved while minimizing the impacts on operational staff; as a result, Clerk staff can focus on providing services to citizens and ensure timely completion of mandated functions. Administrative functions include, but are not limited to, the following:

- Budget and financial management for the office;
- Timekeeping and payroll entry/processing;
- System administration and implementation of Clerk’s software systems including maintaining user accounts and permissions, software installations, training, and acts as a backup for daily electronic court records transfers to the State Digital Archives;
- Human resources functions including recruitment and hiring processes, employee handbook, PRCs, training and employee orientations;
- Public Records Request functions including searching, reviewing, redacting, providing records and responding directly to requestors pursuant to the PRA;
- Network administration, technology and support;
- Purchasing/procurement of supplies, equipment, and maintenance/repairs;
- Website maintenance and support; staffing county committees (e.g., Law and Justice Committee, DoIT’s Business Advisory Committee, etc.);
- Community outreach, and creation/maintenance of publications for citizens (brochures, handbooks, etc.);
- Administrative records preservation including retention, archiving and destruction pursuant to Clerk and State Retention Schedules;
- Liaison with County Executive’s Office, DoIT, Facilities, and other county departments as required;
- Administrative support to the Clerk; and
- Travel processes and payments.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 700 - County Clerk

Department: Clerk

Program: 0037-700-002-002-232 - Judicial Acctg/Judgmts &

Program Description:

The County Clerk is mandated to manage and control all facets of the accounting functions for Snohomish County Superior Court cases. Cashiering staff review and process all new case filings received in person and through the mail, receipt court fees, fines and restitution, and issue writs, orders of sale and other court documents according to statutory requirements. Following generally accepted accounting principles and statutory requirements, accounting staff collect and account for restitution, court fees, fines, bail, registry and trust funds, and child support monies. Further, they are responsible for disbursing restitution to crime victims, and maintaining trust and investment accounts for funds deposited as a part of civil, domestic, estate, and guardianship matters. In 2023 the Accounting Division processed nearly 62,000 in person transactions totaling \$5.4 million and staff issued 11,000 disbursements totaling more than \$27 million.

This division currently monitors more than 30,000 criminal cases and actively collects court ordered legal financial obligations (LFOs) owed by adult defendants. In 2023 the division collected \$1.2 million of court ordered restitution, fines, fees, and penalties. Payments received are processed by the cashiers, and restitution collected is disbursed to victims in accordance with the court orders. In 2023 over \$812,000 of restitution was collected and disbursed to victims of crimes.

This division is also statutorily responsible for entry of judgments entered by the Court. This includes the original judgment, any amendments and subsequent partial- or full-satisfactions of judgments. Judgments are the official decision rendered by the court and details an award of money or property to the parties. Judgments create a lien against parties and serve as the basis for subsequent court proceedings, such as foreclosure or garnishment, and are critical to any real estate transaction. The division processed over 3,600 new judgments in 2023, and 7,200 modifications and / or satisfactions.

Reforms to criminal justice and new legislation continue to have an impact on the workload for this division. In 2020, the Washington State Supreme Court issued a decision in State of Washington v Blake which declared the State's simple possession of controlled substance law to be unconstitutional. As a result, convictions for simple possession dating back to the 1970s are eligible to be vacated and any LFOs paid in those cases will be refunded. Since 2021 a significant amount of staff time has been spent collaborating with other law and justice partners to identify Blake affected cases, vacate convictions and refund monies paid towards legal financial obligations. In 2023, HB 1412, resulted in jurisdiction on non-restitution LFOs older than 10 years being lost. This has impacted the Clerk's ability to collect legal financial obligations in thousands of criminal cases. As a result, the Clerk is required to verify jurisdiction on each case before taking collection actions or receiving payments. On cases where jurisdiction has been lost, we are working with law and justice partners to develop processes to ensure court orders are entered on these cases writing off the expired criminal legal financial obligations. Due to the number of cases impacted by legislative reform it is anticipated work on these cases will continue for several years.

Fund/Subfund: 002/ 002 - General Fund

Division: 700 - County Clerk

Department: Clerk

Program: 0037-700-002-002-233 - Case Management

Program Description:

The Case Management Division provides accurate and timely mandated processing and distribution of court documents filed electronically or in paper form, while preserving the integrity and security of those documents in perpetuity. Case documents are indexed and stored electronically in the state's case and document management system (Odyssey). The division has stringent document and information processing guidelines and timelines which are strictly adhered to, ensuring the timely availability of and access to court records by the court, government agencies, legal community, and the public. As mandated under RCW 36.23.030, 36.23.070, Superior Court rules and Washington State Archives Records Retention Schedule, the Case Management Division maintains the physical custody, control, and security of all Superior Court records, exhibits, and other court related material. Records maintained include criminal, civil, family law, including child support collection, probate, guardianship, parentage, adoption, mental illness, judgments, protection orders (domestic violence, anti-harassment, vulnerable adults, extreme risk protection order, stalking and sexual assault), tax warrants, water rights, and unlawful detainers. Other records maintained include wills, bonds, claims, search warrants, oaths, Superior Court Administrative Orders, and other miscellaneous court documents.

The Case Management Division ensures specific court orders are transmitted to a variety of agencies including the State's Office of Support Enforcement for purposes of child support collection; appropriate law enforcement agencies for enforcement of restraining orders, protection orders, extreme risk protection orders, and no contact orders; the Department of Licensing (DOL) for convictions related to driving and controlled substance offenses as well as loss of firearm rights; National Instant Criminal Background Check System (NICS) for loss of firearm rights in adult criminal, domestic violence protection orders, extreme risk protection orders, and involuntary treatment cases; Washington State Patrol and Department of Licensing when there is temporary suspension of a person's right to possess or purchase firearms due to release from involuntary treatment and when an individual is deemed to be a danger to himself or others.

By mandate, the division processes all appeals filed in Snohomish County Superior Court from lower jurisdiction courts.

The division also reviews the court's pending caseload and monitors six of the eight Superior Court case types to ensure timely resolution and completion for accurate caseload statistics relied on by Superior Court.

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 002/ 002 - General Fund

Division: 700 - County Clerk

Department: Clerk

Program: 0037-700-002-002-235 - Courtroom Operations

Program Description:

The Courtroom Operations Division is responsible for attending all Superior Court proceedings and managing the jury system for the Snohomish County courts. RCW 2.32.050 requires courtroom clerks to attend all superior court hearings and trials to prepare complex and detailed contemporaneous minutes and exhibit indexes; maintain control of all exhibits, court documents, and depositions received; administer jury oaths; receive jury verdicts; act as liaison and provide assistance on behalf of the Clerk's Office to Judges, Commissioners, the public and attorneys. Additionally, the courtroom clerks also perform all bailiff functions in the Court Commissioner departments.

Courtroom Operations performs all administrative duties related to jury management for Superior Court and the four divisions of District Court. Last year over 106,000 jury summonses were mailed, an increase of over 85% from the 2019, pre-Covid totals. These summonses directly impact the workload of other jury management functions performed by the Clerk's Office including answering juror inquiries in person and telephonically; processing jury mail; data entry of juror responses; preparing jury payroll; and providing direct customer support to the jury system users within the Superior and District courts. The jury management system utilizes software that incorporates imaging and electronic document storage, automated data entry, and citizen access via the internet to facilitate the processing of juror candidates.

All of the above functions directly impact Superior Court's ability to proceed with hearings and trials. As mandated, each court calendar must be staffed with at least one courtroom clerk, and some high-volume calendars require two clerks at a time. Courtroom Operations has been in a staffing crisis since 2021 causing greater difficulties in covering courtrooms with properly trained staff. An adequate number of courtroom clerks is required to prevent case cancellations or delays and allows for the efficient operations of the justice system. This decreases liability to the County, reduces costs to the County and litigants, and promotes "public safety and access to justice" as expected by Snohomish County citizens.

Fund/Subfund: 002/ 002 - General Fund

Division: 700 - County Clerk

Department: Clerk

Program: 0037-700-002-002-236 - Customer Service

Program Description:

The Customer Services Division ensures access to court records for the court, government agencies, law and justice agencies, and the public. This division provides direct assistance to the public in person, over the phone, via email and through the mail. In 2023, customer service staff assisted over 30,000 customers telephonically, processed almost 6,300 electronic and mail requests for case information, processed 486 court hearing audio requests, and prepared 4,639 ex parte requests to present to Judicial Officers for signature (the latter of which generated over \$134,580 in 2023). Other mandated duties include issuing writs, subpoenas, warrants (arrest, search and Governor's), Letters of Office in minor and adult guardianships, and Letters Testamentary and Letters of Administration in probate matters. This division performs records research regardless of the age or status of a case for court records dating back to the 1800's.

Pursuant to RCW 7.105 , the Court Services Protection Order Division provides specialized information on protection orders and assistance to victims of domestic violence (DV), harassment, stalking, sexual assault, vulnerable adults seeking protection from predators, and extreme risk protection orders. Protection order services include providing procedural information, court forms, and instructional materials regarding court processes to customers; and reviewing and processing protection order petitions, modifications, reissuances and terminations received in person and electronically through Legal Atoms software. Staff ensure expedient data entry of protection orders in statewide databases and facilitates timely entry into state and federal law enforcement databases. This division works closely with the Snohomish County Sheriff's Office, tribal courts, community organizations and law enforcement agencies. Since the implementation of HB 1320 and SHB 1901, the number of protection order petitions received and processed by the Court Services Protection Order Office continues to increase year after year. By June of 2023, there was a 57% increase in the number of petitions received compared to June 2022. In total for 2023, our office processed 2559 new protection order cases and staff responded to 17,776 customer inquiries.

The Courthouse Facilitator Program is authorized under RCW 26.12.240. Facilitators provide assistance to citizens who are not represented by attorneys in legal matters such as divorce, legal separation, invalidity of marriage, modification of parenting plans or child support, parentage actions and guardianship and minor guardianship cases. Assistance provided covers court practices, information in completing complicated court forms (a simple dissolution has over 125 pages), reviewing court documents for completeness, scheduling hearings and interpreters, calculating child support and providing referrals to other agencies. The facilitators provide services that include meeting with individuals by appointment (over 1,125 hours of scheduled appointments for over 756 litigants), assisting walk-ins (3,148 customers), and answering questions via the telephone (9,118). These services account for just over 14,000 customer contacts and saves the judiciary a significant amount of time by helping to ensure that litigants are prepared for their hearings.

Division: 700 - County Clerk

Department: Clerk

Program: 0037-700-002-002-237 - Juvenile

Program Description:

The Juvenile Division is a full-service, small-scale Clerk's Office that mirrors services provided by the Clerk's Office located at the main county campus. The juvenile division provides service and support for all juvenile matters including juvenile offender, dependency, foster care guardianship, extended foster care, dependency guardianship, truancy, at risk youth, child in need of services, emancipation, employment of under 14 youth & surrogacy parentage cases as well as service and support for appeals to Court of Appeals and the Supreme Court, minor guardianship, civil protection orders and a wide variety of family law and civil matters

As mandated under RCW 36.23.030, 36.23.070, Superior Court rules and Washington State Archives Records Retention Schedule, the Juvenile Division maintains the physical custody, control, and security of Superior Court records, exhibits, and other court related material.

Additionally, the juvenile division is responsible for an ongoing multi-year audit and destruction project which includes additional responsibilities in training and monitoring grant funded temporary staff. This project requires in depth knowledge of all case types filed with the Clerk's Office and knowledge of historical process and procedure to ensure the temporary staff have the tools necessary to accurately complete their work.

Juvenile division staff responsibilities include:

Courtroom Operations: Attend and create an accurate, independent record for all superior court proceedings for cases calendared at the juvenile court facility.

Customer Service/Cashiering/Court Services: Ensure appropriate access to court records (including confidential cases and cases sealed by court order) to the court, government agencies, law and justice partners, and the public. Staff provide direct assistance in person, over the phone, via email, and through mail.

Case Management: Provide accurate and timely mandated processing and distribution of court documents filed electronically or in paper form daily, while preserving the integrity and security of those documents in perpetuity. The division has stringent document and information processing guidelines and timelines which are strictly adhered to, ensuring the timely availability of and access to court records by the court, government agencies, legal community, and the public.

