**Justification:** RCW 71.05 seeks to “prevent inappropriate, indefinite commitment of persons living with behavioral health disorders and to eliminate legal disabilities that arise from such commitment” and further “to provide continuity of care for persons with serious behavioral health disorders.” ITA Attorney Performance Guidelines 11 and 12. The goal then is to minimize the negative impacts from involuntary treatment while maximizing the long-term stability for people through less restrictive alternatives that keep them stable in the community so that hospitalization is not needed in the future. Social Workers, trained experts in developing less restrictive strategies, are an integral part of this process.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR - Parks Donation Fund 100

**Package ID #:** 249

**Category:**

**Description:** This program provides Parks with spending authority based on donations fund balance revenue plus projected new donations.

**Justification:** Sub-Fund 003 Parks Donations - This fund is utilized to account for donations received for everything from dedicated memorial benches or trees to youth development scholarships and earmarked capital improvements.

The adjustments to base are based on fund balance and projected new donations.

Sub-Fund 018 SR530 Memorial Donations - This fund is dedicated to donations/expenditures related to the SR530 Memorial Project - it is hard to determine projected revenues/expenditures - we have budgeted based on history. Actual revenues will dictate expenditure levels.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Conflict panel

**Package ID #:** 252

**Category:**

**Description:** OPD has had difficulty recruiting and retaining qualified defense lawyers for the Conflict Panel because Snohomish County OPD rates are significantly less than the market rate and the rate of other neighboring Washington counties. OPD is required to appoint counsel when the Snohomish County Public Defender Association (SCPDA), the County's chief public defense contractor, cannot accept a criminal case assignment. OPD traditionally has a list of attorneys with whom we contract to accept the cases that SCPDA cannot.

WSBA Indigent Defense Standard No 1 provides that "[f]or assigned counsel, reasonable compensation should be provided. Compensation should reflect the time and labor required to be spent by the attorney and the degree of professional experience demanded by the case." Snohomish County uses a flat-fee model for compensation. This model does not consider the amount of work done by the lawyers; when a case is complex or lengthy the assigned lawyer often loses money on the case. For example, OPD pays a lawyer the same flat rate regardless of the work entailed, the number of charges filed, the number of hours worked, or how long the case takes to resolve. Our inability to take into consideration the resource needs of appointed counsel results a failure to retain qualified lawyers. Lawyers often refuse to take cases because they can make more money in other jurisdictions, or because they would actually lose money by taking a County case. OPD often is forced to agree to pay an hourly rate for Class A and complex cases, or when the full panel is at caseload limits. When this occurs, the hourly compensation is significantly below the market rate and less than neighboring counties.

OPD's current panel is not sufficient to cover the current volume of cases. Currently, all qualified OPD conflict lawyers have refused multiple cases this year because they do not have capacity. If there were to be any increase in case filings or additional reductions in the availability of panel lawyers, OPD will not be able to meet the demand in filed cases. When OPD cannot assign a case to one of our panel contractors, we are still constitutionally required to find counsel. Failure to provide constitutionally required counsel puts the County at risk of a lawsuit like the ones that occurred in Grant and Skagit counties. When OPD cannot use its panel of contracted lawyers to new cases, we are forced to pay an hourly rate to the lawyer who does have capacity, often at increased expense. Currently, because of volume of violent cases and how long the cases stay open, OPD is already paying hourly on most of its Class A cases which require specialized qualifications.

OPD proposes to pay all conflict lawyers an hourly rate that is competitive enough to recruit and retain qualified lawyers. OPD has gathered data and consulted with the State Office of Public Defense, King County Department of Public Defense, and local experts on public defense caseloads. The average hourly market rate for criminal defense is, at the low end, \$350/hour. The City of Edmonds pays \$125/hour for legal representation in misdemeanor defenses. The Snohomish County Superior Court pays \$115/hour and \$125 hour for legal representation in non-criminal guardianship matters. King County pays \$150/hour for representation on Class A and B felonies in addition to an annual \$20,000 administrative fee. The Western District of Washington pays criminal defense lawyers a minimum of \$156/hour. OPD proposes an hourly compensation rate that is competitive with other local jurisdictions so we can recruit and retain qualified counsel to represent the current demand for representation.

OPD has calculated the average number of cases per type (Murder, Class A, B, and C felonies) and the average number of cases per case type based on available local and national data. OPD proposes a rate per case type which is competitive with Superior Court rates, though less than King County's rate. OPD proposes an hourly compensation of \$150/hour for murder and Class A felonies, \$125/hour for Class B cases, and \$115 for Class

**Category:**

C cases.

OPD proposes to use the State Office of Public Defense Improvement Fund to offset these changes.  
The projected additional cost beyond the 2023 OPD base is \$643,470.00.

**Justification:**

The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is “effective assistance of counsel.” State standards codified by reference in S.C.C. 2.09 establish the measurements.  
OPD is requesting funding to pay Conflict Panel Attorneys an hourly rate. The goal is to retain attorneys and ensure they are compensated at a fair market rate, lessening the number of cases declined due to inadequate compensation.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** RCW 7.105.240 Civil No Contact Orders

**Package ID #:** 253

**Category:**

**Description:** With the passage of RCW 7.105.240 in 2021, individuals seeking no contact orders are able to receive counsel at public expense. OPD seeks \$92,575.00 to compensate counsel for this work. OPD has worked with Superior and District Court to identify the volume of cases and the expected costs for representation. OPD will administer this program, including recruiting, contracting, and billing for appointed lawyers. This package reflects the amount needed to cover the expected costs of this representation in 2023.

With the passage of RCW 7.105.240, judges may now appoint attorneys to represent petitioners in no contact order cases when the respondent is also represented. Snohomish County courts receive approximately 1589 no contact order cases per year. Of those, we estimate that approximately 161 cases would qualify for the appointment of counsel for the petitioner. OPD assumes an hourly rate of \$115/hour, which is equally to the similar legal representation in family law cases where the statutory right to counsel attaches. OPD seeks \$92,575.00 to compensate counsel for this work.

**Justification:** RCW 7.105.240 takes effect on July 1, 2022 allowing judges to appoint counsel to people seeking no contact orders when the opposing party is represented by a lawyer. People seeking no contact orders are often the victims of domestic violence, sexual assault, and other forms of harassment or stalking. Many are indigent and unable to afford counsel. This package provides counsel and due process for many people seeking civil no contact orders.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** PDA Civil Contempt lawyer

**Package ID #:** 254

**Category:**

**Description:** SCPDA started providing services in this area starting in 2016 and in 2021 contracted to be appointed to private contempt matters. The recommendation from the Washington Defender Association is that a “full-time attorney practicing in the Contempt of court area should have no more than 125 open files (75 new cases and 50 ongoing cases)” per year. Contempt filings were down during COVID and are expected to increase as Courts continue to accommodate additional capacity.

As of June 2022, SCPDA has 146 open cases and 118 on-going cases. The way the court calendars are structured, there are often two to four prosecutors in court. Most of the business conducted at court is off the record between the parties. Having two prosecutors trying to accomplish their work paired with a single public defender has proven to be unmanageable. Each prosecutor must speak to the defense attorney who then must speak to the client only to return to the prosecutors individually to negotiate a settlement. This results in hours-long court hearings where everyone but the defense attorney is waiting for the defense attorney to complete all contract reviews. In the interest of being a good stakeholder, this rotation requires at least two attorneys at regular Contempt calendars

The workflow of Contempt also requires diligent client communication and filing proof of payments, job searches, medical conditions, and other court ordered conditions between court hearings. This workflow is much more involved for the attorney and the administrative support than other positions. The sheer number of documents filed with the court and prosecuting attorney’s office each week is more than other workloads. The workflow of the private contempt cases further complicates processes and scheduling. Those cases are urgent and need immediate attention and capacity to be responsive to the contempt action and serve the client. Adding an additional attorney position and dedicated staff will reduce the time these cases are open, reduce court appearances and the length of court appearance. More importantly, with additional FTE, staff can work with clients outside the courtroom to address the underlying issues causing them to be in contempt.

While staffing at the Prosecutor’s Office Family Support Unit is funded wholly by a grant from the Washington State Division of Child Support, the defense of these cases is left to the counties. SCPDA is requesting an additional one (1) full-time attorney and half-time (.5 FTE) Legal Secretary to support the workload in Contempt. The cost is \$157,544 for 2023.

**Justification:** WSBA Indigent Defense Standard Three: “The caseload of public defender attorneys shall allow each lawyer to give each client the time and effort necessary to ensure effective representation. As used in this Standard, ‘quality representation’ is intended to describe the minimum level of attention, care and skill that Washington citizens would expect of their state’s criminal justice system.”

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Social worker - District court and Juvenile court

**Package ID #:** 255

**Category:**

**Description:** Justice-involved juveniles need a dedicated social worker to attend to the needs of those facing loss of liberty due to criminal and civil laws. Social work services are currently unmet in juvenile court due to a lack of social work resources which are funneled to the more serious adult felonies.

The community resource needs for youth are extensive and elusive: housing, food security, education, transportation, health care, and access to reliable cellular and internet services. The majority of justice-involved youth have suffered multiple traumas and adverse experiences. The social worker needs are high. For example, an attorney spent two hours helping a youth change their medical insurance to be accepted at in-patient chemical dependency treatment. This work was vital for the youth to have access to services. It facilitated resolution of the criminal case as well as met the basic wellness needs of this child. By completing the in-patient treatment program, the youth was able to advocate to close his probation term. But instead of a social worker, SCPDA used a more expensive and less informed lawyer to meet these needs.

Youth involved in the At-Risk Youth (ARY)/Children in Need of Services (CHINS) and Truancy system face unmet needs for services due to complex mental health acute mental health issues as well as housing instability. Social workers can assist in connecting youth with the needed services. For example, CHINS petitions often include youth and families who are DCYF involved. DCYF refers families to Family Voluntary Services, but the parents have to consent to participate. Parents who may have drug addiction problems or have abusive patterns decline to participate. When a parent declines Family Voluntary Services and a youth indicates their home environment remain unsafe, DCYF social workers are telling the youth they can file a CHINS petition, essentially punting the case to the CHINS system rather than dependency system. The dependency system would offer much more robust social services, such as counseling, housing, and supervised visits. CHINS is solely on the youth and the public defender. CHINS petitions need social worker services to develop and advocate for safe plan. Otherwise, it is the youth versus the parent in court; the court is often deferential to the parents' assertions and discount the youth's residential plan. A social worker, working with the defense team, would assist crafting credible plans to be considered by the parent and the court in resolving the matter

In 2022, SCPDA public defenders have recorded 719 FTC hearings in Snohomish County District Court between January 1 and April 30. The misdemeanor workloads have increased in serious level due to the Prosecutor's Office Charging Standards and Dispositions. The majority of cases are Driving Under the Influence (DUI) or Domestic Violence (DV) cases.

Defendants face and serve more jail time from FTC hearings than the initial jail term. Most violations focus on allegations of failure to accomplish court ordered treatment or other affirmative conduct. Social services and counseling resources are fewer now than in years past. The defendants need the assistance of a Social Worker to assist in satisfying the conditions of their sentences and staying out of jail. Social worker tasks should be delegated to these roles: gather signed releases of information, request client medical and treatment information, and assist in removal of barriers to social services.

The cost of a social worker is \$136,338 for 2023.

**Justification:** Indigent Defense Standard Seven: Social work staff should be available to assist in developing release, treatment, and dispositional alternatives.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Expert Witness Fees

**Package ID #:** 257

**Category:**

**Description:** OPD is required to make expert witnesses available to defendants and respondents in adult criminal misdemeanors, adult criminal felonies, juvenile misdemeanors and felonies, petitioners detained by order of a not guilty by reason of insanity verdict, minor guardianships, and vulnerable adult guardianship. OPD is requesting \$120,000 to the Fund 124 Expert Services DAC to cover the additional costs to expert services. OPD has seen an increase in the total number of expert requests and increased requested compensation amounts for experts working with clients with mental health and substance use conditions. These experts include medical and psychiatric professionals, social workers, mitigation experts, and others. The current allocated amount budgeted for this service is not sufficient to cover the expected costs. Since COVID, the costs for professional services have increased. The hourly rates for experts who provide evaluations of mental competency to stand trial, neuropsychology experts, and experts who diagnose and treat substance use disorder have increased. OPD has also seen an increase in the number of requests for expert services. The partial cause for the increase is the length of time a case stays open during COVID, but also includes changes in caselaw that require OPD to pay for mitigation experts in any case where the defendant is under 25 and tried in adult court. Delays in admitting people to the State psychiatric hospital have resulted in the increased use of mental health professionals to assess defendants and make recommendations for release. The projected additional cost beyond the 2023 base is \$ \$120,000 in Fund 124. OPD is requesting an additional \$120,000 to cover the expected increase in expert services costs.

**Justification:** The Sixth Amendment right to effective assistance of counsel includes expert assistance necessary to an adequate defense. See Ake v. Oklahoma, 470 U.S. 68, 72, 105 S.Ct. 1087, 84 L.Ed.2d 53 (1985). Washington discharges its obligation to provide indigent criminal defendants necessary expert assistance under CrR 3.1(f). See State v. Kelly, 102 Wash.2d 188, 201, 685 P.2d 564 (1984) (holding CrR 3.1(f)(1) “incorporates constitutional requirements”). Under CrR 3.1(f)(1), “a defendant is entitled to the appointment of experts if financially unable to obtain them and if the services are necessary to the defense.” State v. Hoffman, 116 Wash.2d 51, 90, 804 P.2d 577 (1991).

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 100 - Community Impact Neutral

**Package ID #:** 261

**Category:**

**Description:** This package modifies revenue and related expenditure budgets for direct-award community impact funds from area Tribal Nations. This program is budget neutral; anticipated revenues and expenditures are equal for 2023 at \$257,987.

Update 8/4/22: Funding support from the Tulalip Tribes grant was reduced from \$125,000 in 2021 to \$50,000 in 2022.

NOTE: The Sheriff's Office is requesting the continuation of 2.0 Crime Analyst project positions utilizing special revenue. There is a partner package #276 which creates two FTE Crime Analyst in the general fund. If package #276 is adopted, the two Crime Analyst positions in fund 100 would need to be removed (SHR4340P & SHR4341P). The remaining program expenditures could stay in fund 100 and we will utilize remaining grant funds to pay for expenditures related to the Crime Analysts until funding ran out.

**Justification:** Since 2006, the Sheriff's Office has received annual awards of funding from The Tulalip Tribes and Stillaguamish Tribes, under their community impact programs. When awards are received, we take time to consider the best use of the limited funds. From 2008 through 2013, funds were used to fund a Director of Community Partnerships position. Reduced funding levels have restricted our use of funds, and types of expenditures since 2014. In 2016 we began investing in crime and data analysis services to bolster efficient deployment of patrol resources through data-driven policing.

The budgeted amounts in these programs cannot be increased or decreased without first amending the agreements upon which the programs have been built.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 142 - Task Force Neutral

**Package ID #:** 263

**Category:**

**Description:** This package is budget neutral and reflects a portion of the operating costs of the Snohomish Regional Drug Task Force (SRDTF). Just as the SRDTF is comprised of many different agencies contributing resources, this fund has many different funding sources. The majority of the revenue in the Drug Buy Fund 142 comes from civil asset forfeitures and all proceeds must be expended on narcotics enforcement.

**Justification:** Under the supervision of a Task Force Commander, assigned local law enforcement personnel will investigate mid and upper level drug traffickers, both individuals and organizations, who operate within the state of Washington and specifically, Snohomish County. A board governs the Task Force, comprised of one representative from each participating agency that contributes at least one full-time employee to the Task Force. The day-to-day operations are supervised by the Commander through two Lieutenants and two Sergeants.

All participating jurisdictions are encouraged to assign manpower when their staffing levels allow for dedicating an officer to the SRDTF. When any of the agencies have a significant drug problem in their jurisdiction that they are unable to deal with effectively they request assistance from the SRDTF. When the Task Force assists in these cases, patrol support is provided by the agency in need.

While different agencies fund the salary and benefits of contributed FTEs, other operational and equipment costs are borne by the SRDTF. Several different grants (See Grant Work Plan) contribute funding to pay for overtime, maintenance of the SRDTF facilities, and some of the operational costs incurred for training, supplies, and equipment. The Task Force Fund 142 provides for the expenditures not covered by grant revenue such as vehicles and maintenance, office and investigative supplies, training, professional legal services, confidential funds and internal County services.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 141 - Helicopter Neutral

**Package ID #:** 264

**Category:**

**Description:** This fund is used to repair the Sheriff's helicopters when needed. The funding source is Federal Revenue Sharing money distributed to Snohomish County by virtue of the Secure Rural Schools and Community Self-Determination Act of 2000. The Snohomish County Council has elected to use Title III funds from this source to repair and upgrade the Sheriff's helicopters which are used primarily for his statutorily required duty to provide search and rescue services. Federal funding continues to be unreliable, leaving little in addition to residual fund balance to supplement operations.

**Justification:** This fund has long been the chief source of funding for repairing the Sheriff's Office helicopters which are used primarily for search and rescue needs. Our Air Operations Unit contributes directly to a feeling of safety where people play. They often play and occasionally get lost or injured in the mountains and these helicopters are our fastest and most efficient method of search and rescue. The SCSO Air Operations program accomplishes a great deal for the county and the region by greatly leveraging the allocated funds. Repair, maintenance and fuel costs continue to rise while our budget over the past few years has not. There is no ER&R fund to cover the repair and maintenance costs of the helicopters. A separate, partner priority package #270 accompanies this one, and requests ongoing general fund support that will allow our Helicopter program to continue.

A County ordinance requires that this fund be used for operations of the Sheriff's helicopters as needed. The federal act cited above applies as well as to appropriate uses of these federal dollars.

A separate, partner priority package #270 accompanies this one, and requests ongoing general fund support that

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 194 - Boating Safety Neutral

**Package ID #:** 266

**Category:**

**Description:** This package includes budgeted amounts for the revenue and related expenditures of vessel registration fees distributed to the County for approved boating safety programs. This program is budget neutral; anticipated revenues and expenditures are equal for 2023 at \$145,056.

**Justification:** The Boating Safety Fund is dedicated by RCW 88.02 to the enhancement of boating safety in Washington State waters. The State collects revenue from boat registrations distributes funds to counties that have approved boating safety programs. The counties in turn must, by interlocal agreement, distribute some of the proceeds to municipalities that also have boating safety programs. In Snohomish County, the cities of Everett and Lake Stevens have such programs.

Boating revenue funds are used to pay primarily overtime of deputies assigned to boating safety duties during the boating season. Some funds are used for supplies and repairs of the Sheriff's Office boats. No Sheriff's personnel are assigned full-time to marine law enforcement; rather it is an ancillary duty.

LEGAL/CONTRACTUAL REQUIREMENT: These funds are made available for a specific purpose and the way they are handled is the subject of Washington Administrative Code 352-65-040 (10). The funds are to be used for education and enforcements in boating safety. Supplanting of these funds is prohibited by law.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 513 - Security Services Technical Adjustments

**Package ID #:** 267

**Category:**

**Description:** Snohomish County Code Chapter 2.38 assigns responsibility to the sheriff for planning, coordination, and provision of security services for county facilities subject to oversight by a county facility security committee composed of county officials representing the executive, legislative, and judicial branches of county government.

The Security Services internal service fund receives contributions from all County Departments and Offices. The level of service received by those departments is varied, and allocation of annual rates is based upon factors that represent those differences.

The cost of providing campus security by the Marshall FTEs and security services contractors is allocated by the total square feet of departments receiving security services, but only in the buildings that are monitored.

The cost of administration of the program is allocated by a department's FTE count. Currently, admin costs consist of one supervisor to provide general coordination of all services and one security support specialist to provide keyless entry services.

For 2023:

The Campus and Courthouse Security Unit needs additional staff to be successful in the ongoing mission to keep our county employees and patrons safe while supporting the ongoing court operations at all our court locations. This package includes a request for six months of salary/benefits for 2 additional Security Marshals and 1 Lead Marshal. We propose funding these positions with available fund balance for 2023.

**Justification:** An increase in the number of Marshal FTEs is needed to accommodate the additional staffing load created by the addition of the District Courts to Marshal duties. Additional staffing is also needed to accommodate the additional work that will be created by the two new Snohomish County Superior Court Judges who will begin operations in July 2022.

In 2021 the overtime budget for Courthouse and Campus Security was \$56,170. Overtime expenditure for 2021 was \$127,393.61 (226.8%). That level of expenditure was needed to maintain minimum required staffing at the County Campus, DJJC, and the three outlying District Courts. All overtime at any court must be filled by Sheriff's Office commissioned staff at more than double the cost of a Security Marshal. Due to vacancies and staffing shortages, in the first five months of 2022 alone Campus Security has expended \$118,275 (210%) of the allocated \$56,170 in overtime funds. This is not simply a cost issue as it places an additional burden on the already overtaxed staffing of the Sheriff's Office.

Lead Security Marshal:

The Campus Security unit currently consists of nine marshals and one security specialist assigned at five dispersed work locations. Each of these positions needs the ongoing support, coaching, mentoring, and oversight from a supervisor. Unfortunately, there is only a single supervisor for these ten employees. Due to the dispersed nature of the work locations, it takes more than two hours of drive time alone to visit each of the four outlying courts. The result is reduced access to the in-person supervision and leadership needed by our employees. This leads to a reduction in overall job satisfaction for our employees and a rise in personnel

**Short Name:** Fund 513 - Security Services Technical Adjustments

**Package ID #:** 267

**Category:**

complaints. Between the administrative tasks required to run the unit and the travel times necessary to visit the outlying courts, a marshal may have no meaningful contact with their supervisor for days or even weeks at a time. Further, the sergeant's ability to engage with our stakeholders at the County Campus and District Courts is greatly diminished by the excessive span of control they are expected to maintain.

The Lead Marshal will be a full-time supervisor. They will assist the Sergeant with daily management and supervision tasks while also giving the Marshals another resource to engage when direction is needed. The Lead Marshal will be assigned to the main courthouse which will also allow the Sergeant more time to interact with contractors, employees, and stakeholders at the District Courts. When not needed for specific supervisory tasks, the Lead Marshal will be available as staffing to fulfill the basic staffing needs of the unit thereby reducing overtime incurred by the security unit on an ongoing basis. The Campus Security Unit is one of our most public facing work groups. The presence of an additional supervisor will increase the unit's accountability, transparency, and responsiveness to those that work at and visit our County Campus in direct support of increasing public trust.

The creation of the Lead Marshal classification (ASCFME Marshal 239) is already under way with Snohomish County HR in anticipation of this position being authorized.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Conservation Futures Forester

**Package ID #:** 269

**Category:**

**Description:** Establishment of a Forester position/program within the Department of Conservation and Natural Resources to provide active management of Conservation Futures acquired forest stands for the purposes of improved wildlife habitat, forest health, carbon sequestration and fire resilience. This program will address the County priorities of natural resource stewardship and healthy forests.

Since 1988 the Snohomish County Conservation Futures program has helped to preserve over 8,000 acres of land within Snohomish County. Of this, a significant portion includes forest areas and have been held with minimal, if any, active management of the tree stands. Forests are recognized to provide important recreational opportunities, but also are an important part of the County ecosystem by improving air quality, providing wildlife habitat, filtering water and sequestering carbon. Active management of these stands can enhance these values by reducing invasive species competition, thinning of overly dense stands to promote tree health and dense understory, planting to encourage diversity and removal of diseased plants. All these practices will promote forest health and also reduce wildfire risks and large-scale die off from disease, as is being seen in some areas.

The proposed program will include one Conservation Futures funded Forester as well as support infrastructure (i.e. vehicle, equipment, ½ time wcc (or other) crew and overhead). Snohomish County does not currently have a Forester job description, so one will be developed based upon similar positions staffed within King County and the Washington State Department of Natural Resources. This person will be responsible for evaluating stands, developing management plans, completing on-the-ground work with a crew and individually, contracting for services, applying for and managing grants, developing outreach materials and responding to inquiries from other jurisdictions related to their Conservation Futures funded forest properties. The level of responsibility for this position is expected to be comparable to SWM's Principal Watershed Steward (Pay Grade 243).

**Justification:** Natural resources stewardship is a priority for Snohomish County and there has been increased attention in recent years to forest preservation and management. Large scale wildfires and extensive areas of die off are concerns as well as missed opportunities to preserve and manage these stands for greater carbon sequestration, wildlife benefit and resilience in the face of climate change.

Strategic management of forests requires specialized knowledge and although DCNR has strong partnerships with the Snohomish Conservation District, Washington State University, and the Department of Natural Resources, Foresters from those organizations are unable to address the system-wide need that has been identified related to forests on Conservation Futures funded properties. These partners are a valuable resource however and will help inform the desired skills that DCNR should seek for this position as well as provide a professional network to coordinate regional management approaches.

Funding for this program is proposed to be provided through the Conservation Futures fund. RCW 84.34.240(2)(b) allows the County to use up to twenty-five percent of collected revenues for operation and maintenance of property which was acquired under the program. In January of 2022, Snohomish County Code was modified to increase the amount of the fund that could be used for these purposes from 15% to the amount allowed by state law. This has resulted in extra funding that can be used for enhanced stewardship. Funding for the Conservation Futures Forestry program is proposed to be provided from this increase in available funding.

---

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Conservation Futures Forester

**Package ID #:** 269

**Category:**

Active forest management based upon implementation of developed management plans is expected to include some level of timber harvesting in order to promote forest health and provide opportunities for replanting for stand diversity and understory vegetation. Marketable timber may be removed as part of this process, which could be sold to generate revenue to support the program. King County currently takes this approach with management of their forest stands but noted that revenue has not been enough to offset the costs of their forestry program in-full. Any revenue from timber sales are not therefore proposed to fund the proposed program, but instead to be put back into the Conservation Futures account to support additional acquisitions through the program.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Helicopter - Air Operations

**Package ID #:** 270

**Category:**

**Description:** This package is a request for \$165,000 in the Sheriff's Office 2023 Law Enforcement general fund budget to replace Title III Federal funds and maintain our Air Operations program at current service levels. This is an ongoing request made each year to our budget.

**Justification:** The SCSO Air Operations program accomplishes a great deal for the county and the region by greatly leveraging the allocated funds. Repair, maintenance and fuel costs continue to rise while our budget over the past few years has not. We estimate that we require a operating budget of \$225,000. There is no ER&R fund to cover the repair and maintenance costs of the helicopters. We are using fund balance in F141 under a separate package (#264) in the amount of \$60,000, leaving \$165,000 to be funded by the general fund. The \$165,000 general fund request is a restore of \$60,000 in fuel and \$105,000 in repair/maintenance which was included in the Sheriff's Office 2021 adopted budget, but eliminated in our 2022 and 2023 Proforma budgets.

SCSO reduces the cost of operations by using trained Volunteer aircrew members on a regular basis. The Chief Pilot is a FAA qualified Certified Flight Instructor (CFI) and FAA Night Vision Goggle CFI. These qualifications allow SCSO to conduct nearly all training in-house at no added expense to the county.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks Ranger Staffing

**Package ID #:** 271

**Category:**

**Description:** Snohomish County Rangers are the front-line “face” of Snohomish County Parks. They provide customer service, educational outreach, ensure park safety and security, open and close parks, provide general maintenance, campground management, collect fees, address homeless encampments and also provide law enforcement services. Snohomish County Rangers are much beloved by the public and regular park users often personally know the Rangers who steward specific parks.

Over the past twenty years, Ranger staffing has stayed essentially static with 17.75 FTEs in 2003 compared to 18 in 2022. This is at the same time that Snohomish County population has increased 20% (from 306,779 in 2003 to 371,300 in 2022) and the number of parks in Snohomish County’s system has increased from 96 to 114. In this time additionally the following parks and facilities have been opened to public use and operational management: Willis D. Tucker, Whitehorse Park (ballfields and recent campground), Lake Goodwin, Wenberg, Tambark Creek, Miner’s Corner, River Meadows Yurt Village, 10 new campsites at Flowing Lake, Heybrook Ridge, Paradise Valley Conservation Area, Lake Stickney, Lake Stevens, Cavalero, Martha Lake Airport, 8 miles of Centennial Trail and 21.5 miles of Whitehorse Trail, and Carousel Ranch and Corcoran parks are preparing for opening in 2023/2022.

Overall, the resulting reduced level of service of staffing to number of parks/facilities and members of the public has necessitated that Rangers focus on core services (in particular safety and law enforcement) while minimizing time allocated to customer service (e.g. volunteer support, educational programs, switching over rentals and restroom cleaning). Further, reduced staffing has created a culture of responding to issues as opposed to proactive management, which could be used to alleviate the number of issues reported.

This priority package includes three additional Ranger positions to provide improved customer service within Snohomish County Parks. The three Ranger positions will allow staff to more proactively address issues (e.g. trail maintenance), support visitor experience (e.g. though educational programs, volunteer support and additional interactions with the public) and provide more pro-active management of Snohomish County park spaces. This package support the County priorities of: being easy to work with, providing efficient and quality service and stewardship of our natural resources.

**Justification:** Over the last twenty years, the Snohomish County Parks system has grown by 18 new park properties and 15 new/expanded park facilities. At the same time the public served by Snohomish County facilities has increased by approximately 20%, all without an increase in Ranger staffing to serve the public, which has resulted in a reduced level of service. This reduced level of service has necessitated that the Ranger group focus on the priorities of public safety, keeping parks open and responding to complaints to the best of their ability. This approach misses many opportunities to build positive relationships with the public through educational programs, volunteer support and more proactive operational management.

The requested positions are important for providing customer service to Snohomish County residents, taking advantage of the opportunity to provide positive interactions between park visitors and Snohomish County staff and also providing opportunities for Ranger staff to address issues before they become problems. Lastly, additional Ranger staffing is expected to help with retention as it will allow staff the opportunity to provide services that were part of their decision to enter into a career as a Ranger.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 002 - Sheriff 030 Adjustments to Base

**Package ID #:** 273

**Category:**

**Description:** This package represents adjustments to our proforma base budget for changes anticipated to drive costs in 2023 as well as some housekeeping items.

**Justification:** \$36,312 Debt Services (requested by Budget Office)

Ghost Positions: Removal of 10.0 FTE Correction Deputy positions used in the past for hiring. These unfunded positions are no longer needed.

Positions entered in 2022 with half-year of ongoing expenditures: 3.0 Crime Prevention Officers, 1.0 Detective (SIU) and 1.0 Detective (DV). Request is to increase these line items so they cover a whole year.

Housekeeping: Moving our RSO Unit from Investigations (program 121) to Patrol (Program 122). FTEs: SHR4912R, SHR5117R, SHR4449R and \$2,500 in overtime and \$1,000 in supplies.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Patrol Deputies (Equity)

**Package ID #:** 274

**Category:**

**Description:** The Sheriff's Office is requesting an additional 20 FTE (deputy positions). Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

**Justification:** Over the past several years, both the county and Sheriff's Office have contracted to obtain staffing studies by both ETICO Solutions and Matrix Consulting Group, Inc. ETICO's study was completed in 2015 and was obtained to determine optimal staffing levels for improved performance and service to our community. Matrix was obtained to determine options to patrol resources including civilianization and alternative responses.

ETICO's study determined that the Sheriff's Office needed an additional 57 deputies in 2015 to achieve an optimal level of performance based on industry standards. ETICO found that the average precinct and contract deputy spends approximately 47.24 minutes out of each patrol hour on some type of reactive activity. This left 12.76 minutes per hour (21%) for proactive enforcement, traffic enforcement, and ALL other community policing activities. According to ETICO, industry standard is a 50/50 split between reactive/administrative activities and proactive activities.

When extrapolating the data used by ETICO's 2015 study to determine staffing levels for 2022, we need an additional 27 deputies on top of the recommended 57 by ETICO in 2015. Thus, the total number of additional deputies to reach our "optimal" level of performance based on industry standards for calendar year 2022 is 84. 84 was obtained by using the data calculations from ETICO based on a 9% population increase from 2015 to 2021.

Like ETICO, Matrix addressed the balance between proactive and reactive activities. Matrix stated that "deputies must have sufficient time outside of community-driven workload to proactively address community issues, conduct problem-oriented policing, and perform other self-directed engagement activities". Unlike ETICO's 50/50 split, Matrix used an optimal proactivity level equation based on percentages of total net available hours minus total calls for service for workload hours divided by total net available hours. Matrix concluded that the Snohomish County Sheriff's Office should target an overall proactivity level of at least 40%. Matrix determined that our overall proactivity level for every area is 37.8%. Although close to average for both patrol and contractual units, Matrix identified that proactive time for daytime hours sits between 14 and 30% on average in what they identified as "severe resource constraints." In summary, Matrix stated that our current staffing issues are "SEVERE." Matrix recommended that the Snohomish County Sheriff's Office increase patrol staffing by 15 additional deputy FTE(s).

When reviewed together, Matrix recommended that the Snohomish County Sheriff's Office hire an additional 15 deputies to increase overall proactivity. Those numbers were based on population, calls for service, and staffing from 2020. ETICO recommended that we hire an additional 57 deputies to meet "optimal" performance levels based on industry standards. Those numbers were based on population, calls for service, and staffing from 2014 and 2015. Given ETICO's calculations, we now need an additional 84 deputies to meet the service and response needs identified by ETICO's report. Given the fact that both studies were based on numbers prior to 2020; and that our population has grown by over 3.2% over the last 2 years, 20 additional FTE(s) for deputy sheriff to both maintain and improve current services, quality of life, and safety is reasonable and prudent.

The studies from both ETICO and Matrix only address numbers. They don't include the human factor of what

**Category:**

those numbers actually represent to our community. In terms of the benefits of proactive activities in relation to service, these include improved transparency; increased safety for both the community and law enforcement; vastly improved preception of service and response; improved investigations and related adjudications; improved quality of life; improved business viability; greater equity; improved oversight; improved information sharing; increased accountability; increased public engagement; increased public trust; increased community-oriented policing; reduced use of force and related excessive force complaints; increased risk mitigation; reduced liability; and a host of other progressive policing activities that increase both procedural justice and ethical behavior. Further, obtaining 20 additional positions is directly linked to our vision of prioritizing public trust and community safety by reducing crime through professional policing and correctional services, founded on accountability and compassion.

From all contractual staffing reports to date and their related data, the Sheriff's Office is severely understaffed. ETICO recommended the addition of 57 deputies to meet service requirements based on industry standards in 2015. Based on their calculations and related population growth, that number would have swelled to 84 additional deputies for 2022. Matrix's 2020 report identified that the Snohomish County Sheriff's Office has "severe resource constraints"; and has "severe" staffing issues related to what they determined to be the industry standard regarding the balance between reactive versus proactive activities. Matrix recommended that the Snohomish County Sheriff's Office increase patrol staffing by 15 additional deputy FTE(s). Matrix's calculations were based on numbers from 2019 and do not take into consideration the +3.2% population increase the county has observed since that report. Given the totality of the information provided in just these two studies; and without taking into consideration the human factor or consequences related to this information, it's apparent that the Snohomish County Sheriff's Office is in dire need of more deputies. Given the fact that both studies were based on numbers prior to 2020; and that our population has grown by over 3.2% over the last 2 years, 20 additional FTE(s) for deputy sheriff to improve current services, quality of life, and safety is prudent and more than reasonable.

We are constantly reviewing data and metrics to improve service, efficiencies, and performance. For calendar year 2023, we are working to reorganize our boundaries to increase equity, calls for service, and staffing in all areas. 20 deputy FTE(s) will be immediately absorbed into that plan; and will improve both reactive and proactive activities for all areas.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Administrative Sergeant (Equity)

**Package ID #:** 275

**Category:**

**Description:** The Sheriff's Office Operations Bureau is requesting to add 1 Administrative Sergeant to the Patrol Division with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

To increase and improve efficiency, transparency, oversight, and process the patrol division must adopt changes and improvements to New World Systems workflow. Since adopting NWS as our report writing platform, no supervisor is responsible for vetting several types of cases. These cases, some extremely important, sit in a queue for months. This identified problem can be fixed with the addition of an Administrative Sergeant FTE. The primary responsibility of the administrative sergeant will be administrative duties associated with patrol operations such as but not limited to:

NWS case management-identifying, review, approve, or declines in-custody (deadline) cases; then coordinates for additional information in compliance with investigative and prosecuting protocols by continually monitoring and working within our electronic records management system (LERMS). This oversight would improve service to our community, identify investigative issues, increase quality and control of our processes, and increase transparency and accountability;

Administers and coordinates the completion of requests for information (RFI's) authored by the prosecutor's office (currently no process for accountability/oversight);

Provide case management for all precincts while working within the LERMS environment (currently no process/oversight);

Create, manage, and close assigned activities for patrol staff associated with RFI's (currently no process/oversight);

Reconciliation of monthly reports compiled by records staff consisting of missing/misrepresented case reports thus increasing service and efficiency (currently no process/oversight); and

Approving/rejecting reports in mobile that are in waiting status (currently assigned to shift sergeants causing lack of oversight, accountability, and risk mitigation on the road).

**Justification:** The Administrative Sergeant position would help to mitigate our issues with service related to in-custody reports, quality review, content evaluation, accountability, and deadlines/timelines for completion. Additionally, the benefit, or the return on investment is notable when prosecutor requests for information/investigation are reviewed, distributed to patrol for further investigation, and tracked for completion and substance in a timely manner.

This related return on investment is two-fold:

1. The economic ROI may produce some or all of the following:

Patrol sergeants will be relieved of some administrative duties allowing more time for operational patrol duties to include risk mitigation, accountability, scene management, and oversight;

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Administrative Sergeant (Equity)

**Package ID #:** 275

**Category:**

Efficient and consistent prosecutor request for further investigation (RFI) management consisting of a "1 touch" process;

Efficient RFI management with timely completion, managerial review, and submissions; and

The potential of fewer motions being argued by the prosecutor's office resulting in less court time for deputies.

2. The social ROI may produce some or all of the following direct benefits:

Culture change - Delivering a better product with increased oversight and customer satisfaction;

Efficient investigative management and accountability for assigned actions and activities by deputies; and

Improved relationships with the prosecutor's office.

This position will have immediate and long-term positive impacts for the Sheriff's Office based on a concept of cultural change and professional service. Due to the ever-increasing amount of work sergeants are being asked to perform, and the related high span of control, patrol sergeants are unable to spend an appropriate amount of time directly supervising their staff. That ever-increasing amount of work, coupled with increased tasks/activities/responsibility/lack of oversight/inexperienced workforce, will lead to an increase in insufficient or incomplete investigations; violations of policies and procedures; decreased accountability and public trust; increased liability; and decreased citizen satisfaction.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Crime Analysts to Gen Fund (Equity)

**Package ID #:** 276

**Category:**

**Description:** The Sheriff's Office Operations Bureau is requesting the funding for 2.0 FTE Crime Analysts be moved to the General Fund from Fund 100. With budget approval, these crucial positions would maintain viability and provide continuity of employment for both analysts.

Crime analysis has become a common feature of U.S. law enforcement agencies. Unfortunately, the field has not provided many cost-benefit studies of crime analysts to date. With that being said, virtually everything law enforcement agencies do is intended to contribute to public safety. With crime analysis, the question regarding our cost benefit to having crime analysts can be broken down into their purpose and types of analysis. The value of integrating crime analysis in the Snohomish County Sheriff's Office is to increase the effectiveness of our crime reduction strategies and direct limited resources in controlling, reducing, and preventing crime and disorder. Crime analysts help our organization to make sense of the deluge of data collected in the course of our work, so that we can respond more swiftly and appropriately to emergent public safety issues.

The state mandated data collection will focus on promote openness, transparency, and accountability, build stronger police-community relations, improve trust and confidence in policing services, evaluate specific areas of concern such as biased policing and excessive force, and ultimately improve the quality of policing services. These crime analysts have been instrumental in not only analyzing crime trends but also creating statistical reports for SCSO staff, council, exec and many other stakeholders. It is critical that the Snohomish County Sheriff's Office has the long-term capacity to fulfil the requirements of the state law but also provide this transparency and accountability directly to the public we serve. Currently funding for the two SCSO Crime Analysts are dependent on grant funding to maintain the positions. If the grant funds were to stop, the Sheriff's Office would be facing the layoff of two positions that are now essential to compliance with a legal mandate. Moving the positions into the general fund provides long term sustainability and accountability for the Sheriff's Office and our community.

**Justification:** The Crime Analyst position originated as a contractor position and was first migrated to be an internal employee in 2019. The support of Tulalip Tribes and Stillaguamish Tribe of Indians have funded these positions via impact funds. The COVID outbreak caused those funds to freeze without warning, which jeopardized what have become a critical position within the Snohomish County Sheriff's Office. While the funds have resumed for this year, it is unknown if they will be available in 2023. Hence, we are requesting that both (2) Law Enforcement Crime Analysts be funded through the general budget in 2023 and beyond.

The following points are just some of the highlights and undertakings that this unit has been able to accomplish since 2020, when the impact funds became unstable:

- Introduced new factual metrics for evaluating officer productivity and addressing allegations of wrongdoing or bias;

- Developed reports that look at the census metrics of the populations we serve (both offenders and victims) for any inequalities;

- Served as subject matter experts on the "Law and Justice Dashboard initiative". This initiative seeks to build on existing data resources to collectively enhance the County's use of data to inform decision-making and policy discussion, particularly as these relate to both understanding and addressing racial and ethnic disparities across the local justice system.

- Introduced proven data models that take the department from being reactive to proactive;

- Research crime reports and related data through analytical procedures to disclose patterns, trends, and/or

**Package ID #:** 276

**Category:**

evidence of criminal activity including crime pattern detection, suspect-crime correlations, target-suspect profiles, and crime forecasting; prepare stats, charts and maps for patrol, investigations, and command staff.

Prepare and distribute crime information bulletins, weekly and monthly information reports, career criminal profiles, serious habitual offender information, crime series/pattern bulletins, wanted person/known offender bulletins, crime summaries, and trend analysis to departmental staff and agencies from other jurisdictions.

Improved the availability of crime statistics and crime trends to the community and front-line Deputies.

Been a key component in building relationships with the business community to take a multi-faceted approach to crime mitigation and prevention.

Performed crime prevention thru environmental design (CPTED) assessments at local businesses so that existing businesses will stay, remain viable, and inspire new ones to relocate to our region.

Working in tandem with County Department of Emergency Management crime analysts ensure all individuals wishing to exercise their first amendment rights are both doing so in a lawful manner and are protected from anyone who may wish to interfere with their exercise of their rights.

Worked side-by-side with project leaders on special operations to ensure a court proven data focused model is utilized for Operation Clean Streets, thereby ensuring no cohort of our population is inappropriately subjected to law enforcement contact.

Worked with multiple regional entities for the exchange of information that improves the quality of cases made. This approach ensures law enforcement makes strong cases with less manhours expended (due to the elimination of duplicate work between different law enforcement agencies), while also alerting prosecutors and defense attorneys to the possibility of case consolidation. Case consolidation helps to clear the backload of cases awaiting trial, ensuring offenders and victims receive justice in a timelier manner.

Served as subject matter experts on the regional MAC Opioid subgroup, partnering with other law enforcement, the health department, the medical examiner, and regional hospitals to help solve not just illicit narcotic distribution but the drug problem in our county as a whole.

Performed staffing and precinct design studies to improve response times. Previously this work was done by outside consultants who billed \$25,000 - \$35,000 per study.

The position of Law Enforcement Crime Analysts continues to develop and transform. Recently, the analysts have provided critical decision-making data to both County Government and the Department of Prosecuting Attorneys. As our organization moves forward and resources become less available, analysts will help us make decisions that directly impact our decision-making process and improve efficiencies. In addition to substantial cost benefits for the Sheriff's Office, the vast cumulative data they collect and review for all county government will drastically improve the impact for this investment when considering the actual cost to benefit analysis to the county.

NOTE: There is a partner package #261 which currently balances and holds two FTE Crime Analysts in fund 100. If this package, which moves the Crime Analyst from fund 100 to the general fund is adopted, the two Crime Analyst positions in fund 100 would need to be removed (SHR4340P & SHR4341P). Expenditures related to these positions could stay in fund 100 until funding ran out.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Operations Lieutenants (Equity)

**Package ID #:** 277

**Category:**

**Description:** The Sheriff's Office Operations Bureau is requesting to add 4 Operations Lieutenants to the Field Operation's Bureau with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

The addition of 4 Lieutenant FTE(s) to the Sheriff's Office Field Operations Bureau would allow us to streamline our management process to provide for better service, reduced liability, improved risk mitigation, better identification and understanding of community concerns and problems, increased public engagement, increased procedural justice, increased community-oriented policing, and allow for better efficiencies and consistency throughout our contractual and precinct partners.

During the recession, all three precincts were changed from a Captain supervisory model to a Lieutenant supervisory model. Under the current model, mid-level supervision was removed from the field and pushed into the precincts, leaving no person(s) accountable for any of our three precincts' daytime field operations. This indirect style of management provides for fractionalized management and leadership; reduced accountability; decreased oversight and inconsistent messaging; uneven responsibilities; and, ultimately, corroded public respect. Finally, our current management system is not the industry standard or best practice within current policing organizations.

Adding 4 Lieutenant positions to the Field Operations Bureau, will push mid-level supervision back out into the field and allow Lieutenants to be assigned to both dayshifts and nightshifts at each precinct (watch commanders) to not only improve the Sheriff's office, but more importantly better serve our community.

**Justification:** During the recession, all three precincts were changed from a Captain supervisory model to a Lieutenant supervisory model. Under the current management model, mid-level supervision was removed from the field and pushed into the precincts. Thus, no mid-level manager was accountable for the ongoing field operations of any of our three precincts' daytime operations. Instead, oversight and accountability were dispersed between day administrative Lieutenants (titled as precinct commanders) and two night operation field Lieutenants (titled as watch commanders). Although responsible for managing police nighttime operations for almost 400,000 people, the sole night watch commanders work on either end of the week (when working). In their current assignment, the watch commanders are responsible for the combined oversight of both the North and South area of operation during nighttime operations. Currently, no mid-level manager, watch commander, is directly responsible for the East area of operation during night hours.

Adding these FTE(s) would allow our office to utilize mid-level managers, watch commanders (Lieutenant), for every area of operation during most hours of the day and night. This addition would vastly improve accountability, messaging, communication, service, oversight, procedural justice, process, response, delegation and deployment, incident command systems, reduced liability, and improved risk mitigation.

Adding a watch commander to each area of operations, covering every patrol shift in every area, would immediately allow for the implementation of progressive policing strategies to include reduced liability considerations/decisions; improved community/area based procedural justice; reduced use of force and excessive force complaints; increased efficiency; increased oversight and supervision; improved information sharing; improved consistency and effectiveness; increased transparency; improved processes and community service; improved staffing considerations/decisions; improved overall communication; and improved public

**Category:**

engagement.

The addition of a complete watch commander system would help to relieve the heavy lift of the patrol sergeants' responsibilities as well allowing them to focus on operational activities which ultimately increases risk mitigation in the field, accountability, oversight, officer/community safety, liability considerations, procedural justice, discipline, staffing, and transparency.

Reshaping any organization is difficult. However, the benefits of using progressive management principals and techniques cannot be understated. Adding 4 Lieutenant FTE(s) will have an immediate impact and lead to better investigations; increased adjudication; lower use of force applications and excessive force complaints, increased oversight and risk mitigation; increased liability considerations at all levels; increased public trust; improved procedural justice; better/increased training; reduced citizen complaints; equity; better community engagement and transparency; improved morale; and increased accountability at all levels.

Adding 4 Lieutenant FTE(s) will immediately increase the overall impact of decisions and effectiveness of all supervisors at all precincts. These positions will allow for a more balanced and equitable share of the workload; and vastly improve overall accountability. Having mid-level managers in all areas of operations will dramatically reduce costs in staffing, complaints, and claims.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Operations Captain (Equity)

**Package ID #:** 278

**Category:**

**Description:** The Sheriff's Office Operations Bureau is requesting to add 1 Operations Captain to the Field Operation's Bureau with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

The addition of one Captain to the Sheriff's Office would allow us to streamline our management process to provide for better service, reduced liability, improved risk mitigation, better identification and understanding of community concerns and problems, increased public engagement, increased procedural justice, and better consistency throughout our contract and precinct partners.

During the recession, all three precincts were changed from a Captain supervisory model to a Lieutenant supervisory model. Under the Lieutenant model, no one person is accountable for any of our three precincts. Instead, oversight and accountability are dispersed between a day Lieutenant (titled as a commander) and two night Lieutenants (titled as watch commanders). This indirect style of management provides for fractionalized management and leadership; reduced accountability and answerability; decreased oversight and inconsistent messaging; uneven responsibilities; and, ultimately, corroded public respect. Finally, our current management system is not the industry standard or best practice within current policing organizations.

**Justification:** The Field Operations Bureau is broken into two divisions, the Patrol and Contract divisions. Those divisions are led by Captains. Currently, one Captain (Patrol Captain) is responsible for the patrol operations of two precincts, the south and north area of operations; and other ancillary assignments to include K9, the Office of Neighborhoods, Directed Patrol, Robbery/Burglary Unit, the Analyst Group, and Field Training.

The second Captain (Contract Captain) is responsible for the patrol operations of East County and Contract Operations. The East Precinct is managed by a Lieutenant (Precinct Commander) who is also the Sultan Police Chief. The East Precinct Commander (or Lieutenant) is responsible for managing police services for the east area of operations to include the city of Sultan (acting as Police Chief); and for managing the contract of Gold Bar, its Police Chief, and its contract police group.

The Contract Captain is also responsible for the contracts of Stanwood, Granite Falls, the Airport, Transit, School Resource Officer program, and Drones. Under the current management model, the East Precinct does not have any management level oversight/supervision during evening or early morning hours.

By adding one Captain position to the Field Operations Bureau, management oversight could be greatly improved and dispersed evenly between the three areas of operations. This addition would allow the Sheriff's Office to have one Precinct Commander for each area of operation; and the improved/related accountability that comes with that assignment. Further, it would allow contract supervision to be moved to their geographical areas to improve all related oversight and functionality.

Adding a Captain to the Field Operations Bureau would immediately allow for the implementation of progressive policing strategies to include reduced liability, improved procedural justice, reduced use of force complaints, increased efficiency, increased oversight and supervision, improved information sharing, improved consistency and effectiveness, increased transparency, improved processes and service, and improved public engagement.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Operations Captain (Equity)

**Package ID #:** 278

**Category:**

The Field Operations Captain position is crucial for the Snohomish County Sheriff's Office to move forward and continue to provide quality, progressive, just, and efficient service.

Reshaping any organization is difficult. However, the benefits of using progressive management principals and techniques cannot be understated. Adding one Captain will lead to better investigations; increased adjudication; lower use of force applications, increased oversight and risk mitigation; increased liability considerations at all levels; increased public trust; improved procedural justice; better/increased training; reduced citizen complaints; better community engagement and transparency; improved morale; and increased accountability at all levels.

An additional Captain will immediately increase the overall impact of efficiency of all supervisors at all precincts. This position will allow for a more balanced and equitable share of the workload; and improve accountability. The ability to use our current precinct commanders (Lieutenants) as day and night watch commanders will ultimately reduce costs in staffing, complaints, and claims.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Major Crimes Detectives (Equity)

**Package ID #:** 279

**Category:**

**Description:** The Sheriff's Office is requesting to add 4 Major Crimes Detectives to the Investigations Unit with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

The Snohomish County Sheriff's Office Major Crimes Unit (MCU) is responsible for investigating homicides, felony assaults, kidnapping, missing persons, cold case homicides, and assists in robbery investigations. There are currently 7 detectives and one sergeant assigned to MCU. The Major Crimes Unit must have an additional 4 FTE's added to mitigate the enormous case load currently carried by existing detectives. In the first ¼ of 2022, detectives in MCU have already worked 1133 hours of overtime just to keep up with their assigned workload. That number equates to 161 hours of overtime per detective in a 3-month period or stated another way, 13.5 hours of overtime per week, per detective (on average) for the first 3 months of 2022.

**Justification:** There are currently 7 detectives assigned to MCU. In 2021 the following crimes were referred to MCU for review and follow up investigations: 8 homicides; 85 robberies; 6 kidnappings; 209 felony assaults; and 218 missing persons (not runaways). MCU detectives do not have the latitude to defer or not investigate cases they are assigned. Cases which are assigned have already been reviewed by the MCU supervisor and must be investigated. Every case assigned to an MCU detective has some level of follow up required. Most cases require extensive follow up to include search warrant applications and service; evidence collection (booking, and logging), witness interviews, meeting with family members, defense interviews, and collaboration with deputy prosecuting attorneys. Currently, 7 MCU detectives are working 146 active felony cases, 26 of which are homicides which are at various stages of investigation or awaiting trial. Two of the MCU detectives are the lead or co-lead for the murder of a Bothell police officer and an Everett police officer.

MCU cases are time-intensive and highly complex. A review of 4 sample homicide cases over the past two years provides some context to demonstrate just their complexity and requisite time commitment. A review of the 4 most recent homicide case reports revealed the following; 350 pages; 171 pages; 528 pages, and 270 pages. Thus, the average number of written documentation for the lead detective in a homicide case is 329 pages. This number reflects only the lead investigator's report. Each detective in MCU will have assisted in some way with the case and will also submit follow up reports documenting and detailing all that they did in a particular case (photographs, collecting/logging evidence, witness/victim interviews, suspect interviews, etc.).

The time intensive work that MCU detectives perform cannot be overstated. For example, the average felony assault case investigated by a MCU detective will contain numerous search warrant affidavits. For assaults, each affidavit will be approximately 25 pages in length. It is not uncommon to have 10-12 search warrant affidavits for homicide cases totaling well over 125 pages in length. While it is difficult to exactly quantify, it is not uncommon in most felony assault and homicide cases to have hundreds of pieces of evidence. Each item of evidence must be photographed, collected, packaged, logged, and then booked into evidence.

There are currently 7 homicide cases scheduled for jury trial throughout this year. According to the prosecutor's office, the average length of a homicide trial is 4-5 weeks and some may last up to 3 months. While a trial is in progress, the lead detective assigned to that case will also be in trial. While in trial, that detective is not able to accept new cases. While the time for the average felony assault case is less (2-3 weeks), the impact for the lead detective is the same. Thus they are unavailable for new case assignments.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Major Crimes Detectives (Equity)

**Package ID #:** 279

**Category:**

Detectives assigned to MCU are generally long-term veterans of law enforcement with a great deal of law enforcement experience. The average time in service to Snohomish County within the unit is 20 years. At 20 years a deputy sheriff earns 16.75 hours of vacation a month which is a total of 201 hours of vacation per year. The collective bargaining agreement with the Deputy Sheriff's Association allows for a maximum of 320 hours of accrued vacation. While each member of the unit is different in the total number of hours accrued as well as the total number of hours earned each month, the average accrual of MCU is 302 hours. Subtracting 18 hours from the average number of hours accrued leaves 183 hours of vacation time (4.5 weeks) that must be used each year to comply with the Deputy Sheriff's Association CBA.

Detectives assigned to MCU work a 40-hour scheduled work week which is 4 – 10-hour days with either Friday, Saturday, Sunday off or Saturday, Sunday, Monday off. That means that each detective is scheduled to work 2600 hours per year (assuming a 4-day work week at 10 hours per day). According to the State of Washington Auditors Office (2012) the average police officer in Washington State is absent from work 18 percent of the time. Therefore, the average time a detective is not at work is 374 hours per year (this accounts for sick leave, vacation, and training). The aforementioned number of days absent may be slightly higher as the legislature now requires 24 hours of annual, in-service training for all law enforcement officers to maintain their peace officer certification; a requirement which was not in place in 2012.

The impacts of time off and time spent in trials (unable to work cases) is clear when the number of cases being carried by detectives is evaluated against available time. That, coupled with the amount of overtime currently being worked by detectives just to keep up with current case load is clear. The Major Crimes Unit is understaffed and overworked. The current caseload and workload is unsustainable.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Digital Forensic Detective (Equity)

**Package ID #:** 280

**Category:**

**Description:** The Sheriff's Office is requesting to add 1 Digital Forensic Detective to the Investigations Unit with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

There are currently 2 detectives assigned to the Digital Forensics Unit (DFU). The Sheriff's Office needs to add a third detective to this unit in order to keep up with the requests for accessing and extracting evidence from electronic devices in criminal investigations throughout the agency.

**Justification:** Annually, the DFU investigates approximately 335 cases. Detectives in this unit are highly trained and skilled in accessing evidence stored in digital devices (smart phones, tablets, video recordings, and computers). According to the Pew Research Center, 97 percent of all Americans own a smart phone (Pew, 2021). Smart phones are essentially handheld, portable, computers capable of storing tens of thousands of pieces of information and images).

In today's world, criminals routinely use smart phones, tablets, and computers, in the commission of crimes. Smart phones and tablets are commonly used in two ways; first, as a means of communication with co-conspirators or as a way of communicating with victims and witnesses via texts, emails, Twitter, or Snapchat; and second, memorializing their crimes through the use of photographs which are stored in the device or in the cloud. The aforementioned uses of these devices become evidence in criminal investigations which is critical to successful prosecution.

It is important to understand that one device (smart phone) can hold thousands of images. For example, a smart phone which has 1 GB of storage will store 500 images. A smart phone with 16 GB will store approximately 8000 images or 140 minutes of video. According to a 2020 report by Android, phones produced by them now have 100 GB of storage. The detectives working in the DFU reported that the average cell phone they analyze has somewhere between 60 to 100 GB of storage. The implications of that much storage space are obvious.

When a device is sent to the DFU for analysis and extraction of data, the detectives do not simply extract the data; they must also evaluate the images to determine what is evidence and what is not. As one can imagine, it takes a substantial amount of time to review and evaluate thousands of images found in various devices. Once the extraction and review by one of the DFU detectives is performed, a report is prepared and sent to the requesting detective along with the images which were determined to be evidence.

Of particular importance is the volume of cases sent to DFU from the Sheriff's Office Child Sexual Assault Unit (SIU). According to statistics in the Special Investigations Unit, each year the SIU detectives send approximately 100 devices to the DFU for analysis and extraction of evidence. These cases all involve the sexual or physical victimization of children. In most cases, because the digital recovered evidence is irrefutable, the recovery of those images from the suspect(s) phone often results in a guilty plea. When the suspect pleads guilty it saves valuable resources that would be used in a trial, and perhaps most importantly, means that the child is spared the additional trauma of having to testify in court.

The remainder of devices sent to the DFU for analysis are from cases involving homicides, assaults, kidnapping, and robberies. In 2021 the Sheriff's Office investigated 8 homicides, 85 robberies, 8 kidnappings, and 209 felony assaults. Sheriff's Office DFU detectives were instrumental in recovering digital forensic

evidence in several high-profile cases including the murder of a Bothell police officer and an Everett Police Officer. DFU detectives were also heavily involved in helping to investigate and arrest several suspects who were responsible for over 12 pot shop robberies in Snohomish, King, and Kitsap Counties. These are just a few examples of the hundreds of cases where DFU detectives fill an essential role in the collection of evidence needed to successfully prosecute criminals.

The work performed by the DFU is vital to ensuring justice for victims of violent crimes. That work is increasing on a yearly basis, particularly as violent crime trends upward. The DFU needs an additional detective to keep up with the workload sent to them for analysis.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Communications Specialist

**Package ID #:** 281

**Category:**

**Description:** The Sheriff's Office is requesting to add a Communications Specialist to the Administration Division with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

Our office needs to refund a second position to focus on communications related to community engagement and transparency. This position has been vacant since May 2020 and due to budget cuts and the hiring freeze, we were unable to fund it in 2021. This position will assist in addressing concerns related to social justice and accountability in law enforcement. A Communications Specialist will be instrumental in producing timely and accurate information for our over 800,000 residents of Snohomish County. This includes educational communications, crisis communications and communications following critical incidents.

**Justification:** Under the leadership of Sheriff Adam Fortney, one of the primary goals for the Sheriff's Office leadership team is to continue bridging the gap between law enforcement and the communities we serve. Since 2020, nationwide we have heard from our communities, including people of color and underrepresented communities, that there is a strong desire to build trust and improve relationships, communications, and engagement with their local police agencies.

To build trust with our communities, we first must start by increasing our ability to interact and build relationships as human beings first. The Communications Specialist position will be instrumental in allowing our agency to plan and participate in neighborhood events and develop public safety outreach materials and strategies to improve relationships between our residents and the deputies who serve them.

In addition, body worn cameras are expected to be worn by all deputies by the end of 2022. This will add another component that requires additional communications focused on both public education and outreach. Body worn cameras will enhance public trust and allow for increased transparency; body cameras will also create an expectation from our residents that messaging following use-of-force incidents will include timely access to body worn camera footage from the incident. This will create another layer of additional work for our Director of Communications.

Currently, the Sheriff's Office communications, marketing and public information functions are solely managed by the Director of Communications who oversees all components of news and media relations, is responsible for timely and accurate crisis communications, creates all external public safety and education communications, and is a member of the county's opioid communications group and the Snohomish County Multiple Agency Response Team (SMART). Managing this workload in addition to consistent internal communications to over 700 employees working different shifts, at several different work sites spanning over 2,000 square miles, requires more resources than we are currently have.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Contract Specialist

**Package ID #:** 282

**Category:**

**Description:** The Sheriff's Office is requesting to add a Contract Specialist to the Administration Division - Fiscal Unit with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

Contract Specialist job description selected as a place holder as Sheriff's Office may need to create a job description with specific job duties.

The Sheriff's Office, like many other county departments, has experienced exponential growth in the area of managing/developing contracts and purchasing equipment and services. The fiscal division is not able to keep up with the growing need and management of contracts. The Sheriff's Office has over 65 FTEs that are assigned to law enforcement contracts and the workload associated with maintaining contracts and purchasing RFPs cannot be managed within the office with current resources any longer. The Sheriff's Office needs to mirror many of our fellow county departments and add a contract specialist position to handle this workload.

**Justification:** The Sheriff's Office, over the past few years, has been a go to law enforcement agency when cities are contracting for law enforcement services. The SCSO has over 65 positions that exist as a result of contracts with cities, Community Transit, and the Paine Field Airport. In addition to these existing interlocal agreements (ILAs), the SCSO purchases hundreds of thousands of dollars in equipment, supplies, ammunition, and other technical services. Due to the purchasing requirements, the majority of these purchases cannot be made without receiving multiple bids, quotes, or even going out to RFP. Without a dedicated contract specialist, the Sheriff's Office will run the risk of exposing the county to liability from not properly administering contracts and making purchasing decisions outside of county policy.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Wellness Coordinator

**Package ID #:** 284

**Category:**

**Description:** The Sheriff's Office is requesting to add a Wellness Coordinator to the Administration Division with a start date of July 1, 2023. Funding request is for six months of salary/benefits and additional funding to establish a program budget.

This request is for a Wellness Coordinator for all SCSO employees and funding a specific Wellness Budget to be utilized for training, products and service to enhance employee mental health, wellness and safety.

The Sheriff's Office has recognized an increase in work related PTSD cases amongst local law enforcement to include Sheriff's Office employees. These PTSD cases are increasingly becoming career ending diagnosis for the employee but also an increased risk for suicidality and presents a looming staffing crisis if Snohomish County does not address the wellness and behavioral health of law enforcement employees. Increased instances of PTSD have also been linked to excessive use of force in law enforcement. Given recent changes to state law regarding use of force, de-escalation and alternatives to incarceration, it is more important than ever to provide SCSO employees the tools and services needed to serve the public safely and effectively without using excessive or abusive force.

The Sheriff's Office seeks to increase resiliency by providing resources to employees at the workplace to help offset issues of shift work and social isolation. The International Association of Police Chiefs (IACP) identified increased access to quality mental health and wellness services delivered by culturally competent providers is fundamental to preventing suicide and supporting officer well-being and performance. The Wellness Coordinator will work with the Wellness Committee to help build resiliency skills amongst staff and reduce the stigma and barriers to service.

Along with the Sheriff's Office Wellness Committee, the Wellness Coordinator will utilize the Wellness Budget to seek proposals for tools and training to address mental health and wellness in a manner that is accessible to employees during work hours and help build resiliency skills.

**Justification:** In 2020, the legislature passed Substitute Senate Bill 6570, which directed the Department of Health (Department) to convene a task force to examine factors related to the behavioral health and wellness of law enforcement officers serving in Washington state and identify recommendations to improve the behavioral health status of law enforcement officers and personnel (LEO) and their families.

The two of the primary recommendation from this task force were to fund culturally and linguistically tailored programming and services that support emotional wellness for law enforcement personnel and their families, and support retention of law enforcement personnel by providing more services and to expand behavioral health services that are tailored to law enforcement.

The International Association of Police Chiefs (IACP) has also identified several risk factors for law enforcement employees are characteristics that make it more likely that a person will think about suicide or engage in suicidal behaviors. One of the primary risk factors identified are the stressors related to the law enforcement profession such as exposure to traumatic events is associated with an increased risk for suicide; job-related exposure to suicide has been found to impact officers' emotional and psychological well-being and to be associated with PTSD symptoms and persistent thoughts of a suicide scene; shift work has been found to be associated with suicide ideation, particularly among officers who may already have other risk factors for

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Wellness Coordinator

**Package ID #:** 284

**Category:**

suicide, such as symptoms of depression or PTSD; unpredictable schedules can limit time available for maintaining relationships with friends and family, which can contribute to social isolation.

The National Alliance on Mental Illness (NAMI) has also researched the increased risk of suicide, PTSD, anxiety and burnout amongst law enforcement. Of particular note NAMI has found the suicide rate for police officers is four times higher than that of firefighters, more law enforcement officers die each year from suicide than from line of duty deaths and compared to the general population, law enforcement report much higher rates of depression, PTSD, burnout, and other anxiety related mental health conditions.

Beside just the increased risk of suicide and increased risk of a disability for employees, there is also an increased use of excessive force due to PTSD. In 2019 The Society of Social Work and Research studied and PTSD and police use of force and concluded findings suggest that mental health interventions for police officers may both mitigate health symptoms among police officers and help to prevent police abuse against civilians. Similarly, if perpetrating abuse is contributing to risk for PTSD symptoms, this suggests that police officers themselves (and their affiliated departments) have an incentive to curb abusive practices. The Sheriff's Office has not identified PTSD related use of force incidents as of this writing but as PTSD cases are rising the administration seeks to be proactive in reducing any potential excessive force incident by providing a wellness coordinator to help build awareness and reduce the stigma of seeking culturally competent treatment options.

Snohomish County provides a robust Employee Assistance Program but the resources and practitioners in the EAP frequently are not culturally competent in working with the unique needs and culture of first responders. To deal with the unique challenges of delivering quality behavior health and holistic wellness program, the Sheriff's Office needs to add a Wellness Coordinator to administer the overall Wellness Program as well as procure and administer contract services for culturally competent psychological services.

A Wellness Coordinator would be an onsite resource for employees to coordinate, plan, and facilitates health and fitness activities, and mental health programs. The Wellness Coordinator will plan and implement classes, speakers, seminars, personal training, and fitness assessments that promote healthy lifestyles as well as maintain contracts with mental health practitioners who are culturally competent in delivering mental health services to the employees of law enforcement. Current SCSO contracts with mental health professionals would create a conflict if they were to deliver services to employees because they are hired to deliver pre-hire assessment or post critical incident evaluation. This leaves a tremendous gap where employees struggle to find services that fit their schedule and specific needs.

The requested \$100,000 Wellness Budget is an estimate of the cost to procure the quality of care, training and resources desired. These services would include dedicated time from mental health practitioners who could respond to a critical incident or meet with employees post critical incident as well as provide for on site nutritional, fitness and financial wellness training. A lower amount could still be utilized to focus on particular services such as mental health and PTSD while excluding nutrition, physical fitness and financial wellness.

Executive recommendation is for Sheriff's Office to coordinate with HR to make use of the Employee Benefit fund 508 so explore the possibilities of adding services for use by law enforcement. See pkg #101, 508 Employee Benefits-Finance

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Domestic Violence Coordination Services (Equity)

**Package ID #:** 285

**Category:**

**Description:** Domestic Violence continues to be a substantial problem for citizens of Snohomish County. In 2021, the Sheriff's Office responded to 2946 calls of domestic violence. 1516 of those cases met the statutory definition of a criminal act. Perhaps of greater importance, the number of convictions for domestic violence is currently under 20%. Many cases which could be prosecuted are due to unanswered follow up requests from the Prosecutor's Office to the investigating deputy.

The Snohomish County Sheriff's Office responds to approximately 2600 domestic disturbances each year. From those calls, approximately 1100 arrests are made for assault. There are approximately 220 requests for follow up investigations submitted to the Sheriff's Office from the Prosecuting Attorney's Office. If the follow up information is not provided within the time frame submitted by the Prosecutor's Office, the case is dismissed. A large percentage of the follow up requests (approximately 80%) involve a gross-misdemeanor assault 4 degree. Follow up requests vary from requests for medical records, additional statements, collection of video evidence, etc. Due to the volume of work, detectives are not able to conduct follow up for misdemeanor crimes. Thus the follow up requests are assigned to patrol deputies. Patrol deputies lack sufficient time to conduct follow up investigations (according to the 2014 Timothy Freesmeyer Staffing Study, Snohomish County deputies have on average 12 minutes of discretionary time per hour while on shift. When deputies do have discretionary time much of it is outside of normal business hours (2:00 am to 8:00 am) when it is not possible to contact businesses, victims, and witnesses.

The Sheriff's Office recognizes that it must do more to assist the victims of domestic violence as well as the children exposed to violence. A more comprehensive approach to dealing with domestic violence means additional resources are needed. These resources do not necessarily need to be commissioned law enforcement officers. Highly trained social workers who specialize in working with victims of domestic violence and understand the complexities of domestic violence as it relates to the victims, the abuser, law enforcement, prosecution, and the judicial system would be able to fill the void currently existing in the criminal justice system. Trained social workers can provide numerous services to victims, police, and to improve prosecution outcomes to perform work that is beyond our current capacity. Moreover, domestic violence social workers' total compensation costs are significantly less than a commissioned law enforcement officer.

The Sheriff's Office is requesting funding for a Professional Services contract to provide independent professional domestic violence services to victims. The scope of services provided to the victim, law enforcement, and prosecution are extensive:

Victim Services include (in part): support, educate and assist victims of domestic violence through the criminal justice proceedings, in both district and superior courts; provide victims with information on obtaining civil protection/no contact orders; assist victims in completing the many forms and documents required to obtain various protection/no contact orders; assess domestic violence victims immediate needs (safe housing, income, and other necessities); help victims establish an immediate safety plan; provide information and referrals to community resources specifically for victims of domestic violence; provide victims with information regarding criminal justice proceedings and procedures, appear with victims at arraignments and all other court hearings (both criminal and civil); educate victims about the benefits of pursuing prosecution through the legal system.

Law enforcement services include (in part); Provide law enforcement about victim accounts or other

undisclosed criminal information; provide follow up services for law enforcement by obtaining additional statements, supplemental paperwork, photographs of injuries and, medical release forms; in concert with law enforcement and the prosecutor's office, develop reference materials to be used by police and prosecution aid in prosecution; assist in training deputies about victim services; and provide community training concerning domestic violence and services available to victims of domestic violence.

Prosecution services include (in part); Provide the deputy prosecuting attorney with status reports concerning the victim, contact information, concerns of victims, and an update on the status of civil court no contact or protection orders; communicate with deputy prosecutors seeking the termination of no contact orders; provide information to the deputy prosecuting attorney on victim's recommendations/request for defendant services and resources as well as providing sentencing input; coordinate with the prosecutors' office victim advocates for a smooth transition of services where appropriate.

**Justification:** In 2021 Washington State Governor Jay Inslee signed into law Engrossed Second Substitute House Bill 1320 into law which amended approximately 80 existing RCW's relating to domestic violence. In Part I section 3, subsection a, the legislature stated in part, "domestic violence is a problem of immense proportions. About 15 percent of Washington adults report experiencing domestic violence in their lifetime, and women, low-income people, and Black and indigenous communities experience higher rates of domestic violence. When domestic violence victims seek to separate from their abuser, they face increased risk. Forty-five percent of domestic violence homicides occur within 90 days of recent separation, while 75 percent occur within the first six months of separation. Domestic violence has long been recognized as being at the core of other major social problems: child abuse, other crimes of violence against persons or property, homelessness, and alcohol and drug abuse. Research has identified that adverse childhood experiences such as exposure to domestic violence have long-term negative impacts on health, well-being, and life outcomes, including criminal legal system involvement. Washington State studies have found that domestic violence is the most predictive of future violent crime by the perpetrator. Nationwide, domestic violence costs over \$460,000,000,000 each year for health care, absence from work, services to children, and more...Domestic violence should not be minimized or dismissed based on any mental health diagnoses of the perpetrator or the victim. To the contrary, the presence of mental health concerns or substance use of either party increases the likelihood of serious injury or lethality. The legislature finds that it is in the public interest to improve the lives of persons being victimized by the acts and dynamics of domestic violence to provide reasonable, coordinated, measures to prevent domestic violence from occurring and to respond effectively to secure the safety of survivors of domestic violence".

The above statement of the Washington State legislature is further supported by scientific research on the subject of domestic violence particularly as it pertains to children. Specifically, domestic violence has significant deleterious impacts to society, particularly children. Most instances of domestic violence involve children in the home that are 5 years of age or younger (Fantuzzo et al., 1997). Moreover, there is strong evidence to support that domestic violence is intergenerational, even for children who merely witness violence (Gelles & Cavanaugh, 2005). Therefore, without intervention, the cycle of violence is likely to perpetuate itself for children when they reach the age of adulthood.

Children, particularly those who come from historically underserved and marginalized communities deserve to grow up in a home safe from domestic violence. Children are our most vulnerable citizens as well as our future. Victims of domestic violence and their children deserve and should expect that the criminal justice system will respond, support, and advocate for their wellbeing. The system, as it is currently structured, fails to

provide the necessary supports to ensure that every reasonable effort is made to safeguard the wellbeing of both the victim and the victim's children.

Adding a team of highly trained domestic violence social workers will undoubtedly provide critical services both in the social arena and the criminal justice system to domestic violence victims which is currently not available to them. The use of a professional service provider would most certainly lead to more convictions in domestic violence cases. It would provide a conduit to services to the victim both as it relates to social services and navigating the criminal justice system. Domestic violence victims (and their children) would have an assigned social worker who would be able to assist the victim every step of the way as the case makes its way through the system.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Portable UFED

**Package ID #:** 286

**Category:**

**Description:** Currently detectives from the Robbery / Burglary Unit lacks the ability to effectively collect digital media from cell phones in the field. When digital media is required to be collected, detectives must rely on a person downloading and transferring files which becomes problematic when trying to establish in court the integrity and chain of custody of the digital evidence. Detectives in the digital forensics unit can transfer data directly from phones but this requires taking possession of the phone for days or weeks and takes time away from other investigations such as Major Crimes and Child Exploitation cases.

The Sheriff's Office seeks to purchase Universal Forensic Extraction Devices (UFED) for the Robbery / Burglary Unit so digital evidence can be collected in the field in a manner that maintains chain of custody on the evidence and ensures the evidence is unaltered in the process.

2023 budget request would be in support in a request for potential testing of products, RFP and final purchase of UFED's

**Justification:** The Sheriff's Office currently has two detectives who process digital evidence with a primary focus on crimes against children and major crimes. Property crimes detectives and deputies at the Precinct level must resort to making copies of copies to submit digital evidence. This is inefficient and does not present evidence in a way that guarantees it is unaltered and chain of custody can be proven.

Until recently, devices used to extract data from digital sources such as cell phones took large, expensive and specialized pieces of equipment. Several portable user friendly products have reached the market allowing detectives in the field to collect evidence such as video from cell phones without the need to seize the property of the witness or suspect. Modern devices allow for detectives to document consent to search as well as document a data transfer directly to the evidence collection software, providing quicker, more accurate collection of evidence, improving the overall case and allowing witnesses to keep possession of items like cell phones after the transfer. Although the cost of UFED's have dropped, the cost of outfitting the Robbery / Burglary Unit with these devices would exceed the normal Sheriff's Office precinct purchasing budgets.

Portable UFED can also collect text messages, emails, documents and pictures from victims of crime without requiring the victim to lose their device and their connection to world. Another upside of the devices for victims and witnesses is they can provide consent to access their device and limit the scope of the search/collection which is critical in protecting their rights against an undue search.

By purchasing Portable UFED's detectives in the RBU could improve case quality, solvability and success of evidence being submitted for trial, all while more efficiently working with victims and witnesses to allow them to keep control of their devices instead of waiting weeks for a device to be searched.

The initial request is to outfit the entire Robbery / Burglary Unit with eight (8) portable UFED's. UFED cost per pair is between \$7,000 and \$10,000 depending on vendor. Ongoing cost for maintenance and repair has been included but if needed this amount could be funded from precinct purchasing budgets.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Taser Contract (IT)

**Package ID #:** 287

**Category:**

**Description:** This is a partner package with IT:

One of the most effective de-escalation tools available to all law enforcement nationwide is the Conducted Electrical Weapon (CEW), or Taser. This tool allows law enforcement to pause dangerous situations and thereby creating an opportunity for greater decision making and a lower-level use of force. The Snohomish County Sheriff's Office equips all road deputies with this critical less lethal tool.

The current count of Conducted Electrical Weapon (CEW), or Taser, in the Sheriff's Office is 259 units. These are all X26P platforms sold by Axon Enterprises. All the units purchased by the Sheriff's Office are warranted for five years through Axon Enterprises. The warranty and support for our current stock of Tasers will expire in 2022 and the end of life for the X26P platform will be sometime in 2023.

The replacement platform for the X26P offered by Axon Enterprises is the Taser 7 (T7). The current contract with Axon for the X26P Taser is \$94,000 annually. The replacement T7 Taser contract will be \$191,000 annually for the next five years.

This request is to cover the increased contract cost of \$97,000 and move to IT. This will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Drones (sUAS)

**Package ID #:** 288

**Category:**

**Description:** This request is for the purchase of 2 DJI Matrice 30T small Unmanned Aircraft Systems (sUAS). This drone is equipped with a high resolution FLIR camera with a zoom capability that far exceeds any of the drones that are currently in use by patrol. This drone and camera combination is one of the premier drones for use in law enforcement operations.

The DJI Matrice 30T (Plus) Includes: Aircraft, RC Plus Controller, Payload: Laser Range Finder, 12MP Wide and 48MP Zoom Camera, 640x512 Radiometric Thermal, 2 x TB30 Intelligent Flight Battery, BS30 Charging Station, USB Charger & Cable for Controller, Propellers, Carrying Case, Controller Lanyard, 1 Year DJI Care Enterprise Plus Protection Plan, 1 Standard Maintenance Service.

**Justification:** The Sheriff's Office currently deploys 7 DJI Mavic 2 Enterprise Zooms as a patrol resource. These drones are not equipped with FLIR which limits their use during low light or night-time operations. The Patrol Division has 1 drone, an Autel, which is equipped with FLIR. Only having 1 FLIR equipped drone severely restricts our ability to provide this resource through out the county.

These drones allow for information to be collected and delivered to decision makers in a manner that has not been possible in the past. Decisions made based on correct and timely information often lead to a better outcome for all involved.

Prior to the use of drones, most often a suspect was located by a Deputy or K9 Team searching for and locating the fleeing person. Once the subject was located, the subject and deputy were within close proximity to each other requiring immediate action to either take the suspect into custody or continue efforts to apprehend the subject. This often required the use of physical force.

The use of drones allows for law enforcement to locate fleeing subjects prior to making physical contact with them. Once a subject is located the drone can maintain visual sight while plans are developed, and resources moved into position. The drone provides law enforcement time to put plans into place that diminish the likelihood of having to utilize force to take people into custody. Drones increase safety for citizens, law enforcement, and suspects.

Drones provide accountability for law enforcement. When the Sheriff's Office is utilizing drones to search for and apprehend suspects, it is likely the interaction between the deputy and the person being taken into custody will be recorded using the drone's video camera. SCSO Drone Pilots are required to begin video recording with the drone's camera once the fleeing person has been located. This provides accountability and transparency when force is allegedly used outside of policy. It also provides documentation that can be used to defend the lawful actions of deputies when the use of force is reasonable and necessary.

The use of drones equipped with thermal cameras increase our capability to search for missing or lost people. Thermal equipped drones enhance our ability to immediately search waterways, ponds, and other heavily vegetated areas quickly...without having to wait for Dive or SAR to muster. Those minutes, referred to as the golden hour, would be critical when the need for immediate advanced life support was required for victim survival.

One of the Sheriff's Office Patrol Division's drones are not equipped with a thermal camera. Our current

**Category:**

drones are not very effective when searching for people at night or during daylight when searching vegetated areas. A significant portion of our drone missions are conducted at night or for people who have fled into wooded areas.

Utilizing drones that are equipped with thermal cameras will allow for Sheriff's Office Deputies to more effectively perform their duties while conducting nighttime operations or in areas that are heavily vegetated. It will increase the level of safety for all involved. It will provide accountability when deputies actions are alleged to be outside of policy. It will allow us to better defend ourselves when our actions are with-in policy.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Drone Unit Maintenance

**Package ID #:** 289

**Category:**

**Description:** This is a request is to establish an annual maintenance budget for the Patrol Division's Drone Unit. The use of drones in patrol is an invaluable asset that reduces risk to deputies, the public and to suspects avoiding capture by decreasing the likelihood of surprise contacts or ambush. Drones also provide the ability to locate those who may be lost or missing outdoors, such as children, the elderly, and people with Autism Spectrum disorders; this can and does save lives. The Sheriff's Office needs an annual budget so our drone unit can deploy the proper equipment with pilots that are properly trained and certified to use this equipment. The Sheriff's Office does not have a yearly budget for patrol drones.

For a drone to be effective at locating people who do not want to be found, or who may be missing or lost, the drones should be equipped with a thermal camera. The patrol division currently has 2 drones that are equipped with thermal cameras. One, the Parrot, has been found to be an ineffective piece of equipment and we will not purchase another one. We have three thermal equipped drones on order, but their arrival date is unknown. Once they do arrive, patrol will have 4 effective thermal equipped drones.

The Sheriff's Office has 4 drones specifically for flying indoors. Indoor operations provide an ability to safely inspect and clear interior spaces. This decreases risk to deputies and suspects by providing the potential to identify their location and negotiate surrender without direct and potentially dangerous contact. It can provide time, distance, and de-escalation of potentially violent encounters.

We have 7 other drones that are not equipped with thermal cameras and are not effective at flying indoors. They are basically drones used for training new pilots. They will be phased out of service as we acquire new and uprated equipment. Any future purchases of drones for patrol should be drones equipped with thermal cameras or drones specifically for flying indoors.

The Sheriff's Office should expect to purchase a new drone for patrol every year to maintain a fleet of four drones that are effective flying outdoors and can be assigned in a way that covers all of unincorporated Snohomish County. We should also anticipate purchasing a new drone every year for flying indoors to maintain that capability. Drone technology is changing at a rapid pace. The best drone for patrol right now, the DJI M30, costs about \$15,000. The price for the drones we use to fly indoors is about \$500.00 per unit.

The equipment to maintain the drones includes repairs, batteries, propeller guards, propellers, and many other low and high-cost items. This must be factored into the overall cost of the program.

In order to keep our pilots trained to required standards, the Sheriff's Office should send at least two pilots to outside training once a year. This will lower the risks and liability associated with operating drones. The patrol drone pilots have a scheduled training day once a month. The days rotate between Tuesday and Thursday to reduce overtime expenditures.

We currently use Air Data software to track and record all flights. We use the same program for our maintenance program. Air Data provides live streaming capability. Air Data can also create a site that the public can access to see all of the Sheriff's Office drones flights without releasing confidential information. This has reduced public disclosure requests for other agencies that use this system capability.

**Justification:** Drone capabilities provide a reduced risk to deputies, the public and to wanted suspects by giving us the ability

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Drone Unit Maintenance

**Package ID #:** 289

**Category:**

to safely locate them at a distance and use time and proper resources to conduct an arrest in the safest possible manner. They provide a much larger area of search coverage in much less time than can be accomplished by other means, further reducing risk to deputies due to terrain, weather, and other potential injury mechanisms. Those who are lost, or hiding are also at risk from these conditions and time can be of the essence in locating them safely.

Additionally, each purchase made by the drone unit uses money that has been allocated to other units. This causes delays, conflict, and reduces the capabilities of those units. Drones have the ability to provide information to patrol units and people making life and death decisions in a way that has never been possible. To accomplish this, the drone must be properly equipped and the pilots operating the drones must be properly trained. With an annual maintenance budget the Drone Unit can purchase the proper equipment, maintain the equipment, and train the pilots to an required level. This will reduce risk and liability.

Finally, the recording capabilities of drones gives us the ability to capture events in real time over a large area. This greatly adds to the evidence available for prosecution of suspects. It can also provide transparency of our operations and tactics, reducing potential litigation and conversely, it can also provide an invaluable tool for improved accountability, increasing public trust. These recordings can also be used for training, and for revision of ineffective tactics or practices. As this technology advances and continues to proliferate it can be anticipated that capabilities will increase, and costs will reduce for models that are currently "top of the line". We will always look at the most value for the least cost in replacing outdated or unserviceable equipment.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Greykey Software (IT)

**Package ID #:** 291

**Category:**

**Description:** This is a partner package with IT:

This priority package represents a transfer of budget authority for a software purchase and support agreement out of the Sheriff's Office budget and the IT Department budget for the following license and maintenance contract:

Greykey Software

The Sheriff's Office Digital Forensic Unit is responsible for evaluating, analyzing, extracting, and documenting digital evidence located within smartphones, computers, and tablets. Technology is rapidly changing. Apple, Android, Samsung, and Google all make various devices which now have sophisticated encrypted locking systems making it virtually impossible for anyone to open unless that person knows the passcode. While this higher security is good for preventing criminals from accessing personal information, it has created a barrier for law enforcement to legally access electronic devices searching for evidence. If the Digital Forensic Unit is unable to access electronic devices, many felony cases will not be prosecuted, or prosecution will be greatly hampered due to our inability to access evidence located within the device.

The answer to this problem is the purchase of highly sophisticated software designed for law enforcement to enable detectives to unlock devices which are inaccessible without the software.

If this package is approved in the 2023 budget, the cost for this application will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:** The Sheriff's Office Digital Forensic Unit handles 184 cases each year. As stated above, the Digital Forensic Unit is responsible to extract evidence in felony cases involving homicides, sexual assaults (both children and adults), assaults, and kidnapping. According to the Pew Research Center, in 2021, 97 percent of Americans owned a smart phone (Pew Research, April 21). Smart phones are essentially mobile, handheld computers capable of recording and storing tens of thousands of pieces of information or images. Many criminals document their criminal activity on their cell phones through taking pictures, emails, or texts.

There can be no debate that technology is changing at a very rapid rate. For law enforcement to adequately serve the community, we must keep up with those changes. Just a few short years ago, detectives assigned to the Digital Forensics Unit could access most smart phones and computers by unlocking them using easily accessible digital unlocking devices. This is no longer the case. Smart phones, tablets, and computers now have highly sophisticated encrypted locking security making it impossible to access that device unless the detective has equally sophisticated and highly technical software to do so.

Currently, the Sheriff's Office Digital Forensic Unit is not capable of unlocking most smart phones which were made after 2019. This includes all the major phone manufacturers such as Apple, Samsung, and Motorola. According to Counterpoint Research, Samsung and Apple make up 78% of the smart phones owned in the United States. This fact extrapolated to Snohomish County would mean that 78% of Snohomish County citizens own either an iPhone or an Android.

Currently, the Digital Forensic Unit is forced to prioritize cases which will be worked, and which cases will not

**Short Name:** Sheriff Equipment - Greykey Software (IT)

**Package ID #:** 291

**Category:**

be worked. Because the Digital Forensic Unit has no way to open/unlock cell phones or tablets, detectives must request assistance from Seattle, King County, or Skagit County to unlock those devices because they have the software necessary to do so. Obviously, we have to be selective in how many cases we ask for assistance in unlocking phones. Furthermore, using another agency to unlock a phone complicates a criminal case in that, it adds another person to the chain of custody of evidence thus, our neighboring agency detective(s) become potential witnesses in cases within Snohomish County. It also means that detectives must drive to the location Seattle or Mount Vernon, drop the phone off, and then wait until the assisting agency detective advises us that the phone has been unlocked. Not having the ability to open/unlock smart phones and other portable devices also means that many cases cannot be worked due to the number of devices which need to be searched because we are limited by the number of times we can ask for assistance from other law enforcement agencies. This fact essentially means that many cases must be closed due to lack of investigative resources and the victim(s) do not receive justice.

IT has the resources and expertise required to support and maintain technology vendor support agreements. Switching the support and maintenance of this agreement from Sheriff to IT will enable IT to work directly and more efficiently with the vendors.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Facility - No. Precinct Fencing Upgrade

**Package ID #:** 293

**Category:**

**Description:** Fencing was recently added to the north section of the parking area for secure law enforcement and employee vehicle parking at the North Precinct. The fencing was added by building owner at no cost to the county but did not include openers for any of the vehicle or pedestrian gates. The fencing has two ingress/egress vehicle and two pedestrian gates located on its east and west ends, which are manually operated currently.

This request is for one-time funding to further improve the security of the facility and improve access control by:

Adding key card access control points to the vehicle and pedestrian gates.

Adding a Commercial Slide Gate Operator (Liftmaster CSL24UL) with battery backup (to be controlled by County/Office-issued keycard Siemens access control system) and a Free Loop exit strip in the asphalt to the east and west end vehicle gates.

**Justification:** The North Precinct has long been a police facility that is being run out a standard commercial office / light industrial building. It was opened without many security features that are an industry standard for facilities housing law enforcement and evidence. One notable exception was there was no security fencing to provide secure parking for law enforcement vehicles for the safety of law enforcement staff and equipment.

With the addition of the security fencing by the building manager, all that remains is automation of the two vehicle gates and access controls for the two vehicle gates and two personnel gates that are part of the fence installation. Automating both vehicle gates will allow for a one-way traffic pattern from the east to the west, which is the most suitable arrangement for placement of card readers and exit loops. The installation plan will be to allow entry and exit from both gates, with the preferred route being entry on the east and exit on the west.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Facility - So. Precinct (Bomarc) Rent Inc

**Package ID #:** 294

**Category:**

**Description:** The Sheriff's Office lease for the existing south precinct in Mill Creek expires in September 2023. The current lease is approximately \$20k/month. The Sheriff's Office is currently working in partnership with the airport to open a new South Precinct in the Bomarc building, which was purchased by the county airport operations group last year. The Sheriff's Office will sustain an increase in rent from \$20k/month to approximately \$43k/month. This new lease agreement is still in negotiation and subject to change; monthly fees will be paid by electronic inter-departmental general ledger transfer. Also, the Sheriff's Office will be required to pay rent at both locations while the new precinct is under renovation.

**Justification:** The Sheriff's Office has outgrown the current south precinct footprint. The current location is simply a repurposed office shell space that has no secured parking and does not have enough space to house the deputies and operations that currently need office space. The current south precinct also does not have enough secured indoor bay space to store vehicles that need to be stored while awaiting search warrants. The current precinct location also does not adequately service the citizens that live on the west side of I-5.

The Sheriff's Office has successfully negotiated a \$10k decrease in monthly rent by making changes to square footage needs and sharing common space with the airport.

Priority Package Detail**

---

**Package Type:** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Miscellaneous Equipment Replacement Fund

**Package ID #:** 295

**Category:**

**Description:** The Sheriff's Office needs funding to replace ongoing broken equipment, gear, and technical supplies that are constantly used up or broken due to normal wear and tear. The Sheriff's Office is proposing to add \$150,000 to our miscellaneous line item.

**Justification:** The Sheriff's Office has transitioned into a highly technical organization with a large amount of electronic and technical equipment that needs to be replaced on a regular basis. The office needs to replace broken firearms, tasers, computer screens, scanners, car printers, flashlights, and a myriad of other equipment that routinely breaks on a regular basis.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Jail Security System Project OT (Facilities)

**Package ID #:** 296

**Category:**

**Description:** Facilities & Fleet have partnered with the Corrections Bureau on a security system upgrade to the jail in 2023. In the 2022 budget Facilities was allocated \$1.1 M in capital funds toward the project for the design, installation, and equipment costs using ARPA funding (PP ID #171, 305, 527) . Not included with the 2022 request was the funding for Correction's Deputies working over time to escort the contactors and unlock doors while the system is being replaced and the cameras are down. The Corrections Bureau will require additional funding to cover the over time wages to detention staff for escorting civilian construction works and technicians around the interior, secure portions of the jail and while the security camera is off-line and for manning hallways, rooms and modules that lack camera surveillance or electronic keycard entry.

**Justification:** This request may be eligible for ARPA funding - to be determined by the Budget Office.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Data: Intelligent Imaging

**Package ID #:** 297

**Category:**

**Description:** This package represents the investment in two software products which will together enhance department transitions to digital archive and paperless systems. Both are new modules within the county records management system, OpenText: Intelligent Capture and Extended Electronic Content Management (xECM).

Executive Review:

Update exp based on department feedback

**Justification:** Intelligent Capture comes with OCR (optical character recognition) as well as OMR (Optical Mark Recognition), ICR (Intelligent Character Recognition), and barcode recognition which will provides recognition technology for text, forms/fields, and handwriting. The solution comes with advanced analytics and data extraction which will assist in error free scanning and automation as well as providing more extensive search capabilities. One feature that departments have asked for is the ability to OCR additional network file locations - this solution will provide that functionality. While this would provide a solution for current business needs, this will also replace the current Kofax solution used by the IT Enterprise Scanning Center that is no longer under maintenance and support, while also providing greater capabilities. There was \$45K funded in a 2020 budget priority package, but it was not implemented at that time. This package represents implementation of that project which was already authorized in 2020.

Extended Electronic Content Management (xECM) provides integration between OpenText and many application solutions we currently have in the County environment including Office 365, SharePoint, and Dynamics. With the ability to link these Microsoft solutions with OpenText Content Server, we will be able to fully manage the lifecycle of electronic records within the County to properly ensure the creation, retrieval, and destruction of records are enforced and monitored. xECM also provides automated classification and metadata management within the OpenText solution which will provide both cost and time savings as we leverage this technology to replace current manual processes and introduce data governance at a county/enterprise level.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Data: Inventory Classification Study

**Package ID #:** 298

**Category:**

**Description:** This package is to fund a one-time consultant service to perform an extensive data classification and records inventory throughout Snohomish County.

**Justification:** In mid-2021, a new Data Manager position was created to lead the enterprise data management function within the County. A key deliverable for this position and the Enterprise Data Management division within IT is to ensure that through policies, advocacy, and coordination, information created by Snohomish County is stored, retrieved, and archived in a way that aligns with state, local, and federal laws and guidance. In order to perform this work, the county needs to understand not only what records we have, but the sensitivity of the data contained in those records and the proper retention for those records.

By understanding the sensitivity of data in County records, departments will understand what data is public, business sensitive, confidential (PCI and PII), or confidential requiring special handling (HIPAA, PHI, CJIS). By knowing what type of data we have and where it is, we are able to more closely align with industry and federal laws and regulations as well as meet security and disaster recovery standards and guidelines.

In addition to understanding the sensitivity of data contained in County records, this inventory will also identify county records and how they align with state retention requirements. This will provide clarity to records specialist around the county as well as frontline county staff. Additionally, this will enable the IT department to continue to build out automated retention solutions within our Records Management Systems (OpenText and SharePoint).

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Parcel Management

**Package ID #:** 299

**Category:**

**Description:** During the COVID-19 pandemic, CARES funding was used to provide temporary security at the loading dock in the Admin East building. This security staffing allowed parcel carriers (UPS, DHL, FedEx Ground, FedEx Express, etc.) to have a point of contact to coordinate with the mail room and to escort carriers to different locations for package deliveries. With the end of CARES funding, there is no longer a point of contact for parcel carriers to coordinate deliveries. This additional 0.5 FTE would fill that role as well as other mail handling responsibilities. This package also includes funding for procurement of a parcel locker solution that would provide automated and secure storage, notification, and retrieval of packages delivered to Snohomish County campus.

**Justification:** After funding ended for security staffing at the loading docks, mail carriers did not have a point of contact for deliveries or escorts. Some drivers will come to the mailroom because they are familiar with staff and drop off packages with the staff at the mailroom. Because mailroom staff handle USPS and letter mail as well as manage printshop responsibilities, they are unable to dedicate time to parcel carriers as they arrive which causes delays with package deliveries as well as other printshop orders. Some carriers have started to leave packages on the loading docks and have forged mailroom staff signatures in order to avoid delivering to different campus locations.

With the addition of a 0.5 FTE mailroom assistant, this person would coordinate with parcel deliveries and work with carriers to identify packages and their intended recipients and coordinate with departments on pickup. As we are pursuing a parcel locker solution, this person would manage the day-to-day loading of the lockers and notifications that are generated from it. Other duties for this FTE would extend to other mailroom operations surrounding mail receipt and delivery.

Over the past 2.5 years, it has become increasingly difficult to receive and deliver packages through campus for several different reasons: the COVID-19 pandemic has caused changes in procedures of mail carriers as well as departmental procedures for receiving deliveries; the new courthouse requires additional screening and is unable to properly scan and vet the volume of packages that are delivered; and with the county-wide shift to telework, the reduction in onsite staff to receive packages has caused some deliveries to sit for several days causing delays in delivery.

The automated parcel locker solution would allow for mail carriers to deliver directly to the dedicated locker room area and scan in packages to store in the lockers. Once these packages are scanned into the system, contacts throughout the county will get automated notifications about the arrival of their package as well as instructions for retrieval. This will allow staff from across the campus to retrieve packages when convenient and with little-to-no in-person interaction. The solution is fully automated and carrier agnostic meaning that several companies can use the lockers such as USPS, UPS, DHL, FedEx, and more.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** AFSCME RECLASSIFICATION

**Package ID #:** 301

**Category:**

**Description:** District Court requests funding to reclassify our Accounting Specialist position to an Administrative Specialist position to align the position with the current responsibilities and job tasks performed by the incumbent.  
Executive Recommendation - wait for classification & compensation study results.

**Justification:** Currently, District Court's Accounting Specialist salary is pay grade 312 with a salary range of \$54,306 at step 1, to \$66,080 at step 5. AFSCME, Local 1811 CA, requested reclassification of the position. The District Court agrees the Accounting Specialist position should be reclassified. The Accounting Specialist position description does not accurately describe the duties required of this position which are currently performed by the incumbent. District Court requests that the Accounting Specialist position be reclassified to an Administrative Specialist, pay grade 238, with a salary range of \$63,875.52 to \$77,621.04. The Administrative Specialist position description includes all of the duties currently performed by the incumbent, unlike the Accounting Specialist position description.

The Accounting Specialist position duties in the position description revolve around payroll tasks, accounts receivable, and accounts payable. Unlike the Accounting Specialist position description, the Administrative Specialist position description includes developing and maintaining computerized financial management systems, assisting with equipment procurement, developing and implementing strategies for a paperless initiative, preparing documentation for budget transfers (JV) and for supplementary budget requests, assisting with county personnel practices and procedures (HR assistance), training employees for new software implementation, maintaining equipment inventory lists, developing forms and templates, planning and carrying out events, and serving as an efficiency and lien expert for programs and operations. Our current Accounting Specialist performs the majority of these tasks and will need to perform the remainder in 2022 as District Court advances its technology and becomes paperless in early 2023.

District Court's current Accounting Specialist position description is not in alignment with modern position descriptions for public employees. Further, it is not in alignment with the classification or pay plans of District Court's other administrative positions that are classified in the 200 series, namely the Public Disclosure Administrative Specialist (pay grade 238), the Network Administrator (pay grade 240), and the Administrative Analyst (pay grade 241). The duties of our current Accounting Specialist are administrative in nature, not clerical in nature. The duties are completely unlike those of our Legal Process Assistant IIs who were recently reclassified in the clerical pay scale to pay grade 312.

Our Accounting Specialist position is a critical position. If the incumbent vacated the position today and District Court needed to fill the position, we could not utilize the current Accounting Specialist position description to recruit and hire an individual to perform all of the necessary and required duties of the position. This is because our Accounting Specialist performs many duties outside her position description.

District Court understands that the County may desire to keep all employees who perform payroll in the same position description. However, the County has many different departments and two courts. The departments and courts are different sizes and perform different functions. The duties that one large department or court may require of their employee(s) who perform payroll, will not necessarily align with the duties required of that position in a much smaller and different department or court. In the case of District Court, we need our Accounting Specialist to perform far more duties than those enumerated in the Accounting Specialist position description because we have only four administrative positions and our staff wear many hats. Currently, we are

paying our Accounting Specialist out-of-class as an Administrative Specialist, pay grade 238, because her duties exceed the Accounting Specialist position description and align with those set forth in the Administrative Specialist position description.

Based on the needs of District Court and the demands of the position, the Administrative Specialist position description accurately includes the duties required of the payroll position in District Court. Further, it better aligns with District Court's other administrative positions. We respectfully request that the Accounting Specialist position, pay grade 312, be reclassified to an Administrative Specialist position, pay grade 238. The incumbent is at step 5 of pay grade 312 (\$66,080 annual), and would move to step four of pay grade 238 in January 2023, and step five of pay grade 238 in May, 2023 for a 2023 annual salary of \$76,361. The cost of this reclassification is \$12,181 including salary and benefits. District Court will provide the calculation for this reclassification upon request.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - Records Librarian FTE

**Package ID #:** 305

**Category:**

**Description:** This package request is for a new Records Specialist FTE in the Administrative Operations (AO) Division.

Public Works is required by statute to maintain official records documenting the County's infrastructure and changes made to it. Most of these records are in paper format, aging, and stored in numerous locations. The official records which are in electronic format are stored in multiple network locations and are often duplicated. Very few of these records are consistently named or catalogued. As a result, it is increasingly difficult to locate, protect, and store over one hundred years' (and counting) worth of records generated by five different divisions. Yet these are records that the County is obligated to keep. A Records Specialist specifically and singularly dedicated to the management of these official records is required to ensure that these important records are protected but accessible to everyone.

