## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** HS Housing, Homelessness, and Community Dev.

**Package ID #:** 145

**Category:**

**Description:** Adjustments to the 2023 HS Housing, Homelessness, and Community Development budget.

**Justification:** These adjustments are being made to more accurately reflect planned 2023 Housing, Homelessness, and Community Development program activities.

Specifically, a COLA contingency of 3% of regular salaries was added and related impact to benefits effective 1/1/2023. A 1.0 fte Human Services Specialist 2, and a 1.0 fte Community Services Counselor for the Housing and Essential Needs (HEN) program, were added. The HEN voucher line item was increased for anticipated additional voucher activity during 2023. Other expenditure line items were adjusted based on 2022 year-to-date actuals and expected 2023 activity.

New revenues include projected balances available at year-end 2022 for use during 2023, not included in the base. Also included is anticipated new State funding to support Ukraine refugee resettlement work.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** 04 HS FTE Adjustments

**Package ID #:** 148

**Category:**

**Description:** The purpose of the Priority Package is to account for regular Human Services Department position adjustments.

**Justification:** These changes are made to more accurately reflect 2023 department staffing plans and impacts on current positions, including: revising position splits between programs; updating salary step information for positions that have been recently hired or positions that have recently become vacant; correcting steps/step dates for current staff where the proforma was incorrect.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   09 Conservation & Natural Resour

**Short Name:**   DCNR Parks 196 Mitigation Fund

**Package ID #:**   149

**Category:**

**Description:**   On September 27, 1989, the County Council approved Ordinances #89-103, 89-104 and 89-105 as an interim measure to address developer impacts on parks and recreation and provide a process to collect fees. On July 12, 1991, the County Council approved a new title 26A SCC (Ord 91-026) which codified the requirement of mitigating development impacts on park and recreation facilities. On February 1, 2003, title 26A was replaced by SCC 30.66A (Ord. 02-064). On February 23, 2005 a new GMA compliant SCC 30.66A was approved by the County Council (Ord 04-016) and was updated again by Ordinance 16-099.

The park mitigation requirements authorized by SCC 30.66A are designed to mitigate impacts reasonably related to development by allowing payment of a dollar amount which must be used to acquire land or develop park and recreation facilities, which are identified as "necessary to support development." Collected fees are made up of a regional fee, which is used for projects that provide regional benefit, and sometimes a local fee, which supports community and neighborhood park improvements. Fees are collected within defined park service areas and are utilized within that same area, for community and neighborhood park improvements, or pooled with other collected funds for regional improvements (regional parks and trails).

**Justification:**   This fund is a holding account for revenue brought in through Park Mitigation 30.66A. Funds are transferred to Fund 309 for Capital Project Expenditure. These fees are tied to designated parks service areas or are pooled with other funds for regional projects.

Mitigation funding for 2023 is based on revenue collected through April 30, 2022 and allocated to the following projects:

Dist #5 Granite Falls 861 Equipment  
Dist #7 Maltby 771 Equipment  
Dist #9 Monroe 1514 Fairgrounds  
Dist #10 North Creek 919 Willis Tucker Ballfield Lighting  
Dist #12 Sky Valley 767 Equipment  
Dist #13 Snohomish 1127 Equipment

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

	<b><u>Package Type</u></b> CIP - Capital	<b><u>Department:</u></b> 09 Conservation & Natural Resour	
<b><u>Short Name:</u></b>	DCNR Parks 309 - Community Parks		<b><u>Package ID #:</u></b> 150
<b><u>Category:</u></b>	Community		

**Description:** COMMUNITY PARKS (Program 44)  
Community Parks are facilities which are typically located near population hubs and provide a mix of recreational amenities that are selected to serve the surrounding community. Amenities provided within Community Parks often include the types of improvements which are included within Parks' level-of-service and, as such, may help address needs related to population growth. Community Park projects included in the six-year capital program include property acquisition, development and/or improvements and are included to provide new amenities to serve new population.

Snohomish County's Park Improvement Plan for Community Parks consists of the following:

BRIGHTWATER MITIGATION PROGRAM / CAROUSEL RANCH: Park acquisition and development project funded through a mitigation agreement with King County/METRO for the Brightwater Sewage Treatment Plant. Remaining improvements identified as part of this agreement are planned to be completed at the Carousel Ranch property, which was acquired in 2015 for this purpose. Funding is proposed as follows:

Prior Year Balance: \$17,837,897  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2013/2024  
Project Status: Permits are currently under review and construction is planned to start in 2023.  
Changes Since the 2022 Budget: None.

CAVALERO HILL PARK DEVELOPMENT: Development of the Cavalero Hill Park site based upon the completed Preferred Plan. The Park is proposed to include a skate park, off-leash dog area, playground, sand volleyball courts, bmx track, trails, open space and possible commercial area. This project is being pursued in partnership with the City of Lake Stevens. Phase 1b has been completed and funds that were proposed to be accumulated for future phases has been removed to fund other projects. Funding is proposed as follows:

Prior Year Balance: \$22,506  
2023: -\$30,382 (GMA Mit. Fees)  
Future Years: 2028 - \$1,200,000 (GMA Mit. Fees)

Project Start/End Date: 2014-2020  
Project Status: Construction of the skate park was completed in 2020 and future year funding has been removed.  
Changes Since the 2021 Budget: Added future year funding.

CORCORAN MEMORIAL PARK: Construction of a new playground will be completed in 2022. The 2023 budget includes funding for a privacy fence between the park and the life estate. Other improvements, including a gravel parking lot and a sport court, etc, are planned and funds are being accumulated for future phases. Funding is proposed as follows:

---

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

	<b><u>Package Type</u></b>	CIP - Capital	<b><u>Department:</u></b>	09 Conservation & Natural Resour	
<b><u>Short Name:</u></b>	DCNR Parks 309 - Community Parks			<b><u>Package ID #:</u></b>	150
<b><u>Category:</u></b>	Community				

Prior Year Balance: \$0  
2023: \$30,382 (GMA Mit Fees)  
Future Years: 2024 - \$70,000 (GMA Mit. Fees) and 2027 - \$1,700,00 (GMA Mit. Fees)

Project Start/End Date: 2019/2022, 2024-2025, and 2027/TBD  
Project Status: Construction of the new playground is progressing and will be completed in 2022. Plans are underway for the privacy fence to be constructed in 2023.  
Changes Since the 2022 Budget: Addition of funding for fencing and future phases.

COUNCIL PARTNERSHIP PROJECTS: Funding provided via Interlocal Agreement to jurisdictions for completion of capital projects. Funding is proposed as follows:

Prior Year Balance: \$683,859  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2021/2022  
Project Status: Interlocal Agreements for projects identified in 2021 have been completed except for funding for the City of Snohomish, due to a change in project funding. The amount allocated to the City of Snohomish for improvements at Averill Field Park has been updated to \$55,000.  
Changes Since the 2022 Budget: Carry over of a portion of District 5 funding.

ESPERANCE PLAYGROUND/SITE IMPROVEMENTS: Completion of the forest play area and sport court surfacing. Funding is proposed as follows:

Prior Year Balance: \$315,011  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2021/2022  
Project Status: Completed earlier site development efforts in 2022.  
Changes Since the 2022 Budget: Transferred balance to other projects.

FORSGREN PLAYGROUND REPLACEMENT/SITE IMPROVEMENTS: Life-cycle replacement of the Forsgren playground and other on-going improvements. Funding is proposed as follows:

Prior Year Balance: \$250,000  
2023: \$84,989 (GMA Mit. Fees), \$15,011 (Transfer GMA Mit. Fees from Esperance Park)  
Future Years: \$0

Project Start/End Date: 2022/2023

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Community Parks

**Package ID #:** 150

**Category:** Community

Project Status: This project has been delayed due to staff availability. Initial site design has been completed and staff are preparing for construction in 2023.

Changes Since the 2022 Budget: Expansion of project end date and additional funds due to inflation.

LAKE ROESIGER: This is included to 0-out a previous negative balance. Funding is proposed as follows:

Prior Year Balance: \$0

2023: -\$3,215 (Other)

Future Years: \$0

Project Start/End Date: 2022

Project Status: n/a

Changes Since the 2022 Budget: None.

LAKE ROESIGER PLAYGROUND - NEW: Based on requests from the community and the need for playground, this project will add a new playground at Lake Roesiger Park in future years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2028 - \$350,000 (GMA Mit Fees)

Project Start/End Date: 2027-2028

Project Status: Future project.

Changes Since the 2022 Budget: New project.

LAKE STEVENS PLAYGROUND REPLACEMENT: Life-cycle replacement of the Lake Stevens playground. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$270,000 (REET 2 and GMA Mit. Fees)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Moved project from 2024 to 2026

LAKE STICKNEY PARK DEVELOPMENT – PHASE II: Site improvements based upon completed Preferred Plan. Phase I improvements were completed in 2018 and funding is proposed to be accumulated for the second, and final, phase. Funding is proposed as follows:

**Category:** Community

Prior Year Balance: \$0989,222

2023: \$0

Future Years: \$0

Project Start/End Date: 2022/2025

Project Status: Phase II will be initiated in 2022.

Changes Since the 2022 Budget: Removed mitigation funds that were anticipated but are not available this year.

LOGAN BALLFIELD RENOVATION: Logan Park was originally developed in the 1970's and renovated in the 1990's. Ballfield renovation is proposed as a life-cycle improvement to maintain quality recreational use. Renovation is anticipated to include review of drainage, regrading, replacement of in- field mix, establishment of new turf and other possible improvements. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2024 - \$75,600 (REET 2)

Project Start/End Date: 2024/2024

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

MARTHA LAKE AIRPORT PLAYGROUND: Installation of additional playground features at Martha Lake Airport to provide additional recreation opportunities. Funding is proposed as follows:

Prior Year Balance: \$71,411 (GMA Mit. Fees)

2023: \$0

Future Years: \$0

Project Start/End Date: 2022/2023

Project Status: This project has been delayed due to staff availability and is planned for completion in 2023.

Changes Since the 2022 Budget: Moved excess funding to other projects.

MARTHA LAKE PLAYGROUND REPLACEMENT: Life cycle replacement of playground(s) at Martha Lake Park. During project scoping and stakeholder outreach it may be determined that one of the two current playgrounds should not be replaced, and other improvement(s) provided. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

	Changes Since the 2022 Budget: None	

MARTHA LAKE STAIR REROUTE: Address ADA barrier at west end of the park where frontage improvements include a stairway which is a barrier to visitors who have a mobility impairment. Funding is proposed as follows:

Prior Year Balance: \$0  
2022: \$0  
Future Years: 2026 - \$250,000 (REET 2)

Project Start/End Date: 2026/2026  
Project Status: Project pending funding availability.  
Changes Since the 2022 Budget: None.

PAINE FIELD PARK IMPROVEMENTS AND PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at Paine Field and improvements to the ballfield area of the park. Funding is proposed as follows:

Prior Year Balance: \$30,186  
2023: \$0  
Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025  
Project Status: Playground replacement pending funding availability in 2025. Other improvements to be completed as identified and prioritized by athletic field users and maintenance staff.  
Changes Since the 2022 Budget: None

PELZ IMPROVEMENTS: Minor, on-going park improvements utilizing park impact mitigation fees collected within the Tulalip collection area. Projects will be selected and completed as funding is available. Funding is proposed as follows:

Prior Year Balance: \$2,175  
2023: \$0  
Future Years: 2024 - \$1,000 (SEPA Mit. Fees), 2025 - \$1,000 (SEPA Mit. Fees), 2026 - \$1,000 (SEPA Mit. Fees), 2027 - \$1,000, and 2028 - \$1,000 (SEPA Mit. Fees)

Project Start/End Date: On-going program  
Project Status: Funding is expended as projects are identified and sufficient funding is available for a project.  
Changes Since the 2022 Budget: Removed 2023 SEPA funding due to lack of collection for the year.

SILVER CREEK PLAYGROUND REPLACEMENT: Life cycle replacement of playground at Silver Lake

Future Years: 2024 - \$1,200,000 (GMA Mit. Fees), 2025 - \$1,600,00 (GMA Mit. Fees) and 2026 - \$1,500,000 (GMA Mit. Fees)

Project Start/End Date: 2017/TBD

Project Status: Project pending accumulation of sufficient funding to proceed with identification of property suitable for acquisition. Working with other jurisdictions to identify possible partnership opportunities and coordinating with PW/PDS on planning for light rail improvements and associated local housing and recreation.

Changes Since the 2022 Budget: Removed 2023 GMA funding due to lack of collection for the year.

TAMBARC CREEK PAVEMENT PRESERVATION: Pavement preservation (i.e. sealing and restriping, crack seal, pothole repair) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$85,200 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

TAMBARC CREEK TURF REPLACEMENT: Life cycle replacement of artificial turf field. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

**Category:** Community

Future Years: 2028 - \$1,150,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Increased funding for inflation.

WILLIS D. TUCKER PARK – PAVEMENT PRESERVATION: Pavement preservation (i.e. sealing and restriping, crack seal, pothole repair) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Increased from \$85,200 to \$100,000

WILLIS D. TUCKER PARK – PLAYGROUND REPLACEMENT: Life cycle replacement of playground at Willis

D. Tucker Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$300,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability. This is a potential project for an RCO grant application in the 2024 cycle.

Changes Since the 2021 Budget: Increased funding for inflation and to include unitary safety surfacing.

WILLIS D. TUCKER – PARK DEVELOPMENT: Utilization of remaining funding for NPDES required plantings. Funding is proposed as follows:

Prior Year Balance: \$42,201

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2023

Project Status: Staff are evaluating planting needs and expect to install materials in 2023.

Changes Since the 2022 Budget: None.

WILLIS D. TUCKER PARK – BALLFIELD LIGHTING: In partnership with the Mill Creek Little League, this project will add lights to Ballfield #2 to increase capacity for games, practices, and a variety of sports played on the field. Funding is proposed as follows:

Prior Year Balance: \$0  
2023: \$185,000 (GMA Mit. Fees and REET2)  
Future Years: \$0

Project Start/End Date: 2023/2024  
Project Status: Project pending funding availability and award of the RCO YAF Grant.  
Changes Since the 2022 Budget: New project.

**Justification:** The Snohomish County General Policy Plan (GPP) includes eight goals specific to parks provision, of which the following goals are most directly addressed by the projects provided within the Community Parks program:

Goal PR 2 - Provide diverse recreational opportunities through Neighborhood Parks, Community Parks, Special Use Parks, Regional Parks and Regional Trails

Goal PR 3 - Maintain and monitor minimum level-of-service standards for parks and for park facilities that are necessary to support development

Goal PR 4 - Acquire park properties and develop park facilities that meet existing and projected growth needs of the County and that meet priorities identified in other Snohomish County Plans

The projects identified in this section are focused on both acquisition and development of new Community Parks, as well as improvements to and preservation of existing facilities. These facilities provide recreational opportunities, as well as open space, both of which contribute to what citizens describe as "quality of life." Projects focused on improvements to existing facilities will help those parks continue to provide, or expand, recreational opportunities available. Development and improvements at Community Parks also help meet the County's defined level-of-service for park facilities by adding amenities to serve population growth.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Open Space/Preserve Parks

**Package ID #:** 151

**Category:** Open Space/Preserve

**Description:** OPEN SPACE/PRESERVE PARKS (Program 45)

Park facilities play a major conservation role in Snohomish County. Park land provides open space, resource protection and wildlife habitat. The Snohomish County DCNR Parks and Recreation Department maintains and provides stewardship for a significant number of properties that are classified as Open Space/Preserve. These properties are managed for resource protection and public access, where appropriate. The projects identified within this program are focused on providing appropriate public access to these areas.

Snohomish County's Park Improvement Plan for Open Space/Preserve parks consists of the following:

PARADISE VALLEY CONSERVATION AREA IMPROVEMENTS: Development of parking lot to serve park users. Funding is proposed as follows:

Prior Year Balance: \$118,317

2022: \$100,000

Future Years: 2024 - \$200,000 (REET 2)

Project Start/End Date: 2021/2024

Project Status: Initial lot design has been completed and needs to be reviewed prior to permit submittal. Project is pending resolution of some property use issues.

Changes Since the 2021 Budget: Reduced funding in 2024.

**Justification:** Snohomish County has provided the following goal in the General Policy Plan (GPP) related to provision of open space and natural areas (Goal PR 5): "Provide open space and natural areas with appropriate public access to promote understanding and support of the natural environment and of the benefits these lands provide." This project provides expanded access to Paradise Valley Conservation Area, a well-loved facility that provides diverse opportunities for the public to experience and learn about the natural environment.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Regional Parks

**Package ID #:** 152

**Category:** Regional

**Description:** REGIONAL PARKS (Program 46)

Snohomish County has developed, and currently operates, several parks that feature major natural resources which serve as a backdrop for recreational opportunities. These parks draw users from across the County and are considered Regional Parks. Features within these parks range from forests, lakes, rivers and saltwater waterfronts to historic rural properties and unique natural features. Amenities provided at Regional Parks typically include day use areas, picnicking, camping, boating, hiking, horseback riding, or other recreational activities that have regional value and use. Many of these amenities are included within Parks' level-of-service methodology and, as such, may help address needs related to growth. Regional Parks offer substantial recreational opportunities and include a number of parks which have been in use since the 1970's. Renovation and maintenance of aging facilities is a priority in order to ensure that high quality recreation experiences continue to be provided. Expansion and acquisition are also a priority for Regional Parks in order to expand opportunities available to serve a growing population.

Snohomish County's Park Improvement Plan for Regional Parks consists of the following:

**FLOWING LAKE – SHELTER REPLACEMENT:** In 2022, a structural evaluation of the picnic shelter was conducted, and it was determined that there are several structural issues to be addressed and the shelter needs to be renovated or replaced. This project will include demolition of the aged shelter and replace with a new shelter. Funding is proposed as follows:

Prior Year Balance: \$0  
2023: \$100,000  
Future Years: \$0

Project Start/End Date: 2023  
Project Status: Structural review of the shelter has been completed. Plans are in-progress for new shelter.  
Changes Since the 2022 Budget: New project.

**HEYBROOK RIDGE DEVELOPMENT:** Second phase of trail improvements at Heybrook Ridge focused on ADA accessible trail development through lower portion of park. Funding is proposed as follows:

Prior Year Balance: \$309,084  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2018/2024  
Project Status: Design and permitting for the second phase of development is underway.  
Changes Since the 2022 Budget: None.

**HOLE IN THE SKY:** Expenditure of site dedicated funding as projects are identified. Project funding originated from sale of a portion of the property to WSDOT for Hwy 9 widening and is required to be used on-

**Category:** Regional

site. Funding is proposed as follows:

Prior Year Balance: \$21,037

2023: \$0

Future Years: \$0

Project Start/End Date: TBD/TBD

Project Status: Pending project identification.

Changes Since the 2022 Budget: None

JORDAN BRIDGE DECKING: Replacement of decking on Jordan Bridge. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$125,000

Future Years: None

Project Start/End Date: 2023/2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None.

KAYAK POINT CAMPGROUND: Development of additional camping facilities at this popular Regional Park. Campsites are known to be in limited supply within the County and a previously completed Preferred Plan for Kayak Point identified locations for camping expansion. Addition of camping facilities at this site are favored due to existing infrastructure and on-site Ranger presence. Provision of camping will also address level-of-service needs. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$300,000 (REET 2), 2027 - \$1,600,000 (REET 2, GMA Mit. Fees)

Project Start/End Date: 2026/TBD

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

KAYAK POINT DAY USE RENOVATION: Renovation of the day-use area of this popular Regional Park. The park was originally opened in the 1970's and the infrastructure needs to be updated and the overall park redesign improves park usage. Funding is proposed as follows:

Prior Year Balance: \$8,372,224

2023: \$3,173,112 (REET 2, GMA Mit. Fees) \$2,000,000 (anticipated grant)

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Regional Parks

**Package ID #:** 152

**Category:** Regional

Future Years 2024 - \$3,268,672 (REET 2 and other) and 2025 - \$350,000 (REET 2)

Project Start/End Date: 2015/2025

Project Status: Permitting for the day-use area is underway and construction is anticipated to start in 2024.

Applications for grant funding have been submitted to support the project.

Changes Since the 2022 Budget: Adjustment of funding based upon updated project cost estimates, addition of spending authority for potential grants and added future year funding.

KAYAK POINT RANGER OFFICE: Replacement of Ranger office at Kayak Point Park. The current structure is planned to be demolished and new structure located according to the Preferred Plan for the park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$477,922 (REET 2) and 2026 - 1,022,078 (REET 2)

Project Start/End Date: 2025/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Adjusted funding between 2025 and 2026.

KAYAK POINT SINK HOLE: Repair of failing culvert on service road accessing the Kayak Point Golf Course. Funding is proposed as follows:

Prior Year Balance: \$0

2022: \$0

Future Years: 2025 - \$350,000 (REET 2)

Project Start/End Date: 2018/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

LORD HILL PREFERRED PLAN UPDATE: Park improvements and Preferred Plan update in order to address recent park use patterns and land acquisitions which were completed following development of the original site Preferred Plan. Funding is proposed as follows:

Prior Year Balance: \$51,844

2023: \$0

Future Years: 2024 - \$650,000 (REET 2) and 2025 - \$650,000 (REET 2)

Project Start/End Date: 2018/2025

Project Status: Development of a Preferred Plan is underway and is expected to be completed in 2023. Trail work began in 2022.

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Regional Parks

**Package ID #:** 152

**Category:** Regional

Changes Since the 2022 Budget: Removed grant funds from 2023 because grant was not awarded to the project.

MCCOLLUM PARK FOOD AND FARMING CENTER: Development of a Food and Farming Center at McCollum Park. Project will include a building designed to support local farmers and food distribution and an indoor farmer's market. This project is being completed in partnership with the Snohomish County Agriculture Coordinator. Funding is proposed as follows:

Prior Year Balance: \$7,049,898

2023: \$6,100,000 (anticipated ARRA funding)

Future Years: 2024 - \$1,000,000 (anticipated grants), 2025 - \$1,000,000 (anticipated grants), and 2026 - \$6,000,000 (anticipated grants)

Project Start/End Date: 2021/2027

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Added future year funding from grants.

MCCOLLUM PARK – DEMOLITION OF POOL AND POOL HOUSE: In support of the Food and Farming Center, this project includes the demolition of the existing pool and the pool house which is the tentative location for the future indoor farmer's market. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Future Years: None

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

MCCOLLUM PARK PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at McCollum Regional Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2028 - \$350,000 (REET 2 and GMA Mit. Fees)

Project Start/End Date: 2028/2028

Project Status: Project pending funding in 2028.

Changes Since the 2022 Budget: Moved project to 2028 so it will be built after the food and farming center. Added funds to include unitary surfacing and inflation.

MEADOWDALE PARK IMPROVEMENTS: Water access reconstruction to address problems associated with public access to the beach at this popular park. Funding is proposed as follows:

**Package Type** CIP - Capital      **Department:** 09 Conservation & Natural Resour  
**Short Name:** DCNR Parks 309 - Regional Parks      **Package ID #:** 152

**Category:** Regional

Prior Year Balance: \$7,479,968  
2023: \$0  
Future Years: None.

Project Start/End Date: 2014/2022  
Project Status: Project construction is underway and anticipated to be completed in 2022.  
Changes Since the 2022 Budget: None.

MEADOWDALE PARK - TRAILHEAD AND TRAIL DEVELOPMENT: Project to identify and design additional trailhead and trail access into Meadowdale Park to address the high level of usage the park receives and the limited parking currently available at the trailhead. This project will develop a concept plan for access and is anticipated to also provide a preliminary design. Funding is proposed as follows:

Prior Year Balance: \$30,000  
2023: \$463,764 (REET 2 and GMA Mit. Fees)  
Future Years: None.

Project Start/End Date: 2022/2025  
Project Status: Project pending funding availability. Conceptual Trailhead designs are underway.  
Changes Since the 2022 Budget: Increased 2023 funding.

NORTH CREEK PARKING EXPANSION: Expanded parking at North Creek Regional Park. Parking will provide overflow access to the park and serve as a trailhead for the future North Creek Trail. Funding is proposed as follows:

Prior Year Balance: \$352,013  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2022/2023  
Project Status: Project scoping will be initiated to coincide with nearby North Creek Trail development.  
Changes Since the 2022 Budget: None

NORTH CREEK PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at North Creek Regional Park. Funding is proposed as follows:

Prior Year Balance: \$0  
2023: \$0  
Future Years: 2026 - \$100,000 (REET 2)

**Category:** Regional

Project Start/End Date: 2026/2026

Project Status: Project pending funding in 2026.

Changes Since the 2021 Budget: None

O'REILLY ACRES BRIDGE REPLACEMENT: Replace the existing bridge at O'Reilly Acres. Funding is proposed as follows:

Prior Year Balance: \$19,643

2023: \$0

Future Years: 2025 - \$300,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding in 2025.

Changes Since the 2022 Budget: None

PICNIC POINT PARKING AREA RENOVATION: Parking lot and other site improvements. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$150,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding in 2025.

Changes Since the 2022 Budget: None

ROBE CANYON PARKING LOT: Development of new parking area near the Mountain Loop Highway. Funding is proposed as follows:

Prior Year Balance: \$6,109

2023: \$0

Future Years: 2026 - \$200,000 (REET 2)

Project Start/End Date: 2025/2026

Project Status: Project pending funding in 2026.

Changes Since the 2022 Budget: None

SPENCER ISLAND BRIDGE PAINTING: Life-cycle maintenance of the Jack Knife Bridge, which serves as the entrance to Spencer Island. Funding is proposed as follows:

Prior Year Balance: \$0  
2023: \$0  
Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025  
Project Status: Project pending funding in 2025.  
Changes Since the 2021 Budget: None

SR 530 SLIDE MEMORIAL: Development of memorial for the 2014 SR 530 slide. Parks is working with stakeholder groups and is coordinating fundraising efforts with those entities. Application for two grants was completed in 2020 and \$500,000 was awarded. Additional funding from other sources will be required to finish the project. Funding is proposed as follows.

Prior Year Balance: \$3,138,623  
2023: \$3,000,000 (REET 2), -\$500,000(anticipated grant not awarded)  
Future Years: \$0

Project Start/End Date: 2016/2023  
Project Status: The project will go out to bid in the summer and construction will begin in the fall of 2022.  
Changes Since the 2022 Budget: Addition of REET 2 funding.

SQUIRE CREEK CAMPGROUND RESTROOM: Improvements to Squire Creek restroom to provide showers to enhance campground use. Funding is proposed as follows:

Prior Year Balance: \$0  
2022: \$0  
Future Years: 2026 - \$500,000 (REET 2)

Project Start/End Date: 2025/2026  
Project Status: Project pending funding availability.  
Changes Since the 2022 Budget: None

STEELHEAD PARK DEVELOPMENT: Project to develop Preferred Plan for park development. Funding is proposed as follows:

Prior Year Balance: \$0

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Regional Parks

**Package ID #:** 152

**Category:** Regional

Project Start/End Date: 2025/2025

Project Status: Project pending funding in 2025.

Changes Since the 2021 Budget: Added 2023 REET 2 funding.

WENBERG – CAMPGROUND FENCE REPLACEMENT - NEW: Replacement of the existing fence, which is in disrepair, with a new privacy fence between the campground and adjacent residence. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$150,000 (REET 2)

Future Years: None.

Project Start/End Date: 2023/2023

Project Status: Project pending funding.

Changes Since the 2022 Budget: New project.

WHITEHORSE PARK IMPROVEMENTS: Facility improvements for phase 2 at Whitehorse Community Park, including installation of campground and new restroom . Funding is proposed as follows:

Prior Year Balance: \$653,711

2023: -\$300,000 (fee adjustment for excess)

Future Years: \$0

Project Start/End Date: 2018/2023

Project Status: The first phase of construction was completed in 2021 and remaining funding is for completion of the project in 2022. A reduction in funding is included for what was not needed in phase 2.

Changes Since the 2022 Budget: Reduction of funding for phase 2.

**Justification:** The Snohomish County General Policy Plan (GPP) includes eight goals specific to parks provision, of which the following goals are most directly addressed by the projects provided within the Regional Parks program:

Goal PR 2 - Provide diverse recreational opportunities through Neighborhood Parks, Community Parks, Special Use Parks, Regional Parks and Regional Trails

Goal PR 3 - Maintain and monitor minimum level-of-service standards for parks and for park facilities that are necessary to support development

Goal PR 4 - Acquire park properties and develop park facilities that meet existing and projected growth needs of the County and that meet priorities identified in other Snohomish County Plans

The projects identified in this program are focused on provision of unique Regional Parks that serve both urban and rural residents. These parks typically offer unique features, access to water and amazing landscapes,

historic properties and/or forested areas. These are features that serve the interests of local citizens while drawing tourists and nature enthusiasts to Snohomish County. This has economic benefits for the County and local cities and towns. Many of these parks also take advantage of a core competency of Parks: camping. This service has demonstrated significant revenue potential and, if properly managed and marketed, can help Parks' efforts towards sustainability.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

	<b><u>Package Type</u></b> CIP - Capital	<b><u>Department:</u></b> 09 Conservation & Natural Resour	
<b><u>Short Name:</u></b>	DCNR Parks 309 - Special Use		<b><u>Package ID #:</u></b> 153
<b><u>Category:</u></b>	Special Use		

**Description:** SPECIAL USE PARKS (Program 47)  
Snohomish County parks that offer unique facilities are defined as Special Use Parks. These parks, because of the specialized uses and the constituencies that promote and take advantage of the facility, also have the unique advantage of generating revenue and creating potential return on investment. These advantages are major contributors in Parks' efforts to approach fiscal sustainability. Special Use projects that are incorporated into Parks' six-year Capital Improvement Program include improvements to existing facilities, as well as development of a Preferred Plan for a new marksmanship park, which is planned to be developed through a public/private partnership.

Snohomish County's Park Improvement Plan for Special Use Parks consists of the following:

EVERGREEN STATE FAIRPARK IMPROVEMENTS: On-going program for improvements to the fair park, including facility renovation and camping area enhancements. Camping enhancements are anticipated to increase overnight stays. Funding is proposed as follows:

Prior Year Balance: \$4,634,448  
2023: \$398,500 (REET 2, GMA Mit. Fees)  
Future Years: 2024 - \$400,000 (REET 2) 2025 - \$300,000 (REET 2), 2026 - \$468,888 (REET 2) and 2027 - \$789,392 (REET 2), and 2028 - \$1,500,000

Project Start/End Date: ongoing  
Project Status: Improvements progressing in 2022 include a new washrack, .  
Changes Since the 2021 Budget: Addition of and changes to out-years funding

KAYAK POINT GOLF COURSE: Transfer of funding to 0 out deficit. Funding is proposed as follows:

Prior Year Balance: -\$6,092  
2023: (\$6,092)  
Future Years: \$0

Project Start/End Date: /2022  
Project Status: n/a  
Changes Since the 2022 Budget: 0 out funding.

SKY VALLEY SPORTSMANS PARK DEVELOPMENT: Development of a Preferred Plan to guide future development of a marksmanship park through a public/private partnership. Phase 1 design and permitting can begin in out years. Funding is proposed as follows:

Prior Year Balance: \$33,985  
2023: \$0

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Special Use

**Package ID #:** 153

**Category:** Special Use

Future Years: \$0

Project Start/End Date: 2014/TBD

Project Status: Master Plan project was completed in 2021 and an RFP to identify a potential private development partner was released. Remaining funding is being held for potential associated needs such as survey.

Changes Since the 2022 Budget: Removed out years funding.

**Justification:** Snohomish County has adopted the goals to "Provide diverse recreational opportunities through Neighborhood Parks, Community Parks, Special Use Parks, Regional Parks and Regional Trails," as well as "Promote sustainable operation by considering financial, environmental, and social implications of the Parks and Recreation Department's actions" (Goals PR 2 and PR 8, respectively). Improvements at the Evergreen State Fair Park and completion of planning for the Sportsmans Park further these goals by continuing to provide, and support the provision of additional, unique recreation opportunities and by also providing funding to renovate and enhance existing Special Use recreation. Investments in these sites and the Fair Park in particular can continue to provide revenue, which supports the Parks Division's interests to further progress toward fiscal sustainability.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Trails

**Package ID #:** 154

**Category:** Trails

**Description:** TRAILS (Program 48)

The non-motorized recreational trail system developed by Snohomish County Parks is a major County asset. The Centennial Trail, for example, annually attracts over 400,000 users and supports both local and tourism-based use. Trails are a major part of Snohomish County Parks' future and preservation of existing regional trails, and development of new opportunities, is a priority. Improvements have been made recently to the 27-mile Whitehorse Trail corridor and continued enhancements along this corridor are planned to enhance use and support the tourism draw of this feature. Future development of all regional trail corridors will depend upon local resources as well as funding from state and federal grant opportunities.

Snohomish County's Park Improvement Plan for Trails consists of the following projects:

CENTENNIAL TRAIL --- MACHIAS PLAYGROUND REPLACEMENT: Life-cycle replacement of playground at Machias Trailhead. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$100,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2021 Budget: None

CENTENNIAL TRAIL --- PAVEMENT PRESERVATION: Pavement preservation (i.e. cut/patch, root removal and sealing) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$150,000 (REET 2)

Future Years: 2024 - \$150,000 (REET 2), 2025 - \$150,000 (REET 2), 2026 - \$175,000 (REET 2), 2027 - \$175,000 (REET 2), and 2028 - \$250,000 (REET 2)

Project Start/End Date: On-going program

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

CENTENNIAL TRAIL --- SOUTH: Development of the eastside rail corridor from the City of Snohomish to the King County border, as an extension of the current Centennial Trail. This segment will ultimately extend the Centennial Trail from Skagit County all the way to King County and add an additional twelve miles to the trail. Centennial Trail South is proposed to be developed as a paved, multi-use trail. Funding is proposed as follows:

---

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Trails

**Package ID #:** 154

**Category:** Trails

Prior Year Balance: \$1,936,082  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2014/TBD

Project Status: Staff is addressing property issues and continuing design is pending resolution of those issues.

Whole project funding is anticipated to cost in excess of seventy million dollars to complete and project funding is proposed to be included in a potential, future trail bond.

Changes Since the 2022 Budget: None

CENTENNIAL TRAIL — STILLAGUAMISH PIER REPAIR: Repair of Centennial Trail bridge footing in the Stillaguamish River, north of Arlington, which is being scoured by river action. Funding is proposed as follows:

Prior Year Balance: \$609,117  
2023: \$150,000  
Future Years: 2024 - \$560,000 (REET 2)

Project Start/End Date: 2016/2025

Project Status: Pier evaluation has been completed and it was determined that the structure is stable for now.

Changes Since the 2021 Budget: Addition of 2023 funding to reflect current project cost estimates.

INTERURBAN TRAIL: Removal and restoration of the trail north of 128th St. as required by agreement with WSDOT based upon relocation of this section through an adjacent development project. Project has been expanded to provide for future trail improvements, in support of anticipated use associated with light rail improvements and associated population. Funding is proposed as follows:

Prior Year Balance: \$100,460  
2023: \$100,000  
Future Years: 2026 - \$500,000 (REET 2), 2027 - \$500,000 (REET 2), and 2028 - \$598,083

Project Start/End Date: 2020/2028

Project Status: Initial project scoping of trail removal has been completed, including coordination with WSDOT, the adjacent development and Snohomish County PDS. Initiation of removal and restoration work is pending staff availability.

Changes Since the 2022 Budget: Additional funding in 2023 to address elements required in WSDOT agreement.

SNOHOMISH TO EVERETT (LOWELL) TRAIL: Land acquisition for future regional trail between the Cities of Snohomish and Everett and connecting to the Centennial Trail. Funding is proposed as follows:

Prior Year Balance: \$153,523  
2023: \$0

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Trails

**Package ID #:** 154

**Category:** Trails

Future Years: 2027 - \$1,000,000 (REET 2)

Project Start/End Date: 2018/2027

Project Status: Trail alignment options have been reviewed and options for acquiring the property are being pursued. Funding for acquisition through the Conservation Futures program has been secured and acquisition is anticipated to be completed by 2022.

Changes Since the 2022 Budget: Added funding in out years

WHITEHORSE TRAIL IMPROVEMENTS: Continuing improvements to the Whitehorse Trail to open the full corridor, make trailhead improvements and complete bank stabilization projects. Funding is proposed as follows:

Prior Year Balance: \$3,166,915

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2023

Project Status: Project scoping and outreach to secure consultant support has been initiated and design/permitting will follow.

Changes Since the 2022 Budget: None.

WHITEHORSE TRAIL – CICERO PAVEMENT IMPROVEMENTS - NEW: This portion of the Cicero section of the Whitehorse Trail was removed from the 2022 Asphalt Repair and Preservation project due to funding. This project will repair extensive, poor-quality asphalt. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2024 - \$200,000 (REET 2)

Project Start/End Date: 2023/2024

Project Status:

Changes Since the 2022 Budget: New project

**Justification:** Snohomish County has adopted the goal to "Provide diverse recreational opportunities through Neighborhood Parks, Community Parks, Special Use Parks, Regional Parks and Regional Trails," (PR 2), which also includes the specific policy to "Prioritize developing Regional Trails" (PR 2.A.5). This goal and following policy are based on the importance that the public places on provision of trails. Public recreation interest surveys reliably identify trails as a facility of highest interest. Snohomish County is in the unique position to be a regional trail provider and provides long-distance trails that connect communities within Snohomish County as well as linkages to systems outside county borders. Additionally, while trails serve the interests of local citizens, they also draw tourists to Snohomish County. This has economic benefits for the County and local cities and towns.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Support

**Package ID #:** 155

**Category:** Support

**Description:** SUPPORT - PARKS ACQUISITION, DEVELOPMENT, AND IMPROVEMENTS (Program 49)  
Parks requires a variety of professional staff to support the Parks Department's capital planning, citizen participation, grant writing, contracts, Interlocal Cooperation Agreements, acquisition, design and engineering, program supervision, and construction management. In addition, funding for smaller capital projects that may be constructed by Parks maintenance staff is included in this package.

The Snohomish County Park Improvement Plan which provides support for park acquisition, development, and improvement projects includes:

GENERAL IMPROVEMENTS – PARKS: Funding for small capital or other REET 2 eligible projects. These projects are typically accomplished by the Parks Maintenance Division and are focused on priorities such as ADA and NPDES improvements, life-cycle replacements and operational efficiencies. Expenses will also cover unanticipated costs related to WSU extension moving to Willis Tucker and inflation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$440,000 (REET 2)

Future Years: 2024 - \$350,000 (REET 2), 2025 - \$350,000 (REET 2), 2026 - \$400,000 (REET 2), 2027 - \$400,000 (REET 2), and 2028 - \$400,000 (REET 2)

Project Start/End Date: On-going program

Project Status: Several projects were completed in 2022 including rental home improvements and asphalt work. A list of projects to be completed in 2023 has been generated and is ranked for completion.

Changes Since the 2022 Budget: Increased due to inflation.

CAPITAL SUPPORT/SALARIES, OVERHEAD AND BENEFITS: On-going funding for professional staff to support Parks' capital program. Capital staffing includes planners, landscape architects, engineers, contract administration and property acquisition specialist. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$1,751,095 (REET 2)

Future Years: 2024 - \$1,810,100 (REET 2), 2025 - \$1,858,550 (REET 2), 2026 - \$1,908,573 (REET 2), 2027 - \$1,960,229, and 2028 - \$2,013,584 (REET 2)

Project Start/End Date: On-going program

Project Status: The Planning group completed a wide variety of projects in 2022 including land acquisitions, design and engineering, permit procurement, construction oversight and management, life-cycle renovations, long-range planning processes, public outreach and others.

Changes Since the 2022 Budget: None

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Support

**Package ID #:** 155

**Category:** Support

2013 BOND REPAYMENT: Repayment of a bond issued in 2013 to fund a variety of capital improvements. Repayment of this bond will continue over the coming years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$119,666 (REET 2)

Future Years: 2024 – \$119,194 (REET 2), 2025 - \$113,354 (REET 2), 2026 - \$117,354 (REET 2) 2027 - \$116,062 (REET 2), and 2028 - \$119,624 (REET 2)

Project Start/End Date: 2013/2032

Project Status: On-going repayment project.

Changes Since the 2022 Budget: None

2021 BOND REPAYMENT: Repayment of a bond issued in 2021 to fund a variety of capital improvements. Repayment of this bond will continue over the coming years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$264,000 (REET 2)

Future Years: 2024 – \$265,500 (REET 2), 2025 - \$266,500 (REET 2), 2026 - \$262,000 (REET 2) 2027 - \$262,250 (REET 2), and 2028 - \$267,000 (REET 2)

Project Start/End Date: 2021/2032

Project Status: On-going repayment project.

Changes Since the 2022 Budget: None

SMALL CAPITAL IMPROVEMENTS PROGRAM: This program completes small, park capital projects using in-house staff. Typical projects include playground replacement, trail construction, asphalt preservation and miscellaneous projects that are often time consuming and difficult to bid (e.g. fence repairs/replacement). Efficiencies are gained through reduced project completion time, reduced costs to complete the project and incorporation of lower maintenance components. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$255,436 (REET 2, 2020 shortage adjustment)

Future Years: 2023 - \$233,834 (REET 2), 2024 - \$241,368 (REET 2), 2025 - \$248,609 (REET 2), 2026 - \$256,067 (REET 2), 2027 - \$263,749 (REET 2), and 2028 - \$265,000 (REET 2)

Project Start/End Date: On-going program

Project Status: On-going program.

Changes Since the 2022 Budget: None

COUNTY ARCHAEOLOGIST: Park projects often include a component of cultural resources review, which may require tribal consultation and/or a cultural resources study. In 2018 Snohomish County hired a full-time Archaeologist and Parks provides a portion of the salary for this position. Funding is proposed as follows:

Prior Year Balance: \$0

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

2023: \$30,000 (REET 2)

Future Years: 2023 - \$30,000 (REET 2), 2024 - \$30,000 (REET 2), 2025 - \$30,000 (REET 2), 2026 - \$30,000 (REET 2), 2027 - \$30,000 (REET 2), and 2028 - \$30,000 (REET 2)

Project Start/End Date: On-Going Program

Project Status: On-going program.

Changes Since the 2022 Budget: None

EQUIPMENT PURCHASE: To help maintain park properties which serve to address level-of-service needs, a small portion of mitigation fee collection is directed toward equipment acquisition. A larger portion of the 2023 SEPA and GMA mitigation fees is allocated for the purchase of equipment needed for cleaning and on-going maintenance of permeable paving installations throughout the parks system. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$300,032 (SEPA/GMA Mit. Fees)

Future Years: 2024 - \$10,000 (SEPA Mit. Fees), 2025 - \$10,000 (SEPA Mit. Fees), 2026 - \$10,000 (SEPA Mit. Fees), 2027 - \$10,000 (SEPA Mit. Fees), and 2028 - \$10,000 (SEPA Mit. Fees)

Project Start/End Date: On-Going Program

Project Status: Acquisitions pending funding availability.

Changes Since the 2022 Budget: Added funds to 2023 for purchase of permeable pavement cleaning equipment / vehicle.

LAND CONSERVATION INITIATIVE: Program aimed at identifying priority properties across Snohomish County to be preserved for the reasons of agricultural production, recreation, habitat, carbon sequestration, urban green space, and other values. In addition to identifying priority properties, this project will also develop an acquisition prioritization approach, identify funding strategies, address operation and maintenance needs and provide seed money for a TDR program. Remaining balance is projected to be expended in 2023. Funding is proposed as follows:

Prior Year Balance: \$3,768,320 (ARRA funds)

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/on-going

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

THREE LAKES SHOP ROOF REPLACEMENT: Life-cycle replacement of the roof on the Three Lakes Ranger office. Funding is proposed as follows:

---

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Support

**Package ID #:** 155

**Category:** Support

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$50,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

PROPERTY ACQUISITION SUPPORT: Parks Property Administrator is regularly tasked with evaluating and processing unanticipated property acquisition projects. This may include consideration of donations, acquisition of small pieces of property to complete a project (e.g. easements or access parcels) and others. These projects often require survey, appraisals and/or other costs which cannot be completed with other available funding within Parks' budget. Funding is proposed as follows:

Prior Year Balance: \$62,936

2023: \$178,500 (Revenue from property purchase)

Future Years: None

Project Start/End Date: On-going program

Project Status: On-going program.

Changes Since the 2022 Budget: Added funding from the Larch, Locust, and Logan Roundabout Project property purchase.

COMMUNITY ENHANCEMENT - NEW: NOT SURE WHAT THIS IS. Funding is proposed as follows:

Prior Year Balance: \$66,758

2023: -\$66,758

Future Years: None

Project Start/End Date: n/a

Project Status: n/a

Changes Since the 2022 Budget: New

**Justification:** All of the projects included in the proposed 2023 Parks Capital Budget are carried out by one or several of the staff positions identified in this package. All of the steps that need to be completed (property acquisition, planning, funding, budgeting, design, engineering and construction processes) are completed by Parks staff. Parks has grown its return on investment by using the time and expertise of in-house personnel to complete the process. The skill sets available in the Planning Section of Parks allow citizen participation, grant writing, interaction with external regulatory agencies, planning, permit submittal, and construction supervision to be accomplished by current employees. In addition, completion of small construction projects by the Maintenance group has ensured quality work and close supervision of project accomplishment. Staff response is obtained more quickly and projects are completed in a timely manner by personnel skilled in the trades and with

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 13 Human Resources

**Short Name:** HR IF Reallocation

**Package ID #:** 156

**Category:**

**Description:** Reallocate Interfund DIS and Space Rent so that Nongeneral Fund programs are paying their proportionate share. This package also funds a new Human Resources Consultant for the Labor Relations team.

**Justification:** The Human Resources Labor Relations team is understaffed for its current workload, and will acquire significant additional work in the coming months. Currently there are two dedicated labor relations staff to handle all labor relations matters for the 37 bargaining units and 18 separate collective bargaining agreements. The integration of the Snohomish Health District (SHD) includes five additional collective bargaining agreements; this is a 14% increase in bargaining units and a 28% increase in collective bargaining agreements.

The Labor Relations team is responsible for negotiating all collective bargaining agreements for the County, and participating in mediation and interest arbitration. The team also negotiates various memoranda of understanding related to changes brought forward by legislation or code revisions, provides advice on labor relations issues and hears all grievances at the County Executive level. This team will also be instrumental in implementing recommendations made in the current countywide compensation and classification study. The addition of a Human Resources Consultant to this team is necessary to allow the County to maintain its legal bargaining obligation, and to move from a reactionary labor relations approach to a strategic and proactive approach.

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

**Package Type** Standard

**Department:** 33 Medical Examiner

**Short Name:** Lodox (xray machine) Service Contract

**Package ID #:** 157

**Category:**

**Description:** New xray machine (Lodox) will require a yearly service contract of \$24,000.00 plus tax. As of June 2022, it is expected that we will have the Lodox in-house by December. The service contract is free for one year. Assuming delivery of Lodox by December 2022, the service contract will be owed starting December 2023.

\$24,000.00 plus a tax rate estimated at 10% is \$26,400, hence the amount for this request.

**Justification:** Yearly service contract will allow us to maintain this valuable, new piece of equipment for as long as possible.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

**Package Type** CIP - Capital

**Department:** 06 Public Works

**Short Name:** 102 - RM Road Maintenance Site Development

**Package ID #:** 158

**Category:** Roads

**Description:** Public Works sold the Sand Hill Pit property in 2020 and intends to replace it with a new property purchased in 2021 to better support Road Maintenance operational needs. The 2023 budget request includes \$1.45 million for site development work necessary to make the new property fully operable.

**Justification:** RM property in Granite Falls - this new property is more easily accessible and better located to the Road Maintenance service areas. In 2021, a 1.8-acre parcel in Granite Falls owned by Snohomish Fire District #17 was purchased to replace the Sand Hill Pit for road maintenance purposes. To proceed with design of phase 1 improvements, an outside consultant will be hired through an on-call roster to design and permit the project for contractor bid of the construction later in 2023 after the permits are attained.

These improvement costs are allocated from a portion of the Sand Hill Pit sale proceeds from 2020.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Fund 505 Balancing

**Package ID #:** 160

**Category:**

**Description:** This package balances revenue and expenditure in Fund 505 for IT Operations. It contains adjustments to our proforma base budget for labor, changes in existing software maintenance contracts, and modest increases in interfund charges, all of which are anticipated to drive IT costs in 2023. The total anticipated base expenditure budget is \$27,082,320.

The Department of Information Technology interfund service rate model is built upon this base budget. Initial rate allocation to departments totals \$24,491,754 and remaining revenue of \$2,590,566 from direct services, Fund Balance, and existing interlocal agreements for IT services balance Fund 505 revenue at \$27,082,320.

**Justification:** This balancing package is necessary to create a foundation that represents the fully funded IT rate model for existing operations carried forward into the coming fiscal year. From this initial package, adjustments to revenue and expenditure based upon policy can be made through separate packages. Any adjustments to this priority package must be carefully considered and are discouraged; this package is designed to mirror initial IT rate model design, balances at the program level, matches departmental scenarios and communications, and ties back to our audited rate allocation model.

Detailed assumptions in the balancing package include:

- Allowance for 3% Salary and 5% Benefits increases are represented in COLA contingency line items
- Interfund service line items are budgeted at proforma levels
- Effort was made to adjust expenditure line items to represent actual cost object codes
- Four positions are reassigned to programs to correct proforma load and reflect their assigned program

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 - Noxious Weeds move from PWK

**Package ID #:** 161

**Category:**

**Description:** This package will transfer 2 FTEs and corresponding revenues & expenses from Public Works Roads fund 102 to DCNR SWM's fund 415

**Justification:** Expenditures are based on previous years actual spending. Most costs are covered by grant funding, weed control services agreements, and Roads funding for work in the right-of-way. Historic support from the General Fund is \$63,570. An increase of \$20,000 General Fund support is requested for 2023, to help cover increasing costs. The General Fund support for this program has not increased in over 10 years. The balance of the expenditures will be covered by SWM Utility Charges.

### SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:

---

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

**Package Type**   Standard

**Department:**   32   Office of Public Defense

**Short Name:**   Aggravated murder costs

**Package ID #:**   162

**Category:**

**Description:**   OPD has appointed lawyers on three aggravated murder cases that will continue in to 2023. The projected additional cost beyond the 2023 base is \$ 63,000 . This amount does not include any new cases that may occur in 2022 or 2023. OPD is requesting an additional \$87,000 above the projected amount to cover cases that may be filed. These most serious cases stay open for years and require an extraordinary amount of investigation and mitigation costs which will be addressed in a separate expert witness package.

**Justification:**   The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is “effective assistance of counsel”. State standards codified by reference in S.C.C. 2.09 establish the measurements. Court rule and Washington State law mandates that as the most serious case type, Aggravated Murder charges require the appointment of two attorneys; one attorney must be on a “Death Penalty Qualified” List, as approved by the Washington State Supreme Court. Currently, the prosecutor’s office is not seeking the death penalty on any of these three pending aggravated murder cases.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 32 Office of Public Defense

**Short Name:** PDA Overhead

**Package ID #:** 163

**Category:**

**Description:** This priority package is for the Public Defender Association (PDA) Overhead costs for 2023 to maintain required overhead at PDA for current staffing levels. This funding is mandated by the Washington State Supreme Court and Washington State Bar Association Indigent Defense Standards. This priority package is both legally and contractually mandated.  
Snohomish County Office of Public Defense (OPD) manages the County's constitutional mandate to provide efficiency and cost-savings to the county. This is driven by the responsive contract that PDA has with OPD. Under the contract with PDA, the County must pay for overhead needs. Indigent defense mandates require that the County provide for the management, supervision, clerical support, and overhead for indigent defense services.

**Justification:** The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is "effective assistance of counsel". State standards codified by reference in S.C.C. 2.09 establish the measurements. Washington State Bar Association (WSBA) standards for indigent defense, standard seven requires that administrative costs be provided for indigent defense counsel, including overhead. Recent litigation in both Grant County and Burlington and Mount Vernon also provide important guidance on funding levels for indigent defense to avoid litigation for failure to meet the County's constitutional mandates.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   32   Office of Public Defense

**Short Name:**   Caseload compliance

**Package ID #:**   164

**Category:**

**Description:**   This package makes permanent the 2022 budget request to the Snohomish County Public Defender Association(SCPDA) to bring the agency closer to caseload compliance. As part of the 2022 budget, Council appropriated \$962,492 to the OPD budget to be conditioned on completion of a performance audit. OPD and SCPDA have complied with the auditor and await the report.  
The package includes one (1) full-time Attorney Supervisor FTE, two (2) full-time investigator FTEs, two (2) legal assistant FTEs, and one (1) Legal Secretary FTE.  
1 Attorney Supervisor \$179,826  
2 Investigators\$247,698  
2 Legal Assistants\$206,072  
1 Legal Secretary\$89,085  
Overhead for positions\$79,7456  
TOTAL\$802,426

The original 2022 package also included a one-time allocation of \$100,000 for antiracism trainings. The 2023 package includes all elements of the 2022 package minus the funding for anti-racism training.

OPD has contracted with SCPDA for 47 years. During that time, the County has aspired to assure that SCPDA remains in compliance with public defense caseload standards. The County and OPD have assured that SCPDA is staffed with lawyers consistent with relevant standards. The County and OPD have also assured that SCPDA professionals are compensated in a manner consistent with the compensation of county employees who do similar work. This package seeks to bring SCPDA into compliance with caseload standards for their non-lawyer positions.

Supervisors – Relevant caseload standards require that public defense agencies employ 1 supervisor for every 10 lawyers. OPD’s contract with SCPDA currently provides for 53 lawyers and two supervisors. In order to bring SCPDA into compliance with caseload standards, OPD seeks to authorize SCPDA to hire three (3) additional supervisor FTE, two in the Superior Court unit and one in the District Court unit. One of these positions will be devoted to supervising attorneys in therapeutic courts and other programs funded through Fund 124.

Investigators – Relevant caseload standards require that public defense agencies employ 1 investigator for every 4 lawyers. OPD’s contract with SCPDA currently provides for 53 lawyers and 7 investigators. Of the 53 lawyers, 40 handle trial cases which require investigation. In order to bring SCPDA into compliance with caseload standards, OPD seeks to authorize SCPDA to hire three (3) additional investigator FTE, two in the Superior Court unit and one in the District Court unit.

Legal Assistant – Relevant caseload standards require that public defense agencies employ 1 Legal Assistant for every 4 lawyers. OPD’s contract with SCPDA currently provides for 49 qualifying lawyers and 8 Legal Assistants. In order to bring SCPDA into compliance with caseload standards, OPD seeks to authorize SCPDA to hire four (4) additional Legal Assistant FTE, three in the Superior Court unit and one in the District Court unit.

Legal Secretary - “The caseload of public defender attorneys shall allow each lawyer to give each client the time and effort necessary to ensure effective representation.....As used in this Standard, ‘quality representation’ is intended to describe the minimum level of attention, care and skill that Washington citizens would expect of their state’s criminal justice system.” Standard Three assumes “caseloads for fully supported

...defense attorneys...” To fully support the 53.25 attorney positions funded by the Snohomish County contract, SCPDA reports they need 4 additional legal secretaries to manage the increasing volume of paperwork and evidence discovered by current cases.

SCPDA staff is often asked to perform functions outside the scope of the contract. For example, SCPDA manages interpreter requests for court hearings in Snohomish County Superior Court. By statute, this is a court obligation.<sup>4</sup> However, SCPDA attorneys and staff schedule interpreters for court for convenience to Superior Court. The complexities of the job have increased over time. Discovery used to be largely police reports. In modern times, cases have multiple media components with law enforcement dashboard cameras, cell phones, and the infinite programs that record and store surveillance video. Below is graph of the discovery logged in just the first quarter of each year. This increase over the years impacts almost every function of public defense:

- Legal secretaries receive and log each item of discovery
- Legal secretaries schedule interpreters for clients interviews and court dates
- Legal secretaries redact discovery for clients to review
- Legal secretaries support IT, who builds and maintains the servers and database systems where these documents are stored
- Legal secretaries schedule appointments for clients to meet with their lawyer or social worker
- Legal secretaries delivers information back and forth from clients at the jail and with opposing counsel
- Legal secretaries organize discovery in preparation for trial and sentencings

**Justification:** The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is “effective assistance of counsel”. State standards codified by reference in S.C.C. 2.09 establish the measurements. Court rule and Washington State law mandates that as the most serious case type, Aggravated Murder charges require the appointment of two attorneys; one attorney must be on a “Death Penalty Qualified” List, as approved by the Washington State Supreme Court. Currently, the prosecutor’s office is not seeking the death penalty on any of these three pending aggravated murder cases.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Office of Public Defense 1.0 FTE

**Package ID #:** 165

**Category:**

**Description:** OPD is requesting approval and funding to hire one (1) FTE Legal Coordinator.

OPD currently has 8 staff members, including 6 Legal Coordinators whose duties historically have included:

- screen every person seeking appointment of counsel in criminal cases
- assigning lawyers in criminal
- assign lawyers in civil cases where the right to counsel attaches.
- appear at jail video calendars as well as remote arraignment calendars to screen new defendants.
- work with the courts and prosecutor's office to assure that each person on any county arraignment calendar is contacted in advance of the calendar to screen for a lawyer.
- work with OPD contracted lawyers and agencies to collect expert service requests and work with Snohomish County Finance to assure that those requests are paid

In March of 2020, OPD had 7 Legal Coordinators. After the COVID hiring freeze, OPD was not allowed to rehire for this position and it has since been removed from our budget. Since March of 2022, OPD has taken on additional work that is straining our current workload capacity. We have:

- redesigned our pretrial services program to assist defense attorneys in reducing the harm of cash bail. This involves our Legal Coordinators contacting every person who was booked into the Snohomish County Jail within the last day to gather information, connect them with lawyers and social workers who can address their mental health, medical, and housing needs
- taken on new programs to assign lawyers for Minor Guardianship cases after a change in the law in 2021
- taken on new programs to assign lawyers for Vulnerable Adult Guardianship cases after a change in the law in 2022
- will take on a new program to assign lawyers in civil no contact order cases after a change in the law in 2022

The addition of new programs and the loss of a valued position has left OPD short-staffed and made it difficult to complete essential functions. OPD seeks to regain the position we lost during COVID and employ that person to work on our pretrial services interviews. This position will be responsible for gathering personal, professional, medical, mental health, and substance use data about recently booked inmates. This data will be delivered to the assigned counsel to be used to argue for decreased bail at arraignment and to earlier connect people with services in the community which could impact the resolution of their case and the person's stability in the community. In addition, this position will also help offset the changes in law that have added additional workloads to OPD.

One (1) FTE Legal Coordinator will cost \$90,325.00.

**Justification:** The position will assist OPD in coordinating the pretrial services screening process. It will free up staff space to allow current staff to dedicate to tradition tasks as well as new programs like Vulnerable Adult Guardianship, Minor Guardianship, and no contact order cases. Because this position will coordinate gathering and disseminating information regarding pretrial release and reentry services, this position should be funded through Fund 124.

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** HS Veterans Assistance

**Package ID #:** 166

**Category:**

**Description:** Adjustment to the 2023 Veterans Assistance Administration budget

**Justification:** These adjustments are made to reflect more accurately planned 2023 Veterans Assistance Administration and direct services activities.

Specifically, add an estimate of 3% salary COLA contingency. Millage projected for 2023 is based on the 2021 actuals plus 1% est. COLA for 2022 and 2023. Adjust discretionary line items based on current trends and planned activities. Adjust revenues to include \$100,000 grant from Workforce Snohomish.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 05 Planning

**Short Name:** PDS Housekeeping Changes

**Package ID #:** 167

**Category:**

**Description:** Adjust expenditures to actual projections for Fund 193 Permitting and General Fund 002 programs

**Justification:** This package adjusts the General Fund and Permitting expenditures to anticipated 2022 costs.

Decreases: PDS has continued to try to reduce operating costs and make cuts where possible. With more remote work, the cost of office supplies, copiers, postage, print shop, and those types of expenses have gone down.

Some expenses related to overhead have increased considerably:

(1) ER&R has increased by \$36,000 due to the high cost of fuel which has impacted the cost of maintaining PDS's fleet of 36 vehicles.

(2) Permitting Fund 193 Merchant Fees has increased by \$80,000 due to the higher revenue paid online via credit cards. (This amount includes credit card fees passed on to schools, Parks and Roads for mitigation fee collections.)

Amounts were budgeted for retirement contingency and COLA in Permitting Fund 193 and Snohomish County Tomorrow. These are not budgeted in General Fund programs.

In Permitting Fund 511 (Technology Reserve Fund), adjustments were made to reduce professional services because the cost of the microfiche scanning is less than anticipated, and update contract-related line items for annual increases. An additional \$50,000 was added for Extra Help to hire temporary staff to work on the PRISM/OpenText records archiving project.

In Permitting Fund 512 (Technology), \$120,900 in interfund revenue and \$120,900 in Extra Help expense were added for the Auditor's O&M Grant.

**Category:**

**Description:**   To adjust the allocation of supervisory/management staff between Code Enforcement and Permitting, and move one position from Permitting Administration to Permitting.

To make corrections to salaries and benefits (step corrections) for the following situations:

- (a) for staff hired after preload/pro formal budget was developed;
- (b) for several "underfill" situations (where PDS is filling the position at a position which is different than the budgeted position);
- (c) for two positions for which reclassifications were requested pursuant to the AFSCME Master Agreement with Snohomish County, Article 17, Section 12.A; and
- (d) for a reclassification of the Deputy Director position approved by Council.

To permanently change the job specs assigned to two positions which are filled at a position which is different than the budgeted positions.

To correct a clerical error on HighLine dating back to 2018.

**Justification:**   The following changes/adjustments are in this priority package:

1. Changed allocation of management and supervisor time to Code Enforcement program. After internal review of leadership structure, PDS has determined that it needs a full-time supervisor dedicated to the 6 Code Enforcement staff. Code Enforcement used to have a fully-dedicated supervisor which was eliminated in 2018; since then we have allocated 50% of a supervisor who also manages the Environmental team in permitting. We have moved a soon-to-be vacant supervisor position from Permitting to Code Enforcement, and removed the 50% supervisor of the Environmental team as well as the 20% division manager time allocated to Code Enforcement. Having a single Code Enforcement supervisor will help that team achieve its goals with regard to enforcement of the building codes and establishing an abatement program.

2. Step corrections were made to two positions for which the budget reclass paperwork was submitted to the Union and HR by April 1st. One is a Communication Specialist I being reclassified to a Communications Specialist II (PDS4593R) and a Land Development Specialist Lead whose job spec is being updated to Front Counter Lead (PDS4119R). Both are in a temporary upgrade situation and for which the budget preloaded at Step 1 of their old position instead of the correct pay grade and step for their new positions. (Note: Senior Planner position was chosen to achieve the appropriate pay grade since the Front Counter Lead position was not in BDT.)

3. Step correction for Deputy Director position which was reclassified to a new Operational Improvement Program Manager (SCT Manager position was chosen to achieve the appropriate pay grade since the OIPM position was not in BDT).

4. To permanently change the job specs assigned to two positions which are filled at a position which is different than the budgeted positions (PDS1068R and PDS4287R).

5. Step correction was made to a Business Process Analyst (PDS1923R) who was an internal hire recently promoted in June 2022 after the preload was completed. Also adjusted the position which the promoted

**Category:**

employee vacated (PDS5423R).

6. Step corrections were made to three new employees hired after the preload was completed (PDS4130R, PDS5425R, and PDS4120R).

7. To reclassify the Permit Assistance Coordinator III to a Senior Permit Technician which is currently vacant. This budget request is consistent with the vacant position reclassification request submitted to Human Resources in June 2022.

8. To reclassify two positions which are currently filled with a different job specification. One is a Principal Planner which is filled as an Engineer II. The second is the Principal Economic Development Officer position which is filled as an Principal Planner. We want to make these changes permanent in our budget. There will be no change to the two employees' job titles. The change is to align the budget with how the positions are actually being filled. Papework for these reclassifications were submitted to Human Resources in June 2022.

9. To correct the title/job spec assigned to PDS4686R which is in HighLine incorrectly due to a clerical error dating back to 2018.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 05 Planning

**Short Name:** PDS Overhead Allocation

**Package ID #:** 169

**Category:**

**Description:** To adjust allocation of overhead among PDS cost centers based on established allocation methods.

**Justification:** The preloaded budget for some types of overhead is placed in two cost centers. Each year, PDS reallocates overhead to the proper cost centers based on revised FTE counts for each program. The same allocation method is used year after year.

This year, the reallocation of county overhead resulted in a net change of \$2,179 to the General Fund programs and SCT's portion of overhead is consistent with prior years at \$7,441.

Interfund parking and ER&R have also been adjusted to actual rates and allocations among cost centers based on vehicle assignments.

Internal department charges to General Fund programs were allocated consistent with the methodology used in prior years (based on FTEs and the services provided by administrative and support staff). All administration and technology costs for the department are charged to Fund 193-510 (Admin) and Fund 193-512 (Technology and GIS), then charged back to General Fund programs via an Interfund Professional Services charge. The charges for 2023 are \$16,275 higher than in 2022 due to the completion of the OpenText project for which significant staff costs were paid out of the Technology fund. Thus, more PDS technology staff time has been shifted back to department support.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   05 Planning

**Short Name:**   PDS 2024 GMA Comp Plan Update

**Package ID #:**   170

**Category:**

**Description:**   2024 Comprehensive Plan Update Summary and corresponding changes to Long Range Planning budget.

**Justification:**   Planning and Development Services (PDS) is writing this priority budget package to convey the work that is anticipated in 2023 for the County's Comprehensive Plan Update. The 2024 GMA Comprehensive Plan Update and Compliance Review (2024 Update) is a major project led by Long Range Planning that has a mandated deadline for completion of December 31, 2024. Pursuant to RCW 36.70A.130 Snohomish County is required to: (1) Plan for the succeeding 20-year population and employment growth forecast; and (2) Review and revise comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of the Growth Management Act (GMA).

Work under the 2024 Update is spread out over budget years 2020 - 2024. Since 2020, PDS has developed its annual LRP budget so that there is sufficient funding to complete the work. Additional resources needed for the project include (1) supplementation of PDS staff and (2) bringing in expertise not currently available within Snohomish County government. The estimated breakdown of professional service and public participation expenditures and tasks by year are set forth below.

2023 Projected Work and Funding Needed (included in changes to Long Range Planning budget):

Professional Service: \$116,000 professional services for continued work on a draft environmental impact statement (DEIS) in the first half of 2023 and \$34,000 professional services for beginning work on a final environmental impact statement (EIS) in the second half of 2023. There is also \$175,000 in pass-through consulting work on the DEIS and EIS covered by docket applicant fees which is included in revenue projections. Thus, the total professional services needed for the 2024 Update is \$325,000. [Note: There is another \$303,000 in DEIS/EIS professional services to be paid by Roads, Surface Water Management and Parks. These departments have included their share in their respective budgets.] Another \$20,000 in professional services was budgeted for translation of outreach materials. Finally, there is \$100,000 budgeted for professional services related to the Housing Analysis portion of the 2024 Update, as well as \$35,000 for a consultant to perform half the work on the Climate Change portion of the 2024 Update. Another \$10,000 was budgeted in professional services as a contingency amount for all of the above items, for a total professional services budget of \$490,000.

PDS has budgeted \$20,000 for temporary staff to perform design work for the 2024 Update. Beginning in 2023, there is significant required public outreach and notice associated with Planning Commission public hearings (site-specific and tax payer of record mailed notice of comprehensive plan and zoning designation changes per SCC 30.70.050). We have budgeted \$30,000 for mailing services/postage and \$30,000 for advertising (publication of notices).

Various expenses in the LRP budget were adjusted to what we believe will actually be spent in 2023 (for a total reduction of \$16,604.)

Anticipated grant revenue from the Washington State Department of Commerce has been added to the LRP budget for 2023. It is anticipated that PDS will receive \$700,000 for the 2024 Update and \$100,000 for work on the Climate Change portion. The \$800,000 is split equally between PDS's 2023 and 2024 budgets because the state is on a July-June fiscal year and the county is on a calendar fiscal year.

2024 Projected Work and Funding Needed in 2024:

Professional Service: \$34,000 for PDS's final share of professional services for the final Environmental Impact Statement. [Note: There will be another \$35,000 for Roads, Surface Water Management and Parks to budget in 2024 based on the current scope of work.] These figures are estimates which could change if the scope of the final EIS changes. There will also be additional \$65,000 in docket pass-through revenue and expense.

There may be another \$50,000-\$60,000 in costs for Notice associated with County Council public hearings in 2024. PDS expects to receive \$400,000 in grant funding from the Washington State Department of Commerce as noted above.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 16 Nondepartmental

**Short Name:** Operational Excellence

**Package ID #:** 172

**Category:**

**Description:** Adjustments for new Op Ex structure, COLA contingency and use of fund balance for the ongoing High Line System Optimization project.

**Justification:** Optimization of the High Line system benefits the County on a current basis as well as into the future. Optimization entails working with vendor consultants to streamline data, improve processing efficiencies and increase the management tools of a system the county currently owns and underutilizes. The primary goal for 2023 will be to complete the implementation of the time management system (TMSS) for county departments/offices that do not currently have access to Kronos or other custom time management software.

During 2022 Finance began implementing TMSS on county departments. As of June 30th six departments use TMSS to do their timekeeping and payroll liaison work. By the end of 2022, we hope to have approximately fourteen departments live with the TMSS.

This is a request to re-appropriate the remaining fund balance for the project that was started in 2019 and for additional phases that will continue into 2023. Total request is \$69,204.

Justification: Time management offers the ability to significantly reduce staff hours devoted to tracking and approving of time and leave. Departments estimate time savings anywhere from 1 to 60 hours per pay period per department dependent upon the size and complexity of staffing within each department. Finance alone itself will save approximately 400 hours per year by using TMSS. The system encompasses the functions of:

- Electronically requesting and approving planned leave time.
- Electronic timecards including automatic generation of scheduled time and pre-approved leave.
- Automated rules which converts exception entries correctly, reducing coding errors.
- Automated reminders to employees and managers to perform time sensitive actions such as signing/submitting timecards and various approvals.
- Electronic signing and submittal of timecards which are sent directly into the payroll system.

A time management system reduces the number of timekeeping systems used county-wide. Benefits include reduction of staffing needed to support the multiple timekeeping systems currently in use at the county as well as streamlining time entry and leave request processes. Time Management is part of Employee Self Service, allowing employees and managers access from home. Time savings will be realized by all departments that use the new system. Estimated costs for Phase 2-4 are \$46,254.