The division staff ensure specific court orders are transmitted to a variety of agencies including the State's Office of Support Enforcement for purposes of child support collection; appropriate law enforcement agencies for enforcement of restraining orders, protection orders, and no contact orders; the Department of Licensing (DOL) for convictions related to driving and controlled substance offenses as well as loss of firearm rights; National Instant Criminal Background Check System (NICS) for loss of firearm rights in adult criminal, juvenile offender, and civil protection orders.

The division staff process and transmit Superior Court cases to the State Court of Appeals (Division I) and the State Supreme Court.

Juvenile division staff review the court's pending caseload and monitor juvenile cases to ensure timely resolution and completion which provides accurate caseload statistics for Superior Court.

Program: 0038-204-002-002-364 - Medical Services

Program Description:

The Medical Services program represents the General Fund budgetary impact of our Health Services Division, providing inmate care within the jail facility. We are staffed with certified medical personnel and provide all mandated medical, dental and psychiatric care. Staff interface with community physicians and facilities; conduct court ordered medical procedures; and perform assessments focusing on communicable and sexually transmitted diseases. Effective operation of the division requires frequent communication with staff, prisoners, courts, police agencies, local hospitals and agencies. The mental health unit performs assessments and monitoring of mentally ill prisoners with the assistance of the contract psychiatric nurse practitioner, who oversees use of psychotropic medications and evaluation of the more seriously mentally ill.

Program Detail

Fund/Subfund: 100/ 022 - Opioid Settlement

Division: 300 - DEM Operations

Department: Dept Emergency Management

Program: 0039-300-100-022-456 - Opioid Settlement

Program Description:

These funds are a result of the settlement agreement between the State of Washington and three pharmaceutical distributors, McKesson Corp., Cardinal Health Inc., and Amerisource Bergen Drug Corp. This money, paid as installments over 17 years, represents Snohomish County's allotment as a City/County with over 10,000 members. Funds must be directed towards addressing the opioid epidemic in Snohomish County. Fund spent must either be directly referred to in the Distributors Settlement Documentation from the WA Attorney General or must be evidence-based, evidence-informed, or a promising program or strategy. Funds spending must be transparent and available to the public and are subject to local oversight by a regional opioid abatement council.

456 - Opioid Settlement

Snohomish County 2025 - 2026 Budget

Program Detail

Fund/Subfund: 130/ 356 - Emergency Management

Division: 300 - DEM Operations

Department: Dept Emergency Management

Program: 0039-300-130-356-310 - DEM Operations

Program Description:

Snohomish County's Department of Emergency Management is a coordinating agency that works with jurisdictions and partner agencies to create a framework within which the County's communities reduce their vulnerability to hazards and cope with disasters. Our accredited program (achieved accreditation in 2023 through the Emergency Management Accreditation Program – EMAP) adheres to the accepted principles of emergency management: Comprehensive, progressive, risk-driven, integrated, collaborative, coordinated, flexible, and professional. In addition to fulfilling this responsibility for unincorporated Snohomish County, we also maintain interlocal agreements (ILAs) to provide emergency management services with 19 towns, cities, and tribes within Snohomish County.

DEM's staff perform work in all five phases of emergency management. Our mitigation and prevention efforts focus on preventing hazards or minimizing the impact of disasters that are not preventable. Activities within these two areas include organizing the Local Emergency Planning Committee (LEPC), which deals specifically with hazardous materials, and maintaining the Snohomish County Hazard Mitigation Plan (HMP). The HMP is a multi-jurisdictional plan comprised of multiple partners that contains an in-depth analysis of the County's natural and human caused hazards and coordinates the partner jurisdictions' strategies and actions proposed to address the vulnerabilities identified by that analysis. The HMP also affords Snohomish County access to federal pre- and post-disaster mitigation grant funds.

Planning, training and exercising form the cornerstone of the preparedness phase, which focuses on our readiness to respond to, and recover from, all disasters. DEM staff work with local, regional, state, and federal partners in a continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action. We also support several active groups of volunteers, including the Snohomish County Auxiliary Communications Services. This dedicated group of volunteer HAM radio operators provide a unique communications capability throughout the county and work diligently to ensure that the communications equipment in our operations center and on our vehicle's functions properly.

The response phase consists of the actions taken immediately before, during, and immediately after an incident occurs. During this phase our focus is on lifesaving and life-sustaining actions, followed by the protection of property and the conservation of the environment and our economy. DEM maintains the Snohomish County Emergency Operations Center, which is the physical place from which multi-agency and multi-jurisdictional coordination occurs during disasters. At the EOC we process resource requests, develop situational awareness and a common operating picture, coordinate the dissemination of public information, and act as the interface between local jurisdictions and state and federal disaster support. DEM also maintains a 24/7 duty officer who is available to facilitate resource needs for smaller-scale incidents and provide alerts and/or warning using our Rave notification system. When requested, we also deploy our communications vehicle and/or our command vans.

The final phase, recovery, consists of those activities that continue (in some cases, for years) beyond the emergency period. These include measures needed to restore critical community functions and begin to manage stabilization efforts. The recovery phase begins immediately after the threat to human life has subsided and the goal of the recovery phase is to bring the affected area to its "new normal." During this phase, DEM staff collect and report damage assessment information related to government and private property; assist with the establishment of Disaster Resource Centers (DRCs); and facilitate the provision of other disaster relief programs to residents. We coordinate these disaster relief a

Fund 508 – Employee Benefits 2025 Budgeted Rates➤ Health Insurance Rates

- The starting point for health insurance rates is the current 2024 plan year rates, which have been developed by the County's actuary. These rates will still be effective January and February of 2025. For March-December 2025, an estimated composite premium is used based upon advice from our actuarial consultant. Once the estimated rates are calculated, we then examine the premium-sharing arrangements with the County's various employee groups/bargaining units to determine how much of the premium increase will be covered by the County and how much by the employees.

➤ Admin Fee

- This fee is \$40 per employee per month, paid for by departments and outside districts who subscribe to the County's benefit plans. This covers the cost of administering the benefits, including internal county costs, actuarial and brokerage support, Wellness program, EAP program, Section 125 plan administration, and other miscellaneous administrative costs.

Other plan component changes based on advice from the County's actuarial consultant include:

➤ Vision

- The 2025 budgeted vision premium assumes 2% increase over the 2024 premium.

➤ Dental, Life/AD&D, Long Term Disability

- Dental: estimated 5% increase over the 2024 plan year rates, for the dental rates that will be effective March 2025.
- Life/AD&D: no increase in Life/AD&D premiums is anticipated.
- Long Term Disability: The cost of this benefit is a calculation based on a percentage of covered payroll (e.g., an employee's salary). This rate for the 2025 plan year is projected at .230%.

Fund 508 – Employee Benefits 2026 Budgeted Rates

Rate development for the second year of the biennium followed the same process as above, using the 2025 estimated rates as the starting point.

2025-2026 County Training & Development Fund 512

The total costs of training budgeted in the training internal services fund for this program have been allocated to all County departments based on FTE counts by department, fund, and program as a percentage of the total County FTEs. FTEs in Fund 130 Grant Control are excluded from the allocation.

The cost per FTE is approximately \$15.68 per month. This calculation is based on 3291.31 FTEs and a total cost of \$1,238,954 for the biennium. This includes salaries, benefits, trainings, and indirect costs. \$229,614 of fund balance is used in the biennium – total allocated to departments is \$1,009,340.

This training allocation is charged monthly to all County departments which have FTEs. These funds are spent on 4 full-time FTEs, training development, contracted trainings, as well as e-Learning management for countywide training.

Snohomish County
Fleet Services
2025/2026 Fleet (ER&R) Supplement

As indicated in the Finance Department's 2025/2026 biennial Budget Instructions, "Vehicle and equipment charges (ER&R) will be rolled forward from 2024 to 2025/2026. ER&R will provide detail rate information to all departments. Changes to update your rates need to be made in priority packages. Departments will be responsible to revise their rates as appropriate."

ER&R Overview

- A 2025 Rate Schedule and a separate 2026 Rate Schedule lists all ER&R rental rates (Replacement and O&M) by asset class. Please use correct rates accordingly based on the year the ER&R assets are in use.
- Total anticipated ER&R costs increased by 7% for 2025 and another 7% for 2026.
- Fuel costs are expected to ease slightly but remain high in 2025/2026.
- Fleet shop labor rates increased from 2024 to 2025/2026 and are as follows:
 - Auto/Light-Duty/Radio Shop, \$123.05/hr
 - Diesel/Heavy Equipment Shop, \$149.80/hr
 - Small Gas Powered Equipment, \$90.95/hr

ER&R Rate Basis

Replacement Reserves: ER&R rental rates are comprised of several components. A replacement cost component is based on the projected replacement cost in the year the asset is planned for replacement, billed incrementally (typically monthly) over the life of the asset. Funds collected are placed into the ER&R reserve fund to pay for future replacements. Remaining life projections are updated annually based on the most current utilization data available. Replacement timing is typically based on a miles or years threshold, and usually "whichever comes first".

Operation and Maintenance: Rates also include an O&M (operation and maintenance) component (generally a monthly or per-mile charge) based on the cost of operating and maintaining the asset (fuel, preventive maintenance, and repairs... things like oil changes, tire replacement, brake replacement, engine repairs, etc.). The 2025/2026 O&M rate is based on 2023 quantities and expenditures for fuel, parts and labor, adjusted for 2025/2026 prices; and is based on 2023 utilization. Using US Energy Information Administration (EIA) forecasts adjusted for Western Washington, and the County's contract discount, we are estimating fuel costs for 2025/2026 at \$4.25/gallon for gasoline, \$4.85/gallon for diesel, and \$5.50/gallon for diesel exhaust fluid. The O&M cost for county vehicles is largely comprised of the price of fuel. Utilization is measured in terms of miles driven, and utilization projections for 2025/2026 are based on 2023 actual utilization. If you anticipate a change in utilization in 2025/2026 due to project workload or increases in the

services you provide, your department's budget may need to reflect that change accordingly. Please consult with Fleet Services.

Fleet uses variable mark-ups on parts to fund the indirect costs of providing parts management services and to help cover stores and operations overhead. A fixed markup of \$0.35 per gallon on fuel covers the cost of managing the fuel contract and accounting, and the physical management of County fueling facilities.

Motor Pool/ER&R Services

If your department uses re-renter vehicles, Motor Pool, or has department-owned vehicles that are fueled and/or maintained by Fleet Services, you will need to make appropriate adjustments to the ER&R expense budget provided in order to reflect that additional usage.

Additional or Enhanced Vehicles/Equipment

If you plan to purchase additional fleet equipment in 2025/2026, please contact Shawn Weeks, Special Projects Coordinator, directly (x 6651) for assistance in developing a cost estimate. Equipment valued over \$50,000 should be included in your CIP, under \$50K should be listed as "Other Capital" (see Exec. Order 08-02C, section 5.6). Additional vehicle/equipment needs should be included in a priority package from your department. For your convenience, attached is the justification form for additional/enhanced equipment. We encourage departments to review their vehicle utilization, and make use of Motor Pool vehicles before adding vehicles.

Note: It is possible that some vehicles may need to be redeployed from one department to another to reduce 2025/2026 costs. Your department may be asked to use a redeployed vehicle rather than getting a new one to reduce the need to expend capital and to fully utilize existing resources.

If you have any questions regarding Fleet's rate structure, please call Patrick Chen, Fleet Services Accounting Analyst at extension 6062, or Al Garcia, Division Manager, at extension 3330. For questions, consultation or recommendations on new vehicles and equipment, contact JaNae Nelson, Director of Facilities & Fleet, at extension 3035. For budget related questions, please refer to your budget analyst.

New and Replacement Equipment Request Form

Department/Division _____ Date _____

Contact Name _____ Phone _____

Please check the appropriate box

Equipment Type	Definitions
<input type="checkbox"/> New	Additional equipment for the Department's/Division.
<input type="checkbox"/> Replacement	Comparable or "downsized" replacement equipment or vehicle.
<input type="checkbox"/> Enhanced	Replacement equipment, but other capabilities are now requested.
<input type="checkbox"/> Renter	A vehicle replaced, but retained for temporary use.

Equipment Requirements- Check all that apply

- 2-Wheel Drive Diesel Two-Door Automobile Pickup
 4-Wheel Drive Gas Four-Door Station Wagon Flatbed
Maximum No. of Passengers _____ Sport Utility Passenger Van Cargo Van
 Equipment (Specify type _____)
Maximum Payload _____
Date Required _____ End Date _____ (Required for renters)

List other job requirement options or features desired.