**Justification:** A Records Specialist is needed to act in a "librarian" role to identify and inventory official records, from which a transparent and consistent storage and retrieval system can be developed. The five individual Public Works divisions do not have adequate resources and expertise to achieve these stated goals. Significant coordination and oversight will be required to identify, digitize, catalog, protect, store and access. These asks which are more achievable through a dedicated records management specialist as opposed to tasking disparate staff who have other specialties and job responsibilities. By providing leadership in this effort, it will assist staff across the department to manage and organize department records more efficiently and strategically.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 18 Facilities Management

**Short Name:** 2023-2028 CIP\_Facilities Projects & Manager

**Package ID #:** 307

**Category:** Campus Enhancements/Other Buildings

**Description:** A comprehensive study of the condition of County buildings was conducted by MENG Analysis in 2015. This priority package is consistent with the report's recommendations. It may include proposals not included in the report but is necessary to address life safety and other issues to maintain the viability of County facilities.

The recommendation was to fund building related major repairs and maintenance at \$10 million a year. At this time, this is not possible because of the County's financial condition. To fund the selected proposals a surcharge is collected from departments on an annual basis. For 2023 the proposed allocation remains \$1,800,000.

Beginning 2023 SubFund 322 will no longer be utilized, and instead SubFund 329 will start being used to appropriate revenue and expense for CIP projects.

**Justification:** We recommend these projects for the 2023 budget:

**PROJECT MANAGER \$200,000**

Annual allowance for the personnel cost of a Capital Projects Manager (project position) and related overhead costs.

**ADMIN WEST ROOF REPLACEMENT \$200,000 (\$890,000 to date: \$400,000 in 2022, \$400,000 in 2020, and \$90,000 in 2017)**

The roof is comprised of a concrete slab on a metal deck on steel beams, steel/concrete columns, that was installed in 1971. The lower area roof is newer modified bitumen. The upper roof is older material showing deterioration. Some rust is showing on the roof projections. Solar panels were added that will need to be removed to replace the roof. The roofing is beginning to fail and areas have been damaged by wind, leaking into the stairwell, restrooms and the areas below. The 50 year old roof has seen its day and served us well. This replacement will alleviate the leaks we've been battling and mitigate any further damage.

**PARKING GARAGE ELEVATOR ENGINEERING STUDY \$250,000**

This study is to determine root cause of possible threats to structural components in the lower level elevator lobby area of the RJD building. The study is needed to ensure that the building structures have the appropriate structure in place to withstand all the weight, weather, and other stressors that are placed on it and also ensure that there are no aggressive factors threatening structural components. Repetitive maintenance items indicate that additional investigation and review of the elevator shaft walls is needed in order to protect critical equipment.

**REPLACE KITCHEN EQUIPMENT \$100,000 (\$450,000 to date: \$350,000 in 2022 and \$100,000 in 2019)**

This is an annual allotment for jail kitchen equipment, which is used and cleaned by inmate workers under the direction of the kitchen contractor. The equipment is used to prepare 3 meals per day every day of the year and sustains heavy wear and tear. These funds support replacement of commercial correction security grade ovens, cookers, carts, chillers and dishwashers to support inmate and staff meals when they can no longer be repaired. This is a supplemental budget in addition to the \$50,000 allowance in Fund 316.

**COURTHOUSE ELEVATOR MCE CONTROL REPLACEMENT \$75,000**

The existing 5 story traction elevator was installed some time ago and received a modernization upgrade during

**Category:** Campus Enhancements/Other Buildings

the Courthouse project, however, the motion control engineering (MCE) elevator controller was not replaced. There are multiple failure points on the relays, capacitors, resistors and other electrical components within the elevator system that have reached their life cycle and need to be upgraded.

WALL JAIL UPDATE FIRE ALARM PANEL AND WIRING \$725,000

The current fire alarm system is past its useful life. This project would install all new equipment and devices required to replace the fire alarm system and remove old components and wiring not being used for the operation of the new fire alarm system. This will upgrade the system to a modern fully-addressable system per County standards. The system will be installed to NFPA 72 fire regulations.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 18 Facilities Management

**Short Name:** Position Reclass/EE Upgrade - Facilities Mgmt Adm

**Package ID #:** 309

**Category:**

**Description:** This package covers the proposed reclassification of two positions as submitted to Human Resources for consideration in the 2023 budget. These positions are in the Administrative Services unit of our Facilities Management Division.

Justification documents have been submitted to Human Resources, and HR is currently reviewing these proposals. This priority package is created to ensure that there is sufficient appropriations in the 2023 budget to authorize the fiscal impacts of the reclasses in the event that HR and the Executive support the change in pay for these positions.

In summary, this priority package includes the reclassification request for these 2 positions:

1.00 FTE - Accounting Technician II to Accounting Specialist (From Paygrade 310 to 312) - dept withdrew request at this time

1.00 FTE - Facilities Project Leader to Projects Advisor (From Paygrade 242 to 245) - not included in Exec Rec budget pending class/comp study

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks Ranger Project Positions

**Package ID #:** 311

**Category:**

**Description:** This package re-establishes three project positions that are provided in partnership with other County Divisions and Departments, and which were zeroed out in the Position Allocation Base. These positions are important for providing efficient, quality services and are all supported by revenue from those other Divisions and Departments. Revenues to support these positions are included in 680 base revenue as Interfund Services.

This package supports County priorities to meet the needs of County residents efficiently and with excellent service.

**Justification:** The following project positions are fully revenue supported and are noted as vacant due to vacancies within the Ranger group but staffing is currently available to meet the needs addressed by this package:

NEW0902P/CNR7281P - Vacant - Park Ranger - 1.0 FTE Solid Waste - Flow Control (Program in place since 2017)

NEW0903P/CNR7282P - Vacant - Park Ranger - 1.0 FTE Solid Waste - Flow Control (Program in place since 2017)

Continued Snohomish County Solid Waste funding of two (2.0 FTE) Park Ranger Project positions to investigate and enforce violations of the law regarding solid waste "Flow Control" – illegal hulk haulers, or fake recyclers that haul garbage out of Snohomish County, circumventing tip fees and costing Snohomish County lost revenue. This program began in June of 2017 and has been successful in reducing violators.

The Parks Division and Public Works have agreed to continue this arrangement and this package reflects this intent. The 2023 Budget includes Salary/Benefits, uniforms supplies and phone. All other operating costs will be covered directly by PW/Solid Waste Division. The interfund transfer has been budgeted to offset expenses.

NEW0904P/CNR7234P - Vacant - Park Ranger - 1.0 FTE Narbeck Sanctuary (Program in place since 2013)

Continued Snohomish County Airport funding of one .75 FTE Park Ranger Project position to provide operational management for the Narbeck Wetlands Sanctuary, which included the cost of .75 FTE Park Ranger and uniform; (other .25 is base General Fund approved) a support vehicle and supplies are paid directly by the Airport. Since this position was established in 2013 it has been reviewed every two years to determine the continuation of the program and extension of the position. The Airport has approved to extend the program through December 31, 2023.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR - Parks Trail Stewardship

**Package ID #:** 312

**Category:**

**Description:** Soft surface trails are often viewed as organically emerging and requiring little design, oversight or maintenance. Trails however are consistently identified as one of the most valued amenities that Parks offers and recent experience with Lord Hill has shown that issues can arise when trails are not thoughtfully designed and, more importantly, not maintained or monitored for appropriate use and rogue construction. Lord Hill is not the only site where this concern is an issue however. Soft surface trails are provided at approximately 40 park sites and significant trail concerns have been identified at Southwest County Park, Paradise Valley and others. Additional soft surface trails will continue to come online, including those aimed at serving the rapidly growing mountain biking community, and the need for a dedicated trail crew will help improve provision of this valued amenity and reduce future issues.

This package proposes two FTEs to focus on soft-surface trail amenities in order to monitor and remove rogue construction, maintain trail vegetation to preserve appropriate trail width for the intended use, maintain trail tread to reduce erosion issues, reconstruct sections of trails that pose safety risks or impact sensitive areas, maintain wayfinding signage, remove safety concerns such as hazard trees and work with volunteer groups to further trail improvements and community ownership of their trails. This crew will specialize in trail construction and maintenance standards and regulations and will also be able to complete small scale trail construction projects.

This proposal addresses County priorities of providing quality recreation services, being good stewards of our natural spaces by ensuring trails do not negatively impact natural areas and also enhancing public safety by monitoring and addressing hazards (including trees). Further, trails are an accessible recreation activity, in that most anyone can participate without needing to invest in specialized equipment. As an amenity, trails serve a wide diversity of users and can be enjoyed regardless of income, age and ability, with a range of opportunities to match physical abilities.

**Justification:** Snohomish County currently has approximately 50 miles of soft surface trails and 58 miles of Regional Trails spread over approximately 40 park sites. Current maintenance includes side arm mowing of the Regional Trails and clearing/removal of hazards on natural trails, primarily when an issue is reported by a user. Ranger staff monitor trail conditions as they are able and often work with volunteers to complete trail maintenance tasks. This approach has kept current trails open, but significant deferred maintenance has accumulated (eroding trails, narrowing tread, loss of surfacing, etc.) and staff has not been able to keep up with rogue trails and various unauthorized construction such as bike jumps, pump tracks, etc.

Dedicated staff will be focused on addressing safety issues (trail crossings, unauthorized jumps, hazard trees, etc.), correcting natural resource impact areas (e.g. rerouting trails that are impacting wetlands), improving wayfinding and maintaining trails for the designated use. This work will improve park user experiences by improving safety, reducing conflicts between users, protecting natural areas and making navigation easier. This crew will also be able to complete small trail construction projects, which will result in construction cost savings.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste FTE Additions

**Package ID #:** 313

**Category:**

**Description:** This package contains a request for three (3) additional FTE positions to the Solid Waste Division (SWD) in the 2023 budget.

These positions deliver indirect service to customers by providing vital administrative and planning support services.

- 1 - Administrative Specialist
- 2 - Project Specialist IV

**Justification:** In 2009, the Solid Waste Division reduced its total workforce by 40 FTEs, or approximately 25% of the workforce, in response to the economic recession and corresponding reduction in MSW tonnage (approximately 22%). Since 2010, four (4) non-Operations vacant positions have been reclassified to Operations positions to delay requests for new positions. Due to the age of facilities, additional legislation and rulemaking, and a complex set of leave requirements, the SWD realizes it is currently understaffed in its Planning and Administration programs.

The requested three (3) new positions are a 1.9% increase to the current 157 FTEs in the SWD. The Division's tip fees and total revenue are adequate to cover the additional staff expenditures.

Additional justification by classification follows:

Administrative Specialist: One (1) Administrative Specialist is required to manage the growing set of requirements for employee leave within the SWD. Currently, these duties are assigned to multiple employees, and the SWD does not have an assigned person who is a specialist in this field. This position is similar to one in Road Maintenance, where a single person is in charge of managing leave cases. Duties include working with the employee, medical providers, Risk Management, PWHR, and CHR to ensure all rules are followed and time is properly documented in the timekeeping system.

Project Specialist IV: Two (2) Project Specialist IVs are required to support the SWD comp plan. Duties for these positions will include but are not limited to:

- Manage projects required to maintain existing facilities and infrastructure
- Plan for future growth
- Implement climate change initiatives
- Implement robust recycling initiatives
- Work on EPR legislation
- Create, monitor, and recommend changes to the SWD budget
- Procure grants to support SWD programs and projects
- Develop beneficial use projects for closed landfills

As stated above, these positions previously existed in the SWD, but were reclassified to Operations positions to defer requests for new positions. If these positions are not budgeted, many of the above mentioned programs will be difficult if not impossible to carry out with the existing level of FTEs in the Planning Program. It is anticipated that these positions will increase the procurement of grants, thereby offsetting a portion if not all of the increased salary expense.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 05 Planning

**Short Name:** PDS Interfund Transfer for General Public Assist

**Package ID #:** 314

**Category:**

**Description:** Request General Fund transfer for general public assistance historically covered by permit fees.

**Justification:** PDS is requesting a General Fund transfer to Permitting Fund 193 (via the interfund transfer process) for general public assistance historically covered by permit fees. PDS's permitting revenue has been covering the staff time spent on general public assistance. Some jurisdictions receive a general fund contribution to help cover this work, but PDS historically has not. In order to keep PDS fiscally sound well into the future, we ask that the county consider General Fund support equivalent to the cost of 2 FTEs to provide general public support.

The time spent by PDS staff on general public assistance is significant. Permit fee revenue bears the burden of the the following tasks:

(1) Responding to inquiries from the public via the phone, email, online "Ask Permit Tech" submissions, and in-person. The types of inquiries fall into two main categories: those related to permitting but which do not result in permit revenue, and those completely not related to permitting. The public has a lot of questions about the permitting process, building codes, land use, parcel/zoning information, etc., all of which do not result in permit revenue. PDS also gets questions not related to permitting on topics such as recorded documents, public works, county records, fire-related complaints and questions, Assessor's use designations on properties, tax exemptions, the comprehensive plan/GMA, docketing, water/sewer, Transfer of Development Rights, code enforcement, status of developments that have been constructed and occupied for decades, properties not in the unincorporated areas, annexations, business licenses, and the Snohomish Health District (wells, septic, as-built, etc.). PDS estimates that the time of approximately two to three FTEs are spent merely helping the public and answering general questions, interactions which do not directly result in permit revenue.

(2) Responding to public records requests for not only permitting records but all kinds of other county records, such as requests coming into other departments and the County Public Records Office for which PDS has to search, vote and produce general records if applicable. These can be related to litigation, email searches, accounting records, personnel, etc.

While these tasks noted above are considered "related" to permitting functions, and legally permissible to be funded out of permit fees, they put a large pressure on PDS's budget. Over time, as the county's share of the housing market declines (due to city annexations, GMA policies, the shift in the housing market, and a shortage of buildable land in the unincorporated areas); general assistance becomes a larger percentage of overall staff time than in past years. In addition, maintaining permitting records for the public's use is a considerable task and requires significant resources.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 18 Facilities Management

**Short Name:** Fund 316\_Annual Contribution

**Package ID #:** 315

**Category:**

**Description:** Fund 316 was recreated in the 2019 budget to gather annual fund contributions with the objective to gather sufficient funds in the future to replace specialized equipment in various general fund departments.

An initial contribution of \$50,000\* and \$24,000 were budgeted in 2019 for Sheriff - Corrections and Medical Examiner, respectively and is already included in base revenue.

In the 2020 budget, funding for DJJC and Sheriff Gun Range was added to this fund as these entities also have needs to replace specialized equipment in the future,

This is the priority package to continue the contribution as follows (in 2022): DJJC at \$50K, Gun Range at \$15K, Corrections at \$100K, and ME at \$24K)

**Justification:**

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 18 Facilities Management

**Short Name:** Facilities Position Change from Project to Regular

**Package ID #:** 316

**Category:**

**Description:** This package covers the proposed change of a project position that was approved for 2022 to a regular position. The Business Technology Analyst project position has proven to be an important asset to the department, and we recommend making this a regular position.

**Justification:** The 2022 Snohomish County annual budget was approved by the Snohomish County Council with Ordinance # 21-093 on November, 9, 2021. The 1.00 project position Business Technology Analyst was included in that ordinance, to commence on January 1, 2022 and end on September 30, 2023. The incumbent has proven this position to be mission critical, and it is heavily relied upon by staff as a daily resource.

We are requesting that position FAC7478P become permanent starting 2023.

Exec Recommended budget continues the project position for 3 more months to 12/31/2023.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 18 Facilities Management

**Short Name:** New Positions/Reclasses - Facilities Maintenance

**Package ID #:** 317

**Category:**

**Description:** This package covers the proposed reclassification of two positions as submitted to Human Resources for consideration in the 2023 budget. These positions are in the Maintenance unit of our Facilities Management Division.

Justification documents have been submitted to Human Resources, and HR is currently reviewing these proposals. This priority package is created to ensure that there is sufficient appropriations in the 2023 budget to authorize the fiscal impacts of the reclasses in the event that HR and the Executive support the change in pay for these positions.

In summary, this priority package includes the following new position/position reclassification requests:

- 1.00 FTE- New/Projects Advisor-Sustainability and Energy (Paygrade 245/NEW1808R)
- 2.00 FTE- Reclass two Facility Technician II positions (Paygrade 234) to Facility Technician IV positions (Paygrade 239)  
(FAC2630R, FAC2631R).
- 1.00 FTE- Reclass Facility Capital Project Specialist (Paygrade 238) to Building Systems Engineer (Paygrade 243) (FAC2744R)
- 1.00 FTE- Reclass Facility Supervisor II (Paygrade 245) to Facilities Manager (Paygrade 111) (FAC2570R)
- 1.00 FTE- Reclass Facilities Technician III (Paygrade 236) to Facilities Technician IV (Paygrade 239) (FAC2629R)
- 1.00 FTE- Downgrade Facility Operations Planner (Paygrade 240/Position # FAC2628R) to Facilities Management Services Coordinator  
(Paygrade 311/Position # NEW1805R, Administrator Coordinator title is a placeholder until BDT is updated).

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Reclass for Represented Employees

**Package ID #:** 318

**Category:**

**Description:** This expenditure is in response to the represented employees' requests for reclassification of four positions, affecting eight employees, within the Treasurer's Office. This request affects the alignment of two other positions within the department's customer service department. Therefore, the Treasurer's office is proposing a change two additional classifications for a total of 8 positions.

The management's position is that the reclassification request made by the bargaining unit is defensible and credible. They requested a two step increase for each position. The Treasurer's office responded to the bargaining unit request with a one step increase instead of two and added more specific duties to each job description. This process has a distinct advantage over the compensation and classification study because management was able to add additional job duties to job descriptions that benefited the organizational goals for the Treasurer. The bargaining unit endorsed the management's counter proposal. This reclassification process used the current method stated in the county's policy and is under review by the Human Resources Department. It is the intent to use budgeted 2022 surplus to fund retro pay portion of \$81,000. The subsequent positions will be affected:

1. Payment Processing Specialist from a 308 to a 309
2. Property Account Technician from a 308 to a 309
3. Treasurer Tax Specialist from a 312 to a 313
4. Tax Collection Specialist from a 312 to a 313
5. Excise Tax Specialist from a 309 to a 310
6. Excise Tax Specialist Lead from a 313 to 314

Exec Rec: reclasses not included pending class/comp study.  
3 vacant positions updated to actual hired level for new hires.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Reclass for Nonrepresented Employees

**Package ID #:** 319

**Category:**

**Description:** This expenditure request represents the attempt to fill a significant deficit in salary for two positions, Tax Collection Systems Supervisor which is a management exempt position and Administrative Assistant which is a fully exempt position. Both positions have a significant job requirement that do not match salary. The Treasurer's office understands that an evaluation is undergoing with the compensation and classification study. Indicative of this study, it is imperative that these positions receive an increase in base salary to keep up with market rate for these positions including the requirements for basic functions, the essential job duties, and the educational and skills required for these positions.

Specifically with the administrative assistant position, included in the job reclassification request, the Treasurer's office is requesting a job title change from Administrative Assistant to Executive Assistant. The job duties and responsibilities of this fully exempt position compares and parallels the responsibilities and duties of an Executive Assistant that works for other department heads or the Executive's office. Specifically, with the Tax Collection Systems Supervisor position, this position has distinct characteristics. It requires a high level of proficiency and accuracy, it is responsible for two more professional and legal fields, and implementing solutions to complex problems affecting taxpayer's unique situations.

Job reclassification proposals have been submitted to the Human Resources Department for review. The step increases requested are as follows:

1. Tax Collection Systems Supervisor from a 242 to a 243
2. Administrative Assistant - Treasurer from a 107 to a 108

Exec Rec: reclasses not included pending class/comp study

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Cash Management Application

**Package ID #:** 320

**Category:**

**Description:** As a core function of the Treasurer's office, liquid assets are used to generate revenue for the benefit of the County's general fund. A cash management software system will increase the revenue generated by the County's cash reserve. This tool will enhance the Treasurer's office ability to improve the use of liquid and non-liquid assets. The goal is to advance and maintain cash inventory levels to a minimum, investing surplus cash, and planning for capital expenditure.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS ProVal/Ascend Replacement

**Package ID #:** 322

**Category:**

**Description:** This expenditure is required to implement the new tax parcel management software. Revenue from bond proceeds will interfund to cover the required expenditure. This expenditure will fund a temporarily project position and overtime costs for current employees. Currently, the FTE portion of the project budget has not been used at the funded level. Now that the implementation process is increasing in its scope, the use of the pre-funded resources is needed. Additionally, this request will include a training component specific to the Aumentum software.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 / Parks 411 - Shared Supervisor FTE

**Package ID #:** 324

**Category:**

**Description:** This priority package reallocates the FTE of a PW Supervisor II serving as the Shared Services Supervisor for DCNR. The FTE will be split 0.5 to Parks and 0.5 to SWM.

**Justification:** As part of the creation of the Department of Conservation and Natural Resources, a Shared Services group was formed within the department. Multiple positions were allocated to this group during the 2022 budget planning. Later in 2022, an existing vacant SWM position was reclassified and converted to a Shared Services Supervisor role. This position oversees staff across the department and the salary is paid jointly by Parks and SWM. This package formalizes the shared costs of 0.5FTE by Parks and 0.5FTE by SWM.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 Senior Planner - Project Position

**Package ID #:** 326

**Category:**

**Description:** This priority package requests one Senior Planner in SWM to support the increased work for the Community Floodplain Solutions program.

Total labor charges of \$110K will be fully covered by grant funding.

**Justification:** A Senior Planner project staff position is needed for the Community Floodplains Solutions (CFS) Program and specifically the Floodplains by Design (FbD) grant(s) project.

SWM has been very successful at working with partners to secure several Washington State Department of Ecology-FbD grants, and is anticipating receiving another grant award in 2023. SWM received \$4.8M for Phase I in 2019, \$8.5M for Phase II in 2021, and is expecting a \$9.9M grant award in 2023, although this could also be significantly increased to as much as \$17.7M for Phase III.

SWM has been supporting this grant work with 1 FTE Project Specialist IV position. The need for additional staffing support has grown since the first grant award in 2019. The FbD grant planning and project design work has largely been completed in Phase I/II. The new 2023 Phase III FbD grant will focus on implementing projects. The Senior Planner position will support the FbD grant project with contract and consultant management, acquisition coordination and implementation, community outreach efforts, and grant reporting and management.

The position will be fully funded by the FbD grant(s) for 3 years from 2023 through 2025 (FbD Phase II-WO277 and new 2023 Phase III FbD WOXXX). The grant work is expected to continue through 2027 with a possible extension until 2029.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Reimbursable Program Adjustments

**Package ID #:** 327

**Category:**

**Description:** This priority package reflects adjustments to the Surface Water Management Division Reimbursable Program (Program 514).

**Justification:** REIMBURSABLE PROGRAM (Program 514) – The 2023 budget request is a decrease of 8% compared to the 2022 approved budget. The Reimbursable program provides surface water-related analysis, design, and technical assistance services as requested and funded by other divisions and departments.

Change from Proforma Budget

Decrease to the Reimbursable Program reflects movement of approximately \$20K in SWM salaries and benefits from SWM's Reimbursable Program to SWM's Drainage Capital Program.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR 309 Fund Tier 2 Wish List

**Package ID #:** 330

**Category:**

**Description:** TIER 2 PROJECTS

The following potential projects are from multiple programs (trails, community parks, regional parks, special use, support, and open space/preserve). Each of the Tier 2 projects have been identified as a suitable project for meeting the goals of Snohomish County and Parks or are important for ongoing maintenance. Finding for these projects exceeds what is available so they have been included for consideration as “Tier 2”.

Snohomish County's Park Improvement Plan for Tier 2 consists of the following projects:

**WHITEHORSE TRAIL BRIDGE ANTI-SLIP STRIPS:** This project will include the purchase of anti-slip strips that will be installed by parks staff on all bridges along the Whitehorse Trail. The wood surfacing on the bridges is slippery and the anti-slip strip is a safety measure to prevent pedestrians and bicyclists from slipping and/or injury. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$190,000 (REET 2)

Future Years: 2024 - \$100,000 (REET 2), 2025 - \$200,000 (REET 2), 2026 - \$200,000 (REET 2), 2027 - \$200,000 (REET 2), and 2028 - \$200,000 (REET 2),

Project Start/End Date: 2023 - ongoing

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

**FORSGREN PLAYGROUND – UNITARY SURFACING:** This funding will be added to the Forsgren Playground Renovation project listed above and it will allow for the installation of unitary safety surfacing (ex: poured-in-place rubber, rubber tiles, or playground grass). Unitary safety surfacing will reduce the requirement for ongoing maintenance of wood chip surfacing, which needs to be regularly maintained and regularly added. Unitary surfacing is a key element in playgrounds that are inclusive for people of all ages and abilities to play as it is far easier for people who use wheelchairs, or have other mobility disabilities, to move around on than wood chip surfacing. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$200,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

**SLIP RESISTANT BOARDWALKS:** This project will allow for installation of anti-slip strips on boardwalks throughout the park system including the boardwalks at North Creek Park, Spencers Island, Tambark, and

**Category:**

Martha Lake. The funding would allow for one park to be completed each year. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$200,000 (REET 2)

Future Years: 2024 - \$200,000 (REET 2), 2025 - \$200,000 (REET 2), 2026 - \$200,000 (REET 2), 2027 - \$200,000 (REET 2), and 2028 - \$200,000 (REET 2)

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

NORTH CREEK BOARDWALK IMPROVEMENTS: This project includes improvements to the existing boardwalk such as wooden board replacements and new floats for the floating dock. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

LAKE ROESIGER – CAMPGROUND SHELTER: This project will add a new picnic shelter with amenities such as picnic tables, fireplace, and grills to the Lake Roesiger Campground. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

CENTENNIAL TRAIL – PAVING OVER GRAVEL PARKING LOTS: The current parking lots along the Centennial Trail are gravel which requires a lot of additional on-going maintenance activities and time. This project will allow for paving the existing parking lots with asphalt over the existing gravel. The parking lots are in the county area: Pilchuck, Mechias, 20th Street Lake Stevens, HWY 92 near Lake Stevens. This will allow for one parking lot to be paved per year with asphalt. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR 309 Fund Tier 2 Wish List

**Package ID #:** 330

**Category:**

Future Years: 2024 - \$75,000 (REET 2), 2025 - \$75,000 (REET 2), 2026 - \$75,000 (REET 2), 2027 - \$75,000 (REET 2), and 2028 - \$75,000 (REET 2)

Project Start/End Date: 2023/2028

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

MARTHA LAKE AIRPORT PICKLEBALL COURTS: Community interest is growing for Pickleball and it is becoming a very popular sport throughout the region for park users of all ages. This project will begin with design and community outreach to plan a new 6-8 court pickleball area at Martha Lake Airport Park and would be constructed beginning in 2024. This project may also be a good candidate for additional grant funds in the 2024 RCO grant cycle. The space can be used for regular play and also competitions which would have a regional draw. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$1,000,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

KAYAK POINT GOLF COURSE – CLUB HOUSE ABATEMENT: This funding will allow for asbestos abatement at the Club House. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$40,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

FLOWING LAKE – DOCK REPLACEMENT: This funding will allow for the removal of the existing, aged dock and replacement with a new dock. This project may also be a good candidate for additional grant funds in the 2024 RCO grant cycle. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$1,000,000 (REET 2 and anticipated grant)

Project Start/End Date: 2025/2026

---

**Package ID #:** 330

**Category:**

Project Status: Project pending funding availability.  
Changes Since the 2022 Budget: New project.

FLOWING LAKE – MOUNTAIN BIKING PARK: This funding will allow for the planning and construction of a Mountain Biking Park at Flowing Lake or another park yet to be identified. Funding is proposed as follows:

Prior Year Balance: \$0  
2023: \$0  
Future Years: 2026 - \$1,000,000 (REET 2)

Project Start/End Date: 2025/2026  
Project Status: Project pending funding availability.  
Changes Since the 2022 Budget: New project.

SKY VALLEY SPORTSMANS PARK DEVELOPMENT: This funding will be utilized for consultant services to plan the Sportsman's Park Development. The estimate for full buildout is \$50 million. Funding is proposed as follows:

Prior Year Balance: \$0  
2023: \$500,000 (REET 2)  
Future Years: \$0

Project Start/End Date: 2023/2024  
Project Status: Project pending funding availability.  
Changes Since the 2022 Budget: New project.

MOUNTAIN BIKING PARK – FEASIBILITY STUDY: This funding will be for consultant services and site studies for a feasibility study to identify a candidate site for a new Mountain Biking Park which is anticipated to draw strong community support. Funding is proposed as follows:

Prior Year Balance: \$500,000  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2023/2024  
Project Status: Project pending funding availability.  
Changes Since the 2022 Budget: New project.

TWIN RIVERS – CRICKET PITCH: Cricket is a sport that is gaining popularity with youth and adults in our region and Snohomish County Parks has limited cricket fields and cricket pitches. This project would install a new cricket pitch at Twin Rivers Park within the existing grass ballfield. Cricket fields are among the largest sports field and Twin Rivers is an ideal site that is level and will allow for a full cricket field of play. Funding is

proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2024 - \$150,000

Project Start/End Date: 2024/2024

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

PLAYGROUNDS – REPLACE ENGINEERED WOOD FIBER WITH UNITARY SURFACING: This funding allow for the installation of unitary safety surfacing (ex: poured-in-place rubber, rubber tiles, or playground grass) in existing playgrounds that have engineered wood fiber (ie: wood chips) safety surfacing. Unitary safety surfacing will reduce the requirement for ongoing maintenance of wood chip surfacing, which needs to be regularly maintained and regularly added. Unitary surfacing is a key element in playgrounds that are inclusive for people of all ages and abilities to play as it is far easier for people who use wheelchairs, or have other mobility disabilities, to move around on than wood chip surfacing. Funding is divided to allow for one existing playground to be resurfaced each year. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$100,000

Future Years: 2024 - \$100,000 (REET 2), 2025 - \$100,000 (REET 2), 2026 - \$100,000 (REET 2), 2027 - \$100,000 (REET 2), and 2028 - \$100,000 (REET 2)

Project Start/End Date: 2023/2028

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

WHITEHORSE PARK – TRAILHEAD AND PLAN TO CONNECT TRAIL: This funding will allow for the planning, design, and construction of a trailhead and trail connection at Whitehorse Park. Funding is proposed

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 01 Executive

**Short Name:** Economic Development/ Tourism

**Package ID #:** 331

**Category:**

**Description:** This package reflects the changes to the baseline Tourism Funds. Fund 116 Lodging Tax - Local Sub-Fund 001 and County-wide Sub Fund 002, as well as the Tourism Promotion Area Fund 100. These are consistent with the Five Year Plans.

This package also reflects changes to FTEs, as part of the Office of Economic Development

**Justification:** Tourism Promotion Area (TPA) Fund - 100

Expenditures: Base expenditures adjusted to reflect 2023 workplan and 5 Year Plan.

Revenues: Revenues are set to reflect projected fund recovery in the 5 Year Plan. Per the approval of Ordinance # 20-023 amending Title 4, Chapter 118 to increase the Tourism Promotion Area (TPA) lodging charge from \$ 1.00 per night to \$ 2.00 per night. This charge became effective on July 1, 2020 and is reflected in the updated revenues. Estimates for 2022 are based on 93% of 2019 - as we believe that, while the tourism industry is rebounding, COVID19 will continue to have an impact on tourism in 2023.

Small Fund - Local Hotel/Motel Tax - 116-001

Expenditures: Base expenditures adjusted to reflect 2023 workplan and 5 Year Plan.

Revenues: Adjusted based on revenue trends and 5 year plan. Small fund revenues did not see a significant negative impact during COVID - we believe this is due to high demand of camping and short-term rentals during the pandemic.

Large Fund - County-wide Hotel/Motel Tax 116-002

Expenditures:

Tourism Programs: Expenditures dedicated to County Destination Development and Marketing Operations (DDMO) have been adjusted to reflect Large Fund recovery, as outline in the 5 Year Plan. In 2023, the County DDMO will continue to prioritize the following: Use of professional digital marketing and public relations services to promote the destination; staff FTE roles to proactively engage industry leaders; manage DDMO and county Lodging Tax Grant programs; and update the county Strategic Tourism Plan (STP), which sets county tourism goals, outputs. The current STP expire at the end of 2022.

Adjustments for Long Term Commitments:

Lynnwood Convention Center - ILA - Budgeted for \$911,507, but adjustment will be made in 2022 year end reconciliation and deduct what was overpaid for in 2022 so as not to exceed 1/3 of annual receipts per ILA.

Everett Memorial Stadium - Effective in 2022 Everett will receive the same allocation as Lynnwood per ILA \$911,507 (same adj as Lynnwood as outlined above- reflected on 5-year plan).

Edmonds Center for the Arts - Per ILA Edmonds will receive 100k per year for years 2021-2025; after which 100k will be available for PFD application.

Revenues: 2023 revenue projections are set at 95% of pre-COVID revenues. While we are seeing positive recovery trends in the tourism industry, we still believe COVID will impact tourism revenues in 2023. 2023 projections reflect a slight increase from 2022 revenue projection, which were set at 90% of pre-COVID

---

**Department:** 01 Executive

**Short Name:** Economic Development/ Tourism

**Package ID #:** 331

**Category:**

revenues.

**Fund Recovery:**

Actual Large Fund revenues for 2020 and 2021 were measured at 52% and 77% of pre-COVID revenues, respectively. The combination of revenue loss, along with the LTAC's decision to hold long-term commitments and reserve levels in place at the end of 2021, has put significant stress on the Large Fund.

To assist in recovery of the Large Fund, temporary decreases have been made to the line item dedicated to the County DDMO Professional Services, as outlined in the 5 Year Plan. The temporary decrease to County DDMO Professional Services is made possible through alternative funding options through American Rescue Plan Assistance (ARPA) dollars as well as Tourism Promotion Area fund dollars.

Snohomish County Tourism received \$2.1M from the American Rescue Program (ARPA) to support a County-wide recovery marketing campaign. This relief funding must be spent by the end of 2024.

Application to the Tourism Promotion Area Board to support all or a portion of the vendor base tourism marketing and promotions will also be entertained in 2023.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 Position Reclassifications

**Package ID #:** 332

**Category:**

**Description:** This priority package includes contingency funding for three pending position reclassifications, currently undergoing HR review.

Exec-approved reclassification for Office Asst I-SE to GIS Technician. Changes were made to the budget position and funding was removed from the contingency DAC.

The other two reclassifications, Acct Tech II to Acct Tech III & Utility Billing Asst to Financial Systems Coord, are not in the Exec Recommended Budget pending the results of the classification & compensation study that is currently underway.

**Justification:** Three position reclassifications have been requested for 2023. These requests reflect appropriate classifications supporting actual and increased work responsibilities, as well as reflecting changing business needs with the formation of DCNR, dictating a realignment of new and existing tasks with the proper job classifications.

The costs below represent impacts to salaries and estimated benefits of pending reclassifications submitted to the Central Human Resources and pending Executive review.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS Position Reclassifications

**Package ID #:** 333

**Category:**

**Description:** This package accounts for the budget impact of potential position reclassifications within the Human Services Department.

**Justification:** Three reclassification requests have been submitted: The first is a Union-initiated request to reclassify position #HSV5935R, Network Administrator pay grade 240, to Business Applications Analyst - HSD pay grade 242. Management is supportive of this change, as it reflects the work the employee is actually performing (not included in Exec Rec budget). The second is a Management-initiated request to reclassify two Office Assistant II positions (position #HSV5936R and #HSV6094R) pay grade 305, to Case Management Administrative Assistant pay grade 310. Management is supportive of this change, as it reflects the work the employee is actually performing (not included in Exec Rec pending class/comp study). And the third is a Management-initiated request to reclassify position #HSV7935R from Research Manager pay grade 111, to Human Services Division Manager pay grade 112. Management requested and is supportive of this change, which will upgrade this positions classification on par with other HS division managers, with similar spans of control and responsibilities. The potential impact of reclassifying these positions have been allocated to the personnel cost contingency line item of those programs supporting the positions, and the additional cost will be covered by existing revenues from each of the supporting programs. Additional justification in support of these reclasses can be found in the documents submitted to Central Human Resources earlier this year as required per the current Master Agreement with AFSCME.

The following have been submitted by unions for reclassification.

1. Case Manager 237 to 239- Management is not supportive of this reclass. - not included in Exec Rec budget pending class/comp study

2. Comm Svc. Counselors 237 to 239- Management is not supportive of this reclass or spec revision. - not included in Exec Rec budget pending class/comp study

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Public Records - Non CIP

**Package ID #:** 334

**Category:**

**Description:** (See associated package for CIP portion of provided funding - "DCNR Public Records - CIP")

Through the formation of the new Department of Conservation and Natural Resources a number of Transition Teams have been created to review and address specific Department-wide challenges that have been identified and develop recommendations on how to best address the challenges. The issue of handling Public Records Requests (PRRs) became elevated for consideration by a Transition Team when it was identified that Public Works (PW) would no longer be providing this service for Surface Water Management (SWM) after 2022. Currently, PW provides the equivalent of .3 FTE for this service to SWM and there are not staff within SWM who have been trained to complete this work nor have capacity to take this responsibility on.

Within Parks, PRR responsibilities have been primarily handled by the Associate Park Planner, with support by others, accounting to approximately .56 of a full-time position. The amount of time required to process PRRs over the years has grown and this responsibility has interfered with the ability of staff to complete other work. For the Offices of Agriculture and Energy and Sustainability PRR responsibilities have been handled by the Public Records Officer (PRO) and Facilities Department (with support from the PRO) respectively.

The need for a dedicated, DCNR staff person to be the subject matter expert, provide continuity across the department and efficiently process requests was identified as a priority for complying with the Public Records Act of the State of Washington. Further, providing a dedicated staff person will support the County's mission to meet the needs of residents efficiently with quality services. A dedicated staff person will help realize the vision of accessible County government and meets the values of excellent service, efficient government and transparency in our work.

**Justification:** The Public Records Act of the State of Washington requires that all public records maintained by state and local agencies be made available to all members of the public, with very narrow statutory exemptions. Responding to Public Records Requests (PRRs) is a complicated and many times time intensive process that requires trained personnel to comply with State regulations in order to meet the requests and also to avoid potential fines and lawsuits.

Currently public records management for DCNR is completed by four different groups (Parks, PW, Facilities and the Public Records Office), with close to the equivalent of one FTE being dedicated to this work. SWM will be losing support for this task in 2023 and the fractured handling across DCNR has the potential to result in lack of focus on this responsibility, variable handling of requests and inefficiency related to extra coordination. A dedicated staff position will reinforce the importance of complying with the legal requirements related to the act, provide a resource for questions and provide continuity in management of the task.

Funding for this position will be made available by transferring funding that SWM had formally paid to PW for the work, and allocating funding from Parks' and OES' budgets.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR - Parks Training

**Package ID #:** 336

**Category:**

**Description:** This package includes training and certifications that were identified as needed to meet specific Division priorities and also to promote staff retention through provision of growth and learning opportunities. By providing training to existing staff, services can be provided more efficiently through improved delivery of services and by eliminating the need to seek outside resources through contract or other type of agreement. Together this package addresses the County priorities of meeting the needs of residents as efficiently as possible, delivering quality services, being innovative in our approaches, promoting diversity, equity and inclusion and always working to improve stewardship of our natural resources.

Specific training that is included in this package:

Diversity, Equity and Inclusion for all staff - \$20,000

Arborist Certification – \$1,000 total one Ranger and one Planner

Wetland Delineation Training - \$1,500/person - 2 staff

Certified Erosion Control Lead – \$600/person - 2 staff

Crime Prevention Through Environmental Design- \$1,000/person - 2 staff

National Recreation and Park Association Green Stormwater Certificate Program - \$600/person - 2 staff

Certified Playground Safety Inspector Certification (and maintenance equivalent)- \$590/person - 3 staff members

Ranger Academy - \$5,500/person - 2 staff

Supervisor Training – \$1,000 - 7 staff

Law Enforcement Certification - \$4,000 – 1 staff

Property Acquisition Training – \$3,500 – 1 staff

Trail Design - \$3,000 – 1 staff

Ag Forestry Leadership Program (two-year program) - \$10,000 – 1 staff

NRPA Conference - \$2,000 – 1 staff

WASLA Conference - \$450/person – 2 staff

WRPA Conference - \$310/person – 6 staff

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR - Parks Training

**Package ID #:** 336

**Category:**

Cost Estimation Training - \$900/person – 2 staff

GIS Training - \$2,000/person – 2 staff

Construction Specification Institute, Construction Documents Technology Certification - \$550 – 1 staff

Additionally included in this package is an allowance for staff identified training opportunities. This is included to support staff innovation and solution generation in furtherance of the Department's Mission and Vision and also for staff growth. This allowance is set at \$500/person.

**Justification:** The Parks Division has a history of operating extremely leanly, in order to maximize public benefit at minimal cost. This approach has meant that funding for training however has been limited. It is recognized that there are opportunities for increased efficiencies by developing skills within existing staff, which are needed for Division functions, and further that training is valued by staff and can help promote staff retention.

The total cost for this package is \$120,730. The anticipated outcomes are efficiencies in service delivery, increased employee satisfaction and increased retention of staff, saving time in recruiting, hiring and training.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - Administrative Assistant Class Review

**Package ID #:** 337

**Category:**

**Description:** This package requests an updated job description and salary reclassification from a pay grade of 107 to a 109 for the Administrative Assistant (exempt) position.

Executive Review:  
Wait for C/C study.

**Justification:** The original duties for this role were consistent with an administrative assistant, but they've evolved over time, requiring the need for a highly skilled and trusted assistant that now reflects the qualities and skills of an executive level assistant who is assigned to support an elected official.

This position performs executive level assistance directly to the Elected Clerk, Chief Deputy and Management team. The duties include all administrative tasks outlined in the updated job description, including high level meeting preparation (agendas, materials, scheduling of space, etc.) and the ability to exercise good judgment and make decisions within the scope of their assigned authority. A strong degree of confidentiality and discretion is essential in this role as the position will have access to confidential and sensitive documents and decisions made involving the Clerk's Office.

Another significant change in the Administrative Assistant position has been the necessity to assume and become knowledgeable in additional responsibilities surrounding human resource functions such as recruitment, onboarding, separation, benefits, policy changes, FMLA/PFML coordination, and the knowledge and application of state and federal employment laws. These assumed job duties on top of the already extensive list of executive support duties to the Clerk and Chief Deputy, providing payroll/timekeeping and administrative support to staff, accounts payable, and the required knowledge of principles and practices within the law and justice system justifies the need to update the job description. These added duties combined with the unique role of providing support within a complex law and justice department substantiates the need for a salary grade adjustment to the 109 pay scale.

In addition, when comparing similar positions across the county, our Administrative Assistant position is underpaid and classified at a lower rate. In comparison, the Council Administrative Assistant (Spec. 2321), Prosecuting Attorney Administrative Assistant (Spec. 6340) and Superior Court's Superior and Juvenile Administrative Assistants (Spec. 5058) are all classified at the 109 pay grade for the same scope of work.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - Public Disclosure Class Review

**Package ID #:** 338

**Category:**

**Description:** Request for a classification review and salary alignment for Public Disclosure and Systems Specialist position.

Executive Review:  
Wait for C/C study.

**Justification:** The number of public record requests continues to grow and is a significant workload driver for the staff currently in this position. As such, it seems prudent and reasonable to ensure that this position's salary grade is in line with other public disclosure specialist positions within the County.

The following comparable Public Disclosure Specialist positions help support a salary alignment from the 237 pay grade to the 238 pay grade, as the knowledge, skills, and abilities as well as the minimum qualifications are similar or equal.

Current Clerk Public Disclosure and Systems Specialist

Spec No.	Position Title	Pay Grade
6175	Public Disclosure and Systems Specialist	237

Comparable County Public Disclosure Specialist positions (not an inclusive list)

Spec No.	Position Title	Pay Grade
2355	Public Disclosure Administrative Specialist	238
2368	Public Disclosure Administrative Specialist – District Court	
2418	Public Disclosure Administrative Specialist – Human Resources	
2377	Public Disclosure Administrative Specialist – Superior Court

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Capital Program Delivery Staff

**Package ID #:** 339

**Category:** Surface Water Management

**Description:** This priority package requests eight new positions in SWM relating to the ongoing transition of SWM out of the Public Works Department. Technology supplies for each new employee, and four new vehicles will also be required.

**Justification:** The Surface Water Management (SWM) division, formerly in the Public Works Department (PW), has historically paid for annual support services from the divisions of Contract Services, Engineering Services, and Transportation and Environmental Services. This has been approximately \$1M of services funded annually by SWM. Given the increasing workloads and capital project demands within PW, they are no longer able to provide assistance to SWM in several key areas. As a result, there is a need to transfer this work from PW to the DCNR. This priority package requests new FTEs in SWM, and also the necessary technology and vehicles for these positions to perform their required functions. Concurrently, Interfund payments to PW will be reduced.

The work being transferred to SWM includes construction contract administration, real property acquisition assistance, right of entry requests, temporary construction easements, permanent easements, and construction management. All of these support functions are essential for SWM to be able to continue to design and construct capital projects and deliver a capital program in the future. A new supervisor will also be needed in SWM to support these additional staff, for a total of eight new FTEs. The Construction Representative Senior and Engineering Technician V positions will also require dedicated vehicles to perform their work.

Both 2021 and 2022 have been transition years for SWM, with ongoing assessment of service needs within DCNR. In the 2022 budget, three positions were transferred from PW to DCNR to continue the provision of support services that were previously provided by PW, including contracting, human resources, and technology support services. For the 2023 budget, SWM and PW leadership assessed the support provided to SWM by PW for construction management, construction contracting and real property services. Given that PW is no longer able to provide support to SWM in these areas for 2023 and beyond, new staff in SWM were determined to be the most efficient path forward to ensure these essential functions are still performed as required to implement SWM capital projects.

New labor charges will be offset by the reduced Interfund payments to PW. Vehicles and initial technology supplies will be purchased using SWM Fund Balance revenues. Ongoing Expenditures and Revenues for these new staff for 2024-2028 are included in the projections noted in DCNR SWM 415 Capital Improvement Program package 376.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** ADDITIONAL JUDGE & SUPPORT STAFF

**Package ID #:** 341

**Category:**

**Description:** District Court requests funding for one additional judge and one additional LPA II to balance workloads, serve the growing population of Snohomish County, prepare for increased filings, and improve access to justice through virtual hearings and therapeutic courts.

**Justification:** Snohomish County District Court is seeking funding to add an additional judge and an additional LPA II to support that judge. Snohomish County District Court needs to increase the number of judges to nine in order to balance the workloads between divisions, respond to our growing population base, prepare for increased filings, adapt to the increased time needed to provide access with virtual hearings, and to increase capacity for the adoption of additional therapeutic court models.

District Court currently has four divisions in four locations. We have a total of eight judges: three judges at the South Division (Lynnwood), two judges at the Everett Division (Everett), two judges at the Evergreen Division (Monroe) and one judge at the Cascade Division (Arlington). Our commissioner, who is located at the Cascade Division, virtually presides over the jail calendar for Everett cases for half of his time, and presides over Cascade cases for half of his time. We are requesting funding for the addition of a full-time judge at the Cascade Division. Adding a judge at Cascade would allow the court to move the commissioner to the Everett Division to conduct the in-custody District Court calendar, preside over the felony first appearance calendar (currently handled by the Everett Division judges), and assist with the projected increase in civil protection order hearings. With only one full-time judge and a half-time commissioner in the Cascade Division, the workload per judicial officer is significantly higher in the Cascade and Everett Divisions than in the Evergreen or South Divisions. In 2021, Cascade had 11,662 filings and 1.5 judicial officers, for a total of 7,774.67 filings per judicial officer. Everett had 18,513 filings equivalent to 7,405.6 filings per judicial officer when including the District Court PC filings and crediting them with 2.5 judicial officers (the two judges plus the half-time that the commissioner serves on the jail calendar). Evergreen had 11,597 filings and 2 judicial officers, for a total of 5,798.5 filings per judicial officer, and South had 18,813 filings and 3 judicial officers, for a total of 6,271 filings per judicial officer. The disparity can also be seen in the number of civil protection matters handled per judicial officer in 2021: Cascade – 196; Everett – 136.5; Evergreen – 111, and South – 105. The workload in Cascade also appears to be a contributing factor in criminal cases taking longer to resolve than in the other divisions. Adding a full-time judge to the Cascade Division and moving the commissioner to the Everett Division, would provide both the Cascade and Everett Divisions with an additional 0.5 judicial officer, and much needed relief from the workloads both Divisions are currently experiencing, and would provide better access to justice in the communities that those two Divisions serve.

According to data from the Administrative Office of the Courts (AOC), Snohomish County is the second largest district court, by filings, in the state of Washington. Snohomish County District Court currently has the same number of judicial officers as Spokane County District Court despite the fact that Snohomish County had 60,586 filings in 2021, and Spokane County had only 40,503. Snohomish County's population has grown by over 15% since 2010, but no new judicial officers have been added to serve the increased population. Snohomish County has a very high number of residents served per judge authorized under RCW 3.34.010. By means of comparison, King County is authorized to have 26 judges, which is one judge for every 89,463 residents, Pierce County is authorized to have 11 judges, which is one judge per every 85,332 residents, Spokane County is authorized to have eight judges which is one judge per every 68,798 residents, while Snohomish County is only authorized to have eight judges which is one judge for every 106,144 residents.

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** ADDITIONAL JUDGE & SUPPORT STAFF

**Package ID #:** 341

**Category:**

In addition, the District Court needs to add a judge to be prepared for increased filings. According to the prosecutor's office, there are thousands of criminal matters awaiting charging decisions at that office. While we are uncertain as to the number of cases that will be ultimately filed, we need to be prepared to respond to increased criminal filings. Further, much like the Superior Court which just added a sixth commissioner in anticipation of the impact of recent civil protection order legislation, the District Court anticipates those changes will have a significant impact on District Court judicial resources. We need to be ready with the judicial resources to address these matters.

A ninth judge is also needed to help balance the increased judicial time that is used by virtual hearings. Snohomish County District Court has seen an increase in access to the courts by utilizing virtual hearings where appropriate, but a study by the National Center for State Courts shows that virtual hearings utilize about 34% more judicial time.

Finally, with a redistribution of workloads, judicial resources would be freed up to expand therapeutic courts. Therapeutic courts demand a significant amount of judicial time both on and off of the bench to properly plan and administer. The additional judge in Cascade would allow us to move our commissioner to Everett where they could assist with freeing up judicial time to plan, implement and preside over therapeutic courts.

Our request is supported by the Judicial Needs Estimate published by the Administrative Office of the Courts. Snohomish County District Court currently has eight judges and one commissioner. The most recent Judicial Needs Estimate recommends that 9.56 judicial officers are needed. Those numbers are from projected case filings for 2020 based on the previous five years and do not fully take into account the addition of a contract with the City of Arlington in 2020 which has approximately doubled the number of criminal filings in the Cascade Division.

Snohomish County District Court has the space to add an additional judge in the Cascade Division. The commissioner, currently located at Cascade, would move to the Everett Division, and conduct both morning and afternoon in-custody hearings, in courtroom 3C. Moving the commissioner from Cascade to Everett, will also mean that one jail clerk position will move from Cascade to Everett. District Court requests funding for one additional clerk at the Cascade Division to support the work of the additional judge.

Snohomish County District Court has requested Board of Judicial Administration (BJA) support for a request to the legislature to add an additional judge position in Snohomish County District Court. Legislation, if approved, will not go into effect until July 1, 2023. Accordingly, we request funding for an additional judge and an additional LPA II from July 1, 2023 through December 31, 2023. Salary and benefits for the judge are \$124,030 while salary and benefits for the LPA II are \$41,319, for a total of \$165,349. Copies of all data and spreadsheets relied up for the statistics set forth in this budget request will be made available upon request.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** MANAGEMENT RECLASSES & HR COORDINATOR

**Package ID #:** 342

**Category:**

**Description:** District Court requests funding to align management positions with other County positions with the same responsibilities and to fund one FTE to provide court-wide HR support.  
Executive Recommendation - wait for classification & compensation study results.

**Justification:** Assistant Administrator: District Court's Assistant Court Administrator oversees day-to-day court operations, supervises five supervisors of five divisions (Cascade, Everett, Evergreen, South and Finance) with 55 staff, and serves as District Court's Human Resources Manager. Her position is management exempt, pay grade 110. The five supervisors that she supervises are management exempt, pay grade 109, only one pay grade below her. Superior Court has two Assistant Administrators, one for Juvenile Court operations and one for Superior Court operations. Both Superior Court positions are pay grade 112, two pay grades above the District Court position. The position description for the District Court Assistant Administrator and the Superior Court counterpart, the Assistant Administrator for Superior Court Operations, are nearly identical. The position description for District Court does not mention human resources management, but our Assistant Court Administrator is also our HR Manager, and she does not have an HR assistant. The District Court Administrator position should be reclassified to pay grade 112. Our Assistant Court Administrator is pay grade 110, step 13, and would advance to pay grade 112, step 07 if this request is granted. The increased cost in the 2023 budget is \$8,721.75.

Probation and Community Programs Manager: Our Probation and Community Programs Manager supervises seven Probation Officers including one lead, two Community Program Coordinators, and a Mental Health Court Coordinator who supervises the Mental Health Court staff. The Probation and Community Programs Manager not only supervises these positions, but she manages all Probation Department programs and courses and our therapeutic Mental Health Court. Although she supervises, she also manages programs with all of the accompanying responsibilities of program management. Our Probation Department has been incredibly successful under her leadership; earning a statewide award from the Washington State Misdemeanor Probation Association in 2021 for Probation Supervisor of the Year, and two statewide awards in 2022 for Excellence in Action, and Program of the Year for our relicensing program. The position is management exempt, pay grade 109. The position is at the same pay grade as our division supervisors, who supervise staff but do not manage programs. Further, although the Mental Health Court Coordinator is not an exempt employee, her pay rate is the same as the Probation and Community Programs Manager who supervises her. The Superior Court counterpart for this position is the Programs Administrator for Specialized Courts, which is management exempt pay grade 110. Our Probation and Community Programs Manager should be reclassified to pay grade 110. The incumbent is currently pay grade 109, step 12, and would advance to pay grade 110, step 10 if this request is granted. The increased cost in the 2023 budget is \$7,895.90.

Human Resources FTE: District Court requests to add a full-time Human Resources Coordinator to the administration team. Besides the Court Administrator, Assistant Administrator and Probation Manager, District Court has only four administrative staff. Specifically, we have an Administrative Analyst, who performs all tasks related to budget and court statistics, all aspects of project management, and performs HR data entries and some aspects of onboarding; we have a Public Records Specialist who spends one-hundred percent of her time responding to public and court records requests; we have an Accounting Specialist whose duties involve payroll, purchasing, accounts receivable and payable, equipment procurement, budget transfers, HR documentation, equipment inventory lists, training events, and lien efficiency; and we have a Network Administrator who handles all District Court aspects of IT service and help, maintains and repairs computer

**Category:**

equipment, provides software training, and implements technology-related projects. We currently have a temporary, ARPA-funded, second Network Administrator. Except for our permanent Network Administrator who has a temporary counterpart, all of our administrative staff are over maximum bandwidth and cannot take on more work.

Our Assistant Court Administrator oversees day-to-day court operations, supervises five supervisors of five divisions with 55 staff, and serves as District Court's Human Resources Manager. She needs the assistance of a full-time staff member to plan and carry out recruitments, perform all HR-related data entries, onboard new employees, regularly update policies and procedures and post them on our internal and external websites, serve as DEI coordinator to develop best practices for diversity, equity, and inclusion, and lead our five divisions with a unified approach to implementing and maintaining a DEI program. In addition, District Court needs an ADA coordinator to receive and respond to ADA requests and ADA grievances, and a training coordinator to standardize and implement training in all five of our divisions so that we can streamline our processes and perform as one court. These are all responsibilities that can and should be performed by personnel specifically dedicated to human resources. Neither the Assistant Court Administrator nor the Court Administrator have the bandwidth to carry out HR tasks that could otherwise be delegated to administrative staff. Our current administrative staff do not have the capacity to take on additional duties.

Further, after more than two years, COVID-19 is still with us. The Court Administrator and the Assistant Court Administrator have been addressing COVID-19 emergencies and performing pandemic management for over two years. Courts have a constitutional requirement to remain open, so our staff need to work at the courthouse. District Court needs an HR professional to manage ongoing COVID issues that continue to arise, such as advising employees as to isolation and quarantine periods, and attending to District Court's vaccine requirement issues.

We have reviewed the HR-related job descriptions for Snohomish County and have found the Human Resources Coordinator - Public Works position to be the job description that most closely meets District Court's needs. This position is at Pay Grade 237, and we would hire at Step 1, unless we have a qualified internal candidate who has a higher rate of pay. At Step 1, the annual salary and benefits for this position is \$90,325. District Court requests \$90,325 to fund this position in the 2023 budget. District Court will provide the calculation for this position upon request.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** HEALTH & SAFETY

**Package ID #:** 343

**Category:**

**Description:** District Court requests funding to update facilities and purchase supplies to ensure healthy, safe and sanitary courthouses for our staff and the public.

**Justification:** PPE: District Court is requesting funding to purchase personal protective equipment in 2023. The total funding requested is \$4,600. This request was not funded through a recent ARPA request made to the Office of Recovery and Resilience, but we were advised that we could enter it as a priority package if we would like it to be considered in the regular budget process.

District Court continues to purchase personal protective equipment to keep staff, judicial officers, jurors and the public safe from COVID-19. Since March 2020, we have purchased masks and face coverings, Lysol wipes and spray, gloves, hand sanitizer, COVID-19 Rapid Tests, N-95 masks for our staff who have vaccine exemptions and accommodations, air purifiers and filter replacements, and a variety of cleaning supplies to keep surfaces and our work environment clean and sanitized. The average annual cost of these supplies, not including plexiglass shields, technology, or supplies we received directly from the County or the Administrative Office of the Courts, is \$4,600. As of June 25, 2022, we have expended \$2,796 for disaster supplies in the 2022 budget year. We request \$4,600, the annual average cost of PPE that we purchased in 2020 and 2021. Our calculations will be provided upon request.

Restrooms at South Division: Snohomish County District Court has four divisions in four locations. The Everett Division is housed in the courthouse on county campus. The three outlying Divisions - South (Lynnwood), Cascade (Arlington) and Evergreen (Monroe) serve the Snohomish County population that is outside of Everett and closely surrounding areas.

The South Division courthouse was built in 1970, with a 1973 addition, and is the oldest outlying courthouse. The courthouse has two public restrooms, three jury room restrooms, and four staff and judicial restrooms. The public, jurors, our staff, and our judges use these restrooms which have not been remodeled or upgraded since they were constructed in 1970 and 1973. The tiles on the floor and walls have cracks, stains, and chips. The grout looks dirty and has worn away and chipped in some places. Some of the plumbing is corroded or rusty, and a number of the porcelain toilets have dark mold on the tile between the toilet and the floor. The men's public restroom has a foul smell of stale urine, and other restrooms have a stench of combined mold, urine and other unknown smells that cannot be eliminated with cleaning. Most of the toilets do not completely flush. A recent budget walk-through with a project manager for a licensed contractor indicates that some of the smells could be coming through the ventilation system or could be a result of rot behind the walls. In summary, the restrooms at the South Division are old, dirty, and unsanitary, and cannot be effectively cleaned. The restrooms are in need of a complete remodel.

District Court obtained a written estimate of \$556,000, not including qualifications, exclusions, or state sales tax, to remodel the nine restrooms at the South Division. With sales tax, the cost is estimated to be \$614,380. The written estimate, cost spreadsheet, and photographs of the restrooms will be made available upon request. District Court requests funding in the amount \$614,380 for restroom remodel at the South Division.

Fire Protection Systems at Cascade, Evergreen and South Divisions: During early 2022, District Court learned that our outlying division courthouses, South Division, Evergreen Division, and Cascade Division, did not have adequate fire protection. The Evergreen and Cascade Divisions have smoke detectors and fire alarms, but the

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** HEALTH & SAFETY

**Package ID #:** 343

**Category:**

alarms ring only in the building and do not provide notification to an alarm company to contact the fire department. Evergreen and Cascade do not have any sprinklers. The South Division does not have smoke detectors or fire alarms. Although the South Division has sprinklers in the basement, it does not have sprinklers on the main floor. None of these three divisions have fire suppression systems where District Court employees work, where the judges preside over court, where the public comes to take care of their legal business, and where all of the District Court probation and court files reside. Except for the sprinklers in the South Division basement, the only fire suppression at these three courthouses are fire extinguishers.

Adequate fire protection is critical. Current building codes require sprinklers and fire alarms in courthouses the size of our South Division and all courthouses, even those the size of our Cascade and Evergreen Divisions, should be equipped with alarms that notify the fire department to respond to a fire, and sprinkler systems that can begin putting out the fire immediately. Our South Division does not have adequate fire protection due to the age of the building and the codes that were in place at the time it was built. The South Division courthouse was built in 1970, with a 1973 addition, and the Evergreen and Cascade Division courthouses were built in 1978. Because the South Division courthouse has not been remodeled, it has not been brought up to current code requirements and standards. Further, if Cascade and Evergreen were remodeled, the remodel would undoubtedly include fire protection. In 2013, nine years ago, Snohomish County contracted for a county-wide study on facilities' deficiencies and deferred maintenance. The study, called the MENG Analysis, included the cost to update fire protection systems in all three courthouses in 2013.

District Court employees and judges work in structures that are outdated by current codes and standards. The public also spends time in our facilities. All occupants are at risk of injury and death in the event of a fire. Although we plan to have a document management system by early 2023, at present District Court would lose all court and probation files in any outlying location that was consumed by fire. Snohomish County and District Court, as employers, have a legal obligation to keep their employees safe at work. Snohomish County, as a building owner, has a legal obligation to keep the public safe when they enter the premises to conduct business.

Facilities prepared a cost analysis for fire protection that includes sprinklers and alarm systems as follows: Cascade - \$275,441, Evergreen - \$275,441, and South - \$671,482, for a total of \$1,222,364. The cost analysis will be provided upon request.

Ventilation: District Court requests funding to replace the HVAC systems in our three outlying courthouses, South, Cascade and Evergreen Divisions, as well as in "Building C" at 2929 Rockefeller, also known as the Jolly Building, which houses our managers and administrative staff. This request was not funded through a recent ARPA request made to the Office of Recovery and Resilience, but we were advised that we could enter it as a priority package if we would like it to be considered in the regular budget process.

Throughout the COVID-19 pandemic, the Department of Labor & Industries has issued guidance regarding ventilation in the workplace to keep employees safe. Current guidance, updated February 8, 2022, in pertinent part, states:

- Risk for spreading COVID-19 is higher in small rooms, enclosed areas, and tight spaces with little or no ventilation or poorly filtered air.
- Ensuring adequate ventilation throughout the work environment can help to maintain a safe and healthy workplace.

**Category:**

The following tips can help reduce the risk of exposure to COVID-19:

- Use HVAC system filters with a Minimum Efficiency Reporting Value (MERV) rating of 13 or higher, where feasible. MERV is a measure of how well filters capture particles. The higher the number, the better the capture of particles. Ninety-percent of particles are captured in filters with a MERV rating of 13.
- Bring in as much fresh air as possible by increasing the HVAC system's outdoor air intake and reducing recirculated air. ... Open windows or other sources of fresh air where possible, weather permitting.
- Consider using portable, high-efficiency particulate air (HEPA) fan/filtration systems to clean air, especially in higher-risk areas like enclosed smaller spaces with little or no ventilation or capability to provide outside air. Avoid use of ionizers or air purifiers that generate ozone, a health hazard itself.

The four buildings at issue are very small. In the courthouses, staff sit very close together. None of these buildings have windows that can be opened to bring in fresh air. The HVAC in the Jolly Building does not bring in any outside air. All air is recirculated. All of these buildings have MERV 8 filters, not the recommended MERV 13 filters.

Ventilation is not the only problem with the HVAC systems. The South Division courthouse was built in 1970, with an addition in 1973. The front areas of the courthouse may be freezing, while the back areas are extremely hot. Staff are not comfortable. Since January 1, 2022, two sub units have failed, causing judges to move out of their courtrooms while repairs were underway, which took more than one month in both cases. In 2013, the MENG Analysis found that the original 1970's MEP (mechanical, electrical, plumbing; HVAC is mechanical) were at end of life, inefficient and with marginal comfort, although the 1973 addition was in better condition. The report stated that the building should be scheduled for a major renovation to bring the building up to code and upgrade all MEP systems to current technology and code compliance. Nine years have now passed. The total project cost for the HVAC system in 2013 was \$488,241.

The Cascade and Evergreen Divisions were built in 1978. They have the same footprint and are the same size. In the summer, the courtrooms are extremely hot and cannot be cooled by the HVAC system. In the winter, they are freezing, and the heat cannot be regulated to make them warm enough. The MENG Analysis found that the HVAC system at Cascade had little or no economized cooling, and marginal ventilation. The report further stated that most HVAC equipment was a second set of pumps, "now approaching end of life." One of the multizone systems had already been replaced after failure. The report stated that the facility was ready for modernization in the next five to ten years. The total project cost for the Cascade HVAC system in 2013 was \$447,132. The MENG Analysis found that key HVAC sub-systems in the Evergreen Division needed renewal within five to ten years. There was an upgrade of some subsystems in 2001, so equipment was in fair to good condition, but was still needing replacement in five to ten years. The total project cost for the Evergreen HVAC system in 2013 was \$90,282. However, District Court is requesting \$447,132 in 2013 dollars, the same value as the improvements needed for the Cascade Division in 2013, as nine years have passed, and the system needed full replacement in "five to ten years" pursuant the MENG Analysis.

We do not know when Building C (the Jolly Building) was built. Due to concerns with employees getting sick and concerns regarding whether the ventilation was sufficient for a COVID-19 environment, an air quality study (IAQ) was conducted in late 2021. Although the IAQ parameters were within normal limits with the exception of relative humidity, the study found that the HVAC "does not appear to provide any outdoor air to the facility." Facilities has confirmed that there is no outside air coming into the building. The study

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Department:** 24 District Court

**Short Name:** HEALTH & SAFETY

**Package ID #:** 343

**Category:**

recommended upgrading the furnace air filters to the highest MERV rated filters the system can accept, and at least MERV 13 if possible. Facilities has advised that since the unit was designed for MERV 8 filters, the manufacturer is concerned with a pressure drop if MERV 13 filters are used. Upgrading to MERV 13 filters is not feasible without replacement of the unit. It is nearly impossible to regulate the heat in the Jolly building. While the thermostat is set to 68 to 72 degrees, some offices may get as hot at 79 degrees. Every office has a different temperature. The Jolly Building is 2214 square feet, less than one-half the size of the Cascade Division. District Court requests \$223,566 in 2013 dollars (half the project cost for Cascade in 2013) to replace the HVAC system at the Jolly Building.

Notwithstanding COVID-19, these HVAC systems are due for replacement and have already failed in a number of instances. Projects costs for replacement of all four HVAC systems is at least \$1,606,071 in 2013 dollars, which is approximately \$1,993,134 in 2022 dollars. District Court requests funding of \$1,993,134 to replace these faulty systems so that we can keep our employees and the public as safe as possible from COVID-19 and other airborne contaminants, and so that the heat and cooling can be controlled at reasonably comfortable temperatures.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** THERAPEUTIC COURT STAFFING

**Package ID #:** 344

**Category:**

**Description:** District Court requests funding to increase the Mental Health Court Coordinator and Legal Processing Assistant II from 0.5 to 1.0 FTE to provide complete and comprehensive services to Mental Health Court participants.

**Justification:** District Court recently applied for a grant with the Administrative Office of the Courts for funding to increase our Court Coordinator and LPA II positions to full-time status. If awarded, the grant will fund the additional hours for both positions from July 1, 2022, through June 30, 2023. Awards will be announced on July 8, 2022. If we receive the grant funding, District Court will only request funding from July 1, 2023 to December 31, 2023, for the 2023 budget year.

District Court receives funding from Fund 002 1/10% sales tax for a 0.5 FTE Mental Health Court Coordinator (Court Coordinator) and a 0.5 FTE Legal Processing Assistant II (LPA II). The Court Coordinator's job duties include overseeing the daily operations of Mental Health Court, establishing relationships and engaging with community resource and treatment providers, researching and implementing evidence-based practices, and coordinating care plans for our participants. Due to her limited work hours, she is not able to fully engage community resources, implement evidence-based practices, or coordinate care plans. Her limited time is spent assisting the specialty court officer and LPA II speak with treatment providers to obtain compliance reports and track down required behavioral health assessments for the participants.

The LPA II is the backbone of Mental Health Court. This position processes legal documents, docket legal proceedings, schedules court hearings, assists the public, and contacts participant treatment providers as directed. Further, this position is responsible for contacting court participants via text message to remind them of appointments and court hearings. Due to the part-time status of this position, the specialty court officer and court coordinator must cover some of the LPA II's job duties.

To obtain and maintain competency on evidence-based therapeutic court practices, our staff need to attend trainings. Council and the Executive's office graciously added a training budget to the Mental Health Court 2022 budget. We will be taking full advantage of our training budget by sending our Mental Health Court team to the National Association of Drug Court Professionals conference in July 2022, and the Washington State Association of Drug Court Professionals conference in October 2022. Our Court Coordinator's limited hours prevent her from attending some trainings, which impacts her ability to remain up to date on best practices and evidence-based programs. We continuously realign job duties between our Court Coordinator, Specialty Court Officer and LPA II positions to cover the most basic tasks, but this is not an effective solution to our need to have a full-time Court Coordinator and LPA II.

Specialty courts, like Mental Health Court, provide services for a specific, targeted population that require collaboration among a multidisciplinary team made up of judicial, treatment, supervisory, and legal staff. These courts are successful because of the support they afford participants. As noted in previous requests for funding, our Mental Health Court was evaluated by Whitworth College in 2019 and was determined to be fully compliant with best practices.

Half-time hours for our Court Coordinator and our LPA II are simply not enough to complete crucial tasks and meet the needs of our clients. District Court respectfully requests an increase in salaries and benefits in the amount of \$67,765 for our Court Coordinator who is at pay grade 243, step 5, and \$35,709 for our LPA II who

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** UNFUNDED & UNDERFUNDED LINE ITEMS

**Package ID #:** 346

**Category:**

**Description:** District Court is seeking funding for unfunded and underfunded line items including armored car, communications, probation classroom rental and professional services.

**Justification:** Armored Car: In 2021, the County contracted with a new armored car vendor, Axiom Armored. The contract increased the District Court's expenses for an armored car to transport money from all four District Court locations to a bank. The annual increase is \$10,538. District Court requests additional funding for the armored car in the amount of 10,538.

Communication: District Court pays for a call service to contact judicial officers during court hours and after hours when law enforcement is requesting a search warrant or arrest warrant be issued. Although the monthly charges vary depending on the number of calls, the cost of the call service has increased overall, and the annual increase is approximately \$10,179. District Court requests additional funding for the court communications line item in the amount of \$10,179.

Professional Services: District Court is a paper court with paper court files and paper probation files. We are currently in the RFP process to select a vendor to provide a document management system so that District Court can transition from paper files to electronic files. We started this process in the fall of 2021. We have reviewed proposals from 21 vendors, narrowed the field to top scorers, conducted reference checks, and will soon be scheduling demonstrations for a limited number of top candidates. All of the top candidates have proposed a fee to purchase the software and implement the solution, as well as an annual fee for maintenance and service beginning in the second year. District Court anticipates having a contract and starting the project by September 2022. District Court will pay the start-up costs to purchase the software and implement the solution from its Trial Court Improvement Fund. The second-year maintenance and service costs due in 2023, are anticipated to be \$172,000 or less. District Court respectfully requests an additional \$172,000 in the 2023 budget for the professional services line item to fund maintenance and service for this much-needed document management system, split 75% for District Court and 25% for Probation. District Court will advise of the contract cost for maintenance and service for 2023 when that information becomes available. NOT FUNDED FOR 2023 AS FIRST PAYMENT WILL BE IN 2024.

Rented Space for Community Courses: In 2019, the District Court Probation Department was facilitating Alive at 25, a defensive driving course, through a Memorandum of Understanding with both Edmonds Community College and Everett Community College. The agreement allowed the court to use the facilities to teach courses, while allowing the colleges to speak with participants about educational opportunities. We also used local libraries, police stations and fire stations to teach the courses. In March 2020, the court and colleges stopped in-person learning. In the latter part of 2020, the court pivoted and began using a virtual platform. While this allowed the courses to continue, it was not ideal for participant engagement. As we slowly began returning to in-person learning, we were able to sporadically reserve a courtroom to teach courses. The number of participants was significantly limited due to the size of the courtrooms and social distancing requirements. Further, we could only hold courses during normal court operating hours, which did not meet the needs of some participants.

Through trial and error, we learned that the virtual platform, while allowing information to be presented, was a barrier to participant engagement which reduced the effectiveness of the classes. The use of community facilities such as libraries and police departments, poses a risk of losing the location at the last minute. Both

**Package ID #:** 346

**Category:**

Everett Community College and Edmonds College (formerly Edmonds Community College) now charge non-profits and government agencies a room rental rate. While we will continue to use Snohomish County community resources such as libraries and police stations, we understand there is a need for classes beyond day-time hours of operation. Using colleges in the evening allows us to reduce barriers to participation for those who would otherwise have to take time off from work during the day to attend.

Edmonds College charges \$106.00 and Everett Community College charges \$140.00 to rent classrooms for the four hours our classes require. We would like to offer four courses per month, two at each college. We are requesting funding of \$5,900.00 in the probation budget to pay room rental so that we can hold four courses per month in person at local colleges. District Court will provide verification of the classroom charges upon request.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** DISTRICT COURT L&J BACKLOG

**Package ID #:** 347

**Category:**

**Description:** District Court requests continued ARPA funding for 4.0 FTE Legal Process Assistants and 1.0 FTE Network Administrator.

**Justification:** Continued Funding for 4.0 FTE Legal Process Assistants: District Court is requesting continued funding to employ four Legal Process Assistant Is (LPA Is) to assist with the increased workload and impacts of COVID-19, and to assist in reducing the backlog. District Court is currently funded for these project positions through June 30, 2023, and is requesting continued funding through September 30, 2024. We were advised by the Office of Recovery and Resilience (ORR) that this request is tentatively approved in the ARPA T2 spending plan. and were asked to put this request in the BDT.

District Court's backlog is reflected in the case age of criminal cases that we have not been able to resolve in a timely manner due to the impacts of COVID-19. This backlog will continue until we reach a pre-pandemic level for case age. Although the pandemic has eased, COVID-19 remains a health and safety concern to our employees and to the public we serve. Assistance from LPA Is is invaluable in addressing COVID-19 issues and our criminal backlog.

Courts are constitutionally required to remain open to serve the public. Additionally, District Court is a "paper court" with paper court and probation files. Our staff must work in the office and cannot telecommute at this time. We continue to need LPA Is to clean surfaces in courtrooms, clerical areas, public areas, and other high touch areas. At the outset of the pandemic, we launched virtual technology and began holding hearings through Zoom. Although some hearings are now in person, we continue to offer virtual appearances for many court calendars. We need LPA Is to assist with the extra work required when LPA IIs are handling Zoom hearings, and to make copies of documents that are signed in open court that must be mailed to virtual participants. To the extent that we will continue to utilize off-site jury selection to socially distance large groups of people, we require LPA Is to attend, set up seating, assist with checking in prospective jurors, and provide PPE. If jury selection occurs in the courthouses, we need LPA Is to assist with keeping jurors spread out and cleaning surfaces. LPA Is are needed in our four divisions to handle extra work generated by the higher number of cases being calendared to decrease our backlog of criminal cases. Further, we are in the RFP process to purchase a document management system and begin transitioning from paper files to electronic court and probation files. This transition will reduce touches, eliminate the need for staff to work adjacent to each other, and will allow staff to work from home as necessary, to reduce the spread of COVID-19. We need LPA Is to assist with back scanning and other responsibilities related to this project.

We request continued funding for four LPA Is from July 1, 2023 through September 30, 2024, or until COVID-19 is no longer a health and safety concern to our employees and the public, we have completed our document management project, and we have resolved our backlog. The salary and benefits for four FTE LPA Is is \$199,979 at pay grade 310, step 2, from July 1, 2023 through December 31, 2023, and \$265,302 from January 1, 2024 through September 30, 2024, for a total of \$465,281. The salary is based on the 2022 rate table and does not account for any potential cost of living adjustments.

Continued Funding for 1.0 FTE Network Administrator: District Court is also requesting continued funding to employ a Network Administrator to assist with the increased workload and impacts of COVID-19, and to assist in reducing the backlog. District Court has one permanent Network Administrator position. We received ARPA funding to hire an additional Network Administrator to manage our technology needs related to COVID-

19 and the backlog through June 30, 2023. We are requesting continued funding through September 30, 2024. We were advised by the Office of Recovery and Resilience (ORR) that this request is tentatively approved in the ARPA T2 spending plan and were asked to put this request in the BDT.

In December 2020, District Court began holding in-custody hearings with technology that allowed judicial officers to appear from the courtroom, defendants to appear from the jail, and counsel and other court participants to appear via Zoom. Our ARPA-funded Network Administrator was hired in April, 2022. He is responsible for addressing technology issues with our virtual in-custody calendar. He has also been attending off-site jury selections to run portable AV equipment so that prospective jurors can view juror videos at the off-site location. Although we have been able to hold virtual hearings since June 2020, the equipment and the virtual experience are not optimal. Our judicial officers have requested that we begin advancing the audio and video technology we have been using since the beginning of the pandemic. Advances and improvements are necessary since COVID-19 continues, and virtual hearings are here to stay. We need our second Network Administrator to work on all of the above-mentioned tasks, and any other COVID-19-related technology tasks. In addition, our ARPA-funded Network Administrator will be working on implementing our new document management system which will allow less touches, less face-to-face interaction between staff, and the ability to telework. Finally, our ARPA-funded Network Administrator will provide much needed technical support that will allow staff and judges to reduce the backlog to pre-pandemic levels.

We request continued ARPA funding for a second Network Administrator from July 1, 2023 through September 31, 2024, or until COVID-19 is no longer a health and safety concern to our employees and the public, we have completed our document management project, and we have resolved our backlog. The salary and benefits for a Network Administrator is \$62,620 at pay grade 240, step 2, from July 1, 2023 through December 31, 2023, and \$86,356 from January 1, 2024 through September 31, 2024, for a total of \$148,976. The salary is based on the 2022 rate table and does not account for any potential cost of living adjustments.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Maintenance Program Adjustments

**Package ID #:** 348

**Category:**

**Description:** This priority package reflects adjustments to the Surface Water Management Division Maintenance (Program 512) non-capital base budget for 2023. Overall, the 2023 budget request for SWM Maintenance increased by just 2.3% compared to 2022.

Adjustments are in the following areas:

- 1) Drainage System Management (Sub-program 006)
- 2) Drainage Rehabilitation/Investigations (Sub-program 007)

**Justification:** 1) DRAINAGE SYSTEM MANAGEMENT (Sub-Program 006) – The 2023 budget request is an increase of 3.4% from the 2022 adopted budget. The Drainage System Management sub program focuses on inspection, maintenance, and repair of the engineered drainage systems that convey, treat, and manage stormwater runoff. A key aspect of this program is to meet the Stormwater Operations and Maintenance requirements of the Phase 1 Municipal Stormwater permit (NPDES permit), mandated under the federal Clean Water Act.

Change from Proforma Budget:

The increase for IF Professional Services results from implementing an alternative inspection frequency, with alternate-year budgets having more regulated and county owned systems to maintain. Reducing the inspection frequency has reduced costs for this program overall, yet the program continues to grow from new development and capital improvement projects. In addition, the program now includes approximately 250 older public facilities (constructed prior to 1992) that used to be excluded from NPDES regulations, but which are now regulated. For those older systems, the costs to repair and replace them are more than the average stormwater facility maintenance costs and that work will be phased over the next several years. A one-time cost of \$100k is anticipated for On-Call consultant support for completion and implementation of the Stormwater Management Action Plan.

The Drainage System Management budget also includes funding (\$109,200) to support a portion of a maintenance crew in Parks for NPDES maintenance related work on Park property. This expense was moved from the SWM Operations program. Inclusion of funding for the Parks maintenance crew provides relief to general fund Park resources.

2) DRAINAGE REHABILITATION/INVESTIGATIONS (Sub-Program 007) – The 2023 budget request is a decrease of 23.5% from the 2022 approved budget. This program responds to requests from County residents and County departments for technical assistance with drainage problems. This program includes field investigations, analysis of individual drainage problems, coordination with Road Maintenance and recommendations for solutions.

Change from Proforma Budget:

The major decrease to the budget for Drainage Rehabilitation/Investigation is due to the county Interfund charges being consolidated into the SWM Operations program. Otherwise, this budget maintains status quo.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 18 Facilities Management

**Short Name:** 2023 Fuel Contingency

**Package ID #:** 350

**Category:**

**Description:** The fuel price volatility seen in 2022 was not predicted during the 2022 budget process. Similarly, any projections for 2023 are a best estimate given market predictions by the Energy Information Administration and could change significantly. Current EIA projections suggest that the price of gasoline and diesel will be \$4.25 and \$4.85 respectively. Therefore, in order to ensure adequate budget authority should price escalations occur in 2023 (or current extraordinary prices continue into 2023), Fleet Services request a contingency of \$2 million to be used exclusively for fuel purchases utilizing fund balance in the ER&R fund. Costs incurred from this contingency can be factored in as reimbursable in succeeding budget years (as needed) to keep the equipment replacement plan viable. We believe this is a better alternative than asking for a rate increase from departments when we are still uncertain on how gas prices will settle in the next year.

**Justification:**

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 39 Emergency Management

**Short Name:** Capital Asset Replacement ER&R Fund

**Package ID #:** 351

**Category:**

**Description:** This package addresses future replacement of mobile emergency operations trailer (MEOC) by integrating into the ER&R Fund starting in 2023. Additionally, DEM proposes to expedite replacement of an existing Fleet vehicle for an upgraded model that meets our emergency response operational needs.

**Justification:** This request is to fund the addition of one critical emergency management asset to the County's capital replacement program and to replace an existing vehicle with one that provides greater flexibility to DEM. Both support DEM's continuity of operations plan and help fulfill obligations outlined in our interlocal agreements with cities, towns, and Tribes.

Historically DEM used grant funds to purchase vehicles but did not place them into the capital replacement program. For example, in 2004 DEM used DHS/FEMA funds to purchase our two existing command vans; however, these were not incorporated into the replacement program. Each would now cost approximately \$500,000 or more to replace and grant funds no longer exist to cover that cost. In anticipation of this, we utilized grant funds to secure a less-expensive trailer known as the Mobile Emergency Operations Center (MEOC).

The MEOC acts as our back-up facility if we were to lose access to our existing structure. It could also be deployed to support one of our jurisdiction's EOCs were one of their EOCs to become inaccessible. Putting it into the capital replacement program precludes the risk of further grant reductions and ensures this capability remains viable.

One of the great features of the MEOC is its flexibility; specifically, that it is mobile and could be moved to any location to establish an EOC (i.e., if an earthquake severely damaged our EOC, this vehicle can be towed to any adequately sized structure to reconstitute emergency operations). That flexibility is contingent on having a vehicle capable of towing the MEOC. Our current fleet does not have that option and we rely on other agencies like Public Works to loan us a truck capable of towing the MEOC. Coordinating that is difficult during everyday operations; after an earthquake it adds a significant challenge.

Our second proposal to reduce that complexity is to replace one existing vehicle with a truck capable of towing the MEOC. This would be done ahead of the normal replacement schedule, but would give us immediate access to a vehicle capable of towing the MEOC. This would not be the only purpose of this vehicle. It will be adequately sized and configured so that it can be used by staff to travel to meetings, trainings, etc.

Together, these changes would address several known gaps. We would mitigate the reliance on dwindling grant funds to replace a needed capability, be assured of more flexibility in implementing our continuity of operations plan, and continue to have a vehicle capable of transporting staff and/or equipment.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Civil Staffing - Health Department

**Package ID #:** 352

**Category:**

**Description:** This Priority Package increases staffing in our Civil Division to provide legal counsel regarding the addition of the Health District that will operate under the County's governance in 2023.

**Justification:** The County's assumption of the Health District is anticipated to increase the workload of the Civil Division. The office proposes the addition of two DPAs to address the increase in legal services. The first DPA will be a General Fund attorney assigned to the Municipal Law Unit to provide advice and legal services related to the operations of the new Health Department. It is anticipated that the new workload will include permitting and inspection-related legal questions, nuisance abatement actions, SEPA review questions, contracts and grant review, water code implementation, and landfill closure issues (just to name a few). The Fund 506 related legal workload will include Public Records Act advice and litigation, labor and employment advice and litigation, and general risk management litigation (including the potential for new liability resulting from medical malpractice claims). Please note that it is far too early to determine the full extent of the increased legal services required by absorbing the Health District as much of the groundwork to understand the totality of the acquisition has not been concluded.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 18 Facilities Management

**Short Name:** Fund 502 - Fleet Technical Adjustments

**Package ID #:** 353

**Category:**

**Description:** Adjustments to the 2023 BDT allocations and base budget amounts. This package reconciles proforma budget numbers to projected base revenue and expenses. Realignment of prior year appropriations in multi-year capital funds for better project tracking and resource allocation are also included in this priority package, as well as correcting technical and clerical errors that happen during the course of developing the annual budget proposal.

All other budgetary activities not included in the base are requested in separate priority packages.

**Justification:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Criminal Staffing - Training

**Package ID #:** 354

**Category:**

**Description:** This Priority Package creates a position for a deputy prosecuting attorney responsible for training deputy prosecuting attorneys and law enforcement personnel.

**Justification:** Significant attrition in the Division's DPA ranks in recent times has led to a loss of more experienced attorneys, one consequence of which is the onboarding of an unprecedented number of lawyers new to the practice. Coupled with recent dynamic, substantial, and anticipated ongoing changes in case law, statutory law, and court rules affecting all DPAs, there is a compelling need to establish a dedicated training DPA to address this dual threat. Similarly, our law enforcement partners at the city, county, and State level have experienced significant turnover in their agencies and an attendant lack of experience. The impact of this attrition has been exacerbated by many of the same changes in the law that impact our attorneys.

The Prosecuting Attorney's Office seeks to create a Training DPA to enhance the response to attrition and the evolution of the law for both prosecutors and police. Internal training will focus on developing and maintaining trial advocacy skills and other practice responsibilities in addition to providing regular and comprehensive updates and instruction on emerging areas of law. External training will be focused on providing instruction to police on topics like criminal procedure, search and seizure law, report writing, and compliance with discovery obligations.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Criminal Staffing - Complex Prosecutions Unit

**Package ID #:** 355

**Category:**

**Description:** This Priority Package creates three new positions to manage and prosecute the most complex cases in the Prosecuting Attorney's Office.

**Justification:** Currently, homicides and other more complicated cases are handled by the more senior attorneys in the office – regardless of the unit that DPA may be assigned to, and often in addition to their primary caseload responsibilities. This priority package proposes to create a Complex Prosecutions Unit that will centralize the prosecution of the most complex cases in a small unit of highly experienced DPAs. This will leverage the specialized experience of these DPAs to focus on some of the most serious cases in the office and will allow other DPAs to better attend to their primary responsibilities in other important units (including the Special Assault Unit, the Domestic Violence Unit, and the Violent Crimes Unit). The Prosecuting Attorney's Office requests two DPAs with at least 6 years of prosecution experience and one legal secretary to staff this unit.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Persistent Offender & Gun Crimes

**Package ID #:** 356

**Category:**

**Description:** This Priority Package creates a deputy prosecuting attorney position dedicated to managing those felony cases involving persistent offenders, as well as gun referrals.

**Justification:** The majority of the felony referrals received by the Prosecuting Attorney's Office are for nonviolent property offenses—including burglary, car theft, and possessory firearms offenses. A recent audit of nonviolent felony referrals awaiting review revealed the fact that many suspects had multiple pending cases. These persistent offenders have an outsized negative impact on public safety in Snohomish County and require more expeditious and substantial intervention by the criminal justice system. Also awaiting more expeditious review in the face of limited resources are gun crime referrals. These offenses include felons unlawfully in possession of firearms, those trafficking in firearms or those suspects otherwise prohibited from gun possession due to domestic violence convictions or having domestic violence orders against them. The Prosecuting Attorney's Office, to better guarantee more timely and impactful justice for victims and the community, proposes a designated DPA to focus on persistent offender and gun crimes cases to provide more expeditious review and resolution of those cases and ensure that courts are provided all relevant information in making determinations regarding bail, release, and sentencing.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Public Website Redesign

**Package ID #:** 358

**Category:**

**Description:** The Snohomish County website is eligible for a redesign near the end of 2022 per Snohomish County's contract with Civic Plus. The site content has grown considerably over the last several years and now consist of over 6070 pages, 505 forms, and 100,249 documents & images. Many of these assets are managed by individual departments which in some cases has resulted in the following:

- Design is not effective at putting the customer first
- Design is not modern
- Difficulty finding content, ineffective search options
- Organization of content is not intuitive to people that do not understand how the County is structured
- Navigation options are not always intuitive (e.g., some options are hidden, small and hard to click, or just not easy to find/use/understand)
- Design does not easily allow for the presentation of different types of content with different purposes (e.g., news with a short lifespan that updates frequently, persistent information, documents and forms, help resources, etc.)
- Design is not mobile friendly

**Justification:** A complete county wide website redesign will require significant resources to address any shortcomings the current website has therefore IT is requesting professional services resources to aid in this effort. These requested resources will work along side IT and departmental staff to accomplish the following.

- Inventory the existing site content and tools
- Compare Snohomish County's offering to other local governments to identify gaps and opportunities
- Perform user analysis for constituents and County partners
- Leverage user analysis to recommend a new site content architecture/navigation, draft new site content that supports the architecture, and identify content that can be removed.
- Suggest an overall site design that considers potential constraints of the Civic Plus content management system, uses modern design principles, and supports primarily mobile usage.
- Provide a design guide and design assets that can be used by the Civic Plus design team during the redesign, and by Snohomish County IT to maintain the site after the redesign.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 14 Information Technology

**Short Name:** Fund 315 CIP

**Package ID #:** 359

**Category:**

**Description:** This package provides a summary of the continued investment by the Department of Information Technology in the regular replacement of aging infrastructure for the County's IT system over the next 48-month period. The Technology Replacement Program (TRP) plan has been established as the county's annual effort to ensure workstation and infrastructure replacement is addressed to optimize system reliability and reduce incidence of critical failure. TRP is funded through a contribution from Fund 505 using rates paid by IT customers based upon allocated metrics, as identified in interlocal agreements and interfund rates assessed to departments.

Projects in Fund 315 that are not related to the TRP are generally funded by sources other than rate contributions from Fund 505. Some TRP categories incur only periodic outlays, but have assessments spread evenly over a multiyear period for consistency in planning for budgetary impact.

	2023	2024	2025	2026

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 20 Pass-Through Grants

**Short Name:** HS Housing, Homelessness, and Comm Dev P-T

**Package ID #:** 363

**Category:**

**Description:** Adjustments to the Human Services Housing, Homelessness, and Community Development pass-through budget.

**Justification:** These adjustments are made to more accurately reflect 2023 Housing, Homelessness and Community Development pass-through funding subcontracted to local provider agencies and local governments.

Estimated pass-through amounts are based on in depth review of regularly renewed federal and state grants, new grants and contracts, and planned utilization of multiple federal COVID Response and Recovery awards received directly from the federal government, and indirectly via Washington State agencies.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Corrections Bureau - Radio Equipment Replacement

**Package ID #:** 365

**Category:**

**Description:** The SCSO Corrections Bureau's radio system consists of three (3) repeaters, two (2) antennas with directional panels, and a combiner which were installed when the Oakes Building was opened in 2005. This equipment is at EOL (end of life) and needs replacing. This is a request for one-time funding for equipment and installation costs.

**Justification:** The jail's radio equipment is approximately 17 years old. The last year these repeaters were manufactured by Motorola was 2005, the same year we purchased them.

Portable radios are the lifeline that connects Corrections Staff with each other, supervisors, and the dispatch center. A strong and reliable radio signal is not optional. Having a good, high quality radio system which produces the proper signal strength at the proper frequencies could mean the difference between life and death for the inmates in our care and CB Staff.

The MTR2000 repeaters are approximately four (4) generations old and the service life (expectancy) moving forward is anywhere from 2 months to 2 years. After experiencing increasingly poor and/or dropped reception and transmission signals inside the jail we had the system tested.

Some of the equipment is no longer serviceable and/or parts are no longer available should they become completely inoperable. The system could be periodically (monthly) "adjusted" using an old laptop computer from 2005 running on a Windows XP operating system, if we can find one. This option is not sustainable and only offers a temporary fix.

Per the SN0911 Wireless System Manager these costs are not eligible to be paid through the SN0911 Radio Replacement Project (RRP) currently underway throughout the County.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** IT positions - for Public Defender Association

**Package ID #:** 366

**Category:**

**Description:** OPD is asking to fund two (2) FTE IT support for SCPDA to address the increased discovery and the demands of its growing staff. In 2020, Snohomish County provided funding for one fulltime IT professional for the Snohomish County Public Defender Association's 85.5 FTE staff. This was an important first step, but the IT needs and demands are growing at an exponential rate. In 2017, SCPDA had at most 7 Terabytes of digital discovery; this increased to 31 terabytes by 2021. The primary cause for the increased use of data storage is increased digital media discovery provided to SCPDA by the Prosecuting Attorney's Office through the course of representation. This includes multiple body- and dash-cam videos per charged crime, recorded jail phone calls, surveillance videos, cell-phone extraction data, and voluminous medical and mental health records. This compounding of the volume of discovery is only going to increase with more law enforcement agencies wearing body cameras and driving vehicles with dashboard cameras.

There are many data storage complications that arise due to the volume and types of discovery provided by prosecutors. Many forms of surveillance footage can only be played on proprietary software. Law enforcement agencies and correctional facilities use different file formats creating challenges in downloading, saving, and reviewing the materials. Local systemic efforts have not been fruitful to ease some of the concerns arising from the increases in discovery provided. For example, SCPDA proposed that the Prosecutor's Office provide a Discovery Index or Discovery Log as part of discovery so that both sides can understand what discovery and types of discovery had been provided. This proposal was not adopted. Another example is that while discovery is Bates stamped, the pagination of reports contained in the discovery are often not provided in order. For example, a 90-paged forensic report may be received in a batch of discovery and the internal page numbering provided is pages 53 to 90. In a different batch of discovery, internal page numbering 1 to 52. Often, the same discovery is provided in duplicate. For example, in one case the provided discovery contained 17 copies of the same search warrant.

OPD is requesting two FTE IT support for SCPDA. We are requesting the council approve one (1) FTE network administrator (document control specialist), and one (1) FTE general IT support professional. These positions descriptions and salary are consistent with County positions doing similar work. These positions are necessary to fulfill the current IT needs to support the public defender services to Snohomish County. The salary and overhead for the network administrator is \$91,050.57. The salary and overhead for the general IT support professional is \$78,641.95. The total package cost is \$169,692.52 for 2023.

**Justification:** Washington State Bar Association (WSBA) Indigent Defense Standard Seven: "Public defense attorneys shall have adequate numbers of....computer system staff and network administrators."

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Operations Program Adjustments

**Package ID #:** 368

**Category:**

**Description:** This priority package reflects adjustments to the Surface Water Management Division Operations (Program 511) non-capital base budget for 2023. Overall, the 2023 budget request for SWM Operations increased by approximately 28% compared to 2022. This increase is largely due to consolidating all of the county interfund charges into the Operations program, which were previously spread across all SWM programs. This increase is offset by decreases in other programs.

Adjustments are in the following areas:

- 1) Fiscal Services (Sub-Program 001)
- 2) Program Planning (Sub-Program 002)
- 3) Resource Monitoring (Sub-Program 004)
- 4) Floodplain Services (Sub-Program 005)

**Justification:** 1) FISCAL SERVICES (Sub-Program 001) - The 2023 budget request is an increase of approximately 84% from the 2021 adopted budget. The Fiscal Services sub program provides financial and administrative support for all SWM programs.

Change from Proforma Budget

In addition to increase salaries and benefits, the increase to the Fiscal Services budget is largely due to consolidating all of the county interfund charges into this sub-program, which were previously spread across all SWM programs. This increase of approximately \$2.2M is offset by decreases in other programs.

The Fiscal Services budget includes funding for half of a temporary planner position in the Office of Energy and Sustainability to assist with the Savvy Septic Program (\$50k in Extra Help). Also, support for 0.5FTE Senior Naturalist position in the Parks Division was moved to this sub-program from sub-program 002 (\$62k in IF Parks).

Increases in Professional Services include a \$250k contingency for support to update the SWM utility billing database, and \$200k for SWM and DCNR strategic planning consultants. Both of these one-time expenses will be covered by SWM Fund Balance if needed.

2) PROGRAM PLANNING (Sub-Program 002) – The 2023 budget request is an increase of 15.5% from the 2022 adopted budget. The Program Planning sub program coordinates water resource-related planning efforts including salmon and Puget Sound recovery, water quality, shellfish protection, marine resources, and the Sustainable Lands Strategy. The program also includes education and outreach efforts for the county's National Pollution Discharge Elimination System (NPDES) permit.

Change from Proforma Budget

Increases stem from ongoing development of the Community Floodplains Solution Program and continuing Phase 1 of the existing Floodplains by Design grant, as well as receiving additional funding for Phases 2 and 3 which will begin implementation in 2023. Grant revenues for these projects total over \$1.2M.

In 2023, Program Planning will also receive an additional \$200K in EPA grant capacity funding for the Local Integrating Organization, and will receive approximately \$75K of EPA grant funding in 2023 to implement the

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Operations Program Adjustments

**Package ID #:** 368

**Category:**

Streamside Landowner technical assistance program. In total, grant revenues are anticipated to increase by \$700K compared to 2022.

3) RESOURCE MONITORING (Sub-Program 004) - The 2023 budget request is an increase of 12% from the 2022 adopted budget. The Resource Monitoring sub program provides the scientific basis and support for actions and programs to protect and restore water quality and improve aquatic habitat and implements NPDES programs related to finding and stopping water pollution.

Change from Proforma Budget

The increase to the Resource Monitoring budget is mainly tied to program staff moved from sub-program 005. Labor and non-labor costs for the SWM river gauging program totaling \$381k moved to sub-program 004 in 2023. Other increases include one-time costs of \$100k for a data management consultant, and \$75K to support development of a Critical Area Regulations (CAR) monitoring report and long term plan (both costs in On-Call Professional Services).

4) FLOODPLAIN SERVICES (Sub-Program 005) - The 2023 budget request is a decrease of 10% from the 2022 approved budget. Floodplain Services implements the non-capital flood hazard and floodplain management aspects of the Surface Water program.

Change from Proforma Budget:

Decreases to the Floodplain Services budget are tied to moving the gauging program to sub-program 004, and interfund support for Parks to the SWM Maintenance program. These decreases offset increases to Contractor Payments for pond dredging and levee lift work at Smith Island.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** 04 Human Services Administration and Support

**Package ID #:** 370

**Category:**

**Description:** Adjustments to the Human Services Administration and Support budgets.

**Justification:** These adjustments are made to more accurately reflect planned 2023 Human Services Administration and program support activities. Specifically:

1) Enter a .25 fte reduction for position #DEM7390R that has been shared with Department of Emergency Management. Human Services and Department of Emergency Management have agreed to reallocate the entire position to the Department of Emergency Management budget effective 1/1/2023. In DEM package 401.

2) Request an additional 1.0 fte Business Applications Programmer Analyst position. Human Services (HSD) currently has one Programmer/Analyst. This position supports 250+ employees, external systems (state and vendor), internal systems (databases/SharePoint/Office) and web-based subscriptions services. Efforts are spent responding to urgent needs which limits the critical time necessary for analyzing processes, researching solutions, and developing applications. The role includes working with the existing Network Administrator in managing network/file security (200+ security groups) as well as collaboration with other county departments, the state and county-wide provider agencies.

The scope of services provided by the Department of Information Technology (DoIT) has changed. Departments develop and support their internal systems with DoIT providing technical support to developers and subject matter experts within departments. This includes internally developed database and SharePoint development. The county utilizes The Microsoft Cloud and has the tools available under the licensing agreement to develop robust systems. However, HSD does not currently have the programming staff needed to take advantage of the very much needed development environment and, therefore, it is underutilized.

HSD staff are in continuous contact with partnering agencies, vendors, the state, local government, clients, and volunteers (boards etc.). The working relationship between these parties requires information transfer and shared processes often while meeting client confidentiality requirements. This communication can include authorizations for services, invoicing, monitoring, contracts and data transfer all of which can require meeting HIPAA or other confidentiality requirements. It is expected that the need for greater collaboration will increase as Snohomish County population and human service needs increase.

There are 16 internally developed databases in the department. Most of these applications are program specific (e.g., Developmental Disabilities and Energy) with changes regularly made to meet new funding requirements and state mandates. Program specific systems are used to manage client information with several collecting data from external agencies directly via Citrix or indirectly through SharePoint. Most of these systems have a fiscal component tracking vouchers and/or units of service and are subject to funding source (e.g., state) monitoring. Only three of these databases are on SQL Server. All of them should be migrated to provide system stability, increase flexibility, and enhanced security. Without additional programming resources, development is limited to keeping up with mandated changes and reporting requirements.

Program staff are increasingly using web-based applications such as SharePoint and Cognito Forms. While technically skilled staff can create simple forms, sites and pages, the more complex implementations require a programmer/analyst.

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** 04 Human Services Administration and Support

**Package ID #:** 370

**Category:**

HSD primarily utilizes SharePoint for the purpose of sharing files with external agencies. The department has approximately 1500 external users. There are 26 staff in HS that are site owners. Their primary responsibility is content management and adding external users to the security groups. The function of program specific sites is to provide information to agencies, vendors and government agencies including client information, authorizations, and invoicing. The system has a complex security architecture; only authorized staff (internally and externally) are allowed access to program specific client information (e.g., HIPAA). The Programmer/Analyst develops new sites, coordinates with SharePoint users, provides training, external logon support, and participates in DoIT SharePoint collaborations. The architecture and security system is developed and maintained by the administration programmer/analyst. The department would benefit from the expansion of SharePoint to include contract management and invoicing processes which will require more programming resources. The internal HSD SharePoint site is over 10 years old and in need of a complete analysis and redevelopment. Benefits include the use of shared libraries which provide the ability for multiple users to simultaneously edit documents, offer version control and approval, and archiving. To accomplish this requires analysis of department needs and collaboration with DoIT. There are currently not enough analyst/programmer resources to achieve this.

