Subject: Potential Snohomish County Property Tax Increase
Date: Friday, November 8, 2024 5:35:19 PM

My husband and I are 40 year residents of rural Snohomish County and now retired senior citizens. We initially bought unimproved land— just under 1 .5 acres to raise our family and have peace and quiet over the noise Seattle neighborhood we left. We built our own home and now have beautiful gardens to enjoy in retirement. The peaceful vision that we have created over the years is now something we may lose to the ever increasing property taxes! Unfortunately, we don't qualify for a discount.

We urge you to keep fighting to stop the potential 8% increase. We are being taxed to death and we need your help to have the Snohomish County Council budget managed without needing more tax funds from us!
Thank you.

Dear Snohomish County Council:

I'm writing to express our support for councilman Nehring's proposed budget amendment to not raise taxes and explore cuts to the existing budget through program efficiencies. Just days ago, Proposition 1 was voted down by taxpayers at a rate of 56%. You as a council must respect the will of the people and find more efficient ways to run our local government with our existing funds. This can be done by prioritizing our programs, requiring performance-based efficiencies, and funding only those that provide the greatest return on our investment. Snohomish County citizens need relief from the high costs of living in our area and not an increased tax burden to bear.

Thank you for considering our input.

Respectfully submitted,

Bill & Lori Wirtz

To whom it my concern,

I have heard the county council is going to increase our property taxes. You are taxing us to death and causing us to go into poverty living in the county. As a county employee I can't afford to live here with cost of living and taxes. Please reconsider and find other ways to manage the funds you already get. There needs to be an audit on the funds management in this county for the waste and where the money goes because it isn't in the county workers and not into our roads.

Subject: NO to 8% property tax
Date: Saturday, November 9, 2024 3:21:39 PM

Hello council,

We are a single income family taking care of my in laws and every year my property value increases which is costing us more and more money.

And there's nothing I can do to lower the assessed value.

When things were good, I worked a different job and was able to build a mother in law (DADU), but now that change has resulted in almost \$3k more in taxes per year and my income has dropped by 70%.

An 8% tax increase looks to raise our taxes by another \$60/mo or so.

Please consider the impact it would have on families.

Subject: Vote NO! on Property Tax Increase for Snohomish County
Date: Saturday, November 9, 2024 4:15:06 PM

I moved to Snohomish county 14 years ago. My current taxes are nearly a thousand dollars a month. I see so many people moving out because they cannot afford to live here. There are many other counties in Washington state and across the United States with larger populations, than in Snohomish County, where taxes are less. I believe the budget needs to be reviewed and other measures need to be implemented. Raising taxes will negatively impact all of us. I recommend voting NO! on a property increase and hiring a private external (no government) able to investigate the current budget objectively to determine where cuts can be made first. I know of several good firms who can do this.

Sandy

Dear Snohomish County Council,

You are considering raising county property tax by 8% this year. I am opposed to this action as I am not currently receiving any county services that are in-line with what I already pay (about \$4000/year). Asking for 8% more from fixed income retired persons is nothing but government greed and abuse. The amount of buiding in the county has increased your revenues through more taxes and fees. But that has resulted in too much traffic and delays getting anywhere in the county. The quality of life continues to decline here and we are not getting much help from the government that is focused on giving away services to homeless and illegal aliens. The last election clearly proved that the majority of persons voting here are idiots and want more bad government and more taxes. It is now time to say bye-bye to the crap hole Washington has become.

Hello -

I am writing to ask you to please reconsider your desire to increase our property taxes. Our family is already finding it difficult to pay our taxes. My husband was unemployed during Covid. We have three children in college. I've gone back to work to help make ends meet.

Our neighbors and friends are facing similar difficulties. Inflation is high. Groceries are expensive. Many work for Boeing and while the strike is now settled, they were without the usual paycheck for quite awhile.

Families are cutting back and making tough decisions in order to keep our budgets balanced. We expect our elected officials to do it too. This is our money you are spending. I have confidence that our economy will improve and the time will come when a modest tax increase will be appropriate. But that time isn't now.

Thank you for your consideration.

Subject: Concerned Constituent Regarding 2025/2026 Budget
Date: Saturday, November 9, 2024 8:58:32 PM

Dear Snohomish County Council,

I am writing to express my concern regarding the proposed budget for the 2025/2026 biennium. It has come to my attention that the proposed budget will increase Snohomish county resident's property taxes by up to 8%. I am gravely worried this will have a negative impact on our community and its families that are barely making ends meet in this current economy.

I'd like to introduce myself to the council, I am Ashley Felton, I am a registered dental hygienist, currently living in Arlington and I have been practicing in Monroe, WA for the past 10 years. I see patients who live in Monroe, Sultan, Gold Bar, Index, Snohomish, Lake Stevens, Granite Falls, Arlington, Marysville, Everett and Stanwood. I have gotten to know my patients very well at my practice and it is so sad to see how many are struggling to make ends meet right now. Most of my patients are relying on credit cards to pay their monthly bills already, an increase in property tax would just exacerbate this problem significantly. Expenses for groceries and gas are already strapping budgets for our local community and this increase would severely harm those already struggling. My patient base is generally blue collar workers, some coming in straight from the local dairy farm. These people are not affluent and are living paycheck to paycheck already in this economy. The only reason why they come to the dentist is because they have dental benefits from their employer. They would not be coming in otherwise, as they simply do not have the money in their budget to do so. At this time the members of our community are stressed just trying to put food on the table for their families due to the current costs of goods. When patients are telling me their struggles, some are brought to tears as they are struggling to make ends meet. I feel their pain as the increase in cost of living over the past few years has impacted my budget as well.

A large percentage of our patients have family that work at Boeing, and were impacted by the recent strike. These people are already in a deficit in their family budgets as their work hours have been reduced or they were a part of the union that was on strike. It will take many months for these families to get current as the Boeing employees just returned to work this last week. By increasing the tax burden on these families it would be kicking our local community when it's already down and when it really could use a hand up right now.

I understand that the council wishes to provide good services to our county and maintain its current operations. This can be done, but it would be best to consider the current challenges of the community and I hope this gives you a finger on the pulse, if you will, about how families are already struggling. If there is a possibility to balance the county's budget without raising taxes, I think this would be the most desirable option. I really hope that the council considers other options to balance the budget before increasing taxes of the Snohomish county citizens.

Thank you for taking the time to consider my thoughts.

With gratitude,
-Ashley Felton, RDH BSDH

To whom it may concern,

Raising taxes could be detrimental to a lot of people, and quite frankly wouldn't fix any issues to whatever problem you think it'll fix, it won't it'll just follow with more issues.

Raising taxes will just push the seniors in the community in a hard ship, low income families who are just trying to make ends meet.

The economy and inflation is already pushing people to pay check to pay check while still struggling to pay their next bill or to put food on the table and raising taxes will only increase their struggles.

Property taxes are already high why keep raising them and pushing long time community members on the brink of losing their homes due to constant raising of property taxes.

There is always a way to fix issues without raising property taxes.

Do better and problem solve without piggybacking off hard working individuals and the seniors. We all deserve to live the American dream without it being sabotaged by people in power!

Councilman Nate Nehring has proposed an alternative option to make cuts on spending and not increase any taxes. PLEASE CONSIDER IT!

Dear Council Members,

Proposition One was kicked to the curb by your Constituents not because they oppose safe streets or a safe County for their children. Voters rejected your tax proposal because they are fed up with the abusive spending and bad Governance of their Elected Representatives.

In other words, We The People no longer wish to serve as your personal cash machines. Let's not forget the \$350 million of Federal COVID Relief funds that were re-directed by Washington State Democrats to migrants illegally entering the United States.

I suspect Mr. Somers and his supporters on the County Council will experience a similar fate as Proposition One should Snohomish County raise the Property Tax rate to 8%. At least that would be my hope in this One Party State.

Respectfully,

Robert Blix

Subject: Nehring's amendment
Date: Sunday, November 10, 2024 12:21:06 PM

The people of Snohomish support Nehring's amendment to stop new taxes on property owners.

Homeowners are being crushed by property taxes, which are among the highest in the nation here.

Just valuation has nearly doubled our taxes to over 6,000 per year. I'm living on SSI because of cancer and can't afford any more taxes. In fact, we had put our house up for sale, but home prices dropped so much so fast, we couldn't drop our price fast enough on MLS to keep up.

We just can't afford to live here anymore. The price of food and medicine has gone WAY up too. Unfortunately the number of houses for sale has tripled since last year, and house prices are falling fast.

Bank repossessed houses lead to higher crime. Our fence has already been tagged twice and BROKEN twice by vandals. It has costed us over 5,000 in fence repairs recently.

Also, our streetlight at the corner of Bickford and 23rd has been out for years. I've mentioned this on several forums to no avail. Is that going to be repaired? They replaced the bulb and it went out immediately, and they replaced it again and it went out, and then they left us in the dark. Years ago... The darkness increases crime. Taxes have nearly doubled and I can't even get my streetlight fixed???

We've had enough, so we are leaving no matter how much we have to drop our sale price after we can get the house back on MLS.

Perhaps reducing taxes will save other homeowners from the same fate. We are being crushed economically right out of our homes... then what money will Snohomish have?

Hello.

I'm very concerned about the proposed increase to our property taxes. Property taxes are already a huge burden. How can you expect people to continue to pay more. Why aren't you budgeting the enormous tax dollars that you are already collecting from us? Why aren't you making efforts to decrease property taxes, relieving us of the economic burden that we are already suffering under this economy - created by democrats. STOP asking for more.

You've ignored us on the housing issue. You've given land and property rights to big development while not updating our infrastructure and barely considering the environment. Because of this, you should already be collecting more taxes from all the new properties developed. Right?

YOU need to learn to budget. Stop expecting the citizenry to just keep paying for your overspending.

