**MEMORANDUM**

TO: Snohomish County Planning Commission

FROM: Hilary McGowan, Planner

SUBJECT: Proposed Code Amendments Relating to Development  
Application and Permit Expiration Extensions

DATE: May 28, 2022

**Dave Somers**  
*County Executive*

**INTRODUCTION**

The purpose of this staff report is to outline and provide information regarding a proposal to amend permit application expiration terms for Land Disturbing Activity (LDA), Flood Hazard, and Flood Hazard Variance permits, and permit expiration fees to match the proposed permit application expirations. This code amendment also proposes limited code clean-up associated with permitting fee tables. The proposed code could work to increase the consistency between permit application expiration timelines within Title 30 chapters and make fees and code language for permit application and permit extensions consistent among permit types.

**BACKGROUND**

Snohomish County Planning and Development Services (PDS) staff have identified several instances in which permit applications have expired on certain projects, while the associated applications have not expired. Land Disturbing Activity (LDA), Flood Hazard, and Flood Hazard Variance permit applications are currently valid for 18 months and the expiration date cannot be extended. This has resulted in LDA and Flood Hazard applications expiring for many projects before the related building permit or land use applications have expired. This mismatch in expiration dates is true even if the applicant has requested consolidated review under SCC 30.70.12.

Application expiration dates translate into the amount of time applicants must demonstrate to the county staff that their application is in compliance with all applicable code requirements. When the application expiration dates of the required permits are out of alignment, this can result in some applications expiring while other permit applications still have remaining time left for review. To complete a project when these permit applications expire, the applicant must re-submit materials for the LDA, Flood Hazard, or Flood Hazard Variance permit. This causes delays as the new application materials must be processed, a new public notice may be required, and the applicant is subject to pay additional fees. This is a frequent issue identified by PDS staff that could be resolved by aligning application extensions for LDA, Flood Hazard, and Flood Hazard Variance permits with the current process for building permit applications.

Chapter 30.70 SCC describes general process requirements for permits and decisions including expiration dates, and Chapter 30.86 SCC relates to fees required for permit application and extension requests. The fees and timelines for LDA, Flood Hazard, and Flood Hazard Variance permit applications

have changed over time. The last change was made in 2016. Amendments in 2016 eliminated extensions for LDA applications and added a time limit for Flood Hazard Variances. Under SCC Table 30.70.140(1), LDA and Flood Hazard permit applications expire 18 months after submittal, without the option for an extension.

Prior to 2016, LDA permit applications expired after 18 months, and there was the option for the PDS Director to grant one extension of the permit application that couldn't exceed an additional 18 months. The renewal fee was \$400 plus a percentage of the original application or permit fee equal to the percentage of approved or permitted activity to be completed.

Applicants who are applying for building permits, such as single-family homes or garages, may also need to apply for LDA, Flood Hazard, or Flood Hazard Variance permits depending on the size and location of the proposed buildings. The associated building permit applications expire 18 months after submittal, although the expiration date can be extended by the County building official by up to 18 months. If the building permit application is extended to allow for more review time, this may cause applicants to need to re-apply for LDA, Flood Hazard, or Flood Hazard Variance permits which expire after only 18 months. Resubmittal will cause the applicant to pay new fees. Fee rates for LDA applications (SCC 30.86.510) range from \$375 to \$34,700, depending on specified levels of drainage and grading, and may be subject to additional fees for security device administration. Fee rates for Flood Hazard permit applications (SCC 30.86.300) range from \$300 to \$1,500. To help prevent the need to resubmit permit applications and pay the full application fees again due only to mismatched expiration timelines, this code amendment proposes that extensions of up to 18 months be permitted for LDA and Flood Hazard applications.

Requiring this additional resubmittal increases costs and time for the applicant and increases permit application processing and review time for PDS staff. In reviewing permit applications, staff found that 149 out of 2,182 LDA permit applications expired since 2017. Due to permitting software changes and changes in how PDS codes certain permit types, there is no data to show how many LDA, Flood Hazard, and Flood Hazard Variance projects have re-applied for a permit since they have expired. Since 2016, PDS staff have reported this being a semi-regular occurrence for applicants when accounting for potential longer-term permit application timelines for associated building permits.

Preliminary Subdivisions and Preliminary Short Subdivisions allow an extension for the expiration of approval or permit with fees that are both \$500 under SCC 30.86.100 and SCC 30.86.110. A flat fee required for the allowed total extension time of two years granted by PDS is an efficient process because it is consistent for all applications and does not require staff to determine factors such as percentage complete. LDA applications prior to 2016 could be renewed for \$400 plus a percentage of the original application or permit fee equal to the percentage of approved or permitted activity to be completed. PDS staff recommends against adding in fee language that requires percentages of activity completed to be assessed, since it can be difficult to quantify such language consistently. Instead, this code amendment proposes a flat fee of \$500 for permit application extensions for LDA, Flood Hazard, and Flood Hazard Variance permits.

Under SCC Table 30.70.140(1), SCC 30.50.140, SCC Table 30.86.400(6), and SCC Table 30.86.400(7) Building Permits allow an application extension of 18 months, and an application extension fee of a \$400 administration fee plus a percentage of the original plan review fee equal to the percentage of work completed (SCC 30.86.400). Building Permits extensions under SCC 30.50.144 and SCC Table 30.86.400(7) also have extension fees based on the percentage of finished work. It is often difficult for staff to determine the percentage of work that has been completed when calculating the application extension and extension fees. In order to maintain consistency between fees related to specific permitting work, PDS staff recommends that Building Permit application extensions (SCC Table

30.86.400(6)) and Building Permit extensions (SCC Table 30.56.400(7)) be assigned the same cost as the proposed LDA, Flood Hazard, and Flood Hazard Variance application extensions of \$500.

In addition to the proposed application extensions and fee consistency, this code amendment also proposes to clean up dated expiration extension language in SCC Table 30.70.140(1) for Subdivisions and Short Subdivisions. Currently, the table has two conditions for the expiration of approval or permit. PDS proposes to remove the extension language for Subdivisions and Short Subdivisions that were approved on or before December 31, 2007, since there are no permits that would be valid in that timeline in 2022. With the removal of the December 31, 2007, date, the language that specifies permit extensions that were approved on or after January 1, 2008, is also recommended to be removed. PDS also proposes to reduce the amount of extensions that could be requested for Subdivisions and Short Subdivisions. Currently there could be multiple extension requests that could equal up to two years. The proposal is to instead allow a one time permit extension of two years. This proposed change would reduce the review burden on PDS Staff and extension submittal burden on applicants in order to achieve the same timeline of permit extensions.

While unifying the permit application and permit extension fees for building permits, PDS staff recommends removing a reference note in SCC Table 30.86.400(7). This provision was added by Ordinance No. 06-004 in 2006, and has since been sunsetted in past Ordinances. This code deletion would be a housekeeping item to remove a reference that is no longer applicable.

This amendment would add an extension for permit applications for Flood Hazard Permit, Flood Hazard Variance, and Land Disturbing Activity approval types. Allowing a one-time extension of 18 months to these permit applications would allow for timeline consistency for applicants who submit multiple applications for one project. LDA, Flood Hazard, and Flood Hazard Variance permit applications are currently valid for 18 months and the expiration date cannot be extended. This has resulted in LDA and Flood Hazard applications expiring for many projects before the related building permit or land use applications have expired. Without an extension, applicants must re-submit these permit

Approval Type	Expiration of application	Expiration of approval or permit
Subdivisions	48 months	Per RCW 58.17.140, except that:
		<del>For preliminary subdivisions that were approved on or after January 1, 2008, one or more extensions not to exceed a total extension time of two years may be granted by the department. Such request must be received by the director at least 30 days prior to the expiration of the preliminary subdivision approval or prior extension. The applicant shall pay a fee for each extension pursuant to SCC 30.86.100. May be extended for an additional two years.<sup>(3)</sup></del>

This amendment would clean up dated expiration extension language in SCC Table 30.70.140(1) for Subdivisions and Short Subdivisions. Currently, the table has two conditions for the expiration of approval or permit. PDS proposes to remove the extension language for Subdivisions and Short Subdivisions that were approved on or before December 31, 2007, since there are no permits that would be valid in that timeline in 2022. The language that specifies permit extensions that were approved on or after January 1, 2008, are also recommended to be removed. PDS also proposes to reduce the amount of extensions for Subdivisions and Short Subdivisions that could equal up to two years, and instead allow a one-time permit extension of two years. This proposed change would reduce the review burden on PDS Staff and extension submittal burden on applicants to achieve the same timeline of permit extensions. This amendment would also add reference notes to reflect the same format as the LDA, Flood Hazard, and Flood Hazard Variance application extension to ensure consistency.

Building Permits allow an application extension of 18 months, and an application extension fee of a \$400 administration fee plus a percentage of the original plan review fee equal to the percentage of work completed. It is often difficult for staff to determine the percentage of work that has been completed when calculating the application extension and extension fees.

In order maintain consistency between fees related to specific permitting work, PDS staff recommends that Building Permit application extensions be assigned the same cost as the proposed LDA, Flood Hazard, and Flood Hazard Variance application extensions at \$500.

## ANALYSIS

The following analysis provides a summary of the proposed code amendments compliance with state law, regional, and countywide planning policies, and county comprehensive plan policies.