Justification (Be specific regarding benefits (savings/operational) the equipment provides):

**Snohomish County
Facilities & Fleet Management
2025/2026 Space Allocation
Supplement**

This supplement to the budget instructions is designed to assist you in identifying space allocation budget requirements in preparing your budgets and help assure that you have planned for space rent charges in the 2025/2026 biennium. Your space allocation costs have already uploaded to Questica by the Finance Department.

It is each department's responsibility to allocate space charges within their annual budget request, for the space they are projected to occupy during 2025 within County Campus buildings, County maintained off-campus buildings, and any leased spaces they expect to occupy.

Should there be any questions about your square footage and related charges, please contact Qirui Zhang, Facilities & Fleet Management, at 388-3221. For questions related to the cost allocations, please contact Vanessa deSalome in Finance at 388-3855. For general questions about Facilities & Fleet Management, please contact Al Garcia at 388-3330.

Space Allocation Overview

The Department of Facilities space allocations, surcharges and debt recovery charges support the cost of occupying space in county buildings and facilities in several key service areas as follows:

- ◇ Facilities Maintenance - Mechanical, Electrical, Carpentry, Heating/Ventilation/Air Conditioning, Utilities, Landscape Maintenance, Painting, Facilities Repair, Architectural and Planning services, Administration and Janitorial Services.
- ◇ Property Management - Administrative and support services
- ◇ Bond Debt Service Surcharge - To meet county debt repayment requirements for capital projects and major building repairs
- ◇ CRI Capital Recovery - Required costs for county debt repayment related to facilities construction and remodel of county buildings.

Space Allocation Rate Calculations

Snohomish County has established mechanisms to equitably recover costs for these facilities services through space allocations and surcharges. The "Interfund Space Rent Charge" supports the costs of occupying County buildings and facilities.

The "Interfund Space Rent Charge" is a bi-annual charge that is calculated using the projected costs of facilities operations divided by the amount of square footage each department is projected to occupy throughout 2025-2026 period. There are several components of this charge, including facilities maintenance, administration/planning and property management services. Maintenance costs have been allocated to the administration buildings, courthouse, records/evidence building, the multi-service building, Mission, and DJJC. Facilities administration and property management have been allocated to all county-owned/occupied building space plus corrections facilities. Excluded from this total space amount is "exempt" space which includes areas such as shared conference rooms, stairways, lobbies, public restrooms, etc.

Off-campus Public Works buildings have their facilities related charges directly allocated to their budgets. Other facilities (Cascade/Evergreen/South District Courts, Emergency Management, Fleet Buildings, Medical Examiner, Sheriff's East Precinct, Cathcart Gun Range and Impound Lot) have their janitorial/utilities and/or maintenance charges directly allocated to their budgets.

The "Capital Recovery Charge" has been allocated only to the administrative buildings, courthouse, and records/evidence building. "Bond Recovery Surcharge" and "Capital Reserve" rates have been allocated to county campus buildings, DJJC, & Records Building as well as to the outlying District Courts and Detention Facilities.

The Capital Recovery and Bond Recovery Surcharge rates are calculated by multiplying the amount of square footage each department is projected to occupy by an established surcharge rate.

Additionally, any department who occupies leased space must include this cost in an applicable priority package for that department's annual budget request. Leased space costs will not be pre-loaded into Questica.

Space Allocation Costs

2025/2026 Interfund Space Rent: The two-year average Interfund Space Rent base charge is \$**19.56** per square foot for occupied space in the administration buildings and the courthouse for 24 months starting January 2025. The components of this are a maintenance charge of \$**18.67** per square foot, and a Property Management charge of \$**0.89** per square foot. The Jail buildings have an average base of \$**20.33** per square foot, which is comprised of the \$**19.44** corrections maintenance charge plus the \$**0.89** property management charge.

For other county space: The DJJC, Multi-service & Mission buildings have a two-year average per-square foot charge of \$**19.56** (which include the \$**18.67** maintenance charge, and the \$**0.89** Property Management charge). The Records/Evidence building has a per-square foot charge of \$**19.56**, which is composed of the \$**18.67** maintenance charge, and the \$**0.89** Property Management charge. This building is also subject to the two-year average rate of \$**13.50** capital recovery service charge. The Airport, DEM, Medical Examiner, Parks Admin, Sheriff's Facilities, Cascade, Evergreen and South District Courts, and Health facilities each have a two-year average per-square foot charge of \$**0.89** for Property Management services; other services are directly allocated.

2025/2026 Bond Debt Service rate: The bond recovery surcharge for most county buildings is \$**0.31** per square foot. The exceptions are for out-lying district courts at \$**0.80** per square foot, the DJJC and Multi-Service Center at \$**0.64** per square foot, and the Jail Buildings at \$**0.94** per square foot.

The 2025/2026 Capital Reserve rate is a two-year average rate of \$2.36 per square foot for facility improvements.

The 2025/2026 Capital Recovery Charge is a two-year average rate of \$13.50 per square foot. (Administration, Courthouse and Records Buildings)

NOTE: The capital recovery charge component is not included in general fund program budgets. The allocation amount is for informational purposes only; debt recovery charges from general fund programs are budgeted aggregately in the non-departmental budget.

Snohomish County Finance Department

2024 Budget Process

Indirect Cost Allocation Plan (ICAP) Rate Overview & Summary

The development of the 2025-26 Indirect Cost Allocation Plan (ICAP) was consistent with the approach used for the 2024 ICAP. A 18.14% annual inflation/true-up factor was applied to 2023 actual costs for the 2025-26 ICAP allocations. 2025-26 overall recovery of indirect costs increased 26.68% compared to 2024.

Indirect Cost Allocation Rates

<u>Year</u>		<u>Rate</u>
2022	Adopted	41.77%
2023	Adopted	40.85%
2024	Adopted	40.96%
2025	Recommended	44.03%
2026	Recommended	44.25%

ICAP Adjustment

108 Commissary – ICAP plus inflation factor allocated \$34,782 to this fund. The bulk of these costs are based on metrics for the Treasurer and Financial Operations. Payments to the vendors are set up and audited daily by the department in Cayenta. These are consolidated into a much smaller number of warrants that are actually issued and processed by the Central Services departments. The indirect cost amount actually charged to the fund will be reduced by \$<16,409>. Total Commissary Fund expenditures in 2024 were \$492,285.

Underlying Factors for Rate Increase/Decrease

The 2025-26 ICAP recovery increased by approximately 2,475,183 or 26.68% compared to 2024, due to two major factors.

First, central service departments expenditures for 2023 Actuals increased approximately \$3,118,787 from 2022 Actuals, spread across all paying and non-paying funds.

The second factor impacting the 2025-26 ICAP for paying Departments is the inclusion of an annual inflation factor of 7.11% and a true up of 2023 actual expenditures to the 2023 budgeted ICAP. The true up resulted in an increase in the amount of ICAP for 2025 of \$2,486,808 or 11.29%.

The resulting factor (inflation plus true up) total is 18.14%. The increase resulting from this (inflation plus true up) factor is approximately \$4,091,960 for paying Departments.

Departmental Variations

Allocation of Executive, Council, and Finance Planning central service costs are impacted by any significant variance between a department or program’s 2022 and 2023 actual expenditures and use of the allocation metrics. Variances in a Department’s ICAP allocation can also result from any significant variances in the relationship between a department or program’s expenditures and the County as a whole. The pattern of rate fluctuations for individual departments and/or programs is consistent with prior years. The costs of these central service providers are allocated based on 2023 actual expenditures of each department.

Allocation of 2025-26 Central Service Costs Based on 2023 Actual Costs

**SNOHOMISH COUNTY FINANCE DEPARTMENT
2025-26 BUDGET PROCESS
INDIRECT COST ALLOCATION METHODOLOGY**

1. Cost Allocation Plan defined

A cost allocation plan is a way for a department to recover the cost of providing services. Some departments such as IT, ER&R, and Facilities Management directly charge other departments for the cost of providing services to them, through rates. This is a **Direct Cost Allocation Plan**.

An **Indirect Cost Allocation Plan (ICAP)** provides a way to recover some of the cost of providing services through indirect cost charges. Our ICAP allows recovery from non-General Fund programs for support provided by our General Fund Central Service departments, including Finance, HR, the Treasurer, the PA, the Executive and Council.

2. Why we need an Indirect Cost Allocation Plan

There are three main reasons why we use an Indirect Cost Allocation Plan:

- By recovering some of these costs of our Central Service departments, we can generate revenue for General Fund
- The County is mandated to have a documented, consistent, reasonable and equitable method to allocate costs, that adheres to 2 CFR 225 (formerly OMB Circular A-87) guidelines, “Cost Principles for State, Local, and Indian Tribal Governments”
- To comply with Washington State Auditor as they audit this plan each year.

3. Authority

The Budget indirect cost charges and the cost allocation plan were developed under 2 CFR 225 (formerly OMB Circular A-87) guidelines, Cost Principles for State, Local, and Indian Tribal Governments.

2 CFR 225 (A-87), Cost Principles for State, Local, and Indian Tribal Governments, establishes principles for determining the allowable costs incurred by state, local, and federally recognized Indian tribal governments under grants, cost-reimbursement contracts, and other agreements with federal agencies. These principles explain which types of costs may be reimbursed under a covered federal award. They are designed to provide that the federal government bears its fair share of direct and indirect costs for funded awards, except where restricted or prohibited by law.

In addition to 2 CFR 225 (A-87), local governments must also meet the requirements of state law, RCW 43.09.210 in Washington State. Per the Washington State Auditor, the plan design should provide a **consistent, reasonable and equitable** method to allocate costs. (Carol Ehlinger, Program Manager with the

**SNOHOMISH COUNTY FINANCE DEPARTMENT
2025-26 BUDGET PROCESS
INDIRECT COST ALLOCATION METHODOLOGY**

Washington State Auditor's Office, ("Cost Allocation Plans", Puget Sound Finance Officers Association, May 13, 2015, Tukwila, WA)

Generally, indirect costs are allocated to programs in proportion to the benefit received by each program activity. To produce an equitable result in relation to the relative benefits derived, allocation bases for distribution of costs were selected to best reflect the service provided.

- The allocation plan of central services charges is consistent to all programs.
- Any change to the distribution methodology is applied to all programs.
- Some programs may not be billed because of legal or other constraints.
- The 2025-26 allocation plan is based 2023 actuals.
- 2023 expenditures for central services costs are adjusted for anticipated inflation to approximate expected 2025-26 Central Service expenditures.
- The 2025 allocation plan is adjusted for a True Up of 2023 actuals to 2023 budget. 2026 will be adjusted for a True Up to 2024 actuals with the next rate model.

4. Basis for Distribution of Central Services

Executive and Council:

- Elected officials and aides and their related costs are excluded from allocable costs.
- Costs are allocated based on the 2023 actual expenditures of each department.

Financial Planning (Budget & Systems):

- Costs are allocated based on the 2023 actual expenditures of each department.

Financial Operations (Accounting):

- Costs are allocated based on the average number of invoices processed each month.
- $2023 \text{ Actual Expenditures} / \text{Total \# of Invoices} \times \text{Invoices processed by each department/program in 2023}$.

Purchasing:

- Costs are allocated based upon the average number of purchase orders initiated each month by departments.
- $2023 \text{ Actual Expenditures} / \text{Total \# of Purchase Orders} \times \text{Purchase Orders issued by each department/program in 2023}$.

Human Resources:

- Costs are allocated based on the departments' number of FTEs.
- $2023 \text{ Actual Expenditures} / \text{Total \# of 2023 FTEs} \times \text{\# of department/program FTEs in 2023 adopted budget}$.

Treasurer:

- Costs of allocable activities are allocated based on the average number of invoices processed each month.
- $2023 \text{ Actual Expenditures} / \text{Total \# of Invoices} \times \text{Invoices processed by each department/program in 2023}$.

Prosecuting Attorney – Civil:

- Costs of the Civil Division, excluding Family Support and ITA, are allocable and are distributed to serviced departments based on the actual hours spent servicing each department.
- $2023 \text{ Actual Expenditures} / \text{Total \# of Hours} \times \text{hours of service provided to each department/program in 2023}$.