Sincerely concerned,

Mary Hudon

Hello Snohomish County Council Members,

I am in possession of a document stating that you are proposing an 8% property tax increase. I'm also relieved to hear that some degree of thought and common sense appears to be coming from Council Member Nehring. Council Member Nehring has his ear to the ground and well aware of what these last few years have brought to the taxpayer of Snohomish County. The taxpayer is already financially stressed. Inflation has devastated many households. The Census Data shows that in Edmonds, where I reside, 75% of residents earn under \$69,000 per capita and of that 75% approximately 40% earn under \$49,000. I drive by the Edmonds Food Bank twice a week. The food lines continue to grow but recently I've noticed more newer, higher-end car models. Many folks who had jobs and were earning salaries that allowed them to purchase high end vehicles have now lost their jobs. Many are on unemployment, others have run out of unemployment benefits. You may look at property values in Edmonds and see properties and homes valued at \$900,000 and a million dollars. Many of these homes are modest homes built 50, 60, and 70 years ago and now in the hands of surviving children who are now in their 70s, 80s, and 90s. These same folks could not afford to purchase the homes they are now living in. Are you thinking about how your property increases may well cause these elderly folks to have to sell their homes and move because higher taxes have driven them out - some going bankrupt to continually appease your needs to raise taxes. Have any of you thought of budget cuts instead of budget increases? Many citizens have had to do just that - cut back on our expenses. There is waste in county government. Cut it out and restore some semblance of sanity to the budget.

Council member Strom Peterson, please look out for your constituents and vote to amend this 8% property tax increase.

Respectfully,

Theresa Campa Hutchison
Snohomish County Resident

I understand that you are planning to increase property taxes again in Snohomish County. This is ridiculous as the citizens of the county are paying enough taxes as it is and we have nothing to show for it. It is already difficult to make ends meet as it is and with a 8% increase it would make it very difficult for me, almost to the point of having to make a decision if I eat or pay your ridiculous taxes. You need to think about the citizens of this county, what is happening with the cost of living, which is only going to get worse with our new government and look at what you approve the tax money that is already paid and where it goes.

I ask that you do not raise our property taxes, we are taxed enough from every side already.

Thank you,
Sue Collins

Subject: Property Tax Proposed Increase
Date: Sunday, November 10, 2024 6:19:43 PM
Importance: High

We strongly oppose the 8% property tax increase being considered by the Council.

While you may think that is a fairly small percentage, please remember that yours is not the only increase we are facing.

Our property was valued at almost \$90,000 more than last year. That is a wonderful thing for our future when we decide to sell. It does not, however, pay the bills. We are Seniors who are fortunate enough to have our own home, but the amount of the 2024 taxes was already a heavy burden.

The majority of citizens in Snohomish county need a reprieve from the relentless increase in living costs and taxes. We have all had to balance our budgets and cut back on spending.

We respectfully request that the Snohomish county council do the same and adopt the proposal from Nate Nehring.

Sincerely,
Rick and Terry Alexander

Greetings,

I have written my county representative and now am writing to the whole council to please consider the following:

I am against Budget Ordinance 24-075, authorizing an increase in general tax revenues for property taxes collected in 2025. I am on a fixed income and prices of grocery and fuel leave very little leftover. Please do not vote to increase property taxes. The county needs to tighten its belt just as the rest of us have had to do with record inflation. Raising property taxes will really hurt those that are already struggling to get by.

Subject: Say "NO" to Property Tax Increase
Date: Sunday, November 10, 2024 4:37:15 PM

No increase! We already pay too much property tax.
We already pay some of the highest taxes in the nation, such as the nation's highest gas tax.
The 8% raising of property taxes will have an adverse effect on homeowners.
Several impacts or adverse effects are that it will impact the elderly with limited incomes (and who may have owned their homes for years) who have not had an 8% increase in their income.
It will, as well impact renters who will need to pay more for their rent because it is now costing their landlord more money to keep the dwelling they are living in.
It is a simple economic truth of the trickle down effect of price increases which is especially evil when it impacts the elderly, poor and struggling.

After the state's deceptive advertising for already raising our taxes through initiatives, after the last 4 years of over 20% inflation, after the port trying to push through a county wide tax, after the city of Everett trying to push through a city wide tax increase, the County Council should recognize that taxpayers are already over burdened. Please take Nehring's advice.

Snohomish County Council, Dave Somers:

On Nextdoor people are posting about this property tax increase. This is out of control government, my husband & I are retired with no monthly income coming in except SS & what we have saved. We built and have lived in our home since 1993/94. Our taxes, as all in Snohomish County keep going up, we cannot handle any more taxes-the almost \$8000.00 we paid this year hit hard.

For some reason our WA state, county etc. elected officials think we all our making \$500,000.00+ a year.

Please help us just trying to survive "little" folks, we worked 40+ years each to be able to retire, yet it looks like we may be having to get a job for the greedy government officials.

Cuts need to be made, maybe some government salaries cut or unnecessary positions eliminated, maybe Mr. Somers can eliminate a paid position he gave to a former sheriff who lives out of state! Speaking for all us hardworking, retired, not millionaire plain old folks, young families, singles trying to make it on their own-NO MORE TAXES PLEASE!!!!!!

I am someone who believes in helping others, yet millions/billions of dollars keep being thrown out for the homeless, drug addiction help yet nothing seems to be getting done with all that money! I believe there are a lot of nonprofits making a lot of money for not getting much accomplished.

Thank you.

To The Snohomish County Council,

I am writing this email regarding my discord regarding the upcoming council vote to increase property taxes by 8%. This is a significant increase that citizens of Snohomish County should not have to endure. We have been burdened with enough taxes in this troubled economy. The Council should take note that the Snohomish County Citizens voted no for the latest initiative. Taxes are out of control! The county should begin managing the funds they receive in a more conservative matter.

I hope the Council takes the voices of the citizens seriously.

Respectfully,
Concerned Snohomish County Citizen and Voter!

Dear Council Members:

I support Council Member Nate Nehring's proposed amendment to the budget to not raise property taxes 8% 2025/2026. I agree that the council can find other ways to work within their budget without taxing Snohomish county residence further.

I moved out of Seattle to Mukilteo 4 years ago after retiring. Seattle had become over burdened with high taxes due to all of the programs initiated. Some programs work but many do not. And taxes never seem to go down and it felt like taxes being wasted. I was impressed with Snohomish County and moved here.

However, in the four years I have lived in Mukilteo my property taxes have gone from \$550/month to almost \$800/mo. That is just shy of a 30% increase. An 8% increase will put my property tax at \$850/month. These increases are not sustainable for most of Snohomish county residences. Whether one owns or rents, all will be affected.

As a voice for many of my retired lady friends, we cannot absorb such high tax increases and stay solvent. I can't imagine families feeding, clothing, and raising children in Snohomish County being able to absorb this 8% increase in their living expenses.

I urge you to keep increases more reasonable and stay at 1%. And that means not increasing property values 20%+ to achieve the same end result. Please find ways of working within your budget and do not force residence to be burdened or forced to move. Thank you.

Good morning County Council,

Hope everyone had a great weekend!

We are emailing today requesting you do NOT raise our proerty taxes another 8%. We are unable to attend the budget deliberation since this is during our work day. However, we would like our voice to be heard.

As residents of Edmonds, we are very concerned with the inevitable tax increases over the next few years and this will only add to these concerns. As you are likely aware, the increase for fire/ems services, schools, \$20M debt and possible additional property taxes for highest and best property use will continue to take a bigger chunk of our income. We are nearing retirement and will not be in a position to retire at the rate that the taxes are increasing. Please consider your constituents and find a way to do more with less like we have...

Sincerely,

Jon and Kelli Milkey

Subject: Property tax increase
Date: Monday, November 11, 2024 8:24:42 AM

Hello and good morning, my name is Naomi Oppenheimer. I'm writing you this morning regarding the proposed 8% property tax increase. I back Nate Nehrings proposal to cut spending instead of taxing homeowners in this county. I've lived in monroe for two years and in Everett for two years prior to moving here. Out of all the many places I've lived, this county is the least racist and the most equitable and diverse. We don't need to be spending 2.5 million/ biennium on wil Johnson telling us how to not be racist, it's insulting. Because being born and raised in Seattle, and living in many places like California, Oregon, Nevada, Florida, and Germany, I have found this county to be the least racist and most equitable and diverse. That is why I've chosen this county to put down my roots and raise a family. I believe such a high property tax would equate to less equity in the ability to purchase and maintain a property here in snohomish county. I believe the property tax increase would hinder homeowners from being able to spend that money to increase the value of their homes and lives. Please consider the hardworking, already overtaxed citizens of this county when you make the decision this Wednesday and vote no on property tax increase. Thank you

Subject: November 13, 2024 County Council Mtg: Support of Nate Nehring's approach to budget
Date: Monday, November 11, 2024 9:40:47 AM

Dear Snohomish County Council Members,

Re: November 13, 2024 County Council Mtg: Support of Nate Nehring's approach to budget

Inflation is outpacing taxes and wages. As you know, there are two remedies- Increase taxes or cut spending.

Increasing taxes to avoid cuts in spending creates further burden on already strapped residents, especially lower income brackets, and have a downstream effect on the local economy.

The responsible action is to cut spending first, before asking for more tax money. Ultimately, balancing the budget responsibly, with a primary focus on essential services, can help stabilize the local economy without overburdening the taxpayer.

Let's first take a look at the \$2mil budget for the Office of Social Justice and ask, what is the return on investment for this program when prioritizing essential infrastructure such as roads, sewer, water, public safety and the employees that support those functions?

The budget should reflect these priorities focusing on critical services. Keeping core services robust, can stabilize the local economy and safeguard the well-being of residents, much like a body prioritizing vital functions during shock.

Thank you for considering my support to prioritize essential services and prudent spending cuts.

Subject: Amendment to Eliminate 8% Property Tax Increase for 2025/2026 Budget
Date: Monday, November 11, 2024 10:54:26 AM

Dear Snohomish County Council Member,

Please prayerfully consider reviewing the budget for the 2025/2026 period and finding ways to reduce costs and not impose an 8% increase to property owners. Many of us live on a fixed income and with the increases in prices from fuel, groceries and medical cost, adding another burden through property taxes would impose an additional hardship.

I believe that Snohomish County and the Council need to review the proposed budget line by line and find ways to cut costs to stay within the more reasonable 1% increase as called for by state law. The unused bank capacity should not result in an open checkbook to increase spending.

Thank you for your consideration in this decision.