### Compliance with State Law

The Growth Management Act (GMA) contains planning goals, contained in Revised Code of Washington (RCW) 36.70A.020, which guide the development of local comprehensive plans and development regulations. The following planning goals apply to these proposed code changes:

*GMA Goal 7- "Permits. Applications for both state and local government permits should be processed in a timely and fair manner to ensure predictability."*

Analysis: The proposed amendments would support the permitting goal by reducing cost and time for applicants to re-apply for application extensions and time for PDS staff to re-process applications. The proposed amendments would also add fee consistency for similar fee types, which increases code predictability and accessibility.

### **Compliance with the Multi-County Planning Policies**

The proposed amendments are consistent with the following multicounty planning policies (MPPs) from the Puget Sound Regional Council VISION 2050:

*MPP-H-10 – Encourage jurisdictions to review and streamline development standards and regulations to advance their public benefit, provide flexibility, and minimize additional costs to housing.*

Analysis: The proposed changes would streamline the permitting process for applicants who submit building permit applications in coordination with LDA, Flood Hazard, and Flood Hazard Variance permits, allowing for the timelines of all permits associated with building permits for a project to be aligned. These proposed amendments would also add consistency between fees for permit application extensions and permit extensions for similar permit types.

### **Compliance with the Countywide Planning Policies**

The proposed amendments are consistent with the following countywide planning policies:

*HO-11 - The county and cities should consider the economic implications of proposed building and land use regulations so that the broader public benefit they serve is achieved with the least additional cost to housing.*

Analysis: The proposed changes would streamline the permitting process that could encourage increased housing development.

*DP-5 - The County and cities shall adopt comprehensive plans and development regulations (RCW 36.70A.040). In Urban Growth Areas (UGAs), such plans and regulations shall:*  
*a. Achieve urban uses and densities;*  
*b. Provide for urban governmental services and capital facilities sufficient to accommodate the broad range of needs and uses that will accompany the projected urban growth; and*  
*c. Permit the urban growth that is projected to occur in the succeeding twenty-year period (RCW 36.70A.110(2)).*

*The County shall adopt such plans and regulations for its unincorporated territory. Each city shall adopt such plans and regulations for territory within its city limits. Additionally, cities may adopt such plans and proposed development regulations for adjacent unincorporated territory within its UGA or Municipal UGA (MUGA) to which the city has determined it is capable of providing urban services at some point in the future, via annexation.*

*When amending its comprehensive plan, the County shall give substantial consideration to the city's adopted plan for its UGA or MUGA. Likewise, the affected city shall give substantial consideration to the County's adopted plan for the same area.*

*However, nothing in this policy shall limit the authority of the County to plan for and regulate development in unincorporated territory for as long as it remains unincorporated, in accordance with all applicable county, state and federal laws. Similarly, nothing in this policy shall limit the authority of cities to plan for territory in and adjacent to their current corporate limits and to*

*regulate development in their current corporate limits, in accordance with all applicable city, county, state and federal laws.*

Analysis: The proposed amendments would support development regulations that encourage achieving urban uses and densities through streamlining the permitting process.

#### **Compliance with the Snohomish County Comprehensive Plan**

The proposed amendments would be consistent with and help implement a number of policies contained within the Snohomish County Growth Management Act Comprehensive Plan (GMACP) – General Policy Plan (GPP). The following policies apply to the code amendments as proposed in this report.

*Objective LU 2.E – Provide for reasonable flexibility in land use regulation and planned mixing of uses, where appropriate, while maintaining adequate protection for existing neighborhoods.*

Analysis: The proposed code amendments could encourage development through streamlining the permitting processes and cleaning up land use regulations for increased accessibility.

#### **Environmental Review**

Staff has completed a SEPA checklist for this proposed code amendment and will be issuing a Determination of Nonsignificance on June 8, 2022. The fourteen-day public comment period will conclude prior to the briefing at Planning Commission on June 28, 2022.

#### **Notification of State Agencies**

Pursuant to RCW 36.70A.106, a notice of intent to adopt the proposed regulations and standards will be transmitted to the Washington State Department of Commerce on June 8, 2022.

#### **Staff Recommendation:**

Staff recommends approval of the proposed code amendments and findings contained in this staff report.

#### **Action Requested**

The Planning Commission is requested to hold a public hearing, consider the proposed code amendments, and provide a recommendation to the County Council. The Planning Commission can recommend approval of the amendments with supporting findings of fact as proposed or modified, deny the proposal with findings, or amend the proposal with appropriate findings.

Snohomish County Council

Everett, WA 98201-4046

SUBJECT: Planning Commission recommendation on proposed code amendments relating to  
Development Application and Permit Expiration Extensions

Dear Snohomish County Council:

On behalf of the Snohomish County Planning Commission, I am forwarding our recommendation to amend Snohomish County Code (SCC) 30.70, 30.86, 30.50, and 30.56 relating to development applications and permit expiration extensions. The Planning Commission had a briefing on this topic on June 28, 2022 and conducted a public hearing on July 26, 2022.

The proposed code would amend permit application expiration terms for Land Disturbing Activity (LDA), Flood Hazard, and Flood Hazard Variance permits, and permit expiration fees to match the proposed permit application expirations. This code amendment also proposes limited code clean-up associated with permitting fee tables. The proposed code could work to increase the consistency between permit application expiration timelines within Title 30 chapters and make fees and code language for permit application and permit extensions consistent among permit types.

There were no written comments received by the Planning Commission from the public prior to the July 26th hearing, and no members of the public commented at the public hearing.

**PLANNING COMMISSION RECOMMENDATION**

At the July 26, 2022 Planning Commission meeting, Commissioner Norcott made a motion, seconded by Commissioner Everett, recommending APPROVAL of the proposed code amendments relating to Flood Hazard Areas Code Correction as submitted by staff.

**Vote (Amendment):**

10 in favor (*Ash, Brown, Campbell, Eck, Everett, James, Larsen, Norcott, Pederson, Sheldon*)

0 opposed

0 abstentions

**Amendment passed**

This recommendation was made following the close of the public hearing and after due consideration of information presented and is based on the findings and conclusions presented in the May 28, 2022 staff report, with which the Commission concurred.

13 WHEREAS, counties and cities that are required to plan under the Growth Management Act  
14 (GMA), Chapter 36.70A RCW, must ensure their permit processing is done in a timely and fair manner to  
15 ensure predictability; and  
16

17 WHEREAS, the Snohomish County ("County") GMA Comprehensive Plan (GMACP) - General  
18 Policy Plan (GPP) includes a policy requiring the county to periodically review the permitting process to  
19 eliminate unnecessary administrative procedures that do not respond to legal requirements for public  
20 review and citizen input; and  
21

22 WHEREAS, application expiration dates translate into the amount of time applicants have to  
23 demonstrate to County staff that their application is in compliance with all applicable code  
24 requirements, and when the application expiration dates of all the required permits for one project are  
25 out of alignment, this can result in some applications expiring while other permit applications still have  
26 remaining time left for review; and  
27

28 WHEREAS, pursuant to Snohomish County Code (SCC) 30.70.140 Land Disturbing Activity (LDA),  
29 Flood Hazard, Flood Hazard Variance, and building permit applications expire 18 months after submittal,  
30 although the expiration date for building permit applications can be extended by the County building  
31 official by up to 18 months; and  
32

33 WHEREAS, LDA, Flood Hazard, and Flood Hazard Variance permit applications are subject to mis-  
34 matched expiration timelines with associated building permit application and permit expiration times,  
35 which has resulted in LDA, Flood Hazard, and Flood Hazard Variance permit applications expiring before  
36 the related building permit or land use applications have expired; and  
37

38 WHEREAS, if the building permit application is extended to allow for more review time, this may  
39 cause applicants to need to re-apply for LDA, Flood Hazard, or Flood Hazard Variance permits which  
40 expire after only 18 months, and are not subject to extensions; and  
41

1 WHEREAS, when an applicant must re-submit materials for LDA, Flood Hazard, and Flood Hazard  
2 Variance permit applications due to mismatched expiration times, delays occur as the new application  
3 materials must be processed, a new public notice may be required, the application is subject to  
4 additional fees, and permit application processing and review time for Planning and Development  
5 Services (PDS) staff is increased; and  
6

7 WHEREAS, aligning application extensions for LDA, Flood Hazard, and Flood Hazard Variance  
8 permit applications with the current process for building permit applications would resolve this issue;  
9 and  
10

11 WHEREAS, under SCC 30.86.510, fee rates for LDA permit applications range from \$375 to  
12 \$34,700, depending on specified levels of drainage and grading, and may be subject to additional fees  
13 for security device administration, and under SCC 30.86.300, fee rates for Flood Hazard applications  
14 range from \$300 to \$1,500; and  
15

16 WHEREAS, permit application and permit extension fees do not consistently reflect the amount  
17 of work required for PDS staff to review applications and to provide predictability for applicants; and  
18

19 WHEREAS, the fees and timelines for LDA, Flood Hazard, and Flood Hazard Variance permit  
20 applications were last changed in 2016 by Amended Ordinance No. 16-004, in which LDA application  
21 extensions were removed and Flood Hazard Variance permit applications were assigned an expiration  
22 timeline; and  
23