Mobile technology allows employees to enter and review time and attendance information while working at remote locations. Cost savings are achieved through increased productivity achieved by not requiring employees to return to their primary job station for the sole purpose of entering time. An example would be PDS inspectors who spend a good portion of one day in the office each pay period just to enter time. With mobile technology, time would be entered into the system from the project location, which would ultimately increase the number of completed inspections over time. Estimated implementation cost is \$22,950. Funding this package provides the opportunity to continue maximizing utility of the HRIS system, decrease costs and increase productivity of multiple departments/offices.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** HS Behavioral Health

**Package ID #:** 182

**Category:**

**Description:** Adjustment to the 2023 Behavioral Health Administration budget

**Justification:** These adjustments are made to reflect more accurately planned 2023 Behavioral Health Administration and direct services activities.

Specifically, add a new 1.0 Social Service Worker position to increase capacity to provide outreach and assistance to unsheltered citizens with behavioral health challenges. Add an estimated 3% salary COLA contingency. Adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in depth review of award amounts, an anticipated new services agreement, and projected program activities. Millage line items are adjusted based on 2021 actual revenues plus a 1% estimated increase each year.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   12 Finance

**Short Name:**   Risk Fund Additional FTE

**Package ID #:**   184

**Category:**

**Description:**   This priority package focuses on short and long-term needs to ensure staff are available for the Cayenta upgrade, create greater efficiencies through a consolidation of duties, and reduces the county's exposures to financial loss. Currently, a significant portion of the County's public records requests (PRR) involve the Finance Department due to the fact that the Finance Department is the official record keeper of financial information for the entire County. So even when a PRR is designated to another department (for example Public Works), Finance will still many a times have many responsive records that need to be disclosed, which is different from nearly all other departments. To a large extent this position will be working on public records requests for all other departments. This priority package will create a Risk Management Technical Systems Specialist position to address these issues.

**Justification:**   This multi-pronged, functionally based package involves the combining of duties from several positions and a restructuring in the Finance Department's Risk and Finance Operations Divisions. Currently, 20 hours a week are spent performing forensic accounting to respond to public records requests. These hours are split between a Senior Accounting Analyst and an Accounting Analyst in Finance Ops who are also a high-level subject matter expert on the Cayenta upgrade project. This priority package will reduce Finance Ops public records forensic accounting functions by 20 hours a week or more so they can be reprioritized toward the critical Cayenta upgrade project and 20 temporary hours per week of public records administrative work alleviating the need for contract temporary staff, to create a 1.0 FTE in Risk. This will accomplish:  
1)(Efficiency) Allowing existing Accounting staff to allocate their time to the Cayenta upgrade, instead of public records work; Accounting staff can be more efficiently utilized by removing their PRR work. This will create a dedicated specialist for forensic accounting to determine what accounting records are responsive to public records requests.

2)(Reduce Loss/Waste) Create a more lean process to avoid a duplication of effort (currently split among 3 or sometimes 4 positions in Finance) and assume accuracy and timeliness with PRR responses. The Cayenta upgrade is a critical, time-sensitive project and PRRs are continually increasing in number and complexity which would otherwise draw Cayenta staff further from their mission critical role.

3)(Cost reduction) Relieve Senior Accounting Leads from searching for responsive records. Avoid high pay grade staff from unnecessarily doing lower pay grade work.

These elements fit within the STEP Initiative by focusing on the long-term, reducing inefficiencies and reassigning workloads to a more appropriate pay grade position.

Further, with the increase in efficiencies and reduction of waste herein, comes a higher degree of proficiency and accuracy reducing the County's overall exposure to loss as well as a reduction in the overall cost of government.

This package utilizes existing appropriation levels to cover this position. This priority package is simply asking for 1.0 new FTE and permission to realign existing appropriations.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 36 Superior Court

**Short Name:** IT Business Analyst

**Package ID #:** 185

**Category:**

**Description:** Superior Court requests a new IT Business Analyst FTE.

**Justification:** This request pertains to a new Business Analyst position to support our Superior Court's Information Technology (IT) unit. Our Superior Court spans 2 campuses, which include the downtown Rockefeller Courthouse and the Denney Juvenile Justice Center in North Everett. Both locations rely heavily on technology to perform daily operations. Many of the technologies that our court relies on are specific to us and are not used outside of our court. A couple examples of this are the Interpreter Web Application and the online hearing confirmation system which both provide a direct interaction point for the public. These applications allow the court to respond efficiently to the needs of the public. Specific applications like this require specialized maintenance and support from within our IT unit. They also take time and court-specific expertise to create. Replacing and planning for technology projects within our court, providing application maintenance, developing new processes for various business scenarios, and supporting various project initiatives are all reasons in support of our court's need for a Business Analyst position. Our court's IT unit is composed of 3 staff members, which include a manager and 2 support staff. An additional staff member with time dedicated to address these needs is long overdue and our current staffing model doesn't include a specialized position to fulfill this role with our IT-based projects. This need has become glaringly obvious during the pandemic. The way our court interacts with the public and the way our legislature expects our court to provide access are all changing. Recent legislative changes require our court to accept certain petitions electronically and provide a remote way for parties to appear for hearings. The legislature has demonstrated that courts will be required to provide accessibility and resources to parties and stakeholders in a more direct fashion. This evolution to a more accessible judiciary through technology is well underway and we believe that adding a Business Analyst will place us our court in the best position to keep up with this trend.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 36 Superior Court

**Short Name:** Document Translation Services

**Package ID #:** 186

**Category:**

**Description:** This priority package will outline a proposal for a document translation project for Superior Court's most used local court forms and resources. Our court would like to enlist an outside firm or vendor to perform translation services to this effect.

**Justification:** Snohomish County is a growing and diverse community, with a wide array of languages spoken by its residents and court users. Utilizing the most recent and relevant U.S. Census and American Community Survey (ACS), the court identified the following six non-English languages as those most frequently used in our geographic area: Spanish, Tagalog, Chinese, Russian, Korean and Vietnamese. A review of the court's internal data identified Arabic as an additional non-English language frequently spoken by court users. Each year, Superior Court provides thousands of hours of interpreting services for court proceedings, activities and the occasional sight translation of a document. However, those services do not currently include written, long-term document translation that would benefit all speakers/readers of the same language. The Court proposes to fund a document translation project for our most used local court forms and resources. The Court will utilize the community and court-user data to determine which and how many languages each document should be translated to. The Court understands the importance of translating forms and resources into non-English languages so that Limited English Proficient individuals have greater access to the court's services. However, the court lacks the funds to provide long-term document translation services as well as interpreting services for court proceedings. Currently the court only has 6 local documents translated to a non-English Language.

Average charge for translation services from 5 agencies:  
\$0.18 per word per language  
Average pages per document: 3 pages  
Average words per page: 204 words  
250 documents x \$222 per document for 2 languages = \$55,500

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 36 Superior Court

**Short Name:** Fund 002 Housekeeping and Misc.

**Package ID #:** 187

**Category:**

**Description:** This package is housekeeping and also includes a reclassification request initiated by the union.  
Reclass of all Juvenile Detention Officers from a paygrade 235 to paygrade 240.  
Reclass of all Legal Process Assistant II-SC positions from a paygrade 309 to paygrade 312. These are union initiated reclasses and the Court is not supportive of the reclass efforts. The estimated financial impact of this reclass request is \$315,000.

**Justification:** This package will correct positions and realign budget amounts within the general fund of the Superior Court.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** HS Court Appointed Special Advocate Program

**Package ID #:** 189

**Category:**

**Description:** Adjustments to the 2023 Court Appointed Special Advocate Program budgets.

**Justification:** Per RCW. 13.34.100, the Snohomish County Office of the CASA (“CASA Program”) has a statutory requirement to ensure that every child in the juvenile dependency court system has a guardian ad litem or court appointed special advocate volunteer appointed to represent their best interests. The CASA Program is not in compliance with this statutory requirement due to lack of resources and a shortage of CASA volunteers due in part to the impact from the COVID-19 health pandemic.

Adjustments are being requested in the 2023 budget to accommodate for programmatic growth, recruitment, training, support and diversification necessary to achieve compliance with Washington State statute.

In child dependency and termination cases, state law mandates that the child shall be appointed a guardian ad litem or CASA volunteer to advocate for the child’s best interest during the case [RCW 13.34.100]. Currently, there are approximately 275 children in Snohomish County without a CASA or guardian ad litem due to a shortage of volunteer advocates. When abused and neglected children of Snohomish County do not have a CASA volunteer giving them a voice in the courtroom, it means their best interests are not brought to the attention of our judges and recommendations cannot be made on the children’s behalf. It also means Snohomish County is not in compliance with Washington State RCW 13.34.100.

To help rectify the issue of non-compliance, adjustments are being requested in the 2023 budget as follows:

Adjustments to the General Fund CASA budget include: increase supplies for volunteer and outreach materials; increase minor equipment to replace a Smart Display monitor needed for in-service trainings; a; add budget for outreach advertising; dd budget for the program copier lease; add \$17,000 to expand CASA office space and replace worn/unsafe carpet.

Adjustments to the Fund 124/Grant funded budget include: Add an estimated 3% COLA contingency effective 1/1/23; utilize unreserved/undesignated fund balance to support county fixed costs that are in excess of the grant award.

The CASA Program serves not only a statutory requirement; it is central to fulfilling society’s most fundamental obligation by making sure a qualified, compassionate adult will fight for and protect a child’s right to be safe, to be treated with dignity and respect, and to learn and grow in the security of a loving family. The CASA volunteer can make a tremendous difference in the life of a child. The CASA Program is in place to ensure volunteers are well supported and trained throughout the process.

The Snohomish County CASA Program is committed to making sure every child involved in the juvenile dependency court system has a guardian ad litem or CASA volunteer to advocate for their best interests. The adjustments requested in the 2023 CASA Program budget will help us achieve this goal while setting us on the path toward compliance with the mandated statute.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff Corrections - Continue Funding 5 FTE

**Package ID #:** 191

**Category:**

**Description:** The Sheriff's Office Corrections Bureau used a revenue estimate in the 2022 Adopted Budget for Detention and Corrections Charges revenue based upon a lowered anticipated average daily jail population due to applicable Covid-19 standards and protocols to maintain a safe facility for staff and inmates. The 2022 Adopted Budget had a reserve in NonDepartmental to provide for up to \$1,500,000 of contingent authority to be transferred to the Corrections Bureau when the actual rate of revenue received exceeded a baseline amount of \$8,500,000. Up to \$500,000 was to be transferred in equal installments in April, July, and October if the rate of collections was projected to achieve the baseline budget, plus the additional target.

Detention and Corrections Charges revenue received through March 2022 was 108.3% of the target which satisfied the criterion for the first budget transfer. The transfer was approved by Council Motion 22-240; funding was restored to the following 5 Corrections support positions on June 22, 2022 by Council Motion 22-252; COR5109R, COR9289R, COR5266R, COR8875R, COR 8818R. The \$500,000 covers the costs of these positions for 1 year, we are on track to continue meeting our revenue goals. We anticipate filling these positions by Q4 2022 and we are requesting the funding for these 5 positions be continued into 2023.

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** WSU Snohomish County Extension Beach Watchers

**Package ID #:** 192

**Category:**

**Description:** Who are the Beach Watchers?

WSU Beach Watchers are a group of over one hundred active volunteers dedicated to protecting the Salish Sea and Puget Sound through education, science, and stewardship. They come from all walks of life and bring a rich cross-section of backgrounds, experience, service, and talents. The volunteers give their time in the tens of thousands of hours through programs focused on stewardship, education, and research at the many beaches in Snohomish County and throughout the greater county at large.

They have been trained by university, state, regional, and local experts through a rigorous training program overseen by Washington State University Extension. Beach Watchers are not required to have prior marine science knowledge or teaching experience. They must be willing to attend a formal training program, want to serve in a volunteer capacity, and be curious about the natural world. All Beach Watchers must submit an application and complete 80 hours of expert training from top instructors in such subjects as water quality, coastal processes, education techniques, and marine life.

In return for this unique educational opportunity, all new Beach Watchers agree to “give back” a minimum of 80 volunteer hours to scientific surveys, serving as field or classroom educators, supporting beach clean-up activities, conducting outreach at festivals, teaching about specific behaviors to clean up Puget Sound, and many other opportunities. Each person gets to craft their own volunteer experience to meet their interests and schedules. Since the beginning of the Beach Watchers in 2006 many volunteers have donated thousands of hours to the organization and are still actively involved to this day.

While the program is funded by several small grants and contracts, this is not enough to keep the program financially sustainable long term. We do receive some funding from Surface Water Management which helps run our annual training, our pet waste program and supports some of our beach clean-ups, which we coordinate with the Snohomish County Marine Resource Committee on.

Why are Beach Watchers important?

We train volunteers to work in and around Snohomish County for a healthy, sustainable marine environment through education, research, and stewardship. The 800,000 residents in Snohomish County, present unique challenges to the protection of our natural areas. While our population poses a huge impact on the Puget Sound ecosystem we aim to educate and inspire citizens to leave a better Puget Sound for our children and future generations.

What do the Beach Watchers do?

WSU Beach Watchers have many projects (examples listed below) that help us to realize our mission in protecting the Puget Sound. Each project has a volunteer team lead that helps WSU staff coordinate that project and the projects falls into three main categories that align with our mission: Education, Science or Stewardship. There have been numerous other projects over the 18-year history of the WSU Beach Watchers that volunteers no longer actively work on.

Education

Puget Sound Youth Education: Increase Puget Sound literacy and appreciation in elementary school children including taking them on field trips to the beach.

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** WSU Snohomish County Extension Beach Watchers

**Package ID #:** 192

**Category:**

Beach Naturalists: Volunteers hold beach walks throughout the summer's good low tides, May to September. They talk with beach visitors of all ages and backgrounds about the amazing intertidal life and ecosystem.

Pet Waste Education - Vet Clinics: We supply Doggie Bags/Scoop Kits to six vet clinics to hand out to their patients. Volunteers collate the kits, deliver the kits to their assigned clinics quarterly.

Science

BEACH Program: Volunteers collect water quality samples for WA Department of Ecology at five Snohomish County beaches in the summer between Memorial Day and Labor Day to see if the water is safe for swimming.

Intertidal Characterization and Monitoring Surveys: Volunteers collect baseline biological data at several public beaches each summer to develop an understanding of how the sites can change over time. This data is entered into the public shoreline monitoring database run by UW.

Stewardship

Beach Clean-Ups: Volunteers perform beach clean-ups monthly alternating between Howarth Park and Picnic Point. Quarterly, we collaborate with the Snohomish County Marine Resource Committee and once a year we hold a larger clean-up using the EPAs Escaped Trash Assessment Protocol; picking up, counting and weighing all the trash in a given area on the beach.

**Justification:** How do our projects help Snohomish County?

Our passion energizes the Beach Watchers to work hard to provide services to our partners and inspire people of all ages all over Snohomish County to take action. For example, each year the Beach Watcher volunteers have approximately 15,500 direct conversations with residents on Salish Sea ecosystem literacy including:

10,000 residents educated on Puget Sound watershed issues

2,000 K-8th grade students educated through science-based learning

2,500 dog owners instructed on pet waste handling

Why are the Beach Watchers asking for funding?

Funding the WSU Beach Watchers will ensure they will be able to continue to provide low-cost education and stewardship to Snohomish County residents to help protect a healthy environment for all of us. They work closely with the County's Marine Resource Committee, a council appointed advisory committee, to identify the highest priority marine issues requiring a public education focus.

The Beach Watchers Program furthers the outreach and educational missions of the Snohomish County Marine Resources Committee, the County's Surface Water Management, the County's WSU Extension unit.

The program remains viable because of the determination and support of the Beach Watchers volunteers, dedicated staff, and a mix of funding sources (mostly small grants). This county funding will allow the program staff more time to achieve the following: 1) invest in ongoing programing; 2) support the foundational Beach Watchers trainings; 3) strengthen existing partnerships; and 4) foster new partnerships for funding in subsequent years. Thank you for the consideration.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff Corrections GF - Restore Vacancies

**Package ID #:** 193

**Category:**

**Description:** General Fund - Restore salary and benefits to 13 vacant Corrections Deputy positions.

These positions have been unfunded since 2021 in an effort to achieve salary savings due to the anticipated COVID-19 related budget shortfall. For the 2022 proforma budget, these positions continued to be unfunded with a contingency placed upon funding should the Corrections Bureau meet certain revenue criteria. For Q1 2023 the criteria had been met and 5 Corrections Support positions were refunded per Council Motion 22-252. We further anticipate that another 10 positions will meet the criteria for refunding in 2022. We are on track to continue to meet or exceed our 2022 revenue goals. For 2023, we are requesting that the anticipated 2022 funding be continued in 2023 and also to have funding restored for any remaining vacant Deputy positions.

**Justification:** (13) Corrections Deputies: Corrections Deputies worked 79,547 hours of overtime from June 1, 2021 to May 31, 2022 (1 year) at a cost of \$4,019,488. While we understand that not funding these positions will save the County roughly \$1.2 million in 2023, the savings has proven to be eroded by overtime worked by deputies filling vacant posts. Our staffing levels are already overly reliant on overtime staffing. It would cost more and exacerbate the use of overtime if these vacant deputy positions were not restored.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff FTE - Corrections Technology Unit (CTU)

**Package ID #:** 194

**Category:**

**Description:** This request is for a July 1, 2023 start date if approved.

The Corrections Technology Unit requires a full-time supervisor be added to its team. This would bring the total team members to three (3). Currently our Corrections Technology unit consist of two special assignment Corrections Deputies where they are subject to rotating out of the assignment every 3 years. This position is currently responsible for providing support, management, triage, research and development for the following applications for the Sheriffs Office Corrections Bureau which employs almost 400 staff:

Management & daily use of the Vicon-Video Security system which contains approximately 320 cameras within the jail. Tens of hours per week are dedicated to fulfilling Public Records Requests and investigative requests. Video archiving tasks associated with public disclosure requests and requests from law enforcement partners is nearly a full time job.

SiPass Prox cards for our 393 staff that controls ingress and egress into our facility along with dozens of volunteers and contractors.

GTL/ViaPath Command system - Our inmate phone, tablet, messaging, video visit, commissary, kite, and email system. Create, maintain, triage and manage all accounts for inmates, attorneys, Law Enforcement and Corrections staff.

New World- This is our jail's inmate management system that is integrated with 50 other agencies within Snohomish County and allows us to manage all operations within the jail. This includes booking inmates, housing, scheduling for court, classification, discipline, programs, incidents, maintaining logs for all activities, movement, clinic visits, professional visits, property tracking, charges, bail, release and inmate funds. We manage all issues that arise for staff at every level when using this software. The Tech Team are administrators of this software, and it takes special training & knowledge to correct and manipulate Criminal History Records without negatively affecting the other participating agencies.

Vendor Interface support- we provide support to all staff and vendors that include applications and connectivity for outside vendors including: VINES - Victim Notification service; KEEFE - Our commissary supplier for inmates; Jail Registry Public Website - Allows the public to see who is in custody, their charges and bail; Live Scan/Crossmatch - This interface allows all inmate fingerprints to be sent to WSP for identity verification of inmates, establishing and update criminal history records, and vetting new employees; Ominix- Interface with the State Criminal Records Department which allows staff to run warrant checks on inmates; Telmate - Inmate entertainment, video visit, messaging, email provider for tablets; and Zetron Radio Dispatch Software.

**Justification:** Just a few years ago we had three (3) full time staff managing fewer software applications and hardware than we have now. Additionally, the COVID Pandemic placed an unprecedented demand on the CTU to create alternative meeting spaces, videoconferencing, remote court appearances for inmates that are in quarantine, an overall increase in conducting historically in person business via computers, software, and telephones, and an increase in specialized electronic equipment which needs support. We procured several pieces of new technology through COVID relief funds like the Tek84 Body scanner and the R-Zero UVC light cell disinfection machine. These new technologies require support when not operating properly.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff FTE - Corrections Technology Unit (CTU)

**Package ID #:** 194

**Category:**

Technology is an ever-expanding world and with its advancements it allows us to do more without utilizing paper products and creates efficiencies where there was none before. However, with this expansion comes the requirement for specialized skill sets and training that enable an agency to manage this increasing amount of new technology. In my experience we will always have the need to have a group of trained, dedicated technology staff to provide support for all of the various software applications and hardware that all of our end users require in order to do their jobs effectively and efficiently. The staff that rely on this technology typically do not have the necessary skill sets to triage, diagnose and repair the very software and hardware they've come to depend on to do their jobs.

Continuing to attempt to manage all of the above responsibilities with only two full time deputies is not only unrealistic it is irresponsible and non-sustainable. The current workload on these two persons places them in a precarious position of attempting to triage what they can, respond to who they can and who they can't, and often times, through no fault of their own, falling short of providing the excellent technological support that our staff deserve. This sometimes leaves the entire organization frustrated and unable to fulfill their required workload in a timely and efficient way.

Having a first line supervisor (Corrections Sergeant) to help organize the workload, track hours, assets, and expenditures while compiling data, will relieve the two deputies of the administrative work that is involved in CTU operations which will allow the deputies to respond more efficiently and quickly in support of the staff who are on the front lines and need well maintained and working technology to do their jobs.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   09 Conservation & Natural Resour

**Short Name:**   DCNR Parks Fixed Costs Increases

**Package ID #:**   195

**Category:**

**Description:**   This package reflects cost increases for Supplies, Rentals, ER&R, Utilities, Merchant Fees, Dues & Subscriptions and Interfund Parking expenses coming in 2023 for our 411 (Admin), 430 (Maintenance) and 680 (Operations) budgets. We are also requesting a new additional expense for a tree management support function through the Maintenance team 4801 Outside Repair & Mtce budget. With costs escalating due to 2022 inflation rates, the cost for all these services is going up and we are asking for support to help level off these budgets to help reflect the actual expenditures that are currently being paid.

**Justification:**   Parks Admin Program 411  
9506 - Interfund Parking  
The budgeted amount for our Interfund Parking has not increased and has remained the same since 2018 at \$753, but our actual costs have continued to increase and in 2021 our actual charges came to \$5,760. This is an interfund charge that we have no control over, and so we are requesting that this budget be increased by \$5,000 to get us up to actual levels.  
4951 - Dues Subscription & Reg  
The base budget for our Admin Dues, Subscriptions and Registrations has remained the same since 2018 at \$12,405, but our actual expenses in 2021 were \$16,273. All of our regular annual dues and subscriptions have increased over the years and we would like to request that the base budget be increased by \$5,000 to bring us up to current actual costs.  
4907 - Merchant & Transaction  
Our merchant and transaction fees budget has been at \$37,000, which up until 2021 was adequate coverage. However, starting in 2021 our actual expenses were \$53,638, and in 2022 and beyond it is just going to keep going up, now that we have gone to a cashless parks system and have become automated where all transactions are done with credit cards. We are therefore requesting an increase to our merchant and transactions fee budget of \$16,000 to cover these additional charges.

Parks Maintenance Program 430  
9503 - Interfund ER&R  
The ER&R charges for our Maintenance team were increased last year by \$20,000 (thank you), but we just received the 2023 ER&R rates from Fleet and our estimated costs are projected to be \$399,501. This is an additional \$37,395 over our new budgeted amount. Our vehicles are older and in need of more frequent maintenance service each year. We would like to request another increase to our ER&R maintenance budget of \$37,000 to make us whole with these expenditures. On average we are paying \$30 additional, per month, per vehicle just for the base/replacement rates. This does not take into consideration the servicing rates, which have increased as well. When the Parks Department has over 40 vehicles, these additional increases add up quickly.  
4951 - Dues Subscription & Registration  
In 2021/2022 our Maintenance team started using Cartegraph for their work order system and have recently focused it's use on potential time tracking as well. The charges in 2021 was \$25,000 and in 2022 it was \$25,750. Both years our Maintenance budget had to cover these additional expenditures. For the 2023 budget, the cost for the Parks Domain for Cartegraph will be \$29,146. Our current Dues & Subscriptions budget for our Maintenance team is \$412, so we are requesting an increase of \$29,146 to this base budget amount, to cover the Cartegraph costs going forward.  
3101 - Supplies  
The budgeted amounts for Supplies for our Maintenance team has remained the same since 2018, even though

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks Fixed Costs Increases

**Package ID #:** 195

**Category:**

the yearly costs have continued to increase, and now in 2022 the inflation rates have more than doubled most of these costs. Our actual supplies expenses in 2021 were \$212,884, which was \$16,000 over budgeted amounts, and with the inflation rates of 2022 we know our 2022 actuals will be quite a bit higher than 2021. We are asking for an increase of \$27,000 for our maintenance supply budget for 2023 which is an additional 5% above 2021 actuals.

4801 - Outside Repair & Maintenance

We are requesting a new additional expense for an outside tree management support service. This would be budgeted through the Maintenance team 4801 Outside Repair & Mtce budget. With the limited maintenance staff and the high volume of trees needing to be maintained, we are asking for an additional \$45,000 to hire outside services to help our maintenance team maintain the multitude of trees throughout our Parks system. In 2021 we spent approximately \$30,000 on outside services just to handle the critical tree issues that needed to be handled for safety reasons. There are several other trees in our parks that should be taken down, but due to limited staff they have not been handled yet. This extra support will help assure that these other issues will get handled in a timely manner going forward.

Parks Operation Program 680

4501 - Rentals

The budgeted amounts for Rentals for our Operations team have remained the same since 2018, even though the yearly costs have continued to increase, and now in 2022 the inflation rates have more than doubled most costs. Our actual rental expenses in 2021 were \$26,564 over budgeted amounts, and with the inflation rates of 2022 we know our 2022 actuals will be quite a bit higher than 2021. We are asking for an increase of \$26,000 for Operation Rentals to get that budget amount up to 2021 actual expense levels.

4701 - Utilities

Our actual utility costs for our Operations team for 2021 was \$247,575 but our base budget was only at \$234,924. We reached out to all our current utility vendors and they are all projecting a 2% to 3% increase on their billings for 2023. Our utility budget was reduced in 2021 by \$22,000, most likely due to the low actuals in 2020, but that was partially due to COVID 19. Actuals in 2021 were back up to \$247,575 and with these projected increases we will once again have a need to cover a lot of additional costs not covered by the budget. Therefore, we'd like to request an increase to our budgeted amount by \$20,000 to get us to the \$247,575 plus 3%.

9503 - Interfund ER&R

The budgeted amount for our Interfund ER&R for our Operations team has not increased and has remained the same since 2018 at \$10,000, but our actual costs have continued to increase and in 2021 our actual charges came to \$16,600. This is an interfund charge that we have no control over, and so we are requesting that this budget be increased by \$6,000 to get us up to actual levels.

Thank you for considering all of our Fixed Cost needs and requested increases.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff FTE - Corrections Training Deputy

**Package ID #:** 196

**Category:**

**Description:** This request is for a July 1, 2023 start date if approved.

We are requesting one (1) additional FTE (Corrections Deputy) for the Training Department. This staffer would focus primarily on working with the Lead Force instructor and would be versed in and responsible for all things force (Defensive Tactics, Less-Than-Lethal equipment, tactics and techniques) and would allow the existing Training Deputy to focus on Field Training Officers, new hires, and policy and procedure relating to such. This is in line with what the Patrol side does, and this position is very needed. This deputy position would have to be a defensive tactics and/or less-than-lethal instructor of some sort.

**Justification:** The Training Deputy position (as it exists now) does the job of three (3) FTE from the patrol side. As a result, they are often over tasked, and at times have to triage tasks between what is priority, and what can wait. Also, due to safety concerns, it has become normal to have two instructors present while training Defensive Tactics or less-than-lethal technologies to act as a safety. Currently we are forced to pull from the line staff, causing holes and overtime. Having a second staff member assigned to training would eliminate a lot of this. This staffer would also allow for the current Training deputy to focus on updating, adding content, and ensuring the accuracy of the current new hire training block, Corrections One information, Lexipol Daily Training Bulletins, etc. Having a second deputy would also reduce the dependency of the Supervisor to cover or cancel training if the primary training deputy is sick, injured, or on vacation. This second training deputy would also allow the Bureau to have a greater presence with Criminal Justice Training Center, as well as allowing the Bureau to host and sponsor more trainings here, reducing training and re-certification costs.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Corrections Emergency Planning

**Package ID #:** 197

**Category:**

**Description:** This request is to fund the following emergency planning supplies:

Procure the needed emergency food supplies as per the Emergency Management SOP plan for the Jail facility. 600 inmates and staff x 2 meals a day = 1200 meals a day for 3 days = 3600 meals. There are 12 meals to a case = 300 cases. \$87.00 for a case at 300 cases = \$26100.00.

Procure the needed emergency water storage containers, the building engineering study, and Maintenance install costs for the install and hook up of these tanks. \$350.00 per tank (12 tanks needed) \$4200 plus install and misc. parts needed to hook up to the water supply. Also, would need the cost of the building study (engineering). Request \$6500.00.

Procure two (2) additional stair evacuation chairs One for the Wall Street building and one for the G floor. Evac Chair \$3325.42 each (x2) for a total of \$6650.84 plus cost of install (maintenance).

**Justification:** Part of the Jail Emergency Management plan is to be able to shelter in place for a period of time while critical infrastructure resets and government entities get set up. This is part of the Emergency management plan as per WASPC 26.1 (Washington Association of Sheriffs & Police Chiefs)

Part of the Jail Emergency Management plan is to be able to shelter in place for a period of time while critical infrastructure and government entities repair and recover. This is part of the Emergency plan for the Jail facility as per WASPC 26.1.

Part of the Jail Emergency Management plan is to be able to move inmates to a centralized location for medical triage or housing. We have a facility that has two buildings with stairs in both, and only one emergency evacuation chair. WASPC 26.1 mandates a plan to handle emergencies and these chairs will aid in moving injured or handicapped inmates and staff from higher level modules to lower-level areas while minimizing the risk of falls and injuries.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Corrections Bureau - Medical Director

**Package ID #:** 198

**Category:**

**Description:** This proposal is to provide professional management of the health and medical care for inmates at the Snohomish County Sheriff's Office Corrections Bureau Health Services Division. The service will provide our division with a Medical Director who will act as an independent contractor and not as an agent, employee, or servant of the County.

The county currently contracts with a part-time, 24 hours per week, Medical Director at an annual cost of \$225,000. The new contract allows for a full-time Medical Director at 40 hours per week at a cost of \$450,000 for the 18 month term of July 1, 2022 - December 31, 2023 (annual cost \$300,000). The anticipated cost difference for the contract in 2023 is \$75,000.

**Justification:** According to RCW 72.10.005 and 72.10.070, it is the intent of the legislature that inmates in the custody of the department of corrections receive such basic medical services as may be mandated by the federal Constitution and the Constitution of the state of Washington. Moreover, we are required to staff a contracted Medical Director, who will provide onsite and offsite medical care, to include, but not be limited to:

Physicals, examinations and subsequent prescription of care and referrals;  
Medication management in coordination with contracted pharmacy;  
Consultation with on-duty nursing staff as needed;  
Accessible 24 hours a day, 7 days a week (On-Call);  
Provide onsite care during regularly scheduled times at a minimum of 40 hours a week.

A Medical Director is provided supervision by the appointed County Health Services Administrator (HSA) with the Snohomish County Sheriff's Office Corrections Bureau. Moreover, the Medical Director provides medical direction and oversight to providers, but not limited to, developing clinical practice guidelines, nursing protocols and standardized policies/procedures with the assistance of the HSA that dictates the everyday operations of the medical and mental health staff.

The Medical Director shall comply with all other applicable federal, state, and local laws, rules, and regulations in performing their duties under the Agreement.

Due to the National and State staffing crisis involving healthcare, it is difficult to find a medical director that will serve in a government capacity due to the competitive wages.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Fund 002 - Sheriff 38 Adjustments to Base

**Package ID #:** 199

**Category:**

**Description:** This package represents adjustments to our proforma base budget.

2023 Revenue Estimate of \$10.4M. We are anticipating jail ADP to remain at the current 2022 levels in 2023. Revenue was estimated by using actual stats from JAN - APR of 2022, averaged and applied to the remaining 8 months plus the addition of a 2023 contractual rate increase of 3%.

Updating BDT allocation for a reclass that took place in 2021. The position was filled in 2022 after positions were loaded into BDT. For the 2022 and 2023 proforma budget the Accounting Tech II position was incorrectly allocated 100% to Fund 108 instead of split equally between Fund 108 and Fund 002 as approved with the reclassification process. This entry is to correct the allocation.

Salary Adjustments: We have 2 FTE in temporary upgrade status. This adjustment is to reflect the correct salary of their base positions.

Additional barber fees: We have recently awarded a new barber contract through the RFP process and the cost of the contract was a significant increase over the last one. While we do recover some of the costs for barber services from our inmates, we anticipate that the new rates will need to be offset with additional funding.

Ghost Positions: Removal of 10.0 FTE Correction Deputy positions used in the past for hiring. These unfunded positions are no longer needed.

Housekeeping: Move COR8813 from program 321 to 331.

\$601 Debt Services (requested by Budget Office)

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 11 Auditor

**Short Name:** Out of our Control Package - Auditor

**Package ID #:** 200

**Category:**

**Description:** This package requests a modest increase for expenditures that are out of direct control of the Auditor's Office.

1) Increased dues for Washington State Association of County Auditors (WSACA) - WSACA recently hired an executive director and increased dues for all counties to assist in paying the administrative costs associated with this new position. We are requesting \$4,500 to be added to our dues expenditures to cover the cost of WSACA dues going forward.

2) Animal Control Officer Stand By Pay - A negotiated agreement between AFSCME 1811CA and the Auditor's Office established Stand By Pay. One Animal Control Officer is scheduled to be on call after normal business hours and on weekends each week to assist the county with animal related emergencies. The calculated increase in overtime for Stand By Pay for the entire unit will be \$20,000 for 2023.

3) Armored Car Expenses - The Licensing Division uses an armored car service (as part of a county contract) to transport large amounts of cash to Bank of America on a daily basis. The county recently negotiated a new armored car contract that resulted in increased costs for this service. The Licensing Division requests an additional \$3,600 to cover the cost of this increase armored car cost going forward.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** HS Case Management & Home Care Services Network

**Package ID #:** 201

**Category:**

**Description:** Adjustments to the 2023 Human Services Case Management and Home Care Services Network budget.

**Justification:** These changes are made to more accurately reflect planned 2023 Case Management activities.

Specifically, the program caseload is currently increasing by an average of 12 clients per month, and the trend is projected to extend through 2023. The DSHS contract renewal effective 7/1/2022 reduces the maximum caseload to 75 clients per 1.0 clinical FTE. In order to meet the new ratio, three new Case Manager positions were approved by motion 22-263. Management will also submit a request to reclass a vacant Office Assistant II position to a Case Manager. These positions are open for 2022 recruitment and hire. Effective 1/1/23, six new positions are requested, including: three Case Managers, one Registered Nurse, one Case Management Administrative Assistant, and a Case Management/Registered Nurse Supervisor. Other expenditure line item changes include adding an estimated 3% COLA effective 1/1/23 and adjusting discretionary items based on anticipated program needs.

Grant revenues are adjusted based on an in depth analysis of current caseload, caseload growth trends, and contract payment rates.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 36 Superior Court

**Short Name:** DJJC Remodel

**Package ID #:** 202

**Category:** SC Detention Space Retrofitting

**Description:** The current DJJC footprint completed construction in 1998. The facility included a secure detention area that had 124 beds. Juvenile caseloads have sharply declined since 1998 and juvenile detention rates have significantly dropped accordingly. Within the last 5 years, 4 living units within the secure detention center were made available for repurposing. The county decided to repurpose this space into the current Behavioral Health Organization's adult treatment facility. Discontinuing the use of these 4 living units dropped secure detention's total bed capacity to 72, as it stands today. Plans have been underway to further reduce our detention footprint in order to be commensurate with our average daily bed rate of less than 10, and to also provide efficiencies within our operations and staffing patterns. The remodel plans have been created in conjunction with Facilities over the last 2 years. This plan will reduce our bed capacity to 36, which is well above our average daily population. More importantly, this will allow the court to create further budget reduction and efficiencies within the near future. This is the best path forward to ensuring that our detention operations are fiscally responsible.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 11 Auditor

**Short Name:** Non General Fund Package

**Package ID #:** 204

**Category:**

**Description:** This package provides expenditure for non-general fund projects in the Auditor's Office.

1) O&M Fund - Provides a total of \$300,000 to internal county departments and offices that are participating in the 2023 Auditor's O&M Fund for Historical Document Preservation.

2) Back Post Project - All county land records are digitized, however only records from July 1976 forward are indexed and available for customers to search online. The goal of the Back Post project is to index and upload recorded documents prior to 1976 into our Landmark recording system so that our customers can fully search and access these documents. We will contract with an outside company that specializes in document digitization and indexing and we will focus the first year on deeds and marriage documents. There are approximately 2.5 million pages of documents that will be part of this large project which will take multiple years to complete. We are asking for \$1 million in expenditure authority in 2023 for the Back Post project.

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   11 Auditor

**Short Name:**   Elections Space Requirements

**Package ID #:**   205

**Category:**

**Description:**   This package requests funding to remodel the first floor of Admin West and to retrofit additional contiguous space in Admin West to gain greater Elections operational efficiencies and enhance election security.

In 2022 the Department of Homeland Security conducted an audit of our Elections and Voter Registration space and found that the space is currently inadequate in size and is in need of specific security enhancements.

During 2022 the Auditor's Office has been exploring options to gain additional Elections and Voter Registration space within Admin West. Much of the plans rely on other offices /departments moving or consolidating their spaces due to their current telework practices which has greatly reduced in-person office space requirements. The goal is to gain enough square footage of contiguous office space so that the Elections and Voter Registration Divisions can conduct Presidential Elections on campus within one building.

Every four years a massive effort is undertaken to move the entire elections operations to an off-site location. This relocation requires an immense amount of time and energy from not only the elections staff, but also Facilities Management and the Department of Information Technology. In addition, costs to lease and retrofit these spaces as well as ensure high level security does not come cheap. The county has already invested heavily in these relocation efforts to the tune of approximately \$2 million.

With greater numbers of registered voters, each countywide election gets bigger . It is difficult to conduct a large countywide non-Presidential election within the space we currently occupy in Admin West combined with the space we lease across the street from the county campus. It will be impossible to conduct the 2024 Presidential Election within our current space.

We are proposing to pay for the remodel using a combination of grants, the elections equipment reserve fund and general fund dollars. This Priority Package serves as a placeholder as we do not have a firm estimate on what a full-scale remodel of our current space and acquisition and retrofit of additional, contiguous county space would cost. Facilities estimates that 25,000 square feet of renovated space at \$200 per square foot would cost approximately \$5 million.

Cost Breakdown:

Elections General Fund = \$3 million

Elections Equipment Reserve Fund = \$1.5 million

HAVA 3 Grant = \$475,000

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR - Parks Fund 185 Conservation Futures

**Package ID #:** 207

**Category:**

**Description:** The Snohomish County Conservation Futures Program is responsible for administering funds for the purpose of acquiring interests or rights in real property located within Snohomish County which meet open space and conservation requirements as per RCW 84.24.230 and S.C.C. 4.14. Funding for the program is through the collection of up to \$ 0.0625 per \$1,000 of assessed valuation against all taxable real property within Snohomish County.

S.C.C. 4.14.080 establishes a Conservation Futures Advisory Board, consisting of the County Executive representative, two County Council representatives, two elected officials from cities within the county, and two citizen representatives, to make recommendations for projects funded by Conservation Futures revenue. Projects are evaluated and prioritized based on various criteria, including regional significance, multijurisdictional benefit, enhancement to current conservation programs, consequences from development, compliance with open space policies, and/or establishment of a trail corridor or natural area linkage. The board meets as necessary and make recommendations which are forwarded to the County Executive for transmittal to the County Council for final action.

This budget reflects the balance of funding for projects to be completed in 2022 that were approved by the committee as well as operations and maintenance plus bond debt payment and mandatory capital interfund costs. The budget also allows for available funding for new projects as defined by Conservation Futures Advisory Board.

**Justification:** PRESERVE OR IMPROVE THE UNIQUE QUALITY OF SNOHOMISH COUNTY'S NATURAL RESOURCES AND ENVIRONMENT

The projects identified in the package meet the purpose specified in Snohomish County Code of acquiring interest or rights in real property for the preservation of open space land, farm and agricultural land and timber land. These are the projects approved and the estimated balances into 2023; the Conservation Futures Board may meet and changes may occur during the budget approval process.

### 2023 PLANNED CAPITAL EXPENDITURES- Approved in 2022

Snoh County Parks- Skyview Tracts \$ 77,699  
Snoh County Parks- Whitehorse Trail \$ 74,523

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

**Package Type** Standard

**Department:** 39 Emergency Management

**Short Name:** GF & Fund 124 Housekeeping

**Package ID #:** 211

**Category:**

**Description:** This package proposes small annual adjustments to the GF and Fund 124.  
The 2023 GF is updated to include EOC Debt Service. REET1 funds covered this in the 2022 budget.  
Salary contingency of 5% has been included for FTEs budgeted to Fund 124.

**Justification:** Debt Service for the EOC was covered by REET1 in the 2022 budget. Reverting the debt service to the GF will increase the per capita rate for the 2023 ILA annual service fees from \$1.38 to \$1.55. This increase may cause some of our partner agencies to opt out of the interlocal agreement for emergency management services.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Fund 315 Balancing

**Package ID #:** 212

**Category:**

**Description:** This package balances revenue and expenditure in Fund 315 for IT Capital Projects. It contains adjustments to our proforma base budget for line items that carried forward from prior year adopted levels. Revenue and expenditure is anticipated to balance in Fund 315 through proforma budget line items and entries made in this package at \$2,835,000.

**Justification:** This balancing package is necessary to create a foundation that represents the 2023 Technology Replacement Program (TRP) contributions to Fund 315. Expenditures are aligned with our 5-year plan for technology infrastructure improvement.

From this initial package, adjustments to revenue and expenditure based upon policy decisions can be made through separate packages. Any adjustments to this priority package must be carefully considered and are discouraged; this package is designed to mirror initial rate model design, balances at the program level, matches departmental communications, and ties back to audited rate allocations and the IT department Fund 505 balancing package.

### SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 39 Emergency Management

**Short Name:** Operational Readiness

**Package ID #:** 213

**Category:**

**Description:** This package proposes the addition of 1.0 FTE to support DEM's Operational Readiness program.

**Justification:** This position currently supports DEM's operational readiness program. This program primarily focuses on our county's ability to respond to natural and man-made disasters. It includes maintaining the readiness of the equipment and procedures for the Snohomish County Emergency Operations Center (EOC); it also includes ensuring we meet the obligations in our interlocal agreements with cities, towns, and Tribes to ensure that their EOC equipment and procedures align with the County's.

To accomplish this, this position researches best practices and incorporates them into standard operating guidelines that detail how each EOC operates. They then work closely with representatives from many County departments, as well as the various jurisdictions, to develop and facilitate the delivery of trainings for EOC staff members. These trainings ensure that EOC staff know their role within the EOC, that they understand their EOC's operating guidelines, and that they are comfortable with the technology used during disaster response. This position also helps develop exercises (i.e., drills) so that EOC staff can practice these skills. The scope of these drills range from exercises to evaluate individual sections of an EOC to multijurisdictional exercises that evaluate our ability to coordinate with partner jurisdictions within Snohomish County, with our regional partners, and with our state and federal counterparts.

This position was integral during the COVID-19 response when, because of the extended duration, we needed to train many people who were new to the EOC. They were also able to evaluate our operations in real-time and implement improvements that not only helped during the pandemic, but will be extremely valuable for future EOC activations.

DEM previously funded this position with an award from FEMA's Regional Catastrophic Preparedness Grant Program. Snohomish County DEM received that award, one of eight awarded nationally, in 2019. Its performance period expires on September 30, 2022. We identified other grant funding to bridge funding this position through the remainder of this year. This request is to continue funding this position as it is integral to our continued readiness.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 13 Human Resources

**Short Name:** Business Process Analyst Reclassification

**Package ID #:** 214

**Category:**

**Description:** Central Human Resources is requesting reclassification of position HRS7568R (Business Process Analyst) from pay grade 244 to pay grade 245, and reclassification to Business Process Analyst Supervisor.

**Justification:** Over the past two years, the Business Process Analyst's scope of work has expanded significantly. Based on 1) recommendations made in the 2019 audit, and 2) the Executive Office's initiative to modernize and improve services for employees, Central Human Resources created a separate functional team to:

- Develop reports to provide data in order to make better operational and strategic decisions
- Improve internal processes and procedures in Central Human Resources
- Lead countywide software implementations (Onboard, Learn, Perform, eForms, etc.)

The new software requires a higher level of technological expertise and additional staff to administer and maintain, and the Business Process Analyst now supervises a team of three FTEs. This team has been instrumental in providing data and creating reports not previously available, and these have been helpful to Human Resources, other departments and County Council. The Business Process Analyst has built strong relations with other departments (especially Finance, OPEX and IT) and participates in many cross-departmental projects. The current position title no longer reflects the aggregate of work performed, and we request a pay grade reclassification, and reclassification to Business Process Analyst Supervisor.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 05 Planning

**Short Name:** PDS Class Comp Contingency

**Package ID #:** 216

**Category:**

**Description:** Budget contingent expense for estimated impact of the county's class/comp study on PDS Permitting Fund 193.

**Justification:** PDS has done a preliminary, unofficial comparison of PDS salaries to other jurisdictions, for specialized positions such as building inspectors, site inspectors, the planner series, and engineer series. We estimate we are compensating these employees 10% to 15% under what other jurisdictions are paying. For positions we did not specifically analyze, we estimated those could be underpaid by 5%.

In order to plan for the large impact this will have on the PDS budget, we have estimated, based on the percentages noted above, that the future cost to PDS Permitting Fund 193 will be approximately \$775,000. Because PDS Permitting is self-funded, it is very likely that permit fees will need to be adjusted to cover the class/comp impacts, and we need to start planning for that now.

The purposes of this budget package is to see the possible impact of the class comp study on PDS Permitting's 2023 budget. Therefore, we have assumed a July 1, 2023 implementation date, which would have a fiscal impact of approximately \$387,500. This has been factored into PDS's anticipated use of fund balance for 2023.

No amounts were budgeted for General Fund programs or Snohomish County Tomorrow.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Innovation: UW Capstone

**Package ID #:** 217

**Category:**

**Description:** The county has an opportunity to bring in a cross-functional team of students from the University of Washington College of Engineering to address a business problem. The Industry Capstone Program brings together UW students and companies to tackle real-world, multidisciplinary engineering problems. Snohomish County IT will bring in a project and provide support to a team of creative, talented engineering seniors who will design and build innovative solutions. The team of 4-6 seniors will be matched to a Snohomish County sponsor and a UW faculty member. This would be worked in partnership with HR to align to the ongoing internship program if and as needed. We are investigating project areas to focus in on where we have an opportunity to look for a combination of workflow streamlining, modernizing of business operations, and introduction of modern technologies to help manage our business.

**Justification:** In addition to solving a business problem for the county with anticipated savings, this project provides a high touch engagement opportunity to assess student talent and recruit for jobs. We will build brand recognition for the County among next-generation engineers, and provides a low cost opportunity for a fresh look at a business problem. Secondary benefits include civic engagement benefits by strengthening ties to the UW College of Engineering, as well as professional development opportunity for the technical mentor.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Innovation: WSU Hackathon

**Package ID #:** 218

**Category:**

**Description:** Sponsoring a hackathon for current students at the WSU Everett Campus will provide an opportunity to build engagement with the student body and administration, as well as support the development of solutions for County business problems. This project was a success in 2020 and this package provides direct sponsorship for the running of the Hackathon, anticipated to occur in early 2023. We plan to partner with Microsoft to provide resources to support the event, and engage with WSU's software engineering department to initiate planning for this event.

We are exploring opening this up for local High Schools as well through direct engagement and sponsorship by each elected council member to be a sponsor for one or more high schools within their district.

**Justification:**

- Possible outcomes could include delivery of an actual solution for the county for a particularly focused business need.
- Community and civic engagement
- Building partnership with WSU Everett and EVCC

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Software Investment

**Package ID #:** 220

**Category:**

**Description:** This package represents targeted investments during FY2022 in new software and license increases for products that are instrumental to enterprise business operations within Snohomish County. These costs were either unknown or unable to be estimated at the time the 2023 IT rate model was developed and therefore are not included in departmental allocated rates for this proforma budget.

**Justification:** The software maintenance costs detailed within this package are intended to be added into the 2023 budget from IT remaining Fund 505 balance, and will be added into the IT rate model as enterprise software in 2024 and beyond. The software includes the following four items:

- \$32,000 HIGH LINE TMSS (time management self-service) License increase - to acquire user licenses sufficient for a county-wide implementation of TMSS for time and attendance reporting.
- \$21,500 LEASE QUERY GASB 87 compliance software - new financial tool acquired through CIP Fund 315 ERP project funds to enable central finance to record County leases, produce financial statement data in compliance with new governmental standards for financials, GASB 87
- \$60,000 ASANA project management software license increase - adding users to OpEx project tracking platform for increased opportunity for cross-departmental project collaboration and visibility
- \$96,000 MICROSOFT CRM DYNAMICS license increase for County users of CRM Dynamics custom development solutions delivered by IT

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   14 Information Technology

**Short Name:**   Innovation: GIS Compute

**Package ID #:**   221

**Category:**

**Description:**   Snohomish County's geographic information system (GIS) footprint has grown significantly over the last several years as more departments across the county leverage geospatial tools and technology for their business needs. Increased demand requires significant system resources (processor, memory, and storage) to support the growing demands of the County's Web GIS environment. This package represents the cost of additional network resources in 2023 as a one-time investment.

Ongoing annual spend will be added to rates in 2024 and beyond, and includes approximate annual cost of \$28,000 in capital investment for long-term replacement through the TRP program.

**Justification:**   The County's current Web GIS servers are co-located with approximately 350 other county virtual machines and is consuming 1 full node of the County's 9-node Hyper-V environment. It is no longer feasible to allocate additional system resources from the existing Hyper-V environment to the Web GIS environment. IT is requesting the purchase of a stand-alone GIS Hyper-V environment to resolve this limitation and allow for supporting both the current use and future growth of our GIS program.

A stand-alone GIS Hyper-V environment will provide the following:

-Needed scalability and flexibility that is currently not available

-IT GIS staff vs. IT Engineering staff will gain the ability to allocate GIS system resources as system demands change. This would include things like managing virtual CPUs, adding or removing memory, and expanding disk drives to address data growth.

-Reduction in IT administrative overhead including monitoring, adjusting, and managing assigned system resources. It takes less work to managing smaller clusters with fewer virtual machines.

-Decreased patching, maintenance, and troubleshooting complexity

-Improved restore and reboot times

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Application Support

**Package ID #:** 223

**Category:**

**Description:** This package represents the addition of 1.0 FTE in a lead role to the existing IT application support team, currently consisting of three (3) employees. This team performs many critical functions within IT, including:

-Highly available Tier III support resources that respond quickly to escalated application-related issues, including outages for critical enterprise systems (e.g., High Line and Cayenta)

-Ongoing and on-demand support for more than 180 line-of-business applications and tools, many of which are critical department-specific applications (e.g., AMANDA, Cartegraph, and CorEMR) or enterprise applications (e.g., High Line, Cayenta, and Granicus/Legistar)

-Support for IT maintenance work related to or impacting IT-supported applications; these maintenance efforts can be very large, complicated, and require months or years to complete (e.g., 2008 server migration, Actuate to SSRS conversion, DCNR Transition, CorEMR Failover Recovery)

-Creating new solutions and kiosks, and enhancing existing solutions to better meet customers emerging business needs (e.g., SnoBAT ballot tray tracking system enhancements, HMIS homeless tracking system enhancements, Weatherization grant project tracking system enhancements, FME system integrations)

-Participation in projects to implement 3rd party solutions and upgrades for IT customers (e.g., NEOGOV Module implementation, High Line TMSS implementation, Liberty Court Recording, Cayenta Upgrade)

-Communication and coordination with product vendors to facilitate work that requires vendor resources or other assistance, including system outages, issues, and security upgrades

-Initiating support requests with our 3rd party Database Administration (DBA) Service and coordinating with DBA resources to complete that work

-Functioning on-demand as subject matter experts on applications related topics and issues for other service teams, departments, offices, and courts

**Justification:** There are some challenges we face as we try to tackle this body of work on a daily basis and hiring another resource that would serve as a lead for this team would help address these challenges and create some opportunities in the process. The following represent some of the major challenges for this team, along with a brief justification for how adding a lead resource to the team would provide benefit to the team and ultimately the county:

1.Coverage - Highly available support requires at least one resource to be actively monitoring for issues during business hours (so we have timely awareness of issues) as well as the capacity to work on a timely resolution to those issues based on urgency and impact. This is currently challenging for this team, not only due to the sheer volume of work, but also due to schedule issues like leave and meetings, so that it is not always possible to have someone available to respond quickly to these issues. Another resource would help this team to provide better quality and more consistent coverage.

2.Volume of work - There is a huge volume of work here that this group is responsible for moving forward,

**Category:**

and it is a testament to the value and effectiveness of this group that they are able to accomplish so much. However, there is only so much these three resources can do, and as the demand for their services continues to increase, the backlog of work continues to grow, along with the stress levels of the team (there has been a noticeable difference in how they express their feelings of work and stress since the beginning of 2022). Another resource would help this team to handle this workload more expeditiously, increase the output quality, and improve the mood and stress of the team.

3.Increasing workload - As we continue to transition from our historical manual, paper-based processes to a more electronic, automated, application-focused workplace, the demand for applications and other electronic solutions continues to grow, as does the corresponding support and overhead requirements. There was a large increase in the demand for our services at the start of the COVID pandemic (for reasons that are probably well-understood), and now that we are returning to "normal" that demand seems to only be increasing as the departments, offices, and courts look to re-envision how they do business and engage with customers. Another resource would not only help this team with these current demands for our services but would also help provide greater elasticity to stretch our capacity into the future and to better handle resource intensive efforts as they come along (e.g., the DCNR transition at the end of 2021 and the Health District transition in 2022).

4.Leadership - Given the volume of work this team handles and the increasing demand for their services, it has been difficult for the Applications Supervisor to understand the minutiae of this work, ensuring there is a good fit in these assignments, making sure the work is moving forward appropriately and the correct processes are being followed. Having a lead position for the Applications Support team would help the Applications Supervisor manage this team by providing leadership that enables the team to work more autonomously, without direct Supervision. In addition, a lead could help make decisions regarding assignments, help ensure standard processes are being followed and work is moving forward in a timely manner and would be a communication bridge between the Supervisor and team, ensuring instructions are received, understood, and followed, and communicating issues and barriers are communicated to the Supervisor. Since the Applications team overall currently has thirteen resources assigned to one supervisor, this would help with span of control.

5.Career path - There are two primary types of resources in the Applications team, System Administrator Support (SAS4) resources that make up the Applications Support team, and Business Application Developer (BAD5) resources that make up the Dev team. In a general sense, the Dev team is responsible for building applications and the Applications Support team is responsible for supporting them and moving into a developer position represents a potential career path for resources on the Applications Support team. However, there are a couple of issues with this that having a lead position for the Applications Support team could help resolve. First, in the interests of completing the work expeditiously and limiting the number of resources assigned to each effort (and the number of assignments each resource has to try to manage at once), there is a level of development work that happens at the Applications Support team level. Development skills are not a requirement for the (SAS4) position (it's a nice to have), and not all the resources on the Applications Support team have development skills, but it is highly beneficial for one or more of the resources on the team to have these skills. Establishing a lead position for this team that required some level of development skills would help ensure this team has this important skillset, and this resource could be assigned to efforts that required this skillset. In addition, the jump from a SAS4 to a BAD5 is significant in terms of career path (a BAD5 represents an experienced, highly competent developer), but having a lead position for the Applications Support team that is essentially a junior developer would create a more realistic developer career path for the SAS4 resources on the Applications Support team.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Data Privacy

**Package ID #:** 225

**Category:**

**Description:** This package represents the creation of a dedicated County Privacy Officer residing within the Department of Information Technology with the following focus areas: data privacy and protection; adherence to current and anticipated legislation related to privacy; defining county policies in the privacy field, and ensure monitoring and adherence to these policies; train and guide county workforce on data privacy and protection; partner with IT technical staff to ensure technical solution exists to provide the proper level of data protection.

NOTE: this is a new classification, position not yet established, and this package is using a position classification placeholder for funding estimates only.

**Justification:** Snohomish County, like other public agencies, is facing a growing demand for adherence to local, state, and federal regulations regarding data protection and privacy. Currently the county privacy officer is the CIO/Director of IT as defined in county code. The creation of a dedicated privacy officer is to ensure that current and expected future legislation is understood and implemented properly. The role ensures risk-avoidance in the areas of data protection and privacy and strengthens the county's posture in alignment with the Enterprise Data Management program instituted in 2022.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Print Server Management

**Package ID #:** 226

**Category:**

**Description:** The IT department wishes to replace existing on-premises print server hardware with a SaaS (cloud) print management solution called PrintLogic.  
This package represents the annual cost of this new software service, which if funded, will be rolled into 2024 IT rates.

**Justification:** This transition will provide the following benefits to the county:

- Reduces current complexity and administrative overhead associated with managing hundreds of unique printer drivers
- Allows for delegation of print management and administration, providing NAGs or other technical staff the ability to manage their departments' print queues.
- Simplifies the assignment of printers and print queues and empowers users to map to printers and resolve printer issues.
- Eliminates the need for on-premises print servers thereby reducing reliance on NTLM authentication, which is an older and less secure technology.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Security: Email Threat Protection

**Package ID #:** 227

**Category:**

**Description:** This package represents the investment needed to enable more robust messaging and security for County email communications with an annual software subscription service. The Cloud Email Security Platform extends and enhances the email security capabilities of Microsoft Office 365. Over 70% of the vendor's current customers utilize Office 365 in the same manner as Snohomish County.

**Justification:** The Cloud Email Security Platform offers the following additional capabilities:

- Applies dynamic (changing) email banners based upon the nature of the email and the detected threat.
- Analyzes email links both upon delivery and again when accessed (clicked on) by the email recipient. When warranted, user is taken to a landing page that details the threat and prompts the user to intentionally click to bypass.
- Uses Machine Learning to detect email and account compromise.
- Analyzes communication patterns between senders and recipients using behavioral analytics and AI.
- Simplifies the process of identifying and remediating malicious emails which will reduce delays and the associated risks.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Innovation: Community Drone Mapping

**Package ID #:** 228

**Category:**

**Description:** This package details an investment in new software for the County to implement that provides a platform for communication with the public regarding use of Drones/Unmanned Aircraft Systems (UAS).

Airspacelink is an FAA-approved Low Altitude Authorization and Notification Capability (LAANC) Software as a Service system. The application is used to help agencies integrate drones safely into the national airspace. Airspace Link's FLYSAFE program, is an entry level program designed with "Safety First" in mind with the goal of jumpstarting communities in preparation for the increasing use of Unmanned Aircraft Systems (UAS) by the community.

Airspacelink's AirHub platform is a cloud-based, geospatial system used to meet the needs of state and local governments to prepare for, plan, build and manage their UAS community. The AirHub for Government platform can help communicate advisories (e.g., local notices and information) to the public and provide an interactive map for public and UAS pilot reference.

**Justification:** The rapid growth of the Unmanned Aircraft Systems (UAS) industry has outpaced the development of rules and systems to govern their use. The ability for citizens, businesses, and government agencies to know where they can safely fly or conduct complex flights in their communities are limited by fragmented datasets and non-existing systems and processes for managing local infrastructure, as well as land and airspace usage for UAS to ensure safety and compliance with policies and regulations. Airspacelink has partners with the FAA and State & Local Governments to deploy a unified cloud-based community UAS management platform allows for community engagement, safe operations of UAS, protecting citizens, and future-proofing the region for the continued growth of the UAS industry.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Reclass: Lead for Desktop Team (SA5)

**Package ID #:** 229

**Category:**

**Description:** In January 2021, a new strategic plan was released by the Information Technology department. A critical element of successful implementation of a strategy is to align leaders to strategies and align resources to support the strategy. After analyzing the organizational model following implementation of the new strategy, IT recognized that we needed to create a new division and realign resources to support the implementation of our strategies.

One key organizational change involved moving the Desktop Engineering team out from the Service Desk and into Enterprise Technology Services. This increased the Enterprise Technology Supervisor's number of direct reports to 16. In addition, the Desktop Engineering team lost their team lead who remained with the Service Desk.

The intent of this reclassification is to restore a team lead to the Desktop Engineering team and shift some of the day-to-day operational responsibilities from the Enterprise Technology Services Supervisor.

**Justification:** This will enable Enterprise Technology Services to improve service quality, increase customer satisfaction and continuously advance this service offering upon which county employees are reliant to effectively serve their constituents.

Key organizational changes directly inform this decision and request. The restructuring and move of the Desktop Engineering team out from the Service Desk and into Enterprise Technology Services, highlights a need for additional, qualified support for the Enterprise Technology Supervisor and staff.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   14 Information Technology

**Short Name:**   Reclass: Contract Specialist to Sr.

**Package ID #:**   230

**Category:**

**Description:**   This package represents the 2023 impact of reclassification of an existing Contract Specialist position to a Contract Specialist, Senior classification. IT expects to authorize a temporary upgrade for the affected employee no later than July 1, 2022 in order for the IT department to continue to experience success in managing contract workload with only one contract specialist FTE.

**Justification:**   The IT administrative services work group consists of 6.0 FTE reporting directly to the Business Operations and Support Manager. Historically, this work group had two contract specialist positions, one of which was a senior classification. In mid-2020, after the departure of several key personnel and the addition of a new manager to the team, the Information Technology (IT) administrative services work group had vacancies in both funded contract positions: Contract Specialist-DIS ("CS") and Contract Specialist, Senior - DIS ("CS-Senior").

To align resources with the strategic objectives of the department, Information Technology (IT) performed a comprehensive review of contract writing, negotiation, coordination and execution. Streamlining tasks and establishing repeatable processes became the focus for improvement, and IT set a course for changing the approach to contract management by the middle of 2020, saving over 1,200 hours of process waste through refining the approach. In August 2020, IT management decided to fill only one of the vacant FTE positions, seeing that new efficiencies might make the reduction a success, and by hiring at the lower of the two classifications (CS), understood that the new hire would take some time to build expertise and competency before producing work product at a "Senior" level (CS-Senior).

The difference in the two classifications is clear. The CS is responsible for coordination and preparation of contract documents pertaining to consultants, RFPs, Bids, Amendments, and Interlocal Agreements. They oversee the process and ensure tasks are completed by others in the contract process as required. The Senior position, CS-Senior, is responsible for coordination and preparation, and also drafting and maintaining master agreement templates, negotiating contracts, developing the procedures, acting as the IT liaison between departments (Risk, PA, Finance), leading groups of project team members, guiding and mentoring others at varying technical levels, and is the principal advocate within the County for the function.

The changes driving this reclassification have occurred gradually since 2021, with the manager still advising and guiding the CS as needed. With the experience, knowledge and capability demonstrated by the current employee, it is necessary to transition to a higher classification mid-2022, as the employee is capable of performing at the CS-Senior classification, and the IT department has a need for that level of work to be completed. By the beginning of March 2022 the CS had completed the final course in WA State Contract Management training, and has shown competency in all facets of the contract management work.

We consider this reclassification to be a savings to the County, not only in the efficiency of doing the same work with half the staff, but also in the improved contract timelines and being able to move projects forward even faster. For FY2023, IT represents the cost of this reclassification utilizing IT Fund 505 excess fund balance. The anticipated impact during 2023, considering step increases, is estimated at less than \$10,000 in total salary and benefits. If approved, the ongoing position costs will be included in IT's rate model for 2024 and beyond.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Reclass: System Admin Support 4 to BAD5

**Package ID #:** 231

**Category:**

**Description:** In September 2021, the Department of Information Technology underwent a department reorganization with the creation of the new Enterprise Data Management division as well as alignment of work groups to other divisions. David Jones's position of Systems Administrator Support 4 (SAS 4) is one of the positions that were affected by the reorganization and moved into the new division.

While David was working as a SAS 4 in his previous work group, he provided support and project work consistent with other SAS 4 staff on the team. In addition to this work, he also performs coding and design work for implementing enterprise applications solutions as well as project management and business consultations like other Business Application Developer 5 staff in the Applications division.

**Justification:** The OpenText solution for PDS initially required a project position for implementation support. After implementation the employee was hired into a permanent Systems Admin Support 4 (SAS 4) position to continue to provide support resources for OpenText and related applications. While other SAS 4 staff have provided support when needed, David Jones has continued to be the primary subject matter expert for the OpenText solution, as well as Highview, demonstrating skill in primary system support, development, analysis, as well as project management.

As the organizational model has shifted to align with the IT strategic plan and the SAS 4 position is more focused on support, design, and implementation of enterprise data management solutions, the tasks and work assigned to this position expand beyond the typical SAS 4 responsibilities. The reclassification of this position will appropriately reflect the very technical and complex design work that is required of this position.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: Sheriff Transfer Axon

**Package ID #:** 232

**Category:**

**Description:** This package is a partner package with Sheriff Package #290 transferring budget resources from General Fund 002 into DIS Fund 505 for ongoing body worn camera maintenance and support.

The 2022 Snohomish County Council approved budget provided \$750,000 to start a body worn camera program for the Sheriff's Office. The testing and RFP process has been completed and Axon has been selected as the approved vendor. The Sheriff's Office is in the final phase of developing the contract to start and maintain this program.

The contract cost for ongoing maintenance and support is \$393,200 per year on a seven-year contract. The cost for this application will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:** IT has the resources and expertise required to support and maintain the vendor support agreement.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: Sheriff Transfer GreyKey

**Package ID #:** 233

**Category:**

**Description:** This package is a partner package with Sheriff Package #291, transferring budget resources from General Fund 002 into DIS Fund 505 for ongoing software maintenance and support.

Greykey Software:

The Sheriff's Office Digital Forensic Unit is responsible for evaluating, analyzing, extracting, and documenting digital evidence located within smartphones, computers, and tablets. Technology is rapidly changing. Apple, Android, Samsung, and Google all make various devices which now have sophisticated encrypted locking systems making it virtually impossible for anyone to open unless that person knows the passcode. While this higher security is good for preventing criminals from accessing personal information, it has created a barrier for law enforcement to legally access electronic devices searching for evidence. If the Digital Forensic Unit is unable to access electronic devices, many felony cases will not be prosecuted, or prosecution will be greatly hampered due to our inability to access evidence located within the device.

The answer to this problem is the purchase of highly sophisticated software designed for law enforcement to enable detectives to unlock devices which are inaccessible without the software.

If this package is approved in the 2023 budget, the cost for this application will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:** IT has the resources and expertise required to support and maintain the vendor support agreement. Switching the support and maintenance agreement from Sheriff to IT will enable IT to work directly and more efficiently with the vendor.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: Sheriff Transfer Taser Axon

**Package ID #:** 235

**Category:**

**Description:** This package is a partner package with Sheriff Package #287, transferring budget resources from General Fund 002 into DIS Fund 505 for ongoing taser maintenance and support.

One of the most effective de-escalation tools available to all law enforcement nationwide is the Conducted Electrical Weapon (CEW), or Taser. This tool allows law enforcement to pause dangerous situations and thereby creating an opportunity for greater decision making and a lower-level use of force. The Snohomish County Sheriff's Office equips all road deputies with this critical less lethal tool.

The current count of Conducted Electrical Weapon (CEW), or Taser, in the Sheriff's Office is 259 units. These are all X26P platforms sold by Axon Enterprises. All the units purchased by the Sheriff's Office are warranted for five years through Axon Enterprises. The warranty and support for our current stock of Tasers will expire in 2022 and the end of life for the X26P platform will be sometime in 2023.

The replacement platform for the X26P offered by Axon Enterprises is the Taser 7 (T7). The current contract with Axon for the X26P Taser is \$94,000 annually and is negotiated under the same Master Agreement for services as Interview and Body worn camera systems. The replacement T7 Taser contract will be \$191,000 annually for the next five years.

This request is to cover the increased contract cost of \$97,000 and move funding to IT so they are able to seamlessly administer the Axon Master Agreement and provide contract, administrative and technical support. This will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:** IT has the resources and expertise required to support and maintain the vendor support agreement.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: PW Transfer Cartegraph

**Package ID #:** 237

**Category:**

**Description:** This package is a partner package with Public Works #400, DCNR-Surface Water Management #427, DCNR-Parks #434, and Airport #435 transferring departmental application support and maintenance into the IT rates for the Cartegraph contract.

This priority package includes \$18,500 of extra budget authority for IT to add Gold Support services to the Cartegraph contract.

**Justification:** IT has the resources and expertise required to support and maintain maintenance of Cartegraph technology vendor support agreements and centralization makes sense now that this software has become a County-wide enterprise solution.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Operations

**Package ID #:** 239

**Category:**

**Description:** Paine Field is a vital commercial service airport and industrial park serving the Puget Sound Region, with over 590 based aircraft, 70 commercial tenants and serving 1 million passengers annually (pre-pandemic). Major tenants include the Boeing Company, United Technologies, ATS, Propeller Airports, Alaska Airlines, Kenmore Air, Flying Heritage & Combat Armor Museum, Museum of Flight, Esterline/Korry Electronics, Collins Aerospace, Everett Community College, Edmonds College, Washington Aerospace Training & Research (WATR) Center, and many more. In addition to tenant revenues, Future of Flight Aviation Center & Boeing Tour in a regular year (pre-pandemic) attracts over 320,000 local, national and international visitors to the County. WSDOT's most recent Aviation Economic Impact Study reports Paine Field as having a total economic impact of \$59.9 billion annually. (WSDOT, 2020)

Airport revenues include hangar; industrial and commercial leases; landing and fuel fees; Passenger Facility Charges (PFC); and a long-term operating agreement with Boeing for use of the main runway. Airport revenues fund airfield operations, maintenance, fire rescue services, law enforcement, public safety programs, building repairs, debt service on loans and bonds, development requirements and operating costs. Budget drivers at the airport include maintenance and support of the airfield to FAA standards, existing buildings, roadways and utility systems and increasing the long-term revenue and asset base at the airport. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

The Future of Flight Aviation Center & Boeing Tour Facility (FoF) was seeded and developed by the airport as a Public Facility District (PFD) in 2005. FoF has grown to become one of Snohomish County's largest tourist attraction serving over 320,000 tourists and residents annually (pre-pandemic). The airport and Boeing partnered in late 2018 to update the facility through renovation and improved exhibit's while rebranding the new improved facility as Boeing's Future of Flight. Under new Boeing leadership the facility continues to innovate, educate, and challenge the youth of tomorrow on the current and future aviation industry. FoF has an economic impact on the local and state travel and tourism economy estimated at \$75 million (WA State Tourism). It brings tourists from around the world to Snohomish County for their first visit. The debt service for FoF is funded by lease revenue and state sales tax allocation (PFD funding) from the County. Boeing aircraft manufacturing facility tours have not resumed since pre-pandemic, but the airport is hopefully they may resume in 2023.