Sincerely,

William E. Tuckett

Subject: Ordinance No. 24-075
Date: Monday, November 11, 2024 11:13:08 AM

Ordinance No. 24-075 is ill-informed, wasteful, and a pure example of government gold digging and greed. Ordinance 24-075 should be rejected.

This increase is contemptuous of the public and has no bearing in the reality of the current economic environment. Ordinance 24-075 should be rejected.

Ordinance 24-075 is an example of government trudging along doing the same old song and dance and trying to take an ever-increasing percentage of constituents' earnings. Ordinance 24-075 should be rejected.

The most appalling lack of regard for budget maintenance and control is evident when the ordinance states "...in addition to..."

Property values have almost doubled, creating a tax windfall for local and state governments. Not satisfied with the egregious amount of cash collected on the increased valuations and already increased tax levels the county is unable to manage its budget and control costs, wantonly spending and wasting and then simply asking for more money. No. Ordinance 24-075 should be rejected.

No further money should be authorized for any government agency unable to manage it's budget and recent windfalls.

Dear Council Members:

It was with shock and dismay that I read a tax proposal of 8% is being considered for our property.

I actually find that inhumane. Not sure how you expect the seniors of this county to keep taking these tax hits.

Our *homeowners insurance* went up \$300 per month recently. That was an astronomical hit in itself. Then to read that you want to raise property tax 8% is incomprehensible. With inflation threatening to bury us seniors and the cost of EVERYTHING reaching heights unseen in recent history I'm not sure you are in touch with reality for those of us constituents who are the backbone of this nation. We've raised our families but continue to have to work to make some sort of semblance of the American dream, while it seems you wave a pen over paper and make our lives more difficult by the year.

Tighten your budget I say! Reign in excess and unnecessary spending. Get the cream off the top. Help those of us who have worked in this system all our lives to thrive, not just survive.

I am totally against passing a property tax increase.

I am a 76 year old vet and still have to work in order to keep up with all the increases in the past 4 years.

This increase will harm our way of living. Paying over \$3600 a year on a house I purchased in 2006 for \$175000 is out of order. You keep increasing the unrealized value and then increase the percentage is making it impossible to live here. It's a double whammy.

I moved from King County in 1992 to get away from what you are proposing here.
Please do not turn Snohomish County into Seattle or King County

Subject: Oppose 8.046% tax increase
Date: Monday, November 11, 2024 1:19:08 PM

Dear Snohomish County Council,

I am writing to oppose the 8.046% increase in property tax, and I agree with Nate Nehrings amendment to work within the current budget. We have all had to tighten our belts and do without. Why shouldn't the county have to do the same and be fiscally responsible? Before I retired this year, my last raise didn't even cover the cost of inflation. Speaking on behalf of senior citizens, some of us are on tightly limited incomes, some of us have no pensions, some of us worked for a company for years only to have our pensions defunded, and some of us are homeowners but living only on social security and have had to make tough choices (can I afford the luxury of having a medical plan, can I afford to go to the doctor, medications become a choice), these are just some examples. These days, many senior citizens own their own homes and are at risk of being taxed out of their homes. This increase will have negative impacts on all homeowners, renters, and families across our communities I am sure you are aware.

The county has already reassessed our properties and many of us are going to be paying thousands on top of thousands more in taxes next year. I can personally speak to this. Our income has NOT kept up with the cost of inflation. I am worried we are going to be taxed out of the home we worked so hard to buy.

Citizens within the cities of Snohomish County have all voted NO to property tax increases, how can you now come to us asking for more when we just voted NO? We implore you to listen to the people of Snohomish County. Vote no.

Thanks for reading, C. Goulet

Subject: Propert tax hike proposal for Snohomish county
Date: Monday, November 11, 2024 1:02:47 PM

Hello Snohomish Contu Council ,

The voters just rejected Prop 1 by 56 % and now it seems county council is trying to pass property tax increase . Property taxes are up by anywhere from 10 % to 30 % for resident for 2023 and 2024 . It seems no matter how much tax we give it is never enough. As a responsible citizen I try to balsmve my books but that is never the issue with government spending. I urge county to get an audit done and recognize waits where wasteful spending can be stopped reduced Then balance the books and then come back to its county residents. We are always given the story on crime , public safety , drugs . But despite's heavy taxation nothing has changed . Things have deteriorated around county , so my question is is funding the issue or your polices .

I am looking for some answer for some time and unfortunately the story given to us is getting a bit old on new taxation . I oppose this proposal by county of property tax increase with out any fiscal responsibility and accountability shown so far . Never once have I seen relief on taxes .

Very disappointed to see this

Sincerely
Dee

There are multitudes of the citizens of Snohomish County that you are forcing out of homes they have raised their families in, by the continued raising of property taxes. I myself am 62 yrs old, on a limited income, and pay \$13,000 a year. It is not sustainable. Your generous income payed by the taxpayers, has blinded you to the everyday concerns of your constituents, especially as we are navigating the high cost of everyday necessities. Cut the fat at your end, or even as a Democrat, I will along with others, will vote you out at the earliest opportunity.

This idea that the council needs to increase property taxes 8% is crazy, there is enough money to balance the budget with what you already have.

Date: November 11, 2024

To: Snohomish County Council Members

From: Bill and Donna Krepick

Subject: PUBLIC COMMENT: Please REJECT the proposed 8% increase in County taxes for 2025

I hope you can appreciate the tough times that all residents are facing with their personal finances. Grocery store prices are forcing us to make decisions on how to cut back on food bills. Homeowner's insurance increases cause us to reduce coverage or increase deductibles. Auto insurance increases drive us to find competitive insurance providers and/or reduce coverage. Fire/Ems providers think they can ride the annexation and tax levy bandwagon to hide their cost increases and charge taxpayers for unjustified prices for fire/Ems service. Everywhere you look you see the same thing. Residents have to adjust and sacrifice to reduce their personal spending. The County should do the same. CM Nate Nehring has made a reasonable request to balance the budget through cost reduction, rather than by burdening taxpayers with yet another tax increase. We urge the Council to go back to budgeting basics – and implement 'zero-based' budgeting where department and program budgets are built every year from ground-up on essential needs, and not taken as a given by simply increasing last year's budget by cost-of-living, or inflation adjustments. In these tough times, the first thing the County should do is reduce expenses and eliminate 'nice-to-have' programs, freeze hiring, or even eliminate jobs. It is not acceptable for anyone in government to say that inflation has caused the problem, and the government needs to increase taxes to adjust. County government should follow the lead of its residents, and cut costs and balance the budget before thinking about an 8% tax increase.

It is simply unconscionable for the County Council to think that tax increases, rather than spending control, will be supported by taxpayers. If you have any doubts about the resolve of taxpayers to veto tax increases, just look at the recent votes by Everett, Mukilteo, and County residents to defeat tax levy lift initiatives to increase city spending, Ems funding, and Prop 1 for drug enforcement. Sadly, Edmonds is facing a disastrous budget deficit caused by years of chronic overspending, excessive costs for police services and fire/Ems services, and bloated staff. Edmonds residents are very concerned that their Council is going to try and tax its way out of the problems and offload 65% increases fire/ems costs to residents through unwanted and unjustified annexation tax levies. Residents are organizing to defeat RFA annexation and other unjustified 2025 tax increases.

Thank you for adopting CM Nehring's balanced budget amendment and for keeping the taxpayer first – ahead of County staff and questionable County programs.

Sincerely

Bill and Donna Krepick

Subject: tax proposal

Dear Councilmembers,

I am in complete agreement with Councilmember Nate Nehring's amendment. The citizens of Snohomish County are being taxed out of their homes. I am a 77 yr old widow with a 60+ yr old house and my taxes this year were over \$16,000.00. Of course, this area's business environment has much to do with the cost of homes, no complaints with that. BUT, our county government has NOT held service providers accountable for results of the money it spends on those services. The budget is bloated.

Nate Nehring's amendment is the RIGHT thing to do for the paying citizens of the Snohomish County. I suggest the County officials listen to what the people demanded in the Presidential election. We are social moderates, but have become fiscal conservatives, because of increased taxing, lack of accountability and overreaching government.

I ask your support in approving Councilmember Nehring's amendment.

Thank you.

Snohomish County Council Members,

Please support the proposed budget amendment to **eliminate** the proposed 8% property tax increase. Citizens cannot sustain another tax hit (you're not the only taxing authority), along with levies, on top of inflation eating away our spending power. I implore you to please analyze where you can make cuts and prioritize ruthlessly like the rest of us must do with our home budgets. My property taxes already doubled in the last 10 years, despite the rate or actual dollar amount per \$1000 assessed value declining. These increases are not sustainable. Government needs to shrink and quit growing. Let's make Snohomish County affordable and business friendly, which will add to the revenue in a healthier way than exorbitant taxes.

Revenue has grown to \$1.7B, surely there is waste in there to cut.

	2009	101,983,434,440	920,194,442.34
	2010	94,125,212,678	930,733,665.37
	2011	85,710,607,564	960,449,260.15
A decrease in taxes is due to taxing districts levies reaching their statutory limit and bonds being paid off	2012	76,647,037,592	947,630,470.12
	2013	72,621,622,520	941,003,407.43*
	2014	79,448,742,407	979,669,463.93
	2015	88,260,207,637	1,060,180,738.96
	2016	96,080,092,915	1,086,231,238.63
**A decrease in taxes is due to local school districts enrichment levies being limited to \$1.50 per 1000 AV and bonds being paid off	2017	105,036,086,924	1,175,582,882.89
	2018	118,417,725,917	1,366,824,342.47
	2019	132,827,352,255	1,339,287,488.82**
	2020	145,174,737,279	1,492,415,464.26
	2021	154,392,389,464	1,493,296,822.50

Total Taxes Levied in Snohomish County by all Taxing Districts 1965 to 2024

PERCENTAGE OF ASSESSED TAXABLE VALUE	TAX YEAR	ASSESSED TAXABLE VALUE	TAXES
	2022	170,299,965,640	1,583,621,533.43
	2023	219,454,345,012	1,669,849,789.89
	2024	212,393,172,358	1,747,341,953.91

Not voted for taxes are out of sync for a form of government that is supposed to represent citizens.