24 WHEREAS, prior to amendments under Amended Ordinance No. 16-004, LDA permit  
25 applications expired after 18 months, however there was an option for the PDS Director to grant one  
26 extension up to 18 months and the renewal fee was \$400 plus a percentage of the original application or  
27 permit fee equal to the percentage of approved or permitted activity to be completed; and  
28

29 WHEREAS, building permit extensions under SCC Table 30.70.140(1), SCC 30.50.140, SCC Table  
30 30.86.400(6), and SCC Table 30.86.400(7) have an application extension fee of a \$400 administration fee  
31 plus a percentage of the original plan review fee equal to the percentage of work completed; and  
32

33 WHEREAS, PDS staff find that it is difficult to consistently determine the percentage of work that  
34 has been completed when calculating the permit application extension and permit extension fees,  
35 causing inconsistencies and a lack of predictability for applicants; and  
36

37 WHEREAS, Preliminary Subdivisions and Preliminary Short Subdivisions allow an extension of up  
38 to two years for the expiration of approval or permit with flat fees that are both \$500 under SCC  
39 30.86.100 and SCC 30.86.110; and  
40

1 WHEREAS, a flat fee is an efficient process because it is consistent for all applications, it does not  
2 require additional staff time to determine, and it is reflective of the amount of work required to process  
3 permit applications; and  
4

5 WHEREAS, in order to maintain consistency between fees related to specific permitting work,  
6 PDS staff recommends that Building Permit application extensions (SCC Table 30.86.400(6)) and Building  
7 Permit extensions (SCC Table 30.86.400(7)) be assigned the same cost as the proposed LDA, Flood  
8 Hazard, and Flood Hazard Variance application extensions of \$500; and  
9

10 WHEREAS, SCC Table 30.70.140(1) lists extension language for Subdivisions and Short  
11 Subdivisions that were approved on or before December 31, 2007, and conditions for permit extensions  
12 that were approved on or after January 1, 2008; and  
13

14 WHEREAS, there are no existing Subdivision or Short Subdivision permits that are valid for the  
15 conditions for extensions for permits that were approved on or before December 31, 2007; and  
16

17 WHEREAS, the proposed code amendments contained in this ordinance will amend chapters  
18 30.70 and 30.86 SCC to increase consistency between permit application expirations and fees,  
19 streamline reviews, and clean up dated expiration language in SCC Table 30.70.140 for Subdivisions and  
20 Short Subdivisions, and other housekeeping measures; and  
21

22 WHEREAS, on June 28, 2022, the Snohomish County Planning Commission (the "Planning  
23 Commission") was briefed by PDS staff about the proposed code amendments contained in this  
24 ordinance; and  
25

26 WHEREAS, the Planning Commission held a public hearing on July 26, 2022, to receive public  
27 testimony concerning the proposed code amendments contained in this ordinance; and  
28

29 WHEREAS, at the conclusion of the Planning Commission's public hearing, the Planning  
30 Commission deliberated on the proposed ordinance and voted to recommend approval of code  
31 amendments relating to development application and permit expiration extensions as shown in its  
32 approval letter dated August 10, 2022; and  
33

34 WHEREAS, on \_\_\_\_\_, 2022, the Snohomish County Council ("County Council") held a  
35 public hearing after proper notice, and considered public comment and the entire record related to the  
36 code amendments contained in this ordinance; and  
37

38 NOW, THEREFORE, BE IT ORDAINED:  
39

40 Section 1. The County Council adopts the following findings in support of this ordinance:  
41

42 A. The foregoing recitals are adopted as findings as if set forth in full herein.

- 1 B. This ordinance amends SCC Table 30.70.140(1) to add an 18 month application extension to Flood  
2 Hazard Permit, Flood Hazard Variance, and LDA approval types.  
3
- 4 C. This ordinance amends SCC Table 30.70.140(1) to remove dated expiration of approval or permit  
5 language for Subdivisions and Short Subdivisions approved on or before December 31, 2007, and  
6 retains and streamlines language for existing two year extensions for Subdivisions and Short  
7 Subdivisions.  
8
- 9 D. This ordinance amends SCC Table 30.86.300 to add a Flood Hazard Permit and Flood Hazard  
10 Variance Application Extension fee of \$500.  
11
- 12 E. This ordinance amends SCC Table 30.86.510(2) to add a LDA Application Extension fee of \$500.  
13
- 14 F. This ordinance amends SCC Table 30.86.400(6) to amend the Building Permit Plan Review fee for  
15 application extensions to \$500.  
16
- 17 G. This ordinance amends SCC Table 30.86.400(7) to amend the Building Permit fee for permit  
18 extensions to \$500.  
19
- 20 H. This ordinance amends permit application expiration terms for LDA, Flood Hazard, and Flood Hazard  
21 Variance permits, and permit expiration fees to match the proposed permit application expirations.  
22 This code amendment also proposes limited code clean-up associated with permitting fee tables.  
23 The code works to increase the consistency between permit application expiration timelines within  
24 Title 30 chapters and make fees and code language for permit application and permit extensions  
25 consistent among permit types.  
26
- 27 I. In developing the proposed amendments, the County considered the GMA goals related to permit  
28 processing times:  
29
- 30 GMA Goal 7 – “Permits. Applications for both state and local government permits should be  
31 processed in a timely and fair manner to ensure predictability”  
32
- 33 The proposed amendments would support the permitting goal by reducing cost and time for  
34 applicants to re-apply for application extensions and time for PDS staff to re-process applications.  
35 The proposed amendments would also add fee consistency for similar fee types, which increases  
36 code predictability and accessibility.  
37
- 38 J. The proposed amendments are consistent with the following multicounty planning policies (MPPs)  
39 from Puget Sound Regional Council VISION 2050:  
40

1 MPP-H-10 – Encourage jurisdictions to review and streamline development standards and  
2 regulations to advance their public benefit, provide flexibility, and minimize additional costs to  
3 housing.

4  
5 The proposed changes would streamline the permitting process for applicants who submit building  
6 permit applications in coordination with LDA, Flood Hazard, and Flood Hazard Variance permits,  
7 allowing for the timelines of all permits associated with building permits for a project to be aligned.  
8 These proposed amendments would also add consistency between fees for permit application  
9 extensions and permit extensions for similar permit types.

10  
11 K. The proposed amendments are consistent with the following countywide planning policies (CPPs):

12  
13 HO-11 - The county and cities should consider the economic implications of proposed building  
14 and land use regulations so that the broader public benefit they serve is achieved with the least  
15 additional cost to housing.

16  
17 The proposed changes would streamline the permitting process that could encourage increased  
18 housing development through reducing costs and providing predictability and consistency for  
19 developers.

20  
21 L. The proposed amendments are consistent with and help implement a number of policies contained  
22 within the County's GMACP GPP. The following policy applies to the code amendments as proposed  
23 in this ordinance:

24  
25 Policy ED 2.A.3 – To ensure timeliness, responsiveness, and increased efficiency, the county shall  
26 develop and maintain a program of periodic review of the permitting process to eliminate  
27 unnecessary administrative procedures that do not respond to legal requirements for public  
28 review and citizen input.

29  
30 The proposed code amendments would work to increase the efficiency of the permitting process  
31 through uniting permitting application timelines, and would reduce the amount of unnecessary  
32 administrative procedures caused by application re-submittal.

33  
34 M. Procedural requirements.

- 35  
36 1. Under Snohomish County Code, this ordinance is a Type 3 legislative action pursuant to SCC  
37 30.73.010.  
38  
39 2. As required by RCW 30.70A.106(1), a notice of intent to adopt the proposed code amendments  
40 was transmitted to the Washington State Department of Commerce for distribution to state  
41 agencies on June 8, 2022.  
42

- 1 3. State Environmental Policy Act (SEPA), chapter 43.21C RCW, requirements with respect to this  
2 non-project action have been satisfied through the completion of an environmental checklist  
3 and the issuance of a determination of non-significance on June 8, 2022.  
4
  - 5 4. The public participation process used in the adoption of this ordinance complies with all  
6 applicable requirements of the GMA and the SCC, including but not limited to, RCW 36.70A.035,  
7 RCW 36.70A.140, and chapter 30.73 SCC.  
8
  - 9 5. The Planning Commission was briefed on the proposed amendments at its June 28, 2022,  
10 meeting and conducted a public hearing on the proposed amendments at its July 26, 2022,  
11 meeting resulting in its letter of August 10, 2022, recommending approval of the code  
12 amendments contained in this ordinance.  
13
  - 14 6. The Washington State Attorney General last issued an advisory memorandum, as required by  
15 RCW 36.70A.370, in September of 2018 entitled "Advisory Memorandum: Avoiding  
16 Unconstitutional Takings of Private Property" to help local governments avoid the  
17 unconstitutional taking of private property. The process outlined in the State Attorney  
18 General's 2018 advisory memorandum was used by Snohomish County in objectively evaluating  
19 the regulatory changes proposed by this ordinance.  
20
- 21 N. This ordinance is consistent with the record.
- 22
  - 23 1. LDA, Flood Hazard, and Flood Hazard Variance Permit applications currently are mismatched in  
24 permit application expiration timelines with associated building permits, causing an issue with  
25 applicants needing to resubmit permit applications that is a burden to applicants and causes  
26 additional staff time to process the application. In adding an application extension to these  
27 permit applications, expiration times for building permits are matched up. This will increase the  
28 efficiency of reviews and reduce the burden of resubmittal on both the applicant and on PDS  
29 staff.  
30
  - 31 2. In order to maintain consistency between fees related to specific permitting work associated  
32 with application extensions, adding a \$500 fee for LDA, Flood Hazard, and Flood Hazard Variance  
33 Permits represents similar work for the same fee as permit expiration extensions of Preliminary  
34 Subdivisions and Preliminary Short Subdivisions. In order to unite similar fees that reflect the  
35 same permitting work, changing Building Permit application extensions, and Building Permit  
36 Extensions from a fee representing a percentage of work done to a flat \$500 fee provides  
37 consistency and predictability.  
38
  - 39 3. To ensure consistency with permit extension timelines for Subdivision and Short Subdivisions  
40 and to reduce burden on PDS Staff and re-submittal burden on applicants, PDS staff recommend  
41 consolidating the current allowance for multiple extensions that could equal up to two years,  
42 and to instead allow a one-time permit extension of two years.  
43