**SNOHOMISH COUNTY FINANCE DEPARTMENT
2025-26 BUDGET PROCESS
INDIRECT COST ALLOCATION METHODOLOGY**

To summarize the allocation metrics:

Purchasing	Number of POs
HR	Number of FTEs
Finance Operations	Number of invoices processed
Treasurer	Number of invoices processed
PA Civil	Actual hours of service provided
Executive and Council	Actual expenditure costs
Finance Budget	Actual expenditure costs

5. Rules and Restrictions for Payer and Non-Payer

- General Fund
- 300 Capital/Multi Year Funds (stopped in 2005), (with the exception of Department 09, Fund 309 Program 949 included starting with 2017 budget)
- Fund 130 Grant Control – due to restrictions that many grants have for paying administrative costs such as those allocated by the ICAP
- Dept 20 Pass Through Grants
- Debt Service
- Outside Districts – Treasurer costs are allocated to the Outside Districts. Interest earnings retained by the county on investments are assumed to cover cost of providing financial services. Finance Operations charges districts directly for accounting services.

7. Process

The ICAP allocation model consists of two parts – an Access database and an Excel spreadsheet.

The ICAP Access database cannot be updated until Accounting has finalized prior year totals (mid to late April). The database must be readied for the coming fiscal year before the rate model can be completed in the spreadsheet. Timing can be tight, as final ICAP allocations must be done and uploaded in BDT (by mid-May) in preparation for releasing the BDT June 1.

The accounting data (from Cayenta), some payroll data (coming from High Line, but filtered through the BDT), and Prior Year Data (originally from Cayenta, but filtered through the BDT) are all gathered in the ICAP database, along with hours from the PA's office.

The FTE allocation is verified, and then the ICAP Database will go through an iteration to allocate the Central Service costs. It then goes through a second allocation to re-allocate the costs allotted to the Central Service departments in the first allocation.

The allocation data is then exported from the database into the Excel spreadsheet rate model, where further adjustments and calculations will take place, preparing the data that will then be uploaded into the BDT.

INSURANCE RATE DEVELOPMENT

2025/26 BUDGET

Purpose

- To enhance understanding of value of managing risk in each department, especially those generating losses.
- To reduce loss experience by motivating departments with poor or average loss experience to participate in and improve loss prevention efforts.
- To reward favorable loss experience
- To develop Fund Reserve policy to ensure adequate provision of Reserves.
- To distribute Risk Management costs by using a consistent and meaningful allocation model.

Elements of Risk Premiums:

- General Liability
- Specific County Purchased Policies
- Risk Management Program
- Workers Compensation
- Unemployment Compensation

Determination of Premium Amounts

General Liability	<ul style="list-style-type: none">• Based on actuarial recommendation• Prosecutor Tort Division costs (2024 budget + inflation).• Additional amount for estimated anticipated losses in 2024
County Purchased Policies	Projected 2025 & 2026 premium costs of all County policies.
Risk Management	Actual Risk Management Division costs (2023 actuals + inflation factors).
Workers Compensation	Based on actuarial recommendation + inflation
Unemployment Compensation	Based on current trending; allocated on 4-year average of actual incurred claim cost.

Distribution of Costs Methodology

General Liability

A 4-year average claim experience provides the basis by which projected costs are allocated to departments. These claims paid by department are reported by the Prosecuting Attorney. Incurred claims and Prosecuting Attorney costs are weighted on a 70% / 30% basis, respectively.

Changes in departments between years are capped at a max of 40% & min of -20% to smooth out impacts of large anomalies.

Specific County Purchased Policies are charged to the covered departments / programs based on actual policy costs.

Property Insurance Policies are charged to departments occupying County facilities based on square footage and property valuation.

Costs of the Finance Risk Management Division are distributed on the same basis as the General Liability distribution methodology

Workers Compensation

Workers Comp costs are based on actuarial loss forecast summary and distributed to departments based on a 4-year average claim cost experience.

Changes in departments between years are capped at a max of 40% & min of -20% to smooth out impacts of large anomalies.

Unemployment Compensation

1. The minimum amount is charged to all departments based on department wages.
2. Projected 2025/26 costs are allocated to the departments based on 4-yr average incurred costs.

Department of Information Technology

2025-2026 Budget – IT Supplemental Information

This supplement to the 2025-2026 Budget Instructions is to assist in budget preparation and technology planning for 2025-2026. Departmental detail of metric counts and allocations are being individually distributed to departments through IT's SnoCo Connect site:

<https://snoco.sharepoint.com/sites/IT/SitePages/2025-2026Rates.aspx>

If you have questions concerning the rates or allocation process, please contact your department's budget analyst or IT Fiscal Resources Analyst, Bao Dinh at 425-388-7043.

<p>Allocation Overview</p> <p>Department of Information Technology provides services clustered into seven distinct services. To ensure interfund costs are distributed in a fair and equitable manner, services are allocated using the following process:</p> <ol style="list-style-type: none"> 1. Costs associated with each service are identified, estimated, and assigned metrics. 2. Metrics associated with each service are collected. Metrics may include items such as FTEs, workstations, licensed users, SIP phones, etc. Certain services may be associated with more than one metric. 3. Costs are then allocated to departments in proportion to their metric counts as a percentage of county-wide totals. <p>The following services are departmentally budgeted, rather than being allocated via rates:</p> <ul style="list-style-type: none"> • Printing and copy services • Mail services • Air cards, Tablets, iPhone and Android monthly service and wireless device purchases • Special projects and advanced technical training. <p>For these items, please review your department's recent monthly bills and adjust to forecast your 2025-2026 budget requirement, taking into consideration any planned changes during 2024.</p>	<p>Additional Items to Consider</p> <p>Technology Replacement Program (TRP) for PCs and laptops has been partially funded in the 2025-2026 rates (25%) for replacement of only the oldest machines.</p> <p>Additional service catalog items may be requested. If you anticipate requesting these items, include them in your expenditure budget in account codes (DACs) other than IT Interfund object code 9503.</p> <p>Special projects that involve capital and staff investment must be requested by individual departments. Priority Packages should be reviewed with IT management prior to submittal through the budget process.</p> <p>Be sure to include budget requests for not only the initial outlay, but also any additional ongoing operating costs that result from the investment in new technology</p> <p>Priority Package Review</p> <p>IT is available to review all technology Priority Packages in accordance with SCC 2.350. Please plan to allow our department at least two weeks to review and respond to any priority package that includes a significant technology component. We are eager to assist you with technology planning. Contact our Fiscal Resources Analyst or IT Management to initiate the review.</p>

2025/26 Public Records Office Interfund Rates

The Public Records Office (PRO) resides in an internal service fund (506) and is in the Department of Finance. It was transferred from the Department of Information Technology in the 2019 Adopted Budget. It is funded by a rate plan which receives contributions from all County Departments and Offices. Allocation of annual rates is based upon FTEs.

2025/2026 Security Services Interfund Rates

The Security Services internal service fund receives contributions from all County Departments and Offices. The level of services received by those departments is varied, and allocation of annual rates is based upon two factors that represent those differences.

First, the cost of providing campus security by the Marshall FTEs and Allied Security contract employees is allocated by the total square feet of departments receiving security services, but only in the buildings that are monitored. Those departments not receiving direct security services at their location are not charged this component. These departments include Airport, DCNR-Parks, Emergency Management, and Health Dept.

Second, the cost of administration of the program is allocated to all Departments, the amount determined by a department's FTE count. Currently, administration costs consist of one supervisor to provide general coordination of all services and one security support specialist to provide keyless entry services.

Third, the cost of 3.0 Marshal FTEs is allocated directly to the District Courts, and the cost for lobby screening is allocated directly to Sheriff's Office Corrections based upon services added during 2014.

Subject: 2025-2026 Executive Recommended Budget Document Transmittal

This memo transmits the legislative actions, reports and information related to the 2025-2026 Executive Recommended Budget. Legislative actions are summarized in *Exhibit 1 – 2025 Ordinance ECAF List*. Additional reports are listed in *Exhibit 2 – 2025-2026 Budget Process List of Documents to Council*. Following is additional information regarding the 2025-2026 Executive Recommended Budget:

Reorganizations

- Snohomish County Code requires a list of major reorganizations to be submitted with the budget. The 2025-2026 Executive Recommended Budget does not include any major reorganizations. The Arts Commission fund 199 was moved from Dept 09 – DCNR to Dept 01 - Executive.

Six-Year Projections

- As required by Snohomish County Code, six-year projections are included with the recommended budget. The authors of each projection are available to respond to Council questions regarding their analysis.

General Fund Reserves and Liquidity

- Chapter 4.26.065 (2) requires that the information accompanying the budget shall state the amount of available reserves in the General Fund by dollar amount and as a percentage of prior year revenues. It also requires a calculation of the amount of available reserves needed for liquidity purposes. Furthermore SCC 4.116.040 and 4.26.065 require the Executive budget to include a recommendation for a General Fund contribution to the revenue stabilization fund if reserves exceed liquidity needs.

General Fund Reserves

The Finance Department has reviewed available reserves in the General Fund. The following matrix describes audited, projected, and recommended fund balance levels.

Date and Source of Fund Balance Amount	Total Fund Balance	Revenue Stabilization Fund Balance	Uncommitted Fund Balance	Uncommitted %	Total %
12/31/2021 Audited	\$ 95,735,594	\$ 10,667,881	\$ 85,067,713	35.33%	39.76%
12/31/2022 Audited	\$ 106,590,978	\$ 12,039,612	\$ 94,551,366	31.02%	34.79%
12/31/2023 Projected	\$ 106,702,784	\$ 13,226,576	\$ 93,476,208	33.51%	38.26%
12/31/2024 Projected	\$ 100,015,237	\$ 13,945,806	\$ 86,069,431	28.49%	33.11%
12/31/2025 Recommended	\$74,042,823	\$15,101,255	58,941,568	19.09%	23.99%
12/31/2026 Recommended	\$64,518,733	\$15,796,097	\$48,722,636	15.42%	20.42%

General Fund Liquidity

- Per SCC 4.26.065 and SCC 4.116 General Fund liquidity needs are calculated annually, after the prior year is closed and audited by the State Auditor. This audit typically concludes at the end of the second quarter which is in-line with Executive Office preparation and submittal of the Executive recommended budget. The procedure for calculating General Fund liquidity needs has been updated to utilize the last four trailing period low points. Previously only the last two trailing periods had been utilized. Utilizing the trailing four periods will provide a more stable and predictable liquidity measurement. The required liquidity percentage represents the amount of cash reserves required to support General Fund operations without borrowing additional amounts from other funds or sources. Because revenues, expenditures and the timing of receipts and disbursements vary between days, months and years, the required liquidity percentages will change over time.
- The 2023 preliminary uncommitted fund balance of \$106,702,784 was calculated to be 38.26%, which exceeded the required calculated liquidity percentage of 13.81%. The 2024 Adopted Budget shifts \$719,230 into revenue stabilization, which results in a projected ending revenue stabilization amount of \$13,945,806 at the end of 2024. The strong 2023 projected ending fund balance position allows for an additional \$1,155,449 to be able to be shifted to revenue stabilization in 2025, and \$694,842 in 2026 to get to \$15,796,097 to achieve the 5% identified in SCC 4.116. Note the fund balances depicted are consistent with the 6-year plan which does not include a non-cash accounting adjustments related to unrealized losses and non-spendable amounts.
- The liquidity calculation for the 2025-2026 Budget is 13.81%, please see Exhibit 3 below for the methodology and detailed calculation.

Federal and State Funding Assumptions

- These assumptions vary by department. Specific grants are detailed in grant work plans that are included with department specific motions for Human Services, Department of Emergency Management, Health Department, Department of Conservation and Natural Resources, Prosecuting Attorney's Office, Sheriff's Office, and Superior Court.

Annexation Assumptions for 2025-2026:

- The Executive Recommended budget does not adjust revenues or expenditures associated with annexations.

County Debt Service Commitments:

- The Finance Department provided detailed documentation that includes all County debt service commitments to Jim Martin, Legislative Analyst for the Council. The information provided to Mr. Martin will be useful to the Council in reviewing County debt service information.

Our team has worked hard to present all the required and requested information for this budget package. We recognize this is the first biennial budget submittal using new budgeting software Questica, and we realize this will change the reports and information provided. If we have overlooked any required or necessary documents, please let us know. We look forward to responding to your questions and working with you on these 2025-2026 Executive Recommended Budget documents.