Voted vs. Non-voted Taxes Levied in Snohomish County for all Taxing Districts 1986-2024

Note: Since 1986, non-voted levies have increased by 974 percent, while voted levies have increased by 1,585 percent.

Thank you for your time and consideration of voting for the amendment to eliminate the 8% increase in the general property tax levy.

Respectfully,

Annette Kessler

Subject: Please HELP our community.
Date: Monday, November 11, 2024 4:42:30 PM

Dear Members of the County Council,

"Wealth consists not in having great possessions, but in having few wants." This is a concept I believe our county could use as a guide. With wise and creative solutions, it's possible to meet our community's needs without additional financial burdens on those least able to shoulder them.

To protect the resources we already have, the county could prioritize essential spending by identifying areas for cost reductions, such as consolidating services or administrative roles where feasible. Marcus Aurelius wisely observed, "Very little is needed to make a happy life; it is all within yourself, in your way of thinking." **Adopting a mentality of careful resource management could prove just as effective in meeting community needs as additional funding.**

Let us remember the responsibility we bear to protect our elders from being "taxed out" of their own homes. Rising property taxes should not become an obstacle to their comfort or security. Ensuring they remain valued, respected members of our neighborhoods ought to be a top priority. Fiscal responsibility is not only a practical decision but a moral one, safeguarding our community's most cherished members.

Please have mercy on all of us who are working hard to stay afloat. There are better approaches that balance financial stewardship with compassion. Let us protect the community we have built without placing undue strain on those who can least afford it.

Please show us your dedication to the well-being of our community by choosing what is best for the people of the county, not just what's best for the county. Thank you.

Subject: Property Tax Increase - Please Do Not Raise Taxes!
Date: Monday, November 11, 2024 6:13:12 PM

Dear Snohomish County Council,

Please do not increase our property taxes.

Just days ago the voters rejected a tax increase. Please show some respect your constituents and their vote.

With inflation and the continued increase in property values (which automatically increase our property taxes), we the homeowners are under financial pressure. An increase in taxes will push a number of us over the edge. It will also raise the barrier for future home owners who are trying to afford housing.

A tax increase will just make the affordable housing situation worse.

Cutting spending is the only solution.

Thanks for listening and caring.

Tom Stuber

Dear Council,

As a property owner in Snohomish County who is already scraping by, I am absolutely against a property tax increase. Better use of existing funds should be the focus, not asking for more from people who can't afford it.

Marshall Huston

From: [Chamberlin Bob](#)
To: [Contact Council](#)
Subject: Proposed Ordinance No 24-075
Date: Monday, November 11, 2024 5:54:39 PM

I am a residential property owner in Snohomish County. I object to any consideration given to any idea to raise taxes at this time for any reason.

My property value did not increase appreciably in the past two years but my last tax bill was 28% larger than for the previous year. I am 84 and retired living on Social Security. I was born in Western Washington and have spent my entire life in this State but I am seriously expecting that I will be forced to move largely due to the tax burden. I have already been forced to leave my home in Redmond due to high taxes and I purchased my current home in Snohomish County expecting to see a smaller tax bill. In my case, I did OK prior to retirement and I own a home worth about \$1.5 M that I paid for outright when it was much cheaper. I am being forced to dwindle my IRA account simply to stay in my home since Social Security will not come close to paying my tax bill let alone buy food and cover misc. living expenses. Some people would feel that my home is too lavish. That is not their business. I should not be forced out of it by bureaucrats who do not have sufficient concern for the public to learn to live within their budget and instead wish to constantly expand.

This, however, is not just about me. There are a great many people who are currently living hand to mouth and who are not gaining ground but are instead diminishing whatever meager savings they might have simply to pay exorbitant taxes. I have many friends living in other States who's residences are far nicer than mine but who pay less than 20% of the taxes overall that I pay. If Idaho, Montana, Wyoming and Utah can do it why can't the State of Washington and the County of Snohomish? I realize that the answer to that might be, "Why don't you just move to one of those locations?" I probably will but I maintain that no one should be forced to leave the land of their birth by a government that chooses to not do business as if they were working in the best interests of the people who employ them. I do not require more services. I do not require most of the services that are provided. I have always felt that the services I receive from Government have exceeded my needs by a lot.

I have always felt that no tax rate increase should ever be required. Taxes increase naturally with each rise in property value and that should be sufficient. The only reason why Governments tend to constantly want to increase tax rates is to be able to increase the level and quality of services they provide to the population and to themselves and while it may be desired by some it is not needed by most of the people who have to pay for it.

Subject: 8% property tax increase?
Date: Monday, November 11, 2024 5:14:06 PM

1. NO!
2. Our property taxes were raised to \$8,146 this year. It has been extremely difficult to pay that amount.
3. No more increases! We instead hope for a decrease of the Snohomish County valuation of our 45-year-old residence.
4. We are in our seventies (76 and 77) and trying to retire, but our Real Estate taxes (and other inflated costs) are making it impossible for 77-year-old Richard to quit working.
5. If our son's family didn't live in Everett (the city) we would hit the road for a more tax-friendly state in a flash.
6. Our plans to retire and perform more volunteer help in the community is also unattainable because of the real estate and sales taxes in Snohomish County.
 - a. Our income is above the poverty level that may trigger a reduction in our real estate tax obligation.
7. Pay attention to member Nate Nehring's proposal to tighten your budget, like your constituency has had to do!

Good evening,

I would like to voice my opinion on the proposed 8% property tax increase. Is the goal of Washington State to not allow people to live here. Our property taxes are some of the highest in the country. Where does it end and when does it end?

This is very discouraging to hear that Dave Somers wants to hike property taxes. I am trying to talk myself into staying in this State but it is becoming unbearable with these taxes we keep getting hit with.

Property taxes are high enough. County needs to manage its money better!!!

Hello,

I am writing to express my strong disapproval of the proposed tax increase. As a concerned citizen of Snohomish County, I am deeply disappointed that this is the chosen solution to address current financial challenges.

In a time when prices are already soaring, increasing taxes will undoubtedly place an additional burden on residents. As our elected representatives, I urge you to reconsider this decision and explore alternative solutions.

I believe that reducing unnecessary spending and reallocating existing funds could be more effective and less harmful to our community. Additionally, it is fundamentally unfair to impose a tax increase without allowing citizens to directly vote on the matter.

I hope you will take my concerns seriously and work to find a more equitable and sustainable solution.

You all must remember that the US citizens of Snohomish County elected you. And you have to act in our interests

Date: Monday, November 11, 2024 6:18:05 PM

Dear Snohomish county council,
I feel like the proposal of an 8% property tax increase is outrageous and not sustainable by an already overtaxed and over inflationed public.
Please eliminate the proposal for the 8% property tax increase or you'll have a lot of old people having to eat canned cat food again, start robbing banks, and have to sell their homes and live in their cars....

Thank you,

Eric Damm

To whom it may concern,

I do not agree with this proposed tax increase. This is an insane hike for businesses let alone the homeowners in the county. We are already seeing higher costs coming. There needs to be a closer evaluation on the budget. Many families are already struggling this is only going to make more of a strain on those barely making it by as it is.

Please consider other means as a family of this community we cannot afford to keep forking out money on taxes when we have children to support while the economy is in its current state. No pay raises at work accommodation these hikes and I can only imagine those that are on fixed incomes.

Thank you,
Marcella Vaughan

I appreciate your public service, however, I would like to remind you that you serve the public, the public that is overtaxed and overlooked. As home owners, we work hard to be responsible, to provide for our families, to be solid members of our communities, to abide by the governance of those in power whether we agree or not. If you continue to drain money from the middle class of Snohomish county, we will not have the resources to support our local businesses, neighborhood services, community outreach programs. We give willingly to those around us but not if it is taken by government bureaucracy for more “programs.” Our money is not being used wisely nor effectively, and throwing more money at the problems like crime, homelessness, and infrastructure will not solved anything but create bigger paychecks for government workers. Enough. Be honest. The money has been squandered for pet projects and ideological agendas. Be strong. Stand in the gap for those who do well but aren’t given anything for “free” and do make enough that higher taxes won’t impact our bank accounts.

Be fiscally responsible like most of your home owners. Don’t spend beyond your means and don’t waste our money on entitlements. We need a break. The middle class has been the fountain of flowing cash for too long, and we can’t afford to give any more.

Best wishes,
Deborah Hepper

Dear Council Members

I have lived in my home for over 22 years. When I bought my house I was married and a dual income. I bought him out of the house almost 15 years ago. I have been a single mother of two raising my children in this house since they were born. I have a good stable job and have had an increase in salary but yet it is hard to make ends meet because property taxes keep increasing. I have my mortgage set at a 15 year pay off. The way the taxes keep increasing is forcing homeowners to live paycheck to paycheck. While property values increase as well as taxes it is discouraging because of the rise in crime, police activity, homeless individuals as well as our neighborhood had graffiti vandals that continuously defaced property without arrests.

We are being forced to pay increase of taxes for estimated property value when facing the same issues that in fact lower the neighborhood value.

I am opposed to the property tax increase. This is making it extremely stressful for hard working individuals and retired home owners to survive.

Subject: Concern Over Property Tax Increase Amid Rising Inflation
Date: Monday, November 11, 2024 9:44:56 PM
Importance: High

Dear Snohomish County Council Members,

I am writing to express my concern and frustration regarding the recent property tax increase in Snohomish County. Like many families in our community, we are struggling to make ends meet as inflation drives up the cost of nearly everything, from groceries to utility bills.

When we hear our elected officials at the national level speak about controlling inflation, we hope to see relief, not additional financial burdens. However, this tax increase feels like yet another obstacle, making it even harder to keep up with essential expenses.

The rising cost of living has put considerable strain on us, and it often feels like we are working just to cover taxes. This increase makes it seem as though our concerns for affordability and quality of life are being overlooked.

We urge you to consider the real impact that these tax increases have on your constituents. Please find alternative solutions that do not add to the heavy financial burden many of us are already facing.

Thank you for your time and consideration of our concerns.