- 1 4. PDS recommends a housekeeping item removing a reference note related to permit fees set at  
2 zero dollars (\$0.00) for playing fields on designated recreational land in SCC Table 30.86.400(7).  
3 That reference note was adopted by Amended Ordinance No. 06-004 and linked to a chapter of  
4 code, chapter 30.33B SCC, that has sunset as provided in that chapter and is no longer  
5 operative. The related fee provisions were determined to have sunsetted as well, as  
6 contemplated in Section 3.E. of Amended Ordinance No. 06-004. In Amended Ordinance No. 21-  
7 048, the County removed a number of similar playing field fee provisions but missed the  
8 reference noted in SCC Table 30.86.400(7) that is proposed for removal in this ordinance.  
9
- 10 5. The code amendments proposed by this ordinance provide further clarity in language  
11 consistency in the fee table through removing dated expiration extension language, and  
12 merging two separate allowed extensions into a single two-year extension, which provides  
13 reduced review burden on PDS Staff and extension submittal burden on applicants in order to  
14 achieve the same timeline of permit extensions.  
15

16 Section 2. The County Council makes the following conclusions:  
17

- 18 A. The proposal complies and is consistent with the GMA, Washington State law and the SCC.  
19  
20 B. The proposal complies and is consistent with the GMACP.  
21  
22 C. The County has complied with all SEPA requirements with respect to this non-project action.  
23  
24 D. The public participation process used in the adoption of this ordinance complies with all applicable  
25 requirements of the GMA and title 30 SCC.  
26  
27 E. The amendment proposed by this ordinance does not result in an unconstitutional taking of private  
28 property for a public purpose.  
29

30 Section 3. The Snohomish County Council bases its findings and conclusions on the entire record  
31 of the County Council, including all testimony and exhibits. Any finding, which should be deemed a  
32 conclusion, and any conclusion which should be deemed a finding, is hereby adopted as such.  
33

34 Section 4. Snohomish County Code Section 30.70.140, last amended by Amended Ordinance No.  
35 20-019 on June 24, 2020, is amended to read:  
36

37 **30.70.140 Expiration of applications, approvals, and permits**  
38

39 (1) This section shall apply to:  
40

- 41 (a) New applications, approvals, and permits set forth in SCC Table 30.70.140(1); and  
42

(b) Existing applications set forth in SCC Table 30.70.140(1) that were deemed complete but that were not approved or denied prior to April 1, 2016, provided that the department shall provide notice to the applicant one year prior to the expiration date of the application.

(2) SCC Table 30.70.140(1) establishes the expiration period for applications, approvals, and permits, except that:

(a) When an EIS is required, the expiration period of an application will be suspended until the FEIS is issued. The suspension of the expiration period for an application shall not exceed 18 months unless approved by the director; and

(b) Expiration of permits and approvals (but not of applications) may be modified by the hearing examiner at the time the hearing examiner issues a decision on the application for the permit or approval.

(3) The applicant is responsible for monitoring the expiration periods for an application, approval, or permit. The county is not required to inform an applicant when an application, approval, or permit will expire or has expired.

(4) For minor revisions under SCC 30.70.210 and major revisions under SCC 30.70.220, the term of expiration for an application shall be 12 months and shall not extend the term of the corresponding development application approval or concurrency determination.

<b>(1) This fee applies to Flood Hazard Permit and Flood Hazard Variance application extensions pursuant to SCC Table 30.70.140(1).</b>	

Section 6. Snohomish County Code Section 30.86.400, last amended by Amended Ordinance No. 21-048 on September 29, 2021, is amended to read:

**30.86.400 Construction Code fees.**

(1) *Occupancies defined.* Fees established in this section shall be assessed based on whether an occupancy type is commercial or residential. SCC Table 30.86.400(3) defines the occupancy groups in these two occupancy types.

(2) *Outstanding fees.* Any outstanding fees or portions of fees shall be added to the required fee(s) of any future plan review or permit prior to application acceptance or permit issuance. Any fee shall not relieve the applicant from a duty to obtain permits for moving buildings upon roads and/or highways from the appropriate authorities. The permit fee for construction of a new foundation, enlargement, or remodeling of the move-in building shall be in addition to the pre-move fee. The fee for any factory built

structure as approved by the Washington State Department of Labor and Industries is specified in SCC 30.86.440 under mobile homes.

(3) *Commercial and residential occupancies defined.*

**Table 30.86.400(3) Commercial and Residential Occupancies Defined**

SITE REVIEW (at applicant's request)	\$100
ADDED SERVICES REQUEST	\$60/hour

**Reference notes:**

(1) Prior to making application for a commercial building permit, an applicant may request pre-application review to learn about submittal requirements. The department will provide a written outline of requirements, and may include identification of site-specific issues when known, depending on the detail and scope of the submitted materials.

(2) Includes a conference with only a senior planner in attendance, and does not include review of detailed construction plans and specifications.

(5) *Base Permit Fees<sup>(1)</sup>.*

Section 7. Snohomish County Code Section 30.86.510, last amended by Amended Ordinance No. 19-021 on June 19, 2019, is amended to read:

**30.86.510 Drainage and land disturbing activity fees.**

(1) This section establishes drainage and land disturbing activity fees that apply when drainage or land disturbing activity review is a required component of a permit application or is a condition of a land use approval. Such fees are in addition to any other fees required by law. Construction applications referenced in this code section include applications for grading permits submitted prior to September 30, 2010, and building, right-of-way and land disturbing activity permit applications.

(2) Fees for plan review and inspection of drainage plans and land disturbing activities are established in SCC Table 30.86.510(2)(A) and (B). SCC Table 30.86.510(2)(A) and (B) includes fees for plan review and inspection of independent activities as well as fees for plan review and inspection of multiple activities. Whenever two or more proposed activities subject to fees in SCC Table 30.86.510(2) are submitted concurrently as part of the same project, the applicant shall only pay one fee; the applicable fee shall be the one associated with the proposed activity that meets the highest threshold level in SCC Table 30.86.510(2)(A) and (B).

(3) Drainage and land disturbing activity fees shall be based upon the fee table in effect at the time of payment.

(4) For complete applications submitted to the department on or after September 30, 2010, the applicable drainage and land disturbing activity fees in SCC Table 30.86.510(2)(A) and (B) shall be paid as follows:

(a) For applications that require preliminary land use approval or for which site plan approval is required or requested prior to the submittal of construction applications, the following percentages of the fees shall be paid as follows:

(i) Fifty percent of the fees shall be paid upon submittal of the initial application(s) for land use or site plan approval;

(ii) Twenty-five percent of the fees shall be paid upon submittal of the construction application(s); and

(iii) Twenty-five percent of the fees shall be paid prior to permit issuance;

(b) For all other applications, except single-family residential building permit applications, 75 percent of the fees shall be paid upon submittal of the construction application(s) and 25 percent of the fees shall be paid prior to permit issuance; and

(c) For single-family residential building permit applications, 50 percent of the fees shall be paid upon submittal of the construction application(s) and 50 percent of the fees shall be paid prior to permit issuance.

(5) When inspection services are requested for complete construction applications submitted to the department before September 30, 2010, and for which permits or approvals are issued on or after September 30, 2010, the following percentages of the applicable fees in SCC Table 30.86.510(2)(A) shall be paid as follows:

(a) Fifty percent of the fees shall be paid prior to single-family residential building permit issuance when the permit application included the submittal of a stormwater site plan or stormwater pollution prevention plan; and

(b) Twenty-five percent of the fees shall be paid prior to permit issuance for all applications, except as provided in subsection (5)(a) of this section.

## ANALYSIS OF BUILDING AND LAND USE REGULATION EFFECTS ON HOUSING AND JOBS

**Title**

Ordinance No. 22-073; RELATING TO GROWTH MANAGEMENT AND DEVELOPMENT PERMIT FEES; AMENDING CHAPTERS 30.70 AND 30.86 SCC RELATED TO APPLICATION AND APPROVAL OR PERMIT EXPIRATION TERMS AND FEES ASSOCIATED WITH PERMIT AND PERMIT APPLICATION EXTENSIONS, AND AMENDING SCC 30.86.400.

**Description**

Proposed Ordinance 22-073 would amend Chapters 30.70 and 30.86 of Snohomish County Code (SCC) related to application and approval periods for certain types of permits. It would (1) allow extensions of some types of permits that are not currently eligible for extension (2) update terms and fees associated with extending permit applications and approvals, including for the new types of extensions and to other extensions, and (3) make other amendments for housekeeping and process efficiency reasons.