Exhibit 3
General Fund Liquidity Reserves Methodology and Analysis for 2025-2026 Budget

Methodology:

1. Due to property tax cycles, the lowest month fund balances for the County's General Fund occur in Feb/March and September/October timeframe. Calculate the average of cash balances for the General Fund using the last four trailing quarters lowest days fund balance (in this case, 3/25/24, 10/19/23, 3/20/23, 9/21/22). These days are utilized because they precede end of month revenue activity just prior to property tax receipts.
2. Identify any interfund loans outstanding in the General Fund at the date of the cash balance.
3. Take beginning fund balance if fund balance is remaining fairly stable throughout the year. If not, take weighted beginning and ending fund balance.
4. Calculate required liquidity at measurement date by taking fund balance at the beginning of the year, less cash balance plus interfund loans at date of measurement.
5. Divide required liquidity by prior year actual or projected total revenue less interfund transfers to identify liquidity percentage.

Calculation for 2025-2026:

Date	25-Mar-24	19-Oct-23		20-Mar-23	21-Sep-22	Average
Day's Average Cash Balance	\$ 59,078,726	\$ 45,556,717		\$ 54,446,699	\$ 53,250,998	\$ 53,083,285
Interfund Loans Outstanding	\$ -	\$ -		\$ -	\$ -	\$ -
Beginning fund balance (uncommitted)	\$ 93,440,944	\$ 94,551,366		\$ 94,551,366	\$ 85,067,713	\$ 91,902,847
Amount of Fund Balance Required at January 1 to achieve end of year liquidity.	\$ 34,362,218	\$ 48,994,649		\$ 40,104,667	\$ 31,816,715	\$ 38,819,562
Prior Year Revenue less Interfund Transfers	\$ 302,025,101	\$ 278,916,119		\$278,916,119	\$264,531,517	\$281,097,214
Percentage of Prior Year Revenue Required for Fund Balance on January first	11.38%	17.57%		14.38%	12.03%	13.81%
Revenue Stabilization Fund retains reserves in excess of Liquidity up to a maximum of:	5.00%	5.00%		5.00%	5.00%	5.00%
Beginning Revenue stabilization	\$ 13,226,576	\$ 12,039,612		\$ 12,039,612		
Targeted Total General Fund Reserve						18.81%

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan : Department of Economic Development

I. Long Term Goals

Promote the maintenance and enhancement of a healthy economy, as envisioned in the County's comprehensive plan, through the alignment of countywide economic development, workforce, and tourism strategies and initiatives.

Advance economic growth, diversification, and job creation through policy initiatives, programs, and projects to attract and retain businesses, encourage entrepreneurship, and create new markets and opportunities including international trade and investment.

Encourage sustainable and innovative uses of key economic resource areas, including agricultural, timber, and mineral resources.

Develop an effective workforce system for Snohomish County businesses to compete locally, nationally, and globally, and support economic growth in the County and throughout the greater Puget Sound region.

Support economic development by promoting education and training opportunities for the workforce and align human service delivery with employment opportunities.

II. Key Ongoing Core Functions

Partner with local municipalities, county/regional/state- wide economic development entities, chambers of commerce, port districts, et al, to promote county economic development objectives.

Provide comprehensive information, consultation, marketing and other support services to county communities, businesses, higher education institutions, and other County constituencies in working together to advance economic development objectives.

Engage with businesses, economic development organizations, local, state, federal, and international governments to ensure a friendly business environment and support community needs.

Lead efforts within county government to coordinate and advance economic development activities in a coordinated and comprehensive manner.

Promote the diversification and growth in the areas of: (1) Trade and Business Development; (2) Aerospace; (3) Agriculture, Fisheries and Forest Products; (4) Technology; (5) Military and Defense; (6) Recreation and Tourism; (7) Energy and Sustainability; (8) Arts, Culture and Film; and (9) Education, Life Sciences, and Global Health. Manufacturing is recognized as a significant cross-industry and multi-sector priority objective.

Create better strategic alignment of workforce efforts across the county. Identify data-driven sector employment pathways in partnership with business, labor, the non-profit sector, and others. Implement measurable workforce development strategies beginning in the K-12 system. Institutionalize and empower the diverse elements of our workforce system to develop robust partnerships that leverage cross system resources and new investment.

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan: Tourism

I. Long Term Goals

Promote the maintenance and enhancement of a healthy economy, as envisioned in the County's comprehensive plan, through the alignment of economic development, workforce, and tourism countywide strategies and initiatives.

To build a distinct, recognized, and sustainable worldclass tourism experience that highlights Snohomish County as a unique Pacific Northwest Destination.

Actively engage and work collaboratively with tourism partners, residents, and visitors to elevate and steward Snohomish County for the benefit of all.

II. Key Ongoing Core Functions

Align the County Destination Marketing & Management Organization (DMO) with the Economic Development activities.

Administer marketing programs to promote the destination regionally, nationally, and internationally; developing tourism education and industry planning resources to support both rural and urban areas.

Establish destination management practices that align with sustainable tourism goals outlined in the 2024-2028 Strategic Tourism Plan

Provide administrative support to the Lodging Tax Advisory Committee and Tourism Promotion Area Advisory Board and provide long-term planning for the use of Lodging Tax and Tourism Promotion dollars.

2025-2026 Budget -- Department Work Plan Summary

04 - Human Services

Department Work Plan: Administrative Services

I. Long Term Goals

A. Provide quality administration and operations.

II. Key Ongoing Core Functions

A. Fiscal: Payroll, accounts payable, accounts receivable, budget development and maintenance, financial research and analysis, financial reporting, subrecipient monitoring.

B. Contracts: Coordination, proofing/editing, tracking and insurance verification for all department contracts, agreements, applications, and other actions within the department.

C. Clerical: Reception, advisory board support, booklet/brochure design and creation, mail distribution, department recruitment, personnel file management.

D. Technology: Database support, application development, business technology analysis, IT project management.

2025-2026 Budget -- Department Work Plan Summary

04 - Human Services

Department Work Plan: Aging & Disability Services

I. Long Term Goals

- A. Maintain and enhance the ability of disabled older and younger adults to live independently despite disabling illness or injuries. (CM)
- B. Promote safe and healthy communities by assisting older adults in accessing, obtaining, and effectively using necessary services which will enable them to maintain the highest level of independence in the least restrictive setting. (LTCA)
- C. Provide Long Term Services and Supports (LTSS) to unpaid caregivers that help to delay entrance into more expensive programs. Individuals could also receive a LTSS benefit package that would help to delay entrance into the LTSS system and expand Medicaid eligibility. (LTCA)

II. Key Ongoing Core Functions

- A. Provide in-home and community-based personal care/supportive services that allow clients to remain in their own home and avoid unnecessary placement in a more expensive setting, such as a Skilled Nursing Facility. (CM)
- B. Prevent or delay the need for more expensive Medicaid-funded care by providing necessary respite from intensive, unpaid, care-giving responsibilities. (LTCA)
- C. Maintain a network of contracted home-care service providers and community-based resources for the elderly and disabled persons 18 and older. (LTCA)
- D. Provide information and assistance services to older individuals (age 60+) and their families to enable them to make appropriate use of available resources to maintain optimal quality of life. (LTCA)

2025-2026 Budget -- Department Work Plan Summary

04 - Human Services

Department Work Plan: Behavioral Health and Veteran's Services

I. Long Term Goals

A. Partner, advocate and coordinate in the delivery of behavioral health and veteran's services for indigent and low-income residents of Snohomish County who are open and willing to engage in services.

II. Key Ongoing Core Functions

A. Partner in the coordination and integration of the public funded behavioral health treatment system with regional, state, and federal entities. .

B. Provide responsive crisis services for Snohomish County residents experiencing a behavioral health crisis.

C. Expand and improve services for low-income Snohomish County Veterans and their families.

2025-2026 Budget -- Department Work Plan

Summary 04 - Human Services

Department Work Plan: Developmental Disabilities and Early Learning

I. Long Term Goals

- A. Partner with community and human services providers to alleviate poverty and end homelessness. (CAP)
- B. Ensure that 1,550 low-income preschool children are prepared for success in school by providing comprehensive early childhood education, family support, and health services (ECEAP).
- C. Promote healthy prenatal outcomes for pregnant women, enhance the development of very young children, strengthen parent/caregiver-child relationships, and promote increased family stability and well-being for 82 families (EHS).
- D. Increase community capacity, support, and resources to foster inclusive communities that support individuals with development disabilities to achieve a full life through participation and contribution to all aspects of community life and ensure:
 - 1.) All eligible infants/toddlers (approximately 3000 children) and their families receive critical early intervention services and transition successfully to the public schools at age.
 - 2.) All DDA eligible individuals (approximately 900 adults) who are interested in having meaningful employment in the community receive supported employment services to reach their employment goals.
 - 3.) All DDA eligible individuals (approximately 2000 individuals) with developmental disabilities receive support to access community resources. (D)

II. Key Ongoing Core Functions

- A. Coordinate with funding entities: the Washington State Department of Children, Youth, and Families, Department of Commerce; and the Developmental Disabilities Administration, and the Office of Head Start.
- B. Provide grants management, program development, and program administration for developmental disability, early learning, and Community Action Program services.
- C. Contract with School Districts, non-profit agencies, community colleges, and tribal governments to provide ECEAP, Early Support for Infants and Toddlers, and Developmental Disability services: Individualized Employment, Community Inclusion and Community Inclusion Capacity Building.
- D. Organize and support the EHS Policy Council, the ECEAP Parent Advisory Council, the Early Learning Health Advisory Committee, the Family Interagency Coordinating Council, the Transition Network, the Developmental Disabilities Advisory Board, the Community Services Advisory Council, and the Snohomish County Children's Commission.
- E. Ensure delivery of quality services for young children and their families: Early Support for Infants and Toddlers (ESIT), Developmental Disabilities (DD), Early Head Start (EHS), and Early Childhood Education and Assistance Program (ECEAP) services.

2025-2026 Budget -- Department Work Plan

Summary 04 - Human Services

Department Work Plan: Developmental Disabilities and Early Learning

- F. Provide information, training, and resources to families in order to support them in their critical role as the primary caregiver of their child.
- G. Increase self-advocacy and leadership skills for families with young children, and individuals with developmental disabilities and their families.
- H. Ensure that individuals with developmental disabilities and their families have access to resources, supports, and opportunities to fully engage in supported employment and inclusive community activities.
- I. Ongoing work with non-profit service providers in Snohomish County to continuously create, implement, review, and clarify goals and objectives for human services that will best meet the needs of those experiencing homelessness or at-risk, diverse populations, and low-income persons and households throughout the County.
- J. Work in collaboration with other Divisions in the Human Services Department and other County Departments to maximize the effectiveness of all funding, services, and other resources we provide in support of at-risk and low-income persons and households throughout Snohomish County.

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan: Housing & Community Services

I. Long Term Goals

- A. Partner with community and human services providers to alleviate poverty and end homelessness. (OCHS)
- B. Be a strategic partner with housing developers and operators through enhanced customer service and creative problem solving that builds a successful system for the creation, operation, and retention of affordable housing. (OHCD)
- C. Work in partnership with municipalities and community organizations to develop and enhance public facilities and infrastructure. (OHCD)
- D. Work in partnership with community organizations to continue to build energy assistance that focuses on providing support for households to insure they have heat in the winter, education about the value of conservation as a means of both limiting energy use and reducing costs to a household. (OEA)

II. Key Ongoing Core Functions

- A. Ongoing work with non-profit service providers and housing developers in Snohomish County to continuously create, implement, review, and clarify goals and objectives for human services and housing programs that will best meet the needs of at-risk and low-income persons and households throughout the County.
- B. Ongoing work with municipalities and community organizations to develop and support public facilities (food banks, senior centers, etc) and infrastructure (ADA accessibility, sidewalk safety, safe water systems, etc.) in low-moderate income areas.
- C. Administer more than 20 funding programs that manage grants and loans to dozens of agencies in Snohomish County that provide housing and services for at-risk and low-income persons and households throughout the County.
- D. Provide direct services to over 10,000 persons annually through our Energy Assistance, Investing in Futures Initiative and related programs, and the Housing & Essential Needs (HEN) program.
- E. Maintain relationships with Federal, State, and local government agencies, such as the U.S. Department of Housing and Urban Development (HUD), the Washington Department of Commerce (Commerce), and the City of Everett to ensure conformance with regulatory and policy factors and requirements that affect our funding programs and the projects and activities they fund.
- F. Work in collaboration with other Divisions in the Human Services Department and other County Departments to maximize the effectiveness of all funding, services, and other resources we provide in support of at-risk and low-income persons and households throughout Snohomish County.