Sincerely,

Mena Hanna

We find it unnecessary to hike our property taxes up 8%! What are you thinking justifies this hike in these hard times? You have people who are struggling to even find affordable anything with prices so high now with inflation! We see people in the grocery stores who are putting items back on the shelf because they can't afford to purchase it. We are on a fixed Social Security income and we see prices up from the week before that we have to leave the item on the shelf. It's a struggle . Our car insurance has risen \$325.00 a year and we have a clean record, no accidents or claims or tickets and our newest car is a 2009 Ford Taurus. It's time for you to tighten your belt just like all of us have had to do! Vote NO on your 8% tax hike!!

From: [Lee Hinds](#)
To: [Contact Council](#)
Subject: tax increase
Date: Monday, November 11, 2024 8:46:40 PM

This tax increase , if voted to become law, would hurt me and other elderly people living on a limited income. I have several rental properties that I lease to people that are on Housing assistance. Because my taxes keep going up , the Housing Authority denies my right to increase my monthly amount to compensate the increase of taxes. I have come to the conclusion that it is not worth my time to rent to people that are on Housing assistance. I have helped many people through out the last 30 years with a good place to live, but this is going to end.

It seems that every time, we the people of this State, turn around there are more and more politicians asking for more of our hard earned money, because they cannot stay within a budget. This has to stop. At some point there should be a law that when a person hits a certain age, they SHOULD BE TAX EXZEMPT. This includes school and all other real estate taxes.

Tired of tax increases,

Lee E. Hinds

Subject: Wed. Nov 13, 2024 meeting about increase of taxes
Date: Monday, November 11, 2024 8:36:19 PM

November 11, 2024

County Council:

If it had not been for someone posting on our community's Facebook page (Gold Creek Peeps), most would have been unaware of this meeting for voting on the issue of an 8% tax increase.

In my humble opinion on the issue, I think this is a big mistake and a big ask of people at this time when everything is so high and no one that I know thinks this constant money grab in WA and this county is justifiable. Right now, as a retiree living in Snohomish, I am appalled that people who ask for all of this money are not taking their representation seriously; the council's voting for this should be a hard NO for the increased taxes.

This will have an adverse effect on many people who have never known anything other than the way WA and Snohomish county operate, but in 54 years, we have lived in 7 states and owned homes in 5 of them. In other states citizens realize tax decisions need to be logical. In our homes all of us make budget decisions and step back from things if it is wiser to put spending on hold for some time. Adjusting a wish list has always been difficult, but if it is necessary, it will come to fruition eventually. A vote of no does not mean never and it can be revisited at a later time when everyone's financial situation gets better. Meanwhile, the county needs to deal with what it has and plan to tighten purse strings.

For the good of all of our county citizens, **please do not vote in favor of this increase.** Every time there is an additional request for more money and taxes, it becomes more likely that our collective ire is raised about the constant requests for more and more money and when asked later for even more, it will be a hard no more often than not.

Thank you.

Subject: Increase in Property Tax.
Date: Monday, November 11, 2024 10:31:30 PM

Dear County Council Members:

I have become aware of an effort as part of upcoming budget cycles to increase property taxes by 8% in Snohomish County. I am writing to you to object to this drive by county elected officials.

We live in Edmonds, which has declared a fiscal crisis and is now deciding actions required to deal with a twenty-million dollar shortfall in City finances. It is likely that residents in Edmonds will be asked to pay substantially more in 2025 and beyond for fire protection and EMS services than we have paid in the past. Rates for these services will likely be predicated upon home valuation which will impact Edmonds homeowners harder than in other communities. In addition to that, it is also possible or likely that Edmonds homeowners will be asked to approve additional property taxes to deal with the aforementioned twenty-million dollar shortfall. Reductions in expenditures by the City for non-essential services will be considered as part of the remedial actions needed, no doubt, but citizens are not yet hearing about bold cost-saving measures that will be needed to correct our major financial problems.

County residents just defeated one modest tax increase proposal and are now faced with another increase proposal at 8%. Edmonds residents will face at least one and probably multiple requests for increased property taxes next year and in subsequent years. I cannot know at this time what the cumulative financial impact of all of these potential increases taken together might be.....

Please put me on record as rejecting another County property tax increase at this time. Thank you.

Dear Snohomish County Council,

We, the people—especially the residents of Everett—have been bombarded with constant attempts and proposals to raise taxes. These proposals have consistently failed, yet the message doesn't seem to have been understood, and the persistent solicitation continues.

Is it too much to ask to explore other ways of addressing these financial concerns without taking more from our pockets? Councilman Nate Nehring has an interesting perspective that should be reviewed and considered, as we support it.

We understand that the cost of services will gradually increase as demand grows, but raising taxes should not be the default option when feasible cuts and reductions can be made in non-priority departments. Thank you very much.

Subject: No to 8% Property Tax Hike
Date: Monday, November 11, 2024 10:20:23 PM

Hello,

I was informed of a proposed 8% property tax hike, to be voted on November 13th. I want to make my voice heard that I am opposed to this increase and do not support another property tax increase.

The cost of living in Snohomish has steadily risen over the years and soon average working-class people will be priced out of this area. With the cost of everything becoming more expensive these days, I feel it's a lot to be asking more of the people right now. I cannot go to my boss and demand an 8% increase in my pay. I have to make do with my budget and manage my money better.

Please show the people of this county that you can take fiscal responsibility and trim the fat off unnecessary spending. Please try to balance the budget before asking for more from the people who are just trying to get by, not all of us work at Microsoft, Boeing, or other large corporations.

Thank you for your time,
Jayme Crandall

As a home owner and a small business owner in Snohomish County, I implore you to not raise property taxes! I am a very small business just getting by. Eight percent is a significant increase. This would be a significant financial burden. Every time I turn around, I am paying a new fee or more tax for something. Small businesses in this county pay a disproportionate amount of fees and taxes because we are easy targets and don't have the ability to fight it like the large corporations do. You should do the same thing that I have to do and live within your means. You need to be accountable and look for the waste in your spending, just like I do, instead of adding more financial stress to your constituents.

With all the new homes being built in Snohomish county and the revenue you get from those homes, why would there be an 8 percent increase in property taxes? It's already very expensive living in Washington state. You're making it harder for people to own homes and harder on senior citizens, please reconsider your budget .

Thank you

From: [Valinda Sultze](#)
To: [Contact Council](#)
Subject: Tax increase for '25 and '26
Date: Monday, November 11, 2024 11:05:55 PM

City Council,

I'm not sure you understand the toll that another tax increase in this area is going to do to the average middle income family. Otherwise, you would figure out how to balance your budget with the funds you already receive to meet what you think are the needs, or you need to taper off those needs in order to preserve your county's way of life. Gas is at an all time high with indications of raising due to our newly elected Governor's apparently shared desire to continue to siphon money from the people. Groceries are also crazy high.

Please, please reconsider raising our property taxes. My family got into our mortgage at a rate we could afford. But when property taxes increase every year at this rate, making sure we can afford it means taking from some other category. Surely you must know this, though. It's basic accounting.

There is so much waste in government. Find out where it is and slash it.

Thank you for your time,

Valinda Sultze

Subject: Opposed to 8% increase to property taxes
Date: Tuesday, November 12, 2024 12:21:17 AM

Dear Snohomish County Council,

Enough! 8% increase to property taxes?

Our property taxes are way too high now! Our R.E. taxes, our Car Tabs taxes, our high gasoline taxes, our high sales taxes are too much!!

I'm in favor of County Council Vice President, Nate Nehring's Amendment to cut discretionary spending. Just like family budgets, if there's not enough money to spend, you don't continue to run up credit card charges!

You make sacrifices and make do without unnecessary spending. I understand that there are many departments, and various needs in this county but enough is enough!

We are getting squeezed here!

Instead of spend spend spend, find ways to lower Snohomish county residents taxes!

"The amendment removes budget increases over current budgeted levels and removes discretionary spending not connected to essential County government functions."

Thank you and Best regards,

Snohomish county resident
Ray A Fernandez

I wanted to send a brief communication and voice to say no more taxes please. We are choking with taxes and the cost of life and it is far too much of a burden. I believe you all can find ways to better adjust finances for the county and not ask more of its citizens. I work way to hard for the amount of money I get to keep as an independent contractor. It's tough already and our family needs stability for our future. Please consider proposals before you and other avenues.

Sincerely,
~Liberty Aldrich~

Property tax relief for seniors "PLEASE". I can no longer not continue to survive with property tax increases. Ive owned my property for 45 years and property taxes have eaten up my 401K over the last 11 years. My SS income and my retirement pension is just above the senior discounted rate so I don't qualify for that option. Ive paid my taxes every year in Snohomish county for over 50 years and I feel its wrong to have to look at relocating from the home that I raised my kids in. Paying near \$1100.00 per month for property taxes is a bit hard to digest with the rapid rising costs on everything needed to survive. Doesn't leave much left after bills and food are paid. Dr and Dental Bills are becoming more frequently and costly every year so I now have to decide weather to hold off on needed surgeries or starve. At 71 years old it just doesn't seem fair that am required to pay such high property taxes. Id like to see the tax exemption to a higher threshold limits raised or totally eliminated property tax for seniors.

Subject: Take Action to STOP 8% Property Tax Levy
Date: Tuesday, November 12, 2024 5:05:38 AM

Council Members,

Please do not raise property taxes in Snohomish County another 8%. I lived in the City of Lynnwood and the Council Members here are holding a meeting today regarding raising property tax:.

According to recent reports, the proposed property tax increase for the City of Lynnwood in 2025 is around 25%. This translates to an increase of approximately \$6.2 million in property tax revenue compared to the previous year.

The proposed property tax increase for Lynnwood, Washington in 2025 is \$6,200,000, which would increase the levy rate to \$.57. This would result in an increase of about \$84 per year, or \$7 per month, for the average homeowner. The increase is intended to restore the levy rate to pre-COVID levels.

Gasoline one of the highest in the country and grocery prices are high, and not to mention utilities and electricity are already high and Waste Management is talking about raising their rates too. And City of Lynnwood has high sale tax of 10.6%.

My monthly income is not keeping up with all these increases. I had to make cuts on my budget.