Cognito Forms allow technically skilled staff members to create applications, surveys and forms that are accessed by the public. Data is secure and can be digitally signed. While simple forms can be easily developed and deployed the more complex forms, that include logic, requires the technical expertise of a developer. Through Cognito Forms the Energy Assistance Program received over 2700 responses from the public of which over 1600 successfully submitted applications were imported into the Energy Assistance database. The Energy application is a complex structure and applies programming logic to minimize error and eliminate households who do not meet requirements. This application, as well as data import processes, was developed and is maintained by the programmer/analyst. The import of household data requires time and database expertise.

Currently the Administrative Division does not have the resources to provide analysis of existing processes, find efficiencies and reduce costs. With the retirement of senior staff and general attrition, legacy processes are in place that may not be understood or are no longer needed. Systems supporting employees (timesheet/human resources), fiscal, contracts and general admin have been neglected due to lack of adequate programming staff. Enhancement of the Timesheet system to include recruitment, authorizations, and reporting would reduce data entry redundancy saving admin time and effort. Redesign of the Contracts system to incorporate SharePoint functions and features will provide opportunities to streamline invoicing, agency monitoring and general contract processing.

Snohomish County communities are growing rapidly as are their needs. With the increase in funding and funding opportunities, as well as the increase in clients, the department must rapidly deploy and maintain streamlined and cost-effective solutions as well as enhance current systems. An additional Programmer/Analyst is essential as the current resources are insufficient to meet these needs.

Note that the cost of this new Programmer/Analyst is supported 100% from Fund 124 and Fund 130 program charges.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** 04 HS American Rescue Plan Act

**Package ID #:** 371

**Category:**

**Description:** Adjustments to the Human Services American Rescue Plan Act budget.

**Justification:** These adjustments are made to reflect Human Services ARPA T2 priorities identified as tentatively included in the T2 spend plan along with continuation of existing T1 programs. Adjustments do not reflect ARPA T2 priorities which will be brought forward for review and approval by the Office of Recovery and Resilience. Those additional T2 service items will be entered as a separate Priority Package.

Office of Recovery and Resilience has given direction to include new staffing in BDT -11.0 FTE's and related operating costs.

Corrections to end dates for 3 ARPA-funded project FTEs made (per Motion 21-241) HSV9549P, HSV9553P, and HSV9554P.

Motion 22-263 added 2 project FTEs in 2022 and those are included in this package to reflect the approval of that Motion.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Reclass of PRA4681R

**Package ID #:** 372

**Category:**

**Description:** This Priority Package involves the reclass of a General Fund position. The reclass was approved in February 2022, and is effective July 1, 2022.

The Union also requested a reclass of PRA4360R, Legal Secretary to Legal Secretary II. This is not in the Exec Recommended Budget and should wait for the results of the classification & compensation study that is currently underway.

**Justification:** The reclass involves modifying a Legal Assistant position in the Civil Division to an Administrative Analyst position in the Administration Unit. The reclass does not affect the total authorized FTE count in the General Fund.

Priority Package Detail**

---

**Package Type:** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Travel

**Package ID #:** 374

**Category:**

**Description:** The Treasurer's office is requesting travel expenditures specially to provide training opportunities for staff. There are several subdomains in the Treasurer's office. Each subject, for example financial analysis, excise tax, tax collections, accounting, State Auditor requirements, and payment processing, is very specific to the duties of a county Treasurer office. The most effective way of training is to travel to local and regional locations to attend classes that are precise to our training needs. Many new laws and unfunded mandates have been created and implemented or proposed by the state legislature. It is vital for our staff to maintain the highest level of knowledge and maintain their continuing education requirements. The training/travel requested will provide updated tools to comply with changing service requirements, maintain our revenue stream, and legal liability exposure. To mitigate overall travel costs, most of this expenditure request will be used by exempt managers who will improve their professionalism and transfer the knowledge gained to their divisions.

WFOA \$1,520/person (5)

WPTA \$960/person (3)

GIOA \$1,300/person (1)

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Increase in Operating Expenditures

**Package ID #:** 375

**Category:**

**Description:** This request is to provide resources for postage for tax statements, delinquency notifications, and in-house continuing education. There is a constant 3% growth rate of new tax parcels and an increase in delinquency notifications due to the state requirements and economic conditions. Additionally, mailing, printing, and envelope costs have increased. The Treasurer's office has made efforts to reduce the growth rate by reducing envelope use and encouraging electronic payments.

To manage the educational needs of the organization, quarterly training is provided in-person and on campus. This all-hands training is designed to improve teamwork, transfer information from division managers, and solidify the organization's goals and objectives. The training provided by this expenditure is designed to be supported by division managers during their monthly and weekly meetings.

**Justification:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 Capital Improvement Program

**Package ID #:** 376

**Category:** Surface Water Management

**Description:** This priority package describes the Annual Construction Plan (ACP) and the Six-Year Capital Improvement Plan (CIP) for the Surface Water Management (SWM) Division of Conservation & Natural Resources, and reflects adjustments to the Capital (Program 513) base capital budget for 2023. Overall, the 2023 budget request for SWM Capital decreased by 26.1% compared to 2022. Adjustments are in the following areas:

- 1) Stream and River Capital (Sub-Program 003)
- 2) Drainage and Water Quality Capital (Sub-Program 008)

**Justification:** 1) STREAM AND RIVER CAPITAL (Sub-Program 003) – The 2023 budget request reflects a decrease of 15% compared to the 2022 approved budget. The Stream and River Capital sub program includes design and construction of projects to restore or improve habitat and water quality in rivers and streams. This subprogram is funded by a combination of SWM service charge revenues and grant funds.

Change from Proforma Budget

Decreases to the Stream and River Capital budget reflect decreased costs for On-Call professional services, reduced land purchases, and county overhead charges moved to SWM Operations Sub-Program 001.

Expenses are also reduced due to decreased support requested from Public Works (Interfund Professional Services), due to lack of capacity within PW to support SWM capital construction projects. New staff are requested in SWM (PP 339) to provide these necessary services, and the new labor expenses will be offset by the reduced Interfund payment SWM has historically made to PW from this and other sub-programs.

2) DRAINAGE and WATER QUALITY CAPITAL (Sub-Program 008) – The 2023 budget request is a decrease of 33% compared to the 2022 approved budget. The Drainage and Water Quality Capital subprogram provides engineering planning and analysis, project design, and project construction for drainage and water quality concerns throughout the County. SWM Drainage and Water Quality projects are funded with a combination of SWM service base charges and fund balance, Roads - Interfund Professional Services, and REET II revenues.

The Drainage and Water Quality Capital sub-program has the following main components:

- 1) Drainage and Flooding Reduction projects
- 2) Fish Passage Improvement projects
- 3) Master Drainage Planning and Water Quality Facility Planning
- 4) NPDES and water quality-focused projects

Change from Proforma Budget

Though it is a large decrease from 2022, the Drainage and Water Quality Capital sub-program 2023 budget is comparable to the 2021 approved budget. The main reason for the increase in 2022 was due to an influx of \$5M additional funding for accelerated culvert projects.

For 2023, the Drainage and Water Quality Capital sub-program is requesting \$1.1M in REET II funds and \$253k from Road Fund. SWM will use Road Fund money to augment SWM utility charge base revenues for

projects within the Drainage and Water Quality Capital Program. The REET II funding will go towards accelerating delivery of fish passage culvert projects.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - New Program

**Package ID #:** 378

**Category:**

**Description:** This is a request for adding a new program number to the Clerk's Office budget to accommodate reorganization of Clerk's Divisions.

**Justification:** In the last year, the Clerk's Office has added seven (7) additional FTEs as a result of Superior Court's addition of three (3) new judicial officers. Due to the lack of office space at the Clerk's main office and Superior Court's decision to increase court calendars on matters other than juvenile proceedings to 5 days per week at the Denny Juvenile Justice Center (DJJC), an additional 3-4 clerk staff will be assigned to our juvenile division. The assignment of additional staff will ensure we are meeting our mandated duties of accurate and timely processing of court documents as well as our duty to attend and create an independent record of all court proceedings. A new program will assist with space, budget and resource allocations as well as provide us flexibility to divide manager responsibilities if our request for a new manager is approved (see Priority Package #422).

Currently, the Judicial Case Management Juvenile Manager manages the operations of two divisions under program #233 which include both the Case Management and Juvenile Office (DJJC) divisions. Program #233 will remain in place for Case Management. A new program number will be required for the Juvenile Office division, which has been designated as Program #237.

Position Numbers that would fall under this new program number are:

#2172 Judicial Process Assistant Supervisor  
 #2009 Judicial Process Assistant  
 #2094 Judicial Process Assistant  
 #2116 Judicial Process Assistant  
 #2186 Judicial Process Assistant  
 #6774 Judicial Process Assistant  
 #2126 Judicial Operations Assistant (Request to reclass to Judicial Process Assistant – Lead per Priority Package #412)  
 #2153 Judicial Operations Assistant  
 #2199 Judicial Operations Assistant  
 #2090 Judicial Case Management & Juvenile Manager

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 39 Emergency Management

**Short Name:** Post-Pandemic Resiliency Planning

**Package ID #:** 381

**Category:**

**Description:** This package proposes deleting DEM7574P as DEM has determined for 2023 of only needing DEM7573P, a 1.0 FTE fully dedicated to Post Pandemic and Resiliency Planning for a future emergency response. The length and breadth of the COVID-19 response requires a dedicated FTE to adequately accomplish the planning and documentation required.

**Justification:** This funding requests from Snohomish County's ARPA award would continue funding a program coordinator who supported our personal protective equipment (PPE) warehousing and distribution during the pandemic response. Snohomish County was very successful in securing PPE to support hundreds of partner agencies during our COVID-19 response. While the supply chains have stabilized and our partners are now using their normal suppliers, we still have a significant body of work related to PPE. This position is responsible for ensuring we have strict accountability of the PPE that remains in our possession and for accountability for all items distributed during the response. This will be extremely important to support our compliance with the fund sources used to purchase this equipment and/or any audits of those purchases. This position will also handle any further distribution should it become necessary and develop plans for either the long-term storage of PPE or the disposal of expired PPE. Finally, this position fills the important role of documenting our warehousing operation and evaluating ways to improve both the warehousing and our distribution efforts. These lessons learned and the plans developed from them will be very helpful for future distribution of any commodities. Existing staff simply do not have the bandwidth or insights to do this, so losing funding for this position would be missing the chance to codify a key part of our overall mission to support jurisdictions and residents throughout Snohomish County.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS CD/MH Sales Tax Enhanced Services

**Package ID #:** 382

**Category:**

**Description:** HS Chemical Dependency Mental Health (Sales Tax) contracted and direct services.

**Justification:** These adjustments are made to reflect more accurately planned 2023 Chemical Dependency/Mental Health contracted and direct service activities.

Specifically, adjust many of the line items to include a 2.5% COLA contingency effective 1/1/2023. Adjust the Diversion Center and Carnegie Operations lines items based on current contracts. Adjust the Professional Services line item to reflect the 2021 & 2022 Housing Capital grant award, the 2023 Housing grant allocation, Seasonal Shelter and \$6M+ setaside for Lynnwood facility and additional BH facility.

CD/MH Sales tax collections are adjusted, based on a projected increase of 6% for 2022 and 6% for 2023. Other revenue sources are adjusted based on current actuals.

Use of program fund balance will be adjusted once remaining county departments requested have been submitted.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS Aging Services Network (1)

**Package ID #:** 383

**Category:**

**Description:** Adjustments to the Aging Administration and Long Term Care Services Network budget.

**Justification:** These adjustments are made to more accurately reflect planned 2023 Long Term Care Administration and direct services activities.

Specifically, add an estimated 3% salary COLA contingency effective 1/1/2023. Add salary contingency for 2022 out of class work assignments that may need to continue into 2023 in order to complete timely work required by state and federal grantor agencies. Increase Family Caregiver Supplemental Services that are provided directly to program clients; the increase is fully supported with federal and state grant funds. Adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in depth review of award amounts and projected program activities. Increase FTE from 0.5 to 1.0 for increased workload and additional duties, revenue backed from MTD.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 20 Pass-Through Grants

**Short Name:** HS Aging Services Network (2)

**Package ID #:** 385

**Category:**

**Description:** Adjustments to the Human Services Long Term Care and Aging Network pass-through budget.

**Justification:** These adjustments are made to more accurately reflect 2023 Aging Services funding subcontracted to local provider agencies.

Estimated pass-through amounts are based on in depth review of regularly renewed federal and state grants, new grants and contracts, and planned utilization of multiple federal COVID Response and Recovery awards received indirectly through Washington State DSHS. Adjustments reflect management's strategic assessment of continuing and enhanced program services that will best serve the unique needs of elderly and disabled community members through 2023.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Fair Park Year Round Expense Increases

**Package ID #:** 386

**Category:**

**Description:** This package contains expense increases for year round support of the Fair Park including supplies, fire protection, month to month rentals, B&O taxes, dues and training expenses

**Justification:** Due to the extraordinary inflation we are currently seeing many of our expenses will continue to increase in the 2023 fiscal year. Below are the required increases in our spending authority to be able to continue the year round operations at the fairgrounds. These increase in expenses are all offset by an increase in new revenues.

\$10,000 increase in supplies, \$5,000 for Maintenance Supplies and \$5,000 for Administration, Programs and Marketing supplies

\$8,886 increase in Repair/Maintenance to be in line with current spending and anticipated increases due to inflation

\$2,000 increase in month to month rentals, includes fairgrounds wifi costs and printing/copies

\$10,000 increase in Fire protection which includes year round and Fair time Fire and first aid safety needs

\$2,000 increase in B&O taxes due to the increased year round rentals at the Fairgrounds, we are seeing an increase in the B&O taxes we pay to the state

\$2,300 increase in training for our Maintenance team for to invest in our employees to take specific training for certification to apply pesticides to ensure we are in compliance as well as not relying on only one employee that has certification

\$800 increase in dues for our Maintenance program for licensing in pesticide use

This package is offset by an increase in fees to our RV overnight stays, we have seen increased demand over the last 3 years and plan on increasing our nightly fees starting in 2023

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Fair Park Annual Fair expense increases

**Package ID #:** 387

**Category:**

**Description:** Expense increases associated with producing the annual Evergreen State Fair

**Justification:** Inflation is higher than it has been in 40 years, we expect many of our expenses to produce the annual Evergreen State Fair to increase due to this abnormally high inflation. This is a net neutral package as these expenses will be offset by new revenue based on the renegotiated contract with the company that produces our Fair carnival as well as increased RV camping charges at the Fairgrounds.

Per RCW 49.46.020 the minimum wage increases based on the CPI-U, we use a 7% increase to account for the potential change in minimum wage based on state law. This will only be used if we return to a 12 day fair, in 2021 and 2022 we have closed on the slowest day of the fair (Wednesdays) which has saved us in extra help expense for those years. We have not decided to make this permanent and are requesting an increase of \$41,000 shared between 3 programs in case we return to a 12 day fair.

The Monroe Police Department and the Snohomish County Sheriffs office have indicated they will need to charge more for providing traffic and security to the annual Fair. We are requesting an additional \$6,000 for managing traffic and \$5,000 for sheriff's security.

\$15,000 Our bid for Shavings removal increased 40% for 2022 and we expect it to only increase more in 2023, this includes Fair and Year Round shavings removal

\$50,000 for Marketing as our marketing budget for ad buys has not increased since 2011, as the marketing environment has changed with social media and online ad buys we find it necessary to increase the amount we are spending on marketing

Other expenses we are requesting an increase due to inflation or demand:

\$20,000 for fair equipment rentals for fair entertainment (stages, temporary offices, sound equipment etc)

\$5,000 for Fair decoration rentals (pipe and drape and decorations)

\$2,000 increase to pay judge fees and travel expenses for judges

\$2,000 for operations and superintendent supplies

\$1,600 for professional service contracts pertaining to entertainment coordination

\$5,000 for creative services for our marketing

All of these expenses are offset by an increase of \$143,720 in revenue from our carnival contract, we have a \$900,000 minimum guarantee clause in the contract, currently our budgeted revenue from our carnival is \$756,280 as well as additional \$8,880 in RV revenue due to an increase in charges.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Fair Park Position DAC changes

**Package ID #:** 388

**Category:**

**Description:** This packages changes the partial allocations of 2 FTE positions from the 197 Sponsor and Donation fund to the Fairgrounds Administration Program in the general fund. In addition this package balances the 197 fund matching revenues to expenses.

**Justification:** We are requesting .30 FTE of our Fairgrounds Marketing Specialist and .25 FTE of our Prgrams Specialist to be moved from our 197 Sponsorship and Donation Fund to our Evergreen Fair 541 Fair Administration program. Our Sponsorship and Donation fund has variable revenues and is not the appropriate fund to have partial FTE expenses of salary and benefits paid from it. Our fair sponsors are sponsoring the entertainment, marketing, and production of the annual fair, this revenue is variable from year to year and having fixed salary/benefit expenses from this fund is unsustainable.

This package also reduces the budgeted revenues in our 197 sponsor fund to be more realistic with sponsorships as well as balance the fund revenue and expenses. It also increases the revenues in our 541 program to offset the additional expense as we are increasing our Fair admission.

This is a net neutral package as our increased revenues offset the increased expense. Our fair revenues were down 28% in 2021 as we temporarily suspended paid parking (estimate \$500,000 in revenue) and had decreased attendance due to the Delta variant of covid and restrictions on outdoor event attendance. We fully expect our attendance to return to normal in 2023.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR-Historic Preservation Fund

**Package ID #:** 389

**Category:**

**Description:** This packages aligns the expected expenses for the Historic Preservation workplan with the expected revenues

**Justification:** The Historic Preservation program seeks to preserve Snohomish County's archeological and historical resources, sites and districts by community programming, educational outreach, historical places marketing and the community heritage preservation grant program.

Due to increased interest rates net recording fees that are recorded to the fund are expected to decrease by \$30,000. We are removing the potential for grant revenue as there have not been grants obtained for this fund. The fund revenues have increased over the last few years due to the explosion in mortgage refinancing thus increasing recording fees and the Historic Preservation fund balance, we are using partial fund balance to offset the expenses in this fund.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>		
FUND	100	\$6,000

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR 1% Arts Fund

**Package ID #:** 390

**Category:**

**Description:** This priority package utilizes funds from Parks Capital projects and the Arts Fund balance to fund art grants and arts in Snohomish County

**Justification:** There is an expected decrease in the 1% from capital projects that will be recorded to the Arts funds in 2023 as more capital projects fall outside the maximum range of \$10 million to be included, due to rising costs and pent up capital project demand. We will be using partial fund balance to offset the decrease in revenues to continue to be able to fund Arts grants and Arts projects in Snohomish County.  
All programs supported through the Arts fund are to fulfill the Arts Commission Vision, Mission, Purpose and Goals in service to Snohomish County per SCC 2.95 as outlined through the Snohomish County Arts Commission workplan.

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 10 Assessor

**Short Name:** Assessor Housekeeping Package

**Package ID #:** 391

**Category:**

**Description:** Housekeeping - adjustments to Base Expenditures

**Justification:** Salaries and Benefits - Salary (+\$8944) Benefits (+\$1636) - 3 positions were filled in 2022 which will be due step increases in 2023. The salaries and benefits for these positions were adjusted by system calculations.

Overtime - (+\$20,000) Request of \$135,000 for OT for 2023 includes \$75,000 for ProVal-Ascend Replacement activities (testing, data cleanup, etc.) funded with I/F Labor - ProVal/Ascend (IT) and \$60,000 for annual maintenance activities. This is a \$20,000 increase from the 2022 amount of \$115,000 in anticipation of the upcoming field inspection cycle activities for Real Property Appraisal, regular maintenance activities in other divisions and increases in applications for Senior Citizen and Persons with Disabilities Exemptions.

Salary Contingency - (+\$22,876) Residential Appraisers hired in the past 2 - 3 years are eligible for career track promotions when they meet education, performance and time-in-grade requirements. Five Residential Appraisers in the Assessor's office may earn career track promotions in 2023. This line item accounts for expected increases in wages for those individuals.

Communications - (+\$4,349) Increase costs for cell service for field personnel and supervisors plus service for iPads used for field appraisal data entry.

Postage - (+\$18,845) Increase to cover expected postal rate increases from USPS, increases in parcel counts for Assessment Notice mailings and increases in Personal Property listings due to discovery efforts. The Base Expenditures amount of \$111,055 carried over from the 2021 budget was \$5657 less than actual expenditures in 2021. New eNotice options for taxpayers in 2023 may reduce postage and printing costs in the future. However, eNotice usage will be difficult to estimate until next year's Assessment Notice mailing in June 2023.

Meals - (+\$2,575) Increased costs to cover meals for staff traveling to in-person education classes and/or conferences outside of the Snohomish County area.

Lodging - (+\$4,300) Increased costs to cover lodging for staff attending training/education classes that require overnight accommodations for multi-day courses, seminars or conferences.

Education Fees - (+\$4,050) Increased costs to cover tuition/fees for continuing education or mandated courses for Assessor's staff. Includes some funds previously included in Registration Fees.

Registration Fees - (-\$1,925) Decreased line item to separate registration for conferences from education fees & tuition for staff.

Dues - (\$+5,700) Increased costs for membership in professional organizations plus increased subscription costs for commercial sales data from CoStar Comps.

Revenue - I/F Chrgs - SWM Collection - (+\$1340) increased for updated wage & benefits rates.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - TES FTEs

**Package ID #:** 392

**Category:**

**Description:** Transportation Specialist:

TES is requesting a full time FTE in a lead role for Road Safety Plan management. The position will require road safety engineering experience (but not necessarily a PE) and strong interdepartmental coordination and communication skills. This position will be focused on the 6-year TIP and TNR for the Road Safety Plan program.

Right of Way Investigator III:

TES is requesting a full time FTE as a Right of Way Investigator III at the TES traffic permitting counter. There is currently only one staff person assigned to this type of work. As a result, there is minimal redundancy or capacity to address fluctuations or increases for these important work responsibilities

Office Assistant I - SE:

Supported Employment (SE) has been a very successful program for Public Works. The department currently has four half-time SE positions (2 total FTEs). One of the active SE employees has recently graduated from the program due to their success and high performance, and is being reclassified to a full time regular position. This request will backfill the half-time FTE in order to keep the total SE FTEs at two. OA I - SE assignments will include office and administrative support for the Administrative Operations and TES divisions. The position will assist with data entry into various PW and County systems, tracking and auditing records and equipment, and basic office support needs (copiers upkeep, stocking supplies, package/mail distribution, etc.).

**Justification:** Description of Workload - Transportation Specialist:

- Lead Road Safety Plan implementation based on a formal program to be established in 2022.
- Review and update traffic and safety data.
- Plan and prioritize safety projects and actions for implementation across divisions and departments.
- Coordinate and collaborate with other divisions, departments, and organization for safety projects, programmatic measures, communications and outreach, and enforcement to prioritize and maintain a safety culture at the County.
- Manage work order process through Traffic Investigators, manage smaller safety projects for design by Traffic Operations or Program Planning, and programming and funding coordination with Program Planning of larger projects for design and construction by Engineering Services.

Description of Workload - Right of Way Investigator III:

- Process right of way (ROW) vacations and establishments. Most of this work is development driven and requires organization of many details in a timely manner.
- Provide project collaboration and assistance with the current ROW Investigator III to increase timeliness of processing.
- Provide complex ROW analysis and research in coordination with Survey and to coordinate interagency (WSDOT and City) ROW project documents.
- Free up ROW team capacity for field reviews and to complete interagency WSDOT projects such as

outstanding ROW turn-backs, which are only addressed as time allows.

-Be a subject matter expert to organize historical ROW documents and complete a digitizing process within a set deadline so that County Engineer records are accessible internally and externally. This is essential to significantly reduce the records footprint and to reduce staff time spent researching ROW for developers.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 13 Human Resources

**Short Name:** Human Resources Assistant

**Package ID #:** 393

**Category:**

**Description:** Central Human Resources seeks authority and funding for a Human Resources Assistant FTE.

**Justification:** Central Human Resources has expanded functionality and continues to make efforts to centralize services. An additional Human Resources Assistant is necessary to maintain the level of services that the department has been providing. Central Human Resources will be a vital partner and key contributor to the integration and ongoing support of approximately 150 FTEs from the Snohomish Health District. In addition, the department will lead in the implementation of recommendations made in the countywide compensation and classification study. The day-to-day workload in the department is consistently increasing:

Requisitions continue to increase annually

2022 YTD (June 22, 2022): 706

2021: 1039

2020: 611

Reclassifications continue to increase annually

2022 YTD (June 22, 2022): 105

2021: 150

2020: 118

This position will help in all areas of Human Resources functionality, including benefit administration, Civil Service administration, employee and labor relations, wellness, people analytics, recruitment, and policy development and training.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 13 Human Resources

**Short Name:** HR Policy Analyst Position: Project to Regular

**Package ID #:** 394

**Category:**

**Description:** Central Human Resources is requesting that the Human Resources Policy Analyst project position (HRS7501P) be made a regular position.

**Justification:** The Human Resources Policy Analyst project position was established to administer the successful launch of NeoGov modules Onboard and Learn, train employees, and implement necessary policies and procedures. In doing this work the Policy Analyst identified gaps in existing policy and policy development needs in other areas. While there is still a need to establish policies and procedures for the successful implementation of these modules, the overall need for ongoing policy development and maintenance continues.

The Policy Analyst will enhance Central Human Resources' responsibility to manage risk as it relates to compliance with Federal and State laws relating to employers. There is an ongoing need to keep current on changes in law and review existing processes and policies to ensure they are in compliance with legislation, Snohomish County Code, and regulatory standards.

Further, the 2019 Human Resources audit recommends three significant undertakings that would be best completed by the Policy Analyst:

1. Develop policies and procedures that specify the responsibilities of supervisors and managers with respect to matters of compliance and risk.
2. Develop clear policies and procedures and the implementation of an adequate and authoritative oversight program designed to identify noncompliance and to recommend corrective action.
3. Develop and implement document retention policies and procedures that reflect best practices.

It is paramount that Central Human Resources continue in its efforts to establish clear process and procedures to ensure consistency across the County.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 13 Human Resources

**Short Name:** Software for Leaves and Accommodations

**Package ID #:** 396

**Category:**

**Description:** Central Human Resources is requesting software to move toward centralization of leaves and accommodations.

**Justification:** The current decentralized leaves model has resulted in inconsistencies across departments in multiple aspects of leave of absence administration; employees are not receiving their entitlements, accommodation issues are not timely addressed, leave calculations are inaccurate and codes are applied incorrectly, and laws and policies are interpreted and applied inconsistently. This subjects the County to significant risk including negating the validity of leave designation altogether if challenged, allegations of discrimination for disparate treatment around leave designation/approval, perception of unfair treatment, and extra leave being granted or too little being applied.

Utilizing a centralized leaves software will allow Central Human Resources to support employees and managers during leave of absence and accommodation processes, develop training and communications, and collaborate on strategic goals. Rather than dedicate efforts to data entry and other administrative burdens, Central Human Resources will be able to:

- Transition, track and manage accommodations and L&I cases
- Operate with consistency (using same library of templates) and accuracy
- Meet mandated timelines (with integrated notifications and reminders at every step)
- Increase legal compliance and reduce risk due to the small number of specialized staff working in the system

Central Human Resources is conducting an RFI to get a better understanding of available software options on the market and assess program functionality and limitations.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 13 Human Resources

**Short Name:** Human Resources Business Partner

**Package ID #:** 397

**Category:**

**Description:** Central Human Resources is requesting the continued funding of Human Resource Business Partner position HRS7504R.

**Justification:** The 2022 Council adopted budget includes the FTE authority for a Human Resources Business Partner, but did not include the corresponding budgetary authority. This position remained unfunded when the BDT was prepared for budget submission. By Motion 22-276 on June 28, 2022 Council funded this position effective August 1, 2022 with the department absorbing any additional costs in the event the position is filled prior to August 1, 2022. This authority was due to increased service demands in multiple areas, including the upcoming integration of the Snohomish Health District and associated increase in workload. The request in this package is to continue that funding so that these increased service demands can continue to be met.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Cleanup Event

**Package ID #:** 398

**Category:**

**Description:** This package contains a request for a solid waste cleanup event for the residents of unincorporated Snohomish County.

In the adopted 2022 Snohomish County Budget, Section 9 was added to Attachment #1:  
Section 9. Budget notes and conditions.

(A) Budget Note. The 2022 budget is adopted with the following statements of County Council intent and requests for information or agency action:

(1) Solid Waste Cleanup. Council requests that Public Works/Solid Waste staff provide options for a free solid waste cleanup event in unincorporated Snohomish County, providing proposed budget and any code amendments necessary to implement the event. Council requests the analysis and options be presented to council at the Public Works infrastructure Committee prior to April 15, 2022.

On March 18, 2022, Public Works requested additional time until May 2022 to present this information to council. Subsequently, the Solid Waste Division has experienced a high degree of operational impacts due to limitation of containers from Republic and rail export from Burlington Northern Santa Fe. This has diverted staff time and energy to triage this emergent health and safety issue and limited the amount of time to prepare the full material necessary to respond to the Council budget note. We respectfully ask for additional time to respond to this budget note until we can stabilize the flow and export of solid waste.

### Analysis

This serves as an analysis for options to provide a free one-time solid waste cleanup event in unincorporated Snohomish County. The Solid Waste Division (SWD) conducted this analysis and considered operational, financial, and code changes.

### Operational Considerations and Assumptions

The Solid Waste Division analyzed this budget note and determined the following:

- 1) There are currently 138,681 total housing units located in unincorporated Snohomish County. This number includes 99,639 single family residences (SFR).
- 2) Snohomish County has not held a cleanup event of this nature, so we do not have historical data to estimate the participation rate. To help fill in this data gap, we polled local jurisdictions that held similar cleanup events and found that the average participation rate was 10% of the households. We also noted that other jurisdictions limited each resident to one load per cleanup event. Since curbside collection in cities is mandatory, we feel the participation rate in unincorporated Snohomish County will be higher, as these households do not have a regular means to dispose of solid waste. Based on the above, we estimate that 25% of the households in unincorporated Snohomish County will participate in a cleanup event.
- 3) Based on a participation rate of 25%, it is estimated that a cleanup event for unincorporated Snohomish

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Cleanup Event

**Package ID #:** 398

**Category:**

County will generate 34,670 customers.

4) The SWD focused on options that utilize existing facilities and infrastructure to host a free solid waste cleanup event. The SWD currently processes 4,500 customers with solid waste per weekend. The SWD estimates that 40% of our hand-unload customers originate from unincorporated Snohomish County. These customers frequent all of our fixed facilities, but especially utilize the Drop Box Facilities. We estimate that the cleanup event will generate 5,547 "additional" customers (i.e., unincorporated households that have curbside but will utilize the cleanup event to dispose of their extra refuse).

**Recommended Approach**

Based on the above, we strongly recommend that a cleanup event be several months in duration. For instance, if the event was 3 months long, the customers utilizing a cleanup event would be spread out over a longer duration and we would be able to handle the "extra" customers without excessive staff and facilities. SWD proposes Q2 2023 as this is the lowest flow time of year. However, we recommend evaluating the ability of the SWD to accept additional solid waste flow given the ongoing impacts of hiring county staff, limitation of containers from Republic and rail export by Burlington Northern Santa Fe.

The SWD recommends a voucher system be utilized to ensure an equitable distribution of the free one-time solid waste service. This will also provide a mechanism to track usage and manage costs. The SWD recommends the following:

- A. Each household in unincorporated Snohomish County will receive by mail a voucher which can be redeemed at any Solid Waste Facility as a payment for disposal fees
- B. The voucher will be printed on unique card stock with sequential numbers to enhance visual proof of authenticity and minimize fraud.
- C. The voucher can be used for the following fees: Garbage, Yard/Clean Wood Debris
- D. The voucher has a defined redemption value (no change will be issued)
- E. Each voucher can only be used once and must be presented to the site attendant when assessing the fee
- F. Only one voucher can be claimed per trip
- G. Only one voucher may be used per household
- H. The voucher can be redeemed at any time during the event duration
- I. The voucher cannot be used to pay an unsecured load fee

**Code Changes Required**

Snohomish County Code 7.41.020, states: "All persons using a county owned and operated solid waste disposal system facility shall pay the service fees set forth in the solid waste service fee schedule." A change to County Code, via legislation, would be required to allow for the proposed cleanup event.

**Justification:**

Financial Considerations

A free cleanup event for the unincorporated households of Snohomish County will have the following financial impacts:

Voucher Printing: \$0.15/each Total \$20,802

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Cleanup Event

**Package ID #:** 398

**Category:**

Postage: \$0.44/each Total \$61,020

Processing Costs: \$4.07/ton Total \$25,399 (all labor and equipment already included in SWD 2023 baseline budget)

Waste Export Fee \$53.88/ton Total \$336,246

Total Cost: \$443,467

Total Cost Above Baseline Budget: \$418,068

The SWD proposes the following for a free solid waste cleanup event for the residents of unincorporated Snohomish County based on operational, financial, and code changes research:

Voucher worth up to \$20.00 (minimum fee)

Estimated cost = \$443,467

This option would allow each household (customer) to dispose of up to 360 pounds of solid waste for free. Each household will be provided with a single voucher worth up to \$20.00 which corresponds to the current minimum fee to dispose of solid waste. The customer will be responsible for the delivery and unloading of solid waste at any solid waste facility during the duration of the 90-day event and can redeem the voucher for up to the full value of \$20.00. If the disposal fee is less than \$20.00, no change will be issued. If the disposal fee is greater than \$20.00, the customer will be responsible for additional charges.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 10 Assessor

**Short Name:** ProVal Ascend Replacement OT & Project Assmt Tech

**Package ID #:** 399

**Category:**

**Description:** Overtime and Project Assessment Tech position for ProVal-Ascend Replacement project

**Justification:** This priority package addresses some of the resources needed for the ongoing project to implement the new Aumentum Assessment Administration and Mass Appraisal software systems. The Assessor's office has taken on additional responsibilities to work with the vendor, IT and the Treasurer's office to configure, test and convert to the new system, Aumentum. This work is in addition to our statutorily required work. Project work is ongoing through 2022 and will continue late into 2023 with full implementation planned for late in the 3rd quarter or early 4th quarter of 2023. The vendor has begun an iterative conversion process, working closely with Assessor and Treasurer personnel to test data and functionality each step of the way. In 2022 and 2023, the vendor will continue programming and configuring the software for use in Washington State and Snohomish County.

The Assessor's office will need OT funds dedicated to allowing supervisors, senior staff and subject matter experts to complete testing and configuration tasks in addition to their normal duties. The Overtime line item carried over from the 2022 budget for the Assessor's office includes \$75,000 for project related overtime which was funded through 002.3104244902, I/F Labor - ProVal/Ascend (IT). (The total OT budget request of \$135,000 for 2023 includes additional \$20,000 for regular maintenance work as noted in Priority Package 391 - Assessor Housekeeping Package.)

A project Assessment Technician I position (ASR1305P) was approved in the 2022 budget and funded through 002.3104244902, I/F Labor - ProVal/Ascend (IT). The position has been filled and is providing additional clerical support for higher level staff members so they can be freed up to work on conversion tasks. This position is also providing support to all divisions of the Assessor's office as projects are identified throughout the configuration, testing and implementation phases of the software project. We ask that this position be extended through 2023.

Priority Package Detail**

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - PW Changes to IT Rates

**Package ID #:** 400

**Category:**

**Description:** This priority package is to move departmental application support and maintenance into the IT rates for the Cartegraph contract.

This priority package includes \$18,500 of extra budget authority for IT to add Cartegraph Gold Support services to the PW contract.

The net cost impact of this package is zero.

**Justification:** IT has decided to assume the support and maintenance of Cartegraph technology vendor support agreements now that this has become a County enterprise solution.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 39 Emergency Management

**Short Name:** PIO Opioid Planning

**Package ID #:** 401

**Category:**

**Description:** This priority package seeks to fund .25 FTE for the existing Communications Specialist/PIO supporting the ongoing Opioid Response.

**Justification:** This funding request is to ensure DEM continues to have a full-time public information officer (PIO). The PIO fills a critical role before, during, and after disasters as they are responsible for creating messaging that helps our residents prepare for disasters; they provide information during disaster response; and they help provide information about resources available to our residents that can help them recover from the impacts of a disaster. This position also takes a lead role in training staff for our Joint Information Center and in coordinating the Snohomish County Joint Information System, a collaborative network of PIOs from agencies throughout the county.

Several years ago DEM partnered with the Airport to share a PIO. As the Airport expanded into commercial operations and needed a dedicated PIO, we partnered with Human Services and they provided some funding so they would have access to a PIO. They have since hired their own dedicated PIO and this funding would fill the gap left by that decision.

We are requesting CDMH in recognition of the amount of work we expect the PIO to dedicate to our ongoing role in the opioid response. With the strain of the COVID response lessening, we expect the work of the Opioid MAC-Group to resume with increased emphasis on public education and outreach. This position will be one of many that will contribute to those efforts. We have stretched our grant funds to the maximum to try to address the funding shortfall but do not have adequate grant funds to keep this position at a full 1.0 FTE.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Housekeeping

**Package ID #:** 403

**Category:**

**Description:** This package will realign positions in TU by resetting BDT to original pay grades and steps.

Supported Employment (SE) has been a very successful program for Public Works. SWM has 1.0 SE position. The active SE employees has recently graduated from the program due to his success and high performance, and is being reclassified to a full time regular position.

It is also requested that a Supported Employment position be maintained within SWM, in order to continue offering professional opportunities for staff with support needs. This request is for the equivalent of 1.0 FTE in a new Supported Employment position. Potential areas of needed support that could be provided by this position include GIS, fiscal functions, data entry, or other administrative work. The position will be split into two 0.5 FTEs, and will match applicant skillsets with support needs in the division. While there is a definite business need for the position, it also allows the county to maintain the existing level of participation in the Supported Employment program, as well as to provide work opportunities for diverse members of the community.

**Justification:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** Law and Justice Data Collection Initiative

**Package ID #:** 406

**Category:**

**Description:** This Priority Package requests the re-appropriation of funding authorized in the 2022 budget from the Non-Departmental Fund for the completion of the Social Justice Data Collection Initiative.

**Justification:** The Snohomish County Council appropriated funds in the 2022 budget to support the Law and Justice Data Collection Initiative (led by the Prosecuting Attorney's Office). The PAO's efforts led to the Microsoft Corporation awarding a \$250,000 grant to the Institute for State and Local Governance (ISLG of CUNY) to provide analysis and assistance in developing metrics to evaluate social justice issues in Snohomish County's Law and Justice Community. These efforts are currently underway, and the County Council is briefed regularly on its progress.

Organizations are under increasing pressure to provide operational and procedural transparency. Business Intelligence (BI) Reporting and Visualizations provides the opportunity to report data important to the Law and Justice Community and the residents of the County. Organized data from multiple sources can optimize the insight through data visualization. This project enables the PAO's office in collaboration with IT to engage with an external resource to deliver business value and define long term operational integration into standard county IT infrastructure. This is a continuation of the efforts initiated in 2021 that extends the capabilities to be focused on standard operating models for the county and enables broadening of the data sets accessed.

The solutions pull data sources together and create comprehensive reporting from multiple sources, in particular New World, which is the Sno911 call system, and JustWare, an on-premise SQL instance. Data from these systems need to be consolidated in a comprehensive manner to provide accurate reporting back to the community.

The goals of this effort are to:

- Increase visibility and create more opportunities to make data-driven changes in systems and processes
- Activate self-service reporting capabilities to empower residents with knowledge about their community

This package proposes to roll over unexpended 2022 non-departmental dollars appropriated to the project in 2022 to facilitate the project's completion.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>	
FUND 002	\$350,000
<b>TOTAL - EXPENDITURES</b>	<b>\$350,000</b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** IT Innovation Fund

**Package ID #:** 407

**Category:**

**Description:** This package represents the creation of a new program within the Information Technology Capital Fund 315 focused on innovation projects. The annual budget cycle requires long lead-time for any IT projects that support business outcomes. The nature of IT innovation is such that the planning window must be short, and the execution model leverage agile methods that a modern IT organization follows. This often does not align with the county's financial planning cycles. The new IT Innovation program will set aside a dedicated amount of funding that will be administered by a steering committee of IT, OpEx, Exec, and Business Leadership in support of innovation projects that require investment in IT solutions or technical IT resources that either do not currently exist, or where capacity is already allocated to other projects and initiatives.

**Justification:** Primary justification for this funding line is to have an agile funding model for innovation projects that meet a set of defined criteria around business value and return on investment.

Allowing for a governed IT program that distributes funding to approved technology projects that are not part of the already funded projects (during budget cycle) has been identified as a high need. The modern world of IT moves very quickly, and therefore a funded mechanism that allows for more agile decision-making without having to wait for budget cycles would provide more direct and expedient business value. New ideas and innovation arrives quickly and sometimes unexpectedly. The model for this is to use a managed governance model that provides the guard rails and decision-making model to ensure funded projects meet a set of predefined criteria.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** ARPA Funding Request

**Package ID #:** 408

**Category:**

**Description:** 24x7 SOC/MDR - \$375k in 2023 ; \$300k Recurring

An organization's vulnerability to cyberattacks is not limited to standard business hours; a cybercriminal could be in a different time zone or be a hobbyist that can only attack on nights or weekends. Some cybercrime groups deliberately attack outside of business hours to minimize their probability of detection. In 2021, the FBI released the following alert "The Federal Bureau of Investigation (FBI) and the Cybersecurity and Infrastructure Security Agency (CISA) have observed an increase in highly impactful ransomware attacks occurring on holidays and weekends - when offices are normally closed - in the United States..."

A 24x7 Security Operations Center (SOC) provides many crucial benefits to an organization. A team of analysts can provide continuous network monitoring and protection and respond more rapidly to potential security incidents. Additionally, monitoring by cybersecurity experts would reduce the daily operational burden on the County's limited IT Security resources and allow the team to focus on more strategic security activities. As the County has engaged with Cyber Insurance providers, we're hearing that a 24x7 SOC is rapidly becoming a baseline requirement for insurability.

The Information Technology Department is requesting funds to contract with an external vendor specializing in the delivery of 24x7 Security Operations Center and Managed Detection and Response (MDR) services.

PENETRATION TESTING - \$25k Recurring

Penetration testing (which is also sometimes called pen testing or ethical hacking) refers to the security process of evaluating an organization's computing environment for vulnerabilities and susceptibility to cyberattacks.

Organizations should perform penetration tests regularly to ensure their Information Technology (IT) infrastructure remains strong and well-protected. Specific benefits of regular penetration testing include:

- Validating existing security controls
- Reducing the risk of zero-day threats
- Improving new application and infrastructure deployment
- Delivering due diligence
- Auditable trail of security evaluation
- Supporting risk assessments, including improved cyber insurance insurability

The Information Technology Department is requesting funds to contract with an external vendor specializing in penetration testing to conduct quarterly testing.

ZERO TRUST SEGMENTATION SOLUTION - \$50k Recurring

Ransomware and cyberattacks need to move laterally within an organization to be successful. To reduce this risk, organizations commonly employ a security strategy called Zero Trust which treats all networks as compromised and assumes that threats - both external and internal - are always present.

You begin by identifying a "protect surface" that comprises the organization's most critical and valuable data, assets, applications and services. Next you limit access by erecting secure micro-perimeters (aka micro-segmentation) around the "protect surface." By obtaining granular control over the most sensitive applications and data, organizations can eliminate zones of trust that increase their vulnerability.

Earlier this year, IT evaluated each of the county's applications to identify an initial, limited "protect surface." We're requesting funding to purchase a micro-segmentation solution to reduce access and establish a security perimeter around those applications. Over time, the solution could be expanded with the acquisition of additional licenses.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** ARPA Funding Request

**Package ID #:** 408

**Category:**

**PROJECT PM RESOURCE (SYSTEMS) - \$165k One-time**

The IT Systems Division has multiple large, complex projects for which a Project Manager would make a significant impact. Two of the most significant projects are:

-SQL Database Migration - The County has a few hundred SQL databases that must be moved off old hardware into to our new SQL environment. Most migrations require coordination and planning between IT Engineers and Application Support, IT's outsourced database vendor, department owners and testers, and the application vendor. After a database is migrated, it can be replicated to the County's disaster recovery site in Yakima.

-Intune Implementation – Intune is a mobile device management (MDM) solution that allows IT to manage county-owned cell phones, tablets and computers. Configuration policies including security controls can be applied to managed devices and executed remotely.

The Information Technology Department is requesting funds for a one-year project position for a Project Manager to lead these and other important projects.

**CONSULTANT FOR IT DR PLAN - \$100k One-time**

An IT disaster recovery plan is a documented methodical proposal for managing situations that occur in the event of natural or human-made disasters. The steps of a disaster recovery plan typically revolve around taking actions that help a business resume its operations as quickly as possible.

Given our rapidly evolving IT environment and workplace, Snohomish County's Disaster Recovery plan needs to be refreshed. The Information Technology Department is requesting funds to contract with a 3rd party specializing in the development of IT disaster recovery plans and other related documents such as a Business Impact Analysis and Risk Assessment.

**PROJECT IT NETWORK ENGINEER - \$165k One-time**

The IT Systems Division has several projects and initiatives requiring IT networking expertise. These projects include various facility moves or changes (Bomarc build-out, DJJC remodel), refreshing network infrastructure (new wireless solution, hardware replacement), numerous security camera installations, and the Yakima disaster recovery site. The IT Network Engineering team operates with limited staffing and adding an engineer is needed to ensure timelines are not impacted by resource constraints.

The Information Technology Department is requesting funds for a one-year project position for an IT Network Engineer to assist with these important projects and support daily operations.

**SERVER INFRASTRUCTURE MONITORING - \$50k Recurring**

The Information Technology Department's existing server monitoring solution is primarily designed for on-premises infrastructure. As the county increasingly leverages the cloud, it's critical to utilize a monitoring solution designed for a hybrid environment.

IT is interesting in a solution that collects, analyzes and acts on telemetry data from both cloud and on-premises environments and maximizes the performance and availability of applications by proactively identifying problems. In addition, increased visibility across the county's server infrastructure will improve alerting and event correlation, reduce the time to repair and improve service quality.

The Information Technology Department is requesting funds to subscribe to infrastructure monitoring services capable of delivering the described capabilities.

**UPGRADE TELEPHONE SOLUTION (e.g., Teams Voice, Phones, Professional services, etc.) - \$1,000,000**

In March 2022, Snohomish County upgraded its Microsoft licensing to the G5 level which includes the rights to Teams Voice among other products. The county's current on-premises Skype for Business phone system is

---

**Package ID #:** 408

**Category:**

scheduled to go end of life in 2025, with the product line being fully deprecated.

The transition to the Teams Voice cloud-based telephone system will require comprehensive planning and design, hardware and software evaluation and assessment, implementation and testing, organizational change management, and employee education. This is a lengthy and complex project that will touch everyone who utilizes the county's telephone system.

The following is a non-inclusive list of anticipated expenditures associated with the project:

- Vendor to assist with discovery, design, planning, implementation and migration activities
- Hardware purchases - session border controllers, survivable branch appliances, replacement desktop phones and headsets
- Software subscription purchases - contact center solution, E911, cloud services
- Additional resources to assist IT staff with migration activities
- Vendor to assist with adoption and organizational change management

The Information Technology Department is requesting funding to ensure the successful, seamless, and timely execution of this strategically important technology project.

Executive Review:

Updated Pkg to move \$1M Revenue to FB.

**Justification:** This package represents IT's request for 2022 ARPA funding, for which there has not yet been allocated funding available.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Fund 315 Prior Period Adjustment

**Package ID #:** 409

**Category:**

**Description:** This package is a continuation of "Fund 315 Prior Period Adjustment" package #291 in 2022. Adjusting revenue and expenditure budgets to align with prior period general ledger entries for actual revenue and expenditure. It is designed to amend appropriation levels in the multi-year fund to more closely reflect the activity and project balances. It will improve financial reporting as it will adjust budgets to match the Technology Replacement Program (TRP) Divisions and Projects and all other active projects in Fund 315.

**Justification:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR-Parks New Communications Specialist FTE

**Package ID #:** 410

**Category:**

**Description:** Reclass position to Communications Specialist in DCNR-Parks Division

**Justification:** Due to our business restructure after divisions were combined into DCNR, we found that a Communications Specialist 1 was needed to complete specific roles within the new department. Job duties changed to fulfill these business needs.

Specific duties shifted to Communications Specialist I include:  
Administration and Coordination of the Arts Commission and Arts Fund  
Grant writing for the Arts Commission  
Community outreach for the arts to expand public support for the programs  
Implement public involvement for Outdoor Recreation  
Engage public and gather input on the Arts Fund and Outdoor Recreation

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR-Parks Fair Reclass position union contract

**Package ID #:** 411

**Category:**

**Description:** Reclass Brian Higginbotham position per the negotiated union contract

**Justification:** The AFSCME contract extension allowed for qualified mechanics to be designated as Senior Mechanics with a bump in pay. This applied Parks and Fairgrounds Services Addendum, the specific language is:

Section 2. Employees in the Equipment Mechanic Diesel classification that have eight (8) or more verifiable years of experience performing heavy truck and equipment repair work and have demonstrated the competency of a senior mechanic shall be compensated at two (2) pay grades higher than the base position. A degree or certificate from an accredited technical college/trade school may be substituted for up to two (2) years of experience.

Brian Higginbotham met the qualifications for this position reclass per the contract and his position was updated the beginning of 2022. This priority package permanently updates his position per the union contract.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 37 Clerk

**Short Name:** Clerk- Reclass JOA to JPA Lead

**Package ID #:** 412

**Category:**

**Description:** This requested change is for a reclassification of Judicial Operations Assistant position (CLK2126R) to a Judicial Process Assistant Lead.

Executive Rec:

This reclass is in package 378. The additional expenditure has been zeroed out.

**Justification:** This request is in conjunction with Priority Package #378 for a new division within the Clerk's Office.

In order to accommodate the increased workload resulting from Superior Court's decision to increase court calendars at the Denney Juvenile Justice Center (DJJC) on case types other than juvenile proceedings to 5 days per week, our office plans to reorganize and reallocate four (4) staff from the Clerk's main office to our Juvenile division located at DJJC. The reallocation of staff to the DJJC location will bring the total number of regular staff up to 9 (8.1 FTE). This division also oversees 3-4 project staff who are working on a long term (up to 10 year) permanent court record destruction project. Currently the DJJC location has only 1 supervisor and a manager that splits her time between DJJC and another division that she manages located at the main campus.

We have designated position #CLK2126R, as it has recently been vacated, and can be maintained as an open position until the effective date of this reorganization. The details of the expenditures are also presented in Priority Package 378, Clerk - New Program.

The additional Lead position will bring parity to this Clerk's Office division in comparison with the rest of the office divisions, provide needed support for the increased number of staff and reduce the span of control for the Supervisor.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - Funding for Newly Approved Positions

**Package ID #:** 413

**Category:**

**Description:** Request for funding for 2 FTE positions approved by Motion 22-215

**Justification:** The Washington State Legislature recently passed E2SHB 1320, "An Act Relating to modernizing, harmonizing, and improving the efficacy and accessibility of laws concerning civil protection orders" (ESHB 1320). Governor Inslee signed the bill into law effective July 1, 2022. E2SHB 1320 and the subsequent substitute House Bill 1901 contain significant changes to the manner in which protection order matters are heard in Washington State which will significantly impact Superior Court caseloads throughout Washington State and increase the amount of time spent on protection order matters for both Superior Court and the Clerk's Office.

Snohomish County Motion 22-015 was approved to add a 6th Superior Court Commissioner in response to E2SHB 1320, and Snohomish County Motion 22-215 was approved increasing the number of FTEs in the Clerk's Office by 2 FTEs in order to support the new commissioner and perform our increased mandated duties.

Positions CLK6574R and CLK6575R were added in response to the approved motion. We are requesting funding for these positions in the FY2023 Budget, as well as continued funding in future years

Expenditures:

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** \*

**Short Name:** DOR Admin Fee For Timber Tax

**Package ID #:** 415

**Category:**

**Description:** In 2018, Washington State Department of Revenue (DOR) launched a new tax and licensing system. Among other functions, DOR uses this system to help collect forest tax revenue and distribute each counties' share of the forest tax revenue back to them. Due to a technical issue within that new system, DOR's costs for administering the taxes have not been deducted from the local Timber Tax distributions since November 2018. This issue has resulted in the Snohomish County receiving and then distributing (to the taxing districts) excess forest tax revenue since January 2019. Under Washington state law DOR is required to recoup those administration costs.

The County Treasurer will repay the DOR for the full amount owing for all junior taxing districts so there is no need for individual junior taxing districts to remit payment to DOR. All taxing districts that received a distribution of timber tax (revenue DAC ending in 1210) between January 2019 - May 2021 will be charged (by way of journal entry) for their proportion of the administrative fee in January 2023 (to reimburse the County) so that all districts can consider their expenditure in their respective budgets. The JTD portion totals \$105,934.62, which will be fully reimbursed to the County in January 2023.

The final expenditure attributable to the County is \$84,749.09. There is an impact to County GF & Conservation Futures, HS and Roads. The breakout by County's fund is as follows, but please note the revenue DACs the excess revenue was distributed to, but the correction should be posted to expenditure (rather than reduce revenue) as the correction relates to prior years.

002-3169901210	30,211.68
102-3064441210	52,550.68

Priority Package Detail**

---

**Package Type:** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS ARPA Foreclosure Avoidance Project

**Package ID #:** 417

**Category:**

**Description:** The Treasurer's Office has developed a temporary tax aid program, funded by fiscal recovery funds, to keep qualified low-income Snohomish County homeowners from losing their home to 2023 foreclosure. This proposal uses fiscal recovery funds in response to the public health emergency and the negative economic impacts for the specified purpose of assisting households for property tax, fees, and penalties incurred prior to March 31, 2021. The proposal adheres to ARPA funding requirements in that we have identified the negative impact experienced by a population or class (low-income homeowners at risk of losing their primary place of residence by foreclosure in 2023) and the proposed program is narrowly designed to benefit the individual or class experiencing the negative impact.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 02 Legislative

**Short Name:** DEI Specialist - Council

**Package ID #:** 420

**Category:**

**Description:** Diversity, Equity, and Inclusion Specialist - Council

**Summary Description:**

The position would be responsible for implementing a Diversity, Equity, and Inclusion function within the Office of the County Council. The position would:

1. OSJ Liaison. Serve as a liaison with the Office of Social Justice within the Executive's Office. In this role, the DEI Specialist would maintain awareness of and participate in OSJ initiatives, provide input on the legislative process to the OSJ, identify opportunities for the Office of the County Council to develop and implement initiatives to further DEI.
2. Proposals, General. Develop proposals for the County Council and Chief of Staff to consider implementing both internally within the Office of the County Council and externally to other County offices/courts/departments, and community organizations and people with an interest in or affected by DEI initiatives.
3. Proposals, Service Delivery from Council Office. Develop proposals for personnel within the Office of the County Council to more efficiently deliver services and information to people who with different lived experiences including, but not limited to: BIPOC community, LGBTQ plus community, people who are disabled, people who primarily speak languages other than English, people who are lower income, residents living unhoused, residents who are living in a condition of crisis, and other people who have different lived experiences than people in positions within the decision-making process within County government. Proposals would include, but not necessarily be limited to: enhancing community outreach, facilitating focused discussions with decision-makers, and identify and facilitate training within the Office of the County Council.
4. Equity Lens for Legislative Development. Develop and facilitate implementing a method to evaluate proposed legislation to the County Council for impacts to people and communities with different lived experiences than people in positions in the decision-making process in County government.
5. Other similar duties as may be assigned.

Sample Experience: (This may not be required at this time)

The position would require a demonstrated understanding of the legislative process; experience and/or education in DEI initiatives including outreach, training, and equity lens; and experience and/or education in drafting legislation and/or budgets.

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Restoration of PRA4544R

**Package ID #:** 421

**Category:**

**Description:** This Priority Package requests the restoration of funding for a Legal Assistant position in the Criminal Division.

**Justification:** The funding for the Legal Assistant position PRA4544R in our Criminal Division was eliminated in the 2021 budget because it was a vacant position and the County had decided not to authorize funding for vacancies. For the 2022 budget, the Council held off on restoration of the funding to offset the cost of a new Public Information and Records Specialist position in the Criminal Division in 2022. The understanding was that the suspension of funding was temporary and would resume in subsequent years. In 2023, all regular vacant positions are funded in the pro forma budget except for this one position. Funding for this position in 2023 is critical for the PAO as it seeks to develop and fully staff the Complex Prosecutions Unit described in Priority Package 355. This position would become part of that unit. In addition to assisting on the complex crimes, the funding of this position would increase the number of available staff supervisors, allowing the Criminal Law Office Manager to reduce the number of staff she directly supervises which is currently 22 employees.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - New Manager Position

**Package ID #:** 422

**Category:**

**Description:** This is a request to add a 1.0 FTE Manager position tasked with overseeing the Case Management division of the Clerk's Office as well as managing projects.

Executive Review:

This package was changed to a reclass of a vacant position.

**Justification:** The Clerk's Office has 4 manager positions for 6 divisions with an average ratio of 20 staff per manager. Currently, anytime the Clerk's Office determines the need to enhance services, create efficiencies or develop and implement intensive new processes, one of the existing managers must assume the lead of the project in addition to their already overburdened duties in the management of operations and staff within their respective divisions. If approved, this new manager position would be responsible for oversight of one of our smaller divisions (11 staff) which will provide the necessary time and ability to assume the responsibility and management of projects that will enhance the public's accessibility of clerk services such as developing an electronic process for the Ex Parte via the Clerk service, online web services, online chat services for customers, and online self-pay options for digital recordings, court documents, research requests and facilitator appointment fees. These online services will create efficiencies within the Clerk's Office; advance the goals outlined in the County's Mission, Vision and Values and help fulfill the Clerk's priority of "access to justice".

The request for a new manager is also due to the Clerk's Office receiving an additional seven (7) FTEs as a result of Superior Court's addition of three (3) new judicial officers. With the addition of three (3) judicial officers, Superior Court has increased court calendars at the Denny Juvenile Justice Center (DJJC) on case types other than juvenile proceedings to 5 days per week. This increased workload will require our office to assign 3-4 more staff to our DJJC location to ensure we are meeting our mandated duties of accurate and timely processing of court documents as well as our duty to attend and create and independent record of all court proceedings. If the request to add an additional 1.0 FTE Manager is approved, the current Case Management Juvenile Manager would no longer oversee the Case Management Division and would be assigned only to DJJC to oversee all operations and staff in our juvenile division as well as manage the ongoing permanent court record destruction project (currently funded by O & M funds) which is expected to take over 10 years to complete.

The addition of another manager position will allow our office the ability to better facilitate a needed reorganization of staff resources, provide some parity amongst managers as well as relief in the area of managing any projects that could provide enhanced customer services and efficiencies within the office.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - CDMH Staffing Realignment

**Package ID #:** 423

**Category:**

**Description:** This package represents the reallocation of staffing related to Mental Health and Therapeutic Drug Courts

**Justification:** Program 235 - .1% focuses on activities related to chemical dependency and mental health/therapeutic courts and include drug courts, involuntary treatment act (ITA) and drug offense sentencing alternatives. The Chemical Dependency/Mental Health (CDMH) .1% Sales Tax provides the funding for these activities.

Per RCW 2.32.050, courtroom clerks are required to be present during all Superior Court proceedings. Courtroom clerks attend all hearings and trials to prepare complex and detailed, contemporaneous minutes and exhibit indexes, maintain control of all exhibits, court documents, and act as liaison and provide assistance to Judicial Officers, the public and attorneys on behalf of the Clerk's Office.

This package realigns staffing within programs 233 (Case Management), 235 (Courtroom Operations), and 235 - Fund 124 Human Services – Subfund: 002- 1/10% Sales Tax to reflect actual time spent by staff in hearings and processing documents for Mental Health and Therapeutic Drug Courts.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 18 Facilities Management

**Short Name:** New Position - Fleet Services

**Package ID #:** 424

**Category:**

**Description:** The Fleet Services Division of the dept. of Facilities & Fleet proposes adding one new FTE, a Special Projects Coordinator, to coordinate the fleet electrification program, administer a warranty recovery program, and research and develop technical bid specifications for a variety of equipment and vehicles, including EVs and newly developing electric-powered equipment. The position would report to the Fleet Services Director. A great deal of research and coordination is needed to implement an efficient and cost-effective fleet electrification and ensure that EVs meet the business needs of departments. Working with departments, researching and developing specifications for job-specific and specialized electric vehicles, seeking grant funding, determining charging needs and locations throughout the county, preparing status reports and coordinating with other local agencies on electrification and charging needs and availability are some of the EV related duties the person in this position would perform.

In recent years Snohomish County has had difficulty getting timely warranty and recall services performed by local dealerships due to a growing shortage of qualified automotive and equipment technicians. This results in prolonged downtime for critical assets such as Sheriff vehicles and Public Works equipment. In addition, many times the workmanship done by dealerships is poor, requiring county staff to rework repairs. In one recent incident a critical law enforcement vehicle was intentionally sabotaged by a Dealership employee in an effort to cause a warranty repair to become a customer-pay repair, which would be higher paying for the employee. The incident is being investigated by the Everett Police Department. While an isolated incident, it is a symptom of a growing problem we face in getting quality warranty repairs in a timely manner. Manufacturers such as Ford Motor Company and PACCAR have encouraged Snohomish County to perform in-house warranty repairs and seek compensation through the manufacturer's warranty recovery program. Over the past decade Fleet Services has made great strides in standardizing the vehicles, trucks and equipment in the fleet. Standardization leads to better technician familiarity with the hundreds of vehicles in the fleet and reduces the need for training from multiple manufacturers. It also standardizes tooling and diagnostic equipment and reduces the spare parts inventory needs. Standardization also makes our technicians experts in specific makes and models, and this expertise is recognized by manufacturers. Performing warranty repairs in-house will reduce downtime, reduce transportation time and cost, and ensure good quality work when performed by county ASE master technicians. It is estimated that within a few years warranty recovery could exceed \$100,000 per year.

Vehicle and equipment bid specifications are complex and time consuming. Procurement rules do not allow the County to piggyback onto most nationwide or state cooperative purchasing agreements. Bid specifications need to be carefully developed to ensure that the county gets high quality equipment with good manufacturer and dealer support, including parts availability. We need to ensure that the equipment will be dependable and have the lowest possible maintenance cost. Standardization and ensuring good manufacturer support are critical things to consider in bid specifications and award. As vehicles and equipment become more complex, so do bid specifications. Fleet Services is facing a backlog of equipment ordering due to lack of staff to develop bid specifications. A dedicated employee is needed to take on this work.

The employee in this position would also assist the Fleet Services Director with new initiatives, budget development and monitoring and long-range planning. The employee would manage the division in the director's absence.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** Afford. Housing & BH Sales Tax

**Package ID #:** 425

**Category:**

**Description:** Adjustments to the Affordable Housing and Behavioral Health Sales Tax budget.

**Justification:** These adjustments are made to reflect more accurately planned 2023 Affordable Housing and Behavioral Health Sales Tax activities. Revenue was estimated based on a current full-year project of CDMH receipts, less an estimated of \$2m for a local government which authorized their own sales tax. The expenditure line item has been added to balance the program for 2023. Please note that, in this expenditure line item, \$2.6m is reserved for the operation and maintenance of the two motels being purchased with ARPA/CLFR funds. This amount is based on an estimated cost of \$20,000/room/year for 130 rooms in the 2 motels. (Please note that this estimate is slightly higher than was provided in the draft 1590 Business Plan due to an increase of 10 rooms from 120 to 130). It also includes another \$2.6m for services to the individuals residing in those rooms. The balance of expenditures will be outlined in the final 1590 Business Plan approved by Council later this year.

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 33 Medical Examiner

**Short Name:** Portable x-ray machine

**Package ID #:** 426

**Category:**

**Description:** This priority package is for purchasing a mobile x-ray machine.

**Justification:** The ME's office is requesting funding for a portable x-ray.

A portable x-ray would be incredibly useful in the event of a mass fatality.

A portable x-ray would additionally be necessary in the event that the Lodox x-ray machine (our soon to be "daily driver") needs maintenance. We would be able to use the portable x-ray during the time the Lodox is down for maintenance.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Fair Park Fund 180 Capital

**Package ID #:** 429

**Category:** Other

**Description:** As describes in SCC 4.87 the Reserve Fund for Evergreen Fairgrounds Capital Improvements was established in 1993 to account for and accumulate monies for expenditure on capital improvements or acquisitions at the Evergreen State Fair Park. It also accounts and accumulates funds for relief should there be a Fair Park operational deficit, this is considered the Rainy Day Fund with a minimum of \$250,000 held in reserve. When the fund took on debt service in 2011 we established an Additional Reserve of \$300,000.

The source of these funds are generated by deposit of 10% on all building and grounds rentals, admission tax and surplus of Fair Park operating as determined at the conclusion of each budget cycle.

This package includes the 2023 Budget for planned new capital expenditure (Machinery/Equipment and Construction) and off-setting revenue only. The base costs such as Repair and Maintenance, debt service (prior capital), interfunds and reserves are in a non-capital project (Pkg#428).

**Justification:** Snohomish County Evergreen State Fair Park is the largest attended recreational facility in the region and provides service to participants and visitors from throughout the Western United States. The 193 acre complex including 53 buildings and almost 400,000 square feet of indoor space, more than 1,000 events and activities are held annually. It is the desire of Snohomish County that the facilities be well maintained and improved upon to meet the needs of our community for years to come. A Master Plan was completed in 2015 which provides the tone and direction for long term success.

The focus of the reserve 180 fund in 2023 will be on the renovation of existing facilities to protect structures, preserve existing revenue sources and leverage opportunities to expand customer use of the facility year-round.

Specific large projects include:  
Covers for Bunkers – NPDES Requirement  
Drainage/Culvert Repair and Improvements – NPDES Requirement  
Capital Equipment Replacement  
Highway 2 Frontage and Walkway  
Beef Judging Arena

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 11 Auditor

**Short Name:** Outreach and Inclusion Package - Auditor's Office

**Package ID #:** 431

**Category:**

**Description:** Snohomish County is growing more diverse. Our local community and democratic institutions are strengthened by everyone's participation, yet barriers to participation exist for many in our community.

This priority package aims to improve voter participation and the voting experience for those facing knowledge, language and other barriers.

This priority package would provide funding to translate targeted materials relating to voting, including how to complete and return ballots accurately, important deadlines in the registration and voting process, how to return voted ballots, and what to do when your ballot signature has been challenged.

This priority package would also support the production and distribution of public service voter education ads in targeted community newspapers, on social media and in other venues with the goal of meeting voters where they are with information tailored to their needs.

Elections Contract Services = \$50,000

Elections Advertising =\$50,000

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks Changes to IT Rates

**Package ID #:** 434

**Category:**

**Description:** This priority package is to move departmental application support and maintenance into the IT rates for the Cartegraph contract.

The net cost impact of this package is zero.

Parks share is \$29,146. For this year, because of the late notice that it is being moved to IT, the full amount is being expensed to program 430. In subsequent years, the expense will be dispersed among all Parks programs that use Cartegraph.

**Justification:** IT has decided to assume the support and maintenance of Cartegraph technology vendor support agreements now that this has become a County enterprise solution.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** Energy Sustainability FTE in Facilities, not DCNR

**Package ID #:** 503

**Category:**

**Description:** The Office of Energy Sustainability is moving from fund 511 to GF still within DCNR (pkg 501). As such, the plan was to move both fund 511 FTEs over to GF.

The Facilities Dept, in their pkg 317, has requested an Energy & Sustainability FTE, NEW1808R.

With the collaboration of DCNR & Facilities, the decision was made to let Facilities have 1 of the 2 OES positions. Instead of transferring the position, this package will zero out the CNR position (7434R) and Facilities package 317 will add the position (NEW1808R).

The net growth to energy/sustainability related work will be zero.  
DCNR's OES will decrease by 1.0 FTE, General Fund 002  
Facilities will increase by 1.0, Fund 511

**Justification:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 18 Facilities Management

**Short Name:** 18 - Facilities CIP for DJJC Project

**Package ID #:** 507

**Category:**

**Description:** The current DJJC footprint completed construction in 1998. The facility included a secure detention area that had 124 beds. Juvenile caseloads have sharply declined since 1998 and juvenile detention rates have significantly dropped accordingly. Within the last 5 years, 4 living units within the secure detention center were made available for repurposing. The county decided to repurpose this space into the current Behavioral Health Organization's adult treatment facility. Discontinuing the use of these 4 living units dropped secure detention's total bed capacity to 72, as it stands today.

Plans have been underway to further reduce the detention footprint in order to be commensurate with the average daily bed rate of less than 10, and to also provide efficiencies within operations and staffing patterns. The remodel plans have been created in conjunction with Facilities over the last 2 years. This plan will reduce bed capacity to 36, which is well above the average daily population. More importantly, this will allow the court to create further budget reduction and efficiencies within the near future. This is the best path forward to ensuring that the juvenile detention operations are fiscally responsible.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 18 Facilities Management

**Short Name:** 18 - Facilities CIP for Auditor's Election Space

**Package ID #:** 508

**Category:**

**Description:** This package requests funding to remodel the first floor of Admin West and to retrofit additional contiguous space in Admin West to gain greater Elections operational efficiencies and enhance election security.

EXECUTIVE RECOMMENDS use of REET 1 for the General Fund portion of this project.

The goal is to gain enough square footage of contiguous office space so that the Elections and Voter Registration Divisions can conduct Presidential Elections on campus within one building. Every four years a massive effort is undertaken to move the entire elections operations to an off-site location. This relocation requires an immense amount of time and energy from not only the elections staff, but also Facilities Management and the Department of Information Technology. In addition, costs to lease and retrofit these spaces as well as ensure high level security does not come cheap. The county has already invested heavily in these relocation efforts to the tune of approximately \$2 million. With greater numbers of registered voters, each countywide election gets bigger. It is difficult to conduct a large countywide non-Presidential election within the space we currently occupy in Admin West combined with the space we lease across the street from the county campus.

Cost Breakdown:

REET 1 = \$3 million

Elections Equipment Reserve Fund = \$1.5 million

HAVA 3 Grant = \$475,000

ARPA funds = \$500,000

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 24 District Court

**Short Name:** AOC Grant for Mental Health Court

**Package ID #:** 509

**Category:**

**Description:** District Court provides alternatives to traditional criminal court processes through Mental Health Court for individuals with mental and behavioral health issues. District Court's Mental Health Court provides valuable services to its participants and does not have adequate funding to provide many of these resources needed for best practices in serving this population. These grants will allow the Court to increase the resources available to Mental Health Court.

District Court submitted a grant application, and was awarded grant funds in the amount of \$105,775.00 by the Washington State Administrative Office of the Courts to support Mental Health Court through funding for a 1.0 FTE Therapeutic Court Case Manager and other services from July 1, 2022 through June 30, 2023.

District Court submitted a grant application, and was awarded grant funds in the amount of \$90,824.00 by the Washington State Administrative Office of the Courts to support Mental Health Court through funding to increase the Mental Health Program Coordinator from 0.5 FTE to 1.0 FTE, and to increase the Mental Health Court Legal Process Assistant II from 0.5 FTE to 1.0 FTE for the period from July 1, 2022 through June 30, 2023.

This package represents the 2023 portion of the grant activity.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 14 Information Technology

**Short Name:** Snohomish County BroadBand Fiber to the Premise

**Package ID #:** 510

**Category:**

**Description:** This package represents the budget authorization related to a direct grant award from the Washington State Department of Commerce, Broadband Office to Snohomish County for over \$16 million in federal recovery funds for broadband improvements in Snohomish County. The project will construct a Fiber to the Premise (FttP) network along or near the State Route 530 Corridor from the City of Arlington to the Town of Darrington. The communities to be connected include Bryant, Trafton, Cicero, Oso, Rowan, Hazel, Swede Heaven, Whitehorse, and Darrington. The proposed project will enable gigabit fiber connectivity to approximately 4,510 addresses.

Snohomish County will partner with Ziplly Fiber for the construction of the fiber network. Fiber will be installed along existing aerial copper lines and micro-trenched along existing public road right of way. Network electronic equipment will be placed in existing Central Offices in Arlington and Darrington and in newly placed Remote pre-fabricated huts in Oso and Swede Heaven. Fifteen distributive splitter hubs will be placed across the network, with 13 attached to existing poles and 2 placed in pre-fabricated huts along existing buried routes.

This network will provide increased broadband speeds and a more resilient network which would allow additional opportunities for regional commerce and job growth by enhancing small business opportunities, promoting online education, and creating remote work options to communities that have historically suffered from being underserved and unserved. It will enable thousands of families to gain access to high-quality affordable broadband that has previously been unavailable to them.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** \*

**Short Name:** Corrections Staffing Contingency

**Package ID #:** 511

**Category:**

**Description:** The Sheriff's Office Corrections Bureau revenue estimate for Charges for Detention is based upon the 2023 rate structure and the existing reduced average daily jail population based upon applicable Covid-19 standards and protocols to maintain a safe facility for staff and inmates.

This package provides for up to \$750,000 of contingent authority to be transferred to the Corrections Bureau if/when the actual rate of receipts exceeds the baseline budget amount of \$10.4M. This will be tracked monthly. Up to \$250,000 will be transferred in April, July, and October if the rate of collections is on track to achieve the baseline of \$10.4M plus the additional \$750K additional target. These transfers will be proportional to the amount of receipts as compared to the additional \$750K target.

Priority Package Detail**

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR - Coop Ext ARPA Funded Project Position

**Package ID #:** 516

**Category:**

**Description:** One year position funded by ARPA. Total ARPA funding is \$100,000.

**Justification:** WSU Extension Glacier Peak Institute (GPI) provides outdoor adventures and hands-on projects to youth in the Darrington, WA area in order to help youth develop creative thinking, problem solving, social and technical skills, and expand their environmental and local historical knowledge. GPI serves the most remote, highest poverty, and lowest income community in the county where many resources never reach. This program promotes strong and healthy communities and healthy childhood environments and targets low income households and populations. With the ARPA funds we will hire one Program level position to help reach a broader audience and support volunteers.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** OES grants for Weatherization Program

**Package ID #:** 517

**Category:**

**Description:** This priority package reflects an increase in grant funding for the Weatherization Program in the Office of Energy and Sustainability (OES). This package requests three new positions in OES as well as the technology supplies for each new employee, and one new vehicle that will be required to implement additional weatherization improvements.

**Justification:** The Weatherization Program previously received grant funding from the Department of Ecology, but the latest set of grant funding is being directed through the Bipartisan Infrastructure Law (BIL). The amount of this grant funding has been significantly increased and is secured for the next 5 years. The Weatherization Program also received increased grant funding from another State grant, the Weatherization Matchmakers Program, as well as increased funding support from Snohomish PUD.

In order to implement additional weatherization improvements with the additional grant funds, three new positions are needed. All expenditures for the additional weatherization improvements, three new staff positions and necessary supplies and vehicle are 100% reimbursed by the grant funds, so no additional County funds are needed.

## **Proposed Budget for 2023**

**Dave Somers, Snohomish County Executive**

***Tuesday, September 27, 2022***

### **Introduction**

Good afternoon. I would like to welcome everyone here today. It's great to see you.

Before I get into our budget proposal, I'd like to offer my profound thanks to all of you who have been helping with the Bolt Creek Fire response. Like most natural disasters, it started suddenly and exploded through the upper Skykomish Valley before most people knew what was happening. Hundreds of people, both locally and regionally, sprang into action. From fire agencies to law enforcement, DEM and Human Services, people rushed to help residents of the Sky Valley and hikers who were caught in harms way.

This response hasn't been theoretical to me. I live in East County, and like so many of my neighbors, I have seen firsthand the incredible response while feeling the concerns of living so close to the fire's front line and heavy smoke.

While the fire is still burning, we are in much better shape today than we were just a few weeks ago. On behalf of the many small businesses and communities I love, I'd urge everyone who may be driving along US2 in the coming months, to stop in Index, Gold Bar, Sultan, Monroe and the other towns in the Sky Valley to get a meal, buy something, or fill up your gas tank. Let's help to get our shared economy thriving again.

Since my first days in office, I have believed that the cornerstone of all our work is partnership. I want to offer my thanks to all of our partners here in the County: County Council Chair Megan Dunn, Vice Chair Jared Mead, Councilmember Nate Nehring, and Councilmember Sam Low. I'd like to thank our Auditor Garth Fell, Assessor Linda Hjelle, Clerk Heidi Percy, Prosecuting Attorney Adam Cornell, Sheriff Adam Fortney, Treasurer Brian Sullivan, and the Judges of Superior and District Courts. We know that needs always outpace available resources, and I appreciate the thoughtful approach you take to our collective need to be responsible with taxpayer dollars.

I want to thank our budget and finance staff who always give us smart, pragmatic advice as we put our budget together.

I also want to thank every Snohomish County employee. There are so many times when I'm out in the community and get thanks for the work you do. There are county employees working around the clock to serve our residents, and we are extremely grateful for what they do every single day.

Whether it's a wildfire, a pandemic, or the day-to-day business of running county government, collaboration is the key to our ability to serve our residents. We work to establish goals and move forward together toward those goals as quickly as we can. We may not always agree on every detail, but we keep the interests of Snohomish County's residents first and foremost in our work.

This year we had one big advantage: the federal government granted Snohomish County an additional \$80 million dollars for pandemic recovery. These one-time dollars can be used for strategic, long-term investments, supplementing our regular budget dollars and giving us leverage to achieve even more. We want to be wise and careful stewards of these funds, and I believe we have found key areas for high impact outcomes with key input provided by our residents.

Today, I'd like to talk about how we plan to: improve public safety; make progress on the challenges of homelessness, community health, and affordable housing; prioritize equity in everything we do; ensure we are supporting our workers and economic growth; and invest in climate resilience.

### **Public Safety**

As it has been for many years, public safety remains our top priority, and we put money where our mouth is by spending over 75% of the county's general fund on the law and justice system. The public has a right to expect that those who commit crimes be held accountable and that we are continually working to make our justice system more just. I strongly believe that we can do both. While those who are accused of crimes deserve a fair justice system, our residents also deserve to know that domestic violence, drug trafficking, and other threats to public safety are taken seriously and people are held accountable.

Our public safety investments will achieve three goals: one, increase funding to bring those who commit crimes to justice; two, increase transparency efforts to work toward making our justice system more just; and three, attack the fentanyl crisis with every tool at our disposal.

Over the last few years, we have made big investments in public safety. Those include adding deputies, detectives, and deputy prosecuting attorneys, ensuring that crimes are investigated and prosecuted. We have also worked to resolve court backlogs and ensure access to justice by adding two new Superior Court judges.

I propose investing more than \$10 million in our federal ARPA dollars to continue these efforts and build resiliency and efficiency in our Law and Justice offices by addressing workforce needs and making facilities upgrades to help ensure courts can accommodate remote trials.

We know that public safety must be built on a foundation of trust with the community. When community members feel disconnected from our public safety efforts, or even worse, feel like their community is treated differently, then our collective efforts won't make everyone safer.

Levels of staffing are important, but it must go hand in hand with transparency and accountability. This is why my budget proposes continuing to fund body cameras for our deputies. Body cameras provide benefits for both law enforcement officers and the public. It is one of the best ways to ensure there is a record, albeit imperfect, of encounters between law enforcement and members of the public. I appreciate Sheriff Fortney's support for this effort and will continue to advocate for such common-sense approaches to public safety.

There are other steps we can take to make sure our justice system is becoming more just. In our 2023 budget, we are proposing to continue funding for the County's Law and Justice Data Collection Initiative, spearheaded by Prosecuting Attorney Cornell. If we don't know what's happening by tracking data, we can't solve the problems we face, particularly those impacting historically marginalized communities. If this project is successful, we will finally have the data to determine how our justice system is serving our residents and how we might make our system even stronger and fairer.

In addition to transparency and accountability, we know that community-oriented policing works. This requires that we put our officers closer to the communities they serve. I am proposing that we place a new Sheriff's Office precinct near the airport to ensure our deputies have appropriate facilities for covering the busiest beat in Snohomish County. With this new location and improved facilities, they will be better equipped to respond to crimes and proactively patrol. There are a number of areas in unincorporated Snohomish County near the airport where a new precinct can provide quicker response times and a better distribution of Sheriff's Office assets.

Better policing also requires attracting and retaining good people with a commitment to serve the community. I am proposing better, more competitive pay for Snohomish County Sheriff's Office deputies. Like most law enforcement agencies across the region, the Sheriff's Office needs to keep the professionals they have now, while also recruiting new deputies. We currently have over 30 unfilled deputy positions, and I'm hoping these proposals will help attract new candidates to ensure we have our full contingent of deputies to address crime across the county.

I'm also proposing investments in new fire training facilities to ensure our fire fighters and paramedics can keep their skills honed to the highest level possible. As we saw with the Bolt Creek Fire, we can expect more significant fires in western Washington, and we need the best possible training facilities to ensure we continue to have the very best firefighters who can quickly respond to any crisis.

One important investment that I've included in my budget is upgrading security for our elections. County government is the cradle of our democracy, the level of government that has the profound responsibility to ensure our elections are free and fair. By consolidating our elections functions in one county building, and upgrading transparency and security, we can ensure that our elections will continue to be among the freest, fairest, and most secure in the world. Our consolidation of elections functions will also save money in the long run, because we will not need to lease office space every four years.

There is no question that substance use disorder is a major public safety risk. We have seen the opioid epidemic take a very sinister turn over the last year. One of the greatest single threats facing our residents is the flood of fentanyl onto our streets. Fentanyl is 100 times stronger than morphine and much easier to transport. In fact, we have heard that in Snohomish County, Fentanyl pills sell for a buck

or two, whereas in other parts of the country, they can go for \$30 or more per pill. This is a tragedy on multiple fronts. We are seeing counterfeit pills flood our streets, criminals are emboldened, and people are being killed. More people are becoming addicted with the resulting negative impacts on individuals, families, and communities.

But there is hope. Over the last six years we have built the infrastructure we need to address the opioid epidemic and help those struggling with substance use who too often end up on our streets. We launched the Diversion Center to make sure we had somewhere that people can go who want to get off the streets and get the help they need. We established the Carnegie Resource Center to provide services in one place. We expanded available beds for those who need in-patient mental and behavioral health treatment. And we have begun the process of expanding available housing for those who need a place to call home.

In the 2023 budget, we are proposing to increase funding to reduce the negative impacts of drugs on our communities. With additional funding, we can work regionally and leverage federal, state, and local resources to make progress. The problems associated with the drug epidemic won't be solved quickly, but we are on the right path.

The hard truth is that we cannot solve the challenges of fentanyl, opioids, and substance use on our own. Decisions made at the national and state level have huge impacts into the tools we have available to help people and hold traffickers accountable. The State Legislature will be working on this issue this coming session, and we are fortunate to have key lawmakers in this discussion from our delegation. I look forward to working with them to underscore the urgency and real challenges we are facing, while working together to find compassionate, smart solutions that help people who need it and deliver justice to the bad actors profiting by exploiting the vulnerable.

We know that the public deserves safe communities and a justice system that serves all. The spending we are proposing for 2023 will make progress on our work over the last few years.

### **Community Health, Homelessness, and Housing Affordability**

I have already mentioned the nexus between public safety, behavioral health, and homelessness. I'd like to talk a bit more about some of the investments I'm proposing to ensure we are sustaining community health, helping the most vulnerable members of our community, and providing more affordable housing.

I'd like to first talk about major spending we are proposing as part of our federal American Rescue Plan Act (ARPA) funding. These one-time funds give us an opportunity to make transformative changes to improve our response to homelessness and behavioral health challenges. My plan includes nearly \$29 million additional ARPA dollars to increase and preserve housing units and expand behavioral health services across Snohomish County. Estimated budgets and programming within this \$29 million include at least \$8 million for behavioral health and substance use treatment efforts, with a focus on increasing available services through the expansion or development of capital projects, and an estimated \$2.5 million to expand public health services across the county targeted at behavioral health supports.

There is general consensus that Snohomish County does not have an adequate number of behavioral health facilities to meet county residents' needs for evaluation, treatment, and follow up. I am

proposing setting aside over \$4 million over the next five years from our HB 1590 funds to be matched with another \$3 million from the Chemical Dependency/Mental Health (CDMH) Sales Tax fund to contribute to the acquisition, rehabilitation, and construction of behavioral health facilities. These funds will allow us to continue to meet some of the overwhelming need for more behavioral health services in the County.

As I mentioned, we are looking forward to moving more people into the motels we purchased with the federal ARPA funds. With those purchases and our Shelter and Behavioral Health Partnership Program, we will be able to increase Snohomish County's shelter system capacity by 26% in 2022 alone. That's 165 more beds than we had earlier this year. And we will continue to look for more opportunities to leverage federal, state, and local funding to open more space for those who are currently unsheltered. Until we have more housing options, we will continue to see people living in encampments, on our streets, and under bridges. For the sake of everyone in our community, we must be creative and persistent, since this problem did not develop overnight. But we are making real progress.

I have already talked a bit about our need to improve community health by addressing homelessness, addiction, and behavioral health challenges. But there is even more we can do.

One of the major reasons we are so excited to be integrating Snohomish Health District with the County is because of the opportunities we will have to tackle some of our toughest challenges.

In my 2023 budget, I am proposing that we invest nearly \$3 million federal dollars in strengthening public health, through expanded direct services, including mental health services and vaccine clinics for those without other options. I also propose to invest \$500,000 of our CDMH funding for our most innovative programs. We must keep implementing strategies that have been shown to work elsewhere, making our communities healthier and safer in the process.

I'm proposing additional investments from our federal ARPA funds in our Savvy Septic program. This is one of the most high-impact programs and has proven benefits for keeping our water clean and our community healthy, particular in rural parts of the county.

I am proposing approximately \$8 million in federal ARPA funding for youth programming and facilities with a countywide focus that include recreation and violence interruption, mentorship programs, behavioral health supports, and community-led efforts to address COVID-related learning loss.

I'm very excited about bringing the health district into the county family, because it will give us opportunities to do more for our residents. And with the support of our human services team, we will have new tools in 2023 for improving the overall health of Snohomish County.

There are few things more important and more fundamental to our families than having a home. And yet housing affordability remains a serious and persistent problem. People across all income levels are having trouble affording their homes. Whether renters who are being driven out of their hometowns, to first time homebuyers who are having to move far away from our job centers, the housing market has been one of the major drivers of both economic and environmental stress.

I am grateful to the County Council for agreeing to give us new tools so that we can do our part as a county to fill in some of the gaps, since the market itself has not been able to keep up with the demand

for affordable housing. Our commitment means that we will be able to invest approximately \$20 million per year in affordable housing. By 2040, we'll have an estimated 2,000 additional units of affordable housing, thanks to these new resources.

I also appreciate the County Council's leadership in finding ways to expand our housing inventory, including making Accessory Dwelling Units and Detached Accessory Dwelling Units part of our mix. These smaller homes can help alleviate some of the pressure for housing.

While the county can't solve the problems in the housing market alone, we do have an important role to play. We won't shy away from finding solutions to problems, even if they are big and seem insurmountable. For every unit of housing we create, it means one less person who risks losing their home and living on the street. We also need the state and federal governments to increase their investments in affordable housing at all levels.

### **Creating Jobs and Economic Opportunity**

Increasing housing stock is a key lynchpin in our efforts to support a resilient, dynamic, and thriving local economy. Without adequate and affordable housing, we won't have workers who can fill all the jobs we need here in Snohomish County. But it isn't enough to just have people who can work, they need training and re-training.

I often hear from CEOs and other businesspeople that we need to continue to invest in our workforce. Without a trained and educated workforce, we will not be able to compete regionally, nationally, or internationally. Therefore, I am proposing over \$8 million dollars in ARPA spending for implementing our workforce development strategies. This will mean that people who lose a job can more quickly secure good-paying employment. It means that our young workers can enter a career field with some hard skills. It means that in a time of tight labor markets we can attract and retain more businesses right here in Snohomish County.

Fortunately, Snohomish County continued attracting businesses during the pandemic. Even at the height of the economic disruptions caused by COVID, companies were still saying: "Snohomish County is the best place for our company." But we must not become complacent. These investments in 2023 will ensure we remain attractive for both entrepreneurs and a diverse range of companies of all sizes.

One other area that we plan to make new significant investments is in childcare. It has become even more obvious since the pandemic that a major barrier to some joining or returning to work is the lack of adequate childcare. Right now, there's a divide in Snohomish County: If you can afford to pay high costs, you can find childcare. But for all others, finding affordable, accessible childcare is nearly impossible. The effects of childcare deserts across our county impact all of us, but they have an even more acute impact on women, who are pushed out of the job market at higher rates due to the extremely high cost of childcare.

That's why we are proposing to invest \$12 million of our federal funding in expanding childcare across the county. We want to make sure that we improve access for as many families as possible, particularly in places where childcare is already extremely scarce. We also are proposing new efforts to support and expand our childcare workforce. Childcare providers are the backbone of a healthy economy, and they

need our support. These will be some of the most important investments we will make with our federal ARPA resources.

As we all know, broadband is one of the necessary bridges for economic, educational, and cultural opportunity. Our broadband deserts force people off the economic grid and separate them from opportunity. We received a significant grant from the Washington State Broadband Office to expand broadband from Arlington to Darrington on the SR530 corridor. I am also proposing in the 2023 budget an additional investment of \$5 million of federal ARPA funding to bring broadband to other parts of the county in dire need of service.

A major part of our local economy is our transportation system, and we are investing millions to ensure people and goods can easily move across our roads, rails, and waters. In our 2023 budget, I am proposing that we make some significant investments in our roads, leveraging federal and state dollars to keep our transportation network safe and functional. For example, in the 2023 budget, I am proposing to invest \$27 million in road construction for 13 projects and continue to provide maintenance for our transportation infrastructure, which includes over 1,600 miles of county roads, 205 bridges, and 200 signals. Since 2016, we have invested over \$700 million in constructing and maintaining our county roadways.

We also have a very aggressive program to advocate for state and federal funding for priority transportation projects. Some of the projects that would benefit from state and/or federal funding include upgrading the US 2 Trestle, completing SR 522, preparing for Sound Transit Light Rail stations, particularly at 164<sup>th</sup> and 130<sup>th</sup>, the SR 9 project from 176<sup>th</sup> to SR 96, and additional funding to speed light rail to Everett.

We are only two years away from light rail finally making it to Lynnwood. While this will be an incredible opportunity for Lynnwood, it will mean the world to commuters across the County who are now stuck in congestion on I-5; they'll have more options. I'm also working hard to complete light rail to Everett as quickly as possible, bringing the development opportunities that can have transformative impacts on communities from Everett to the county line.

Snohomish County's Paine Field Airport felt some of the harshest effects of the global pandemic, but I'm very happy to report that the businesses at Paine Field are once again providing goods and services across the globe and commercial service has recovered from the worst days of the pandemic, with more people travelling into and out of the Airport of Choice.

Tourism remains one of the most important sectors of our economy. We have made and are proposing more strategic investments for our sustainable tourism sector. For example, the development of a state-of-the-art mountain biking facility would be an important asset for our economy. We have heard the mountain biking community loud and clear, and we want to keep them riding in Snohomish County. This will be a multi-year project, since we have to complete a plan, identify a location, and then build it, but we are committed to filling this long-term need.

Another important area of recreation spending is in our trail network. We are in the process of connecting Snohomish County by trails north, south, east, and west. This not only expands recreation opportunities but also gives people another accessible option for moving around the county without driving.

Even after the economic shocks of the pandemic, our unemployment rate is now at 3.3%. This should give us great confidence, since even when we have major disruptions, our underlying economic infrastructure is resilient. We should make investments now to be prepared for any future shocks on our systems.

### **Supporting Climate Resilience**

As many of you know, I was a fisheries biologist and forest ecologist before I started my work for the county. One of the principles that we work with in biology is that all systems adapt and change over time. Nothing is static.

I thought of this recently when I was visiting a major restoration project on the Blue Heron Slough. The previous 100 years of diking, pollution, and development had ruined a prime habitat for salmon and other fish. While the Port of Everett was the lead agency on the restoration project, it took the Tulalip Tribes, the federal, state, and local governments, and private partners all working together to achieve this extremely valuable restoration project. The first land acquisition for the project happened back in the 1980s. And here we are in 2022 finally finishing it. That is the essence of our biggest challenges and opportunities: working together, over sometimes significant periods of time, we can achieve just about anything.

There are few things more iconic to the Northwest than our salmon. And we know from science that the health of our salmon and other wildlife tells a bigger story about the health of our ecosystem. That is why the County has been focused on completing resilience and restoration projects all along our waterfronts and estuaries. We can restore the health of our salmon through partnerships and shared investments, and we can be prepared when sea levels rise. Smith Island was one of the largest and most recent projects, but now we're planning to finish habitat restoration at Meadowdale Beach Park in the next year.

Added to other projects we and our partners have conducted in the past, we have restored approximately 1,200 acres of critical estuarine habitat in the lower Snohomish Delta. This constitutes the largest estuarine restoration effort in the Puget Sound, surpassing even the Nisqually restoration.

Due to the additional investment of funds in 2022, the County has increased its design and construction of fish passable culverts and currently has approximately 35 culverts working through the design and construction process. This will be a major step forward in our effort to replace fish-blocking infrastructure.

A major threat to our ecosystem is climate change and the attendant fires, floods, and other disasters that come with it. We are fully committed to making Snohomish County and our region more resilient in the face of climate change. We will continue to make progress on our major climate and environmental initiatives in 2023. Both our Communitywide Climate Action Plan and Environmental Stewardship Plan will be further developed next year, and we will be engaging stakeholders to help implement these ambitious programs to prepare for climate change and steward our environmental assets. Our Climate Action Advisory Committee will be engaged in the Climate Change Element of our Comprehensive Plan and helping us review our Climate Action Plan. In 2023, we will complete the strategic plan for our Land Conservation Initiative and begin program implementation. We will implement and market our C-PACER

program in 2023, helping us bring more energy efficiency to commercial and multifamily buildings. The last few years have been intensive program design and initiative launching phases, and 2023 will see these programs begin to make significant progress on our environmental goals.

I had hoped that the Legislature would require comprehensive plans to address climate change. Even though the proposed bill didn't pass in the last session, I plan to use state grant funding and matching county funding to ensure we are doing all we can to adapt to climate change. We can expect that as our climate warms, the threats from wildfires, storms, and sea level rise will impact us in ways large and small. Addressing this long-term threat to our county is smart planning, and I hope that the Legislature will act next year. We must be prepared.

The 2023 budget for our Parks Department includes \$500,000 dedicated to community partnership projects. This funding will be made available to our local cities, towns and other eligible entities, through a competitive grant process, and these grants will be a new way to leverage county and local funds, broadening accessibility of park and recreational activities. We are always searching for new ways to empower local communities to preserve land, expand recreational opportunities, and sustain green space. These grants will allow us to make local investments that target real community needs.

Climate change, increasing growth, and threats to salmon and orca: there are many challenges facing our natural resources, and we will continue to invest in our efforts to address them, ensuring we are more resilient and prepared for the future.

### **Conclusion**

As you can imagine, there are many more investments that I don't have time to touch on here. I believe we have an historic opportunity in 2023 to make progress on the challenges we face, from public safety, to transportation, social justice, economic development, community health, and climate change.

We received significant recovery resources from the federal government, and we are strategically deploying these one-time dollars to ensure we are making lasting change and bolstering our on-going commitments. That's what our residents expect from us: a model for good, transparent government and strategic problem-solving.

Snohomish County didn't become such a beautiful place by chance; it was the thoughtful embrace both of our natural environment and of opportunities for everyone to pursue their dreams. That should be the future that we choose for Snohomish County as well.

With that, I'd like to give Chair Dunn a copy of my proposed 2023 budget. I look forward to working with the County Council as they now begin their deliberations.

Thank you.

## 2023 Budget Comparison by Fund Summary

Fund	2021 Actual	2022 Budget	2023 Budget	\$Change 22 Budget	%Change 22 Budget

The purpose of major budgeted funds of the County are explained in the Fund Structure section (See Appendix). This exhibit shows the three-year history of the funds in aggregate, with detail of each type shown on the following pages. The General Fund, at \$315.9 million, and 21% of total funds, is the largest single fund, and is the primary operating fund of the County.

## Department Budgets by Fund Source

This exhibit shows the Snohomish County Departments and their different sources of funds. The total of all funds is nearly \$1.52 billion. General Fund, the County's primary operating fund, is \$315.9 million.

This exhibit also shows the breakdown by Department. For example, Human Services is budgeted for \$186.5 million with \$5.4 million in General Fund and \$181 million in special revenue funds.

Department No. Name	2023 Budget	General Fund	REET	Special Revenue	Enterprise	Internal Service	Other Funds
01 Executive	\$ 12,451,981	\$ 4,796,680	\$ 0	\$ 7,554,147	\$ 0	\$ 101,154	\$ 0
02 Legislative	5,043,478	4,992,553	0	0	0	50,925	0

Distribution of Property Tax Dollar

County General Use	County Roads	Schools	Cities & Towns	Fire Districts	Libraries, Hospitals, Parks, & Ports, RTA
6.43%	4.47%	63.24%	8.92%	11.00%	5.94%

This exhibit shows the portion of property tax dollars different governmental entities receive. Snohomish County receives 11% broken into two parts:

- 1) A 6.43% share paid by all County residents. This finances regional services such as the court system, jail, prosecutors, elections, treasurer, medical examiner, and regional parks.
- 2) An 4.47% share paid by residents who live in unincorporated areas of the County for repair, maintenance, and construction of roads, bridges, and other forms of surface transportation.

The source for this information was the Snohomish County Assessor's Annual Report for 2022 Taxes.

Expenditures by Category

**2023 Consolidated Funds Expenditure Budget \$1.5 Billion**

**2023 General Fund Expenditure Budget \$315.9 Million**

## Law and Justice Appropriations History

This chart tracks the change in law and justice appropriations as well as non-law and justice appropriations in the County General Fund, between the years of 2013 and 2023. The law and justice percentage is based on a simplified distribution methodology.

Law and Justice departments include the categories of Judicial and Law Enforcement referenced in the General Fund Department Comparison table.

The Sheriff's Office moved the majority of their contract law enforcement services out of general fund into a special revenue fund in 2020. Adjustments were made to prior years in this chart for comparability purposes.

## General Fund Five Year Projection

This table shows General Fund prior year actual resources and expenditures, current year projections, next year budgeted, and future years projections. This table is used for budget planning purposes and allows the County to prepare and administer budgets with checks and balances.

	Actuals 2021	Projected 2022	Exec rec 2023	Projected 2024	Projected 2025	Projected 2026	Projected 2027	Growth Rate

**Notes/assumptions:**

*actuals in 2021 includes land sale proceeds and plan*

*project positions for L&J Covid related backlog are not included in 5 yr plan*

## General Fund Balance History

Actual and Projected General Fund 1997 – 2027 (Fund Balance)

- This projection is based upon historical performance and the General Fund Five-Year Projection.
- Fund balances shown above for 1997 through 2021 represent actual General Fund undesignated fund balances at calendar year-end.
- 2022 through 2027 fund balances represent projected fund balances which reconcile with General Fund Five-Year Projection. See notes on that table for more background on the assumptions underlying this projection.

## Capital Improvement Historical Distributions

Over the past several years, funding sources available to the County and project priorities have changed. The following exhibit shows the County's investment in infrastructure for all projects in this year's Capital Improvement Program (CIP) compared to the four previous CIPs.

While there have been some adjustments in how projects have been classified, the fundamental comparison between years is valid and provides great insight into County investments and resources in the past and present and gives some insight into the future.

**2023-2028 Capital Improvement Funds**

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Department Budget Summary**

**Department:** **01 Executive**

**Dept. Director:** Dave Somers

**Financial Consultant:** Debbi Mock

**Mission Statement:**

The mission of the County Executive Office is to provide responsible and responsive County government by ensuring effective, efficient and economical administration in accordance with the County Charter, the Washington State Constitution and other applicable federal, state and local laws, as well as County policy and Executive branch initiatives.

The County Executive supervises Executive departments; enforces all ordinances and state statutes within the County; presents an annual statement of governmental affairs of the County to the Council; prepares and presents the proposed budget and budget message; prepares and presents to the Council comprehensive plans, including capital improvement plans for present and future development within the County; and nominates members of County boards and commissions

**Outcomes Generated:**

The County Executive oversees the County's 13 administrative departments and coordinates with elected officials who operate the remaining 6 offices. The County Executive works closely with both the Judicial and Legislative branches to ensure cooperation and coordination of efforts.

**Staffing Resources:**

**Department Budget Summary**

**Department:** **02 Legislative**

**Dept. Director:** Heidi Beazizo

**Financial Consultant:** Debbi Mock

**Mission Statement:**

The mission of the County Council is to enact legislative and fiscal policies that achieve efficient and effective use of tax dollars. This is accomplished by providing a framework for the county administration to carry out its work efficiently, ensuring that county government responds effectively to the community's needs.

**Outcomes Generated:**

The County Council is a General Fund department that provides the following services:

- Enacts fiscal and operating policy ordinances, motions and resolutions
- Provides fiscal oversight of administrative and judicial operations
- Enacts land use policies, plans and implementing regulations
- Conducts quasi-judicial appeal hearings of certain land development actions and regulations
- Approves appointments to advisory boards and commissions
- Establishes the salaries of all county employees
- Approves collective bargaining agreements
- Confirms the appointment of Executive department directors.

**Department:**            **04 Human Services**

**Dept. Director:**        Mary Jane Brell-Vujovic

**Financial Consultant:** Vanessa de Salome

**Mission Statement:**

The mission of Human Services is to help all persons meet their basic needs and develop their potential by providing timely, effective human services and building community.

We are a mission-driven organization guided by a core set of values, and serve as a catalyst to enhance our communities' own intrinsic abilities to support and care for their residents.

