Dear Council Staff,

The attachment is my letter of recommendation in support of Commissioner Jennifer Millett. Thank you for presenting it to the councilmembers.

December 14, 2025

Dear Councilmembers:

I am writing to strongly endorse Commissioner Jennifer Millett for the vacant judge position in the Everett Division. Simply put, Commissioner Millett has been performing the duties of a judge, and she will hit the ground running. As you may be aware, the Everett Division is unique operationally because it is in the County seat. For example, Everett Division hears in custody calendars for all other court divisions, and the court also hears in custody felony arrests and bail hearings. These calendars are challenging because they require a judge to quickly identify legal issues and render efficient and fair decisions. The ability to manage the courtroom in this manner requires a judicial officer who has performed the duties every day to attain the necessary level of experience, and Commissioner Millett is that person.

Additionally, she brings to the position her judicial administrative experience, which includes knowing the clerk's office operation and how the court interacts with other system partners. For instance, she volunteers on budget and court security committees and serves as court liaison to discuss jail-related issues of concern. These are extra responsibilities she readily takes on because she is driven by motivation to learn and improve the court system. Commissioner Millett's judicial experience, which, combined with her service on court committees and understanding of County operations, makes her the most qualified candidate.

For almost nineteen years, I have had the honor and privilege to serve as judge in the Everett Division. I am proud to recommend Commissioner Millett to take my position. Thank you for your consideration.

Respectfully,

/s/

Judge Tam T. Bui