The airport maintains a conservative operating structure while maintaining both airside (aviation) and landside (industrial) capital infrastructure projects. The airport is responsible for not only airport owned buildings, but all roadways and sewer infrastructure improvements which are reflected in the 2023 budget. The main airport budget driver is the need to provide a safe environment for aviation and industry by meeting FAA requirements and standards. Over 50,000 jobs depend on the airfield. Boeing, ATS, the FAA and numerous industrial/commercial tenants have contractual agreements with the County for facilities and services provided by the airport. These contracts form legal requirements to maintain airport facilities to FAA and commercial/industrial standards.

The airport works closely with the FAA to provide safe aviation facilities that meet national standards, including regular inspections and audits. The FAA Airport Improvement Program (AIP) provides capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Operations

**Package ID #:** 239

**Category:**

funding for prioritized improvements to the airfield, but it does not provide any funds for operations and maintenance of the airport. The airport's 2023 capital plans are discussed in separate priority packages.

Operating revenues are projected at \$36.4M in 2023. The airport shall have a market rate appraisal complete in 2022 that updates all leases to fair market value over the next three (3) years, respective to each individual tenant's lease terms. The airport manages about 430 leases that all expire at various times and years which impacts revenues. All tenant changes and estimated revenue increases have been factored into the airport budget for fiscal year 2023 and thereafter.

Operating expenses are estimated at \$31.4M in 2023. This includes debt service at \$5.8M which is inclusive of both the Boeing DOC facility at \$2M, Future of Flight at \$1.5M, and other various smaller projects. The airport contributes \$4.45M in interfund transfers to the General Fund for services provided. Utilities and Storm Water Management (SWM) are budgeted at \$1.1M (partly funded by tenant utility revenues). The Airport Enterprise Fund is stable and financially self-sufficient.

The airport anticipates issuing \$16M in debt service. First bonded project is for \$6.5M to fund the acquisition of three (3) enclave parcels from the Federal Government which shall support future economic development of the Airport. The land acquisition which is contingent upon the property becoming available shall be financed using bonds with a twenty (20) year maturity date. The second bonded project is for \$9.5M to Reconstruct the Inner Terminal Ramp which shall be repaid using PFC funds and a ten (10) year maturity date. This bond may be paid off early as PFC funds increase.

Airfield capital projects are anticipated to be funded by FAA entitlement & discretionary grants at \$14.1M in 2023. The Airport Master Plan and Taxilane Echo Reconstruction are normally funded at 90%, but additional federal grant funds have been allocated this year with no local match required. All remaining projects such as the East Ramp Reconstruction and Runway 16R-34L Reconstruction shall be funded at 90%. All associated CIP projects shall only proceed once grant funds have been secured.

Airport user fees are starting to increase again due to the pandemic travel restrictions being terminated. This affects: Landing Fees, Fuel Flowage Fees, Concessionaire Shared Revenue, and overnight Aircraft Parking Fees which have been below normal since the pandemic began. It's unknown how long it may take for air travel to resume back to pre-pandemic levels; therefore, the airport continues to estimate these revenues conservatively. If air travel resumes quickly to pre-pandemic levels, then the Airport could receive an additional \$1M in revenues in 2023.

The airport is requesting two (2) additional Facility Technician IV's and upgrading a Record Technician from 0.5 FTE to full time (1.0 FTE) to meet required service levels and increased responsibilities. This airport is participating in the Supported Employment Program for individuals with developmental disabilities. This will be adding one (1.0) Office Assistant FTE.

In addition, the Airport has budgeted extra funds this year in Personnel Cost Contingency (DAC) to cover salary adjustments for step, merit, COLA, and potential market rate compensation adjustments. Various other minor adjustments are outlined in the priority package.

The airport continues to work hard to meet revenue goals and is proud to serve the aviation community of

**Category:**

Snohomish County.

**Justification:**

LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   21   Airport

**Short Name:**   Snohomish County Airport - FTE Requests

**Package ID #:**   240

**Category:**

**Description:**

Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Paine Field Airport Enterprise Fund is a growing lucrative enterprise that requires special considerations to meet increased demand for commercial and other aeronautical services. The airport requires several new FTEs to meet the increased demand and responsibilities.

This priority package total request includes two (2.0) additional Facility Technician IV's, upgrading a Record Technician from 0.5 FTE to 1.0 FTE and to meet required service levels and increased responsibilities.

This year the airport will be participating in the Supported Employment Program for individuals with developmental disabilities. This will be adding one (1.0) Office Assistant FTE.

The Airport has budgeted extra funds this year in Personnel Cost Contingency (DAC) to cover increased pay from step, merit, COLA, and potential compensation adjustments.

In addition, several FTE's have been reclassified due to housekeeping corrections. This includes new hires, promotions, transfers, and incorrect title corrections. A few corrections are modifying the titles to backfill the positions that were vacated due to a promotion or transfer. Please see associated comments next to individual reclasses.

**Justification:**

LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Machinery & Equipment

**Package ID #:** 241

**Category:** Large Equipment

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

In 2023, the airport has budgeted approximately \$555,000 for large machinery and equipment including: (1) bucket truck; (1) flatbed truck; (1) Airside Tractor; and three (3) maintenance vehicles as planned in our equipment replacement program. All equipment is funded locally through the Airport Enterprise Fund.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Bldg/Land Constr/Acquis

**Package ID #:** 242

**Category:** Building

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Commercial and industrial capital projects are tied to existing or future tenant demand and future revenue sources along with availability of construction debt-service funding. A total of \$14.3M is budgeted for, but not limited to, the following projects: t-hangar renovations, Building C-3 HVAC replacement, Hangar C-11 & Bomarc Lot 3 building roof rehabilitation, renovation of the new airport administration building, demolition of old (C-23) Tect facility, renovation of Air National Guard facility; and miscellaneous additional repairs for the airport's aging infrastructure. The land & buildings acquisition is bond funded at an estimated \$6.5M which shall acquire the Air National Guard's enclave properties on the southeast side of the airport. All other projects are funded locally through the Airport Enterprise Fund.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Other Improvements

**Package ID #:** 243

**Category:** Other Improvements

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Capital improvement projects consist of airside and landside projects that maintain targeted safety standards for airport Infrastructure. Airside projects consist of, but not limited to, runways, ramps and taxiways while landside projects consist of roadways, stormwater, sewer, security and other infrastructure. Various infrastructure projects are budgeted at \$2.2M in 2023 and being funded entirely by the Airport Enterprise Fund.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Grant Funded Projects

**Package ID #:** 244

**Category:** Aviation

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Certain airfield capital improvements are eligible, but not guaranteed, for 90% grant funding by the Federal Aviation Administration (FAA). FAA grants are prioritized by type and are highly competitive. Airfield projects are funded only if they meet FAA guidelines and rank high on the national priority list. FAA Grant Funding is listed in revenues. Grant funded construction projects are started only after the grant funding has been approved.

In 2023, the Airport Capital Improvement Program (ACIP) includes \$2.6M for the Airport Master Plan (AMP); \$5.8M for Reconstruction of Taxilane Echo; \$5.5M for East Ramp Reconstruction and approximately \$250,000 for the initial planning and design phase to Reconstruct Runway 16R-34L. All projects are funded at 90% except the AMP and Reconstruction of Taxilane Echo which are funded at 100%, meaning no local match funds required. The AMP is already underway and will provide new direction for all future capital projects providing a five (5), ten (10), and twenty (20) year projection for all future construction at the airport. Reconstruction of Taxilane Echo is required due to aging infrastructure that is at the end of its useful life. The Reconstruct Runway 16R-34L, Phase I is a multi-year project that is funded entirely from the Airport Enterprise Fund at approximately \$250,000. The airport shall seek FAA Grant funding for all future phases. In total, the airport is receiving just over \$13.1M in grant funding for 2023.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - PFC Projects

**Package ID #:** 245

**Category:** Aviation

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Paine Field's Passenger Facility Charges (PFC) Program started in November 2020, receives \$4.50 per enplaned passenger. PFC Funds are restricted to be spent on FAA-approved projects that enhance safety, security, or capacity; reduce noise; or increase air carrier competition (FAA). The airport's first PFC funded project is funded at \$950,000 to acquire snow removal equipment to handle the increased frequency of runway clearing from our newly established commercial passenger service. The second project is anticipated to begin construction in 2023 for an Inner Terminal Ramp at a cost of \$9.5M which shall be funded through bonds and repaid using PFC funds. PFC bonds shall have a loan maturity date of ten (10) years with the option for early payoff as additional funds become available. PFC program in total is funded at \$10.45M in 2023.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). ## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 32 Office of Public Defense

**Short Name:** IT Software package for OPD

**Package ID #:** 247

**Category:**

**Description:** This package will allow the Office of Public Defense to continue the RFP process for a data management software system. In 2019, Council approved \$45,800 in the 2020 budget for a case management system for OPD. OPD is still going through the RFP process with Snohomish County IT and not likely to execute a contract with a potential vendor until 2023. The money for the project was not expended in 2022 and OPD requests that the \$45,800 roll over to its 2023 budget.

**Justification:** Caseload management software will assist OPD in keeping track of caseload assignments, workload, and allow for proper supervision of conflict panel attorneys in compliance with the Washington State Bar Association Indigent Defense Standards and Wilbur v. City of Mount Vernon and City of Burlington, 989 F. Supp. 2d 1122, 1126 (2013).

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Social worker - Involuntary Treatment Act

**Package ID #:** 248

**Category:**

**Description:** The current absence of social workers available for patients involuntarily committed in hospitals has led to avoidable delays in discharge for many of patients. When patients are finally discharged, they often leave with no additional support to help them transition back into the community and/or maintain their stability. Often, they discharge to the same situation they were in originally, or sometimes worse when hospitalization has impacted finances, housing, connections in the community, etc.

While attorneys play an integral role in the protection of rights and due process, they do not have the same skillset that social workers do when it comes to mining resources and networking to find creative solutions to discharge planning and support in the community, especially with the current dearth of BH outpatient resources and the ravages of the Covid-19 pandemic on the BH system as a whole. Further, unlike lawyers, social workers are unable to testify to any less restrictive alternatives that may be available; a defense social worker could testify and make a record to alternatives to detention. Devoted social worker resources are essential as ITA caseloads have increased. In 2017, SCPDA received 1133 petitions for detention. By 2021, that number increased to 1562 with the opening of a new medical detention facility in the county.

In sum, an ITA Social worker would enhance our work in the following ways:

- Decrease the length of hospitalization
- Build support structures for clients upon discharge
- Help clients apply for social security, housing vouchers and assistance, healthcare, transportation, medication management, in-home care, assistance with legal financial obligations and complying with Court cases,
- Addressing needs of marginalized clients directly with targeted training in cultural competency, trauma response,

The cost of an ITA social worker is \$136,338 for 2023.

**Justification:** RCW 71.05 seeks to “prevent inappropriate, indefinite commitment of persons living with behavioral health disorders and to eliminate legal disabilities that arise from such commitment” and further “to provide continuity of care for persons with serious behavioral health disorders.” ITA Attorney Performance Guidelines 11 and 12. The goal then is to minimize the negative impacts from involuntary treatment while maximizing the long-term stability for people through less restrictive alternatives that keep them stable in the community so that hospitalization is not needed in the future. Social Workers, trained experts in developing less restrictive strategies, are an integral part of this process.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   32   Office of Public Defense

**Short Name:**   Conflict panel

**Package ID #:**   252

**Category:**

**Description:**   OPD has had difficulty recruiting and retaining qualified defense lawyers for the Conflict Panel because Snohomish County OPD rates are significantly less than the market rate and the rate of other neighboring Washington counties.   OPD is required to appoint counsel when the Snohomish County Public Defender Association (SCPDA), the County's chief public defense contractor, cannot accept a criminal case assignment. OPD traditionally has a list of attorneys with whom we contract to accept the cases that SCPDA cannot.

WSBA Indigent Defense Standard No 1 provides that "[f]or assigned counsel, reasonable compensation should be provided. Compensation should reflect the time and labor required to be spent by the attorney and the degree of professional experience demanded by the case." Snohomish County uses a flat-fee model for compensation. This model does not consider the amount of work done by the lawyers; when a case is complex or lengthy the assigned lawyer often loses money on the case. For example, OPD pays a lawyer the same flat rate regardless of the work entailed, the number of charges filed, the number of hours worked, or how long the case takes to resolve. Our inability to take into consideration the resource needs of appointed counsel results a failure to retain qualified lawyers. Lawyers often refuse to take cases because they can make more money in other jurisdictions, or because they would actually lose money by taking a County case. OPD often is forced to agree to pay an hourly rate for Class A and complex cases, or when the full panel is at caseload limits. When this occurs, the hourly compensation is significantly below the market rate and less than neighboring counties.

OPD's current panel is not sufficient to cover the current volume of cases. Currently, all qualified OPD conflict lawyers have refused multiple cases this year because they do not have capacity. If there were to be any increase in case filings or additional reductions in the availability of panel lawyers, OPD will not be able to meet the demand in filed cases. When OPD cannot assign a case to one of our panel contractors, we are still constitutionally required to find counsel. Failure to provide constitutionally required counsel puts the County at risk of a lawsuit like the ones that occurred in Grant and Skagit counties. When OPD cannot use its panel of contracted lawyers to new cases, we are forced to pay an hourly rate to the lawyer who does have capacity, often at increased expense. Currently, because of volume of violent cases and how long the cases stay open, OPD is already paying hourly on most of its Class A cases which require specialized qualifications.

OPD proposes to pay all conflict lawyers an hourly rate that is competitive enough to recruit and retain qualified lawyers. OPD has gathered data and consulted with the State Office of Public Defense, King County Department of Public Defense, and local experts on public defense caseloads. The average hourly market rate for criminal defense is, at the low end, \$350/hour. The City of Edmonds pays \$125/hour for legal representation in misdemeanor defenses. The Snohomish County Superior Court pays \$115/hour and \$125 hour for legal representation in non-criminal guardianship matters. King County pays \$150/hour for representation on Class A and B felonies in addition to an annual \$20,000 administrative fee. The Western District of Washington pays criminal defense lawyers a minimum of \$156/hour. OPD proposes an hourly compensation rate that is competitive with other local jurisdictions so we can recruit and retain qualified counsel to represent the current demand for representation.

OPD has calculated the average number of cases per type (Murder, Class A, B, and C felonies) and the average number of cases per case type based on available local and national data. OPD proposes a rate per case type which is competitive with Superior Court rates, though less than King County's rate. OPD proposes an hourly compensation of \$150/hour for murder and Class A felonies, \$125/hour for Class B cases, and \$115 for Class

**Short Name:**   Conflict panel

**Package ID #:**   252

**Category:**

C cases.

OPD proposes to use the State Office of Public Defense Improvement Fund to offset these changes.  
The projected additional cost beyond the 2023 OPD base is \$643,470.00.

**Justification:**

The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is “effective assistance of counsel.” State standards codified by reference in S.C.C. 2.09 establish the measurements.  
OPD is requesting funding to pay Conflict Panel Attorneys an hourly rate. The goal is to retain attorneys and ensure they are compensated at a fair market rate, lessening the number of cases declined due to inadequate compensation.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 32 Office of Public Defense

**Short Name:** RCW 7.105.240 Civil No Contact Orders

**Package ID #:** 253

**Category:**

**Description:** With the passage of RCW 7.105.240 in 2021, individuals seeking no contact orders are able to receive counsel at public expense. OPD seeks \$92,575.00 to compensate counsel for this work. OPD has worked with Superior and District Court to identify the volume of cases and the expected costs for representation. OPD will administer this program, including recruiting, contracting, and billing for appointed lawyers. This package reflects the amount needed to cover the expected costs of this representation in 2023.

With the passage of RCW 7.105.240, judges may now appoint attorneys to represent petitioners in no contact order cases when the respondent is also represented. Snohomish County courts receive approximately 1589 no contact order cases per year. Of those, we estimate that approximately 161 cases would qualify for the appointment of counsel for the petitioner. OPD assumes an hourly rate of \$115/hour, which is equally to the similar legal representation in family law cases where the statutory right to counsel attaches. OPD seeks \$92,575.00 to compensate counsel for this work.

**Justification:** RCW 7.105.240 takes effect on July 1, 2022 allowing judges to appoint counsel to people seeking no contact orders when the opposing party is represented by a lawyer. People seeking no contact orders are often the victims of domestic violence, sexual assault, and other forms of harassment or stalking. Many are indigent and unable to afford counsel. This package provides counsel and due process for many people seeking civil no contact orders.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 32 Office of Public Defense

**Short Name:** PDA Civil Contempt lawyer

**Package ID #:** 254

**Category:**

**Description:** SCPDA started providing services in this area starting in 2016 and in 2021 contracted to be appointed to private contempt matters. The recommendation from the Washington Defender Association is that a “full-time attorney practicing in the Contempt of court area should have no more than 125 open files (75 new cases and 50 ongoing cases)” per year. Contempt filings were down during COVID and are expected to increase as Courts continue to accommodate additional capacity.

As of June 2022, SCPDA has 146 open cases and 118 on-going cases. The way the court calendars are structured, there are often two to four prosecutors in court. Most of the business conducted at court is off the record between the parties. Having two prosecutors trying to accomplish their work paired with a single public defender has proven to be unmanageable. Each prosecutor must speak to the defense attorney who then must speak to the client only to return to the prosecutors individually to negotiate a settlement. This results in hours-long court hearings where everyone but the defense attorney is waiting for the defense attorney to complete all contract reviews. In the interest of being a good stakeholder, this rotation requires at least two attorneys at regular Contempt calendars

The workflow of Contempt also requires diligent client communication and filing proof of payments, job searches, medical conditions, and other court ordered conditions between court hearings. This workflow is much more involved for the attorney and the administrative support than other positions. The sheer number of documents filed with the court and prosecuting attorney’s office each week is more than other workloads. The workflow of the private contempt cases further complicates processes and scheduling. Those cases are urgent and need immediate attention and capacity to be responsive to the contempt action and serve the client. Adding an additional attorney position and dedicated staff will reduce the time these cases are open, reduce court appearances and the length of court appearance. More importantly, with additional FTE, staff can work with clients outside the courtroom to address the underlying issues causing them to be in contempt.

While staffing at the Prosecutor’s Office Family Support Unit is funded wholly by a grant from the Washington State Division of Child Support, the defense of these cases is left to the counties. SCPDA is requesting an additional one (1) full-time attorney and half-time (.5 FTE) Legal Secretary to support the workload in Contempt. The cost is \$157,544 for 2023.

**Justification:** WSBA Indigent Defense Standard Three: “The caseload of public defender attorneys shall allow each lawyer to give each client the time and effort necessary to ensure effective representation. As used in this Standard, ‘quality representation’ is intended to describe the minimum level of attention, care and skill that Washington citizens would expect of their state’s criminal justice system.”

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Social worker - District court and Juvenile court

**Package ID #:** 255

**Category:**

**Description:** Justice-involved juveniles need a dedicated social worker to attend to the needs of those facing loss of liberty due to criminal and civil laws. Social work services are currently unmet in juvenile court due to a lack of social work resources which are funneled to the more serious adult felonies.

The community resource needs for youth are extensive and elusive: housing, food security, education, transportation, health care, and access to reliable cellular and internet services. The majority of justice-involved youth have suffered multiple traumas and adverse experiences. The social worker needs are high. For example, an attorney spent two hours helping a youth change their medical insurance to be accepted at in-patient chemical dependency treatment. This work was vital for the youth to have access to services. It facilitated resolution of the criminal case as well as met the basic wellness needs of this child. By completing the in-patient treatment program, the youth was able to advocate to close his probation term. But instead of a social worker, SCPDA used a more expensive and less informed lawyer to meet these needs.

Youth involved in the At-Risk Youth (ARY)/Children in Need of Services (CHINS) and Truancy system face unmet needs for services due to complex mental health acute mental health issues as well as housing instability. Social workers can assist in connecting youth with the needed services. For example, CHINS petitions often include youth and families who are DCYF involved. DCYF refers families to Family Voluntary Services, but the parents have to consent to participate. Parents who may have drug addiction problems or have abusive patterns decline to participate. When a parent declines Family Voluntary Services and a youth indicates their home environment remain unsafe, DCYF social workers are telling the youth they can file a CHINS petition, essentially punting the case to the CHINS system rather than dependency system. The dependency system would offer much more robust social services, such as counseling, housing, and supervised visits. CHINS is solely on the youth and the public defender. CHINS petitions need social worker services to develop and advocate for safe plan. Otherwise, it is the youth versus the parent in court; the court is often deferential to the parents' assertions and discount the youth's residential plan. A social worker, working with the defense team, would assist crafting credible plans to be considered by the parent and the court in resolving the matter

In 2022, SCPDA public defenders have recorded 719 FTC hearings in Snohomish County District Court between January 1 and April 30. The misdemeanor workloads have increased in serious level due to the Prosecutor's Office Charging Standards and Dispositions. The majority of cases are Driving Under the Influence (DUI) or Domestic Violence (DV) cases.

Defendants face and serve more jail time from FTC hearings than the initial jail term. Most violations focus on allegations of failure to accomplish court ordered treatment or other affirmative conduct. Social services and counseling resources are fewer now than in years past. The defendants need the assistance of a Social Worker to assist in satisfying the conditions of their sentences and staying out of jail. Social worker tasks should be delegated to these roles: gather signed releases of information, request client medical and treatment information, and assist in removal of barriers to social services.

The cost of a social worker is \$136,338 for 2023.

**Justification:** Indigent Defense Standard Seven: Social work staff should be available to assist in developing release, treatment, and dispositional alternatives.

**Description:** OPD is required to make expert witnesses available to defendants and respondents in adult criminal misdemeanors, adult criminal felonies, juvenile misdemeanors and felonies, petitioners detained by order of a not guilty by reason of insanity verdict, minor guardianships, and vulnerable adult guardianship. OPD is requesting \$120,000 to the Fund 124 Expert Services DAC to cover the additional costs to expert services. OPD has seen an increase in the total number of expert requests and increased requested compensation amounts for experts working with clients with mental health and substance use conditions. These experts include medical and psychiatric professionals, social workers, mitigation experts, and others. The current allocated amount budgeted for this service is not sufficient to cover the expected costs. Since COVID, the costs for professional services have increased. The hourly rates for experts who provide evaluations of mental competency to stand trial, neuropsychology experts, and experts who diagnose and treat substance use disorder have increased. OPD has also seen an increase in the number of requests for expert services. The partial cause for the increase is the length of time a case stays open during COVID, but also includes changes in caselaw that require OPD to pay for mitigation experts in any case where the defendant is under 25 and tried in adult court. Delays in admitting people to the State psychiatric hospital have resulted in the increased use of mental health professionals to assess defendants and make recommendations for release. The projected additional cost beyond the 2023 base is \$ \$120,000 in Fund 124. OPD is requesting an additional \$120,000 to cover the expected increase in expert services costs.

**Justification:** The Sixth Amendment right to effective assistance of counsel includes expert assistance necessary to an adequate defense. See Ake v. Oklahoma, 470 U.S. 68, 72, 105 S.Ct. 1087, 84 L.Ed.2d 53 (1985). Washington discharges its obligation to provide indigent criminal defendants necessary expert assistance under CrR 3.1(f). See State v. Kelly, 102 Wash.2d 188, 201, 685 P.2d 564 (1984) (holding CrR 3.1(f)(1) “incorporates constitutional requirements”). Under CrR 3.1(f)(1), “a defendant is entitled to the appointment of experts if financially unable to obtain them and if the services are necessary to the defense.” State v. Hoffman, 116 Wash.2d 51, 90, 804 P.2d 577 (1991).

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 100 - Community Impact Neutral

**Package ID #:** 261

**Category:**

**Description:** This package modifies revenue and related expenditure budgets for direct-award community impact funds from area Tribal Nations. This program is budget neutral; anticipated revenues and expenditures are equal for 2023 at \$257,987.

NOTE: The Sheriff's Office is requesting the continuation of 2.0 Crime Analyst project positions utilizing special revenue. There is a partner package #276 which creates two FTE Crime Analyst in the general fund. If package #276 is adopted, the two Crime Analyst positions in fund 100 would need to be removed (SHR4340P & SHR4341P). The remaining program expenditures could stay in fund 100 and we will utilize remaining grant funds to pay for expenditures related to the Crime Analysts until funding ran out.

**Justification:** Since 2006, the Sheriff's Office has received annual awards of funding from The Tulalip Tribes and Stillaguamish Tribes, under their community impact programs. When awards are received, we take time to consider the best use of the limited funds. From 2008 through 2013, funds were used to fund a Director of Community Partnerships position. Reduced funding levels have restricted our use of funds, and types of expenditures since 2014. In 2016 we began investing in crime and data analysis services to bolster efficient deployment of patrol resources through data-driven policing.

The budgeted amounts in these programs cannot be increased or decreased without first amending the agreements upon which the programs have been built.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 142 - Task Force Neutral

**Package ID #:** 263

**Category:**

**Description:** This package is budget neutral and reflects a portion of the operating costs of the Snohomish Regional Drug Task Force (SRDTF). Just as the SRDTF is comprised of many different agencies contributing resources, this fund has many different funding sources. The majority of the revenue in the Drug Buy Fund 142 comes from civil asset forfeitures and all proceeds must be expended on narcotics enforcement.

**Justification:** Under the supervision of a Task Force Commander, assigned local law enforcement personnel will investigate mid and upper level drug traffickers, both individuals and organizations, who operate within the state of Washington and specifically, Snohomish County. A board governs the Task Force, comprised of one representative from each participating agency that contributes at least one full-time employee to the Task Force. The day-to-day operations are supervised by the Commander through two Lieutenants and two Sergeants.

All participating jurisdictions are encouraged to assign manpower when their staffing levels allow for dedicating an officer to the SRDTF. When any of the agencies have a significant drug problem in their jurisdiction that they are unable to deal with effectively they request assistance from the SRDTF. When the Task Force assists in these cases, patrol support is provided by the agency in need.

While different agencies fund the salary and benefits of contributed FTEs, other operational and equipment costs are borne by the SRDTF. Several different grants (See Grant Work Plan) contribute funding to pay for overtime, maintenance of the SRDTF facilities, and some of the operational costs incurred for training, supplies, and equipment. The Task Force Fund 142 provides for the expenditures not covered by grant revenue such as vehicles and maintenance, office and investigative supplies, training, professional legal services, confidential funds and internal County services.

### SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 141 - Helicopter Neutral

**Package ID #:** 264

**Category:**

**Description:** This fund is used to repair the Sheriff's helicopters when needed. The funding source is Federal Revenue Sharing money distributed to Snohomish County by virtue of the Secure Rural Schools and Community Self-Determination Act of 2000. The Snohomish County Council has elected to use Title III funds from this source to repair and upgrade the Sheriff's helicopters which are used primarily for his statutorily required duty to provide search and rescue services. Federal funding continues to be unreliable, leaving little in addition to residual fund balance to supplement operations.

**Justification:** This fund has long been the chief source of funding for repairing the Sheriff's Office helicopters which are used primarily for search and rescue needs. Our Air Operations Unit contributes directly to a feeling of safety where people play. They often play and occasionally get lost or injured in the mountains and these helicopters are our fastest and most efficient method of search and rescue. The SCSO Air Operations program accomplishes a great deal for the county and the region by greatly leveraging the allocated funds. Repair, maintenance and fuel costs continue to rise while our budget over the past few years has not. There is no ER&R fund to cover the repair and maintenance costs of the helicopters. A separate, partner priority package #270 accompanies this one, and requests ongoing general fund support that will allow our Helicopter program to continue.

A County ordinance requires that this fund be used for operations of the Sheriff's helicopters as needed. The federal act cited above applies as well as to appropriate uses of these federal dollars.

A separate, partner priority package #270 accompanies this one, and requests ongoing general fund support that will allow our Helicopter program to continue.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 194 - Boating Safety Neutral

**Package ID #:** 266

**Category:**

**Description:** This package includes budgeted amounts for the revenue and related expenditures of vessel registration fees distributed to the County for approved boating safety programs. This program is budget neutral; anticipated revenues and expenditures are equal for 2023 at \$145,056.

**Justification:** The Boating Safety Fund is dedicated by RCW 88.02 to the enhancement of boating safety in Washington State waters. The State collects revenue from boat registrations distributes funds to counties that have approved boating safety programs. The counties in turn must, by interlocal agreement, distribute some of the proceeds to municipalities that also have boating safety programs. In Snohomish County, the cities of Everett and Lake Stevens have such programs.

Boating revenue funds are used to pay primarily overtime of deputies assigned to boating safety duties during the boating season. Some funds are used for supplies and repairs of the Sheriff's Office boats. No Sheriff's personnel are assigned full-time to marine law enforcement; rather it is an ancillary duty.

LEGAL/CONTRACTUAL REQUIRMENT: These funds are made available for a specific purpose and the way they are handled is the subject of Washington Administrative Code 352-65-040 (10). The funds are to be used for education and enforcements in boating safety. Supplanting of these funds is prohibited by law.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 513 - Security Services Technical Adjustments

**Package ID #:** 267

**Category:**

**Description:** Snohomish County Code Chapter 2.38 assigns responsibility to the sheriff for planning, coordination, and provision of security services for county facilities subject to oversight by a county facility security committee composed of county officials representing the executive, legislative, and judicial branches of county government.

The Security Services internal service fund receives contributions from all County Departments and Offices. The level of service received by those departments is varied, and allocation of annual rates is based upon factors that represent those differences.

The cost of providing campus security by the Marshall FTEs and security services contractors is allocated by the total square feet of departments receiving security services, but only in the buildings that are monitored.

The cost of administration of the program is allocated by a department's FTE count. Currently, admin costs consist of one supervisor to provide general coordination of all services and one security support specialist to provide keyless entry services.

For 2023:

The Campus and Courthouse Security Unit needs additional staff to be successful in the ongoing mission to keep our county employees and patrons safe while supporting the ongoing court operations at all our court locations. This package includes a request for six months of salary/benefits for 2 additional Security Marshals and 1 Lead Marshal. We propose funding these positions with available fund balance for 2023.

**Justification:** An increase in the number of Marshal FTEs is needed to accommodate the additional staffing load created by the addition of the District Courts to Marshal duties. Additional staffing is also needed to accommodate the additional work that will be created by the two new Snohomish County Superior Court Judges who will begin operations in July 2022.

In 2021 the overtime budget for Courthouse and Campus Security was \$56,170. Overtime expenditure for 2021 was \$127,393.61 (226.8%). That level of expenditure was needed to maintain minimum required staffing at the County Campus, DJJC, and the three outlying District Courts. All overtime at any court must be filled by Sheriff's Office commissioned staff at more than double the cost of a Security Marshal. Due to vacancies and staffing shortages, in the first five months of 2022 alone Campus Security has expended \$118,275 (210%) of the allocated \$56,170 in overtime funds. This is not simply a cost issue as it places an additional burden on the already overtaxed staffing of the Sheriff's Office.

Lead Security Marshal:

The Campus Security unit currently consists of nine marshals and one security specialist assigned at five dispersed work locations. Each of these positions needs the ongoing support, coaching, mentoring, and oversight from a supervisor. Unfortunately, there is only a single supervisor for these ten employees. Due to the dispersed nature of the work locations, it takes more than two hours of drive time alone to visit each of the four outlying courts. The result is reduced access to the in-person supervision and leadership needed by our employees. This leads to a reduction in overall job satisfaction for our employees and a rise in personnel

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package ID #:** 267

**Category:**

complaints. Between the administrative tasks required to run the unit and the travel times necessary to visit the outlying courts, a marshal may have no meaningful contact with their supervisor for days or even weeks at a time. Further, the sergeant's ability to engage with our stakeholders at the County Campus and District Courts is greatly diminished by the excessive span of control they are expected to maintain.

The Lead Marshal will be a full-time supervisor. They will assist the Sergeant with daily management and supervision tasks while also giving the Marshals another resource to engage when direction is needed. The Lead Marshal will be assigned to the main courthouse which will also allow the Sergeant more time to interact with contractors, employees, and stakeholders at the District Courts. When not needed for specific supervisory tasks, the Lead Marshal will be available as staffing to fulfill the basic staffing needs of the unit thereby reducing overtime incurred by the security unit on an ongoing basis. The Campus Security Unit is one of our most public facing work groups. The presence of an additional supervisor will increase the unit's accountability, transparency, and responsiveness to those that work at and visit our County Campus in direct support of increasing public trust.

The creation of the Lead Marshal classification (ASCFME Marshal 239) is already under way with Snohomish County HR in anticipation of this position being authorized.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Conservation Futures Forester

**Package ID #:** 269

**Category:**

**Description:** Establishment of a Forester position/program within the Department of Conservation and Natural Resources to provide active management of Conservation Futures acquired forest stands for the purposes of improved wildlife habitat, forest health, carbon sequestration and fire resilience. This program will address the County priorities of natural resource stewardship and healthy forests.

Since 1988 the Snohomish County Conservation Futures program has helped to preserve over 8,000 acres of land within Snohomish County. Of this, a significant portion includes forest areas and have been held with minimal, if any, active management of the tree stands. Forests are recognized to provide important recreational opportunities, but also are an important part of the County ecosystem by improving air quality, providing wildlife habitat, filtering water and sequestering carbon. Active management of these stands can enhance these values by reducing invasive species competition, thinning of overly dense stands to promote tree health and dense understory, planting to encourage diversity and removal of diseased plants. All these practices will promote forest health and also reduce wildfire risks and large-scale die off from disease, as is being seen in some areas.

The proposed program will include one Conservation Futures funded Forester as well as support infrastructure (i.e. vehicle, equipment, ½ time wcc (or other) crew and overhead). Snohomish County does not currently have a Forester job description, so one will be developed based upon similar positions staffed within King County and the Washington State Department of Natural Resources. This person will be responsible for evaluating stands, developing management plans, completing on-the-ground work with a crew and individually, contracting for services, applying for and managing grants, developing outreach materials and responding to inquiries from other jurisdictions related to their Conservation Futures funded forest properties. The level of responsibility for this position is expected to be comparable to SWM's Principal Watershed Steward (Pay Grade 243).

**Justification:** Natural resources stewardship is a priority for Snohomish County and there has been increased attention in recent years to forest preservation and management. Large scale wildfires and extensive areas of die off are concerns as well as missed opportunities to preserve and manage these stands for greater carbon sequestration, wildlife benefit and resilience in the face of climate change.

Strategic management of forests requires specialized knowledge and although DCNR has strong partnerships with the Snohomish Conservation District, Washington State University, and the Department of Natural Resources, Foresters from those organizations are unable to address the system-wide need that has been identified related to forests on Conservation Futures funded properties. These partners are a valuable resource however and will help inform the desired skills that DCNR should seek for this position as well as provide a professional network to coordinate regional management approaches.

Funding for this program is proposed to be provided through the Conservation Futures fund. RCW 84.34.240(2)(b) allows the County to use up to twenty-five percent of collected revenues for operation and maintenance of property which was acquired under the program. In January of 2022, Snohomish County Code was modified to increase the amount of the fund that could be used for these purposes from 15% to the amount allowed by state law. This has resulted in extra funding that can be used for enhanced stewardship. Funding for the Conservation Futures Forestry program is proposed to be provided from this increase in available funding.

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Conservation Futures Forester

**Package ID #:** 269

**Category:**

Active forest management based upon implementation of developed management plans is expected to include some level of timber harvesting in order to promote forest health and provide opportunities for replanting for stand diversity and understory vegetation. Marketable timber may be removed as part of this process, which could be sold to generate revenue to support the program. King County currently takes this approach with management of their forest stands but noted that revenue has not been enough to offset the costs of their forestry program in-full. Any revenue from timber sales are not therefore proposed to fund the proposed program, but instead to be put back into the Conservation Futures account to support additional acquisitions through the program.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Helicopter - Air Operations

**Package ID #:** 270

**Category:**

**Description:** This package is a request for \$165,000 in the Sheriff's Office 2023 Law Enforcement general fund budget to replace Title III Federal funds and maintain our Air Operations program at current service levels. This is an ongoing request made each year to our budget.

**Justification:** The SCSO Air Operations program accomplishes a great deal for the county and the region by greatly leveraging the allocated funds. Repair, maintenance and fuel costs continue to rise while our budget over the past few years has not. We estimate that we require a operating budget of \$225,000. There is no ER&R fund to cover the repair and maintenance costs of the helicopters. We are using fund balance in F141 under a separate package (#264) in the amount of \$60,000, leaving \$165,000 to be funded by the general fund. The \$165,000 general fund request is a restore of \$60,000 in fuel and \$105,000 in repair/maintenance which was included in the Sheriff's Office 2021 adopted budget, but eliminated in our 2022 and 2023 Proforma budgets.

SCSO reduces the cost of operations by using trained Volunteer aircrew members on a regular basis. The Chief Pilot is a FAA qualified Certified Flight Instructor (CFI) and FAA Night Vision Goggle CFI. These qualifications allow SCSO to conduct nearly all training in-house at no added expense to the county.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks Ranger Staffing

**Package ID #:** 271

**Category:**

**Description:** Snohomish County Rangers are the front-line “face” of Snohomish County Parks. They provide customer service, educational outreach, ensure park safety and security, open and close parks, provide general maintenance, campground management, collect fees, address homeless encampments and also provide law enforcement services. Snohomish County Rangers are much beloved by the public and regular park users often personally know the Rangers who steward specific parks.

Over the past twenty years, Ranger staffing has stayed essentially static with 17.75 FTEs in 2003 compared to 18 in 2022. This is at the same time that Snohomish County population has increased 20% (from 306,779 in 2003 to 371,300 in 2022) and the number of parks in Snohomish County’s system has increased from 96 to 114. In this time additionally the following parks and facilities have been opened to public use and operational management: Willis D. Tucker, Whitehorse Park (ballfields and recent campground), Lake Goodwin, Wenberg, Tambark Creek, Miner’s Corner, River Meadows Yurt Village, 10 new campsites at Flowing Lake, Heybrook Ridge, Paradise Valley Conservation Area, Lake Stickney, Lake Stevens, Cavalero, Martha Lake Airport, 8 miles of Centennial Trail and 21.5 miles of Whitehorse Trail, and Carousel Ranch and Corcoran parks are preparing for opening in 2023/2022.

Overall, the resulting reduced level of service of staffing to number of parks/facilities and members of the public has necessitated that Rangers focus on core services (in particular safety and law enforcement) while minimizing time allocated to customer service (e.g. volunteer support, educational programs, switching over rentals and restroom cleaning). Further, reduced staffing has created a culture of responding to issues as opposed to proactive management, which could be used to alleviate the number of issues reported.

This priority package includes three additional Ranger positions to provide improved customer service within Snohomish County Parks. The three Ranger positions will allow staff to more proactively address issues (e.g. trail maintenance), support visitor experience (e.g. though educational programs, volunteer support and additional interactions with the public) and provide more pro-active management of Snohomish County park spaces. This package support the County priorities of: being easy to work with, providing efficient and quality service and stewardship of our natural resources.

**Justification:** Over the last twenty years, the Snohomish County Parks system has grown by 18 new park properties and 15 new/expanded park facilities. At the same time the public served by Snohomish County facilities has increased by approximately 20%, all without an increase in Ranger staffing to serve the public, which has resulted in a reduced level of service. This reduced level of service has necessitated that the Ranger group focus on the priorities of public safety, keeping parks open and responding to complaints to the best of their ability. This approach misses many opportunities to build positive relationships with the public through educational programs, volunteer support and more proactive operational management.

The requested positions are important for providing customer service to Snohomish County residents, taking advantage of the opportunity to provide positive interactions between park visitors and Snohomish County staff and also providing opportunities for Ranger staff to address issues before they become problems. Lastly, additional Ranger staffing is expected to help with retention as it will allow staff the opportunity to provide services that were part of their decision to enter into a career as a Ranger.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Fund 002 - Sheriff 030 Adjustments to Base

**Package ID #:** 273

**Category:**

**Description:** This package represents adjustments to our proforma base budget for changes anticipated to drive costs in 2023 as well as some housekeeping items.

**Justification:** \$36,312 Debt Services (requested by Budget Office)

Ghost Positions: Removal of 10.0 FTE Correction Deputy positions used in the past for hiring. These unfunded positions are no longer needed.

Positions entered in 2022 with half-year of ongoing expenditures: 3.0 Crime Prevention Officers, 1.0 Detective (SIU) and 1.0 Detective (DV). Request is to increase these line items so they cover a whole year.

Housekeeping: Moving our RSO Unit from Investigations (program 121) to Patrol (Program 122). FTEs: SHR4912R, SHR5117R, SHR4449R and \$2,500 in overtime and \$1,000 in supplies.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Patrol Deputies (Equity)

**Package ID #:** 274

**Category:**

**Description:** The Sheriff's Office is requesting an additional 20 FTE (deputy positions). Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

**Justification:** Over the past several years, both the county and Sheriff's Office have contracted to obtain staffing studies by both ETICO Solutions and Matrix Consulting Group, Inc. ETICO's study was completed in 2015 and was obtained to determine optimal staffing levels for improved performance and service to our community. Matrix was obtained to determine options to patrol resources including civilianization and alternative responses.

ETICO's study determined that the Sheriff's Office needed an additional 57 deputies in 2015 to achieve an optimal level of performance based on industry standards. ETICO found that the average precinct and contract deputy spends approximately 47.24 minutes out of each patrol hour on some type of reactive activity. This left 12.76 minutes per hour (21%) for proactive enforcement, traffic enforcement, and ALL other community policing activities. According to ETICO, industry standard is a 50/50 split between reactive/administrative activities and proactive activities.

When extrapolating the data used by ETICO's 2015 study to determine staffing levels for 2022, we need an additional 27 deputies on top of the recommended 57 by ETICO in 2015. Thus, the total number of additional deputies to reach our "optimal" level of performance based on industry standards for calendar year 2022 is 84. 84 was obtained by using the data calculations from ETICO based on a 9% population increase from 2015 to 2021.

Like ETICO, Matrix addressed the balance between proactive and reactive activities. Matrix stated that "deputies must have sufficient time outside of community-driven workload to proactively address community issues, conduct problem-oriented policing, and perform other self-directed engagement activities". Unlike ETICO's 50/50 split, Matrix used an optimal proactivity level equation based on percentages of total net available hours minus total calls for service for workload hours divided by total net available hours. Matrix concluded that the Snohomish County Sheriff's Office should target an overall proactivity level of at least 40%. Matrix determined that our overall proactivity level for every area is 37.8%. Although close to average for both patrol and contractual units, Matrix identified that proactive time for daytime hours sits between 14 and 30% on average in what they identified as "severe resource constraints." In summary, Matrix stated that our current staffing issues are "SEVERE." Matrix recommended that the Snohomish County Sheriff's Office increase patrol staffing by 15 additional deputy FTE(s).

When reviewed together, Matrix recommended that the Snohomish County Sheriff's Office hire an additional 15 deputies to increase overall proactivity. Those numbers were based on population, calls for service, and staffing from 2020. ETICO recommended that we hire an additional 57 deputies to meet "optimal" performance levels based on industry standards. Those numbers were based on population, calls for service, and staffing from 2014 and 2015. Given ETICO's calculations, we now need an additional 84 deputies to meet the service and response needs identified by ETICO's report. Given the fact that both studies were based on numbers prior to 2020; and that our population has grown by over 3.2% over the last 2 years, 20 additional FTE(s) for deputy sheriff to both maintain and improve current services, quality of life, and safety is reasonable and prudent.

The studies from both ETICO and Matrix only address numbers. They don't include the human factor of what

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Patrol Deputies (Equity)

**Package ID #:** 274

**Category:**

those numbers actually represent to our community. In terms of the benefits of proactive activities in relation to service, these include improved transparency; increased safety for both the community and law enforcement; vastly improved preception of service and response; improved investigations and related adjudications; improved quality of life; improved business viability; greater equity; improved oversight; improved information sharing; increased accountability; increased public engagement; increased public trust; increased community-oriented policing; reduced use of force and related excessive force complaints; increased risk mitigation; reduced liability; and a host of other progressive policing activities that increase both procedural justice and ethical behavior. Further, obtaining 20 additional positions is directly linked to our vision of prioritizing public trust and community safety by reducing crime through professional policing and correctional services, founded on accountability and compassion.

From all contractual staffing reports to date and their related data, the Sheriff's Office is severely understaffed. ETICO recommended the addition of 57 deputies to meet service requirements based on industry standards in 2015. Based on their calculations and related population growth, that number would have swelled to 84 additional deputies for 2022. Matrix's 2020 report identified that the Snohomish County Sheriff's Office has "severe resource constraints"; and has "severe" staffing issues related to what they determined to be the industry standard regarding the balance between reactive versus proactive activities. Matrix recommended that the Snohomish County Sheriff's Office increase patrol staffing by 15 additional deputy FTE(s). Matrix's calculations were based on numbers from 2019 and do not take into consideration the +3.2% population increase the county has observed since that report. Given the totality of the information provided in just these two studies; and without taking into consideration the human factor or consequences related to this information, it's apparent that the Snohomish County Sheriff's Office is in dire need of more deputies. Given the fact that both studies were based on numbers prior to 2020; and that our population has grown by over 3.2% over the last 2 years, 20 additional FTE(s) for deputy sheriff to improve current services, quality of life, and safety is prudent and more than reasonable.

We are constantly reviewing data and metrics to improve service, efficiencies, and performance. For calendar year 2023, we are working to reorganize our boundaries to increase equity, calls for service, and staffing in all areas. 20 deputy FTE(s) will be immediately absorbed into that plan; and will improve both reactive and proactive activities for all areas.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Administrative Sergeant (Equity)

**Package ID #:** 275

**Category:**

**Description:** The Sheriff's Office Operations Bureau is requesting to add 1 Administrative Sergeant to the Patrol Division with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

To increase and improve efficiency, transparency, oversight, and process the patrol division must adopt changes and improvements to New World Systems workflow. Since adopting NWS as our report writing platform, no supervisor is responsible for vetting several types of cases. These cases, some extremely important, sit in a queue for months. This identified problem can be fixed with the addition of an Administrative Sergeant FTE. The primary responsibility of the administrative sergeant will be administrative duties associated with patrol operations such as but not limited to:

NWS case management-identifying, review, approve, or declines in-custody (deadline) cases; then coordinates for additional information in compliance with investigative and prosecuting protocols by continually monitoring and working within our electronic records management system (LERMS). This oversight would improve service to our community, identify investigative issues, increase quality and control of our processes, and increase transparency and accountability;

Administers and coordinates the completion of requests for information (RFI's) authored by the prosecutor's office (currently no process for accountability/oversight);

Provide case management for all precincts while working within the LERMS environment (currently no process/oversight);

Create, manage, and close assigned activities for patrol staff associated with RFI's (currently no process/oversight);

Reconciliation of monthly reports compiled by records staff consisting of missing/misrepresented case reports thus increasing service and efficiency (currently no process/oversight); and

Approving/rejecting reports in mobile that are in waiting status (currently assigned to shift sergeants causing lack of oversight, accountability, and risk mitigation on the road).

**Justification:** The Administrative Sergeant position would help to mitigate our issues with service related to in-custody reports, quality review, content evaluation, accountability, and deadlines/timelines for completion. Additionally, the benefit, or the return on investment is notable when prosecutor requests for information/investigation are reviewed, distributed to patrol for further investigation, and tracked for completion and substance in a timely manner.

This related return on investment is two-fold:

1. The economic ROI may produce some or all of the following:

Patrol sergeants will be relieved of some administrative duties allowing more time for operational patrol duties to include risk mitigation, accountability, scene management, and oversight;

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Administrative Sergeant (Equity)

**Package ID #:** 275

**Category:**

Efficient and consistent prosecutor request for further investigation (RFI) management consisting of a "1 touch" process;

Efficient RFI management with timely completion, managerial review, and submissions; and

The potential of fewer motions being argued by the prosecutor's office resulting in less court time for deputies.

2. The social ROI may produce some or all of the following direct benefits:

Culture change - Delivering a better product with increased oversight and customer satisfaction;

Efficient investigative management and accountability for assigned actions and activities by deputies; and

Improved relationships with the prosecutor's office.

This position will have immediate and long-term positive impacts for the Sheriff's Office based on a concept of cultural change and professional service. Due to the ever-increasing amount of work sergeants are being asked to perform, and the related high span of control, patrol sergeants are unable to spend an appropriate amount of time directly supervising their staff. That ever-increasing amount of work, coupled with increased tasks/activities/responsibility/lack of oversight/inexperienced workforce, will lead to an increase in insufficient or incomplete investigations; violations of policies and procedures; decreased accountability and public trust; increased liability; and decreased citizen satisfaction.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Crime Analysts to Gen Fund (Equity)

**Package ID #:** 276

**Category:**

**Description:** The Sheriff's Office Operations Bureau is requesting the funding for 2.0 FTE Crime Analysts be moved to the General Fund from Fund 100. With budget approval, these crucial positions would maintain viability and provide continuity of employment for both analysts.

Crime analysis has become a common feature of U.S. law enforcement agencies. Unfortunately, the field has not provided many cost-benefit studies of crime analysts to date. With that being said, virtually everything law enforcement agencies do is intended to contribute to public safety. With crime analysis, the question regarding our cost benefit to having crime analysts can be broken down into their purpose and types of analysis. The value of integrating crime analysis in the Snohomish County Sheriff's Office is to increase the effectiveness of our crime reduction strategies and direct limited resources in controlling, reducing, and preventing crime and disorder. Crime analysts help our organization to make sense of the deluge of data collected in the course of our work, so that we can respond more swiftly and appropriately to emergent public safety issues.

The state mandated data collection will focus on promote openness, transparency, and accountability, build stronger police-community relations, improve trust and confidence in policing services, evaluate specific areas of concern such as biased policing and excessive force, and ultimately improve the quality of policing services. These crime analysts have been instrumental in not only analyzing crime trends but also creating statistical reports for SCSO staff, council, exec and many other stakeholders. It is critical that the Snohomish County Sheriff's Office has the long-term capacity to fulfil the requirements of the state law but also provide this transparency and accountability directly to the public we serve. Currently funding for the two SCSO Crime Analysts are dependent on grant funding to maintain the positions. If the grant funds were to stop, the Sheriff's Office would be facing the layoff of two positions that are now essential to compliance with a legal mandate. Moving the positions into the general fund provides long term sustainability and accountability for the Sheriff's Office and our community.

**Justification:** The Crime Analyst position originated as a contractor position and was first migrated to be an internal employee in 2019. The support of Tulalip Tribes and Stillaguamish Tribe of Indians have funded these positions via impact funds. The COVID outbreak caused those funds to freeze without warning, which jeopardized what have become a critical position within the Snohomish County Sheriff's Office. While the funds have resumed for this year, it is unknown if they will be available in 2023. Hence, we are requesting that both (2) Law Enforcement Crime Analysts be funded through the general budget in 2023 and beyond.

The following points are just some of the highlights and undertakings that this unit has been able to accomplish since 2020, when the impact funds became unstable:

- Introduced new factual metrics for evaluating officer productivity and addressing allegations of wrongdoing or bias;

- Developed reports that look at the census metrics of the populations we serve (both offenders and victims) for any inequalities;

- Served as subject matter experts on the "Law and Justice Dashboard initiative". This initiative seeks to build on existing data resources to collectively enhance the County's use of data to inform decision-making and policy discussion, particularly as these relate to both understanding and addressing racial and ethnic disparities across the local justice system.

- Introduced proven data models that take the department from being reactive to proactive;

- Research crime reports and related data through analytical procedures to disclose patterns, trends, and/or

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Crime Analysts to Gen Fund (Equity)

**Package ID #:** 276

**Category:**

evidence of criminal activity including crime pattern detection, suspect-crime correlations, target-suspect profiles, and crime forecasting; prepare stats, charts and maps for patrol, investigations, and command staff.

Prepare and distribute crime information bulletins, weekly and monthly information reports, career criminal profiles, serious habitual offender information, crime series/pattern bulletins, wanted person/known offender bulletins, crime summaries, and trend analysis to departmental staff and agencies from other jurisdictions.

Improved the availability of crime statistics and crime trends to the community and front-line Deputies.

Been a key component in building relationships with the business community to take a multi-faceted approach to crime mitigation and prevention.

Performed crime prevention thru environmental design (CPTED) assessments at local businesses so that existing businesses will stay, remain viable, and inspire new ones to relocate to our region.

Working in tandem with County Department of Emergency Management crime analysts ensure all individuals wishing to exercise their first amendment rights are both doing so in a lawful manner and are protected from anyone who may wish to interfere with their exercise of their rights.

Worked side-by-side with project leaders on special operations to ensure a court proven data focused model is utilized for Operation Clean Streets, thereby ensuring no cohort of our population is inappropriately subjected to law enforcement contact.

Worked with multiple regional entities for the exchange of information that improves the quality of cases made. This approach ensures law enforcement makes strong cases with less manhours expended (due to the elimination of duplicate work between different law enforcement agencies), while also alerting prosecutors and defense attorneys to the possibility of case consolidation. Case consolidation helps to clear the backload of cases awaiting trial, ensuring offenders and victims receive justice in a timelier manner.

Served as subject matter experts on the regional MAC Opioid subgroup, partnering with other law enforcement, the health department, the medical examiner, and regional hospitals to help solve not just illicit narcotic distribution but the drug problem in our county as a whole.

Performed staffing and precinct design studies to improve response times. Previously this work was done by outside consultants who billed \$25,000 - \$35,000 per study.

The position of Law Enforcement Crime Analysts continues to develop and transform. Recently, the analysts have provided critical decision-making data to both County Government and the Department of Prosecuting Attorneys. As our organization moves forward and resources become less available, analysts will help us make decisions that directly impact our decision-making process and improve efficiencies. In addition to substantial cost benefits for the Sheriff's Office, the vast cumulative data they collect and review for all county government will drastically improve the impact for this investment when considering the actual cost to benefit analysis to the county.

NOTE: There is a partner package #261 which currently balances and holds two FTE Crime Analysts in fund 100. If this package, which moves the Crime Analyst from fund 100 to the general fund is adopted, the two Crime Analyst positions in fund 100 would need to be removed (SHR4340P & SHR4341P). Expenditures related to these positions could stay in fund 100 until funding ran out.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Operations Lieutenants (Equity)

**Package ID #:** 277

**Category:**

**Description:** The Sheriff's Office Operations Bureau is requesting to add 4 Operations Lieutenants to the Field Operation's Bureau with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

The addition of 4 Lieutenant FTE(s) to the Sheriff's Office Field Operations Bureau would allow us to streamline our management process to provide for better service, reduced liability, improved risk mitigation, better identification and understanding of community concerns and problems, increased public engagement, increased procedural justice, increased community-oriented policing, and allow for better efficiencies and consistency throughout our contractual and precinct partners.

During the recession, all three precincts were changed from a Captain supervisory model to a Lieutenant supervisory model. Under the current model, mid-level supervision was removed from the field and pushed into the precincts, leaving no person(s) accountable for any of our three precincts' daytime field operations. This indirect style of management provides for fractionalized management and leadership; reduced accountability; decreased oversight and inconsistent messaging; uneven responsibilities; and, ultimately, corroded public respect. Finally, our current management system is not the industry standard or best practice within current policing organizations.

Adding 4 Lieutenant positions to the Field Operations Bureau, will push mid-level supervision back out into the field and allow Lieutenants to be assigned to both dayshifts and nightshifts at each precinct (watch commanders) to not only improve the Sheriff's office, but more importantly better serve our community.

**Justification:** During the recession, all three precincts were changed from a Captain supervisory model to a Lieutenant supervisory model. Under the current management model, mid-level supervision was removed from the field and pushed into the precincts. Thus, no mid-level manager was accountable for the ongoing field operations of any of our three precincts' daytime operations. Instead, oversight and accountability were dispersed between day administrative Lieutenants (titled as precinct commanders) and two night operation field Lieutenants (titled as watch commanders). Although responsible for managing police nighttime operations for almost 400,000 people, the sole night watch commanders work on either end of the week (when working). In their current assignment, the watch commanders are responsible for the combined oversight of both the North and South area of operation during nighttime operations. Currently, no mid-level manager, watch commander, is directly responsible for the East area of operation during night hours.

Adding these FTE(s) would allow our office to utilize mid-level managers, watch commanders (Lieutenant), for every area of operation during most hours of the day and night. This addition would vastly improve accountability, messaging, communication, service, oversight, procedural justice, process, response, delegation and deployment, incident command systems, reduced liability, and improved risk mitigation.

Adding a watch commander to each area of operations, covering every patrol shift in every area, would immediately allow for the implementation of progressive policing strategies to include reduced liability considerations/decisions; improved community/area based procedural justice; reduced use of force and excessive force complaints; increased efficiency; increased oversight and supervision; improved information sharing; improved consistency and effectiveness; increased transparency; improved processes and community service; improved staffing considerations/decisions; improved overall communication; and improved public

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Operations Lieutenants (Equity)

**Package ID #:** 277

**Category:**

engagement.

The addition of a complete watch commander system would help to relieve the heavy lift of the patrol sergeants' responsibilities as well allowing them to focus on operational activities which ultimately increases risk mitigation in the field, accountability, oversight, officer/community safety, liability considerations, procedural justice, discipline, staffing, and transparency.

Reshaping any organization is difficult. However, the benefits of using progressive management principals and techniques cannot be understated. Adding 4 Lieutenant FTE(s) will have an immediate impact and lead to better investigations; increased adjudication; lower use of force applications and excessive force complaints, increased oversight and risk mitigation; increased liability considerations at all levels; increased public trust; improved procedural justice; better/increased training; reduced citizen complaints; equity; better community engagement and transparency; improved morale; and increased accountability at all levels.

Adding 4 Lieutenant FTE(s) will immediately increase the overall impact of decisions and effectiveness of all supervisors at all precincts. These positions will allow for a more balanced and equitable share of the workload; and vastly improve overall accountability. Having mid-level managers in all areas of operations will dramatically reduce costs in staffing, complaints, and claims.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Operations Captain (Equity)

**Package ID #:** 278

**Category:**

**Description:** The Sheriff's Office Operations Bureau is requesting to add 1 Operations Captain to the Field Operation's Bureau with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

The addition of one Captain to the Sheriff's Office would allow us to streamline our management process to provide for better service, reduced liability, improved risk mitigation, better identification and understanding of community concerns and problems, increased public engagement, increased procedural justice, and better consistency throughout our contract and precinct partners.

During the recession, all three precincts were changed from a Captain supervisory model to a Lieutenant supervisory model. Under the Lieutenant model, no one person is accountable for any of our three precincts. Instead, oversight and accountability are dispersed between a day Lieutenant (titled as a commander) and two night Lieutenants (titled as watch commanders). This indirect style of management provides for fractionalized management and leadership; reduced accountability and answerability; decreased oversight and inconsistent messaging; uneven responsibilities; and, ultimately, corroded public respect. Finally, our current management system is not the industry standard or best practice within current policing organizations.

**Justification:** The Field Operations Bureau is broken into two divisions, the Patrol and Contract divisions. Those divisions are led by Captains. Currently, one Captain (Patrol Captain) is responsible for the patrol operations of two precincts, the south and north area of operations; and other ancillary assignments to include K9, the Office of Neighborhoods, Directed Patrol, Robbery/Burglary Unit, the Analyst Group, and Field Training.

The second Captain (Contract Captain) is responsible for the patrol operations of East County and Contract Operations. The East Precinct is managed by a Lieutenant (Precinct Commander) who is also the Sultan Police Chief. The East Precinct Commander (or Lieutenant) is responsible for managing police services for the east area of operations to include the city of Sultan (acting as Police Chief); and for managing the contract of Gold Bar, its Police Chief, and its contract police group.

The Contract Captain is also responsible for the contracts of Stanwood, Granite Falls, the Airport, Transit, School Resource Officer program, and Drones. Under the current management model, the East Precinct does not have any management level oversight/supervision during evening or early morning hours.

By adding one Captain position to the Field Operations Bureau, management oversight could be greatly improved and dispersed evenly between the three areas of operations. This addition would allow the Sheriff's Office to have one Precinct Commander for each area of operation; and the improved/related accountability that comes with that assignment. Further, it would allow contract supervision to be moved to their geographical areas to improve all related oversight and functionality.

Adding a Captain to the Field Operations Bureau would immediately allow for the implementation of progressive policing strategies to include reduced liability, improved procedural justice, reduced use of force complaints, increased efficiency, increased oversight and supervision, improved information sharing, improved consistency and effectiveness, increased transparency, improved processes and service, and improved public engagement.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Operations Captain (Equity)

**Package ID #:** 278

**Category:**

The Field Operations Captain position is crucial for the Snohomish County Sheriff's Office to move forward and continue to provide quality, progressive, just, and efficient service.

Reshaping any organization is difficult. However, the benefits of using progressive management principals and techniques cannot be understated. Adding one Captain will lead to better investigations; increased adjudication; lower use of force applications, increased oversight and risk mitigation; increased liability considerations at all levels; increased public trust; improved procedural justice; better/increased training; reduced citizen complaints; better community engagement and transparency; improved morale; and increased accountability at all levels.

An additional Captain will immediately increase the overall impact of efficiency of all supervisors at all precincts. This position will allow for a more balanced and equitable share of the workload; and improve accountability. The ability to use our current precinct commanders (Lieutenants) as day and night watch commanders will ultimately reduce costs in staffing, complaints, and claims.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Major Crimes Detectives (Equity)

**Package ID #:** 279

**Category:**

**Description:** The Sheriff's Office is requesting to add 4 Major Crimes Detectives to the Investigations Unit with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

The Snohomish County Sheriff's Office Major Crimes Unit (MCU) is responsible for investigating homicides, felony assaults, kidnapping, missing persons, cold case homicides, and assists in robbery investigations. There are currently 7 detectives and one sergeant assigned to MCU. The Major Crimes Unit must have an additional 4 FTE's added to mitigate the enormous case load currently carried by existing detectives. In the first ¼ of 2022, detectives in MCU have already worked 1133 hours of overtime just to keep up with their assigned workload. That number equates to 161 hours of overtime per detective in a 3-month period or stated another way, 13.5 hours of overtime per week, per detective (on average) for the first 3 months of 2022.

**Justification:** There are currently 7 detectives assigned to MCU. In 2021 the following crimes were referred to MCU for review and follow up investigations: 8 homicides; 85 robberies; 6 kidnappings; 209 felony assaults; and 218 missing persons (not runaways). MCU detectives do not have the latitude to defer or not investigate cases they are assigned. Cases which are assigned have already been reviewed by the MCU supervisor and must be investigated. Every case assigned to an MCU detective has some level of follow up required. Most cases require extensive follow up to include search warrant applications and service; evidence collection (booking, and logging), witness interviews, meeting with family members, defense interviews, and collaboration with deputy prosecuting attorneys. Currently, 7 MCU detectives are working 146 active felony cases, 26 of which are homicides which are at various stages of investigation or awaiting trial. Two of the MCU detectives are the lead or co-lead for the murder of a Bothell police officer and an Everett police officer.

MCU cases are time-intensive and highly complex. A review of 4 sample homicide cases over the past two years provides some context to demonstrate just their complexity and requisite time commitment. A review of the 4 most recent homicide case reports revealed the following; 350 pages; 171 pages; 528 pages, and 270 pages. Thus, the average number of written documentation for the lead detective in a homicide case is 329 pages. This number reflects only the lead investigator's report. Each detective in MCU will have assisted in some way with the case and will also submit follow up reports documenting and detailing all that they did in a particular case (photographs, collecting/logging evidence, witness/victim interviews, suspect interviews, etc.).

The time intensive work that MCU detectives perform cannot be overstated. For example, the average felony assault case investigated by a MCU detective will contain numerous search warrant affidavits. For assaults, each affidavit will be approximately 25 pages in length. It is not uncommon to have 10-12 search warrant affidavits for homicide cases totaling well over 125 pages in length. While it is difficult to exactly quantify, it is not uncommon in most felony assault and homicide cases to have hundreds of pieces of evidence. Each item of evidence must be photographed, collected, packaged, logged, and then booked into evidence.

There are currently 7 homicide cases scheduled for jury trial throughout this year. According to the prosecutor's office, the average length of a homicide trial is 4-5 weeks and some may last up to 3 months. While a trial is in progress, the lead detective assigned to that case will also be in trial. While in trial, that detective is not able to accept new cases. While the time for the average felony assault case is less (2-3 weeks), the impact for the lead detective is the same. Thus they are unavailable for new case assignments.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Major Crimes Detectives (Equity)

**Package ID #:** 279

**Category:**

Detectives assigned to MCU are generally long-term veterans of law enforcement with a great deal of law enforcement experience. The average time in service to Snohomish County within the unit is 20 years. At 20 years a deputy sheriff earns 16.75 hours of vacation a month which is a total of 201 hours of vacation per year. The collective bargaining agreement with the Deputy Sheriff's Association allows for a maximum of 320 hours of accrued vacation. While each member of the unit is different in the total number of hours accrued as well as the total number of hours earned each month, the average accrual of MCU is 302 hours. Subtracting 18 hours from the average number of hours accrued leaves 183 hours of vacation time (4.5 weeks) that must be used each year to comply with the Deputy Sheriff's Association CBA.

Detectives assigned to MCU work a 40-hour scheduled work week which is 4 – 10-hour days with either Friday, Saturday, Sunday off or Saturday, Sunday, Monday off. That means that each detective is scheduled to work 2600 hours per year (assuming a 4-day work week at 10 hours per day). According to the State of Washington Auditors Office (2012) the average police officer in Washington State is absent from work 18 percent of the time. Therefore, the average time a detective is not at work is 374 hours per year (this accounts for sick leave, vacation, and training). The aforementioned number of days absent may be slightly higher as the legislature now requires 24 hours of annual, in-service training for all law enforcement officers to maintain their peace officer certification; a requirement which was not in place in 2012.

The impacts of time off and time spent in trials (unable to work cases) is clear when the number of cases being carried by detectives is evaluated against available time. That, coupled with the amount of overtime currently being worked by detectives just to keep up with current case load is clear. The Major Crimes Unit is understaffed and overworked. The current caseload and workload is unsustainable.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Digital Forensic Detective (Equity)

**Package ID #:** 280

**Category:**

**Description:** The Sheriff's Office is requesting to add 1 Digital Forensic Detective to the Investigations Unit with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

There are currently 2 detectives assigned to the Digital Forensics Unit (DFU). The Sheriff's Office needs to add a third detective to this unit in order to keep up with the requests for accessing and extracting evidence from electronic devices in criminal investigations throughout the agency.

**Justification:** Annually, the DFU investigates approximately 335 cases. Detectives in this unit are highly trained and skilled in accessing evidence stored in digital devices (smart phones, tablets, video recordings, and computers). According to the Pew Research Center, 97 percent of all Americans own a smart phone (Pew, 2021). Smart phones are essentially handheld, portable, computers capable of storing tens of thousands of pieces of information and images).

In today's world, criminals routinely use smart phones, tablets, and computers, in the commission of crimes. Smart phones and tablets are commonly used in two ways; first, as a means of communication with co-conspirators or as a way of communicating with victims and witnesses via texts, emails, Twitter, or Snapchat; and second, memorializing their crimes through the use of photographs which are stored in the device or in the cloud. The aforementioned uses of these devices become evidence in criminal investigations which is critical to successful prosecution.

It is important to understand that one device (smart phone) can hold thousands of images. For example, a smart phone which has 1 GB of storage will store 500 images. A smart phone with 16 GB will store approximately 8000 images or 140 minutes of video. According to a 2020 report by Android, phones produced by them now have 100 GB of storage. The detectives working in the DFU reported that the average cell phone they analyze has somewhere between 60 to 100 GB of storage. The implications of that much storage space are obvious.

When a device is sent to the DFU for analysis and extraction of data, the detectives do not simply extract the data; they must also evaluate the images to determine what is evidence and what is not. As one can imagine, it takes a substantial amount of time to review and evaluate thousands of images found in various devices. Once the extraction and review by one of the DFU detectives is performed, a report is prepared and sent to the requesting detective along with the images which were determined to be evidence.

Of particular importance is the volume of cases sent to DFU from the Sheriff's Office Child Sexual Assault Unit (SIU). According to statistics in the Special Investigations Unit, each year the SIU detectives send approximately 100 devices to the DFU for analysis and extraction of evidence. These cases all involve the sexual or physical victimization of children. In most cases, because the digital recovered evidence is irrefutable, the recovery of those images from the suspect(s) phone often results in a guilty plea. When the suspect pleads guilty it saves valuable resources that would be used in a trial, and perhaps most importantly, means that the child is spared the additional trauma of having to testify in court.

The remainder of devices sent to the DFU for analysis are from cases involving homicides, assaults, kidnapping, and robberies. In 2021 the Sheriff's Office investigated 8 homicides, 85 robberies, 8 kidnappings,

**Category:**

and 209 felony assaults. Sheriff's Office DFU detectives were instrumental in recovering digital forensic evidence in several high-profile cases including the murder of a Bothell police officer and an Everett Police Officer. DFU detectives were also heavily involved in helping to investigate and arrest several suspects who were responsible for over 12 pot shop robberies in Snohomish, King, and Kitsap Counties. These are just a few examples of the hundreds of cases where DFU detectives fill an essential role in the collection of evidence needed to successfully prosecute criminals.

The work performed by the DFU is vital to ensuring justice for victims of violent crimes. That work is increasing on a yearly basis, particularly as violent crime trends upward. The DFU needs an additional detective to keep up with the workload sent to them for analysis.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Communications Specialist

**Package ID #:** 281

**Category:**

**Description:** The Sheriff's Office is requesting to add a Communications Specialist to the Administration Division with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

Our office needs to refund a second position to focus on communications related to community engagement and transparency. This position has been vacant since May 2020 and due to budget cuts and the hiring freeze, we were unable to fund it in 2021. This position will assist in addressing concerns related to social justice and accountability in law enforcement. A Communications Specialist will be instrumental in producing timely and accurate information for our over 800,000 residents of Snohomish County. This includes educational communications, crisis communications and communications following critical incidents.

**Justification:** Under the leadership of Sheriff Adam Fortney, one of the primary goals for the Sheriff's Office leadership team is to continue bridging the gap between law enforcement and the communities we serve. Since 2020, nationwide we have heard from our communities, including people of color and underrepresented communities, that there is a strong desire to build trust and improve relationships, communications, and engagement with their local police agencies.