Amendment Sheet 1 would allow Snohomish County Department of Public Works (DPW) longer timelines for application and expiration of land disturbing activity permits than the proposed ordinance.

# Public Works Projects' Land Disturbing Activity (LDA) Expirations *Proposed Code Amendment*

# LDA Permit Applications (Design Reports)

- DPW projects requiring LDA permits can be “self-certified” (reviewed and approved by DPW) under the authority of SCC 30.63B.100 and Rule 5001 (Rev Oct 2020)
- SCC 30.70.300 (1) states: “... projects under the authority of the director of the department of public works or the county engineer pursuant to SCC 30.63B.100 **shall vest as of the date the county engineer approves a design report or memorandum** for the project
- A Design Report or Memo is equivalent to a complete Permit Application submitted to PDS by the public

# Table 30.70.140 (1)

- Permit applications and approvals have expiration periods
- The vesting that attaches to the filing of an application or permit approval does not continue indefinitely and terminates if the application or permit approval expires
- DPW's Design Reports and LDA Decisions expire

**Table 30.70.140 (1)**

<b>Approval Type</b>	<b>Expiration of Application</b>	<b>Expiration of approval or permit</b>
Land Disturbing Activity	18 months	36 months

# Proposed Code Amendment

- For DPW projects, amend Table 30.70.140 (1) for LDA Expirations:
  - Expiration of Application – from 18 months to **36 months**
  - Expiration of Approval or Permit – from 36 months to **60 months**
- For bridge projects requiring Shoreline Permits, have consistent timelines with the **36 months** expiration of applications and **60 months** expiration of permits already in Snohomish County Code

# Why are DPW projects different from private development?

- Vesting is from the date of the Design Report
- Obtain a Right of Way Plan Approval
- Federal funding requirements – NEPA approval and sequencing of right-of-way acquisitions
- Complete 60% Designs, SEPA Review and Utility Coordination
- Allow ample time for federal and state review of permit applications
  - There is no vesting with federal and state laws
  - Need to adhere to strict environmental protections as laws change

18 months is not enough time for most capital projects to complete all of the above before issuance of an LDA Permit

**Committee:** Planning & Community Development

**Analyst:** Ryan Countryman

**ECAF:** 2022-1246

**Proposal:** Ordinance 22-073

**Date:** December 6, 2022

### **Consideration**

Proposed Ordinance 22-073 would amend Chapters 30.70 and 30.86 of Snohomish County Code (SCC) related to application and approval periods for certain types of permits. It would, (1) allow extensions of some types of permits that are not currently eligible for extension (2) update terms and fees associated with extending permit applications and approvals, including for the new types of extensions and to other extensions, and (3) make other amendments for housekeeping and process efficiency reasons.

Amendment Sheet 1 would allow even longer periods for application and expiration of land disturbing activity permits than proposed in the ordinance when the applicant is the Snohomish County Department of Public Works (DPW).

### **Background and Analysis**

**Origin of proposals:** Planning and Development Services (PDS) prepared Ordinance 22-073 to simplify permit processing and to eliminate some outdated code provisions. Separately, DPW was preparing a request to change some of the same code sections. Ordinance 22-073 received a recommendation of approval from the Planning Commission before the two departmental efforts merged. Amendment Sheet 1 would add the changes that DPW was working on to Ordinance 22-073. Although the specific language of Amendment Sheet 1 was not before the Planning Commission, it is in the same spirit as the changes that received their recommendation of approval.<sup>1</sup>

**Permit Process:** Applicants often need to request multiple types of permits and approvals for their development. For example, someone requesting approval of a

---

<sup>1</sup> Planning Commission recommendations are typically a requirement for changes that affect land use controls, i.e., those that change what an applicant can do. For procedural changes, Planning Commission input and recommendation is not necessary. However, PDS often asks for recommendations on procedural amendments to increase public input before the proposal reaches the County Council. None of the proposed changes in Ordinance 22-073 or Amendment Sheet 1 appear to have required input from the Planning Commission. Therefore, council staff does not see lack of Planning Commission input on Amendment Sheet 1 as raising any procedural concerns.

subdivision will also need an additional approval for a land disturbing activity permit to perform the site work. Timeframes for how long an applicant has to obtain approvals and, once approved, how long they have to complete the work before the approval expires are in SCC Table 30.70.140(1). Unfortunately, the timeframes in that table are not well-synchronized. Applicants thus sometimes need to request extensions or even reapply for approvals on one permit type while other types of permits for the same project are still valid.

Changes to SCC Table 30.70.140(1) in Ordinance 22-073 would allow for 18-month extensions to flood hazard permits, flood hazard variances, and land disturbing activity permit applications. Applications for all three types of applications currently expire after 18 months. This effective doubling of the application periods to 36 months would match many of the other permit types that often make up the underlying project. Without the proposed extensions, applicants would need to continue the current practice of resubmitting for short-lived applications that have expired while other applications are still under review. Other changes in the table eliminate provisions that no longer apply to subdivisions or short subdivisions. The ordinance also adds reference notes that help direct readers to appropriate provisions for extension fees in Chapter 30.86 SCC.

**Amendment Sheet 1** includes the changes to SCC Table 30.70.140(1) described above, and then it adds special provisions that apply to land disturbing activity permits for Department of Public Works projects. Many DPW projects need longer to receive approval and to complete the work after approval as compared with most private sector applicants. Supporting materials provided by DPW give details on the reasons, but this staff report summarizes the longer amounts of time required as being associated with funding, environmental review, and right-of-way acquisition requirements.

**Changes to fees.** Ordinance 22-073 proposes several changes related to permit extension fees in Chapter 30.86. It would add some new extension fees for types of permits that previously were not eligible for extension. It would also replace calculation formulas that determine the fee amounts for some of the existing extensions. In all cases, extensions would have a flat rate of \$500. This is reflective of the staff time associated with processing extension requests.

**Fiscal impacts.** PDS did not provide information on expected fiscal impacts. For some permit extensions, the fees will be higher and for other extensions the new fees would be lower. Based on this author's prior experience working for PDS, overall permit revenues may decline slightly. This is because applicants for some expensive approval requests, such as for land disturbing permits, will not need to be re-apply for (and pay again) as often. This would generally reduce revenue into permitting Fund 193. However, allowing more permit extensions and simplifying the calculations for complex types of extensions will save staff time associated with processing extension requests

and re-applications. Since Fund 193 also pays for staff time, the net effect is likely to be neutral or even of slight benefit in an overall perspective.

### **Current Proposal**

**Summary:** Ordinance 22-073 would: (1) allow for extensions to three types of permit applications, (2) add fees for the new types of extensions and change existing fees so that all extensions cost \$500, and (3) make several housekeeping changes in the affected code sections.

Amendment Sheet 1 would give the Department of Public Works more time to receive approval for land disturbing activity permits and it would also give DPW more time to complete work associated with its LDA permits after obtaining approval.

**Executive Recommendation:** APPROVE

**Request:** Move to General Legislative Session on December 14 to set time and date for a hearing. Suggesting hearing date and time: January 11, 2023 at 10:30 am.

Re: Ordinance 22-073 – Related to Permit Extensions

Dear Councilmembers,

On behalf of the approximately 2500 member companies of the Master Builders Association of King and Snohomish Counties (MBAKS) I am writing to encourage your support of Ordinance 22-073.

The local and national housing markets are currently in a recession. Extension of the permits identified in Ordinance 22-073 will help homebuilders keep permits alive that might otherwise expire and cause financial hardship.

Snohomish County and our State Legislature in the past have acted to extend the life of permits during housing downturns and it has proven effective in preserving investments made in housing production.

The extensions also recognize that permit processing is not occurring as quickly as anyone would like. Staffing issues such as attracting and keeping new qualified reviewers, retirements and more have helped lead to processing that takes longer than in previous years.

Further, the permits contemplated in the ordinance would be better aligned with other permits required in the development process. The shorter permit life span of those under consideration probably always should have been longer – which will be possible with adoption of the ordinance.

MBAKS asks for your support of this commonsense measure. Thank you for your consideration.