**Outcomes Generated:**

The Human Services Department is comprised of eight program areas funded with Federal, State and local funds which provide the following primary services:

Administration:

Direction and Management; Financial Services; Contract Processing; Clerical Support Services; Research and Evaluation

Behavioral Health Programs:

Community Behavioral Health; Crisis Services/Involuntary Treatment; Jail Transition Services; Substance Use Disorder Treatment and Prevention

Veterans Assistance Program

Children and Family Services Programs:

Early Childhood Education and Assistance Program (ECEAP); North Snohomish County Early Head Start (EHS); Community Action Agency (CAA)

Developmental Disabilities Programs:

Developmental Disabilities; Early Intervention Program (EIP); Local Lead Agency (LLA)

Long Term Care & Aging Programs:

Long Term Care and Aging (Planning and Coordination); Support Services Administration; Home Care Services Network Management; MAC/TSOA Program Management; Area Agency on Aging (AAA)

Case Management & Home Care Services Program

Housing & Community Services Programs:

Housing & Community Development (HCD); Community and Homeless Services; Energy Assistance

**Department:**            **05 Planning**

**Dept. Director:**        Mike McCrary

**Financial Consultant:**    Debbi Mock

**Mission Statement:**

The Department of Planning and Development Services's mission is to enhance the quality of life for current and future generations by promoting protection of natural resources and facilitating the development of safe, sustainable and resilient communities in Snohomish County.

The PDS philosophy is centered on delivering outstanding customer service and enabling the development of attractive and sustainable communities. PDS employees strive to:

Provide the highest quality customer service;

Improve our service by adapting to the demands of a changing world;

Work as a cohesive unit;

Create thriving communities;

Develop innovative and cost-effective solutions; and

Balance available resources with future growth demands.

**Outcomes Generated:**

The Department of Planning and Development Services contains seven organizational units, each of which contribute to the department's overarching goals.

The Long Range Planning program ensures that regional development is well-planned, safe, and sustainable. It conducts comprehensive planning in accordance with the State Growth Management Act (GMA) and assists in the preparation of clear and concise codes to facilitate development.

Outcomes generated: a sound regulatory framework for sustainable economic development of the county and protection of its natural resources.

Snohomish County Tomorrow is a cooperative forum that involves the county, the cities, the towns, the Tulalip Tribes and community members in the resolution of growth management issues of countywide significance. Outcomes generated: regional consensus for sustainable economic development of the county and protection of its natural resources.

The Permitting program ensures that land development and use activities are in compliance with state law, regulations, and county code. The programs achieve this through issuance of building permits and land use approvals; residential and commercial plan reviews; and fire, building and site inspections. Outcomes generated: structures and developments that are sound, safe and contribute to economic growth of the county while sustaining our vibrant natural environment.

The Office of the County Fire Marshal reduces the risk of fire loss in Snohomish County and ensures the safety of citizens and property. Staff conduct fire and arson investigations; perform fire life safety inspections; issue certificates of occupancy; regulate firework stands, displays and other special events; and monitor for wildfire risk. The office provides a vital communication link between local fire districts, the county and state government. Outcomes generated: reduced risk of fire-related events in Snohomish County and deterrence of fire accidents and criminal activity.

The Code Enforcement program contributes to safe and sustainable communities by enforcing Snohomish County codes and other regulations to ensure the health, safety and welfare of county

**Financial Consultant:** Debbi Mock

citizens and communities. Utilizing a collaborative approach, staff conduct site visits and respond to concerns throughout unincorporated Snohomish County. Outcomes generated: reduced instances of development-related hazards, nuisances, and threats to public health and the environment.

The Administration program, comprised of the Administrative Services Division and the Director's Office, provides shared support services to enhance the department's operational efficiency. Shared services include management, budgeting, finance and accounting, contract administration, recruiting, human resources management, training, records management, public disclosure request services, and general administrative support. Outcomes generated: a strategic course for the department, the sound management of financial resources, and a modern workforce equipped to serve the county's citizens.

The Business Process and Technology program, housed in the Administrative Services Division, leverages technology to improve services provided by the department and provide public access to land use records. It manages the department's permit tracking system, GIS and mapping services, network administration, electronic records management, and business process initiatives. Outcomes generated: information and technological tools that contribute to the economic development of the county, improve the operating efficiency of the department, and provide open access to public records. This program provides the infrastructure necessary to support a modern permitting department that embraces innovation, efficiency, and customer service.

**Department Budget Summary**

**Department: 06 Public Works**

**Dept. Director:** Kelly Snyder

**Financial Consultant:** V.de Salome/J. Woodard

**Mission Statement:**

To design, construct and maintain transportation and solid waste infrastructure that allows our growing Snohomish County community to prosper and fully enjoy its natural resources. We focus on safety and mobility while protecting and preserving our environment. By responding promptly to community needs, practicing fiscal responsibility and cultivating partnerships; we make positive impacts while taking pride in our work.

**Outcomes Generated:**

The Public Works Department is responsible for the development and maintenance of the transportation system and the disposal of solid waste generated within Snohomish County. The services provided in these areas are diverse, and the demand for services is directly dependent on the growth we have seen in the past and on future projected growth. This growth directly impacts the amount of traffic on the County's ~1,600 miles of roads and ~200 bridges, the amount and type of solid waste produced, the amount of storm water flows created by the development and construction of new impervious surface, and the creation of additional water pollutants, to meet service requirements.

**Department:**            **07 Office of Hearings Administration**

**Dept. Director:**        Peter Camp

**Financial Consultant:** Vanessa de Salome

**Mission Statement:**

Purpose:

The Office of Hearings Administration consists of the Hearing Examiner and Administrative Hearing Clerks who support the Hearing Examiner, the Boundary Review Board, and Board of Equalization. These quasi-judicial entities are independent by statute and ordinance from the County Executive and County Council. The Office has 4.25 FTEs.

The Hearing Examiner provides a quasi-judicial forum to hear and decide matters assigned to the office by ordinance.(1) The majority of cases involve: approvals of preliminary subdivisions, variances, and conditional use permits; environmental (SEPA) appeals; appeals from administrative code enforcement determinations by the department of Planning and Development Services (PDS); and appeals from administrative determinations by animal control officers and the business license manager of the Snohomish County Auditor.

The Board of Equalization is an independent board of seven citizens that hears appeals of property valuations, property tax exemption denials, and other Assessor determinations.

The Boundary Review Board (BRB) is an independent board of five citizens. When its jurisdiction is invoked,(2) the BRB reviews the creation, incorporation, or change in boundary of cities, towns, or special purpose districts to guide and control “the creation and growth of municipalities in metropolitan areas so that . . . problems [such as the rapid proliferation of municipalities, haphazard extension of and competition to extend municipal boundaries] may be avoided and that residents and businesses in those areas may rely on the logical growth of local government affecting them.” RCW 36.93.010 (1967). If the BRB’s jurisdiction is invoked by a majority of the BRB, an affected government agency, or five percent of the registered voters in the area to be annexed, the BRB considers the appropriateness of the proposed boundary change. Id.

(1) Chap. 2.02 Snohomish County Code (SCC). The hearing examiner system is authorized by state law. RCW 36.70.970 (1995).

(2) RCW 36.93.100 (1994).

**Outcomes Generated:**

The Office of Hearings Administration provides necessary administrative and staffing support to the Board of Equalization, Boundary Review Board, citizens who participate in board proceedings, and the Hearing Examiner.

**Department:**            **09 Conservation & Natural Resources**

**Dept. Director:**       Tom Teigen

**Financial Consultant:** Woodard/Scheil

**Mission Statement:**

The DCNR partners with Snohomish County communities to steward resources and manage infrastructure for the purpose of protection, enhancement, use, and enjoyment of our land, air, and water now and into the future.

The Division of Parks & Recreation follows this mission by conserving natural and recreational resources for current and future generations, contributing to regional economic sustainability, and enhancing the wellbeing of all Snohomish County residents and visitors through accessible and inclusive parks, facilities, and educational programs.

Surface Water Management (SWM) partners with the community to reduce flood damage and to protect and enhance our water resources for future generations by providing customers with services in four core areas to address: drainage and road flooding, water quality, salmon and marine habitat, and river flooding.

The Office of Energy and Sustainability leads the County's environmental sustainability initiatives, both internally and within the community and collaborates with a range of stakeholders to conserve natural resources, facilitate environmental stewardship, and develop innovative solutions that support a healthy and vibrant community.

The Agriculture Office provides services to local farmers including regulatory, business, technical help, food systems, economic development, education and oversees the Agriculture Advisory Board.

**Outcomes Generated:**

**PARKS & RECREATION DIVISION**

The Park Division is comprised of three program areas funded through the General Fund, which provide the following primary services:

Administration - management, payroll, central reservations/registration services, facility/program marketing, office support, network administration, planning and development, citizen participation, and property management for all divisions

Operations - parkland patrol and code enforcement, routine grounds maintenance, restroom/shelter cleaning, administering camping/boat launch/shelter/yurts, fee collection, educational, recreation camps, and aquatic programs

Maintenance - skilled maintenance projects (electrical, plumbing, etc.), small improvement projects, tenant repair/improvements, preventative maintenance plan and implementation, vehicle and equipment maintenance, mowing and turf management.

**EVERGREEN STATE FAIRGROUNDS**

The Evergreen State Fairgrounds is comprised of three program areas through the General Fund which provide the following primary services:

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Department Budget Summary**

**Department: 09 Conservation & Natural Resources**

**Dept. Director:** Tom Teigen

**Financial Consultant:** Woodard/Scheil

Administration - management, payroll, office support, customer service, contract processing and fair time entertainment

Maintenance - grounds and building maintenance, repairs, improvements and landscaping to provide a clean, safe and pleasant environment for all users

Operations - contract and manage year-round facility use, fair time commercial vendors, safety and physical setup services

Combined, the Evergreen Fairgrounds produces the annual Fair, provides partnerships with the Agricultural Community and provides opportunities for education, entertainment and quality programs. Facilities are utilized extensively throughout the year with more than 28% of revenues earned derived from non fair related events and activities.

**Department:**            **10 Assessor**

**Dept. Director:**        Linda Hjelle

**Financial Consultant:**   Jim Woodard

**Mission Statement:**

Our mission is to administer a property assessment system that meets constitutional and statutory requirements in an efficient and professional manner while striving to provide excellence in service to our customers.

**Outcomes Generated:**

Property tax is a main component in funding taxing districts and is some cases, their only revenue. The Assessor's Office is responsible for identifying and valuing all taxable real and personal property in incorporated and unincorporated Snohomish County. The Assessor's Office also examines taxing district's budget requests and ordinances for statutory compliance and calculates the tax levy rates for each district.

In 2021 for the 2022 tax year, the Assessor's Office was responsible for valuing over 315,000 tax parcels resulting in a total taxable value of \$170,299,965,640. The value is used as a basis for calculating levy rates and distributing a total tax liability of \$1,583,621,533 which funds 68 taxing districts. These taxing districts provide core services such as fire, hospital, schools, libraries, infrastructure, cities, counties and the state. It is a base source for the general fund.

The responsibilities of the Assessor's Office also include administration of numerous exemptions, appeal response, maintenance of the base GIS map parcel layer, account creation and record maintenance and are core functions of County Government. Appropriately funding this office is crucial to the ability of these taxing districts to generate sustainable revenue to function.

The Assessor is required by law to set the value of taxable property at 100% of market value and to assure that all values are in equalization. The Assessor uses multiple sales of comparable properties and mass appraisal techniques in establishing value as of a January 1st assessment date. New construction is picked up in the summer months and is valued as of a July 1st assessment date. Value of new construction provides for additional revenue to the taxing districts in which it is located.

During 2021 and the first half of 2022, the Assessor's office has been attempting to fill the vacancies left open during the hiring freeze implemented in 2020. We are getting closer to being fully staffed for the first time in several years. As a result, our office needs funds to train new staff both to meet statutory requirements placed on appraisers and other Assessor's office staff. The additional positions added in the 2022 budget, both permanent and project, have been filled and are contributing to our efforts to complete our mandated work, reduce backlogs and complete projects.

The Assessor's Office is currently converting and implementing new software to replace our appraisal (ProVal) and administrative (Ascend) systems. We are requesting program funds set aside for this process to provide staffing resources to complete the project and support our regular activities as current staff are pulled from their regular duties to provide expertise and review during conversion.

**Department:**           **11 Auditor**

**Dept. Director:**       Garth Fell

**Financial Consultant:**   Debbi Mock

**Mission Statement:**

The Auditor's Office strives to continuously improve the delivery of services to Snohomish County customers in areas of: Recorded Document Services/Marriage Licensing; Vehicle/Vessel/Business Licensing; Animal Services; and Elections/Voter Registration Services.

The Auditor's Office works in partnership with independently elected county officials, County Council, the County Executive, appointed department heads and our stakeholders to achieve countywide goals to enhance our customers' experience by providing efficient government services.

**Outcomes Generated:**

The Auditor's Office oversees four distinctly different business functions for the county. These divisions share commonality by continually striving to improve public services:

Recording - legal document recording such as deeds and liens, public access to documents, and marriage licenses.

Licensing - licensing of vehicles, vessels, and certain businesses.

Animal Services - animal complaint investigations, pet and kennel licenses, compliance with codes and statutes, public education and enforcement actions.

Elections and Voter Registration - primary and general elections, special elections, Presidential primaries, voter registration services, and petition signature verification.

The Auditor's Office also oversees four non-general funds that provide the following services:

Auditor's O&M Fund - dedicated funds are collected from recorded document fees for the Auditor's recording software and technology improvements. The fund also provides archival preservation grants for county offices and departments for historical/archival document maintenance, preservation and access.

Elections Equipment Cumulative Reserve Fund - dedicated funds are collected for elections equipment and software used in conducting elections, maintaining voter registration files and producing a local voters' pamphlet.

Animal Benefit Bequest Fund - dedicated funds are received through donations to be used for the benefit of animals in Snohomish County.

Help America Vote Act (HAVA 3) Grant - monies received from the federal government for elections specific activities.

**Department:**            **12 Finance**

**Dept. Director:**        Nathan Kennedy

**Financial Consultant:**   Mock/Woodard/S. de Salome

**Mission Statement:**

The mission of the Finance Department is to provide protection and stewardship of Snohomish County's financial resources, to provide financial leadership and quality information to the staff, citizens, and communities of the County in compliance with legal requirements and policies. Through our diverse activities and duties, we are committed to reach out to County departments and other governmental agencies to cooperate in fulfilling their missions.

**Outcomes Generated:**

The Finance Department is comprised of division areas which provide the following primary services:

Financial Operations - Provides innovative financial and financial systems services to customer departments. The division is responsible for financial reporting, tax reporting, fiscal management policies and county disbursements (accounts payable and payroll). Administration of the countywide financial and time management systems, integration of customer departments' enterprise systems with the County's financial system, internal control consulting, work flow consulting and accounts receivable support are among the many services provided by the division. Some of those services are also provided to outside junior taxing districts.

Budget & Systems - provides budget development and analytical services, managerial financial reporting, financial analysis, consultation, and information to management and departmental clients, as well as to the Executive and Council. Designs financial system reports to serve as analytical tools for financial analysis. This division is responsible for the development and maintenance of budget, CIP, annexation analysis, cost of compensation analysis, and financial system tools which provide accurate and timely information to all levels of county government and to the public. The division also maintains multi-year financial models to highlight and analyze effects of current actions and events.

Risk Management - Uses industry standards to manage the county's risks. Programs managed include loss control, workers compensation, safety, property claims and property/liability insurance. These programs protect county resources against losses which could significantly affect personnel, property, the budget, or the ability of the county to fulfill its responsibilities.

Employee Benefits Fund - provides financial support and analysis to Snohomish County's Employee Benefits program, as well as the management of employee benefit contracts, associated payments to vendors, and tracking and collection of benefits premiums for county employees, outside district subscribers, COBRA participants, and retirees.

Purchasing Services - Manages the County established purchasing process that includes procurement, competitive solicitation, contracting and other related services for all County departments.

Public Records Services - provides overall coordination of public records requests for the County and payment of large public records violation claims and settlements.

**Department: 13 Human Resources**

**Dept. Director:** Rhea Reynolds

**Financial Consultant:** Debbi Mock

**Mission Statement:**

Human Resources aims to achieve the mission and vision of Snohomish County by attracting, developing and retaining peak performing employees. We accomplish our mission by working as a business partner with management and employees of Snohomish County toward resolving issues, assisting management in designing work structures, complying with varying state, federal and local laws, recruiting new employees, and recommending employee training, benefit and reward systems.

**Outcomes Generated:**

Human Resources provides and administers a professional system of human resources management for County employees through the development, communication and reasoned application of policies, rules and procedures and by selection and implementation of programs which improve the effectiveness and efficiency of the County's human resources.

The department's functional areas include: Employment Services, Training, Classification, Pay Administration, Employee Wellness, Employee benefits, Employee relations, Labor negotiations, Records and Information, and Staff support to human resources boards.

**Department:**            **14 Information Technology**

**Dept. Director:**        Viggo Forde

**Financial Consultant:**   Stephen de Salome

**Mission Statement:**

The Department of Information Technology delivers quality business services that empower and support our customers in the accomplishment of their missions.

**Outcomes Generated:**

The Department of Information Technology (IT) represents a comprehensive set of programs that provide county departments and agencies with information technology and related central services. IT will deliver 7 distinct services that are categorized into the following groups: Customer and Workstations Services, Enterprise Technology, Geographic Information Systems (GIS), Enterprise Application Services, Application Support Services, Investment Alignment Services, and Mandated Services. Each of these services are aligned to mature the County's information and technology capabilities. Additionally, they support improvement and investment in technology which enables departments and agencies to purchase services from IT based on very clear quality and value definitions while retaining control of tactical decisions to support their operations, and improve visibility and decision-making related to total cost of operations (TCO).

Investment Alignment Services is comprised of IT Project Managers and IT Business Analysts/Relationship Managers that listen, ask purposeful questions, document needs and requirements, work on IT project executables and engage in the actual business problems. This service can reduce implementation costs by ensuring the solution fully meets your requirements before it is sourced, designed and developed.

Organizational programs delivering these services include three (3) divisions: Applications Division Administrative Services Division, and Systems Division. The divisions are structured into sections.

**APPLICATIONS DIVISION**

Application Support Services: provides application administration, support, upgrade and replacement management for department/agency level (differential) applications. Department/agency applications are typically function-specific systems supporting unique operations, requiring regular upgrades to maintain and support operational changes/improvements, and replaced on a 3-7 year lifecycle. The value and flexibility of this service is provided by giving the customer a choice on how they want their product and process supported for development and/or improvement on an annual basis (bronze, silver or gold support).

Enterprise Application Services: includes the acquisition, implementation, and support of Enterprise Applications that benefit all county departments and agencies. While these applications may have limited users, Enterprise Applications are operated for the financial viability and/or operational benefit of the entire organization (HR, Financial, Reporting, Property Based System, Training, are all examples) rather than applications limited to individual departments, agencies or offices. They typically support operational functions that are common to enterprises similar to the County, and have a 10-20 year lifecycle.

Geographical Information Services (GIS): allows users to view, manipulate, interpret and visualize

**Department:**            **14 Information Technology**

**Dept. Director:**        Viggo Forde

**Financial Consultant:**   Stephen de Salome

data, increasing operational efficiency and improving decision making. This service is designed to support the county GIS community through the development, design and support of innovative GIS technology solutions that enables County departments to excel in their work and the provision of vital programs and services to residents throughout Snohomish County.

**ADMINISTRATIVE SERVICES DIVISION**

Mandated Services provides a range of 7 areas of expertise that are essential to county departments, agencies and offices. This service provides the services that would be considered non-technical in nature or administrative functions of Information Technology.

a) Records Management Records Center provides records inventory control, retrieval, delivery and destruction. The staff also provides records management guidance and training to county records coordinators. The team maintains inventory of records to efficiently locate records and monitors retention dates to notify customers when records are ready for destruction. Over 30,000 boxes are in inventory in the records center.

b) Printing and Mail Services provides quality printing, mail distribution and outgoing mailing. This service team typically exceeds the three day published turnaround time for print jobs by completing them within one day. Over 1300 print jobs and over 500k pieces of mail are processed annually

c) Imaging and Document Control processes paper records into high quality searchable electronic documents. This team provides daily processing which includes document preparation, scanning, quality control and image enhancement. In 2017 over 4 million pages were scanned by our team.

d) IT Asset Management Management ensures the county IT assets are properly documented and to optimize software utilization and maintain software license compliance.

e) Contract and Vendor Management provide beneficial relationships with county vendors. The process to competitively acquire an IT product requires a great deal of time and industry IT expertise to draft and process competitive requirements which is often the first step towards the acquisition of a product. Contract negotiation and management helps to ensure the county is protected from liability, receives good value for the products we purchase and develops a positive and professional relationship with our vendors to receive great service and support.

f) IT Finance and Budget handles a wide range of support including budget development, rate development, accounts payable, accounts receivable and payroll for IT. This team manages the day to day accounting functions and provides IT with the ability to forecast and report on current and future expenses and budget projections. The staff closely monitors vendor payments to ensure invoices reflect the correct fees and are paid on time.

g) Technology Planning, Reporting and Governance provides countywide strategic planning, budget development, IT project investment oversight in an effort to handle emerging and immediate needs for our customers.

**Department: 14 Information Technology**

**Dept. Director:** Viggo Forde

**Financial Consultant:** Stephen de Salome

**SYSTEMS DIVISION**

The Enterprise Technology Services team provisions, maintains, secures and supports the countywide enterprise technology infrastructure. This serves as the foundation for delivery of business systems and IT-enabled processes. The team proactively monitors and controls county systems to maximize stability and optimize performance and administer a comprehensive cybersecurity program focused on managing risk and securing county information assets. The goal of this service is to deliver a reliable and secure technology infrastructure aligned to business needs in a cost-effective manner.

Customer and Workstation Services team provides full lifecycle management of county workstations including deployment, support and the scheduled refresh of workstations through the Technology Replacement Program (TRP). We empower County staff by providing standardized, integrated software tools that enable productivity, foster collaboration and provide a secure computing environment on workstations and mobile devices. The service goal includes Provide standardized, secure workplace technology that meets the expectations of end users and a customer-focused Service Desk that serves as a single point of contact for all county technology needs.

**Department:**            **15 Health Department**

**Dept. Director:**

**Financial Consultant:**    Vanessa de Salome

**Mission Statement:**

The Snohomish County Health Department has 3 divisions:

**ENVIRONMENTAL HEALTH**

The Environmental Health division helps ensure the food, water and environment of Snohomish County are safe from health threats such as disease, pollution, pests, and other hazards. The division issues permits, responds to complaints, and ensures that environmental health regulations, the local Sanitary Codes, are followed. The Environmental Health division of Snohomish Health Department has three primary programs:

Food Safety

Water & Wastewater

Solid Waste & Toxics

**PREVENTION SERVICES**

The Prevention Services division focuses on preventive programs for families and communities. We also collect and share public health data.

The division also focuses on the prevention and control of communicable disease through education, monitoring, outbreak response, preparedness activities, and vaccination.

Under state law, health care providers, hospitals, and laboratories are required to report certain diseases to local public health agencies. Snohomish Health Department is charged to receive disease reports, conduct investigations into the cause and possible spread of illness, and initiate disease control measures. The Prevention Services division of Snohomish Health Department has two primary programs:

Parent & Child Health

Communicable Disease

**ADMINISTRATION**

The Administration division of Snohomish Health Department performs the following:

Administrative Services

Emergency Preparedness

Healthy Communities

Assessment Data and Reports

Birth Certificates

Death Certificates

Finance

Human Resources

Public Records

**Department Budget Summary**

**Department:** 16 Nondepartmental

**Dept. Director:** Nathan Kennedy

**Financial Consultant:** D. Mock/B. Haseleu

**Mission Statement:**

The Nondepartmental Program exists to account for expenditures which serve multiple departments.

Departments and activities include; Health District, Real Estate Excise Tax (REET), Law Library, E-911, Pending Grants, etc...

**Outcomes Generated:**

The Nondepartmental budgets provides for performance of work or expenditure of funds that cross departmental programs. For example, payment of general items which benefit the county as a whole and do not fit directly within a service program of any specific department or organization are budgeted within the Nondepartmental organization. Most organizations within the interdepartmental agency are administered on behalf of the County Executive by the Department of Finance.

**Department:            18 Facilities Management**

**Dept. Director:**        JaNae Nelson

**Financial Consultant:** Vanessa de Salome

**Mission Statement:**

The primary mission of Facilities and Fleet is to maintain, develop, acquire, and manage County facilities, assets and properties. Our diverse team of professionals provides accessible, efficient, safe and secure county facilities and properties. Through strategic planning and performance, Facilities and Fleet works in a cooperative effort to enable our clients to provide effective services in which we take pride.

**Outcomes Generated:**

The Department of Facilities and Fleet provides various internal services that support the operations of other County departments, and other support services for County citizens.

These services are as follows:

Facilities Maintenance - provides maintenance, repair and contract janitorial services, building access and utilities management, capital project planning and construction administrative services for departments and agencies in various County administrative facilities and grounds, including the Denney Juvenile Justice Center (DJJC) and Courts, the Medical Examiner's Facility, Records Management Facility, Public Works Facilities and the Department of Corrections detention facilities.

Property Management - provides administrative oversight and services related to County owned and leased real property, County- owned personal property including preparation of the annual inventory report, sale of County surplus properties (including tax title properties), lease and license contract negotiations, conference rooms/campus facilities use coordination and vending services management.

Parking Operations - manages the County garage and surface parking lot that provides parking for the public (including event parking for Comcast Arena), employees and jurors.

Office Planning and Move Management - provides services to County departments in reconfiguring their space needs for maximum operational efficiency.

Project Management - manages various capital and major repair projects relating to County facilities.

Employee Commuter Trip Reduction Program - provides administrative support in the registration and subsidy processing of County employees participating in the Employee Commuter Trip Reduction Program.

Fleet Management - replacement and repair of County owned vehicles and equipment..

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Department Budget Summary**

**Department:** **21 Airport**

**Dept. Director:** Arif Ghouse

**Financial Consultant:** Jim Woodard

**Mission Statement:**

The mission of the Paine Field/Snohomish County Airport is to contribute to the economic vitality and quality of life of the region. This is accomplished by providing high quality aviation and industrial services, facilities, and interaction with customers. Customers include airfield tenants, users, neighbors and the people of Snohomish County.

**Outcomes Generated:**

Paine Field/Snohomish County Airport is a vital commercial aviation facility and industrial park serving the Puget Sound. Classified by the FAA as a FAR Part 139 commercial service airport, Paine Field serves approximately: 1,000,000 passengers per year (pre-pandemic); 590 based aircraft; and 140,000 aircraft takeoffs and landings per year. There are nearly 100 businesses on or adjacent to the airport which employ approximately 50,000 locally and 158,000 statewide (WSDOT). Boeing produces the 747, 767 and 777 aircraft at Paine Field. Airport lease revenue and fees cover operating expenses and development. The Airport Enterprise Fund is financially self-sufficient and uses no general fund tax dollars.

The airport's capital program is budgeted at \$48.1M for 2023. The capital program consists of \$16M in bonds; \$13.1M in FAA Grants; \$950,000 Passenger Facility Charge (PFC) Funds; and \$18.1M in local Airport Enterprise Funds. The bonds issued represent \$6.5 million for a potential building and land acquisition and \$9.5M for Reconstruction of the Inner Terminal Ramp, a PFC funded project. In addition, PFC's will fund runway Snow Removal Equipment (SRE) at \$950,000. All other programs such as equipment replacement and infrastructure maintenance will be funded by the Airport Enterprise Fund.

**Department:**            **24 District Court**

**Dept. Director:**        Kathryn Koehler

**Financial Consultant:**    Debbi Mock

**Mission Statement:**

Snohomish County District Court is dedicated to serving our citizens by ensuring equal access to justice and resolving legal matters in a fair, efficient, and timely manner. We are committed to upholding the public trust and confidence in the integrity of the judiciary and the courts. We will treat everyone who comes before the court with courtesy and consideration; and will work to promote an understanding and respect for the law.

**Outcomes Generated:**

The District Court workload includes administration of the court, clerical services and responsibilities, and adult probation services. Workload is directly impacted by case filings which dictate the need for funding in order to process cases in a fair and timely manner. Legislation, case law, and policy changes also impact workload as they traditionally add requirements that increase the burden of case processing and management.

The District Court is responsible for the timely and efficient adjudication of criminal simple and gross misdemeanors; felony probable cause matters; expedited felony filings; petitions for protection orders; petitions for name change; civil traffic, non-traffic, and parking infractions; civil filings with a ceiling of \$100,000; small claims filings with a ceiling of \$5,000; and vehicle impound hearings. This equates to over 75,000 new filings per year. With the responsibility for accepting the aforementioned filings, comes the obligation of timely and efficient adjudication, customer service, record keeping, courtroom support, sentence and judgment implementation, revenue management, and legal action reporting.

Adult probation services are also administered by the District Court and is a substantial portion of the Court workload. While the primary purpose of the Probation Department is to hold defendants accountable for their court ordered conditions and provide alternatives to incarceration; Probation uses a therapeutic and holistic probation model that encompasses best practices, use of evidence-based and research-based programs, services, and cognitive behavioral trainings to more effectively monitor and assist offenders in developing skills to promote positive behavioral changes to reduce their dependence on criminal and substance abuse behaviors. Statistics have shown that probation services, such as those provided by District Court, cost approximately one-tenth of the amount of incarceration, yet prove to be as effective in reducing repeat offenses.

**Department:**            **30 Sheriff**

**Dept. Director:**       Adam Fortney

**Financial Consultant:** Jim Woodard

**Mission Statement:**

The Snohomish County Sheriff's Office will prioritize public trust and community safety by reducing crime through professional policing and correctional services, founded on accountability and compassion.

It is our promise that Snohomish County will have a Sheriff's Office that is community-minded, progressive and professional.

The Snohomish County Sheriff's Office is comprised of people who share a common belief and goal to provide the most progressive and professional services possible to the public. To achieve this, we must accept and adhere to basic values. These values are a vital part of the Sheriff's Office and give us the spirit and direction to achieve our goals:

**INTEGRITY**

We adopt an uncompromising approach to the highest ethical standards, being honest, truthful, and worthy of trust.

**DIGNITY**

We believe in the importance of treating others with respect and in conducting ourselves in a manner which inspires respect.

**COMMITMENT**

We are dedicated to the Office's Mission and Vision, to the development and support of employees and to the highest standards of professional conduct.

**PRIDE**

As members of this Office we are honored to serve and protect our community.

**Outcomes Generated:**

Our proposed budget funds the service delivery level that has been provided to county citizens based on restoration of frozen vacancies, maintaining funding for current positions, and adding staffing to our office to account for the shortfall in employees needed by our office. Our outcomes are based on the expected safety and security needs of the citizens of the county and the ability of our personnel to provide the required and expected services needed from law enforcement:

Invest in professional training and development for our personnel through:

- Enhanced practical skills training to help reduce employee injury and county liability
- Formulate plan for accreditation renewal and create framework for future accreditation regeneration
- Initiate state required I-940 training in relation to our budget appropriation
- Policy and procedures developed for the launch of the Sheriff's Office body worn camera program.
- Implementation of the new Taser platform to assist with de-escalation of violent persons in crisis with minimum force applied and reduction of injuries to deputies
- Implement wellness program to help our employees deal with physical, emotional, and financial stress associated with the law enforcement profession

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Department Budget Summary**

**Department:** **30 Sheriff**

**Dept. Director:** Adam Fortney

**Financial Consultant:** Jim Woodard

Provide opportunity for community input and engagement through:

- Increased communication through social media platforms
- Creation of SCSO Community Advisory Board for input on development of community engagement strategy
- Continued focus on delivery of professional service within provided resources
- Continued community engagement through the Sheriff's Lead the Way program.
- Increased communication and engagement with the community through the America's Promise Project

**Department:**            **31 Prosecuting Attorney**

**Dept. Director:**        Adam Cornell

**Financial Consultant:**   Jim Woodard

**Mission Statement:**

It is the mission of the Snohomish County Prosecutor's Office to fulfill its legal and constitutional obligations to the citizens of the County and State; to vigorously, fairly, and efficiently prosecute those who commit crimes in Snohomish County; to represent the County in civil litigation; to provide high quality professional advice and service to Snohomish County and State of Washington governments; and to be knowledgeable advocates for improvements in the justice system.

**Outcomes Generated:**

The Prosecuting Attorney's Office outcomes are generated in three primary program areas:

Criminal - The Criminal Division is responsible for prosecuting all adult felony cases and juvenile criminal cases occurring within Snohomish County, and all adult misdemeanor and gross misdemeanor cases referred by the County Sheriff, the State Patrol, all state agencies, and some cities that have contracted with the county for misdemeanor prosecution services. The Criminal Division participates in Drug Court for adults, and has a deputy prosecutor assigned to the Snohomish Regional Drug and Gang Task Force as well as the Auto Theft Task Force. The Criminal Division provides advocacy services for crime victims. Also, the Criminal Division manages a Therapeutic Alternatives to Prosecution ("TAP") program which holds qualified and eligible first-time offenders accountable for their offenses while avoiding the costs of case filing, court, and incarceration.

Civil - The Civil Division acts as the in-house legal counsel for Snohomish County. The Civil Division represents the County and its employees, as appropriate, in civil litigation in Federal and State courts, arbitrations, mediations, administrative hearings, and appeals. The Civil Division also provides its County clients with a broad range of other legal services, including informal and formal advice, risk management advice, and preparation and review of a broad variety of legal instruments. The Civil Division also represents the mental health division of Human Services in involuntary commitment proceedings.

Family Support - The Family Support Division litigates issues regarding child support in cases referred by the State Department of Social and Health Services, Division of Child Support and defends D.C.S. in actions brought against them. Family Support program expenditures are reimbursed by a combination of state and federal pass-through funds.

**Department Budget Summary**

**Department:** **32 Office of Public Defense**

**Dept. Director:** Jason Schwarz

**Financial Consultant:** Vanessa de Salome

**Mission Statement:**

It is the mission of the Office of Public Defense to provide indigent defense services in a manner that complies with constitutional and statutory requirements and is cost effective. These services include indigency screening to determine eligibility for services, assignment of counsel, pre-trial assessments, management and compliance review of indigent defense contracts, and management of expert and investigation costs and fees mandated for indigent defense.

**Outcomes Generated:**

The office shall be responsible for administration of an assigned counsel program to provide indigent defense services in those criminal and civil cases in which loss of liberty is a potential outcome. This includes the management of attorney contracts for indigent defense services, as well as the mandated costs associated with experts and investigators for indigent defense. The office shall also be responsible for administration of a system for providing the court with information pertaining to the setting of bail and release of offenders pending trial.

**Department Budget Summary**

**Department:** **33 Medical Examiner**

**Dept. Director:** Dr. John Lacy

**Financial Consultant:** Cynthia Scheil

**Mission Statement:**

The mission of the Medical Examiner's Office is to provide the citizens of Snohomish County a modern medicolegal death investigation system and to assure that their interests and those of the deceased and their loved ones are safeguarded during their time of personal loss.

**Outcomes Generated:**

The Medical Examiner's Office provides the citizens of Snohomish County with quality, timely, and independent medicolegal investigations to determine cause and manner of death of deceased persons who come under its jurisdiction so that:

1. The innocent are exonerated.
2. Homicide is recognized.
3. Critical medical evidence is documented for criminal and civil legal proceedings.
4. Unrecognized hazards to public health and safety will be revealed.
5. Industrial hazards will be exposed.

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Department Budget Summary**

**Department:** 36 Superior Court

**Dept. Director:** Andrew Somers

**Financial Consultant:** Debbi Mock

**Mission Statement:**

The mission of the Snohomish County Superior Court is to actively manage the business of the court so as to provide for fair, prompt, and efficient resolution of disputes; by assuring due process and individual justice in each case; and maintaining the independence and parity as an equal branch of government. Snohomish County Superior Court serves the public by adjudicating criminal and civil cases while also providing mandated services which enable citizen's ready access to justice. The Juvenile Court works with community youth who are involved with the criminal justice system, civil action and dependency cases. Through many avenues the staff provides a wide range of evidence based programs and accountability for the youth in the juvenile justice system.

**Outcomes Generated:**

The following factors have a direct impact on Superior Court's workload. Case filings are the primary catalysts which dictate the need for county general fund in order to process cases in a fair and timely manner. Growth in general, and specifically population growth, density, commerce, criminal arrests and referrals, legislation, state and local agency policies, and other social and economic factors impacts case filings.

In Juvenile Court, major factors in determining workload and budget impacts include level of state funding, the average daily population in Detention, gender, number and classification of detention bookings, number of offender referrals and the number of cases filed.

**Department:**            **37 Clerk**

**Dept. Director:**        Heidi Percy

**Financial Consultant:** Stephen de Salome

**Mission Statement:**

The mission of the County Clerk is to maintain the Superior Court record and provide excellent service to citizens and the court by ensuring:

1. The integrity of and access to the Superior Court record;
2. Accountability of court funds; and
3. Prudent stewardship of public resources entrusted to us.

**Outcomes Generated:**

The core outcomes generated by the Clerk include maintaining Superior Court case records in perpetuity and providing court record information that is secure, accurate, timely, and accessible. The below 2019 year end statistics identify the volume of filings, funds, trials and hearings for which the Clerk is responsible.

25,060 – New Case Filings  
591,843 - Superior Court documents processed  
\$64 million – Court Fees and Funds Receipted  
\$1.1 million – Restitution Receipted  
797 – Trials Clerked  
72,721 – Hearings Clerked  
28,972 – Exhibits Processed  
5,811– Ex Parte Requests Processed  
36,000 – Customers assisted telephonically  
57,657 - Jurors Summoned  
32,000 – Jurors assisted telephonically

**Court Funds**

The Clerk is the financial officer for Superior Court. This mandated duty includes collecting, managing, and disbursing fees, fines, restitution, and trust funds. Annually, the Clerk accounts for and administers more than \$31 million including more than \$24 million in court registry funds.

**Court Records and Access to Justice**

As “keeper of the court record”, the Clerk’s statutory responsibilities include accepting and processing all Superior Court new case filings and subsequent pleadings filed both in electronic and paper form. These filings include more than 25,000 new cases filed annually and over 500,000 court documents filed and processed annually which requires accurate and timely entry of information into the State’s case and document management system (Odyssey). Program 233 (Case Management) narrative provides detailed information regarding these mandated duties.

**Customer Services**

The Clerk is statutorily required to ensure court records and exhibits are available for court hearings and appeals as well as available to the public. Staff assists agencies and citizens of Snohomish County in performing records research. This encompasses in-person services, telephone contacts, and electronic requests for information and services; additional mandated services include issuing writs,

**Department:** **37 Clerk**

**Dept. Director:** Heidi Percy

**Financial Consultant:** Stephen de Salome

subpoenas, warrants, certified copies and other duties. Program 236 (Customer Service) narrative provides detailed information regarding these mandated duties.

Further, the Clerk provides procedural assistance to self-represented litigants on family law and guardianship processes; provides instructional information/resources to those filing extreme risk protection orders and assistance to victims seeking domestic violence, harassment, stalking, sexual assault and vulnerable adult protection orders.

#### Judgments

The Clerk is statutorily required to enter and keep a public record of all judgments. Judgments are the formal statement of the court's final determination of the rights of the parties in the proceeding and details the award of money or property. This includes the original judgment (more than 5,000 in 2019), amendments and any subsequent partial- or full-satisfactions (more than 11,000 in 2019). Judgments are an integral part of the escrow process in real estate transactions and serve as the basis for subsequent court proceedings, such as foreclosures or garnishments. Program 232 (Judicial Accounting/Judgments) narrative provides detailed information regarding these mandated duties.

#### Courtroom Support and Jury Management

The Clerk is responsible for attending and creating an independent record of all hearings and trials in Superior and Juvenile court. This encompasses creating contemporaneous minutes and exhibit indexes, marking and maintaining control of exhibits, receiving jury verdicts, and jury management for the Superior and District Courts. Program 235 (Courtroom Operations) narrative provides detailed information regarding these mandated duties.

#### Administrative Services

The Administration Division manages and supports all divisions of the Clerk's Office by providing policy, planning, managerial and administrative support, and budgetary direction. Additionally, this division responds to time-sensitive requests from Snohomish County and Superior Court Administration, the Washington State Administrative Office of the Courts (AOC), and the Law and Justice Community as a whole. Day-to-day operations in Administration ensure that critical functions are achieved while minimizing the impacts on operational staff. Program 231 (Administration) narrative provides detailed information regarding these mandated duties.

**Department:**            **38 Sheriff's Corrections Bureau**

**Dept. Director:**        Adam Fortney

**Financial Consultant:**   Jim Woodard

**Mission Statement:**

The Mission of the Snohomish County Sheriff's Office is to provide safe communities through dedicated and professional services.

It is our promise that Snohomish County will have a Sheriff's Office that is community-minded, progressive and professional.

The Snohomish County Sheriff's Office is comprised of people who share a common belief and goal to provide the most progressive and professional services possible to the public. To achieve this, we must accept and adhere to basic values. These values are a vital part of the Sheriff's Office and give us the spirit and direction to achieve our goals:

**INTEGRITY**

We adopt an uncompromising approach to the highest ethical standards, being honest, truthful, and worthy of trust.

**DIGNITY**

We believe in the importance of treating others with respect and in conducting ourselves in a manner which inspires respect.

**COMMITMENT**

We are dedicated to the Office's Mission, to the development and support of employees and to the highest standards of professional conduct.

**PRIDE**

As members of this Office we are honored to serve and protect our community.

**Outcomes Generated:**

Our proposed budget funds the service delivery level outlined in our strategic plan. We have prioritized and believe we can attain desired outcomes:

Invest in professional development for our employees through:

- Enhancements to and implementation of safety initiatives
- Maintain accreditation certification
- Improved internal communication and support
- Leadership development and mentoring program

Provide opportunity for community engagement through:

- Expanding our marketing platform
- Development of sustainable community-focused programs
- Continued focus on delivery of professional service

Implement efficiency measures through technology and innovation:

- Search out opportunity for software and related workflow improvements
- Robust research and planning for next-generation hardware evolution

**Department Budget Summary**

**Department:** **39 Emergency Management**

**Dept. Director:** Dara Salmon, Interim

**Financial Consultant:** Vanessa de Salome

**Mission Statement:**

The Snohomish County Department of Emergency Management's mission is to coordinate emergency management activities in partnership with the whole community to lessen the impact of disasters on people, property, the environment and the economy.

**Outcomes Generated:**

- A comprehensive emergency management plan (CEMP) that enhances the county's ability to respond to disasters by coordinating departments', partners', and jurisdictions' efforts.
- Coordinated pre-disaster mitigation and preparedness/outreach efforts that reduce risk to life and property and educate the whole community about how to prepare for hazards, respectively.
- Coordinated post-disaster recovery efforts that leverage partnerships and resources to ensure the timely return to a "new normal" following a disaster.
- Maintenance of an emergency coordination center (ECC) that, when activated, provides County leadership with situational awareness and acquires and allocates necessary resources to support emergency responders.
- Delivery of training and exercises that promotes improved capabilities in all facets of emergency management and tests/validates the plans and procedures of DEM and its partners.
- Interoperable communications that allow us to communicate with local, state, and federal emergency management agencies.

## **Fund Structure**

Snohomish County is required by the State of Washington and Government Accounting Standards Board to account for all of its resources utilizing fund accounting, which divides its resources into series of self-balancing funds.

Some of these funds are required to be established by state law or by bond covenants. Also, the County Council establishes funds to help control and manage money for particular purposes (an example is the Snohomish County Road Fund) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other funding sources (an example is grants received from the federal government for various services provided by the Human Services Department).

### **Governmental Funds**

Most of the County's basic services are reported in governmental funds, which focus on how money flows into and out of the funds and the balances left at year-end that are available for spending. The General Fund, Special Revenue Funds and Capital Projects Fund are the County's major funds.

The **General Fund** is the primary operating fund of the County. It is used to account for all financial resources except those funds required to be accounted for in separate funds.

**Special Revenue Funds** account for revenues which are to be utilized for specific purposes and/or expenditures incurred in the performance of specific activities. Major special revenue funds include the County Road Fund and the Human Services Fund.

- The **County Road Fund** accounts for the construction, maintenance, and inspection of county streets, roads, and bridges and the design and coordination of countywide public works projects. Revenue is primarily from road and other taxes and from state and federal grants.
- The **Human Services Fund** is for the administration, planning, development, and provision of the following services: energy and weatherization assistance, long-term care and aging, developmental disabilities, mental health, alcohol and other drug treatment, community services, children and family services, housing, homelessness and community development, and veteran's relief. Revenue comes from sales and other taxes, state and federal grants, state and county mandated charges for services, general County revenues, as well as from a tax levy for mental health, developmental disabilities, and veterans' assistance.

**Capital Projects Funds** account for major building construction projects throughout the County and the resources and expenditures relating to the acquisition and development of capital improvements. It does not include construction projects related to proprietary fund programs.

**Debt Service Funds** account for the accumulation of resources for the payment of general and special assessment long-term debt.

### Proprietary Funds

Proprietary funds are generally used to account for services for which the County charges customers a fee. They consist of *enterprise fund types* and *internal service fund types*.

**Enterprise funds** account for operations of business-type activities, which are financed primarily by user fees and charges. The County maintains three enterprise funds: Solid Waste Management, Airport Operation and Maintenance, and Surface Water Management.

- The **Solid Waste Management Fund**, administered by the department of Public Works, accounts for the operations, capital improvements, and debt service of the County's solid waste facilities. Revenue comes from the collection of fees at the facilities.
- The **Airport Fund** accounts for the operations, capital improvements, and debt service of Paine Field, Snohomish County's airport. The fund is supported by fees for services. Additional capital funding is received from federal grants, and bond issues may be used to finance capital improvements.
- The **Surface Water Management Fund**, administered by the department of Conservation and Natural Resources, accounts for operations relating to the management of storm drainage and surface water. The purpose of this division is to protect and enhance water quality and aquatic habitats, and to minimize damage from flooding and erosion. Revenue comes from the collection of charges to property owners.

**Internal service funds** account for centralized operations related to providing goods or services to various County departments on a cost-reimbursement basis. The County maintains several internal service funds including a fleet management equipment rental and revolving fund, information services fund, Snohomish County insurance fund, employee benefit fund, facility services fund, training fund, and the security services fund.

Funds in 2023 Budget

## **Budget Process**

### **Basis of Budgeting**

Snohomish County prepares its budget on an annual basis under the authority of RCW 36.40 and further direction by Article 6 of the Snohomish County Charter. All funds are budgeted using the modified accrual basis of accounting, which means that expenditures are generally recorded when a liability is incurred, and revenues are recognized when they are available and measurable. The adopted budget constitutes the legal authority for expenditures and may be amended during the course of the year through the legislative process.

Annual appropriated budgets are adopted for the general, special revenue, debt service, and proprietary funds on the modified accrual basis of accounting. Budgets for capital project funds are adopted at the level of the individual project for fiscal periods that correspond to the lives of the projects. Annual appropriated budgets are adopted at the program level within each fund ("appropriation unit").

### **Budget Control**

The legal level of budgetary control, the level at which expenditures may not legally exceed appropriations, is at the fund/department/ program level for all budgeted funds. For example, the Sheriff's Office's budget that is included in the General Fund may have multiple programs that cannot be individually exceeded.

All appropriations lapse at the end of the year with the exception of project-length budgets for capital project funds.

### **Annual Budget Process**

The budget is the County's plan of action for the calendar year, providing an in-depth look at County finances. In addition, the budget is a communication device, intended to provide complex information in an understandable format for an audience composed of readers with varying levels of backgrounds and interests.

### ***Departmental Request***

At least one hundred thirty-five days prior to the end of the fiscal year, all agencies of county government including elected department officers shall submit to the county executive information which the county executive deems necessary to prepare the proposed budget.

### ***Presentation of Proposed Budget***

At least seventy-five days prior to the end of each fiscal year preceding the preparation of an annual budget, or one hundred days prior to the end of each fiscal year preceding the preparation of a biennial budget, the county executive shall present to the county council a complete proposed budget and budget message, including a budget ordinance which identifies proposed operating and capital appropriations and estimated revenues and reserves necessary to balance the budget. The county executive shall present to the county council proposed tax and revenue ordinances which may be necessary to generate additional resources not being collected in the current year. The county executive

also shall present to the county council a proposed capital improvement program for the next six fiscal years.

***Consideration and Adoption of the Budget***

At least thirty days prior to the end of the fiscal year, the county council is required to adopt a budget for all budgeted funds, tax and revenue ordinances for the next fiscal year. Prior to the adoption of any budget ordinance for the next fiscal year, the county council shall hold a public hearing to consider the proposed budget presented by the county executive and shall hold any other public hearings on the budget or any part thereof that it deems advisable. The county council in considering the budget ordinance proposed by the county executive, may delete or add items, may reduce or increase the proposed appropriations and may add provisions restricting the expenditure of certain appropriations, provided that the county council shall adopt a six (6) year capital improvement program as an adjunct to the budget, including a balance of proposed expenses and potential revenue sources.

The appropriations included in the budget ordinance adopted by the county council shall not exceed the estimated revenues of the county for the next fiscal year for each fund including surpluses and reserves. However the county council may increase the amount of the estimated revenues contained in the budget proposed by the county executive by re-estimating the amount by motion passed by a minimum of four affirmative votes, by utilizing reserves in a manner not proposed by the county executive or by creating additional sources of revenue which were not included in the proposed tax and revenue ordinances presented by the county executive.

**Budget Calendar**

***January - May***

***Planning Phase***

- Preliminary preparation for next year budget
- Prepare Proforma in Budget Development Tool

***June***

***Department Phase***

- Executive Budget Call – Budget instructions and materials are available to Departments.
- Departments submit Budget materials to the Budget Division.

***July - September***

***Executive Recommended Phase***

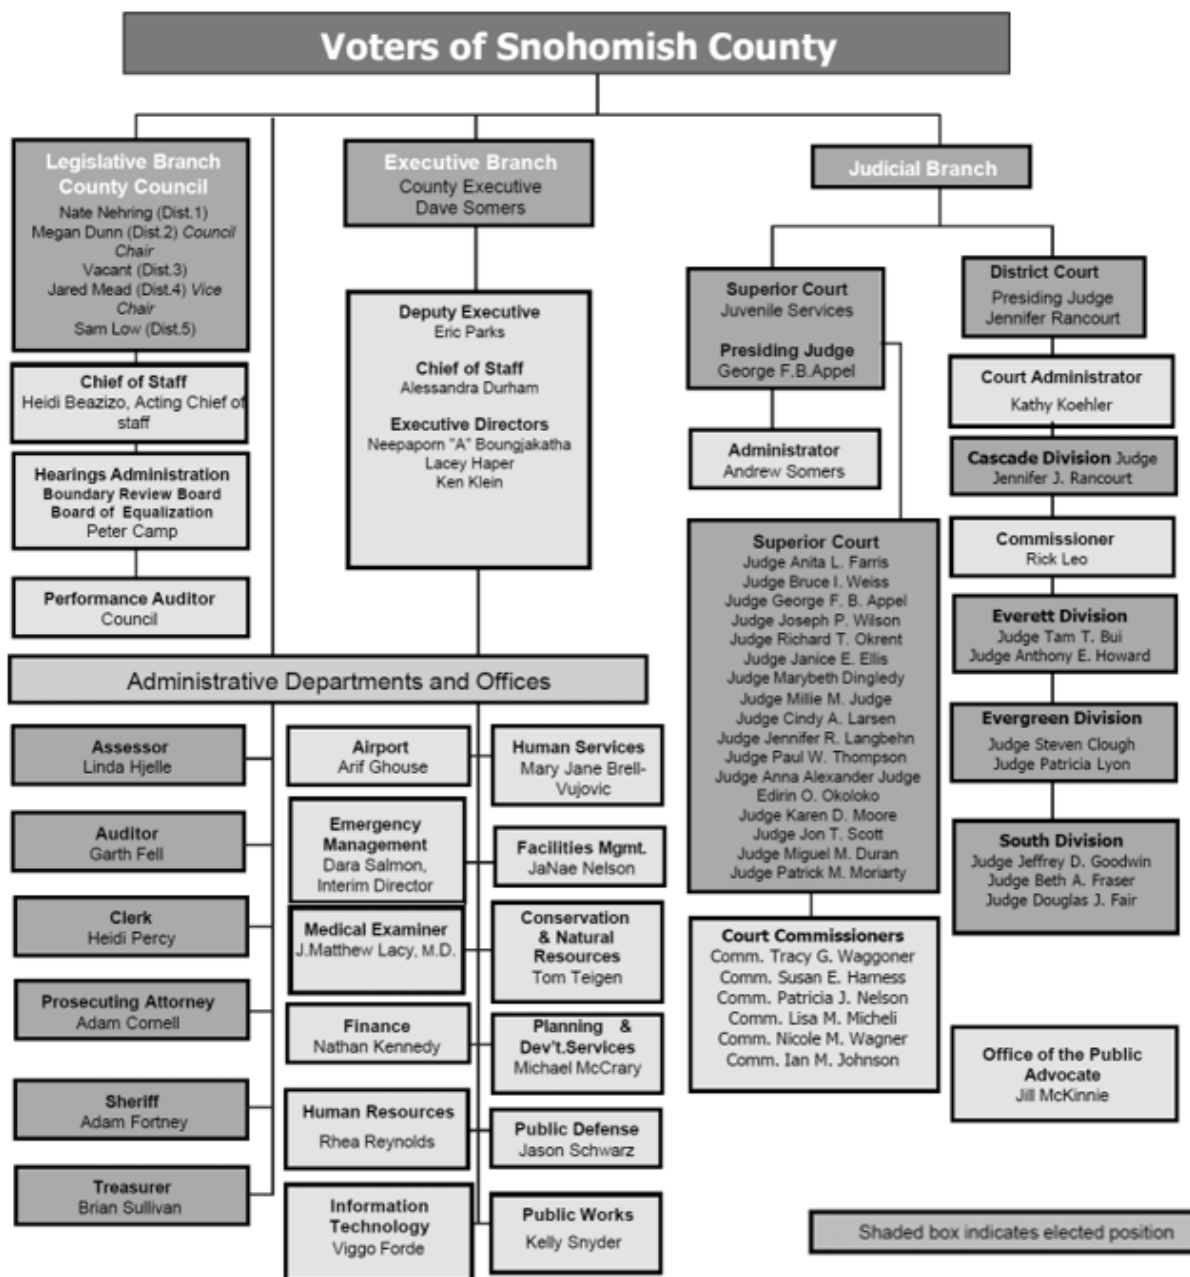

- Budget review meetings are held with Elected and Appointed Department Directors.
- Executive Steering Team deliberates and formulates an Executive Recommended budget.
- Executive presents Recommended Budget to Council.

***October – November***

***Council Phase***

- Council meetings are held with Elected and Appointed Departments for budget presentation.
- Council Budget Public Hearings are held.
- Council Budget Adoption Hearings are held.
- Council adopts the Budget.

**Snohomish County**  
**2023-2028 Capital Improvement Program – Executive Recommended**

---

**Preface**

The 2023 – 2028 Capital Improvement Program (CIP) is a component of the 2015 Capital Facilities Plan. This Snohomish County Executive’s Recommended CIP was forwarded to the Council for their adoption on September 27, 2022, in conjunction with the Executive’s 2023 Recommended Budget.

The Plan was submitted to the Snohomish County Planning Commission for their review in a public hearing on September 27, 2022.

## **Chapter I: Introduction and Background**

Snohomish County adopts a six-year Capital Improvement Program (CIP) as part of the budget process. The CIP is a component of the Capital Facilities Plan (CFP) but is a physically separate document that fulfills two separate, but related, responsibilities of the County under state and local law:

1. The Snohomish County Charter requires adoption of a CIP for all county facilities as a part of the budget process. This six-year capital plan includes 2023 budget elements as the first year of the CIP and projected elements for the years that follow.
2. In addition, the state Growth Management Act (GMA) requires adoption of a six-year financing program “that will finance . . . capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes.” RCW 36.70A.070(3)(d).

Pursuant to Snohomish County Code (SCC) 4.26.024, the County combines the CIP required by the charter and the six-year financing program required by the GMA into one document.

The CIP document fulfills the County’s financial planning responsibilities under two separate mandates. It includes discussion and analysis of public facilities necessary to support development under the Growth Management Act (GMA facilities) as well as other public facilities and services that are provided by the County but not “necessary to support development” (non-GMA facilities). The CIP distinguishes between GMA and non-GMA facilities, as does the 2015 update of the CFP, because the GMA requires additional analysis to determine whether funding meets existing needs in those services that are necessary for development.

The CIP includes a six-year capital construction and investment program for specific projects. It also includes purchases for public facilities and services owned by the County. The CIP specifies revenues that will finance such capital facilities within projected funding capacities. Part of the function of the CIP is to clearly identify sources of public money for such purposes. The CIP incorporates by reference the annual Transportation Improvement Program (TIP) and its supporting documents for the surface transportation capital construction program. The CIP also includes a determination, for GMA facilities, consistent with RCW 36.70A.070(3)(e)(6) and RCW 36.70A.020(12)(Goal 12), as to whether probable funding and other measures fall short of meeting existing needs as determined by the adopted minimum level of service standards. If funding and other measures are found to be insufficient to ensure that new development will be served by adequate facilities, the GMA requires the County to take action to ensure that existing identified needs are met. This process is known as “Goal 12 Reassessment” and is discussed in Chapter V.

The 2023-2028 CIP divides the County’s capital projects into three broad categories: 1) General Governmental; 2) Transportation; and 3) Proprietary. General Governmental activities are primarily tax and user fee supported and are organized by facility type. Several departments are represented in the general governmental category, including Conservation & Natural Resources/Parks and Recreation, Information Technology, and Facilities Management.

The GMA calls for transportation to be examined as a separate comprehensive plan element (the Transportation Element). The Transportation Element is implemented by the separately adopted 2023 – 2028 Transportation Improvement Program (TIP). The TIP should be referred to for any details regarding the location and timing for specific transportation projects. Summary information for transportation projects is also included in this document solely for coordination with other capital facility programming to facilitate a comprehensive look at the County’s capital financing needs.

## **Snohomish County**

### **2023-2028 Capital Improvement Program – Executive Recommended**

---

Proprietary activities rely primarily on fees generated from the sale of goods and services for their operations. The proprietary category includes Conservation & Natural Resources/Surface Water, Solid Waste and Airport.

The process for developing the County's CIP is integrated with the budget development process. During the budget preparation process, departments submit their requests for capital dollars, including major capital facility project requests. This information is transmitted to the County Finance Department, which updates the database and works with departments to refine figures and develop improved maintenance and operation costs. The County Executive then develops a recommended CIP for presentation to the Council as part of the annual budget.

## **Chapter II: Financing Strategies**

Capital funding for general government, transportation, and proprietary projects emanates primarily from operating revenues, grants, local improvement districts, latecomer fees, and mitigation fees. General governmental, transportation, and proprietary operations all use such debt financing strategies as bonding and leasing to help fund improvements. At this point the similarities between general governmental and proprietary capital projects end.

In Washington State it is generally easier to fund proprietary capital improvements than general governmental improvements. Should a council decide that it is in the municipalities' best interest to carry out a proprietary improvement; it may unilaterally elect to increase charges for commodities like surface water, solid waste tipping fees, or airport leases.

In the general governmental area however, Washington state law limits: 1) The sources municipalities can use to raise funds for capital improvements; 2) The tax rates that can be charged to raise funds for capital improvements; and 3) The amount of general obligation debt (capacity) that can be issued to raise funds for capital improvements. Another complicating factor in general governmental capital funding is reliance on voter approved bond issues. This creates uncertainty regarding if, and when, certain improvements will take place.

After reviewing the extensive list of capital requests submitted by departments, and comparing them with anticipated revenues, it is apparent that financing capital needs will be challenging in future years. In response, the 2023-2028 CIP adopts the following general strategies.

### ***General Strategies***

Looking across all department lines, the program calls for:

1. Non-“brick & mortar” solutions be utilized wherever possible;
2. Similar departmental capital needs be combined wherever possible for efficiencies and cost savings;
3. Stretch Real Estate Excise Tax (REET) dollars by issuing intermediate term bonds;
4. Existing resources be fully utilized prior to the purchase, or construction of new facilities;
5. Revenue generating activities move to funding capital improvements from receipts, rather than relying on REET or General Fund revenues.

Snohomish County's six-year capital financing plan utilizes Real Estate Excise Taxes (REET), voter approved issues, General Fund, special revenue funds, enterprise funds, internal service funds, and other RCW allowed sources.

## Snohomish County

### 2023-2028 Capital Improvement Program – Executive Recommended

#### ***Voted Issues***

Voter approved issues add a level of uncertainty to funding capital projects. If the voters vote no, the revenue required to fund the project would not be available. The 2023-2028 CIP proposes no voter-approved issues. For information purposes, Table 1 indicates possible election dates and the date Council approved and Executive signed ordinances are due to the County Auditor during the period 2023-2028 that would be critical if the County sought to put voter approved issues on the ballot.

**Table 1. Future Election Dates and Related Milestones**

#### ***Financing Method***

Below is a description of the various revenue sources used to fund the Capital Improvement Program. The County Council must appropriate all revenue sources before they are used on a capital project.

**Table 2: Description of Revenue Sources**

Method of Funding	Description
REET I & II	Real Estate Excise Taxes (REET) are taxes applied to sale of real estate. In unincorporated areas, the County collects an amount equal to 0.5% of the transaction. The proceeds are divided equally between REET I and REET II. REET I may be used for planning, acquisition, construction, repair or improvement of roads, surface water, parks, law enforcement, fire protection, or County administration projects. REET II may be used for planning, acquisition, construction, repair or improvement of roads, surface water, or parks projects. Projects must be included in the Capital Improvement Program to qualify. The REET I expenditures included in this CIP are totally committed to debt service (see Exhibit 4).
General Fund	General Fund appropriations are funds appropriated by the County Council from the County's General Fund. General Fund revenue supports general government services including most law and justice services. Sources of general fund revenue include property taxes, sales tax, fines, fees, and charges for services and investment earnings.
Special Revenue Funds	Special Revenue Funds, like the General Fund, derive revenue from taxes, charges for services, and other general governmental sources such as state shared revenues. Unlike the General Fund, Special Revenue Fund expenditures are limited by statute or ordinance to specific purposes. The Road Fund, Brightwater Mitigation Fund, and Planning's Community Development Fund are examples of Special Revenue Funds.

**Snohomish County**  
**2023-2028 Capital Improvement Program – Executive Recommended**

---

<b>Method of Funding</b> <i>(continued from prior page)</i>	<b>Description</b>
Debt Proceeds	In many instances, the County funds a major capital improvement with short term or long-term debt. An example in this CIP is the Campus Redevelopment Infrastructure (CRI). The County will identify a stream of revenue within its budget for paying debt service. Sources of this stream of revenue include the other fund elements referenced within this exhibit. In the instance of the Campus Redevelopment Initiative, the County is funding debt service through appropriations from REET I and the General Fund.
Proprietary Funds	Proprietary Funds include the following funds: Solid Waste, Airport, Surface Water Management. Each of these proprietary funds has a dedicated source of revenue that may be appropriated by the County Council for capital projects. Sources of proprietary funds include fees, taxes, grants, local improvement district charges, impact fees, investment earnings, and charges for services rendered.
Councilmanic Bond Funds	Councilmanic Bond Funds are proceeds of debt authorized under the authority of the County Council. While limits exist for Councilmanic and Voted Bond funds, the County's level of related bond debt is well below limits in both categories.
Voted Bond Funds	Voted Bond Funds are the proceeds of debt authorized through a public election.
Mitigation Fees	Mitigations Fees are fees charged to new construction projects within the County. The proceeds are used in Roads and Parks Special Revenue Funds to pay for construction and land purchases that respond to impacts from growth within the County.
Other Funds	This designation of funding for CIP projects includes specific funds that are not specifically identified in the CIP because of their size. Revenues from these funds must meet the same tests as other fund sources for revenue adequacy.
Prior Year Appropriations	When capital construction fund amounts are set aside from prior year appropriations, they are being reserved for projects referenced within the CIP. However, since the projects are not complete and portions or all of the related expenditures have not yet been made, the projects still are included in the CIP. The amounts are shown as funding sources in the year that they will be expended.

***Revenue Estimates***

Many sources of government revenue are fairly predictable (e.g., property tax). However, some revenue sources (e.g., federal and state grants) are difficult to predict on a case-by-case basis but can be reasonably predicted in the aggregate. Future year revenues are predicted based upon known commitments and historical trends adjusted for specific economic or other relevant information. The qualitative objective in projecting future revenues available to fund CIP projects is to estimate a reasonable and probable level of future funding.

**Snohomish County**  
**2023-2028 Capital Improvement Program – Executive Recommended**

---

**Chapter III: 2023-2028 CIP Project Summary**

This section presents a summary of capital projects contained in the 2023-2028 Capital Improvement Program. It provides several facets of information presented by departments.

***Capital Definition***

The following rules were used in identifying projects other than real property purchase or improvements that are included in the CIP:

1. Individual pieces (and replacement) of equipment with costs of less than \$50,000 are not included;
2. Large automated systems are regarded as single pieces of equipment;
3. Repair or maintenance expenditures are not included unless an expenditure significantly enhances the value of the property;
4. All REET expenditures are included;
5. Where possible, like projects from one department are aggregated into a single CIP project.

Capital projects can be classified in the following categories:

**Table 3: Classification of Departmental Projects by Category**

Category	Department/Program	Sub-Category
General Governmental	Facilities Management Information Services Technology Plan Equipment Rental & Replacement	General Services
	Conservation & Natural Resources	Parks and Recreation
	Corrections Sheriff 800-Megahertz Project	Law Enforcement
	Non-Departmental	REET Debt Service
Transportation	Public Works Roads	Ground Transportation
Proprietary	Conservation & Natural Resources	Surface Water
	Public Works Solid Waste	Solid Waste
	Airport	Airport Investments

On the following pages, five exhibits present various fiscal summaries of the 2023-2028 Capital Improvement Program. Exhibit 1 summarizes improvements by category and type. Exhibit 2 summarizes all projects by revenue source. Exhibit 3 compares multiple years' investment in infrastructure. Exhibit 4 lists all REET funded projects and is also sorted by the department requesting funding for the project. Exhibit 5 includes projects by County department.

## Snohomish County

### 2023-2028 Capital Improvement Program – Executive Recommended

#### *Projects by Classification*

The following matrix provides a high-level description of projects within this Capital Improvement Program (CIP) by sub-category classification.

**Table 4: Description of Projects by Classification**

Sub-Category	Summary Description of Projects Included in the CIP
Park Land and Recreational Facilities	Parks and Recreation (a division of Conservation & Natural Resources) CIP projects are centered on four main priorities: meeting level of service (LOS) (largely funded through park impact mitigation fees and grants), taking care of existing assets (e.g. pavement preservation, playground replacement and renovation of existing parks), expansion of revenue producing amenities and development of regional trail systems. Whenever possible, grant funds and other outside funds are sought to support park capital improvements and significant funding has been provided in the past from the Washington State Recreation and Conservation Office, donations and other sources.
REET Debt Service	Snohomish County allocates Real Estate Excise Tax (REET) funds within the Capital Improvement Program to provide debt service for its outstanding Limited Tax General Obligation Bonds. These bond issuances have been used to finance a variety of County capital needs, including a new Courthouse addition, a number of County facility remodels, various County Parks projects, and the Campus Redevelopment Initiative (CRI) which included a correctional facility, parking garage, and administration building.
Surface Transportation	<p>The Department of Public Works (DPW) – Transportation and Environmental Services (TES) division's Transportation Improvement Program (TIP) includes a wide variety of capital projects that are grouped into several categories:</p> <ul style="list-style-type: none"> <li>A. <u>Miscellaneous Engineering &amp; Studies</u>: This category funds preliminary project planning, feasibility studies, and specialized reviews associated with initial project development;</li> <li>B. <u>Preservation/Overlay &amp; ADA</u>: DPW uses a pavement management system that provides a systematic approach to lengthen roadway life through timely maintenance and preservation. Overlay projects and the associated ADA ramp upgrades are programmed in this category. Also budgeted here is the County's ADA transition program and County contributions to local agency projects;</li> <li>C. <u>Non-Motorized/Transit/High Occupancy Vehicle</u>: This category funds projects to promote active transportation and improve multi-modal connections along major roadways and in growing urban areas. Improvements enhance walking conditions along popular routes between schools, transit stops, and residential and commercial areas. These facilities help to ensure resident safety, reduce vehicle trips, and improve access to public transportation and park and ride opportunities;</li> <li>D. <u>Traffic Safety/Intersections</u>: These projects provide safety improvements at spot locations and are designed to improve traffic flow and eliminate hazards. Projects include turn lane additions, neighborhood traffic calming devices, traffic signals, guardrail installation, road bank stabilization, and flood repair projects;</li> <li>E. <u>Capacity Improvements</u>: Projects in this category are designed to increase vehicle carrying capacity on the county arterial system and provide satisfactory levels-of-service to meet transportation system concurrency requirements. Projects include corridor widenings, new alignments, and major intersection improvements;</li> <li>F. <u>Bridge Replacement and Rehabilitation</u>: This category funds the replacement or rehabilitation of deficient county bridges identified through federal and state inspections;</li> <li>G. <u>Drainage</u>: Drainage projects improve and preserve drainage infrastructure on the county road system. A component of this category is replacement of culverts under county roads to improve fish passage.</li> </ul>
Airport Facilities	Many Snohomish County Airport (Paine Field) capital projects are multi-year construction projects

**Snohomish County**  
**2023-2028 Capital Improvement Program – Executive Recommended**

Sub-Category	Summary Description of Projects Included in the CIP
	and respond to existing or prospective customer needs that preserve and increase the asset and revenue base of the Airport. These include airfield upgrades; new building construction; road construction for improved transportation access to these new developments; and miscellaneous repairs to existing facilities and infrastructure. Aviation-related capital improvements may be eligible for funding from two sources; grant funding from the Federal Aviation Administration ("FAA") at 90%; and/or from local Passenger Facility Charges ("PFC") which is at \$4.50 per enplaned passenger. Local PFC funds are restricted to FAA approved projects only. The FAA funds runway and safety improvements, obstruction removal and other capital projects to meet or maintain FAA standards and preserve or enhance capacity.
Technology Plan	Capital projects for Information Technology (IT) typically involve multi-year efforts to upgrade or replace the technology systems of Snohomish County. The County uses a 36-month IT strategic plan to define the priorities for technology investments, and they plan these priorities in conjunction with customer agencies who propose projects to advance those strategies. Over the next five years, most capital projects will focus on "application modernization" –modernizing and replacing aging legacy applications in order to support more efficient and effective operations and services. Details about both current projects and future IT strategies are published in IT's annual report as required by County code.
Surface Water Management	<p>Projects of Surface Water Management (SWM) (a division of Conservation &amp; Natural Resources) are undertaken for the purposes stated in Snohomish County Code. The projects reduce drainage problems, improve aquatic habitat, improve the water quality of the County's drainage systems and local streams and lakes, address local drainage and flood protection needs, as well as respond to Federal mandates to protect habitat and water quality under the Endangered Species and Clean Water Acts.</p> <p>SWM's six-year CIP (2023-2028) continues to implement drainage, water quality, aquatic habitat and river protection projects as follows:</p> <ol style="list-style-type: none"> <li>1. <u>Flooding, Erosion &amp; Habitat Restoration Projects</u>: The Stream and River Capital sub program includes river, sediment, and erosion control projects on large rivers, and feasibility analysis, design and construction of projects to restore or improve habitat and water quality in rivers and streams. This Program operates and maintains dikes and levees within the county and works with FEMA to mitigate future property losses through the acquisition, elevation, or relocation of risk-prone structures.</li> </ol> <p>Habitat restoration capital efforts are focused on implementation of the County's Salmon Recovery Plans organized around WRIA 5 (Stillaguamish), WRIA 7 (Snohomish) and WRIA 8 (South County Lake Washington) and implementation of project recommendations from the Sustainable Lands Strategy (SLS) process.</p> <ol style="list-style-type: none"> <li>2. <u>Drainage, Fish Passage and Water Quality Projects</u>: The Drainage, Fish Passage and Water Quality Capital sub program provides engineering planning and analysis, project design, and project construction to solve drainage problems, improve culverts for fish passage, and improve water quality throughout the County. The projects include upsizing culverts or drainage systems, installing new drainage or infiltration systems to reduce road flooding, and retrofitting drainage and stormwater facilities to increase stormwater detention and /or improve water quality. This program has four main components: <ul style="list-style-type: none"> <li>• Drainage and Flooding Reduction projects: These projects resolve neighborhood and basin wide drainage and road flooding problems. The projects are developed from drainage complaints, referrals from other County departments and divisions, Master Drainage Plans and other engineering studies;</li> <li>• Fish Passage Improvement projects: This includes the development and implementation of a program to replace existing fish blockage culverts with systems that allow and encourage fish passage;</li> <li>• Master Drainage Planning, basin planning, and Water Quality Facility Planning:</li> </ul> </li> </ol>

**Snohomish County**  
**2023-2028 Capital Improvement Program – Executive Recommended**

Sub-Category	Summary Description of Projects Included in the CIP
	<p>This program includes analysis of specific geographic areas and preliminary design to resolve existing and predicted future drainage, water quality and habitat problems; and</p> <ul style="list-style-type: none"> <li>NPDES and water quality-focused projects: These projects include retrofitting stormwater facilities to improve water quality and improving County drainage systems to reduce water quality problems.</li> </ul>
Solid Waste Facilities	<p>The Solid Waste Division (Public Works) 2023-2028 CIP identifies the following projects:</p> <ol style="list-style-type: none"> <li><u>Scale Automation Software Upgrade:</u> The Division will proceed with a Request for Proposals (RFP) and acquisition of a new scale software system in 2023. The existing system, servicing all Division facilities, has been in operation for over 30 years. The system has been stable and reliable; however, many of the programming and report functions are no longer compatible with current IT systems and computer processing technology. Upgrading the software system would be a benefit to both the Division and its customers. The Division will replace this system in 2023.</li> <li><u>Drop Box Improvements:</u> The Division's aging rural drop box sites are in need of repair. Such repairs include maintenance of site retaining walls and parking lot surface treatments. Additionally, with continued development in the eastern part of the County, the Division will develop plans to address the solid waste needs in this part of the County. A feasibility study will be performed in 2023 to evaluate future requirements for east Snohomish County disposal options.</li> <li><u>LPF Building Roof Replacement:</u> The roof on this facility has been leaking for several years and is past its useful life and the upper roof will be replaced in 2023.</li> <li><u>Bldg K Retrofit:</u> The trailer used by the Cashiering Specialist group at CWOC is in poor condition and in the way of future vector operations. The Division will retrofit an existing building as office space for this workgroup to utilize in 2023.</li> <li><u>MRW Facility Floor Finishing:</u> The concrete floor at the MRW is in poor condition due to the hazardous materials that are processed at this facility. The floor will be prepped and refinished by a contractor in 2023.</li> <li><u>Groundwater Well Commissioning and Redevelopment:</u> Work would include maintenance of groundwater wells at the Bryant, Lake Goodwin and McCollum Park landfills. At the Bryant landfill, this would include removing existing pumps from all onsite wells and re-development of the wells using swabbing, surge and bail, and pumping techniques. The Lake Goodwin landfill maintenance includes abandoning, drilling and replacing one groundwater well and constructing a new well deeper to intersect with the groundwater surface in the area, which appears to be dropping. The McCollum Park maintenance includes abandoning two wells north of the landfill.</li> <li><u>Cathcart Culvert Replacement:</u> Culverts directing Garden Creek flow underneath portions of access roads on the Cathcart Way Operations Center campus are in need of repair and replacement, the second set of culverts will be replaced in 2023.</li> <li><u>Vector Capacity Study:</u> The Division's vector grit line of business has seen significant year-over-year growth for multiple years and has responded by adding temporary capacity. The Division will expand this facility in 2023.</li> <li><u>Electric yard goats:</u> The division has purchased 4 electric yard goats. The 2 remaining diesel yard goats are nearing the end of their useful lives and the Division is replacing these critical pieces of equipment with all electric models if a yard goat is developed that can operate on a slope. These models are anticipated to save repair and maintenance expenses over the useful life of the equipment.</li> <li><u>Semi-trucks:</u> As volume has increased at all of the sites, the Division has a need to expand trucking capacity to continue to move solid waste through the system. This equipment will be procured in 2023.</li> <li><u>Wheeled Loader:</u> A wheeled loader is required for CWRTS to process MSW. The Division will explore if a hybrid or electric version is available and will procure this</li> </ol>

Sub-Category	Summary Description of Projects Included in the CIP
	<p>equipment in 2023.</p> <p>12. <u>SWRTS Scale Replacement</u>: The SWRTS commence scales are approaching 20 years old and need to be replaced to ensure accurate billing of customers and will be replaced in 2023.</p> <p>13. <u>Sisco Landfill</u>: As part of a settlement agreement, the County will use restricted third-party funds to pay for closure of the Sisco Landfill in accordance with state and local regulations. Design and permitting began in 2017. Permitting will continue through 2022-2024 with construction in 2025.</p> <p>14. <u>Intermodal Facility Improvements</u>: The SWD requires additional parking and a new office at the Intermodal Facility which will be constructed in 2025.</p> <p>15. <u>ARTS Compactor Replacement</u>: The ARTS compactors will reach the end of their useful life and will be replaced in 2026.</p> <p>16. <u>Rail Capacity Improvements</u>: The County will work with BNSF to improve intermodal capacity in the Delta Yard, located adjacent to the Intermodal Facility in 2026.</p> <p>17. <u>North County Recycling &amp; Transfer Station</u>: This facility was constructed in 1988 and is reaching the end of its useful 40-year life expectancy. The Division will perform a feasibility study to replace this facility with a flat floor transfer station. It is anticipated that construction will begin in 2026 and be completed in 2027.</p> <p>18. <u>SWRTS Compactor Replacement</u>: The SWRTS compactors will reach the end of their useful life and will be replaced in 2028.</p> <p>19. <u>Contingency funding for unanticipated repairs</u>: Funding to support repairs for unanticipated equipment failures each year.</p>
General Government Facilities	The County is in the planning stage of the construction of Arlington Operations Center to house the road maintenance and fleet services divisions of the County servicing the north end
Fleet Services	Fleet Services' 2023-2028 CIP consists of equipment replacement for individual equipment costing over \$50,000.

**Chapter IV: Departmental Capital Improvement Program Detail**

Descriptions, justifications, projected costs, and funding sources for each project are summarized in this section. The order that the worksheets are presented is determined by the County department initiating the request and by the fund of that department.

Similar projects from one department are sometimes aggregated into a single Capital Improvement Project. They may be grouped into a single project because of a similar purpose, type of expense, and funding source. Detail on transportation projects of this nature, on a project-by-project basis, is included in the County's 2023-2028 Transportation Improvement Program.

Funding source is driven by the year of project expense rather than the year of funding receipt or project authorization.

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 06 Public Works

**Short Name:** 102 - Road Fund Transportation Improvement Program

**Description:** The Annual Construction Program (ACP) is updated each year along with the six-year Transportation Improvement Program (TIP) to specify the transportation capital program in accordance with the adopted Comprehensive Plan, which sets the stage for future land use and growth through 2035. To meet the needs of an estimated 238,000 new residents, the ACP & TIP provides for new and/or enhanced capital improvements to create a viable arterial network.

The 2023 ACP and capital road fund expenditure budget includes construction of large grant-funded transportation improvements including 36th Ave W/35th Ave W and Index Galena Rd flood repair. In addition, the capital program continues to invest in pavement preservation, ADA, safety, and non-motorized programs. The 2023 ACP continues to stretch and leverage local Road Fund dollars, with \$1.56 in grant funds for every \$1 of Road Fund.

#### 2023 PROGRAM COMPONENTS

This package describes the capital road construction program and provides staffing support, consultant and contract services necessary to design, acquire right-of-way (R/W), and construct \$43.3 million in capital improvement projects. These projects will provide for a safe, efficient transportation system that meets the growing needs of Snohomish County residents and businesses.

The 2023 capital program consists of \$7.6 million in Preliminary Engineering (PE), which is the basic design work needed to develop projects. PE also accounts for dollars spent through the environmental permitting process, as well as for public review of projects. \$6.4 million will be devoted to R/W acquisition for new and expanded roadways. R/W dollars are also spent on land needed for drainage/detention areas and environmental mitigation sites. Approximately \$24 million will be spent on construction by contract and \$1.3 million by County Forces on smaller scale projects. \$4.0 million will be for construction engineering and inspection needed to ensure projects are built as designed and traffic flow and safety throughout the work zones are maintained.

A. ENGINEERING & STUDIES (\$550,000). This category funds preliminary project planning and specialized reviews directly associated with the ACP projects needed to ensure transportation infrastructure meets the County's growing needs.

B. PAVEMENT PRESERVATION AND REHABILITATION PROGRAM (\$6,575,000). Snohomish County uses a Pavement Management System, which provides a systematic approach to lengthen roadway life by timely preservation and maintenance. When road reconstruction is warranted, these projects fall under this category along with the associated ADA ramp upgrades. Additionally, implementation of the County's ADA Transition Plan is budgeted here.

C. NON-MOTORIZED/TRANSIT/HIGH OCCUPANCY VEHICLE (\$3,332,000). This category funds projects to improve pedestrian and multi-modal connections along major roadways and in growing urban areas. Projects seek to improve walking conditions along popular routes between schools, transit stops, and residential and commercial areas. Safer walking conditions make it easier for citizens to take advantage of alternative modes to driving. Well-planned connections promote an area's vitality and sense of community. This category includes the County's payments to Community Transit for the Curb the Congestion program.

D. TRAFFIC SAFETY/INTERSECTIONS (\$8,868,000). These projects provide safety improvements to spot locations, which are designed to improve traffic flow and eliminate hazards. Projects include adding

# Snohomish County

## 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 06 Public Works

**Short Name:** 102 - Road Fund Transportation Improvement Program

turn lanes, neighborhood traffic calming devices, traffic signals, guard rail installation, and road bank stabilization projects. This category also includes the Index Galena Road and Goodman Creek Culvert flood repair projects.

E. CAPACITY IMPROVEMENTS (\$16,448,000). Projects in this expenditure category are designed to increase vehicle carrying capacity on the County road system. The projects provide satisfactory levels of service to meet transportation system concurrency requirements identified in the Transportation Element of the County's Comprehensive Plan. Where warranted, capacity projects add travel lanes along corridors and improve major intersections. New roadway alignments are also included in this category. Generally, these projects include bike lanes, sidewalks, landscaping and illumination. 36th Ave W/35th Ave W, 43rd Ave SE, and Alderwood Mall Parkway are included in this category.

F. BRIDGE REPLACEMENT & REHABILITATION (\$2,388,000). This category funds replacement and rehabilitation of deficient County bridges. Bridge projects are identified through federal and state bridge condition inspection findings and the County's Annual Bridge Condition Report.

G. DRAINAGE (\$5,102,000). Drainage projects improve and preserve drainage infrastructure on the County road system. These projects lie within County road right of way, are an integral part of the road system, and are necessary to maintain and preserve system condition. A component of this category is replacement of culverts under County roads that are currently fish blockages. The Mann Rd and Ben Howard Rd Improvements project is included in this category.

## 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 06 Public Works

**Short Name:** 188 - Arlington Operations Center

**Description:** The Road Maintenance Division (Road Maintenance) operates from two locations: the Arlington Shop and the Cathcart Way Operations Center, maintaining approximately 1,600 road miles and 202 bridges. Road Maintenance has approximately 70 full time staff based at the Arlington Shop and 110 staff based at Cathcart, with high levels of seasonal staff added during summer months. Road Maintenance provides day-to-day maintenance and small project construction services. It is also an important emergency responder for flooding, landslides, opening roads for utilities, and other emergency services. The Arlington Shop serves the north county (RM District 1), which has approximately 562 road miles. It also is the location of the Bridge Crew, which maintains all the County's 205 bridges.

The Fleet Services Division, Facilities and Fleet, operates an equipment maintenance shop at the Arlington Shop site with a staff of eight mechanics, one supervisor, and one storekeeper. The shop repairs and maintains the trucks and heavy equipment used by the road crews at Arlington. The shop also repairs and maintains Solid Waste trucks equipment and performs urgent repairs on Sheriff's vehicles. Fleet Stores purchases and maintains an inventory of material and supplies that support the road crews, including guardrail, bridge timbers and components, drainage structures and culverts, and other supplies.

The proposed Arlington Operations Center project will provide approximately 15,000 square feet of staff office and meeting space. The project will include a redevelopment plan for the Arlington Shop site, including the eventual replacement of the ER&R Maintenance Shop (construction for ER&R shop not included in this CIP request), to be completed in a later phase as funding is available.

This package requests in 2023 to hire consultants for the Phase 1 improvements which include design and construction of the new administrative/crew building, utility and stormwater improvements, and remediation of contaminated soil.

The Arlington Operations Center project has a planning level cost estimate of \$34.9 million over life of the project. This priority package requests \$2,755,000 for consultant design work and preliminary construction in 2023. Funding for this redevelopment project is proposed by a combination of Road Fund revenue generated from the sale of various properties, \$1 million contribution from Fleet/ER&R, and non-voted construction bonds.

## 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Capital Improvement Program

**Description:** This package includes the 2023 portion of the 6-year Capital Improvement Plan (CIP) for the Solid Waste Division (SWD).

The 2023 Capital Program includes:

- ARTS Tipping Floor Repair (\$885K)
- ARTS Scale house HVAC Improvements (\$125k)
- NCRTS Transfer Station Feasibility Study (\$50k)
- NCRTS Leachate System Improvements (\$215k)
- Dubuque Drop Box Planning & Design (\$125k)
- Sultan Drop Box Asphalt Overlay (\$50k)
- ESS Bldg M Upper Roof Replacement (\$300k)
- ESS Remote Sensor Standardization (\$420k)
- ESS Bldg K Retrofit/Bldg M Replacement (\$825k)
- MRW Floor Refinishing (\$125k)
- Vactor Facility Improvements (\$725k)
- Intermodal Facility Property Security Improvements (\$50k)
- CWOC Culvert Replacement (\$250k)
- CWOC Telecom Relocation (\$125k)
- Equip - EV Yard Goat (upgrade from diesel 2 ea) (\$250k)
- Equip - Diesel Yard Goat Buyback (training/spare) (\$25k)
- Equip - Semi-truck (line truck 2 ea) (\$340k)
- Equip - Diesel-electric Loader for CWRTS (\$350k)
- Equip - Upsize Excavator for SWRTS (\$100k)
- Scale Automation Software RFP / Procurement (\$275k)
- Sisco Landfill Closure Design/Permitting (\$125k)
- Contingency funding for unanticipated repair (\$350k)

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR - Parks Fund 185 Conservation Futures

**Description:** The Snohomish County Conservation Futures Program is responsible for administering funds for the purpose of acquiring interests or rights in real property located within Snohomish County which meet open space and conservation requirements as per RCW 84.24.230 and S.C.C. 4.14. Funding for the program is through the collection of up to \$ 0.0625 per \$1,000 of assessed valuation against all taxable real property within Snohomish County.

S.C.C. 4.14.080 establishes a Conservation Futures Advisory Board, consisting of the County representative, two County Council representatives, two elected officials from cities within the county, and two citizen representatives, to make recommendations for projects funded by Conservation Futures revenue. Projects are evaluated and prioritized based on various criteria, including regional significance, multijurisdictional benefit, enhancement to current conservation programs, consequences from development, compliance with open space policies, and/or establishment of a trail corridor or natural area linkage. The board meets as necessary and make recommendations which are forwarded to the County Executive for transmittal to the County Council for final action.

This budget reflects the balance of funding for projects to be completed in 2022 that were approved by the committee as well as operations and maintenance plus bond debt payment and mandatory capital interfund costs. The budget also allows for available funding for new projects as defined by Conservation Futures Advisory Board.

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Fair Park Fund 180 Capital

**Description:** As describes in SCC 4.87 the Reserve Fund for Evergreen Fairgrounds Capital Improvements was established in 1993 to account for and accumulate monies for expenditure on capital improvements or acquisitions at the Evergreen State Fair Park. It also accounts and accumulates funds for relief should there be a Fair Park operational deficit, this is considered the Rainy Day Fund with a minimum of \$250,000 held in reserve. When the fund took on debt service in 2011 we established an Additional Reserve of \$300,000.

The source of these funds are generated by deposit of 10% on all building and grounds rentals, admission tax and surplus of Fair Park operating as determined at the conclusion of each budget cycle.

This package includes the 2023 Budget for planned new capital expenditure (Machinery/Equipment and Construction) and off-setting revenue only. The base costs such as Repair and Maintenance, debt service (prior capital), interfunds and reserves are in a non-capital project (Pkg#428).

## **Snohomish County**

### **2023-2028 Capital Improvement Program - Executive Recommended**

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Community Parks

**Description:** COMMUNITY PARKS (Program 44)

Community Parks are facilities which are typically located near population hubs and provide a mix of recreational amenities that are selected to serve the surrounding community. Amenities provided within Community Parks often include the types of improvements which are included within Parks' level-of-service and, as such, may help address needs related to population growth. Community Park projects included in the six-year capital program include property acquisition, development and/or improvements and are included to provide new amenities to serve new population.

Snohomish County's Park Improvement Plan for Community Parks consists of the following:

BRIGHTWATER MITIGATION PROGRAM / CAROUSEL RANCH: Park acquisition and development project funded through a mitigation agreement with King County/METRO for the Brightwater Sewage Treatment Plant. Remaining improvements identified as part of this agreement are planned to be completed at the Carousel Ranch property, which was acquired in 2015 for this purpose. Funding is proposed as follows:

Prior Year Balance: \$17,837,897

2023: \$0

Future Years: \$0

Project Start/End Date: 2013/2024

Project Status: Permits are currently under review and construction is planned to start in 2023.

Changes Since the 2022 Budget: None.

CAVALERO HILL PARK DEVELOPMENT: Development of the Cavalero Hill Park site based upon the completed Preferred Plan. The Park is proposed to include a skate park, off-leash dog area, playground, sand volleyball courts, bmx track, trails, open space and possible commercial area. This project is being pursued in partnership with the City of Lake Stevens. Phase 1b has been completed and funds that were proposed to be accumulated for future phases has been removed to fund other projects. Funding is proposed as follows:

Prior Year Balance: \$22,506

2023: -\$30,382 (GMA Mit. Fees)

Future Years: 2028 - \$1,200,000 (GMA Mit. Fees)

Project Start/End Date: 2014-2020

Project Status: Construction of the skate park was completed in 2020 and future year funding has been removed.

Changes Since the 2021 Budget: Added future year funding.

CORCORAN MEMORIAL PARK: Construction of a new playground will be completed in 2022. The 2023 budget includes funding for a privacy fence between the park and the life estate. Other improvements, including a gravel parking lot and a sport court, etc, are planned and funds are being accumulated for future phases. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$30,382 (GMA Mit Fees)

## **Snohomish County**

### **2023-2028 Capital Improvement Program - Executive Recommended**

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Community Parks

Future Years: 2024 - \$70,000 (GMA Mit. Fees) and 2027 - \$1,700,00 (GMA Mit. Fees)

Project Start/End Date: 2019/2022, 2024-2025, and 2027/TBD

Project Status: Construction of the new playground is progressing and will be completed in 2022.

Plans are underway for the privacy fence to be constructed in 2023.

Changes Since the 2022 Budget: Addition of funding for fencing and future phases.

COUNCIL PARTNERSHIP PROJECTS: Funding provided via Interlocal Agreement to jurisdictions for completion of capital projects. Funding is proposed as follows:

Prior Year Balance: \$683,859

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2022

Project Status: Interlocal Agreements for projects identified in 2021 have been completed except for funding for the City of Snohomish, due to a change in project funding. The amount allocated to the City of Snohomish for improvements at Averill Field Park has been updated to \$55,000.

Changes Since the 2022 Budget: Carry over of a portion of District 5 funding.

ESPERANCE PLAYGROUND/SITE IMPROVEMENTS: Completion of the forest play area and sport court surfacing. Funding is proposed as follows:

Prior Year Balance: \$315,011

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2022

Project Status: Completed earlier site development efforts in 2022.

Changes Since the 2022 Budget: Transferred balance to other projects.

FORSGREN PLAYGROUND REPLACEMENT/SITE IMPROVEMENTS: Life-cycle replacement of the Forsgren playground and other on-going improvements. Funding is proposed as follows:

Prior Year Balance: \$250,000

2023: \$84,989 (GMA Mit. Fees), \$15,011 (Transfer GMA Mit. Fees from Esperance Park)

Future Years: \$0

Project Start/End Date: 2022/2023

Project Status: This project has been delayed due to staff availability. Initial site design has been completed and staff are preparing for construction in 2023.

Changes Since the 2022 Budget: Expansion of project end date and additional funds due to inflation.

LAKE ROESIGER: This is included to 0-out a previous negative balance. Funding is proposed as follows:

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Community Parks

Prior Year Balance: \$0

2023: -\$3,215 (Other)

Future Years: \$0

Project Start/End Date: 2022

Project Status: n/a

Changes Since the 2022 Budget: None.

LAKE ROESIGER PLAYGROUND - NEW: Based on requests from the community and the need for playground, this project will add a new playground at Lake Roesiger Park in future years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2028 - \$350,000 (GMA Mit Fees)

Project Start/End Date: 2027-2028

Project Status: Future project.

Changes Since the 2022 Budget: New project.

LAKE STEVENS PLAYGROUND REPLACEMENT: Life-cycle replacement of the Lake Stevens playground. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$270,000 (REET 2 and GMA Mit. Fees)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Moved project from 2024 to 2026

LAKE STICKNEY PARK DEVELOPMENT – PHASE II: Site improvements based upon completed Preferred Plan. Phase I improvements were completed in 2018 and funding is proposed to be accumulated for the second, and final, phase. Funding is proposed as follows:

Prior Year Balance: \$0989,222

2023: \$0

Future Years: \$0

Project Start/End Date: 2022/2025

Project Status: Phase II will be initiated in 2022.

Changes Since the 2022 Budget: Removed mitigation funds that were anticipated but are not available this year.

LOGAN BALLFIELD RENOVATION: Logan Park was originally developed in the 1970's and renovated in

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Community Parks

the 1990's. Ballfield renovation is proposed as a life-cycle improvement to maintain quality recreational use. Renovation is anticipated to include review of drainage, regrading, replacement of in- field mix, establishment of new turf and other possible improvements. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2024 - \$75,600 (REET 2)

Project Start/End Date: 2024/2024

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

MARTHA LAKE AIRPORT PLAYGROUND: Installation of additional playground features at Martha Lake Airport to provide additional recreation opportunities. Funding is proposed as follows:

Prior Year Balance: \$71,411 (GMA Mit. Fees)

2023: \$0

Future Years: \$0

Project Start/End Date: 2022/2023

Project Status: This project has been delayed due to staff availability and is planned for completion in 2023.

Changes Since the 2022 Budget: Moved excess funding to other projects.

MARTHA LAKE PLAYGROUND REPLACEMENT: Life cycle replacement of playground(s) at Martha Lake Park. During project scoping and stakeholder outreach it may be determined that one of the two current playgrounds should not be replaced, and other improvement(s) provided. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

MARTHA LAKE STAIR REROUTE: Address ADA barrier at west end of the park where frontage improvements include a stairway which is a barrier to visitors who have a mobility impairment. Funding is proposed as follows:

Prior Year Balance: \$0

2022: \$0

Future Years: 2026 - \$250,000 (REET 2)

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Community Parks

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None.

PAINE FIELD PARK IMPROVEMENTS AND PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at Paine Field and improvements to the ballfield area of the park. Funding is proposed as follows:

Prior Year Balance: \$30,186

2023: \$0

Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Playground replacement pending funding availability in 2025. Other improvements to be completed as identified and prioritized by athletic field users and maintenance staff.

Changes Since the 2022 Budget: None

PELZ IMPROVEMENTS: Minor, on-going park improvements utilizing park impact mitigation fees collected within the Tulalip collection area. Projects will be selected and completed as funding is available. Funding is proposed as follows:

Prior Year Balance: \$2,175

2023: \$0

Future Years: 2024 - \$1,000 (SEPA Mit. Fees), 2025 - \$1,000 (SEPA Mit. Fees), 2026 - \$1,000 (SEPA Mit. Fees), 2027 - \$1,000, and 2028 - \$1,000 (SEPA Mit. Fees)

Project Start/End Date: On-going program

Project Status: Funding is expended as projects are identified and sufficient funding is available for a project.

Changes Since the 2022 Budget: Removed 2023 SEPA funding due to lack of collection for the year.

SILVER CREEK PLAYGROUND REPLACEMENT: Life cycle replacement of playground at Silver Lake Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$270,000 (REET 2 and GMA Mit. Fees)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Increased funding for inflation.

SOUTHWEST COUNTY UGA COMMUNITY PARK ACQUISITION AND DEVELOPMENT: Acquisition and development of new Community Park amenities in the Southwest UGA. Project may be completed through possible partnership with city jurisdiction(s). Funding is proposed as follows:

## **Snohomish County**

### **2023-2028 Capital Improvement Program - Executive Recommended**

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Community Parks

Prior Year Balance: \$3,303,802

2023: \$0

Future Years: 2024 - \$1,200,000 (GMA Mit. Fees), 2025 - \$1,600,00 (GMA Mit. Fees) and 2026 - \$1,500,000 (GMA Mit. Fees)

Project Start/End Date: 2017/TBD

Project Status: Project pending accumulation of sufficient funding to proceed with identification of property suitable for acquisition. Working with other jurisdictions to identify possible partnership opportunities and coordinating with PW/PDS on planning for light rail improvements and associated local housing and recreation.

Changes Since the 2022 Budget: Removed 2023 GMA funding due to lack of collection for the year.

TAMBARK CREEK PAVEMENT PRESERVATION: Pavement preservation (i.e. sealing and restriping, crack seal, pothole repair) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$85,200 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

TAMBARK CREEK TURF REPLACEMENT: Life cycle replacement of artificial turf field. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2028 - \$1,150,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Increased funding for inflation.

WILLIS D. TUCKER PARK – PAVEMENT PRESERVATION: Pavement preservation (i.e. sealing and restriping, crack seal, pothole repair) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Community Parks

Changes Since the 2022 Budget: Increased from \$85,200 to \$100,000

WILLIS D. TUCKER PARK – PLAYGROUND REPLACEMENT: Life cycle replacement of playground at Willis D. Tucker Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$300,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability. This is a potential project for an RCO grant application in the 2024 cycle.

Changes Since the 2021 Budget: Increased funding for inflation and to include unitary safety surfacing.

WILLIS D. TUCKER – PARK DEVELOPMENT: Utilization of remaining funding for NPDES required plantings. Funding is proposed as follows:

Prior Year Balance: \$42,201

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2023

Project Status: Staff are evaluating planting needs and expect to install materials in 2023.

Changes Since the 2022 Budget: None.

WILLIS D. TUCKER PARK – BALLFIELD LIGHTING: In partnership with the Mill Creek Little League, this project will add lights to Ballfield #2 to increase capacity for games, practices, and a variety of sports played on the field. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$185,000 (GMA Mit. Fees and REET2)

Future Years: \$0

Project Start/End Date: 2023/2024

Project Status: Project pending funding availability and award of the RCO YAF Grant.

Changes Since the 2022 Budget: New project.

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Open Space/Preserve Parks

**Description:** OPEN SPACE/PRESERVE PARKS (Program 45)

Park facilities play a major conservation role in Snohomish County. Park land provides open space, resource protection and wildlife habitat. The Snohomish County DCNR Parks and Recreation Department maintains and provides stewardship for a significant number of properties that are classified as Open Space/Preserve. These properties are managed for resource protection and public access, where appropriate. The projects identified within this program are focused on providing appropriate public access to these areas.

Snohomish County's Park Improvement Plan for Open Space/Preserve parks consists of the following:

PARADISE VALLEY CONSERVATION AREA IMPROVEMENTS: Development of parking lot to serve park users. Funding is proposed as follows:

Prior Year Balance: \$118,317

2022: \$100,000

Future Years: 2024 - \$200,000 (REET 2)

Project Start/End Date: 2021/2024

Project Status: Initial lot design has been completed and needs to be reviewed prior to permit submittal. Project is pending resolution of some property use issues.

Changes Since the 2021 Budget: Reduced funding in 2024.

## **Snohomish County**

### **2023-2028 Capital Improvement Program - Executive Recommended**

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Regional Parks

**Description:** REGIONAL PARKS (Program 46)

Snohomish County has developed, and currently operates, several parks that feature major natural resources which serve as a backdrop for recreational opportunities. These parks draw users from across the County and are considered Regional Parks. Features within these parks range from forests, lakes, rivers and saltwater waterfronts to historic rural properties and unique natural features. Amenities provided at Regional Parks typically include day use areas, picnicking, camping, boating, hiking, horseback riding, or other recreational activities that have regional value and use. Many of these amenities are included within Parks' level-of-service methodology and, as such, may help address needs related to growth. Regional Parks offer substantial recreational opportunities and include a number of parks which have been in use since the 1970's. Renovation and maintenance of aging facilities is a priority in order to ensure that high quality recreation experiences continue to be provided. Expansion and acquisition are also a priority for Regional Parks in order to expand opportunities available to serve a growing population.

Snohomish County's Park Improvement Plan for Regional Parks consists of the following:

**FLOWING LAKE – SHELTER REPLACEMENT:** In 2022, a structural evaluation of the picnic shelter was conducted, and it was determined that there are several structural issues to be addressed and the shelter needs to be renovated or replaced. This project will include demolition of the aged shelter and replace with a new shelter. Funding is proposed as follows:

Prior Year Balance: \$0  
2023: \$100,000  
Future Years: \$0

Project Start/End Date: 2023

Project Status: Structural review of the shelter has been completed. Plans are in-progress for new shelter.

Changes Since the 2022 Budget: New project.

**HEYBROOK RIDGE DEVELOPMENT:** Second phase of trail improvements at Heybrook Ridge focused on ADA accessible trail development through lower portion of park. Funding is proposed as follows:

Prior Year Balance: \$309,084  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2018/2024

Project Status: Design and permitting for the second phase of development is underway.

Changes Since the 2022 Budget: None.

**HOLE IN THE SKY:** Expenditure of site dedicated funding as projects are identified. Project funding originated from sale of a portion of the property to WSDOT for Hwy 9 widening and is required to be used on-site. Funding is proposed as follows:

Prior Year Balance: \$21,037  
2023: \$0

## **Snohomish County**

### **2023-2028 Capital Improvement Program - Executive Recommended**

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Regional Parks

Future Years: \$0

Project Start/End Date: TBD/TBD

Project Status: Pending project identification.