To build trust with our communities, we first must start by increasing our ability to interact and build relationships as human beings first. The Communications Specialist position will be instrumental in allowing our agency to plan and participate in neighborhood events and develop public safety outreach materials and strategies to improve relationships between our residents and the deputies who serve them.

In addition, body worn cameras are expected to be worn by all deputies by the end of 2022. This will add another component that requires additional communications focused on both public education and outreach. Body worn cameras will enhance public trust and allow for increased transparency; body cameras will also create an expectation from our residents that messaging following use-of-force incidents will include timely access to body worn camera footage from the incident. This will create another layer of additional work for our Director of Communications.

Currently, the Sheriff's Office communications, marketing and public information functions are solely managed by the Director of Communications who oversees all components of news and media relations, is responsible for timely and accurate crisis communications, creates all external public safety and education communications, and is a member of the county's opioid communications group and the Snohomish County Multiple Agency Response Team (SMART). Managing this workload in addition to consistent internal communications to over 700 employees working different shifts, at several different work sites spanning over 2,000 square miles, requires more resources than we are currently have.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Contract Specialist

**Package ID #:** 282

**Category:**

**Description:** The Sheriff's Office is requesting to add a Contract Specialist to the Administration Division - Fiscal Unit with a start date of July 1, 2023. Funding request is for six months of salary/benefits and ongoing operational costs as well as full one-time startup costs.

Contract Specialist job description selected as a place holder as Sheriff's Office may need to create a job description with specific job duties.

The Sheriff's Office, like many other county departments, has experienced exponential growth in the area of managing/developing contracts and purchasing equipment and services. The fiscal division is not able to keep up with the growing need and management of contracts. The Sheriff's Office has over 65 FTEs that are assigned to law enforcement contracts and the workload associated with maintaining contracts and purchasing RFPs cannot be managed within the office with current resources any longer. The Sheriff's Office needs to mirror many of our fellow county departments and add a contract specialist position to handle this workload.

**Justification:** The Sheriff's Office, over the past few years, has been a go to law enforcement agency when cities are contracting for law enforcement services. The SCSO has over 65 positions that exist as a result of contracts with cities, Community Transit, and the Paine Field Airport. In addition to these existing interlocal agreements (ILAs), the SCSO purchases hundreds of thousands of dollars in equipment, supplies, ammunition, and other technical services. Due to the purchasing requirements, the majority of these purchases cannot be made without receiving multiple bids, quotes, or even going out to RFP. Without a dedicated contract specialist, the Sheriff's Office will run the risk of exposing the county to liability from not properly administering contracts and making purchasing decisions outside of county policy.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Wellness Coordinator

**Package ID #:** 284

**Category:**

**Description:** The Sheriff's Office is requesting to add a Wellness Coordinator to the Administration Division with a start date of July 1, 2023. Funding request is for six months of salary/benefits and additional funding to establish a program budget.

This request is for a Wellness Coordinator for all SCSO employees and funding a specific Wellness Budget to be utilized for training, products and service to enhance employee mental health, wellness and safety.

The Sheriff's Office has recognized an increase in work related PTSD cases amongst local law enforcement to include Sheriff's Office employees. These PTSD cases are increasingly becoming career ending diagnosis for the employee but also an increased risk for suicidality and presents a looming staffing crisis if Snohomish County does not address the wellness and behavioral health of law enforcement employees. Increased instances of PTSD have also been linked to excessive use of force in law enforcement. Given recent changes to state law regarding use of force, de-escalation and alternatives to incarceration, it is more important than ever to provide SCSO employees the tools and services needed to serve the public safely and effectively without using excessive or abusive force.

The Sheriff's Office seeks to increase resiliency by providing resources to employees at the workplace to help offset issues of shift work and social isolation. The International Association of Police Chiefs (IACP) identified increased access to quality mental health and wellness services delivered by culturally competent providers is fundamental to preventing suicide and supporting officer well-being and performance. The Wellness Coordinator will work with the Wellness Committee to help build resiliency skills amongst staff and reduce the stigma and barriers to service.

Along with the Sheriff's Office Wellness Committee, the Wellness Coordinator will utilize the Wellness Budget to seek proposals for tools and training to address mental health and wellness in a manner that is accessible to employees during work hours and help build resiliency skills.

**Justification:** In 2020, the legislature passed Substitute Senate Bill 6570, which directed the Department of Health (Department) to convene a task force to examine factors related to the behavioral health and wellness of law enforcement officers serving in Washington state and identify recommendations to improve the behavioral health status of law enforcement officers and personnel (LEO) and their families.

The two of the primary recommendation from this task force were to fund culturally and linguistically tailored programming and services that support emotional wellness for law enforcement personnel and their families, and support retention of law enforcement personnel by providing more services and to expand behavioral health services that are tailored to law enforcement.

The International Association of Police Chiefs (IACP) has also identified several risk factors for law enforcement employees are characteristics that make it more likely that a person will think about suicide or engage in suicidal behaviors. One of the primary risk factors identified are the stressors related to the law enforcement profession such as exposure to traumatic events is associated with an increased risk for suicide; job-related exposure to suicide has been found to impact officers' emotional and psychological well-being and to be associated with PTSD symptoms and persistent thoughts of a suicide scene; shift work has been found to be associated with suicide ideation, particularly among officers who may already have other risk factors for

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff FTE - Wellness Coordinator

**Package ID #:** 284

**Category:**

suicide, such as symptoms of depression or PTSD; unpredictable schedules can limit time available for maintaining relationships with friends and family, which can contribute to social isolation.

The National Alliance on Mental Illness (NAMI) has also researched the increased risk of suicide, PTSD, anxiety and burnout amongst law enforcement. Of particular note NAMI has found the suicide rate for police officers is four times higher than that of firefighters, more law enforcement officers die each year from suicide than from line of duty deaths and compared to the general population, law enforcement report much higher rates of depression, PTSD, burnout, and other anxiety related mental health conditions.

Beside just the increased risk of suicide and increased risk of a disability for employees, there is also an increased use of excessive force due to PTSD. In 2019 The Society of Social Work and Research studied and PTSD and police use of force and concluded findings suggest that mental health interventions for police officers may both mitigate health symptoms among police officers and help to prevent police abuse against civilians. Similarly, if perpetrating abuse is contributing to risk for PTSD symptoms, this suggests that police officers themselves (and their affiliated departments) have an incentive to curb abusive practices. The Sheriff's Office has not identified PTSD related use of force incidents as of this writing but as PTSD cases are rising the administration seeks to be proactive in reducing any potential excessive force incident by providing a wellness coordinator to help build awareness and reduce the stigma of seeking culturally competent treatment options.

Snohomish County provides a robust Employee Assistance Program but the resources and practitioners in the EAP frequently are not culturally competent in working with the unique needs and culture of first responders. To deal with the unique challenges of delivering quality behavior health and holistic wellness program, the Sheriff's Office needs to add a Wellness Coordinator to administer the overall Wellness Program as well as procure and administer contract services for culturally competent psychological services.

A Wellness Coordinator would be an onsite resource for employees to coordinate, plan, and facilitates health and fitness activities, and mental health programs. The Wellness Coordinator will plan and implement classes, speakers, seminars, personal training, and fitness assessments that promote healthy lifestyles as well as maintain contracts with mental health practitioners who are culturally competent in delivering mental health services to the employees of law enforcement. Current SCSO contracts with mental health professionals would create a conflict if they were to deliver services to employees because they are hired to deliver pre-hire assessment or post critical incident evaluation. This leaves a tremendous gap where employees struggle to find services that fit their schedule and specific needs.

The requested \$100,000 Wellness Budget is an estimate of the cost to procure the quality of care, training and resources desired. These services would include dedicated time from mental health practitioners who could respond to a critical incident or meet with employees post critical incident as well as provide for on site nutritional, fitness and financial wellness training. A lower amount could still be utilized to focus on particular services such as mental health and PTSD while excluding nutrition, physical fitness and financial wellness.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Domestic Violence Coordination Services (Equity)

**Package ID #:** 285

**Category:**

**Description:** Domestic Violence continues to be a substantial problem for citizens of Snohomish County. In 2021, the Sheriff's Office responded to 2946 calls of domestic violence. 1516 of those cases met the statutory definition of a criminal act. Perhaps of greater importance, the number of convictions for domestic violence is currently under 20%. Many cases which could be prosecuted are due to unanswered follow up requests from the Prosecutor's Office to the investigating deputy.

The Snohomish County Sheriff's Office responds to approximately 2600 domestic disturbances each year. From those calls, approximately 1100 arrests are made for assault. There are approximately 220 requests for follow up investigations submitted to the Sheriff's Office from the Prosecuting Attorney's Office. If the follow up information is not provided within the time frame submitted by the Prosecutor's Office, the case is dismissed. A large percentage of the follow up requests (approximately 80%) involve a gross-misdemeanor assault 4 degree. Follow up requests vary from requests for medical records, additional statements, collection of video evidence, etc. Due to the volume of work, detectives are not able to conduct follow up for misdemeanor crimes. Thus the follow up requests are assigned to patrol deputies. Patrol deputies lack sufficient time to conduct follow up investigations (according to the 2014 Timothy Freesmeyer Staffing Study, Snohomish County deputies have on average 12 minutes of discretionary time per hour while on shift. When deputies do have discretionary time much of it is outside of normal business hours (2:00 am to 8:00 am) when it is not possible to contact businesses, victims, and witnesses.

The Sheriff's Office recognizes that it must do more to assist the victims of domestic violence as well as the children exposed to violence. A more comprehensive approach to dealing with domestic violence means additional resources are needed. These resources do not necessarily need to be commissioned law enforcement officers. Highly trained social workers who specialize in working with victims of domestic violence and understand the complexities of domestic violence as it relates to the victims, the abuser, law enforcement, prosecution, and the judicial system would be able to fill the void currently existing in the criminal justice system. Trained social workers can provide numerous services to victims, police, and to improve prosecution outcomes to perform work that is beyond our current capacity. Moreover, domestic violence social workers' total compensation costs are significantly less than a commissioned law enforcement officer.

The Sheriff's Office is requesting funding for a Professional Services contract to provide independent professional domestic violence services to victims. The scope of services provided to the victim, law enforcement, and prosecution are extensive:

Victim Services include (in part): support, educate and assist victims of domestic violence through the criminal justice proceedings, in both district and superior courts; provide victims with information on obtaining civil protection/no contact orders; assist victims in completing the many forms and documents required to obtain various protection/no contact orders; assess domestic violence victims immediate needs (safe housing, income, and other necessities); help victims establish an immediate safety plan; provide information and referrals to community resources specifically for victims of domestic violence; provide victims with information regarding criminal justice proceedings and procedures, appear with victims at arraignments and all other court hearings (both criminal and civil); educate victims about the benefits of pursuing prosecution through the legal system.

Law enforcement services include (in part); Provide law enforcement about victim accounts or other

**Category:**

undisclosed criminal information; provide follow up services for law enforcement by obtaining additional statements, supplemental paperwork, photographs of injuries and, medical release forms; in concert with law enforcement and the prosecutor's office, develop reference materials to be used by police and prosecution aid in prosecution; assist in training deputies about victim services; and provide community training concerning domestic violence and services available to victims of domestic violence.

Prosecution services include (in part); Provide the deputy prosecuting attorney with status reports concerning the victim, contact information, concerns of victims, and an update on the status of civil court no contact or protection orders; communicate with deputy prosecutors seeking the termination of no contact orders; provide information to the deputy prosecuting attorney on victim's recommendations/request for defendant services and resources as well as providing sentencing input; coordinate with the prosecutors' office victim advocates for a smooth transition of services where appropriate.

**Justification:**

In 2021 Washington State Governor Jay Inslee signed into law Engrossed Second Substitute House Bill 1320 into law which amended approximately 80 existing RCW's relating to domestic violence. In Part I section 3, subsection a, the legislature stated in part, "domestic violence is a problem of immense proportions. About 15 percent of Washington adults report experiencing domestic violence in their lifetime, and women, low-income people, and Black and indigenous communities experience higher rates of domestic violence. When domestic violence victims seek to separate from their abuser, they face increased risk. Forty-five percent of domestic violence homicides occur within 90 days of recent separation, while 75 percent occur within the first six months of separation. Domestic violence has long been recognized as being at the core of other major social problems: child abuse, other crimes of violence against persons or property, homelessness, and alcohol and drug abuse. Research has identified that adverse childhood experiences such as exposure to domestic violence have long-term negative impacts on health, well-being, and life outcomes, including criminal legal system involvement. Washington State studies have found that domestic violence is the most predictive of future violent crime by the perpetrator. Nationwide, domestic violence costs over \$460,000,000,000 each year for health care, absence from work, services to children, and more...Domestic violence should not be minimized or dismissed based on any mental health diagnoses of the perpetrator or the victim. To the contrary, the presence of mental health concerns or substance use of either party increases the likelihood of serious injury or lethality. The legislature finds that it is in the public interest to improve the lives of persons being victimized by the acts and dynamics of domestic violence to provide reasonable, coordinated, measures to prevent domestic violence from occurring and to respond effectively to secure the safety of survivors of domestic violence".

The above statement of the Washington State legislature is further supported by scientific research on the subject of domestic violence particularly as it pertains to children. Specifically, domestic violence has significant deleterious impacts to society, particularly children. Most instances of domestic violence involve children in the home that are 5 years of age or younger (Fantuzzo et al., 1997). Moreover, there is strong evidence to support that domestic violence is intergenerational, even for children who merely witness violence (Gelles & Cavanaugh, 2005). Therefore, without intervention, the cycle of violence is likely to perpetuate itself for children when they reach the age of adulthood.

Children, particularly those who come from historically underserved and marginalized communities deserve to grow up in a home safe from domestic violence. Children are our most vulnerable citizens as well as our future. Victims of domestic violence and their children deserve and should expect that the criminal justice

system will respond, support, and advocate for their wellbeing. The system, as it is currently structured, fails to provide the necessary supports to ensure that every reasonable effort is made to safeguard the wellbeing of both the victim and the victim's children.

Adding a team of highly trained domestic violence social workers will undoubtedly provide critical services both in the social arena and the criminal justice system to domestic violence victims which is currently not available to them. The use of a professional service provider would most certainly lead to more convictions in domestic violence cases. It would provide a conduit to services to the victim both as it relates to social services and navigating the criminal justice system. Domestic violence victims (and their children) would have an assigned social worker who would be able to assist the victim every step of the way as the case makes its way through the system.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Portable UFED

**Package ID #:** 286

**Category:**

**Description:** Currently detectives from the Robbery / Burglary Unit lacks the ability to effectively collect digital media from cell phones in the field. When digital media is required to be collected, detectives must rely on a person downloading and transferring files which becomes problematic when trying to establish in court the integrity and chain of custody of the digital evidence. Detectives in the digital forensics unit can transfer data directly from phones but this requires taking possession of the phone for days or weeks and takes time away from other investigations such as Major Crimes and Child Exploitation cases.

The Sheriff's Office seeks to purchase Universal Forensic Extraction Devices (UFED) for the Robbery / Burglary Unit so digital evidence can be collected in the field in a manner that maintains chain of custody on the evidence and ensures the evidence is unaltered in the process.

2023 budget request would be in support in a request for potential testing of products, RFP and final purchase of UFED's

**Justification:** The Sheriff's Office currently has two detectives who process digital evidence with a primary focus on crimes against children and major crimes. Property crimes detectives and deputies at the Precinct level must resort to making copies of copies to submit digital evidence. This is inefficient and does not present evidence in a way that guarantees it is unaltered and chain of custody can be proven.

Until recently, devices used to extract data from digital sources such as cell phones took large, expensive and specialized pieces of equipment. Several portable user friendly products have reached the market allowing detectives in the field to collect evidence such as video from cell phones without the need to seize the property of the witness or suspect. Modern devices allow for detectives to document consent to search as well as document a data transfer directly to the evidence collection software, providing quicker, more accurate collection of evidence, improving the overall case and allowing witnesses to keep possession of items like cell phones after the transfer. Although the cost of UFED's have dropped, the cost of outfitting the Robbery / Burglary Unit with these devices would exceed the normal Sheriff's Office precinct purchasing budgets.

Portable UFED can also collect text messages, emails, documents and pictures from victims of crime without requiring the victim to lose their device and their connection to world. Another upside of the devices for victims and witnesses is they can provide consent to access their device and limit the scope of the search/collection which is critical in protecting their rights against an undue search.

By purchasing Portable UFED's detectives in the RBU could improve case quality, solvability and success of evidence being submitted for trial, all while more efficiently working with victims and witnesses to allow them to keep control of their devices instead of waiting weeks for a device to be searched.

The initial request is to outfit the entire Robbery / Burglary Unit with eight (8) portable UFED's. UFED cost per pair is between \$7,000 and \$10,000 depending on vendor. Ongoing cost for maintenance and repair has been included but if needed this amount could be funded from precinct purchasing budgets.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Taser Contract (IT)

**Package ID #:** 287

**Category:**

**Description:** This is a partner package with IT:

One of the most effective de-escalation tools available to all law enforcement nationwide is the Conducted Electrical Weapon (CEW), or Taser. This tool allows law enforcement to pause dangerous situations and thereby creating an opportunity for greater decision making and a lower-level use of force. The Snohomish County Sheriff's Office equips all road deputies with this critical less lethal tool.

The current count of Conducted Electrical Weapon (CEW), or Taser, in the Sheriff's Office is 259 units. These are all X26P platforms sold by Axon Enterprises. All the units purchased by the Sheriff's Office are warranted for five years through Axon Enterprises. The warranty and support for our current stock of Tasers will expire in 2022 and the end of life for the X26P platform will be sometime in 2023.

The replacement platform for the X26P offered by Axon Enterprises is the Taser 7 (T7). The current contract with Axon for the X26P Taser is \$94,000 annually. The replacement T7 Taser contract will be \$191,000 annually for the next five years.

This request is to cover the increased contract cost of \$97,000 and move to IT. This will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:**

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   30 Sheriff

**Short Name:**   Sheriff Equipment - Drones (sUAS)

**Package ID #:**   288

**Category:**

**Description:**   This request is for the purchase of 2 DJI Matrice 30T small Unmanned Aircraft Systems (sUAS). This drone is equipped with a high resolution FLIR camera with a zoom capability that far exceeds any of the drones that are currently in use by patrol. This drone and camera combination is one of the premier drones for use in law enforcement operations.

The DJI Matrice 30T (Plus) Includes: Aircraft, RC Plus Controller, Payload: Laser Range Finder, 12MP Wide and 48MP Zoom Camera, 640x512 Radiometric Thermal, 2 x TB30 Intelligent Flight Battery, BS30 Charging Station, USB Charger & Cable for Controller, Propellers, Carrying Case, Controller Lanyard, 1 Year DJI Care Enterprise Plus Protection Plan, 1 Standard Maintenance Service.

**Justification:**   The Sheriff's Office currently deploys 7 DJI Mavic 2 Enterprise Zooms as a patrol resource. These drones are not equipped with FLIR which limits their use during low light or night-time operations. The Patrol Division has 1 drone, an Autel, which is equipped with FLIR. Only having 1 FLIR equipped drone severely restricts our ability to provide this resource through out the county.

These drones allow for information to be collected and delivered to decision makers in a manner that has not been possible in the past. Decisions made based on correct and timely information often lead to a better outcome for all involved.

Prior to the use of drones, most often a suspect was located by a Deputy or K9 Team searching for and locating the fleeing person. Once the subject was located, the subject and deputy were within close proximity to each other requiring immediate action to either take the suspect into custody or continue efforts to apprehend the subject. This often required the use of physical force.

The use of drones allows for law enforcement to locate fleeing subjects prior to making physical contact with them. Once a subject is located the drone can maintain visual sight while plans are developed, and resources moved into position. The drone provides law enforcement time to put plans into place that diminish the likelihood of having to utilize force to take people into custody. Drones increase safety for citizens, law enforcement, and suspects.

Drones provide accountability for law enforcement. When the Sheriff's Office is utilizing drones to search for and apprehend suspects, it is likely the interaction between the deputy and the person being taken into custody will be recorded using the drone's video camera. SCSO Drone Pilots are required to begin video recording with the drone's camera once the fleeing person has been located. This provides accountability and transparency when force is allegedly used outside of policy. It also provides documentation that can be used to defend the lawful actions of deputies when the use of force is reasonable and necessary.

The use of drones equipped with thermal cameras increase our capability to search for missing or lost people. Thermal equipped drones enhance our ability to immediately search waterways, ponds, and other heavily vegetated areas quickly...without having to wait for Dive or SAR to muster. Those minutes, referred to as the golden hour, would be critical when the need for immediate advanced life support was required for victim survival.

One of the Sheriff's Office Patrol Division's drones are not equipped with a thermal camera. Our current

**Category:**

drones are not very effective when searching for people at night or during daylight when searching vegetated areas. A significant portion of our drone missions are conducted at night or for people who have fled into wooded areas.

Utilizing drones that are equipped with thermal cameras will allow for Sheriff's Office Deputies to more effectively perform their duties while conducting nighttime operations or in areas that are heavily vegetated. It will increase the level of safety for all involved. It will provide accountability when deputies actions are alleged to be outside of policy. It will allow us to better defend ourselves when our actions are with-in policy.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Drone Unit Maintenance

**Package ID #:** 289

**Category:**

**Description:** This is a request is to establish an annual maintenance budget for the Patrol Division's Drone Unit. The use of drones in patrol is an invaluable asset that reduces risk to deputies, the public and to suspects avoiding capture by decreasing the likelihood of surprise contacts or ambush. Drones also provide the ability to locate those who may be lost or missing outdoors, such as children, the elderly, and people with Autism Spectrum disorders; this can and does save lives. The Sheriff's Office needs an annual budget so our drone unit can deploy the proper equipment with pilots that are properly trained and certified to use this equipment. The Sheriff's Office does not have a yearly budget for patrol drones.

For a drone to be effective at locating people who do not want to be found, or who may be missing or lost, the drones should be equipped with a thermal camera. The patrol division currently has 2 drones that are equipped with thermal cameras. One, the Parrot, has been found to be an ineffective piece of equipment and we will not purchase another one. We have three thermal equipped drones on order, but their arrival date is unknown. Once they do arrive, patrol will have 4 effective thermal equipped drones.

The Sheriff's Office has 4 drones specifically for flying indoors. Indoor operations provide an ability to safely inspect and clear interior spaces. This decreases risk to deputies and suspects by providing the potential to identify their location and negotiate surrender without direct and potentially dangerous contact. It can provide time, distance, and de-escalation of potentially violent encounters.

We have 7 other drones that are not equipped with thermal cameras and are not effective at flying indoors. They are basically drones used for training new pilots. They will be phased out of service as we acquire new and uprated equipment. Any future purchases of drones for patrol should be drones equipped with thermal cameras or drones specifically for flying indoors.

The Sheriff's Office should expect to purchase a new drone for patrol every year to maintain a fleet of four drones that are effective flying outdoors and can be assigned in a way that covers all of unincorporated Snohomish County. We should also anticipate purchasing a new drone every year for flying indoors to maintain that capability. Drone technology is changing at a rapid pace. The best drone for patrol right now, the DJI M30, costs about \$15,000. The price for the drones we use to fly indoors is about \$500.00 per unit.

The equipment to maintain the drones includes repairs, batteries, propeller guards, propellers, and many other low and high-cost items. This must be factored into the overall cost of the program.

In order to keep our pilots trained to required standards, the Sheriff's Office should send at least two pilots to outside training once a year. This will lower the risks and liability associated with operating drones. The patrol drone pilots have a scheduled training day once a month. The days rotate between Tuesday and Thursday to reduce overtime expenditures.

We currently use Air Data software to track and record all flights. We use the same program for our maintenance program. Air Data provides live streaming capability. Air Data can also create a site that the public can access to see all of the Sheriff's Office drones flights without releasing confidential information. This has reduced public disclosure requests for other agencies that use this system capability.

**Justification:** Drone capabilities provide a reduced risk to deputies, the public and to wanted suspects by giving us the ability

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Drone Unit Maintenance

**Package ID #:** 289

**Category:**

to safely locate them at a distance and use time and proper resources to conduct an arrest in the safest possible manner. They provide a much larger area of search coverage in much less time than can be accomplished by other means, further reducing risk to deputies due to terrain, weather, and other potential injury mechanisms. Those who are lost, or hiding are also at risk from these conditions and time can be of the essence in locating them safely.

Additionally, each purchase made by the drone unit uses money that has been allocated to other units. This causes delays, conflict, and reduces the capabilities of those units. Drones have the ability to provide information to patrol units and people making life and death decisions in a way that has never been possible. To accomplish this, the drone must be properly equipped and the pilots operating the drones must be properly trained. With an annual maintenance budget the Drone Unit can purchase the proper equipment, maintain the equipment, and train the pilots to an required level. This will reduce risk and liability.

Finally, the recording capabilities of drones gives us the ability to capture events in real time over a large area. This greatly adds to the evidence available for prosecution of suspects. It can also provide transparency of our operations and tactics, reducing potential litigation and conversely, it can also provide an invaluable tool for improved accountability, increasing public trust. These recordings can also be used for training, and for revision of ineffective tactics or practices. As this technology advances and continues to proliferate it can be anticipated that capabilities will increase, and costs will reduce for models that are currently "top of the line". We will always look at the most value for the least cost in replacing outdated or unserviceable equipment.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Equipment - Greykey Software (IT)

**Package ID #:** 291

**Category:**

**Description:** This is a partner package with IT:

This priority package represents a transfer of budget authority for a software purchase and support agreement out of the Sheriff's Office budget and the IT Department budget for the following license and maintenance contract:

Greykey Software

The Sheriff's Office Digital Forensic Unit is responsible for evaluating, analyzing, extracting, and documenting digital evidence located within smartphones, computers, and tablets. Technology is rapidly changing. Apple, Android, Samsung, and Google all make various devices which now have sophisticated encrypted locking systems making it virtually impossible for anyone to open unless that person knows the passcode. While this higher security is good for preventing criminals from accessing personal information, it has created a barrier for law enforcement to legally access electronic devices searching for evidence. If the Digital Forensic Unit is unable to access electronic devices, many felony cases will not be prosecuted, or prosecution will be greatly hampered due to our inability to access evidence located within the device.

The answer to this problem is the purchase of highly sophisticated software designed for law enforcement to enable detectives to unlock devices which are inaccessible without the software.

If this package is approved in the 2023 budget, the cost for this application will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:** The Sheriff's Office Digital Forensic Unit handles 184 cases each year. As stated above, the Digital Forensic Unit is responsible to extract evidence in felony cases involving homicides, sexual assaults (both children and adults), assaults, and kidnapping. According to the Pew Research Center, in 2021, 97 percent of Americans owned a smart phone (Pew Research, April 21). Smart phones are essentially mobile, handheld computers capable of recording and storing tens of thousands of pieces of information or images. Many criminals document their criminal activity on their cell phones through taking pictures, emails, or texts.

There can be no debate that technology is changing at a very rapid rate. For law enforcement to adequately serve the community, we must keep up with those changes. Just a few short years ago, detectives assigned to the Digital Forensics Unit could access most smart phones and computers by unlocking them using easily accessible digital unlocking devices. This is no longer the case. Smart phones, tablets, and computers now have highly sophisticated encrypted locking security making it impossible to access that device unless the detective has equally sophisticated and highly technical software to do so.

Currently, the Sheriff's Office Digital Forensic Unit is not capable of unlocking most smart phones which were made after 2019. This includes all the major phone manufacturers such as Apple, Samsung, and Motorola. According to Counterpoint Research, Samsung and Apple make up 78% of the smart phones owned in the United States. This fact extrapolated to Snohomish County would mean that 78% of Snohomish County citizens own either an iPhone or an Android.

Currently, the Digital Forensic Unit is forced to prioritize cases which will be worked, and which cases will not

---

**Short Name:** Sheriff Equipment - Greykey Software (IT)

**Package ID #:** 291

**Category:**

be worked. Because the Digital Forensic Unit has no way to open/unlock cell phones or tablets, detectives must request assistance from Seattle, King County, or Skagit County to unlock those devices because they have the software necessary to do so. Obviously, we have to be selective in how many cases we ask for assistance in unlocking phones. Furthermore, using another agency to unlock a phone complicates a criminal case in that, it adds another person to the chain of custody of evidence thus, our neighboring agency detective(s) become potential witnesses in cases within Snohomish County. It also means that detectives must drive to the location Seattle or Mount Vernon, drop the phone off, and then wait until the assisting agency detective advises us that the phone has been unlocked. Not having the ability to open/unlock smart phones and other portable devices also means that many cases cannot be worked due to the number of devices which need to be searched because we are limited by the number of times we can ask for assistance from other law enforcement agencies. This fact essentially means that many cases must be closed due to lack of investigative resources and the victim(s) do not receive justice.

IT has the resources and expertise required to support and maintain technology vendor support agreements. Switching the support and maintenance of this agreement from Sheriff to IT will enable IT to work directly and more efficiently with the vendors.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Facility - No. Precinct Fencing Upgrade

**Package ID #:** 293

**Category:**

**Description:** Fencing was recently added to the north section of the parking area for secure law enforcement and employee vehicle parking at the North Precinct. The fencing was added by building owner at no cost to the county but did not include openers for any of the vehicle or pedestrian gates. The fencing has two ingress/egress vehicle and two pedestrian gates located on its east and west ends, which are manually operated currently.

This request is for one-time funding to further improve the security of the facility and improve access control by:

Adding key card access control points to the vehicle and pedestrian gates.

Adding a Commercial Slide Gate Operator (Liftmaster CSL24UL) with battery backup (to be controlled by County/Office-issued keycard Siemens access control system) and a Free Loop exit strip in the asphalt to the east and west end vehicle gates.

**Justification:** The North Precinct has long been a police facility that is being run out a standard commercial office / light industrial building. It was opened without many security features that are an industry standard for facilities housing law enforcement and evidence. One notable exception was there was no security fencing to provide secure parking for law enforcement vehicles for the safety of law enforcement staff and equipment.

With the addition of the security fencing by the building manager, all that remains is automation of the two vehicle gates and access controls for the two vehicle gates and two personnel gates that are part of the fence installation. Automating both vehicle gates will allow for a one-way traffic pattern from the east to the west, which is the most suitable arrangement for placement of card readers and exit loops. The installation plan will be to allow entry and exit from both gates, with the preferred route being entry on the east and exit on the west.

**Package ID #:** 294

**Category:**

**Description:** The Sheriff's Office lease for the existing south precinct in Mill Creek expires in September 2023. The current lease is approximately \$20k/month. The Sheriff's Office is currently working in partnership with the airport to open a new South Precinct in the Bomarc building, which was purchased by the county airport operations group last year. The Sheriff's Office will sustain an increase in rent from \$20k/month to approximately \$43k/month. This new lease agreement is still in negotiation and subject to change; monthly fees will be paid by electronic inter-departmental general ledger transfer. Also, the Sheriff's Office will be required to pay rent at both locations while the new precinct is under renovation.

**Justification:** The Sheriff's Office has outgrown the current south precinct footprint. The current location is simply a repurposed office shell space that has no secured parking and does not have enough space to house the deputies and operations that currently need office space. The current south precinct also does not have enough secured indoor bay space to store vehicles that need to be stored while awaiting search warrants. The current precinct location also does not adequately service the citizens that live on the west side of I-5.

The Sheriff's Office has successfully negotiated a \$10k decrease in monthly rent by making changes to square footage needs and sharing common space with the airport.

**Package Type** Standard

**Department:** 30 Sheriff

**Short Name:** Sheriff Miscellaneous Equipment Replacement Fund

**Package ID #:** 295

**Category:**

**Description:** The Sheriff's Office needs funding to replace ongoing broken equipment, gear, and technical supplies that are constantly used up or broken due to normal wear and tear. The Sheriff's Office is proposing to add \$150,000 to our miscellaneous line item.

**Justification:** The Sheriff's Office has transitioned into a highly technical organization with a large amount of electronic and technical equipment that needs to be replaced on a regular basis. The office needs to replace broken firearms, tasers, computer screens, scanners, car printers, flashlights, and a myriad of other equipment that routinely breaks on a regular basis.

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Jail Security System Project OT (Facilities)

**Package ID #:** 296

**Category:**

**Description:** Facilities & Fleet have partnered with the Corrections Bureau on a security system upgrade to the jail in 2023. In the 2022 budget Facilities was allocated \$1.1 M in capital funds toward the project for the design, installation, and equipment costs using ARPA funding (PP ID #171, 305, 527) . Not included with the 2022 request was the funding for Correction's Deputies working over time to escort the contractors and unlock doors while the system is being replaced and the cameras are down. The Corrections Bureau will require additional funding to cover the over time wages to detention staff for escorting civilian construction works and technicians around the interior, secure portions of the jail and while the security camera is off-line and for manning hallways, rooms and modules that lack camera surveillance or electronic keycard entry.

**Justification:** This request may be eligible for ARPA funding - to be determined by the Budget Office.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Data: Intelligent Imaging

**Package ID #:** 297

**Category:**

**Description:** This package represents the investment in two software products which will together enhance department transitions to digital archive and paperless systems. Both are new modules within the county records management system, OpenText: Intelligent Capture and Extended Electronic Content Management (xECM).

**Justification:** Intelligent Capture comes with OCR (optical character recognition) as well as OMR (Optical Mark Recognition), ICR (Intelligent Character Recognition), and barcode recognition which will provides recognition technology for text, forms/fields, and handwriting. The solution comes with advanced analytics and data extraction which will assist in error free scanning and automation as well as providing more extensive search capabilities. One feature that departments have asked for is the ability to OCR additional network file locations - this solution will provide that functionality. While this would provide a solution for current business needs, this will also replace the current Kofax solution used by the IT Enterprise Scanning Center that is no longer under maintenance and support, while also providing greater capabilities. There was \$45K funded in a 2020 budget priority package, but it was not implemented at that time. This package represents implementation of that project which was already authorized in 2020.

Extended Electronic Content Management (xECM) provides integration between OpenText and many application solutions we currently have in the County environment including Office 365, SharePoint, and Dynamics. With the ability to link these Microsoft solutions with OpenText Content Server, we will be able to fully manage the lifecycle of electronic records within the County to properly ensure the creation, retrieval, and destruction of records are enforced and monitored. xECM also provides automated classification and metadata management within the OpenText solution which will provide both cost and time savings as we leverage this technology to replace current manual processes and introduce data governance at a county/enterprise level.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Data: Inventory Classification Study

**Package ID #:** 298

**Category:**

**Description:** This package is to fund a one-time consultant service to perform an extensive data classification and records inventory throughout Snohomish County.

**Justification:** In mid-2021, a new Data Manager position was created to lead the enterprise data management function within the County. A key deliverable for this position and the Enterprise Data Management division within IT is to ensure that through policies, advocacy, and coordination, information created by Snohomish County is stored, retrieved, and archived in a way that aligns with state, local, and federal laws and guidance. In order to perform this work, the county needs to understand not only what records we have, but the sensitivity of the data contained in those records and the proper retention for those records.

By understanding the sensitivity of data in County records, departments will understand what data is public, business sensitive, confidential (PCI and PII), or confidential requiring special handling (HIPAA, PHI, CJIS). By knowing what type of data we have and where it is, we are able to more closely align with industry and federal laws and regulations as well as meet security and disaster recovery standards and guidelines.

In addition to understanding the sensitivity of data contained in County records, this inventory will also identify county records and how they align with state retention requirements. This will provide clarity to records specialist around the county as well as frontline county staff. Additionally, this will enable the IT department to continue to build out automated retention solutions within our Records Management Systems (OpenText and SharePoint).

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Parcel Management

**Package ID #:** 299

**Category:**

**Description:** During the COVID-19 pandemic, CARES funding was used to provide temporary security at the loading dock in the Admin East building. This security staffing allowed parcel carriers (UPS, DHL, FedEx Ground, FedEx Express, etc.) to have a point of contact to coordinate with the mail room and to escort carriers to different locations for package deliveries. With the end of CARES funding, there is no longer a point of contact for parcel carriers to coordinate deliveries. This additional 0.5 FTE would fill that role as well as other mail handling responsibilities. This package also includes funding for procurement of a parcel locker solution that would provide automated and secure storage, notification, and retrieval of packages delivered to Snohomish County campus.

**Justification:** After funding ended for security staffing at the loading docks, mail carriers did not have a point of contact for deliveries or escorts. Some drivers will come to the mailroom because they are familiar with staff and drop off packages with the staff at the mailroom. Because mailroom staff handle USPS and letter mail as well as manage printshop responsibilities, they are unable to dedicate time to parcel carriers as they arrive which causes delays with package deliveries as well as other printshop orders. Some carriers have started to leave packages on the loading docks and have forged mailroom staff signatures in order to avoid delivering to different campus locations.

With the addition of a 0.5 FTE mailroom assistant, this person would coordinate with parcel deliveries and work with carriers to identify packages and their intended recipients and coordinate with departments on pickup. As we are pursuing a parcel locker solution, this person would manage the day-to-day loading of the lockers and notifications that are generated from it. Other duties for this FTE would extend to other mailroom operations surrounding mail receipt and delivery.

Over the past 2.5 years, it has become increasingly difficult to receive and deliver packages through campus for several different reasons: the COVID-19 pandemic has caused changes in procedures of mail carriers as well as departmental procedures for receiving deliveries; the new courthouse requires additional screening and is unable to properly scan and vet the volume of packages that are delivered; and with the county-wide shift to telework, the reduction in onsite staff to receive packages has caused some deliveries to sit for several days causing delays in delivery.

The automated parcel locker solution would allow for mail carriers to deliver directly to the dedicated locker room area and scan in packages to store in the lockers. Once these packages are scanned into the system, contacts throughout the county will get automated notifications about the arrival of their package as well as instructions for retrieval. This will allow staff from across the campus to retrieve packages when convenient and with little-to-no in-person interaction. The solution is fully automated and carrier agnostic meaning that several companies can use the lockers such as USPS, UPS, DHL, FedEx, and more.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** AFSCME RECLASSIFICATION

**Package ID #:** 301

**Category:**

**Description:** District Court requests funding to reclassify our Accounting Specialist position to an Administrative Specialist position to align the position with the current responsibilities and job tasks performed by the incumbent.

**Justification:** Currently, District Court's Accounting Specialist salary is pay grade 312 with a salary range of \$54,306 at step 1, to \$66,080 at step 5. AFSCME, Local 1811 CA, requested reclassification of the position. The District Court agrees the Accounting Specialist position should be reclassified. The Accounting Specialist position description does not accurately describe the duties required of this position which are currently performed by the incumbent. District Court requests that the Accounting Specialist position be reclassified to an Administrative Specialist, pay grade 238, with a salary range of \$63,875.52 to \$77,621.04. The Administrative Specialist position description includes all of the duties currently performed by the incumbent, unlike the Accounting Specialist position description.

The Accounting Specialist position duties in the position description revolve around payroll tasks, accounts receivable, and accounts payable. Unlike the Accounting Specialist position description, the Administrative Specialist position description includes developing and maintaining computerized financial management systems, assisting with equipment procurement, developing and implementing strategies for a paperless initiative, preparing documentation for budget transfers (JV) and for supplementary budget requests, assisting with county personnel practices and procedures (HR assistance), training employees for new software implementation, maintaining equipment inventory lists, developing forms and templates, planning and carrying out events, and serving as an efficiency and lien expert for programs and operations. Our current Accounting Specialist performs the majority of these tasks and will need to perform the remainder in 2022 as District Court advances its technology and becomes paperless in early 2023.

District Court's current Accounting Specialist position description is not in alignment with modern position descriptions for public employees. Further, it is not in alignment with the classification or pay plans of District Court's other administrative positions that are classified in the 200 series, namely the Public Disclosure Administrative Specialist (pay grade 238), the Network Administrator (pay grade 240), and the Administrative Analyst (pay grade 241). The duties of our current Accounting Specialist are administrative in nature, not clerical in nature. The duties are completely unlike those of our Legal Process Assistant IIs who were recently reclassified in the clerical pay scale to pay grade 312.

Our Accounting Specialist position is a critical position. If the incumbent vacated the position today and District Court needed to fill the position, we could not utilize the current Accounting Specialist position description to recruit and hire an individual to perform all of the necessary and required duties of the position. This is because our Accounting Specialist performs many duties outside her position description.

District Court understands that the County may desire to keep all employees who perform payroll in the same position description. However, the County has many different departments and two courts. The departments and courts are different sizes and perform different functions. The duties that one large department or court may require of their employee(s) who perform payroll, will not necessarily align with the duties required of that position in a much smaller and different department or court. In the case of District Court, we need our Accounting Specialist to perform far more duties than those enumerated in the Accounting Specialist position description because we have only four administrative positions and our staff wear many hats. Currently, we are paying our Accounting Specialist out-of-class as an Administrative Specialist, pay grade 238, because her

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Department:** 24 District Court

**Short Name:** AFSCME RECLASSIFICATION

**Package ID #:** 301

**Category:**

duties exceed the Accounting Specialist position description and align with those set forth in the Administrative Specialist position description.

Based on the needs of District Court and the demands of the position, the Administrative Specialist position description accurately includes the duties required of the payroll position in District Court. Further, it better aligns with District Court's other administrative positions. We respectfully request that the Accounting Specialist position, pay grade 312, be reclassified to an Administrative Specialist position, pay grade 238. The incumbent is at step 5 of pay grade 312 (\$66,080 annual), and would move to step four of pay grade 238 in January 2023, and step five of pay grade 238 in May, 2023 for a 2023 annual salary of \$76,361. The cost of this reclassification is \$12,181 including salary and benefits. District Court will provide the calculation for this reclassification upon request.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 06 Public Works

**Short Name:** 102 - Records Librarian FTE

**Package ID #:** 305

**Category:**

**Description:** This package request is for a new Records Specialist FTE in the Administrative Operations (AO) Division.

Public Works is required by statute to maintain official records documenting the County's infrastructure and changes made to it. Most of these records are in paper format, aging, and stored in numerous locations. The official records which are in electronic format are stored in multiple network locations and are often duplicated. Very few of these records are consistently named or catalogued. As a result, it is increasingly difficult to locate, protect, and store over one hundred years' (and counting) worth of records generated by five different divisions. Yet these are records that the County is obligated to keep. A Records Specialist specifically and singularly dedicated to the management of these official records is required to ensure that these important records are protected but accessible to everyone.

**Justification:** A Records Specialist is needed to act in a "librarian" role to identify and inventory official records, from which a transparent and consistent storage and retrieval system can be developed. The five individual Public Works divisions do not have adequate resources and expertise to achieve these stated goals. Significant coordination and oversight will be required to identify, digitize, catalog, protect, store and access. These asks which are more achievable through a dedicated records management specialist as opposed to tasking disparate staff who have other specialties and job responsibilities. By providing leadership in this effort, it will assist staff across the department to manage and organize department records more efficiently and strategically.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

	<b><u>Package Type</u></b> CIP - Capital	<b><u>Department:</u></b> 18 Facilities Management
<b><u>Short Name:</u></b>	2023-2028 CIP_Facilities Projects & Manager	<b><u>Package ID #:</u></b> 307
<b><u>Category:</u></b>	Campus Enhancements/Other Buildings	

**Description:** A comprehensive study of the condition of County buildings was conducted by MENG Analysis in 2015. This priority package is consistent with the report's recommendations. It may include proposals not included in the report but is necessary to address life safety and other issues to maintain the viability of County facilities.

The recommendation was to fund building related major repairs and maintenance at \$10 million a year. At this time, this is not possible because of the County's financial condition. To fund the selected proposals a surcharge is collected from departments on an annual basis. For 2023 the proposed allocation remains \$1,800,000.

Beginning 2023 SubFund 322 will no longer be utilized, and instead SubFund 329 will start being used to appropriate revenue and expense for CIP projects.

**Justification:** We recommend these projects for the 2023 budget:

**PROJECT MANAGER \$200,000**

Annual allowance for the personnel cost of a Capital Projects Manager (project position) and related overhead costs.

**ADMIN WEST ROOF REPLACEMENT \$200,000 (\$890,000 to date: \$400,000 in 2022, \$400,000 in 2020, and \$90,000 in 2017)**

The roof is comprised of a concrete slab on a metal deck on steel beams, steel/concrete columns, that was installed in 1971. The lower area roof is newer modified bitumen. The upper roof is older material showing deterioration. Some rust is showing on the roof projections. Solar panels were added that will need to be removed to replace the roof. The roofing is beginning to fail and areas have been damaged by wind, leaking into the stairwell, restrooms and the areas below. The 50 year old roof has seen its day and served us well. This replacement will alleviate the leaks we've been battling and mitigate any further damage.

**PARKING GARAGE ELEVATOR ENGINEERING STUDY \$250,000**

This study is to determine root cause of possible threats to structural components in the lower level elevator lobby area of the RJD building. The study is needed to ensure that the building structures have the appropriate structure in place to withstand all the weight, weather, and other stressors that are placed on it and also ensure that there are no aggressive factors threatening structural components. Repetitive maintenance items indicate that additional investigation and review of the elevator shaft walls is needed in order to protect critical equipment.

**REPLACE KITCHEN EQUIPMENT \$100,000 (\$450,000 to date: \$350,000 in 2022 and \$100,000 in 2019)**

This is an annual allotment for jail kitchen equipment, which is used and cleaned by inmate workers under the direction of the kitchen contractor. The equipment is used to prepare 3 meals per day every day of the year and sustains heavy wear and tear. These funds support replacement of commercial correction security grade ovens, cookers, carts, chillers and dishwashers to support inmate and staff meals when they can no longer be repaired. This is a supplemental budget in addition to the \$50,000 allowance in Fund 316.

**COURTHOUSE ELEVATOR MCE CONTROL REPLACEMENT \$75,000**

The existing 5 story traction elevator was installed some time ago and received a modernization upgrade during

**Category:** Campus Enhancements/Other Buildings

the Courthouse project, however, the motion control engineering (MCE) elevator controller was not replaced. There are multiple failure points on the relays, capacitors, resistors and other electrical components within the elevator system that have reached their life cycle and need to be upgraded.

WALL JAIL UPDATE FIRE ALARM PANEL AND WIRING \$725,000

The current fire alarm system is past its useful life. This project would install all new equipment and devices required to replace the fire alarm system and remove old components and wiring not being used for the operation of the new fire alarm system. This will upgrade the system to a modern fully-addressable system per County standards. The system will be installed to NFPA 72 fire regulations.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 18 Facilities Management

**Short Name:** Position Reclass/EE Upgrade - Facilities Mgmt Adm

**Package ID #:** 309

**Category:**

**Description:** This package covers the proposed reclassification of two positions as submitted to Human Resources for consideration in the 2023 budget. These positions are in the Administrative Services unit of our Facilities Management Division.

Justification documents have been submitted to Human Resources, and HR is currently reviewing these proposals. This priority package is created to ensure that there is sufficient appropriations in the 2023 budget to authorize the fiscal impacts of the reclasses in the event that HR and the Executive support the change in pay for these positions.

In summary, this priority package includes the reclassification request for these 2 positions:

- 1.00 FTE - Accounting Technician II to Accounting Specialist (From Paygrade 310 to 312)
- 1.00 FTE - Facilities Project Leader to Projects Advisor (From Paygrade 242 to 245)

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks Ranger Project Positions

**Package ID #:** 311

**Category:**

**Description:** This package re-establishes three project positions that are provided in partnership with other County Divisions and Departments, and which were zeroed out in the Position Allocation Base. These positions are important for providing efficient, quality services and are all supported by revenue from those other Divisions and Departments. Revenues to support these positions are included in 680 base revenue as Interfund Services.

This package supports County priorities to meet the needs of County residents efficiently and with excellent service.

**Justification:** The following project positions are fully revenue supported and are noted as vacant due to vacancies within the Ranger group but staffing is currently available to meet the needs addressed by this package:

NEW0902P/CNR7281P - Vacant - Park Ranger - 1.0 FTE Solid Waste - Flow Control (Program in place since 2017)

NEW0903P/CNR7282P - Vacant - Park Ranger - 1.0 FTE Solid Waste - Flow Control (Program in place since 2017)

Continued Snohomish County Solid Waste funding of two (2.0 FTE) Park Ranger Project positions to investigate and enforce violations of the law regarding solid waste "Flow Control" – illegal hulk haulers, or fake recyclers that haul garbage out of Snohomish County, circumventing tip fees and costing Snohomish County lost revenue. This program began in June of 2017 and has been successful in reducing violators.

The Parks Division and Public Works have agreed to continue this arrangement and this package reflects this intent. The 2023 Budget includes Salary/Benefits, uniforms supplies and phone. All other operating costs will be covered directly by PW/Solid Waste Division. The interfund transfer has been budgeted to offset expenses.

NEW0904P/CNR7234P - Vacant - Park Ranger - 1.0 FTE Narbeck Sanctuary (Program in place since 2013)

Continued Snohomish County Airport funding of one .75 FTE Park Ranger Project position to provide operational management for the Narbeck Wetlands Sanctuary, which included the cost of .75 FTE Park Ranger and uniform; (other .25 is base General Fund approved) a support vehicle and supplies are paid directly by the Airport. Since this position was established in 2013 it has been reviewed every two years to determine the continuation of the program and extension of the position. The Airport has approved to extend the program through December 31, 2023.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   09 Conservation & Natural Resour

**Short Name:**   DCNR - Parks Trail Stewardship

**Package ID #:**   312

**Category:**

**Description:**   Soft surface trails are often viewed as organically emerging and requiring little design, oversight or maintenance. Trails however are consistently identified as one of the most valued amenities that Parks offers and recent experience with Lord Hill has shown that issues can arise when trails are not thoughtfully designed and, more importantly, not maintained or monitored for appropriate use and rogue construction. Lord Hill is not the only site where this concern is an issue however. Soft surface trails are provided at approximately 40 park sites and significant trail concerns have been identified at Southwest County Park, Paradise Valley and others. Additional soft surface trails will continue to come online, including those aimed at serving the rapidly growing mountain biking community, and the need for a dedicated trail crew will help improve provision of this valued amenity and reduce future issues.

This package proposes two FTEs to focus on soft-surface trail amenities in order to monitor and remove rogue construction, maintain trail vegetation to preserve appropriate trail width for the intended use, maintain trail tread to reduce erosion issues, reconstruct sections of trails that pose safety risks or impact sensitive areas, maintain wayfinding signage, remove safety concerns such as hazard trees and work with volunteer groups to further trail improvements and community ownership of their trails. This crew will specialize in trail construction and maintenance standards and regulations and will also be able to complete small scale trail construction projects.

This proposal addresses County priorities of providing quality recreation services, being good stewards of our natural spaces by ensuring trails do not negatively impact natural areas and also enhancing public safety by monitoring and addressing hazards (including trees). Further, trails are an accessible recreation activity, in that most anyone can participate without needing to invest in specialized equipment. As an amenity, trails serve a wide diversity of users and can be enjoyed regardless of income, age and ability, with a range of opportunities to match physical abilities.

**Justification:**   Snohomish County currently has approximately 50 miles of soft surface trails and 58 miles of Regional Trails spread over approximately 40 park sites. Current maintenance includes side arm mowing of the Regional Trails and clearing/removal of hazards on natural trails, primarily when an issue is reported by a user. Ranger staff monitor trail conditions as they are able and often work with volunteers to complete trail maintenance tasks. This approach has kept current trails open, but significant deferred maintenance has accumulated (eroding trails, narrowing tread, loss of surfacing, etc.) and staff has not been able to keep up with rogue trails and various unauthorized construction such as bike jumps, pump tracks, etc.

Dedicated staff will be focused on addressing safety issues (trail crossings, unauthorized jumps, hazard trees, etc.), correcting natural resource impact areas (e.g. rerouting trails that are impacting wetlands), improving wayfinding and maintaining trails for the designated use. This work will improve park user experiences by improving safety, reducing conflicts between users, protecting natural areas and making navigation easier. This crew will also be able to complete small trail construction projects, which will result in construction cost savings.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste FTE Additions

**Package ID #:** 313

**Category:**

**Description:** This package contains a request for three (3) additional FTE positions to the Solid Waste Division (SWD) in the 2023 budget.

These positions deliver indirect service to customers by providing vital administrative and planning support services.

- 1 - Administrative Specialist
- 2 - Project Specialist IV

**Justification:** In 2009, the Solid Waste Division reduced its total workforce by 40 FTEs, or approximately 25% of the workforce, in response to the economic recession and corresponding reduction in MSW tonnage (approximately 22%). Since 2010, four (4) non-Operations vacant positions have been reclassified to Operations positions to delay requests for new positions. Due to the age of facilities, additional legislation and rulemaking, and a complex set of leave requirements, the SWD realizes it is currently understaffed in its Planning and Administration programs.

The requested three (3) new positions are a 1.9% increase to the current 157 FTEs in the SWD. The Division's tip fees and total revenue are adequate to cover the additional staff expenditures.

Additional justification by classification follows:

Administrative Specialist: One (1) Administrative Specialist is required to manage the growing set of requirements for employee leave within the SWD. Currently, these duties are assigned to multiple employees, and the SWD does not have an assigned person who is a specialist in this field. This position is similar to one in Road Maintenance, where a single person is in charge of managing leave cases. Duties include working with the employee, medical providers, Risk Management, PWHR, and CHR to ensure all rules are followed and time is properly documented in the timekeeping system.

Project Specialist IV: Two (2) Project Specialist IVs are required to support the SWD comp plan. Duties for these positions will include but are not limited to:

- Manage projects required to maintain existing facilities and infrastructure
- Plan for future growth
- Implement climate change initiatives
- Implement robust recycling initiatives
- Work on EPR legislation
- Create, monitor, and recommend changes to the SWD budget
- Procure grants to support SWD programs and projects
- Develop beneficial use projects for closed landfills

As stated above, these positions previously existed in the SWD, but were reclassified to Operations positions to defer requests for new positions. If these positions are not budgeted, many of the above mentioned programs will be difficult if not impossible to carry out with the existing level of FTEs in the Planning Program. It is anticipated that these positions will increase the procurement of grants, thereby offsetting a portion if not all of the increased salary expense.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 05 Planning

**Short Name:** PDS Interfund Transfer for General Public Assist

**Package ID #:** 314

**Category:**

**Description:** Request General Fund transfer for general public assistance historically covered by permit fees.

**Justification:** PDS is requesting a General Fund transfer to Permitting Fund 193 (via the interfund transfer process) for general public assistance historically covered by permit fees. PDS's permitting revenue has been covering the staff time spent on general public assistance. Some jurisdictions receive a general fund contribution to help cover this work, but PDS historically has not. In order to keep PDS fiscally sound well into the future, we ask that the county consider General Fund support equivalent to the cost of 2 FTEs to provide general public support.

The time spent by PDS staff on general public assistance is significant. Permit fee revenue bears the burden of the the following tasks:

(1) Responding to inquiries from the public via the phone, email, online "Ask Permit Tech" submissions, and in-person. The types of inquiries fall into two main categories: those related to permitting but which do not result in permit revenue, and those completely not related to permitting. The public has a lot of questions about the permitting process, building codes, land use, parcel/zoning information, etc., all of which do not result in permit revenue. PDS also gets questions not related to permitting on topics such as recorded documents, public works, county records, fire-related complaints and questions, Assessor's use designations on properties, tax exemptions, the comprehensive plan/GMA, docketing, water/sewer, Transfer of Development Rights, code enforcement, status of developments that have been constructed and occupied for decades, properties not in the unincorporated areas, annexations, business licenses, and the Snohomish Health District (wells, septic, as-built, etc.). PDS estimates that the time of approximately two to three FTEs are spent merely helping the public and answering general questions, interactions which do not directly result in permit revenue.

(2) Responding to public records requests for not only permitting records but all kinds of other county records, such as requests coming into other departments and the County Public Records Office for which PDS has to search, vote and produce general records if applicable. These can be related to litigation, email searches, accounting records, personnel, etc.

While these tasks noted above are considered "related" to permitting functions, and legally permissible to be funded out of permit fees, they put a large pressure on PDS's budget. Over time, as the county's share of the housing market declines (due to city annexations, GMA policies, the shift in the housing market, and a shortage of buildable land in the unincorporated areas); general assistance becomes a larger percentage of overall staff time than in past years. In addition, maintaining permitting records for the public's use is a considerable task and requires significant resources.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 18 Facilities Management

**Short Name:** Fund 316\_Annual Contribution

**Package ID #:** 315

**Category:**

**Description:** Fund 316 was recreated in the 2019 budget to gather annual fund contributions with the objective to gather sufficient funds in the future to replace specialized equipment in various general fund departments.

An initial contribution of \$50,000\* and \$24,000 were budgeted in 2019 for Sheriff - Corrections and Medical Examiner, respectively and is already included in base revenue.

In the 2020 budget, funding for DJJC and Sheriff Gun Range was added to this fund as these entities also have needs to replace specialized equipment in the future,

This is the priority package to continue the contribution as follows (in 2022): DJJC at \$50K, Gun Range at \$15K, Corrections at \$100K, and ME at \$24K)

**Justification:**

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 18 Facilities Management

**Short Name:** Facilities Position Change from Project to Regular

**Package ID #:** 316

**Category:**

**Description:** This package covers the proposed change of a project position that was approved for 2022 to a regular position. The Business Technology Analyst project position has proven to be an important asset to the department, and we recommend making this a regular position.

**Justification:** The 2022 Snohomish County annual budget was approved by the Snohomish County Council with Ordinance # 21-093 on November, 9, 2021. The 1.00 project position Business Technology Analyst was included in that ordinance, to commence on January 1, 2022 and end on September 30, 2023. The incumbent has proven this position to be mission critical, and it is heavily relied upon by staff as a daily resource.

We are requesting that position FAC7478P become permanent starting 2023.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 18 Facilities Management

**Short Name:** New Positions/Reclasses - Facilities Maintenance

**Package ID #:** 317

**Category:**

**Description:** This package covers the proposed reclassification of two positions as submitted to Human Resources for consideration in the 2023 budget. These positions are in the Maintenance unit of our Facilities Management Division.

Justification documents have been submitted to Human Resources, and HR is currently reviewing these proposals. This priority package is created to ensure that there is sufficient appropriations in the 2023 budget to authorize the fiscal impacts of the reclasses in the event that HR and the Executive support the change in pay for these positions.

In summary, this priority package includes the following new position/position reclassification requests:

- 1.00 FTE- New/Projects Advisor-Sustainability and Energy (Paygrade 245/NEW1808R)
- 2.00 FTE- Reclass two Facility Technician II positions (Paygrade 234) to Facility Technician IV positions (Paygrade 239)  
(FAC2630R, FAC2631R).
- 1.00 FTE- Reclass Facility Capital Project Specialist (Paygrade 238) to Building Systems Engineer (Paygrade 243) (FAC2744R)
- 1.00 FTE- Reclass Facility Supervisor II (Paygrade 245) to Facilities Manager (Paygrade 111) (FAC2570R)
- 1.00 FTE- Reclass Facilities Technician III (Paygrade 236) to Facilities Technician IV (Paygrade 239) (FAC2576R)
- 1.00 FTE- Downgrade Facility Operations Planner (Paygrade 240/Position # FAC2628R) to Facilities Management Services Coordinator  
(Paygrade 311/Position # NEW1805R, Administrator Coordinator title is a placeholder until BDT is updated).
- 1.00 FTE- Reclass Facilities Technician Lead (Paygrade 241/Position #FAC6201R) to Facility Maintenance Supervisor I ( Paygrade 244/Position #NEW1803R)

This Priority Package also includes updated info as one of our technicians was promoted through competitive hire to a higher vacant position. (FAC5241R)

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Reclass for Represented Employees

**Package ID #:** 318

**Category:**

**Description:** This expenditure is in response to the represented employees' requests for reclassification of four positions, affecting eight employees, within the Treasurer's Office. This request affects the alignment of two other positions within the department's customer service department. Therefore, the Treasurer's office is proposing a change two additional classifications for a total of 8 positions.

The management's position is that the reclassification request made by the bargaining unit is defensible and credible. They requested a two step increase for each position. The Treasurer's office responded to the bargaining unit request with a one step increase instead of two and added more specific duties to each job description. This process has a distinct advantage over the compensation and classification study because management was able to add additional job duties to job descriptions that benefited the organizational goals for the Treasurer. The bargaining unit endorsed the management's counter proposal. This reclassification process used the current method stated in the county's policy and is under review by the Human Resources Department. It is the intent to use budgeted 2022 surplus to fund retro pay portion of \$81,000. The subsequent positions will be affected:

1. Payment Processing Specialist from a 308 to a 309
2. Property Account Technician from a 308 to a 309
3. Treasurer Tax Specialist from a 312 to a 313
4. Tax Collection Specialist from a 312 to a 313
5. Excise Tax Specialist from a 309 to a 310
6. Excise Tax Specialist Lead from a 313 to 314

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Reclass for Nonrepresented Employees

**Package ID #:** 319

**Category:**

**Description:** This expenditure request represents the attempt to fill a significant deficit in salary for two positions, Tax Collection Systems Supervisor which is a management exempt position and Administrative Assistant which is a fully exempt position. Both positions have a significant job requirement that do not match salary. The Treasurer's office understands that an evaluation is undergoing with the compensation and classification study. Indicative of this study, it is imperative that these positions receive an increase in base salary to keep up with market rate for these positions including the requirements for basic functions, the essential job duties, and the educational and skills required for these positions.

Specifically with the administrative assistant position, included in the job reclassification request, the Treasurer's office is requesting a job title change from Administrative Assistant to Executive Assistant. The job duties and responsibilities of this fully exempt position compares and parallels the responsibilities and duties of an Executive Assistant that works for other department heads or the Executive's office. Specifically, with the Tax Collection Systems Supervisor position, this position has distinct characteristics. It requires a high level of proficiency and accuracy, it is responsible for two more professional and legal fields, and implementing solutions to complex problems affecting taxpayer's unique situations.

Job reclassification proposals have been submitted to the Human Resources Department for review. The step increases requested are as follows:

1. Tax Collection Systems Supervisor from a 242 to a 243
2. Administrative Assistant - Treasurer from a 107 to a 108

**Justification:**

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Cash Management Application

**Package ID #:** 320

**Category:**

**Description:** As a core function of the Treasurer's office, liquid assets are used to generate revenue for the benefit of the County's general fund. A cash management software system will increase the revenue generated by the County's cash reserve. This tool will enhance the Treasurer's office ability to improve the use of liquid and non-liquid assets. The goal is to advance and maintain cash inventory levels to a minimum, investing surplus cash, and planning for capital expenditure.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS ProVal/Ascend Replacement

**Package ID #:** 322

**Category:**

**Description:** This expenditure is required to implement the new tax parcel management software. Revenue from bond proceeds will interfund to cover the required expenditure. This expenditure will fund a temporarily project position and overtime costs for current employees. Currently, the FTE portion of the project budget has not been used at the funded level. Now that the implementation process is increasing in its scope, the use of the pre-funded resources is needed. Additionally, this request will include a training component specific to the Aumentum software.

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 / Parks 411 - Shared Supervisor FTE

**Package ID #:** 324

**Category:**

**Description:** This priority package reallocates the FTE of a PW Supervisor II serving as the Shared Services Supervisor for DCNR. The FTE will be split 0.5 to Parks and 0.5 to SWM.

**Justification:** As part of the creation of the Department of Conservation and Natural Resources, a Shared Services group was formed within the department. Multiple positions were allocated to this group during the 2022 budget planning. Later in 2022, an existing vacant SWM position was reclassified and converted to a Shared Services Supervisor role. This position oversees staff across the department and the salary is paid jointly by Parks and SWM. This package formalizes the shared costs of 0.5FTE by Parks and 0.5FTE by SWM.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Senior Planner - Project Position

**Package ID #:** 326

**Category:**

**Description:** This priority package requests one project position in SWM to support the increased work for the Community Floodplain Solutions program. This position will have 3-year term, with potential for extensions, and will be fully supported by grant funding.

**Justification:** A Senior Planner project staff position is needed for the Community Floodplains Solutions (CFS) Program and specifically the Floodplains by Design (FbD) grant(s) project.

SWM has been very successful at working with partners to secure several Washington State Department of Ecology-FbD grants, and is anticipating receiving another grant award in 2023. SWM received \$4.8M for Phase I in 2019, \$8.5M for Phase II in 2021, and is expecting a \$9.9M grant award in 2023, although this could also be significantly increased to as much as \$17.7M for Phase III.

SWM has been supporting this grant work with 1 FTE Project Specialist IV position. The need for additional staffing support has grown since the first grant award in 2019. The FbD grant planning and project design work has largely been completed in Phase I/II. The new 2023 Phase III FbD grant will focus on implementing projects. The Senior Planner project position will support the FbD grant project with contract and consultant management, acquisition coordination and implementation, community outreach efforts, and grant reporting and management.

The project position will be fully funded by the FbD grant(s) for 3 years from 2023 through 2025 (FbD Phase II-WO277 and new 2023 Phase III FbD WOXXX). The grant work is expected to continue through 2027 with a possible extension until 2029. If additional grant funding is secured for FbD projects, SWM may request this to be converted to a permanent position in the future.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 Reimbursable Program Adjustments

**Package ID #:** 327

**Category:**

**Description:** This priority package reflects adjustments to the Surface Water Management Division Reimbursable Program (Program 514).

**Justification:** REIMBURSABLE PROGRAM (Program 514) – The 2023 budget request is a decrease of 8% compared to the 2022 approved budget. The Reimbursable program provides surface water-related analysis, design, and technical assistance services as requested and funded by other divisions and departments.

Change from Proforma Budget

Decrease to the Reimbursable Program reflects movement of approximately \$20K in SWM salaries and benefits from SWM's Reimbursable Program to SWM's Drainage Capital Program.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR 309 Fund Tier 2 Wish List

**Package ID #:** 330

**Category:**

**Description:** TIER 2 PROJECTS

The following potential projects are from multiple programs (trails, community parks, regional parks, special use, support, and open space/preserve). Each of the Tier 2 projects have been identified as a suitable project for meeting the goals of Snohomish County and Parks or are important for ongoing maintenance. Finding for these projects exceeds what is available so they have been included for consideration as "Tier 2".

Snohomish County's Park Improvement Plan for Tier 2 consists of the following projects:

**WHITEHORSE TRAIL BRIDGE ANTI-SLIP STRIPS:** This project will include the purchase of anti-slip strips that will be installed by parks staff on all bridges along the Whitehorse Trail. The wood surfacing on the bridges is slippery and the anti-slip strip is a safety measure to prevent pedestrians and bicyclists from slipping and/or injury. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$190,000 (REET 2)

Future Years: 2024 - \$100,000 (REET 2), 2025 - \$200,000 (REET 2), 2026 - \$200,000 (REET 2), 2027 - \$200,000 (REET 2), and 2028 - \$200,000 (REET 2),

Project Start/End Date: 2023 - ongoing

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

**FORSGREN PLAYGROUND – UNITARY SURFACING:** This funding will be added to the Forsgren Playground Renovation project listed above and it will allow for the installation of unitary safety surfacing (ex: poured-in-place rubber, rubber tiles, or playground grass). Unitary safety surfacing will reduce the requirement for ongoing maintenance of wood chip surfacing, which needs to be regularly maintained and regularly added. Unitary surfacing is a key element in playgrounds that are inclusive for people of all ages and abilities to play as it is far easier for people who use wheelchairs, or have other mobility disabilities, to move around on than wood chip surfacing. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$200,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

**SLIP RESISTANT BOARDWALKS:** This project will allow for installation of anti-slip strips on boardwalks throughout the park system including the boardwalks at North Creek Park, Spencers Island, Tambark, and

**Category:**

Martha Lake. The funding would allow for one park to be completed each year. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$200,000 (REET 2)

Future Years: 2024 - \$200,000 (REET 2), 2025 - \$200,000 (REET 2), 2026 - \$200,000 (REET 2), 2027 - \$200,000 (REET 2), and 2028 - \$200,000 (REET 2)

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

NORTH CREEK BOARDWALK IMPROVEMENTS: This project includes improvements to the existing boardwalk such as wooden board replacements and new floats for the floating dock. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

LAKE ROESIGER – CAMPGROUND SHELTER: This project will add a new picnic shelter with amenities such as picnic tables, fireplace, and grills to the Lake Roesiger Campground. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

CENTENNIAL TRAIL – PAVING OVER GRAVEL PARKING LOTS: The current parking lots along the Centennial Trail are gravel which requires a lot of additional on-going maintenance activities and time. This project will allow for paving the existing parking lots with asphalt over the existing gravel. The parking lots are in the county area: Pilchuck, Mechias, 20th Street Lake Stevens, HWY 92 near Lake Stevens. This will allow for one parking lot to be paved per year with asphalt. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Project Start/End Date: 2023/2028

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

MARTHA LAKE AIRPORT PICKLEBALL COURTS: Community interest is growing for Pickleball and it is becoming a very popular sport throughout the region for park users of all ages. This project will begin with design and community outreach to plan a new 6-8 court pickleball area at Martha Lake Airport Park and would be constructed beginning in 2024. This project may also be a good candidate for additional grant funds in the 2024 RCO grant cycle. The space can be used for regular play and also competitions which would have a regional draw. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$1,000,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

KAYAK POINT GOLF COURSE – CLUB HOUSE ABATEMENT: This funding will allow for asbestos abatement at the Club House. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$40,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

**Category:**

FLOWING LAKE – DOCK REPLACEMENT: This funding will allow for the removal of the existing, aged dock and replacement with a new dock. This project may also be a good candidate for additional grant funds in the 2024 RCO grant cycle. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$1,000,000 (REET 2 and anticipated grant)

Project Start/End Date: 2025/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

FLOWING LAKE – MOUNTAIN BIKING PARK: This funding will allow for the planning and construction of a Mountain Biking Park at Flowing Lake or another park yet to be identified. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$1,000,000 (REET 2)

Project Start/End Date: 2025/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

SKY VALLEY SPORTSMANS PARK DEVELOPMENT: This funding will be utilized for consultant services to plan the Sportsman's Park Development. The estimate for full buildout is \$50 million. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023/2024

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

MOUNTAIN BIKING PARK – FEASIBILITY STUDY: This funding will be for consultant services and site studies for a feasibility study to identify a candidate site for a new Mountain Biking Park which is anticipated to draw strong community support. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000

Future Years: \$0

Project Start/End Date: 2023/2024

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

TWIN RIVERS – CRICKET PITCH: Cricket is a sport that is gaining popularity with youth and adults in our region and Snohomish County Parks has limited cricket fields and cricket pitches. This project would install a new cricket pitch at Twin Rivers Park within the existing grass ballfield. Cricket fields are among the largest sports field and Twin Rivers is an ideal site that is level and will allow for a full cricket field of play. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2024 - \$150,000

Project Start/End Date: 2024/2024

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

PLAYGROUNDS – REPLACE ENGINEERED WOOD FIBER WITH UNITARY SURFACING: This funding allow for the installation of unitary safety surfacing (ex: poured-in-place rubber, rubber tiles, or playground grass) in existing playgrounds that have engineered wood fiber (ie: wood chips) safety surfacing. Unitary safety surfacing will reduce the requirement for ongoing maintenance of wood chip surfacing, which needs to be regularly maintained and regularly added. Unitary surfacing is a key element in playgrounds that are inclusive for people of all ages and abilities to play as it is far easier for people who use wheelchairs, or have other mobility disabilities, to move around on than wood chip surfacing. Funding is divided to allow for one existing playground to be resurfaced each year. Funding is proposed as follows:

Prior Year Balance: \$0

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   08 Economic Development

**Short Name:**   Economic Development/ Tourism

**Package ID #:**   331

**Category:**

**Description:**   This package reflects the changes to the baseline Tourism Funds. Fund 116 Lodging Tax - Local Sub-Fund 001 and County-wide Sub Fund 002, as well as the Tourism Promotion Area Fund 100. These are consistent with the Five Year Plans.