Sincerely,

Mike Pattison  
Snohomish County Manager

11 SCC 30.86.400  
12

13 WHEREAS, counties and cities that are required to plan under the Growth Management Act  
14 (GMA), Chapter 36.70A RCW, must ensure their permit processing is done in a timely and fair manner to  
15 ensure predictability; and  
16

17 WHEREAS, the Snohomish County ("County") GMA Comprehensive Plan (GMACP) - General  
18 Policy Plan (GPP) includes a policy requiring the county to periodically review the permitting process to  
19 eliminate unnecessary administrative procedures that do not respond to legal requirements for public  
20 review and citizen input; and  
21

22 WHEREAS, application expiration dates translate into the amount of time applicants have to  
23 demonstrate to County staff that their application is in compliance with all applicable code  
24 requirements, and when the application expiration dates of all the required permits for one project are  
25 out of alignment, this can result in some applications expiring while other permit applications still have  
26 remaining time left for review; and  
27

28 WHEREAS, pursuant to Snohomish County Code (SCC) 30.70.140 Land Disturbing Activity (LDA),  
29 Flood Hazard, Flood Hazard Variance, and building permit applications expire 18 months after submittal,  
30 although the expiration date for building permit applications can be extended by the County building  
31 official by up to 18 months; and  
32

33 WHEREAS, LDA, Flood Hazard, and Flood Hazard Variance permit applications are subject to mis-  
34 matched expiration timelines with associated building permit application and permit expiration times,  
35 which has resulted in LDA, Flood Hazard, and Flood Hazard Variance permit applications expiring before  
36 the related building permit or land use applications have expired; and  
37

38 WHEREAS, if the building permit application is extended to allow for more review time, this may  
39 cause applicants to need to re-apply for LDA, Flood Hazard, or Flood Hazard Variance permits which  
40 expire after only 18 months, and are not subject to extensions; and  
41

1  
2 WHEREAS, when an applicant must re-submit materials for LDA, Flood Hazard, and Flood Hazard  
3 Variance permit applications due to mismatched expiration times, delays occur as the new application  
4 materials must be processed, a new public notice may be required, the application is subject to  
5 additional fees, and permit application processing and review time for Planning and Development  
6 Services (PDS) staff is increased; and  
7

8 WHEREAS, aligning application extensions for LDA, Flood Hazard, and Flood Hazard Variance  
9 permit applications with the current process for building permit applications would resolve this issue;  
10 and  
11

12 WHEREAS, Snohomish County Department of Public Works (DPW) has identified that their LDA  
13 permit application and LDA permit expiration timelines often need to be extended due to the unique  
14 nature of DPW projects and the substantial regulatory and funding requirements associated with them;  
15 and  
16

17 WHEREAS, under SCC 30.86.510, fee rates for LDA permit applications range from \$375 to  
18 \$34,700, depending on specified levels of drainage and grading, and may be subject to additional fees  
19 for security device administration, and under SCC 30.86.300, fee rates for Flood Hazard applications  
20 range from \$300 to \$1,500; and  
21

22 WHEREAS, permit application and permit extension fees do not consistently reflect the amount  
23 of work required for PDS staff to review applications and to provide predictability for applicants; and  
24

25 WHEREAS, the fees and timelines for LDA, Flood Hazard, and Flood Hazard Variance permit  
26 applications were last changed in 2016 by Amended Ordinance No. 16-004, in which LDA application  
27 extensions were removed and Flood Hazard Variance permit applications were assigned an expiration  
28 timeline; and  
29

30 WHEREAS, prior to amendments under Amended Ordinance No. 16-004, LDA permit  
31 applications expired after 18 months, however there was an option for the PDS Director to grant one  
32 extension up to 18 months and the renewal fee was \$400 plus a percentage of the original application or  
33 permit fee equal to the percentage of approved or permitted activity to be completed; and  
34

35 WHEREAS, building permit extensions under SCC Table 30.70.140(1), SCC 30.50.140, SCC Table  
36 30.86.400(6), and SCC Table 30.86.400(7) have an application extension fee of a \$400 administration fee  
37 plus a percentage of the original plan review fee equal to the percentage of work completed; and  
38

39 WHEREAS, PDS staff find that it is difficult to consistently determine the percentage of work that  
40 has been completed when calculating the permit application extension and permit extension fees,  
41 causing inconsistencies and a lack of predictability for applicants; and  
42

43 WHEREAS, Preliminary Subdivisions and Preliminary Short Subdivisions allow an extension of up  
44 to two years for the expiration of approval or permit with flat fees that are both \$500 under SCC  
45 30.86.100 and SCC 30.86.110; and

1  
2 WHEREAS, a flat fee is an efficient process because it is consistent for all applications, it does not  
3 require additional staff time to determine, and it is reflective of the amount of work required to process  
4 permit applications; and  
5

6 WHEREAS, in order to maintain consistency between fees related to specific permitting work,  
7 PDS staff recommends that Building Permit application extensions (SCC Table 30.86.400(6)) and Building  
8 Permit extensions (SCC Table 30.86.400(7)) be assigned the same cost as the proposed LDA, Flood  
9 Hazard, and Flood Hazard Variance application extensions of \$500; and  
10

11 WHEREAS, SCC Table 30.70.140(1) lists extension language for Subdivisions and Short  
12 Subdivisions that were approved on or before December 31, 2007, and conditions for permit extensions  
13 that were approved on or after January 1, 2008; and  
14

15 WHEREAS, there are no existing Subdivision or Short Subdivision permits that are valid for the  
16 conditions for extensions for permits that were approved on or before December 31, 2007; and  
17

18 WHEREAS, the proposed code amendments contained in this ordinance will amend chapters  
19 30.70 and 30.86 SCC to increase consistency between permit application expirations and fees,  
20 streamline reviews, and clean up dated expiration language in SCC Table 30.70.140 for Subdivisions and  
21 Short Subdivisions, and other housekeeping measures; and  
22

23 WHEREAS, on June 28, 2022, the Snohomish County Planning Commission (the "Planning  
24 Commission") was briefed by PDS staff about the proposed code amendments contained in this  
25 ordinance; and  
26

27 WHEREAS, the Planning Commission held a public hearing on July 26, 2022, to receive public  
28 testimony concerning the proposed code amendments contained in this ordinance; and  
29

30 WHEREAS, at the conclusion of the Planning Commission's public hearing, the Planning  
31 Commission deliberated on the proposed ordinance and voted to recommend approval of code  
32 amendments relating to development application and permit expiration extensions as shown in its  
33 approval letter dated August 10, 2022; and  
34

35 WHEREAS, on January 11, 2023, the Snohomish County Council ("County Council") held a public  
36 hearing after proper notice, and considered public comment and the entire record related to the code  
37 amendments contained in this ordinance; and  
38

39 NOW, THEREFORE, BE IT ORDAINED:  
40

41 Section 1. The County Council adopts the following findings in support of this ordinance:  
42

43 A. The foregoing recitals are adopted as findings as if set forth in full herein.  
44

- 1 B. This ordinance amends SCC Table 30.70.140(1) to add an 18 month application extension to Flood  
2 Hazard Permit, Flood Hazard Variance, and LDA approval types.  
3
- 4 C. This ordinance also amends SCC Table 30.70.140(1) to provide an expiration of LDA application of 36  
5 months, and expiration of LDA approval or permit timeline of 60 months for Snohomish County  
6 Public Works Department projects only.  
7
- 8 D. This ordinance amends SCC Table 30.70.140(1) to remove dated expiration of approval or permit  
9 language for Subdivisions and Short Subdivisions approved on or before December 31, 2007, and  
10 retains and streamlines language for existing two year extensions for Subdivisions and Short  
11 Subdivisions.  
12
- 13 E. This ordinance amends SCC Table 30.86.300 to add a Flood Hazard Permit and Flood Hazard  
14 Variance Application Extension fee of \$500.  
15
- 16 F. This ordinance amends SCC Table 30.86.510(2) to add a LDA Application Extension fee of \$500.  
17
- 18 G. This ordinance amends SCC Table 30.86.400(6) to amend the Building Permit Plan Review fee for  
19 application extensions to \$500.  
20
- 21 H. This ordinance amends SCC Table 30.86.400(7) to amend the Building Permit fee for permit  
22 extensions to \$500.  
23
- 24 I. This ordinance amends permit application expiration terms for LDA, Flood Hazard, and Flood Hazard  
25 Variance permits, and permit expiration fees to match the proposed permit application expirations.  
26 This code amendment also proposes limited code clean-up associated with permitting fee tables.  
27 The code works to increase the consistency between permit application expiration timelines within  
28 Title 30 chapters and make fees and code language for permit application and permit extensions  
29 consistent among permit types.  
30
- 31 J. In developing the proposed amendments, the County considered the GMA goals related to permit  
32 processing times:  
33
- 34 GMA Goal 7 – “Permits. Applications for both state and local government permits should be  
35 processed in a timely and fair manner to ensure predictability”  
36
- 37 The proposed amendments would support the permitting goal by reducing cost and time for  
38 applicants to re-apply for application extensions and time for PDS staff to re-process applications.  
39 The proposed amendments would also add fee consistency for similar fee types, which increases  
40 code predictability and accessibility.  
41
- 42 K. The proposed amendments are consistent with the following multicounty planning policies (MPPs)  
43 from Puget Sound Regional Council VISION 2050:  
44

1 MPP-H-10 – Encourage jurisdictions to review and streamline development standards and  
2 regulations to advance their public benefit, provide flexibility, and minimize additional costs to  
3 housing.

4  
5 The proposed changes would streamline the permitting process for applicants who submit building  
6 permit applications in coordination with LDA, Flood Hazard, and Flood Hazard Variance permits,  
7 allowing for the timelines of all permits associated with building permits for a project to be aligned.  
8 These proposed amendments would also add consistency between fees for permit application  
9 extensions and permit extensions for similar permit types.

10  
11 L. The proposed amendments are consistent with the following countywide planning policies (CPPs):

12  
13 HO-11 - The county and cities should consider the economic implications of proposed building  
14 and land use regulations so that the broader public benefit they serve is achieved with the least  
15 additional cost to housing.

16  
17 The proposed changes would streamline the permitting process that could encourage increased  
18 housing development through reducing costs and providing predictability and consistency for  
19 developers.