Changes Since the 2022 Budget: None

JORDAN BRIDGE DECKING: Replacement of decking on Jordan Bridge. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$125,000

Future Years: None

Project Start/End Date: 2023/2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None.

KAYAK POINT CAMPGROUND: Development of additional camping facilities at this popular Regional Park. Campsites are known to be in limited supply within the County and a previously completed Preferred Plan for Kayak Point identified locations for camping expansion. Addition of camping facilities at this site are favored due to existing infrastructure and on-site Ranger presence. Provision of camping will also address level-of-service needs. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$300,000 (REET 2), 2027 - \$1,600,000 (REET 2, GMA Mit. Fees)

Project Start/End Date: 2026/TBD

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

KAYAK POINT DAY USE RENOVATION: Renovation of the day-use area of this popular Regional Park. The park was originally opened in the 1970's and the infrastructure needs to be updated and the overall park redesign improves park usage. Funding is proposed as follows:

Prior Year Balance: \$8,372,224

2023: \$3,173,112 (REET 2, GMA Mit. Fees) \$2,000,000 (anticipated grant)

Future Years 2024 - \$3,268,672 (REET 2 and other) and 2025 - \$350,000 (REET 2)

Project Start/End Date: 2015/2025

Project Status: Permitting for the day-use area is underway and construction is anticipated to start in 2024. Applications for grant funding have been submitted to support the project.

Changes Since the 2022 Budget: Adjustment of funding based upon updated project cost estimates, addition of spending authority for potential grants and added future year funding.

KAYAK POINT RANGER OFFICE: Replacement of Ranger office at Kayak Point Park. The current

## Snohomish County

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Regional Parks

structure is planned to be demolished and new structure located according to the Preferred Plan for the park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$477,922 (REET 2) and 2026 - 1,022,078 (REET 2)

Project Start/End Date: 2025/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Adjusted funding between 2025 and 2026.

KAYAK POINT SINK HOLE: Repair of failing culvert on service road accessing the Kayak Point Golf Course. Funding is proposed as follows:

Prior Year Balance: \$0

2022: \$0

Future Years: 2025 - \$350,000 (REET 2)

Project Start/End Date: 2018/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

LORD HILL PREFERRED PLAN UPDATE: Park improvements and Preferred Plan update in order to address recent park use patterns and land acquisitions which were completed following development of the original site Preferred Plan. Funding is proposed as follows:

Prior Year Balance: \$51,844

2023: \$0

Future Years: 2024 - \$650,000 (REET 2) and 2025 - \$650,000 (REET 2)

Project Start/End Date: 2018/2025

Project Status: Development of a Preferred Plan is underway and is expected to be completed in 2023. Trail work began in 2022.

Changes Since the 2022 Budget: Removed grant funds from 2023 because grant was not awarded to the project.

MCCOLLUM PARK FOOD AND FARMING CENTER: Development of a Food and Farming Center at McCollum Park. Project will include a building designed to support local farmers and food distribution and an indoor farmer's market. This project is being completed in partnership with the Snohomish County Agriculture Coordinator. Funding is proposed as follows:

Prior Year Balance: \$7,049,898

2023: \$0

Future Years: 2024 - \$1,000,000 (anticipated grants), 2025 - \$1,000,000 (anticipated grants), and 2026 - \$6,000,000 (anticipated grants)

## **Snohomish County**

### **2023-2028 Capital Improvement Program - Executive Recommended**

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Regional Parks

Project Start/End Date: 2021/2027

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Added future year funding from grants.

MCCOLLUM PARK – DEMOLITION OF POOL AND POOL HOUSE: In support of the Food and Farming Center, this project includes the demolition of the existing pool and the pool house which is the tentative location for the future indoor farmer’s market. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Future Years: None

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

MCCOLLUM PARK PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at McCollum Regional Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2028 - \$350,000 (REET 2 and GMA Mit. Fees)

Project Start/End Date: 2028/2028

Project Status: Project pending funding in 2028.

Changes Since the 2022 Budget: Moved project to 2028 so it will be built after the food and farming center. Added funds to include unitary surfacing and inflation.

MEADOWDALE PARK IMPROVEMENTS: Water access reconstruction to address problems associated with public access to the beach at this popular park. Funding is proposed as follows:

Prior Year Balance: \$7,479,968

2023: \$0

Future Years: None.

Project Start/End Date: 2014/2022

Project Status: Project construction is underway and anticipated to be completed in 2022.

Changes Since the 2022 Budget: None.

MEADOWDALE PARK - TRAILHEAD AND TRAIL DEVELOPMENT: Project to identify and design additional trailhead and trail access into Meadowdale Park to address the high level of usage the park receives and the limited parking currently available at the trailhead. This project will develop a concept plan for access and is anticipated to also provide a preliminary design. Funding is proposed as follows:

Prior Year Balance: \$30,000

2023: \$463,764 (REET 2 and GMA Mit. Fees)

## Snohomish County

Future Years: None.

Project Start/End Date: 2022/2025

Project Status: Project pending funding availability. Conceptual Trailhead designs are underway.

Changes Since the 2022 Budget: Increased 2023 funding.

NORTH CREEK PARKING EXPANSION: Expanded parking at North Creek Regional Park. Parking will provide overflow access to the park and serve as a trailhead for the future North Creek Trail. Funding is proposed as follows:

Prior Year Balance: \$352,013

2023: \$0

Future Years: \$0

Project Start/End Date: 2022/2023

Project Status: Project scoping will be initiated to coincide with nearby North Creek Trail development.

Changes Since the 2022 Budget: None

NORTH CREEK PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at North Creek Regional Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$100,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding in 2026.

Changes Since the 2021 Budget: None

O'REILLY ACRES BRIDGE REPLACEMENT: Replace the existing bridge at O'Reilly Acres. Funding is proposed as follows:

Prior Year Balance: \$19,643

2023: \$0

Future Years: 2025 - \$300,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding in 2025.

Changes Since the 2022 Budget: None

PICNIC POINT PARKING AREA RENOVATION: Parking lot and other site improvements. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

## **Snohomish County**

### **2023-2028 Capital Improvement Program - Executive Recommended**

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Special Use

**Description:** SPECIAL USE PARKS (Program 47)

Snohomish County parks that offer unique facilities are defined as Special Use Parks. These parks, because of the specialized uses and the constituencies that promote and take advantage of the facility, also have the unique advantage of generating revenue and creating potential return on investment. These advantages are major contributors in Parks' efforts to approach fiscal sustainability. Special Use projects that are incorporated into Parks' six-year Capital Improvement Program include improvements to existing facilities, as well as development of a Preferred Plan for a new marksmanship park, which is planned to be developed through a public/private partnership.

Snohomish County's Park Improvement Plan for Special Use Parks consists of the following:

EVERGREEN STATE FAIRPARK IMPROVEMENTS: On-going program for improvements to the fair park, including facility renovation and camping area enhancements. Camping enhancements are anticipated to increase overnight stays. Funding is proposed as follows:

Prior Year Balance: \$4,634,448

2023: \$898,500 (REET 2, GMA Mit. Fees)

Future Years: 2024 - \$400,000 (REET 2) 2025 - \$300,000 (REET 2), 2026 - \$468,888 (REET 2) and 2027 - \$789,392 (REET 2), and 2028 - \$1,500,000

Project Start/End Date: ongoing

Project Status: Improvements progressing in 2022 include a new washrack, .

Changes Since the 2021 Budget: Addition of and changes to out-years funding

KAYAK POINT GOLF COURSE: Transfer of funding to 0 out deficit. Funding is proposed as follows:

Prior Year Balance: -\$6,092

2023: (\$6,092)

Future Years: \$0

Project Start/End Date: /2022

Project Status: n/a

Changes Since the 2022 Budget: 0 out funding.

SKY VALLEY SPORTSMANS PARK DEVELOPMENT: Development of a Preferred Plan to guide future development of a marksmanship park through a public/private partnership. Phase 1 design and permitting can begin in out years. Funding is proposed as follows:

Prior Year Balance: \$33,985

2023: \$0

Future Years: \$0

Project Start/End Date: 2014/TBD

Project Status: Master Plan project was completed in 2021 and an RFP to identify a potential private development partner was released. Remaining funding is being held for potential associated needs such as survey.

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Support

**Description:** SUPPORT - PARKS ACQUISITION, DEVELOPMENT, AND IMPROVEMENTS (Program 49)  
Parks requires a variety of professional staff to support the Parks Department's capital planning, citizen participation, grant writing, contracts, Interlocal Cooperation Agreements, acquisition, design and engineering, program supervision, and construction management. In addition, funding for smaller capital projects that may be constructed by Parks maintenance staff is included in this package.

The Snohomish County Park Improvement Plan which provides support for park acquisition, development, and improvement projects includes:

GENERAL IMPROVEMENTS – PARKS: Funding for small capital or other REET 2 eligible projects. These projects are typically accomplished by the Parks Maintenance Division and are focused on priorities such as ADA and NPDES improvements, life-cycle replacements and operational efficiencies. Expenses will also cover unanticipated costs related to WSU extension moving to Willis Tucker and inflation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$440,000 (REET 2)

Future Years: 2024 - \$350,000 (REET 2), 2025 - \$350,000 (REET 2), 2026 - \$400,000 (REET 2), 2027 - \$400,000 (REET 2), and 2028 - \$400,000 (REET 2)

Project Start/End Date: On-going program

Project Status: Several projects were completed in 2022 including rental home improvements and asphalt work. A list of projects to be completed in 2023 has been generated and is ranked for completion.

Changes Since the 2022 Budget: Increased due to inflation.

CAPITAL SUPPORT/SALARIES, OVERHEAD AND BENEFITS: On-going funding for professional staff to support Parks' capital program. Capital staffing includes planners, landscape architects, engineers, contract administration and property acquisition specialist. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$1,751,095 (REET 2)

Future Years: 2024 - \$1,810,100 (REET 2), 2025 - \$1,858,550 (REET 2), 2026 - \$1,908,573 (REET 2), 2027 - \$1,960,229, and 2028 - \$2,013,584 (REET 2)

Project Start/End Date: On-going program

Project Status: The Planning group completed a wide variety of projects in 2022 including land acquisitions, design and engineering, permit procurement, construction oversight and management, life-cycle renovations, long-range planning processes, public outreach and others.

Changes Since the 2022 Budget: None

2013 BOND REPAYMENT: Repayment of a bond issued in 2013 to fund a variety of capital improvements. Repayment of this bond will continue over the coming years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$119,666 (REET 2)

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Support

Future Years: 2024 – \$119,194 (REET 2), 2025 - \$113,354 (REET 2), 2026 - \$117,354 (REET 2) 2027 - \$116,062 (REET 2), and 2028 - \$119,624 (REET 2)

Project Start/End Date: 2013/2032

Project Status: On-going repayment project.

Changes Since the 2022 Budget: None

2021 BOND REPAYMENT: Repayment of a bond issued in 2021 to fund a variety of capital improvements. Repayment of this bond will continue over the coming years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$264,000 (REET 2)

Future Years: 2024 – \$265,500 (REET 2), 2025 - \$266,500 (REET 2), 2026 - \$262,000 (REET 2) 2027 - \$262,250 (REET 2), and 2028 - \$267,000 (REET 2)

Project Start/End Date: 2021/2032

Project Status: On-going repayment project.

Changes Since the 2022 Budget: None

SMALL CAPITAL IMPROVEMENTS PROGRAM: This program completes small, park capital projects using in-house staff. Typical projects include playground replacement, trail construction, asphalt preservation and miscellaneous projects that are often time consuming and difficult to bid (e.g. fence repairs/replacement). Efficiencies are gained through reduced project completion time, reduced costs to complete the project and incorporation of lower maintenance components. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$255,436 (REET 2, 2020 shortage adjustment)

Future Years: 2023 - \$233,834 (REET 2), 2024 - \$241,368 (REET 2), 2025 - \$248,609 (REET 2), 2026 - \$256,067 (REET 2), 2027 - \$263,749 (REET 2), and 2028 - \$265,000 (REET 2)

Project Start/End Date: On-going program

Project Status: On-going program.

Changes Since the 2022 Budget: None

COUNTY ARCHAEOLOGIST: Park projects often include a component of cultural resources review, which may require tribal consultation and/or a cultural resources study. In 2018 Snohomish County hired a full-time Archaeologist and Parks provides a portion of the salary for this position. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$30,000 (REET 2)

Future Years: 2023 - \$30,000 (REET 2), 2024 - \$30,000 (REET 2), 2025 - \$30,000 (REET 2), 2026 - \$30,000 (REET 2), 2027 - \$30,000 (REET 2), and 2028 - \$30,000 (REET 2)

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Support

Project Start/End Date: On-Going Program

Project Status: On-going program.

Changes Since the 2022 Budget: None

EQUIPMENT PURCHASE: To help maintain park properties which serve to address level-of-service needs, a small portion of mitigation fee collection is directed toward equipment acquisition. A larger portion of the 2023 SEPA and GMA mitigation fees is allocated for the purchase of equipment needed for cleaning and on-going maintenance of permeable paving installations throughout the parks system. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$300,032 (SEPA/GMA Mit. Fees)

Future Years: 2024 - \$10,000 (SEPA Mit. Fees), 2025 - \$10,000 (SEPA Mit. Fees), 2026 - \$10,000 (SEPA Mit. Fees), 2027 - \$10,000 (SEPA Mit. Fees), and 2028 - \$10,000 (SEPA Mit. Fees)

Project Start/End Date: On-Going Program

Project Status: Acquisitions pending funding availability.

Changes Since the 2022 Budget: Added funds to 2023 for purchase of permeable pavement cleaning equipment / vehicle.

LAND CONSERVATION INITIATIVE: Program aimed at identifying priority properties across Snohomish County to be preserved for the reasons of agricultural production, recreation, habitat, carbon sequestration, urban green space, and other values. In addition to identifying priority properties, this project will also develop an acquisition prioritization approach, identify funding strategies, address operation and maintenance needs and provide seed money for a TDR program. Remaining balance is projected to be expended in 2023. Funding is proposed as follows:

Prior Year Balance: \$3,768,320 (ARRA funds)

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/on-going

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

THREE LAKES SHOP ROOF REPLACEMENT: Life-cycle replacement of the roof on the Three Lakes Ranger office. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$50,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

# Snohomish County

## 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Support

PROPERTY ACQUISITION SUPPORT: Parks Property Administrator is regularly tasked with evaluating and processing unanticipated property acquisition projects. This may include consideration of donations, acquisition of small pieces of property to complete a project (e.g. easements or access parcels) and others. These projects often require survey, appraisals and/or other costs which cannot be completed with other available funding within Parks' budget. Funding is proposed as follows:

Prior Year Balance: \$62,936  
 2023: \$178,500 (Revenue from property purchase)  
 Future Years: None

Project Start/End Date: On-going program  
 Project Status: On-going program.  
 Changes Since the 2022 Budget: Added funding from the Larch, Locust, and Logan Roundabout Project property purchase.

### COMMUNITY ENHANCEMENT:

Prior Year Balance: \$66,758  
 2023: -\$66,758  
 Future Years: None

Project Start/End Date: n/a  
 Project Status: n/a  
 Changes Since the 2022 Budget: New

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Trails

**Description:** TRAILS (Program 48)

The non-motorized recreational trail system developed by Snohomish County Parks is a major County asset. The Centennial Trail, for example, annually attracts over 400,000 users and supports both local and tourism-based use. Trails are a major part of Snohomish County Parks' future and preservation of existing regional trails, and development of new opportunities, is a priority. Improvements have been made recently to the 27-mile Whitehorse Trail corridor and continued enhancements along this corridor are planned to enhance use and support the tourism draw of this feature. Future development of all regional trail corridors will depend upon local resources as well as funding from state and federal grant opportunities.

Snohomish County's Park Improvement Plan for Trails consists of the following projects:

CENTENNIAL TRAIL ---- MACHIAS PLAYGROUND REPLACEMENT: Life-cycle replacement of playground at Machias Trailhead. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$100,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2021 Budget: None

CENTENNIAL TRAIL ---- PAVEMENT PRESERVATION: Pavement preservation (i.e. cut/patch, root removal and sealing) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$150,000 (REET 2)

Future Years: 2024 - \$150,000 (REET 2), 2025 - \$150,000 (REET 2), 2026 - \$175,000 (REET 2), 2027 - \$175,000 (REET 2), and 2028 - \$250,000 (REET 2)

Project Start/End Date: On-going program

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

CENTENNIAL TRAIL ---- SOUTH: Development of the eastside rail corridor from the City of Snohomish to the King County border, as an extension of the current Centennial Trail. This segment will ultimately extend the Centennial Trail from Skagit County all the way to King County and add an additional twelve miles to the trail. Centennial Trail South is proposed to be developed as a paved, multi-use trail. Funding is proposed as follows:

Prior Year Balance: \$1,936,082

2023: \$0

Future Years: \$0

## **Snohomish County**

### **2023-2028 Capital Improvement Program - Executive Recommended**

---

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Trails

Project Start/End Date: 2014/TBD

Project Status: Staff is addressing property issues and continuing design is pending resolution of those issues. Whole project funding is anticipated to cost in excess of seventy million dollars to complete and project funding is proposed to be included in a potential, future trail bond.

Changes Since the 2022 Budget: None

CENTENNIAL TRAIL →→→ STILLAGUAMISH PIER REPAIR: Repair of Centennial Trail bridge footing in the Stillaguamish River, north of Arlington, which is being scoured by river action. Funding is proposed as follows:

Prior Year Balance: \$609,117

2023: \$150,000

Future Years: 2024 - \$560,000 (REET 2)

Project Start/End Date: 2016/2025

Project Status: Pier evaluation has been completed and it was determined that the structure is stable for now.

Changes Since the 2021 Budget: Addition of 2023 funding to reflect current project cost estimates.

INTERURBAN TRAIL: Removal and restoration of the trail north of 128th St. as required by agreement with WSDOT based upon relocation of this section through an adjacent development project. Project has been expanded to provide for future trail improvements, in support of anticipated use associated with light rail improvements and associated population. Funding is proposed as follows:

Prior Year Balance: \$100,460

2023: \$100,000

Future Years: 2026 - \$500,000 (REET 2), 2027 - \$500,000 (REET 2), and 2028 - \$598,083

Project Start/End Date: 2020/2028

Project Status: Initial project scoping of trail removal has been completed, including coordination with WSDOT, the adjacent development and Snohomish County PDS. Initiation of removal and restoration work is pending staff availability.

Changes Since the 2022 Budget: Additional funding in 2023 to address elements required in WSDOT agreement.

SNOHOMISH TO EVERETT (LOWELL) TRAIL: Land acquisition for future regional trail between the Cities of Snohomish and Everett and connecting to the Centennial Trail. Funding is proposed as follows:

Prior Year Balance: \$153,523

2023: \$500,000 (REET 2)

Future Years: 2027 - \$1,000,000 (REET 2)

Project Start/End Date: 2018/2027

Project Status: Trail alignment options have been reviewed and options for acquiring the property are being pursued. Funding for acquisition through the Conservation Futures program has been secured and acquisition is anticipated to be completed by 2022.

Changes Since the 2022 Budget: Added \$500,000 in 2023. Added funding in out years

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Trails

WHITEHORSE TRAIL IMPROVEMENTS: Continuing improvements to the Whitehorse Trail to open the full corridor, make trailhead improvements and complete bank stabilization projects. Funding is proposed as follows:

Prior Year Balance: \$3,166,915

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2023

Project Status: Project scoping and outreach to secure consultant support has been initiated and design/permitting will follow.

Changes Since the 2022 Budget: None.

WHITEHORSE TRAIL – CICERO PAVEMENT IMPROVEMENTS - NEW: This portion of the Cicero section of the Whitehorse Trail was removed from the 2022 Asphalt Repair and Preservation project due to funding. This project will repair extensive, poor-quality asphalt. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2024 - \$200,000 (REET 2)

Project Start/End Date: 2023/2024

Project Status:

Changes Since the 2022 Budget: New project

## 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 Capital Improvement Program

**Description:** This priority package describes the Annual Construction Plan (ACP) and the Six-Year Capital Improvement Plan (CIP) for the Surface Water Management (SWM) Division of Conservation & Natural Resources, and reflects adjustments to the Capital (Program 513) base capital budget for 2023. Overall, the 2023 budget request for SWM Capital decreased by 26.1% compared to 2022. Adjustments are in the following areas:

- 1) Stream and River Capital (Sub-Program 003)
- 2) Drainage and Water Quality Capital (Sub-Program 008)

### **CIP - Capital:**

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 14 Information Technology

**Short Name:** Fund 315 CIP

**Description:** This package provides a summary of the continued investment by the Department of Information Technology in the regular replacement of aging infrastructure for the County's IT system over the next 48-month period. The Technology Replacement Program (TRP) plan has been established as the county's annual effort to ensure workstation and infrastructure replacement is addressed to optimize system reliability and reduce incidence of critical failure. TRP is funded through a contribution from Fund 505 using rates paid by IT customers based upon allocated metrics, as identified in interlocal agreements and interfund rates assessed to departments.

Projects in Fund 315 that are not related to the TRP are generally funded by sources other than rate contributions from Fund 505. Some TRP categories incur only periodic outlays, but have assessments spread evenly over a multiyear period for consistency in planning for budgetary impact.

	2023	2024	2025	2026

# Snohomish County

## 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 14 Information Technology

**Short Name:** Snohomish County BroadBand Fiber to the Premise

**Description:** This package represents the budget authorization related to a direct grant award from the Washington State Department of Commerce, Broadband Office to Snohomish County for over \$16 million in federal recovery funds for broadband improvements in Snohomish County. The project will construct a Fiber to the Premise (FttP) network along or near the State Route 530 Corridor from the City of Arlington to the Town of Darrington. The communities to be connected include Bryant, Trafton, Cicero, Oso, Rowan, Hazel, Swede Heaven, Whitehorse, and Darrington. The proposed project will enable gigabit fiber connectivity to approximately 4,510 addresses.

Snohomish County will partner with Zply Fiber for the construction of the fiber network. Fiber will be installed along existing aerial copper lines and micro-trenched along existing public road right of way. Network electronic equipment will be placed in existing Central Offices in Arlington and Darrington and in newly placed Remote pre-fabricated huts in Oso and Swede Heaven. Fifteen distributive splitter hubs will be placed across the network, with 13 attached to existing poles and 2 placed in pre-fabricated huts along existing buried routes.

This network will provide increased broadband speeds and a more resilient network which would allow additional opportunities for regional commerce and job growth by enhancing small business opportunities, promoting online education, and creating remote work options to communities that have historically suffered from being underserved and unserved. It will enable thousands of families to gain access to high-quality affordable broadband that has previously been unavailable to them.

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 18 Facilities Management

**Short Name:** 18 - Facilities CIP for Auditor's Election Space

**Description:** This package requests funding to remodel the first floor of Admin West and to retrofit additional contiguous space in Admin West to gain greater Elections operational efficiencies and enhance election security.

EXECUTIVE RECOMMENDS use of REET 1 for the General Fund portion of this project.

The goal is to gain enough square footage of contiguous office space so that the Elections and Voter Registration Divisions can conduct Presidential Elections on campus within one building. Every four years a massive effort is undertaken to move the entire elections operations to an off-site location. This relocation requires an immense amount of time and energy from not only the elections staff, but also Facilities Management and the Department of Information Technology. In addition, costs to lease and retrofit these spaces as well as ensure high level security does not come cheap. The county has already invested heavily in these relocation efforts to the tune of approximately \$2 million. With greater numbers of registered voters, each countywide election gets bigger. It is difficult to conduct a large countywide non-Presidential election within the space we currently occupy in Admin West combined with the space we lease across the street from the county campus.

Cost Breakdown:

REET 1 = \$3 million

Elections Equipment Reserve Fund = \$1.5 million

HAVA 3 Grant = \$475,000

ARPA funds = \$500,000

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 18 Facilities Management

**Short Name:** 18 - Facilities CIP for DJJC Project

**Description:** The current DJJC footprint completed construction in 1998. The facility included a secure detention area that had 124 beds. Juvenile caseloads have sharply declined since 1998 and juvenile detention rates have significantly dropped accordingly. Within the last 5 years, 4 living units within the secure detention center were made available for repurposing. The county decided to repurpose this space into the current Behavioral Health Organization's adult treatment facility. Discontinuing the use of these 4 living units dropped secure detention's total bed capacity to 72, as it stands today.

Plans have been underway to further reduce the detention footprint in order to be commensurate with the average daily bed rate of less than 10, and to also provide efficiencies within operations and staffing patterns. The remodel plans have been created in conjunction with Facilities over the last 2 years. This plan will reduce bed capacity to 36, which is well above the average daily population. More importantly, this will allow the court to create further budget reduction and efficiencies within the near future. This is the best path forward to ensuring that the juvenile detention operations are fiscally responsible.

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 18 Facilities Management

**Short Name:** 2023-2028 CIP\_Facilities Projects & Manager

**Description:** A comprehensive study of the condition of County buildings was conducted by MENG Analysis in 2015. This priority package is consistent with the report's recommendations. It may include proposals not included in the report but is necessary to address life safety and other issues to maintain the viability of County facilities.

The recommendation was to fund building related major repairs and maintenance at \$10 million a year. At this time, this is not possible because of the County's financial condition. To fund the selected proposals a surcharge is collected from departments on an annual basis. For 2023 the proposed allocation remains \$1,800,000.

Beginning 2023 SubFund 322 will no longer be utilized, and instead SubFund 329 will start being used to appropriate revenue and expense for CIP projects.

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Bldg/Land Constr/Acquis

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Commercial and industrial capital projects are tied to existing or future tenant demand and future revenue sources along with availability of construction debt-service funding. A total of \$14.3M is budgeted for, but not limited to, the following projects: t-hangar renovations, Building C-3 HVAC replacement, Hangar C-11 & Bomarc Lot 3 building roof rehabilitation, renovation of the new airport administration building, demolition of old (C-23) Tect facility, renovation of Air National Guard facility; and miscellaneous additional repairs for the airport's aging infrastructure. The land & buildings acquisition is bond funded at an estimated \$6.5M which shall acquire the Air National Guard's enclave properties on the southeast side of the airport. All other projects are funded locally through the Airport Enterprise Fund.

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Grant Funded Projects

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Certain airfield capital improvements are eligible, but not guaranteed, for 90% grant funding by the Federal Aviation Administration (FAA). FAA grants are prioritized by type and are highly competitive. Airfield projects are funded only if they meet FAA guidelines and rank high on the national priority list. FAA Grant Funding is listed in revenues. Grant funded construction projects are started only after the grant funding has been approved.

In 2023, the Airport Capital Improvement Program (ACIP) includes \$2.6M for the Airport Master Plan (AMP); \$5.8M for Reconstruction of Taxilane Echo; \$5.5M for East Ramp Reconstruction and approximately \$250,000 for the initial planning and design phase to Reconstruct Runway 16R-34L. All projects are funded at 90% except the AMP and Reconstruction of Taxilane Echo which are funded at 100%, meaning no local match funds required. The AMP is already underway and will provide new direction for all future capital projects providing a five (5), ten (10), and twenty (20) year projection for all future construction at the airport. Reconstruction of Taxilane Echo is required due to aging infrastructure that is at the end of its useful life. The Reconstruct Runway 16R-34L, Phase I is a multi-year project that is funded entirely from the Airport Enterprise Fund at approximately \$250,000. The airport shall seek FAA Grant funding for all future phases. In total, the airport is receiving just over \$13.1M in grant funding for 2023.

Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Capital improvement projects consist of airside and landside projects that maintain targeted safety standards for airport Infrastructure. Airside projects consist of, but not limited to, runways, ramps and taxiways while landside projects consist of roadways, stormwater, sewer, security and other infrastructure. Various infrastructure projects are budgeted at \$2.2M in 2023 and being funded entirely by the Airport Enterprise Fund.

## Snohomish County

### 2023-2028 Capital Improvement Program - Executive Recommended

---

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - PFC Projects

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Paine Field's Passenger Facility Charges (PFC) Program started in November 2020, receives \$4.50 per enplaned passenger. PFC Funds are restricted to be spent on FAA-approved projects that enhance safety, security, or capacity; reduce noise; or increase air carrier competition (FAA). The airport's first PFC funded project is funded at \$950,000 to acquire snow removal equipment to handle the increased frequency of runway clearing from our newly established commercial passenger service. The second project is anticipated to begin construction in 2023 for an Inner Terminal Ramp at a cost of \$9.5M which shall be funded through bonds and repaid using PFC funds. PFC bonds shall have a loan maturity date of ten (10) years with the option for early payoff as additional funds become available. PFC program in total is funded at \$10.45M in 2023.

## **Chapter V: Statement of Assessment on GMA Goal 12**

The purpose of this statement of assessment is to determine if there are any probable funding shortfalls or regulatory inadequacies that could jeopardize implementation of the Snohomish County Comprehensive Plan or satisfaction of Goal 12 of the Growth Management Act (GMA) to provide adequate public facilities. As of this review, Snohomish County has found no probable funding shortfalls or regulatory inadequacies that could jeopardize implementation of the County's Comprehensive Plan or satisfaction of GMA Goal 12.

This statement of assessment examines those public facilities explicitly identified as necessary to support development in the County's 2015 Capital Facilities Plan (CFP) and listed in Table 5 below. A distinction is made between urban and rural development within the context of the GMA. Each capital facility may require different levels of service for different types (urban or rural) of facilities.

**Table 5. Facilities Necessary to Support Development\***

<b>Public Facility</b>	<b>Necessary for Urban Development**</b>	<b>Necessary for Rural Development</b>
Surface Transportation	Yes (public streets and transit routes)	Yes (public roads)
Surface Water Management	Yes	Yes
Park Land and Recreational Facilities	Yes (community park land and recreational facilities, neighborhood parks, trails, regional parks)	Yes (community park land and recreational facilities, trails, regional parks)
Public Water Supply System	Yes	No
Public Wastewater System	Yes	No
Fire Protection Service	Yes	No
Electric Power	Yes	Yes
Public Schools	Yes	Yes

\*The 2015 CFP includes additional capital facilities and services (general government facilities, law and justice facilities, solid waste facilities, and airport facilities). The general government facilities, law and justice facilities, solid waste facilities, and airport facilities are included in the financial sections of the CIP but are not included in the statement of assessment because these facilities are not identified as necessary to support development.

\*\* Urban development is considered development activity located inside an urban growth area.

Each facility necessary to support development is examined from three perspectives: the sufficiency of the capital improvement program(s) to achieve minimum acceptable levels of service (LOS); the adequacy of the funding that supports the CIP; and the adequacy of regulatory mechanisms to ensure that facilities expand in concert with development. All these facilities are supported by CIPs prepared and adopted by their respective purveyor agencies.

The relevant Snohomish County departments and non-County agencies for each facility have prepared facility-specific statements of assessment in Chapter V, Sections 5.1 and 5.2. This information is summarized in Table 6.

**Snohomish County**  
**2023-2028 Capital Improvement Program – Executive Recommended**

**Table 6. Summary of Capital Facilities Statements of Assessment**

	Surface Transportation	Park Land & Recreational Facilities	Surface Water Management	Public Water Supply	Public Wastewater Systems	Electric Power	Public Schools	Fire Protection Services
Are current minimum levels of service (LOS) being met?	Yes	Yes	Yes	DOH standards are being met	Ecology standards are being met	Yes	Yes	Yes
Funding is adequate for capital projects over the next six years	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Are there any projected funding shortfalls?	No	No	No	No	No	No	No	No
Corresponding minimum levels of service should be met over the next six years?	Yes	Yes	Yes	DOH standards expected to be met	Ecology standards expected to be met	Yes	Yes	Yes
Will regulatory measures appropriately ensure that new development will not occur unless the necessary facilities are available to support the development at the adopted minimum level of service?	Yes – Concurrency regulations	Yes – Impact fees also required	Yes	Yes – Developers generally pay directly for permitted infrastructure extensions <sup>1</sup>	Yes – Developers generally pay directly for permitted infrastructure extensions	Yes LOS is met under the requirements of service provider	N/A LOS is met under the requirements of service provider	Yes

<sup>1</sup>Seven Lakes Water Association is limited on new water service connections due the nature of its water rights. Snohomish County is monitoring growth trends in this rural area of limited growth. The Town of Index currently has a moratorium on new connections pending the release of federal funds for a new meter. However, the Washington State Department of Ecology has authorized a small number of new services to be issued between now and when the moratorium can be lifted.

### **2023-2028 Capital Improvement Program – Executive Recommended**

---

#### ***Growth Management Act and the CIP***

The GMA (Chapter 36.70A RCW) requires development of a comprehensive plan and periodic updates to address new population and employment growth forecasts for a 20-year planning period. Snohomish County's 2015 Comprehensive Plan included a complete reassessment of land use and transportation in the context of additional growth forecasted through the year 2035. Snohomish County addressed issues of funding, levels of service, and land use as part of the comprehensive plan update process. Snohomish County's next comprehensive plan update is due in 2024. At that time, this update will revisit capital infrastructure and include an updated reassessment of land use and transportation in the context of additional growth forecasted for the next 20-year planning horizon.

One important indicator of whether public facilities are being adequately provided to support the Snohomish County Comprehensive Plan's expected growth is the County's recent performance in accommodating growth. The most recent SCT Growth Monitoring Report (2020 Population Trends section) shows that countywide population growth is tracking 3% higher than projected for 2020. Census 2020 results showed that the county's total population exceeded the Office of Financial Management's (OFM) 2020 projection by 2.8%. It also indicates that the 2020 population estimate for the entire unincorporated UGA reached (and slightly exceeded) the 2035 unincorporated UGA population growth target in 2020.<sup>[1]</sup> Census 2020 results showed that the entire unincorporated UGA came in just short of its 2035 unincorporated UGA population target (.8% less than its 2035 target). For several Municipal Urban Growth Areas (MUGAs) in the unincorporated SWUGA, estimated 2020 population exceeds the 2035 population targets for those areas. The difference in the pace of areas meeting 2015-2035 growth targets raise concern about the possibility for growth adding stress to the infrastructure in certain areas. Per the 2021 Buildable Land Report, overall, at the countywide UGA level there is adequate land capacity to accommodate the adopted 2035 total UGA population, housing, and employment growth targets. This is also the case for cities overall, and the unincorporated UGA overall. The City of Everett is the only jurisdiction facing a significant shortfall in population capacity and housing capacity.<sup>[2]</sup> This is an issue that will be evaluated in further detail while developing the County's 2024 update to the Comprehensive Plan.

The Snohomish County Countywide Planning Policies (CPPs) have been updated with 2044 population targets which resolve the issue of actual growth by 2020 exceeding the 2035 targets in some areas as stated above, and that the new 2044 targets will be the foundation of growth assumptions used for the county's next GMA comprehensive plan update in 2024.

The County Charter requires that the County Council adopt a six-year CIP concurrently with the budget (Section 6.50). The Snohomish County CIP is updated annually and approved as part of the annual budget process. Many cities and special districts that provide other facilities addressed herein follow a similar practice. These CIPs, in turn, are generally based on longer range capital facilities plans that identify long-term facility needs. Level of Service (LOS) targets and minimum standards are usually defined or embodied within the longer-range plan. Multi-year CIPs prepared by provider agencies demonstrate that funding is projected to be adequate for all the facilities/projects (county and

## **Snohomish County**

### **2023-2028 Capital Improvement Program – Executive Recommended**

---

noncounty) addressed by this statement of assessment for 2023-2028. The CIPs are typically funded at a level that produces a facility LOS somewhere between the agencies preferred or targeted LOS and the minimum acceptable LOS.

#### ***Reassessment Options***

Snohomish County is required to initiate a reassessment program if the LOS for public facilities necessary for development cannot be maintained, funding shortfalls are projected, or regulatory measures do not reasonably ensure that new development will not occur unless the necessary facilities are available at the adopted LOS. The reassessment would include analysis of potential options for achieving coordination and consistency. If such a reassessment is required, there are a range of options to consider:

- Reduce the standard of service, which will reduce the cost.
- Increase revenues to pay for the proposed standard of service (higher rates for existing revenues, and/or new sources of revenue).
- Reduce the average cost of the capital facility (i.e., alternative technology or alternative ownership or financing), thus reducing the total cost (and possibly the quality).
- Reduce the demand by restricting population (i.e., revise the land use element), which may cause growth to occur in other jurisdictions.
- Reduce the demand by reducing consumption or use of the facility (i.e., transportation demand management, recycling solid waste, water conservation, etc.), which may cost more money initially, but which may save even more money later.
- Any combination of the options listed above.

#### ***Statement of Assessment***

Based on the information provided, none of the capital facilities evaluated in this CIP are projected to experience shortfalls in funding as defined by GMA Goal 12.<sup>1</sup> While concerns have been raised regarding the long-term effects of the COVID-19 pandemic, impacts of climate change, and new state requirements, those impacts might be better known in the coming years. Therefore, no immediate reassessment actions are recommended or required at this time given the current and projected status of all the capital facilities that are “necessary to support development.”

---

<sup>2</sup> RCW 36.70A.020 – “Public facilities and services. Ensure that those public facilities and services necessary to support development shall be adequate to serve the development at the time the development is available for occupancy and use without decreasing current service levels below locally established minimum standards.”

**Section 5.1 – Assessment of County Capital Facilities**

**Part 5.1a – Surface Transportation**

***Sufficiency of Capital Improvement Program***

Snohomish County's Transportation Element (TE) is a primary component of the Snohomish County Comprehensive Plan. It adopts a transportation level of service (LOS) standard, policies for the development and maintenance of the transportation system, and strategies for implementing the policies and the LOS standard. The TE also identifies major road projects needed to support the development planned in the future land use map (FLUM) and maintain the County's adopted LOS. The Transportation Needs Reports (TNR) prioritizes the TE projects and identifies the projects that provide the cost basis of the County's GMA transportation impact fee (impact fee projects). The TNR is also the foundation for the six-year Transportation Improvement Program (TIP) that is updated and approved annually and reflected within the County's CIP.

***Funding Adequacy***

The TIP identifies capital transportation improvements including preservation, safety, non-motorized, capacity, and bridge projects. Project expenditures are programmed over the six-year period and balanced with projected revenues. The 2023-2028 TIP has been developed to ensure that the investments necessary to support the FLUM have been adequately funded. Consequently, the investment identified in the TIP for transportation projects is sufficient to meet the minimum LOS standard identified in the Transportation Element of the Snohomish County Comprehensive Plan for the next six years.

Public Works continues to assess and adapt to impacts from ongoing cost inflation at historically high levels. The costs for most goods and services that Public Works relies upon to perform its work have increased 15% to 20%. The growth in expenditures is outpacing revenue growth at levels that, if left unchanged, would hinder future program delivery. The long-term impacts of cost escalation remain uncertain and will be monitored for potential impacts to future TIPs.

Despite these financial challenges, Snohomish County continues to find ways to invest in a robust six-year TIP. This has been achieved by successfully securing and leveraging funds from transportation grants, transportation impact fees, and a stable County Road Levy. However, it is important to note that recent TIP submittals have been bolstered by using prior year Road Fund reserves, and future TIP development will become more difficult if new sources of revenue are not identified.

Public Works will continue to work actively and strategically to overcome future funding shortfalls and position the County to support the FLUM and maintain adequate LOS standards.

***Adequacy of Regulatory Mechanisms***

The County has adopted a transportation concurrency system through Snohomish County Code (SCC) Chapter 30.66B that monitors the LOS of the County's arterial road network and restricts development if the LOS on an arterial unit falls below the adopted LOS standard. This regulatory system supplements and assists the County's construction program in assuring that new development will be supported by adequate transportation facilities as defined by the County's adopted LOS standard.

The County's concurrency management system works as follows: when the Average Daily Trips (ADT) on an arterial unit reaches the thresholds identified in SCC 30.66B.101, the County measures the travel

speed on the arterial unit; when the travel speed on an arterial unit is within 2 mph of the speed representing a LOS below the adopted standard, the arterial unit is considered to be “At Risk”; when an arterial unit falls below the adopted LOS, or within six years is forecasted to fall below the adopted LOS, and there are no projects or strategies programmed and funded to raise the LOS within six years, that arterial unit is designated as an “Arterial Unit in Arrears.” No development can be approved that would add three or more peak hour trips to an Arterial Unit in Arrears until improvements adding additional capacity to raise the LOS to the adopted standard are either constructed or funded and programmed to be constructed within six years. Developments generating more than 50 peak-hour trips must also look at future conditions to evaluate whether they will cause an arterial unit to fall into arrears or impact an arterial unit expected to fall into arrears within six years.

An arterial unit may be determined by the County Council to be at “Ultimate Capacity” when the arterial has been improved to its maximum extent and further improvements would require unwarranted public expenditure or would have severe impacts to the environment or community. Ultimate Capacity provides for an alternative LOS and is a useful tool where increased urban densities consistent with the adopted Snohomish County Comprehensive Plan are desired to support regional population targets and planning efforts. Additional Transportation Demand Management (TDM) measures are required for developments impacting “Ultimate Capacity” arterial units to encourage the use of transit and help reduce the need for single-occupancy vehicles.

The County summarizes the monitoring of its arterial road network in an annual concurrency report. The most recent report, the 2021 Concurrency Report, addresses the LOS on county arterial units from January 1, 2021, to December 31, 2021. The 2021 Concurrency Report indicates the County had zero Arterial Units in Arrears, twelve arterial units At Risk of falling into arrears, and three arterial units designated as Ultimate Capacity. In July of 2022, the County Council designated the 35<sup>th</sup> Avenue SE corridor from SR 524 to Seattle Hill Rd to be Ultimate Capacity. The corridor is the boundary line for three Transportation Service Areas (TSA) and is therefore divided into five arterial units, bringing the total number of Ultimate Capacity arterial units to eight.

The 2021 report and reports for prior years can be found at the Public Works Traffic Mitigation and Concurrency Ordinance website.

### ***Statement of Assessment***

An update to the Snohomish County Comprehensive Plan was adopted in 2015, including a revised Transportation Element. This update included a new FLUM, revisions to the transportation LOS standard, and a new 20-year transportation forecast. The forecast was used to develop a new 20-year project list and funding strategy necessary to support the FLUM and maintain the adopted levels of service.

The projected level of progress over the next six-year period as proposed in the TIP is sufficient to ensure meeting the LOS standards required for transportation. Revenue projections will continue to be watched closely and, if necessary, strategic adjustments in expenditures in the capital and noncapital categories during the six-year period covered by this assessment will be made.

## Snohomish County

### 2023-2028 Capital Improvement Program – Executive Recommended

---

#### ***Construction and Programming of Major Road Improvements***

The Transportation Element is based on an analysis of transportation deficiencies and future needs within unincorporated Snohomish County. Consistent with the GMA, it identifies 43 arterial improvements intended to support future land use and address potential deficiencies. Importantly, it provides a financial strategy to plan and guide the county in financing the recommended arterial improvement projects.

A forecast schedule for delivery of the projects contained in the TE is shown in Table 7.

**Table 7. Completion of Transportation Element Projects**

Forecast for Delivery of 2015 TE Project List					
	2015	2020	2025	2030	2035
Projects Completed	0	2	8	13	20
Cumulative Completed	0	2	10	23	43
Cumulative Percent	0%	5%	23%	53%	100%

The timing for implementation of major system improvements varies depending on how any given area develops and the resulting infrastructure needs relative to priorities throughout the county. Arterial improvements are prioritized and constructed within available funding. If additional funding strategies are realized, project completion may be accelerated.

**Part 5.1b – Surface Water Management**

***Sufficiency of Capital Improvement Program***

The adopted level of service (LOS) for surface water facilities is based on two standards and one target. These are defined in the Snohomish County Capital Facilities Plan. The first standard consists of stormwater regulations for new development as defined in Chapter 30.63A SCC. All new development must comply with the defined stormwater regulations to obtain permit approval. The second standard requires a minimum County investment in surface water capital facilities of \$8.35 million over a six-year period. The capital improvement program for the Surface Water Management (SWM) division of the Department of Conservation & Natural Resources is specifically dedicated to investments in surface water capital facilities.

In addition to these two standards, the County adopted a target LOS for surface water facilities as part of the County's 2005 update of the Comprehensive Plan. The target is that the most frequent known urban flooding problems that occur within County rights-of-way or that are associated with drainage systems maintained by the County would be resolved by 2025. Specifically, the most frequent flooding problems would be defined as those that occur at least an average of once every two years.

***Funding Adequacy for CIP***

Much of the funding for meeting the LOS standard based on stormwater requirements for new development would come from the private sector as new growth is approved. However, some of the funding would also come from the public sector as public projects, such as county road improvements and park projects, are approved.

The primary funding source for meeting the LOS standard, based on a minimum public investment in surface water capital facilities of \$8.35 million over the next six years, is funds from the SWM utility, as shown in the SWM Division budget. The revenue sources currently used include SWM utility charges, which are collected from utility ratepayers and are used within the SWM utility district; real estate excise taxes (REET II), usable throughout the county for capital projects; the County Road Fund; and various grants, which are limited to specific projects.

The County meets the minimum level of investment in surface water capital facilities. A total of \$114 million has been identified for surface water capital facilities in the 2023-2028 CIP. The County recognizes that the County investments in surface water capital projects far exceeds the minimum LOS established in 1995. In addition to funding SWM's capital program, the SWM service charges are the primary revenue source for SWM's non-capital programs. Some of these non-capital programs, such as stormwater facility maintenance, salmon planning, and water quality monitoring, are being increasingly mandated through various state and federal programs. A lower surface water capital facility LOS allows the County the maximum flexibility to accommodate future capital and non-capital state or federal mandates.

The primary funding source for meeting the LOS target of solving all known two-year flooding problems along drainage systems maintained by the County by 2025 is, likewise, funds from the SWM utility, as shown in the SWM Division budget. The list of projects that addresses two-year flooding problems will change over time as drainage problems are resolved through public and private investment and as new drainage problems arise. The 2023-2028 CIP contains projects that contribute to meeting this LOS target.

***Adequacy of Regulatory Mechanisms***

Current County regulations are only relevant to the surface water LOS standard that applies to new development. This standard is achieved by requiring that new private developments and public construction projects comply with the requirements of the County’s drainage code, Chapter 30.63A SCC. In 2016, Chapter 30.63A SCC was revised to provide for a generally higher level of water quality and flood protection in response to more stringent requirements of the County’s National Pollutant Discharge Elimination System (NPDES) permit.

***Statement of Assessment***

Based on the proposed budget and six-year CIP, as well as the existing regulations, Snohomish County will continue to achieve the minimum LOS for surface water.

**Part 5.1c – Park Land and Recreational Facilities**

***Sufficiency of Capital Improvement Program***

The 2015 Snohomish County Park and Recreation Element (PRE) was adopted by the County Council in June 2015 and contains a level of service (LOS) methodology that is based on provision of active and passive recreation facilities, regional trails, miles of waterfront, number of campsites and number of parking spaces provided within Neighborhood, Community and Regional Parks and Regional Trails. The PRE takes into consideration this LOS, as well as the inventory of existing facilities, community demand for property acquisition and facilities, projections of population growth (number, demographics, and distribution) and estimation of future revenues. The PRE provides a list of required and recommended park improvements based upon this analysis. Those improvements that are not necessary to maintain LOS standards are identified within the PRE for completion as funding is available and it is appropriate to complete the project. Projects based on LOS proposed in the CIP are selected to meet minimum LOS standards.

***Funding Adequacy for CIP***

Assuming that the current economic trends and priorities continue, the Snohomish County Division of Parks & Recreation projects should receive adequate revenue through Park Impact Mitigation Fee collections and Real Estate Excise Tax (REET) revenues. REET revenues are allocated across several departments by the County Council through the annual budget process to support projects over the six-year period covered by the CIP. Recent trends in REET, as well as Park Impact Mitigation Fee collections, will allow the program to maintain the minimum service levels called for in the PRE. These revenues will support the property acquisition and facility development projects needed to serve the existing and projected population. The Division of Parks & Recreation will also continue to establish partnerships with youth sports associations, community based non-profit associations, cities, and school districts, some of which have contributed significant funding to the creation or rehabilitation of sports fields, playgrounds, and other capital facilities. Future partnerships will only add to the facility development resources available to the Division of Parks & Recreation.

***Adequacy of Regulatory Mechanisms***

Snohomish County began collecting Park Impact Mitigation Fees from residential development under the authority of SEPA in 1991. This program was re-designed as a GMA based program in 2004. It is governed by Chapter 30.66A SCC and involves standardized mitigation amounts on a per unit basis for single-family and multi-family residential development. The program has generated a substantial share of the revenues available for park land acquisition and facility development and provides an option for land dedication in lieu of payments. Impact mitigation revenues are now an important funding source for park projects in the County CIP.

Page Break

***Statement of Assessment***

The Snohomish County 2015 Capital Facilities Plan (CFP) designates Neighborhood, Community and Regional Parks and Regional Trails as necessary to support development. This designation allows Park Impact Mitigation Fees to be used for expansion of facilities within these classifications of parks and the LOS described within the PRE sets the minimum standard by which provision is measured. Park land and recreational facility LOS is considered a “facility capacity,” rather than a “land capacity” methodology, as it is based on the premise that by providing additional facilities (e.g. playgrounds, miles of soft surface trails, etc.) additional population is served, even if the new facilities are added to an existing park. This creates cost and staff efficiencies and takes advantage of parks where capacity for additional amenities

is present. Acquisition of new properties to meet LOS may be required in some cases and the 2023-2028 CIP includes one acquisition targeted at meeting LOS standards, as well as development of recently acquired facilities.

Capacity of the Division of Parks & Recreation resources and programs to meet the requirements of the CFP:

- The LOS methodology contained in the PRE and referenced in Part 6.2b of this CIP meets the first test required by the CFP. The projects proposed in the CIP will maintain the identified park LOS. Park acquisition and facility development projects projected through the six-year horizon of the CIP are designed to meet the defined proposed park LOS, addressing the needs of existing and projected future population growth both in terms of numbers and geographic distribution.
- There are no projected shortfalls in funding for necessary park services that will warrant a reassessment of Snohomish County's Comprehensive Plan as per the second test. The Division of Parks & Recreation will generate revenue through Park Impact Mitigation Fee collections. Also, REET II revenues are expected to be allocated by the County Council through the annual budget process over the six-year period covered by this CIP.
- Future partnerships will only add to the facility development resources available to the Division of Parks & Recreation. Grant revenue available through the State of Washington Recreation and Conservation Office, the Salmon Recovery Board, the Department of Natural Resources and the federal government through the National Park Service or the SAFETEA program may be available to augment capital resources obtainable by the division. These grants have not been assumed to be secured within the CIP and are, in all cases, competitive on a regional or statewide basis. The Division of Parks & Recreation has a history of success in grant writing resulting in 30% to 50% of project costs for acquisition and development of some projects being covered by non-county revenue. This history provides cautious optimism that additional partnership-based funding will be available to supplement projects.
- There is no evidence that necessary park facilities will be unavailable to support the development at the adopted minimum LOS, a consideration required by the third test. The property acquisition and park development program projected through the six-year horizon of the CIP are designed to meet the adopted park LOS, addressing the needs of existing and projected future population growth both in terms of numbers and geographic distribution.
- Municipal annexations could affect park impact fees in the future and the availability of local funds to support acquisition and development of future parks could be impacted as a result.

A review of these considerations concludes that under existing policies and programs, projected levels of development will be supported by adequate park facilities at levels of service standards that meet, or exceed, minimum levels identified in the PRE.

**Part 5.2 – Assessment of Non-County Capital Facilities**

**Part 5.2a – Public Water Supply**

***Sufficiency of Capital Improvement Program***

Public water supply and distribution facilities are provided by cities, special purpose districts, community associations and companies in Snohomish County. The Washington State Department of Health (DOH) has basic operational requirements and standards for all water supply systems. Each water system's comprehensive plan includes a description of the purveyor's system design standards. These standards typically address the design and performance of the transmission, storage, and distribution components, including facilities for storage and pressure maintenance. Standards for fire flow, for example, are a primary determinant of pipe size and pipe looping in the distribution system as well as for the size and location of reservoirs. Water system standards are influenced heavily by fire insurance ratings and DOH standards, although they are a matter of local choice. They apply to facilities built by a public water purveyor as well as to facilities built by developers and other private parties that are dedicated to a purveyor or connected to a purveyor's system. These standards generally constitute the LOS for the system.

Counties and cities are subject to the GMA and have effectively applied GMA standards to the review of water comprehensive plans. Water districts are not directly regulated by the GMA, but water district comprehensive plans are required to be consistent with County land use plans and are subject to review by the County and the cities they serve. Therefore, districts updating their comprehensive water plans routinely incorporate the appropriate city and County land use and population forecasts into their projections of future demand. This aids in achieving consistency between the County's land use plan and the district's system plan for water supply. The cities and districts that provide public water service to Snohomish County have a long and generally consistent record of preparing and implementing capital facility programs to serve demand. Future water system plan updates are compared with growth forecasts through the year 2035 adopted as part of the County's 2015 Comprehensive Plan.

The following table lists key water purveyors along with the year of their known most recent comprehensive water plan update and project year of the next plan update.

**Table 8. Water Purveyors**

\* Plan update is currently in process.

\*\* An extension has been granted by the Department of Health.

The North Snohomish County Coordinated Water System Plan (CWSP) coordinates public water provisions between the Snohomish Health District, Snohomish County, and the various public water purveyors in the service area. The service area covered by the CWSP include much of the unincorporated area outside of the Southwest UGA and west of the national forest land. This area includes many smaller “Group A” water purveyors, or those that have 15+ connections or 25+ people per day for 60 or more days. The CWSP serves as the County’s adopted coordinating document guided by RCW 70.116 and WAC 246-293. The document includes an inventory of the number of approved and actual system connections for each purveyor. Revisions to the North Snohomish County Coordinated Water System Plan (CWSP) were completed in December 2010 and approved by DOH in January 2011. The CWSP is available as an appendix in the County’s 2015 Comprehensive Plan.

#### **Funding Adequacy**

Each water purveyor’s system plan typically includes a six to ten-year capital improvement program (CIP) that corresponds to the “financing plan” required by the GMA. The CIP for the water system is like those adopted by counties and cities – it identifies projects, costs, and funding sources to carry out the plan over the chosen time period. Funding inadequacies are addressed either by developer improvements or by water district capital projects using various funding mechanisms.

There are two primary sources of construction funds for large water system projects constructed by the purveyor: 1) utility local improvement district (ULID) financing that derives from special property tax assessments levied against owners within a defined district or benefit area, and 2) revenue bonds backed by regular rate charges and hook-up fees levied against all system customers. Other funding mechanisms include 1) Property developers build (and pay for) new facilities needed to serve a

subdivision or commercial property, and dedicate the new facilities to the water purveyor to maintain, or 2) the agency collects a “connection charge” from developers who want to connect to the system, so that “growth pays for growth,” and these revenues are available to pay for system improvements beyond the bounds of the development, or 3) the agency may pay for system improvements with available cash accumulated from ratepayer income. These funding sources may be supplemented by other funds, such as those from state grants and loans, the Public Works Trust Fund and other locally generated sources. ULIDs typically fund projects associated with the geographical expansion of the system into a developed, but previously un-served area. Revenue bonds are typically used to fund all other types of district projects not provided by private developers. Operating funds may also be used to fund smaller projects or capital replacement and maintenance programs for the distribution pipe system.

Utility funds are usually a reliable source of funding, and the purveyors in Snohomish County have all been operating their utilities for many years. The most recent comprehensive water plans approved by DOH do not indicate any reason to expect that any district or city will experience a probable funding shortfall that could jeopardize achievement of minimum LOS standards. Water purveyors typically plan ample lead time to secure funding before any anticipated funding limitations occur.

Major capital facilities improvements are potentially a funding challenge for smaller cities and districts. Various water purveyors are constantly assessing the need for capital improvements to continue to support demand. A recent trend we have seen is the need for rural water purveyors to improve their infrastructure driven by the need for storage capacity as well as general system updates and upgrades. Two water associations, Seven Lakes and Roosevelt, currently have reservoirs under construction to serve rural customers.

### ***Adequacy of Regulatory Mechanisms***

State statute RCW 58.17.110 requires that local authorities review subdivision applications to determine that adequate provisions are made for a variety of public facilities, including potable water supply. To this end, Snohomish County, through Chapter 30.41A SCC and other applicable County code provisions, requires development applications to demonstrate that a source of potable water is capable of serving the proposed development. A letter to the County is generally required from the purveyor stating that the water system is available and capable of serving the proposal if the area is within the district or service boundaries of a public water system. This assures not only that public or potable water supply is available, but that any expansion of the distribution system for new development will meet the purveyor’s construction and maintenance standards. Most areas within the established urban growth area (UGA) boundaries, and many rural areas, are within water system service areas.

Currently, the Town of Index is the only water purveyor known to have a moratorium on new water service connections. The Town of Index is currently updating its Water System Plan, and during that process determined that their source meter is not reading correctly. Engineering assumptions used for water usage put Index as potentially exceeding their water right, a moratorium is in place while Index seeks funds for a new source meter. In 2019 the Department of Ecology denied the application of Seven Lakes Water Association which serves north Snohomish County, north of the Tulalip Indian Reservation and west of the City of Marysville, to receive additional water rights. The area served by Seven Lakes Water Association is zoned for rural uses. The Land Use Element of the Snohomish County Comprehensive Plan establishes land use policies that provide for limited growth in rural areas, including goals, objectives, and policies to reduce the rate of growth. The Snohomish County Tomorrow 2020

## **Snohomish County**

### **2023-2028 Capital Improvement Program – Executive Recommended**

---

Growth Monitoring Report indicates that population growth since 2011 has generally been in line with the 2011-2035 growth share expectations for the non-UGA subarea. Snohomish County will continue to monitor growth trends and does not recommend reassessment at this time.

A city or district is generally required under state law to update a comprehensive system plan when it needs to construct a water supply facility - transmission line, treatment facility, pump station, etc. - that is not accounted for in its current system plan. These facilities may be needed to accommodate unanticipated growth or growth occurring beyond the current plan's horizon year in response to changes in state water quality regulations or to address any other source of demand on the system. DOH requires system plans in the growing areas of the county to be updated (and approved by DOH) every six or ten years.

Applicants accessing water from wells are required to demonstrate that ground water is available in adequate supply without impacting senior water rights. Water quality reviews for well system development proposals outside UGA boundaries or defined water service areas are performed by the Snohomish County Health District. The *Whatcom County v Hirst, Futurewise, et al. (2016)* Washington State Supreme Court decision has resulted in legislation that requires a higher level of coordination with rural water purveyors at the time of development application. Specific requirements vary by water resource inventory area, but there is now a requirement that a water purveyor affirm that it is infeasible for timely water service to be provided to a site prior to the issuance of a building permit relying on a private well for water. The regulatory impacts of this decision are still in the process of being fully realized and implemented at the county level.

#### ***Statement of Assessment***

The City of Everett serves as a regional water supplier through its major supply, treatment, and transmission facilities in the Sultan watershed. The Everett water system serves much of urbanized Snohomish County and the City of Everett hosts the Everett Water Utility Committee (EWUC) for water purveyors purchasing city water in the south and eastern areas of Snohomish County. The centralized Everett water system results in more unified facility and performance standards among its customers. The City of Everett holds water rights that ensure adequate water supply for county residents and businesses in its service areas for many years to come.

Several other jurisdictions or districts also maintain, in part or in whole, their own separate water supply: Arlington, Marysville, Sultan, Stanwood, Darrington, Gold Bar, Index, Snohomish County PUD (Public Utility District), Startup, Cross Valley and Olympic View. The Town of Index currently has a moratorium on new connections pending the release of federal funds for a new meter. However, the Washington State Department of Ecology has authorized a small number of new services to be issued between now and when the moratorium can be lifted. A small portion of the Southwest UGA is also served by the City of Seattle through Olympic View Water and Sewer District. The City of Bothell also purchases water from the City of Seattle. State law and County code allow the County to ensure that adequate provisions are made for public water supply systems within the UGAs, and such provisions are being made.

Snohomish County and the north county water purveyors meet on a regular basis via the Water Utility Coordinating Committee (WUCC) for the North Snohomish County Coordinated Water System Plan, and in joint meetings with wastewater service providers to discuss potential infrastructure problems that could result from future land use decisions.

The public water supply systems overall appear to be positioned to support the growth anticipated in the comprehensive plans of the cities and the County. Aging infrastructure and potential impacts of climate change, as more information becomes known, are variables that are being considered for impacts on public water supply in and beyond the six-year CIP horizon and through the next update to the Capital Facilities Plan in 2024.

**Part 5.2b – Public Wastewater Systems**

***Sufficiency of Capital Improvement Program***

Wastewater collection and treatment is considered a public facility necessary to support urban development. The connective nature of wastewater systems, and the impact of topography on gravity-reliant mains, as well as increasing regulations on treatment plants, makes wastewater services relatively expensive for households. In addition, the reality that suburban and urban development requires sewer systems means that drawing wastewater service boundaries is a significant growth management issue in Snohomish County and elsewhere. The Washington State Department of Ecology (Ecology) has basic operational requirements and standards for all wastewater systems and treatment facilities. Each wastewater system's comprehensive plan also includes a description of the system's design standards. These standards primarily address collection systems, including facilities built by a public wastewater system as well as facilities built by developers and other private parties that are dedicated to a public wastewater system or connected to its system. These operational requirements and standards generally constitute the level of service (LOS) for the system.

Wastewater systems fall into two broad categories: dedicated sanitary systems, and combined systems. The former systems are designed to handle only sanitary wastes from homes and businesses, although groundwater (Inflow and Infiltration) does seep into the pipes through illegal surface water connections as well as cracks and joints. Combined systems are designed to also handle surface water runoff during major storm events. Again, the agency sets standard for construction and maintenance of these facilities, whether sanitary or combined.

The treatment plants are considered “essential public facilities” within Snohomish County pursuant to the Growth Management Act (GMA). This service is provided by cities and special purpose districts. A city or district will generally update a comprehensive system plan when it needs to construct a facility - trunk sewer, treatment facility, lift station, etc. - not accounted for in its current system plan. An operating agency must begin preliminary design on the expansion of the plant's capacity when a treatment facility reaches 85% of its rated capacity under its National Pollutant Discharge Elimination System (NPDES) permit. Therefore, formal system plans tend to be done on an irregular basis and is based on the growth rates in specific UGA's. Most plans are updated at least once every seven to 10 years, but, unlike with water purveyors, there is not an established timeline for plan updates.<sup>2</sup>

Each comprehensive wastewater system plan includes a capital improvement program. Most current system plans have followed GMA guidelines and specifications although special districts are not directly subject to the GMA. District plans are subject to review by the cities they serve and approval by Snohomish County. The County and cities are bound by the GMA and have effectively applied GMA planning standards to the review of these plans. Special districts have now generally all prepared comprehensive wastewater plans that have incorporated the appropriate city and County land use and population forecasts into their projections of future wastewater flows. Future wastewater system plan updates will be compared with growth forecasts through the year 2035 adopted as part of the Snohomish County 2015 Comprehensive Plan, and planning is underway for the 2024 update to the County's comprehensive plan.

---

<sup>3</sup> WAC 173-240-030 requires sewer plans be submitted prior to constructing or modifying wastewater facilities. Sewer line extensions, including pump stations, can be exempted from separate plan submittals so long as information demonstrating the extensions conformance with the general sewer plan is submitted to the Department of Ecology.

## Snohomish County

### 2023-2028 Capital Improvement Program – Executive Recommended

The following table lists key wastewater purveyors along with the year of their known most recent comprehensive wastewater plan update and project year of the next plan update.

\* Wastewater purveyors are required to update comprehensive plans based on treatment capacity needs, and do not have the same requirement that water purveyors have to update comprehensive plans on a 10-year cycle.

\*\*Comprehensive plan update currently underway

### **Funding Adequacy**

Each wastewater system plan typically includes a six to ten-year financing plan (or CIP) as required by the GMA. Each CIP is like those adopted by counties and cities in that they identify projects, estimated costs, and funding sources. Wastewater facilities are funded through one or more of the following methods: 1) Property developers build (and pay for) new mains and lift stations needed to serve a subdivision or commercial property, and dedicate the new facilities to the wastewater agency to maintain, or 2) the agency collects a “connection charge” from developers who want to connect to the system, so that “growth pays for growth,” and these revenues are available for system improvements beyond the bounds of the development, or 3) the agency may pay for system improvements with available cash accumulated from ratepayer income, or 4) the agency may issue revenue bonds backed by ratepayer revenues, or 5) a utility local improvement district (ULID) may be established to collect special property tax assessments levied against owners within a defined district or benefit area, typically

to shift an established neighborhood from septic systems to sewers. These primary sources may be supplemented by other funds, such as those from state grants and loans and other locally generated sources. Other potential funding sources for wastewater service providers are the Public Works Trust Fund, State Revolving Funds and water reclamation, i.e., revenue from distributing reclaimed water.

The cities and districts that serve unincorporated urban growth areas (UGAs) have capital improvement programs that call for upgrades, expansions, and extensions of the major system components – trunk lines, lift stations, and treatment facilities. These plans indicate that the system providers should be able to stay ahead of the projected service demands on their facilities. Several wastewater purveyors and sewer system managers will be conducting rate studies in the coming years based on capacity limitations to accommodate growth and to determine if a rate increase is warranted.

### ***Adequacy of Regulatory Mechanisms***

State statute RCW 58.17.110 requires that local authorities review plat applications to determine that adequate provisions are made for a variety of public facilities, including “sanitary wastes.” Snohomish County, through provisions of County code, requires development applications within urban areas to demonstrate that a public wastewater collection system is available and capable of serving the proposed development with a limited number of exceptions provided in Chapter 30.29 SCC. A letter is generally required from the purveyor stating that the sewer purveyor whose district the proposed development is located has sufficient system capacity to serve the additional demand expected from the proposal. These reviews provide a failsafe to assure that public sewerage infrastructure and treatment systems are available and that the expansion of the system into the new development will meet the purveyor’s construction standards. Developments within UGAs generally obtain such assurances from sewer purveyors except in limited instances. Some areas of the county are within “un-sewered” urban enclaves where sewer service is not currently available and the nearest purveyor is unable to provide timely service. Occasionally, the rate of development has prompted a district or city to temporarily impose a hook up moratorium.

### ***Statement of Assessment***

The Brightwater Treatment Plan is in the Maltby area of south Snohomish County. Owned and operated by King County, it treats wastewater from a significant portion of southern Snohomish County as well as portions of south King County. Brightwater has a capacity to treat an average of 36 million gallons per day (mgd). In the future, treatment capacity may be expanded to 54 mgd to help serve the north and northeast portions of the plant’s service area, including southern Snohomish County. Elements of this expansion are expected to begin by 2025 and continue into the 2030s. The service area includes much of the areas served by the Alderwood Water and Wastewater District and Cross Valley Water District and a lesser portion of the Silver Lake Water and Sewer District. Approximately 20% of Silver Lake Water and Sewer District’s service area when fully developed would discharge sewer flows to the Alderwood Drainage Basin for treatment by King County.

King County owns and operates three trunk sewer interceptors in Snohomish County: Swamp Creek, North Creek and Bear Creek Trunks. The interceptors receive sewage flows from local wastewater service providers, including Alderwood Water and Wastewater District. In 2019, King County completed the North Creek Interceptor project to increase the system capacity and reliability thereby addressing overflows that had occurred since 2012. The 2017 Conveyance System Improvement Plan Updated identified medium priority capacity needs and conceptual projects for the North Creek Trunk and the

## **Snohomish County**

### **2023-2028 Capital Improvement Program – Executive Recommended**

---

Swamp Creek Trunk and did not identify a capacity need for the Bear Creek Trunk. These conceptual projects are estimated for project completion in the 2040-2050 timeframe.

Everett's Water Pollution Control Facility (EWPCF) is a regional wastewater treatment that provides service for the following entities: Everett, Mukilteo WWD, Silver Lake WSD, and Alderwood WWD. The plant, which services some of the potential locations of future light rail stations, is located on a 350-acre land parcel owned by Everett on Smith Island, east of the Snohomish River and is bordered by Interstate 5 to the west, Snohomish River to the south, and Union Slough to the east. A dike system protects the plant, located within the Snohomish River flood plain, from flooding. The EWPCF is designed for a maximum month design flow of 40.3 mgd. Everett provides effluent pumping services to the deep-water outfall for City of Marysville during summer low-river flow months (July through October) each year. During these months the Marysville Wastewater Treatment Plant conveys effluent through a 36-inch Port Gardner Bay Outfall pipe across the Ebey, Steamboat, and Union Sloughs and then through twin 26-inch pipes to the City of Everett's South End Pump Station (SEPS). From there it is discharged to the outfall in Puget Sound.

There have been significant improvements in the Lake Stevens wastewater system over the years. The most notable improvement has been the relocation of the main sewage treatment facility to an area outside the floodplain (east of the Sunnyside area). This project was completed and placed into service in 2012. The design of the new treatment plant was modeled after the processes within the Brightwater plant. There are currently three moratoria basins in the Lake Stevens wastewater system. One capital improvement project, which was recently completed is the first phase of a solution to lift all three. The Sewer District is studying the areas in moratorium to determine the capacity impact of the capital project and may be able to lift all three. Due to rapid growth, the District may have to issue bonds in the 2022-2027-time frame to finance an upgrade to the wastewater treatment plant due to hydraulic capacity limitations. It is anticipated that the District's wastewater treatment facility will reach the 85% capacity planning threshold in 2023 or 2024. The treatment plant may near the 5.1 mgd capacity due to the rapid growth in population.

Snohomish County and the wastewater purveyors meet on a regular basis to discuss potential sewer infrastructure problems that could result from or impact future land use decisions. Isolated capacity issues in parts of sewer systems in Stanwood are being addressed. Granite Falls continues to experience a moratorium on certain development activities and sewer connections due to capacity issues. The city's 2018 Wastewater Facilities Plan (Plan) was adopted by the Granite Falls City Council in 2019. The Plan establishes the basis for upgrades and the expansion of the existing wastewater treatment facility. The existing wastewater treatment facility does not have capacity to adequately treat the wastewater projected flows and loadings due to population growth. In addition, a recent TMDL placed upon the Pilchuck River will require additional upgrades to the plant to achieve water quality compliance. Before completion of the upgrades and expansion projects, and before any increase in effluent loading limits is permitted, the City of Granite Falls must complete a Tier II Antidegradation Analysis and it must complete plans to address various parameters associated with the effluent (BOD<sub>5</sub>, temperature, and phosphorus). Therefore, the City is actively seeking assistance for funding through various agencies. The County will need to monitor the situation, but no reassessment action is required at this time.

One countywide wastewater issue of concern is a proposal by the state Department of Ecology to require facilities sending effluent to Puget Sound to meet nutrient reduction standards currently under development. Since those regulations are yet unknown, agencies do not know whether they will be able

to comply through operational changes or by making minor facility improvements, or whether significant capital improvements will be needed. It is also possible that changing facility operation to reduce nutrients in the effluent will reduce the plant's effective capacity. This in turn could necessitate major capital construction to add capacity. Lacking such improvements, agencies may not be able to provide the minimum service levels prescribed in its plan due to a reduction in capacity, thereby necessitating a moratorium on connections. The County will continue to monitor the development of new nutrients reduction standards and the potential impacts on sewer capacity and funding needs that may result.

Some of these eventualities could require agencies to raise significant amounts of capital resources. Given the condition of the State Public Works Trust Fund and the State Budget, it is likely that such funding will have to be raised locally. This would in most cases mean selling revenue bonds, requiring potentially significant increases in customer rates.

**Part 5.2c – Fire Protection Services**

***Sufficiency of Capital Improvement Program***

Fire districts are not required by the Growth Management Act (GMA) to prepare long range plans. However, most fire districts use their annual budgeting process to anticipate and plan for any capital improvement needs. Construction of new fire stations is often funded by bonds approved by district residents which are retired through property tax revenues.

Service level standards for fire protection are frequently expressed in terms of response times, equipment capacity, personnel training, and fire flow. However, there is great variation for many of these standards based on the intensity of development they serve and differences in each agencies' organizational structure and equipment. Water system fire flow protection serves as a consistent metric for minimum levels of fire protection service, regardless of which agency provides service. Each water system's comprehensive plan includes a description of the purveyor's system design standards. Standards for fire flow are a primary determinant of pipe size and pipe looping in the distribution system as well as for the size and location of reservoirs. Overall water service standards are influenced heavily by fire insurance ratings and Department of Health (DOH) standards, although they are a matter of local choice. Actual fire flow standards, however, are established by County code and administered by the Snohomish County Fire Marshal's Office (FMO).

Snohomish County has designated fire protection service infrastructure as necessary to support urban development. The minimum fire protection service LOS is the provision of sufficient fire flow in order to provide protection commensurate with planned intensities of future development adopted in the comprehensive plan. The LOS applies to urban facilities built by a special purpose water district as well as to facilities built by developers and other private parties that are dedicated to a water district or connected to a water district's system.

***Funding Adequacy***

Funding adequacy that maintains minimum LOS for fire protection services comes via water purveyors in Snohomish County. Each water purveyor's comprehensive system plan typically includes a six to ten-year capital improvement program (CIP) that corresponds to the "financing plan" required by the GMA. The CIP is similar to those adopted by counties and cities – it identifies projects, costs, and funding sources to carry out the plan over the chosen time period.

Water purveyors, either municipal or water district, typically require private developers to fund the cost of pipes and distribution systems that deal with urban area fire flow. Storage facilities, which also affect fire flows and durations, are generally the responsibility of the purveyor. Revenue bonds are typically used to fund these and all other types of district projects not provided by private developers. Operating funds may also be used to fund smaller projects or capital replacement and maintenance programs for the distribution pipe system.

The most recent comprehensive water plans approved by the DOH do not indicate any reason to expect that any district or city will experience a funding shortfall that could jeopardize achievement of minimum LOS standards for fire protection services.

***Adequacy of Regulatory Mechanisms***

The FMO helps to provide safe, livable environments through inspections, investigations, and education. The FMO provides fire inspection and fire investigation services to unincorporated areas of the county and to other jurisdictions on contract basis. Snohomish County does not directly provide any fire suppression services. In addition to municipal fire departments, there are several fire districts and two regional fire authorities. All fire service providers within Snohomish County supply basic emergency medical service (EMS) and fire suppression services.

Snohomish County General Policy Plan – Goal CF 11 provides the basis for establishing fire service protection minimum LOS: “Water supply systems shall provide sufficient fire flow, as established by County development regulations, in order to provide protection at a level of service commensurate with the planned intensity of future development adopted in the comprehensive plan.”

Standards for fire flow are determined and enforced by the local fire marshal then implemented by the water purveyor. The practical basic operational requirements for fire protection service are from SCC 30.53A.514(3) - Fire protection water supply:

“(3) A water supply shall consist of reservoirs, pressure tanks, elevated tanks, water mains or other fixed systems capable of providing the required fire flow. Required water supply for fire protection shall include:

(a) An approved water supply capable of supplying the required water flow for fire protection shall be provided to premises upon which facilities, buildings or portions of buildings are hereafter constructed or moved into or within the jurisdictions.

(b) All land upon which buildings or portions of buildings are or may be constructed, erected, enlarged, altered, repaired, moved into the jurisdiction, or improved, shall be served by a water supply designed to meet the required fire flow for fire protection as set out in appendix B of the IFC, except that fire flow requirements for rural areas outside of an Urban Growth Area shall be reduced by 25 percent. Fire flow requirements for structures with a supervised fire alarm system connected to an Underwriters Laboratory, Inc. approved fire alarm center may be reduced by an additional 25 percent.

(c) Prior to final approval of any subdivision or short subdivision, written verification by the water purveyor of actual fire flow, calculated in accordance with appendix B of the IFC, shall be provided to the fire marshal for review and approval.

(d) Prior to combustible construction of a single-family detached unit (SFDU) project the developer shall provide a final certificate of water availability indicating that all hydrants have been installed, charged and are operational. The hydrants shall provide a minimum 1,000 gpm for a 1-hour duration at 20 psi.

Exemptions: Except as provided in IFC section 507, the following permits and approvals are exempt from the water supply and fire hydrant requirements of this chapter:

(1) Subdivisions and short subdivisions in which all lots have a lot area of 43,560 square feet (one acre) or more in size;

(2) Building permits for structures classified by the building code as Group U occupancies (agricultural buildings, private garages; carports and sheds) that are restricted to private residential use only, provided that riding arenas or other agricultural type structures used or accessed by the public shall not be exempt;

(3) A building permit for a single-family detached dwelling, duplex, or mobile home to be

placed on a lot with a lot area of 43,560 square feet (one acre) or more in size; and  
(4) Mobile home permits for mobile homes in established mobile home parks.”

Each water system comprehensive plan includes a description of the purveyor’s system design standards. These standards address the design and performance of the system’s transmission, and distribution components, including facilities for storage and pressure maintenance, all of which directly affect fire flow.

***Statement of Assessment***

The Snohomish County 2015 Capital Facilities Plan identifies fire service as necessary to support *urban* development, and therefore a minimum LOS has been established for fire service in urban areas. Adequate water system fire flow must be provided regardless of which fire district or municipality provides fire suppression service to an urban area. Fire flow and sprinkler requirements are established in the building and fire codes adopted by the County. Therefore, the minimum LOS is technically provided and maintained by water purveyors. None of the current comprehensive water plans report any difficulties meeting current fire flow standards.

**Part 5.2d – Electric Power**

***Sufficiency of Capital Improvement Program***

Snohomish County is served by the Snohomish County Public Utility District No. 1 (PUD) for its electric power needs. The PUD Charter requires that service be made available to all residential units and commercial establishments within Snohomish County and Camano Island. The PUD is a non-profit, community-owned and governed utility that provides electric distribution, transmission and generation services. The PUD has an elected board of commissioners which sets policy. Since the PUD is a nonprofit, publicly owned utility, rates are based only on cost of service. The PUD is the second largest publicly owned utility district in the northwest and the 12<sup>th</sup> largest in the United States by electric customers served, with approximately 361,000 as of December 2020. The PUD is also the largest customer of the Bonneville Power Administration (BPA) and purchases over 75% of its total power supply from this agency each year.<sup>3</sup>

The PUD electric system planning objectives are to:

- (1) anticipate and accommodate changing consumer energy needs,
- (2) provide continued operation and dependability of existing electric system assets,
- (3) ensure sufficient reliability, capacity, and upgrades to meet future service needs ,
- (4) comply with federal, state, and local regulations, and
- (5) modernize the electric system to be capable of providing real-time energy use information and integrating external system resources such as renewable distributed generation and energy efficiency initiatives.

The PUD has an annual Capital Improvement Program review and budget process that is described below under the Statement of Assessment.

***Funding Adequacy***

Funding for the PUD’s capital plan is provided primarily from electric rates as charges for service. Bonds are issued as needed against future revenues from rate charges to customers to raise the capital needed for major system upgrades and expansions such as new transmission lines and substations. The PUD’s capital funding sources are generally stable and reliable, although they can be impacted by the cost of purchasing outside power. An unexpected impact on funding from rate changes in 2020/2021 was due to COVID 19.<sup>4</sup>

A large part of the new customer line extension work is funded directly by the customer, whether it is distribution system expansion to serve a new subdivision or a new transformer to serve a new industrial customer.

A New Load Policy (NLP) was created to be an extension of the PUD’s Line Extension Policies and applies to common purpose load increases of over 2.5 MVA. The NLP requires that one-time connection fees be imposed to recover the costs of expanding the District’s electric system for new or existing loads that grow by more than 2.5 MVA. Some of these fees are reimbursed back to the customer if the system load develops as planned. This is to prevent existing PUD customers from having to pay for stranded investments where the new large customer’s subsequent energy use does generate the expected

---

<sup>3</sup> Snohomish County Public Utility District No 1, “About Us”, <https://www.snopud.com/about/>.

<sup>4</sup> More detail can be found on the PUD website <https://www.snopud.com/about/financial-information/>

## **Snohomish County**

### **2023-2028 Capital Improvement Program – Executive Recommended**

---

revenue to cover the capital improvements.

A concern for the future is climate change, with a return to electric heating in buildings and an accelerated roll-out of Electric Vehicles (EV), this could result in a need to rapidly increase both the capacity of the electric grid and purchased energy.

#### ***Adequacy of Regulatory Mechanisms***

Snohomish County considers the availability of electrical service in its decision-making process for development proposals. Chapters 30.41A and 30.41B SCC specifically require proof of electrical availability before a final plat or short plat can be certified by the County. This requirement assures that adequate electrical system facilities are available or can be made available to any plat before lots are legally created and can be used for building purposes. A similar review of power availability occurs at the building permit stage for commercial and industrial, as well as residential development.

The PUD designs its electrical facilities to meet its Standards and General Planning Guidelines (GPG) which are either set by the PUD or based on the National Electric Safety Code (NESC), Washington Administration Code (WAC), Revised Code of Washington (RCW), and other applicable laws and regulations.

#### ***Statement of Assessment***

Every year the PUD develops a 5-year Electric System Capital Plan summarizing new electric facilities needed over the next five years for:

- (1) Customer load growth,
- (2) Expansion projects,
- (3) Upgrade projects,
- (4) Reliability improvement projects,
- (5) Asset management replacements
- (6) Public right-of-way relocations, and
- (7) Capital operation/maintenance improvements.

The PUD monitors annual winter and summer peak loads. System Planning then models its electrical system using a software application called Synergi. Anticipated future load growth forecasts are included in the model 10 years out in the future, along with other potential system impacts. The PUD customer base is expected to grow by approximately 3,300 new customer meters annually over the next 5 years.

This system expansion can best be achieved in a cost-effective manner with PUD knowledge of the County's long-range growth projections for different areas and includes review of:

- (1) The Snohomish County comprehensive land use plan,
- (2) Buildable Lands Reports,
- (3) Growth Management Act,
- (4) Growth Monitoring Report, and
- (5) Review of future development project and Environmental Impact Statement applications.

The minimum Level of Service (LOS) investment standards are addressed in the Electric System Capital Plan and are based on the following general planning guidelines:

1. The expenditures projected for the Electric System Capital Plan for the next five years include necessary support from the Distribution & Engineering Services Division and other District divisions. This Plan is updated annually.
2. The Electric System Capital Plan is developed using the “Final Projections of the Total Resident Population for the Growth Management Act Medium Series.” Planning for the electric system must be prudent and flexible to accommodate the growth forecast and to meet customer requests that vary yearly.
3. The system peak load for this plan has been normalized by temperature-adjusting the actual peak loads for average winter temperatures. The capacity of the electric system will continue to be increased to accommodate projected increases in number of customers and local area system load additions.
4. The process to determine infrastructure needs to meet projected loads involves matching substation and circuit loading data with the District’s small area load forecasts. The District’s Small Area Electric System forecast is used to identify the timing and location of expected new residential and commercial load.
5. The electric system is planned so that it will be capable of adequate performance at peak load periods with any single electrical element out of service.
6. The District also publishes a 20-Year Capital Plan and a Horizon Plan, both of which use land-use data to estimate future loads and determine the optimal infrastructure to reliably serve those loads. These plans are updated about every five years.

Service reliability is another aspect of the plan. The worst performing circuits in terms of the number of outages and outage minutes are reviewed for system improvements to maintain and increase the reliability of service. Service reliability is greatly impacted by public and private right-of-way maintenance practices.

- (1) Right of way clearing to avoid tree-related outages (preventable) and to maintain access to roads to quickly make repairs from trees falling from off the right-of-way (non-preventable)
- (2) Aged asset replacement to reduce equipment failures
- (3) Control zones projects to help reduce car/pole accidents,
- (4) New and improved system loops with new protective devices and switches for the ability to reroute supply from different sources, including new Distribution Automation (DA) infrastructure to automatically isolate and restore customers during outage events.

The PUD periodically updates its comprehensive Integrated Resource Plan. This plan evaluates a range of possible futures in customer growth and supply needs and outlines a direction for the PUD to cost effectively manage risks, such as short-term market price volatility.<sup>5</sup>

Overall, the PUD capital infrastructure appears to be positioned to support the growth anticipated in the comprehensive plans of the cities and the County. Unforeseen customer development and land use within Snohomish County, at times, impacts availability of substation sites and line rights-of-way and generally increases electric design and construction costs. The PUD regularly engages in capital planning and, historically, has been able to generate the fiscal resources necessary to implement its capital plan.

<sup>5</sup> A complete list of sources of power supply and the latest IRP can be found on the PUD website <https://www.snopud.com/about/quick-facts/>

## **Part 5.2e – Public Schools**

### ***Sufficiency of Capital Improvement Program***

Each school district's Capital Facilities Plan (CFP) includes a six-year financing plan as required by the GMA. The CFP is like those adopted by counties and cities – it identifies projects, costs, and funding sources. There are two primary sources of construction funds for public schools: local voter-approved bond issues based on property tax levies and state matching funds. These primary sources may be supplemented by other local funds such as those generated by the sale of assets and by impact fee collections. The schools' CFPs generally indicate whether a capital project is to be funded by the proceeds from an approved bond issue or by a future bond issue not yet approved by the voters. It will also indicate the state matching funds that are anticipated. Virtually all school CIPs are characterized by a degree of uncertainty because voter approval of future bond issues cannot be assured and enrollment in each grade level is difficult to predict.

The districts are required to meet minimum level of service (LOS) standards, and generally do so as long as the combination of portable classrooms and permanent school facilities can accommodate all students in classes and the average class size is under the maximum allowed in the district's capital facility plan. Each school district may establish a different methodology for determining LOS and does so in their individual CFPs.

School capital facility planning is driven by projections of future enrollment. Generally, school districts consider portable classrooms to be providing interim capacity as a temporary measure until the necessary permanent capacity can be provided. The state's practices in allocating its matching construction funds for schools require school districts to demonstrate that "un-housed" students will justify a new school or a school addition before it will approve those funds. To qualify and be competitive for these funds, school districts must demonstrate a demand for additional capacity. This often results in districts experiencing a short-term decline in LOS before a new capacity-expanding project becomes operable.

The school districts participating in the County's school impact fee program update their CFPs biennially pursuant to Snohomish County requirements to establish school impact fees. The County's biennial review and adoption process for the school CFPs constitutes a regularly programmed reassessment of this component of the comprehensive plan. School districts can also update their respective CFPs in between the main biennial update process for revised data such as student enrollment projects. Eleven school districts submitted CFPs to Snohomish County as part of the 2022 biennial update.

### ***Funding Adequacy***

Bond failures remain a long-term concern for many school districts facing aging facilities and the possibility of enrollment exceeding permanent school capacity. Some school districts may have experienced an overall slow enrollment growth in recent years, with substantial enrollment growth in certain geographic areas. State matching funds may be granted to school districts that meet certain state criteria; however, not all school districts qualify for state matching funds.

Impact fees are a supplemental funding source for capital projects that are collected from new developments. Chapter 30.66C of the Snohomish County Code (SCC) is the regulation implementing the school impact fee program that requires the payment of school impact fees for new residential

development. Payment of the impact fee is a requirement of residential building permit approval and is collected by the County at the building permit issuance unless an applicant requests to defer payment in accordance with SCC 30.66C.200(2). Impact fees alone cannot provide enough revenue to construct new schools; however, they can be an important element of a district’s funding strategy. Impact fee revenues are typically used by the districts to purchase and install portable classrooms, acquire new sites for future schools, or supplement the construction budget for classroom additions or similar capital projects.

### ***Adequacy of Regulatory Mechanisms***

The school districts participating in the County’s school impact fee program prepare GMA-compliant capital facilities plans and submit them for review and adoption by the County every two years. They then undertake construction projects from these plans. School CFPs also provide the technical and legal basis for the calculation and imposition of school impact fees, which Snohomish County collects from residential developments within unincorporated areas under the authority of Chapter 30.66C SCC.

Schools are not a “concurrency facility” within the County’s GMA Comprehensive Plan, so there is no concurrency management system for schools in Chapter 30.66C SCC as there is for transportation in Chapter 30.66B SCC. However, the County does provide school districts the opportunity to comment on residential development proposals within their district boundaries as a part of the County’s development- application review process. State statute (RCW 58.17.110) directs local authorities to review plat applications to see that a variety of public facilities have adequate provisions including schools and walkways to ensure safe walking conditions for school children. This creates an opportunity – either through the State Environmental Policy Act review - or as part of the development approval process – to secure from the development additional off-site facilities such as bus pullouts or walkways that assist the schools in achieving their mission.

### ***Statement of Assessment***

CIP and LOS Linkage: Each school district establishes LOS standards for public schools in its CFP. These standards can address such things as building construction, maximum class size, optimum school capacity and the use of portable classrooms. Some standards are set by the state and are generally uniform across the state. Others are subject to local discretion and may vary widely from district to district. Each school CFP includes a description of the district’s program related educational standards that correlate to school capacity. These standards typically include a maximum average classroom size, which is a part of the district’s LOS standard. Most Snohomish County school districts would like to house all students in permanent classrooms. However, the districts also recognize the need for portable classrooms to provide interim school capacity while permanent capacity is being designed and completed – particularly during periods of high enrollment growth. Most district plans reflect the continued use of portable classrooms. A district’s minimum acceptable LOS is, in many cases, expressed as a certain maximum average class size for basic elementary, middle, and high school classes.

Each district’s plan typically includes a mix of new permanent school facilities and the installation of new or relocated portable classrooms. A district meets its minimum LOS standard if a combination of portable classrooms and permanent school facilities can accommodate all students and maintain average class sizes less than the maximum average size (minimum LOS). The state’s practice of matching construction funds requires school districts to demonstrate that “un-housed” students will justify a new school or a school addition before it will consider the district eligible for these funds. This results in

school districts that regularly show construction projects lagging the demand for space.

The school districts, individually and collectively, appear to be implementing their CFPs adequately. All the school districts have achieved their minimum levels of service based on the information submitted in their 2022 updated CFPs.

**Chapter VI: Statement of Assessment**  
**Minimum Level of Service Reports**

The following information summarizes minimum level of service (LOS) status for surface transportation, park land and recreational facilities, surface water management, electric power, and public schools. The information directly corresponds to information in the particular “Chapter V: Statement of Assessment” text. As noted in Parts 5.2a and 5.2b, the 2015 Snohomish County Capital Facilities Plan (CFP) does not identify a singular LOS standard for public water systems and wastewater collection and treatment facilities. However, Snohomish County meets directly with the water and wastewater purveyors twice a year to discuss infrastructure issues. The purveyors also now provide annual reports documenting capacity and/or service problems. These reports include documentation of any Snohomish County land use decisions that may contribute to or cause service, capacity, or financial problems.

***General Resource Documents***

Related resource documents are available from the Department of Planning and Development Services (PDS) and include the following:

- School capital facility plans for each school district
- Water and sewer system plans from individual districts and cities
- The latest Snohomish County Public Utility District No. 1 Electric System Capital Plan
- Documents of the County’s GMA Comprehensive Plan, including the General Policy Plan, the Capital Facilities Plan, the Transportation Element, and the Parks and Recreation Element

Documents available from the Department of Public Works include:

- Transportation Needs Reports (TNR)
- Concurrency Reports
- Transportation Improvement Program (TIP)

**Section 6.1 – Level of Investment**

**Part 6.1a Surface Water Management and Electric Power Level of Service Report**

Minimum level of service (LOS) for surface water management and electric power facilities is expressed in terms of “minimum level of investment” in infrastructure over time. The LOS for surface water management and electric power are included together because they both utilize this measurement, which is summarized in Table 10.

**Table 10. Minimum Level of Investment**

<b>Capital Facility</b>	<b>Minimum Level of Investment Standard</b>	<b>Actual Level of Projected Investment</b>	<b>Comments</b>
Surface Water Management	\$8.35 million should be invested over a 6-year period	\$114 million between 2023 and 2028	The majority of funding is from SWM utility revenues, which are collected from properties and roads. The SWM Six-Year CIP for 2023-2028 assumes a utility rate of \$132.54 per single-family household in 2023 with a 2.8% annual cost adjustment (ACA) each subsequent year.
Electric Power	Approximately \$525 million should be invested over a five-year period	Approximately \$525 million is invested over a five-year period.	This is based on load growth projections, aged-asset replacement, relocation of electrical facilities on public rights-of-way due to widening or Control Zone requirements, and accommodation of new technologies such as Electric Vehicles (EVs). Snohomish PUD tries to level their annual budget by increasing or decreasing asset replacement based on fluctuating capital requirements for load growth due to economic factors.

**Section 6.2- Level of Service**

**Part 6.2a – Surface Transportation Level of Service Report**

The annual concurrency report summarizes the level of service (LOS) of Snohomish County’s arterial road system and the strategies by the Department of Public Works to remedy LOS deficiencies.

***Concurrency Management System***

A review of Snohomish County’s concurrency management system is available on the County’s web site. The web site includes the current 2021 concurrency report, concurrency reports for prior years, and many other documents related to the County’s traffic mitigation and concurrency regulations. The internet address is as follows: <http://snohomishcountywa.gov/888/Traffic-Mitigation-Concurrency>.

***Arterial Unit Status Definitions***

**Arterial Units at Risk of Falling into Arrears**

Arterial units (AU) that are close to being deficient (i.e., 1-2 mph above LOS F urban or LOS D rural) are at risk of falling into arrears. For arterial units meeting these criteria, Public Works monitors the units with travel time and delay studies conducted on an annual or biannual basis.

**Arterial Units in Arrears (AUIA)**

Snohomish County Code defines an Arterial Unit in Arrears (AUIA) as any arterial unit operating, or within six years forecast to operate, below the adopted LOS standard, unless a financial commitment (or strategies) is in place for improvements to remedy the deficiency within six years. The adopted LOS standard for the urban area is LOS E and in the rural area it is LOS C.

**Arterial Units at Ultimate Capacity**

SCC 30.66B.110(1) states, “When the county council determines that excessive expenditure of public funds is not warranted for the purpose of making further improvements on certain arterial units, the county council may designate, by motion, following a public hearing, such arterial unit as being at ultimate capacity.”

The following arterial units are designated at “Ultimate Capacity”:

1. Snohomish-Woodinville Road (AU# 211) – This urban arterial unit was designated at Ultimate Capacity in 1997.
2. 164th Street SW/SE east of Interstate 5 (AU# 218) – This urban arterial unit was designated at Ultimate Capacity in 2007.
3. 164th Street SW west of Interstate 5 (AU# 219) – This urban arterial unit was designated at Ultimate Capacity in 2007.
4. 35<sup>th</sup> Avenue SE corridor from SR 524 to Seattle Hill Rd (AU# 204, 207/336, 337/420) - This corridor consisting of five urban arterial units was designated at Ultimate Capacity in 2022.

**Snohomish County**  
**2023-2028 Capital Improvement Program – Executive Recommended**

---

**Table 11. Summary of Arterial Units at Risk, in Arrears, and Designated as Ultimate Capacity**

Status of Arterial Units	2020	2021
Arterial Units at Risk of Falling into Arrears	12	12
Arterial Units in Arrears	0	0
Arterial Units Designated as Ultimate Capacity*	3	3

\*Table 11 summarizes the status of arterial units as contained in the most recent Annual Concurrency Report, which in 2021 included three AUs designated as Ultimate Capacity. As noted above, the County Council designated five 35<sup>th</sup> Ave SE arterial units as Ultimate Capacity in 2022. Those Ultimate Capacity arterials will be reflected in the 2022 annual report.

**Table 12. Summary of Level of Service (LOS) Status**

	2017	2017*	2018	2019	2020	2021	Percent of 2021 AUs to Total AUs
LOS above screening level**	236	236	236	235	235	229	85.4%
LOS below screening level	37	37	37	37	37	39	14.6%
<b>Total number of arterial units</b>	<b>273</b>	<b>273</b>	<b>273</b>	<b>272</b>	<b>272</b>	<b>268</b>	<b>100%</b>
<b>Breakout of arterial units below screening level</b>							
Monitoring level	15	4	11	15	15	20	7.5%
Operational Analysis level	22	35	26	22	22	19	7.1%
Arterial Units in Arrears	0	0	0	0	0	0	0%
<b>Total below screening level</b>	<b>37</b>	<b>39</b>	<b>37</b>	<b>37</b>	<b>37</b>	<b>39</b>	<b>14.6%</b>

\*The reason there are two reports for 2017 is because in January 2018 DPW decided to change the April 1<sup>st</sup> to March 31<sup>st</sup> timeframe the report had been representing to now represent from January 1<sup>st</sup> to December 31<sup>st</sup> of each year.

\*\*Arterial units above the screening level are those clearly passing the LOS test. Below the screening level, as congestion increases the level of analysis typically goes from monitoring to operational analysis which determines if the arterial units LOS does not meet standards.

**Snohomish County**  
**2023-2028 Capital Improvement Program – Executive Recommended**

---

**Part 6.2b – Park Land and Recreational Facilities Level of Service Report**

**Table 13. Minimum Level of Service Standard (Stated in 2015 CFP)**

Summary Capacity Measure	Unit	Minimum Standard (Population per Unit)
Active Recreation Facilities*	Number	3,250
Passive Recreation Facilities**	Number	3,650
Regional Trail	Open Miles	8,750
Waterfront	Mile	11,500
Campsites	Number	1,050
Parking Spaces	Number	120

\*Active Recreation Facilities include ball fields, sport courts, playgrounds, skate parks, boat launches, mountain biking skills courses, equestrian facilities, racetracks and swimming pools.

\*\*Passive Recreation Facilities include shelters, off-leash dog areas, miles of walking trails (in a park), and community gardens and amphitheaters.

**Table 14. Reported Level of Service**

Summary Capacity Measure	Minimum Standard (Population per Unit)	2022 LOS
Active Recreation Facilities	3,250	3,074
Passive Recreation Facilities	3,650	3,106
Regional Trail	8,750	6,147
Waterfront	11,500	11,102
Campsites	1,050	1,005
Parking Spaces	120	102

Actions Required: None

Comments: The park level of service (LOS) is calculated by dividing the number of residents within unincorporated Snohomish County by the number amenities provided within each of the identified measures. Population figures used for calculation are from the State Office of Financial Management (OFM). The Division of Parks & Recreation is on track to continue meeting the defined LOS for park land and facilities.

## **Chapter VII: Hazard Mitigation Planning**

### **Summary Report**

#### ***Introduction***

Since 2005, Snohomish County and a partnership of local communities, tribes and districts have maintained a hazard mitigation plan (HMP) to reduce future loss of life and destruction of property resulting from disasters. Hazard mitigation is the identification and implementation of short and long-term strategies to reduce loss of life and/or alleviate personal injury and property damage resulting from natural or human caused (technical) disasters. Virtually all the County's capital facilities are susceptible to some type of disaster. Minimizing or reducing the impact of disasters on capital facilities is an intrinsic goal of hazard mitigation planning. This is a primary reason why hazard mitigation is included in the capital facilities plan (CFP).

Snohomish County consistently ranks among the highest number of repetitive flood loss counties in the Federal Emergency Management Agency's (FEMA) Region X. The County and a planning partnership of over 30 municipalities and special purpose districts within the county boundaries embraced the concept of the Disaster Mitigation Act (DMA) and prepared a multi-jurisdictional hazard mitigation plan. The planning area boundary is the Snohomish County boundary, excluding tribes and the cities of Bothell, Everett, and Marysville who maintain their own hazard mitigation plans and emergency management programs. An inventory of the numbers and types of structures was developed using the County Assessor's data and GIS applications. Snohomish County's Hazard Mitigation Plan (HMP) assessed hazard risk, identified impacts, surveyed planning policy and development trends, and identified a list of potential Action Item projects and activities that can mitigate the impacts of hazards before they occur.

#### ***Funding Sources and Adequacy***

The projects identified in the HMP are based on the hazard assessment and input from the participating planning partners and members of the public. These projects are not necessarily part of a work program or improvement plan but do include recommended Action Items related to the County comprehensive plan, capital facilities plan, development regulations, and County policies. The risk reduction projects are individually assessed using a mitigation priority strategy and ranked high, medium, or low based on benefits conferred on the County (or implementing jurisdiction), whether the benefits exceed the costs, whether the project is grant eligible, or whether they can be funded under existing programs or budgets.

The HMP identifies goals and objectives at the county level. Mitigation actions presented in this update are activities designed to reduce or eliminate losses resulting from hazards and can be found in each jurisdiction's annex. Through the update process, the Steering Committee and Planning Team determined that the countywide goals and objectives established effective coordination between jurisdictions and agencies for hazard mitigation actions. These potential projects were further identified as having secured funding or not, and a timeline for implementation (within five years or greater than five years). This level of financial analysis is as far as can be accomplished for potential projects that may or may not have recognized and secured funding. When a project becomes an implementation reality, a further analysis of funding mechanisms (existing budget, grant funds, leveraged project, etc.) would take place.

**Mitigation Goals and Objectives**

The Steering Committee established the goals, and the Planning Team established the objectives for the 2020 HMP.

**Table 16 Mitigation Goals and Objectives**

<b>Goal 1: Reduce hazard and threat-related injury and loss of life.</b>	
<b>Item</b>	<b>Objectives</b>
1.1	Develop and implement policies that integrate hazard and risk information into building codes and land use planning that promote resilient and safe development in high-risk areas.
1.2	Strengthen tools to remove threatened uses in hazardous areas and relocate them where risk reduction measures support development to a tolerable level.
1.3	Reduce the adverse impacts from and leverage the beneficial functions of natural hazards.
1.4	Develop continuity of operations plans and community-based continuity plans to mitigate the impacts of hazards becoming disasters, and support disaster preparedness, response, and recovery.
1.5	Develop, implement, and sustain programs that promote reliable, redundant, and resilient lifeline systems.
<b>Goal 2: Promote resilient communities, resilient economy, sustainable growth, and hazard prevention.</b>	
<b>Item</b>	<b>Objectives</b>
2.1	Provide incentives that support the mitigation of impacts to critical business operations, including small businesses and those located in high-risk areas.
2.2	Increase the resilience of critical services, facilities, and infrastructure through applicable retrofits, sustainable funding programs, and zoning and development changes, and reduce exposure/vulnerability to all hazards.
2.3	Promote the ability of communities to mitigate, prepare for, respond to, and recover from an emergency or disaster through the strengthening of community networks and development of community-based emergency planning (e.g. evacuation zones and routes and micro-infrastructure networks).
<b>Goal 3: Consider equity when enhancing public awareness and community members' ability to mitigate, prepare for, respond to, and recover from a disaster.</b>	
<b>Item</b>	<b>Objectives</b>
3.1	Reduce the adverse impacts of disasters on vulnerable communities.
3.2	Create and enhance equitable public information programs and access to hazard information that promotes actionable preparedness and mitigation measures.
3.3	Identify and prioritize opportunities to increase capacity and redundancy for critical services, facilities and infrastructure to vulnerable communities, with special emphasis on communities that are at risk of isolation.
<b>Goal 4: Make decisions through regional collaboration.</b>	
<b>Item</b>	<b>Objectives</b>
4.1	Support the alignment and integration of the 2020 HMP goals, objectives, and strategies with other planning processes.