This package also reflects changes to FTEs, as part of the transfer of Tourism from Dept 01 Executive, to Dept 08 Economic Development.

**Justification:**   Tourism Promotion Area (TPA) Fund - 100  
Expenditures: Base expenditures adjusted to reflect 2023 workplan and 5 Year Plan.

Revenues: Revenues are set to reflect projected fund recovery in the 5 Year Plan. Per the approval of Ordinance # 20-023 amending Title 4, Chapter 118 to increase the Tourism Promotion Area (TPA) lodging charge from \$ 1.00 per night to \$ 2.00 per night. This charge became effective on July 1, 2020 and is reflected in the updated revenues. Estimates for 2022 are based on 93% of 2019 - as we believe that, while the tourism industry is rebounding, COVID19 will continue to have an impact on tourism in 2023.

Small Fund - Local Hotel/Motel Tax - 116-001  
Expenditures: Base expenditures adjusted to reflect 2023 workplan and 5 Year Plan.

Revenues: Adjusted based on revenue trends and 5 year plan. Small fund revenues did not see a significant negative impact during COVID - we believe this is due to high demand of camping and short-term rentals during the pandemic.

Large Fund - County-wide Hotel/Motel Tax 116-002  
Expenditures:  
Tourism Programs: Expenditures dedicated to County Destination Development and Marketing Operations (DDMO) have been adjusted to reflect Large Fund recovery, as outline in the 5 Year Plan. In 2023, the County DDMO will continue to prioritize the following: Use of professional digital marketing and public relations services to promote the destination; staff FTE roles to proactively engage industry leaders; manage DDMO and county Lodging Tax Grant programs; and update the county Strategic Tourism Plan (STP), which sets county tourism goals, outputs. The current STP expire at the end of 2022.

Adjustments for Long Term Commitments:  
Lynnwood Convention Center - ILA - Budgeted for \$911,507, but adjustment will be made in 2022 year end reconciliation and deduct what was overpaid for in 2022 so as not to exceed 1/3 of annual receipts per ILA.

Everett Memorial Stadium - Effective in 2022 Everett will receive the same allocation as Lynnwood per ILA \$911,507 (same adj as Lynnwood as outlined above- reflected on 5-year plan).

Edmonds Center for the Arts - Per ILA Edmonds will receive 100k per year for years 2021-2025; after which 100k will be available for PFD application.

Revenues: 2023 revenue projections are set at 95% of pre-COVID revenues. While we are seeing positive recovery trends in the tourism industry, we still believe COVID will impact tourism revenues in 2023. 2023

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 08 Economic Development

**Short Name:** Economic Development/ Tourism

**Package ID #:** 331

**Category:**

projections reflect a slight increase from 2022 revenue projection, which were set at 90% of pre-COVID revenues.

**Fund Recovery:**

Actual Large Fund revenues for 2020 and 2021 were measured at 52% and 77% of pre-COVID revenues, respectively. The combination of revenue loss, along with the LTAC's decision to hold long-term commitments and reserve levels in place at the end of 2021, has put significant stress on the Large Fund.

To assist in recovery of the Large Fund, temporary decreases have been made to the line item dedicated to the County DDMO Professional Services, as outlined in the 5 Year Plan. The temporary decrease to County DDMO Professional Services is made possible through alternative funding options through American Rescue Plan Assistance (ARPA) dollars as well as Tourism Promotion Area fund dollars.

Snohomish County Tourism received \$2.1M from the American Rescue Program (ARPA) to support a County-wide recovery marketing campaign. This relief funding must be spent by the end of 2024.

Application to the Tourism Promotion Area Board to support all or a portion of the vendor base tourism marketing and promotions will also be entertained in 2023.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

Expenditures Package Summary		
FUND 002		\$314,023
FUND 100		\$49,080

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 Position Reclassifications

**Package ID #:** 332

**Category:**

**Description:** This priority package includes contingency funding for three pending position reclassifications, currently undergoing HR review.

**Justification:** Three position reclassifications have been requested for 2023. These requests reflect appropriate classifications supporting actual and increased work responsibilities, as well as reflecting changing business needs with the formation of DCNR, dictating a realignment of new and existing tasks with the proper job classifications.

The costs below represent impacts to salaries and estimated benefits of pending reclassifications submitted the Central Human Resources and pending Executive review.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

Expenditures Package Summary		
FUND	415	\$48,345
TOTAL - EXPENDITURES		\$48,345

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** HS Position Reclassifications

**Package ID #:** 333

**Category:**

**Description:** This package accounts for the budget impact of potential position reclassifications within the Human Services Department.

**Justification:** Three reclassification requests have been submitted: The first is a Union-initiated request to reclassify position #HSV5935R, Network Administrator pay grade 240, to Business Applications Analyst - HSD pay grade 242. Management is supportive of this change, as it reflects the work the employee is actually performing. The second is a Management-initiated request to reclassify two Office Assistant II positions (position #HSV5936R and #HSV6094R) pay grade 305, to Case Management Administrative Assistant pay grade 310. Management is supportive of this change, as it reflects the work the employee is actually performing. And the third is a Management-initiated request to reclassify position #HSV7935R from Research Manager pay grade 111, to Human Services Division Manager pay grade 112. Management requested and is supportive of this change, which will upgrade this positions classification on par with other HS division managers, with similar spans of control and responsibilities. HSV5995R is occupied and remains at Division Manager per the temp reclass in 2022 for training overlap. The potential impact of reclassifying these positions have been allocated to the personnel cost contingency line item of those programs supporting the positions, and the additional cost will be covered by existing revenues from each of the supporting programs. Additional justification in support of these reclasses can be found in the documents submitted to Central Human Resources earlier this year as required per the current Master Agreement with AFSCME.

The following have been submitted by unions for reclassification.

1. Case Manager 237 to 239- Management is not supportive of this reclass.
2. Comm Svc. Counselors 237 to 239- Management is not supportive of this reclass or spec revision.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Public Records - Non CIP

**Package ID #:** 334

**Category:**

**Description:** (See associated package for CIP portion of provided funding - "DCNR Public Records - CIP")

Through the formation of the new Department of Conservation and Natural Resources a number of Transition Teams have been created to review and address specific Department-wide challenges that have been identified and develop recommendations on how to best address the challenges. The issue of handling Public Records Requests (PRRs) became elevated for consideration by a Transition Team when it was identified that Public Works (PW) would no longer be providing this service for Surface Water Management (SWM) after 2022. Currently, PW provides the equivalent of .3 FTE for this service to SWM and there are not staff within SWM who have been trained to complete this work nor have capacity to take this responsibility on.

Within Parks, PRR responsibilities have been primarily handled by the Associate Park Planner, with support by others, accounting to approximately .56 of a full-time position. The amount of time required to process PRRs over the years has grown and this responsibility has interfered with the ability of staff to complete other work. For the Offices of Agriculture and Energy and Sustainability PRR responsibilities have been handled by the Public Records Officer (PRO) and Facilities Department (with support from the PRO) respectively.

The need for a dedicated, DCNR staff person to be the subject matter expert, provide continuity across the department and efficiently process requests was identified as a priority for complying with the Public Records Act of the State of Washington. Further, providing a dedicated staff person will support the County's mission to meet the needs of residents efficiently with quality services. A dedicated staff person will help realize the vision of accessible County government and meets the values of excellent service, efficient government and transparency in our work.

**Justification:** The Public Records Act of the State of Washington requires that all public records maintained by state and local agencies be made available to all members of the public, with very narrow statutory exemptions. Responding to Public Records Requests (PRRs) is a complicated and many times time intensive process that requires trained personnel to comply with State regulations in order to meet the requests and also to avoid potential fines and lawsuits.

Currently public records management for DCNR is completed by four different groups (Parks, PW, Facilities and the Public Records Office), with close to the equivalent of one FTE being dedicated to this work. SWM will be losing support for this task in 2023 and the fractured handling across DCNR has the potential to result in lack of focus on this responsibility, variable handling of requests and inefficiency related to extra coordination. A dedicated staff position will reinforce the importance of complying with the legal requirements related to the act, provide a resource for questions and provide continuity in management of the task.

Funding for this position will be made available by transferring funding that SWM had formally paid to PW for the work, and allocating funding from Parks' and OES' budgets.

Through the formation of the new Department of Conservation and Natural Resources a number of Transition Teams have been created to review and address specific Department-wide challenges that have been identified and develop recommendations on how to best address the challenges. The issue of handling Public Records Requests (PRRs) became elevated for consideration by a Transition Team when it was identified that Public Works (PW) would no longer be providing this service for Surface Water Management (SWM) after 2022. Currently, PW provides the equivalent of .3 FTE for this service to SWM and there are not staff within SWM who have been trained to complete this work nor have capacity to take this responsibility on.

Within Parks, PRR responsibilities have been primarily handled by the Associate Park Planner, with support by others, accounting to approximately .56 of a full-time position. The amount of time required to process PRRs over the years has grown and this responsibility has interfered with the ability of staff to complete other work. For the Offices of Agriculture and Energy and Sustainability PRR responsibilities have been handled by the Public Records Officer (PRO) and Facilities Department (with support from the PRO) respectively.

The need for a dedicated, DCNR staff person to be the subject matter expert, provide continuity across the department and efficiently process requests was identified as a priority for complying with the Public Records Act of the State of Washington. Further, providing a dedicated staff person will support the County's mission to meet the needs of residents efficiently with quality services. A dedicated staff person will help realize the vision of accessible County government and meets the values of excellent service, efficient government and transparency in our work.

**Justification:** The Public Records Act of the State of Washington requires that all public records maintained by state and local agencies be made available to all members of the public, with very narrow statutory exemptions. Responding to Public Records Requests (PRRs) is a complicated and many times time intensive process that requires trained personnel to comply with State regulations in order to meet the requests and also to avoid potential fines and lawsuits.

Currently public records management for DCNR is completed by four different groups (Parks, PW, Facilities and the Public Records Office), with close to the equivalent of one FTE being dedicated to this work. SWM will be losing support for this task in 2023 and the fractured handling across DCNR has the potential to result in lack of focus on this responsibility, variable handling of requests and inefficiency related to extra coordination. A dedicated staff position will reinforce the importance of complying with the legal requirements related to the act, provide a resource for questions and provide continuity in management of the task.

Funding for this position will be made available by transferring funding that SWM had formally paid to PW, for the work and allocating funding from Parks' and OES' budgets.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

	<b><u>Package Type</u></b> Standard	<b><u>Department:</u></b> 09 Conservation & Natural Resour	
<b><u>Short Name:</u></b>	DCNR - Parks Training	<b><u>Package ID #:</u></b>	336

**Category:**

**Description:** This package includes training and certifications that were identified as needed to meet specific Division priorities and also to promote staff retention through provision of growth and learning opportunities. By providing training to existing staff, services can be provided more efficiently through improved delivery of services and by eliminating the need to seek outside resources through contract or other type of agreement. Together this package addresses the County priorities of meeting the needs of residents as efficiently as possible, delivering quality services, being innovative in our approaches, promoting diversity, equity and inclusion and always working to improve stewardship of our natural resources.

Specific training that is included in this package:

Diversity, Equity and Inclusion for all staff - \$20,000

Arborist Certification – \$1,000 total one Ranger and one Planner

Wetland Delineation Training - \$1,500/person - 2 staff

Certified Erosion Control Lead – \$600/person - 2 staff

Crime Prevention Through Environmental Design- \$1,000/person - 2 staff

National Recreation and Park Association Green Stormwater Certificate Program - \$600/person - 2 staff

Certified Playground Safety Inspector Certification (and maintenance equivalent)- \$590/person - 3 staff members

Ranger Academy - \$5,500/person - 2 staff

Supervisor Training – \$1,000 - 7 staff

Law Enforcement Certification - \$4,000 – 1 staff

Property Acquisition Training – \$3,500 – 1 staff

Trail Design - \$3,000 – 1 staff

Ag Forestry Leadership Program (two-year program) - \$10,000 – 1 staff

NRPA Conference - \$2,000 – 1 staff

WASLA Conference - \$450/person – 2 staff

WRPA Conference - \$310/person – 6 staff

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR - Parks Training

**Package ID #:** 336

**Category:**

Cost Estimation Training - \$900/person – 2 staff

GIS Training - \$2,000/person – 2 staff

Construction Specification Institute, Construction Documents Technology Certification - \$550 – 1 staff

Additionally included in this package is an allowance for staff identified training opportunities. This is included to support staff innovation and solution generation in furtherance of the Department's Mission and Vision and also for staff growth. This allowance is set at \$500/person.

**Justification:** The Parks Division has a history of operating extremely leanly, in order to maximize public benefit at minimal cost. This approach has meant that funding for training however has been limited. It is recognized that there are opportunities for increased efficiencies by developing skills within existing staff, which are needed for Division functions, and further that training is valued by staff and can help promote staff retention.

The total cost for this package is \$120,730. The anticipated outcomes are efficiencies in service delivery, increased employee satisfaction and increased retention of staff, saving time in recruiting, hiring and training.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - Administrative Assistant Class Review

**Package ID #:** 337

**Category:**

**Description:** This package requests an updated job description and salary reclassification from a pay grade of 107 to a 109 for the Administrative Assistant (exempt) position.

**Justification:** The original duties for this role were consistent with an administrative assistant, but they've evolved over time, requiring the need for a highly skilled and trusted assistant that now reflects the qualities and skills of an executive level assistant who is assigned to support an elected official.

This position performs executive level assistance directly to the Elected Clerk, Chief Deputy and Management team. The duties include all administrative tasks outlined in the updated job description, including high level meeting preparation (agendas, materials, scheduling of space, etc.) and the ability to exercise good judgment and make decisions within the scope of their assigned authority. A strong degree of confidentiality and discretion is essential in this role as the position will have access to confidential and sensitive documents and decisions made involving the Clerk's Office.

Another significant change in the Administrative Assistant position has been the necessity to assume and become knowledgeable in additional responsibilities surrounding human resource functions such as recruitment, onboarding, separation, benefits, policy changes, FMLA/PFML coordination, and the knowledge and application of state and federal employment laws. These assumed job duties on top of the already extensive list of executive support duties to the Clerk and Chief Deputy, providing payroll/timekeeping and administrative support to staff, accounts payable, and the required knowledge of principles and practices within the law and justice system justifies the need to update the job description. These added duties combined with the unique role of providing support within a complex law and justice department substantiates the need for a salary grade adjustment to the 109 pay scale.

In addition, when comparing similar positions across the county, our Administrative Assistant position is underpaid and classified at a lower rate. In comparison, the Council Administrative Assistant (Spec. 2321), Prosecuting Attorney Administrative Assistant (Spec. 6340) and Superior Court's Superior and Juvenile Administrative Assistants (Spec. 5058) are all classified at the 109 pay grade for the same scope of work.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - Public Disclosure Class Review

**Package ID #:** 338

**Category:**

**Description:** Request for a classification review and salary alignment for Public Disclosure and Systems Specialist position.

**Justification:** The number of public record requests continues to grow and is a significant workload driver for the staff currently in this position. As such, it seems prudent and reasonable to ensure that this position's salary grade is in line with other public disclosure specialist positions within the County.

The following comparable Public Disclosure Specialist positions help support a salary alignment from the 237 pay grade to the 238 pay grade, as the knowledge, skills, and abilities as well as the minimum qualifications are similar or equal.

Current Clerk Public Disclosure and Systems Specialist

Spec No.	Position Title	Pay Grade 237
6175	Public Disclosure and Systems Specialist

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Capital Program Delivery Staff

**Package ID #:** 339

**Category:** Surface Water Management

**Description:** This priority package requests eight new positions in SWM relating to the ongoing transition of SWM out of the Public Works Department. Technology supplies for each new employee, and four new vehicles will also be required.

**Justification:** The Surface Water Management (SWM) division, formerly in the Public Works Department (PW), has historically paid for annual support services from the divisions of Contract Services, Engineering Services, and Transportation and Environmental Services. This has been approximately \$1M of services funded annually by SWM. Given the increasing workloads and capital project demands within PW, they are no longer able to provide assistance to SWM in several key areas. As a result, there is a need to transfer this work from PW to the DCNR. This priority package requests new FTEs in SWM, and also the necessary technology and vehicles for these positions to perform their required functions. Concurrently, Interfund payments to PW will be reduced.

The work being transferred to SWM includes construction contract administration, real property acquisition assistance, right of entry requests, temporary construction easements, permanent easements, and construction management. All of these support functions are essential for SWM to be able to continue to design and construct capital projects and deliver a capital program in the future. A new supervisor will also be needed in SWM to support these additional staff, for a total of eight new FTEs. The Construction Representative Senior and Engineering Technician V positions will also require dedicated vehicles to perform their work.

Both 2021 and 2022 have been transition years for SWM, with ongoing assessment of service needs within DCNR. In the 2022 budget, three positions were transferred from PW to DCNR to continue the provision of support services that were previously provided by PW, including contracting, human resources, and technology support services. For the 2023 budget, SWM and PW leadership assessed the support provided to SWM by PW for construction management, construction contracting and real property services. Given that PW is no longer able to provide support to SWM in these areas for 2023 and beyond, new staff in SWM were determined to be the most efficient path forward to ensure these essential functions are still performed as required to implement SWM capital projects.

New labor charges will be offset by the reduced Interfund payments to PW. Vehicles and initial technology supplies will be purchased using SWM Fund Balance revenues. Ongoing Expenditures and Revenues for these new staff for 2024-2028 are included in the projections noted in DCNR SWM 415 Capital Improvement Program package 376.

**Department:** 24 District Court

**Short Name:** ADDITIONAL JUDGE & SUPPORT STAFF

**Package ID #:** 341

**Category:**

**Description:** District Court requests funding for one additional judge and one additional LPA II to balance workloads, serve the growing population of Snohomish County, prepare for increased filings, and improve access to justice through virtual hearings and therapeutic courts.

**Justification:** Snohomish County District Court is seeking funding to add an additional judge and an additional LPA II to support that judge. Snohomish County District Court needs to increase the number of judges to nine in order to balance the workloads between divisions, respond to our growing population base, prepare for increased filings, adapt to the increased time needed to provide access with virtual hearings, and to increase capacity for the adoption of additional therapeutic court models.

District Court currently has four divisions in four locations. We have a total of eight judges: three judges at the South Division (Lynnwood), two judges at the Everett Division (Everett), two judges at the Evergreen Division (Monroe) and one judge at the Cascade Division (Arlington). Our commissioner, who is located at the Cascade Division, virtually presides over the jail calendar for Everett cases for half of his time, and presides over Cascade cases for half of his time. We are requesting funding for the addition of a full-time judge at the Cascade Division. Adding a judge at Cascade would allow the court to move the commissioner to the Everett Division to conduct the in-custody District Court calendar, preside over the felony first appearance calendar (currently handled by the Everett Division judges), and assist with the projected increase in civil protection order hearings. With only one full-time judge and a half-time commissioner in the Cascade Division, the workload per judicial officer is significantly higher in the Cascade and Everett Divisions than in the Evergreen or South Divisions. In 2021, Cascade had 11,662 filings and 1.5 judicial officers, for a total of 7,774.67 filings per judicial officer. Everett had 18,513 filings equivalent to 7,405.6 filings per judicial officer when including the District Court PC filings and crediting them with 2.5 judicial officers (the two judges plus the half-time that the commissioner serves on the jail calendar). Evergreen had 11,597 filings and 2 judicial officers, for a total of 5,798.5 filings per judicial officer, and South had 18,813 filings and 3 judicial officers, for a total of 6,271 filings per judicial officer. The disparity can also be seen in the number of civil protection matters handled per judicial officer in 2021: Cascade – 196; Everett – 136.5; Evergreen – 111, and South – 105. The workload in Cascade also appears to be a contributing factor in criminal cases taking longer to resolve than in the other divisions. Adding a full-time judge to the Cascade Division and moving the commissioner to the Everett Division, would provide both the Cascade and Everett Divisions with an additional 0.5 judicial officer, and much needed relief from the workloads both Divisions are currently experiencing, and would provide better access to justice in the communities that those two Divisions serve.

According to data from the Administrative Office of the Courts (AOC), Snohomish County is the second largest district court, by filings, in the state of Washington. Snohomish County District Court currently has the same number of judicial officers as Spokane County District Court despite the fact that Snohomish County had 60,586 filings in 2021, and Spokane County had only 40,503. Snohomish County's population has grown by over 15% since 2010, but no new judicial officers have been added to serve the increased population. Snohomish County has a very high number of residents served per judge authorized under RCW 3.34.010. By means of comparison, King County is authorized to have 26 judges, which is one judge for every 89,463 residents, Pierce County is authorized to have 11 judges, which is one judge per every 85,332 residents, Spokane County is authorized to have eight judges which is one judge per every 68,798 residents, while Snohomish County is only authorized to have eight judges which is one judge for every 106,144 residents.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** ADDITIONAL JUDGE & SUPPORT STAFF

**Package ID #:** 341

**Category:**

In addition, the District Court needs to add a judge to be prepared for increased filings. According to the prosecutor's office, there are thousands of criminal matters awaiting charging decisions at that office. While we are uncertain as to the number of cases that will be ultimately filed, we need to be prepared to respond to increased criminal filings. Further, much like the Superior Court which just added a sixth commissioner in anticipation of the impact of recent civil protection order legislation, the District Court anticipates those changes will have a significant impact on District Court judicial resources. We need to be ready with the judicial resources to address these matters.

A ninth judge is also needed to help balance the increased judicial time that is used by virtual hearings. Snohomish County District Court has seen an increase in access to the courts by utilizing virtual hearings where appropriate, but a study by the National Center for State Courts shows that virtual hearings utilize about 34% more judicial time.

Finally, with a redistribution of workloads, judicial resources would be freed up to expand therapeutic courts. Therapeutic courts demand a significant amount of judicial time both on and off of the bench to properly plan and administer. The additional judge in Cascade would allow us to move our commissioner to Everett where they could assist with freeing up judicial time to plan, implement and preside over therapeutic courts.

Our request is supported by the Judicial Needs Estimate published by the Administrative Office of the Courts. Snohomish County District Court currently has eight judges and one commissioner. The most recent Judicial Needs Estimate recommends that 9.56 judicial officers are needed. Those numbers are from projected case filings for 2020 based on the previous five years and do not fully take into account the addition of a contract with the City of Arlington in 2020 which has approximately doubled the number of criminal filings in the Cascade Division.

Snohomish County District Court has the space to add an additional judge in the Cascade Division. The commissioner, currently located at Cascade, would move to the Everett Division, and conduct both morning and afternoon in-custody hearings, in courtroom 3C. Moving the commissioner from Cascade to Everett, will also mean that one jail clerk position will move from Cascade to Everett. District Court requests funding for one additional clerk at the Cascade Division to support the work of the additional judge.

Snohomish County District Court has requested Board of Judicial Administration (BJA) support for a request to the legislature to add an additional judge position in Snohomish County District Court. Legislation, if approved, will not go into effect until July 1, 2023. Accordingly, we request funding for an additional judge and an additional LPA II from July 1, 2023 through December 31, 2023. Salary and benefits for the judge are \$124,030 while salary and benefits for the LPA II are \$41,319, for a total of \$165,349. Copies of all data and spreadsheets relied up for the statistics set forth in this budget request will be made available upon request.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** MANAGEMENT RECLASSES & HR COORDINATOR

**Package ID #:** 342

**Category:**

**Description:** District Court requests funding to align management positions with other County positions with the same responsibilities and to fund one FTE to provide court-wide HR support.

**Justification:** Assistant Administrator: District Court's Assistant Court Administrator oversees day-to-day court operations, supervises five supervisors of five divisions (Cascade, Everett, Evergreen, South and Finance) with 55 staff, and serves as District Court's Human Resources Manager. Her position is management exempt, pay grade 110. The five supervisors that she supervises are management exempt, pay grade 109, only one pay grade below her. Superior Court has two Assistant Administrators, one for Juvenile Court operations and one for Superior Court operations. Both Superior Court positions are pay grade 112, two pay grades above the District Court position. The position description for the District Court Assistant Administrator and the Superior Court counterpart, the Assistant Administrator for Superior Court Operations, are nearly identical. The position description for District Court does not mention human resources management, but our Assistant Court Administrator is also our HR Manager, and she does not have an HR assistant. The District Court Administrator position should be reclassified to pay grade 112. Our Assistant Court Administrator is pay grade 110, step 13, and would advance to pay grade 112, step 07 if this request is granted. The increased cost in the 2023 budget is \$8,721.75.

Probation and Community Programs Manager: Our Probation and Community Programs Manager supervises seven Probation Officers including one lead, two Community Program Coordinators, and a Mental Health Court Coordinator who supervises the Mental Health Court staff. The Probation and Community Programs Manager not only supervises these positions, but she manages all Probation Department programs and courses and our therapeutic Mental Health Court. Although she supervises, she also manages programs with all of the accompanying responsibilities of program management. Our Probation Department has been incredibly successful under her leadership; earning a statewide award from the Washington State Misdemeanor Probation Association in 2021 for Probation Supervisor of the Year, and two statewide awards in 2022 for Excellence in Action, and Program of the Year for our relicensing program. The position is management exempt, pay grade 109. The position is at the same pay grade as our division supervisors, who supervise staff but do not manage programs. Further, although the Mental Health Court Coordinator is not an exempt employee, her pay rate is the same as the Probation and Community Programs Manager who supervises her. The Superior Court counterpart for this position is the Programs Administrator for Specialized Courts, which is management exempt pay grade 110. Our Probation and Community Programs Manager should be reclassified to pay grade 110. The incumbent is currently pay grade 109, step 12, and would advance to pay grade 110, step 10 if this request is granted. The increased cost in the 2023 budget is \$7,895.90.

Human Resources FTE: District Court requests to add a full-time Human Resources Coordinator to the administration team. Besides the Court Administrator, Assistant Administrator and Probation Manager, District Court has only four administrative staff. Specifically, we have an Administrative Analyst, who performs all tasks related to budget and court statistics, all aspects of project management, and performs HR data entries and some aspects of onboarding; we have a Public Records Specialist who spends one-hundred percent of her time responding to public and court records requests; we have an Accounting Specialist whose duties involve payroll, purchasing, accounts receivable and payable, equipment procurement, budget transfers, HR documentation, equipment inventory lists, training events, and lien efficiency; and we have a Network Administrator who handles all District Court aspects of IT service and help, maintains and repairs computer equipment, provides software training, and implements technology-related projects. We currently have a

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Department:** 24 District Court

**Short Name:** MANAGEMENT RECLASSES & HR COORDINATOR

**Package ID #:** 342

**Category:**

temporary, ARPA-funded, second Network Administrator. Except for our permanent Network Administrator who has a temporary counterpart, all of our administrative staff are over maximum bandwidth and cannot take on more work.

Our Assistant Court Administrator oversees day-to-day court operations, supervises five supervisors of five divisions with 55 staff, and serves as District Court's Human Resources Manager. She needs the assistance of a full-time staff member to plan and carry out recruitments, perform all HR-related data entries, onboard new employees, regularly update policies and procedures and post them on our internal and external websites, serve as DEI coordinator to develop best practices for diversity, equity, and inclusion, and lead our five divisions with a unified approach to implementing and maintaining a DEI program. In addition, District Court needs an ADA coordinator to receive and respond to ADA requests and ADA grievances, and a training coordinator to standardize and implement training in all five of our divisions so that we can streamline our processes and perform as one court. These are all responsibilities that can and should be performed by personnel specifically dedicated to human resources. Neither the Assistant Court Administrator nor the Court Administrator have the bandwidth to carry out HR tasks that could otherwise be delegated to administrative staff. Our current administrative staff do not have the capacity to take on additional duties.

Further, after more than two years, COVID-19 is still with us. The Court Administrator and the Assistant Court Administrator have been addressing COVID-19 emergencies and performing pandemic management for over two years. Courts have a constitutional requirement to remain open, so our staff need to work at the courthouse. District Court needs an HR professional to manage ongoing COVID issues that continue to arise, such as advising employees as to isolation and quarantine periods, and attending to District Court's vaccine requirement issues.

We have reviewed the HR-related job descriptions for Snohomish County and have found the Human Resources Coordinator - Public Works position to be the job description that most closely meets District Court's needs. This position is at Pay Grade 237, and we would hire at Step 1, unless we have a qualified internal candidate who has a higher rate of pay. At Step 1, the annual salary and benefits for this position is \$90,325. District Court requests \$90,325 to fund this position in the 2023 budget. District Court will provide the calculation for this position upon request.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** HEALTH & SAFETY

**Package ID #:** 343

**Category:**

**Description:** District Court requests funding to update facilities and purchase supplies to ensure healthy, safe and sanitary courthouses for our staff and the public.

**Justification:** PPE: District Court is requesting funding to purchase personal protective equipment in 2023. The total funding requested is \$4,600. This request was not funded through a recent ARPA request made to the Office of Recovery and Resilience, but we were advised that we could enter it as a priority package if we would like it to be considered in the regular budget process.

District Court continues to purchase personal protective equipment to keep staff, judicial officers, jurors and the public safe from COVID-19. Since March 2020, we have purchased masks and face coverings, Lysol wipes and spray, gloves, hand sanitizer, COVID-19 Rapid Tests, N-95 masks for our staff who have vaccine exemptions and accommodations, air purifiers and filter replacements, and a variety of cleaning supplies to keep surfaces and our work environment clean and sanitized. The average annual cost of these supplies, not including plexiglass shields, technology, or supplies we received directly from the County or the Administrative Office of the Courts, is \$4,600. As of June 25, 2022, we have expended \$2,796 for disaster supplies in the 2022 budget year. We request \$4,600, the annual average cost of PPE that we purchased in 2020 and 2021. Our calculations will be provided upon request.

Restrooms at South Division: Snohomish County District Court has four divisions in four locations. The Everett Division is housed in the courthouse on county campus. The three outlying Divisions - South (Lynnwood), Cascade (Arlington) and Evergreen (Monroe) serve the Snohomish County population that is outside of Everett and closely surrounding areas.

The South Division courthouse was built in 1970, with a 1973 addition, and is the oldest outlying courthouse. The courthouse has two public restrooms, three jury room restrooms, and four staff and judicial restrooms. The public, jurors, our staff, and our judges use these restrooms which have not been remodeled or upgraded since they were constructed in 1970 and 1973. The tiles on the floor and walls have cracks, stains, and chips. The grout looks dirty and has worn away and chipped in some places. Some of the plumbing is corroded or rusty, and a number of the porcelain toilets have dark mold on the tile between the toilet and the floor. The men's public restroom has a foul smell of stale urine, and other restrooms have a stench of combined mold, urine and other unknown smells that cannot be eliminated with cleaning. Most of the toilets do not completely flush. A recent budget walk-through with a project manager for a licensed contractor indicates that some of the smells could be coming through the ventilation system or could be a result of rot behind the walls. In summary, the restrooms at the South Division are old, dirty, and unsanitary, and cannot be effectively cleaned. The restrooms are in need of a complete remodel.

District Court obtained a written estimate of \$556,000, not including qualifications, exclusions, or state sales tax, to remodel the nine restrooms at the South Division. With sales tax, the cost is estimated to be \$614,380. The written estimate, cost spreadsheet, and photographs of the restrooms will be made available upon request. District Court requests funding in the amount \$614,380 for restroom remodel at the South Division.

Fire Protection Systems at Cascade, Evergreen and South Divisions: During early 2022, District Court learned that our outlying division courthouses, South Division, Evergreen Division, and Cascade Division, did not have adequate fire protection. The Evergreen and Cascade Divisions have smoke detectors and fire alarms, but the

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** HEALTH & SAFETY

**Package ID #:** 343

**Category:**

alarms ring only in the building and do not provide notification to an alarm company to contact the fire department. Evergreen and Cascade do not have any sprinklers. The South Division does not have smoke detectors or fire alarms. Although the South Division has sprinklers in the basement, it does not have sprinklers on the main floor. None of these three divisions have fire suppression systems where District Court employees work, where the judges preside over court, where the public comes to take care of their legal business, and where all of the District Court probation and court files reside. Except for the sprinklers in the South Division basement, the only fire suppression at these three courthouses are fire extinguishers.

Adequate fire protection is critical. Current building codes require sprinklers and fire alarms in courthouses the size of our South Division and all courthouses, even those the size of our Cascade and Evergreen Divisions, should be equipped with alarms that notify the fire department to respond to a fire, and sprinkler systems that can begin putting out the fire immediately. Our South Division does not have adequate fire protection due to the age of the building and the codes that were in place at the time it was built. The South Division courthouse was built in 1970, with a 1973 addition, and the Evergreen and Cascade Division courthouses were built in 1978. Because the South Division courthouse has not been remodeled, it has not been brought up to current code requirements and standards. Further, if Cascade and Evergreen were remodeled, the remodel would undoubtedly include fire protection. In 2013, nine years ago, Snohomish County contracted for a county-wide study on facilities' deficiencies and deferred maintenance. The study, called the MENG Analysis, included the cost to update fire protection systems in all three courthouses in 2013.

District Court employees and judges work in structures that are outdated by current codes and standards. The public also spends time in our facilities. All occupants are at risk of injury and death in the event of a fire. Although we plan to have a document management system by early 2023, at present District Court would lose all court and probation files in any outlying location that was consumed by fire. Snohomish County and District Court, as employers, have a legal obligation to keep their employees safe at work. Snohomish County, as a building owner, has a legal obligation to keep the public safe when they enter the premises to conduct business.

Facilities prepared a cost analysis for fire protection that includes sprinklers and alarm systems as follows: Cascade - \$275,441, Evergreen - \$275,441, and South - \$671,482, for a total of \$1,222,364. The cost analysis will be provided upon request.

Ventilation: District Court requests funding to replace the HVAC systems in our three outlying courthouses, South, Cascade and Evergreen Divisions, as well as in "Building C" at 2929 Rockefeller, also known as the Jolly Building, which houses our managers and administrative staff. This request was not funded through a recent ARPA request made to the Office of Recovery and Resilience, but we were advised that we could enter it as a priority package if we would like it to be considered in the regular budget process.

Throughout the COVID-19 pandemic, the Department of Labor & Industries has issued guidance regarding ventilation in the workplace to keep employees safe. Current guidance, updated February 8, 2022, in pertinent part, states:

- Risk for spreading COVID-19 is higher in small rooms, enclosed areas, and tight spaces with little or no ventilation or poorly filtered air.
- Ensuring adequate ventilation throughout the work environment can help to maintain a safe and healthy workplace.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   24 District Court

**Short Name:**   HEALTH & SAFETY

**Package ID #:**   343

**Category:**

The following tips can help reduce the risk of exposure to COVID-19:

- Use HVAC system filters with a Minimum Efficiency Reporting Value (MERV) rating of 13 or higher, where feasible. MERV is a measure of how well filters capture particles. The higher the number, the better the capture of particles. Ninety-percent of particles are captured in filters with a MERV rating of 13.
- Bring in as much fresh air as possible by increasing the HVAC system's outdoor air intake and reducing recirculated air. ... Open windows or other sources of fresh air where possible, weather permitting.
- Consider using portable, high-efficiency particulate air (HEPA) fan/filtration systems to clean air, especially in higher-risk areas like enclosed smaller spaces with little or no ventilation or capability to provide outside air. Avoid use of ionizers or air purifiers that generate ozone, a health hazard itself.

The four buildings at issue are very small. In the courthouses, staff sit very close together. None of these buildings have windows that can be opened to bring in fresh air. The HVAC in the Jolly Building does not bring in any outside air. All air is recirculated. All of these buildings have MERV 8 filters, not the recommended MERV 13 filters.

Ventilation is not the only problem with the HVAC systems. The South Division courthouse was built in 1970, with an addition in 1973. The front areas of the courthouse may be freezing, while the back areas are extremely hot. Staff are not comfortable. Since January 1, 2022, two sub units have failed, causing judges to move out of their courtrooms while repairs were underway, which took more than one month in both cases. In 2013, the MENG Analysis found that the original 1970's MEP (mechanical, electrical, plumbing; HVAC is mechanical) were at end of life, inefficient and with marginal comfort, although the 1973 addition was in better condition. The report stated that the building should be scheduled for a major renovation to bring the building up to code and upgrade all MEP systems to current technology and code compliance. Nine years have now passed. The total project cost for the HVAC system in 2013 was \$488,241.

The Cascade and Evergreen Divisions were built in 1978. They have the same footprint and are the same size. In the summer, the courtrooms are extremely hot and cannot be cooled by the HVAC system. In the winter, they are freezing, and the heat cannot be regulated to make them warm enough. The MENG Analysis found that the HVAC system at Cascade had little or no economized cooling, and marginal ventilation. The report further stated that most HVAC equipment was a second set of pumps, "now approaching end of life." One of the multizone systems had already been replaced after failure. The report stated that the facility was ready for modernization in the next five to ten years. The total project cost for the Cascade HVAC system in 2013 was \$447,132. The MENG Analysis found that key HVAC sub-systems in the Evergreen Division needed renewal within five to ten years. There was an upgrade of some subsystems in 2001, so equipment was in fair to good condition, but was still needing replacement in five to ten years. The total project cost for the Evergreen HVAC system in 2013 was \$90,282. However, District Court is requesting \$447,132 in 2013 dollars, the same value as the improvements needed for the Cascade Division in 2013, as nine years have passed, and the system needed full replacement in "five to ten years" pursuant the MENG Analysis.

We do not know when Building C (the Jolly Building) was built. Due to concerns with employees getting sick and concerns regarding whether the ventilation was sufficient for a COVID-19 environment, an air quality study (IAQ) was conducted in late 2021. Although the IAQ parameters were within normal limits with the exception of relative humidity, the study found that the HVAC "does not appear to provide any outdoor air to the facility." Facilities has confirmed that there is no outside air coming into the building. The study

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** HEALTH & SAFETY

**Package ID #:** 343

**Category:**

recommended upgrading the furnace air filters to the highest MERV rated filters the system can accept, and at least MERV 13 if possible. Facilities has advised that since the unit was designed for MERV 8 filters, the manufacturer is concerned with a pressure drop if MERV 13 filters are used. Upgrading to MERV 13 filters is not feasible without replacement of the unit. It is nearly impossible to regulate the heat in the Jolly building. While the thermostat is set to 68 to 72 degrees, some offices may get as hot at 79 degrees. Every office has a different temperature. The Jolly Building is 2214 square feet, less than one-half the size of the Cascade Division. District Court requests \$223,566 in 2013 dollars (half the project cost for Cascade in 2013) to replace the HVAC system at the Jolly Building.

Notwithstanding COVID-19, these HVAC systems are due for replacement and have already failed in a number of instances. Projects costs for replacement of all four HVAC systems is at least \$1,606,071 in 2013 dollars, which is approximately \$1,993,134 in 2022 dollars. District Court requests funding of \$1,993,134 to replace these faulty systems so that we can keep our employees and the public as safe as possible from COVID-19 and other airborne contaminants, and so that the heat and cooling can be controlled at reasonably comfortable temperatures.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** THERAPEUTIC COURT STAFFING

**Package ID #:** 344

**Category:**

**Description:** District Court requests funding to increase the Mental Health Court Coordinator and Legal Processing Assistant II from 0.5 to 1.0 FTE to provide complete and comprehensive services to Mental Health Court participants.

**Justification:** District Court recently applied for a grant with the Administrative Office of the Courts for funding to increase our Court Coordinator and LPA II positions to full-time status. If awarded, the grant will fund the additional hours for both positions from July 1, 2022, through June 30, 2023. Awards will be announced on July 8, 2022. If we receive the grant funding, District Court will only request funding from July 1, 2023 to December 31, 2023, for the 2023 budget year.

District Court receives funding from Fund 002 1/10% sales tax for a 0.5 FTE Mental Health Court Coordinator (Court Coordinator) and a 0.5 FTE Legal Processing Assistant II (LPA II). The Court Coordinator's job duties include overseeing the daily operations of Mental Health Court, establishing relationships and engaging with community resource and treatment providers, researching and implementing evidence-based practices, and coordinating care plans for our participants. Due to her limited work hours, she is not able to fully engage community resources, implement evidence-based practices, or coordinate care plans. Her limited time is spent assisting the specialty court officer and LPA II speak with treatment providers to obtain compliance reports and track down required behavioral health assessments for the participants.

The LPA II is the backbone of Mental Health Court. This position processes legal documents, docket legal proceedings, schedules court hearings, assists the public, and contacts participant treatment providers as directed. Further, this position is responsible for contacting court participants via text message to remind them of appointments and court hearings. Due to the part-time status of this position, the specialty court officer and court coordinator must cover some of the LPA II's job duties.

To obtain and maintain competency on evidence-based therapeutic court practices, our staff need to attend trainings. Council and the Executive's office graciously added a training budget to the Mental Health Court 2022 budget. We will be taking full advantage of our training budget by sending our Mental Health Court team to the National Association of Drug Court Professionals conference in July 2022, and the Washington State Association of Drug Court Professionals conference in October 2022. Our Court Coordinator's limited hours prevent her from attending some trainings, which impacts her ability to remain up to date on best practices and evidence-based programs. We continuously realign job duties between our Court Coordinator, Specialty Court Officer and LPA II positions to cover the most basic tasks, but this is not an effective solution to our need to have a full-time Court Coordinator and LPA II.

Specialty courts, like Mental Health Court, provide services for a specific, targeted population that require collaboration among a multidisciplinary team made up of judicial, treatment, supervisory, and legal staff. These courts are successful because of the support they afford participants. As noted in previous requests for funding, our Mental Health Court was evaluated by Whitworth College in 2019 and was determined to be fully compliant with best practices.

Half-time hours for our Court Coordinator and our LPA II are simply not enough to complete crucial tasks and meet the needs of our clients. District Court respectfully requests an increase in salaries and benefits in the amount of \$67,765 for our Court Coordinator who is at pay grade 243, step 5, and \$35,709 for our LPA II who

**Department:** 24 District Court

**Short Name:** HOUSEKEEPING PACKAGE

**Package ID #:** 345

**Category:**

**Description:** District Court requests that the 550 Mental Health Court budget DACs be reallocated accordingly.

**Justification:** District Court is requesting a budget line item for Fund 124 sub fund 550 Mental Health Court for Communications. Our participants need extensive support to remember appointments and court hearings. They do not read or respond to mailed notices or email correspondence in a timely manner. In an effort to encourage their success in the program, we are using a cell phone to send text message reminders.

We request a budget line item for Communications in the amount of \$1,000 to pay for the cell phone. To fund this line item, we are requesting a reallocation of \$1,000 from 124052245504127 (U/A Tests) to 124502245504201 (Communications). We are only requesting a reallocation, not additional funding.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** UNFUNDED & UNDERFUNDED LINE ITEMS

**Package ID #:** 346

**Category:**

**Description:** District Court is seeking funding for unfunded and underfunded line items including armored car, communications, probation classroom rental and professional services.

**Justification:** Armored Car: In 2021, the County contracted with a new armored car vendor, Axiom Armored. The contract increased the District Court's expenses for an armored car to transport money from all four District Court locations to a bank. The annual increase is \$10,538. District Court requests additional funding for the armored car in the amount of 10,538.

Communication: District Court pays for a call service to contact judicial officers during court hours and after hours when law enforcement is requesting a search warrant or arrest warrant be issued. Although the monthly charges vary depending on the number of calls, the cost of the call service has increased overall, and the annual increase is approximately \$10,179. District Court requests additional funding for the court communications line item in the amount of \$10,179.

Professional Services: District Court is a paper court with paper court files and paper probation files. We are currently in the RFP process to select a vendor to provide a document management system so that District Court can transition from paper files to electronic files. We started this process in the fall of 2021. We have reviewed proposals from 21 vendors, narrowed the field to top scorers, conducted reference checks, and will soon be scheduling demonstrations for a limited number of top candidates. All of the top candidates have proposed a fee to purchase the software and implement the solution, as well as an annual fee for maintenance and service beginning in the second year. District Court anticipates having a contract and starting the project by September 2022. District Court will pay the start-up costs to purchase the software and implement the solution from its Trial Court Improvement Fund. The second-year maintenance and service costs due in 2023, are anticipated to be \$172,000 or less. District Court respectfully requests an additional \$172,000 in the 2023 budget for the professional services line item to fund maintenance and service for this much-needed document management system, split 75% for District Court and 25% for Probation. District Court will advise of the contract cost for maintenance and service for 2023 when that information becomes available.

Rented Space for Community Courses: In 2019, the District Court Probation Department was facilitating Alive at 25, a defensive driving course, through a Memorandum of Understanding with both Edmonds Community College and Everett Community College. The agreement allowed the court to use the facilities to teach courses, while allowing the colleges to speak with participants about educational opportunities. We also used local libraries, police stations and fire stations to teach the courses. In March 2020, the court and colleges stopped in-person learning. In the latter part of 2020, the court pivoted and began using a virtual platform. While this allowed the courses to continue, it was not ideal for participant engagement. As we slowly began returning to in-person learning, we were able to sporadically reserve a courtroom to teach courses. The number of participants was significantly limited due to the size of the courtrooms and social distancing requirements. Further, we could only hold courses during normal court operating hours, which did not meet the needs of some participants.

Through trial and error, we learned that the virtual platform, while allowing information to be presented, was a barrier to participant engagement which reduced the effectiveness of the classes. The use of community facilities such as libraries and police departments, poses a risk of losing the location at the last minute. Both Everett Community College and Edmonds College (formerly Edmonds Community College) now charge non-

**Category:**

profits and government agencies a room rental rate. While we will continue to use Snohomish County community resources such as libraries and police stations, we understand there is a need for classes beyond day-time hours of operation. Using colleges in the evening allows us to reduce barriers to participation for those who would otherwise have to take time off from work during the day to attend.

Edmonds College charges \$106.00 and Everett Community College charges \$140.00 to rent classrooms for the four hours our classes require. We would like to offer four courses per month, two at each college. We are requesting funding of \$5,900.00 in the probation budget to pay room rental so that we can hold four courses per month in person at local colleges. District Court will provide verification of the classroom charges upon request.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 24 District Court

**Short Name:** DISTRICT COURT L&J BACKLOG

**Package ID #:** 347

**Category:**

**Description:** District Court requests continued ARPA funding for 4.0 FTE Legal Process Assistants and 1.0 FTE Network Administrator.

**Justification:** Continued Funding for 4.0 FTE Legal Process Assistants: District Court is requesting continued funding to employ four Legal Process Assistant Is (LPA Is) to assist with the increased workload and impacts of COVID-19, and to assist in reducing the backlog. District Court is currently funded for these project positions through June 30, 2023, and is requesting continued funding through September 30, 2024. We were advised by the Office of Recovery and Resilience (ORR) that this request is tentatively approved in the ARPA T2 spending plan. and were asked to put this request in the BDT.

District Court's backlog is reflected in the case age of criminal cases that we have not been able to resolve in a timely manner due to the impacts of COVID-19. This backlog will continue until we reach a pre-pandemic level for case age. Although the pandemic has eased, COVID-19 remains a health and safety concern to our employees and to the public we serve. Assistance from LPA Is is invaluable in addressing COVID-19 issues and our criminal backlog.

Courts are constitutionally required to remain open to serve the public. Additionally, District Court is a "paper court" with paper court and probation files. Our staff must work in the office and cannot telecommute at this time. We continue to need LPA Is to clean surfaces in courtrooms, clerical areas, public areas, and other high touch areas. At the outset of the pandemic, we launched virtual technology and began holding hearings through Zoom. Although some hearings are now in person, we continue to offer virtual appearances for many court calendars. We need LPA Is to assist with the extra work required when LPA IIs are handling Zoom hearings, and to make copies of documents that are signed in open court that must be mailed to virtual participants. To the extent that we will continue to utilize off-site jury selection to socially distance large groups of people, we require LPA Is to attend, set up seating, assist with checking in prospective jurors, and provide PPE. If jury selection occurs in the courthouses, we need LPA Is to assist with keeping jurors spread out and cleaning surfaces. LPA Is are needed in our four divisions to handle extra work generated by the higher number of cases being calendared to decrease our backlog of criminal cases. Further, we are in the RFP process to purchase a document management system and begin transitioning from paper files to electronic court and probation files. This transition will reduce touches, eliminate the need for staff to work adjacent to each other, and will allow staff to work from home as necessary, to reduce the spread of COVID-19. We need LPA Is to assist with back scanning and other responsibilities related to this project.

We request continued funding for four LPA Is from July 1, 2023 through September 30, 2024, or until COVID-19 is no longer a health and safety concern to our employees and the public, we have completed our document management project, and we have resolved our backlog. The salary and benefits for four FTE LPA Is is \$199,979 at pay grade 310, step 2, from July 1, 2023 through December 31, 2023, and \$265,302 from January 1, 2024 through September 30, 2024, for a total of \$465,281. The salary is based on the 2022 rate table and does not account for any potential cost of living adjustments.

Continued Funding for 1.0 FTE Network Administrator: District Court is also requesting continued funding to employ a Network Administrator to assist with the increased workload and impacts of COVID-19, and to assist in reducing the backlog. District Court has one permanent Network Administrator position. We received ARPA funding to hire an additional Network Administrator to manage our technology needs related to COVID-

**Category:**

19 and the backlog through June 30, 2023. We are requesting continued funding through September 30, 2024. We were advised by the Office of Recovery and Resilience (ORR) that this request is tentatively approved in the ARPA T2 spending plan and were asked to put this request in the BDT.

In December 2020, District Court began holding in-custody hearings with technology that allowed judicial officers to appear from the courtroom, defendants to appear from the jail, and counsel and other court participants to appear via Zoom. Our ARPA-funded Network Administrator was hired in April, 2022. He is responsible for addressing technology issues with our virtual in-custody calendar. He has also been attending off-site jury selections to run portable AV equipment so that prospective jurors can view juror videos at the off-site location. Although we have been able to hold virtual hearings since June 2020, the equipment and the virtual experience are not optimal. Our judicial officers have requested that we begin advancing the audio and video technology we have been using since the beginning of the pandemic. Advances and improvements are necessary since COVID-19 continues, and virtual hearings are here to stay. We need our second Network Administrator to work on all of the above-mentioned tasks, and any other COVID-19-related technology tasks. In addition, our ARPA-funded Network Administrator will be working on implementing our new document management system which will allow less touches, less face-to-face interaction between staff, and the ability to telework. Finally, our ARPA-funded Network Administrator will provide much needed technical support that will allow staff and judges to reduce the backlog to pre-pandemic levels.

We request continued ARPA funding for a second Network Administrator from July 1, 2023 through September 31, 2024, or until COVID-19 is no longer a health and safety concern to our employees and the public, we have completed our document management project, and we have resolved our backlog. The salary and benefits for a Network Administrator is \$62,620 at pay grade 240, step 2, from July 1, 2023 through December 31, 2023, and \$86,356 from January 1, 2024 through September 31, 2024, for a total of \$148,976. The salary is based on the 2022 rate table and does not account for any potential cost of living adjustments.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 Maintenance Program Adjustments

**Package ID #:** 348

**Category:**

**Description:** This priority package reflects adjustments to the Surface Water Management Division Maintenance (Program 512) non-capital base budget for 2023. Overall, the 2023 budget request for SWM Maintenance increased by just 2.3% compared to 2022.

Adjustments are in the following areas:

- 1) Drainage System Management (Sub-program 006)
- 2) Drainage Rehabilitation/Investigations (Sub-program 007)

**Justification:** 1) DRAINAGE SYSTEM MANAGEMENT (Sub-Program 006) – The 2023 budget request is an increase of 3.4% from the 2022 adopted budget. The Drainage System Management sub program focuses on inspection, maintenance, and repair of the engineered drainage systems that convey, treat, and manage stormwater runoff. A key aspect of this program is to meet the Stormwater Operations and Maintenance requirements of the Phase 1 Municipal Stormwater permit (NPDES permit), mandated under the federal Clean Water Act.

Change from Proforma Budget:

The increase for IF Professional Services results from implementing an alternative inspection frequency, with alternate-year budgets having more regulated and county owned systems to maintain. Reducing the inspection frequency has reduced costs for this program overall, yet the program continues to grow from new development and capital improvement projects. In addition, the program now includes approximately 250 older public facilities (constructed prior to 1992) that used to be excluded from NPDES regulations, but which are now regulated. For those older systems, the costs to repair and replace them are more than the average stormwater facility maintenance costs and that work will be phased over the next several years. A one-time cost of \$100k is anticipated for On-Call consultant support for completion and implementation of the Stormwater Management Action Plan.

The Drainage System Management budget also includes funding (\$109,200) to support a portion of a maintenance crew in Parks for NPDES maintenance related work on Park property. This expense was moved from the SWM Operations program. Inclusion of funding for the Parks maintenance crew provides relief to general fund Park resources.

2) DRAINAGE REHABILITATION/INVESTIGATIONS (Sub-Program 007) – The 2023 budget request is a decrease of 23.5% from the 2022 approved budget. This program responds to requests from County residents and County departments for technical assistance with drainage problems. This program includes field investigations, analysis of individual drainage problems, coordination with Road Maintenance and recommendations for solutions.

Change from Proforma Budget:

The major decrease to the budget for Drainage Rehabilitation/Investigation is due to the county Interfund charges being consolidated into the SWM Operations program. Otherwise, this budget maintains status quo.

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

**Package Type** Standard

**Department:** 18 Facilities Management

**Short Name:** 2023 Fuel Contingency

**Package ID #:** 350

**Category:**

**Description:** The fuel price volatility seen in 2022 was not predicted during the 2022 budget process. Similarly, any projections for 2023 are a best estimate given market predictions by the Energy Information Administration and could change significantly. Current EIA projections suggest that the price of gasoline and diesel will be \$4.25 and \$4.85 respectively. Therefore, in order to ensure adequate budget authority should price escalations occur in 2023 (or current extraordinary prices continue into 2023), Fleet Services request a contingency of \$2 million to be used exclusively for fuel purchases utilizing fund balance in the ER&R fund. Costs incurred from this contingency can be factored in as reimbursable in succeeding budget years (as needed) to keep the equipment replacement plan viable. We believe this is a better alternative than asking for a rate increase from departments when we are still uncertain on how gas prices will settle in the next year.

**Justification:**

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

Expenditures Package Summary	
FUND 502	\$2,000,000
TOTAL - EXPENDITURES	\$2,000,000

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 39 Emergency Management

**Short Name:** Capital Asset Replacement ER&R Fund

**Package ID #:** 351

**Category:**

**Description:** This package addresses future replacement of mobile emergency operations trailer (MEOC) by integrating into the ER&R Fund starting in 2023. Additionally, DEM proposes to expedite replacement of an existing Fleet vehicle for an upgraded model that meets our emergency response operational needs.

**Justification:** This request is to fund the addition of one critical emergency management asset to the County's capital replacement program and to replace an existing vehicle with one that provides greater flexibility to DEM. Both support DEM's continuity of operations plan and help fulfill obligations outlined in our interlocal agreements with cities, towns, and Tribes.

Historically DEM used grant funds to purchase vehicles but did not place them into the capital replacement program. For example, in 2004 DEM used DHS/FEMA funds to purchase our two existing command vans; however, these were not incorporated into the replacement program. Each would now cost approximately \$500,000 or more to replace and grant funds no longer exist to cover that cost. In anticipation of this, we utilized grant funds to secure a less-expensive trailer known as the Mobile Emergency Operations Center (MEOC).

The MEOC acts as our back-up facility if we were to lose access to our existing structure. It could also be deployed to support one of our jurisdiction's EOCs were one of their EOCs to become inaccessible. Putting it into the capital replacement program precludes the risk of further grant reductions and ensures this capability remains viable.

One of the great features of the MEOC is its flexibility; specifically, that it is mobile and could be moved to any location to establish an EOC (i.e., if an earthquake severely damaged our EOC, this vehicle can be towed to any adequately sized structure to reconstitute emergency operations). That flexibility is contingent on having a vehicle capable of towing the MEOC. Our current fleet does not have that option and we rely on other agencies like Public Works to loan us a truck capable of towing the MEOC. Coordinating that is difficult during everyday operations; after an earthquake it adds a significant challenge.

Our second proposal to reduce that complexity is to replace one existing vehicle with a truck capable of towing the MEOC. This would be done ahead of the normal replacement schedule, but would give us immediate access to a vehicle capable of towing the MEOC. This would not be the only purpose of this vehicle. It will be adequately sized and configured so that it can be used by staff to travel to meetings, trainings, etc.

Together, these changes would address several known gaps. We would mitigate the reliance on dwindling grant funds to replace a needed capability, be assured of more flexibility in implementing our continuity of operations plan, and continue to have a vehicle capable of transporting staff and/or equipment.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>	
FUND 002	\$60,604
<b>TOTAL - EXPENDITURES</b>	<b>\$60,604</b>

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Civil Staffing - Health Department

**Package ID #:** 352

**Category:**

**Description:** This Priority Package increases staffing in our Civil Division to provide legal counsel regarding the addition of the Health District that will operate under the County's governance in 2023.

**Justification:** The County's assumption of the Health District is anticipated to increase the workload of the Civil Division. The office proposes the addition of two DPAs to address the increase in legal services. The first DPA will be a General Fund attorney assigned to the Municipal Law Unit to provide advice and legal services related to the operations of the new Health Department. It is anticipated that the new workload will include permitting and inspection-related legal questions, nuisance abatement actions, SEPA review questions, contracts and grant review, water code implementation, and landfill closure issues (just to name a few). The Fund 506 related legal workload will include Public Records Act advice and litigation, labor and employment advice and litigation, and general risk management litigation (including the potential for new liability resulting from medical malpractice claims). Please note that it is far too early to determine the full extent of the increased legal services required by absorbing the Health District as much of the groundwork to understand the totality of the acquisition has not been concluded.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Criminal Staffing - Training

**Package ID #:** 354

**Category:**

**Description:** This Priority Package creates a position for a deputy prosecuting attorney responsible for training deputy prosecuting attorneys and law enforcement personnel.

**Justification:** Significant attrition in the Division's DPA ranks in recent times has led to a loss of more experienced attorneys, one consequence of which is the onboarding of an unprecedented number of lawyers new to the practice. Coupled with recent dynamic, substantial, and anticipated ongoing changes in case law, statutory law, and court rules affecting all DPAs, there is a compelling need to establish a dedicated training DPA to address this dual threat. Similarly, our law enforcement partners at the city, county, and State level have experienced significant turnover in their agencies and an attendant lack of experience. The impact of this attrition has been exacerbated by many of the same changes in the law that impact our attorneys.

The Prosecuting Attorney's Office seeks to create a Training DPA to enhance the response to attrition and the evolution of the law for both prosecutors and police. Internal training will focus on developing and maintaining trial advocacy skills and other practice responsibilities in addition to providing regular and comprehensive updates and instruction on emerging areas of law. External training will be focused on providing instruction to police on topics like criminal procedure, search and seizure law, report writing, and compliance with discovery obligations.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Criminal Staffing - Complex Prosecutions Unit

**Package ID #:** 355

**Category:**

**Description:** This Priority Package creates three new positions to manage and prosecute the most complex cases in the Prosecuting Attorney's Office.

**Justification:** Currently, homicides and other more complicated cases are handled by the more senior attorneys in the office – regardless of the unit that DPA may be assigned to, and often in addition to their primary caseload responsibilities. This priority package proposes to create a Complex Prosecutions Unit that will centralize the prosecution of the most complex cases in a small unit of highly experienced DPAs. This will leverage the specialized experience of these DPAs to focus on some of the most serious cases in the office and will allow other DPAs to better attend to their primary responsibilities in other important units (including the Special Assault Unit, the Domestic Violence Unit, and the Violent Crimes Unit). The Prosecuting Attorney's Office requests two DPAs with at least 6 years of prosecution experience and one legal secretary to staff this unit.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Persistent Offender & Gun Crimes

**Package ID #:** 356

**Category:**

**Description:** This Priority Package creates a deputy prosecuting attorney position dedicated to managing those felony cases involving persistent offenders, as well as gun referrals.

**Justification:** The majority of the felony referrals received by the Prosecuting Attorney's Office are for nonviolent property offenses—including burglary, car theft, and possessory firearms offenses. A recent audit of nonviolent felony referrals awaiting review revealed the fact that many suspects had multiple pending cases. These persistent offenders have an outsized negative impact on public safety in Snohomish County and require more expeditious and substantial intervention by the criminal justice system. Also awaiting more expeditious review in the face of limited resources are gun crime referrals. These offenses include felons unlawfully in possession of firearms, those trafficking in firearms or those suspects otherwise prohibited from gun possession due to domestic violence convictions or having domestic violence orders against them. The Prosecuting Attorney's Office, to better guarantee more timely and impactful justice for victims and the community, proposes a designated DPA to focus on persistent offender and gun crimes cases to provide more expeditious review and resolution of those cases and ensure that courts are provided all relevant information in making determinations regarding bail, release, and sentencing.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Public Website Redesign

**Package ID #:** 358

**Category:**

**Description:** The Snohomish County website is eligible for a redesign near the end of 2022 per Snohomish County's contract with Civic Plus. The site content has grown considerably over the last several years and now consist of over 6070 pages, 505 forms, and 100,249 documents & images. Many of these assets are managed by individual departments which in some cases has resulted in the following:

- Design is not effective at putting the customer first
- Design is not modern
- Difficulty finding content, ineffective search options
- Organization of content is not intuitive to people that do not understand how the County is structured
- Navigation options are not always intuitive (e.g., some options are hidden, small and hard to click, or just not easy to find/use/understand)
- Design does not easily allow for the presentation of different types of content with different purposes (e.g., news with a short lifespan that updates frequently, persistent information, documents and forms, help resources, etc.)
- Design is not mobile friendly

**Justification:** A complete county wide website redesign will require significant resources to address any shortcomings the current website has therefore IT is requesting professional services resources to aid in this effort. These requested resources will work along side IT and departmental staff to accomplish the following.

- Inventory the existing site content and tools
- Compare Snohomish County's offering to other local governments to identify gaps and opportunities
- Perform user analysis for constituents and County partners
- Leverage user analysis to recommend a new site content architecture/navigation, draft new site content that supports the architecture, and identify content that can be removed.
- Suggest an overall site design that considers potential constraints of the Civic Plus content management system, uses modern design principles, and supports primarily mobile usage.
- Provide a design guide and design assets that can be used by the Civic Plus design team during the redesign, and by Snohomish County IT to maintain the site after the redesign.

**Package Type** CIP - Capital

**Department:** 14 Information Technology

**Short Name:** Fund 315 CIP

**Package ID #:** 359

**Category:**

**Description:** This package provides a summary of the continued investment by the Department of Information Technology in the regular replacement of aging infrastructure for the County's IT system over the next 48-month period. The Technology Replacement Program (TRP) plan has been established as the county's annual effort to ensure workstation and infrastructure replacement is addressed to optimize system reliability and reduce incidence of critical failure. TRP is funded through a contribution from Fund 505 using rates paid by IT customers based upon allocated metrics, as identified in interlocal agreements and interfund rates assessed to departments.

Projects in Fund 315 that are not related to the TRP are generally funded by sources other than rate contributions from Fund 505. Some TRP categories incur only periodic outlays, but have assessments spread evenly over a multiyear period for consistency in planning for budgetary impact.

	2023	2024	2025	2026

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 20 Pass-Through Grants

**Short Name:** HS Housing, Homelessness, and Comm Dev P-T

**Package ID #:** 363

**Category:**

**Description:** Adjustments to the Human Services Housing, Homelessness, and Community Development pass-through budget.

**Justification:** These adjustments are made to more accurately reflect 2023 Housing, Homelessness and Community Development pass-through funding subcontracted to local provider agencies and local governments.

Estimated pass-through amounts are based on in depth review of regularly renewed federal and state grants, new grants and contracts, and planned utilization of multiple federal COVID Response and Recovery awards received directly from the federal government, and indirectly via Washington State agencies.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

**EXPENDITURE/NEW REVENUE DETAIL:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Corrections Bureau - Radio Equipment Replacement

**Package ID #:** 365

**Category:**

**Description:** The SCSO Corrections Bureau's radio system consists of three (3) repeaters, two (2) antennas with directional panels, and a combiner which were installed when the Oakes Building was opened in 2005. This equipment is at EOL (end of life) and needs replacing. This is a request for one-time funding for equipment and installation costs.

**Justification:** The jail's radio equipment is approximately 17 years old. The last year these repeaters were manufactured by Motorola was 2005, the same year we purchased them.

Portable radios are the lifeline that connects Corrections Staff with each other, supervisors, and the dispatch center. A strong and reliable radio signal is not optional. Having a good, high quality radio system which produces the proper signal strength at the proper frequencies could mean the difference between life and death for the inmates in our care and CB Staff.

The MTR2000 repeaters are approximately four (4) generations old and the service life (expectancy) moving forward is anywhere from 2 months to 2 years. After experiencing increasingly poor and/or dropped reception and transmission signals inside the jail we had the system tested.

Some of the equipment is no longer serviceable and/or parts are no longer available should they become completely inoperable. The system could be periodically (monthly) "adjusted" using an old laptop computer from 2005 running on a Windows XP operating system, if we can find one. This option is not sustainable and only offers a temporary fix.

Per the SN0911 Wireless System Manager these costs are not eligible to be paid through the SN0911 Radio Replacement Project (RRP) currently underway throughout the County.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 32 Office of Public Defense

**Short Name:** IT positions - for Public Defender Association

**Package ID #:** 366

**Category:**

**Description:** OPD is asking to fund two (2) FTE IT support for SCPDA to address the increased discovery and the demands of its growing staff. In 2020, Snohomish County provided funding for one fulltime IT professional for the Snohomish County Public Defender Association's 85.5 FTE staff. This was an important first step, but the IT needs and demands are growing at an exponential rate. In 2017, SCPDA had at most 7 Terabytes of digital discovery; this increased to 31 terabytes by 2021. The primary cause for the increased use of data storage is increased digital media discovery provided to SCPDA by the Prosecuting Attorney's Office through the course of representation. This includes multiple body- and dash-cam videos per charged crime, recorded jail phone calls, surveillance videos, cell-phone extraction data, and voluminous medical and mental health records. This compounding of the volume of discovery is only going to increase with more law enforcement agencies wearing body cameras and driving vehicles with dashboard cameras.

There are many data storage complications that arise due to the volume and types of discovery provided by prosecutors. Many forms of surveillance footage can only be played on proprietary software. Law enforcement agencies and correctional facilities use different file formats creating challenges in downloading, saving, and reviewing the materials. Local systemic efforts have not been fruitful to ease some of the concerns arising from the increases in discovery provided. For example, SCPDA proposed that the Prosecutor's Office provide a Discovery Index or Discovery Log as part of discovery so that both sides can understand what discovery and types of discovery had been provided. This proposal was not adopted. Another example is that while discovery is Bates stamped, the pagination of reports contained in the discovery are often not provided in order. For example, a 90-paged forensic report may be received in a batch of discovery and the internal page numbering provided is pages 53 to 90. In a different batch of discovery, internal page numbering 1 to 52. Often, the same discovery is provided in duplicate. For example, in one case the provided discovery contained 17 copies of the same search warrant.

OPD is requesting two FTE IT support for SCPDA. We are requesting the council approve one (1) FTE network administrator (document control specialist), and one (1) FTE general IT support professional. These positions descriptions and salary are consistent with County positions doing similar work. These positions are necessary to fulfill the current IT needs to support the public defender services to Snohomish County. The salary and overhead for the network administrator is \$91,050.57. The salary and overhead for the general IT support professional is \$78,641.95. The total package cost is \$169,692.52 for 2023.

**Justification:** Washington State Bar Association (WSBA) Indigent Defense Standard Seven: "Public defense attorneys shall have adequate numbers of....computer system staff and network administrators."

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   09 Conservation & Natural Resour

**Short Name:**   DCNR SWM 415 Operations Program Adjustments

**Package ID #:**   368

**Category:**

**Description:**   This priority package reflects adjustments to the Surface Water Management Division Operations (Program 511) non-capital base budget for 2023. Overall, the 2023 budget request for SWM Operations increased by approximately 28% compared to 2022. This increase is largely due to consolidating all of the county interfund charges into the Operations program, which were previously spread across all SWM programs. This increase is offset by decreases in other programs.

Adjustments are in the following areas:

- 1) Fiscal Services (Sub-Program 001)
- 2) Program Planning (Sub-Program 002)
- 3) Resource Monitoring (Sub-Program 004)
- 4) Floodplain Services (Sub-Program 005)

**Justification:**   1) FISCAL SERVICES (Sub-Program 001) - The 2023 budget request is an increase of approximately 84% from the 2021 adopted budget. The Fiscal Services sub program provides financial and administrative support for all SWM programs.

Change from Proforma Budget

In addition to increase salaries and benefits, the increase to the Fiscal Services budget is largely due to consolidating all of the county interfund charges into this sub-program, which were previously spread across all SWM programs. This increase of approximately \$2.2M is offset by decreases in other programs.

The Fiscal Services budget includes funding for half of a temporary planner position in the Office of Energy and Sustainability to assist with the Savvy Septic Program (\$50k in Extra Help). Also, support for 0.5FTE Senior Naturalist position in the Parks Division was moved to this sub-program from sub-program 002 (\$62k in IF Parks).

Increases in Professional Services include a \$250k contingency for support to update the SWM utility billing database, and \$200k for SWM and DCNR strategic planning consultants. Both of these one-time expenses will be covered by SWM Fund Balance if needed.