20  
21 M. The proposed amendments are consistent with and help implement a number of policies contained  
22 within the County's GMACP GPP. The following policy applies to the code amendments as proposed  
23 in this ordinance:

24  
25 Policy ED 2.A.3 – To ensure timeliness, responsiveness, and increased efficiency, the county shall  
26 develop and maintain a program of periodic review of the permitting process to eliminate  
27 unnecessary administrative procedures that do not respond to legal requirements for public  
28 review and citizen input.

29  
30 The proposed code amendments would work to increase the efficiency of the permitting process  
31 through uniting permitting application timelines, and would reduce the amount of unnecessary  
32 administrative procedures caused by application re-submittal.

33  
34 N. Procedural requirements.

- 35  
36 1. Under Snohomish County Code, this ordinance is a Type 3 legislative action pursuant to SCC  
37 30.73.010.
- 38  
39 2. As required by RCW 30.70A.106(1), a notice of intent to adopt the proposed code amendments  
40 was transmitted to the Washington State Department of Commerce for distribution to state  
41 agencies on June 8, 2022.
- 42  
43 3. State Environmental Policy Act (SEPA), chapter 43.21C RCW, requirements with respect to this  
44 non-project action have been satisfied through the completion of an environmental checklist  
45 and the issuance of a determination of non-significance on June 8, 2022.

4. The public participation process used in the adoption of this ordinance complies with all applicable requirements of the GMA and the SCC, including but not limited to, RCW 36.70A.035, RCW 36.70A.140, and chapter 30.73 SCC.
  5. The Planning Commission was briefed on the proposed amendments at its June 28, 2022, meeting and conducted a public hearing on the proposed amendments at its July 26, 2022, meeting resulting in its letter of August 10, 2022, recommending approval of the code amendments contained in this ordinance.
  6. The Washington State Attorney General last issued an advisory memorandum, as required by RCW 36.70A.370, in September of 2018 entitled "Advisory Memorandum: Avoiding Unconstitutional Takings of Private Property" to help local governments avoid the unconstitutional taking of private property. The process outlined in the State Attorney General's 2018 advisory memorandum was used by Snohomish County in objectively evaluating the regulatory changes proposed by this ordinance.
- O. This ordinance is consistent with the record.
1. LDA, Flood Hazard, and Flood Hazard Variance Permit applications currently are mismatched in permit application expiration timelines with associated building permits, causing an issue with applicants needing to resubmit permit applications that is a burden to applicants and causes additional staff time to process the application. In adding an application extension to these permit applications, expiration times for building permits are matched up. This will increase the efficiency of reviews and reduce the burden of resubmittal on both the applicant and on PDS staff.
  2. LDA permit application and permit approval timelines are currently out of sync with average Snohomish County DPW project timelines. DPW has identified the need to increase the LDA permit application expiration to 36 months and permit approval expiration to 60 months for its projects, to better align with the average timeline needs to complete its projects due to the unique nature of the projects and the substantial regulatory and funding requirements associated with them.
  3. In order to maintain consistency between fees related to specific permitting work associated with application extensions, adding a \$500 fee for LDA, Flood Hazard, and Flood Hazard Variance Permits represents similar work for the same fee as permit expiration extensions of Preliminary Subdivisions and Preliminary Short Subdivisions. In order to unite similar fees that reflect the same permitting work, changing Building Permit application extensions, and Building Permit Extensions from a fee representing a percentage of work done to a flat \$500 fee provides consistency and predictability.

4. To ensure consistency with permit extension timelines for Subdivision and Short Subdivisions and to reduce burden on PDS Staff and re-submittal burden on applicants, PDS staff recommend consolidating the current allowance for multiple extensions that could equal up to two years, and to instead allow a one-time permit extension of two years.
5. PDS recommends a housekeeping item removing a reference note related to permit fees set at zero dollars (\$0.00) for playing fields on designated recreational land in SCC Table 30.86.400(7). That reference note was adopted by Amended Ordinance No. 06-004 and linked to a chapter of code, chapter 30.33B SCC, that has sunset as provided in that chapter and is no longer operative. The related fee provisions were determined to have sunsetted as well, as contemplated in Section 3.E. of Amended Ordinance No. 06-004. In Amended Ordinance No. 21-048, the County removed a number of similar playing field fee provisions but missed the reference noted in SCC Table 30.86.400(7) that is proposed for removal in this ordinance.
6. The code amendments proposed by this ordinance provide further clarity in language consistency in the fee table through removing dated expiration extension language, and merging two separate allowed extensions into a single two-year extension, which provides reduced review burden on PDS Staff and extension submittal burden on applicants in order to achieve the same timeline of permit extensions.

Section 2. The County Council makes the following conclusions:

- A. The proposal complies and is consistent with the GMA, Washington State law and the SCC.
- B. The proposal complies and is consistent with the GMACP.
- C. The County has complied with all SEPA requirements with respect to this non-project action.
- D. The public participation process used in the adoption of this ordinance complies with all applicable requirements of the GMA and title 30 SCC.
- E. The amendment proposed by this ordinance does not result in an unconstitutional taking of private property for a public purpose.

Section 3. The Snohomish County Council bases its findings and conclusions on the entire record of the County Council, including all testimony and exhibits. Any finding, which should be deemed a conclusion, and any conclusion which should be deemed a finding, is hereby adopted as such.

Section 4. Snohomish County Code Section 30.70.140, last amended by Amended Ordinance No. 20-019 on June 24, 2020, is amended to read:

**30.70.140 Expiration of applications, approvals, and permits**

(1) This section shall apply to:

(a) New applications, approvals, and permits set forth in SCC Table 30.70.140(1); and

(b) Existing applications set forth in SCC Table 30.70.140(1) that were deemed complete but that were not approved or denied prior to April 1, 2016, provided that the department shall provide notice to the applicant one year prior to the expiration date of the application.

(2) SCC Table 30.70.140(1) establishes the expiration period for applications, approvals, and permits, except that:

(a) When an EIS is required, the expiration period of an application will be suspended until the FEIS is issued. The suspension of the expiration period for an application shall not exceed 18 months unless approved by the director; and

(b) Expiration of permits and approvals (but not of applications) may be modified by the hearing examiner at the time the hearing examiner issues a decision on the application for the permit or approval.

(3) The applicant is responsible for monitoring the expiration periods for an application, approval, or permit. The county is not required to inform an applicant when an application, approval, or permit will expire or has expired.

(4) For minor revisions under SCC 30.70.210 and major revisions under SCC 30.70.220, the term of expiration for an application shall be 12 months and shall not extend the term of the corresponding development application approval or concurrency determination.

Section 6. Snohomish County Code Section 30.86.400, last amended by Amended Ordinance No. 21-048 on September 29, 2021, is amended to read:

**30.86.400 Construction Code fees.**

(1) *Occupancies defined.* Fees established in this section shall be assessed based on whether an occupancy type is commercial or residential. SCC Table 30.86.400(3) defines the occupancy groups in these two occupancy types.

(2) *Outstanding fees.* Any outstanding fees or portions of fees shall be added to the required fee(s) of any future plan review or permit prior to application acceptance or permit issuance. Any fee shall not relieve the applicant from a duty to obtain permits for moving buildings upon roads and/or highways from the appropriate authorities. The permit fee for construction of a new foundation, enlargement, or remodeling of the move-in building shall be in addition to the pre-move fee. The fee for any factory built structure as approved by the Washington State Department of Labor and Industries is specified in SCC 30.86.440 under mobile homes.

(3) *Commercial and residential occupancies defined.*

**Table 30.86.400(3) Commercial and Residential Occupancies Defined**

OCCUPANCY TYPES	OCCUPANCY GROUPS
COMMERCIAL	A, I, R, E, H, F, M, S, B, and U
RESIDENTIAL	R-3, U

REVIEW FEE <sup>(2)</sup>	\$400
SITE REVIEW (at applicant's request)	\$100
ADDED SERVICES REQUEST	\$60/hour
<b>Reference notes:</b> (1) Prior to making application for a commercial building permit, an applicant may request pre-application review to learn about submittal requirements. The department will provide a written outline of requirements, and may include identification of site-specific issues when known, depending on the detail and scope of the submitted materials. (2) Includes a conference with only a senior planner in attendance, and does not include review of detailed construction plans and specifications.	

(5) *Base Permit Fees*<sup>(1)</sup>.

**Table 30.86.400(5) Base Permit Fees**

COMMERCIAL	\$350
COMMERCIAL PLUMBING	\$250
COMMERCIAL MECHANICAL	\$250

<b>COMMERCIAL MECHANICAL AND PLUMBING (not in conjunction with a commercial building permit)</b>	\$250
<b>RESIDENTIAL</b>	\$150
<b>RESIDENTIAL MECHANICAL, PLUMBING, OR MECHANICAL AND PLUMBING</b>	\$150
Reference notes: (1) Base fees shall compensate the department for preliminary application screening and the establishment and administration of the permit application on file.	

(6) *Plan Review Fees*<sup>(1)</sup>.