4.2	Develop a coordinated incentive programs for eligible entities to adapt to risk through structural and nonstructural measures (e.g., acquisition program for homes or other uses located within high-risk hazard areas).
4.3	Use the best available science when developing new or updating existing plans to prepare for and adapt to climate impacts (e.g., update conservation requirements to minimize impacts of drought).
4.4	Support improved data collection, assessment, analysis, and implementation for all hazards.
4.5	Develop a coordinated flood mitigation strategy that leverages sustainable funding sources for flood control improvements and identifies opportunities for multi-agency collaboration.

***Regulatory Mechanisms Summary***

The HMP is not a regulatory plan, and it is not a federal or state mandate. However, to compete for mitigation grant funds from the federal government to pay for risk reduction projects, a FEMA-approved hazard mitigation plan must be in effect per the federal Disaster Mitigation Act of 2000 (DMA2K). These plans are updated, reviewed by FEMA, and locally adopted every five years.

The DMA2K emphasizes the importance of community hazard mitigation planning before disasters occur and encourages state and local authorities to work together on pre-disaster planning. Snohomish County developed its first Hazard Mitigation Plan in 2005 according to the requirements of the DMA2K and Chapter 44 of the Code of Federal Regulations (44CFR). It was approved by the Federal FEMA Region X in 2005, and locally adopted that same year. It was updated in 2010, 2015, and again in 2020.

While the HMP does not act as a regulatory plan, parts of the HMP document and process can be and are utilized by other County departments in meeting regulatory compliance. For example, the Department of Conservation and Natural Resources (DCNR) uses the HMP Annual Progress Report to comply with the Community Rating System (CRS) Annual Recertification process by submitting it for the required Floodplain Management Plan annual progress report.

The HMP Progress Report parallels the CRS format and lists the Action Items recommended for each mitigation strategy developed in Volume 2 of the HMP. County departments are surveyed once a year on the status of Action Items, along with cities and special districts, and any funding or timeline issues are noted in the survey as well. The CRS recertification process requires that the Annual Progress Report is submitted for review to a governing board and the media. Beginning in 2022, DEM will be submitting a supplemental Report Card with the Annual Progress Report to the County Council and developing an Action Item map to better quantitatively track progress and funding of projects.

***CIP Linkage to Hazard Mitigation Planning***

Identifying and implementing pre-disaster risk reduction activities can minimize the physical, social, and economic impacts to the county when disasters do occur. Building resilience into capital facilities or implementing risk reduction projects on existing capital facilities can strengthen the ability of such facilities to bounce back after disasters, especially as climate change affects hazards over time. The 2015 HMP identified and assessed climate change as a gradually manifesting hazard<sup>2</sup> facing Snohomish County. The 2020 HMP further refined those analyses to incorporate into each of the other hazards both natural and human-caused. Some of the indicators identified over the next 35 to 65 years include cascading impacts from sea level change, increasing severity and frequency of flooding and storms, as well as seasonally early loss of snowpack in the high Cascades, resulting in hotter, drier summers that

increase wildfire hazards. Extreme heat events also affect vulnerable populations at a higher rate, increasing the need for cooling centers, and potentially clean air centers to mitigate the impacts of wildfire smoke.

Factoring in hazard information as new capital facilities are constructed makes financial sense and can alleviate disaster impact costs and reduce time out of service. County facilities also play a key role in disaster response and recovery, and it is important to plan, update, retrofit and build these facilities resilient to the impacts from climate change. As such, ensuring new facilities are resilient, including building to earthquake standards, locating facilities in low-risk areas, and equipping them with resilient infrastructure including communications, power, and water, is an integral part of effective post-disaster response and recovery. Additional mitigation measures can be included to incorporate water and energy conservation and efficiency measures that decreases risk to climate impacts and ensure that facilities operate with maximum efficiency. Snohomish County DEM supports the development of climate change modeling to assess the impacts of climate change on County capital facilities and infrastructure, and to ensure we are planning future facilities in locations with reduced risk.

Lastly, coordinated efforts between other County plans (such as the Capital Facilities Plan, Comprehensive Plan, Continuity of Operations Plans, and Comprehensive Emergency Management Plans) and other planning mechanisms, such as the Growth Management Act, contribute to improvements that maximize facility resilience and utility. Other mitigation measures may include ensuring County facilities meet applicable Firewise programs and, when possible, are incorporated into a community wildfire protection and risk reduction strategy. By incorporating and considering mitigation objectives and Action Items, County projects may also be eligible for hazard mitigation grants.

**Snohomish County  
2023 Budget - Executive Recommended**
**Program Description**
**Fund/Subfund:** 002 / 002 General Fund

**Division:** 100 Executive

**Department:** 01 Executive

**Program:** 310 Administration

**Program Description:**

The Snohomish County Executive Office is comprised of the County Executive, Deputy County Executive, three Executive Directors, Chief of Staff, and other staff members that provide program and project management, policy advice, community outreach, social justice initiative management, economic development management, detailed executive analysis, communications management, and administrative support. The Deputy Executive has full authority and can sign for the Executive in all areas.

**Department:** 01 Executive      **Program:** 410 Economic Development

**Program Description:**

The Tourism Promotion Area (TPA) was established by the lodging industry to generate revenues for tourism promotion and development within Snohomish County. The TPA is intended for tourism related projects that will increase overnight stays in Snohomish County, and to position the County more competitively as a regional and national tourism destination including for conferences and large events. The TPA Advisory Board, which includes countywide representation, selects projects and directs use of funding, with final approval from the County Council. As a self-generating funding source, the TPA assessment has no negative fiscal impact to Snohomish County or cities located within the County. The TPA does not replace or impact city or county lodging tax revenues or the processes in place through which cities and the County utilize their lodging taxes.

**Fund/Subfund:** 116 / 001 Local Hotel/Motel Tax

**Division:** 200 Economic Development

**Department:** 01 Executive

**Program:** 410 Economic Development

**Program Description:**

The county receives a rebate of one-third of the State's share of sales tax on transient lodging sales in unincorporated Snohomish County and in those cities that do not claim the rebate for themselves. Revenues accrue to the Local Hotel/Motel Tax fund (also called the Small Fund) and are allocated to public and non-profit agencies for projects that attract visitors to the county.

The County Council has adopted policies and guidelines for allocating these funds to large regional projects and to investments in tourism assets of regional scope and impact that provide the maximum return on the public investment. The fund will support a diversity of tourism development projects and strive for a good geographic distribution of projects.

**Program Description**

**Fund/Subfund:** 130 / 375 American Rescue Plan Act    **Division:** 200 Economic Development  
**Department:** 01 Executive    **Program:** 311 Office of Recovery

**Program Description:**

Snohomish County Executive Dave Somers established the Office of Recovery & Resilience (ORR) to guide the County's recovery work by ensuring the \$160 million in federal American Rescue Plan Act (ARPA) funds the County received is administered quickly and equitably.

Using federal American Rescue Plan Act funding, Executive Somers is proposing significant investments to address the effects of the pandemic and set Snohomish County on the road to recovery. ARPA investments must comply with at least one of the following categories determined and monitored by the United States Treasury: Support COVID-19 response efforts to continue to decrease spread of the virus; replace lost revenue for governments to strengthen support for vital public services and help retain jobs; support immediate economic stabilization for households and businesses; and address systemic social and economic challenges that contribute to the unequal impact of the pandemic.

ORR's goal is to invest this \$160 million quickly and equitably and make smart allocations with these one-time dollars and avoid creating funding cliffs, whereby programs would have to be cut for lack of sustainable funding. The county is committed to making data and community-driven decisions and constantly evaluating the efficacy of its programs and investments.

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 200 Council

**Department:** 02 Legislative

**Program:** 160 Legislative Svs.

**Program Description:**

Legislative Services are those activities of the County Council that are based on state law, the County Charter, and interlocal agreement. They include: 1) enactment of fiscal and operating policy through ordinances, motions and resolutions; 2) fiscal oversight of administrative and judicial operations to ensure that public services are efficient and economical; 3) land use and growth management policy; and 4) quasi-judicial appeal hearings of developmental proposals.

Activities are carried out through a weekly schedule of public hearings and public meetings of the council on the record; committees of the whole; subcommittees for Finance, Public Works, Law & Justice/Human Services, Operations and Planning and Community Development; individual meetings with citizens and interest groups; and participation in regional and statewide organizations.

Activities based on the County Charter include: 1) operating and capital budget review and adoption; 2) land-use policy and development regulation; 3) contract review and approval; and 4) comprehensive plan adoption.

Ordinance and interlocal agreement based activities include: 1) tourism and economic development; 2) regional transportation program review and planning; 3) public health; 4) mental health; 5) public transit; 6) emergency dispatch and Enhanced 911 communications; and 7) growth management.

Activities based on state statute include: 1) appropriation for state mandated government services; 2) regional transit planning, and 3) state legislature liaison through the Washington State Association of Counties.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 001 Human Services Administrati

**Department:** 04 Human Services

**Program:** 400 Human Services Administrati

**Program Description:**

The Administrative Services Division is responsible for the efficient and effective operation of the department. In addition, this division offers information, advice, and assistance to other County departments and the community at-large.

This division provides administrative services for other divisions within the department. Pooling administrative staff is more cost effective than stationing clerical, fiscal, research and analysis, and technology staff in each division/program. Although all of these services are needed by each program, grant funding restrictions seldom allow us to charge all of the actual costs of these services to the grants. By supporting these costs with County General funds, the County is able to leverage millions of federal and state dollars to support local human services programs.

Most grant funded programs cannot redirect dollars from service provision to administrative costs due to contract limitations. Therefore, reductions in administrative staff would severely limit the effectiveness of our internal controls. Weak controls would create a potential risk for the loss of future funding. Loss of funding would severely impact the lives of low-income and/or disabled Snohomish County residents who depend upon our services to meet their basic needs and/or sustain themselves as independently as possible, resulting in a cost savings of inestimable value. Increased homelessness, institutionalization, crime, incarceration, and substance use would all be potential consequences of the loss of Human Services programs.

The Administrative Services Division indirectly supports the department goals to promote and sustain dignity and independence, regardless of social, health, or economic status, through a responsible and accessible human services network, and to promote safe and healthy communities. In addition, this division supports the department in its goal to provide quality administration and operations by promoting effective and efficient opportunities for good stewardship through:

- \* Quality program specific support services.
- \* Accurate and reliable information and assistance to help others increase their capacity to identify and address community issues.
- \* Efficient and effective operation of the department's computers, computer networking, and office automation decision making.
- \* Compliance with federal, state, local and grantor requirements and generally accepted accounting principles.
- \* Maintenance of a high standard of professionalism, quality administrative support, and excellent customer service.
- \* Development and sustenance of a collaborative and cooperative work environment.
- \* Overall timely processes.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 011 CASA

**Department:** 04 Human Services

**Program:** 730 CASA

**Program Description:**

When children are separated from their families because of abuse or neglect, court appointed special advocates (CASA volunteers) speak up for them. They advocate for their best interests throughout the dependency court process giving them a voice where there would otherwise be silence.

The CASA Program is central to fulfilling society's most fundamental obligation by making sure a qualified, compassionate adult will fight for and protect a child's right to be safe, to be treated with dignity and respect, and to learn and grow in the security of a loving family. The CASA volunteer can make a tremendous difference in the life of a child and the CASA Program is in place to ensure volunteers are well supported and trained throughout the process.

The mission of the CASA Program is to recruit, train and support quality volunteer advocates for the best interests of abused, neglected, and abandoned children involved in the dependency court system. The CASA Program vision is for every child who needs a voice has a CASA to advocate for their best interests, a forever home, and a bright future.

Washington State RCW 13.34.100 mandates the court shall appoint a guardian ad litem (CASA) for children who are the subject of dependency matters; unless a court for good cause finds the appointment unnecessary. At any given time, in Snohomish County there are approximately 800 children in the dependency system who need a guardian ad litem (CASA).

In accordance with RCW 13.34.105, the CASA volunteer is required to investigate, collect relevant information about the child's situation, and report to the court factual information regarding the best interests of the child. Judges rely on CASA volunteers to be their eyes and ears on a child's case.

**Fund/Subfund:** 124 / 004 Affordable Housing Trust      **Division:** 007 Housing & Homeless Services

**Department:** 04 Human Services      **Program:** 462 Housing, Homeless Services

**Program Description:**

The Division of Housing and Community Services' Office of Housing and Community Development (OHCD) and Office of Community and Homeless Services (OHCS) manage locally generated funds, which are administered by the County. These funds are used for the development of affordable housing, and maintenance and operation of shelters and affordable rental housing for low to moderate income households, and housing and services for those experiencing or at-risk of homelessness. The funds are authorized under State law and have required uses to promote affordable housing production, maintaining or operating affordable housing or shelter, and activities to reduce homelessness. OHCD/OCHS administer these funds under the Affordable Housing Trust Fund (AHTF) and Ending Homelessness Program (EHP). Most of these funds are passed through to community based organizations which engage in specific projects to further the goals of each funding source. In addition, AHTF and EHP funds leverage other federal and state dollars.

**Goals and Objectives:**

- \* Increase and optimize Self-Sufficiency through financially supporting capital projects, operating and maintenance activities, and supportive services for low-moderate income and homeless households.
- \* Strengthen and Support Families of low-moderate income households by providing housing and service support from local funding sources.
- \* Enhance Our Physical Environment by use of funds carefully directed to key capital enhancement projects by use of local funds.
- \* Promote Community and Economic Development utilizing CDBG-CV funds by providing a Small Business Relief, Recovery, and Resiliency Grant Program.
- \* Develop Healthy Communities by leveraging other funding and enhancing partnerships to support a network of resources, housing and services.
- \* Increase Healthy Behaviors by leveraging local funding to establish services and linkages to services that promote access to mental health and substance abuse services and other services that promote well-being.

**Program Description**

**Fund/Subfund:** 124 / 005 PSTAA Tax

**Division:** 002 Children's Services

**Department:** 04 Human Services

**Program:** 192 PSTAA Educational Services

**Program Description:**

The Puget Sound Taxpayer Accountability Account (PSTAA) was created as an amendment to the 2015 State Transportation Revenue Package by the Washington State Legislature and is funded by a percentage of sales and use taxes collected from Sound Transit construction projects. PSTAA funds are to be distributed to King, Pierce, and Snohomish counties proportionally based on the population of each county that lives within Sound Transit's jurisdictional boundaries.

Pursuant to RCW 43.79.520, counties may use distributions from the PSTAA account only to improve educational outcomes in early learning, K-12, and higher education including, but not limited to, for facilities and programs for children and youth that are low-income, homeless, or in foster care, or other vulnerable populations; and to start endowments to provide support for improving educational outcomes in early learning, K-12, and higher education.

Snohomish County Human Services has been designated to manage interlocal agreements with the six (6) school districts and three (3) institutions of higher education to design and implement programs and projects consistent with the intent of and requirements related to PSTAA funds.

**Goals and Objectives:**

- \* Increase early learning outcomes related to child development: social emotional, physical, language, literacy, and math.
- \* Increase early learning outcomes related to family engagement.
- \* Increase early learning outcomes related to racial equity.
- \* Increase educational outcomes for higher education related to access, retention and completion

**Fund/Subfund:** 124 / 006 Affdbl & Spprt Hsng Sales T **Division:** 007 Housing & Homeless Services  
**Department:** 04 Human Services **Program:** 463 A&SH Sales Tax

**Program Description:**

Chapter 338, Laws of 2019 imposed a sales and use tax which is a tax credit to Snohomish County from a portion that would otherwise be collected or paid to the Department of Revenue. The funds may be used for acquiring, rehabilitation or constructing of new units of affordable housing or supportive housing, and funding the operations and maintenance costs of new units of affordable or supportive housing. Snohomish County Ordinance 19-062 created the Affordable and Supportive Housing Sales Tax Credit Fund and added Chapter 4.122 to SCC.

Revenue for this fund started collecting in December 2019. Funds collected will be allocated consistent with the Snohomish County Housing Affordability Regional Task Force (HART) Plan published January 2020 or as amended. In 2019, the Snohomish County Executive created the HART to bring together elected leaders from cities and towns across the county. These leaders meet numerous times to assess needs for housing affordability and develop a plan to address the needs and challenges collaboratively and proactively. The A& SH Sales Tax, anticipated to leverage other federal, state, or local funds, will support implementation of the HART Plan.

The HART Action Plan is based on five framework goals:

- \* Promote greater housing growth and diversity of housing types and all levels of affordability and improve jobs/housing connection.
- \* Identify and preserve existing housing at risk of rapid rent escalation or redevelopment balancing this with the need for more density.
- \* Increase housing density on transit corridors and/or in job centers, while also working to create additional housing across the entire county.
- \* Implement outreach and education program for use countywide and by individual jurisdictions to raise awareness of housing affordability challenges and support for action.
- \* Track progress and support ongoing regional collaborations

**Program:** 730 CASA

**Program Description:**

When children are separated from their families because of abuse or neglect, court appointed special advocates (CASA volunteers) speak up for them. They advocate for their best interests throughout the dependency court process giving them a voice where there would otherwise be silence.

The CASA Program is central to fulfilling society's most fundamental obligation by making sure a qualified, compassionate adult will fight for and protect a child's right to be safe, to be treated with dignity and respect, and to learn and grow in the security of a loving family. The CASA volunteer can make a tremendous difference in the life of a child and the CASA Program is in place to ensure volunteers are well supported and trained throughout the process.

The mission of the CASA Program is to recruit, train and support quality volunteer advocates for the best interests of abused, neglected, and abandoned children involved in the dependency court system. The CASA Program vision is for every child who needs a voice has a CASA to advocate for their best interests, a forever home, and a bright future.

Washington State RCW 13.34.100 mandates the court shall appoint a guardian ad litem (CASA) for children who are the subject of dependency matters; unless a court for good cause finds the appointment unnecessary. At any given time, in Snohomish County there are approximately 800 children in the dependency system who need a guardian ad litem (CASA).

In accordance with RCW 13.34.105, the CASA volunteer is required to investigate, collect relevant information about the child's situation, and report to the court factual information regarding the best interests of the child. Judges rely on CASA volunteers to be their eyes and ears on a child's case.

**Fund/Subfund:** 124 / 009 Afford. Hsing. & BH Sales T **Division:** 007 Housing & Homeless Services

**Department:** 04 Human Services **Program:** 465 Afford Hsing & BH Program

**Program Description:**

Chapter 220, Laws of 2020 allowed councilmanic action to impose a sales and use tax of up to one-tenth of one percent for affordable housing and behavioral health facilities and related services. On December 16, 2021, the Snohomish County Council passed Ordinance 21-098 authorizing a sales and use tax for affordable housing, behavioral health facilities, related services and providing for administration of the tax and added to Title 4 of the Snohomish County Code a new chapter, 4.126. Revenues collected are deposited into the affordable housing and behavioral health program fund SCC 4.126.040. The Director of the Human Services Department is the fund manager.

The funds may be used for construction and acquisition of affordable housing including emergency, transitional or and supportive housing; facilities providing housing related services; acquiring land for these purposes; construction or acquisition of behavioral health related facilities or land for that purpose, and funding operations and maintenance costs of new affordable housing, facilities for housing related services or newly constructed evaluation and treatment centers.

Funds collected will be allocated consistent with the Snohomish County 1590 Business Plan. A draft plan was developed December 2020 addressing challenges identified by local elected officials and goals/strategies identified by the Housing Affordability Regional Task Force (HART) Plan and the North Sound Behavioral Health Administrative Services Organization. A final 1590 Business Plan will be submitted to County Council fall of 2022 for approval following a current process underway to gather comments on the draft plan from various community partners, residents, and elected officials.

The HART Action Plan is based on five framework goals:

- \* Promote greater housing growth and diversity of housing types and all levels of affordability and improve jobs/housing connection
- \* Identify and preserve existing housing at risk of rapid rent escalation or redevelopment balancing this with the need for more density
- \* Increase housing density on transit corridors and/or in job centers, while also working to create additional housing across the entire county
- \* Implement outreach and education program for use countywide and by individual jurisdictions to raise awareness of housing affordability challenges and support for action
- \* Track progress and support ongoing regional collaborations

The North Sound Behavioral Health Administrative Services Organization

- \* Fully operationalize the HCA-NSBH-NSO contract
- \* Support continuous improvement of the Crisis Services System
- \* Effectively manage other non-Medicaid funded programs
- \* Support regional planning for behavioral health services
- \* Support advocacy for funding and strategies to meet the behavioral health needs of all at-risk north Sound persons

1590 Strategic Commitments:

- \* Data-informed iterative use of quantitative data, including feedback from people with lived experience, to drive investments
- \* Fiscally Responsible in use of funds in conformance with HB 1590 requirements while maximizing

Federal funds are passed through the Washington State Department of Commerce (COM) to Snohomish County as a designated Community Action Agency for the expressed purpose of ameliorating the causes and/or symptoms of poverty. The goal of the Community Services Block Grant (CSBG) is to enhance self-sufficiency among low-income families by providing coordination and linkages to increase access to services and resources that address critical needs, as identified in the Human Service Department's Community Needs Assessment (CNA). These include: housing, food and other basic needs, domestic violence, legal assistance, employment support, medical and dental care, mental health including substance use disorder, child care assistance and early learning services. Any funding recommendations are made through the Community Services Advisory Council, as required by federal legislation, and are subcontracted with qualified local agencies.

**Goals and Objectives:**

- \* Distribute and inform community members on the results of the CNA.
- \* Support, and fund as resources are available, services and interventions that address identified need(s) from the HSD's CNA.
- \* Develop linkages with other programs and local communities to improve access to self-sufficiency services.
- \* Coordinate with other community and county-based groups to achieve a more comprehensive approach to addressing poverty countywide.
- \* Work to educate the community around poverty related issues and advocate for those living in, and impacted by, poverty in Snohomish County.

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Program Description**

**Fund/Subfund:** 124 / 124 Human Services Fund

**Division:** 002 Children's Services

**Department:** 04 Human Services

**Program:** 116 Family Support Services

**Program Description:**

The County supports six Family Support Centers (FSCs) and two family services programs in Snohomish County. FSCs provide a single community-based resource for families living in poverty, facing crisis, struggling with increasing housing costs, who may be stymied by the complex systems they need to access for assistance. FSCs are the first point of contact made by many families under stress and are seen as the information center and access point to local services as they try to address their needs. In many ways, the FSCs are functioning as local "triage" sites assisting their participants with job applications; providing food and clothing; advocating for family members in need; and providing support in accessing housing, behavioral health services, and mainstream services, such as DSHS and WorkSource. Lastly, the centers are providing access to free or affordable social and recreational activities for all family members.

Planning for a new FSC certification began in June 2018 and was implemented in 2019. The existing FSCs applied and went through the certification process with recommendations for approval for certifications being put forth in early 2020. The final step in approving certification was delayed due to the pandemic and will be completed in 2021. There are two family service programs, Lake Stevens (operated by Volunteers of America) and Linc NW (serving the Marysville area), that are expected to complete the process in 2022-2023. The certification process includes: Threshold eligibility review for minimum requirements; review of 25 FSC quality standards in five sections (Family Centeredness, Family Strengthening, Embracing Diversity, Community Building, and Evaluation); site visits to review the applicant's ability to meet standards, a Certification Review Committee to make recommendations for certification and the final approval. The request for support includes the FSCs that have completed and those expected to complete and receive certification by the end of 2022 to be eligible to receive FSC funding.

Funding from Snohomish County establishes the base funding by paying for space (rent, utilities, phone, etc.), general operating costs (postage, supplies, childcare, etc.), and staff salaries (program coordinator, etc.) in six FSCs throughout the County, including: Sky Valley Community Resource Center; Stanwood Camano Community Resource Center; Familias Unidas Community Resource Center; Darrington Family Community Resource Center; and Arlington Community Resource Center. Take the Next Step is currently awaiting their site visit (final stage prior to certification). It is expected this site will complete the certification process by the end of Summer 2022. The Lake Stevens family services recently passed the threshold review successfully and is now in the process of developing their portfolio as the second stage of the certification process. Once the portfolio is complete, it will be shared with the network for review. It is anticipated this review will be completed in Fall 2022 with potential to finalize the certification process in Winter 2022.

The FSCs continues to play a critical focal point for community members during an emergency or disaster. The Darrington FSC and Arlington FSC continue to offer a "homebase" of sorts for families looking for support since the SR530 Flooding and Slide Incident. They provided a safe haven for families and individuals seeking assistance and support, and they provided space for other service providers to offer assistance to those in need. This demonstrates both the need and success of having FSCs embedded in communities to meet the everyday needs of families and to be a hub for times of great stress that communities might experience.

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Program Description**

**Fund/Subfund:** 124 / 124 Human Services Fund

**Division:** 002 Children's Services

**Department:** 04 Human Services

**Program:** 116 Family Support Services

The County helped to establish these centers to decentralize services from the urban core in Everett and along the I-5 corridor to foster a stronger sense of "community" locally. Family Support Centers bring services to the community. They are especially helpful in rural areas where transportation is a significant barrier to services. FSCs are guided by ten principles that direct centers to be responsive to community needs, inclusive to all members, and dedicated to reducing barriers to service access, such as no income or other eligibility criteria. Community members can access services without being categorized or labeled.

Funding FSCs directly addresses one of the Department's goals to promote raising cultural awareness and fostering acceptance in the communities we serve.

**Goals and Objectives:**

- \* To provide access to basic needs and critical human services.
- \* To function as a conduit for citizens to meet about issues identified as critical and where they might find services to meet that need.
- \* To serve as the catalyst in the promotion and celebration of diversity.
- \* To raise the awareness about safety measures in the community at a grassroots level.
- \* To nurture a sense of belonging in the community where each center is located in as demonstrated by involvement in Center activities and partnerships with other local agencies.
- \* To serve as a contact point for private and public entities to interact directly with citizens from a specific geographic area of the County.

**Program Description**

**Fund/Subfund:** 124 / 124 Human Services Fund

**Division:** 002 Children's Services

**Department:** 04 Human Services

**Program:** 194 ECEAP Operations

**Program Description:**

This program provides funding, training, technical assistance, support, and monitoring to assist Early Childhood Education and Assistance Program (ECEAP) subcontractors to implement a comprehensive preschool program, in partnership with families, that prepares low-income children in Snohomish County to succeed in school, and to implement family-driven support services that promote increased family economic stability and well-being. This program serves at least 1,500 children and their families.

**Goals and Objectives:**

- \* Deepen the quality of Family Support Services to:
  - \* Provide coaching to support families to assess strengths and areas for growth, and to identify and achieve SMART goals towards increased financial stability and well-being;
  - \* Expand knowledge and focus upon family stability and its connection to child outcomes;
  - \* Incorporate trauma informed practices; and
  - \* Ensure services and systems are equitable.
- \* Strengthen parent engagement and leadership.
- \* Strengthen program services, environments and systems to foster increased equitable services for children, families and staff.
- \* Improve the quality of children's educational experiences:
  - \* Deepen and implement whole-program policies and practices to improve child guidance and strengthen positive behavior supports provided to children and families.
  - \* Increase strategies related to dual language learners, integrated math instruction and activities, and the cycle of assessment, effective planning, and individual instruction.
  - \* Develop and implement a comprehensive and intentional plan and related systems for orienting and training new teachers, family support, and program managers.
  - \* Ensure services and systems are equitable.
- \* Enhance health services.
- \* Enhance nutrition services

**Program:** 198 Early Head Start Ops

**Program Description:**

Early Head Start provides home-based, family-centered services for low-income families with children age birth to 3 years, and for low-income pregnant women. Program services promote healthy child development through strong, positive, parent-child relationships. Services also support families to increase economic stability and well-being. The program serves at least 82 pregnant women, infants, toddlers, and their families who live in the Arlington, Granite Falls, Marysville, and Sultan communities.

**Goals and Objectives:**

- \* Improve the children's health and nutrition. Including medical and dental;
- \* Support the physical, social-emotional, cognitive, and language development of each child;
- \* Support pregnant women to have safe and healthy pregnancies and deliveries;
- \* Support increased parent understanding of their child's development;
- \* Support the development of strong, healthy, parent-child relationships;
- \* Strengthen program services and processes to foster increased equitable services for children, families, and staff;
- \* Support parents to increase their capacity to advocate on their child's behalf;
- \* Partner with families to access and utilize community services and resources;
- \* Provide coaching to assist families to assess strengths and areas for growth and to identify and achieve SMART goals towards increased economic stability and well-being;
- \* Connect families with children who have suspected disabilities to early intervention services and assist parents of children with disabilities to understand their child's special needs and interests and to fully access and utilize related community supports;
- \* Facilitate parents' role as the first and best teacher of their child; and
- \* Collect and evaluate assessment data related to children's development and family well-being to determine program goals and services.

**Fund/Subfund:** 124 / 124 Human Services Fund

**Division:** 003 Aging

**Department:** 04 Human Services

**Program:** 511 Aging Administration

**Program Description:**

The County Human Services Department's Long Term Care & Aging (LTCA), as the designated Area Agency on Aging, develops, administers and manages a network of aging programs/services which enable older and functionally disabled adults to live with dignity, independence, and in the least restrictive and most cost-effective setting for them, their families and community. Two important goals are, through our network of aging service providers, to 1) maintain or enhance home- and community-based and other supportive services that enable older persons to be actively involved in the community and contribute to the quality of life, and, thereby 2) postpone / avoid the need for more expensive institutional care,

This office supports the Department outcome to enhance services that help older people and younger adults with disabilities function independently.

**Goals and Objectives:**

- \* Provide advocacy and leadership to older persons and persons with disabilities and service providers to create a service system which enables older persons and persons with disabilities to remain living as independently as possible.
- \* Implement the 2020-2023 Area Plan.
- \* Provide staff support to the Council on Aging (CoA) as they advocate their legislative priorities to the State Legislature and to Congress. Mandated by the Older Americans Act the role of the all-volunteer member CoA is to advise the Agency on Aging related to the development of the area plan, the administration of the plan and operations conducted under the plan.
- \* Support the development and/or enhancement of a network of services to assist unpaid family caregivers.
- \* Assist one-half to two-thirds of the 171,000 Snohomish County residents age 60+.
- \* Manage over 60 service contracts with community-based agencies which directly serve over 65,000 older adults to access services to maintain their independence and contribute to the well-being of their community.
- \* Support the Medicaid Transformation Demonstration (MTD) program. Launched as a pilot demonstration in 2017, MTD is a collaborative 1115 waiver program with the federal government to explore innovative approaches to providing care. Tailored Supports for Older Adults (TSOA) and Medicaid Alternative Care (MAC) are two options of MTD and provide supports to help keep individuals in their home and out of a nursing home, assisted living, or long-term care facility. The eligible person needing care may live alone or live with an unpaid caregiver/helper. MTD can also provide supports to these unpaid caregivers/helpers, providing supports to help them continue to provide care, while also focusing on their own health and well-being. TSOA and MAC are free to participate in without recovery or penalty. LTCA performs both intake and initial case coordination for MTD. Homage and Stilly Valley Center are contracted for ongoing case coordination.
- \* Snohomish County ARP Act funds were used to provide additional financial support of the Stabilized Housing for Vulnerable Seniors program (Hope Options) administered by Everett Housing Authority. Funds awarded were used to provide additional staff time and flex funds to help vulnerable older adults with mental or behavioral health issues to locate and maintain stable housing.
- \* Snohomish County ARP Act funds were awarded to Homage Senior Services to provide Short Term Counseling services as well as a Black Community Outreach Program. Staff connected with individuals seeking information about vaccines, medical and mental health, and community resources during the

**Program:** 520 Aging Services Programs

**Program Description:**

This program accounts for those programs funded with County General Revenues and subcontracted to local service providers, including:

- \* Aging and Disabilities Network (ADRN) - a subcontracted service and the publicly recognized access point for individuals with disabilities or chronic illness into the Aging and Disability Network Services;
- \* Adult Day Care/Health (ADC/H) - an inclusive, structured group program that provides a variety of health, social and related support services to eligible older adults and developmentally disabled adults who do not require 24-hour institutional care, and yet are not capable of full-time independent living;
- \* Home Delivered Meals (HDM) - provides nutritious meals and other nutrition services such as nutrition counseling and education to older persons who are homebound by reason of illness, an incapacitating disability, or are otherwise isolated and are unable to prepare a nutritious meal on their own;
- \* Retired Senior Volunteer Program (RSVP) - provides meaningful opportunities for volunteers age 55 and over to serve in public or private non-profit organizations on a regular basis; and
- \* Kinship Caregiver Support Program (KCSP) - Supports kinship caregivers (grandparents and other relatives) who are at risk of being unable to maintain the caregiving role without additional financial support at the time a kin child comes to live with their relatives, as well as after the initial period. The KCSP funds are provided for authorized services or items to support children within kinship families. Homage performs intake and case coordination for KCSP and makes referrals to the Long-Term Care & Aging (LTCA) Division for vouchers or for purchase pre-approval.

**Fund/Subfund:** 124 / 124 Human Services Fund

**Division:** 003 Aging

**Department:** 04 Human Services

**Program:** 541 Transportation

**Program Description:**

Transportation Assistance Program (TAP) is a subcontracted service that provides rural para-transit services to qualified older adults and people with disabilities within Snohomish County who are not served by Everett Para Transit or Community Transit DART Paratransit service. This service is provided by Homage Senior Services. TAP provides transportation for qualified persons between their homes and social services, medical appointments, places of employment, essential shopping, recreation, and transfers to Everett Para Transit or Community Transit DART service.

Snohomish County has participated since 1992 in TAP. Funding comes from the County Road Fund, which is used as matching funds for federal and state grants obtained by Homage Senior Services.

Management of this program was transferred from Public Works to the Human Services Department in 2007.

Due to severe state budget cuts, TAP reduced its number of routes from 12 to 6 in July 2009. Medically-related trips were further reduced in 2012 due to changes in adult day health and Medicaid, resulting in approximately 50% less trips in this category. TAP continues to operate 6 routes, with the buses usually filled to capacity and many repeat riders relying regularly on the program to reach jobs or kidney dialysis.

TAP continued to operate as described since the pandemic, however the program has experienced reduced ridership. TAP helped to supplement drivers for the Meals on Wheels and emergency COVID-19 meal delivery services. In 2020 TAP provided approximately 9,500 one-way passenger trips to medical services, places of employment, shopping, and recreational events. During the first quarter of 2020, 749 rides to adult day health centers and 669 rides to ethnic meal sites were also provided. In 2021, TAP provided over 17,000 one-way passenger trips.

Goals and Objectives:

\* Optimize funding to maximize passenger trips.

**Staffing Resources:****Financial Resources - Expenditures:**

**Fund/Subfund:** 124 / 124 Human Services Fund

**Division:** 003 Aging

**Department:** 04 Human Services

**Program:** 543 Case Management

**Program Description:**

The Case Management Program maintains and enhances the ability of approximately 3,850 low income adults to live independently in spite of disabling illness or injuries. Individuals who would otherwise require placement in a care facility can safely have their care needs met while remaining in their own homes. Quality of life is improved and the cost of Medicaid funded long term care is reduced. Program data for 2020 shows that far less than one percent of Case Management clients (approximately 2 out of every 1000 individuals) who receive services are placed in a Nursing Facility, a high level of success. Keeping people at home for as long as possible not only honors the residential setting preferred by most Americans aged 45 and older (as noted by research performed by AARP), it is also fiscally responsible.

As the general population ages, the need for aging-related programs and services will expand dramatically. As of April 1, 2020, there were an estimated 184,569 persons age 60 and over in Snohomish County. Currently, those age 60+ comprise 22.2% of the Snohomish County population. In 2025, it is anticipated that 24.1% of the population (216,732) will be age 60 and over. The proportion of the population 60 and older is anticipated to grow to 27.7% by 2040. As the need for long term care services increases with an aging population, safe and effective in-home care options will cost taxpayers far less than the alternative - nursing home care.

**Goals and Objectives:**

\* 48 Case Managers and 3 Registered Nurses make home visits and phone calls to assess care needs and determine eligibility for in-home services for approximately 3,850 older and disabled Snohomish County residents; 19 Case Managers are bilingual and able to communicate with clients in 14 languages including Amharic, Arabic, Cambodian, Farsi, German, Ilocano, Japanese, Korean, Russian, Spanish, Swahili, Tagalog, Ukrainian, and Vietnamese.

\* Individual plans of care are implemented, authorized and monitored, including Medicaid funded personal care services like bathing, toileting and assistance with medication administration as well as a broad array of community based services like home delivered meals, wheelchair ramps, essential medical supplies and equipment, nutritional counseling, training in independent living skills, Adult Day Health services and a personal emergency response system.

\* Approximately 45 Registered Nurse home visits, 227 file reviews, and 2834 consultations were provided in 2020. There were 759 clients who received Nursing Services in 2020. There were not as many Home Visits due to the COVID-19 Pandemic. Most services were provided telephonically except for emergent situations.

\* The program contracts with a variety of individuals and care provider agencies to support client choice and maintain comprehensive networks of community-based services. In an average month, staff generate over 1,300 home care agency payment authorizations, and over 2,550 independent caregiver payment authorizations to serve program clients.

**Program:** 593 Senior Center Operations

**Program Description:**

Senior Centers provide facilities, management and coordination of a range of services available in local communities to senior citizens. Senior Center Operations provide attendees, age 55 and older, a place to meet, socialize, receive services and participate in activities that enhance their dignity and support their involvement in the life and affairs of the community. Snohomish County Senior Centers include: Lincoln Hill Retirement Community (Stanwood), Stilly Valley Center (Arlington), Monroe Community and Senior Center, Edmonds Waterfront Center, Northshore Senior Center (Bothell/Mill Creek), Snohomish Senior Center, Ken Baxter Senior Center (Marysville), Mountlake Terrace Seniors, Lake Stevens Senior Center, Cascade Seniors (Darrington), the Multicultural Senior Center (Lynnwood) that serves the Chinese, Korean, Southeast Asian, Filipino, and Hispanic elderly, Lynnwood Senior Center, Carl Gipson Senior Center (Everett), and Mukilteo Senior Center.

Included in the programming each center offers, at a minimum, the following services and supports: Information and Referral, Congregate Meal Program, Health Screening, Socialization, Recreation, Legal Services, Assistance with Income Tax Returns, and Senior Health Insurance Benefits Advisors (SHIBA).

In early 2020, senior centers closed their doors to the public due to COVID-19. Centers ramped up their meal programs by providing pick-up and delivery of sack lunches to the community. Some centers were able to provide essential transportation services to community members as well as pick up of groceries and prescriptions for home-bound members. Some centers also rolled out online programming (or enhanced programming) to help connect seniors to recreational activities, book clubs, etc.

Snohomish County CARES Act funds were awarded to participating senior centers to provide Telephonic Benefit Assistance services to senior center members and the community. Senior Center staff and/or volunteers engaged telephonically with willing individuals to provide wellness checks and share friendly dialogue, as many people were facing loneliness and isolation, and connect individuals with long term services and supports as needed.

**Program:** 118 Community Information Line

**Program Description:**

North Sound 2-1-1 (formerly Community Information Line) provides information and referral services through a call center to citizens seeking social and human services. It also provides maintenance, quality control and retention of centralized data.

North Sound 2-1-1 links all aspects of our community (business, government, schools, libraries, and human services agencies) in the North Sound 2-1-1 data bank. This information is routinely updated to assure its accuracy. This service benefits everyone community-wide. As part of the national 2-1-1 network, information about available resources in other parts of the country is also available aiding family members across the country.

North Sound 2-1-1 is a designated participant in federal and state emergency response systems locally. It is the designated communication system for victims of a disaster to learn about FEMA services available and other critical services needed during the time of a disaster.

Funds are core funding for the North Sound 2-1-1 operated by Volunteers of America. This service was developed in response to requests from the county, the private sector, and social service agencies to maintain and manage accurate information about human services available in the county and region including but not limited to rent and mortgage assistance, mental and behavioral health assistance, substance abuse intervention and treatment and basic needs such as food, clothing and transportation. This funding has more value than monetary as it demonstrates local support thereby leveraging funds from the state, federal and grant sources.

**Goals and Objectives:**

- \* Provide accurate and timely information to Snohomish County residents about community and human services resources.
- \* Maintain a centralized data bank of accurate information on community resources that is accessible by telephone, through a printed document, or through the "Community Key," an on-site computer system.
- \* Be an active affiliate of the regional and national 2-1-1 network to provide human service information and referral services in a time of personal need or during a disaster.

**Program:** 210 Energy Administration

**Program Description:**

The Energy Assistance Program provides Snohomish County low-income households with resources to help heat and cool their homes. Pandemic funding allows a new program that provides assistance for past due water and sewer services. This program provides direct support to clients, such as eligibility and benefits determination, outreach, information and referral, and informational materials about the Energy Assistance Program.

**Goals and Objectives:**

\* In compliance with all federal, state, and local laws, provide heating fuel assistance and energy conservation education to the number of eligible low-income households specified in energy grants, an actual 3,901 total households were served by the four Energy Assistance Program components (LIHEAP, LIHWAP, PSE LIP, CNG WEAFF) during the 2021/2022 season. These figures are the actual service rate from the Low-Income Home Energy Assistance Program (LIHEAP), Low-Income Household Water Assistance Program (LIHWAP), and CNG and PSE funding levels in 2021/2022. The new heating season begins October 2022 for LIHEAP, LIHWAP, and CNG WEAFF and September 2022 for PSE LIP, and is expected to run through September 30, 2023 for LIHEAP, LIHWAP, PSE LIP, and CNG WEAFF.

\* The LIHEAP funding also provides Rental Assistance to qualifying families through a partnership with Volunteers of America.

\* The LIHEAP funding also provides Crisis Assistance for families with a past due balances/arrearages.

\* The LIHEAP funding also provides portable air conditioners for families who need them.

**Program:** 360 Veterans Relief

**Program Description:**

RCW 73.08 mandates that counties establish a Veterans Assistance Fund to aid indigent and low income Veterans. This program fulfills this requirement through the provision of emergency vouchers for rent, food, utilities, transportation, medical and burial to indigent Veterans and their eligible family members annually as well as housing resources. The program also provides outreach and referral activities to community services in Snohomish County. Staff are on target to provide approximately 7,000 Veterans Service Officer sessions in 2022.

**Goals and Objectives:**

- \*To provide effective emergency assistance, advocacy, information and/or referral to all eligible Snohomish County Veterans.
- \*Partner in providing housing services and support for homeless veterans and veterans at imminent risk of homelessness.
- \*To assist Veterans in receiving State and Federal benefits to which they are entitled by filing VA claims for individual veterans who reside in Snohomish County.
- \*Provide specialized Veterans Service Officer services to Snohomish County Veterans.
- \*Spearhead a coordinated system of care for Snohomish County Veterans.

**Program:** 411 Mental Health Administration

**Program Description:**

The Behavioral Health unit provides leadership to the community in establishing responsive and appropriate behavioral health services to individuals with major mental illnesses, substance use disorders, and to persons in crisis. The unit administers and monitors contracts with community behavioral health providers and coordinates with the North Sound Associated Service Organization (NS-ASO). This unit is responsible for planning and community organizing to ensure that areas of unmet need are addressed as well as providing some direct services. The unit employs staff who administer various behavioral health programs as well as staff who provide direct behavioral health related services to our citizens most in need.

**Goals and Objectives:**

- \* Initiate system improvements through contracts and amendments.
- \* Coordinate processes related to the development of community behavioral health programs.
- \* Represent Snohomish County interests in regional planning/contracting efforts.
- \* Coordinate processes related to the implementation of the 1/10th of 1% Sales Tax and subsequent programs.
- \* Collaborate with judicial partners including Corrections and local law enforcement agencies.
- \* Provide direct behavioral health services.

**Program:** 471 Involuntary Treatment Admin

**Program Description:**

The Behavioral Health Involuntary Treatment Program implements and coordinates the administration of the Behavioral Health Involuntary Treatment State law for adults, RCW 71.05 and for juveniles, RCW 71.34. Individuals who suffer from an acute behavioral health disorder and, as a result, present as an imminent danger to self, others, property or are gravely disabled may be involuntarily admitted to a psychiatric evaluation and treatment facility or secured detox program. Effective July 2019, this program also provides voluntary crisis outreach services. Both programs operate 24/7.

**Goals and Objectives:**

\*~~T~~Comply with state law in the administration of involuntary treatment services for individuals experiencing a behavioral health crisis and provide voluntary crisis outreach services for individuals able to benefit from a less restrictive alternative than detention.

\* Provide prompt evaluations determining if voluntary or involuntary services are most appropriate and then linking individuals suffering from mental illness or substance use disorder to treatment while protecting public safety.

**Program:** 472 Resource Management

**Program Description:**

The Quality and Resource Management Program advocates for mental health services for persons with serious behavioral health issues. Mental Health Community Support Specialists provide various services in our community: they provide linkages between jails and community-based treatment for adults and youth, they work in our community educating and assisting individuals in accessing care. The Social Services Workers are embedded with Monroe and Arlington Police Departments assisting homeless individuals in accessing behavioral health services as well as working with community entities who are also committed to working with persons who are unsheltered and have behavioral health needs.

**Goals and Objectives:**

- \* Provide transition services for incarcerated individuals with severe mental illnesses.
- \* Connect with homeless individuals with behavioral health issues and work to connect them to community-based or residential treatment services followed by sustainable housing.
- \* Reduce the number of individuals with serious mental illness from further involvement with the criminal justice system.
- \* Assure that individuals are able to access their mental health and substance use disorder benefits through their insurance provider.

These goals and objectives support the Department outcomes to:

- \* Sustain people with major mental illness and other behavioral health issues in the community close to their homes.

**Program:** 811 Dev Dis Program Admin

**Program Description:**

It is the mission of Developmental Disabilities to administer, coordinate, plan and contract for services for children and adults with developmental disabilities in Snohomish County.

**Goals and Objectives of the Program:**

- \* To develop and implement programs and contracts that provide direct services and support for approximately 2,000 individuals with developmental disabilities, following the direction established by a community planning process.
- \* To implement and coordinate employment support services for approximately 900 adults age twenty-one and older, to access community based employment and community inclusion providing individuals increased access to their community.
- \* To support individuals in their transition to community work/life and connect to community resources for up to 100 graduates from local special education high school programs.
- \* To support implementation of critical early intervention services for approximately 2,300 children age birth to three years of age that have developmental delays, and their families, per month.
- \* To establish community action grants that support positive change and access to information for individuals with developmental disabilities and their families guided by the community plan and regular community forums.
- \* To develop, implement, support and monitor for success approximately 35 subcontractors who utilize county/state/federal funds to facilitate successful community inclusion and employment for adults, critical early intervention services for children with developmental disabilities, information and education efforts, and support to their families as the primary caregivers.
- \* To develop and implement a comprehensive information and education initiative as a service to the community at large, including families, school districts, businesses and other civic groups.
- \* To provide ongoing support and leadership to community planning, resource development, and other activities through the Citizen Advisory Board for Developmental Disabilities.

These goals and objectives support the Department outcome to:

- \* Develop and promote inclusive communities and equitable systems in which individuals with developmental disabilities can fully access, contribute, and participate in their community.

**Program Description**

**Fund/Subfund:** 124 / 124 Human Services Fund

**Division:** 005 Mental Health/Dev Dis

**Department:** 04 Human Services

**Program:** 851 Infant Toddler Early Intervent

**Program Description:**

The Developmental Disabilities program is the designated County Local Lead Agency (LLA) for the state's Early Support for Infants and Toddlers Program (ESIT), funded by the federal Individuals with Disabilities Education Act (IDEA). This federal grant program assists states in operating a comprehensive program for early intervention services for infants and toddlers with disabilities, from birth through age 2 years.

**Goals and Objectives:**

- \* Provide leadership and assure that local early intervention services are coordinated in a manner that meets the developmental needs of each eligible child and the needs of the family related to enhancing each child's development.
- \* To implement and coordinate critical early intervention services monthly for approximately 2,300 children age birth to three years of age that have developmental delays and their families.
- \* Identify, account for, and coordinate all state and federal Part C (IDEA) funds on behalf of eligible children and families.
- \* Develop formal working agreements and partnerships with all early intervention providers and local school districts, on behalf of the eligible children and families.
- \* Assure that each child/family is linked to a Family Resources Coordinator (FRC) and has an Individual Family Services Plan (IFSP) that identifies and arranges for the services needed by each child.
- \* Assure the formal transition of the child/family to their local school district at age three, through a formal transition plan at least 90 days prior to the child's 3rd birthday.
- \* Assure that services are family centered and are delivered in natural environments, by providing training and technical assistance as needed.
- \* Assure community and family involvement in the design of the local service system through regular public meetings of the local Family Interagency Coordinating Council (FICC).
- \* Strengthen program services, environments, and systems to foster increased equitable services for children, families, and staff.

These goals and objectives support the Department outcome to:

- \* Increase the capacity of individuals with developmental disabilities and their families to receive the

**Fund/Subfund:** 124 / 124 Human Services Fund**Division:** 007 Housing & Homeless Services**Department:** 04 Human Services**Program:** 461 Housing, Homeless, Comm D**Program Description:**

The Division of Housing and Community Services (HCS) includes the Office of Housing and Community Development (OHCD) and the Office of Community and Homeless Services (OCHS) which manage federal, state and locally generated funds that are administered by the County for the following purposes: 1) development, operations and maintenance of affordable housing, rental assistance and housing services, and various supportive services for homeless and low- and moderate-income households, and 2) public facilities and infrastructure projects to develop or provide improvements in low- and moderate-income neighborhoods. Most of these funds are passed through to community based organizations or local municipalities who engage in specific projects to further the goals of each funding source. This program represents the internal County costs associated with properly managing the funds and responding effectively to federal, state, and local legislation.

Approximately 9,100 households contacted the homeless response system and reported literal homelessness or presented at an emergency shelter from July 2018 through June 2021, an increase of 5.3% over the previous three-year period. The system sheltered and/or housed more than 2,400 people in more than 1,800 households during program year 2020-2021. Over 1,600 households accessed the homeless prevention services system, resulting in approximately 1,000 maintaining housing.

Program year 2020-2021 outcomes include: 7,160 people in 3,969 households contacted the system for services through Coordinated Entry; 221 persons received outreach services; 1,861 people in 1,498 households utilized emergency shelters; 44 persons in 34 households were housed in transitional housing; 588 persons in 452 households received rapid rehousing; 258 persons in 129 households were placed in permanent supportive housing; 112 persons in 52 households were placed in other permanent housing.

Several other planning efforts have been undertaken and continued in recent years. In 2018, HCS contributed to the development of a new affordable housing plan "Housing Snohomish County" that lays out the 10-year goals for developing affordable housing. The plan engages a collective effort by housing advocates, local city/town/county, and citizen representatives. In 2019, HCS provided support activities for the Snohomish County Regional Affordable Housing Task Force which culminated in a 5-year plan.

HCS developed a 5-Year Urban County Consortium Consolidated Plan to address housing, services, community development, public infrastructure, and economic development for low-moderate income households and areas. HCS leads the local Continuum of Care (CoC) which addresses the needs for housing and services for persons experiencing or at-risk of homelessness and coordinates the local CoC planning effort and supports the Partnership to End Homelessness (PEH) Board. HCS and the PEH developed the Homeless Prevention and Response System Strategic Plan in 2017 and updated it in 2019.

HCS partnered with the Bill & Melinda Gates Foundation and King and Pierce Counties in the "Investing in Futures Initiative" (IIF). The tri-county effort leveraged several million dollars in support of family homelessness over the past decade. In 2020, the tri-county initiative ended but the County continues to implement, refine, and adjust practices to align with the goals of a high performing

**Fund/Subfund:** 124 / 124 Human Services Fund**Division:** 007 Housing & Homeless Services**Department:** 04 Human Services**Program:** 461 Housing, Homeless, Comm D

system to serve families experiencing or at-risk of homelessness. In addition, the CoC continues to improve, expand, and increase coordination and partnerships with homeless housing organizations and other systems of care; increasing coordination with mainstream systems (mental health, substance use, health care, County jail, and employment); and to ultimately build a community wide streamline process for households to receive meaningful assistance across multidisciplinary systems of care. These steps are necessary to continue efforts in our community to reduce, end, and prevent homelessness for our families and individuals who are vulnerable and live at poverty levels, and to build healthy sustainable communities.

HCS, under the previous Bill and Melinda Gates Foundation Ending Family Homelessness Program and with prior support from Building Changes, has implemented an enhanced Data Driven Culture Initiative. HCS Data and Analytics include Tableau Dashboards used to display data and presentations. We experienced a notable increase in data being used to inform planning and continuous improvement in the homeless crisis response system.

HCS with support from Building Changes through the Bill and Melinda Gates Foundation implemented a pilot program to increase employment and economic security for people experiencing or at-risk of homelessness. The Initiative ended December 2020; however, HCS is continuing the supportive employment program in 2021, which will continue through 2023 in coordination with the Developmental Disabilities and Early Learning Division.

HCS will continue to coordinate and collaborate with PDS in 2022 to form a sustained collective effort around affordable housing and affordable housing associated with transit-oriented development.

HCS will continue COVID-19 pandemic response and recovery activities through 2023.

**Goals and Objectives:**

HCS goals come from the 5-year Urban County Consortium Consolidated Plan (Program Years 2020 - 2024) and the Homeless Prevention and Response Strategic Plan as amended (2019).

- \* Self-Sufficiency: Over 11,000 homeless and low to moderate income persons served with a variety of services including navigation services and case management, employment assistance, education assistance, and other life skills building supports, including 129 households (annually) received Tenant Based Rental Assistance to obtain or maintain housing

- \* Strengthen Support For Families: Enhancing affordable housing stock for homeless and low to moderate income persons by way of home ownership projects for low to moderate-income first-time homebuyers; 1,750 families annually.

- \* Enhance Our Physical Environment: 847 units rehabbed or repaired; 186 rental units and 661 homeowner units repaired, including some that provided accessibility modifications for low to moderate income households; 5,908 persons living in low-moderate income areas benefited from public facilities and infrastructure improvements to waterlines

- \* Develop Healthy Communities: provide fair housing education and counseling services to 1,320 persons; and improve walkability through street/sidewalk improvements, including accessibility, in low-moderate income neighborhoods that benefits low-moderate income persons.

**Program:** 517 County Fire Marshal

**Program Description:**

The Office of the County Fire Marshal program is responsible for ensuring fire and life safety and reducing the risk of fire loss in Snohomish County. The office conducts fire and arson investigations to determine responsibility in criminal and non-criminal fires. These investigations play a significant role in the deterrence of criminal behavior and promotion of fire safety. The office collaborates with various state and local jurisdictions, and assists with investigations for local fire and police departments when requested.

**Division:** 520 Planning

**Department:** 05 Planning

**Program:** 520 Long Range Planning

**Program Description:**

The Long Range Planning Division focuses on comprehensive planning for the unincorporated portions of Snohomish County in accordance with state mandates as well as involvement in major regional issues affecting local governments in the central Puget Sound area. Land use planning based on the State Growth Management Act (GMA) includes work both within the urban growth areas (UGAs) to accommodate current and future growth, and in the rural areas to preserve and protect agriculture, forest and resource lands. Two major roles of the Long Range Planning division are updating the Comprehensive Plan and the Unified Development Code (UDC). The Comprehensive Plan is the blueprint for promoting growth and economic development in the county while preserving valued natural resources and enhancing the quality of life in our communities. The UDC is the regulatory tool for implementing the Comprehensive Plan.

**Program:** 521 Code Enforcement

**Program Description:**

The Code Enforcement division enforces compliance with Snohomish County codes and other mandated regulations to ensure the health, safety and welfare of county citizens and the environment. The division receives and responds to notifications of non-compliance with codes and regulations. Issues addressed by this division include housing, dangerous buildings, homeless encampments, illegal businesses, protection and restoration of the natural environment, water quality, zoning, drainage, land disturbing activities and flood hazards. In addition to directly responding to reports of non-compliance, the division educates citizens, collaborates with relevant agencies and departments, and meets with complainants, violators and community groups.

**2023 Budget - Executive Recommended**

**Program Description**

**Fund/Subfund:** 193 / 193 Community Development **Division:** 520 Planning

**Department:** 05 Planning **Program:** 513 Permitting

**Program Description:**

The Permitting program processes permit and land use applications for unincorporated Snohomish County. The permitting process ensures that development is in compliance with state and local regulations, codes, and standards.

Staff process applications for large and small-scale developments, residential and commercial units, subdivisions, zoning, shorelines, right-of-way, and utility permits. Certain applications may also require the department to conduct site inspections, environmental and critical area reviews.

Staff also performs all functions related to county-wide commercial and residential building applications, including customer service, engineering and architectural plan review, as well as on-site building inspections during construction. Through these activities, the division promotes the health, safety and welfare of occupants and users of buildings and structures in unincorporated Snohomish County by ensuring regulatory compliance. The team reviews compliance with performance requirements and accepted standards for construction and construction materials as provided by the International Building, Residential, Mechanical, and Fire codes, as well as the Uniform Plumbing Code and the Washington State Energy code.

For the county's Comprehensive Annual Financial Report (CAFR), Permitting has two subcategories of costs that are tracked separately: Building Inspections and Fire Inspections.

**Division:** 610 County Road - TES

**Department:** 06 Public Works

**Program:** 101 TES Operations

**Program Description:**

Transportation and Environmental Services (TES) includes four distinct, yet interrelated work groups. They are Program Planning, Environmental Services, Communications and Traffic Operations. Each of these groups is responsible for certain aspects of Public Works operations necessary to provide a safe and efficient transportation network. The primary purpose of Transportation & Environmental Services is to provide for the orderly and systematic planning, operation, funding, and enhancement of the County's transportation system and to insure that adequate, safe transportation facilities are available to the citizens of Snohomish County.

**Program Description**

**Fund/Subfund:** 102 / 102 County Road

**Division:** 620 Road Maintenance

**Department:** 06 Public Works

**Program:** 201 RM Operations

**Program Description:**

The RM Operations program funds the Road Maintenance division's training and facilities elements.

The Division's Training element funds the training required by Law such as Defensive Driving, CPR, Flagger, confined space and equipment training; the mandatory Human Resource training required of all new temporary and regular employees; and the mandatory and discretionary training provided supervisory employees by Human Resources. The program funds the trainer who provides CPR, Defensive Driving, and similar classes for all County employees at no cost to them.

The Division's Facilities element funds all costs associated with running and maintaining the Division's primary maintenance yards at Arlington and Cathcart, and approximately a dozen minor yards such as Clearview and the Darrington properties which have facilities that are used periodically. This program element supports all of the utilities to operate the shops, funds minor and major repairs of the facilities, and maintenance of the buildings and the grounds.

**Department:** 06 Public Works    **Program:** 501 Admin Operations

**Program Description:**

This program was re-established to account for all transactions involved with replacement of the Road Maintenance Arlington Shop. The Arlington Shop serves the north county (RM District 1), which has 562 road miles. It also is the location of the Bridge Crew, which maintains all of the County's 200 bridges. This project will also require replacement of the Arlington ER&R Maintenance Shop, which is co-located to service Road Maintenance equipment.

The newly proposed Arlington Operating Center (AOC) will provide approximately 9,000 square feet of staff office and meeting facilities, and 38,000 square feet of vehicle and equipment storage building.

**Fund/Subfund:** 192 / 701 Transportation Syst Impact **Division:** 610 County Road - TES

**Department:** 06 Public Works

**Program:** 701 Transportation Syst Impact Fe

**Program Description:**

The purpose of this program is to receive and disburse developer contributions, i.e. Road System Impact fees, Transportation Demand Management (TDM) fees, and fees from developers in certain cities, subject to the 30.66B SCC in effect from September 10, 1995 through present day. Authority for their collection is derived from RCW 82.02.050 which allows mandatory impact fees determined pursuant to the Growth Management Act (GMA).

As with the 1991 edition of 30.66B SCC (program 700), impact fee rates were established for both residential and commercial uses, but the number of transportation service areas was reduced to six. The rates were based on a new road needs analysis, published as the Transportation Needs Report (TNR) in 1995 and updated regularly. Funds may be spent on design, right-of-way acquisition and/or construction of any project identified in the TNR; the timeframe for expenditure is between five and ten years from the date of collection, depending on the type of fee collected. The projects listed in the TNR and the cost estimating model are revised, as needed, to keep the document relevant to the road improvement process.

**Fund/Subfund:** 402 / 402 Solid Waste Management      **Division:** 404 Solid Waste Operations  
**Department:** 06 Public Works      **Program:** 704 Solid Waste Operations

**Program Description:**

The Solid Waste Operations program provides environmentally safe disposal and diversion of all solid waste brought to Snohomish County waste handling facilities. This is accomplished through the safe and efficient operation of three urban transfer stations and three rural drop box facilities, all of which also offer a full complement of recycling services. Waste is received from both commercial and self-hauler customers, processed, and delivered to the rail yard in Everett via intermodal containers for rail transport to Republic's landfill in Roosevelt WA. The group must comply with the RCW and WAC as regulated by the Health District, and Department of Ecology's minimum functional standards.

**Fund/Subfund:** 402 / 402 Solid Waste Management **Division:** 408 Vactor Program

**Department:** 06 Public Works **Program:** 708 Vactor Program

**Program Description:**

Private companies and public agencies perform storm water management, as required by law, with vactor trucks that generate large quantities of liquid and solid material. The Solid Waste Management division recognized the need for proper management of vactor wastes and constructed a facility at Cathcart for the decanting and proper handling of both the liquid and solid wastes from vactor trucks.

The Vactor program provides all maintenance and operation of the vactor facility, including labor, equipment, utility charges, required testing of the vactor waste, and disposal of the vactor grit. These costs are reimbursed, in full, through a user fee paid by the companies and agencies that use the facility.

**Fund/Subfund:** 002 / 002 General Fund**Division:** 301 Hearing Examiner**Department:** 07 Office of Hearings Administration**Program:** 860 Hearing Examiner**Program Description:**

County Council created the Office of Hearings Administration effective January 1, 2014, by combining combine the staffing and administration of the Hearing Examiner's office, the Board of Equalization, and the Boundary Review Board. The purposes of the Office of Hearings Administration are to: (1) provide a county Hearing Examiner and establish a quasi-judicial hearing system which will ensure procedural due process and appearance of fairness in regulatory hearings, provide an efficient and effective hearing process for quasi-judicial matters, and comply with state laws regarding quasi-judicial land use hearings and (2) provide for the administrative management, assignment and supervision of the required clerks and staff of the Board of Equalization and the Boundary Review Board in accordance with county code.

Under SCC 2.02.020, the Hearing Examiner approves certain land use applications as provided by ordinance and performs such other quasi-judicial functions such as appeals from administrative determinations as are delegated by ordinance. The Hearing Examiner has original jurisdiction over certain land use permits and approvals pursuant to chapter 30.72 SCC, and adjudicates appeals arising out of PDS permit decisions pursuant to chapter 30.71 SCC, as well as appeals arising out of land use code enforcement (chapter 30.85 SCC), solid waste code enforcement (chap. 7.35 SCC), and animal control enforcement pursuant (title 9 SCC), noise ordinance enforcement (SCC 10.01.080), false alarm penalties (SCC 10.52.090), and admissions tax penalties (chapter 4.23 SCC). The Office of Hearings Administration endeavors to make hearings on land use applications as open as possible for citizens, welcoming their participation in the process.

The Office of Hearings Administration provides staffing and administrative support for the county Board of Equalization and the Boundary Review Board. State law establishes these boards, which are comprised of appointed members who operate independently of the County Council and County Executive. The Board of Equalization provides a means for property owners to appeal the property valuations set by the Assessor for tax assessment purposes and appeals related to forest land, timber and open space classifications and appeals of senior citizen exemptions.

The Boundary Review Board provides a means to resolve issues regarding boundaries of municipalities and special purpose districts. It conducts quasi-judicial hearings on proposals for incorporations, annexations and mergers of cities and towns and most special purpose districts. The Board determines whether proposals are consistent with the goals and principles of the state Growth Management Act.

**Program:** 424 Board of Equalization

**Program Description:**

The Office of Hearings Administration was created by the County Council through the adoption of Ordinance 13-043, effective January 1, 2014. It provides staff and administrative services to the Board of Equalization, as well as staff and administer the Hearing Examiner's office and the Boundary Review Board. Chap. 2.02 SCC. State law establishes the Board of Equalization for Snohomish County. It is comprised of appointed members who operate independently of the County Council and County Executive. The Board hears and decides appeals by property owners of: (1) property valuations set by the Assessor for tax assessment purposes; (2) classification of forest land, timber, and open space classifications; and (3) senior citizen exemptions.

**Program Description:**

Snohomish County's Office of Energy and Sustainability leads the County's environmental sustainability initiatives, both internally and within the community. The primary responsibilities of this Office include:

- Reduce the County's energy and utility consumption and costs
- Reduce the amount of greenhouse gas emissions produced through government operations and in the community
- Reduce the County's vulnerability to rising fuel, water, and sewer costs
- Establish our resource conservation and sustainability targets and track our success in meeting those targets
- Serve as a liaison with the larger community to engage in energy reduction and environmental sustainability initiatives
- Implement the County's new Sustainable Operations Action Plan (SOAP)

**Division:** 952 Cooperative Ext Service

**Department:** 09 Conservation & Natural Resource

**Program:** 122 Agriculture

**Program Description:**

WSU Extension's is a three-way partnership between the U.S. Department of Agriculture, Washington State University and Snohomish County. Extension Educators bring non-credit education, educational outreach, community development and agricultural research, programs to all parts of the County. To keep up with increasing service demands and to keep staffing costs in line, The Agriculture/Horticulture program trains and manages two volunteer programs, develops partnerships and generates funding via grants, contracts, workshops and donations to implement agriculture and community horticulture programs.

Extension connects local producers with resources from the land grant university system, state research stations, national, state and community organizations, and regional agriculture teams. Extension farm programs are designed to improve the sustainability of the Snohomish County crop and animal industries by promoting profitable business practices, while protecting salmon and our natural resources.

Our Agriculture and Food Systems workshops, courses, and one-on-one opportunities provide farmers, gardeners, and home food processors the basics as well as connections to experts and research-based resources to help ensure success. Programming includes: 1) Cultivating Success, two 12-week intensive courses – Sustainable Small Farming and Ranching as well as Agricultural Entrepreneurship: The Business of Farming taught by experts and farmers from throughout the area; 2) Growing Groceries, a series of ten classes on raising fruit and vegetables in home gardens using experienced instructors and research-based presentations; 3) Preserve the Harvest, a series of four classes on canning foods at home safely using research-based techniques and recipes; 4) Taught by a Master Beekeeper, our Beginning Beekeeping five-week course is designed to build basic beekeeping skills and increase the amount of healthy pollinators in the region. In addition, one-on-one assistance with specific issues and challenges is available to connect Snohomish County farmers, gardeners, and food processors with the right experts and research-based resources.

To provide services to small livestock farms, 75 trained Livestock Advisors provide technical assistance and education.

The Community Horticulture program focuses on home gardeners, hunger issues and stewardship of water and land. Through the Master Gardener program, 355 trained volunteers donated over 31,000 hours of their time and technical expertise teaching the public about pests, pesticides, household hazardous waste, Natural Yard Care, storm water and rain gardens, and building the capacity of communities to grow healthy food. Programs are developed in partnership with Surface Water Management and Solid Waste. We greatly increased our capability for diagnosing pest problems with advanced training for Master Gardener volunteers. Diagnostic services to homeowners can reduce pesticide use recommendations about 75%. The Natural Yard Care program is a collaboration with the Surface Water Management and encourages natural yard care behaviors, compost use and proper hazardous waste disposal in County households.

**Goals and Objectives:**

Provide farmers, ranchers, nursery operators and landscape professionals the resources, knowledge

**Snohomish County**

**Program:** 122 Agriculture

and services to succeed in business while protecting farmland, water quality and natural resources.

Train volunteers to provide technical assistance to homeowners, small farmers and landowners on business and land stewardship by building the capacity of farmers, families and communities to protect productive lands and grow healthy food.

Address stewardship issues of concern to Snohomish County such as storm water, pesticide, fertilizer and sediment runoff; biodiversity and habitats, invasive insect and disease species, environmental stewardship, and adequate food for families in need.

Decrease waste stream contamination, increase recycling and compost use and increase proper disposal of household hazardous waste.

**Division:** 952 Cooperative Ext Service

**Department:** 09 Conservation & Natural Resource

**Program:** 123 Youth & Family

**Program Description:**

WSU Extension is an educational program within the Parks & Recreation Department that focuses on community issues. It is jointly funded by Washington State University and Snohomish County. Extension Educators, faculty of WSU, work together with County employees and community members in developing and implementing programs. To keep up with increasing service demands and to keep staffing costs in line, Extension continues to use trained volunteers to implement most programs.

The 4-H Youth Development programs provide prevention activities to assist young people in developing life and job skills in leadership, communications, decision-making and enhancing self-esteem. Nationally, the 4-H Youth Development Program utilizes an Essential Elements model that seeks to create positive places for youth (Belonging), assist youth to gain skills and knowledge (Mastery), create environments for youth to begin directing their own futures (Independence), and engage youth in service activities to foster a sense of giving back to their community (Generosity). Five hundred (500) trained volunteers are engaged in mentoring youth and leading activities throughout the County. Youth are engaged through 4-H clubs, in schools, at public events and in partnership with other youth serving organizations. Each year, more than 2000 youth participate in the 4-H Youth Development Program. Extension offers educational workshops for 4-H volunteers in areas such as volunteer administration, teaching experientially, and facilitation of youth groups.

Recent initiatives this year include volunteer development opportunities in diversity and inclusion, addressing special and unique needs of youth, providing genuine youth leadership experiences, and mental health and suicide prevention. Recent initiatives for youth include providing college and career readiness workshops and experiences, increasing access to countywide and statewide leadership opportunities, and increasing in-school and out-of-school learning opportunities. Additional initiatives include growing and strengthening the partnerships between Snohomish County 4-H and community organizations, including various school districts, coalitions, and institutions of higher education.

**Goals and Objectives:**

Goal 1: Strategically plan and improve the office environment for volunteers, youth, and public.

Goal 2: Improve electronic, in-person, and print communication with volunteers and community.

Goal 3: Increase engagement and recruitment of diverse volunteers, youth, and community partners.

Goal 4: Improve youth development educational, leadership, and college/future preparedness offerings.

Goal 5: Grow the 4-H volunteer pool and strategically evaluate and improve the volunteer training program currently in existence.

Goal 6: Grow and strengthen Snohomish County 4-H/community partners and outreach activities.

**Fund/Subfund:** 002 / 002 General Fund**Division:** 952 Cooperative Ext Service**Department:** 09 Conservation & Natural Resource**Program:** 123 Youth & Family

Goal 7: Build a data collection, analysis, and reporting plan that will tell the Snohomish County 4-H story.

Goal 8: Develop and implement a spending plan, revenue generation plan, and reporting process.

The Strengthening Families Program for Parents and Youth ages 10 - 14 is a parent, youth, and family skills-building 7-week series that focuses on strengthening parenting skills, building family strengths, and preventing teen substance abuse and other behavioral problems. The Strengthening Families Program (SFP) strives to improve parental nurturing and limit-setting skills, improve communication skills for parents and youth, and encourage youth pro-social skills development. Each weekly session typically includes a group snack or meal, followed by separate workshops for parents and youth, then family activities that encourage communication and closeness. Parents learn and rehearse best-practice skills; youth learn peer-pressure resistance skills, and how to understand and empathize with their parents' concerns. Teams of three facilitators at middle schools throughout Snohomish County have been trained to implement SFP with families at their schools

In addition, the Strengthening Families Program will reach out to families in Snohomish County by providing outreach and engagement services. This includes, but is not limited to, phone calls, mailers, coordination with school staff, Zoom (or other selected virtual platform) check ins, refresher classes, and lessons approved by Iowa State University.

#### Goals and Objectives:

Prevent teen substance abuse and reduce other risky teen behavior by building family strengths.

Build protective factors in youth and their families that buffer youth from making dangerous and possibly life ending choices.

The SNAP-Ed Program's primary focus is on individuals, youth and adults from diverse, low income families. Research-based nutrition education, physical activity, and policy, systems and environmental changes promote the adoption of healthy, active lifestyles and prevention of long-term chronic disease. The program is carried out through partnerships with 1 school district, 5 food banks, low-income housing sites, farmers markets and community agencies where 50% or more of the population is eligible for SNAP (food stamps). In 2020, SNAP-Ed will reach approximately 330 youth through direct education, 3,700 individuals through indirect education and 1,800 people through systems and environmental changes that make healthy choices easier and more accessible. The program is carried out by 3 staff members with funding from USDA's Supplemental Nutrition Assistance Program Education grant.

#### Goals and Objectives:

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 952 Cooperative Ext Service

**Department:** 09 Conservation & Natural Resource

**Program:** 124 Natural Resources

**Program Description:**

The rapidly growing population of Snohomish County places tremendous pressure on the County's natural areas and resources. Extension Natural Resources Programs focus on educating citizens about the importance of the County's natural resources, inspiring their sense of personal stewardship and empowering them to adopt behaviors that protect, restore, and conserve forests, watersheds, and Puget Sound, as well as preserving the ecosystem services that all residents rely upon. These programs are directed by university faculty and staff, with support from well over 180 university-trained volunteers. Innovative outreach techniques include webinars, field days, Pre-k to 8th grade classroom education, diversity initiatives and support from volunteer educators and citizen scientists.

Unlike other Snohomish County Extension programs, the natural resources programs have not been receiving any general fund allocations. Some funding has come from partnerships with the Surface Water Management (SWM) and Solid Waste divisions of Public Works, Snohomish Conservation District, tribes, cities and the County Airport. For example, Extension has helped SWM implement its federal NPDES permit for stormwater by engaging citizens in education for improved water and land stewardship. Extension works with Solid Waste to do research and education to improve the quality of curbside recycling, appropriate disposal of household hazardous waste and encourage reuse and reduction. Extension also works with the Snohomish County Marine Resources Committee to implement marine strategies that align with their conservation and education priorities.

**SPECIFIC PROGRAMS INCLUDE:**

\* **FORESTRY** - Snohomish County has the highest number of small forest landowners in the state, and is experiencing enormous population growth. The Forestry Program helps these landowners implement land management practices that improve habitat and water quality, decrease invasive species presence, and generate revenue from locally produced timber and non-timber forest products.

\* **BEACH WATCHERS and BEACH NATURALISTS** - This team of volunteers protects and restores Puget Sound through watershed-wide education, research, behavior change activities, and stewardship.

\* **SUSTAINABLE COMMUNITY STEWARDS** - These are trained volunteers who work in the community to engage and educate the public, as well as change personal behaviors, on climate change issues such as energy, food, soil, water, climate, and waste

\* **NATURAL YARD CARE** - A collaboration with the Master Gardener program that encourages natural yard care behaviors, design and installation of rain gardens and proper household hazardous waste disposal.

\* **PROMOTORES DEL MEDIO AMBIENTE** - Latino residents receive research-based Spanish language training on solid waste, energy issues, stormwater pollution (started in 2018) and outreach techniques, and in turn serve as educators with other Latinos in the community.

These programs achieve significant, measurable results that demonstrate a progression that starts with knowledge change, continues as behavior change, and results in condition changes that include

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 952 Cooperative Ext Service

**Department:** 09 Conservation & Natural Resource

**Program:** 124 Natural Resources

decreased stormwater pollution, increased water and soil conservation, increased wildlife presence, decreased invasive species presence, greater regulatory compliance, increased recycling and composting, safer disposal of hazardous waste, lower air pollution, and economic development from locally produced products.

These program impacts help maintain intact and functioning forests, waterways, and coastal areas, which are critical for the efficient and effective natural stormwater management that minimizes the costly construction and maintenance of stormwater infrastructure. Empowering citizens, including those underserved in our county, to protect and restore these ecological functions provides flood control, reduced risk of landslides, healthy fisheries, improved recreation opportunities, lower costs to taxpayers, and improved overall quality of life in Snohomish County.

**Summary of Goals and Objectives:**

- \*Forest owners implement improved stewardship practices on their forestland. [Not funded]
- \*Forest owners become less likely to convert forestland to non-forest use. [Not funded]
- \*County residents reduce stormwater pollution sources through their personal decisions.
- \*County nearshore restoration projects are assessed for long-term natural resource impacts.
- \*Public safety is protected by water quality monitoring at public swimming beaches.
- \*Waste stream contamination decreases, recycling and compost use increases and proper disposal of household hazardous waste occurs.
- \*Public lands are stewarded by trained volunteers who act as ambassadors and natural history interpreters for visitors.
- \*Large-scale nearshore restoration project success is evaluated through citizen science data collection with partner agencies.
- \*Community members and community civic organizations increase their understanding of sustainability and take steps to reduce their personal ecological impacts.
- \*Latino community members become trained Spanish-language educators to bring natural resource information and opportunities to access resources back to a largely underserved community.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 966 Evergreen Fair

**Department:** 09 Conservation & Natural Resource

**Program:** 541 Fair Administration General

**Program Description:**

This program supports the Administration, Programs-Entertainment, and Marketing of the Evergreen State Fair Park. The Evergreen State Fair Park efficiently plans, promotes and manages the annual 12 day fair as well as year-round use of its many facilities. The 12 day Evergreen State Fair is Snohomish County's largest annual single attraction with nearly 350,000 guests attending the Fair each year. Year-round events at the Fairgrounds attract a diverse population of people to the various animal shows, car races, demo derbys, agricultural events, trade shows and other recreational and educational events. The Fair Park plays a vital role in fostering economic and social benefits to almost 600,000 visitors each year.

Administration supports the Financial, Ticketing, Reception, RV Reservations and Seasonal Fair hiring for the Fair Park. This includes AP/AR/Payroll and budgeting, creating and managing ticketing for the 12 day fair both online and through a point of sale system and hiring over 300 seasonal employees for the fair. As the attendance at our events increases so does the use of our RV park, with many of the larger events seeing our RV park at full capacity.

Programs is responsible for the diverse line-up of entertainment and educational opportunities at the annual Fair. Most of the entertainment is free for customers, once they pay fair admission. The free entertainment includes lumberjack shows, fireworks, animal races, petting zoo, circus, horse shows, over 50 small stage and roving entertainers, Aztec Indian Dancers, antique tractors, Farmer for a Day, contests, special displays, and all of the production costs associated with these attractions. The paid entertainment includes concerts and the rodeo and associated production costs with these events. Programs works diligently throughout the year to find and contract with the talented performers in our area. This keeps the 12 day fair competitive and attracts and retains customers to the Fair.

A third component of this program is to provide Marketing for the Fairgrounds. The Marketing Specialist creates an advertising campaign to attract new and repeat visitors to the Evergreen State Fair and promotes year round use of facilities of the Fairgrounds. The advertising campaign includes print material, newspaper, radio, television, online and social media marketing.

Note on Expenditures: Salaries and Wages did not increase \$42,153 between 2016 and 2017, the system is including a \$31,493 amount that was used to offset the Reduction Management DAC 1111. The real increase to salary and wages is net \$10,660 which is due to the COLA increases.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 966 Evergreen Fair

**Department:** 09 Conservation & Natural Resource

**Program:** 545 Fairgrounds Maintenance

**Program Description:**

The Resource Management Section is made up of a team of highly skilled Park technicians that review, prioritize and schedule service and project requests for maintenance, construction, reconstruction, repairs, rehabilitation, and improvements for the grounds and facilities at the Evergreen State Fairgrounds. This work group is responsible for a wide variety of skilled grounds and structural maintenance activities to support the Fairgrounds' diverse programs and events promoting a healthy lifestyle. Primary responsibilities of this key work group involve the protection and preservation of county assets. Staff also endeavors to coordinate and schedule activities for the day to day operation of the fairgrounds and provide a clean, safe environment for all users of the facilities.

**WHAT WE DO**

- Mow and maintain the landscape, and lawn areas;
- Skilled maintenance repair projects (including carpentry, electrical and plumbing);
- Small capital improvement projects;
- Inspect, maintain and repair the equestrian facility;
- Maintain and repair the RV parks;
- Perform structural repair and improvements on Speedway;
- Maintenance, repair, and implementation of Cross Connection Control program on the water system;
- Maintenance, repair, and monitoring of the sewer system;
- Implement automation and energy efficiencies consistent with the County's Sustainable Operating Action Plan (SOAP);
- Implement all NPDES related activities including maintenance of all control structures;
- Implement Zero Waste initiative;
- Support and set up of all Fairground events including the annual Fair;
- Implementation of the preventative maintenance work plan for all Fairground assets.

The Resource Management section's primary shop is located at the Evergreen State Fairgrounds. The facility includes equipment that aid with welding and metal fabrication, wood working and carpentry, as well as vehicle and equipment maintenance.

**Program:** 548 Fair Operations General

**Program Description:**

Fair Park Operations responsibility includes providing quality services for the enjoyment and education of citizens of Snohomish County, as established in the Fair Park's mission and value statements.

Annual 12-day Fair - Operations supports and coordinates with Fair Parks administration, programming, marketing and maintenance the planning, promotion, and management of the annual 12-day fair. Operations responsibility includes contracting and oversight of competitive and commercial exhibitors and concessionaires, security, traffic and parking controls, safety, risk management, emergency procedures, concert and guest support services.

In addition, Operations Competitive Exhibits Coordinator oversees over 1,000 fair-time competitive exhibit support extra-help and volunteers (superintendents/coordinators/judges/clerks/vet services), 25,000 static and live exhibits, 4,000 adult and youth exhibitors, and distribution of over \$168,000 in awards. In 2015, the Coordinator assumed responsibility for instituting and monitoring the Fair's Zoonotic Bio-hazard security program; and in 2016 established and oversees the Youth Livestock Sale program.

Year-round - Operations coordinates with maintenance, use of the multi-purpose event facilities by scheduling, contracting, and overseeing production of agricultural, equestrian, youth, educational, private and community sponsored events and activities. Operations also monitors long-term lease agreements with the race track and museum.

**Fund/Subfund:** 002 / 002 General Fund**Division:** 985 Parks And Recreation - Ad**Department:** 09 Conservation & Natural Resource**Program:** 411 Division Management**Program Description:**

The Parks and Recreation Division is responsible to provide quality and effective management of the County's parks and the Evergreen State Fair Park.

**Division Management Sections**

The Division Administrative Section is responsible to establish and implement procedures to ensure consistent and extraordinary delivery of recreational services to the general public. Additionally, the Parks Division Administration Section is responsible for implementing county policy, setting Division priorities, and managing the Park Division administration operations.

**WHAT WE DO**

- Plan, manage, provide and administer operations required to deliver park and recreation services to the public through County park facilities and the Evergreen State Fair and Fair Park.
- Administer the Recreational Lake Water Use Code, Parks Code (Rules and Regulations), and Conservation Futures Program for the County.
- Administer and manage administrative operations, maintain central files and information base, maintain financial records, and support reservation and clerical services for the Parks Division.
- Provide direction, set priorities, and monitor production and efficiency of Division programs.
- Process, monitor, and record all financial transactions required for the operational budget, capital improvements, grants and revenues; implement and complete all contract administration/compliance and reporting requirements associated with these functions.
- Administer and provide contract compliance for residential rental contracts.

**Parks Planning Section**

The Parks Planning Section is responsible for the coordination, research, and administering of comprehensive long range and short-term planning programs for active parks, open space/conservation based properties, new park facilities, major trail corridors and rehabilitation and restoration of existing facilities. The Planning Section, through staff or consultants, is responsible for design, obtaining permits, construction management, monitoring and tracking expenditures and negotiating fees to ensure capital projects come in at or under budget. The Planning Section is responsible for developing RFP's and RFQ's and identifying scope of work or services that need to be performed for various capital projects. Through the RFQ process consultants with special skill sets or experience are chosen to assist the Planning Section with permitting, design, and occasionally construction management. The Planning Section is responsible to ensure that the Parks Department complies with NPDES, ADA, and any and all regulatory permit and code requirements either through scheduled inspections and/or best management practices.

Through public meetings, surveys, phone inquiries, and emails the Planning Section generates citizen participation and input into parks properties. The Planning Section identifies from this information the short and long term goals for park properties, acquisitions and Master/Preferred or Adaptive Site Management Plans.

The Planning Staff is responsible to develop a six (6) year Park and Recreation Visioning Plan and

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 985 Parks And Recreation - Ad

**Department:** 09 Conservation & Natural Resource

**Program:** 411 Division Management

through this document keeps the Division eligible for state and other grant programs. The Planning Staff is responsible to identify appropriate grant opportunities, develop grant applications and make presentations to grant committees. Planning Staff are also responsible for the development of a six (6) year Capital Improvement Program as part of the annual budget process.

The Planning Staff works closely with numerous not-for-profit partners that manage some of the County park properties by reviewing, inspecting, creating building standards, and approving park property alterations submitted by our partners to ensure that they are consistent with the overall plan for the park, incorporate best management practices, and do not trigger permit issues. Staff review volunteer projects, including numerous eagle scout projects and manage and coordinate the Donation Program which includes the purchase and installation of benches, trees, picnic tables and signage.

The Planning Staff are the Department's main liaisons for public inquiries and public relations/outreach related to capital projects and current or future park plans. In addition, the Planning Staff develop marketing and outreach materials including brochures, maps, flyers and electronic forms of media. The Planning Section staffs boards and commissions including the Snohomish County Parks Advisory Board and the Conservations Futures Program Advisory Board. Planning Staff are responsible for the generation of numerous contracts and Interlocal Agreements (ILAs) for a wide variety of programs, services, and grants, and coordinate several park and trail public meetings yearly.

#### Parks Property Management Section

The Parks Property Management Section is responsible for the administrative function of assisting with the management of Parks real property inventory which includes, managing residential rentals, interagency coordination on property issues, special use permits and monitoring same, environmental risk assessments, ILA contract agreements, assisting other Departments and Divisions within the County as needed, administering appraisals, appraisal reviews, negotiations, relocation assistance, acquisitions, condemnation of properties, special service contracts and the Conservation Futures Program which is administered through Parks. This section assists the Director of Parks, as requested, and supports the Planning Section.

#### WHAT WE DO

- Coordinate, research, and administer an effective planning, design, and funding program for park site acquisition and development, including multi-use park sites, open space, major trail corridors, athletic fields and recreational centers.
- Coordinate interdepartmental and interagency participation in joint planning, design and construction projects.
- Continue to update the Park's planning documents to guide future park planning, acquisition, and development priorities; and update the 6-year Capital Improvement Program.
- Maintain eligibility for state grant funding opportunities through the Recreation and Conservation Office (RCO), DNR Aquatic Lands Enhancement Account, T-21 and other agency programs.
- Comply with the State Growth Management Act.
- Administer appraisals, appraisal reviews, negotiations, and relocation assistance for new park

**Snohomish County****2023 Budget - Executive Recommended****Program Description****Fund/Subfund:** 002 / 002 General Fund**Division:** 985 Parks And Recreation - Ad**Department:** 09 Conservation & Natural Resource **Program:** 411 Division Management

acquisition, condemnation of properties, special service contracts, interagency coordination on property issues, and environmental risk assessments.

**Agriculture Office**

Funding for the Agriculture Office is also located in Program 411. Agriculture has been a dominant feature of Snohomish County's fertile landscape since the county was founded in 1861. Agriculture in Snohomish County continues to be an expanding industry with an increased number of farmers and increased farm income year after year. The Agriculture Office provides services to local farmers including regulatory, business, technical help, food systems, economic development, education and oversees the Agriculture Advisory Board.

**WHAT WE DO**

- Support Snohomish County farmers and forest managers by providing information and resources to facilitate production and business operations
- Represent local farm and forest priorities to help inform County operations
- Promote agricultural priorities through state and federal legislative avenues and by seeking funding and facilitating improvements to support agricultural businesses
- Put on the annual Focus on Farming event
- Staff and support the Snohomish County Agriculture Advisory Board
- Represents agriculture as a stake holder on the Sustainable Lands Strategy
- Represents agriculture on the Washington State Food Policy Forum

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 985 Parks And Recreation - Ad

**Department:** 09 Conservation & Natural Resource

**Program:** 430 Parks Maintenance

**Program Description:**

The Resource Management Section is made up of a team of highly skilled Park technicians that review, prioritize and schedule service and project requests for maintenance, construction, reconstruction, repairs, rehabilitation, and improvements for all park and recreation facilities. This work group is responsible for a wide variety of skilled grounds and structural maintenance activities to support the Parks' diverse programs and events promoting a healthy lifestyle and love for our parks and facilities. Primary responsibilities of this key work group involve the protection and preservation of county assets.

The Park Facilities Worker IV provides maintenance, installation and planning support of advanced systems like the centralized automated irrigation system, data loggers, wifi, programmable logic controllers, the work order system, and automated door, light, and HVAC controllers.

The Parks Mechanic maintains and repairs the Parks' vehicle fleet and equipment in such a manner as to provide safe and properly running vehicles for transportation and equipment.

**WHAT WE DO**

- Mow and maintain over 603 acres of play fields, trails, landscape, and lawn areas plus stewardship of an additional 9,443 acres;
- Skilled maintenance repair projects (including carpentry, electrical and plumbing);
- Small capital improvement projects (see 309 capital program narrative);
- Tenant repair/improvements of 16 rentals;
- Inspect, maintain and repair 20 playgrounds;
- Maintenance and repair of over 23 sport fields including turf and artificial turf fields;
- Maintenance and repair of aquatic facilities like the pool, spray pad, and 6 swim beaches;
- Maintenance, repair, and implementation of Cross Connection Control program on all water systems;
- Maintenance, repair, and monitoring of all septic and sewer systems;
- Implement all NPDES related activities including maintenance of all control structures;
- Implement automation and energy efficiencies consistent with the County's Sustainable Operating Action Plan (SOAP);
- Implementation of the preventative maintenance work plan for all Park assets.

This work group also maintains open space natural resources that protect fish and wildlife habitat and provide public access for fishing and passive recreation. Staff are trained in and utilize best practices for environmental protection that protect streams and waterways from the effects of erosion on water quality and Integrated Pest Management techniques which emphasize the careful application of chemicals to control invasive species.

The Habitat program protects and restores the natural systems of Snohomish County resources by implementing restoration projects and controlling invasive weeds on county properties. Recent restoration projects have included reestablishment of native flood plain vegetation, weed control, channel improvements and reforestation habitat areas. Restoration efforts cannot be undertaken until noxious and invasive species are removed. Noxious weeds are defined by the Washington Noxious Weed Board as non-native, highly destructive, invasive, competitive, and difficult to control

## Snohomish County

### 2023 Budget - Executive Recommended

### Program Description

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 985 Parks And Recreation - Ad

**Department:** 09 Conservation & Natural Resource

**Program:** 680 Routine Maint & Operation

**Program Description:**

The Operations Section Team is made up of one (1) Operations Supervisor, one (1) North Operations Lead, one (1) South Operations Lead, three (3) Senior Rangers, one (1) Senior Ranger Training Coordinator, eight (8) Rangers, and three (3) Park Ranger Assistants working a north and south county geographic area from Meadowdale Beach in Edmonds to Whitehorse Trail in Darrington.

The Rangers' primary function is to provide safety and security to the park visitors and to the parklands through routine enforcement of the Snohomish County Park Code (SCC 22), Snohomish County Code and the Revised Code of Washington State within the County Park System. Park Rangers hold a Special Deputy Law Enforcement Commission issued by the Snohomish County Sheriff.

In addition, this team provides:

-Routine day to day maintenance and operation tasks at our 112 park and trail facilities and 12,000 acres.

- Park informational and environmental interpretative programs to schools,

youth organizations, and other groups throughout our park system.

- Revenue collection from camping, day use, boat launch and shelter fees.

- Great customer service through encouraging a pleasant visitor experience.

- Assistance in setting up/breaking down for County sponsored special events and activities. In addition, the Operations Section provides information booths at community events (e.g. National Night Out Against Crime, Parks Fair time information booth, partnership events and activities, Festival of the River, etc. etc.).

The Programs Team is made up of one (1) Recreation Supervisor who is responsible for the day-to-day management and operation of the Spray Pad at Willis Tucker Park and athletic field scheduling for McCollum, Lake Stevens, Esperance, Logan, Willis Tucker, Martha Lake Airport and Tambark Parks. In addition, the Recreation Supervisor helps to coordinate volunteer and eagle scout projects, and volunteer projects with our public/private partners.

The Programs Team also has (1) Facility Reservation Specialist who helps coordinate and schedule park and trail events throughout the year. The Reservation Specialist works with and through the

prosecuting attorney and risk management office to complete authorizations for groups to use county park facilities through special use permits. The Reservation Specialist also assists with the Parks Information Booth set-up/breakdown and operation, staff support and coordination with volunteer efforts, and support for our public/private partners.

**WHAT WE DO:**

- Manage and operate a park system that attracts over 4 million visitors annually
- Administers over 15,000 facility reservations.
- Provide parking/boat launch cash receipting services at Kayak, Wenberg, Flowing and Wenberg County Parks.
- Complete daily maintenance tasks and customer service for year-round reservations and accommodations for sixteen (16) yurts, one hundred eighty-six (186) camp sites, thirty-seven (37) picnic shelters, four (4) cabins and twenty (20) playgrounds.
- Park Rangers are responsible to inspect 20 playgrounds for safety compliance.
- Enforce park rules and regulations including tagging and removal of illegal homeless encampments and illegal dumping and drug use and coordinating with County Sheriffs if needed.

**Program Description**

**Fund/Subfund:** 130 / 367 Facilities-Weatherization **Division:** 001 Weatherization  
**Department:** 09 Conservation & Natural Resource **Program:** 220 Weatherization Administration

**Program Description:**

The Weatherization Program provides for the installation of comprehensive energy conservation measures into the homes of low-income Snohomish County residents. This program supports the administrative overhead expenses associated with the County's comprehensive Weatherization Program.

This program is supported by six funding sources: the Low-Income Home Energy Assistance Program (LIHEAP); the Bonneville Power Administration (BPA); the Department of Energy (DOE); Matchmaker Program funds from the Department of Commerce (COM), PUD Cash Matching funds, and PSE Low Income Weatherization funds.

**Goals and Objectives:**

\* In compliance with all federal, state, and local laws, estimated to provide long-term energy conservation measures to an estimated 100 units will be completed in 2019/2020, pending receipt of adequate grant funds.

\* Improve the quality of life for low-income residents by increasing energy efficiency, performing weatherization-related repairs and correcting health and safety hazards.

**Fund/Subfund:** 180 / 180 Evergreen Fairground Cum **Division:** 966 Evergreen Fair

**Department:** 09 Conservation & Natural Resource **Program:** 545 Fairgrounds Maintenance

**Program Description:**

This fund allows for the accumulation of revenue from building and grounds rentals and year-end surplus revenues to be redirected specifically on capital improvements of the Evergreen State Fair Park. These developments enable improvements allowing for growth while addressing the safety concerns of a large multi-event public facility.

Combined with private and governmental partners, the projects addressed in this fund all contain a multi-use function that extends the resource dollars as far as possible.

**Fund/Subfund:** 185 / 185 Conservation Futures Tax F **Division:** 985 Parks And Recreation - Ad  
**Department:** 09 Conservation & Natural Resource **Program:** 191 Conservation Futures

**Program Description:**

The Snohomish County Conservation Futures Program has responsibility for administering funds for the purpose of acquiring interests or rights in real property located within Snohomish County which meet open space and conservation requirements as per RCW 84.34.230 and SCC 4.14. Funding for the program is available through the collection of up to \$0.0625 per \$1,000.00 of assessed valuation against all taxable real property within Snohomish County.

**Goals and Objectives:**

- \* Staff the Conservation Futures Program Advisory Board, coordinate, administer and manage the program and funded projects.
- \* Coordinate, administer and manage, through an effective public information process and interlocal cooperation, a significant open space acquisition program.
- \* Provide technical assistance to Snohomish County departments, municipalities, and special purpose districts for the acquisition of eligible and appropriate open space projects.
- \* Preserve, protect and otherwise enhance, for future public use and enjoyment, selected open space, farm and agricultural land, and timber land through acquisition, easements, purchase of development rights, covenant, or other contractual methods and manage Conservation Futures funded properties in the County's inventory.

**Program Description:**

On September 27, 1989, the County Council approved Ordinances #89-103, 89-104 and 89-105 as an interim measure to address developer impacts on parks and recreation and provide a process to collect fees. On July 12, 1991, the County Council approved a new Title 26A SCC (Ord 91-026), which codified the requirement of mitigating development impacts on park and recreation facilities, On February 1, 2003, title 26A was replaced by SCC 30.66A (Ord 02-064).

The park mitigation requirements authorized by SCC 30.66A are designed to mitigate impacts reasonably related to a proposed subdivision or development by allowing payment of a dollar amount which must be used to acquire land or develop parks & recreation facilities.

**Fund/Subfund:** 196 / 018 Dist #18

**Division:** 985 Parks And Recreation - Ad

**Department:** 09 Conservation & Natural Resource

**Program:** 701 Park Mitigation

**Program Description:**

On September 27, 1989, the County Council approved Ordinances #89-103, 89-104 and 89-105 as an interim measure to address developer impacts on parks and recreation and provide a process to collect fees. On July 12, 1991, the County Council approved a new Title 26A SCC (Ord 91-026), which codified the requirement of mitigating development impacts on park and recreation facilities, On February 1, 2003, Title 26A was replaced by SCC 30.66A (Ord 02-064). On February 23, 2005 a new GMA compliant SCC 30.66A was approved by the County Council (Ord 04-016).

The park mitigation requirements authorized by SCC 30.66A are designed to mitigate impacts reasonably related to a proposed subdivision or development by allowing payment of a dollar amount which must be used to acquire land or develop parks & recreation facilities.

**Fund/Subfund:** 309 / 309 Parks Construction Fund      **Division:** 985 Parks And Recreation - Ad  
**Department:** 09 Conservation & Natural Resource      **Program:** 947 Special Use

**Program Description:**

The Parks Construction Fund is dedicated funding for park acquisition and development and is primarily funded by Real Estate Excise Taxes (SB4972/HB2929), grant funds and collected Park Impact Mitigation Fees. The proposed projects are defined through the six-year Capital Improvement Program (CIP), meeting goals and objectives in the adopted Snohomish County General Policy Plan and priorities included in the Snohomish County Park & Recreation Element (PRE). The PRE defines Special Use Parks as those that offer unique facilities, examples of which include the Fair Park and shooting range.

**Fund/Subfund:** 415 / 415 Surface Water Management **Division:** 357 Surface Water Management

**Department:** 09 Conservation & Natural Resource **Program:** 511 SWM Operations

**Program Description:**

Program 511 SWM Operations

Key components of Program 511 Surface Water Operations include the following sub programs:

- 1) Fiscal Services (Sub-program 001)
- 2) Program Planning (Sub-program 002)
- 3) Resource Monitoring (Sub-program 004)
- 4) Floodplain Services (Sub-program 005)

1) Fiscal Services (Sub-program 001)

Fiscal Services provides financial, administrative, and support services for all SWM programs. Services include budget development and financial analysis, billing and collection of utility service charges, grant preparation and administration, tracking of project expenditures, accounts payable, website and technology management, and support for the County's Savvy Septic program.

2) Program Planning (Sub-program 002)

Program Planning coordinates a variety of watershed planning and outreach efforts, including salmon recovery, water quality, floodplain management, shellfish protection, and marine resources. These efforts involve significant coordination with a broad range of partners, such as local and state government agencies, Non-Governmental Organizations (NGOs), tribal entities, and the general public. This sub-program provides staff to coordinate the Snohomish River Basin Salmon Recovery Forum, the Stillaguamish Watershed Council (SWC), the Sustainable Lands Strategy (SLS) Executive Committee, the Marine Resources Committee (MRC), and the Local Integration Organization (LIO) committees for the Snohomish and Stillaguamish watersheds. The program also provides education and outreach efforts designed for landowners and residents to learn and implement actions that protect water quality and habitat.

3) Resource Monitoring (Sub-program 004)

Resource Monitoring provides the scientific basis and support for actions and programs intended to protect and restore water quality and improve aquatic habitat. One aspect of the sub-program is to collect information so the public knows the health of nearby rivers, streams, and lakes. The water quality section focuses on NPDES permit compliance by monitoring streams and rivers to identify and eliminate illicit discharges to surface waters and the County's MS4. The water quality complaint investigation section investigates and resolves water pollution problems. The NPDES administration section provides the County advice on NPDES compliance and requirements. The habitat science section provides support to capital project development, salmon recovery planning and technical assistance to other County departments and residents on beaver-related problems. The lake management section includes citizen volunteer monitoring of lakes, screening for toxic algae, invasive aquatic weed control, and the LakeWise program, which promotes lake stewardship by lake watershed property owners. The gauging section operates and improves the County's real-time river and precipitation network, which informs flood forecasting and emergency response. This includes the County's online flood warning system.

4) Floodplain Services (Sub-program 005)

Floodplain Services implements capital and non-capital flood hazard and floodplain management

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Program Description**

**Fund/Subfund:** 415 / 415 Surface Water Manageme **Division:** 357 Surface Water Management  
**Department:** 09 Conservation & Natural Resource **Program:** 511 SWM Operations

projects. The sub-program encompasses a broad range of river-related activities, including dike and levee inspection and maintenance, support to diking and drainage districts, and coordination of flood response activities. The sub-program also includes development and updates of flood hazard management plans that identify structural and non-structural solutions to flooding problems. Capital projects include floodplain restoration and flood risk reduction projects. Floodplain Services runs a watershed steward program and manages a native plant nursery staffed by a WCC work crew. The sub-program also includes the Geographic Information Services (GIS) technical expertise, which provides advanced analysis for a wide variety of SWM programs.

The County's Noxious Weeds program is moving from Road Maintenance to SWM Operations in 2023.