Thank you,
Nora Chin

Date: Tuesday, November 12, 2024 6:29:34 AM

Snohomish County Council Members,

It has come to my attention that you want to tax me out of my home with an increase in my property tax of 8%! As a senior citizen with a limited income, I can barely pay the taxes you currently levy on my home.

Times are tough on most Americans, especially for the last 4 years. In Snohomish County property taxes have been high for the 19 years I've lived here. So maybe what you should be thinking about is how to lower everyone's property taxes by 8% instead of increasing them. We've had to cut our spending and tighten our proverbial financial belt just to live in our home. Why can't you reduce your financial footprint for your constituents? I'm sure there are things that you want to spend my money on that are less important than my family being able to live in our home. Reducing the budget of the Office of Social Justice, reducing your travel and conference expenses and a freeze on new staff hires are a few ways you can help all us taxpayers remain in our homes. After all, I'm sure every member of the council is more concerned with keeping families in their homes than you are with any other aspect of your governance.

When those that govern fail to take care of the basic needs of their constituents it's time for us to replace them with people that do. Unlike you, we're not asking for more of your money. We just want you to be financially responsible with ours, especially when times are difficult.

Thank you for your time,

Don Crouse

You're forcing homes out of the reach of property owners and into the arms of corporations. We all didn't get a 40% raise like boeing. We get a 2.5% raise on social security which is not enough. And those who can't apply for the exemption with the increased insurance, interest on mortgage and raised house assessments cannot take such a raise.

In this time of high inflation —as difficult as it is—our county government needs to not increase its share of the economic pie.

Too many people are having difficulty already meeting day to day needs of life , so just as they are required to tighten their spending, the government needs to join in by likewise prioritizing their spending on the essentials.

Subject: Property Tax Hike
Date: Tuesday, November 12, 2024 8:43:39 AM

Please do not raise property taxes just because you can. There are many people out there that are barely getting by (fixed income, low income, even those that have jobs aren't necessarily doing well financially) and another huge tax hike (8% is huge by the way) will push many over the edge of being able to afford their home (or they have to choose home or food or medicine), or be out on the street. Please consider lowering your costs and being more efficient with our tax dollars - our money should not be your open checkbook - you are there to represent the people, ALL people. Please consider some or all of what Nate Nehring is proposing or come up with some new ideas to help people keep more of their money. Thank you for listening.

Good morning,

I am 79 years old, a homeowner in Snohomish and currently could not afford to buy the home in which I live because of the value increase in the last five years. My property taxes have gone up much more than my Social Security COLAs have and a property tax increase would mean that I would need to cut expenses elsewhere.

I vote for school levees and fire protection services when increases are needed. If you raise my property tax 8%, I feel I may need to vote differently in the future.

Please vote for Nate Nehring's amendment and balance the budget by cutting expenses, not raising mine.

Respectfully,

Betsie Snoey

Subject: 8% PROPERTY TAX INCREASE
Date: Tuesday, November 12, 2024 8:53:33 AM

I find the proposal for an 8% Property Tax increase totally unacceptable and does not represent the County Government being good stewards of our money and spending.

Housing and commercial facilities in our County have increased exponentially as have the values of new and existing facilities and homes. The increased value of these facilities along with the substantial increase in density per acre has provided a substantial increase in County revenue. This alone should more than cover County expenditures if managed appropriately both financially and priority of real need spending.

We need to address and make sure our spending is producing returns and actually resolving issues and improvements. While also managing the amount that is being paid, making sure we are not falling into the practice of uncontrolled and irresponsible Government spending.

STOP SPENDING THAT HAS NO VALUE and understand many of us live on fixed incomes or are living on the edge of financial health with the inflation we have experienced in the past years.

Thus establish a budget that reflects NO INCREASE!!!

Respectfully

Gregg Portetr

Date: Tuesday, November 12, 2024 9:36:17 AM

My name is Roger Erickson
My address is 7016 281st PL NW
Stanwood, WA 98292
My phone number is 503 704 8490.

I would like to address the council in regard to Executive Dave Summers proposed 8% property tax hike! I have at least three problems with that proposal.

First, I think 8 % is an outlandish number. I am sure he and others would like to have that much more of my money to spend in the next budget and I would like for him to have it but I can not afford these constant raises! Especially since the national number for inflation is under 2%!!

Second, the reason I can't afford raises like this is I am an old retired guy trying to live on a fixed income , namely social security and this raise will effect the people who can least afford it the most!! Be reasonable!

Third, this is the kind of ramrod tactics that should at least give us the opportunity to vote for or against!! If it's on the ballot at least we have a chance!!

Now you know how I feel, and I daresay there are thousands of others who feel the same way as I do so please give my thoughts some consideration and at least adjust your spending habits and tax raise goals accordingly!!

To: [Contact Council](#)
Subject: Opposition to the Proposed 8% Property Tax Hike
Date: Tuesday, November 12, 2024 9:25:37 AM

Dear Snohomish County Councilmembers,

I am writing to express my strong opposition to the proposed 8% property tax increase outlined in County Executive Dave Somers' 2025-2026 Biennial Budget. This significant hike in property taxes will place an undue financial burden on homeowners and small business owners in our community, many of whom are already struggling with the rising cost of living.

The increase of \$21 million in the first year alone of this budget proposal is a heavy hit, especially given the county's recent growth in revenue due to property appreciation and inflationary pressures. At a time when many families and small businesses are doing all they can to stay afloat, an 8% increase in property taxes feels excessive and misaligned with the current financial hardships facing the community.

I strongly support Councilmember Nate Nehring's proposed amendment to remove the tax increase from the budget by instead focusing on curbing discretionary spending and prioritizing essential government functions. It is essential that any budgetary adjustments made reflect a careful balance between meeting our county's needs and respecting the financial realities of its taxpayers. This amendment provides a viable path to ensure essential services are maintained without further burdening residents and business owners.

I urge the Council to consider the long-term impacts of this tax hike on the community. Please prioritize responsible, efficient budgeting without increasing the tax load on your constituents.

Thank you for your consideration of this critical issue.

Sincerely,
Patrick Olsen

Subject: Proposed 8% Property Tax Increase
Date: Tuesday, November 12, 2024 9:48:56 AM

As seniors living on a fixed income we feel that an 8% property tax increase would seriously jeopardize our current living condition and may force us out of our home. I know that as of the 2023 census approximately 15% of the county population are over 65 years old and approximately 8.5% of the county are living in poverty. I'm assuming that the majority of those over 65 are retired like us and those living in poverty certainly can't afford a property tax hike which will be reflected in their mortgage or rent. We can't afford another unnecessary tax hike. What needs to happen is that the property tax rate needs to be capped for seniors and those living in poverty. The tax certainly can be absorbed by those with median income of greater than \$100,00.00. Somers is a typical tax and spend democrat and I appreciate councilman Nehring for trying to stop this tax.

Subject: Snohomish County Council: 8% is not 1%. Don't violate the 1% property tax cap! Ask voters' permission if you want more.
Date: Tuesday, November 12, 2024 10:03:27 AM

The voters overwhelmingly passed Initiative 747 and for 23 years state and local governments have not been allowed to raise property taxes more than 1% per year. Anything higher requires voter permission. In 2007, the Democrat-dominated Legislature and Governor Gregoire reimposed the 1% cap. 1% means 1%. 8% is not 1%. It is beyond outrageous that you're seriously considering voting to raise property taxes AT ALL. Taxpayers are struggling and yet you're actually thinking about massively raising property taxes way above the 1% cap and doing it without asking voters permission. Don't do it. It's vicious, cruel, and disrespectful to the people you're elected to represent. Vote no on Somers' lawless proposal to raise property taxes AT ALL right now.

Dear County Council Members,

As a local county worker and resident we voted in the last election not to raise the taxes. Yet says after you want to raise property taxes by 8%. In the last couple years as a county worker we get a small raise and yet the upper management and council members are getting double digit pay increases and we as local residents are barely making ends meet. You need to do an internal audit and find out where the useless spending is going and find alternative ways to fund things. Start from the top and audit your own spending. Us middle and lower class can't keep up with the cost of living and taxes. Our schools need replacement and yet you give yourself a pay raise for doing a bad job of managing our funds. Time to look in the mirror and if you can't fix it time to step down and let someone else do the job properly.

No means no and don't go behind our backs to do a vote when we all have to work to pay ours bills and can't attend your meetings.

Subject: Property tax increase
Date: Tuesday, November 12, 2024 10:25:15 AM

Dear Snohomish County Council Members,

We are against your proposed 8% property tax increase for the county portion of our property taxes! The property tax needs to be frozen at the current rate, the county needs to cut their budget and reduce unnecessary spending and live within their means, as the rest of us have had to during the last 4 years of huge inflation.

Respectfully,

Jere and Lynn Wright

You are elected officials that need to listen to your constituents. We just voted no on additional taxes, especially for a general fund. We the people have spoken and you need to listen. We have seen way too much increase in taxes the last five years, enough is enough. County council needs to look at cutting costs not so quickly to raise more taxes on the working poor. At a time when we have seen such an increase in our daily living costs from inflation, you want to increase our taxes when we can't increase our income 8 percent at just a whim. I for one will not forget who is going to be voting for an increase. Let's work a little harder at what you can do for the people!!!!

Thank you for serving on our County Counsel.

I am writing to ask you to not pass an 8% increase in the county portion of our property taxes. Times are very difficult for many right now with groceries and basic necessities at all time high prices. This is not a time to increase taxes or for the county to spend more. It is a time to cut where we can. There is not an endless supply of money out here, our government needs to do what we as families are doing: cutting in any areas we can. Some of these cuts are hard to do but they are needed. Hard is not the same thing as bad. You were elected to represent your constituents, please look to ways to help and not further economically strap the people you serve.

Thank you.

The RENT IS TOO DAMN HIGH!!

From: [Stewart Grossman](#)
To: [Contact Council](#)
Subject: Snohomish County Ordinance 24-075
Date: Tuesday, November 12, 2024 10:40:28 AM

Dear Snohomish County Council,

I am writing to express my opposition to "Snohomish County Ordinance 24-075," which authorizes an increase in general tax revenues for property taxes collected in 2025 and 2026. I urge you to agree to Nate Nehring's Amendment to work within the current budget.

