

SKETCHED MAP SHEET REQUIRED

Please sketch a representative drawing of your property which clearly locates all buildings, sheds, forestlands, wetlands, buffers, roads, trails, etc. An aerial map may be attached, accepted as a replacement for this detailed sketch, as aerial maps may not always reflect on the property.

Centennial trail

Pasture

Pilchuck River

All the pasture is considered flood plane and is non buildable

The blue areas are susceptible to being under 6' of water when it floods multiple times a year and are wetlands
The green area is about 1/2 acres that I lost to river washout, now instead of pasture it is a gravel bar.