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan Sales Tax Program

I. Long Term Goals

A. In coordination with other funding sources, develop a robust continuum of care in Snohomish County for our residents in need of mental health and/or substance use disorder related services including housing.

II. Key Ongoing Core Functions

A. Act as the Sales Tax Fund Manager.

B. Staff the Sales Tax Advisory Board and other bodies involved in advice and decision-making.

C. Design and implement programs, manage funding, and monitor outcomes to assure maximum results and impact.

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan: Planning and Evaluation

I. Long Term Goals

- A. Provide planning and evaluation services to the Department and Sales Tax funded programs.
- B. Participate in local, state, and regional emergency preparedness planning to enhance capabilities within the Department.
- C. Lead the department's Diversity, Equity and Inclusion initiatives.

II. Key Ongoing Core Functions

Specialized planning and evaluation, questionnaire development, analysis, technical assistance, focus group facilitation, outcome measurement, logic model training and development, and review of relevant evidence-based practices.

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan: CASA

I. Long Term Goals

- A. Support and promote court appointed volunteer advocacy so every abused, neglected or abandoned child in Snohomish County can be safe, have a permanent home and the opportunity to thrive, with their families of origin whenever possible.
- B. Increase and diversify CASA volunteer pool so that all children and youth who are before the court as a result of abuse, neglect, or abandonment will have a court appointed special advocate (CASA) volunteer to advocate for their best interests as required by RCW 13.34.

II. Key Ongoing Core Functions

A. Organizational Leadership and Management

- 1. Create and implement written program policies for recruiting, screening, training, supporting, supervising, recognizing, and retaining volunteers to fulfill the role and duties of CASA volunteers in accordance with applicable laws, rules, regulations and standards.
- 2. Maintain membership with National CASA/GAL Association and State CASA organization(s), meeting required standards and demonstrating leadership by participating on national leadership committees and counsels.
- 3. Maintain strong internal systems to protect confidentiality of case related information:
 - a. SharePoint Site for volunteer network, attorneys, staff
 - b. CASA Manager – Case Management System
 - c. Google Classroom – Pre-Service Training
- 4. Work collaboratively with organizational leaders to assess community needs, create long-term strategies, set performance benchmarks, and develop new opportunities to make a greater impact.
- 5. Engage in partnership and resource development to advance child, youth and family-centered systems change.

B. Volunteer Recruitment: All children, birth to 18 years, involved in the dependency court system are statutorily required to have a CASA/GAL volunteer per RCW 13.34. The Office of the CASA actively recruits and seeks to grow our volunteer base; while also being intentional in our efforts to diversify our candidates to better reflect the demographics of children and families being served.

C. Pre-Service Training: Pre-service training is facilitated by CASA Program Coordinators a minimum of one time per month allowing qualified applicants to build the knowledge, skills and tools needed to become well trained CASA volunteers. Pre-Service training includes 30+ hours of education offered in varied platforms using curriculum approved by National CASA and the Administrative Office of the Courts.

D. Best Interest Advocacy: CASA volunteers provide best interest advocacy for children and youth, supervised by Program Coordinators, following our guiding principles which recognize the importance of family preservation and reunification, equity, diversity, inclusion, and collaboration.

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan: CASA

E. Volunteer Retention: Volunteers are the lifeblood of the CASA Program and as such they are an invaluable resource. The CASA Program is improving volunteer retention year to year by providing increased leadership opportunities and recognition for our volunteers' meaningful contributions to the program. Program Coordinators and staff prioritize efforts to retain volunteers once appointed to advocate for the best interests of young people impacted by abuse and neglect.

F. Continuing Education: The CASA Program facilitates meaningful training for volunteers and staff in alignment with our mission to support quality volunteer advocates. The robust offering of continuing education classes helps CASAs strengthen their best interest advocacy skills and provides ample opportunity to meet National CASA Standards for accruing 12 CE hours annually. CASAs resources are shared widely among community partners, child welfare stakeholders and CASA agencies throughout the state in an effort to promote inclusivity and increase a diverse perspective to all our training cohorts.

G. Community Outreach: CASA communicates and actively engages with stakeholders and the general public to provide information and build support for the CASA mission, and the needs of children who have experienced abuse or neglect.

2025-2026 Budget -- Department Work Plan

Summary 05 - Planning

Department Work Plan : PDS Summary Workplan for 2025-2026

I. Long Term Goals

1. Support environmentally-conscious growth of communities as envisioned in the county's comprehensive plan, countywide and general planning policies.
2. Enhance systems and processes to provide quality and effective development and permitting services to customers.
3. Maintain a well-trained workforce who understands their roles and responsibilities, have tools necessary to efficiently and effectively accomplish their work, and are aligned with the department's mission.

II. Key Ongoing Core Functions

3. Accessible HR Analytics

II. Key Ongoing Core Functions

1. Employee experience
2. Benefits
3. Culture and Wellness
4. Performance Management
5. Talent Acquisition
6. Equity and Inclusion
7. Employee and Labor Relations
8. Records Management
9. Update SCC Personnel Rules 3.A and 3.68
10. Succession Planning

2025-2026 Budget -- Department Work Plan

Summary 14 - Information Technology

Department Work Plan : Department of Information Technology

I. Long Term Goals

- Align technology strategic plan and guiding principles to the mission, vision, and values of county leadership
- Focus investments on creating platforms with enterprise capabilities
- Workforce empowerment
- Inclusive and equitable digital government experience
- Innovate and evolve
- Enable decision making through trusted data

II. Key Ongoing Core Functions

- Management and operation of the county's information systems, data and equipment.
- Management and administration of the network infrastructure, distributed network(s), and telecommunication system.
- Management and operation of workstations, connected devices, and related support services for the county.
- Management and administration of the security of information services, equipment, data, and networks.
- In partnership with county departments and the Purchasing division of Finance, procurement of equipment, proprietary software and purchased services acquisitions from outside sources by the county.
- Deliver information services, technology, processing, proprietary software, and purchased services as appropriate to county departments, public agencies and cash-on-delivery customers.
- In partnership with county departments, courts, and offices, plan and implement change initiatives that implement new or modified technology to achieve operational and business improvement for county agencies and constituents.

2025-2026 Budget -- Department Work Plan Summary

15 - Health Department

Department Work Plan: Health Department Admin

I. Long Term Goals

1. Increase our data visibility within our Epidemiology/Assessment/Informatics program
2. Increase Public Health Internships and academic partnerships available at the Department

II. Key Ongoing Core Functions

1. Develop and maintain internal and external dashboards to inform:
 - 1.1. Quality assurance and quality improvement in our Public Health programs
 - 1.2. The public on topics of public health importance to help improve the health of our community
2. Public Health is a newer area of study at universities and the department has seen an increase in requests for internships, additionally these internships lead to improvements in workforce recruitment and program visibility

2025-2026 Budget -- Department Work Plan Summary

15 - Health Department

Department Work Plan : Health Department Prevention Services

I. Long Term Goals

1. Foodborne illness investigations
2. Increase STI Services within the county
3. Increase upstream disease prevention efforts

II. Key Ongoing Core Functions

1. Provide a comprehensive illness investigation team that works across the divisions
2. Increase the availability of STI testing and treatment within the county.
3. Increase education to both the public and healthcare providers on ways to prevent disease spread

2025-2026 Budget -- Department Work Plan Summary

15 - Health Department

Department Work Plan : Health Department Environmental Health

I. Long Term Goals

1. Expand the Septic Monitoring and Maintenance program.
2. Expand the Foodborne illness investigations program
3. Increase response time for Plan Review

II. Key Ongoing Core Functions

1. Provide resources and requirement for monitoring and maintenance of existing and new septic systems within the county.
2. Provide a comprehensive illness investigation team that works across the divisions.
3. The department receives Plan Review applications to ensure that restaurants meet regulations. Wait times for these applications have increased and we are looking at ways to lower the wait time.

2025-2026 Budget -- Department Work Plan Summary

18 - Facilities and Fleet

Department Work Plan : Facilities and Fleet

I. Long Term Goals

GOAL 1: Invest in and value our employees - Develop our most valuable asset, our employees, as a way to deliver our best customer service.

Objective 1: Support an organizational culture that optimizes collaboration, performance, and morale.

Objective 2: Provide the right tools to work more efficiently and safely.

22 - Treasurer

Department Work Plan : Treasurer

Reporting

Passport Issuance

2025-2026 Budget -- Department Work Plan

Summary 24 - District Court

Department Work Plan : District Court

I. Long Term Goals

The District Court's long-term goals are:

1. Provide equal access to a fair and effective system of justice to all without excess cost, inconvenience, or delay, and with sensitivity to an increasingly diverse community. Improve access to our website, court forms, and translated documents.
2. Offer alternative methods of dispute resolution, while preserving the constitutional right to trial by an impartial judge or jury.
3. Provide quality service that continuously improves, meets, or exceeds public expectations, and ensures that all are treated with courtesy, dignity, and respect.
4. Improve communication within District Court, and with the public, the bar, and the other branches of county government, while maintaining the independence of the Judiciary.
5. Employ new technology, including a digital document management system, eFiling, and a new case management system, to improve service and access to court users, increase functionality and efficiency for court staff and judges, and minimize the use of paper.
6. Modernize and improve facilities, furnishings, and security measures to provide a functional work environment and courtrooms that are safe and accessible for staff, judges, and the public.
7. Hire talented staff and increase staff retention. Provide salaries and benefits that are commensurate with similarly situated courts, allow flexibility that is consistent with court operations, and increase professional development and leadership opportunities.
8. Continue to strengthen and build the Probation Department, maintain established high-quality community programs, and expand therapeutic courts to better serve our community.
9. Continue long-range planning and embed processes to implement long-range goals.

II. Key Ongoing Core Functions

Snohomish County District Court is the second largest District Court by filings in the state of Washington. It is comprised of four (4) divisions located in Arlington, Everett, Lynnwood, and Monroe.

There are nine judges (elected to serve four-year terms) and one court commissioner serving in an appointed position.

District Court has jurisdiction over both criminal and civil cases. In addition, the Court maintains a Probation Department to monitor and assess compliance with court orders, and to provide community programs and treatment alternatives to traditional court. Further, District Court has a very successful Mental Health Court which provides a therapeutic option to participants with mental or behavioral health issues.

2025-2026 Budget -- Department Work Plan

Summary 24 - District Court

Department Work Plan : District Court

Criminal Filings: District Court has jurisdiction over misdemeanors, gross misdemeanors, and criminal traffic cases. These include but are not limited to driving under the influence of intoxicants (DUI), hit-and-run, and assault cases. Criminal cases are given high priority due to time for trial limitations. Misdemeanor and gross misdemeanor convictions carry the possibility of fines, incarceration, and probation. Preliminary hearings for felony cases are also conducted to determine probable cause.

Civil Filings: District Court has jurisdiction in civil cases with damages up to \$100,000 for injury to individuals or personal property, as well as penalty and contract disputes up to \$100,000 (RCW 3.66.020).

Small Claims and Impound Hearings: Small claims are limited to money claims of up to \$10,000 for individuals and \$5,000 for businesses. Each party is generally self-represented (attorney participation is at the discretion of the judge hearing the case). The Court is also mandated to provide impound hearings to challenge vehicle impoundment.

Name Changes and Protection Orders: District Court has jurisdiction to hear name change petitions, and domestic violence, unlawful-harassment, stalking, and sexual assault protection orders.

Infractions: District Court is legally mandated and has jurisdiction over traffic and non-traffic infractions. An infraction is a civil proceeding for which a monetary penalty, but no jail sentence, may be imposed. The Court also has contractual obligations to conduct hearings for those municipalities paying a filing fee to the County for court services.

Mental Health Court: Mental Health Court is a therapeutic court that is a collaborative, problem-solving court designed to promote safety and reduce recidivism among mentally ill offenders through an intensive program of evaluation, treatment, and frequent monitoring of compliance. The goal is to bring long-term stability, sobriety, and safety to mentally ill offenders while ensuring the security and well-being of the community.