Considering the significant developments that are being constructed, which will substantially increase the tax base through taxable improvements and the resulting income, I have yet to see any accounting for this expected revenue increase when proposing a tax hike. If housing was considered unaffordable before, these increases will only exacerbate the situation by raising rents for tenants. We need to consider better tax strategies than regressive taxes like property taxes, which disproportionately impact the poor and elderly.

Thank you for your attention to this matter.

Sincerely,

Stewart

Subject: 8% general levy tax increase
Date: Tuesday, November 12, 2024 10:52:11 AM

Dear Snohomish County Council,

As a resident of this county, I would like to express my concern over the budget proposal being discussed at tomorrow's County Council meeting, specifically, the 8 percent property tax increase (although I realize that it would only apply to the county's general property tax levy, it is still significant).

The voter's of Snohomish County just made abundantly clear, one week ago, that we by and large reject new taxes. People are hurting at the grocery store and gas pumps, as well as overspending for rent and other cost of living expenses.

My husband and I have raised our family to understand that saving money is important. We are not frivolous. We do not spend money outside of our means. We have enough savings to support us should we lose our job for 6 months. We have always bought used cars. We don't spend money that we don't have and then go adding to a credit card debt. Why should the county be allowed to do so? If our family needs to tighten our purse strings, we cut out something that is less important and wait until we can afford it. The county should follow suit. Please stop growing areas of county government that are unnecessary or can wait. Please instead balance the budget by cutting unnecessary spending, and do what thousands of Snohomish County voters and having to do on a daily basis - cutting back because we have no choice. Do not raise taxes! Do the right thing and listen to the voters.

Thank you,

Amy Amend

Dear Council,

Please do not raise our property taxes.
Please follow Nate Nehrings recommendations.

I'm paying almost 10k a year in property taxes for the privilege of living near an illegal dump.
I can't sit on my front porch, or enjoy my yard in my rural neighborhood.

It's not just. It is unacceptable that we have to put up with this as our property taxes continue to increase.

I would be ok with it if our quality of life was not so impacted by the illegal operation DTG continues to operate in our rural neighborhood.

But, under the current situation, no way. It would be like a bad joke to raise our taxes.

I think the Council should invite our neighbors to discuss this situation.

Patti and Mel Olsen
Neighbors to the dump.

From: [Gigi Johnston](#)
To: [Contact Council](#)
Subject: Proposed property tax increase
Date: Tuesday, November 12, 2024 10:58:37 AM

Snohomish County Council:

As a resident of this county I am shocked at your proposal to once again raise property taxes. Do you not realize the county assessor has added significant value to our properties for 2025 already, which will raise our taxes. They added \$100,000 to ours and I am hearing similar amounts to others. Our assessment is now pretty close to what our property would sell for. It is ridiculous to think you can continue to raise them.

It's very out of touch to consider this at a time when inflation is higher than it's been in many years, and the past four years have done nothing but drain taxpayer dollars. No matter what side of the political spectrum you're on it's an absolute fact.

There are many retired seniors in our country that are being taxed out of their homes, is this the ultimate goal? Thankfully our state has a cap on how much they can be raised. Think about what effect it has on the county. You continue to raise property taxes and no more school levies will pass, or fire, aid, police and hospital tax increases will ever be voted for. Case in point the recent school levy that failed in Arlington. That levy alone would have increased our taxes by \$1500 a year, and we just could not support it.

I would encourage the council to listen to the common sense approach to your budget brought forward by Nate Nehring and go forward with his proposal. His approach is exactly what this council needs which keeps his community protected from over burdened taxes when it is actually not even necessary.

There are many of us who appreciate Mr. Nehring immensely and his thoughtful approach to this matter. The voters of this county have had enough and clearly stand together on this issue. No more taxes!!

Regards,

Gigi Johnston

Dear Snohomish County Executives,

This increase is mindless and will create more hardship for folks like me. An increase of 8% will drive more folks out of the county and out of the state, like what we are seeing with California...a mass exodus.

Figure out how to do more with less, like most of us have to.

I will vote no and participate to vote this tax increase.

Regards,
Steve

Subject: Vote NO on Property Tax increase!
Date: Tuesday, November 12, 2024 11:04:34 AM

Council Members:

The latest election showed that residents of Snohomish County have no appetite for increased tax burden. Our sales and gas taxes are already some of the highest in the nation. Inflation (e.g. Hidden tax) also continues to hamper Snohomish county families. Capital gains and 'income' taxes are not far behind. Aside from the immoral position that privately owned property can be confiscated by the government, it would serve the council much better to cut wasteful spending as families have been having to do in Snohomish county.

Please put yourselves on the citizen's side of the table and vote 'NO' on any property tax increase.

Firmly and Respectfully,

~ Ryan Alderfer

Dear Council members, As a homeowner in Snohomish County, I am requesting that you not vote in favor of the 8 percent property tax hike at the 11/13 meeting.

Times are tough. Costs have skyrocketed in food, gas, electricity, home goods, essentials and cost of living has not kept up with the increases. People are now getting laid off from their jobs. This State just passed initiatives that will impose further taxes and more money being taken out of my paycheck even though I will not benefit. I am a single income trying to afford my home and this further tax is going to help force me right out of it. Please implement the plan Nate Nehring is suggesting to reduce spending so we can continue to try to financially survive during these tough times.

Sincerely,
Renee Navlet

It is beyond outrageous that you are seriously considering voting to raising property taxes at all. Taxpayers are struggling and yet you are actually thinking about massively raising property taxes way above the 1% CAP and doing it without asking Voters permission. Don't do it! It is vicious, cruel and disrespectful to the people you are elected to represent. Vote NO on Somers' lawless proposal to raise property taxes AT ALL right now. Coming at a time of high inflation, this proposal is not only an increase on property, but an exponential increase on inflated values of properties. The people you represent are not an open source of revenue that you can pilfer money from to squander. Make the tough decision and tighten your belts like the rest of your employers. Do not try to skirt around the mandates prescribed to you by the Initiative process. Do the right and ethical thing and DO NOT exceed the 1% Property Tax Cap without Voter Initiative approval. As seen on the national stage, a referendum against out of control government is gaining traction and it's just a matter time before the people in Snohomish County's voices are heard.

Sincerely,

A Snohomish County Constituent

Subject: Sno. Co. County Property Tax Vote
Date: Tuesday, November 12, 2024 11:27:10 AM

Hello,

Recently I became aware of the upcoming vote on increasing the Sno. Co. portion of property taxes by up to 8%. As a father of 4 in a single income household, I'm urging you not to do this.

My wife and I recently purchased land in Sno. Co., and we are almost done building our forever home. We have stretched ourselves to make this happen, and along the way we noticed that we have become the anomaly in our peer group for having the resources and support to build a home.

Between the sales tax, permitting fees, and property taxes, a family like ours building their own home from scratch will become closer to impossible if the property taxes are increased further.

Please consider voting no on raising property taxes in Snohomish County.

Thank you,

Paul Weeks

Subject: Councilman Nehring's proposed budget amendment to eliminate tax increase
Date: Tuesday, November 12, 2024 11:29:58 AM

Please adopt Councilman Nehring's proposed amendment. DO NOT impose a property tax increase of ANY size.

The county's voters have demonstrated little appetite for increasing taxes with the overwhelming rejection of Proposition 1, on the recent ballot.

My records for our home shows that our property taxes, on average, have increased year to year. Additionally, voter approval for those increases has declined from a high of 43.17% in 2017 to the current approval rate of just 30.68%.

Personally, I find property tax to be the most reprehensible of all taxes. Even after the mortgage is paid, the owner is merely a renter as the government imposes a rental fee year after year in the form of a property tax.

Date: Tuesday, November 12, 2024 11:34:41 AM

Hello,

My name is Keyndra Bishop and I am a resident and home owner in Monroe, WA. I disagree with and reject an 8% increase in property taxes to Snohomish County residents. I wish it to be known that I support Nate Nehring's amendment to evaluate and adjust the existing budget rather than push the fiscal burden onto residents, including my husband and I, who are already dealing with financial hardship and housing instability due to post-pandemic recovery, record home prices (which already increase the taxes we pay based on estimated home value) and interest rates, and major increases to food, gas, and medical costs. Right now our local governments should be doing more for the people, by analyzing the budget and BUDGETING, not relying on the people to pay more. I do not support raising property taxes on November 13th.

Thank you for your consideration.

Subject: Proposed Budget - 8% tax increase
Date: Tuesday, November 12, 2024 11:45:58 AM

As a Senior Citizen on a fixed income, I strongly oppose the proposed 8% Property Tax Hike Proposed in Snohomish County.

I am forced to live within my income and I think it is imperative that city, county, state and federal governments do the same. I don't have the option of having my income raised by arbitrarily increasing it because I want to have the option of spending more. My situation requires budgeting to live within my income. Government should do the same?

Please look at options that support spending based on income without adding to my already high taxes. Increased taxes on property for businesses also add to increased cost for the consumer. It needs to stop!

Date: Tuesday, November 12, 2024 11:59:46 AM

Dear County Council Members;

I strongly oppose the property tax increase approach to the proposed county budget. I support Nate Nehring's amendment to the budget that calls for fiscal restraint and budget tightening, rather than increased tax-and-spend methods.

Every responsible property owner must operate within our budget limitations. We do this by PRIORITIZING our spending to stay within our means. We cannot simply mandate income from others to 'fund the gap' in our own appetites. Genuine leaders in government, I am confident that all of you would apply this principle too.

Thank you!
Dean & Misty Tougas
Stanwood, WA

From: [Richard Dockendorff](#)
To: [Contact Council](#)
Date: Tuesday, November 12, 2024 12:00:34 PM

I oppose the proposed 8% property tax increase. In 2023 my property taxes went up 27% in one year. Now you want to add 8% more.

I am 72 years old am on a relatively fixed income. The general inflation that has been happening in the last few years has eroded my financial situation. Now we have taxflation as well. Please show some restraint for those of us that are on a fixed income.

I would expect my elected officials to find some ways to reduce spending instead of just keep raising taxes. Maybe it's time to freeze taxes for us seniors.

I would appreciate your thoughts on this matter.