**Fund/Subfund:** 415 / 415 Surface Water Manageme **Division:** 357 Surface Water Management

**Department:** 09 Conservation & Natural Resource **Program:** 512 SWM Maintenance

**Program Description:**

Program 512 SWM Maintenance

Key components of Program 512, Surface Water Maintenance, include the following sub programs:

- 1) Drainage System Management (Sub-program 006)
- 2) Drainage Rehabilitation/Investigations (Sub-program 007)

1) Drainage System Management (Sub-program 006)

The emphasis of Drainage System Management work is on inspection, maintenance, and repair of the engineered drainage systems that convey, treat, and manage stormwater runoff. A key aspect of the sub-program is to meet the requirements of the Western Washington Phase 1 Municipal Stormwater permit, which is mandated under the National Pollutant Discharge Elimination System (NPDES) section of the Federal Clean Water Act. Senior staff design, coordinate and implement projects, develop policies and procedures, assess risks and liabilities, forecast costs, prioritize services, and create surface water utility plans.

Drainage System Management is divided into three key workgroups: Drainage Inventory, Drainage Operations and Maintenance, and Pollution Source Control.

The Drainage Inventory workgroup includes field technicians and computer analysts who use high precision survey equipment and mapping software to collect and map drainage system inventory data, as required by the County's NPDES permit. These data provide critical spatial and qualitative information on the storm system and the watershed, such as flow directions of streams and conveyance systems, stormwater discharge locations, and treatment and flow control facilities. This information is necessary to perform stormwater operations and enables local and state agencies to respond to environmental emergencies such as a flooding and spills. The development community and the public also benefit from the publicly-available data.

The Drainage Operations and Maintenance workgroup consists of engineering technicians who regularly inspect and oversee the maintenance and repairs of drainage infrastructure within the county, both publicly and privately owned. Working in partnership with DPW Road Maintenance, this group is responsible to inspect all systems in the right-of-way and on SWM-managed tracts and easements, including over 1,000 public systems. The commercial and residential program includes ~1,400 private drainage systems, and requires providing technical assistance and communications to business owners, property management companies, and homeowners associations. Regular maintenance and repair of the engineered drainage system contributes to protecting the public from flooding and pollution, and helps the county meet NPDES stormwater permit obligations.

The Pollution Source Control workgroup consists of water quality planners who ensure water pollution controls are implemented at existing developed properties where commercial activities are performed that have a potential to pollute waterways. Focused on providing technical assistance to ensure code compliance, the group helps businesses, institutional, and industrial properties learn about their specific sources of pollution and required best management practices on controlling, preventing, and reducing pollution from entering local water bodies. Regular inspection helps ensure the county meets its source control NPDES stormwater permit obligations.

**Fund/Subfund:** 415 / 415 Surface Water Manageme **Division:** 357 Surface Water Management

**Department:** 09 Conservation & Natural Resource **Program:** 512 SWM Maintenance

2) Drainage Rehabilitation/Investigations (Sub-program 007)

The emphasis of Drainage Rehabilitation/Investigations work is responding to requests from County residents and County departments for technical assistance with drainage problems. This work includes field investigations, analysis of individual drainage problems, coordination with Road Maintenance, and recommendations for solutions.

**Fund/Subfund:** 415 / 415 Surface Water Management **Division:** 357 Surface Water Management

**Department:** 09 Conservation & Natural Resource **Program:** 513 SWM Capital

**Program Description:**

Program 513 - SWM Capital

Key components of Program 513 Surface Water Capital include the following sub programs:

- 1) Stream and River Capital (Sub-Program 003)
- 2) Drainage and Water Quality Capital (Sub-Program 008)

1) Stream and River Capital (Sub-Program 003)

The Stream and River Capital sub-program includes river, sediment, and erosion control projects on large rivers, and feasibility analysis, design and construction of projects to restore or improve habitat and water quality in rivers and streams. This sub-program operates and maintains county-owned dikes and levees, and works with FEMA to mitigate future property losses through the acquisition, elevation, or relocation of risk-prone structures.

Habitat restoration capital efforts are focused on implementation of the County's Salmon Recovery Plans organized around WRIA 5 (Stillaguamish), WRIA 7 (Snohomish) and WRIA 8 (South County Lake Washington) and implementation of project recommendations from the Sustainable Lands Strategy (SLS) process. Restoration projects include large estuary projects designed to improve estuary habitat for salmon, such as Smith Island Restoration, and smaller restoration projects such as installing wood structures in the river system to provide habitat for fish. This program includes river assessments, which are used to understand river processes and to identify potential capital improvements for fish habitat and other floodplain goals.

2) Drainage and Water Quality Capital (Sub-Program 008)

The Drainage and Water Quality Capital sub-program provides engineering planning and analysis, project design, and project construction for drainage and water quality problems throughout the County. The projects include upsizing culverts or drainage systems, installing new drainage or infiltration systems to reduce road flooding, and retrofitting drainage and stormwater facilities to increase stormwater detention and/or improve water quality.

This sub-program has the following main components:

Drainage and Flooding Reduction projects:

These projects resolve neighborhood and basin-wide drainage and road flooding problems. The projects are developed from drainage complaints, referrals from other County departments and divisions, Master drainage plans, and other engineering studies.

Fish Passage Improvement projects:

This includes the development and implementation of a program to replace existing fish blockage culverts with systems that allow and encourage fish passage.

Master Drainage Planning, basin planning, and Water Quality Facility Planning:

This program includes analysis of specific geographic areas and preliminary design to resolve existing and predicted future drainage, water quality, and habitat problems

NPDES and water quality-focused projects:

**Program Description:**

Program 514 SWM Reimbursable

The SWM Reimbursable program provides surface water-related analysis, design, and technical assistance services as requested and funded by other County departments. Work includes technical support to Road Maintenance for beaver management; design to replace failing drainage infrastructure; and inspection and management of stormwater facilities in the right-of-way. Work also includes support to the design functions of Roads, including analysis of bridge hydraulics, technical assistance on river projects, and design of habitat and drainage projects within the County right-of-way, including an emphasis on designing culvert replacements to enhance passage of fish through culverts. Installation of native plants at both Public Works and Parks sites is also a service provided by the SWM Reimbursable program.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 100 Auditor

**Department:** 11 Auditor

**Program:** 430 Records Services

**Program Description:**

The Recording Division of the Snohomish County Auditor's Office is dedicated to safeguarding and preserving the history of land ownership in Snohomish County. The Recording Division is the "keeper of the record" for a multitude of documents including deeds, maps, easements, agreements, federal tax liens, and marriage records.

The Recording Division functions primarily under RCW Chapter 36.22 and Title 65. Other related RCWs, WACs and SCCs dictate the business functions of the Recording Division, which includes the fees and surcharges collected on behalf of various state and county agencies.

Since 1855, the citizens of Snohomish County have entrusted the Recording Division to permanently preserve recorded documents and make them accessible to the public, to certify copies of recorded documents and to conduct recorded document searches for customers.

The Recording Division provides indexed internet access to recorded documents from 1976 to the present. Recorded documents prior to 1976 are digitized (from microfilm) and are currently being imported into the Recording System to be made readily accessible online.

The Recording Division accepts and records paper documents and documents submitted electronically. The division continues to implement new technologies and workflow improvements in order to enhance accuracy and productivity. Customers have the ability to order and/or purchase recorded documents online.

In addition, the Recording Division has made improvements to the issuance of marriage licenses, by enabling couples to apply for marriage licenses online saving considerable time spent in line at the Customer Service Center.

**VEHICLE/VESSEL REGISTRATION & TITLES**

The County Auditor is appointed as agent for the state of Washington, Department of Licensing (DOL) pursuant to Chapter 46.01.130 RCW and operates under contract to provide state vehicle and vessel title and licensing services.

The County Auditor has contractual agreements with 16 license subagents that provide vehicle/vessel title and licensing services to communities throughout the county. The Auditor's Office is responsible for ensuring subagents are providing quality customer service, administering all RCWs correctly and collecting state and county fees accurately.

**BUSINESS LICENSES**

The division licenses a variety of county business activities prescribed by Title 6 Snohomish County Code to protect the health, safety and welfare of citizens in unincorporated Snohomish County.

**Program:** 483 Animal Services

**Program Description:**

The Animal Services Division provides responsive public service to protect the health, safety and welfare of animals and people in Snohomish County.

Administrative staff respond to citizen inquiries, receive animal complaints and dispatch calls to animal control officers in the field. Animal Services staff administer the county's pet and animal business licensing programs.

Animal control officers investigate dog bites, reports of animal cruelty, vicious dogs, injured/sick animals, stray animals, and loose livestock in unincorporated Snohomish County.

Officers work with animal owners to promote responsible animal ownership and achieve compliance with applicable state and county codes. When necessary, officers issue civil fines and refer criminal charges to the Prosecutor's Office.

Animal control officers respond to emergencies dispatched through Snohomish 911 and are available on-call, on a rotational basis, 24/7. Officers assist the Sheriff's Office and Washington State Patrol by securing and impounding animals from arrests, collisions, and other incidents when necessary.

The Animal Services Division is responsible for creating and maintaining Snohomish County's emergency preparedness plan regarding animals in disasters.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 120 Election Services

**Department:** 11 Auditor

**Program:** 485 Election Services

**Program Description:**

Election Services conducts fair, transparent and accountable elections and provides accurate, secure and timely results.

Election Services with support from Voter Registration Services is responsible for all aspects of conducting elections in Snohomish County. By law, there may be as many as four elections per year (in addition to a Presidential Primary every four years unless cancelled by legislative action). 2023 is an odd-year election cycle and will feature contests for county executive, county council, independently elected county officials, and local jurisdictions. Levy and bond measures and/or statewide initiatives and referendums may also appear on the ballot in 2023.

Elections Services continues to make significant program changes to serve the electorate in the most cost effective manner. Providing postage paid ballots, same-day registration and operating over thirty 24-hour ballot drop boxes across the county are ongoing initiatives that provide additional convenient options for voting and returning ballots.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 120 Election Services

**Department:** 11 Auditor

**Program:** 486 Voter Registration Servic

**Program Description:**

Voter Registration Services maintains the voter registration files by adding, deleting, transferring, and editing voter registration records on a daily basis. This unit also verifies voter signatures on ballots and on initiative petitions, and serves as primary customer service support for voters, jurisdictions and the general public.

It is expected that in 2023 there will be approximately 520,000 registered voters in Snohomish County. Voter Registration staff process voter registration transactions by adding new voters, moving voters within or out of the county or deleting voters due to death or felony convictions. Accurate voter rolls are critical to a voter's ability to participate in the voting process and have a direct impact on the trust and confidence citizens have in local government.

The implementation of automatic voter registration for those obtaining an enhanced drivers' license, the pre-registration of 16 and 17 year olds, and the implementation of same day registration has had a profound impact on the voter registration division.

Voter Registration Services takes pride in the accuracy, accountability, security and transparency of our elections in Snohomish County.

**Program Description**

**Fund/Subfund:** 186 / 186 Auditor's O & M

**Division:** 130 Auditor O & M

**Department:** 11 Auditor

**Program:** 430 Records Services

**Program Description:**

Revenue for the O&M fund is derived from surcharges on most recorded documents. Three dollars and twenty four cents (\$3.24) is deposited directly into the Auditor's O&M fund, and an additional two dollar (\$2.00) surcharge is sent to the state and then reapportioned back to the O&M Fund based on Snohomish County's population. The Auditor's O&M Fund supports two different programs:

Auditor's O&M Recording System - This portion of the O&M Fund is used to implement and maintain the Recording System as authorized by RCW 36.18.010 and 36.22.160. Since 1990, this funding has supported the installation and ongoing maintenance and enhancement of the Auditor's document imaging system. The Recording Division recently implemented a new recording system that was paid for entirely by O&M Funds.

Auditor's O&M Archival Preservation Fund - This portion of the Auditor's O&M Fund allocates funds for ongoing preservation of historical documents in Snohomish County offices and departments as authorized by RCW 36.22.170. Archival records have historical, artifactual or research value as defined by the Washington State Archives. When adequate funding is available, the Auditor's Office solicits proposals from Snohomish County departments and offices to receive Archival Preservation Funds.

**Program:** 670 Equal Employ Opportunity Inv

**Program Description:**

This program delivers prompt investigations into complaints of discrimination and hostile working environment based on race, gender, age, national origin, religion, sexual orientation, disability. The Equal Employment Opportunity (EEO) Investigator position also assists in the development of prevention programs designed to instruct managers and non-management employees into the expectations of these protections as they relate to workplace actions and conduct. The EEO Investigator works very closely with the Prosecuting Attorney's Office to defend claims brought to the Equal Employment Opportunity Commission (EEOC), Justice Department, Human Rights Commission of Washington State and Superior Court.

This Program was consolidated with Program 610 Administration in the 2021 Budget.

**Fund/Subfund:** 512 / 512 Countywide Training/Dev **Division:** 300 Human Resources Admin  
**Department:** 13 Human Resources **Program:** 650 Countywide Training & Devel

**Program Description:**

This program delivers cost-effective training and development programs and tools for employees and managers at a price that exceeds local and national market pricing. We deliver ad hoc training in key HR topics on demand, planned classroom training, a self-directed training library, and new employee orientation including a nationally recognized on-line "On Boarding" system. Departments are able to author on-line courses for their own tailored needs. HR is able to combine e-learning with platform training and videos for the best training design needed to deliver key learning objectives. Mandatory training such as Drug Free Workplace, EEO and Violence in the Workplace training are produced by this program. A high-level Training Advisory Team is used to make key decisions around training curriculum.

**Fund/Subfund:** 315 / 001 Data Processing Capital

**Division:** 416 Financial System

**Department:** 14 Information Technology

**Program:** 418 Financial System

**Program Description:**

The purpose of this project is to install Fixed Assets module augmenting the existing Cayenta system. Thus the county will have a central fixed asset tracking system where Finance manages and keeps track of financial data. This would eliminate manual entering, tracking and accounting of fixed assets throughout the year by Facilities, Public Works and other departments, as the majority of the fixed assets would reside in Cayenta, the central financial system for the county.

**Division:** 481 ITAC #25 ILR

**Department:** 14 Information Technology

**Program:** 431 Assessor

**Program Description:**

This project is for migrating the Assessor's Integrated Land Records (ILR) or "Parcel Base" from a GIS database and editing environment that has reached the end of its expected life to a vendor supported and IT compliant GIS database and editing environment. Additionally, this project will integrate the GIS database with the existing Assessor's appraisal and tax administration databases. ILR is comprised of GIS layers that include: parcels, lots, subdivisions, rights-of-way, easements, annotation, cities, fire districts, TCAs, etc.

ILR provides the foundation for the Assessor's office to locate and fairly and efficiently value approximately 290,000 parcels with a 2010 taxable value of approximately \$94 billion. Layers within ILR are also required by state law (RCW 84.40.160) to be maintained by the Assessor. Many other County departments rely on ILR to perform business critical functions and to meet state law requirements.

**Snohomish County****2023 Budget - Executive Recommended****Program Description****Fund/Subfund:** 315 / 315 Data Processing Capital**Division:** 425 Orpthophotos Purchase**Department:** 14 Information Technology**Program:** 418 Central Services/Dis**Program Description:**

This project accumulates funding via a multi-year fund to acquire fly-over images to support the enterprise GIS community including direct access by five citizen website applications. Aerial imagery is of significant and often vital importance to all county departments. Its use overlaps many county functions mandated by county, state, and federal regulation. Aerial imagery (orthophotography in digital format) must be compatible with all county imaging systems, GIS analysis, and document recording through identified technical requirements. Aerial photography has been used in this county for landscape verification, evaluation, and interpretation since 1947. Taken in sequential time frames, it provides a unique view/record of landscape change. County citizens use this same data via website, hard copy, and/or as secondary graphics with other mapped data.

**Division:** 450 Customer and Workstation Se

**Department:** 14 Information Technology

**Program:** 888 Customer Workstation Servic

**Program Description:**

Office Automation program assists departments in making the best possible use of office automation technologies. The program provides support, maintenance, and operational services for technology assets including network infrastructure, workstation, and office automation application structures managed by the Department of Information Services.

Core service philosophies for supporting network infrastructure lead to keeping an inventory of provisions to maintain secure, reliable, and low cost local wide-area connectivity; delivering network products and services to meet typical user needs; and managing the infrastructure for long-term, high performance of application structures. The workstation assets are managed to consistently support user needs and meet growing demand. The program assists departments in establishing configuration rules and standards to maintain the integrity of the workstation and help control the cost of ownership.

Network infrastructure, workstation assets, and office automation application structures combine to provide a strong architecture for strategic applications and a productivity resource base for county employees. Enterprise applications managed by the program include network authentication, transport, security, file and print services; the delivery of standard office automation tools including word processing, spreadsheet, database, e-mail, calendar, graphics; and access to other state and local agencies and the Internet. Each of these assets are managed and supported to consistently support users' needs and meet growing demands through evolving departmental configuration rules, standards, and administrative practices.

**Division:** 125 Prevention Services

**Department:** 15 Health Department

**Program:** 625 Prevention Services

**Program Description:**

**PREVENTION SERVICES**

The Prevention Services division focuses on preventive programs for families and communities. We also collect and share public health data.

The division also focuses on the prevention and control of communicable disease through education, monitoring, outbreak response, preparedness activities, and vaccination.

Under state law, health care providers, hospitals, and laboratories are required to report certain diseases to local public health agencies. Snohomish Health Department is charged to receive disease reports, conduct investigations into the cause and possible spread of illness, and initiate disease control measures. The Prevention Services division of Snohomish Health Department has two primary programs:

Parent & Child Health

Communicable Disease

**2023 Budget - Executive Recommended**

**Program Description**

**Fund/Subfund:** 130 / 130 Grant Control

**Division:** 653 Pending Grants

**Department:** 16 Nondepartmental

**Program:** 460 Grant Administration

**Program Description:**

The Pending Grants budget represents estimated multi-year grant carryover amounts or grant funding, which is anticipated but not yet awarded. When actual project allocations are approved and contracts executed, a budget transfer is initiated per the Snohomish County Code rules.

The Pending Grants budget is not utilized for actual receipts or expenditures. Departments only include known and certain anticipated revenues within their program budgets. The pending grants program allows departments more timely opportunity to handle additional rewarded grants and provide services to citizens. All new grants and grant amendment contracts and the subsequent budget transfers still are required to go through the review and approval process as defined by SCC.

**Division:** 648 Sb 4972 Capital Improveme

**Department:** 16 Nondepartmental

**Program:** 990 SB 4872 -- REET 1

**Program Description:**

There are two components of Real Estate Excise Tax (REET) in Snohomish County. Revenues from both of these sources accrue to the County from real estate sales that occur in unincorporated areas in the County.

REET 1 - In 1982, the state legislature passed SB 4972 granting the County additional revenue authority in the form of a 1/4% real estate excise tax on real estate transactions. Revenue is dedicated for use on capital improvement projects (RCW 82.46.010 (1)).

**Department:** 16 Nondepartmental

**Program:** 700 SHB 2929 -- REET 2

**Program Description:**

There are two components of Real Estate Excise Tax (REET) in Snohomish County. Revenues from both of these sources accrue to the County from real estate sales that occur in unincorporated areas in the County.

REET 2 is the second component. In 1990 the state legislature passed HB 2929 granting the county authority to levy an additional 1/4% real estate excise tax. This revenue is strictly segregated and separately tracked, and may be used solely for financing capital projects specified in a capital facilities plan element of a comprehensive plan (RCW 82.46.010 (2)).

**Department:** 18 Facilities Management    **Program:** 840 Fleet Mgt - Overhead Stor

**Program Description:**

The Stores operations of Fleet Management is responsible for the purchase of countywide fuel supplies; repair parts for county vehicles and equipment; and materials & supplies held in inventory that are used in road maintenance and solid waste operations. Stores supports Fleet Management's operations by supplying repair parts and service supplies used in vehicle and equipment maintenance and repairs. Stores operations reside in the three fleet shops; Arlington, Cathcart, and McDougall. Cathcart has the largest stores operation and also houses a traffic sign manufacturing and inventory facility. Stores operations have eight budgeted positions including a supervisor, a crew chief, five storekeepers, and a sign specialist.

**Fund/Subfund:** 502 / 502 Equipment Rental & Revol    **Division:** 600 Equipment Rental And Revo  
**Department:** 18 Facilities Management    **Program:** 860 Fleet Mgt - Maint & Opera

**Program Description:**

Fleet Management's maintenance and operations program includes the staffing, assets, facilities, tools and equipment, and administration and support necessary to acquire, operate, manage, maintain, repair and dispose of fleet vehicles, heavy equipment, and two-way radios. There are three fleet shops where vehicles and equipment are maintained and repaired; two of those (Arlington and Cathcart) service light and medium duty vehicles and heavy equipment. The McDougall garage services light-duty vehicles and specializes in the outfitting and maintenance of police cars. There are forty-one budgeted positions in maintenance and operations including the Fleet Manager, administrative support staff, three shop supervisors, two radio repair technicians, and thirty-three mechanics and crew chiefs.

**Program:** 001 County Parking Operations

**Program Description:**

The County's parking facilities in downtown Everett include a 1200-plus stall underground parking garage and a 95-stall surface lot at the corner of Wall and Oakes street. Our parking facilities are primarily used by County employees, citizens visiting the County offices, jurors, and patrons of the Everett Event Center. The day-to-day operations of the parking facilities are currently managed by Republic Parking Northwest, Inc. Facilities Management works together with Republic Parking to ensure that Parking Operations adheres to County goals, policies and procedures.

**Program:** 680 Operations

**Program Description:**

In 2011, the Washington Department of Commerce offered a \$500k interest free Community Economic Revitalization Board (CERB) loan to the County for refurbishment of Building C-71 to expand operations of the Washington Aerospace Training and Research Center (WATR). Revenues from the lease with Edmonds Community College will be applied to fully repay the CERB loan. Edmonds Community College leased 8,966sf of Building C-71 and with this loan refurbished the space to support aerospace training in the region.

**Fund/Subfund:** 410 / 410 Airport Operation & Maint. **Division:** 100 Airport

**Department:** 21 Airport

**Program:** 680 Operations-General

**Program Description:**

Paine Field is a vital commercial service airport and industrial park serving the Puget Sound Region, with over 590 based aircraft, 70 commercial tenants and serving 1 million passengers annually (pre-pandemic). Major tenants include the Boeing Company, United Technologies, ATS, Propeller Airports, Alaska Airlines, Kenmore Air, Flying Heritage & Combat Armor Museum, Museum of Flight, Esterline/Korry Electronics, Collins Aerospace, Everett Community College, Edmonds College, Washington Aerospace Training & Research (WATR) Center, and many more. In addition to tenant revenues, Future of Flight Aviation Center & Boeing Tour in a regular year (pre-pandemic) attracts over 320,000 local, national and international visitors to the County. WSDOT's most recent Aviation Economic Impact Study reports Paine Field as having a total economic impact of \$59.9 billion annually. (WSDOT, 2020)

Airport revenues include hangar, industrial and commercial leases, landing and fuel fees, Passenger Facility Charges (PFC), and a long-term operating agreement with Boeing for use of the main runway. Airport revenues fund airfield operations, maintenance, fire rescue services, law enforcement, public safety programs, building repairs, debt service on loans and bonds, development requirements and operating costs. Budget drivers at the airport include maintenance and support of the airfield to FAA standards, existing buildings, roadways and utility systems and increasing the long-term revenue and asset base at the airport. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

The Future of Flight Aviation Center & Boeing Tour Facility (FoF) was seeded and developed by the airport as a Public Facility District (PFD) in 2005. FoF has grown to become one of Snohomish County's largest tourist attraction serving over 320,000 tourists and residents annually (pre-pandemic). The airport and Boeing partnered in late 2018 to update the facility through renovation and improved exhibit's while rebranding the new improved facility as Boeing's Future of Flight. Under new Boeing leadership the facility continues to innovate, educate, and challenge the youth of tomorrow on the current and future aviation industry. FoF has an economic impact on the local and state travel and tourism economy estimated at \$75 million (WA State Tourism). It brings tourists from around the world to Snohomish County for their first visit. The debt service for FoF is funded by lease revenue and state sales tax allocation (PFD funding) from the County. Boeing aircraft manufacturing facility tours have not resumed since pre-pandemic, but the airport is hopefully they may resume in 2023.

The airport has four areas of emphasis: Administration, Maintenance and Fire Rescue. Law enforcement is funded through the Sheriff's Department. Airport Administration includes the Airport Director, Finance & Business Development, Operations, Engineering & Planning, and Environmental. It oversees and manages budget, payroll, accounting, airfield certification, operations, leasing, construction management, marketing, airside and landside development, planning and capital improvements, environmental compliance, and grants. Airport Maintenance maintains all facilities, utilities, electrical systems, landscaping, winter storm response and conducts FAA-required inspections of the air operations area. The Fire Fighting and Security unit at Paine Field is one of the few in the state responsible for Aircraft Rescue and Firefighting (ARFF), structural firefighting, emergency medical response, and security functions. The airport has also developed a Paine Field Fire Equipment Maintenance Program to meet our higher standards for fire trucks and equipment and

also provides fire equipment service to the City of Mukilteo and other government entities.

Paine Field contributes to the economic vitality and the quality of life in the region by providing passenger service, high-quality aviation and industrial services. Paine Field provides Snohomish County residents and businesses access to the world. Our customers are the airfield tenants and users, our neighbors, the people of Snohomish County, and the worldwide aviation community. The airport constantly strives to provide a safe environment for aviation & industrial activities and respond to any incidents or accidents.

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 401 District Court

**Department:** 24 District Court

**Program:** 330 Probation & Parole Services

**Program Description:**

While the primary purpose of the Probation Department is to hold defendants accountable for their court ordered conditions and provide alternatives to incarceration; Probation uses a therapeutic and holistic probation model that encompasses best practices, use of evidence-based and research-based programs, services, and cognitive behavioral trainings to more effectively monitor and assist offenders in developing skills to promote positive behavioral changes to reduce their dependence on criminal and substance abuse behaviors.

The department staff gathers, evaluates and provides the judges with current data resources essential for the pre-trial and post-trial functions of the Court. The department officers recommend treatment and/or counseling programs tailored to an individual's needs, as alternatives to incarceration. Statistics have shown that probation services cost approximately one-tenth of the costs of incarceration yet prove to be as effective in reducing repeat offenses. An alternative to incarceration includes probation monitored Electronic Home Monitoring Programs, that holds offenders accountable, yet allow them to continue with their employment, treatment or education plans. Probation also conducts community based programs such as: Domestic Violence Moral Reconation Treatment in partnership with Everett Municipal Court, which helps offenders take accountability for their violent actions and provide positive resolution skills in an effort to break the cycle of violence, and the Snohomish Traffic Opportunity Program (STOP), a program consisting of National Safety Council defensive driver courses and driver assistance services.

**Program:** 450 Dispute Resolution Center

**Program Description:**

Established by RCW 7.75, the Snohomish County Dispute Resolution Center (DRC) provides mediation services for the citizens of Snohomish county. The DRC established under this chapter provides dispute resolution services either without charge to the participants or for a fee which is based upon the applicant's ability to pay.

A surcharge of \$10.00 is imposed upon the filing fee for civil actions in district courts (SCC 2.550.060). The surcharges imposed are be collected by the clerk of each district court where a civil or small claims filing occurs. Surcharges collected are remitted to the county treasurer for deposit in a separate account to be used solely for dispute resolution centers established under this chapter.

District Court employs DRC services for small claims filings. All small claims matters must engage in mediation prior to a trial date being set. Mandatory mediation via DRC services has proven to be successful in resolving the majority of small claims matters filed in District Court which generally equates to more satisfying outcomes for litigants.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 131 Prosecuting Attorney

**Department:** 31 Prosecuting Attorney

**Program:** 521 Criminal

**Program Description:**

The Criminal Division deputy prosecutors are mandated to represent the county or state: (1) in District Court, on all misdemeanor and gross misdemeanor cases occurring within unincorporated Snohomish County, (2) in Juvenile Court, on all crimes committed by persons under the age of 18 occurring within the county; and (3) in Superior court, on all adult felony cases occurring within the county. The Criminal Division handles all court appearances, negotiations, hearings, trials, supervision violation hearings, and post-sentencing appeals regarding these cases.

To maximize efficiency, the Criminal Division is divided into units that specialize in the prosecution of a particular subset of cases. These units include: District Court, Violent/Domestic Assault, Non-Violent/Drugs, Special Assault, Juvenile, Felony Traffic Offenses, Financial Fraud and Identity Theft, Auto Theft (Auto Theft Task Force), Drugs and Gangs (the Snohomish County Regional Drug and Gang Task Force), Adult Drug Court, Mental Health Court, and Appeals.

Broadly speaking, a Criminal deputy prosecuting attorney reviews referrals (law enforcement reports alleging illegal activity) from law enforcement and determines an appropriate response. A DPA may decide to file charges, to request additional information, to decline filing charges, or to refer the case elsewhere. If a charge is filed, a Criminal DPA will represent the county or the state in the court proceedings.

While the majority of the work in the Criminal Division is supported by the General Fund, the Department relies on grants to support certain areas of work including domestic violence, victim/witness assistance, auto theft, identity theft, registered sex offenders, and DUI rush filings. In addition, the Department receives support from Fund 124 to address criminal cases involving defendants with mental health and/or chemical dependency issues.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 131 Prosecuting Attorney

**Department:** 31 Prosecuting Attorney

**Program:** 522 Civil

**Program Description:**

The Civil Division is the in-house law firm for Snohomish County government. Its mission is to provide professional, ethical, and comprehensive legal service responsive to all departments in Snohomish County government. The Division's goals are: (1) to be open, accountable and accessible as much as possible to the public, (2) to provide services as effectively and efficiently as possible, (3) to support clients from the early phases of the decision-making process with the objective of anticipating and addressing legal issues as the client's course of action is developed, (4) to achieve and maintain excellent working relationships with clients and others in the community and the legal profession, and (7) to continually seek and obtain the resources necessary for the Division to accomplish its mission. It consists of one chief deputy prosecuting attorney, 25 deputy prosecuting attorneys, and 11 support staff.

The Civil Division, which conducts litigation on behalf of the County (either as the plaintiff or the defendant) and provides a wide variety of other legal services to County clients, is organized in six areas of specialization. These include Municipal Law, Land Use and Environmental Law, Torts and Litigation, Labor and Employment, Involuntary Commitments, and Public Records.

The Municipal Law Unit is the primary source of legal services and advice to every county department on a broad range of topics, including taxes, elections, bankruptcy, search warrants, permits, animal control, and Drug Task Force property forfeitures.

The Land Use and Environmental Law Unit provides a wide range of legal services, including litigation and advice, to those county departments and elected officials whose programs and activities involve land use and environmental law.

The Torts and Litigation Unit serves as defense counsel for county departments, and is funded by the insurance defense fund (Fund 506). The DPAs in this unit represent the county in tort cases which usually involves litigation or settlement negotiations to reach a fair and just outcome.

The Labor and Employment Unit provides advice on labor and employment law to the county, represents the County before both administrative bodies and the courts in a variety of labor and employment law contexts, and provides litigation defense in lawsuits arising from county employees.

Regarding involuntary commitments, the Civil Division provides legal representation to the County's Department of Human Services at involuntary mental commitment hearings and trials. Two DPAs are assigned to this unit.

Finally, the Civil Division has a DPA and PIRS assigned to manage and respond to public records requests per the Public Records Act. Their duties involve providing advice to county departments, litigating cases in court, managing public records requests, and training county employees regarding their responsibilities under the Public Records Act, chapter 42.56 RCW.

**Division:** 124 1/10% Sales Tax

**Department:** 31 Prosecuting Attorney

**Program:** 522 Civil

**Program Description:**

This program funds the Prosecuting Attorney's work under the Involuntary Treatment Act (ITA). The Civil Division of the Prosecuting Attorney's Office works directly with the County Designated Mental Health Professionals of the Human Services Department in bringing before the court cases initiated under chapter 71.05 RCW and 71.34 RCW. These cases are critical to ensuring that some of the most vulnerable people in our society receive critical mental health care.

Since 2012, the Chemical Dependency/Mental Health Sales Tax Fund 124, Subfund 002, has supported these efforts. Two Civil DPAs are assigned to ITA work exclusively.

**Staffing Resources:**

**Program:** 523 TAP

**Program Description:**

The Therapeutic Alternatives to Prosecution (TAP) Program is an alternative to prosecution for adult felony offenders with substance use and/or mental health disorders that contributed to their involvement in the criminal justice system. TAP is a post-charging diversion program that holds offenders accountable for a felony crime without formal adjudication. It is a solution-based program designed to engage offenders in appropriate treatment, supervise and support their recovery, and assist them in developing skills to manage mental health issues. Participation in the program is voluntary and offered to offenders who take full responsibility for their crime and are motivated to address substance use and mental health barriers. The goal of the program is to promote healthy life choices and stability in the lives of its participants and reduce the rate of recidivism in the offender population struggling with behavioral health conditions.

The TAP Program is a prosecutor-led diversion program. The Deputy Prosecuting Attorney (DPA) reviews cases and determines which cases will be referred to TAP based on eligibility standards. The DPA takes into consideration the charge, the nature of the crime, criminal history, victim input, and an indication that the offender's criminal justice involvement is tied to behavioral health issues. Once referred to TAP, the offender will undergo a substance use disorder and/or mental health assessment to determine if they present with a qualifying diagnosis. Only offenders who are amenable to treatment will be accepted into the program. Offenders will be required to sign an admission of guilt upon acceptance into the program. When the participant successfully completes the TAP Program, the pending felony charge is dismissed.

The program requirements contained in the TAP Agreement will include standard program conditions and conditions tailored to the needs of the individual offender. Program requirements include, but are not limited to:

- Regular meetings with a TAP Counselor
- Treatment compliance
- Maintain releases to allow ongoing communication with treatment providers
- Maintain a clean and sober lifestyle and submit to random UA's
- Engage in employment and/or educational pursuits (GED, vocational training. etc.)
- Job readiness training, financial literacy course, Theft Awareness class, etc.
- Community service
- Pay monthly program fees and restitution
- Comply with conditions in any active criminal cases in other courts
- No new criminal charges

All TAP Agreements are three years in length and an early dismissal is at the discretion of the TAP Counselor and the designated DPA after a minimum of one year. To be considered for early dismissal, the program participant must have satisfied all the conditions of the agreement and demonstrate stability in recovery and/or ongoing treatment.

The TAP Program capacity is 120 participants. The program operated at or above capacity for several years prior to the COVID pandemic. The TAP Program has a lead counselor, four diversion counselors, and a legal secretary. Program counselors are Washington State Department of Health Certified Counselors or LMHPs who complete a minimum of 36 hours of Continuing Education every two years

**Program:** 523 TAP

to stay current on research, treatment modalities, and developments in delivery of services to the population served. Program counselors participate in county networking groups to keep up on resources and opportunities available in the community to assist clients with treatment, employment, education, and skill building. In addition to the above, an average of \$33,000.00 is collected annually from program participants for program fees and returned to the CDMH Fund.

The TAP Program fills a gap in the criminal justice system by offering an alternative to prosecution to a population not eligible for the existing therapeutic courts, Adult Drug Treatment Court (ADTC) and Mental Health Court (MHC). Mental Health Court serves offenders charged with a misdemeanor offense, while TAP serves mentally ill offenders charged with felony offenses. Adult Drug Treatment Court serves high risk offenders with substance use disorders who have been clean/sober a year or less. TAP serves medium and low risk offenders with mental health and/or substance use disorders with longer periods of sobriety. Furthermore, the individualized case management in TAP allows us to meet the needs of clients with additional developmental, neurological, medical, and co-occurring disorders.

**Program:** 525 Failure to Register Grant

**Program Description:**

The purpose of the Registered Sex Offender program (aka, Failure to Register Grant) is to strengthen the County's efforts to verify the addresses and residency of registered sex offenders and to confirm that each registered sex offender has a DNA sample on file. Under this program, the Prosecuting Attorney's Office will file criminal charges if a registered sex offender is found to be out of compliance with the terms of the court's sentence.

The RSO/FTR program, which is funded by the state, supports one deputy prosecuting attorney, one deputy sheriff, and one Everett police officer. SCSO receives the grant funds and disburses them to the Prosecutor's Office and the Everett Police Department.

**Program:** 526 Auto Theft Task Force

**Program Description:**

With funding provided by the Washington Auto Theft Prevention Authority (WATPA), the Snohomish County Sheriff's Office created a multi-jurisdictional auto theft task force in partnership with six Snohomish County agencies, including the Prosecutor's Office and the Washington State Patrol. The Prosecutor's Office receives funding on a reimbursement basis from the Sheriff's Office which receives funding from WATPA. The Prosecuting Attorney's Office uses these funds to help support one dedicated deputy prosecuting attorney who serves on the Task Force,, and a Legal Secretary..

The Task Force focuses its efforts on auto theft, chop shop operations, and other vehicle-related crimes (i.e. prowls). The recovery of stolen property also is a high priority for the Task Force. This multi-agency collaborative effort has helped to target and reduce the incidents of vehicle theft in the County, through coordinated investigations and prosecutions.

**Division:** 131 Prosecuting Attorney

**Department:** 31 Prosecuting Attorney

**Program:** 531 CSEC

**Program Description:**

In June 2020, the PAO received a \$1.6 million grant from the Health Care Authority (HCA) for a Law Enforcement Assisted Diversion (LEAD) program. The Department is spearheading the implementation of this program and acting as the fiscal agent. This grant is pass-through only; the Department will receive no reimbursement for its involvement in the grant. The LEAD program is a priority for the Department because it supports a coordinated response by law enforcement, prosecutors, social workers, treatment providers, and community resources as an alternative to traditional criminal enforcement, prosecution, and incarceration. It is an outgrowth of the Prosecutor's Innovative Justice Program and is consistent with a larger interest in responsible, meaningful criminal justice reform.

In December 2021, the PAO received a \$1.2 million grant from the US Department of Justice to expand the LEAD Program. In April 2022, the PAO entered into a contract with the North Sound Behavioral Health Administrative Services Organization for \$512,455 to expand the LEAD Program and support the Resource Navigator role and services in conjunction with LEAD.

The Prosecuting Attorney's Office is partnering with the police departments from Lynnwood and Everett, as well as the Public Defender's Association and Evergreen Recovery Center to implement this pilot program.

**Fund/Subfund:** 506 / 506 Snohomish County Insuran **Division:** 137 Tort Liability

**Department:** 31 Prosecuting Attorney **Program:** 522 Civil

**Program Description:**

Half of the Civil Division is composed of units supported by the County's Insurance Defense Fund (Fund 506). The units include Litigation, Labor and Employment Law, and Public Records. These units, which provide civil litigation, advice, and related services to all county departments, bring cases to trial, negotiate fiscally prudent settlements when necessary, review and manage claims, and provide advice to clients on employment law and risk management issues. The Labor and Employment Unit also represents and defends the County before many different state and federal administrative bodies. Given the significant risk the County faces in litigation arising from the Public Records Act the Public Records Law Unit provides advice, litigation defense, and county-wide training related to the Public Records Act, chapter 42.56 RCW.

**Program Description:**

Juvenile Court Operations

PROBATION SERVICES

Probation is comprised of three different units; Court Services, Supervision Services, and Youth Enrichment Services. The programs are supported through a combination of general fund and CJS Block grant from the state.

**Court Services**

Court Services is responsible for processing new criminal referrals and diversion referrals from inception to adjudication. They utilize risk assessment tools such as Positive Assessment Change Tool (PACT), GAIN-SS, dispositional sentences, and alternatives to detention programs available through Youth Enrichment Services (YES).

Two probation counselors are assigned to classification where they work in secure detention to provide assessment of youth at the time of intake including unit classification, they act as the law enforcement and community liaison, and offer general support to detained youth.

One probation counselor is assigned to assist families navigating the At Risk Youth process through the court system. This position is currently funded through the .01% Sales Tax fund through the county. The probation counselor meets with the youth and their family to determine current needs and assists with referrals to services such as parenting training, mental health and substance abuse disorder treatment.

All Probation Counselors are processing diversions. Legislative changes in recent years have allowed up to three diversions if eligible. The changes in the law and decreased referrals presented an opportunity to better serve youth through programs targeting prevention of youth from going deeper into our system and utilize evidence-based program resources on the front end. Legislatively, juvenile courts are encouraged to use, and the state funding authority requires juvenile courts to use, a validated assessment tool to determine needs of the youth and family to engage and participate in programs which may include services demonstrated to improve behavioral health and reduce recidivism.

**Supervision Services**

Supervision Services staff receive cases upon adjudication, for youth sentenced to a term of Probation. In addition to monitoring court-ordered conditions of community supervision, Juvenile Probation Counselors specialize in assessing a youth's risk to re-offend in the community. A standardized risk assessment tool is used in conjunction with specialized training to engage and motivate youth to change behaviors that get them in trouble with the law. Depending on their assessed risk to re-offend, youth may be placed on a variety of different caseloads. Staff utilize motivational interviewing and principles of case management theory for best practice interventions using research-based and evidence-based models such as Aggression Replacement Training (WSART), Functional Family Therapy (FFT), and Coordination of Services (COS). The majority of the Community Juvenile Accountability Act (CJAA) Block grant and Evidence Based Expansion (EBE) grant funding (over \$1.5 million) is directly tied to this scope of work. Snohomish County also has collaborated with community stakeholders to create the Promising Artists in Recovery (PAIR) program, the Music Futures program, Arts with a Purpose, a collaboration to provide dance and performing arts to youth, educational transitional services and a mentoring program that is accessible to treatment court and

**Fund/Subfund:** 002 / 002 General Fund

**Department:** 36 Superior Court

**Program:** 730 Juvenile Court Operations

diversion youth.

Becca Bill Implementation – Provides for community assistance in the facilitation and monitoring of Truancy, At Risk Youth (ARY), and Children in Need of Services (CHINS) petitions. Recent changes to Truancy Legislation has offered the opportunity for juvenile court staff, school representatives and community partners to collaborate on the development of Truancy Advisory Committee (TAC) tasked with establishing a “blueprint” for truancy protocol in Snohomish County. The legislative intent is to increase access to Community Truancy Boards (CTB), interventions and prevention programs to increase school attendance, therefore reducing the use of truancy petitions that result in civil contempt or detention time.

Support Services – Provides clerical, legal processing, reception, records management, data entry and other administrative support to probation functions.

Grant Funded Juvenile Court Programs

The County Juvenile Court Block Grant through DSHS, Juvenile Rehabilitation Administration, includes funding for: the Chemical Dependency Mental Health Disposition Alternative (CDMHDA); the Special Sex Offender Disposition Alternative (SSODA); the At-Risk Youth Program (supervision and services for youth sentenced to community supervision); the Community Juvenile Accountability Act (CJAA), and provides the evidence based intervention Aggression Replacement Training (ART). The state funding supports the staffing required to administer the Washington State Risk Assessment and Case Management Assessment Process (CMAP), monitor youth compliance and provide targeted interventions based on the risk factors that contributed to the youth entering the criminal justice system, with the overall goal to reduce the risk to re-offend, refer for chemical dependency and mental health assessments and treatment, and sex offender evaluations and treatment to support the youth that have been placed on supervision in our community.

In addition, the Juvenile Courts in Washington State are mandated to address Racial and Ethnic Disparities (RED) as a condition to receive state funding. In response to this, we have created a Cultural Advisory Committee comprised of community leaders, court staff and chaired by a Judicial Officer to identify strategies that will result in measureable improvements to engage youth of color in evidence based interventions.

#### CJAA Evidence Based Expansion

The Community Juvenile Accountability Act (CJAA) provides additional state dollars for Evidence Based Program Expansion to serve juvenile justice involved youth and families at the county level. With this additional Washington State funding, Snohomish County has expanded the following CJAA approved programs; Washington State Aggression Replacement Training (WSART), Coordination of Services (COS), and Functional Family Therapy (FFT). These three programs have been expanded in Snohomish County following careful analysis of the needs of juvenile court involved youth and the local community.

The grants support direct service to youth to engage in research and evidence-based programs designed to control anger, develop skills in handling difficult situations and improve communication with peers and family. Youth enrolled in diversion and supervision services are administered a risk assessment tool to determine risk, need and appropriate response intervention to reduce further harm.

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 730 Juvenile Court Operations

**Department:** 36 Superior Court

**Program:** 730 Juvenile Court Operations

Aggression Replacement Training: All JPCs are trained to facilitate WSART classes; each class is 3 hours per week for 10 weeks. Program is designed for moderation and high risk youth.  
Girls Only Active Listening: JPC and JCCO staff co-facilitate program designed for female youth that make up 25% of the population being served. Program is designed for moderate and high risk youth.  
Functional Family Therapy: 8-12 week program designed to engage youth and parent to improve communication and positive interactions. Program is designed for moderate and high risk youth.  
Coordination of Services: 2 day program for youth and parents to engage in community resources and increase positive interactions. Program is designed for low risk youth.

#### Youth Enrichment Services

Alternatives to Detention - Positive Youth Development Programs mission is to improve public safety and long-term outcomes for juveniles in Snohomish County by reducing the number of juveniles in secure detention, eliminating the disproportionate representation of juveniles of color in secure detention, achieving systematic reform of juvenile detention practices, developing appropriate and effective detention alternatives for juveniles who should not be held in secure detention, providing appropriate research based programming to better serve the needs of the families and youths of Snohomish County, and transitioning youth to become productive community members.

To achieve this mission, Youth Enrichments Services follow the Juvenile Detention Alternative Initiative (JDAI) as a guiding set of principles. The Juvenile Detention Alternative Initiative is an initiative designed to help youth who face juvenile justice system involvement by reducing the unnecessary and inappropriate use of secure detention, increasing system fairness, preserving public safety, and using taxpayer dollars in a cost-effective manner. To employ JDAI in Youth Enrichment Service Programs, we adhere to the following 8 Core JDAI Strategies:

1. Community Collaboration
2. Data Driven Decisions
3. Using Objective Admissions Criteria and Instruments
4. Provide Non-Secure Alternatives to Detention
5. Employing Case Processing Reforms
6. Explore Special Detention Cases
7. Commit to Reducing Racial and Ethnic Disparities System Wide
8. Focus on Continually Improving Conditions of Confinement

Youth Enrichment Services staff operate day and weekend treatment programs as alternatives to secure detention; the day reporting Program Alternative to Structured Sentencing (PASS), the Snohomish Teen Evening Program (STEP), and weekend reporting via the Structured Weekend Alternative Program (SWAP). Community-based programs include: Juvenile Educational Transitional Services (JETS), Trails to Success (TTS), and Treatment Court Alternative Program (TCAP).

The Trails to Success program is a two-week employment training program for court-involved youth interested in seeking employment. Youths participate in community projects in a partnership with Snohomish County Parks, WorkSource and Youth Enrichment Services. The program is designed to increase skills and competencies needed for success in a work setting, equip youth with social support and additional resources for future employment and provide youth with a financial incentive, a portion of which will be applied towards court fines and restitution. The Trails to Success program has been identified as an evidence based program.

#### Detention Services

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 730 Juvenile Court Operations

**Department:** 36 Superior Court

**Program:** 730 Juvenile Court Operations

The detention facility was built for 124 bed capacity on three floors that is comprised of intake, visitation, secure living areas, a kitchen, health services, and classrooms. Juvenile Corrections Officers (JCOs) supervise youth detained pre-adjudication or for short-term sentencing of 30 days or fewer. There are 8 units with 13 beds each and as secure detention population has decreased there is generally no more than 3-4 units open at any one time. A full-time mental health and chemical dependency professional on-site for youth is provided by the Department of Human Services. Daily nursing services (routine and emergency medical treatment) is provided by a pediatric nurse practitioner and registered nurses. Kitchen services produce 3 meals per day which meet Office of Superintendent of Public Instruction (OSPI) nutritional guidelines. All detainees are required to participate in the on-site school program provided by the Northwest Education Services District 189. Community volunteer programs are also available for all youth, which includes yoga, drumming, and art, Arts with a Purpose, toast-masters, faith-based groups, AA/NA, and Al-Anon.

Community Services – Volunteer Guardian Ad Litem (VGAL)  
 This Program was moved to Human Services in the 2021 Budget.

**Program:** 740 Superior Court Operations

**Program Description:**

Superior Court Operations:

As a court of general jurisdiction, the Superior Court initially hears and decides cases not specifically assigned by law to another court according to the U.S. and Washington constitutions, and applicable laws, rules and case law. The workload includes felony criminal cases; a wide variety of civil cases; domestic relations (divorce, domestic violence, etc.) cases; probate cases (administration of wills); juvenile offender and dependency (abuse and neglect) cases; paternity, guardianship, adoption, truancy, At-Risk Youth, Children in Need of Services, drug courts, and mental health cases. The Superior Court also serves as an appellate court, hearing appeals from the District and Municipal Courts, Commissioner's proceedings, and certain state and local administrative and legislative agencies.

The court is comprised of fifteen (15) Judges, five (5) appointed Commissioners, (13) Court Reporters, and (15) Law Clerks. Court Administration is responsible for the overall business, program and service functions of the court. These programs and services include Trial Setting, Judge Trades with other Counties, Pro Tem scheduling and payment, Special Set Judicial Calendars, Judicial Information System background checks, Interpreter scheduling, monitoring and payment, ADA Program and services, Jury Services, Guardianship Monitoring Program, Guardian Ad Litem assignment for Family Law, maintaining the GAL registries, Arbitration, Working Copies and Judicial/Commissioner Correspondence, Law Books and Legal Resources, Facility complaints/request for services, Expert Witness fee request approval and payment and Public Disclosure.

**Program Description:**

Administrative Services

Fiscal - provides accounts payable, accounts receivable, payroll, grant and general fund budget preparation, grants management, contract development and management, account reconciliation, and other financial related functions in support of Superior Court. (4 FTEs)

Human Resources - includes recruitment, testing, and selection for vacant positions, union contract negotiations, work place investigation and personnel action, maintenance of personnel files and records, interpretation of personnel guidelines and labor contracts, consultation regarding personnel actions, staffing operational/employee improvement committees, Long Range Planning and program implementation to meet diversity objectives, training in employment related topics, and applicability to Family Medical Leave Act (FMLA), Americans With Disability Act (ADA), Fair Labor Standards Act (FLSA) and other regulatory personnel related laws. (1 FTE)

Technology supports hardware and software applications for all Superior Court staff, and provides liaison with the Office for Administration of the Courts as they upgrade and/or develop technology requiring interface between the state system and local county systems in the area of case management and related procedures and the county Department of Information Services as they work to enhance the technology that supports Superior Court operations and programs. (3 FTEs)

The Trial Court Improvement Account was established by state legislation approximately 10 years ago. It is a special revenue account that distributes funds to the trial courts (superior, district and municipal) to assist with funding issues pertaining to the effectiveness of trial court operations. The source of the revenue is a combination of sources at the state level. The funds are distributed to those courts that elect their judges. In Snohomish County that is superior court, district court and Everett, Edmonds and Marysville Municipal courts. By mutual agreement of the superior court and district court the two courts split the revenue distribution from the state (AOC) on a 50/50 basis. This results in each court receiving approximately \$100,000 each year since the fund's creation (2007). The superior court historically has used the funding to support the technology needs in the court. In 2016 the court implemented the statewide case management system and acquired hardware to facilitate the change of converting to less paper within the courtrooms. In 2018 the court expects that the fund will receive an approximately \$100,000 which will be used to further efficiencies within the court.

**Blanche Miller Fund**

Blanche Miller, a former Snohomish County Probation Manager, bequeathed funds to Juvenile Court. These funds are to be used to improve the lives of youth involved with Juvenile Court. To that end, the Miller Trust Fund Committee was established by County Ordinance to determine how best to use the money.

In 2017 the Blanche Miller Committee funded an Artist/Mentor program, the Trails to Success Program offering youth work force readiness skills as well as a two week paid internship with Snohomish County Parks, GED funding for youth and grants in kind where Probation Counselors apply for small grants for youth who need specialized help in areas where funds are not traditionally

New in 2016, funding was awarded to support a Case Management component for all families.

Staff Contact: Jamie Reed

Superior Court Drug Treatment Court Programs

The Superior Court Drug Court Program consists of three (3) separate and distinct programs. They are Adult Drug Court, Family Drug Treatment Court, and staffing component for the adult DOSA calendar. The funding for the Drug Treatment Court Program comes from .1% Chemical Dependency/ Mental Health Fund established by the County Council in late 2008 as well as state and federal grant funds.

Over the last several years, using a combination of federal, state and local resources, we have managed to enhance our drug treatment courts and the services provided to our participants. For example, policies and procedures reflect national best practice standards for drug court; substance abuse treatment and mental health counseling are provided using evidence based programs; a web based drug court case management system is used to track and analyze data for program improvement; families are engaged with their youth using Functional Family Therapy; a comprehensive bio psychosocial assessment tool is used to determine need and key to individualized treatment planning as well as identifying other ancillary services necessary to help our participants successfully address their addiction and criminogenic thinking and be contributing members of our community.

Each Drug Treatment Court has a team that identifies enhancements and strategies to build a more effective program to address the needs of our high risk and high need participants. The Drug Treatment Court Program has developed and implemented a plan for statistical analysis and strategies related to best practices to track case outcomes, increase collaboration, and the use of evidence based treatment models. The Drug Treatment Court Program is currently managing one federal grant that provides evidence based program enhancements to the juvenile drug treatment court including Functional Family Therapy, Mental Health Counseling and Moral Reconation Therapy. Our current federal grant is for \$156,872 per year for three years (2014 -2017). In 2014, the Court

received final evaluations done on the adult, family and juvenile offender drug treatment courts, validating the improvements we have implemented in our programs. It is anticipated that a request for a follow up evaluation of our drug treatment courts will be submitted as part of the 2019 budget process.

Future federal funding is very competitive and cannot be used to sustain programs. Funding solicitations are targeted at implementing new drug treatment courts or expanding/enhancing services of existing drug treatment courts. Our current federal grant allowed us to provide additional evidence based programs that were identified during an evaluation of our juvenile drug treatment courts. Sustainability for drug treatment courts is dependent upon local 1/10th of 1% sales and use tax funds.

Consolidated Juvenile Services (CJS)

County Juvenile Court Block Grant

The County Juvenile Court Block Grant through DSHS, Juvenile Rehabilitation Administration, includes funding for: the Chemical Dependency Disposition Alternative (CDDA); the Special Sex Offender Disposition Alternative (SSODA); the At-Risk Youth Program (supervision and services for youth sentenced to community supervision); the Community Juvenile Accountability Act (CJAA), and provides the evidence based intervention Aggression Replacement Training (ART). The state funding supports the staffing required to administer the Washington State Risk Assessment and Case Management Assessment Process (CMAP), monitor youth compliance and provide targeted interventions based on the risk factors that contributed to the youth entering the criminal justice system, with the overall goal to reduce the risk to re-offend, refer for chemical dependency assessments and treatment, and sex offender evaluations and treatment to support the youth that have been placed on supervision in our community.

In addition, the Juvenile Courts in Washington State are mandated to address Racial and Ethnic Disparities (RED) as a condition to receive state funding. In response to this, we have created a Cultural Advisory Committee comprised of community leaders, court staff and chaired by a Judicial Officer to identify strategies that will result in measureable improvements to engage youth of color in evidence based interventions.

**Program:** 733 Expansion Programs

**Program Description:**

CJAA Evidence Based Expansion

The Community Juvenile Accountability Act (CJAA) provides additional state dollars for Evidence Based Program Expansion to serve juvenile justice involved youth and families at the county level. With this additional Washington State funding, Snohomish County has expanded the following CJAA approved programs; Washington State Aggression Replacement Training (WSART), Coordination of Services (COS), and Functional Family Therapy (FFT). These three programs have been expanded in Snohomish County following careful analysis of the needs of juvenile court involved youth and the local community.

The FFT program was added to the list of juvenile justice services in Snohomish County in 2012 following a review of the research behind this evidence-based program as well as an evaluation of the local juvenile offender population. The FFT program has been shown to be cost effective, with the Washington State Institute for Public Policy reporting, "The internal rate of return on investment is an astounding 641 percent". Since the FFT program was implemented. Between July 1, 2013 and April of 2015 Snohomish County has served 92 youth with FFT services. Of those, 75 families successfully completed services resulting in an 82% completion rate.

The WSART program has been provided to Snohomish County juvenile justice involved youth for over a decade. The evidence-based intervention is a 10 week group training program provided to moderate and high-risk juvenile justice involved youth. The WSART program was expanded in 2007 through the Evidence-Based Expansion funding to serve additional Court involved youth. The WSART expansion program has delivered social skills, anger control, and moral reasoning training to court referred youth over the past two years. With a total monetary benefit of \$34,566 per youth served, the WSART program has the largest cost benefit ratio among all Washington State EBE probation programs. Between July 1, 2013 and April 2015, Snohomish County has served 195 youth through evidence based expansion funding.

The COS program serves juvenile court involved youth and the intervention (known as WayOUT) is provided by Snohomish County Juvenile Court's community partner, Cocoon House. The two 6-hour seminars are offered approximately every 6 weeks to both English and Spanish speaking youth and their families. The program is intended to reduce risky behaviors and prevent recidivism while increasing the supportive relationships between youth and parents/caretakers. From July 1, 2013 to April 2015, Snohomish County has served 188 youth through the COS evidence based expansion funding. Our completion rates remain in the high 90 percentile range. The estimated 'life-cycle' and 'present-value' monetary benefits is over 1 million taxpayer and non-taxpayer dollars for this two year period.

Unified Family Court (UFC) Family and Juvenile Court Improvement Pilot) (FJCIP):

FJCIP funding is provided by AOC.

The Unified Family Court Program is a project developed to promote effective judicial coordination of cases involving children. The focus is to coordinate information, hearings, and services for families involved in a Dependency action and one or more related family court proceedings.

A Unified Family Court Coordinator works with the Judiciary and other Dependency Court parties to facilitate the timely handling of dependency cases in need of completion of a parenting plan in order to bring the case to closure and accomplish timely permanency for the children involved.

**Division:** 700 County Clerk

**Department:** 37 Clerk

**Program:** 231 Administration

**Program Description:**

The County Clerk's Administration Division manages and supports all divisions of the Clerk's Office by providing policy, planning, managerial and administrative support, and budgetary direction.

Additionally, this division responds to time-sensitive requests from Snohomish County and Superior Court Administration, the Washington State Administrative Office of the Courts (AOC), and the Law and Justice Community as a whole. Day-to-day operations in Administration ensure that critical functions are achieved while minimizing the impacts on operational staff; as a result, Clerk staff can focus on providing services to citizens and ensure timely completion of mandated functions.

Administrative functions include, but are not limited to, the following:

- Budget and financial management for the office;
- Timekeeping and payroll entry/processing;
- System administration and implementation of Clerk's software systems including maintaining user accounts and permissions, software installations, training, and acts as a backup for daily electronic court records transfers to the State Digital Archives;
- Human resources functions including recruitment and hiring processes, employee handbook, PRCs, training and employee orientations;
- Public Records Request functions including searching, reviewing, redacting, providing records and responding directly to requestors pursuant to the PRA;
- Network administration, technology and support;
- Purchasing/procurement of supplies, equipment, and maintenance/repairs;
- Website maintenance and support; staffing county committees (e.g., Law and Justice Committee, DoIT's Business Advisory Committee, etc.);
- Community outreach, and creation/maintenance of publications for citizens (brochures, handbooks, etc.);
- Administrative records preservation including retention, archiving and destruction pursuant to Clerk and State Retention Schedules;
- Liaison with County Executive's Office, DoIT, Facilities, and other county departments as required;
- Administrative support to the Clerk; and
- Travel processes and payments.

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 700 County Clerk

**Department:** 37 Clerk

**Program:** 232 Judicial Acctg/Judgmts &

**Program Description:**

The County Clerk is mandated to manage and control all facets of the accounting functions for Snohomish County Superior Court cases. Cashiering staff review and process all new case filings received in person and through the mail, receipt court fees, fines and restitution, and issue writs, orders of sale and other court documents according to statutory requirements. Following generally accepted accounting principles and statutory requirements, accounting staff collect and account for restitution, fees, fines, bail, trust funds and child support monies. Further, they are responsible for disbursing restitution to crime victims, and maintaining trust accounts and investment plans. The Juvenile Division also performs receipting services for emancipation filing fees and all juvenile restitution, fees, fines, and bail. In 2021 the Accounting Division processed nearly 62,000 transactions, totaling over \$16 million.

This division actively collects legal financial obligations owed by defendants and currently monitors more than 32,000 cases. In total, the division collects over \$2 million of restitution, court fines, fees and penalties annually that the court has ordered to be paid. Payments are processed by the cashiers, and restitution collected is disbursed to victims in accordance with the court orders. In 2021 nearly \$1.1 million of restitution was collected and disbursed to victims of crimes.

Our web-based credit / debit card payment system allows customers to complete financial transactions online. This system is utilized by individuals making payments toward legal financial obligations, paying subscription fees for Odyssey Portal, and purchasing self-help forms packets, which accounted for \$82,000 in packet sales in 2021. To ensure access to justice, we continue to monitor and expand our use of web-based credit / debit card payments enabling our customers the ability to conduct business remotely.

This division is also statutorily responsible for entry of judgments entered by the Court. This includes the original judgment, any amendments and subsequent partial- or full-satisfactions. The division processed over 3,700 new judgments in 2021, and nearly 8,500 modifications and / or satisfactions. Judgments are the formal statement of the court's final determination of the rights of the parties in proceedings and details the award of money or property to the parties. Judgments create a lien against parties and serve as the basis for subsequent court proceedings, such as foreclosure or garnishment, and are critical to any real estate transaction.

In 2020, the Washington State Supreme Court issued a decision in State of Washington v Blake which declared the State's simple possession of controlled substance law to be unconstitutional. As a result, convictions for simple possession dating back to the 1970s are eligible to be vacated and any LFO's paid in those cases will be refunded. In 2021 a significant amount of staff time was spent working with other county departments and state agencies to develop a process for issuing refunds. Due to the number of cases impacted by the Blake decision, vacating convictions and refunds will continue through 2022 and into 2023.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 700 County Clerk

**Department:** 37 Clerk

**Program:** 233 Case Management

**Program Description:**

The Case Management and Juvenile Divisions provide accurate and timely mandated processing and distribution of approximately 2,300 court documents filed electronically or in paper form daily, while preserving the integrity and security of those documents in perpetuity. Case documents are indexed and stored electronically in the State's case and document management system (Odyssey). These divisions have stringent document and information processing guidelines and timelines which are strictly adhered to, ensuring the timely availability of and access to court records by the court, government agencies, legal community and the public.

As mandated under RCW 36.23.030, 36.23.070, Superior Court orders and Washington State Archives Records Retention Schedule, the Case Management and Juvenile Divisions maintain the physical custody, control, and security of all Superior Court records, exhibits, and other court related material. Records maintained include: Criminal, civil, family law, including child support collection, probate, guardianship, parentage, adoption, mental illness, judgments, protection orders (domestic violence, anti-harassment, vulnerable adults, extreme risk protection order, stalking and sexual assault), tax warrants, water rights, and unlawful detainers. Juvenile Court records maintained include juvenile offender, dependency, truancy, at risk youth, child in need of services and emancipations. Other records maintained include wills, bonds, claims, search warrants, oaths, Superior Court Administrative Orders and other miscellaneous court documents.

These divisions ensure specific court orders are transmitted to a variety of agencies including the State's Office of Support Enforcement for purposes of child support collection; appropriate law enforcement agencies for enforcement of restraining orders, protection orders, extreme risk protection orders, and no contact orders; the Department of Licensing (DOL) for convictions related to driving and controlled substance offenses as well as loss of firearm rights; National Instant Criminal Background Check System (NICS) for loss of firearm rights in adult criminal, juvenile offender, domestic violence protection orders, extreme risk protection orders, and involuntary treatment cases; Washington State Patrol and Department of Licensing when there is temporary suspension of a person's right to possess or purchase firearms due to release from involuntary treatment and when an individual is deemed to be a danger to himself or others; and Washington State Patrol when a juvenile offender record is sealed.

By mandate these divisions also process all appeals filed in Snohomish County Superior Court from lower jurisdiction courts and prepare and transmit Superior Court cases to the State Court of Appeals (Division I) or the State Supreme Court.

Both divisions review the court's pending caseload and monitor all eight Superior Court case types to ensure timely resolution and completion which provides accurate caseload statistics for Superior Court.

Additionally, the Juvenile Division provides customer service to individuals accessing the Juvenile Court system. These services include in-person assistance; issuance of subpoenas and bench warrants; receipting of restitution, court fees, fines and bail; telephone inquiries for juvenile related matters; pursuant to RCW 36.23.030, management of all aspects of Juvenile Offender and Dependency court records (the majority of which are statutorily confidential), and include Truancy, At-

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 700 County Clerk

**Department:** 37 Clerk

**Program:** 235 Courtroom Operations

**Program Description:**

The Courtroom Operations Division is responsible for attending and creating an accurate, independent record of all Superior Court proceedings and managing the jury system for the Snohomish County courts. RCW 2.32.050 requires courtroom clerks to be present during all superior court proceedings; accordingly, they attend all hearings and trials to prepare complex and detailed contemporaneous minutes and exhibit indexes; maintain control of all exhibits, court documents, and depositions received; administer jury oaths; receive jury verdicts; and act as liaison/provide assistance on behalf of the Clerk's Office to Judges and Commissioners, the public and attorneys. Additionally, the courtroom clerks also perform all bailiff functions in the five Court Commissioner departments.

Courtroom Operations performs all administrative duties related to jury management for Superior Court and the four divisions of District Court. Last year over 98,000 jury summonses were mailed, an increase of nearly 20% from 2020. These summons' directly impact the workload of other jury management functions performed by the Clerk's Office including answering juror inquiries in person and telephonically; processing jury mail; data entry of juror responses; preparing jury payroll; and providing direct customer support to the jury system users within the Superior and District courts. The jury management system utilizes software that incorporates Optical Character Recognition (OCR) data extraction, imaging and electronic document storage, automated data entry, and citizen access via the internet to facilitate the processing of juror candidates. While historically approximately 1,200 jurors are summonsed each week, the amount has nearly doubled to ensure an adequate juror pool in response to the COVID-19 pandemic and willingness of citizens to participate in jury service. Given what we are seeing and hearing from the Courts these numbers will likely continue even after significant improvements to the COVID-19 pandemic occur. This is uncharted territory, so we do not yet know to what extent this significant increase will impact our overall workload and budget.

All of the above functions directly impact Superior Court's ability to proceed with hearings and trials. Each court calendar must be staffed with at least one courtroom clerk, and some high volume calendars require two clerks at a time. Courtroom Operations has been in a staffing crisis throughout 2021 which has continued into 2022. With increases in the number of judicial officers the division will face greater difficulties in covering courtrooms with properly trained staff. An adequate number of courtroom clerks is required to prevent case cancellations or delays and allows for the efficient operations of the justice system, both civil and criminal; this decreases liability to the County, reduces costs to the County and litigants, and promotes "public safety and access to justice" as expected by Snohomish County citizens.

**Snohomish County**  
**2023 Budget - Executive Recommended**

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 700 County Clerk

**Department:** 37 Clerk

**Program:** 236 Customer Service

**Program Description:**

The Customer Services Division ensures access to court records for the court, government agencies, law and justice agencies, and the public. This division provides direct assistance to the general public in person, over the phone, via email and through the mail. In 2021, customer service assisted over 31,000 customers telephonically, processed over 8,300 electronic and mail requests for case information, and prepared over 5,500 ex parte requests to present to Judicial Officers for signature (the latter of which generated over \$163,000 in 2021. Other mandated duties include issuing writs, subpoenas, warrants (arrest, search and Governor's), Letters of Office in minor and adult guardianships, and Letters Testamentary and Letters of Administration in probate matters. This division performs records research regardless of the age or status of a case for court records dating back to the 1800's.

Pursuant to RCW 7.105 , the Court Services Division provides specialized information on protection orders and assistance to victims of domestic violence (DV), harassment, stalking, sexual assault, vulnerable adults seeking protection from predators, and extreme risk protection orders. Protection order services include meeting one-on-one with victims to provide procedural information, court forms, and instructional materials regarding court processes; reviewing and processing petitions received in person and electronically through Legal Atoms software; and attending protection order hearings to provide assistance to victims as well as the court. Staff ensure expedient data entry of protection orders in statewide databases and facilitates timely entry into state and federal law enforcement databases. This division works closely with the Snohomish County Sheriff's Office, Domestic Violence Services of Snohomish County, Tulalip and Stillaguamish Tribal Courts, Snohomish County DV Coalition, Providence Intervention Center for Assault and Abuse and other community organizations and law enforcement agencies. In 2021, 1,850 new protection order cases were filed and staff assisted nearly 7,000 customers telephonically and responded to 15,400 customer inquiries via email.

The Courthouse Facilitator Program is authorized under RCW 26.12.240. Facilitators provide assistance to citizens who are not represented by attorneys in legal matters such as divorce, legal separation, invalidity of marriage, modification of parenting plans or child support, third party custody, parentage actions and guardianship cases. Assistance provided covers court practices, information in completing complicated court forms (a simple dissolution has over 125 pages), reviewing court documents for completeness, assisting with scheduling hearings and interpreters, calculating child support and providing referrals to other agencies. Over 3,540 new domestic cases were filed in 2021. Historically, over 65 percent of these cases have at least one party who is self-represented. The Facilitators provide services via individual appointments (over 940 hours of scheduled appointments for over 600 litigants), on a walk-in basis (1,850 customers), telephone inquiries (12,000) and attend court hearings to provide assistance (1,336 hearings). These services account for just over 16,680 customer contacts and saves the judiciary a significant amount of time by helping to ensure that litigants are prepared for their hearings.

**Department:** 37 Clerk

**Program:** 235 Courtroom Operations

**Program Description:**

This program focuses on activities related to chemical dependency and mental health therapeutic courts consisting of drug courts, involuntary treatment act (ITA) and drug offense sentencing alternatives. The Chemical Dependency/Mental Health (CDMH) .1% Sales Tax provides the funding for courtroom clerks to attend all hearings and trials to prepare complex and detailed, contemporaneous minutes and exhibit indexes. In addition, courtroom clerks maintain control of all exhibits, accept, distribute and file court documents received, and act as liaison and provide assistance to Judicial Officers, the public and attorneys on behalf of the Clerk's Office.

Our Case Management staff funded through this program provide accurate and timely mandated processing and distribution of court documents filed in therapeutic courts which includes preserving the integrity and security of those documents in perpetuity. Case documents are indexed and stored electronically in the State's case and document management system (Odyssey). These divisions have stringent document and information processing guidelines and timelines which are strictly adhered to, ensuring the timely availability of and access to court records by the court, government agencies, legal community, and the public.

**Program Description**

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 102 Special Detention

**Department:** 38 Sheriff's Corrections Bureau

**Program:** 321 Special Detention

**Program Description:**

The Special Detention program represents funding to support the Classification Unit within the Sheriff's Correctional Facility. Classification staff provide assessments for individuals based on the principles of the Northpointe system, which uses the following criteria to determine appropriate security levels assigned to each inmate:

- Alcohol or drug withdrawal
- Physical or mental disability
- Current charges
- Criminal history
- Escape history
- Warrants/Detainers
- Behavior (including prison)
- MREA factors
- Prior housing in our facility

This process is vital to ensure each inmate is housed in the most safe and secure manner. Our Classification staff work constantly to review and monitor both inmate behavior and how inmates are housed in the facility to best utilize our housing matrix. Classification is also responsible for conducting inmate discipline hearings, reviewing inmates placed in restrictive housing, and monitoring keep separate issues. Classification also screens inmates for inmate worker and in-custody programming.

**Division:** 204 Support Services

**Department:** 38 Sheriff's Corrections Bureau

**Program:** 364 Medical Services

**Program Description:**

The Medical Services program represents the General Fund budgetary impact of our Health Services Division, providing inmate care within the jail facility. We are staffed with certified medical personnel and provide all mandated medical, dental and psychiatric care. Staff interface with community physicians and facilities; conduct court ordered medical procedures; and perform assessments focusing on communicable and sexually transmitted diseases. Effective operation of the division requires frequent communication with staff, prisoners, courts, police agencies, local hospitals and agencies. The mental health unit performs assessments and monitoring of mentally ill prisoners with the assistance of the contract psychiatric nurse practitioner, who oversees use of psychotropic medications and evaluation of the more seriously mentally ill.

**Division:** 124 1/10% Sales Tax

**Department:** 38 Sheriff's Corrections Bureau

**Program:** 331 Detention

**Program Description:**

This program captures costs in the Snohomish County Sheriff's Corrections Bureau that are related to supporting those individual with mental health needs and are paid by CDMH Sales Tax in Fund 124.

The mental health of those booked and held at the Snohomish County Jail continues to be an issue. There is an increasing number of individuals who require assessments, ongoing care, and transition planning residing in the jail. Between 2010 and 2012 bookings rose approximately 8 percent. At the same time, the average daily population (ADP) increased a bit more than 1 percent. However, the impact on mental health professionals (MHPs) has been significantly greater. Staff and community-based referrals for MHPs rose nearly 38 percent during that time. Face-to-face contacts between MHPs and inmates have increased over 6 percent and suicide evaluations are up nearly 47 percent. At the same time, serious suicide or self harm attempts increased by approximately 31 percent. Inmate release plans have also increased – up 28 percent from 2010 to 2012. The first four months of 2013 reflect a continued rise in need for the services of MHPs. The 2013 monthly totals of referrals, contacts, and evaluations are all well above the monthly averages of previous years. Perhaps most important of all, the aforementioned functions are merely stopgap assessments. They do not reflect any efforts for ongoing care, transition planning, release planning, and continuing care efforts. The existing four MHPs are stretched extremely thin just doing the very basics in terms of dealing with the multiplicity of mental health concerns that present themselves at the booking door.

Also missing from the statistical picture is the necessity for coverage. Currently, the four MHPs attempt to cover the busy time of the day - approximately 0800 - 2200 hours - when inmates are most available for interaction. This leaves the remaining hours of the day wanting for a mental health resource. While the MHPs take a turn at being on call, this is not a true substitute for having a trained, skilled mental health professional onsite to evaluate an individual in booking or in a module. While there are some times where on call may be appropriate - Corrections must provide late Swing Shift and weekends with increased MHP coverage.

Cost estimates are based on what is known about the cost of providing inmate medical care at this time. Changes in legislation at the State and Federal level have the potential to impact the cost of medical services. Estimates are based on average daily population of 1,200 inmates.

**Fund/Subfund:** 002 / 002 General Fund

**Division:** 300 DEM Operations

**Department:** 39 Emergency Management

**Program:** 310 DEM Operations

**Program Description:**

Snohomish County's Department of Emergency Management is a coordinating agency that works with jurisdictions and partner agencies to create a framework within which the County's communities reduce their vulnerability to hazards and cope with disasters. Our program adheres to the accepted principles of emergency management: Comprehensive, progressive, risk-driven, integrated, collaborative, coordinated, flexible, and professional. In addition to fulfilling this responsibility for unincorporated Snohomish County, we also maintain interlocal agreements (ILAs) to provide emergency management services with 19 towns, cities, and tribes within Snohomish County.

DEM's staff perform work in all five phases of emergency management. Our mitigation and prevention efforts focus on preventing hazards or minimizing the impact of disasters that are not preventable. Activities within these two areas include organizing the Local Emergency Planning Committee (LEPC), which deals specifically with hazardous materials, and maintaining the Snohomish County Hazard Mitigation Plan (HMP). The HMP is a multi-jurisdictional plan comprised of 39 partners that contains an in-depth analysis of the County's natural hazards and coordinates the partner jurisdictions' strategies and actions proposed to address the vulnerabilities identified by that analysis. The HMP also affords Snohomish County access to federal pre- and post-disaster mitigation grant funds.

Planning, training and exercising form the cornerstone of the preparedness phase, which focuses on our readiness to respond to, and recover from, all disasters. DEM staff work with local, regional, state, and federal partners in a continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action. We also support several active groups of volunteers, including the Snohomish County Auxiliary Communications Services. This dedicated group of volunteer HAM radio operators provide a unique communications capability throughout the county and work diligently to ensure that the communications equipment in our coordination center and on our vehicles functions properly.

The response phase consists of the actions taken immediately before, during, and immediately after an incident occurs. During this phase our focus is on life-saving and life-sustaining actions, followed by the protection of property and the conservation of the environment and our economy. DEM maintains the Snohomish County Emergency Coordination Center, which is the physical place from which multi-agency and multi-jurisdictional coordination occurs during disasters. At the ECC we process resource requests, develop situational awareness and a common operating picture, coordinate the dissemination of public information, and act as the interface between local jurisdictions and state and federal disaster support. DEM also maintains a 24/7 duty officer who is available to facilitate resource needs for smaller-scale incidents and provide alerts and/or warning using our AlertSense notification system. When requested, we also deploy our communications vehicle and/or our command vans.

The final phase, recovery, consists of those activities that continue (in some cases, for years) beyond the emergency period. These include measures needed to restore critical community functions and begin to manage stabilization efforts. The recovery phase begins immediately after the threat to human life has subsided and the goal of the recovery phase is to bring the affected area to its "new normal." During this phase, DEM staff collect and report damage assessment information related to

government and private property; assist with the establishment of Disaster Resource Centers (DRCs); and facilitate the provision of other disaster relief programs to residents. We coordinate these disaster relief activities at the community level in conjunction with Snohomish County Human Services and other local agencies and organizations through the Snohomish County Community Organizations Active in Disaster.

In addition to all of this, Snohomish County DEM is an active partner in the Seattle-Metro Urban Area Security Initiative (UASI) and Homeland Security Region #1 (HLS R1). The Seattle UASI group is made up of representatives from King, Pierce, and Snohomish Counties, along with the cities of Bellevue and Seattle. Our focus is primarily providing equipment and training for homeland security needs, including funding the upgrade to the Snohomish County Sheriff's Office Search and Rescue helicopter (SNOHAWK 10). Snohomish, San Juan, Island, Whatcom, and Skagit Counties form HLS R1. Snohomish County acts as the fiduciary agent for this region's State Homeland Security Grant Program allocation and has formed very strong relationships with the other jurisdictions throughout the five-county footprint. DEM staff also represent Snohomish County on a number of other state and regional endeavors working to address issues such as the sustainability of the state's emergency management system and enhancing community resilience to emerging hazards such as climate change.

**Fund 508 – Employee Benefits 2023 Budgeted Rates**➤ Health Insurance Rates

- The starting point for health insurance rates is the current 2022 plan year rates, which have been developed by the County's actuary. These rates will still be effective January and February of 2023. For March-December 2023, an estimated composite premium is used based upon advice from our actuarial consultant. Once the estimated rates are calculated, we then examine the premium-sharing arrangements with the County's various employee groups/bargaining units to determine how much of the premium increase will be covered by the County and how much by the employees.

➤ Admin Fee

- This fee is \$40/employee/month, paid for by departments and outside districts who subscribe to the County's benefit plans. This covers the cost of administering the benefits, including internal county costs, actuarial and brokerage support, Wellness program, EAP program, Section 125 plan administration, and other miscellaneous administrative costs.

Other plan component changes based on advice from the County's actuarial consultant include:

➤ Vision

- The 2023 budgeted vision premium assumes 3% increase over the 2022 premium.

➤ Dental, Life/AD&D, Long Term Disability

- Dental: estimated 5% increase over the 2022 plan year rates, for the dental rates that will be effective March 2023.
- Life/AD&D: no increase in Life/AD&D premiums is anticipated from the 2022 to the 2023 budget.
- Long Term Disability: The cost of this benefit is a calculation based on a percentage of covered payroll (e.g., an employee's salary). This rate for the 2023 plan year is projected at .230%.

Note - estimated revenues/expenditures are included for the upcoming integration of the Health District to a county department.

# INSURANCE RATE DEVELOPMENT

## 2023 BUDGET

### Purpose

- To enhance understanding of value of managing risk in each department, especially those generating losses.
- To reduce loss experience by motivating departments with poor or average loss experience to participate in and improve loss prevention efforts.
- To reward favorable loss experience
- To develop Fund Reserve policy to ensure adequate provision of Reserves.
- To distribute Risk Management costs by using a consistent and meaningful allocation model.

### Elements of Risk Premiums:

- General Liability
- Specific County Purchased Policies
- Risk Management Program
- Workers Compensation
- Unemployment Compensation

### Determination of Premium Amounts

<b>General Liability</b>	<ul style="list-style-type: none"><li>• Based on actuarial recommendation</li><li>• Prosecutor Tort Division costs (2022 budget + inflation).</li><li>• Additional amount for estimated anticipated losses in 2023</li></ul>
<b>County Purchased Policies</b>	Projected 2023 premium costs of all County policies.
<b>Risk Management</b>	Actual Risk Management Division costs (2021 actuals + inflation factors).
<b>Workers Compensation</b>	Based on actuarial recommendation + inflation
<b>Unemployment Compensation</b>	Based on current trending; allocated on 4-year average of actual incurred claim cost.

### Distribution of Costs Methodology

#### General Liability

A 4-year average claim experience provides the basis by which projected costs are allocated to departments. These claims paid by department are reported by the Prosecuting Attorney. Incurred claims and Prosecuting Attorney costs are weighted on a 70% / 30% basis, respectively. Changes in departments between years are capped at a max of 40% & min of -20% to smooth out impacts of large anomalies.

Specific County Purchased Policies are charged to the covered departments / programs based on actual policy costs.

Property Insurance Policies are charged to departments occupying County facilities based on square footage and property valuation.

Costs of the Finance Risk Management Division are distributed on the same basis as the General Liability distribution methodology

#### Workers Compensation

Workers Comp costs are based on actuarial loss forecast summary and distributed to departments based on a 4-year average claim cost experience.

Changes in departments between years are capped at a max of 40% & min of -20% to smooth out impacts of large anomalies.

#### Unemployment Compensation

1. The minimum amount is charged to all departments based on department wages.
2. Projected 2023 costs are allocated to the departments based on 4-yr average incurred costs.

**Snohomish County**  
**Fleet Services**  
**2023 Fleet (ER&R) Supplement**

---

As indicated in the Finance Department's 2023 Budget Instructions, *"Vehicle and equipment charges (ER&R) will be rolled forward from 2022 to 2023. ER&R will provide detail rate information to all departments. Changes to update your rates need to be made in priority packages. **Departments will be responsible to revise their rates as appropriate.**"*

**ER&R Overview**

- Total anticipated ER&R costs increased by 6% for 2023.
- Fuel costs are expected to ease slightly but remain high in 2023.
- Fleet shop labor rates remained the same from 2022 to 2023 are as follows:
  - Auto/Light-Duty/RadioShop, \$102.50/hr
  - Diesel/Heavy Equipment Shop, \$125.00/hr
  - Small Gas Powered Equipment, \$70.00/hr

**ER&R Rate Basis**

**Replacement Reserves:** ER&R rental rates are comprised of several components. A replacement cost component is based on the projected replacement cost in the year the asset is planned for replacement, billed incrementally (typically monthly) over the life of the asset. Funds collected are placed into the ER&R reserve fund to pay for future replacements. Remaining life projections are updated annually based on the most current utilization data available. Replacement timing is typically based on a miles or years threshold, and usually "whichever comes first".

**Operation and Maintenance:** Rates also include an O&M (operation and maintenance) component (generally a monthly or per-mile charge) based on the cost of operating and maintaining the asset (fuel, preventive maintenance, and repairs... things like oil changes, tire replacement, brake replacement, engine repairs, etc.). The 2023 O&M rate is based on 2021 quantities and expenditures for fuel, parts and labor, adjusted for 2023 prices; and is based on 2021 utilization. Using US Energy Information Administration (EIA) forecasts adjusted for Western Washington, and the County's contract discount, we are estimating fuel costs for 2023 at \$4.25/gallon for gasoline, \$4.85/gallon for diesel, and \$5.50/gallon for diesel exhaust fluid. The O&M cost for county vehicles is largely comprised of the price of fuel. Utilization is measured in terms of miles driven, and utilization projections for 2023 are based on 2021 actual utilization. **If you anticipate a change in utilization in 2023 due to project workload or increases in the services you provide, your department's budget may need to reflect that change accordingly. Please consult with Fleet Services.**

Fleet uses variable mark-ups on parts to fund the indirect costs of providing parts management services and to help cover stores and operations overhead. A fixed markup of \$0.35 per gallon on

fuel covers the cost of managing the fuel contract and accounting, and the physical management of County fueling facilities.

**Motor Pool/ER&R Services**

If your department uses re-renter vehicles, Motor Pool, or has department-owned vehicles that are fueled and/or maintained by Fleet Services, you will need to make appropriate adjustments to the ER&R expense budget provided in order to reflect that additional usage.

**Additional or Enhanced Vehicles/Equipment**

If you plan to purchase additional fleet equipment in 2023, please contact Roy Scalf, Fleet Services Director, directly (x 6061) for assistance in developing a cost estimate. Equipment valued over \$50,000 should be included in your CIP, under \$50k should be listed as "Other Capital" (see Exec. Order 08-02C, section 5.6). Additional vehicle/equipment needs should be included in a priority package from your department. For your convenience, attached is the justification form for additional/enhanced equipment. We encourage departments to review their vehicle utilization, and make use of Motor Pool vehicles before adding vehicles.

**Note:** It is possible that some vehicles may need to be redeployed from one department to another to reduce 2023 costs. Your department may be asked to use a redeployed vehicle rather than getting a new one to reduce the need to expend capital and to fully utilize existing resources.

If you have any questions regarding Fleet's rate structure, please call Roy Scalf, Fleet Services Director, at extension 6061, or Patrick Chen, Fleet Services Accounting Analyst at extension 6062. For questions, consultation or recommendations on new vehicles and equipment, contact Roy Scalf. For budget related questions, please refer to your budget analyst.

## New and Replacement Equipment Request Form

**Department/Division** \_\_\_\_\_ **Date** \_\_\_\_\_

**Contact Name** \_\_\_\_\_ **Phone** \_\_\_\_\_

Please check the appropriate box

Equipment Type	Definitions
<input type="checkbox"/> New	Additional equipment for the Department's/Division.
<input type="checkbox"/> Replacement	Comparable or "downsized" replacement equipment or vehicle.
<input type="checkbox"/> Enhanced	Replacement equipment, but other capabilities are now requested.
<input type="checkbox"/> Rerenter	A vehicle replaced, but retained for temporary use.

**Equipment Requirements- Check all that apply**

- ☐ 2-Wheel Drive      ☐ Diesel      ☐ Two-Door      ☐ Automobile      ☐ Pickup  
☐ 4-Wheel Drive      ☐ Gas      ☐ Four-Door      ☐ Station Wagon      ☐ Flatbed  
 Maximum No. of Passengers \_\_\_\_\_ ☐ Sport Utility      ☐ Passenger Van      ☐ Cargo Van  
☐ Equipment (Specify type \_\_\_\_\_)

Maximum Payload \_\_\_\_\_

Date Required \_\_\_\_\_ End Date \_\_\_\_\_ (Required for renters)

**List other job requirement options or features desired.**

---

---

---

---

**Justification (Be specific regarding benefits (savings/operational) the equipment provides):**

### Department Approval

☐ Yes      ☐ No

## Fleet Manager Review

☐ Yes      ☐ No

## Executive Approval

## Director

## Fleet Manager

<b>Additional Comments: (Fleet Manager/Executive Only)</b>

## 2022 Budget Process

### Indirect Cost Allocation Plan (ICAP) Rate Overview & Summary

The development of the 2022 Indirect Cost Allocation Plan (ICAP) was consistent with the approach used for the 2021 ICAP. A **2.44%** annual inflation/true-up factor was applied to 2020 actual costs for the 2022 ICAP allocations. 2022 overall recovery of indirect costs increased 5.19% compared to 2021.

#### Indirect Cost Allocation Rates

<u>Year</u>		<u>Rate</u>
2020	Adopted	44.13%
2021	Adopted	44.64%
2022	Adopted	41.77%
2023	Recommended	40.85%

#### ICAP Adjustment

108 Commissary – ICAP plus inflation factor allocated \$41,068 to this fund. The bulk of these costs are based on metrics for the Treasurer and Financial Operations. Payments to the vendors are set up and audited daily by the department in Cayenta. These are consolidated into a much smaller number of warrants that are actually issued and processed by the Central Services departments. The indirect cost amount actually charged to the fund will be reduced by \$<22,295>. Total Commissary Fund expenditures in 2021 were \$619,214.

#### Underlying Factors for Rate Increase/Decrease

The 2022 ICAP recovery increased by approximately **765,876** or **9.98%** compared to 2022, due to two major factors.

First, central service departments expenditures for 2021 Actuals increased approximately **\$942,389** from 2020 Actuals, spread across all paying and non-paying funds.

The second factor impacting the 2023 ICAP for paying Departments is the inclusion of an annual inflation factor of **5.93%** and a true up of 2021 actual expenditures to the 2021 budgeted ICAP. The true up resulted in an increase in the amount of ICAP for 2023 of **\$797,180** or **4.27%**.

The resulting factor (inflation plus true up) total is **10.19%**. The increase resulting from this (inflation plus true up) factor is approximately **\$772,001** for paying Departments.

#### Departmental Variations

Allocation of Executive, Council, and Finance Planning central service costs are impacted by any significant variance between a department or program's 2020 and 2021 actual expenditures and use of the allocation metrics. Variances in a Department's ICAP allocation can also result from any significant variances in the relationship between a department or program's expenditures and the County as a whole. The pattern of rate fluctuations for individual departments and/or programs is consistent with prior years. The costs of these central service providers are allocated based on 2021 actual expenditures of each department.

## Allocation of 2023 Central Service Costs Based on 2021 Actual Costs

Central Service	2021 Actuals	To Be Allocated in 2023 Budget	Excluded from 2023 Allocation	% FTE Allocated
Executive	\$ 3,098,500	\$ 2,213,214	\$ 885,286	71.43%

**SNOHOMISH COUNTY FINANCE DEPARTMENT  
2022 BUDGET PROCESS  
INDIRECT COST ALLOCATION METHODOLOGY**

## 1. Cost Allocation Plan defined

A cost allocation plan is a way for a department to recover the cost of providing services. Some departments such as IT, ER&R, and Facilities Management directly charge other departments for the cost of providing services to them, through rates. This is a **Direct Cost Allocation Plan**.

An **Indirect Cost Allocation Plan** (ICAP) provides a way to recover some of the cost of providing services through indirect cost charges. Our ICAP allows recovery from non-General Fund programs for support provided by our General Fund Central Service departments, including Finance, HR, the Treasurer, the PA, the Executive and Council.

## 2. Why we need an Indirect Cost Allocation Plan

There are three main reasons why we use an Indirect Cost Allocation Plan:

- By recovering some of these costs of our Central Service departments, we can generate revenue for General Fund
- The County is mandated to have a documented, consistent, reasonable and equitable method to allocate costs, that adheres to 2 CFR 225 (formerly OMB Circular A-87) guidelines, "Cost Principles for State, Local, and Indian Tribal Governments"
- To comply with Washington State Auditor as they audit this plan each year.

## 3. Authority

The Budget indirect cost charges and the cost allocation plan were developed under 2 CFR 225 (formerly OMB Circular A-87) guidelines, Cost Principles for State, Local, and Indian Tribal Governments.

2 CFR 225 (A-87), Cost Principles for State, Local, and Indian Tribal Governments, establishes principles for determining the allowable costs incurred by state, local, and federally recognized Indian tribal governments under grants, cost-reimbursement contracts, and other agreements with federal agencies. These principles explain which types of costs may be reimbursed under a covered federal award. They are designed to provide that the federal government bears its fair share of direct and indirect costs for funded awards, except where restricted or prohibited by law.

In addition to 2 CFR 225 (A-87), local governments must also meet the requirements of state law, RCW 43.09.210 in Washington State. Per the Washington State Auditor, the plan design should provide a **consistent, reasonable and equitable** method to allocate costs. (Carol Ehlinger, Program Manager with the

**SNOHOMISH COUNTY FINANCE DEPARTMENT  
2022 BUDGET PROCESS  
INDIRECT COST ALLOCATION METHODOLOGY**

Washington State Auditor's Office, ("Cost Allocation Plans", Puget Sound Finance Officers Association, May 13, 2015, Tukwila, WA)

Generally, indirect costs are allocated to programs in proportion to the benefit received by each program activity. To produce an equitable result in relation to the relative benefits derived, allocation bases for distribution of costs were selected to best reflect the service provided.

- The allocation plan of central services charges is consistent to all programs.
- Any change to the distribution methodology is applied to all programs.
- Some programs may not be billed because of legal or other constraints.
- The 2023 allocation plan is based 2021 actuals.
- 2021 expenditures for central services costs are adjusted for anticipated inflation to approximate expected 2023 Central Service expenditures.
- The 2023 allocation plan is adjusted for a True Up of 2021 actuals to 2021 budget.

#### **4. Basis for Distribution of Central Services**

Executive and Council:

- Elected officials and aides and their related costs are excluded from allocable costs.
- Costs are allocated based on the 2021 actual expenditures of each department.

Financial Planning (Budget & Systems):

- Costs are allocated based on the 2021 actual expenditures of each department.

Financial Operations (Accounting):

- Costs are allocated based on the average number of invoices processed each month.
- $2021 \text{ Actual Expenditures} / \text{Total \# of Invoices} \times \text{Invoices processed by each department/program in 2021}$ .

Purchasing:

- Costs are allocated based upon the average number of purchase orders initiated each month by departments.
- $2021 \text{ Actual Expenditures} / \text{Total \# of Purchase Orders} \times \text{Purchase Orders issued by each department/program in 2021}$ .

Human Resources:

- Costs are allocated based on the departments' number of FTEs.
- $2021 \text{ Actual Expenditures} / \text{Total \# of 2021 FTEs} \times \text{\# of department/program FTEs in 2021 adopted budget}$ .

Treasurer:

- Costs of allocable activities are allocated based on the average number of invoices processed each month.
- $2021 \text{ Actual Expenditures} / \text{Total \# of Invoices} \times \text{Invoices processed by each department/program in 2021}$ .

Prosecuting Attorney – Civil:

- Costs of the Civil Division, excluding Family Support and ITA, are allocable and are distributed to serviced departments based on the actual hours spent servicing each department.
- $2021 \text{ Actual Expenditures} / \text{Total \# of Hours} \times \text{hours of service provided to each department/program in 2021}$ .

**SNOHOMISH COUNTY FINANCE DEPARTMENT  
2022 BUDGET PROCESS  
INDIRECT COST ALLOCATION METHODOLOGY**

To summarize the allocation metrics:

Purchasing	Number of POs
HR	Number of FTEs
Finance Operations	Number of invoices processed
Treasurer	Number of invoices processed
PA Civil	Actual hours of service provided
Executive and Council	Actual expenditure costs
Finance Budget	Actual expenditure costs

## 5. Rules and Restrictions for Payer and Non-Payer

- General Fund
- 300 Capital/Multi Year Funds (stopped in 2005), (with the exception of Department 09, Fund 309 Program 949 included starting with 2017 budget)
- Fund 130 Grant Control – due to restrictions that many grants have for paying administrative costs such as those allocated by the ICAP
- Dept 20 Pass Through Grants
- Debt Service
- Outside Districts – Treasurer costs are allocated to the Outside Districts. Interest earnings retained by the county on investments are assumed to cover cost of providing financial services. Finance Operations charges districts directly for accounting services.

INDIRECT COST ALLOCATION METHODOLOGY**

**7. Process**

The ICAP allocation model consists of two parts – an Access database and an Excel spreadsheet.

The ICAP Access database cannot be updated until Accounting has finalized prior year totals (mid to late April). The database must be readied for the coming fiscal year before the rate model can be completed in the spreadsheet. Timing can be tight, as final ICAP allocations must be done and uploaded in BDT (by mid-May) in preparation for releasing the BDT June 1.

The accounting data (from Cayenta), some payroll data (coming from High Line, but filtered through the BDT), and Prior Year Data (originally from Cayenta, but filtered through the BDT) are all gathered in the ICAP database, along with hours from the PA's office.

The FTE allocation is verified, and then the ICAP Database will go through an iteration to allocate the Central Service costs. It then goes through a second allocation to re-allocate the costs allotted to the Central Service departments in the first allocation.

The allocation data is then exported from the database into the Excel spreadsheet rate model, where further adjustments and calculations will take place, preparing the data that will then be uploaded into the BDT.

# Snohomish County

## Department of Information Technology

### 2023 Budget – IT Supplemental Information

This supplement to the 2023 Budget instructions is to assist in budget preparation and technology planning for 2023. Departmental detail of metric counts and allocations are being individually distributed to departments through IT's SnoCo Connect site: <https://snoco.sharepoint.com/DoIT/Pages/2023Rates.aspx>. If you have questions concerning the rates or allocation process, please contact your department's budget analyst or IT Fiscal Resources Analyst, Bao Dinh at 425-388-7043.

<p><b>Allocation Overview</b></p> <p>Department of Information Technology provides services clustered into seven distinct service lines. To ensure inter-fund costs are distributed in a fair, equitable manner, services are allocated using the following process:</p> <ol style="list-style-type: none"><li>1. Costs associated with each service at existing levels are calculated and assigned metrics.</li><li>2. Metrics associated with each service are collected by department. Metrics may include items such as FTEs, workstations, licensed users, phone numbers, etc. Certain services may be associated with more than one metric.</li><li>3. Costs are then allocated to departments in proportion to their metric counts as a percentage of all county users.</li></ol> <p><b>Not included in IT Rates</b></p> <p>The following services are budgeted separately in a department, rather than being allocated via rates:</p> <ul style="list-style-type: none"><li>• Printing and copy services</li><li>• Mail services, postage</li><li>• Air cards, Tablets, iPhone and Android wireless devices and monthly service</li><li>• Special projects and advanced technical training.</li></ul> <p>For these budget line items, please review your department's current monthly bills to forecast the 2023 budget requirement, taking into account any planned changes during the remainder of 2022.</p>	<p><b>Additional Items to Consider</b></p> <p>Technology Replacement Program (TRP) for PCs and laptops has been partially funded in the 2023 rates (25%) for replacement of only the oldest machines.</p> <p>Additional service catalog items may be requested. If you anticipate requesting these items, include them in your budget with inter-fund account codes (DACs) <b>other than</b> IT Inter-fund object code 9503.</p> <p>Special IT projects that involve capital and staff investment must be requested by individual departments. Priority Packages should be reviewed with IT management prior to submittal through the budget process.</p> <p>Be sure to include budget requests for not only the initial outlay, but also any additional ongoing operating costs that result from the investment in new technology.</p> <p><b>Priority Package Review</b></p> <p>IT is available to review all technology Priority Packages in accordance with SCC 2.350. Please plan to allow our department at least two weeks to review and respond to any priority package that includes a significant technology component. We are eager to assist with technology planning. Contact our Fiscal Resources Analyst or IT Management to initiate the review.</p>
--	---

## **2023 Information Services Fund 505**

### Operational Excellence Program

This program has moved from the Training and Development Fund 512 to a new sub fund in Information Services Fund 505. In addition, the five Information Services FTEs that have been working in this program on a functional basis have been reallocated to the new sub fund. The program remains in Nondepartmental.

The total costs budgeted in the for this program have been funded through a rate allocation model and are now part of the Interfund IT charge. Costs are allocated based on FTE counts by department, fund and program as a percentage of the total FTEs.

The allocation methodology in 2023 was the same as in 2022. The reallocation of the five FTEs from Information Services was done after the rates were developed so those costs were allocated by Information Services as in prior years.

## 2023 Public Records Office Interfund Rates

The Public Records Office (PRO) resides in an internal service fund (506) and is in the Department of Finance. It was transferred from the Department of Information Technology in the 2019 Adopted Budget. It is funded by a rate plan which receives contributions from all County Departments and Offices. Allocation of annual rates is based upon FTEs.

## 2023 Security Services Interfund Rates

The Security Services internal service fund receives contributions from all County Departments and Offices. The level of services received by those departments is varied, and allocation of annual rates is based upon two factors that represent those differences.

First, the cost of providing campus security by the Marshall FTEs and Allied Security contract employees is allocated by the total square feet of departments receiving security services, but only in the buildings that are monitored. Those departments not receiving direct security services at their location are not charged this component. These departments include Airport, DCNR-Parks, and Emergency Management.

Second, the cost of administration of the program is allocated to all Departments, the amount determined by a department's FTE count. Currently, administration costs consist of one supervisor to provide general coordination of all services and one security support specialist to provide keyless entry services.

Third, the cost of 3.0 Marshal FTEs is allocated directly to the District Courts, and the cost for lobby screening is allocated directly to Sheriff's Office Corrections based upon services added during 2014.

# **Snohomish County**

## **Facilities & Fleet Management**

### **2023 Space Allocation Supplement**

---

This supplement to the budget instructions is designed to assist you in identifying space allocation budget requirements in preparing your budgets and help assure that you have planned for space rent charges in 2023. Your space allocation costs have already uploaded to the Budget Development Tool (BDT) by the Finance Department.

It is each department's responsibility to allocate space charges amongst their programs for County Campus buildings, County maintained off-campus building space, and leased space occupied by the department.

Should there be any questions about your square footage and related charges, please contact Lynda Thomas, Facilities & Fleet Management, at 388-3221. For questions related to the cost allocations, please contact Vanessa deSalome in Finance at 388-3855. For general questions about Facilities & Fleet Management, please contact Al Garcia at 388-3330.

#### **Space Allocation Overview**

The Department of Facilities space allocations, surcharges and debt recovery charges support the cost of occupying space in county buildings and facilities in several key service areas as follows:

- ◇ Facilities Maintenance - Mechanical, Electrical, Carpentry, Heating/Ventilation/Air Conditioning, Utilities, Landscape Maintenance, Painting, Facilities Repair, Architectural and Planning services, Administration and Janitorial Services.
- ◇ Property Management – Administrative and support services
- ◇ Bond Debt Service Surcharge – To meet county debt repayment need for capital projects and major building repairs
- ◇ CRI Capital Recovery – Required costs to meet county debt repayment needs related to facilities construction and remodel of county buildings.

#### **Space Allocation Rate Calculations**

The County has established mechanisms to equitably recover costs for these facilities services through space allocations and surcharges. The "Interfund Space Rent Charge" supports the costs of occupying County buildings and facilities.

The "Interfund Space Rent Charge" is an annual charge that is calculated using the projected costs of facilities operations divided by the amount of square footage each department is projected to occupy throughout 2023. There are several components of this. These include facilities maintenance, administration/planning and property management services. Each of these costs has been allocated according to square footage in all county-owned buildings. Maintenance costs have been allocated to the administration buildings, courthouse, records/evidence building, the multi-service building, Mission, and DJJC. Facilities administration and property management have been allocated to all county-owned/occupied building space plus corrections facilities. Excluded from this total space amount is "exempt" space which includes areas such as shared conference rooms, stairways, lobbies, public restrooms, etc.