2) PROGRAM PLANNING (Sub-Program 002) – The 2023 budget request is an increase of 15.5% from the 2022 adopted budget. The Program Planning sub program coordinates water resource-related planning efforts including salmon and Puget Sound recovery, water quality, shellfish protection, marine resources, and the Sustainable Lands Strategy. The program also includes education and outreach efforts for the county's National Pollution Discharge Elimination System (NPDES) permit.

Change from Proforma Budget

Increases stem from ongoing development of the Community Floodplains Solution Program and continuing Phase 1 of the existing Floodplains by Design grant, as well as receiving additional funding for Phases 2 and 3 which will begin implementation in 2023. Grant revenues for these projects total over \$1.2M.

In 2023, Program Planning will also receive an additional \$200K in EPA grant capacity funding for the Local Integrating Organization, and will receive approximately \$75K of EPA grant funding in 2023 to implement the

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package ID #:** 368

**Category:**

Streamside Landowner technical assistance program. In total, grant revenues are anticipated to increase by \$700K compared to 2022.

3) RESOURCE MONITORING (Sub-Program 004) - The 2023 budget request is an increase of 12% from the 2022 adopted budget. The Resource Monitoring sub program provides the scientific basis and support for actions and programs to protect and restore water quality and improve aquatic habitat and implements NPDES programs related to finding and stopping water pollution.

Change from Proforma Budget

The increase to the Resource Monitoring budget is mainly tied to program staff moved from sub-program 005. Labor and non-labor costs for the SWM river gauging program totaling \$381k moved to sub-program 004 in 2023. Other increases include one-time costs of \$100k for a data management consultant, and \$75K to support development of a Critical Area Regulations (CAR) monitoring report and long term plan (both costs in On-Call Professional Services).

4) FLOODPLAIN SERVICES (Sub-Program 005) - The 2023 budget request is a decrease of 10% from the 2022 approved budget. Floodplain Services implements the non-capital flood hazard and floodplain management aspects of the Surface Water program.

Change from Proforma Budget:

Decreases to the Floodplain Services budget are tied to moving the gauging program to sub-program 004, and interfund support for Parks to the SWM Maintenance program. These decreases offset increases to Contractor Payments for pond dredging and levee lift work at Smith Island.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** 04 Human Services Administration and Support

**Package ID #:** 370

**Category:**

**Description:** Adjustments to the Human Services Administration and Support budgets.

**Justification:** These adjustments are made to more accurately reflect planned 2023 Human Services Administration and program support activities. Specifically:

1) Enter a .25 fte reduction for position #DEM7390R that has been shared with Department of Emergency Management. Human Services and Department of Emergency Management have agreed to reallocate the entire position to the Department of Emergency Management budget effective 1/1/2023.

2) Request an additional 1.0f fte Business Applications Programmer Analyst position. Human Services (HSD) currently has one Programmer/Analyst. This position supports 250+ employees, external systems (state and vendor), internal systems (databases/SharePoint/Office) and web-based subscriptions services. Efforts are spent responding to urgent needs which limits the critical time necessary for analyzing processes, researching solutions, and developing applications. The role includes working with the existing Network Administrator in managing network/file security (200+ security groups) as well as collaboration with other county departments, the state and county-wide provider agencies.

The scope of services provided by the Department of Information Technology (DoIT) has changed. Departments develop and support their internal systems with DoIT providing technical support to developers and subject matter experts within departments. This includes internally developed database and SharePoint development. The county utilizes The Microsoft Cloud and has the tools available under the licensing agreement to develop robust systems. However, HSD does not currently have the programming staff needed to take advantage of the very much needed development environment and, therefore, it is underutilized.

HSD staff are in continuous contact with partnering agencies, vendors, the state, local government, clients, and volunteers (boards etc.). The working relationship between these parties requires information transfer and shared processes often while meeting client confidentiality requirements. This communication can include authorizations for services, invoicing, monitoring, contracts and data transfer all of which can require meeting HIPAA or other confidentiality requirements. It is expected that the need for greater collaboration will increase as Snohomish County population and human service needs increase.

There are 16 internally developed databases in the department. Most of these applications are program specific (e.g., Developmental Disabilities and Energy) with changes regularly made to meet new funding requirements and state mandates. Program specific systems are used to manage client information with several collecting data from external agencies directly via Citrix or indirectly through SharePoint. Most of these systems have a fiscal component tracking vouchers and/or units of service and are subject to funding source (e.g., state) monitoring. Only three of these databases are on SQL Server. All of them should be migrated to provide system stability, increase flexibility, and enhanced security. Without additional programming resources, development is limited to keeping up with mandated changes and reporting requirements.

Program staff are increasingly using web-based applications such as SharePoint and Cognito Forms. While technically skilled staff can create simple forms, sites and pages, the more complex implementations require a programmer/analyst.

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** 04 Human Services Administration and Support

**Package ID #:** 370

**Category:**

HSD primarily utilizes SharePoint for the purpose of sharing files with external agencies. The department has approximately 1500 external users. There are 26 staff in HS that are site owners. Their primary responsibility is content management and adding external users to the security groups. The function of program specific sites is to provide information to agencies, vendors and government agencies including client information, authorizations, and invoicing. The system has a complex security architecture; only authorized staff (internally and externally) are allowed access to program specific client information (e.g., HIPAA). The Programmer/Analyst develops new sites, coordinates with SharePoint users, provides training, external logon support, and participates in DoIT SharePoint collaborations. The architecture and security system is developed and maintained by the administration programmer/analyst. The department would benefit from the expansion of SharePoint to include contract management and invoicing processes which will require more programming resources. The internal HSD SharePoint site is over 10 years old and in need of a complete analysis and redevelopment. Benefits include the use of shared libraries which provide the ability for multiple users to simultaneously edit documents, offer version control and approval, and archiving. To accomplish this requires analysis of department needs and collaboration with DoIT. There are currently not enough analyst/programmer resources to achieve this.

Cognito Forms allow technically skilled staff members to create applications, surveys and forms that are accessed by the public. Data is secure and can be digitally signed. While simple forms can be easily developed and deployed the more complex forms, that include logic, requires the technical expertise of a developer. Through Cognito Forms the Energy Assistance Program received over 2700 responses from the public of which over 1600 successfully submitted applications were imported into the Energy Assistance database. The Energy application is a complex structure and applies programming logic to minimize error and eliminate households who do not meet requirements. This application, as well as data import processes, was developed and is maintained by the programmer/analyst. The import of household data requires time and database expertise.

Currently the Administrative Division does not have the resources to provide analysis of existing processes, find efficiencies and reduce costs. With the retirement of senior staff and general attrition, legacy processes are in place that may not be understood or are no longer needed. Systems supporting employees (timesheet/human resources), fiscal, contracts and general admin have been neglected due to lack of adequate programming staff. Enhancement of the Timesheet system to include recruitment, authorizations, and reporting would reduce data entry redundancy saving admin time and effort. Redesign of the Contracts system to incorporate SharePoint functions and features will provide opportunities to streamline invoicing, agency monitoring and general contract processing.

Snohomish County communities are growing rapidly as are their needs. With the increase in funding and funding opportunities, as well as the increase in clients, the department must rapidly deploy and maintain streamlined and cost-effective solutions as well as enhance current systems. An additional Programmer/Analyst is essential as the current resources are insufficient to meet these needs.

Note that the cost of this new Programmer/Analyst is supported 100% through an increase in reimbursable credits from Fund 124 and Fund 130 program charges.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** 04 HS American Rescue Plan Act

**Package ID #:** 371

**Category:**

**Description:** Adjustments to the Human Services American Rescue Plan Act budget.

**Justification:** These adjustments are made to reflect Human Services ARPA T2 priorities identified as tentatively included in the T2 spend plan along with continuation of existing T1 programs. Adjustments do not reflect ARPA T2 priorities which will be brought forward for review and approval by the Office of Recovery and Resilience. Those additional T2 service items will be entered as a separate Priority Package.

Office of Recovery and Resilience has given direction to include new staffing in BDT -11.0 FTE's and related operating costs.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Reclass of PRA4681R

**Package ID #:** 372

**Category:**

**Description:** This Priority Package involves the reclass of a General Fund position. The reclass was approved in February 2022, and is effective July 1, 2022.

**Justification:** The reclass involves modifying a Legal Assistant position in the Civil Division to an Administrative Analyst position in the Administration Unit. The reclass does not affect the total authorized FTE count in the General Fund.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Travel

**Package ID #:** 374

**Category:**

**Description:** The Treasurer's office is requesting travel expenditures specially to provide training opportunities for staff. There are several subdomains in the Treasurer's office. Each subject, for example financial analysis, excise tax, tax collections, accounting, State Auditor requirements, and payment processing, is very specific to the duties of a county Treasurer office. The most effective way of training is to travel to local and regional locations to attend classes that are precise to our training needs. Many new laws and unfunded mandates have been created and implemented or proposed by the state legislature. It is vital for our staff to maintain the highest level of knowledge and maintain their continuing education requirements. The training/travel requested will provide updated tools to comply with changing service requirements, maintain our revenue stream, and legal liability exposure. To mitigate overall travel costs, most of this expenditure request will be used by exempt managers who will improve their professionalism and transfer the knowledge gained to their divisions.

WFOA \$1,520/person (5)  
WPTA \$960/person (3)  
GIOA \$1,300/person (1)  
AFP \$3,200 (1)  
APT \$1,900 (1)  
NACCTFO \$1,350 (1)  
WSACT \$1,600/person (3)

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS Increase in Operating Expenditures

**Package ID #:** 375

**Category:**

**Description:** This request is to provide resources for postage for tax statements, delinquency notifications, and in-house continuing education. There is a constant 3% growth rate of new tax parcels and an increase in delinquency notifications due to the state requirements and economic conditions. Additionally, mailing, printing, and envelope costs have increased. The Treasurer's office has made efforts to reduce the growth rate by reducing envelope use and encouraging electronic payments.

To manage the educational needs of the organization, quarterly training is provided in-person and on campus. This all-hands training is designed to improve teamwork, transfer information from division managers, and solidify the organization's goals and objectives. The training provided by this expenditure is designed to be supported by division managers during their monthly and weekly meetings.

**Justification:**

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** CIP - Capital

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR SWM 415 Capital Improvement Program

**Package ID #:** 376

**Category:** Surface Water Management

**Description:** This priority package describes the Annual Construction Plan (ACP) and the Six-Year Capital Improvement Plan (CIP) for the Surface Water Management (SWM) Division of Conservation & Natural Resources, and reflects adjustments to the Capital (Program 513) base capital budget for 2023. Overall, the 2023 budget request for SWM Capital decreased by 26.1% compared to 2022. Adjustments are in the following areas:

- 1) Stream and River Capital (Sub-Program 003)
- 2) Drainage and Water Quality Capital (Sub-Program 008)

**Justification:** 1) STREAM AND RIVER CAPITAL (Sub-Program 003) – The 2023 budget request reflects a decrease of 15% compared to the 2022 approved budget. The Stream and River Capital sub program includes design and construction of projects to restore or improve habitat and water quality in rivers and streams. This subprogram is funded by a combination of SWM service charge revenues and grant funds.

Change from Proforma Budget

Decreases to the Stream and River Capital budget reflect decreased costs for On-Call professional services, reduced land purchases, and county overhead charges moved to SWM Operations Sub-Program 001.

Expenses are also reduced due to decreased support requested from Public Works (Interfund Professional Services), due to lack of capacity within PW to support SWM capital construction projects. New staff are requested in SWM (PP 339) to provide these necessary services, and the new labor expenses will be offset by the reduced Interfund payment SWM has historically made to PW from this and other sub-programs.

2) DRAINAGE and WATER QUALITY CAPITAL (Sub-Program 008) – The 2023 budget request is a decrease of 33% compared to the 2022 approved budget. The Drainage and Water Quality Capital subprogram provides engineering planning and analysis, project design, and project construction for drainage and water quality concerns throughout the County. SWM Drainage and Water Quality projects are funded with a combination of SWM service base charges and fund balance, Roads - Interfund Professional Services, and REET II revenues.

The Drainage and Water Quality Capital sub-program has the following main components:

- 1) Drainage and Flooding Reduction projects
- 2) Fish Passage Improvement projects
- 3) Master Drainage Planning and Water Quality Facility Planning
- 4) NPDES and water quality-focused projects

Change from Proforma Budget

Though it is a large decrease from 2022, the Drainage and Water Quality Capital sub-program 2023 budget is comparable to the 2021 approved budget. The main reason for the increase in 2022 was due to an influx of \$5M additional funding for accelerated culvert projects.

For 2023, the Drainage and Water Quality Capital sub-program is requesting \$1.1M in REET II funds and \$253k from Road Fund. SWM will use Road Fund money to augment SWM utility charge base revenues for

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - New Program

**Package ID #:** 378

**Category:**

**Description:** This is a request for adding a new program number to the Clerk's Office budget to accommodate reorganization of Clerk's Divisions.

**Justification:** In the last year, the Clerk's Office has added seven (7) additional FTEs as a result of Superior Court's addition of three (3) new judicial officers. Due to the lack of office space at the Clerk's main office and Superior Court's decision to increase court calendars on matters other than juvenile proceedings to 5 days per week at the Denny Juvenile Justice Center (DJJC), an additional 3-4 clerk staff will be assigned to our juvenile division. The assignment of additional staff will ensure we are meeting our mandated duties of accurate and timely processing of court documents as well as our duty to attend and create an independent record of all court proceedings. A new program will assist with space, budget and resource allocations as well as provide us flexibility to divide manager responsibilities if our request for a new manager is approved (see Priority Package #422).

Currently, the Judicial Case Management Juvenile Manager manages the operations of two divisions under program #233 which include both the Case Management and Juvenile Office (DJJC) divisions. Program #233 will remain in place for Case Management. A new program number will be required for the Juvenile Office division, which has been designated as Program #237.

Position Numbers that would fall under this new program number are:

#2172 Judicial Process Assistant Supervisor  
 #2009 Judicial Process Assistant  
 #2094 Judicial Process Assistant  
 #2116 Judicial Process Assistant  
 #2186 Judicial Process Assistant  
 #6774 Judicial Process Assistant  
 #2126 Judicial Operations Assistant (Request to reclass to Judicial Process Assistant – Lead per Priority Package #412)  
 #2153 Judicial Operations Assistant  
 #2199 Judicial Operations Assistant  
 #2090 Judicial Case Management & Juvenile Manager

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 39 Emergency Management

**Short Name:** Post-Pandemic Resiliency Planning

**Package ID #:** 381

**Category:**

**Description:** This package proposes continuing employment of a 1.0 FTE fully dedicated to Post Pandemic and Resiliency Planning for a future emergency response. The length and breadth of the COVID-19 response requires a dedicated FTE to adequately accomplish the planning and documentation required.

**Justification:** This funding requests from Snohomish County's ARPA award would continue funding a program coordinator who supported our personal protective equipment (PPE) warehousing and distribution during the pandemic response. Snohomish County was very successful in securing PPE to support hundreds of partner agencies during our COVID-19 response. While the supply chains have stabilized and our partners are now using their normal suppliers, we still have a significant body of work related to PPE.

This position is responsible for ensuring we have strict accountability of the PPE that remains in our possession and for accountability for all items distributed during the response. This will be extremely important to support our compliance with the fund sources used to purchase this equipment and/or any audits of those purchases. This position will also handle any further distribution should it become necessary and develop plans for either the long-term storage of PPE or the disposal of expired PPE.

Finally, this position fills the important role of documenting our warehousing operation and evaluating ways to improve both the warehousing and our distribution efforts. These lessons learned and the plans developed from them will be very helpful for future distribution of any commodities. Existing staff simply do not have the bandwidth or insights to do this, so losing funding for this position would be missing the chance to codify a key part of our overall mission to support jurisdictions and residents throughout Snohomish County.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** HS CD/MH Sales Tax Enhanced Services

**Package ID #:** 382

**Category:**

**Description:** HS Chemical Dependency Mental Health (Sales Tax) contracted and direct services.

**Justification:** These adjustments are made to reflect more accurately planned 2023 Chemical Dependency/Mental Health contracted and direct service activities.

Specifically, adjust many of the line items to include a 2.5% COLA contingency effective 1/1/2023. Adjust the Diversion Center and Carnegie Operations lines items based on current contracts. Adjust the Professional Services line item to reflect the 2021 & 2022 Housing Capital grant award, the 2023 Housing grant allocation, Seasonal Shelter and \$6M+ setaside for Lynnwood facility and additional BH facility.

CD/MH Sales tax collections are adjusted, based on a projected increase of 6% for 2022 and 6% for 2023. Other revenue sources are adjusted based on current actuals.

Use of program fund balance will be adjusted once remaining county departments requested have been submitted.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 04 Human Services

**Short Name:** HS Aging Services Network (1)

**Package ID #:** 383

**Category:**

**Description:** Adjustments to the Aging Administration and Long Term Care Services Network budget.

**Justification:** These adjustments are made to more accurately reflect planned 2023 Long Term Care Administration and direct services activities.

Specifically, add an estimated 3% salary COLA contingency effective 1/1/2023. Add salary contingency for 2022 out of class work assignments that may need to continue into 2023 in order to complete timely work required by state and federal grantor agencies. Increase Family Caregiver Supplemental Services that are provided directly to program clients; the increase is fully supported with federal and state grant funds. Adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in depth review of award amounts and projected program activities.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 20 Pass-Through Grants

**Short Name:** HS Aging Services Network (2)

**Package ID #:** 385

**Category:**

**Description:** Adjustments to the Human Services Long Term Care and Aging Network pass-through budget.

**Justification:** These adjustments are made to more accurately reflect 2023 Aging Services funding subcontracted to local provider agencies.

Estimated pass-through amounts are based on in depth review of regularly renewed federal and state grants, new grants and contracts, and planned utilization of multiple federal COVID Response and Recovery awards received indirectly through Washington State DSHS. Adjustments reflect management's strategic assessment of continuing and enhanced program services that will best serve the unique needs of elderly and disabled community members through 2023.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Fair Park Year Round Expense Increases

**Package ID #:** 386

**Category:**

**Description:** This package contains expense increases for year round support of the Fair Park including supplies, fire protection, month to month rentals, B&O taxes, dues and training expenses

**Justification:** Due to the extraordinary inflation we are currently seeing many of our expenses will continue to increase in the 2023 fiscal year. Below are the required increases in our spending authority to be able to continue the year round operations at the fairgrounds. These increase in expenses are all offset by an increase in new revenues.

\$10,000 increase in supplies, \$5,000 for Maintenance Supplies and \$5,000 for Administration, Programs and Marketing supplies

\$8,886 increase in Repair/Maintenance to be in line with current spending and anticipated increases due to inflation

\$2,000 increase in month to month rentals, includes fairgrounds wifi costs and printing/copies

\$10,000 increase in Fire protection which includes year round and Fair time Fire and first aid safety needs

\$2,000 increase in B&O taxes due to the increased year round rentals at the Fairgrounds, we are seeing an increase in the B&O taxes we pay to the state

\$2,300 increase in training for our Maintenance team for to invest in our employees to take specific training for certification to apply pesticides to ensure we are in compliance as well as not relying on only one employee that has certification

\$800 increase in dues for our Maintenance program for licensing in pesticide use

This package is offset by an increase in fees to our RV overnight stays, we have seen increased demand over the last 3 years and plan on increasing our nightly fees starting in 2023

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Fair Park Annual Fair expense increases

**Package ID #:** 387

**Category:**

**Description:** Expense increases associated with producing the annual Evergreen State Fair

**Justification:** Inflation is higher than it has been in 40 years, we expect many of our expenses to produce the annual Evergreen State Fair to increase due to this abnormally high inflation. This is a net neutral package as these expenses will be offset by new revenue based on the renegotiated contract with the company that produces our Fair carnival as well as increased RV camping charges at the Fairgrounds.

Per RCW 49.46.020 the minimum wage increases based on the CPI-U, we use a 7% increase to account for the potential change in minimum wage based on state law. This will only be used if we return to a 12 day fair, in 2021 and 2022 we have closed on the slowest day of the fair (Wednesdays) which has saved us in extra help expense for those years. We have not decided to make this permanent and are requesting an increase of \$41,000 shared between 3 programs in case we return to a 12 day fair.

The Monroe Police Department and the Snohomish County Sheriffs office have indicated they will need to charge more for providing traffic and security to the annual Fair. We are requesting an additional \$6,000 for managing traffic and \$5,000 for sheriff's security.

\$15,000 Our bid for Shavings removal increased 40% for 2022 and we expect it to only increase more in 2023, this includes Fair and Year Round shavings removal

\$50,000 for Marketing as our marketing budget for ad buys has not increased since 2011, as the marketing environment has changed with social media and online ad buys we find it necessary to increase the amount we are spending on marketing

Other expenses we are requesting an increase due to inflation or demand:

\$20,000 for fair equipment rentals for fair entertainment (stages, temporary offices, sound equipment etc)

\$5,000 for Fair decoration rentals (pipe and drape and decorations)

\$2,000 increase to pay judge fees and travel expenses for judges

\$2,000 for operations and superintendent supplies

\$1,600 for professional service contracts pertaining to entertainment coordination

\$5,000 for creative services for our marketing

All of these expenses are offset by an increase of \$143,720 in revenue from our carnival contract, we have a \$900,000 minimum guarantee clause in the contract, currently our budgeted revenue from our carnival is \$756,280 as well as additional \$8,880 in RV revenue due to an increase in charges.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>	
FUND 002	\$152,600
<b>TOTAL - EXPENDITURES</b>	<b>\$152,600</b>

<b><u>Revenues Summary</u></b>

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Fair Park Position DAC changes

**Package ID #:** 388

**Category:**

**Description:** This package changes the partial allocations of 2 FTE positions from the 197 Sponsor and Donation fund to the Fairgrounds Administration Program in the general fund. In addition this package balances the 197 fund matching revenues to expenses.

**Justification:** We are requesting .30 FTE of our Fairgrounds Marketing Specialist and .25 FTE of our Programs Specialist to be moved from our 197 Sponsorship and Donation Fund to our Evergreen Fair 541 Fair Administration program. Our Sponsorship and Donation fund has variable revenues and is not the appropriate fund to have partial FTE expenses of salary and benefits paid from it. Our fair sponsors are sponsoring the entertainment, marketing, and production of the annual fair, this revenue is variable from year to year and having fixed salary/benefit expenses from this fund is unsustainable.

This package also reduces the budgeted revenues in our 197 sponsor fund to be more realistic with sponsorships as well as balance the fund revenue and expenses. It also increases the revenues in our 541 program to offset the additional expense as we are increasing our Fair admission.

This is a net neutral package as our increased revenues offset the increased expense. Our fair revenues were down 28% in 2021 as we temporarily suspended paid parking (estimate \$500,000 in revenue) and had decreased attendance due to the Delta variant of covid and restrictions on outdoor event attendance. We fully expect our attendance to return to normal in 2023.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR-Historic Preservation Fund

**Package ID #:** 389

**Category:**

**Description:** This packages aligns the expected expenses for the Historic Preservation workplan with the expected revenues

**Justification:** The Historic Preservation program seeks to preserve Snohomish County's archeological and historical resources, sites and districts by community programming, educational outreach, historical places marketing and the community heritage preservation grant program.

Due to increased interest rates net recording fees that are recorded to the fund are expected to decrease by \$30,000. We are removing the potential for grant revenue as there have not been grants obtained for this fund. The fund revenues have increased over the last few years due to the explosion in mortgage refinancing thus increasing recording fees and the Historic Preservation fund balance, we are using partial fund balance to offset the expenses in this fund.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR 1% Arts Fund

**Package ID #:** 390

**Category:**

**Description:** This priority package utilizes funds from Parks Capital projects and the Arts Fund balance to fund art grants and arts in Snohomish County

**Justification:** There is an expected decrease in the 1% from capital projects that will be recorded to the Arts funds in 2023 as more capital projects fall outside the maximum range of \$10 million to be included, due to rising costs and pent up capital project demand. We will be using partial fund balance to offset the decrease in revenues to continue to be able to fund Arts grants and Arts projects in Snohomish County.  
All programs supported through the Arts fund are to fulfill the Arts Commission Vision, Mission, Purpose and Goals in service to Snohomish County per SCC 2.95 as outlined through the Snohomish County Arts Commission workplan.

### SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 10 Assessor

**Short Name:** Assessor Housekeeping Package

**Package ID #:** 391

**Category:**

**Description:** Housekeeping - adjustments to Base Expenditures

**Justification:** Salaries and Benefits - Salary (+\$8944) Benefits (+\$1636) - 3 positions were filled in 2022 which will be due step increases in 2023. The salaries and benefits for these positions were adjusted by system calculations.

Overtime - (+\$20,000) Request of \$135,000 for OT for 2023 includes \$75,000 for ProVal-Ascend Replacement activities (testing, data cleanup, etc.) funded with I/F Labor - ProVal/Ascend (IT) and \$60,000 for annual maintenance activities. This is a \$20,000 increase from the 2022 amount of \$115,000 in anticipation of the upcoming field inspection cycle activities for Real Property Appraisal, regular maintenance activities in other divisions and increases in applications for Senior Citizen and Persons with Disabilities Exemptions.

Salary Contingency - (+\$22,876) Residential Appraisers hired in the past 2 - 3 years are eligible for career track promotions when they meet education, performance and time-in-grade requirements. Five Residential Appraisers in the Assessor's office may earn career track promotions in 2023. This line item accounts for expected increases in wages for those individuals.

Communications - (+\$4,349) Increase costs for cell service for field personnel and supervisors plus service for iPads used for field appraisal data entry.

Postage - (+\$18,845) Increase to cover expected postal rate increases from USPS, increases in parcel counts for Assessment Notice mailings and increases in Personal Property listings due to discovery efforts. The Base Expenditures amount of \$111,055 carried over from the 2021 budget was \$5657 less than actual expenditures in 2021. New eNotice options for taxpayers in 2023 may reduce postage and printing costs in the future. However, eNotice usage will be difficult to estimate until next year's Assessment Notice mailing in June 2023.

Meals - (+\$2,575) Increased costs to cover meals for staff traveling to in-person education classes and/or conferences outside of the Snohomish County area.

Lodging - (+\$4,300) Increased costs to cover lodging for staff attending training/education classes that require overnight accommodations for multi-day courses, seminars or conferences.

Education Fees - (+\$4,050) Increased costs to cover tuition/fees for continuing education or mandated courses for Assessor's staff. Includes some funds previously included in Registration Fees.

Registration Fees - (-\$1,925) Decreased line item to separate registration for conferences from education fees & tuition for staff.

Dues - (+\$5,700) Increased costs for membership in professional organizations plus increased subscription costs for commercial sales data from CoStar Comps.

Revenue - I/F Chrgs - SWM Collection - (+\$1340) increased for updated wage & benefits rates.

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 06 Public Works

**Short Name:** 102 - TES FTEs

**Package ID #:** 392

**Category:**

**Description:** Transportation Specialist:

TES is requesting a full time FTE in a lead role for Road Safety Plan management. The position will require road safety engineering experience (but not necessarily a PE) and strong interdepartmental coordination and communication skills. This position will be focused on the 6-year TIP and TNR for the Road Safety Plan program.

Right of Way Investigator III:

TES is requesting a full time FTE as a Right of Way Investigator III at the TES traffic permitting counter. There is currently only one staff person assigned to this type of work. As a result, there is minimal redundancy or capacity to address fluctuations or increases for these important work responsibilities

**Justification:** Description of Workload - Transportation Specialist:

- Lead Road Safety Plan implementation based on a formal program to be established in 2022.
- Review and update traffic and safety data.
- Plan and prioritize safety projects and actions for implementation across divisions and departments.
- Coordinate and collaborate with other divisions, departments, and organization for safety projects, programmatic measures, communications and outreach, and enforcement to prioritize and maintain a safety culture at the County.
- Manage work order process through Traffic Investigators, manage smaller safety projects for design by Traffic Operations or Program Planning, and programming and funding coordination with Program Planning of larger projects for design and construction by Engineering Services.

Description of Workload - Right of Way Investigator III:

- Process right of way (ROW) vacations and establishments. Most of this work is development driven and requires organization of many details in a timely manner.
- Provide project collaboration and assistance with the current ROW Investigator III to increase timeliness of processing.
- Provide complex ROW analysis and research in coordination with Survey and to coordinate interagency (WSDOT and City) ROW project documents.
- Free up ROW team capacity for field reviews and to complete interagency WSDOT projects such as outstanding ROW turn-backs, which are only addressed as time allows.
- Be a subject matter expert to organize historical ROW documents and complete a digitizing process within a set deadline so that County Engineer records are accessible internally and externally. This is essential to significantly reduce the records footprint and to reduce staff time spent researching ROW for developers.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 13 Human Resources

**Short Name:** Human Resources Assistant

**Package ID #:** 393

**Category:**

**Description:** Central Human Resources seeks authority and funding for a Human Resources Assistant FTE.

**Justification:** Central Human Resources has expanded functionality and continues to make efforts to centralize services. An additional Human Resources Assistant is necessary to maintain the level of services that the department has been providing. Central Human Resources will be a vital partner and key contributor to the integration and ongoing support of approximately 150 FTEs from the Snohomish Health District. In addition, the department will lead in the implementation of recommendations made in the countywide compensation and classification study. The day-to-day workload in the department is consistently increasing:

Requisitions continue to increase annually

2022 YTD (June 22, 2022): 706

2021: 1039

2020: 611

Reclassifications continue to increase annually

2022 YTD (June 22, 2022): 105

2021: 150

2020: 118

This position will help in all areas of Human Resources functionality, including benefit administration, Civil Service administration, employee and labor relations, wellness, people analytics, recruitment, and policy development and training.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 13 Human Resources

**Short Name:** HR Policy Analyst Position: Project to Regular

**Package ID #:** 394

**Category:**

**Description:** Central Human Resources is requesting that the Human Resources Policy Analyst project position (HRS7501P) be made a regular position.

**Justification:** The Human Resources Policy Analyst project position was established to administer the successful launch of NeoGov modules Onboard and Learn, train employees, and implement necessary policies and procedures. In doing this work the Policy Analyst identified gaps in existing policy and policy development needs in other areas. While there is still a need to establish policies and procedures for the successful implementation of these modules, the overall need for ongoing policy development and maintenance continues.

The Policy Analyst will enhance Central Human Resources' responsibility to manage risk as it relates to compliance with Federal and State laws relating to employers. There is an ongoing need to keep current on changes in law and review existing processes and policies to ensure they are in compliance with legislation, Snohomish County Code, and regulatory standards.

Further, the 2019 Human Resources audit recommends three significant undertakings that would be best completed by the Policy Analyst:

1. Develop policies and procedures that specify the responsibilities of supervisors and managers with respect to matters of compliance and risk.
2. Develop clear policies and procedures and the implementation of an adequate and authoritative oversight program designed to identify noncompliance and to recommend corrective action.
3. Develop and implement document retention policies and procedures that reflect best practices.

It is paramount that Central Human Resources continue in its efforts to establish clear process and procedures to ensure consistency across the County.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 13 Human Resources

**Short Name:** Software for Leaves and Accommodations

**Package ID #:** 396

**Category:**

**Description:** Central Human Resources is requesting software to move toward centralization of leaves and accommodations.

**Justification:** The current decentralized leaves model has resulted in inconsistencies across departments in multiple aspects of leave of absence administration; employees are not receiving their entitlements, accommodation issues are not timely addressed, leave calculations are inaccurate and codes are applied incorrectly, and laws and policies are interpreted and applied inconsistently. This subjects the County to significant risk including negating the validity of leave designation altogether if challenged, allegations of discrimination for disparate treatment around leave designation/approval, perception of unfair treatment, and extra leave being granted or too little being applied.

Utilizing a centralized leaves software will allow Central Human Resources to support employees and managers during leave of absence and accommodation processes, develop training and communications, and collaborate on strategic goals. Rather than dedicate efforts to data entry and other administrative burdens, Central Human Resources will be able to:

- Transition, track and manage accommodations and L&I cases
- Operate with consistency (using same library of templates) and accuracy
- Meet mandated timelines (with integrated notifications and reminders at every step)
- Increase legal compliance and reduce risk due to the small number of specialized staff working in the system

Central Human Resources is conducting an RFI to get a better understanding of available software options on the market and assess program functionality and limitations.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 13 Human Resources

**Short Name:** Human Resources Business Partner

**Package ID #:** 397

**Category:**

**Description:** Central Human Resources is requesting the continued funding of Human Resource Business Partner position HRS7504R.

**Justification:** The 2022 Council adopted budget includes the FTE authority for a Human Resources Business Partner, but did not include the corresponding budgetary authority. This position remained unfunded when the BDT was prepared for budget submission. By Motion 22-276 on June 28, 2022 Council funded this position effective August 1, 2022 with the department absorbing any additional costs in the event the position is filled prior to August 1, 2022. This authority was due to increased service demands in multiple areas, including the upcoming integration of the Snohomish Health District and associated increase in workload. The request in this package is to continue that funding so that these increased service demands can continue to be met.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Cleanup Event

**Package ID #:** 398

**Category:**

**Description:** This package contains a request for a solid waste cleanup event for the residents of unincorporated Snohomish County.

In the adopted 2022 Snohomish County Budget, Section 9 was added to Attachment #1:  
Section 9. Budget notes and conditions.

(A) Budget Note. The 2022 budget is adopted with the following statements of County Council intent and requests for information or agency action:

(1) Solid Waste Cleanup. Council requests that Public Works/Solid Waste staff provide options for a free solid waste cleanup event in unincorporated Snohomish County, providing proposed budget and any code amendments necessary to implement the event. Council requests the analysis and options be presented to council at the Public Works infrastructure Committee prior to April 15, 2022.

On March 18, 2022, Public Works requested additional time until May 2022 to present this information to council. Subsequently, the Solid Waste Division has experienced a high degree of operational impacts due to limitation of containers from Republic and rail export from Burlington Northern Santa Fe. This has diverted staff time and energy to triage this emergent health and safety issue and limited the amount of time to prepare the full material necessary to respond to the Council budget note. We respectfully ask for additional time to respond to this budget note until we can stabilize the flow and export of solid waste.

### Analysis

This serves as an analysis for options to provide a free one-time solid waste cleanup event in unincorporated Snohomish County. The Solid Waste Division (SWD) conducted this analysis and considered operational, financial, and code changes.

### Operational Considerations and Assumptions

The Solid Waste Division analyzed this budget note and determined the following:

- 1) There are currently 138,681 total housing units located in unincorporated Snohomish County. This number includes 99,639 single family residences (SFR).
- 2) Snohomish County has not held a cleanup event of this nature, so we do not have historical data to estimate the participation rate. To help fill in this data gap, we polled local jurisdictions that held similar cleanup events and found that the average participation rate was 10% of the households. We also noted that other jurisdictions limited each resident to one load per cleanup event. Since curbside collection in cities is mandatory, we feel the participation rate in unincorporated Snohomish County will be higher, as these households do not have a regular means to dispose of solid waste. Based on the above, we estimate that 25% of the households in unincorporated Snohomish County will participate in a cleanup event.
- 3) Based on a participation rate of 25%, it is estimated that a cleanup event for unincorporated Snohomish

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   06 Public Works

**Short Name:**   402 - Solid Waste Cleanup Event

**Package ID #:**   398

**Category:**

County will generate 34,670 customers.

4) The SWD focused on options that utilize existing facilities and infrastructure to host a free solid waste cleanup event. The SWD currently processes 4,500 customers with solid waste per weekend. The SWD estimates that 40% of our hand-unload customers originate from unincorporated Snohomish County. These customers frequent all of our fixed facilities, but especially utilize the Drop Box Facilities. We estimate that the cleanup event will generate 5,547 "additional" customers (i.e., unincorporated households that have curbside but will utilize the cleanup event to dispose of their extra refuse).

Recommended Approach

Based on the above, we strongly recommend that a cleanup event be several months in duration. For instance, if the event was 3 months long, the customers utilizing a cleanup event would be spread out over a longer duration and we would be able to handle the "extra" customers without excessive staff and facilities. SWD proposes Q2 2023 as this is the lowest flow time of year. However, we recommend evaluating the ability of the SWD to accept additional solid waste flow given the ongoing impacts of hiring county staff, limitation of containers from Republic and rail export by Burlington Northern Santa Fe.

The SWD recommends a voucher system be utilized to ensure an equitable distribution of the free one-time solid waste service. This will also provide a mechanism to track usage and manage costs. The SWD recommends the following:

- A. Each household in unincorporated Snohomish County will receive by mail a voucher which can be redeemed at any Solid Waste Facility as a payment for disposal fees
- B. The voucher will be printed on unique card stock with sequential numbers to enhance visual proof of authenticity and minimize fraud.
- C. The voucher can be used for the following fees: Garbage, Yard/Clean Wood Debris
- D. The voucher has a defined redemption value (no change will be issued)
- E. Each voucher can only be used once and must be presented to the site attendant when assessing the fee
- F. Only one voucher can be claimed per trip
- G. Only one voucher may be used per household
- H. The voucher can be redeemed at any time during the event duration
- I. The voucher cannot be used to pay an unsecured load fee

Code Changes Required

Snohomish County Code 7.41.020, states: "All persons using a county owned and operated solid waste disposal system facility shall pay the service fees set forth in the solid waste service fee schedule." A change to County Code, via legislation, would be required to allow for the proposed cleanup event.

**Justification:**

Financial Considerations

A free cleanup event for the unincorporated households of Snohomish County will have the following financial impacts:

Voucher Printing: \$0.15/each   Total \$20,802

---

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

**Package Type** Standard

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Cleanup Event

**Package ID #:** 398

**Category:**

Postage: \$0.44/each Total \$61,020

Processing Costs: \$4.07/ton Total \$25,399 (all labor and equipment already included in SWD 2023 baseline budget)

Waste Export Fee \$53.88/ton Total \$336,246

Total Cost: \$443,467

Total Cost Above Baseline Budget: \$418,068

The SWD proposes the following for a free solid waste cleanup event for the residents of unincorporated Snohomish County based on operational, financial, and code changes research:

Voucher worth up to \$20.00 (minimum fee)

Estimated cost = \$443,467

This option would allow each household (customer) to dispose of up to 360 pounds of solid waste for free. Each household will be provided with a single voucher worth up to \$20.00 which corresponds to the current minimum fee to dispose of solid waste. The customer will be responsible for the delivery and unloading of solid waste at any solid waste facility during the duration of the 90-day event and can redeem the voucher for up to the full value of \$20.00. If the disposal fee is less than \$20.00, no change will be issued. If the disposal fee is greater than \$20.00, the customer will be responsible for additional charges.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 10 Assessor

**Short Name:** ProVal Ascend Replacement OT & Project Assmt Tech

**Package ID #:** 399

**Category:**

**Description:** Overtime and Project Assessment Tech position for ProVal-Ascend Replacement project

**Justification:** This priority package addresses some of the resources needed for the ongoing project to implement the new Aumentum Assessment Administration and Mass Appraisal software systems. The Assessor's office has taken on additional responsibilities to work with the vendor, IT and the Treasurer's office to configure, test and convert to the new system, Aumentum. This work is in addition to our statutorily required work. Project work is ongoing through 2022 and will continue late into 2023 with full implementation planned for late in the 3rd quarter or early 4th quarter of 2023. The vendor has begun an iterative conversion process, working closely with Assessor and Treasurer personnel to test data and functionality each step of the way. In 2022 and 2023, the vendor will continue programming and configuring the software for use in Washington State and Snohomish County.

The Assessor's office will need OT funds dedicated to allowing supervisors, senior staff and subject matter experts to complete testing and configuration tasks in addition to their normal duties. The Overtime line item carried over from the 2022 budget for the Assessor's office includes \$75,000 for project related overtime which was funded through 002.3104244902, I/F Labor - ProVal/Ascend (IT). (The total OT budget request of \$135,000 for 2023 includes additional \$20,000 for regular maintenance work as noted in Priority Package 391 - Assessor Housekeeping Package.)

A project Assessment Technician I position (ASR1305P) was approved in the 2022 budget and funded through 002.3104244902, I/F Labor - ProVal/Ascend (IT). The position has been filled and is providing additional clerical support for higher level staff members so they can be freed up to work on conversion tasks. This position is also providing support to all divisions of the Assessor's office as projects are identified throughout the configuration, testing and implementation phases of the software project. We ask that this position be extended through 2023.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 06 Public Works

**Short Name:** 102 - PW Changes to IT Rates

**Package ID #:** 400

**Category:**

**Description:** This priority package is to move departmental application support and maintenance into the IT rates for the Cartegraph contract.

This priority package includes \$18,500 of extra budget authority for IT to add Cartegraph Gold Support services to the PW contract.

The net cost impact of this package is zero.

**Justification:** IT has decided to assume the support and maintenance of Cartegraph technology vendor support agreements now that this has become a County enterprise solution.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 39 Emergency Management

**Short Name:** PIO Opioid Planning

**Package ID #:** 401

**Category:**

**Description:** This priority package seeks to fund .25 FTE for the existing Communications Specialist/PIO supporting the ongoing Opioid Response.

**Justification:** This funding request is to ensure DEM continues to have a full-time public information officer (PIO). The PIO fills a critical role before, during, and after disasters as they are responsible for creating messaging that helps our residents prepare for disasters; they provide information during disaster response; and they help provide information about resources available to our residents that can help them recover from the impacts of a disaster. This position also takes a lead role in training staff for our Joint Information Center and in coordinating the Snohomish County Joint Information System, a collaborative network of PIOs from agencies throughout the county.

Several years ago DEM partnered with the Airport to share a PIO. As the Airport expanded into commercial operations and needed a dedicated PIO, we partnered with Human Services and they provided some funding so they would have access to a PIO. They have since hired their own dedicated PIO and this funding would fill the gap left by that decision.

We are requesting CDMH in recognition of the amount of work we expect the PIO to dedicate to our ongoing role in the opioid response. With the strain of the COVID response lessening, we expect the work of the Opioid MAC-Group to resume with increased emphasis on public education and outreach. This position will be one of many that will contribute to those efforts. We have stretched our grant funds to the maximum to try to address the funding shortfall but do not have adequate grant funds to keep this position at a full 1.0 FTE.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 33 Medical Examiner

**Short Name:** 0.5 FTE Pathology Assistant

**Package ID #:** 402

**Category:**

**Description:** Requesting an additional 0.5 FTE pathology assistant (adding 0.5 FTE Fund 002 to existing 0.5 FTE Fund 124 for a total 1.0 FTE)

**Justification:** Given the difficulty in filling two vacant associate medical examiner positions, more help is needed from the pathology assistants to prepare bodies and the morgue for our one doctor so we can still support our high case load.

### SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:

Expenditures Package Summary		
FUND 002		\$48,375

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** Law and Justice Data Collection Initiative

**Package ID #:** 406

**Category:**

**Description:** This Priority Package requests the re-appropriation of funding authorized in the 2022 budget from the Non-Departmental Fund for the completion of the Social Justice Data Collection Initiative.

**Justification:** The Snohomish County Council appropriated funds in the 2022 budget to support the Law and Justice Data Collection Initiative (led by the Prosecuting Attorney's Office). The PAO's efforts led to the Microsoft Corporation awarding a \$250,000 grant to the Institute for State and Local Governance (ISLG of CUNY) to provide analysis and assistance in developing metrics to evaluate social justice issues in Snohomish County's Law and Justice Community. These efforts are currently underway, and the County Council is briefed regularly on its progress.

Organizations are under increasing pressure to provide operational and procedural transparency. Business Intelligence (BI) Reporting and Visualizations provides the opportunity to report data important to the Law and Justice Community and the residents of the County. Organized data from multiple sources can optimize the insight through data visualization. This project enables the PAO's office in collaboration with IT to engage with an external resource to deliver business value and define long term operational integration into standard county IT infrastructure. This is a continuation of the efforts initiated in 2021 that extends the capabilities to be focused on standard operating models for the county and enables broadening of the data sets accessed.

The solutions pull data sources together and create comprehensive reporting from multiple sources, in particular New World, which is the Sno911 call system, and JustWare, an on-premise SQL instance. Data from these systems need to be consolidated in a comprehensive manner to provide accurate reporting back to the community.

The goals of this effort are to:

- Increase visibility and create more opportunities to make data-driven changes in systems and processes
- Activate self-service reporting capabilities to empower residents with knowledge about their community

This package proposes to roll over unexpended 2022 non-departmental dollars appropriated to the project in 2022 to facilitate the project's completion.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>	
FUND 002	\$350,000
<b>TOTAL - EXPENDITURES</b>	<b>\$350,000</b>

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** IT Innovation Fund

**Package ID #:** 407

**Category:**

**Description:** This package represents the creation of a new program within the Information Technology Capital Fund 315 focused on innovation projects. The annual budget cycle requires long lead-time for any IT projects that support business outcomes. The nature of IT innovation is such that the planning window must be short, and the execution model leverage agile methods that a modern IT organization follows. This often does not align with the county's financial planning cycles. The new IT Innovation program will set aside a dedicated amount of funding that will be administered by a steering committee of IT, OpEx, Exec, and Business Leadership in support of innovation projects that require investment in IT solutions or technical IT resources that either do not currently exist, or where capacity is already allocated to other projects and initiatives.

**Justification:** Primary justification for this funding line is to have an agile funding model for innovation projects that meet a set of defined criteria around business value and return on investment.

Allowing for a governed IT program that distributes funding to approved technology projects that are not part of the already funded projects (during budget cycle) has been identified as a high need. The modern world of IT moves very quickly, and therefore a funded mechanism that allows for more agile decision-making without having to wait for budget cycles would provide more direct and expedient business value. New ideas and innovation arrives quickly and sometimes unexpectedly. The model for this is to use a managed governance model that provides the guard rails and decision-making model to ensure funded projects meet a set of predefined criteria.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** ARPA Funding Request

**Package ID #:** 408

**Category:**

**Description:** 24x7 SOC/MDR - \$375k in 2023 ; \$300k Recurring

An organization's vulnerability to cyberattacks is not limited to standard business hours; a cybercriminal could be in a different time zone or be a hobbyist that can only attack on nights or weekends. Some cybercrime groups deliberately attack outside of business hours to minimize their probability of detection. In 2021, the FBI released the following alert "The Federal Bureau of Investigation (FBI) and the Cybersecurity and Infrastructure Security Agency (CISA) have observed an increase in highly impactful ransomware attacks occurring on holidays and weekends - when offices are normally closed - in the United States..."

A 24x7 Security Operations Center (SOC) provides many crucial benefits to an organization. A team of analysts can provide continuous network monitoring and protection and respond more rapidly to potential security incidents. Additionally, monitoring by cybersecurity experts would reduce the daily operational burden on the County's limited IT Security resources and allow the team to focus on more strategic security activities. As the County has engaged with Cyber Insurance providers, we're hearing that a 24x7 SOC is rapidly becoming a baseline requirement for insurability.

The Information Technology Department is requesting funds to contract with an external vendor specializing in the delivery of 24x7 Security Operations Center and Managed Detection and Response (MDR) services.

PENETRATION TESTING - \$25k Recurring

Penetration testing (which is also sometimes called pen testing or ethical hacking) refers to the security process of evaluating an organization's computing environment for vulnerabilities and susceptibility to cyberattacks.

Organizations should perform penetration tests regularly to ensure their Information Technology (IT) infrastructure remains strong and well-protected. Specific benefits of regular penetration testing include:

- Validating existing security controls
- Reducing the risk of zero-day threats
- Improving new application and infrastructure deployment
- Delivering due diligence
- Auditable trail of security evaluation
- Supporting risk assessments, including improved cyber insurance insurability

The Information Technology Department is requesting funds to contract with an external vendor specializing in penetration testing to conduct quarterly testing.

ZERO TRUST SEGMENTATION SOLUTION - \$50k Recurring

Ransomware and cyberattacks need to move laterally within an organization to be successful. To reduce this risk, organizations commonly employ a security strategy called Zero Trust which treats all networks as compromised and assumes that threats - both external and internal - are always present.

You begin by identifying a "protect surface" that comprises the organization's most critical and valuable data, assets, applications and services. Next you limit access by erecting secure micro-perimeters (aka micro-segmentation) around the "protect surface." By obtaining granular control over the most sensitive applications and data, organizations can eliminate zones of trust that increase their vulnerability.

Earlier this year, IT evaluated each of the county's applications to identify an initial, limited "protect surface." We're requesting funding to purchase a micro-segmentation solution to reduce access and establish a security perimeter around those applications. Over time, the solution could be expanded with the acquisition of additional licenses.

---

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   14 Information Technology

**Short Name:**   ARPA Funding Request

**Package ID #:**   408

**Category:**

**PROJECT PM RESOURCE (SYSTEMS) - \$165k One-time**

The IT Systems Division has multiple large, complex projects for which a Project Manager would make a significant impact. Two of the most significant projects are:

-SQL Database Migration - The County has a few hundred SQL databases that must be moved off old hardware into to our new SQL environment. Most migrations require coordination and planning between IT Engineers and Application Support, IT's outsourced database vendor, department owners and testers, and the application vendor. After a database is migrated, it can be replicated to the County's disaster recovery site in Yakima.

-Intune Implementation – Intune is a mobile device management (MDM) solution that allows IT to manage county-owned cell phones, tablets and computers. Configuration policies including security controls can be applied to managed devices and executed remotely.

The Information Technology Department is requesting funds for a one-year project position for a Project Manager to lead these and other important projects.

**CONSULTANT FOR IT DR PLAN - \$100k One-time**

An IT disaster recovery plan is a documented methodical proposal for managing situations that occur in the event of natural or human-made disasters. The steps of a disaster recovery plan typically revolve around taking actions that help a business resume its operations as quickly as possible.

Given our rapidly evolving IT environment and workplace, Snohomish County's Disaster Recovery plan needs to be refreshed. The Information Technology Department is requesting funds to contract with a 3rd party specializing in the development of IT disaster recovery plans and other related documents such as a Business Impact Analysis and Risk Assessment.

**PROJECT IT NETWORK ENGINEER - \$165k One-time**

The IT Systems Division has several projects and initiatives requiring IT networking expertise. These projects include various facility moves or changes (Bomarc build-out, DJJC remodel), refreshing network infrastructure (new wireless solution, hardware replacement), numerous security camera installations, and the Yakima disaster recovery site. The IT Network Engineering team operates with limited staffing and adding an engineer is needed to ensure timelines are not impacted by resource constraints.

The Information Technology Department is requesting funds for a one-year project position for an IT Network Engineer to assist with these important projects and support daily operations.

**SERVER INFRASTRUCTURE MONITORING - \$50k Recurring**

The Information Technology Department's existing server monitoring solution is primarily designed for on-premises infrastructure. As the county increasingly leverages the cloud, it's critical to utilize a monitoring solution designed for a hybrid environment.

IT is interesting in a solution that collects, analyzes and acts on telemetry data from both cloud and on-premises environments and maximizes the performance and availability of applications by proactively identifying problems. In addition, increased visibility across the county's server infrastructure will improve alerting and event correlation, reduce the time to repair and improve service quality.

The Information Technology Department is requesting funds to subscribe to infrastructure monitoring services capable of delivering the described capabilities.

**UPGRADE TELEPHONE SOLUTION (e.g., Teams Voice, Phones, Professional services, etc.) - \$1,000,000**  
In March 2022, Snohomish County upgraded its Microsoft licensing to the G5 level which includes the rights

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Short Name:** ARPA Funding Request

**Package ID #:** 408

**Category:**

to Teams Voice among other products. The county's current on-premises Skype for Business phone system is scheduled to go end of life in 2025, with the product line being fully deprecated.

The transition to the Teams Voice cloud-based telephone system will require comprehensive planning and design, hardware and software evaluation and assessment, implementation and testing, organizational change management, and employee education. This is a lengthy and complex project that will touch everyone who utilizes the county's telephone system.

The following is a non-inclusive list of anticipated expenditures associated with the project:

- Vendor to assist with discovery, design, planning, implementation and migration activities
- Hardware purchases - session border controllers, survivable branch appliances, replacement desktop phones and headsets
- Software subscription purchases - contact center solution, E911, cloud services
- Additional resources to assist IT staff with migration activities
- Vendor to assist with adoption and organizational change management

The Information Technology Department is requesting funding to ensure the successful, seamless, and timely execution of this strategically important technology project.

**Justification:** This package represents IT's request for 2022 ARPA funding, for which there has not yet been allocated funding available.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 14 Information Technology

**Short Name:** Fund 315 Prior Period Adjustment

**Package ID #:** 409

**Category:**

**Description:** This package is a continuation of "Fund 315 Prior Period Adjustment" package #291 in 2022. Adjusting revenue and expenditure budgets to align with prior period general ledger entries for actual revenue and expenditure. It is designed to amend appropriation levels in the multi-year fund to more closely reflect the activity and project balances. It will improve financial reporting as it will adjust budgets to match the Technology Replacement Program (TRP) Divisions and Projects and all other active projects in Fund 315.

**Justification:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR-Parks New Communications Specialist FTE

**Package ID #:** 410

**Category:**

**Description:** Reposition Annique Bennett in DCNR-Parks Division

**Justification:** Annique Bennett was working under the Tourism division of Parks, Recreation and Tourism prior to 2022. In 2022, the Parks and Recreation department merged with the Surface Water Management department to create the Department of Conservation and Natural Resources and the Tourism division was moved to the Executive's Department. Due to our business restructure, we found that a Communications Specialist I was needed to complete specific roles within the new department. Annique Bennett's job duties changed to fulfill these business needs and although her position is assigned to the Executive's office, she continues to report to the DCNR-Parks Director. This priority package places Annique back in DCNR-Parks division. Annique's current title is Tourism Sustainable Development Specialist which we are updating to Communications Specialist I that aligns with her current responsibilities.

Specific duties shifted to Communications Specialist I include:  
Administration and Coordination of the Arts Commission and Arts Fund  
Grant writing for the Arts Commission  
Community outreach for the arts to expand public support for the programs  
Implement public involvement for Outdoor Recreation  
Engage public and gather input on the Arts Fund and Outdoor Recreation

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR-Parks Fair Reclass position union contract

**Package ID #:** 411

**Category:**

**Description:** Reclass Brian Higginbotham position per the negotiated union contract

**Justification:** The AFSCME contract extension allowed for qualified mechanics to be designated as Senior Mechanics with a bump in pay. This applied Parks and Fairgrounds Services Addendum, the specific language is:

Section 2. Employees in the Equipment Mechanic Diesel classification that have eight (8) or more verifiable years of experience performing heavy truck and equipment repair work and have demonstrated the competency of a senior mechanic shall be compensated at two (2) pay grades higher than the base position. A degree or certificate from an accredited technical college/trade school may be substituted for up to two (2) years of experience.

Brian Higginbotham met the qualifications for this position reclass per the contract and his position was updated the beginning of 2022. This priority package permanently updates his position per the union contract.

**Department:** 37 Clerk

**Short Name:** Clerk- Reclass JOA to JPA Lead

**Package ID #:** 412

**Category:**

**Description:** This requested change is for a reclassification of Judicial Operations Assistant position (CLK2126R) to a Judicial Process Assistant Lead.

**Justification:** This request is in conjunction with Priority Package #378 for a new division within the Clerk's Office.

In order to accommodate the increased workload resulting from Superior Court's decision to increase court calendars at the Denney Juvenile Justice Center (DJJC) on case types other than juvenile proceedings to 5 days per week, our office plans to reorganize and reallocate four (4) staff from the Clerk's main office to our Juvenile division located at DJJC. The reallocation of staff to the DJJC location will bring the total number of regular staff up to 9 (8.1 FTE). This division also oversees 3-4 project staff who are working on a long term (up to 10 year) permanent court record destruction project. Currently the DJJC location has only 1 supervisor and a manager that splits her time between DJJC and another division that she manages located at the main campus.

We have designated position #CLK2126R, as it has recently been vacated, and can be maintained as an open position until the effective date of this reorganization. The details of the expenditures are also presented in Priority Package 378, Clerk - New Program.

The additional Lead position will bring parity to this Clerk's Office division in comparison with the rest of the office divisions, provide needed support for the increased number of staff and reduce the span of control for the Supervisor.

**Snohomish County 2023 Budget - Department Request  
Priority Package Detail**

---

**Package Type** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - Funding for Newly Approved Positions

**Package ID #:** 413

**Category:**

**Description:** Request for funding for 2 FTE positions approved by Motion 22-215

**Justification:** The Washington State Legislature recently passed E2SHB 1320, "An Act Relating to modernizing, harmonizing, and improving the efficacy and accessibility of laws concerning civil protection orders" (ESHB 1320). Governor Inslee signed the bill into law effective July 1, 2022. E2SHB 1320 and the subsequent substitute House Bill 1901 contain significant changes to the manner in which protection order matters are heard in Washington State which will significantly impact Superior Court caseloads throughout Washington State and increase the amount of time spent on protection order matters for both Superior Court and the Clerk's Office.

Snohomish County Motion 22-015 was approved to add a 6th Superior Court Commissioner in response to E2SHB 1320, and Snohomish County Motion 22-215 was approved increasing the number of FTEs in the Clerk's Office by 2 FTEs in order to support the new commissioner and perform our increased mandated duties.

Positions CLK6574R and CLK6575R were added in response to the approved motion. We are requesting funding for these positions in the FY2023 Budget, as well as continued funding in future years

Priority Package Detail**

---

**Package Type**   Standard

**Department:**   \*

**Short Name:**   DOR Admin Fee For Timber Tax

**Package ID #:**   415

**Category:**

**Description:**   In 2018, Washington State Department of Revenue (DOR) launched a new tax and licensing system. Among other functions, DOR uses this system to help collect forest tax revenue and distribute each counties' share of the forest tax revenue back to them. Due to a technical issue within that new system, DOR's costs for administering the taxes have not been deducted from the local Timber Tax distributions since November 2018. This issue has resulted in the Snohomish County receiving and then distributing (to the taxing districts) excess forest tax revenue since January 2019. Under Washington state law DOR is required to recoup those administration costs.

The County Treasurer will repay the DOR for the full amount owing for all junior taxing districts so there is no need for individual junior taxing districts to remit payment to DOR. All taxing districts that received a distribution of timber tax (revenue DAC ending in 1210) between January 2019 - May 2021 will be charged (by way of journal entry) for their proportion of the administrative fee in January 2023 (to reimburse the County) so that all districts can consider their expenditure in their respective budgets. The JTD portion totals \$105,934.62, which will be fully reimbursed to the County in January 2023.

The final expenditure attributable to the County is \$84,749.09. There is an impact to County GF & Conservation Futures, HS and Roads. The breakout by County's fund is as follows, but please note the revenue DACs the excess revenue was distributed to, but the correction should be posted to expenditure (rather than reduce revenue) as the correction relates to prior years.

002-3169901210	30,211.68

Priority Package Detail**

---

**Package Type** Standard

**Department:** 22 Treasurer

**Short Name:** 022 - TRS ARPA Foreclosure Avoidance Project

**Package ID #:** 417

**Category:**

**Description:** The Treasurer's Office has developed a temporary tax aid program, funded by fiscal recovery funds, to keep qualified low-income Snohomish County homeowners from losing their home to 2023 foreclosure. This proposal uses fiscal recovery funds in response to the public health emergency and the negative economic impacts for the specified purpose of assisting households for property tax, fees, and penalties incurred prior to March 31, 2021. The proposal adheres to ARPA funding requirements in that we have identified the negative impact experienced by a population or class (low-income homeowners at risk of losing their primary place of residence by foreclosure in 2023) and the proposed program is narrowly designed to benefit the individual or class experiencing the negative impact.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 02 Legislative

**Short Name:** Fund vacant position

**Package ID #:** 420

**Category:**

**Description:** Diversity, Equity, and Inclusion Specialist - Council

**Summary Description:**

The position would be responsible for implementing a Diversity, Equity, and Inclusion function within the Office of the County Council. The position would:

1. OSJ Liaison. Serve as a liaison with the Office of Social Justice within the Executive's Office. In this role, the DEI Specialist would maintain awareness of and participate in OSJ initiatives, provide input on the legislative process to the OSJ, identify opportunities for the Office of the County Council to develop and implement initiatives to further DEI.
2. Proposals, General. Develop proposals for the County Council and Chief of Staff to consider implementing both internally within the Office of the County Council and externally to other County offices/courts/departments, and community organizations and people with an interest in or affected by DEI initiatives.
3. Proposals, Service Delivery from Council Office. Develop proposals for personnel within the Office of the County Council to more efficiently deliver services and information to people who with different lived experiences including, but not limited to: BIPOC community, LGBTQ plus community, people who are disabled, people who primarily speak languages other than English, people who are lower income, residents living unhoused, residents who are living in a condition of crisis, and other people who have different lived experiences than people in positions within the decision-making process within County government. Proposals would include, but not necessarily be limited to: enhancing community outreach, facilitating focused discussions with decision-makers, and identify and facilitate training within the Office of the County Council.
4. Equity Lens for Legislative Development. Develop and facilitate implementing a method to evaluate proposed legislation to the County Council for impacts to people and communities with different lived experiences than people in positions in the decision-making process in County government.
5. Other similar duties as may be assigned.

Sample Experience: (This may not be required at this time)

The position would require a demonstrated understanding of the legislative process; experience and/or education in DEI initiatives including outreach, training, and equity lens; and experience and/or education in drafting legislation and/or budgets.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 31 Prosecuting Attorney

**Short Name:** PAO Restoration of PRA4544R

**Package ID #:** 421

**Category:**

**Description:** This Priority Package requests the restoration of funding for a Legal Assistant position in the Criminal Division.

**Justification:** The funding for the Legal Assistant position PRA4544R in our Criminal Division was eliminated in the 2021 budget because it was a vacant position and the County had decided not to authorize funding for vacancies. For the 2022 budget, the Council held off on restoration of the funding to offset the cost of a new Public Information and Records Specialist position in the Criminal Division in 2022. The understanding was that the suspension of funding was temporary and would resume in subsequent years. In 2023, all regular vacant positions are funded in the pro forma budget except for this one position. Funding for this position in 2023 is critical for the PAO as it seeks to develop and fully staff the Complex Prosecutions Unit described in Priority Package 355. This position would become part of that unit. In addition to assisting on the complex crimes, the funding of this position would increase the number of available staff supervisors, allowing the Criminal Law Office Manager to reduce the number of staff she directly supervises which is currently 22 employees.

**Category:**

**Description:** This is a request to add a 1.0 FTE Manager position tasked with overseeing the Case Management division of the Clerk's Office as well as managing projects.

**Justification:** The Clerk's Office has 4 manager positions for 6 divisions with an average ratio of 20 staff per manager. Currently, anytime the Clerk's Office determines the need to enhance services, create efficiencies or develop and implement intensive new processes, one of the existing managers must assume the lead of the project in addition to their already overburdened duties in the management of operations and staff within their respective divisions. If approved, this new manager position would be responsible for oversight of one of our smaller divisions (11 staff) which will provide the necessary time and ability to assume the responsibility and management of projects that will enhance the public's accessibility of clerk services such as developing an electronic process for the Ex Parte via the Clerk service, online web services, online chat services for customers, and online self-pay options for digital recordings, court documents, research requests and facilitator appointment fees. These online services will create efficiencies within the Clerk's Office; advance the goals outlined in the County's Mission, Vision and Values and help fulfill the Clerk's priority of "access to justice".

The request for a new manager is also due to the Clerk's Office receiving an additional seven (7) FTEs as a result of Superior Court's addition of three (3) new judicial officers. With the addition of three (3) judicial officers, Superior Court has increased court calendars at the Denny Juvenile Justice Center (DJJC) on case types other than juvenile proceedings to 5 days per week. This increased workload will require our office to assign 3-4 more staff to our DJJC location to ensure we are meeting our mandated duties of accurate and timely processing of court documents as well as our duty to attend and create and independent record of all court proceedings. If the request to add an additional 1.0 FTE Manager is approved, the current Case Management Juvenile Manager would no longer oversee the Case Management Division and would be assigned only to DJJC to oversee all operations and staff in our juvenile division as well as manage the ongoing permanent court record destruction project (currently funded by O & M funds) which is expected to take over 10 years to complete.

The addition of another manager position will allow our office the ability to better facilitate a needed reorganization of staff resources, provide some parity amongst managers as well as relief in the area of managing any projects that could provide enhanced customer services and efficiencies within the office.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 37 Clerk

**Short Name:** Clerk - CDMH Staffing Realignment

**Package ID #:** 423

**Category:**

**Description:** This package represents the reallocation of staffing related to Mental Health and Therapeutic Drug Courts

**Justification:** Program 235 - .1% focuses on activities related to chemical dependency and mental health/therapeutic courts and include drug courts, involuntary treatment act (ITA) and drug offense sentencing alternatives. The Chemical Dependency/Mental Health (CDMH) .1% Sales Tax provides the funding for these activities.

Per RCW 2.32.050, courtroom clerks are required to be present during all Superior Court proceedings. Courtroom clerks attend all hearings and trials to prepare complex and detailed, contemporaneous minutes and exhibit indexes, maintain control of all exhibits, court documents, and act as liaison and provide assistance to Judicial Officers, the public and attorneys on behalf of the Clerk's Office.

This package realigns staffing within programs 233 (Case Management), 235 (Courtroom Operations), and 235 - Fund 124 Human Services – Subfund: 002- 1/10% Sales Tax to reflect actual time spent by staff in hearings and processing documents for Mental Health and Therapeutic Drug Courts.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type** Standard

**Department:** 18 Facilities Management

**Short Name:** New Position - Fleet Services

**Package ID #:** 424

**Category:**

**Description:** The Fleet Services Division of the dept. of Facilities & Fleet proposes adding one new FTE, a Special Projects Coordinator, to coordinate the fleet electrification program, administer a warranty recovery program, and research and develop technical bid specifications for a variety of equipment and vehicles, including EVs and newly developing electric-powered equipment. The position would report to the Fleet Services Director. A great deal of research and coordination is needed to implement an efficient and cost-effective fleet electrification and ensure that EVs meet the business needs of departments. Working with departments, researching and developing specifications for job-specific and specialized electric vehicles, seeking grant funding, determining charging needs and locations throughout the county, preparing status reports and coordinating with other local agencies on electrification and charging needs and availability are some of the EV related duties the person in this position would perform.

In recent years Snohomish County has had difficulty getting timely warranty and recall services performed by local dealerships due to a growing shortage of qualified automotive and equipment technicians. This results in prolonged downtime for critical assets such as Sheriff vehicles and Public Works equipment. In addition, many times the workmanship done by dealerships is poor, requiring county staff to rework repairs. In one recent incident a critical law enforcement vehicle was intentionally sabotaged by a Dealership employee in an effort to cause a warranty repair to become a customer-pay repair, which would be higher paying for the employee. The incident is being investigated by the Everett Police Department. While an isolated incident, it is a symptom of a growing problem we face in getting quality warranty repairs in a timely manner. Manufacturers such as Ford Motor Company and PACCAR have encouraged Snohomish County to perform in-house warranty repairs and seek compensation through the manufacturer's warranty recovery program. Over the past decade Fleet Services has made great strides in standardizing the vehicles, trucks and equipment in the fleet. Standardization leads to better technician familiarity with the hundreds of vehicles in the fleet and reduces the need for training from multiple manufacturers. It also standardizes tooling and diagnostic equipment and reduces the spare parts inventory needs. Standardization also makes our technicians experts in specific makes and models, and this expertise is recognized by manufacturers. Performing warranty repairs in-house will reduce downtime, reduce transportation time and cost, and ensure good quality work when performed by county ASE master technicians. It is estimated that within a few years warranty recovery could exceed \$100,000 per year.

Vehicle and equipment bid specifications are complex and time consuming. Procurement rules do not allow the County to piggyback onto most nationwide or state cooperative purchasing agreements. Bid specifications need to be carefully developed to ensure that the county gets high quality equipment with good manufacturer and dealer support, including parts availability. We need to ensure that the equipment will be dependable and have the lowest possible maintenance cost. Standardization and ensuring good manufacturer support are critical things to consider in bid specifications and award. As vehicles and equipment become more complex, so do bid specifications. Fleet Services is facing a backlog of equipment ordering due to lack of staff to develop bid specifications. A dedicated employee is needed to take on this work.

The employee in this position would also assist the Fleet Services Director with new initiatives, budget development and monitoring and long-range planning. The employee would manage the division in the director's absence.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

---

**Package Type**   Standard

**Department:**   33 Medical Examiner

**Short Name:**   Portable x-ray machine

**Package ID #:**   426

**Category:**

**Description:**   This priority package is for purchasing a mobile x-ray machine.

**Justification:**   The ME's office is requesting funding for a portable x-ray.

A portable x-ray would be incredibly useful in the event of a mass fatality.

A portable x-ray would additionally be necessary in the event that the Lodox x-ray machine (our soon to be "daily driver") needs maintenance. We would be able to use the portable x-ray during the time the Lodox is down for maintenance.

**Package ID #:** 429

**Category:** Other

**Description:** As describes in SCC 4.87 the Reserve Fund for Evergreen Fairgrounds Capital Improvements was established in 1993 to account for and accumulate monies for expenditure on capital improvements or acquisitions at the Evergreen State Fair Park. It also accounts and accumulates funds for relief should there be a Fair Park operational deficit, this is considered the Rainy Day Fund with a minimum of \$250,000 held in reserve. When the fund took on debt service in 2011 we established an Additional Reserve of \$300,000.

The source of these funds are generated by deposit of 10% on all building and grounds rentals, admission tax and surplus of Fair Park operating as determined at the conclusion of each budget cycle.

This package includes the 2023 Budget for planned new capital expenditure (Machinery/Equipment and Construction) and off-setting revenue only. The base costs such as Repair and Maintenance, debt service (prior capital), interfunds and reserves are in a non-capital project (Pkg#428).

**Justification:** Snohomish County Evergreen State Fair Park is the largest attended recreational facility in the region and provides service to participants and visitors from throughout the Western United States. The 193 acre complex including 53 buildings and almost 400,000 square feet of indoor space, more than 1,000 events and activities are held annually. It is the desire of Snohomish County that the facilities be well maintained and improved upon to meet the needs of our community for years to come. A Master Plan was completed in 2015 which provides the tone and direction for long term success.

The focus of the reserve 180 fund in 2023 will be on the renovation of existing facilities to protect structures, preserve existing revenue sources and leverage opportunities to expand customer use of the facility year-round.

Specific large projects include:  
Covers for Bunkers – NPDES Requirement  
Drainage/Culvert Repair and Improvements – NPDES Requirement  
Capital Equipment Replacement  
Highway 2 Frontage and Walkway  
Beef Judging Arena

Priority Package Detail**

---

**Package Type** Standard

**Department:** 11 Auditor

**Short Name:** Outreach and Inclusion Package - Auditor's Office

**Package ID #:** 431

**Category:**

**Description:** Snohomish County is growing more diverse. Our local community and democratic institutions are strengthened by everyone's participation, yet barriers to participation exist for many in our community.