Probation and Community Programs: District Court utilizes probation founded on evidence-based practices, electronic home detention, Alive at 25, Attitudinal Dynamics of Driving, Domestic Violence – Moral Reconciliation Training, and the Relicensing Accountability Program.

Dispute Resolution Services: Volunteers of America Dispute Resolution Center provides trained mediators who assist in the settlement of a wide variety of disputes. Under District Court contract, small claims suits filed in the Everett, Evergreen or South Divisions mandate participation in a mediation hearing virtually or at the courthouse prior to the scheduling of a trial date. The program continues to provide one of the most cost-effective strategies available to the Court in diverting cases from courtroom calendars.

2025/2026 Budget -- Department Work Plan

Summary 30/38 - Sheriff

Department Work Plan : Sheriff's Office Law Enforcement and Corrections

I. Long Term Goals

The Snohomish County Sheriff's Office safeguards and serves our community with integrity and respect to improve public safety, trust and transparency, employee investment, and organizational resiliency. Through professional, innovative, and effective use of our resources, we strive to increase prosperity, wellness, and security for all.

II. Key Ongoing Core Functions

Protection of life, property, and rights for all people we serve.

Enforcement of laws, court orders, and issuance of conceal pistol licenses.

Confinement of individuals violating State, County, or Municipal laws and ordinances.

Search and Rescue missions anywhere within the geographical boundaries of Snohomish County, Washington.

Employee hiring, development, human resource needs, and financial management.

The collection, organization, reporting, and dissemination of information.

2025-2026 Budget -- Department Work Plan Summary

31 - Prosecuting Attorney

Department Work Plan: Dept 31 Prosecuting Attorney

I. Long Term Goals

Office-wide – (1) seek additional funding for core functions and special programs to supplement our stretched financial resources; (2) continue to offer and expand training and mentoring opportunities to less-experienced employees; (3) continue to advocate for increased staffing levels to meet the ever-increasing community safety needs of the County's growing population.

Criminal Division – (1) expand our capacity to offer eligible offenders alternatives to traditional prosecution through our several diversion programs, including TAP, RNP, and LEAD; (2) continue to advocate for operation efficiencies in district court; (3) continue reducing our reliance on paper in case files; (5) reduce the felony case backlog in charging to a manageable level; (5) expand our training program for new and experienced DPAs and law enforcement officers.

Civil Division – (1) maintain effective technological infrastructure; (2) continue to develop internal specialties and subject matter expertise to better serve the County; (3) continue partnering with Risk Management to identify, control, and reduce county liabilities.

Family Support Division – (1) provide efficient and effective representation of the State of Washington on the establishment and recovery of child support obligations; (2) meet federal timelines in parentage establishment; (3) monitor and make improvements to support order modification procedures in anticipation of federal timelines for these cases in the future.

II. Key Ongoing Core Functions

The Snohomish County Prosecuting Attorney's Office consists of three core divisions: Criminal, Civil, and Family Support. We are the largest "law firm" in the county and carry out both statutory (Criminal and Civil) and contractual (Family Support) obligations. The duties and obligations of the Prosecuting Attorney are set forth at chapter 36.27 RCW; however, several other state laws establish further duties and responsibilities which constitute the key core functions of the office.

Criminal Division – The Criminal Division is responsible for prosecuting all adult felony cases and juvenile criminal cases occurring within Snohomish County, and all adult misdemeanor and gross misdemeanor cases referred by the County Sheriff, State Patrol, all state agencies, and some cities that have contracted with the County for misdemeanor prosecution services. The Criminal Division participates in Mental Health Court, and Drug Court, has attorneys and staff assigned to the Snohomish Regional Drug and Gang Task Force, the Auto-Theft Task Force, and one DPA dedicated to the Financial Fraud and Identity Theft Crime Investigation and Prosecution Program (FFIT). In addition to providing advocacy services for crime victims, the Criminal Division also plays a vital role with Dawson Place, Snohomish County's nationally certified child advocacy center.

2025-2026 Budget -- Department Work Plan Summary
31 - Prosecuting Attorney

Department Work Plan: Dept 31 Prosecuting Attorney

Civil Division – The Civil Division acts as in-house legal counsel for Snohomish County. In this capacity, it represents the County and its employees, as appropriate, in civil litigation in federal and state courts, arbitrations, mediations, administrative hearings, and appeals. The Civil Division offers its County clients a broad range of other legal services, including informal and formal advice, risk management advice, and the preparation and review of a broad variety of legal instruments. The Civil Division also represents the State of Washington as petitioner in Involuntary Treatment Act hearings, partnering with the mental health division of Human Services and other designated crisis responders in the prosecution of involuntary commitment proceedings. In addition, the Civil Division advises and represents the Snohomish Regional Drug and Gang Task Force in civil forfeiture proceedings. Lastly, a dedicated Civil Division attorney is responsible for providing legal advice and training to all County departments and litigation defense for Public Record Act matters.

Family Support Division – The State of Washington contracts with the Prosecuting Attorney to carry out specific family support functions. The Family Support Division litigates issues regarding child support in cases referred by the State Department of Social and Health Services, Division of Child Support (“DCS”) and private matters with interests that effect the state. Unlike the Criminal and Civil Divisions, the Family Support Division receives no General Fund support. Instead, it receives reimbursements for expenditures from a combination of state and federal pass-through funds.

2025-2026 Budget -- Department Work Plan Summary

32 - Office of Public Defense

Department Work Plan : Office of Public Defense

I. Long Term Goals

- Provide effective management of contracts for indigent defense in compliance with local, state, and federal standards
- Reduce failures to appear at first appearance calendars through Pre-Trial contact with defendants
- Improve representation of individuals in non-traditional public defense cases (appeals, contempt of court, dependency cases, etc)
- Improve representation through social workers and other links to human services resources
- Create reporting mechanism for compliance with indigent defense standards
- Create systems evaluating the delivery of public defense services with an awareness of racial equity and obstacles to accessing justice for indigent persons
- Provide systems to deliver public defense services in emerging post-conviction litigation, including State v. Blake
- Collaborate with Superior Court to manage and supervise Minor Guardianship representation program
- Coordinate with the State Office of Public Defense to manage and supervise representation for the Child Dependency hearings
- Adapt to biennial budget while maintaining long-term caseload compliance
- Plan for future changes to WSBA and Supreme Court Indigent Defense Caseload Standards

II. Key Ongoing Core Functions

- Improve County's compliance with public defense mandates
- Indigency Screening/Appointment of Counsel
- Management of indigent defense contracts for both efficiencies and compliance with standards
- Manage costs and issues related to expert witness and investigator expenses for County Courts
- Indigency screening and appointment of counsel
- Recruit qualified lawyers to fulfill contracts for public defense services
- Advocate for improvements in county public defense administration
- Monitor hourly work from contract lawyers

2025 - 2026 Budget -- Department Work Plan

Summary 33 - Medical Examiner

Department Work Plan : Medical Examiner's Office Stability

I. Long Term Goals

Maintain timely death investigations, maintain accreditation, streamline workflow, implement employee retention strategies, and become a regional service provider.

II. Key Ongoing Core Functions

The Medical Examiner's Office provides the citizens of Snohomish County with quality, timely, and independent medicolegal investigations to determine cause and manner of death.

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan : Superior Court

I. Long Term Goals

Administer the business of Superior and Juvenile Court according to the Constitution, laws and rules of the State of Washington

II. Key Ongoing Core Functions

Maintain Court Operations for optimal service to the Community with the resources available

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan : Juvenile Detention Alternative Initiative (JDAI)

I. Long Term Goals

Build upon current programming to further the community resources for alternatives to secure detention

II. Key Ongoing Core Functions

Continue to assess and address disproportionality issues as well as community alternatives and programs as alternatives to secure detention.

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan : Alternatives to Secure Detention

I. Long Term Goals

Provide quality programming to meet the needs of youth outside of secure detention.

II. Key Ongoing Core Functions

Continuous review of detention population needs

2025-2026 Budget -- Department Work Plan Summary

Department Work Plan : Inclusion Focus Group

I. Long Term Goals

Have a Court that is transparent, inclusive and just for ALL citizens of Snohomish County

II. Key Ongoing Core Functions

Ongoing focus groups to address the issues related to diversity and inclusion in order to better serve the youth and adults who we serve

2025 - 2026 Budget -- Department Work Plan

Summary 37 - Clerk

Department Work Plan : Snohomish County Clerk 2025- 2026 Work Plan

I. Long Term Goals

Review Clerk services focusing on our priority of “access to justice”. This includes expanding online services to citizens as well implementing technology that replaces paper processes and creates efficiencies for citizens, the Court, and the Clerk. The online Electronic Ex Parte via the Clerk project is expected to be completed by EOY 2025.

Monitor organizational structure to determine if changes are needed as a result of 1) ongoing mandated legislative changes that impact Clerk business and workload; and 2) implementation of technology that replaces paper processes and creates efficiencies.

Continue to work on a multi-year auditing project for the permanent preservation of 40,000+ boxes of archived paper Superior Court case records which are currently stored at County Records Center. Funding for this project has previously been provided through Auditor O&M funds, however no funding was awarded for 2025-2026 budget cycle. As funding becomes available our office will allocate resources to continue this important project.

Work with the County’s Operational Excellence staff to further explore and implement technology that improves efficiencies in business processes using STEP and Continuous Improvement methodologies.

II. Key Ongoing Core Functions

Preserve court records in perpetuity.

Provide access to public court records.

Manage Superior Court funds including collecting and disbursing fees, fines, restitution and trust funds.

Receive, review and manage court cases and documents including data entry and scanning into the state case management system.

Attend all Superior and Juvenile Court hearings and trials and create an independent record.

Manage hearing and trial exhibits, ensuring court records and exhibits are available for court proceedings, and that exhibits are properly stored and destroyed timely pursuant to State Retention Schedules.

Summons jurors and perform jury management for the Superior and District Courts.

Provide Protection Order assistance in matters of Domestic Violence, Harassment, Stalking, Sexual Assault, Extreme Risk and Vulnerable Adults.

Provide Family Law and Guardianship Facilitator program services to the public and Superior Court bench.

Enter and maintain a record of judgments, which equates to a judgment against real property.

Manage the appeal process for cases appealed to the State Court of Appeals and to the State Supreme Court.

2025-2026 Budget -- Department Work Plan Summary

39 - Emergency Management

Department Work Plan : Dept. of Emergency Management

I. Long Term Goals

Develop strong partnerships throughout the county and region that improve the resilience of Snohomish County's communities.

Fully coordinate all emergency management plans across the County.

Develop and maintain a volunteer cadre that can support the community during disasters.

Ensure the emergency management roles and responsibilities of Snohomish County departments, agencies, and elected officials are clearly understood and institutionalized.

Sustain a highly functional system within our Emergency Operations Center that leverages technology and County staff.

Maintain a professional, credentialed workforce that completes our mission with minimal waste and continuous improvement.

Maintain the standards for accreditation by the Emergency Management Accreditation Program (EMAP).

Support public safety by managing and maintaining an enhanced 911 emergency communications system which is efficient and reliable and that provides rapid public access for coordinated dispatching of police, fire and medical emergency services.

II. Key Ongoing Core Functions

Respond to disasters: DEM staff are responsible for maintaining the Snohomish County Emergency Operations Center, which is the primary location for coordinating the response to incidents, and for training dedicated County employees to staff the EOC. We also maintain three mobile information technology response units, two command vehicles, a communications truck, two trailers that support logistics and emergency operations, two drones for aerial imagery support, and the County's joint information center. When requested, we send staff to support other jurisdictions during times of crisis. We will further refine the field observer program that we piloted during winter storms in 2024.

Plan for disasters: DEM staff manage or participate in dozens of planning efforts that address all phases of emergency management from pre- to post-disaster and involve representatives from multiple jurisdictions and agencies from the whole community. Our primary planning responsibilities are the Snohomish County Comprehensive Emergency Management Plan, the Snohomish County Hazard Mitigation Plan, and the Snohomish County Disaster Recovery Framework. Through interlocal agreement we also work with 18 cities, town, and tribes to develop their equivalent plans; we also participate with multiple agencies on incident- and scenario-specific plans such as the Mt. Baker/Glacier Peak Coordination Plan, the Snohomish County Disaster Debris Management Plan, Human Services' shelter planning efforts, etc. In 2025 we will work with ILA partners to develop jurisdiction-specific CEMP annexes and countywide partners to finalize the Damage Assessment Plan and Emergency Operations Plan.