Sincerely,

Richard Dockendorff

Subject: County Property Tax Increase
Date: Tuesday, November 12, 2024 12:00:49 PM

Hello,

I would like to request that the bill DOES NOT pass to increase our county property taxes.

As upcoming first time homebuyers, the last thing we need is a larger tax bill to further price us out of this market.

Barring any legitimate statistical evidence that these rate increases are necessary, I'd request this bill to NOT PASS.

Please investigate and exercise any other possible options to cover expenses prior to a tax increase. Please provide genuine evidence that there is not any other excess budgets in other areas that could provide for these expenses.

Thank you,
Colin Fisher

Subject: Snohomish County 8% Tax Hike
Date: Tuesday, November 12, 2024 12:11:54 PM

Dear Snohomish County Council Members;

This letter is in support of Council Member Nate Nehring, the Snohomish County Council Vice President, proposed budget amendment to eliminate the 8% general property tax levy increase in Executive Somers' proposed budget by reducing unnecessary spending to ensure a balanced budget with no tax increase.

As I understand the amendment, it removes budget **increases** over current budgeted levels and **removes discretionary spending** not connected to essential County government functions.

We are concerned that the county must do the same as the citizens of Snohomish County and live within our means and not waste the Snohomish County Citizens hard earned livelihood.

Thank you and please vote to approve the above amendment to remove the budget increase and the discretionary spending for nonessential county functions.

Dear whom it may concern,

Vote NO to increase property taxes. You shouldn't be doing this behind the tax payer backs but something us taxpayers should vote on. Find another way to balance your checkbooks/budgets.

Subject: Proposed tax hike
Date: Tuesday, November 12, 2024 12:13:32 PM

Good Afternoon,

As a recently retired citizen on a fixed budget. I am imploring the Council members to adopt the proposed amendment that will balance the current budget. The citizens of Snohomish County all have budgets they must adhere to, in order to pay their bills and provide for their dependents or businesses.

With the rising cost of living, increased food prices and increased cost of services, we can no longer afford additional taxes. We must live within our budgets and the County must do the same.

Times are hard for everyone. You cannot use your citizens as an open checkbook. You must do your part to balance your budget.

Respectfully,

Cheryl Frost

Subject: Tax increase of 8% in this county/state is NOT ok with me!
Date: Tuesday, November 12, 2024 12:15:15 PM

A tax increase at this time in history is NOT needed. Balancing the already citizen tax load of funds is the only solution for what ails this state. The citizens of this county are over burdened by every increase brought on by mismanagement of citizens funds and the pandemic. Individual AND families are loosing on every front up to and including their homes. More and more conversation on media sites hear from those that have lost jobs, have been injured, or fallen ill. The increase in homelessness has increased. Myself, my family, my friends, and those in my community see a never ending increase in crime, drug addiction, and suicide. Stop this madness and balance the budget responsibly.

This Snohomish County and Washington State Citizen absolutely votes "NO" on this issue of an 8% general levy tax increase.

Subject: PROPERTY TAX INCREASE 8% UNACCEPTABLE!
Date: Tuesday, November 12, 2024 12:17:44 PM
Importance: High

Good Afternoon,

We are totally against this proposed 8% property tax increase. This is totally out of hand to be taxing us all into the ground. Our taxes have already gone up 20% or more the last few years we cannot afford any more!

Dave Somers just snuck a tax increase on the ballot earlier in November that is totally unnecessary. These last minute notices that you are doing this are unacceptable!

Please vote this budget down and rethink how you are spending your constituent's money.

Sincerely,

James and Nancy Sheets

Date: Tuesday, November 12, 2024 12:17:49 PM

Dear Snohomish County Council,

My wife and I just purchased a home in Snohomish County because we were priced out of King County. We can barely afford our mortgage because of the cost of living. We are down to one vehicle because we couldn't afford two car payments on top of child care costs, groceries and our mortgage.

Please do not raise our taxes. I am begging you. We can't afford any increased taxation.

Sincerely,

Gerald P. Huck Jr

Hello snohomish county council,

We are a family of 5 living in Everett, wa who are currently being priced out of the area. Our 3 kids are active and love sports but we are having to consider pulling them out of the activities they love due to the increase in property taxes. Just this month we received notice that our taxes from this past year will raise our mortgage by 250 dollars per month. We cannot afford another property tax increase on top of what we just received. Please vote down the proposed increase. Middle class families cannot afford this nor will we be able to stay in Washington state if this occurs. Help us stay in the state we love!

Thank you,
Jennifer Jackson

As a Snohomish County resident and property owner, I am asking you not increase property taxes. I believe this will result in additional residents and homeowners leaving the county. The people have experienced, and continue to experience, serious inflation and financial difficulties. Should the county vote to increase the property taxes, my family would seriously consider moving elsewhere outside of Snohomish County. With the recent election, the citizens delivered a resounding response. I ask you do right by those you represent.

Respectfully,

C.H. Brody

Subject: Don't violate the 1% property tax cap! We have NOT asked for that!
Date: Tuesday, November 12, 2024 12:24:20 PM

Dear Snohomish County Council,

The voters overwhelmingly passed Initiative 747 and for 23 years state and local governments have not been allowed to raise property taxes more than 1% per year. Anything higher requires voter permission. In 2007, the Democrat-dominated Legislature and Governor Gregoire reimposed the 1% cap. That's the law!

The 8% proposed is not 1%. It is beyond outrageous that you're seriously considering voting to raise property taxes AT ALL. Taxpayers are struggling and yet you're actually thinking about massively raising property taxes significantly above the 1% cap and doing it without voter's permission. Don't approve it.

It's disrespectful to the people you're elected to represent. Vote no on Somers' lawless proposal to raise property taxes AT ALL right now.

Thank you for supporting NO on this tax increase.

Respectfully,
Lydia Zibin

Subject: Proposed 8% Tax Increase
Date: Tuesday, November 12, 2024 12:29:59 PM

Dear Snohomish County Council Members,
I vote NO on the proposed tax increase. If it passes it will be a financial burden for my family! I support Nate Nehring's proposal to freeze property tax.

Given the continually increasing assessed values of property in Snohomish County and unreasonable budget expansions for nonessential government projects, the property owners are already being hit with large property tax increases on a real dollar basis year after year.

This 8% increase on top of everything else, will have a huge adverse impact and force many out of their homes. If you have budget issues, then cut the nonessential government projects. Stop being a Sanctuary County that encourages illegal entry into this country and encourages traffic into this county, leaving residents to foot the bill for their housing, medical, education, law enforcement, and much more. Stop making irresponsible decisions that punish American Citizens and be responsible to the American citizens who have done their part year after year.

Subject: Vote No on Property Tax Increase
Date: Tuesday, November 12, 2024 12:36:07 PM

My name is Pilar Jackson and I am a citizen and homeowner at 10229 133rd Pl Se, Snohomish (near the old Kenwanda golf course). I know that you plan to vote on the increase of an 8% property tax, and I would like to respectfully ask you to vote "**no**" on this proposal.

I feel that as a part of the county council your job is to be representatives of your constituents and what they both want and need. We the citizens of Snohomish both do not want or need an increase of property taxes and just voted Nov. 5 to resoundly reject another county tax. I'm sure that you have the best intention of wanting to use that increase of revenue. However, I believe that the county should prove to their community that they can spend the money already allocated to them in the budget, not ask for more money, as Snohomish county already has one of the highest property taxes in the state and country.

Overall costs of living in Washington state are already going higher every year, leading to many people leaving the state. If we continue to have a mass exodus this would not be good for you, the council, us, the community, and the state as a whole. Therefore, I again urge you as a wife, mother, tax payer, homeowner, and lover of Snohomish to please **vote no.**

Thank you,

Pilar Jackson

Council, please do not vote on raising our property taxes.. very few of us are even getting by now let alone if there is an 8% increase to our property taxes! Talk about homeless a lot of younger people and also retire on a budget people will lose their homes/Properties. We are all on tight budgets and the last thing we need is to have these taxes put on. Please No let's try councilman Nate Nehring proposal on freezing these taxes and balance the budget as all of us Home Owners have too do! All us seniors are on fixed incomes and can not afford this and the county's exempt does not even help more than 1/2 of us due to one thing or another.

Please we are against the highing of property taxes!
Marchelle and Richard Lambert
Snohomish County.

CAUTION. This email originated from outside of this organization. Please exercise caution with links and attachments.

This is really, really absurd to think that with all the insane inflation and illegals allowed into our country by Biden/Harris that you want to raise our property taxes EVEN MORE to pay for all this nonsense.

My property taxes are insanely high for a senior citizen. And your programs to help senior citizens to lower property taxes are have incredibly low-income thresholds to help the majority of us baby boomers. To qualify you really have to be in poverty. How about REALISTIC income thresholds? My social security is already double taxed.

The people spoke last Tuesday!!!! The democrats need to embrace a common-sense approach to governing rather than pandering to extremes. Your runaway programs to help illegals, but not veterans is reprehensible. When people can't afford something, they budget accordingly. Why can't government figure out how to live within a budget?

Specifically, the voters overwhelmingly passed Initiative 747 and for 23 years state and local governments have not been allowed to raise property taxes more than 1% per year. Anything higher requires voter permission. In 2007, the Democrat-dominated Legislature and Governor Gregoire reimposed the 1% cap. 1% means 1%. 8% is not 1%. It is beyond outrageous that you're seriously considering voting to raise property taxes AT ALL. Taxpayers are struggling and yet you're actually thinking about massively raising property taxes way above the 1% cap and doing it without asking voters permission. Don't do it. CAUTION. This email originated from outside of this organization. Please exercise caution with links and attachments.

Sent from my iPhone to whom this may concern in Snohomish County counsel.

I heard that Snohomish county is planning on increasing real estate tax on property by 8.046 %

I totally disagree with doing that.

Snohomish county has one of the highest tax rates in the nation! And with high inflation under the Biden administration, how do you expect people to pay for that?

I agree with District 1 councilman Nate Nehrings amendment to work within the current budget.

And If more money is needed, I recommend redistribute tax dollars from schools which is excessive, over 60% of tax dollars to any other area of need.

That would serve the community's best interest.

Thank you.

David Foster
Snohomish County tax payer