**Table 30.86.400(6) Plan Review Fees**

PLAN, DRAWING, OR DOCUMENT BEING REVIEWED		
•	R-3 and U Occupancies for residential purposes	65% of building permit fee
•	A, I, R-1, R-2, R-4, E, H, F, M, S, U and B Occupancies	85% of building permit fee
<b>EXCEPTIONS</b>		
Successive construction (2) (3)		
•	Structures regulated by the IRC	20% of building permit fee
•	R-2 structures	45% of building permit fee
The plan review fee shall be supplemented for A, I, R-1, R-2, R-4, E, H, F, M, S, U and B Occupancies as follows:		
•	Commercial permit application for 1 or more buildings or additions requiring site review	\$640
•	Commercial permit application for 1 or more buildings or additions with a previously approved official site plan	\$500
•	Tenant improvements not requiring site plan review	\$100
<b>ADDITIONAL REVIEW (4)</b>		\$200 or 25% of the plan review fee, whichever is less.
<b>APPLICATION EXTENSION</b>		<u>\$500</u> ( <del>(The fee for the permit application extension includes a percentage of the original plan review fee equal to the percentage of work completed plus a \$400 administration fee.)</del> )
Reference notes: (1) Plan review fees shall compensate the department for the plan review necessary to determine compliance with the adopted construction codes and other county regulations.		

(2) A plan review fee for successive construction will be assessed where more than one building or structure is proposed to be constructed in accordance with a single basic plan for the following classifications of buildings and structures:

(a) Group R occupancies.

(b) Garages, carports, storage buildings, agricultural buildings, and similar structures for private use.

(3) Procedures for approval of basic plans for successive construction shall be established by the director.

(4) This fee is charged whenever an applicant re-submits documents failing to make county-required corrections noted on "markup" plans, drawings, or such other documents during plan review; or whenever as a result of changes, additions, or revisions to previously approved plans, drawings or such other documents, a subsequent plan review is required.

\$500,001-\$1,000,000	\$4,053.00 for the first \$500,000 plus \$6.50 for each additional \$1,000 or fraction thereof, including \$1,000,000
\$1,000,001-\$5,000,000	\$7,453.00 for the first \$1,000,000 plus \$4.30 for each additional \$1,000 or fraction thereof.
Over \$5,000,000	\$24,503.00 for the first \$5,000,000 plus \$4.00 for each additional \$1,000 or fraction thereof.
<b>PERMIT EXTENSION</b>	<b>\$500</b> ((The fee for the permit extension includes a percentage of the original permit fee equal to the percentage of work to be completed.))

Reference notes:

(1) Permit fees shall compensate the department for inspections necessary to determine compliance with the adopted construction codes, other county regulations, and the approved plan. The fee table

shall be applied separately to each building within a project and used for the calculation of all plan review and permit fees, except those for which a separate permit fee is required to be paid in accordance with this title.

(2) The department shall use the building valuation multipliers provided in the most current building valuation data (BVD) published by the International Code Council.

~~((3) Permit fees for playing fields on designated recreational land in accordance with SCC 30.28.076 shall be set at \$0.00, regardless of valuation. All buildings on the site shall be permitted on one permit.))~~

~~((4))~~(3) For new construction of Group R-3 occupancies, a fee of 11 percent of the building permit fee shall apply for mechanical and plumbing inspections. (See SCC 30.86.410 and 30.86.420.)

Section 7. Snohomish County Code Section 30.86.510, last amended by Amended Ordinance No. 19-021 on June 19, 2019, is amended to read:

**30.86.510 Drainage and land disturbing activity fees.**

(1) This section establishes drainage and land disturbing activity fees that apply when drainage or land disturbing activity review is a required component of a permit application or is a condition of a land use approval. Such fees are in addition to any other fees required by law. Construction applications referenced in this code section include applications for grading permits submitted prior to September 30, 2010, and building, right-of-way and land disturbing activity permit applications.

(2) Fees for plan review and inspection of drainage plans and land disturbing activities are established in SCC Table 30.86.510(2)(A) and (B). SCC Table 30.86.510(2)(A) and (B) includes fees for plan review and inspection of independent activities as well as fees for plan review and inspection of multiple activities. Whenever two or more proposed activities subject to fees in SCC Table 30.86.510(2) are submitted concurrently as part of the same project, the applicant shall only pay one fee; the applicable fee shall be the one associated with the proposed activity that meets the highest threshold level in SCC Table 30.86.510(2)(A) and (B).

(3) Drainage and land disturbing activity fees shall be based upon the fee table in effect at the time of payment.

(4) For complete applications submitted to the department on or after September 30, 2010, the applicable drainage and land disturbing activity fees in SCC Table 30.86.510(2)(A) and (B) shall be paid as follows:

(a) For applications that require preliminary land use approval or for which site plan approval is required or requested prior to the submittal of construction applications, the following percentages of the fees shall be paid as follows:

(i) Fifty percent of the fees shall be paid upon submittal of the initial application(s) for land use or site plan approval;

(ii) Twenty-five percent of the fees shall be paid upon submittal of the construction application(s); and

(iii) Twenty-five percent of the fees shall be paid prior to permit issuance;

(b) For all other applications, except single-family residential building permit applications, 75 percent of the fees shall be paid upon submittal of the construction application(s) and 25 percent of the fees shall be paid prior to permit issuance; and

(c) For single-family residential building permit applications, 50 percent of the fees shall be paid upon submittal of the construction application(s) and 50 percent of the fees shall be paid prior to permit issuance.

(5) When inspection services are requested for complete construction applications submitted to the department before September 30, 2010, and for which permits or approvals are issued on or after September 30, 2010, the following percentages of the applicable fees in SCC Table 30.86.510(2)(A) shall be paid as follows:

(a) Fifty percent of the fees shall be paid prior to single-family residential building permit issuance when the permit application included the submittal of a stormwater site plan or stormwater pollution prevention plan; and

(b) Twenty-five percent of the fees shall be paid prior to permit issuance for all applications, except as provided in subsection (5)(a) of this section.

<b>REFERENCE NOTES:</b>	
(1) Drainage and land disturbing activity reviews associated with projects administered by Snohomish Conservation District shall not be subject to plan review and inspection fees.	
(2) Fee includes drainage plan review and inspection for clearing activity only. When clearing is combined with other land disturbing activities in SCC Table 30.86.510(2)(A), fee levels 1 - 6 for drainage and/or grading plan review and inspection also apply.	
(3) These fees apply on third and subsequent plan review submittals when an applicant fails to submit required corrections noted on "markup" plans, drawings, or other required submittal documents.	
(4) This fee applies to LDA application extensions pursuant to SCC Table 30.70.140(1).	
(((4))) (5) These fees apply whenever an applicant proposes changes, additions, or revisions to previously approved plans, drawings, or other required submittal documents.	
(((5))) (6) Acreage for drainage plan review for mining operations is based on mined area. Mined area includes all area disturbed in conjunction with the mining operation which shall include, but is not limited to, areas cleared, stock piles, drainage facilities, access roads, utilities, mitigation areas, and all other activity which disturbs the land. Fees for phased mine developments and mining site restoration plans of phased mine developments shall be calculated separately for each phase of mining based upon the area for each phase.	
(((6))) (7) Any person who commences any land disturbing activity before obtaining the necessary permits shall be subject to an investigation penalty in addition to the required permit fees.	

Section 8. Severability and Savings. If any section, sentence, clause or phrase of this ordinance shall be held to be invalid by the Growth Management Hearings Board (Board), or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of any other section, sentence, clause or phrase of this ordinance. Provided, however, that if any section, sentence, clause or phrase of this ordinance is held to be invalid by the Board or court of competent jurisdiction, then the section, sentence, clause or phrase in effect prior to the effective date of this ordinance shall be in full force and effect for that individual section, sentence, clause or phrase as if this ordinance had never been adopted.

**EXECUTIVE RECOMMENDED  
AMENDMENT SHEET 1  
ORDINANCE NO. 22-073**

**Amendment Name:** Increase Land Disturbing Activity (LDA) application and permit expirations for Snohomish County Department of Public Works' projects.

**Brief Description:** This amendment would amend the timelines in SCC 30.70.140, Table 30.70.140(1) for the expiration of LDA applications and LDA permits to provide 36 months for the expiration of LDA applications for Snohomish County Department of Public Works projects only, and to provide 60 months for the expiration of LDA permits for Snohomish County Department of Public Works projects only.

**Affected Ordinance Sections:** Section 1, Section 4

**Existing Ordinance Recitals and Findings to Add:**

**Page 2, Line 11 insert a new Recital as follows:**

WHEREAS, Snohomish County Department of Public Works (DPW) has identified that their LDA permit application and LDA permit expiration timelines often need to be extended due to the unique nature of DPW projects and the substantial regulatory and funding requirements associated with them; and

**Section 1, Page 4, Line 4 add a new finding as follows and re-letter remaining findings:**

C. This ordinance also amends SCC Table 30.70.140(1) to provide an expiration of LDA application of 36 months, and expiration of LDA approval or permit timeline of 60 months for Snohomish County Public Works Department projects only.

**Section 1, Page 6, Finding N, Line 31, add a new finding subsection as follows and re-number remaining findings:**

2. LDA permit application and permit approval timelines are currently out of sync with average Snohomish County DPW project timelines. DPW has identified the need to increase the LDA permit application expiration to 36 months and permit approval expiration to 60 months for its projects, to better align with the average timeline needs to complete its projects due to the unique nature of the projects and the substantial regulatory and funding requirements associated with them.

**Section 4, Page 8, replace Table 30.70.140(1), Land Disturbing Activity Approval Type, Expiration of application:**