Off-campus Public Works buildings have their facilities related charges directly allocated to their budgets. Other facilities (Cascade/Evergreen/South District Courts, Emergency Management, Fleet Buildings, Medical Examiner, Sheriff's East Precinct, Cathcart Gun Range and Impound Lot) have their janitorial/utilities and/or maintenance charges directly allocated to their budgets.

The "Capital Recovery Charge" has been allocated only to the administrative buildings, courthouse, and records/evidence building. The "Bond Recovery Surcharge" and "Capital Reserve" rates have been allocated to county campus buildings, DJJC, & Records Building as well as the outlying District Courts and Detention Facilities.

The Capital Recovery and Bond Recovery Surcharge rates are calculated by multiplying the amount of square footage each department is projected to occupy by an established surcharge rate.

**Additionally, any department who occupies leased space must also include this cost in an applicable priority package for that department's budget. Leased space costs will not be pre-loaded into the BDT.**

#### **Space Allocation Costs**

The total proposed base Space Rent for 2023 is **\$14.70** per square foot for space in the administration buildings and the courthouse. The components of this are maintenance charge of \$14.25 per square foot and Property Mgmt charge of \$0.45 per square foot. The Jail buildings have a base of **\$16.25** per square foot. The components of this are maintenance charge of \$15.80 per square foot and Property Mgmt charge of \$0.45 per square foot.

**For other county space:** DJJC, Multi-service & Mission building have a per-square foot charge of \$14.32 (has all the same components as the other space except for the capital recovery service charge). The Records/Evidence building has a per-square foot charge of \$14.70 (all the same components as the other space– the Records Building is also subject to the capital recovery service charge). Airport, DEM, Medical Examiner, Parks Admin, Sheriff's Facilities, Cascade, Evergreen and South District Courts have a per-square foot charge of \$0.45 for Property Management services; other services are directly allocated.

**The Bond Debt Service rate:** The bond recovery surcharge for most county buildings is **\$0.32** per square foot. The exceptions are for out-lying District courts (**\$0.83** per square foot), DJJC/Multi-Service Center (**\$0.69** per square foot) and for Jail Buildings (**\$1.36** per square foot).

**The Capital Reserve rate for 2023 is \$2.31 per square foot for facility improvements.**

**The Capital Recovery Charge for 2023 is \$13.89 per square foot.** (Administration, Courthouse and Records Buildings)

**NOTE:** The capital recovery charge component is not included in general fund program budgets, the allocation amount is for informational purposes only; debt recovery charges from general fund programs are budgeted aggregately in Non- departmental.

## **2023 County Training & Development Fund 512**

### **Human Resources**

The total costs of training budgeted in the training internal services fund for this program have been allocated to all County departments based on FTE counts by department, fund and program as a percentage of the total County FTEs. FTEs in Fund 130 Grant Control are excluded from the allocation.

The 2023 rates are up 2.9% when compared to 2022 (large use of fund balance in 2022 lowered department contributions). The cost per FTE is Approximately \$14.63 per month. This calculation is based on 3127.875 FTEs and a total cost of \$622,879 for salaries, benefits, trainings, and indirect costs. \$73,930 of fund balance is used in 2023 – total allocated to departments is \$548,949.

This training allocation is charged monthly to all County departments which have FTEs. These funds are spent on 2.5 full-time FTEs, contracted trainings, as well as e-Learning management for countywide training.

Dave Somers  
County Executive

To: Megan Dunn, Council Chair

CC: Councilmembers Mead, Nehring, and Low  
Eric Parks, Deputy ExecutiveFrom: Nathan Kennedy, Finance Director *NK*

Subject: 2023 Executive Recommended Budget Document Transmittal

This memo transmits the legislative actions, reports and information related to the 2023 Executive Recommended Budget. Legislative actions are summarized in *Exhibit 1 – 2023 Ordinance ECAF List*. Additional reports are listed in *Exhibit 2 - 2023 Budget Process List of Documents to Council*. Following is additional information regarding the 2023 Executive Recommended Budget:

**Reorganizations**

Snohomish County Code requires a list of major reorganizations to be submitted with the budget. The 2023 Executive Recommended Budget includes the following:

- New department 15 Health Department created for integration of the Snohomish County Health District
- Operational Excellence consolidated with 5 FTEs from Information Technology in 16 Nondepartmental
- Noxious Weed Program from 06 Public Works to 09 DCNR
- Office of Social Justice appropriations that were previously in Nondepartmental will be accounted for in the Executive's Office

The Executive's 2023 Recommended Budget will incorporate all of these changes.

Please note although the Executive's 2023 Recommended Budget does include the appropriations for the newly created Health Department, the actual establishment of the new Health Department Fund is accomplished by the ordinance prepared by the Prosecuting Attorney's Office. This ordinance will not only establish the fund but establish the powers and authority of the new Health Department. This ordinance will be sent up individually and separately from all of the other Council actions that are captured under this transmittal letter.

**Five-Year Projections**

- As required by Snohomish County Code, five-year projections are included with the recommended budget. The authors of each projection are available to respond to Council questions regarding their analysis.

**General Fund Reserves and Liquidity**

- Chapter 4.26.065 (2) requires that the information accompanying the budget shall state the amount of available reserves in the General Fund by dollar amount and as a percentage of prior year revenues. It also requires a calculation of the amount of available reserves needed for liquidity purposes.

Furthermore SCC 4.116.040 and 4.26.065 require the Executive budget to include a recommendation for a General Fund contribution to the revenue stabilization fund if reserves exceed liquidity needs.

#### *General Fund Reserves*

The Finance Department has reviewed available reserves in the General Fund. The following matrix describes audited, projected and recommended fund balance levels.

Date and Source of Fund Balance Amount	Total Fund Balance	Revenue Stabilization Fund Balance	Uncommitted Fund Balance	Uncommitted %	Total %
12/31/2020 Audited	\$64,310,320	\$-	\$64,310,320	24.58%	24.58%
12/31/2021 Audited	\$95,735,594	\$10,667,881	\$85,067,713	35.33%	39.76%
12/31/2022 Projected	\$98,119,720	\$12,039,612	\$86,080,108	28.24%	29.38%
12/31/2023 Recommended	\$80,608,331	\$13,226,576	\$67,381,755	24.56%	29.38%

#### *General Fund Liquidity*

- Per SCC 4.26.065 and SCC 4.116 General Fund liquidity needs are calculated annually, after the prior year is closed and audited by the State Auditor. This audit typically concludes at the end of the second quarter which is in-line with Executive Office preparation and submittal of the Executive recommended budget. The procedure for calculating General Fund liquidity needs utilizes the last four trailing period low points. Utilizing the trailing four periods provides a stable and predictable liquidity measurement. The required liquidity percentage represents the amount of cash reserves required to support General Fund operations without borrowing additional amounts from other funds or sources. Because revenues, expenditures and the timing of receipts and disbursements vary between days, months and years, the required liquidity percentages will change over time.
- The 2021 audited uncommitted fund balance of \$95,734,594 was calculated to be 35.33%, which exceeded the required calculated liquidity percentage of 14.02%. The 2022 Adopted Budget shifts \$1,371,731 into revenue stabilization, which results in a projected ending revenue stabilization amount of \$12,039,612 at the end of 2022. The strong 2021 ending fund balance position allows for an additional \$1,186,731 to be able to be shifted to revenue stabilization in 2023 to get to \$13,226,576 to achieve the 5% identified in SCC4.116.
- The liquidity calculation for the 2023 Budget is 14.02%, please see Exhibit 3 below for the methodology and detailed calculation.

#### **Federal and State Funding Assumptions**

- These assumptions vary by department. Specific grants are detailed in grant work plans that are included with department specific motions for Human Services, the Department of Emergency Management, the Department of Conservation & Natural Resources, the Sheriff's Office, the Prosecuting Attorney and Superior Court.

#### **Annexation Assumptions for 2023:**

- The Executive recommended budget does not adjust revenues or expenditures associated with annexation.

#### **County Debt Service Commitments:**

- The Finance Department provided detailed documentation that includes all County debt service commitments to Jim Martin, Legislative Analyst for the Council. The information provided to Mr. Martin will be useful to the Council in reviewing County debt service information.

Our team has worked hard to present all of the required and requested information for this budget package. If we have overlooked any required or necessary documents, please let us know. We look forward to responding to your questions and working with you on these 2023 Executive Recommended Budget documents.

### Exhibit 3

#### General Fund Liquidity Reserves Methodology and Analysis for 2023 Budget

##### Methodology:

1. Due to property tax cycles, the lowest month fund balances for the County's General Fund occur in March/April and September/October timeframe. Calculate the average of cash balances for the General Fund using the last four trailing quarters lowest days fund balance (in this case, 3/18/22, 10/11/21, 3/18/21, 10/20/20). These days are utilized because they precede end of month revenue activity just prior to property tax receipts.
2. Identify any interfund loans outstanding in the General Fund at the date of the cash balance.
3. Take beginning fund balance if fund balance is remaining fairly stable throughout the year. If not, take weighted beginning and ending fund balance.
4. Calculate required liquidity at measurement date by taking fund balance at the beginning of the year, less cash balance plus interfund loans at date of measurement.
5. Divide required liquidity by prior year actual or projected total revenue less interfund transfers to identify liquidity percentage.

##### Calculation for 2023:

###### 2023 Calculation & Table for letter

Date	18-Mar-22	11-Oct-21	18-Mar-21	20-Oct-20	Average
Day's Average Cash Balance	\$ 46,966,438	\$ 43,233,511	\$ 20,579,279	\$ 8,480,191	\$ 29,814,855
Interfund Loans Outstanding	\$ -	\$ -	\$ -	\$ -	\$ -
Beginning fund balance (uncommitted)	\$ 85,067,713	\$ 64,310,320	\$ 64,310,320	\$ 46,886,913	\$ 65,143,817
Amount of Fund Balance Required at January 1 to achieve end of year liquidity.	\$ 38,101,275	\$ 21,076,809	\$ 43,731,041	\$ 38,406,722	\$ 35,328,962
Prior Year Revenue less Interfund Transfers	\$ 264,531,517	\$240,792,230	\$240,792,230	\$261,586,387	\$251,925,591
Percentage of Prior Year Revenue Required for Fund Balance on January first	14.40%	8.75%	18.16%	14.68%	14.02%
Revenue Stabilization Fund retains reserves in excess of Liquidity up to a maximum of:	5.00%	5.00%	5.00%	5.00%	5.00%
Beginning Revenue stabilization	\$ 10,667,881			\$ 2,777,106	
Targeted Total General Fund Reserve					19.02%

## 2023 Budget -- Department Work Plan Summary

EXHIBIT # 7.20

## 01 - Executive

FILE ORD 22-059

**Department Work Plan : Department of Economic Development**

---

**I. Long Term Goals**

Promote the maintenance and enhancement of a healthy economy as envisioned in the County's comprehensive plan, countywide and general planning policies.

Encourage the retention, recruitment, expansion, and creation of businesses and jobs.

Support economic development by promoting education and training opportunities for the workforce and align human service delivery with employment opportunities.

Encourage sustainable use of resource areas for economic development, including agricultural, timber, and mineral resources as a sustainable provider of economic growth.

Develop an effective workforce system for Snohomish County businesses to compete locally, nationally, and globally, and support economic recovery in the County and throughout the region.

---

**II. Key Ongoing Core Functions**

Advance economic growth, diversification, and job creation through policy initiatives, programs, and projects to attract and retain businesses, encourage entrepreneurship, and create new markets and opportunities including international trade and investment.

Provide comprehensive information, consultation, marketing and other support services to county communities, businesses, higher education institutions, and other County constituencies in working together to advance economic development objectives.

Support economic development related to agriculture, farming, and timber communities.

Engage with businesses, economic development organizations, and local, state, federal, and international governments to ensure a friendly business environment and support community needs.

Lead efforts within county government to coordinate and advance economic development activities in a holistic manner.

Promote the diversification and growth in the areas of: (1) Trade and Business Development; (2) Aerospace; (3) Agriculture, Fisheries and Forest Products; (4) Technology; (5) Military and Defense; (6) Recreation and Tourism; (7) Energy and Sustainability; (8) Arts, Culture and Film; and (9) Education, Life Sciences, and Global Health. Recognizing that one important cross-industry and multi-sector priority is manufacturing.

Create better strategic alignment of workforce efforts across the county. Identify data-driven sector employment pathways in partnership with business, labor, the non-profit sector, and others. Implement measurable workforce development strategies beginning in the K-12 system. Institutionalize and empower the diverse elements of our workforce system to develop robust partnerships that leverage crosssystem resources and new investment.

#### Department Work Plan : Aging & Disability Services

---

## 2023 Budget -- Department Work Plan Summary

### 04 - Human Services

#### Department Work Plan : Aging & Disability Services

---

##### I. Long Term Goals

- A. Maintain and enhance the ability of disabled older and younger adults to live independently in spite of disabling illness or injuries. (CM)
  - B. Promote safe and healthy communities by assisting older adults in accessing, obtaining and effectively using necessary services which will enable them to maintain the highest level of independence in the least restrictive setting. (LTCA)
  - C. Provide Long Term Services and Supports (LTSS) to unpaid caregivers that help to delay entrance into more expensive programs. Individuals could also receive a LTSS benefit package that would help to delay entrance into the LTSS system and expand Medicaid eligibility. (LTCA)
- 

##### II. Key Ongoing Core Functions

- A. Provide in-home and community-based personal care/supportive services that allow clients to remain in their own home and avoid unnecessary placement in a more expensive setting, such as a Skilled Nursing Facility. (CM)
- B. Prevent or delay the need for more expensive Medicaid-funded care by providing necessary respite from intensive, unpaid, care-giving responsibilities. (LTCA)
- C. Maintain a network of contracted home-care service providers and community-based resources for the elderly and disabled persons 18 and older. (LTCA)
- D. Provide information and assistance services to older individuals (age 60+) and their families to enable them to make appropriate use of available resources to maintain optimal quality of life. (LTCA)

**Percent Effort on Ongoing Core Functions (FTE or Budget):** 75.00%

---

##### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Health Care Reform	1. Implementation of the 1115 Waiver, Initiative 2 of the Medicaid Transformation Project. This is a five-year demonstration project. It has two main components. MAC is the program that supports unpaid family caregivers who support individuals who are eligible for Medicaid, but not currently accessing Medicaid funded LTSS. TSOA is the program that will provide a benefit package for individuals who are at risk of future Medicaid LTSS who do not meet	1. Continue to expand program and work with ALTSA to stabilize the platform and technology. Caseloads have been contracted out to two different providers. LTCA will continue responsibility for intakes.	1. Go-Live was 9/11/2017. 2023 will be year 6 of the 5-year demonstration project. Work with W4A and ALTSA to establish legislation that supports the permanent continuation of the program beyond 12/2022.

#### Department Work Plan : Early Learning

## 2023 Budget -- Department Work Plan Summary

### 04 - Human Services

#### Department Work Plan : Early Learning

---

##### **I. Long Term Goals**

- A. Ensure that 1,509 low-income preschool children are prepared for success in school by providing comprehensive early childhood education, family support, and health services (ECEAP).
  - B. Promote healthy prenatal outcomes for pregnant women, enhance the development of very young children, strengthen parent/caregiver-child relationships, and promote increased family stability and well-being for 82 families (EHS).
  - C. Increase community capacity, support, and resources to foster inclusive communities that support individuals with developmental disabilities to achieve a full life through participation and contribution to all aspects of community life and ensure:
    - 1.) All eligible infants/toddlers (approximately 2000 children) and their families receive critical early intervention services and transition successfully to the public schools at age.
    - 2.) All DDA eligible individuals (approximately 850 adults) who are interested in having meaningful employment in the community receive supported employment services to reach their employment goals.
    - 3.) All DDA eligible individuals (approximately 2500 individuals) with developmental disabilities receive support to access community resources. (DD)
- 

##### **II. Key Ongoing Core Functions**

- A. Coordinate with funding entities: the Department of Children, Youth, and Families; the Office of Head Start; and the Developmental Disabilities Administration.
- B. Provide grants management, program development, and program administration for developmental disability and early learning services.
- C. Contract with School Districts, non-profit agencies, community colleges, and tribal governments to provide ECEAP and developmental disability services.
- D. Organize and support the EHS Policy Council, the ECEAP Parent Advisory Council, the Health Advisory Committee, the Family Interagency Coordinating Council, the Transition Network, the Developmental Disabilities Advisory Board, and the Snohomish County Children's Commission.
- E. Ensure delivery of quality services for young children and their families: Early Intervention (EIS), Developmental Disabilities (DD), Early Head Start (EHS), and Early Childhood Education and Assistance Program (ECEAP) services.
- F. Provide information, training, and resources to families in order to support them in their critical role as the primary caregiver of their child.

## 2023 Budget -- Department Work Plan Summary

### 04 - Human Services

#### Department Work Plan : Early Learning

G. Increase self-advocacy and leadership skills for families with young children, and individuals with developmental disabilities and their families.

H. Ensure that individuals with developmental disabilities and their families have access to resources, supports, and opportunities to fully engage in supported employment and inclusive community activities.

**Percent Effort on Ongoing Core Functions (FTE or Budget):** 70.00%

#### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Diversity, Equity, and Inclusion (EHS, ECEAP, DD, ESIT, CAP)	Facilitate and engage in opportunities to deepen understanding and build capacity to reduce institutional racism and discrimination, and to increase practices that foster inclusion for all individuals.	Started Fall 2017	Ongoing
Early Intervention Service Coordination (EHS, ESIT, ECEAP)	Provide leadership to deepen and strengthen the coordinated efforts of all early intervention services to ensure a continued quality comprehensive system is accessible and utilized by all families with children birth to five with developmental delays.	Program Requirement	Ongoing
Supported Employment (DD, CAP, ECEAP, EHS)	Implement strategies to ensure a job placement rate of at least 60% for individuals engaged in supported employment services. Increase job placement positions in the public sector, including city, county, and state government. Provide leadership to increase capacity for employment readiness and support services for low-income adults.	Program Requirement	Ongoing
Community Inclusion (DD)	Implement strategies to ensure that individuals with developmental disabilities can fully engage and participate in their community, including supporting families to access inclusive community resources, support, and networks.	Program Requirement	Ongoing
Parent Partnership and Leadership (ECEAP, EHS, ESIT)	Implement strategies to expand opportunities for parents to partner with programs to increase parent participation, inform site and program development evaluation and improvement, and develop and utilize leadership skills.	Started Winter 2017	Ongoing

## 2023 Budget -- Department Work Plan Summary

### 04 - Human Services

#### Department Work Plan : Early Learning

Family Centered Coaching (ECEAP, EHS)	Increase staff knowledge and expertise to provide Family Centered Coaching as a primary strategy to promote increased family stability and well-being.	Started Fall 2015	Ongoing
School Readiness - families (ECEAP, ESIT, EHS)	Collaborate with families, early learning providers, school districts, and community providers to implement a comprehensive and holistic approach to increase the rate of kindergarten readiness for low-income children as measured by WAKIDS.	Program Requirement	Ongoing
Family Resource Center sustainability and capacity building (CAP)	Collaborate with Snohomish County Family Resource Centers to ensure community-based, equitable, participant-driven services are available to support the unique needs of each community.	Program Requirement	Ongoing

#### Department Work Plan : Housing & Community Services

## 2023 Budget -- Department Work Plan Summary

### 04 - Human Services

#### Department Work Plan : Housing & Community Services

---

##### **I. Long Term Goals**

- A. Partner with community and human services providers to alleviate poverty and end homelessness. (OCHS)
  - B. Be a strategic partner with housing developers and operators through enhanced customer service and creative problem solving that builds a successful system for the creation, operation, and retention of affordable housing. (OHCD)
  - C. Work in partnership with municipalities and community organizations to develop and enhance public facilities and infrastructure. (OHCD)
  - D. Work in partnership with community organizations to continue to build energy assistance that focuses on providing support for households to insure they have heat in the winter, education about the value of conservation as a means of both limiting energy use and reducing costs to a household. (OEA)
- 

##### **II. Key Ongoing Core Functions**

- A. Ongoing work with non-profit service providers and housing developers in Snohomish County to continuously create, implement, review, and clarify goals and objectives for human services and housing programs that will best meet the needs of at-risk and low-income persons and households throughout the County.
- B. Ongoing work with municipalities and community organizations to develop and support public facilities (food banks, senior centers, etc) and infrastructure (ADA accessibility, sidewalk safety, safe water systems, etc.) in low-moderate income areas.
- C. Administer more than 20 funding programs that manage grants and loans to dozens of agencies in Snohomish County that provide housing and services for at-risk and low-income persons and households throughout the County.
- D. Provide direct services to over 10,000 persons annually through our Energy Assistance, Investing in Futures Initiative and related programs, and the Housing & Essential Needs (HEN) program.
- E. Maintain relationships with Federal, State, and local government agencies, such as the U.S. Department of Housing and Urban Development (HUD), the Washington Department of Commerce (Commerce), and the City of Everett to ensure conformance with regulatory and policy factors and requirements that affect our funding programs and the projects and activities they fund.
- F. Work in collaboration with other Divisions in the Human Services Department and other County Departments to maximize the effectiveness of all funding, services, and other resources we provide in support of at-risk and low-income persons and households throughout Snohomish County.

**Percent Effort on Ongoing Core Functions (FTE or Budget):**      90.00%

## 2023 Budget -- Department Work Plan Summary

### 04 - Human Services

#### Department Work Plan : Housing & Community Services

#### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
HEARTH Act/Continuum of Care (CoC)	Implement the HEARTH Act, a reauthorization of the Federal McKinney-Vento Act, in connection with substantive changes to the Continuum of Care (CoC), which is intended to minimize both the frequency and duration of homelessness and provide prevention measures for those at risk of becoming homeless. This initiative applies to the human services community broadly throughout Snohomish County. This includes implementation of the Homeless Prevention & Response System Strategic Plan that was adopted by the CoC governance board. This also includes ongoing implementation of the Investing in Futures initiative launched with funds from The Bill & Melinda Gates Foundation and Building Changes. These efforts will help provide service to approximately 8,000 individuals in 4,000 households per year. (OCHS)	Underway, approximately 80% complete. CoC Program updates CoC Board completed Coordinated entry refinements completed. CoC racial equity initiative underway and approximately 10% complete Strategic Plan Updates Completed  Strategic Plan Updates Completed	Complete by December 2023
Data Management and Analytics (Homeless Management Information System - HMIS)	Implementation and expansion of Homeless Management Information System, data tools; reporting, and evaluation to support a data driven planning process for the Continuum of Care ending homelessness initiatives. Implement the updated HUD data standards for CE.(OHMIS)	Underway, approximately 90% complete New HUD HMIS Standards completed. New and updated dashboards and analytics started.	Complete by December 2023
Housing planning and implementation	Facilitate policies, programs, and tools to assist the County in addressing the range of affordable housing needs for the County's Comprehensive Plan and Consolidated Plan. (OHCD) Housing Affordability Regional Plan, and 1590 plan.	Underway, approximately 70% complete.	Complete by December 2023
STEP Projects HCS	Continuous Improvement (CI) CE and HMIS refinement processes (OCHS)). CI project to update and standardize process (OWEA). New capital housing boilerplate contract to streamline the contracting process (OHCD)	Underway, approximately 90% complete.	Complete by December 2023

## 2023 Budget -- Department Work Plan Summary

### 04 - Human Services

#### Department Work Plan : Housing & Community Services

SSI/SSDI Outreach, Access, and Recovery (SOAR) Program	Continue implementing local SOAR Program using best practices in partnership with HHS, DSHS, SSA, and other local partners to assist persons who are experiencing or at-risk of homelessness and living with disabling conditions with completing applications for federal benefits (SSI/SSDI). (OCHS)	Underway, approximately 90% complete	Complete by December 2023
Energy Assistance	Explore outreach opportunities to provide Energy Assistance to various regions of the county. (OEA)	Underway, approximately 70% complete.	Complete by January 2023
Energy Assistance - LIHEAP	1.Continue to determine need for outreach to potential participants who have utilities included in rent. LIHEAP will allow offset payment to participants in this situation, but many do not know this. Arrange opportunities to visit senior centers, mobile home parks, etc. 2.Continue to implement arrearages and hardship grants. 3.Continue to implement the new water program. (LIWAP) 4. Continue to implement cooling through provision of air conditioners. (OEA)	Internal discussions underway; using past experiences with this to inform next steps.	Complete by January 2023

**Percent Effort on Projects/Initiatives (FTE or Budget):** 10.00%

#### Department Work Plan : Sales Tax Program

## 2023 Budget -- Department Work Plan Summary

### 04 - Human Services

#### Department Work Plan : Sales Tax Program

##### I. Long Term Goals

A. In coordination with other funding sources, develop a robust continuum of care in Snohomish County for our residents in need of mental health and/or substance use disorder related services including housing.

##### II. Key Ongoing Core Functions

A. Act as the Sales Tax Fund Manager.

B. Staff the Sales Tax Advisory Board.

C. Design and implement programs, manage funding, and monitor outcomes to assure maximum results and impact.

### 05 - Planning

#### Department Work Plan : PDS Summary Workplan for 2023

---

##### I. Long Term Goals

1. Support environmentally-conscious growth of communities as envisioned in the county's comprehensive plan, countywide and general planning policies.
  2. Enhance systems and processes to provide quality and effective development and permitting services to customers.
  3. Maintain a well-trained workforce who understands their roles and responsibilities, have tools necessary to efficiently and effectively accomplish their work, and are aligned with the department's mission.
- 

##### II. Key Ongoing Core Functions

Fire Investigations:	Assure health and life safety and reduce the risk of fires through investigations and outreach
Code Enforcement:	Respond to citizen complaints regarding building, zoning, land use and nuisance code violations
Permitting: permits	Administer the Unified Development Code related to land use, residential, commercial and other
Long Range Planning:	Implement the County Comprehensive Plan and support regional planning efforts

**Percent Effort on Ongoing Core Functions (FTE or Budget):**      75.00%

---

##### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Permit Systems and Processing	1. PRISM: In 2018, PDS purchased an Electronic Content Management System which is an enterprise system initially configured and used by PDS but available to other county departments in coming years. The ECM is used to store, manage, and provide access to electronic records, documents, plans, maps, and photos. In 2019, PDS completed the design and development of a prototype system that was used to fill records requests until the final production environment was set up. Work in 2020-2021 focused on clean up of old electronic files stored on the county network, so that the ECM has the least number of duplicate records as possible. Final implementation was completed in the Spring of 2021 when the Amanda permit	In Progress	

## 2023 Budget -- Department Work Plan Summary

### 05 - Planning

#### Department Work Plan : PDS Summary Workplan for 2023

---

tracking database and the ECM were connected. All records are now being saved directly in the ECM instead of on the network drives. An employee portal to search for records in the ECM was implemented in 2021. The remaining piece of the PRISM project is to implement a public portal on the PDS website. We are hopeful this will be complete by the end of 2022.

2. Records Scanning Project: In 2019, PDS entered into a contract with a vendor to convert PDS's microfiche images into electronic records that are then migrated into the new Electronic Content Management System. Scanning of microfiche began in 2020 and is ongoing. This is a multi-year project included in PDS's technology fund budget. We anticipated that the scanning would be complete by the end of 2022, but COVID-related staffing issues with the vendor have caused delays. Therefore, the scanning will continue into 2023 until the project is completed.

In progress

2019 - 2022

3. Electronic Permit Processing Improvements (EPPI): PDS implemented a fully-electronic permit application process in 2018. In 2019, PDS put significant effort into refining the intake and processing of permit applications through a formal EPPI project team. Significant enhancements were made to the permit tracking system (AMANDA) in 2020-2021, including the implementation of new folders for tracking residential building permits. The project to update land use checklists was completed in 2021. The next area of focus is to redesign the permit applications in MyBuildingPermit.com to improve the customer experience. We had hoped to do this work in 2022; however, staffing shortages has pushed this to 2023. Another focus that is ongoing is developing and measuring key performance metrics for permitting. Significant progress was made in 2020 via the creation of a metrics dashboard in Amanda and the weekly distribution of key statistics to management. We have continued to build more dashboards for supervisors and managers to use, and

	have performed additional performance/output analysis for plan review and building inspections.		
Workforce Planning	1. PDS five-year staffing model: PDS will continue to evaluate its work volume, permit revenue, time frames, and staff resources to ensure there is current and future alignment of resources with demand.	In progress	On-going
STEP (Service, Technology, and Excellence Program)	1. Continuous Improvement and Service Excellence: PDS encourages and supports a culture of continuous improvement. PDS is continually making changes to business processes and its technology/software to improve customer service outcomes. PDS continues to track and measure results for kaizens completed by staff. In 2022, PDS has been focused on service delivery and customer experience. PDS is also working to increase the level of public/customer outreach and engagement in both permitting and county-wide planning issues. In 2022, PDS reclassified the Deputy Director position to an Operational Improvement Program Manager who will help lead process improvements with a goal of improving our permit review time frames. 		In progress	

## 2023 Budget -- Department Work Plan Summary

### 05 - Planning

#### Department Work Plan : PDS Summary Workplan for 2023

---

Long Range Planning Projects	1. 2024 Comprehensive Plan Update: PDS is continuing work on a multi-year process to update the County's Comprehensive Plan as required by state law. In 2019, work began on identifying major tasks & schedules, establishing the project team structure, and preparing and presenting background papers on a range of topics. Related work in 2020-2021 included the Buildable Lands Report, updating the Countywide Planning Policies, developing and implementing a communications plan, securing an environmental consultant to prepare a draft environmental impact statement (DEIS), and working with the County Executive and County Council to define the project scope. Work in 2022 includes research and public participation on policy issues, preparing a DEIS, and County Council adoption of the initial growth targets. 2023 will include significant public outreach and notice, completion of the DEIS, and the start of the final EIS.	In progress	2019 - 2024
	2. Docket: As part of the Comp Plan Update, there is a process to review Docket proposals. The Docket process involves consultants who review and analyze the proposals, the cost of which is paid by the Docket applicant. In addition, the County Council has proposed County-Initiated Comp Plan Amendments, which, like the docket proposals, need to be analyzed, studied, and taken through the public notice and approval process. The Docket process started in 2022 and will continue through 2024.	In progress	2019 - 2022
	3. Urban Core Subarea Plan Element: In 2019, PDS and Public Works completed work on identifying potential light rail station locations at 128th St and 164th St associated with the county's effort to plan for the arrival of light rail. In 2020, PDS began work to develop a new subarea plan element to the county's GMA comprehensive plan for an area roughly between the Cities of Everett, Mukilteo, Lynnwood and Mill Creek. The subarea plan incorporated the station area planning work from 2019 and included public outreach,	In progress	2019 - 2023

### 05 - Planning

#### Department Work Plan : PDS Summary Workplan for 2023

---

developing land use and zoning, drafting plan chapters, and preparing implementing regulations. This work will continue through 2024 and will be integrated in the 2024 GMA Comprehensive Plan Update.

4. Climate Change Element; Work on preparation of a new climate change element of the 2024 Comp Plan Update in response to regional and countywide planning policies is starting in 2022 and will continue through 2024.

5. Critical Areas Regulations: The County's critical areas regulations need to be reviewed and amended by 2024 as part of the compliance review for the 2024 Comp Plan Update. Any changes to state law since the last time the regulations were updated will be examined.

6. Tribal Coordination Element.: Preparation of a tribal coordination element in coordination partnership with the 3 local county tribes for integration into the 2024 Comp Plan Update.

7. Housing Element: Preparation of the HO-5 Report has begun and is expected to be completed by mid-2023.

8. Code Development: There are ongoing Title 30 Code Changes Projects in progress. Many code change projects are in process to implement the comp plan and respond to process improvements.

---

Fiscal Sustainability

PDS is in the process of examining its fee structure and rates charged for permits, which have not been adjusted in over a decade and have not kept up with inflation and the increased cost of doing business. Phase I was completed in 2020 and Phase II was completed in 2021. PDS is working on Phase III in 2022 and plans to complete Phase IV in 2023.

##### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Timekeeping System (UKG-Kronos)	Migration of updated electronic timekeeping system (KRONOS) for Road Maintenance and Solid Waste divisions to be fully integrated with AMMS and operational in 2023.	KRONOS system will be adopted by other County departments in 2023.	Finalize migration and multi-department governance to new system by 1st quarter 2023
Automatic Vehicle Location System (AVL)	Continued implementation of AVL in maintenance and other vehicles.	Use of the system continues for Solid Waste and Road Maintenance. Existing contract will be extended through 2023 to allow for enterprise-level RFP to be developed.	Considering options with IT for importing AVL data into Cartegraph. RFP for a new contract planned for 2023.

## 2023 Budget -- Department Work Plan Summary

### 06 - Public Works

#### Department Work Plan : County Road 2023

Annual Construction Program (Capacity)	Capital transportation system improvements including design, environmental review/permitting, ROW acquisition, and construction contract administration/compliance on road, bridge, traffic safety, non-motorized, and drainage	Planned transportation projects included in Road Fund 2023 ACP and 6-year	Planned transportation projects included in Road Fund 2023 ACP and 6-year TIP.
Reimbursable Program Activities	Elective reimbursable work for other Snohomish County departments and divisions (e.g. Parks, Surface Water Management, Solid Waste Management, Airport, etc.), as well as reimbursable work for external governments (e.g. cities, towns, special districts, etc.).	Planned Reimbursable program is included in 2023 Road Fund budget.	Planned Reimbursable program is included in 2023 Road Fund budget.
ADA Compliance	Increased emphasis to ensure compliance for Federal ADA requirements on the road network.	The ADA Transition Plan has been published and is being implemented.	Hold quarterly citizen advisory committee meetings. Plan implementation is underway through plans and programming over a 12 year period from 2019 to 2031
Public Works Assistance Fund (PWAF)	Continued expansion of Public Works Assistance Fund program.	Six PWAF loans have been awarded to-date via ICC.	Next call for projects planned for 2022.
Arlington Operations Center	Project to replace/upgrade the Arlington Road Maintenance operations shop and co-located ER&R Fleet facility.	Planning and pre-design work in progress.	Project design work and site preparation planned for 2023.
Adaptive Signal Control Systems	Advanced traffic control systems that would enable signal timing changes with real time traffic demands to reduce congestion, improve travel time, and reduce the number of stops at intersections. Snohomish County partnered with WSDOT and the Cities of Bothell, Lynnwood, Mill Creek, and Mountlake Terrace.	In progress	Complete implementation of Phase 2 (D.60.01) in 2021-2022. Evaluation of the system, meaning before and after study will be completed in early 2023.

## 2023 Budget -- Department Work Plan Summary

### 06 - Public Works

#### Department Work Plan : County Road 2023

Traffic Safety Plan	This Traffic Safety Plan will be the integral part of the County's strategic planning process to apply systemic approach to safety to reduce number of crashes and severity of crashes (those involving fatalities and serious injuries) by documenting at-risk locations, identifying effective safety improvement strategies and better positioning the County to compete for available safety funds.	In progress	The Road Safety Plan document was completed in 2021. Currently working on implementation through developing a Road Safety Program under the guidance of the Plan. New prog will be developed by mid-2023 followed by implementing strategies, actions, and proj
ST3 Coordination/Light Rail Station Planning	Planning for the future location of light rail stations at Ash Way and Mariner through county planning efforts and through coordinating with Sound Transit's planning efforts for Everett Link Light Rail Extension. Project will coordinate the connectivity of the non-motorized and roadway system with land use in the vicinity of the station and will propose improvements to these systems.	In Progress	Station area planning continuing with development of the Urban Subarea Plan Element that will be adopted with the 2024 Comprehensive Plan. ST's Everett Link planning also underway leading to ST Board decision on a Preliminary Preferred option in 2023
CWOC Video/Conferencing, Training, and COOP Operations center	The CWOC large conference room will be upgraded to provide a more modern training and conferencing facility and function as an emergency COOP site in the event of a disaster that impacts operations in Everett	This project is in the procurement phase	Construction is expected to begin in the winter of 2022 or early 2023.
See Click Fix system	SeeClickFix is request management platform for increasing citizen engagement, ensuring that every voice is heard and nothing gets lost or overlooked.	Beginning Cartegraph integration process and anticipate multi-department use in 2023. The marketing strategy under development.	System implementation planned for 1st quarter of 2023.

## 2023 Budget -- Department Work Plan Summary

### 06 - Public Works

#### Department Work Plan : County Road 2023

Update to the Transportation Element of the Snohomish County Comprehensive Plan	Snohomish County is required by the state Growth Management Act to review and revise the Comprehensive Plan to accommodate the 20-year growth projection. The Transportation Element (TE) provides the transportation component for accommodating that growth. The update is required to be completed by December of 2024.	The transportation analysis of three land use alternatives is progressing toward completion in early 2023. The analysis will be used to develop a draft EIS and TE in 2023.	The draft TE will be presented to Planning Commission in 2023 for a recommendation to the County Council for adoption in 2024.
Granite Falls Materials Storage Yard	Public Works has purchased property in Granite Falls in cooperation with Fire District 17. The property will be used to store sand, salt, and quarry materials for the Road Maintenance Division. This satellite storage location will expedite emergency response in the area and on the Mt. Loop Hwy, as well as creating efficiencies for construction and maintenance project in the area	The site has been cleared. This project is in the planning phase.	Fencing and initial construction is expected to begin in the fall of 2022 or spring of 2023.
CWOC Winter Vehicle Storage Building	The Cathcart Way Operations Center will be installing a large tent-style storage building to house winter equipment during the summer and summer equipment during the winter. This will reduce maintenance and weatherization issues on vehicles and equipment that sit unused and uncovered for long periods.	This project is being considered for JOC.	Construction is expected to begin in the fall of 2022.
Asset Maintenance Management System (AMMS - Cartegraph)	State of the art automated asset maintenance management system (AMMS - Cartegraph) to more efficiently manage County assets.	Implementation of the initial scope is completed for Road Fund and Solid Waste. The system is being expanded for other uses and to other departments including DCNR and Airport. A new contract extension was executed in 2021 with additional modules.	Throughout 2023 will continue work to add more groups and workflows to the system. Enterprise expansion and governance is well underway.

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : SWM 2023

---

##### I. Long Term Goals

- Reduce road and property flooding and erosion
  - Protect and restore aquatic habitat and water quality
- 

##### II. Key Ongoing Core Functions

- Construct and inspect neighborhood drainage systems
- Reduce flooding and erosion in floodplains
- Protect water quality in our lakes, rivers, streams and wetlands
- Improve habitat for fish and aquatic wildlife
- Fiscal and administrative services
- NPDES compliance
- Coordination of ESA planning efforts with regional partners and stakeholders

##### Percent Effort on Ongoing Core Functions (FTE or Budget):

---

##### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Community Floodplain Solutions (CFS) Program	<p>Snohomish County, in partnership with Snohomish Conservation District, Tulalip Tribes, and Washington Farmland Trust will be implementing multiple grant funded projects in the Snohomish river basin through 2027. Partners receive significant funding from the grants to implement projects. Elements include:</p> <ul style="list-style-type: none"><li>•Reduce flood-related risk to people and public infrastructure</li><li>•Funding for removal of fish passage barriers and failing culverts</li><li>•Restore riparian habitat along the Skykomish River</li><li>•Improving instream habitat by reconnecting the floodplain</li><li>•Protecting floodplain land for future restoration and long-term agriculture uses</li></ul>	Many Phase I projects including modelling, fish passage culverts, acquisitions will be completed in 2022 and all Phase I projects will be completed in 2023. Phase II projects will begin in 2023 and include reconnect/restore 180 acres floodplain, improve and protect floodplain lands, and permanently protect floodway land from development. Phase III actions will just be getting	Complete all Phase I projects by the end of 2023, Phase II actions will be ongoing through 2025 and Phase III actions will begin in 2023 and will be ongoing until 2027.

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : SWM 2023

		underway in 2023.	
Fish Passage Culvert Design & Construction	Construct 44 fish passage culvert projects and design 8-10 projects for construction in future years. New culverts designed per WDFW fish passage design guidelines.	Final design and permitting for 2023 construction projects on schedule	Complete construction of 44 culvert replacement projects in 2023 and complete/advance the designs for additional projects in 2023 for future-year construction.
Failing Infrastructure Construction	Construct 3-5 road cross culvert projects to replace failing/aging infrastructure. Initiative also includes additional work to assess and prioritize failing culvert infrastructure.	Final design and permitting for 2023 construction projects on schedule	Complete construction of a total of 3-5 failing culvert replacement projects in 2023 and complete the designs for additional projects to start in 2024.
Stormwater Water Quality Improvements	This initiative includes 1 project for construction and the advancement of project designs. Advancements are planned for projects identified in SWM's Little Bear Creek Basin planning project. The projects apply towards the County's compliance with the NPDES permit (Structural Stormwater Controls requirement). The planned construction projects are for improvement to one of the inlets to Martha Lake with a goal of treating stormwater runoff prior to entering the lake.	Conceptual design is complete. Design and permitting in 2022 for construction in 2023 of the Martha Lake inlet project.	Complete design project in 2022 for Martha Lake inlet for construction in 2023.
Road and Neighborhood Flooding Improvements	Construction of 3-5 projects to resolve neighborhood flooding concerns. Design of improvements to resolve significant chronic road flooding at Elliott Rd.	Neighborhood drainage improvements designs currently underway and on schedule for 2023 construction. Elliott Road 30% design is nearly complete - final design to begin in 2023.	Neighborhood drainage improvements designs to be complete in 2022 with construction in 2023. Elliott Road improvements final design complete in 2023, right-of-way permissions and permitting in 2024, and construction anticipated in 2025.

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : SWM 2023

NPDES Drainage Facility Inspection and Maintenance Program	In order to comply with the County's NPDES permit, SWM inspects and ensures the maintenance for over 2,000 stormwater facilities. This program includes stormwater facilities that are owned and operated by the county and regulated private facilities. For the county owned and operated and residential facilities, SWM coordinates with the Road Maintenance division to perform the maintenance within the required timelines. Maintenance of commercial facilities is coordinated independently by the facility owners.	Older stormwater facilities constructed prior to 1992 have been added to the regulatory program and may need significant repair and replacement; program includes both public and private stormwater facilities.	SWM has implemented a biannual inspection schedule, effective 2020 and will continue to evaluate its effectiveness through the 2024 permit cycle.
Smith Island Restoration Maintenance Project	The Smith Island Restoration project achieved 25% of the ten-year Puget Sound regional target for estuary restoration. The project improved the resiliency of surrounding urban areas and enhances and protects adjacent agricultural and commercial stakeholders by providing 330 acres of flood storage and off channel habitat.	2022 is year four of a 5-year agreement to operate and maintain the levee and drainage system after construction.	2023 is targeted to be the final year of maintenance on the levee and drainage system before transfer of responsibilities to the local drainage district.
State of Our Waters	State of Our Waters is an environmental health monitoring program where SWM collects biological, physical, and chemical data from our waterways. State of our Waters helps the public understand information on the health of local waterways, tracks changes over time to identify problems and their causes, and focuses County resources to protect healthy waters and improve impaired ones.	Ongoing Program - SWM monitors the health of about 40 stream sites and 35 lakes, and creates annual health reports for county residents.	Ongoing Program

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Snohomish County Historic Preservation Commission	<p>Established in 2002, the Historic Preservation Commission fulfills its obligations as codified in Chapter 33.03.050 by protecting and preserving Snohomish County's archaeological and historic resources, sites and districts.</p> <p>Data compiled on Washington state projects indicate that historic rehabilitation activities from 2008-2012, generated an average spending of \$124.3 million per year (\$621.5 million total 2008-12.) These investments generate direct economic impacts through the purchases of goods and services. Expenditures also generate indirect and induced activity in other parts of the economy through related spending at local businesses by supporting industries and households.</p> <p>Snohomish County's Comprehensive Plan – Objective ED.6B – calls for Promoting the growth of tourism resources; including recognition of the value archeological and historic preservation, and to identify and promote both as tourism resources</p>	<p>Meet monthly to develop on-going policies and procedures, research and initiate programs and review nominations to the Snohomish County Register of Historic Places.</p> <p>The Commission is an advisory to the County Council and has a mandate to serve as the Design Review Board for special valuation, a state tax incentive for rehabilitation of historic properties. It surveys and inventories historic resources, nominates properties to the local, state and national registers of historic places, reviews proposals, to modify historic register structures, and conducts educational public</p>

### 09 - Conservation & Natural Resources

#### Department Work Plan : Dept 09 Historic Preservation

		programming related to historic preservation and archaeological protection.
Community Programming	The preservation and interpretation of our heritage is essential to the cultural and economic vitality of Snohomish County. Connecting the public through local programs that inform, educate and identify history and artifacts that may be held by citizens is key strengthening the link between past and present at the local level. This helps to promote community preservation efforts and appreciation for history.	Develop ongoing programming to promote local history. Use archaeologists, museum professionals, and partner with local college students to develop a Snohomish County Archaeological Roadshow similar to that in Oregon and King County.
Educational Outreach	The introduction of history of especially at the local level is essential in early education environments and the connection is best made through interactive programs where students can touch, experience and interpret historical materials. Educational programs involving archaeology and/or analysis of historic materials especially effective in helping students develop and appreciation of the history visible all around them in Snohomish County.	Expand outreach with educational materials and programs that target local elementary schools. Develop a teaching materials that can used in the classroom to introduce and promote historic preservation, archaeology and history.
Historic Places Marketing	The popularity of the Centennial Trail HistoryWalk programs illustrate the need for more visibility for our historic programs, museums and places.	Outreach advertising in the form of plaques to designate historically significant buildings and structures as well as brochures, websites and online tours that promote historic places.

---

##### Inventory Assessment

The new comprehensive survey and inventory as a systematically compiled database is intended to assist Snohomish County officials, citizens, community advisory groups, planners, architects, historians, and others in their analysis, design and planning considerations.

Snohomish County's existing countywide reconnaissance level cultural/historic resource survey/inventory identified approximately 14,000 buildings/structures and structures in unincorporated Snohomish County 2015. In 2015 the county initiated a more comprehensive phase of survey and evaluation for a portion of these buildings/structures including extensive and detailed context statements; findings and recommendation for eligibility for the county historic register as well as recommendations for future actions for preservation of the historic resources; and a minimum of 206 inventory forms. This phase of survey will identify historic buildings and structures to assist the county with preservation planning as well as to grow and expand the Snohomish County Register of Historic Places.

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Snohomish County Arts Commission	<p>Established in 2004, the Arts Commission fulfills its obligations as codified in Chapter SCC2.95 by developing and maintaining processes relating to the development of the Cultural arts.</p> <p>According to data from WSAC's Creative Vitality Index (CVI), in 2014 Washington State had over 147,106 jobs that were directly related to the creative economy, including actors, editors, graphic designers, photographers, writers, etc.</p> <p>Snohomish County has more than 10,000 total creative jobs - up 1% since 2013. Our total Creative Industry earnings measure over \$332 million, our Cultural Nonprofit picture is healthy with over 11 million in revenues.</p>	Meet monthly to develop on-going policies and procedures, research and initiate programs.	
Maintain website content of <a href="http://www.snocoarts.org">www.snocoarts.org</a>	snocoarts.org provides a link to local artists and arts organizations, presents a calendar of arts events and openings, connects artists to job opportunities, audition notices and calls-to-artists and advertises local performing and visual arts classes. Public notice of meetings, agendas, and minutes for the SnoCo Arts Commission.	Provide funding for continued maintenance and server fees and the occasional changes necessary for optimal web performance.	

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : Dept 09 Arts Commission

Care and Maintenance of Public Art Collection	As the stewards of the public's art collection, it is essential that we maintain and care for our investment.	Continue to review and assess the collection. Reframe and mat with archival materials as identified.
Marketing of SnoCo Public Cultural Arts	The Arts Commission is only 10 years old -- and has already amassed a valuable public art collection for our shared public spaces around Snohomish County. The public art collection currently contains over 97 pieces, 44 of which have been commissioned in the last 8 years.	Promote the website and other social media to help the community learn more about a works of art or other local attractions. Information includes the history, artist statement, and images or videos. Provide on-line access to those who cannot venture to the actual location of the art.
Rotating Gallery	Highlight local talent by exhibiting an assorted body of work from artists of the community. Feature a representation of different ethnicities, gender and race.  Use call-to-artists to schedule cultural art exhibits	Launch bi-monthly art exhibit using mobile exhibit walls that will be located in the lobby of the Robert J. Drewel Building. Actively promote the exhibits and the artists featured.
Snoco-Arts Grants	Promotion of the arts serves as a rich source of cultural enrichment for the citizens of Snohomish County.	Small grant program to encourage the arts in Snohomish County. Capped at \$2,000 per grant application.
Music and Performance Art	Promotion of the performing arts serves as a rich source of cultural enrichment for the citizens of Snohomish County. Seek partnership opportunities. Cost is for performers, marketing, and production. Music on the Plaza is on hiatus due to construction. 2022: Music in the Park at Willis Tucker Park, Snohomish and Music on the Plaza at County Campus, Everett	Present concerts/performances around Snohomish County to create a vibrant community. The events are free and open to the public.

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Strengthening Families Program for Parents and Youth ages 10 - 14	Seven-week, research-based, internationally recognized curricula which reduces risky teen behavior by building family strengths. The program can only be facilitated by individuals who have received 21 hours/3 days of training from SFP 10 - 14 Master Trainers.	Implement 18 series in schools and agencies. Currently working to convert to online learning during the Covid shut down.	Funded by Snohomish Co. Human Services Department 1/10 of one percent funds. Funding for 2022 pending budget approval.

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : Dept 09 Extension Workplan

Sustainable Community Stewards (Outreach)	Training and support for Volunteers to help individuals and communities adopt sustainable practices that are grounded in science and relevant to Snohomish County. Supports NPDES permit requirements S5.C10.a.i.1 and S5.C10.b.	This program is still very young with volunteers being trained yearly and working on a variety of projects around foodcycling and sustainable practices	RSA with Solid Waste anticipated for 2022
Beach Watchers (Outreach)	We train and support volunteers committed to protecting the Salish Sea through research, stewardship and education. Our projects include recreational crabber education, pet waste reduction, beach naturalist events, classroom presentations, plastic waste reduction and beach surveys.	Ongoing	RSA with Surface Water Management anticipated for 2022, other contracts Tulalip Tribe, City of Mukilteo anticipated for 2022
SNAP-Ed (Outreach)	Providing cooking and nutrition education in low-income schools, housing sites, and food banks. Working with community coalitions and partners to increase access to nutritious food.	Completing the second year of a three-year project plan.	SNAP-Ed is federally funded an on annual basis. The grant cycle runs from Oct 1 to Sept 30.
Youth Development 4-H (outreach)	Utilize positive youth development (PYD) method to develop life skills in youth, so that they can become productive, positive members of society. National mandate emphasizes STEM, citizenship, and healthy living. STEM patch awards reward involvement in STEM activities in 4-H; Know Your Government program teaches citizenship, YA4-H program teaches healthy living	Ongoing	KYG culminates in Olympia on Presidents' Day weekend
Volunteer Management - 4-H (Outreach)	Upkeep and management of online database; encourage reporting of volunteer time; process volunteer application paperwork; shift to more electronic application documents; risk management, reward volunteers for educational pursuits and reporting hours	Ongoing	Annual rollover begins on 8/21/20 4HOnline 2.0 coming October, 2020

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : Dept 09 Extension Workplan

Volunteer Education & Support - 4-H (Outreach)	One-on-one meetings with 28 program lead volunteers; group meetings twice annually with administrative volunteers; volunteer trainings both synchronous and asynchronous online; Zoom, phone and e-mail support; annual update training for all volunteers; support to 4-H Council and committees; produce weekly news blast; thrice weekly office hours online for drop-ins	ongoing	Fall online synchronous volunteer training Nov. 12-14, 2022
Club Support - 4-H (Outreach)	Communicate with and respond to queries from club leaders of 70 community clubs and 400+ volunteers; reaching approximately 1200 youth in the club setting, engaged in year-round programming; provide extra support to new clubs; visit ten clubs per year; training for officers of clubs; Zoom support for club and project meetings; COVID bandana contest and distribution	ongoing	Annually
Fair - 4-H (Outreach)	Provide presence and support for 4-H program and volunteers daily at Evergreen State Fair; manage livestock judging contest, round robin contests, Outstanding Exhibitor judging, Junior logger event, and support 4-H awards ceremony. Encourage remote and online fair-related activities if no in-person Fair.	Annual, ongoing	4-H awards ceremony, Livestock Judging, Outstanding Exhibitor, Round Robin
4-H Support during COVID	Web resources developed specifically for COVID-19 information, learning resources, weekly challenges, and mental health. Offered virtual group sessions with mental health professionals, scheduling/facilitation for Zoom meetings of clubs, projects, and committees, online volunteer training, virtual programming statewide. State-level committee involvement for COVID response, and support for local engagement. Unique opportunity for youth to re-create the ESF fairgrounds in Minecraft	Ongoing, flexible as needs change with COVID-19 situation	Continueing into 2022 as neededl.
4-H Strategic Plan	Based on feedback from 4-H community and needs assessment, finalize three-year strategic plan with eight primary goals.	August, 2020: soliciting feedback on proposed plan	Finalize in 2022

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : Dept 09 Extension Workplan

Diversity, Equity, and Inclusion (Outreach)	4-H representation at approximately 3 Latino outreach events per year, in addition to NNO sites with concentrations of Latino visitors; increase involvement in local organizations involving diverse population; develop web page on DEI; commit to increasing diversity in 4-H in our county.	Ongoing, new and revised emphasis.	Town Hall on DEI held Aug. 6, 2020.
WSU Master Gardener Basic Training (Outreach)	Each year the WSU Master Gardener Program recruits and trains 45 new volunteers. Training involves approximately 150 hours of classroom instruction and online homework. This allows the Snohomish County MG program to maintain a volunteer corps of at least 350 active Master Gardeners who volunteer over 30,000 hours a year. Retention of MG volunteers averages more than eight years.	Since 1973, the Snohomish County MG program has trained over 2500 Master Gardener Volunteers and that training stays with them for their entire lives.	Recruitment begins in the Fall with Training beginning in January and running through March
Plant Problem Clinics (Outreach)	WSU Master Gardener Volunteer Educators answer horticulture questions and provide diagnostic services to Snohomish County home gardeners at multiple locations to include a year-round clinic at the Extension Office	In 2019 Master Gardeners volunteered over 5,000 hours staffing plant problem clinics answering over 12,000 questions.	The Diagnostic Clinic at the Extension Office is open year-round; Community Clinics start in April and run into September. Currently via phone and email.
Household Hazardous Waste (Outreach)	WSU Master Gardeners provide educational outreach to Snohomish County residents, teaching how to identify and appropriately dispose of household hazardous waste, including pesticides, fertilizers, automotive fluids, household cleaners, oil-based paints, and more, for free, at the Snohomish County Hazardous Waste Recycling Center, while emphasizing the negative economic, environmental, and personal effects of improper disposal.	In 2019, MG interns collected 773 pledges to use the HHW recycling center, while educating an estimated 1300+ residents total (program-wide) on proper and safe household hazardous waste disposal, contributing to steady increases in facility use.	A cooperative program with Snohomish County Solid Waste. Funding for 2022 through RSA pending budget approval.
Invasive Species Monitoring and Education (Outreach)	WSU Master Gardeners are designated as first responders and are trained to identify, detect and report new invasive species and help the public cope with these new threats as well as with those that are already established,	Ongoing with education and alerts provided by WSU, other state agencies, and the Snohomish County Noxious Weed Board.	Core funding provided by Washington State University Extension, Snohomish County, and the Snohomish County Master Gardener Foundation.

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : Dept 09 Extension Workplan

Horticultural Educational Outreach (Outreach)	WSU Master Gardeners provide extensive educational outreach in science-based, environmentally responsible horticulture education through workshops, classes, lectures, demonstrations, and mentoring to the adults and youth of Snohomish County, including the Sustainable Gardening Winter Lecture Series and partnering with Extension's Growing Groceries Lecture series.	In 2019 Master Gardeners volunteered over 2,000 hours for educational outreach and launched a new initiative to create standardized modules for key topics.	Core funding provided by Washington State University Extension, Snohomish County, and the Snohomish County Master Gardener Foundation.
Demonstration Gardens (Outreach)	WSU Master Gardeners operate three Demonstration Gardens to provide educational outreach to the public. The McCollum Park garden is adjacent to the Extension Teaching Center, is the primary teaching garden; the Legion Garden in the Evergreen Arboretum focuses on landscape plants suitable for our climate; and the one-acre Jennings Garden focuses on edible landscaping with the produce going to local food banks.	In 2019 Master Gardeners volunteered over 4,000 hours operating three WSU MG Demonstration gardens in Snohomish County and donated almost 5,000 lbs. of fresh produce to local foodbanks from them.	Core funding provided by Washington State University Extension, Snohomish County, and the Snohomish County Master Gardener Foundation.
Rain Garden (Outreach)	Specially trained WSU Master Gardeners work with staff to provide Rain Garden Education and Outreach to the public.	Over 40 MGs have received specialized training to become Rain Garden Mentors.	A cooperative program working the City of Everett, City of Lynnwood, and the Snohomish County Conservation District that provides staff funding support. Additional funding support provided by the Snohomish County MG Foundation.
Forestry (outreach)	The Extension Forestry program provides forest stewardship education programs and resources for owners of small acreage forested properties. The Forest Stewardship Coached Planning short course empowers property owners to achieve ownership goals, make informed decisions, and practice good forest stewardship that benefits current and future generations.	ongoing	Funded by Snohomish Conservation District

## 2023 Budget -- Department Work Plan Summary

### 09 - Conservation & Natural Resources

#### Department Work Plan : Dept 09 Extension Workplan

Latino Engagement and outreach - 4-H (Outreach)	4-H representation at approximately 3 Latino outreach events per year, in addition to NNO sites with concentrations of Latino visitors; first 4-H club in Spanish starting in 2019 4-H year	New club leader recruited and trained; need second volunteer to start club, several women interested Since 1973, the Snohomish County MG program has trained over 2500 Master Gardener Volunteers and that training stays with them for their entire lives.	
Forestry (Outreach)	The Extension Forestry program provides forest stewardship education programs and resources for owners of small acreage forested properties. The Forest Stewardship Coached Planning short course empowers property owners to achieve ownership goals, make informed decisions, and practice good forest stewardship that benefits current and future generations.	ongoing	Funded by Snohomish Conservation District, 2022 funding pending.
Local Investment Network - Community and Economic Development (outreach)	Washington State University (WSU) Extension is partnering with the Association of Washington Cities to implement Local Investment Networks around Washington State. A Local Investment Network (LIN) is an innovative, community-led peer-to-peer investment network that connects local investors who have capital with local business owners who need capital. It brings residents together around a common goal: to build wealth in their community by keeping local capital rooted in their local economy.	Four networks launched with approximately 100 investors; \$1.2 million invested in local economies; 50 jobs created and maintained.	Ongoing with annual renewal.
Health and Wellness Hub - Community and Economic Development (outreach)	WSU Snohomish County Extension is partnering with Synthesis Interests to design and organize a wellness hub serving the aging population. This pilot project will serve as a model for application through other Extension Centers across the state.	Pre-planning and organizing phase.	ongoing

## 2023 Budget -- Department Work Plan Summary

### 11 - Auditor

#### Department Work Plan : 2023 Licensing

---

##### I. Long Term Goals

- Continuously improve the delivery of licensing services by providing local access for services that include vehicle/ vessel title and registrations services and permits
  - Continue to protect the health, welfare and safety of the citizens in the Snohomish County community through the regulation of specific county business activities
  - Improve the quality and frequency of title clerk certification training and testing, inventory and financial audit oversight and technical support of 17 Licensing Subagents and their employees
- 

##### II. Key Ongoing Core Functions

- Provide vehicle/vessel title, registration and permit transactions for Washington residents over-the-counter, by mail or via internet
  - Provide vehicle and vessel title and licensing training and on-going certification testing of subagents and their staff
  - Maintain state Department of Licensing inventory and monitor licensing subagent transaction accuracy and audit financial records
  - Regulate and license certain county business license activity specified in Title 6 SCC  
Monitor/Audit Subagents
- 

**Percent Effort on Ongoing Core Functions (FTE or Budget):**      90.00%

---

##### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
License Subagent - Quarterly Certification Workshop	Offer license subagent certification workshops on a variety of vehicle/vessel title and licensing topics for continuing education credits to maintain license clerk certification	Ongoing	Trainings occur quarterly
Licensing process review	Utilize Lean concepts to evaluate processes to gain efficiencies	Ongoing	Occurs throughout the year in regularly scheduled staff meetings

---

**Percent Effort on Projects/Initiatives (FTE or Budget):**      10.00%

## 2023 Budget -- Department Work Plan Summary

### 11 - Auditor

#### Department Work Plan : 2023 Animal Services

---

##### I. Long Term Goals

- Continuously improve the delivery of animal control services in Snohomish County
  - Stay current on legislation relative to animals and animal control regulations
  - Obtain full cost recovery for animal control services when owners can be identified
  - Reduce the number of Snohomish County animals entering animal shelters through increased pet licensing and microchipping thus reducing overall costs for contracted shelter services
  - Support on-going training efforts to increase core skills for investigations, evidence gathering and report writing
- 

##### II. Key Ongoing Core Functions

- Respond to animal related complaints
  - Conduct thorough and timely investigations of dog attacks, animal cruelty and neglect
  - Return lost/stray pets and/or livestock directly to their owners in the field whenever possible
  - Provide animal owners with basic information and/or resources concerning animal nutrition, health, care, housing/shelter and behaviors
  - Conduct inspections of commercial boarding kennels, grooming parlors and animal shelters for code compliance
- Administer the pet licensing program

**Percent Effort on Ongoing Core Functions (FTE or Budget):**      90.00%

---

##### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Public Outreach Plan 2023	Develop and implement strategies/outreach for public education on benefits of animal licensing and microchipping and animal health/welfare related topics	Ongoing	Throughout 2023
Code Revisions	Review and submit applicable Snohomish County Code revisions under Chapters 6 and 9 as needed.	Ongoing	Throughout 2023

##### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Civic, Resident and Community Engagement	Through county IT solutions and services, the public will have additional access to information, tools, and have a better understanding of how to best engage with various county departments, offices, and courts.	in progress	2023
. . . . .			

## 2023 Budget -- Department Work Plan Summary

### 14 - Information Technology

#### Department Work Plan : Department of Information Technology

Civic Engagement: Urban/Rural Broadband	As part of the Smart County initiative, work and coordinate with public and private partners to establish broadband access to targeted regions, which may include extending wired broadband service to rural communities, creating high speed wireless mesh networks in urban centers, or both.	in progress	2023
Portfolio Modernization	Modernize and simplify the county IT portfolio across devices, applications, vendors, and infrastructure	in progress	2023
Portfolio Modernization: ERP/Financial Systems Replacement	The County's core enterprise financial, HR, and payroll systems do not and cannot support improvement to business operations. To support improvements to operations and services, the County needs to replace the collective ERP environment with a combination of modern software systems.	in progress	2023
Security, Privacy and Data Protection	Increased expectations require the County to be ready to deliver and receive digital information and services anytime, anywhere and on any device. It must do so safely, securely, and with fewer resources	in progress	2023
Data Management	As Snohomish County expands its digital footprint, data creation must be tied to coordinated plans for access, retrieval, retention, and protection to ensure critical business data is organized, readily accessible, and preserved. Data created every day directly affects the lives and future of our residents, while also creating the County's history	in progress	2023
Data Management: Records Archive Platform	As the County migrates digital documents, the County will adopt the tools, policies, and procedures necessary to automatically archive, manage, and destroy digital records in a manner that fully complies with Washington State law and related retention schedules.	in progress	2023
Digital Workplace	Snohomish County workforce depends on digital solutions to provide services to residents and employees. This will require a continued emphasis on building, buying and implementing solutions that support the ability to work in a digital and paperless environment	in progress	2023

## 2023 Budget -- Department Work Plan Summary

### 14 - Information Technology

#### Department Work Plan : Department of Information Technology

Digital Government	To continue building for the future of Snohomish County the Department of Information Technology must lead the effort to create a Digital Government strategy that fosters innovation, improves data and the quality of services delivered to the residents and employees of Snohomish County	in progress	2023
Digital Government: Internet of Things Platform	Leverage traditional government infrastructure in order to deploy and operate digital infrastructure, including environmental sensors, data collection and management tools, and application services.	in progress	2023
Workforce Development	Leverage IT capabilities to create a simple, secure, and seamless work experience for the Snohomish County workforce. Grow the IT skillsets to support initiatives	in progress	2023
Innovation	As one of the fastest growing counties in the nation IT leads the identification and adoption of innovative practices and technologies to support our residents and employees	in progress	2023

## 2023 Budget -- Department Work Plan Summary

### 21 - Airport

#### Department Work Plan : Dept 410 Airport Work Plan

---

##### I. Long Term Goals

Provide high quality aviation facilities, equipment and trained personnel to meet FAA standards and to provide a safe environment for aviation activities, Airport tenants, and the traveling public.

Protect and enhance the public ownership of the airfield and commercial/industrial assets of Paine Field. Respond to customer demand and enhance long-term revenues to fund the ongoing needs of the Airport.

---

##### II. Key Ongoing Core Functions

- Provide high quality aviation facilities, and services.
- Maintain aviation and industrial safety standards, including aircraft rescue, fire fighting and emergency medical response.
- Manage airfield operations.
- Manage capital construction projects including airside projects, landside projects, and projects in Airport owned buildings.
- Maintain and repair Airport Infrastructure: pavement, utility systems, grounds, detention ponds and tenant leased buildings
- Promote new business and real estate development.
- Provide Property Management of hangars, and industrial and commercial Airport properties.
- Manage FAA grants as well as other grants that support Airport operations.
- Strive for 100% FOD free Airport

Note: Airport projects listed below are part of the Airport's key ongoing core functions.

**Percent Effort on Ongoing Core Functions (FTE or Budget):** 100.00%

---

##### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Land Acquisition & Maintenance Building Renovation	This purchase is an enclave of buildings contiguous to the airport. The purchase price is \$6.5 million which will be 100% bonded. Existing buildings shall be renovated for \$1.25M for use by the Maintenance Division.	waiting for intergovernmental approval to proceed	Contingent upon inter-governmental land sale approval
-----			

## 2023 Budget -- Department Work Plan Summary

### 21 - Airport

#### Department Work Plan : Dept 410 Airport Work Plan

Airport Master Plan & Environmental Assessment	Continue developing the Airport Master Plan which is a comprehensive study of Paine Field describing the short, medium, and long-term development needed to meet future aeronautical demand. All future growth plans will be outlined in a 20 year plan to meet the forecasted demand.	Preliminary work started in 2020	Total project can last two (2) to four (4) or more years
Inner Terminal Ramp	Approximately 150,000 square feet of PAE controlled ramp will be reconstructed. The current ramp consists of an approximately 9 inch thick asphalt surface over a 6 inch aggregate base. The reconstruction will consist of removal of existing pavement to the sub-base and installing Portland cement concrete, meeting FAA specification P-501.	Design started in 2021	Construction 2023
Rehab Central Hangar Taxilanes	The project includes rehabilitation of the central ramp taxilanes where most of the pavement is approximately fifty (50) years old and has far exceeded its expected useful life. The project also includes converting part of the central ramp apron into a run-up area for runway 16L.	Planning & Design Phase I in 2024	Construction in 2025
Reconstruct Runway 16R/34L	The runway needs to be reconstructed and safety issues corrected. The project will address pavement delamination, vertical grade changes, and correct multiple deviations from design standards including runway safety area grading. Concrete Pavement will be utilized as much as possible.	Design, Engineering, and Environmental 2023-2025	Construction 2026-2027
Taxilane Echo Reconstruction	Taxilane Echo is the primary connection between the two runways serving several hundred based aircraft, ARFF, and MRO operations with aircraft up to ADG V. The asphalt pavement is in poor condition and needs to be replaced. Concrete pavement is programmed for a longer life cycle.	Construction in 2022	Construction 2022 and closeout in 2023
Airport Administration Building Renovation	Renovate approximately 20,000sf of a newly acquired building in the Bomarc Business Park. The building will be used to provide office space for Airport staff.	Design to begin in 2022	Construction 2022-2023

## 2023 Budget -- Department Work Plan Summary

### 21 - Airport

#### Department Work Plan : Dept 410 Airport Work Plan

Relocate Runway Lighting Electrical Vault	Relocate Runway Lighting Electrical Vault located in the center of the remaining land on the west side of the Airport. The electrical vault needs moved for future development plans.	Planning & Design included with RW 16R-34L reconstruction, 2024-2025	Construction 2026-2027
East Ramp Pavement Reconstruction	Rehabilitation of the East GA Apron pavement, last repaved in 1984 and currently in deteriorating condition. Resurfacing in 2023 will restore useful life of the pavement and allow for low life-cycle cost of replacement.	Planning Phase	Construction 2023
Reconstruct A9 & A10 Taxiways	Rehabilitation of Taxiway A9 & A10 and the immediate connector taxiways. Taxiway A10 was constructed in 2000, Taxiway A9 was constructed in 1983, and both were last repaved in 2000. Taxiways are in poor condition with a current CPI of 55 out of 100 and have reached the end of their useful life.	Designs in 2024	Construction in 2024

#### Percent Effort on Projects/Initiatives (FTE or Budget):

## 2023 Budget -- Department Work Plan Summary

### 22 - Treasurer

#### Department Work Plan : Treasurer

---

##### I. Long Term Goals

- Maintain high level of tax collection
  - Invest public funds for maximum return while providing necessary liquidity and protecting principal for the county and districts. It is measured by comparison with LGIP rate.
  - Disburse monies to county funds and districts in timely and efficient manner.
  - Report to districts as outlined in state law.
  - Continue to be excellent stewards of the public funds with which we are entrusted.
- 

##### II. Key Ongoing Core Functions

Property Tax Administration  
Excise Tax Processing and Reporting (REET)  
Property Tax Billing, Collecting and Distributing  
Property Tax Adjustments and Refunds  
Personal Property Delinquent Tax Collection  
Delinquent Real Property Tax Collection (Foreclosure)  
Special Assessment Billing and Administration  
Surface Water Management Billings and Collections  
Gambling Tax Collection

**Percent Effort on Ongoing Core Functions (FTE or Budget):**      100.00%

#### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
On-line sale of foreclosed properties	We are looking at an on-line sale of foreclosed properties. This will save facility costs for the auction, and give more exposure to the properties	Planning but depends on staffing level to move ahead	
One year of delinquent property tax	Also we are looking at requiring the payment for one year of property tax from taxpayers who have property in foreclosure	Planning but depends on staffing level to move ahead	
Collection rate of delinquent personal property tax	Collection rate of delinquent personal property tax continues to improve due to a real threat of property seizure (distrain). In addition the inflated values of personal property and those that do no longer exist will be removed from the tax roll.	Working	Working currently.
Sending tax statements electronically	We are looking at a process for sending tax statements electronically in lieu of a printed and mailed statement. This will reduce mailing costs.	Working with Retail Lockbox to send statements electronically	Continuing effort
Taxpayer information	We are encouraging taxpayers to use the website for tax information rather than calling and/or emailing. This reduces staff time and provides taxpayers with complete information.	Working	Continuing effort
SCIP expansion	We continue to add participants to the internal investment pool. This allows a more varied investment mix and produces additional revenue for county funds.	Working	Continuing effort

## 2023 Budget -- Department Work Plan Summary

### 22 - Treasurer

#### Department Work Plan : Treasurer

Pay Station	Pay Station will be a convenience to taxpayers and will save processing time for staff. Taxpayers will be able to make property tax payments by credit card and ACH. They will receive their tax statement electronically which will save printing and mailing costs. They will be able to schedule payments in advance. There is no cost to the county. Costs are covered by convenience fees paid by the taxpayer. Tax payments processed by Pay Station will be batched and sent directly to the county bank and loaded into the tax software from file formatted to interface.	Working	Continuing effort
Auto Agent	This will allow tax services to have up to date information on property tax payments. Information will be downloaded at night and sent to Auto Agent to be distributed to tax services. This will save processing time by increasing the number of tax payments that are made for the correct amount and cutting the time required to quarterly cut a CD for the tax services with tax information. Also, the file will be sent to Retail Lockbox to ensure the tax payments by taxpayers in the Pay Station process are for the correct amount.	Working	Continuing effort
Newproperty tax and assessment system	In a joint effort, the Assessor's office and Treasurer's office have published a RFP for a new property tax and assessment system. The current system, Ascend, is rapidly declining in performance and sustainability, resulting in very visible performance issues to county staff, taxpayers, and title companies. The new system should provide the county with faster performance, proper audit trails, more reporting and research functionality, and offer more efficient operations for the two departments. This RFP will take hundreds of dedicated man hours to evaluate, integrate, and establish in the County, but will better serve our departments and the needs the taxpayers.	Working

## 2023 Budget -- Department Work Plan Summary

### 24 - District Court

#### Department Work Plan : District Court

---

##### **I. Long Term Goals**

The District Court's long term goals are:

1. Provide equal access to a fair and effective system of justice to all without excess cost, inconvenience, or delay, and with sensitivity to an increasingly diverse community. Improve access to our website, court forms, and translated documents.
2. Offer alternative methods of dispute resolution, while preserving the constitutional right to trial by an impartial judge or jury.
3. Provide quality service that continuously improves, meets or exceeds public expectations, and ensures that all are treated with courtesy, dignity, and respect.
4. Improve communication within District Court, and with the public, the bar and the other branches of county government, while maintaining the independence of the Judiciary.
5. Employ new technology, including a digital document management system, eFiling, and a new case management system, to improve service and access to court users, increase functionality and efficiency for court staff and judges, and minimize the use of paper.
6. Modernize and improve facilities, furnishings, and security measures to provide a functional work environment and courtrooms that are safe and accessible for staff, judges, and the public.
7. Hire diverse staff and increase staff retention. Provide salaries and benefits that are commensurate with similarly situated courts, allow flexibility that is consistent with court operations, and increase professional development and leadership opportunities.
8. Continue to strengthen and build the Probation Department, maintain established high-quality community programs, and expand therapeutic courts to better serve our community.
9. Continue long-range planning and embed processes to implement long-range goals.

---

##### **II. Key Ongoing Core Functions**

Snohomish County District Court is the second largest District Court by filings in the state of Washington. It is comprised of four (4) divisions located in Arlington, Everett, Lynnwood and Monroe.

There are eight judges (elected to serve four year terms) and one court commissioner serving in an appointed position.

District Court has jurisdiction over both criminal and civil cases. In addition, the Court maintains a Probation Department to monitor and assess compliance with court orders, and to provide community programs and treatment alternatives to traditional court. Further, District Court has a very successful Mental Health Court which provides a therapeutic option to participants with mental or behavioral health issues.

## 2023 Budget -- Department Work Plan Summary

### 24 - District Court

#### Department Work Plan : District Court

---

**Criminal Filings:** District Court has jurisdiction over misdemeanors, gross misdemeanors, and criminal traffic cases. These include but are not limited to driving under the influence of intoxicants (DUI), hit-and-run, and assault cases. Criminal cases are given high priority due to time for trial limitations. Misdemeanor and gross misdemeanor convictions carry the possibility of fines, incarceration and probation. Preliminary hearings for felony cases are also conducted to determine probable cause.

**Civil Filings:** District Court has jurisdiction in civil cases with damages up to \$100,000 for injury to individuals or personal property, as well as penalty and contract disputes up to \$100,000 (RCW 3.66.020).

**Small Claims and Impound Hearings:** Small claims are limited to money claims of up to \$10,000 for individuals and \$5,000 for businesses. Each party is generally self-represented (attorney participation is at the discretion of the judge hearing the case). The Court is also mandated to provide impound hearings to challenge vehicle impoundment.

**Name Changes and Protection Orders:** District Court has jurisdiction to hear name change petitions, and domestic violence, unlawful-harassment, stalking, and sexual assault protection orders.

**Infractions:** District Court is legally mandated and has jurisdiction over traffic and non-traffic infractions. An infraction is a civil proceeding for which a monetary penalty, but no jail sentence, may be imposed. The Court also has contractual obligations to conduct hearings for those municipalities paying a filing fee to the County for court services.

**Mental Health Court:** Mental Health Court is a therapeutic court that is a collaborative, problem-solving court designed to promote safety and reduce recidivism among mentally ill offenders through an intensive program of evaluation, treatment and frequent monitoring of compliance. The goal is to bring long-term stability, sobriety, and safety to mentally ill offenders while ensuring the security and well-being of the community.

**Probation and Community Programs:** District Court utilizes probation founded on evidence-based practices, electronic home detention, Alive at 25, Attitudinal Dynamics of Driving, Domestic Violence – Moral Reconciliation Training, and the Relicensing Accountability Program.

**Dispute Resolution Services:** Volunteers of America Dispute Resolution Center provides trained mediators who assist in the settlement of a wide variety of disputes. Under District Court contract, small claims suits filed in the Everett, Evergreen or South Divisions mandate participation in a mediation hearing virtually or at the courthouse prior to the scheduling of a trial date. The program continues to provide one of the most cost-effective strategies available to the Court in diverting cases from courtroom calendars.

## 2023 Budget -- Department Work Plan Summary

### 31 - Prosecuting Attorney

#### Department Work Plan : Dept 31 Prosecuting Attorney

---

##### **I. Long Term Goals**

Office-wide – (1) seek additional funding for core functions and special programs to stretch our financial resources; (2) offer more training and mentoring opportunities to less-experienced employees; (3) address increased turnover of attorneys, due in large part to private sector pay disparity and the Great Resignation.

Criminal – (1) expand the department’s capacity to offer more qualified offenders alternatives to traditional prosecution; (2) increase efficiency and eliminate redundancy in District Court prosecution; (3) continue reducing our reliance on paper in case files; (4) reduce the felony case backlog in charging to a manageable level; (5) develop a comprehensive training program for DPAs and law enforcement (Priority Package 354).

Civil – (1) maintain effective technological infrastructure; (2) continue to develop internal specialties and subject matter expertise to better serve the County; (3) continue partnering with Risk Management to identify, control, and reduce county liabilities.

Family Support – (1) provide efficient and effective representation of the State of Washington on the establishment and recovery of child support obligations; (2) meet federal timelines in parentage establishment; (3) monitor and make improvements to support order modification procedures in anticipation of federal timelines for these cases in the future.

---

##### **II. Key Ongoing Core Functions**

The Snohomish County Prosecuting Attorney’s Office consists of three core divisions: Criminal, Civil, and Family Support. We are the largest “law firm” in the county, and carry out both statutory (Criminal and Civil) and contractual (Family Support) obligations. The duties and obligations of the Prosecuting Attorney are set forth at chapter 36.27 RCW; however, several other state laws establish further duties and responsibilities which constitute the key core functions of the office.

Criminal – The Criminal Division is responsible for prosecuting all adult felony cases and juvenile criminal cases occurring within Snohomish County, and all adult misdemeanor and gross misdemeanor cases referred by the County Sheriff, State Patrol, all state agencies, and some cities that have contracted with the county for misdemeanor prosecution services. The Criminal Division participates in Mental Health Court, DOSA proceedings, Drug Court, and has attorneys and staff assigned to the Snohomish Regional Drug and Gang Task Force, the Auto-Theft Task Force, and Dawson’s Place, a nationally certified child advocacy center. The Criminal Division also provides advocacy services for crime victims.

## 2023 Budget -- Department Work Plan Summary

### 31 - Prosecuting Attorney

#### Department Work Plan : Dept 31 Prosecuting Attorney

---

Civil – The Civil Division acts as in-house legal counsel for Snohomish County. In this capacity, it represents the County and its employees, as appropriate, in civil litigation in federal and state courts, arbitrations, mediations, administrative hearings, and appeals. The Civil Division offers its County clients a broad range of other legal services, including informal and formal advice, risk management advice, and the preparation and review of a broad variety of legal instruments. With two attorneys assigned to ITA (Involuntary Treatment Act) hearings, the Civil Division represents the State of Washington as petitioner and partners with the mental health division of Human Services and other designated crisis responders in the prosecution of involuntary commitment proceedings. In addition, the Civil Division advises and represents the Snohomish Regional Drug and Gang Task Force in civil forfeiture proceedings. Lastly, a dedicated Civil attorney is responsible for providing legal advice and training to all County departments and litigation defense for Public Record Act matters.

Family Support – The State of Washington contracts with the Prosecuting Attorney to carry out specific family support functions. The Family Support Division litigates issues regarding child support in cases referred by the State Department of Social and Health Services, Division of Child Support (“DCS”) and private matters with interests that effect the state. Unlike the Criminal and Civil Divisions, the Family Support Division receives no General Fund support. Instead, it receives reimbursements for expenditures from a combination of state and federal pass-through funds.

#### Percent Effort on Ongoing Core Functions (FTE or Budget):

---

#### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Complex Prosecutions Unit	The office is proposing the creation of the CPU to centralize prosecution of the most complex cases in a small unit of highly experienced DPAs. (Priority Package 355). This will leverage the specialized experience of these DPAs to focus on some of the most serious cases in the office and will allow other DPAs to better attend to their primary responsibilities in other important units (including the Special Assault Unit, the Domestic Violence Unit, and the Violent Crimes Unit).	The CPU is being developed as a 2023 budget proposal. Current office resources are insufficient to stand up this unit without additional personnel.	On-going

### 31 - Prosecuting Attorney

#### Department Work Plan : Dept 31 Prosecuting Attorney

---

##### Data Collection Initiative

The Snohomish County Council appropriated funds in the 2022 budget to support the Law and Justice Data Collection Initiative (led by the Prosecuting Attorney's Office). The PAO's efforts led to the Microsoft Corporation awarding a \$250,000 grant to the Institute for State and Local Governance (ISLG of CUNY) to provide analysis and assistance in developing metrics to evaluate social justice issues in Snohomish County's Law and Justice Community.

This is a continuation of the efforts initiated in 2021 that extends the capabilities to be focused on standard operating models for the county and enables broadening of the data sets accessed.

On-going

Organizations are under increasing pressure to provide operational and procedural transparency. Business Intelligence (BI) Reporting and Visualizations provides the opportunity to report data important to the Law and Justice Community and the residents of the County. Organized data from multiple sources can optimize the insight through data visualization. This project enables the PAO's office in collaboration with Law and Justice partners and IT to engage with an external resource to deliver business value and define long term operational integration into standard county IT infrastructure.

The solutions pull data sources together and create comprehensive reporting from multiple sources, in particular New World, which is the Sno911 call system, and JustWare, an on-premise SQL instance. Data from these systems will be consolidated in a comprehensive manner to provide accurate reporting back to the community.

---

Special Areas of Criminal  
Prosecution and Prosecution  
Alternatives

The Criminal Division continues to assign a high priority to violent felonies, sexual assault and crimes against children, DUIs and domestic violence crimes. A number of special areas of prosecution are maintained or supplemented with state and federal grant funding, including: the failure of convicted sex offenders to register; the manufacture and delivery of controlled substances by criminal organizations; auto theft; sexual assault; and, financial fraud and identity theft.

On-going

On-going

The Prosecution Crossroads Unit, staffed by a DPA, four counselors, and a legal secretary, focuses on alternatives to traditional prosecution. This dedicated and skilled group care deeply about addressing the root causes of what brings a person in contact with the criminal justice system and setting them up for future success. For those eligible defendants who successfully complete a Crossroads program, our community is undeniably safer.

## 2023 Budget -- Department Work Plan Summary

### 31 - Prosecuting Attorney

#### Department Work Plan : Dept 31 Prosecuting Attorney

Technology Review	<p>The Family Support Division of the office was one of the pilot agencies to partner with the Snohomish County Clerk's Office to implement the Clerk's e-filing system. With the pilot completed, the Clerk's office will broadly implement the e-filing system in the fall of 2022, changing the way the county does business. This will also change the way the office files cases into Superior Court.</p> <p>The Civil Division's current OnTrack Program (software for case management and timekeeping) is a home-grown program that is 17 years old. The Risk Management office has indicated that the software lacks several features necessary for its core functions. The Civil Division has assessed the life expectancy of OnTrack and continues to work with IT to evaluate other products that are available. The Civil Division will continue with its scanning project, which is enabling staff and attorneys to access PDF copies of files, thereby reducing dependence on hard copies stored in the IT records facility.</p>	On-going	On-going
Focused Client Services	<p>The Civil Division will continue to evaluate client needs and services in an effort to effectively provide necessary services with the reduced resources. The Civil Division is also preparing for a new line of services related to the creation of the Health Department and the absorption of the Snohomish Health District.</p>	On-going	On-going
Enhanced Services	<p>The Family Support Division seeks to increase the integrity of information on referrals and archived files on its state-provided IT systems, either through increased training on existing systems or through identifying and implementing a new system, and securing files within the office to comply with Federal regulations.</p>	On-going	On-going

## 2023 Budget -- Department Work Plan Summary

### 31 - Prosecuting Attorney

#### Department Work Plan : Dept 31 Prosecuting Attorney

Space Planning	To lessen the crowded conditions of our offices in the Mission Building, the Office – in consultation with the Executive’s Office, Facilities and Human Services -- seeks to move the District Court Unit from the Mission Building to the 1st Floor of the Carnegie Building. This move will also allow for the return of the Appellate Unit to the Mission Building.	Planning	Completion by end of 2022, beginning of 2023.
Criminal Justice Training	<p>The Office will continue to work on memorializing our institutional knowledge by completing training manuals for each Unit within the Criminal Division. Work to refine the newly established mentorship program. Standardize training procedures and guidance provided to new employees in each unit as well as office as a whole. Maintain the trial skills training program to deliver core competency instruction that will be of benefit all DPAs in all divisions and at all skill levels, but with a focus on less experienced litigators. In addition to core trial skills, the training will include segments about equity, diversity, trauma-informed care and awareness.</p> <p>In addition, Priority Package 354 proposes to strengthen our internal training program with a designated Training DPA, while also providing for external training of local law enforcement, thereby improving justice for crime victims across the county.</p>	On-going	On-going

### 31 - Prosecuting Attorney

#### Department Work Plan : Dept 31 Prosecuting Attorney

---

LEAD - Law Enforcement  
Assisted Diversion

Snohomish County's Law Enforcement Assisted Diversion (LEAD) is a grant-funded pre-booking diversion program that allows officers, either at the point of contact or through social referrals, to redirect low-level offenders engaging, or known to engage, in street-level drug possession or sales, sex work, and/or other non-violent criminal offenses to community-based services instead of jail and prosecution. Individuals referred to LEAD receive immediate access to harm-reduction based intensive case-management. The County has contracted with the Public Defender Association of Seattle and with Evergreen Recovery Centers to hire program staff, provide outreach, intake, and case management services, and to offer administrative services. Program participants work with their case managers to develop an individualized plan that identifies the types of services most relevant for them. These services include, but are not limited to, chemical dependency treatment, mental health care, housing, food security, and job training and placement. Unlike drug courts and other sanctions-based approaches, abstinence from drug use is not a precondition of receiving services. Rather, case managers work intensively with individuals to reduce the harm that substance use may cause them and the community. Prosecutors and police officers work closely with case managers to ensure that all future contacts with LEAD participants, including new criminal prosecutions for other offenses, are coordinated with the service plan for the participant to maximize the opportunity to achieve behavioral change. We currently have over 100 program participants receiving intensive case management services and with additional funding through the North Sound Behavioral Health Administrative Services Organization and the Bureau of Justice Affairs, Snohomish County LEAD now has the resources to incrementally increase staffing and thereby the number of program participants to 270 individuals.

## 2023 Budget -- Department Work Plan Summary

### 37 - Clerk

#### Department Work Plan : Snohomish County Clerk 2023 Work Plan

---

##### **I. Long Term Goals**

Conduct review of Clerk services focusing on our priority of “access to justice”. Create technology roadmap to expand online services to citizens as well as providing increased opportunities for staff telecommuting; incorporate plan into Clerk’s 2022-2026 Strategic Work Plan.

Review organizational structure to determine if changes are needed as a result of increased workload related to Superior Court’s addition of three judicial officers as well as any efficiencies that may have been created from implementation of mandatory electronic filing of Superior court cases (i.e. court records) for attorneys.

Continue hiring temporary staff (OA II - 1,040 hours each), using approved 2023 Auditor O&M Funds for work on a multi-year auditing project for permanent preservation of 40,000+ boxes of archived Superior Court case records currently stored at County Records Center.

Work with the County’s Continuous Improvement staff to further Clerk’s Office staff training and to assist with reviewing and identifying efficiencies in business processes using STEP methodology.

---

##### **II. Key Ongoing Core Functions**

Preserve court records in perpetuity and provide public access;

Manage Superior Court funds including collection and disbursement of fees, fines, restitution and trust funds;

Receive, review and manage court cases and documents, including data entry, e-filed documents, and scanning into State case management system;

Attend all Superior and Juvenile Court hearings and trials and create an independent record;

Manage hearing and trial exhibits, ensuring court records and exhibits are available for court proceedings, and that exhibits are properly stored and destroyed timely pursuant to State Retention Schedules

Summons jurors and perform jury management for the Superior and District Courts;

Provide Protection Order assistance in matters of Domestic Violence, Harassment, Stalking, Sexual Assault, Extreme Risk and Vulnerable Adults;

Provide Family Law and Guardianship Facilitator program services to the public and Superior Court Bench;

Enter and maintain a record of judgments, which equates to a judgment against real property; and

Manage appeal process for cases appealed to the State Court of Appeals and to the State Supreme Court.

**Percent Effort on Ongoing Core Functions (FTE or Budget):**      98.60%

---

## 2023 Budget -- Department Work Plan Summary

### 39 - Emergency Management

#### Department Work Plan : Dept. 39 2023 Emergency Management Work Plan

---

##### **I. Long Term Goals**

Develop strong partnerships throughout the county and region that improve the resilience of Snohomish County's communities.

Fully coordinate all emergency management plans across the County.

Maintain a volunteer cadre that can support the community during disasters.

Ensure the emergency management roles and responsibilities of Snohomish County departments, agencies, and elected officials are clearly understood and institutionalized.

Have a highly functional system within our Emergency Coordination Center that leverages technology and County staff.

A professional, credentialed workforce that completes our mission with minimal waste and continuous improvement.

Meet the standards for accreditation by the Emergency Management Accreditation Program (EMAP) and become accredited.

Support public safety by managing and maintaining an enhanced 911 emergency communications system which is efficient and reliable that provides rapid public access for coordinated dispatching of police, fire and medical emergency services.

---

##### **II. Key Ongoing Core Functions**

Respond to disasters: DEM staff are responsible for maintaining the Snohomish County Emergency Coordination Center, which is the primary location for coordinating the response to incidents, and for training three teams of 68 people who will staff the ECC. We also maintain two command vehicles, a communications truck, and the County's joint information center. When requested, we send staff to support other jurisdictions during times of crisis.

Plan for disasters: DEM staff manage or participate in dozens of planning efforts that address all phases of emergency management from pre- to post-disaster, and involve representatives from multiple jurisdictions and agencies from the whole community. Our primary responsibility is the Snohomish County Comprehensive Emergency Management Plan, the Snohomish County Hazard Mitigation Plan, and the Snohomish County Disaster Recovery Framework. Through interlocal agreement we also work with 19 cities, town, and tribes to develop their equivalent plans; we also participate with multiple agencies on incident- and scenario-specific plans such as the Mt. Baker/Glacier Peak Coordination Plan, the Snohomish County Disaster Debris Management Plan, the Medical Examiner's Mass Fatality Plan, etc.

Train and exercise to prepare for disasters: DEM manages training and exercise programs that build and evaluate disaster-related capabilities, and ensure availability of our homeland security grants by complying with the National Incident Management System (NIMS) and the Homeland Security Exercise and Evaluation Program (HSEEP). We deliver or facilitate the delivery of dozens of trainings each year, in topic that include the Incident Command System, Flood Fight Operations, staff of our emergency coordination center, and others. We plan a countywide exercise on a triennial basis, but also conduct or participate in smaller exercises (e.g., tabletop exercises at Paine Field, the Evergreen State Fairgrounds, etc.) throughout the year.

## 2023 Budget -- Department Work Plan Summary

### 39 - Emergency Management

#### Department Work Plan : Dept. 39 2023 Emergency Management Work Plan

---

Educate and empower the public to build disaster resilience: DEM builds individual and neighborhood resilience by delivering public presentations, facilitating Map Your Neighborhood and Community Emergency Response Team training, and by participation in outreach campaigns that educate residents on the county's hazards. We deliver dozens of presentations each year, reaching nearly 10,000 residents directly. We developed radio spots that reach an estimated additional 350,000. Our Map Your Neighborhood program has been widely implemented across south Snohomish County and we are developing CERT programs throughout the county. We also support a volunteer group comprised of nearly 150 HAM radio operators.

Build and maintain collaborative relationships with our emergency management partners: DEM works closely with all of the jurisdictions within Snohomish County. We also actively collaborate with the members of Homeland Security Region 1 (Snohomish, Skagit, Whatcom, Island, and San Juan counties) and the Seattle Metro Urban Area Security Initiative (Snohomish, King, and Pierce counties, and the cities of Seattle and Bellevue) to build regional capabilities. We meet with these partners regularly and collaborate on multiple projects, including one that addresses how to work closely with the private sector to ensure the viability of our food sector's supply chain after an earthquake and another that addresses mass evacuation following a dam failure.

Administer our program and grant allocations for ourselves and the Homeland Security Region: DEM administrative staff support the day-to-day operations, and administer multiple homeland security grants for Snohomish County and our regional partners.

Coordinate post-disaster recovery efforts: After disasters, DEM staff coordinate the County's preliminary damage assessment and work closely with other county departments and jurisdictions, the State's Emergency Management Division, and FEMA, to identify every reimbursable expense.

Enhance 911 emergency communications: Managing and maintaining the enhanced 911 emergency communications system - a public communications system- consisting of networks, databases, and on-premises equipment accessed by the public, which enables them to report emergency situations to a public safety answering point. It also includes the modernization to next generation 911(NG911) systems.

Coordinate pre-disaster hazard mitigation efforts: DEM staff work with staff in other county departments, and with staff from 37 other jurisdictions throughout Snohomish County, to identify and implement strategies that reduce the impacts of disasters on our community.

**Percent Effort on Ongoing Core Functions (FTE or Budget):** 80.00%

---

#### III. Projects/Initiatives

Project/Initiatives	Brief Description	Status	Timeline/Key Dates
Accreditation by the Emergency Management Accreditation Program	The ANSI/EMAP 4-2016 Emergency Management Standard establishes 64 standards by which programs that apply for EMAP accreditation are evaluated. The Emergency Management Standard is designed as a tool for continuous improvement as part of the voluntary accreditation process	in work - prioritizing pandemic response	

## 2023 Budget -- Department Work Plan Summary

### 39 - Emergency Management

#### Department Work Plan : Dept. 39 2023 Emergency Management Work Plan

for local, state, federal, higher education and tribal emergency management programs.

Snohomish County DEM seeks to become the fourth EMAP accredited program in Washington, joining King and Pierce Counties, and the City of Seattle.

Statewide Catastrophic Incident Planning Team

In 2015 the Director of Washington's Emergency Management Department convened a group of emergency managers to develop a framework that all state and local jurisdictions could use to plan for the Cascadia Subduction Zone earthquake.

That framework identifies eight critical areas and additional work was requested from the group to work collaboratively to develop detailed plans to address those issues.

The group released the first version of the framework in 2017 and a second revision in 2018. They are currently working on the highest priority issue, critical transportation.

The group will continue to work through the prioritized items with a targeted goal of completing all work by summer of 2022.

Supporting the development of continuity of operations (COOP) plans for all Executive departments.

All Executive departments have been directed to complete a COOP plan, which describes how they will fulfill their essential functions after a disaster. DEM was asked to create a template and provide technical assistance and review of COOP plans.

Once completed, the next step is to assist departments with training their staff and creating exercises to validate their COOP plans.

Nearly all COOP plans are in progress. - prioritizing pandemic response

**Percent Effort on Projects/Initiatives (FTE or Budget):**

20.00%

Notes & Assumptions:

<sup>1</sup>Three year appraisal approval in progress adjusting all leased properties to fair market value.

<sup>1</sup>Passenger terminal provides Airport with 2.5% of gross receipts and on the fifth year it changes to 5.0%. This will occur on March 4, 2023.

<sup>1</sup>Growth Factor Revenues: Revenue based on actual and estimated tenant leases.

<sup>2</sup>Debt service with loan maturity dates set at twenty (20) years for ANG bonds & ten (10) years for PFC bonds with an early payoff option. Bond budgeted at 5.0% APR which is subject to market conditions.

<sup>3</sup>Passenger Facility Charge (PFC) is \$4.50 per enplaned passenger and are restricted to FAA approved projects and may not be used for operations.

<sup>4</sup>Growth Factor Expenses: Expenses adjusted for anticipated major repairs and maintenance increases due to aging infrastructure.

<sup>5</sup>One (1) debt service bond matures at the end of 2026 reducing payments by approximately \$604,885 annually.

<sup>6</sup>Fund balance ties to year-end actual/estimated cash balances due to timing of tenant receipts, capital payments and tenant improvement reimbursements.

<sup>7</sup>Total fund balance is PFC Fund Balance + Ending Fund Balance. PFC Funds are restricted for FAA approved capital projects and must be accounted for separately.

Notes/Assumptions:

1. Ending Fund Balance Includes restricted reserves and inventory value.

<sup>2</sup> The 2021 Financials shows restricted net assets of \$19,034,728. This is the impact of GASB 68 which requires the financial statements to disclose a state-calculated unfunded pension liability ("the excess of the actuarial present value of projected pension benefits over the net resources available to pay those benefits")

**CAFR Reconciliation**

**Notes/Assumptions:**

- 1 Tax Revenues assume increase of 6%/yr. 2022-2027.
- 2 ITA Court Filing Fee adjusted each year based on prior year expenditures/cases filed.
- 3 Includes support from local municipalities for LEESW's plus revenue from participating school districts for Trauma-Informed Practices consultation.
- 4 Consists of unexpended balances of Housing Grants awarded in 2022 and prior. Assumes 100% expended in 2023.
- 5 Advisory Board's recommended Target Fund Balance: 7%.
- 6 Includes \$3,000,000 of 1 time funding in 2023 for BH facilities, and 3,021,091 HB1590 one-time matching funds in 2023.

**Notes/Assumptions:**

<sup>1</sup>Charges for Services include permit fees (projected based on a sophisticated economic forecasting model using multiple regression analysis which considers economic conditions and annexation probabilities) and interfund charges (projected with a 2% inflation factor). Forecasted units based on pessimistic economic scenario with slow annexation scenario with no adjustment for fee increases.

<sup>2</sup>Use of technology fees is restricted to the purchase of new technology investments and related contract and labor costs.

**Notes/Assumptions:**

1. Expenditures in this five year plan are drawn directly from the County's 2023-2028 Capital Improvement Program and the 2023 Adopted Budget.
2. Revenue projections are based upon data from Economic Forecaster
3. The targeted minimum ending fund balance for REET1 to be prepared for an economic downturn is \$6,000,000.
4. \$4.8M added in 2021 with a refinancing in the 2013 Courthouse Bond in order to flatten the escalating out-year payments. Savings will be realized in GF, not here in REET.
5. \$3.6M was added in 2023 to cover all GF debt.

## Notes/Assumptions:

1. Provided by insurance broker, AON, who provides actuarially-calculated estimated losses which are included in the CAFR. These are non-cash entries
2. The 2021 CAFR shows an ending fund balance of <\$12,293,400>. This is the impact of GASB 68 which requires the financial statements to disclose a state-calculated unfunded pension liability ("the excess of the actuarial present value of projected pension benefits over the net resources available to pay those benefits")

## CAFR Reconciliation

**Notes/Assumptions:**

1. Taxes: Revenue from Road Levy includes annual 1% Council adopted increase
2. Proceeds from Long Term Debt: Revenue from Public Works Trust Fund Loan (\$9M awarded to-date; other applications to be submitted in 2022)
3. Other Financials: Revenue from sale of various Road Fund owned properties (\$9M in 2024 and \$1M in 2025)
4. Salaries & Benefits: +8 FTEs in 2023
5. Capital Outlays: Increase to expenditures a result of uptick in TIP construction (Road Fund dollars leveraged towards corresponding grants - Intergov Revenue and mitigation funds)
6. Supplies: Includes road maintenance materials (e.g., sand, gravel, paint, asphalt, etc.) and PW technology purchases
7. Traffic Enforcement \$4.95M annual payment to Sheriff Office
8. Intergov/Interfund: Expenditures fluctuate based on transfer-out to Fund 188 (Arlington Operations Center project)
9. No major Road Levy annexation payments anticipated

**Notes/Assumptions:**

1. Projected annual tonnage increase of 2.3% in out-years.
2. Plan assumes three (3) additional FTEs in 2023 to keep up with anticipated tonnage growth.
3. Amounts shown for "Capital Outlays" encompass all costs included in the CIP.
4. Cathcart Landfill and Sisco Landfill restricted reserve funds are required for landfill closure and post-closure activities.
5. Ending Fund Balance = Unrestricted Fund Balance + Restricted Fund Balance
6. Approximately \$12M is the lowest fund balance that conservatively covers 120 days of on-going operating expenditures (excludes waste export fees, capital expenditures, supplies).
7. The 2021 CAFR shows an ending fund balance of \$30,643,326. This is the impact of GASB 68 which requires the financial statements to disclose a state-calculated unfunded pension liability ("the excess of the actuarial present value of projected pension benefits over the net resources available to pay those benefits").
8. Underexpenditure based on historical analysis of budgeted versus actual expenditures.
9. The plan shows a negative ending balance. Public Works staff will analyze alternatives to resolve the deficit.

**CAFR Reconciliation**

	2021
Ending Fund Balance per 5-yr Plan	39,409,565
Change in Accounting Principles	(8,766,239)
Ending Fund Balance calculated	30,643,326

Ending Unrestricted FB per CAFR difference 30,643,326 -

**Notes/Assumptions:**

- 1.) SWM fund balance as shown here includes funds equal to our pension liability as reported on the CAFR in accordance with GASB 68 - \$282,290 in 2021. This pension liability reduces SWM's Net Position by an equivalent amount.
- 2.) SWM requires a minimum EOY position of \$6M to manage cashflows during the subsequent year. SWM can have a draw down in working capital of up to \$6M over the course of a year during normal operations without reducing our EOY position.
- 3.) REET II funds are assumed to be \$1,100,000 in 2023 - 2026, & \$1,000,000 in 2027 - 2028. All of these revenues have been dedicated to SWM's fish passage culvert program.