This priority package aims to improve voter participation and the voting experience for those facing knowledge, language and other barriers.

This priority package would provide funding to translate targeted materials relating to voting, including how to complete and return ballots accurately, important deadlines in the registration and voting process, how to return voted ballots, and what to do when your ballot signature has been challenged.

This priority package would also support the production and distribution of public service voter education ads in targeted community newspapers, on social media and in other venues with the goal of meeting voters where they are with information tailored to their needs.

## Snohomish County 2023 Budget - Department Request Priority Package Detail

**Package Type** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks Changes to IT Rates

**Package ID #:** 434

**Category:**

**Description:** This priority package is to move departmental application support and maintenance into the IT rates for the Cartegraph contract.

The net cost impact of this package is zero.

Parks share is \$29,146. For this year, because of the late notice that it is being moved to IT, the full amount is being expensed to program 430. In subsequent years, the expense will be dispersed among all Parks programs that use Cartegraph.

**Justification:** IT has decided to assume the support and maintenance of Cartegraph technology vendor support agreements now that this has become a County enterprise solution.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - Admin Operations Expenditure Adjustment

**Package ID #:** 106

**Category:**

**Description:** This package reflects adjustments to the Administrative Operations (AO) Division non-capital base budget.

Sub program areas include Management, General Services, Training, Transfers Out, Interfund Transfers (preloads), Debt Service, and Public Works Assistance Fund loan program.

**Justification:** Notable budget items and changes include:

- 1) Reclassification of a half time Office Assistant I (employee graduated from County Supported Employment Program) to a full time Office Assistant II (Regular FTE). The budget for this reclass is included in Priority Package 117.
- 2) \$300,000 for first year of Climate Change Decision Support Tool updates and/or replacement project. A grant submittal in 2022 is pending. The total grant submittal is \$875k for a multi-year project. The local match is only anticipated to be around \$50k if awarded.
- 3) New contract for Automatic Vehicle Location (AVL) licenses and equipment. The existing AVL contract is approaching expiration and an RFP is planned in 2022 for a new contract. This may include implementation costs and new equipment.
- 4) Continued services and annual dues for Kronos timekeeping and Aurigo construction management software systems.
- 5) \$750,000 in anticipated Public Works Assistance Fund loan payouts to awarded cities. Loan payouts are dependent upon timing of loan awards, contract execution, and project progress/completion.
- 6) Staff training identified by PW DEI Strategic Plan and County Office of Social Justice.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - Engineering Services Expenditure Adjustments

**Package ID #:** 107

**Category:**

**Description:** This package reflects adjustments to the Engineering Services (ES) Division non-capital base budget. The non-capital base budget is higher than the prior year by approximately 17%. This is largely driven by an increase to reimbursable services construction, which is entirely reimbursed by the customer.

The largest component of the ES division budget is for the ACP - Annual Construction Program (CIP Priority Package 110).

Adjustments have been entered into the following program areas:

- 1) Operations Program
- 2) Maintenance Program
- 3) Capital Program (CIP Package 110)
- 4) Reimbursable Program
- 5) FTE changes

**Justification:** 1) The Operations Program budget is mostly flat from the prior year.

The request for technology includes hardware upgrades, software licenses and renewals (such as Autodesk, Trimble, Leica, Gint, Visio, Bluebeam, etc.).

The request for machinery and equipment includes an additional vehicle for the construction team, and standard survey and geo-tech equipment replacements.

2) The Maintenance Program budget is mostly flat from the prior year. Budget is included for UBIT inspections (under bridge inspection truck) and diving payments to WSDOT. There is a backlog of this work from prior years.

3) The Capital Program (ACP) budget is reflected in CIP Priority Package 110. The ACP is expected to utilize about 50% of ES staff time, consultants, interns, and other County staff to deliver a historically large capital program.

4) The Reimbursable Program budget is increasing from the prior year from an expense standpoint. This is driven by an increase to construction costs for Alderwood Wastewater District (AWWD) and Silver Lake Wastewater District (SWWD), associated with some larger road construction projects. ES continues to provide many reimbursable services to other County divisions, County departments, and outside agencies.

5) The reallocation of FTEs throughout the ES division budget is based on staffing needs to deliver planned programs and projects.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - Road Maintenance Expenditure Adjustments

**Package ID #:** 108

**Category:**

**Description:** This package reflects adjustments to the Road Maintenance (RM) division non-capital base budget.

The overall RM division budget has increased in 2023 by approximately 5%. This is driven by higher annual ER&R equipment and fuel costs, as well as increased costs for maintenance materials based on recent usage and pricing trends. The pricing for materials (e.g., asphalt, concrete, rebar, excavated materials, steel, and fuel) have increased around 10% to 20% over the last year, during an ongoing time of high inflation.

Another notable change is six (6) new FTEs requested in a separate priority package to form two new RM NPDES maintenance crews (Priority Package 140). This work will largely be funded by the Surface Water Management division of CNR. Sufficient funding and demand for services is anticipated indefinitely for these additional crews to maintain compliance with NPDES mandates.

An allocation of costs across RM programs is related to an annual shift in work plans. The 2023 budget request includes levels of staffing, equipment, and materials necessary to deliver the core maintenance activities, some ACP capital construction work, and some reimbursable services for other County departments and outside agencies.

Adjustments have been entered into the following areas:

- 1) Operations Program
- 2) Maintenance Program
- 3) Capital Program (CIP Package 110)
- 4) Reimbursable Program
- 5) Employee Labor Allocation

**Justification:** 1) The Operations Program budget is made up of the Facilities and Training sub programs:

The Facilities sub program provides budget to maintain the RM division's wide array of facilities, which are necessary to operate the Maintenance, Capital, and Reimbursable programs.

Arlington Shop: Ongoing upkeep efforts at the existing Arlington Shop until the site can be re-developed.

Old Snohomish Shop property: Ongoing professional services for environmental cleanup and legal services at the Snohomish Shop site, to obtain a No Further Action designation from the Department of Ecology (DOE), and to coordinate with the remediation on the private source property. This includes consultant services to potentially sell or lease the property.

Sand Hill Pit replacement property: The Sand Hill Pit property was sold in 2020 and has been replaced with a new site at a better logistical location in the Granite Falls area. The new property will require site improvements to become fully operable (Priority Package 158).

The Training sub program budget is on par with the prior year. Training for RM workers is necessary to maintain a productive and safe work environment.

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - Road Maintenance Expenditure Adjustments

**Package ID #:** 108

**Category:**

2) The Maintenance Program budget has increased from the prior year. The Maintenance Program is made up of six sub programs, including Roadway/Roadside, Storm Drainage, Structures, Traffic & Pedestrian, Noxious Weed, and Maintenance Overhead. These are the primary functions of the RM division. The Maintenance Program budget accounts for about 80%-90% of the total RM division budget annually. Most of the costs are made up of labor, equipment, and materials to maintain the unincorporated Snohomish County roads system. Also, included is budget capacity for response to small or mid-sized emergency events such as flood and snow fights.

As part of the 2023 budget request, Noxious Weeds is being moved to Surface Water Management in the CNR department. Road Fund will continue to pay for services in the Roads right-of-way through a reimbursable services agreement with SWM.

3) The Capital Program is tied to the County Forces budget in the Annual Construction Program - ACP (CIP Package 110).

4) The Reimbursable Program budget is flat from the prior year. However, it is significantly higher than prior year actuals which have been limited due to staffing shortages. Reimbursable services fluctuate annually based on available staffing and demand from other PW divisions, County departments, and cities/local agencies. The RM division balances its reimbursable workload with its county roads system maintenance responsibilities. This Reimbursable Program can be better delivered with the requested two new RM NPDES maintenance crews.

5) FTEs and Extra Help have been reallocated among the various program activities to more accurately reflect where efforts will be focused. Budget increases and decreases reflect changes in allocation of labor and commensurate adjustments to equipment and/or materials to assure staff will have the resources available to complete their required tasks.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

Expenditures Package Summary		
FUND	102	\$2,801,517
TOTAL - EXPENDITURES		\$2,801,517

FTE Change Summary		
FUND	102	CHANGE 10.000
TOTAL - FTE CHANGES		10.000

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - TES Expenditure Adjustments

**Package ID #:** 109

**Category:**

**Description:** This package reflects adjustments to the Transportation & Environmental Services (TES) Division non-capital base budget. The (non-capital) budget (operations, maintenance, and reimburseable) is slightly higher than prior year, with minimal change requests.

Adjustments have been entered into the following areas:

- 1) Salaries & Benefits
- 2) Supplies/technology/equipment
- 3) Professional Services and Consultant
- 4) FTEs

**Justification:** Adjustments have been entered into the following areas:

- 1) Salaries & Benefits
- 2) Supplies/technology/equipment
- 3) Professional Services and Consultant
- 4) FTEs

### JUSTIFICATION

1) Salaries and benefits are distributed to the appropriate programs and subprograms to reflect the anticipated work to be accomplished in 2023.

2) The supplies budget includes expenses for general office, technology, and maintenance supplies. There is an increase of \$266k from the prior year for replacement of old signal controllers, conflict monitors, and other annual upgrades and replacements to traffic signal technologies and equipment.

3) The professional services and consultant budget includes services for continued planning for light rail, the 8-year Comprehensive Plan update, and transportation studies for concurrency analysis. Consultant is included to support more environmental work on capital projects for other County departments. Budget is also included for Urban Core Infrastructure financing.

4) Two (2) new FTEs are requested for 2023 (See Priority Package 392).

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>		
FUND	102	\$2,246,484
<b>TOTAL - EXPENDITURES</b>		<b>\$2,246,484</b>

<b><u>FTE Change Summary</u></b>			
FUND	102	CHANGE	18.000
<b>TOTAL - FTE CHANGES</b>			<b>18.000</b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 06 Public Works

**Short Name:** 102 - Road Fund Transportation Improvement Program

**Package ID #:** 110

**Category:** Roads

**Description:** The Annual Construction Program (ACP) is updated each year along with the six-year Transportation Improvement Program (TIP) to specify the transportation capital program in accordance with the adopted Comprehensive Plan, which sets the stage for future land use and growth through 2035. To meet the needs of an estimated 238,000 new residents, the ACP & TIP provides for new and/or enhanced capital improvements to create a viable arterial network.

The 2023 ACP and capital road fund expenditure budget includes construction of large grant-funded transportation improvements including 36th Ave W/35th Ave W and Index Galena Rd flood repair. In addition, the capital program continues to invest in pavement preservation, ADA, safety, and non-motorized programs. The 2023 ACP continues to stretch and leverage local Road Fund dollars, with \$1.56 in grant funds for every \$1 of Road Fund.

### 2023 PROGRAM COMPONENTS

This package describes the capital road construction program and provides staffing support, consultant and contract services necessary to design, acquire right-of-way (R/W), and construct \$43.3 million in capital improvement projects. These projects will provide for a safe, efficient transportation system that meets the growing needs of Snohomish County residents and businesses.

The 2023 capital program consists of \$7.6 million in Preliminary Engineering (PE), which is the basic design work needed to develop projects. PE also accounts for dollars spent through the environmental permitting process, as well as for public review of projects. \$6.4 million will be devoted to R/W acquisition for new and expanded roadways. R/W dollars are also spent on land needed for drainage/detention areas and environmental mitigation sites. Approximately \$24 million will be spent on construction by contract and \$1.3 million by County Forces on smaller scale projects. \$4.0 million will be for construction engineering and inspection needed to ensure projects are built as designed and traffic flow and safety throughout the work zones are maintained.

A. ENGINEERING & STUDIES (\$550,000). This category funds preliminary project planning and specialized reviews directly associated with the ACP projects needed to ensure transportation infrastructure meets the County's growing needs.

B. PAVEMENT PRESERVATION AND REHABILITATION PROGRAM (\$6,575,000). Snohomish County uses a Pavement Management System, which provides a systematic approach to lengthen roadway life by timely preservation and maintenance. When road reconstruction is warranted, these projects fall under this category along with the associated ADA ramp upgrades. Additionally, implementation of the County's ADA Transition Plan is budgeted here.

C. NON-MOTORIZED/TRANSIT/HIGH OCCUPANCY VEHICLE (\$3,332,000). This category funds projects to improve pedestrian and multi-modal connections along major roadways and in growing urban areas. Projects seek to improve walking conditions along popular routes between schools, transit stops, and residential and commercial areas. Safer walking conditions make it easier for citizens to take advantage of

**Category:** Roads

alternative modes to driving. Well-planned connections promote an area's vitality and sense of community. This category includes the County's payments to Community Transit for the Curb the Congestion program.

D. TRAFFIC SAFETY/INTERSECTIONS (\$8,868,000). These projects provide safety improvements to spot locations, which are designed to improve traffic flow and eliminate hazards. Projects include adding turn lanes, neighborhood traffic calming devices, traffic signals, guard rail installation, and road bank stabilization projects. This category also includes the Index Galena Road and Goodman Creek Culvert flood repair projects.

E. CAPACITY IMPROVEMENTS (\$16,448,000). Projects in this expenditure category are designed to increase vehicle carrying capacity on the County road system. The projects provide satisfactory levels of service to meet transportation system concurrency requirements identified in the Transportation Element of the County's Comprehensive Plan. Where warranted, capacity projects add travel lanes along corridors and improve major intersections. New roadway alignments are also included in this category. Generally, these projects include bike lanes, sidewalks, landscaping and illumination. 36th Ave W/35th Ave W, 43rd Ave SE, and Alderwood Mall Parkway are included in this category.

F. BRIDGE REPLACEMENT & REHABILITATION (\$2,388,000). This category funds replacement and rehabilitation of deficient County bridges. Bridge projects are identified through federal and state bridge condition inspection findings and the County's Annual Bridge Condition Report.

G. DRAINAGE (\$5,102,000). Drainage projects improve and preserve drainage infrastructure on the County road system. These projects lie within County road right of way, are an integral part of the road system, and are necessary to maintain and preserve system condition. A component of this category is replacement of culverts under County roads that are currently fish blockages. The Mann Rd and Ben Howard Rd Improvements project is included in this category.

**Justification:** The capital program strongly addresses all four purchasing strategy components and the goal of providing reasonable and predictable travel times. These strategy components include:

IMPROVE ROAD SAFETY: The ACP supports this goal by constructing projects to improve traffic flow and reduce hazards. Such projects are found primarily in Category D.

MANAGE, MAINTAIN AND CONSTRUCT ROADS: The ACP addresses this objective through its comprehensive focus on all types of County infrastructure, from roadways to bridges. Category B reflects continued investment in the County's pavement management system to assure that the ~1,600 miles of roads are resurfaced on a schedule that protects them from deterioration which would result in more extensive and expensive reconstruction later. Category F features continued improvement to the County's bridges; while Category G addresses County road right-of-way drainage issues, an integral part of the road system and necessary to maintain and preserve system condition.

PLAN TO AVOID DELAYS: Spending in the ACP implements construction of transportation improvements identified through the County's Comprehensive Plan and the Transportation Needs Report. Many of the projects in the capital program add roadway capacity by adding travel lanes, bicycle and pedestrian facilities, and operational improvements such as turn lanes and signals. Category E showcases the capacity improvements needed to maintain transportation concurrency and to remain in compliance with Comprehensive Plan and

GMA goals.

ENCOURAGE ALTERNATIVES: Planned capital improvements in Category C encourage alternative modes of travel by providing interconnected bicycle and pedestrian facilities. These non-motorized components are also constructed on bridge and core urban projects where funding allows.

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 192 - Traffic Mitigation Fund Expenditure Adjust

**Package ID #:** 111

**Category:**

**Description:** This package reflects transfers from Transportation Mitigation Program Fund 192 to County Road Fund 102 to support the Transportation Annual Construction Program (ACP) and six (6) year Transportation Improvement Program (TIP).

Traffic impact mitigation payments are imposed as conditions of approval upon development applications in accordance with the County's traffic mitigation ordinance, SCC Chapter 30.66B. Generally, payments are made prior to building permit issuance. These funds are placed in interest-bearing accounts in the Transportation Mitigation Fund (Fund 192) and held until transferred to the County Road Fund (Fund 102) to offset expenditures on eligible transportation improvement projects.

By statute, funds must be spent on eligible projects within ten (10) years or returned to the property owner. The use of mitigation funds is programmed in the Annual Construction Program for Transportation (ACP) and in the Six Year Transportation Improvement Program (TIP), which are prepared by the Public Works Department and adopted by County Council. Mitigation funds are also being utilized for Transportation Demand Management Programs.

**Justification:** Public Works estimates fee collection revenue over the TIP's six-year period, and factors these estimates, together with existing use of available fund balance, into the revenues available for transportation projects.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

**Expenditures Package Summary**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Expenditure Adjustments

**Package ID #:** 112

**Category:**

**Description:** This package reflects adjustments to the Solid Waste Management Division (Solid Waste) non-capital base budget.

The overall Solid Waste budgeted revenue has decreased by 6% from the 2022 budget. This is due to the proceeds from a large property sale budgeted in 2022. Budgeted expenses are increasing 10.5%. This is largely driven by consumer price index related to the waste export disposal contract and added headcount to match increases in service demands. As a result, the division is anticipating using fund balance in 2023.

This package contains revisions to employee positions and/or step dates.

**Justification:** Corrected Position and Step Dates:

The Highline information that was uploaded into BDT only captured the base position for some employees who work in bid shifts. Employees in bid shifts may change multiple times throughout the year, whenever there is a shift rebid. Rather than re-class employee positions depending on the bid shift, any employee working in a higher grade is put in a temporary upgrade, via a Payroll Record Change (PRC). The corrected position and step changes were necessary to capture the correct salaries and benefits costs to fully fund Solid Waste labor for 2023.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Capital Improvement Program

**Package ID #:** 113

**Category:** Solid Waste

**Description:** This package includes the 2023 portion of the 6-year Capital Improvement Plan (CIP) for the Solid Waste Division (SWD).

The 2023 Capital Program includes:

- ARTS Tipping Floor Repair (\$885K)
- ARTS Scale house HVAC Improvements (\$125k)
- NCRTS Transfer Station Feasibility Study (\$50k)
- NCRTS Leachate System Improvements (\$215k)
- Dubuque Drop Box Planning & Design (\$125k)
- Sultan Drop Box Asphalt Overlay (\$50k)
- ESS Bldg M Upper Roof Replacement (\$300k)
- ESS Remote Sensor Standardization (\$420k)
- ESS Bldg K Retrofit/Bldg M Replacement (\$825k)
- MRW Floor Refinishing (\$125k)
- Vactor Facility Improvements (\$725k)
- Intermodal Facility Property Security Improvements (\$50k)
- CWOC Culvert Replacement (\$250k)
- CWOC Telecom Relocation (\$125k)
- Equip - EV Yard Goat (upgrade from diesel 2 ea) (\$250k)
- Equip - Diesel Yard Goat Buyback (training/spare) (\$25k)
- Equip - Semi-truck (line truck 2 ea) (\$340k)
- Equip - Diesel-electric Loader for CWRTS (\$350k)
- Equip - Upsize Excavator for SWRTS (\$100k)
- Scale Automation Software RFP / Procurement (\$275k)
- Sisco Landfill Closure Design/Permitting (\$125k)
- Contingency funding for unanticipated repair (\$350k)

**Justification:** ARTS Tipping Floor Repair - The tipping floor at ARTS is 20 years old. During it's life sections of the floor have been replaced multiple times. Due to excessive wear and local sections being repaired, the overall slope of the floor is out of spec, causing water to pond and be tracked out of the building. This project will mill the floor down just above the structural rebar, then apply a hardened concrete overlay that will return the floor to its original slope and durability.

ARTS Scale House HVAC Improvements - The HVAC system in the ARTS scale house is outdated and obsolete. Many parts are not available and the system has had significant failures including a fire in the HVAC system. This project will remove and replace the system with an energy efficient heat pump and ducts to all three buildings.

NCRTS Transfer Station Replacement Feasibility Study - NCRTS was commissioned in 1988, and at that time was a state-of-the-art transfer station. Although still functional, the station is not properly designed or sized to handle current customer counts and tonnage. Other significant design flaws include the lack of any surge capacity, and poorly designed environmental handling of stormwater and leachate. This study will determine the feasibility of replacing the transfer station on existing property, thereby eliminating the need for a siting

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Capital Improvement Program

**Package ID #:** 113

**Category:** Solid Waste  
process.

NCRTS Leachate System Improvements - The County recently received a NOV for the leachate effluent that flows into the City of Arlington's wastewater treatment system. The leachate system is not designed to treat and/or reduce contaminant concentrations to the city's standards. This project will retrofit and/or install new equipment capable of meeting the cities IWDP requirements.

Dubuque Drop Box Planning and Improvements - The Dubuque Drop Box has not had a substantial upgrade since it was built in 1974. Since that time, this portion of unincorporated Snohomish County has seen substantial growth. For the past several years, the Dubuque Drop Box has lacked adequate capacity and queuing to serve the residents and businesses that rely on it to dispose of their solid waste and recycling materials. This project will design a facility that will handle the East County growth for the next 40 years.

Sultan Drop Box Asphalt Overlay - The asphalt at the Sultan Drop Box is in poor condition and requires a mill and overlay. This project will establish a smooth durable asphalt surface to ensure the safety of staff and customers, and the proper flow of stormwater.

ESS Bldg M Upper Roof Replacement - This is phase 2 of replacing the 22-year old roof on Bldg M at CWOC. This project will remove and replace the upper metal roof, gutters, insulation, and vapor barrier.

ESS Remote Sensor Standardization - The Environmental Services Section of Solid Waste is responsible for the operation, monitoring, and reporting of various environmental collection and treatment systems throughout the County. Many of these systems are using technology that is outdated and obsolete, making it increasingly difficult to ensure compliance with regulatory permits. This project will replace this technology with new systems that are more energy efficient and reliable, ensuring environmental compliance at SW facilities.

ESS Bldg K Retrofit/Building M Replacement - The Cashiering Section of Solid Waste work out of Bldg M at CWOC, a very old triple wide mobile home that has numerous structural and mechanical issues. This building will need to be demolished in place, as it has no resale value. The Division has spare space in the warehouse section of Bldg M. This project will design and construct office space in Bldg K to relocate the staff from building M.

MRW Floor Refinishing - The Moderate Risk Waste Facility in the McDougal Bldg processes hazardous chemicals and commodities for safe disposal. The concrete floor must have a durable impervious finish to maintain a safe, environmentally sound work environment. The existing floor finish is failing due to excessive wear. This project will remove the existing floor finish and install a new durable floor finish.

Vactor Facility Improvements - The Vactor Decant Facility at CWOC is over capacity and requires additional floor space, decant bins, and grit storage. This facility directly supports the County municipal and industrial NSPDES requirements. This project will design and construct additional capacity to provide disposal service for County and Private vactor trucks that maintain stormwater infrastructure throughout Snohomish County.

Intermodal Facility Property Security Improvements - Lots 7 & 9 at the Riverside Business Park located in Everett WA are owned by Snohomish County. These lots are adjacent to Lot #8, which is also owned by Snohomish County where it operates an intermodal facility, placing solid waste onto trains. Lot # 8 is secured

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 06 Public Works

**Short Name:** 402 - Solid Waste Capital Improvement Program

**Package ID #:** 113

**Category:** Solid Waste

with a fence that is maintained by the current lessee Republic. This project will secure Lots 7 & 9 which are currently subject to trespassing and homeless encampments.

CWOC Culvert Replacement - Surface Water and Engineering Services identified failing culverts in Garden Creek. These crossing are utilized by Road Maintenance and Solid Waste. This project will remove and replace culvert #2, located on the west side of the closed Cathcart Landfill.

CWOC Telecom Relocation - Numerous telecom and telemetry connections are made in the aging Bldg M. As Bldg M will be demolished when new office space is created in Bldg K, the telecom currently located in Bldg M will need to be relocated locally in a new structure. This project will construct a small building to house the important telecom equipment that is used locally by the Vactor Decant Facility and CWRTS.

Equip - EV Yard Goat (upgrade from diesel 2 each) - The remaining 2 diesel powered yard goats are nearing the end of useful life, the Division would like to replace with EV yard goats similar to those in use at ARTS and SWRTS. These funds will pay for the difference in price between a diesel unit and an EV unit.

Equip - Diesel Yard Goat Buyback (training/spare) - The Division would like to keep 1 diesel yard goat as a backup in the event an EV unit is down for maintenance. This unit will also be used as a training unit for new hires and refresher training.

Equip - Semi-truck (line truck 2 ea) - The Division requires additional semi-trucks to move the increasing volume of commodities. These funds will purchase 2 heavy duty diesel semi-trucks with a GVWR of 105,500 lbs.

Equip - Diesel-electric Loader for CWRTS - The Division will need to replace a rental unit with an ER&R asset to process MSW at the Cathcart Way Recycling and Transfer Station. King County reported success using the hybrid diesel electric units which have less emissions than standard diesel loaders. These funds will purchase a diesel-electric loader.

Equip - Upsize Excavator for SWRTS - During the recent piling of refuse at SWRTS, the Division discovered that the current excavator is undersized for this type of work. These funds will pay for upgrading to a larger unit when replaced by ER&R.

Scale Automation Software RFP / Procurement - The current scale automation contract expires in 2023 and cannot be extended. It is anticipated that multiple vendors may bid on this service, these funds will pay for the new scale automation system.

Sisco Landfill Closure Design/Permitting - As part of a settlement agreement, the County will use restricted third-party funds to pay for closure of the Sisco Landfill in accordance with state and local regulations. The Division is in the final stages of acquiring land associated with the Sisco Landfill. The Division is working with Ecology to move the Sisco Landfill from the MTCA VCP process to an Agreed Order in order to permit, design and perform final closure of the landfill. These funds will pay for consulting and legal fees to assist the Division with permitting and design.

Contingency funding for unanticipated repairs - Funding to support repairs for unanticipated equipment failures.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** CIP - Capital

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 06 Public Works

**Short Name:** 188 - Arlington Operations Center

**Package ID #:** 114

**Category:** Roads

**Description:** The Road Maintenance Division (Road Maintenance) operates from two locations: the Arlington Shop and the Cathcart Way Operations Center, maintaining approximately 1,600 road miles and 202 bridges. Road Maintenance has approximately 70 full time staff based at the Arlington Shop and 110 staff based at Cathcart, with high levels of seasonal staff added during summer months. Road Maintenance provides day-to-day maintenance and small project construction services. It is also an important emergency responder for flooding, landslides, opening roads for utilities, and other emergency services. The Arlington Shop serves the north county (RM District 1), which has approximately 562 road miles. It also is the location of the Bridge Crew, which maintains all the County's 205 bridges.

The Fleet Services Division, Facilities and Fleet, operates an equipment maintenance shop at the Arlington Shop site with a staff of eight mechanics, one supervisor, and one storekeeper. The shop repairs and maintains the trucks and heavy equipment used by the road crews at Arlington. The shop also repairs and maintains Solid Waste trucks equipment and performs urgent repairs on Sheriff's vehicles. Fleet Stores purchases and maintains an inventory of material and supplies that support the road crews, including guardrail, bridge timbers and components, drainage structures and culverts, and other supplies.

The proposed Arlington Operations Center project will provide approximately 15,000 square feet of staff office and meeting space. The project will include a redevelopment plan for the Arlington Shop site, including the eventual replacement of the ER&R Maintenance Shop (construction for ER&R shop not included in this CIP request), to be completed in a later phase as funding is available.

This package requests in 2023 to hire consultants for the Phase 1 improvements which include design and construction of the new administrative/crew building, utility and stormwater improvements, and remediation of contaminated soil.

The Arlington Operations Center project has a planning level cost estimate of \$34.9 million over life of the project. This priority package requests \$2,755,000 for consultant design work and preliminary construction in 2023. Funding for this redevelopment project is proposed by a combination of Road Fund revenue generated from the sale of various properties, \$1 million contribution from Fleet/ER&R, and non-voted construction bonds.

**Justification:** Arlington office and staff facilities consist of a modular office building that needs significant repair and is too small to serve current crew size. The vehicle storage facilities are deficient for the number and size of vehicles, and some of the existing structures are requiring demolition. The facilities are old, dilapidated, and beyond their useful life. Material storage is deficient for today's permitting requirements, and what does exist needs enlargement over their existing size. The overall site is lacking several features for safety, security, and is inefficient for current operations.

Through preparation of the Public Works Continuity of Operations Plan (COOP) and participation in the 2016 Cascadia Rising Exercise, it has become clear that uninterrupted operation of both Road Maintenance facilities (Arlington & Cathcart) is necessary for emergency response and recovery during a major earthquake or other disaster event. In contrast to Arlington, the Cathcart Way Operations Center is built on consolidated glacial till, has modern steel construction, back-up generators and a secure fueling station. The Arlington Shop site is located on some unconsolidated sands, gravels, and silts that would be prone to liquefaction in a seismic event.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** CIP - Capital

**Department:** 06 Public Works

**Short Name:** 188 - Arlington Operations Center

**Package ID #:** 114

**Category:** Roads

Analysis has shown that an earthquake in the M7.0 to M9.0 range on either the Cascadia Fault or South Whidbey Island Fault could result in ground settlement of up to 7-inches causing the Arlington Shop to be potentially compromised. In response to this risk, it is recommended that the existing shop site be redeveloped to be resilient with proper building foundations, parking, and driveways that will survive the seismic liquefaction for continued operation after such an event.

The Arlington Shop is identified in the COOP plan as an alternate work location for Fleet's other two shops (Cathcart and McDougall). The McDougall Shop is vulnerable in an earthquake due to the unreinforced concrete block wall construction. McDougall is the location where law enforcement and other emergency vehicles (DEM, Medical Examiner, Animal Control, SERS, etc.) are serviced and repaired. In an emergency that closes McDougall, it is critical to be up and running at another shop as quickly as possible to support law enforcement and emergency responders. If McDougall and the existing Arlington Shop were unusable at the same time, as could happen in a major earthquake, Fleet would not have the capacity to service these vehicles.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** PW - Position Reclassifications

**Package ID #:** 117

**Category:**

**Description:** This package describes pending position reclassification activity for the Public Works Department. It provides budget authority to fund potential position reclassifications (those proposed, submitted, union appealed, and/or currently undergoing HR review).

All associated cost estimates are allocated under the appropriate personnel cost contingency line item for each Public Works division.

**Justification:** Pending/Proposed Reclassifications:

The costs below represent impacts to salaries and estimated benefits of pending reclassifications. These are for classification change requests submitted to Central Human Resources and pending Executive review.

PWK8452R reclass included in pkg392.

All others are not included in Exec Rec budget pending class/comp study.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 06 Public Works

**Short Name:** PW - Admin W Space Improvements

**Package ID #:** 118

**Category:** Roads

**Description:** This budget request is for office and workspace improvements to the Admin West building on the 5th floor to create an efficient, attractive, and modern office space conducive to greater collaboration and to better accommodate the PW hybrid workforce.

**Justification:** Public Works staff on the 5th floor West relocated to Admin Building from the Everett Wall Street building approximately 17 years ago. At that time, minimal upgrades were made to office furniture and cubicle walls other than transferring the existing workspaces from the old building. These workspaces (cubicles and furniture) are past their useful lives (estimated to have over 30 years of use). It is an ideal time to modernize this work area to enhance work productivity in the digital era and hybrid workforce.

Project scope:

Records cleanup - on site paper records and files will be cleaned up and disposed or archived depending on records retention requirements. Cleaning up physical records will free up significant floor space.

Consolidation of Solid Waste Management from 4th Floor to 5th Floor.

Cubicle/workspace replacements - the updated workspaces will be slightly smaller due to less storage needs with most work now done electronically. Converting cubicles to smaller sized workspaces and reducing quantity by ~30% will free up significant floor space.

Move two (2) supply/mail/copier rooms onto designated floor space. This will free up two (2) rooms to become offices for Solid Waste Management moving onto the 5th floor.

Using the floor space gains, create 5 - 7 small focus rooms. These focus rooms will be enclosed by glass walls and will provide a drop-in quiet workspace where 1-2 staff can go partake in a digital meeting, take a call, have a one-on-one meeting, etc. This will be an important element to supporting a hybrid workforce.

Using the floor space gains, create 4 - 6 small teaming spaces on the floor where staff can work or collaborate, have discussions, brainstorm using a white board, etc. Because of the smaller workspaces, it creates the need for more open floor spaces for staff.

Other changes - necessary wiring upgrades, flooring, painting, lighting, and equipment for new conference rooms/focus rooms/co-labs, etc.

The total project cost estimate is \$1.5 million. This is a long-term investment (~25+ years) and spread out over the life of its usage calculates to approximately \$60,000 per year. A sizeable return on investment is expected through efficiency gains for 80-100 staff located in this work area. There will be savings associated with reducing Public Works leased space by moving Solid Waste off the 4th floor. Public Works sees great value in having staff on site at least part time. The updated work area will make it worthwhile and effective for staff to work in the office.

The total budget request is for \$750k in 2023 since half the work should be completed in the 2022 fiscal year.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 06 Public Works

**Short Name:** 102 - RM NPDES Maintenance Crew

**Package ID #:** 140

**Category:**

**Description:** The Public Works Road Maintenance (RM) division is requesting six (6) new FTEs to accommodate the increasing workload regulated by the Department of Ecology (DOE) National Pollutant Discharge Elimination System (NPDES). The six new FTEs represent two additional RM NPDES crews, with each three-person crew consisting of one Class 5 Crew Chief and two Class 1 Laborers.

This budget request also includes two new vehicles (F450 and F550) to the Road Maintenance equipment fleet.

**Justification:** Two RM NPDES crews are requested to meet the needs of a rapidly growing Snohomish County, and to better balance workload between growing demand for surface water and road maintenance work activities. Significant increases in regulated facilities and functions related to NPDES compliance work is causing staffing shortages to road maintenance and road safety functions. RM must adapt to meet the growing demands of all priority functions and maintain the ability to respond to work requests in a timely manner. The new RM NPDES crews will better address the growing needs of the Surface Water Management (SWM) facility maintenance and water quality programs, while also allowing better balance of labor distribution in the overall Road Maintenance program.

RM NPDES crews are a primary resource for DOE regulated maintenance programs, which is funded by a combination of SWM fees and by County Road Fund. NPDES and drainage facility maintenance work has increased significantly since 2009, with another jump in 2022 following the recent incorporation of private drainage facilities into the public maintenance program. RM staffing has not increased in proportion to the increase in the workload over time, with current FTE staffing at the same levels as a decade ago. In recent years, seasonal worker staffing has proven unsteady and has been unreliable for staffing these types of regulated programs. Recently, RM has been performing rolling program shutdowns to ensure some level of work in all RM program areas.

With the added RM NPDES crews, the time delay between SWM facility inspections and maintenance work can be reduced from nearly one year to the desired response time of less than two months. This will help avoid future failures of the NPDES Phase 1 permit. Additionally, increased staffing levels will free up necessary resources to improve response time and increase work in the roads right-of-way including concrete, air saw, traffic markings, and vegetation maintenance.

Sufficient funding and service needs exist in the Surface Water Management division of CNR to support this package. The additional Road Fund expenditures will partially be offset by a reduced Road Maintenance seasonal program.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS Housing, Homelessness, and Community Dev.

**Package ID #:** 145

**Category:**

**Description:** Adjustments to the 2023 HS Housing, Homelessness, and Community Development budget.

**Justification:** These adjustments are being made to more accurately reflect planned 2023 Housing, Homelessness, and Community Development program activities.

Specifically, a COLA contingency of 3% of regular salaries was added and related impact to benefits effective 1/1/2023. A 1.0 fte Human Services Specialist 2, and a 1.0 fte Community Services Counselor for the Housing and Essential Needs (HEN) program, were added. The HEN voucher line item was increased for anticipated additional voucher activity during 2023. Other expenditure line items were adjusted based on 2022 year-to-date actuals and expected 2023 activity.

New revenues include projected balances available at year-end 2022 for use during 2023, not included in the base. Also included is anticipated new State funding to support Ukraine refugee resettlement work.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 196 Mitigation Fund

**Package ID #:** 149

**Category:**

**Description:** On September 27, 1989, the County Council approved Ordinances #89-103, 89-104 and 89-105 as an interim measure to address developer impacts on parks and recreation and provide a process to collect fees. On July 12, 1991, the County Council approved a new title 26A SCC (Ord 91-026) which codified the requirement of mitigating development impacts on park and recreation facilities. On February 1, 2003, title 26A was replaced by SCC 30.66A (Ord. 02-064). On February 23, 2005 a new GMA compliant SCC 30.66A was approved by the County Council (Ord 04-016) and was updated again by Ordinance 16-099.

The park mitigation requirements authorized by SCC 30.66A are designed to mitigate impacts reasonably related to development by allowing payment of a dollar amount which must be used to acquire land or develop park and recreation facilities, which are identified as "necessary to support development." Collected fees are made up of a regional fee, which is used for projects that provide regional benefit, and sometimes a local fee, which supports community and neighborhood park improvements. Fees are collected within defined park service areas and are utilized within that same area, for community and neighborhood park improvements, or pooled with other collected funds for regional improvements (regional parks and trails).

**Justification:** This fund is a holding account for revenue brought in through Park Mitigation 30.66A. Funds are transferred to Fund 309 for Capital Project Expenditure. These fees are tied to designated parks service areas or are pooled with other funds for regional projects.

Mitigation funding for 2023 is based on revenue collected through April 30, 2022 and allocated to the following projects:

Dist #5 Granite Falls 861 Equipment  
Dist #7 Maltby 771 Equipment  
Dist #9 Monroe 1514 Fairgrounds  
Dist #10 North Creek 919 Willis Tucker Ballfield Lighting  
Dist #12 Sky Valley 767 Equipment  
Dist #13 Snohomish 1127 Equipment  
Dist #15 Stanwood 3168 Kayak  
Dist #19 River Meadows 505 Equipment  
Dist #22 Lord Hill 689 Steelhead Park Development  
Dist #23 Centennial 1887 Willis Tucker Ballfield Lighting  
Dist #24 Nakeeta Beach 298753 Forsgren \$84989/ \$213764 Meadowdale Trailhead  
Dist #25 (Regional) Parks & Trails 502 Kayak  
Dist #26 (Regional) River Meadows 64104 Kayak \$34104 / \$30K Equipment  
Dist #29 (Regional) Whitehorse 1 Equipment  
Dist #30 (Regional) Lord Hill 7157 Kayak

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Community Parks

**Package ID #:** 150

**Category:** Community

**Description:** COMMUNITY PARKS (Program 44)

Community Parks are facilities which are typically located near population hubs and provide a mix of recreational amenities that are selected to serve the surrounding community. Amenities provided within Community Parks often include the types of improvements which are included within Parks' level-of-service and, as such, may help address needs related to population growth. Community Park projects included in the six-year capital program include property acquisition, development and/or improvements and are included to provide new amenities to serve new population.

Snohomish County's Park Improvement Plan for Community Parks consists of the following:

**BRIGHTWATER MITIGATION PROGRAM / CAROUSEL RANCH:** Park acquisition and development project funded through a mitigation agreement with King County/METRO for the Brightwater Sewage Treatment Plant. Remaining improvements identified as part of this agreement are planned to be completed at the Carousel Ranch property, which was acquired in 2015 for this purpose. Funding is proposed as follows:

Prior Year Balance: \$17,837,897

2023: \$0

Future Years: \$0

Project Start/End Date: 2013/2024

Project Status: Permits are currently under review and construction is planned to start in 2023.

Changes Since the 2022 Budget: None.

**CAVALERO HILL PARK DEVELOPMENT:** Development of the Cavalero Hill Park site based upon the completed Preferred Plan. The Park is proposed to include a skate park, off-leash dog area, playground, sand volleyball courts, bmx track, trails, open space and possible commercial area. This project is being pursued in partnership with the City of Lake Stevens. Phase 1b has been completed and funds that were proposed to be accumulated for future phases has been removed to fund other projects. Funding is proposed as follows:

Prior Year Balance: \$22,506

2023: -\$30,382 (GMA Mit. Fees)

Future Years: 2028 - \$1,200,000 (GMA Mit. Fees)

Project Start/End Date: 2014-2020

Project Status: Construction of the skate park was completed in 2020 and future year funding has been removed.

Changes Since the 2021 Budget: Added future year funding.

**CORCORAN MEMORIAL PARK:** Construction of a new playground will be completed in 2022. The 2023 budget includes funding for a privacy fence between the park and the life estate. Other improvements, including a gravel parking lot and a sport court, etc, are planned and funds are being accumulated for future phases. Funding is proposed as follows:

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Community Parks

**Package ID #:** 150

**Category:** Community

Prior Year Balance: \$0

2023: \$30,382 (GMA Mit Fees)

Future Years: 2024 - \$70,000 (GMA Mit. Fees) and 2027 - \$1,700,00 (GMA Mit. Fees)

Project Start/End Date: 2019/2022, 2024-2025, and 2027/TBD

Project Status: Construction of the new playground is progressing and will be completed in 2022. Plans are underway for the privacy fence to be constructed in 2023.

Changes Since the 2022 Budget: Addition of funding for fencing and future phases.

COUNCIL PARTNERSHIP PROJECTS: Funding provided via Interlocal Agreement to jurisdictions for completion of capital projects. Funding is proposed as follows:

Prior Year Balance: \$683,859

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2022

Project Status: Interlocal Agreements for projects identified in 2021 have been completed except for funding for the City of Snohomish, due to a change in project funding. The amount allocated to the City of Snohomish for improvements at Averill Field Park has been updated to \$55,000.

Changes Since the 2022 Budget: Carry over of a portion of District 5 funding.

ESPERANCE PLAYGROUND/SITE IMPROVEMENTS: Completion of the forest play area and sport court surfacing. Funding is proposed as follows:

Prior Year Balance: \$315,011

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2022

Project Status: Completed earlier site development efforts in 2022.

Changes Since the 2022 Budget: Transferred balance to other projects.

FORSGREN PLAYGROUND REPLACEMENT/SITE IMPROVEMENTS: Life-cycle replacement of the Forsgren playground and other on-going improvements. Funding is proposed as follows:

Prior Year Balance: \$250,000

2023: \$84,989 (GMA Mit. Fees), \$15,011 (Transfer GMA Mit. Fees from Esperance Park)

Future Years: \$0

Project Start/End Date: 2022/2023

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Community Parks

**Package ID #:** 150

**Category:** Community

Project Status: This project has been delayed due to staff availability. Initial site design has been completed and staff are preparing for construction in 2023.

Changes Since the 2022 Budget: Expansion of project end date and additional funds due to inflation.

LAKE ROESIGER: This is included to 0-out a previous negative balance. Funding is proposed as follows:

Prior Year Balance: \$0

2023: -\$3,215 (Other)

Future Years: \$0

Project Start/End Date: 2022

Project Status: n/a

Changes Since the 2022 Budget: None.

LAKE ROESIGER PLAYGROUND - NEW: Based on requests from the community and the need for playground, this project will add a new playground at Lake Roesiger Park in future years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2028 - \$350,000 (GMA Mit Fees)

Project Start/End Date: 2027-2028

Project Status: Future project.

Changes Since the 2022 Budget: New project.

LAKE STEVENS PLAYGROUND REPLACEMENT: Life-cycle replacement of the Lake Stevens playground. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$270,000 (REET 2 and GMA Mit. Fees)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Moved project from 2024 to 2026

LAKE STICKNEY PARK DEVELOPMENT – PHASE II: Site improvements based upon completed Preferred Plan. Phase I improvements were completed in 2018 and funding is proposed to be accumulated for the second, and final, phase. Funding is proposed as follows:

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Community Parks

**Package ID #:** 150

**Category:** Community

Prior Year Balance: \$0989,222

2023: \$0

Future Years: \$0

Project Start/End Date: 2022/2025

Project Status: Phase II will be initiated in 2022.

Changes Since the 2022 Budget: Removed mitigation funds that were anticipated but are not available this year.

LOGAN BALLFIELD RENOVATION: Logan Park was originally developed in the 1970's and renovated in the 1990's. Ballfield renovation is proposed as a life-cycle improvement to maintain quality recreational use. Renovation is anticipated to include review of drainage, regrading, replacement of in- field mix, establishment of new turf and other possible improvements. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2024 - \$75,600 (REET 2)

Project Start/End Date: 2024/2024

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

MARTHA LAKE AIRPORT PLAYGROUND: Installation of additional playground features at Martha Lake Airport to provide additional recreation opportunities. Funding is proposed as follows:

Prior Year Balance: \$71,411 (GMA Mit. Fees)

2023: \$0

Future Years: \$0

Project Start/End Date: 2022/2023

Project Status: This project has been delayed due to staff availability and is planned for completion in 2023.

Changes Since the 2022 Budget: Moved excess funding to other projects.

MARTHA LAKE PLAYGROUND REPLACEMENT: Life cycle replacement of playground(s) at Martha Lake Park. During project scoping and stakeholder outreach it may be determined that one of the two current playgrounds should not be replaced, and other improvement(s) provided. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

**Package ID #:** 150

**Category:** Community

Changes Since the 2022 Budget: None

MARTHA LAKE STAIR REROUTE: Address ADA barrier at west end of the park where frontage improvements include a stairway which is a barrier to visitors who have a mobility impairment. Funding is proposed as follows:

Prior Year Balance: \$0

2022: \$0

Future Years: 2026 - \$250,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None.

PAINE FIELD PARK IMPROVEMENTS AND PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at Paine Field and improvements to the ballfield area of the park. Funding is proposed as follows:

Prior Year Balance: \$30,186

2023: \$0

Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Playground replacement pending funding availability in 2025. Other improvements to be completed as identified and prioritized by athletic field users and maintenance staff.

Changes Since the 2022 Budget: None

PELZ IMPROVEMENTS: Minor, on-going park improvements utilizing park impact mitigation fees collected within the Tulalip collection area. Projects will be selected and completed as funding is available. Funding is proposed as follows:

Prior Year Balance: \$2,175

2023: \$0

Future Years: 2024 - \$1,000 (SEPA Mit. Fees), 2025 - \$1,000 (SEPA Mit. Fees), 2026 - \$1,000 (SEPA Mit. Fees), 2027 - \$1,000, and 2028 - \$1,000 (SEPA Mit. Fees)

Project Start/End Date: On-going program

Project Status: Funding is expended as projects are identified and sufficient funding is available for a project.

Changes Since the 2022 Budget: Removed 2023 SEPA funding due to lack of collection for the year.

SILVER CREEK PLAYGROUND REPLACEMENT: Life cycle replacement of playground at Silver Lake

---

Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$270,000 (REET 2 and GMA Mit. Fees)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Increased funding for inflation.

**SOUTHWEST COUNTY UGA COMMUNITY PARK ACQUISITION AND DEVELOPMENT:** Acquisition and development of new Community Park amenities in the Southwest UGA. Project may be completed through possible partnership with city jurisdiction(s). Funding is proposed as follows:

Prior Year Balance: \$3,303,802

2023: \$0

Future Years: 2024 - \$1,200,000 (GMA Mit. Fees), 2025 - \$1,600,00 (GMA Mit. Fees) and 2026 - \$1,500,000 (GMA Mit. Fees)

Project Start/End Date: 2017/TBD

Project Status: Project pending accumulation of sufficient funding to proceed with identification of property suitable for acquisition. Working with other jurisdictions to identify possible partnership opportunities and coordinating with PW/PDS on planning for light rail improvements and associated local housing and recreation.

Changes Since the 2022 Budget: Removed 2023 GMA funding due to lack of collection for the year.

**TAMBAK CREEK PAVEMENT PRESERVATION:** Pavement preservation (i.e. sealing and restriping, crack seal, pothole repair) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$85,200 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

**TAMBAK CREEK TURF REPLACEMENT:** Life cycle replacement of artificial turf field. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

---

Future Years: 2028 - \$1,150,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Increased funding for inflation.

WILLIS D. TUCKER PARK – PAVEMENT PRESERVATION: Pavement preservation (i.e. sealing and restriping, crack seal, pothole repair) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$100,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Increased from \$85,200 to \$100,000

WILLIS D. TUCKER PARK – PLAYGROUND REPLACEMENT: Life cycle replacement of playground at Willis

D. Tucker Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$300,000 (REET 2)

Project Start/End Date: 2025/2025

Project Status: Project pending funding availability. This is a potential project for an RCO grant application in the 2024 cycle.

Changes Since the 2021 Budget: Increased funding for inflation and to include unitary safety surfacing.

WILLIS D. TUCKER – PARK DEVELOPMENT: Utilization of remaining funding for NPDES required plantings. Funding is proposed as follows:

Prior Year Balance: \$42,201

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2023

Project Status: Staff are evaluating planting needs and expect to install materials in 2023.

Changes Since the 2022 Budget: None.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Community Parks

**Package ID #:** 150

**Category:** Community

WILLIS D. TUCKER PARK – BALLFIELD LIGHTING: In partnership with the Mill Creek Little League, this project will add lights to Ballfield #2 to increase capacity for games, practices, and a variety of sports played on the field. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$185,000 (GMA Mit. Fees and REET2)

Future Years: \$0

Project Start/End Date: 2023/2024

Project Status: Project pending funding availability and award of the RCO YAF Grant.

Changes Since the 2022 Budget: New project.

**Justification:** The Snohomish County General Policy Plan (GPP) includes eight goals specific to parks provision, of which the following goals are most directly addressed by the projects provided within the Community Parks program:

Goal PR 2 - Provide diverse recreational opportunities through Neighborhood Parks, Community Parks, Special Use Parks, Regional Parks and Regional Trails

Goal PR 3 - Maintain and monitor minimum level-of-service standards for parks and for park facilities that are necessary to support development

Goal PR 4 - Acquire park properties and develop park facilities that meet existing and projected growth needs of the County and that meet priorities identified in other Snohomish County Plans

The projects identified in this section are focused on both acquisition and development of new Community Parks, as well as improvements to and preservation of existing facilities. These facilities provide recreational opportunities, as well as open space, both of which contribute to what citizens describe as "quality of life." Projects focused on improvements to existing facilities will help those parks continue to provide, or expand, recreational opportunities available. Development and improvements at Community Parks also help meet the County's defined level-of-service for park facilities by adding amenities to serve population growth.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Open Space/Preserve Parks

**Package ID #:** 151

**Category:** Open Space/Preserve

**Description:** OPEN SPACE/PRESERVE PARKS (Program 45)

Park facilities play a major conservation role in Snohomish County. Park land provides open space, resource protection and wildlife habitat. The Snohomish County DCNR Parks and Recreation Department maintains and provides stewardship for a significant number of properties that are classified as Open Space/Preserve. These properties are managed for resource protection and public access, where appropriate. The projects identified within this program are focused on providing appropriate public access to these areas.

Snohomish County's Park Improvement Plan for Open Space/Preserve parks consists of the following:

PARADISE VALLEY CONSERVATION AREA IMPROVEMENTS: Development of parking lot to serve park users. Funding is proposed as follows:

Prior Year Balance: \$118,317

2022: \$100,000

Future Years: 2024 - \$200,000 (REET 2)

Project Start/End Date: 2021/2024

Project Status: Initial lot design has been completed and needs to be reviewed prior to permit submittal. Project is pending resolution of some property use issues.

Changes Since the 2021 Budget: Reduced funding in 2024.

**Justification:** Snohomish County has provided the following goal in the General Policy Plan (GPP) related to provision of open space and natural areas (Goal PR 5): "Provide open space and natural areas with appropriate public access to promote understanding and support of the natural environment and of the benefits these lands provide." This project provides expanded access to Paradise Valley Conservation Area, a well-loved facility that provides diverse opportunities for the public to experience and learn about the natural environment.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Regional Parks

**Package ID #:** 152

**Category:** Regional

**Description:** REGIONAL PARKS (Program 46)

Snohomish County has developed, and currently operates, several parks that feature major natural resources which serve as a backdrop for recreational opportunities. These parks draw users from across the County and are considered Regional Parks. Features within these parks range from forests, lakes, rivers and saltwater waterfronts to historic rural properties and unique natural features. Amenities provided at Regional Parks typically include day use areas, picnicking, camping, boating, hiking, horseback riding, or other recreational activities that have regional value and use. Many of these amenities are included within Parks' level-of-service methodology and, as such, may help address needs related to growth. Regional Parks offer substantial recreational opportunities and include a number of parks which have been in use since the 1970's. Renovation and maintenance of aging facilities is a priority in order to ensure that high quality recreation experiences continue to be provided. Expansion and acquisition are also a priority for Regional Parks in order expand opportunities available to serve a growing population.

Snohomish County's Park Improvement Plan for Regional Parks consists of the following:

**FLOWING LAKE – SHELTER REPLACEMENT:** In 2022, a structural evaluation of the picnic shelter was conducted, and it was determined that there are several structural issues to be addressed and the shelter needs to be renovated or replaced. This project will include demolition of the aged shelter and replace with a new shelter. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$100,000

Future Years: \$0

Project Start/End Date: 2023

Project Status: Structural review of the shelter has been completed. Plans are in-progress for new shelter.

Changes Since the 2022 Budget: New project.

**HEYBROOK RIDGE DEVELOPMENT:** Second phase of trail improvements at Heybrook Ridge focused on ADA accessible trail development through lower portion of park. Funding is proposed as follows:

Prior Year Balance: \$309,084

2023: \$0

Future Years: \$0

Project Start/End Date: 2018/2024

Project Status: Design and permitting for the second phase of development is underway.

Changes Since the 2022 Budget: None.

**HOLE IN THE SKY:** Expenditure of site dedicated funding as projects are identified. Project funding originated from sale of a portion of the property to WSDOT for Hwy 9 widening and is required to be used on-

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Regional Parks

**Package ID #:** 152

**Category:** Regional

site. Funding is proposed as follows:

Prior Year Balance: \$21,037

2023: \$0

Future Years: \$0

Project Start/End Date: TBD/TBD

Project Status: Pending project identification.

Changes Since the 2022 Budget: None

JORDAN BRIDGE DECKING: Replacement of decking on Jordan Bridge. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$125,000

Future Years: None

Project Start/End Date: 2023/2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None.

KAYAK POINT CAMPGROUND: Development of additional camping facilities at this popular Regional Park. Campsites are known to be in limited supply within the County and a previously completed Preferred Plan for Kayak Point identified locations for camping expansion. Addition of camping facilities at this site are favored due to existing infrastructure and on-site Ranger presence. Provision of camping will also address level-of-service needs. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$300,000 (REET 2), 2027 - \$1,600,000 (REET 2, GMA Mit. Fees)

Project Start/End Date: 2026/TBD

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

KAYAK POINT DAY USE RENOVATION: Renovation of the day-use area of this popular Regional Park. The park was originally opened in the 1970's and the infrastructure needs to be updated and the overall park redesign improves park usage. Funding is proposed as follows:

Prior Year Balance: \$8,372,224

2023: \$3,173,112 (REET 2, GMA Mit. Fees) \$2,000,000 (anticipated grant)

Future Years 2024 - \$3,268,672 (REET 2 and other) and 2025 - \$350,000 (REET 2)

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Regional Parks

**Package ID #:** 152

**Category:** Regional

Project Start/End Date: 2015/2025

Project Status: Permitting for the day-use area is underway and construction is anticipated to start in 2024.

Applications for grant funding have been submitted to support the project.

Changes Since the 2022 Budget: Adjustment of funding based upon updated project cost estimates, addition of spending authority for potential grants and added future year funding.

KAYAK POINT RANGER OFFICE: Replacement of Ranger office at Kayak Point Park. The current structure is planned to be demolished and new structure located according to the Preferred Plan for the park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2025 - \$477,922 (REET 2) and 2026 - 1,022,078 (REET 2)

Project Start/End Date: 2025/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Adjusted funding between 2025 and 2026.

KAYAK POINT SINK HOLE: Repair of failing culvert on service road accessing the Kayak Point Golf Course. Funding is proposed as follows:

Prior Year Balance: \$0

2022: \$0

Future Years: 2025 - \$350,000 (REET 2)

Project Start/End Date: 2018/2025

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

LORD HILL PREFERRED PLAN UPDATE: Park improvements and Preferred Plan update in order to address recent park use patterns and land acquisitions which were completed following development of the original site Preferred Plan. Funding is proposed as follows:

Prior Year Balance: \$51,844

2023: \$0

Future Years: 2024 - \$650,000 (REET 2) and 2025 - \$650,000 (REET 2)

Project Start/End Date: 2018/2025

Project Status: Development of a Preferred Plan is underway and is expected to be completed in 2023. Trail work began in 2022.

Changes Since the 2022 Budget: Removed grant funds from 2023 because grant was not awarded to the project.

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Regional Parks

**Package ID #:** 152

**Category:** Regional

MCCOLLUM PARK FOOD AND FARMING CENTER: Development of a Food and Farming Center at McCollum Park. Project will include a building designed to support local farmers and food distribution and an indoor farmer's market. This project is being completed in partnership with the Snohomish County Agriculture Coordinator. Funding is proposed as follows:

Prior Year Balance: \$7,049,898

2023: \$0

Future Years: 2024 - \$1,000,000 (anticipated grants), 2025 - \$1,000,000 (anticipated grants), and 2026 - \$6,000,000 (anticipated grants)

Project Start/End Date: 2021/2027

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Added future year funding from grants.

MCCOLLUM PARK – DEMOLITION OF POOL AND POOL HOUSE: In support of the Food and Farming Center, this project includes the demolition of the existing pool and the pool house which is the tentative location for the future indoor farmer's market. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$500,000 (REET 2)

Future Years: None

Project Start/End Date: 2023

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

MCCOLLUM PARK PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at McCollum Regional Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2028 - \$350,000 (REET 2 and GMA Mit. Fees)

Project Start/End Date: 2028/2028

Project Status: Project pending funding in 2028.

Changes Since the 2022 Budget: Moved project to 2028 so it will be built after the food and farming center. Added funds to include unitary surfacing and inflation.

MEADOWDALE PARK IMPROVEMENTS: Water access reconstruction to address problems associated with public access to the beach at this popular park. Funding is proposed as follows:

Prior Year Balance: \$7,479,968

---

2023: \$0

Future Years: None.

Project Start/End Date: 2014/2022

Project Status: Project construction is underway and anticipated to be completed in 2022.

Changes Since the 2022 Budget: None.

MEADOWDALE PARK - TRAILHEAD AND TRAIL DEVELOPMENT: Project to identify and design additional trailhead and trail access into Meadowdale Park to address the high level of usage the park receives and the limited parking currently available at the trailhead. This project will develop a concept plan for access and is anticipated to also provide a preliminary design. Funding is proposed as follows:

Prior Year Balance: \$30,000

2023: \$463,764 (REET 2 and GMA Mit. Fees)

Future Years: None.

Project Start/End Date: 2022/2025

Project Status: Project pending funding availability. Conceptual Trailhead designs are underway.

Changes Since the 2022 Budget: Increased 2023 funding.

NORTH CREEK PARKING EXPANSION: Expanded parking at North Creek Regional Park. Parking will provide overflow access to the park and serve as a trailhead for the future North Creek Trail. Funding is proposed as follows:

Prior Year Balance: \$352,013

2023: \$0

Future Years: \$0

Project Start/End Date: 2022/2023

Project Status: Project scoping will be initiated to coincide with nearby North Creek Trail development.

Changes Since the 2022 Budget: None

NORTH CREEK PLAYGROUND REPLACEMENT: Life-cycle replacement of the playground at North Creek Regional Park. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$100,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding in 2026.

Changes Since the 2021 Budget: None

SR 530 SLIDE MEMORIAL: Development of memorial for the 2014 SR 530 slide. Parks is working with stakeholder groups and is coordinating fundraising efforts with those entities. Application for two grants was completed in 2020 and \$500,000 was awarded. Additional funding from other sources will be required to finish the project. Funding is proposed as follows.

Prior Year Balance: \$3,138,623

2023: \$3,000,000 (REET 2), -\$500,000(anticipated grant not awarded)

Future Years: \$0

Project Start/End Date: 2016/2023

Project Status: The project will go out to bid in the summer and construction will begin in the fall of 2022.

Changes Since the 2022 Budget: Addition of REET 2 funding.

SQUIRE CREEK CAMPGROUND RESTROOM: Improvements to Squire Creek restroom to provide showers to enhance campground use. Funding is proposed as follows:

Prior Year Balance: \$0

2022: \$0

Future Years: 2026 - \$500,000 (REET 2)

Project Start/End Date: 2025/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

STEELHEAD PARK DEVELOPMENT: Project to develop Preferred Plan for park development. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$689 (GMA Mit. Fees)

Future Years: 2026 - \$150,000 (GMA Mit. Fees)

Project Start/End Date: 2024/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: Added GMA Mitigation fees in 2023 to accumulate funds for the future.

TENTH STREET BOAT LAUNCH: Support for renovation needs at the Tenth St. Boat Launch, which is owned in partnership with the City of Everett and Port of Everett. Funding is proposed as follows:

Project Start/End Date: 2023/2023

Project Status: Project pending funding.

Changes Since the 2022 Budget: New project.

WHITEHORSE PARK IMPROVEMENTS: Facility improvements for phase 2 at Whitehorse Community Park, including installation of campground and new restroom . Funding is proposed as follows:

Prior Year Balance: \$653,711

2023: -\$300,000 (fee adjustment for excess)

Future Years: \$0

Project Start/End Date: 2018/2023

Project Status: The first phase of construction was completed in 2021 and remaining funding is for completion of the project in 2022. A reduction in funding is included for what was not needed in phase 2.

Changes Since the 2022 Budget: Reduction of funding for phase 2.

**Justification:** The Snohomish County General Policy Plan (GPP) includes eight goals specific to parks provision, of which the following goals are most directly addressed by the projects provided within the Regional Parks program:

Goal PR 2 - Provide diverse recreational opportunities through Neighborhood Parks, Community Parks, Special Use Parks, Regional Parks and Regional Trails

Goal PR 3 - Maintain and monitor minimum level-of-service standards for parks and for park facilities that are necessary to support development

Goal PR 4 - Acquire park properties and develop park facilities that meet existing and projected growth needs of the County and that meet priorities identified in other Snohomish County Plans

The projects identified in this program are focused on provision of unique Regional Parks that serve both urban and rural residents. These parks typically offer unique features, access to water and amazing landscapes, historic properties and/or forested areas. These are features that serve the interests of local citizens while drawing tourists and nature enthusiasts to Snohomish County. This has economic benefits for the County and local cities and towns. Many of these parks also take advantage of a core competency of Parks: camping. This service has demonstrated significant revenue potential and, if properly managed and marketed, can help Parks' efforts towards sustainability.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Special Use

**Package ID #:** 153

**Category:** Special Use

**Description:** SPECIAL USE PARKS (Program 47)

Snohomish County parks that offer unique facilities are defined as Special Use Parks. These parks, because of the specialized uses and the constituencies that promote and take advantage of the facility, also have the unique advantage of generating revenue and creating potential return on investment. These advantages are major contributors in Parks' efforts to approach fiscal sustainability. Special Use projects that are incorporated into Parks' six-year Capital Improvement Program include improvements to existing facilities, as well as development of a Preferred Plan for a new marksmanship park, which is planned to be developed through a public/private partnership.

Snohomish County's Park Improvement Plan for Special Use Parks consists of the following:

EVERGREEN STATE FAIRPARK IMPROVEMENTS: On-going program for improvements to the fair park, including facility renovation and camping area enhancements. Camping enhancements are anticipated to increase overnight stays. Funding is proposed as follows:

Prior Year Balance: \$4,634,448

2023: \$898,500 (REET 2, GMA Mit. Fees)

Future Years: 2024 - \$400,000 (REET 2) 2025 - \$300,000 (REET 2), 2026 - \$468,888 (REET 2) and 2027 - \$789,392 (REET 2), and 2028 - \$1,500,000

Project Start/End Date: ongoing

Project Status: Improvements progressing in 2022 include a new washrack, .

Changes Since the 2021 Budget: Addition of and changes to out-years funding

KAYAK POINT GOLF COURSE: Transfer of funding to 0 out deficit. Funding is proposed as follows:

Prior Year Balance: -\$6,092

2023: (\$6,092)

Future Years: \$0

Project Start/End Date: /2022

Project Status: n/a

Changes Since the 2022 Budget: 0 out funding.

SKY VALLEY SPORTSMANS PARK DEVELOPMENT: Development of a Preferred Plan to guide future development of a marksmanship park through a public/private partnership. Phase 1 design and permitting can begin in out years. Funding is proposed as follows:

Prior Year Balance: \$33,985

2023: \$0

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Special Use

**Package ID #:** 153

**Category:** Special Use

Future Years: \$0

Project Start/End Date: 2014/TBD

Project Status: Master Plan project was completed in 2021 and an RFP to identify a potential private development partner was released. Remaining funding is being held for potential associated needs such as survey.

Changes Since the 2022 Budget: Removed out years funding.

MOUNTAIN BIKING PARK – FEASIBILITY STUDY: This funding will be for consultant services and site studies for a feasibility study to identify a candidate site for a new Mountain Biking Park which is anticipated to draw strong community support. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$200,000 (REET 2)

Future Years: \$0

Project Start/End Date: 2023/2024

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: New project.

**Justification:** Snohomish County has adopted the goals to "Provide diverse recreational opportunities through Neighborhood Parks, Community Parks, Special Use Parks, Regional Parks and Regional Trails," as well as "Promote sustainable operation by considering financial, environmental, and social implications of the Parks and Recreation Department's actions" (Goals PR 2 and PR 8, respectively). Improvements at the Evergreen State Fair Park and completion of planning for the Sportsmans Park further these goals by continuing to provide, and support the provision of additional, unique recreation opportunities and by also providing funding to renovate and enhance existing Special Use recreation. Investments in these sites and the Fair Park in particular can continue to provide revenue, which supports the Parks Division's interests to further progress toward fiscal sustainability.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Trails

**Package ID #:** 154

**Category:** Trails

**Description:** TRAILS (Program 48)

The non-motorized recreational trail system developed by Snohomish County Parks is a major County asset. The Centennial Trail, for example, annually attracts over 400,000 users and supports both local and tourism-based use. Trails are a major part of Snohomish County Parks' future and preservation of existing regional trails, and development of new opportunities, is a priority. Improvements have been made recently to the 27-mile Whitehorse Trail corridor and continued enhancements along this corridor are planned to enhance use and support the tourism draw of this feature. Future development of all regional trail corridors will depend upon local resources as well as funding from state and federal grant opportunities.

Snohomish County's Park Improvement Plan for Trails consists of the following projects:

CENTENNIAL TRAIL --- MACHIAS PLAYGROUND REPLACEMENT: Life-cycle replacement of playground at Machias Trailhead. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$100,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2021 Budget: None

CENTENNIAL TRAIL --- PAVEMENT PRESERVATION: Pavement preservation (i.e. cut/patch, root removal and sealing) to preserve pavement integrity. Work is planned to minimize the need for future, large scale renovation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$150,000 (REET 2)

Future Years: 2024 - \$150,000 (REET 2), 2025 - \$150,000 (REET 2), 2026 - \$175,000 (REET 2), 2027 - \$175,000 (REET 2), and 2028 - \$250,000 (REET 2)

Project Start/End Date: On-going program

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

CENTENNIAL TRAIL --- SOUTH: Development of the eastside rail corridor from the City of Snohomish to the King County border, as an extension of the current Centennial Trail. This segment will ultimately extend the Centennial Trail from Skagit County all the way to King County and add an additional twelve miles to the trail. Centennial Trail South is proposed to be developed as a paved, multi-use trail. Funding is proposed as follows:

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Trails

**Package ID #:** 154

**Category:** Trails

Prior Year Balance: \$1,936,082  
2023: \$0  
Future Years: \$0

Project Start/End Date: 2014/TBD

Project Status: Staff is addressing property issues and continuing design is pending resolution of those issues.

Whole project funding is anticipated to cost in excess of seventy million dollars to complete and project funding is proposed to be included in a potential, future trail bond.

Changes Since the 2022 Budget: None

CENTENNIAL TRAIL — STILLAGUAMISH PIER REPAIR: Repair of Centennial Trail bridge footing in the Stillaguamish River, north of Arlington, which is being scoured by river action. Funding is proposed as follows:

Prior Year Balance: \$609,117  
2023: \$150,000  
Future Years: 2024 - \$560,000 (REET 2)

Project Start/End Date: 2016/2025

Project Status: Pier evaluation has been completed and it was determined that the structure is stable for now.

Changes Since the 2021 Budget: Addition of 2023 funding to reflect current project cost estimates.

INTERURBAN TRAIL: Removal and restoration of the trail north of 128th St. as required by agreement with WSDOT based upon relocation of this section through an adjacent development project. Project has been expanded to provide for future trail improvements, in support of anticipated use associated with light rail improvements and associated population. Funding is proposed as follows:

Prior Year Balance: \$100,460  
2023: \$100,000  
Future Years: 2026 - \$500,000 (REET 2), 2027 - \$500,000 (REET 2), and 2028 - \$598,083

Project Start/End Date: 2020/2028

Project Status: Initial project scoping of trail removal has been completed, including coordination with WSDOT, the adjacent development and Snohomish County PDS. Initiation of removal and restoration work is pending staff availability.

Changes Since the 2022 Budget: Additional funding in 2023 to address elements required in WSDOT agreement.

SNOHOMISH TO EVERETT (LOWELL) TRAIL: Land acquisition for future regional trail between the Cities of Snohomish and Everett and connecting to the Centennial Trail. Funding is proposed as follows:

Prior Year Balance: \$153,523  
2023: \$500,000 (REET 2)

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Trails

**Package ID #:** 154

**Category:** Trails

Future Years: 2027 - \$1,000,000 (REET 2)

Project Start/End Date: 2018/2027

Project Status: Trail alignment options have been reviewed and options for acquiring the property are being pursued. Funding for acquisition through the Conservation Futures program has been secured and acquisition is anticipated to be completed by 2022.

Changes Since the 2022 Budget: Added \$500,000 in 2023. Added funding in out years

WHITEHORSE TRAIL IMPROVEMENTS: Continuing improvements to the Whitehorse Trail to open the full corridor, make trailhead improvements and complete bank stabilization projects. Funding is proposed as follows:

Prior Year Balance: \$3,166,915

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/2023

Project Status: Project scoping and outreach to secure consultant support has been initiated and design/permitting will follow.

Changes Since the 2022 Budget: None.

