GENERAL INFORMATION

Project Title:	Former Precision Engines Building C-1
Total Cost:	\$200,000.00
Total Eligible Cost:	\$200,000.00
Ecology Share:	\$200,000.00
Recipient Share:	\$0.00
The Effective Date of this Agreement is:	06/01/2022
The Expiration Date of this Agreement is no later than:	06/30/2023
Project Type:	Integrated Planning Grant

Project Short Description:

The Former Precision Engines Site (FSID 84613634, CSID 3526) was an aircraft radial engine overhaul/repair facility operated by Precision Engines. The main chemicals of concern are TCE and associated breakdown chemicals and hydrocarbons in the soil and groundwater. The grant funding will be used to complete a remedial investigation at the Site.

Project Long Description:

The Precision Engines Site (FSID 84613634, CSID 3526) is approximately 0.85 acres in size and located at 3102 100th St SW, in Everett. It is located on two tax parcels (Snohomish County Parcel Nos. 28041500400100 and 28042200100100), both of which are owned by the RECIPIENT. From the early 1960s to October 2019 the Precision Engines site was leased to Precision Engines LLC and related entities for use as an aircraft engine overhaul facility.

Agreement No: TCPIPG-2123-SnCoAD-00042
Project Title: Former Precision Engines Building C-1
Recipient Name: SNOHOMISH COUNTY AIRPORT DIVISION

Before vacating the Precision Engines Property, Precision Engines LLC conducted Phase I and Phase II Environmental Site Assessments. The resulting report, prepared by HWA GeoSciences Inc. and dated July 10, 2018, reported hazardous substances, including chlorinated volatile organic compounds, specifically trichloroethene (TCE), detected at concentrations that exceed cleanup levels established by the Model Toxics Control Act (MTCA) in soils and groundwater. In addition, petroleum hydrocarbon contamination has been identified throughout the site.

The full nature and extent of this contamination, sufficient for a MTCA-compliant cleanup action has not been documented. Precision Engines claims to have no funds for further investigation or cleanup.

The Airport is currently in the beginning stages of updating its FAA Airport Master Plan. This Master Plan will inventory existing site conditions and forecast development for the next 20 years. Redevelopment of this site will support aerospace needs of the region. A 2020 WSDOT Aviation Economic Impact Study for Snohomish County Airport states that it "...supports 158,227 jobs and has a total economic impact/business revenues of \$59.9 billion annually". The redevelopment of this site will be critical to retain those jobs and create additional living wage jobs for the state. Further, this site is in close proximity to the Commercial Service Terminal and will be critical to providing expanded commercial airline service in the future.

The grant funding will be used to complete additional site investigations to address existing data gaps that are critical for completion of a MTCA-compliant Remedial Investigation for the site.

Overall Goal:

The objective is to complete additional site investigation to address existing data gaps that are critical for completion of a MTCA-compliant Remedial Investigation for the site.

ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the Agreement, in whole or part, or renegotiate the Agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the RECIPIENT through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the RECIPIENT. In no

Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.