Train and exercise to prepare for disasters: DEM manages training and exercise programs that build and evaluate disaster-related capabilities and ensure availability of our homeland security grants by complying with the National Incident Management System (NIMS) and the Homeland Security Exercise and Evaluation Program (HSEEP). We deliver or facilitate the delivery of dozens of trainings each year, in topics that include the Incident Command System, Flood Fight Operations, staffing of our emergency operations center, and others. We build to a countywide exercise on a triennial basis, but also conduct or participate in smaller exercises (e.g., tabletop exercises at Paine Field, the Evergreen State Fairgrounds, etc.) throughout the year. DEM will continue providing EOC training for all EOC responders.

2025-2026 Budget -- Department Work Plan Summary

39 - Emergency Management

Department Work Plan : Dept. of Emergency Management

Educate and empower the public to build disaster resilience: DEM builds individual and neighborhood resilience by delivering public presentations, supporting Community Emergency Response Team development, and by participating in outreach campaigns that educate residents and visitors on the county's hazards. We deliver dozens of presentations each year, reaching several thousand residents directly. We develop seasonal radio spots that reach an estimated additional 350,000 individuals. We are supporting CERT programs throughout the county by coordinating CERT leadership networking. We also support a volunteer group comprised of nearly 150 HAM radio operators. We have partnered with Connect Casino Road and Refugee and Immigrant Services Northwest to develop community trainers who then share emergency preparedness information in their native languages with community members. We will continue outreach efforts with the business community across the county to help ensure that large and small businesses are better prepared for emergencies.

Build and maintain collaborative relationships with our emergency management partners: DEM works closely with all the jurisdictions within Snohomish County. We also actively collaborate with the members of Homeland Security Region 1 (Snohomish, Skagit, Whatcom, Island, and San Juan counties) and the Seattle Metro Urban Area Security Initiative (Snohomish, King, and Pierce counties, and the cities of Seattle and Bellevue) to build regional capabilities. We meet with these partners regularly and collaborate on multiple projects, including one that addresses how to work closely with the private sector to ensure the viability of our food sector's supply chain after an earthquake and another that addresses communication among local private sector businesses and government to share key information and provide resource support.

Administer our program and grant allocations for ourselves and the Homeland Security Region: DEM fiscal and administrative staff supports the day-to-day operations and administers multiple homeland security grants for Snohomish County and our regional partners.

Coordinate post-disaster recovery efforts: After disasters, DEM staff coordinates the County's preliminary damage assessment and works closely with other county departments and jurisdictions, the State's Emergency Management Division, and FEMA, to identify every reimbursable expense.

Enhance 911 emergency communications: Manages and maintains the enhanced 911 emergency communications system - a public communications system- consisting of networks, databases, and on-premises equipment accessed by the public, which enables them to report emergency situations to a public safety answering point. It also includes the modernization to next generation 911(NG911) systems.

Coordinate pre-disaster hazard mitigation efforts: DEM staff works with staff in other county departments, and with staff from other jurisdictions and special purpose districts throughout Snohomish County, to identify and implement strategies that reduce the impacts of disasters on our community.

Notes/Assumptions:

1. Taxes: Revenue from Road Levy includes 1% Council adopted increase each year plus new construction
2. Misc. Revenues: Proposed Utility Franchise ROW Usage Fee included in 2026
3. Proceeds from Long Term Debt: Revenue from Public Works Trust Fund Loan (\$10M to-be drawn 2024 - 2030)
4. Disposition of Fixed Assets: Revenue from sale of various Road Fund owned properties (\$10M in 2025; \$1M in 2026)
5. Salaries & Benefits: zero new FTEs
6. Capital Outlays: Based on TIP construction (Road Fund dollars leveraged towards TIP corresponding grants - Intergov Revenue and mitigation funds)
7. Supplies: Includes road maintenance materials
8. Traffic Enforcement \$4.95M annual payment to Sheriff Office
9. No major Road Levy annexation payments anticipated
10. Forecasted under-expenditures: 15% of labor from vacant positions and 3% of non-labor expenses excluding capital, debt, and interfund
11. New funding to be pursued in 2025 to fill structural funding gap and offset negative fund balance projected in 2029-2030

Notes/Assumptions:

- 1 Tax Revenues assume increase of 5%/yr. 2024-2029.
- 2 ITA Court Filing Fee adjusted each year based on prior year expenditures/cases filed.
- 3 Includes support from local municipalities for LEESW's plus revenue from participating school districts for Trauma-Informed Practices consultation.
- 4 Consists of unexpended balances of Housing Grants awarded in 2022 and prior. Assumes 100% expended in 2024.
- 5 Advisory Board's recommended Target Fund Balance: 7%.
- 6 Includes \$3,487,364 of 1 time funding in 2024 for BH facilities, and \$4m Everett Shelter Facility in 2024.
- 7 Includes all non-Human Services departmental requests for 2024, with a growth factor of 3.25% per year in 2025 and beyond.

Notes/Assumptions:

- 1 Collection of the tax began April 1, 2022.
- 2 Construction of all units financed at average contribution of \$100,000/unit with other resources comprising remaining cost.
150 units completed in 2024 & 100 units completed/yr. between 2025 - 2030 at avg. O&M of \$18K/yr./unit (adjusted for inflation).
- 3 Construction, acquisition/rehabilitation of emergency, brige, supportive housing
- 4 Includes Services for NSC's at \$3m/yr (adusted for inflation) & Supportive Housing Facilities at \$27k/yr/unit (adjusted for inflation)
2024 includes start-up costs for a NSC site operator/service coordinator.
- 5 New Start Center O&M includes the funds \$634,737 for Facilities based on 2024 budget deliberations.
- 6 Ending fund balance will be reserved and assigned to one of the three areas identified for expenditure in future periods.
Operations, Evaluation, and Administration includes expenditure contingencies for Reclassifications/Pay Rate Adjustments of \$30,368 in 2025 and \$31,127 in 2026.

Affordable O&M/year (\$18k/unit base)

Notes:

1. Beginning Fund Balance revenue figures for 2025 and 2026 include available Environmental Health restricted fund balance to cover software upgrade costs.
2. Grant revenue is anticipated to decrease between 2025 and 2026 due to the lapsing of specific grants. Foundational Public Health Service funds are assumed to increase in 2025 based on increases to funding in previous years.
3. Miscellaneous Revenues in 2025-2026 include \$425k for investment interest.
4. Miscellaneous Revenues in 2024 included \$200k of anticipated building lease revenue for the department. This revenue will now be collected directly by the county.
5. Interfund Payments for Service increased from \$3.1 million in 2024 to \$4.7 million in 2025 primarily due to increased DIS fees to cover the department's portion of new enterprise resource planning costs. Interfund Payments for Service includes ICAP. This category assumes a 2% annual increase.
6. Changed Anticipated Underexpenditure to 3% of salaries/benefits/supplies. This is a more accurate representation of the Health Department's underexpenditure as there is an average vacancy rate of
7. Ending Fund Balance includes Restricted and Unrestricted funds. Target unrestricted fund balance is 7% of total annual revenues.
8. 2023 actuals are based on unaudited figures at this time.
9. Opt T/fer In includes \$400K ARPA/GF swap, \$450k one-time increase to per capita base in 2025 and 3.5% growth on base for 2025 and 2026 for 2026 value, then 3.5% growth ongoing.

Notes/Assumptions:

1. Expenditures in this six-year plan are drawn directly from the County's 2025-2030 Capital Improvement Program and the 2025/26 Executive Recommended Budget.
2. Revenue projections are based upon data from Economic Forecaster
3. The targeted annual minimum ending fund balance for REET to be prepared for an economic downturn is \$6,000,000.
4. REET1 will have the capacity to pay the GF component of debt from 2027-2030 as it did for 2025 & 2026.

Notes/Assumptions:

1. Expenditures in this six-year plan are drawn directly from the County's 2025-2030 Capital Improvement Program and the 2025/26 Executive Recommended Budget.
2. Revenue projections are based upon data from Economic Forecaster
3. The targeted annual minimum ending fund balance for REET to be prepared for an economic downturn is \$6,000,000.

Notes/Assumptions:

¹Charges for Services include permit fees (projected based on an average of economic forecasting model scenarios using multiple regression analysis which considers economic conditions and annexation probabilities) and interfund charges (projected with a 2% inflation factor). Forecasted units on average of optimistic economic scenario with slow annexation scenario and pessimistic economic scenario with slow annexation with no fee adjustment.

²Use of technology fees is restricted to the purchase of new technology investments and related contract and labor costs.

³5 Additional FTEs approved by Council Motion 24-268

Notes/Assumptions:

1. Projected annual tonnage increase of 2% in out-years.
2. Plan assumes eight (8) additional FTEs in 2025-2026 to keep up with anticipated tonnage growth.
3. Amounts shown for "Capital Outlays" encompass all costs included in the CIP except for current year supplies which are included under "Supplies".
4. Cathcart Landfill and Sisco Landfill restricted reserve funds are required for landfill closure and post-closure activities.
5. Ending Fund Balance = Unrestricted Fund Balance + Restricted Fund Balance
6. The 2023 CAFR shows an ending fund balance of \$41,876,188. This is the impact of GASB 68 which requires the financial statements to disclose a state-calculated unfunded pension liability ("the excess of the actuarial present value of projected pension benefits over the net resources available to pay those benefits").
7. Underexpenditure based on historical analysis of budgeted versus actual expenditures.
8. No tip fee increases are assumed in this plan.
9. A rate increase of approximately 50% is projected to the waste export disposal fees in January 2028.

Notes & Assumptions:

¹New three year appraisal to be completed in 2025. Tenants have rates stepped in up to three (3) years at no more than 10% per year until they reach fair market value.

¹Growth Factor Revenues: Revenue based on actual and estimated tenant leases.

²Debt service with loan maturity dates set at ten (10) years for ANG bonds. Bonds budgeted at 6.5% APR which is subject to market conditions.

²Passenger Facility Charge (PFC) Bonds are to be issued for \$8,921,038 which is repaid via future PFC collections.

³Passenger Facility Charge (PFC) is \$4.50 per enplaned passenger and are restricted to FAA approved projects and may not be used for operations.

⁴Growth Factor Expenses: Expenses adjusted for anticipated major repairs and maintenance increases due to aging infrastructure.

⁶Fund balance ties to year-end actual/estimated cash balances due to timing of tenant receipts, capital payments and tenant improvement reimbursements.

Notes/Assumptions:

- 1.) SWM fund balance as shown here does not include funds equal to our restricted pension asset (\$2.3M) as reported on the ACFR in accordance with GASB 68.
- 2.) SWM requires a minimum EOY position of \$6M to manage cashflows during the subsequent year. SWM can have a draw down in working capital of up to \$6M over the course of a year during normal operations without reducing our EOY position.
- 3.) REET II funds are assumed to be \$1,100,000 in 2025 & 2026, & \$1,000,000 in 2027 - 2030. All of these revenues have been dedicated to SWM's fish passage culvert program.

Subfund 2: ² Information Services Fund Balance			\$ 9,743,585	\$ 7,728,585	\$ 6,018,585	\$ 7,158,585	\$ 6,578,585		
Subfund 1 FTE Count	87.5	88.5	91.0	90.0	87.0	87.0	87.0	87.0	

Notes:

¹ The 2020 CAFR shows an ending fund balance of -\$1,156,621. This is the impact of GASB 68 which requires the financial statements to disclose a state-calculated unfunded pension liability ("the excess of the actuarial present value of projected pension benefits over the net resources available to pay those benefits")

² The GF transfer for ERP is being moved into Fund Balance for the ERP Project

Current Assets	22,634,895								

Notes/Assumptions:

1. Provided by insurance broker, who provides actuarially-calculated estimated losses which are included in the CAFR. These are non-cash, accounting adjustments.
2. The 2023 CAFR shows an preliminary, unaudited ending fund balance of <\$3,425,239>. This is the impact of GASB 68 which requires the financial statements to disclose a state-calculated unfunded pension liability ("the excess of the actuarial present value of projected pension benefits over the net resources available to pay those benefits")