WHITEHORSE TRAIL – CICERO PAVEMENT IMPROVEMENTS - NEW: This portion of the Cicero section of the Whitehorse Trail was removed from the 2022 Asphalt Repair and Preservation project due to funding. This project will repair extensive, poor-quality asphalt. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$0

Future Years: 2024 - \$200,000 (REET 2)

Project Start/End Date: 2023/2024

Project Status:

Changes Since the 2022 Budget: New project

**Justification:** Snohomish County has adopted the goal to "Provide diverse recreational opportunities through Neighborhood Parks, Community Parks, Special Use Parks, Regional Parks and Regional Trails," (PR 2), which also includes the specific policy to "Prioritize developing Regional Trails" (PR 2.A.5). This goal and following policy are based on the importance that the public places on provision of trails. Public recreation interest surveys reliably identify trails as a facility of highest interest. Snohomish County is in the unique position to be a regional trail provider and provides long-distance trails that connect communities within Snohomish County as well as linkages to systems outside county borders. Additionally, while trails serve the interests of local citizens, they also draw tourists to Snohomish County. This has economic benefits for the County and local cities and towns.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resources

**Short Name:** DCNR Parks 309 - Support

**Package ID #:** 155

**Category:** Support

**Description:** SUPPORT - PARKS ACQUISITION, DEVELOPMENT, AND IMPROVEMENTS (Program 49)  
Parks requires a variety of professional staff to support the Parks Department's capital planning, citizen participation, grant writing, contracts, Interlocal Cooperation Agreements, acquisition, design and engineering, program supervision, and construction management. In addition, funding for smaller capital projects that may be constructed by Parks maintenance staff is included in this package.

The Snohomish County Park Improvement Plan which provides support for park acquisition, development, and improvement projects includes:

GENERAL IMPROVEMENTS – PARKS: Funding for small capital or other REET 2 eligible projects. These projects are typically accomplished by the Parks Maintenance Division and are focused on priorities such as ADA and NPDES improvements, life-cycle replacements and operational efficiencies. Expenses will also cover unanticipated costs related to WSU extension moving to Willis Tucker and inflation. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$440,000 (REET 2)

Future Years: 2024 - \$350,000 (REET 2), 2025 - \$350,000 (REET 2), 2026 - \$400,000 (REET 2), 2027 - \$400,000 (REET 2), and 2028 - \$400,000 (REET 2)

Project Start/End Date: On-going program

Project Status: Several projects were completed in 2022 including rental home improvements and asphalt work. A list of projects to be completed in 2023 has been generated and is ranked for completion.

Changes Since the 2022 Budget: Increased due to inflation.

CAPITAL SUPPORT/SALARIES, OVERHEAD AND BENEFITS: On-going funding for professional staff to support Parks' capital program. Capital staffing includes planners, landscape architects, engineers, contract administration and property acquisition specialist. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$1,751,095 (REET 2)

Future Years: 2024 - \$1,810,100 (REET 2), 2025 - \$1,858,550 (REET 2), 2026 - \$1,908,573 (REET 2), 2027 - \$1,960,229, and 2028 - \$2,013,584 (REET 2)

Project Start/End Date: On-going program

Project Status: The Planning group completed a wide variety of projects in 2022 including land acquisitions, design and engineering, permit procurement, construction oversight and management, life-cycle renovations, long-range planning processes, public outreach and others.

Changes Since the 2022 Budget: None

2013 BOND REPAYMENT: Repayment of a bond issued in 2013 to fund a variety of capital improvements.

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Support

**Package ID #:** 155

**Category:** Support

Repayment of this bond will continue over the coming years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$119,666 (REET 2)

Future Years: 2024 – \$119,194 (REET 2), 2025 - \$113,354 (REET 2), 2026 - \$117,354 (REET 2) 2027 - \$116,062 (REET 2), and 2028 - \$119,624 (REET 2)

Project Start/End Date: 2013/2032

Project Status: On-going repayment project.

Changes Since the 2022 Budget: None

2021 BOND REPAYMENT: Repayment of a bond issued in 2021 to fund a variety of capital improvements. Repayment of this bond will continue over the coming years. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$264,000 (REET 2)

Future Years: 2024 – \$265,500 (REET 2), 2025 - \$266,500 (REET 2), 2026 - \$262,000 (REET 2) 2027 - \$262,250 (REET 2), and 2028 - \$267,000 (REET 2)

Project Start/End Date: 2021/2032

Project Status: On-going repayment project.

Changes Since the 2022 Budget: None

SMALL CAPITAL IMPROVEMENTS PROGRAM: This program completes small, park capital projects using in-house staff. Typical projects include playground replacement, trail construction, asphalt preservation and miscellaneous projects that are often time consuming and difficult to bid (e.g. fence repairs/replacement). Efficiencies are gained through reduced project completion time, reduced costs to complete the project and incorporation of lower maintenance components. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$255,436 (REET 2, 2020 shortage adjustment)

Future Years: 2023 - \$233,834 (REET 2), 2024 - \$241,368 (REET 2), 2025 - \$248,609 (REET 2), 2026 - \$256,067 (REET 2), 2027 - \$263,749 (REET 2), and 2028 - \$265,000 (REET 2)

Project Start/End Date: On-going program

Project Status: On-going program.

Changes Since the 2022 Budget: None

COUNTY ARCHAEOLOGIST: Park projects often include a component of cultural resources review, which may require tribal consultation and/or a cultural resources study. In 2018 Snohomish County hired a full-time Archaeologist and Parks provides a portion of the salary for this position. Funding is proposed as follows:

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Support

**Package ID #:** 155

**Category:** Support

Prior Year Balance: \$0

2023: \$30,000 (REET 2)

Future Years: 2023 - \$30,000 (REET 2), 2024 - \$30,000 (REET 2), 2025 - \$30,000 (REET 2), 2026 - \$30,000 (REET 2), 2027 - \$30,000 (REET 2), and 2028 - \$30,000 (REET 2)

Project Start/End Date: On-Going Program

Project Status: On-going program.

Changes Since the 2022 Budget: None

EQUIPMENT PURCHASE: To help maintain park properties which serve to address level-of-service needs, a small portion of mitigation fee collection is directed toward equipment acquisition. A larger portion of the 2023 SEPA and GMA mitigation fees is allocated for the purchase of equipment needed for cleaning and on-going maintenance of permeable paving installations throughout the parks system. Funding is proposed as follows:

Prior Year Balance: \$0

2023: \$300,032 (SEPA/GMA Mit. Fees)

Future Years: 2024 - \$10,000 (SEPA Mit. Fees), 2025 - \$10,000 (SEPA Mit. Fees), 2026 - \$10,000 (SEPA Mit. Fees), 2027 - \$10,000 (SEPA Mit. Fees), and 2028 - \$10,000 (SEPA Mit. Fees)

Project Start/End Date: On-Going Program

Project Status: Acquisitions pending funding availability.

Changes Since the 2022 Budget: Added funds to 2023 for purchase of permeable pavement cleaning equipment / vehicle.

LAND CONSERVATION INITIATIVE: Program aimed at identifying priority properties across Snohomish County to be preserved for the reasons of agricultural production, recreation, habitat, carbon sequestration, urban green space, and other values. In addition to identifying priority properties, this project will also develop an acquisition prioritization approach, identify funding strategies, address operation and maintenance needs and provide seed money for a TDR program. Remaining balance is projected to be expended in 2023. Funding is proposed as follows:

Prior Year Balance: \$3,768,320 (ARRA funds)

2023: \$0

Future Years: \$0

Project Start/End Date: 2021/on-going

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

THREE LAKES SHOP ROOF REPLACEMENT: Life-cycle replacement of the roof on the Three Lakes Ranger office. Funding is proposed as follows:

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks 309 - Support

**Package ID #:** 155

**Category:** Support

Prior Year Balance: \$0

2023: \$0

Future Years: 2026 - \$50,000 (REET 2)

Project Start/End Date: 2026/2026

Project Status: Project pending funding availability.

Changes Since the 2022 Budget: None

PROPERTY ACQUISITION SUPPORT: Parks Property Administrator is regularly tasked with evaluating and processing unanticipated property acquisition projects. This may include consideration of donations, acquisition of small pieces of property to complete a project (e.g. easements or access parcels) and others. These projects often require survey, appraisals and/or other costs which cannot be completed with other available funding within Parks' budget. Funding is proposed as follows:

Prior Year Balance: \$62,936

2023: \$178,500 (Revenue from property purchase)

Future Years: None

Project Start/End Date: On-going program

Project Status: On-going program.

Changes Since the 2022 Budget: Added funding from the Larch, Locust, and Logan Roundabout Project property purchase.

COMMUNITY ENHANCEMENT:

Prior Year Balance: \$66,758

2023: -\$66,758

Future Years: None

Project Start/End Date: n/a

Project Status: n/a

Changes Since the 2022 Budget: New

**Justification:** All of the projects included in the proposed 2023 Parks Capital Budget are carried out by one or several of the staff positions identified in this package. All of the steps that need to be completed (property acquisition, planning, funding, budgeting, design, engineering and construction processes) are completed by Parks staff. Parks has grown its return on investment by using the time and expertise of in-house personnel to complete the process. The skill sets available in the Planning Section of Parks allow citizen participation, grant writing, interaction with external regulatory agencies, planning, permit submittal, and construction supervision to be accomplished by current employees. In addition, completion of small construction projects by the Maintenance group has ensured quality work and close supervision of project accomplishment. Staff response is obtained more quickly and projects are completed in a timely manner by personnel skilled in the trades and with personal histories in construction and contracting.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 13 Human Resources

**Short Name:** HR IF Reallocation

**Package ID #:** 156

**Category:**

**Description:** Reallocate Interfund DIS and Space Rent so that Nongeneral Fund programs are paying their proportionate share. This package also funds a new Human Resources Consultant for the Labor Relations team.

**Justification:** The Human Resources Labor Relations team is understaffed for its current workload, and will acquire significant additional work in the coming months. Currently there are two dedicated labor relations staff to handle all labor relations matters for the 37 bargaining units and 18 separate collective bargaining agreements. The integration of the Snohomish Health District (SHD) includes five additional collective bargaining agreements; this is a 14% increase in bargaining units and a 28% increase in collective bargaining agreements.

The Labor Relations team is responsible for negotiating all collective bargaining agreements for the County, and participating in mediation and interest arbitration. The team also negotiates various memoranda of understanding related to changes brought forward by legislation or code revisions, provides advice on labor relations issues and hears all grievances at the County Executive level. This team will also be instrumental in implementing recommendations made in the current countywide compensation and classification study. The addition of a Human Resources Consultant to this team is necessary to allow the County to maintain its legal bargaining obligation, and to move from a reactionary labor relations approach to a strategic and proactive approach.

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 33 Medical Examiner

**Short Name:** Lodox (xray machine) Service Contract

**Package ID #:** 157

**Category:**

**Description:** New xray machine (Lodox) will require a yearly service contract of \$24,000.00 plus tax. As of June 2022, it is expected that we will have the Lodox in-house by December. The service contract is free for one year. Assuming delivery of Lodox by December 2022, the service contract will be owed starting December 2023.

\$24,000.00 plus a tax rate estimated at 10% is \$26,400, hence the amount for this request.

**Justification:** Yearly service contract will allow us to maintain this valuable, new piece of equipment for as long as possible.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** CIP - Capital

**Department:** 06 Public Works

**Short Name:** 102 - RM Road Maintenance Site Development

**Package ID #:** 158

**Category:** Roads

**Description:** Public Works sold the Sand Hill Pit property in 2020 and intends to replace it with a new property purchased in 2021 to better support Road Maintenance operational needs. The 2023 budget request includes \$1.45 million for site development work necessary to make the new property fully operable.

**Justification:** RM property in Granite Falls - this new property is more easily accessible and better located to the Road Maintenance service areas. In 2021, a 1.8-acre parcel in Granite Falls owned by Snohomish Fire District #17 was purchased to replace the Sand Hill Pit for road maintenance purposes. To proceed with design of phase 1 improvements, an outside consultant will be hired through an on-call roster to design and permit the project for contractor bid of the construction later in 2023 after the permits are attained.

These improvement costs are allocated from a portion of the Sand Hill Pit sale proceeds from 2020.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Fund 505 Balancing

**Package ID #:** 160

**Category:**

**Description:** This package balances revenue and expenditure in Fund 505 for IT Operations. It contains adjustments to our proforma base budget for labor, changes in existing software maintenance contracts, and modest increases in interfund charges, all of which are anticipated to drive IT costs in 2023. The total anticipated base expenditure budget is \$27,082,320.

The Department of Information Technology interfund service rate model is built upon this base budget. Initial rate allocation to departments totals \$24,491,754 and remaining revenue of \$2,590,566 from direct services, Fund Balance, and existing interlocal agreements for IT services balance Fund 505 revenue at \$27,082,320.

**Justification:** This balancing package is necessary to create a foundation that represents the fully funded IT rate model for existing operations carried forward into the coming fiscal year. From this initial package, adjustments to revenue and expenditure based upon policy can be made through separate packages. Any adjustments to this priority package must be carefully considered and are discouraged; this package is designed to mirror initial IT rate model design, balances at the program level, matches departmental scenarios and communications, and ties back to our audited rate allocation model.

Detailed assumptions in the balancing package include:

- Allowance for 3% Salary and 5% Benefits increases are represented in COLA contingency line items
- Interfund service line items are budgeted at proforma levels
- Effort was made to adjust expenditure line items to represent actual cost object codes
- Four positions are reassigned to programs to correct proforma load and reflect their assigned program

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR SWM 415 - Noxious Weeds move from PWK

**Package ID #:** 161

**Category:**

**Description:** This package will transfer 2 FTEs and corresponding revenues & expenses from Public Works Roads fund 102 to DCNR SWM's fund 415

**Justification:** Expenditures are based on previous years actual spending. Most costs are covered by grant funding, weed control services agreements, and Roads funding for work in the right-of-way. Historic support from the General Fund is \$63,570. An increase of \$20,000 General Fund support is requested for 2023, to help cover increasing costs. The General Fund support for this program has not increased in over 10 years. The balance of the expenditures will be covered by SWM Utility Charges.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

Expenditures Package Summary

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Aggravated murder costs

**Package ID #:** 162

**Category:**

**Description:** OPD has appointed lawyers on three aggravated murder cases that will continue in to 2023. The projected additional cost beyond the 2023 base is \$ 63,000 . This amount does not include any new cases that may occur in 2022 or 2023. OPD is requesting an additional \$87,000 above the projected amount to cover cases that may be filed. These most serious cases stay open for years and require an extraordinary amount of investigation and mitigation costs which will be addressed in a separate expert witness package.

**Justification:** The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is “effective assistance of counsel”. State standards codified by reference in S.C.C. 2.09 establish the measurements. Court rule and Washington State law mandates that as the most serious case type, Aggravated Murder charges require the appointment of two attorneys; one attorney must be on a “Death Penalty Qualified” List, as approved by the Washington State Supreme Court. Currently, the prosecutor’s office is not seeking the death penalty on any of these three pending aggravated murder cases.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** PDA Overhead

**Package ID #:** 163

**Category:**

**Description:** This priority package is for the Public Defender Association (PDA) Overhead costs for 2023 to maintain required overhead at PDA for current staffing levels. This funding is mandated by the Washington State Supreme Court and Washington State Bar Association Indigent Defense Standards. This priority package is both legally and contractually mandated.

Snohomish County Office of Public Defense (OPD) manages the County's constitutional mandate to provide efficiency and cost-savings to the county. This is driven by the responsive contract that PDA has with OPD. Under the contract with PDA, the County must pay for overhead needs. Indigent defense mandates require that the County provide for the management, supervision, clerical support, and overhead for indigent defense services.

**Justification:** The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is "effective assistance of counsel". State standards codified by reference in S.C.C. 2.09 establish the measurements. Washington State Bar Association (WSBA) standards for indigent defense, standard seven requires that administrative costs be provided for indigent defense counsel, including overhead. Recent litigation in both Grant County and Burlington and Mount Vernon also provide important guidance on funding levels for indigent defense to avoid litigation for failure to meet the County's constitutional mandates.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Caseload compliance

**Package ID #:** 164

**Category:**

**Description:** This package makes permanent the 2022 budget request to the Snohomish County Public Defender Association(SCPDA) to bring the agency closer to caseload compliance. As part of the 2022 budget, Council appropriated \$962,492 to the OPD budget to be conditioned on completion of a performance audit. OPD and SCPDA have complied with the auditor and await the report.

The package includes one (1) full-time Attorney Supervisor FTE, two (2) full-time investigator FTEs, two (2) legal assistant FTEs, and one (1) Legal Secretary FTE.

1 Attorney Supervisor \$179,826  
2 Investigators\$247,698  
2 Legal Assistants\$206,072  
1 Legal Secretary\$89,085  
Overhead for positions\$79,7456  
TOTAL\$802,426

The original 2022 package also included a one-time allocation of \$100,000 for antiracism trainings. The 2023 package includes all elements of the 2022 package minus the funding for anti-racism training.

OPD has contracted with SCPDA for 47 years. During that time, the County has aspired to assure that SCPDA remains in compliance with public defense caseload standards. The County and OPD have assured that SCPDA is staffed with lawyers consistent with relevant standards. The County and OPD have also assured that SCPDA professionals are compensated in a manner consistent with the compensation of county employees who do similar work. This package seeks to bring SCPDA into compliance with caseload standards for their non-lawyer positions.

Supervisors – Relevant caseload standards require that public defense agencies employ 1 supervisor for every 10 lawyers. OPD’s contract with SCPDA currently provides for 53 lawyers and two supervisors. In order to bring SCPDA into compliance with caseload standards, OPD seeks to authorize SCPDA to hire three (3) additional supervisor FTE, two in the Superior Court unit and one in the District Court unit. One of these positions will be devoted to supervising attorneys in therapeutic courts and other programs funded through Fund 124.

Investigators – Relevant caseload standards require that public defense agencies employ 1 investigator for every 4 lawyers. OPD’s contract with SCPDA currently provides for 53 lawyers and 7 investigators. Of the 53 lawyers, 40 handle trial cases which require investigation. In order to bring SCPDA into compliance with caseload standards, OPD seeks to authorize SCPDA to hire three (3) additional investigator FTE, two in the Superior Court unit and one in the District Court unit.

Legal Assistant – Relevant caseload standards require that public defense agencies employ 1 Legal Assistant for every 4 lawyers. OPD’s contract with SCPDA currently provides for 49 qualifying lawyers and 8 Legal Assistants. In order to bring SCPDA into compliance with caseload standards, OPD seeks to authorize SCPDA to hire four (4) additional Legal Assistant FTE, three in the Superior Court unit and one in the District Court unit.

Legal Secretary - “The caseload of public defender attorneys shall allow each lawyer to give each client the time and effort necessary to ensure effective representation.....As used in this Standard, ‘quality representation’ is intended to describe the minimum level of attention, care and skill that Washington citizens would expect of their state’s criminal justice system.” Standard Three assumes “caseloads for fully supported ...defense

**Package ID #:** 164

**Category:**

attorneys...” To fully support the 53.25 attorney positions funded by the Snohomish County contract, SCPDA reports they need 4 additional legal secretaries to manage the increasing volume of paperwork and evidence discovered by current cases.

SCPDA staff is often asked to perform functions outside the scope of the contract. For example, SCPDA manages interpreter requests for court hearings in Snohomish County Superior Court. By statute, this is a court obligation.<sup>4</sup> However, SCPDA attorneys and staff schedule interpreters for court for convenience to Superior Court. The complexities of the job have increased over time. Discovery used to be largely police reports. In modern times, cases have multiple media components with law enforcement dashboard cameras, cell phones, and the infinite programs that record and store surveillance video. Below is graph of the discovery logged in just the first quarter of each year. This increase over the years impacts almost every function of public defense:

- Legal secretaries receive and log each item of discovery
- Legal secretaries schedule interpreters for clients interviews and court dates
- Legal secretaries redact discovery for clients to review
- Legal secretaries support IT, who builds and maintains the servers and database systems where these documents are stored
- Legal secretaries schedule appointments for clients to meet with their lawyer or social worker
- Legal secretaries delivers information back and forth from clients at the jail and with opposing counsel
- Legal secretaries organize discovery in preparation for trial and sentencings

**Justification:**

The right to representation at public expense for indigent persons is constitutionally mandated (6th Amendment, U.S. Constitution). The specific level of constitutionally mandated service is “effective assistance of counsel”. State standards codified by reference in S.C.C. 2.09 establish the measurements. Court rule and Washington State law mandates that as the most serious case type, Aggravated Murder charges require the appointment of two attorneys; one attorney must be on a “Death Penalty Qualified” List, as approved by the Washington State Supreme Court. Currently, the prosecutor’s office is not seeking the death penalty on any of these three pending aggravated murder cases.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Office of Public Defense 1.0 FTE

**Package ID #:** 165

**Category:**

**Description:** OPD is requesting approval and funding to hire one (1) FTE Legal Coordinator.

OPD currently has 8 staff members, including 6 Legal Coordinators whose duties historically have included:

- screen every person seeking appointment of counsel in criminal cases
- assigning lawyers in criminal
- assign lawyers in civil cases where the right to counsel attaches.
- appear at jail video calendars as well as remote arraignment calendars to screen new defendants.
- work with the courts and prosecutor's office to assure that each person on any county arraignment calendar is contacted in advance of the calendar to screen for a lawyer.
- work with OPD contracted lawyers and agencies to collect expert service requests and work with Snohomish County Finance to assure that those requests are paid

In March of 2020, OPD had 7 Legal Coordinators. After the COVID hiring freeze, OPD was not allowed to rehire for this position and it has since been removed from our budget. Since March of 2022, OPD has taken on additional work that is straining our current workload capacity. We have:

- redesigned our pretrial services program to assist defense attorneys in reducing the harm of cash bail. This involves our Legal Coordinators contacting every person who was booked into the Snohomish County Jail within the last day to gather information, connect them with lawyers and social workers who can address their mental health, medical, and housing needs
- taken on new programs to assign lawyers for Minor Guardianship cases after a change in the law in 2021
- taken on new programs to assign lawyers for Vulnerable Adult Guardianship cases after a change in the law in 2022
- will take on a new program to assign lawyers in civil no contact order cases after a change in the law in 2022

The addition of new programs and the loss of a valued position has left OPD short-staffed and made it difficult to to complete essential functions. OPD seeks to regain the position we lost during COVID and employ that person to work on our pretrial services interviews. This position will be responsible for gathering personal, professional, medical, mental health, and substance use data about recently booked inmates. This data will be delivered to the assigned counsel to be used to argue for decreased bail at arraignment and to earlier connect people with services in the community which could impact the resolution of their case and the person's stability in the community. In addition, this position will also help offset the changes in law that have added additional workloads to OPD.

One (1) FTE Legal Coordinator will cost \$90,325.00.

**Justification:** The position will assist OPD in coordinating the pretrial services screening process. It will free up staff space to allow current staff to dedicate to tradition tasks as well as new programs like Vulnerable Adult Guardianship, Minor Guardianship, and no contact order cases. Because this position will coordinate gathering and disseminating information regarding pretrial release and reentry services, this position should be funded through Fund 124.

Not included in Exec Rec budget.

**Description:** Adjustment to the 2023 Veterans Assistance Administration budget

**Justification:** These adjustments are made to reflect more accurately planned 2023 Veterans Assistance Administration and direct services activities.

Specifically, add an estimate of 3% salary COLA contingency. Millage projected for 2023 is based on the 2021 actuals plus 1% est. COLA for 2022 and 2023. Adjust discretionary line items based on current trends and planned activities. Adjust revenues to include \$100,000 grant from Workforce Snohomish.

### SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:

**Package ID #:** 167

**Category:**

**Description:** Adjust expenditures to actual projections for Fund 193 Permitting and General Fund 002 programs

**Justification:** This package adjusts the General Fund and Permitting expenditures to anticipated 2022 costs.

Decreases: PDS has continued to try to reduce operating costs and make cuts where possible. With more remote work, the cost of office supplies, copiers, postage, print shop, and those types of expenses have gone down.

Some expenses related to overhead have increased considerably:

(1) ER&R has increased by \$36,000 due to the high cost of fuel which has impacted the cost of maintaining PDS's fleet of 36 vehicles.

(2) Permitting Fund 193 Merchant Fees has increased by \$80,000 due to the higher revenue paid online via credit cards. (This amount includes credit card fees passed on to schools, Parks and Roads for mitigation fee collections.)

Amounts were budgeted for retirement contingency and COLA in Permitting Fund 193 and Snohomish County Tomorrow. These are not budgeted in General Fund programs.

In Permitting Fund 511 (Technology Reserve Fund), adjustments were made to reduce professional services because the cost of the microfiche scanning is less than anticipated, and update contract-related line items for annual increases. An additional \$50,000 was added for Extra Help to hire temporary staff to work on the PRISM/OpenText records archiving project.

In Permitting Fund 512 (Technology), \$120,900 in interfund revenue and \$120,900 in Extra Help expense were added for the Auditor's O&M Grant.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 05 Planning

**Short Name:** PDS Staffing Changes

**Package ID #:** 168

**Category:**

**Description:** To adjust the allocation of supervisory/management staff between Code Enforcement and Permitting, and move one position from Permitting Administration to Permitting.

To make corrections to salaries and benefits (step corrections) for the following situations:

- (a) for staff hired after preload/pro formal budget was developed;
- (b) for several "underfill" situations (where PDS is filling the position at a position which is different than the budgeted position);
- (c) for two positions for which reclassifications were requested pursuant to the AFSCME Master Agreement with Snohomish County, Article 17, Section 12.A;
- (d) for a reclassification of the Deputy Director position approved by Council.

To permanently change the job specs assigned to two positions which are filled at a position which is different than the budgeted positions.

To correct a clerical error on HighLine dating back to 2018.

Range adjustment for Snohomish County Tomorrow Manager.

Executive Recommendation - wait for classification & compensation study results on item C.

**Justification:** The following changes/adjustments are in this priority package:

1. Changed allocation of management and supervisor time to Code Enforcement program. After internal review of leadership structure, PDS has determined that it needs a full-time supervisor dedicated to the 6 Code Enforcement staff. Code Enforcement used to have a fully-dedicated supervisor which was eliminated in 2018; since then we have allocated 50% of a supervisor who also manages the Environmental team in permitting. We have moved a soon-to-be vacant supervisor position from Permitting to Code Enforcement, and removed the 50% supervisor of the Environmental team as well as the 20% division manager time allocated to Code Enforcement. Having a single Code Enforcement supervisor will help that team achieve its goals with regard to enforcement of the building codes and establishing an abatement program. The marginal increase to General Fund is offset by a \$40K increase in Penalties and Fines revenue.

2. Step corrections were made to two positions for which the budget reclass paperwork was submitted to the Union and HR by April 1st. One is a Communication Specialist I being reclassified to a Communications Specialist II (PDS4593R) and a Land Development Specialist Lead whose job spec is being updated to Front Counter Lead (PDS4119R). Both are in a temporary upgrade situation and for which the budget preloaded at Step 1 of their old position instead of the correct pay grade and step for their new positions. (Note: Senior Planner position was chosen to achieve the appropriate pay grade since the Front Counter Lead position was not in BDT.)

3. Step correction for Deputy Director position which was reclassified to a new Operational Improvement Program Manager (SCT Manager position was chosen to achieve the appropriate pay grade since the OIPM position was not in BDT).

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 05 Planning

**Short Name:** PDS Staffing Changes

**Package ID #:** 168

**Category:**

4. To permanently change the job specs assigned to two positions which are filled at a position which is different than the budgeted positions (PDS1068R and PDS4287R). One is a Principal Planner which is filled as an Engineer II. The second is the Principal Economic Development Officer position which is filled as an Principal Planner. We want to make these changes permanent in our budget. There will be no change to the two employees' job titles. The change is to align the budget with how the positions are actually being filled. Papework for these reclassifications were submitted to Human Resources in June 2022.

5. Step correction was made to a Business Process Analyst (PDS1923R) who was an internal hire recently promoted in June 2022 after the preload was completed. Also adjusted the position which the promoted employee vacated (PDS5423R).

6. Step corrections were made to four new employees hired after the preload was completed (PDS4130R, PDS5425R, PDS5424R, and PDS4120R).

7. To reclassify the Permit Assistance Coordinator III to a Senior Permit Technician which is currently vacant. This budget request is consistent with the vacant position reclassification request submitted to Human Resources in June 2022.

8. To correct the title/job spec assigned to PDS4686R which is in HighLine incorrectly due to a clerical error dating back to 2018.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 05 Planning

**Short Name:** PDS Overhead Allocation

**Package ID #:** 169

**Category:**

**Description:** To adjust allocation of overhead among PDS cost centers based on established allocation methods.

**Justification:** The preloaded budget for some types of overhead is placed in two cost centers. Each year, PDS reallocates overhead to the proper cost centers based on revised FTE counts for each program. The same allocation method is used year after year.

This year, the reallocation of county overhead resulted in a net change of \$2,179 to the General Fund programs and SCT's portion of overhead is consistent with prior years at \$7,441.

Interfund parking and ER&R have also been adjusted to actual rates and allocations among cost centers based on vehicle assignments.

Internal department charges to General Fund programs were allocated consistent with the methodology used in prior years (based on FTEs and the services provided by administrative and support staff). All administration and technology costs for the department are charged to Fund 193-510 (Admin) and Fund 193-512 (Technology and GIS), then charged back to General Fund programs via an Interfund Professional Services charge. The charges for 2023 are \$16,275 higher than in 2022 due to the completion of the OpenText project for which significant staff costs were paid out of the Technology fund. Thus, more PDS technology staff time has been shifted back to department support.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 05 Planning

**Short Name:** PDS 2024 GMA Comp Plan Update

**Package ID #:** 170

**Category:**

**Description:** 2024 Comprehensive Plan Update Summary and corresponding changes to Long Range Planning budget.

**Justification:** Planning and Development Services (PDS) is writing this priority budget package to convey the work that is anticipated in 2023 for the County's Comprehensive Plan Update. The 2024 GMA Comprehensive Plan Update and Compliance Review (2024 Update) is a major project led by Long Range Planning that has a mandated deadline for completion of December 31, 2024. Pursuant to RCW 36.70A.130 Snohomish County is required to: (1) Plan for the succeeding 20-year population and employment growth forecast; and (2) Review and revise comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of the Growth Management Act (GMA).

Work under the 2024 Update is spread out over budget years 2020 - 2024. Since 2020, PDS has developed its annual LRP budget so that there is sufficient funding to complete the work. Additional resources needed for the project include (1) supplementation of PDS staff and (2) bringing in expertise not currently available within Snohomish County government. The estimated breakdown of professional service and public participation expenditures and tasks by year are set forth below.

2023 Projected Work and Funding Needed (included in changes to Long Range Planning budget):

Professional Service: \$116,000 professional services for continued work on a draft environmental impact statement (DEIS) in the first half of 2023 and \$34,000 professional services for beginning work on a final environmental impact statement (EIS) in the second half of 2023. There is also \$175,000 in pass-through consulting work on the DEIS and EIS covered by docket applicant fees which is included in revenue projections. Thus, the total professional services needed for the 2024 Update is \$325,000. [Note: There is another \$303,000 in DEIS/EIS professional services to be paid by Roads, Surface Water Management and Parks. These departments have included their share in their respective budgets.] Another \$20,000 in professional services was budgeted for translation of outreach materials. Finally, there is \$100,000 budgeted for professional services related to the Housing Analysis portion of the 2024 Update, as well as \$35,000 for a consultant to perform half the work on the Climate Change portion of the 2024 Update. Another \$10,000 was budgeted in professional services as a contingency amount for all of the above items, for a total professional services budget of \$490,000.

PDS has budgeted \$20,000 for temporary staff to perform design work for the 2024 Update. Beginning in 2023, there is significant required public outreach and notice associated with Planning Commission public hearings (site-specific and tax payer of record mailed notice of comprehensive plan and zoning designation changes per SCC 30.70.050). We have budgeted \$30,000 for mailing services/postage and \$30,000 for advertising (publication of notices).

Various expenses in the LRP budget were adjusted to what we believe will actually be spent in 2023 (for a total reduction of \$16,604.)

Anticipated grant revenue from the Washington State Department of Commerce has been added to the LRP budget for 2023. It is anticipated that PDS will receive \$700,000 for the 2024 Update and \$100,000 for work on the Climate Change portion. The \$800,000 is split equally between PDS's 2023 and 2024 budgets because the state is on a July-June fiscal year and the county is on a calendar fiscal year.

**Department:** 05 Planning

**Short Name:** PDS 2024 GMA Comp Plan Update

**Package ID #:** 170

**Category:**

2024 Projected Work and Funding Needed in 2024:

Professional Service: \$34,000 for PDS's final share of professional services for the final Environmental Impact Statement. [Note: There will be another \$35,000 for Roads, Surface Water Management and Parks to budget in 2024 based on the current scope of work.] These figures are estimates which could change if the scope of the final EIS changes. There will also be additional \$65,000 in docket pass-through revenue and expense.

There may be another \$50,000-\$60,000 in costs for Notice associated with County Council public hearings in 2024. PDS expects to receive \$400,000 in grant funding from the Washington State Department of Commerce as noted above.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 16 Nondepartmental

**Short Name:** Operational Excellence

**Package ID #:** 172

**Category:**

**Description:** Adjustments for new Op Ex structure, COLA contingency and use of fund balance for the ongoing High Line System Optimization project.

**Justification:** Optimization of the High Line system benefits the County on a current basis as well as into the future. Optimization entails working with vendor consultants to streamline data, improve processing efficiencies and increase the management tools of a system the county currently owns and underutilizes. The primary goal for 2023 will be to complete the implementation of the time management system (TMSS) for county departments/offices that do not currently have access to Kronos or other custom time management software.

During 2022 Finance began implementing TMSS on county departments. As of June 30th six departments use TMSS to do their timekeeping and payroll liaison work. By the end of 2022, we hope to have approximately fourteen departments live with the TMSS.

This is a request to re-appropriate the remaining fund balance for the project that was started in 2019 and for additional phases that will continue into 2023. Total request is \$69,204.

Justification: Time management offers the ability to significantly reduce staff hours devoted to tracking and approving of time and leave. Departments estimate time savings anywhere from 1 to 60 hours per pay period per department dependent upon the size and complexity of staffing within each department. Finance alone itself will save approximately 400 hours per year by using TMSS. The system encompasses the functions of:

- Electronically requesting and approving planned leave time.
- Electronic timecards including automatic generation of scheduled time and pre-approved leave.
- Automated rules which converts exception entries correctly, reducing coding errors.
- Automated reminders to employees and managers to perform time sensitive actions such as signing/submitting timecards and various approvals.
- Electronic signing and submittal of timecards which are sent directly into the payroll system.

A time management system reduces the number of timekeeping systems used county-wide. Benefits include reduction of staffing needed to support the multiple timekeeping systems currently in use at the county as well as streamlining time entry and leave request processes. Time Management is part of Employee Self Service, allowing employees and managers access from home. Time savings will be realized by all departments that use the new system. Estimated costs for Phase 2-4 are \$46,254.

Mobile technology allows employees to enter and review time and attendance information while working at remote locations. Cost savings are achieved through increased productivity achieved by not requiring employees to return to their primary job station for the sole purpose of entering time. An example would be PDS inspectors who spend a good portion of one day in the office each pay period just to enter time. With mobile technology, time would be entered into the system from the project location, which would ultimately increase the number of completed inspections over time. Estimated implementation cost is \$22,950. Funding this package provides the opportunity to continue maximizing utility of the HRIS system, decrease costs and increase productivity of multiple departments/offices.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS Early Intervention Program (1)

**Package ID #:** 173

**Category:**

**Description:** Adjustments to the 2023 Early Intervention Program budget.

**Justification:** These adjustments are made to reflect more accurately planned 2023 Early Intervention Program activities. Specifically, add an estimate of 3% salary COLA contingency. Adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in depth review of award amount and projected program activities. Include a one time use of fund balance created from the TrueUp funding in 2021 for possible client support.

### SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:

<u>Expenditures Package Summary</u>	
FUND 124	\$27,044
<b>TOTAL - EXPENDITURES</b>	<b>\$27,044</b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS Puget Sound Taxpayers Accountability Act

**Package ID #:** 178

**Category:**

**Description:** Adjustments to the 2023 PSTAA Program budget, specifically building a chart of accounts due to now having administrative revenues in 2023.

**Justification:** These adjustments are made to reflect more accurately planned 2023 PSTAA program and direct services activities.  
Specifically, add an estimate of 3% salary COLA contingency and build a budget for support and administrative staff.. Adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in depth review of award amount and projected program activities.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>		
FUND 124		\$119,155
<b>TOTAL - EXPENDITURES</b>		<b>\$119,155</b>

<b>Revenues Summary</b>	
FUND 124	\$135,720
<b>TOTAL - REVENUES:</b>	<b>\$135,720</b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS Behavioral Health

**Package ID #:** 182

**Category:**

**Description:** Adjustment to the 2023 Behavioral Health Administration budget

**Justification:** These adjustments are made to reflect more accurately planned 2023 Behavioral Health Administration and direct services activities.

Specifically, add a new 1.0 Social Service Worker position to increase capacity to provide outreach and assistance to unsheltered citizens with behavioral health challenges. Add an estimated 3% salary COLA contingency. Adjust discretionary line items based on current trends and planned activities. Adjust estimated grant revenues based on an in depth review of award amounts, an anticipated new services agreement, and projected program activities. Millage line items are adjusted based on 2021 actual revenues plus a 1% estimated increase each year.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 12 Finance

**Short Name:** Risk Fund Additional FTE

**Package ID #:** 184

**Category:**

**Description:** This priority package focuses on short and long-term needs to ensure staff are available for the Cayenta upgrade, create greater efficiencies through a consolidation of duties, and reduces the county's exposures to financial loss. Currently, a significant portion of the County's public records requests (PRR) involve the Finance Department due to the fact that the Finance Department is the official record keeper of financial information for the entire County. So even when a PRR is designated to another department (for example Public Works), Finance will still many a times have many responsive records that need to be disclosed, which is different from nearly all other departments. To a large extent this position will be working on public records requests for all other departments. This priority package will create a Risk Management Technical Systems Specialist position to address these issues.

**Justification:** This multi-pronged, functionally based package involves the combining of duties from several positions and a restructuring in the Finance Department's Risk and Finance Operations Divisions. Currently, 20 hours a week are spent performing forensic accounting to respond to public records requests. These hours are split between a Senior Accounting Analyst and an Accounting Analyst in Finance Ops who are also a high-level subject matter expert on the Cayenta upgrade project. This priority package will reduce Finance Ops public records forensic accounting functions by 20 hours a week or more so they can be reprioritized toward the critical Cayenta upgrade project and 20 temporary hours per week of public records administrative work alleviating the need for contract temporary staff, to create a 1.0 FTE in Risk. This will accomplish:

- 1)(Efficiency) Allowing existing Accounting staff to allocate their time to the Cayenta upgrade, instead of public records work; Accounting staff can be more efficiently utilized by removing their PRR work. This will create a dedicated specialist for forensic accounting to determine what accounting records are responsive to public records requests.

- 2)(Reduce Loss/Waste) Create a more lean process to avoid a duplication of effort (currently split among 3 or sometimes 4 positions in Finance) and assume accuracy and timeliness with PRR responses. The Cayenta upgrade is a critical, time-sensitive project and PRRs are continually increasing in number and complexity which would otherwise draw Cayenta staff further from their mission critical role.

- 3)(Cost reduction) Relieve Senior Accounting Leads from searching for responsive records. Avoid high pay grade staff from unnecessarily doing lower pay grade work.

These elements fit within the STEP Initiative by focusing on the long-term, reducing inefficiencies and reassigning workloads to a more appropriate pay grade position.

Further, with the increase in efficiencies and reduction of waste herein, comes a higher degree of proficiency and accuracy reducing the County's overall exposure to loss as well as a reduction in the overall cost of government.

This package utilizes existing appropriation levels to cover this position. This priority package is simply asking for 1.0 new FTE and permission to realign existing appropriations.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 36 Superior Court

**Short Name:** IT Business Analyst

**Package ID #:** 185

**Category:**

**Description:** Superior Court requests a new IT Business Analyst FTE.

**Justification:** This request pertains to a new Business Analyst position to support our Superior Court's Information Technology (IT) unit. Our Superior Court spans 2 campuses, which include the downtown Rockefeller Courthouse and the Denney Juvenile Justice Center in North Everett. Both locations rely heavily on technology to perform daily operations. Many of the technologies that our court relies on are specific to us and are not used outside of our court. A couple examples of this are the Interpreter Web Application and the online hearing confirmation system which both provide a direct interaction point for the public. These applications allow the court to respond efficiently to the needs of the public. Specific applications like this require specialized maintenance and support from within our IT unit. They also take time and court-specific expertise to create. Replacing and planning for technology projects within our court, providing application maintenance, developing new processes for various business scenarios, and supporting various project initiatives are all reasons in support of our court's need for a Business Analyst position. Our court's IT unit is composed of 3 staff members, which include a manager and 2 support staff. An additional staff member with time dedicated to address these needs is long overdue and our current staffing model doesn't include a specialized position to fulfill this role with our IT-based projects. This need has become glaringly obvious during the pandemic. The way our court interacts with the public and the way our legislature expects our court to provide access are all changing. Recent legislative changes require our court to accept certain petitions electronically and provide a remote way for parties to appear for hearings. The legislature has demonstrated that courts will be required to provide accessibility and resources to parties and stakeholders in a more direct fashion. This evolution to a more accessible judiciary through technology is well underway and we believe that adding a Business Analyst will place us our court in the best position to keep up with this trend.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 36 Superior Court

**Short Name:** Document Translation Services

**Package ID #:** 186

**Category:**

**Description:** This priority package will outline a proposal for a document translation project for Superior Court's most used local court forms and resources. Our court would like to enlist an outside firm or vendor to perform translation services to this effect.

**Justification:** Snohomish County is a growing and diverse community, with a wide array of languages spoken by its residents and court users. Utilizing the most recent and relevant U.S. Census and American Community Survey (ACS), the court identified the following six non-English languages as those most frequently used in our geographic area: Spanish, Tagalog, Chinese, Russian, Korean and Vietnamese. A review of the court's internal data identified Arabic as an additional non-English language frequently spoken by court users. Each year, Superior Court provides thousands of hours of interpreting services for court proceedings, activities and the occasional sight translation of a document. However, those services do not currently include written, long-term document translation that would benefit all speakers/readers of the same language. The Court proposes to fund a document translation project for our most used local court forms and resources. The Court will utilize the community and court-user data to determine which and how many languages each document should be translated to. The Court understands the importance of translating forms and resources into non-English languages so that Limited English Proficient individuals have greater access to the court's services. However, the court lacks the funds to provide long-term document translation services as well as interpreting services for court proceedings. Currently the court only has 6 local documents translated to a non-English Language.

Average charge for translation services from 5 agencies:  
\$0.18 per word per language  
Average pages per document: 3 pages  
Average words per page: 204 words  
250 documents x \$222 per document for 2 languages = \$55,500

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

**Package Type:** Standard

**Department:** 36 Superior Court

**Short Name:** Fund 002 Housekeeping and Misc.

**Package ID #:** 187

**Category:**

**Description:** This package is housekeeping and also includes a reclassification request initiated by the union.  
Reclass of all Juvenile Detention Officers from a paygrade 235 to paygrade 240.  
Reclass of all Legal Process Assistant II-SC positions from a paygrade 309 to paygrade 312. These are union initiated reclasses and the Court is not supportive of the reclass efforts. The estimated financial impact of this reclass request is \$315,000.

**Justification:** This package will correct positions and realign budget amounts within the general fund of the Superior Court.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS Court Appointed Special Advocate Program

**Package ID #:** 189

**Category:**

**Description:** Adjustments to the 2023 Court Appointed Special Advocate Program budgets.

**Justification:** Per RCW. 13.34.100, the Snohomish County Office of the CASA ("CASA Program") has a statutory requirement to ensure that every child in the juvenile dependency court system has a guardian ad litem or court appointed special advocate volunteer appointed to represent their best interests. The CASA Program is not in compliance with this statutory requirement due to lack of resources and a shortage of CASA volunteers due in part to the impact from the COVID-19 health pandemic.

Adjustments are being requested in the 2023 budget to accommodate for programmatic growth, recruitment, training, support and diversification necessary to achieve compliance with Washington State statute.

In child dependency and termination cases, state law mandates that the child shall be appointed a guardian ad litem or CASA volunteer to advocate for the child's best interest during the case [RCW 13.34.100]. Currently, there are approximately 275 children in Snohomish County without a CASA or guardian ad litem due to a shortage of volunteer advocates. When abused and neglected children of Snohomish County do not have a CASA volunteer giving them a voice in the courtroom, it means their best interests are not brought to the attention of our judges and recommendations cannot be made on the children's behalf. It also means Snohomish County is not in compliance with Washington State RCW 13.34.100.

To help rectify the issue of non-compliance, adjustments are being requested in the 2023 budget as follows:

Adjustments to the General Fund CASA budget include: increase supplies for volunteer and outreach materials; increase minor equipment to replace a Smart Display monitor needed for in-service trainings; a; add budget for outreach advertising; dd budget for the program copier lease; add \$17,000 to expand CASA office space and replace worn/unsafe carpet.

Adjustments to the Fund 124/Grant funded budget include: Add an estimated 3% COLA contingency effective 1/1/23; utilize unreserved/undesignated fund balance to support county fixed costs that are in excess of the grant award.

The CASA Program serves not only a statutory requirement; it is central to fulfilling society's most fundamental obligation by making sure a qualified, compassionate adult will fight for and protect a child's right to be safe, to be treated with dignity and respect, and to learn and grow in the security of a loving family. The CASA volunteer can make a tremendous difference in the life of a child. The CASA Program is in place to ensure volunteers are well supported and trained throughout the process.

The Snohomish County CASA Program is committed to making sure every child involved in the juvenile dependency court system has a guardian ad litem or CASA volunteer to advocate for their best interests. The adjustments requested in the 2023 CASA Program budget will help us achieve this goal while setting us on the path toward compliance with the mandated statute.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff Corrections - Continue Funding 5 FTE

**Package ID #:** 191

**Category:**

**Description:** The Sheriff's Office Corrections Bureau used a revenue estimate in the 2022 Adopted Budget for Detention and Corrections Charges revenue based upon a lowered anticipated average daily jail population due to applicable Covid-19 standards and protocols to maintain a safe facility for staff and inmates. The 2022 Adopted Budget had a reserve in NonDepartmental to provide for up to \$1,500,000 of contingent authority to be transferred to the Corrections Bureau when the actual rate of revenue received exceeded a baseline amount of \$8,500,000. Up to \$500,000 was to be transferred in equal installments in April, July, and October if the rate of collections was projected to achieve the baseline budget, plus the additional target.

Detention and Corrections Charges revenue received through March 2022 was 108.3% of the target which satisfied the criterion for the first budget transfer. The transfer was approved by Council Motion 22-240; funding was restored to the following 5 Corrections support positions on June 22, 2022 by Council Motion 22-252; COR5109R, COR9289R, COR5266R, COR8875R, COR 8818R. The \$500,000 covers the costs of these positions for 1 year, we are on track to continue meeting our revenue goals. We anticipate filling these positions by Q4 2022 and we are requesting the funding for these 5 positions be continued into 2023.

**Justification:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** WSU Snohomish County Extension Beach Watchers

**Package ID #:** 192

**Category:**

**Description:** Who are the Beach Watchers?

WSU Beach Watchers are a group of over one hundred active volunteers dedicated to protecting the Salish Sea and Puget Sound through education, science, and stewardship. They come from all walks of life and bring a rich cross-section of backgrounds, experience, service, and talents. The volunteers give their time in the tens of thousands of hours through programs focused on stewardship, education, and research at the many beaches in Snohomish County and throughout the greater county at large.

They have been trained by university, state, regional, and local experts through a rigorous training program overseen by Washington State University Extension. Beach Watchers are not required to have prior marine science knowledge or teaching experience. They must be willing to attend a formal training program, want to serve in a volunteer capacity, and be curious about the natural world. All Beach Watchers must submit an application and complete 80 hours of expert training from top instructors in such subjects as water quality, coastal processes, education techniques, and marine life.

In return for this unique educational opportunity, all new Beach Watchers agree to “give back” a minimum of 80 volunteer hours to scientific surveys, serving as field or classroom educators, supporting beach clean-up activities, conducting outreach at festivals, teaching about specific behaviors to clean up Puget Sound, and many other opportunities. Each person gets to craft their own volunteer experience to meet their interests and schedules. Since the beginning of the Beach Watchers in 2006 many volunteers have donated thousands of hours to the organization and are still actively involved to this day.

While the program is funded by several small grants and contracts, this is not enough to keep the program financially sustainable long term. We do receive some funding from Surface Water Management which helps run our annual training, our pet waste program and supports some of our beach clean-ups, which we coordinate with the Snohomish County Marine Resource Committee on.

Why are Beach Watchers important?

We train volunteers to work in and around Snohomish County for a healthy, sustainable marine environment through education, research, and stewardship. The 800,000 residents in Snohomish County, present unique challenges to the protection of our natural areas. While our population poses a huge impact on the Puget Sound ecosystem we aim to educate and inspire citizens to leave a better Puget Sound for our children and future generations.

What do the Beach Watchers do?

WSU Beach Watchers have many projects (examples listed below) that help us to realize our mission in protecting the Puget Sound. Each project has a volunteer team lead that helps WSU staff coordinate that project and the projects falls into three main categories that align with our mission: Education, Science or Stewardship. There have been numerous other projects over the 18-year history of the WSU Beach Watchers that volunteers no longer actively work on.

Education

Puget Sound Youth Education: Increase Puget Sound literacy and appreciation in elementary school children including taking them on field trips to the beach.

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resources

**Short Name:** WSU Snohomish County Extension Beach Watchers

**Package ID #:** 192

**Category:**

Beach Naturalists: Volunteers hold beach walks throughout the summer's good low tides, May to September. They talk with beach visitors of all ages and backgrounds about the amazing intertidal life and ecosystem.

Pet Waste Education - Vet Clinics: We supply Doggie Bags/Scoop Kits to six vet clinics to hand out to their patients. Volunteers collate the kits, deliver the kits to their assigned clinics quarterly.

Science

BEACH Program: Volunteers collect water quality samples for WA Department of Ecology at five Snohomish County beaches in the summer between Memorial Day and Labor Day to see if the water is safe for swimming.

Intertidal Characterization and Monitoring Surveys: Volunteers collect baseline biological data at several public beaches each summer to develop an understanding of how the sites can change over time. This data is entered into the public shoreline monitoring database run by UW.

Stewardship

Beach Clean-Ups: Volunteers perform beach clean-ups monthly alternating between Howarth Park and Picnic Point. Quarterly, we collaborate with the Snohomish County Marine Resource Committee and once a year we hold a larger clean-up using the EPAs Escaped Trash Assessment Protocol; picking up, counting and weighing all the trash in a given area on the beach.

**Justification:** How do our projects help Snohomish County?

Our passion energizes the Beach Watchers to work hard to provide services to our partners and inspire people of all ages all over Snohomish County to take action. For example, each year the Beach Watcher volunteers have approximately 15,500 direct conversations with residents on Salish Sea ecosystem literacy including:

10,000 residents educated on Puget Sound watershed issues

2,000 K-8th grade students educated through science-based learning

2,500 dog owners instructed on pet waste handling

Why are the Beach Watchers asking for funding?

Funding the WSU Beach Watchers will ensure they will be able to continue to provide low-cost education and stewardship to Snohomish County residents to help protect a healthy environment for all of us. They work closely with the County's Marine Resource Committee, a council appointed advisory committee, to identify the highest priority marine issues requiring a public education focus.

The Beach Watchers Program furthers the outreach and educational missions of the Snohomish County Marine Resources Committee, the County's Surface Water Management, the County's WSU Extension unit.

The program remains viable because of the determination and support of the Beach Watchers volunteers, dedicated staff, and a mix of funding sources (mostly small grants). This county funding will allow the program staff more time to achieve the following: 1) invest in ongoing programming; 2) support the foundational Beach Watchers trainings; 3) strengthen existing partnerships; and 4) foster new partnerships for funding in subsequent years. Thank you for the consideration.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff Corrections GF - Restore Vacancies

**Package ID #:** 193

**Category:**

**Description:** General Fund - Restore salary and benefits to 13 vacant Corrections Deputy positions.

These positions have been unfunded since 2021 in an effort to achieve salary savings due to the anticipated COVID-19 related budget shortfall. For the 2022 proforma budget, these positions continued to be unfunded with a contingency placed upon funding should the Corrections Bureau meet certain revenue criteria. For Q1 2023 the criteria had been met and 5 Corrections Support positions were refunded per Council Motion 22-252. We further anticipate that another 10 positions will meet the criteria for refunding in 2022. We are on track to continue to meet or exceed our 2022 revenue goals. For 2023, we are requesting that the anticipated 2022 funding be continued in 2023 and also to have funding restored for any remaining vacant Deputy positions.

**Justification:** (13) Corrections Deputies: Corrections Deputies worked 79,547 hours of overtime from June 1, 2021 to May 31, 2022 (1 year) at a cost of \$4,019,488. While we understand that not funding these positions will save the County roughly \$1.2 million in 2023, the savings has proven to be eroded by overtime worked by deputies filling vacant posts. Our staffing levels are already overly reliant on overtime staffing. It would cost more and exacerbate the use of overtime if these vacant deputy positions were not restored.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff FTE - Corrections Technology Unit (CTU)

**Package ID #:** 194

**Category:**

**Description:** This request is for a July 1, 2023 start date if approved.

The Corrections Technology Unit requires a full-time supervisor be added to its team. This would bring the total team members to three (3). Currently our Corrections Technology unit consist of two special assignment Corrections Deputies where they are subject to rotating out of the assignment every 3 years. This position is currently responsible for providing support, management, triage, research and development for the following applications for the Sheriffs Office Corrections Bureau which employs almost 400 staff:

Management & daily use of the Vicon-Video Security system which contains approximately 320 cameras within the jail. Tens of hours per week are dedicated to fulfilling Public Records Requests and investigative requests. Video archiving tasks associated with public disclosure requests and requests from law enforcement partners is nearly a full time job.

SiPass Prox cards for our 393 staff that controls ingress and egress into our facility along with dozens of volunteers and contractors.

GTL/ViaPath Command system - Our inmate phone, tablet, messaging, video visit, commissary, kite, and email system. Create, maintain, triage and manage all accounts for inmates, attorneys, Law Enforcement and Corrections staff.

New World- This is our jail's inmate management system that is integrated with 50 other agencies within Snohomish County and allows us to manage all operations within the jail. This includes booking inmates, housing, scheduling for court, classification, discipline, programs, incidents, maintaining logs for all activities, movement, clinic visits, professional visits, property tracking, charges, bail, release and inmate funds. We manage all issues that arise for staff at every level when using this software. The Tech Team are administrators of this software, and it takes special training & knowledge to correct and manipulate Criminal History Records without negatively affecting the other participating agencies.

Vendor Interface support- we provide support to all staff and vendors that include applications and connectivity for outside vendors including: VINES - Victim Notification service; KEEFE - Our commissary supplier for inmates; Jail Registry Public Website - Allows the public to see who is in custody, their charges and bail; Live Scan/Crossmatch - This interface allows all inmate fingerprints to be sent to WSP for identity verification of inmates, establishing and update criminal history records, and vetting new employees; Ominix- Interface with the State Criminal Records Department which allows staff to run warrant checks on inmates; Telnate - Inmate entertainment, video visit, messaging, email provider for tablets; and Zetron Radio Dispatch Software.

**Justification:** Just a few years ago we had three (3) full time staff managing fewer software applications and hardware than we have now. Additionally, the COVID Pandemic placed an unprecedented demand on the CTU to create alternative meeting spaces, videoconferencing, remote court appearances for inmates that are in quarantine, an overall increase in conducting historically in person business via computers, software, and telephones, and an increase in specialized electronic equipment which needs support. We procured several pieces of new technology through COVID relief funds like the Tek84 Body scanner and the R-Zero UVC light cell disinfection machine. These new technologies require support when not operating properly.

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff FTE - Corrections Technology Unit (CTU)

**Package ID #:** 194

**Category:**

Technology is an ever-expanding world and with its advancements it allows us to do more without utilizing paper products and creates efficiencies where there was none before. However, with this expansion comes the requirement for specialized skill sets and training that enable an agency to manage this increasing amount of new technology. In my experience we will always have the need to have a group of trained, dedicated technology staff to provide support for all of the various software applications and hardware that all of our end users require in order to do their jobs effectively and efficiently. The staff that rely on this technology typically do not have the necessary skill sets to triage, diagnose and repair the very software and hardware they've come to depend on to do their jobs.

Continuing to attempt to manage all of the above responsibilities with only two full time deputies is not only unrealistic it is irresponsible and non-sustainable. The current workload on these two persons places them in a precarious position of attempting to triage what they can, respond to who they can and who they can't, and often times, through no fault of their own, falling short of providing the excellent technological support that our staff deserve. This sometimes leaves the entire organization frustrated and unable to fulfill their required workload in a timely and efficient way.

Having a first line supervisor (Corrections Sergeant) to help organize the workload, track hours, assets, and expenditures while compiling data, will relieve the two deputies of the administrative work that is involved in CTU operations which will allow the deputies to respond more efficiently and quickly in support of the staff who are on the front lines and need well maintained and working technology to do their jobs.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks Fixed Costs Increases

**Package ID #:** 195

**Category:**

**Description:** This package reflects cost increases for Supplies, Rentals, ER&R, Utilities, Merchant Fees, Dues & Subscriptions and Interfund Parking expenses coming in 2023 for our 411 (Admin), 430 (Maintenance) and 680 (Operations) budgets. We are also requesting a new additional expense for a tree management support function through the Maintenance team 4801 Outside Repair & Mtce budget. With costs escalating due to 2022 inflation rates, the cost for all these services is going up and we are asking for support to help level off these budgets to help reflect the actual expenditures that are currently being paid.

**Justification:** Parks Admin Program 411  
9506 - Interfund Parking

The budgeted amount for our Interfund Parking has not increased and has remained the same since 2018 at \$753, but our actual costs have continued to increase and in 2021 our actual charges came to \$5,760. This is an interfund charge that we have no control over, and so we are requesting that this budget be increased by \$5,000 to get us up to actual levels.

4951 - Dues Subscription & Reg

The base budget for our Admin Dues, Subscriptions and Registrations has remained the same since 2018 at \$12,405, but our actual expenses in 2021 were \$16,273. All of our regular annual dues and subscriptions have increased over the years and we would like to request that the base budget be increased by \$5,000 to bring us up to current actual costs.

4907 - Merchant & Transaction

Our merchant and transaction fees budget has been at \$37,000, which up until 2021 was adequate coverage. However, starting in 2021 our actual expenses were \$53,638, and in 2022 and beyond it is just going to keep going up, now that we have gone to a cashless parks system and have become automated where all transactions are done with credit cards. We are therefore requesting an increase to our merchant and transactions fee budget of \$16,000 to cover these additional charges.

Parks Maintenance Program 430

9503 - Interfund ER&R

The ER&R charges for our Maintenance team were increased last year by \$20,000 (thank you), but we just received the 2023 ER&R rates from Fleet and our estimated costs are projected to be \$399,501. This is an additional \$37,395 over our new budgeted amount. Our vehicles are older and in need of more frequent maintenance service each year. We would like to request another increase to our ER&R maintenance budget of \$37,000 to make us whole with these expenditures. On average we are paying \$30 additional, per month, per vehicle just for the base/replacement rates. This does not take into consideration the servicing rates, which have increased as well. When the Parks Department has over 40 vehicles, these additional increases add up quickly.

4951 - Dues Subscription & Registration

In 2021/2022 our Maintenance team started using Cartegraph for their work order system and have recently focused it's use on potential time tracking as well. The charges in 2021 was \$25,000 and in 2022 it was \$25,750. Both years our Maintenance budget had to cover these additional expenditures. For the 2023 budget, the cost for the Parks Domain for Cartegraph will be \$29,146. Our current Dues & Subscriptions budget for our Maintenance team is \$412, so we are requesting an increase of \$29,146 to this base budget amount, to cover the Cartegraph costs going forward.

3101 - Supplies

The budgeted amounts for Supplies for our Maintenance team has remained the same since 2018, even though

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR Parks Fixed Costs Increases

**Package ID #:** 195

**Category:**

the yearly costs have continued to increase, and now in 2022 the inflation rates have more than doubled most of these costs. Our actual supplies expenses in 2021 were \$212,884, which was \$16,000 over budgeted amounts, and with the inflation rates of 2022 we know our 2022 actuals will be quite a bit higher than 2021. We are asking for an increase of \$27,000 for our maintenance supply budget for 2023 which is an additional 5% above 2021 actuals.

4801 - Outside Repair & Maintenance

We are requesting a new additional expense for an outside tree management support service. This would be budgeted through the Maintenance team 4801 Outside Repair & Mtce budget. With the limited maintenance staff and the high volume of trees needing to be maintained, we are asking for an additional \$45,000 to hire outside services to help our maintenance team maintain the multitude of trees throughout our Parks system. In 2021 we spent approximately \$30,000 on outside services just to handle the critical tree issues that needed to be handled for safety reasons. There are several other trees in our parks that should be taken down, but due to limited staff they have not been handled yet. This extra support will help assure that these other issues will get handled in a timely manner going forward.

Parks Operation Program 680

4501 - Rentals

The budgeted amounts for Rentals for our Operations team have remained the same since 2018, even though the yearly costs have continued to increase, and now in 2022 the inflation rates have more than doubled most costs. Our actual rental expenses in 2021 were \$26,564 over budgeted amounts, and with the inflation rates of 2022 we know our 2022 actuals will be quite a bit higher than 2021. We are asking for an increase of \$26,000 for Operation Rentals to get that budget amount up to 2021 actual expense levels.

4701 - Utilities

Our actual utility costs for our Operations team for 2021 was \$247,575 but our base budget was only at \$234,924. We reached out to all our current utility vendors and they are all projecting a 2% to 3% increase on their billings for 2023. Our utility budget was reduced in 2021 by \$22,000, most likely due to the low actuals in 2020, but that was partially due to COVID 19. Actuals in 2021 were back up to \$247,575 and with these projected increases we will once again have a need to cover a lot of additional costs not covered by the budget. Therefore, we'd like to request an increase to our budgeted amount by \$20,000 to get us to the \$247,575 plus 3%.

9503 - Interfund ER&R

The budgeted amount for our Interfund ER&R for our Operations team has not increased and has remained the same since 2018 at \$10,000, but our actual costs have continued to increase and in 2021 our actual charges came to \$16,600. This is an interfund charge that we have no control over, and so we are requesting that this budget be increased by \$6,000 to get us up to actual levels.

Thank you for considering all of our Fixed Cost needs and requested increases.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Sheriff FTE - Corrections Training Deputy

**Package ID #:** 196

**Category:**

**Description:** This request is for a July 1, 2023 start date if approved.

We are requesting one (1) additional FTE (Corrections Deputy) for the Training Department. This staffer would focus primarily on working with the Lead Force instructor and would be versed in and responsible for all things force (Defensive Tactics, Less-Than-Lethal equipment, tactics and techniques) and would allow the existing Training Deputy to focus on Field Training Officers, new hires, and policy and procedure relating to such. This is in line with what the Patrol side does, and this position is very needed. This deputy position would have to be a defensive tactics and/or less-than-lethal instructor of some sort.

**Justification:** The Training Deputy position (as it exists now) does the job of three (3) FTE from the patrol side. As a result, they are often over tasked, and at times have to triage tasks between what is priority, and what can wait. Also, due to safety concerns, it has become normal to have two instructors present while training Defensive Tactics or less-than-lethal technologies to act as a safety. Currently we are forced to pull from the line staff, causing holes and overtime. Having a second staff member assigned to training would eliminate a lot of this. This staffer would also allow for the current Training deputy to focus on updating, adding content, and ensuring the accuracy of the current new hire training block, Corrections One information, Lexipol Daily Training Bulletins, etc. Having a second deputy would also reduce the dependency of the Supervisor to cover or cancel training if the primary training deputy is sick, injured, or on vacation. This second training deputy would also allow the Bureau to have a greater presence with Criminal Justice Training Center, as well as allowing the Bureau to host and sponsor more trainings here, reducing training and re-certification costs.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Corrections Emergency Planning

**Package ID #:** 197

**Category:**

**Description:** This request is to fund the following emergency planning supplies:

Procure the needed emergency food supplies as per the Emergency Management SOP plan for the Jail facility. 600 inmates and staff x 2 meals a day = 1200 meals a day for 3 days = 3600 meals. There are 12 meals to a case = 300 cases. \$87.00 for a case at 300 cases = \$26100.00.

Procure the needed emergency water storage containers, the building engineering study, and Maintenance install costs for the install and hook up of these tanks. \$350.00 per tank (12 tanks needed) \$4200 plus install and misc. parts needed to hook up to the water supply. Also, would need the cost of the building study (engineering). Request \$6500.00.

Procure two (2) additional stair evacuation chairs One for the Wall Street building and one for the G floor. Evac Chair \$3325.42 each (x2) for a total of \$6650.84 plus cost of install (maintenance).

**Justification:** Part of the Jail Emergency Management plan is to be able to shelter in place for a period of time while critical infrastructure resets and government entities get set up. This is part of the Emergency management plan as per WASPC 26.1 (Washington Association of Sheriffs & Police Chiefs)

Part of the Jail Emergency Management plan is to be able to shelter in place for a period of time while critical infrastructure and government entities repair and recover. This is part of the Emergency plan for the Jail facility as per WASPC 26.1.

Part of the Jail Emergency Management plan is to be able to move inmates to a centralized location for medical triage or housing. We have a facility that has two buildings with stairs in both, and only one emergency evacuation chair. WASPC 26.1 mandates a plan to handle emergencies and these chairs will aid in moving injured or handicapped inmates and staff from higher level modules to lower-level areas while minimizing the risk of falls and injuries.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Corrections Bureau - Medical Director

**Package ID #:** 198

**Category:**

**Description:** This proposal is to provide professional management of the health and medical care for inmates at the Snohomish County Sheriff's Office Corrections Bureau Health Services Division. The service will provide our division with a Medical Director who will act as an independent contractor and not as an agent, employee, or servant of the County.

The county currently contracts with a part-time, 24 hours per week, Medical Director at an annual cost of \$225,000. The new contract allows for a full-time Medical Director at 40 hours per week at a cost of \$450,000 for the 18 month term of July 1, 2022 - December 31, 2023 (annual cost \$300,000). The anticipated cost difference for the contract in 2023 is \$75,000.

**Justification:** According to RCW 72.10.005 and 72.10.070, it is the intent of the legislature that inmates in the custody of the department of corrections receive such basic medical services as may be mandated by the federal Constitution and the Constitution of the state of Washington. Moreover, we are required to staff a contracted Medical Director, who will provide onsite and offsite medical care, to include, but not be limited to:

Physicals, examinations and subsequent prescription of care and referrals;  
Medication management in coordination with contracted pharmacy;  
Consultation with on-duty nursing staff as needed;  
Accessible 24 hours a day, 7 days a week (On-Call);  
Provide onsite care during regularly scheduled times at a minimum of 40 hours a week.

A Medical Director is provided supervision by the appointed County Health Services Administrator (HSA) with the Snohomish County Sheriff's Office Corrections Bureau. Moreover, the Medical Director provides medical direction and oversight to providers, but not limited to, developing clinical practice guidelines, nursing protocols and standardized policies/procedures with the assistance of the HSA that dictates the everyday operations of the medical and mental health staff.

The Medical Director shall comply with all other applicable federal, state, and local laws, rules, and regulations in performing their duties under the Agreement.

Due to the National and State staffing crisis involving healthcare, it is difficult to find a medical director that will serve in a government capacity due to the competitive wages.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 38 Sheriff's Corrections Bureau

**Short Name:** Fund 002 - Sheriff 38 Adjustments to Base

**Package ID #:** 199

**Category:**

**Description:** This package represents adjustments to our proforma base budget.

2023 Revenue Estimate of \$10.4M. We are anticipating jail ADP to remain at the current 2022 levels in 2023. Revenue was estimated by using actual stats from JAN - APR of 2022, averaged and applied to the remaining 8 months plus the addition of a 2023 contractual rate increase of 3%.

Updating BDT allocation for a reclass that took place in 2021. The position was filled in 2022 after positions were loaded into BDT. For the 2022 and 2023 proforma budget the Accounting Tech II position was incorrectly allocated 100% to Fund 108 instead of split equally between Fund 108 and Fund 002 as approved with the reclassification process. This entry is to correct the allocation.

Salary Adjustments: We have 2 FTE in temporary upgrade status. This adjustment is to reflect the correct salary of their base positions.

Additional barber fees: We have recently awarded a new barber contract through the RFP process and the cost of the contract was a significant increase over the last one. While we do recover some of the costs for barber services from our inmates, we anticipate that the new rates will need to be offset with additional funding.

Ghost Positions: Removal of 10.0 FTE Correction Deputy positions used in the past for hiring. These unfunded positions are no longer needed.

Housekeeping: Move COR8813 from program 321 to 331.

\$601 Debt Services (requested by Budget Office)

Priority Package Detail**

---

**Package Type:** Standard

**Department:** 11 Auditor

**Short Name:** Out of our Control Package - Auditor

**Package ID #:** 200

**Category:**

**Description:** This package requests a modest increase for expenditures that are out of direct control of the Auditor's Office.

1) Increased dues for Washington State Association of County Auditors (WSACA) - WSACA recently hired an executive director and increased dues for all counties to assist in paying the administrative costs associated with this new position. We are requesting \$4,500 to be added to our dues expenditures to cover the cost of WSACA dues going forward.

2) Animal Control Officer Stand By Pay - A negotiated agreement between AFSCME 1811CA and the Auditor's Office established Stand By Pay. One Animal Control Officer is scheduled to be on call after normal business hours and on weekends each week to assist the county with animal related emergencies. The calculated increase in overtime for Stand By Pay for the entire unit will be \$20,000 for 2023.

3) Armored Car Expenses - The Licensing Division uses an armored car service (as part of a county contract) to transport large amounts of cash to Bank of America on a daily basis. The county recently negotiated a new armored car contract that resulted in increased costs for this service. The Licensing Division requests an additional \$3,600 to cover the cost of this increase armored car cost going forward.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 04 Human Services

**Short Name:** HS Case Management & Home Care Services Network

**Package ID #:** 201

**Category:**

**Description:** Adjustments to the 2023 Human Services Case Management and Home Care Services Network budget.

**Justification:** These changes are made to more accurately reflect planned 2023 Case Management activities.

Specifically, the program caseload is currently increasing by an average of 12 clients per month, and the trend is projected to extend through 2023. The DSHS contract renewal effective 7/1/2022 reduces the maximum caseload to 75 clients per 1.0 clinical FTE. In order to meet the new ratio, three new Case Manager positions were approved by motion 22-263. Management will also submit a request to reclass a vacant Office Assistant II position to a Case Manager. These positions are open for 2022 recruitment and hire. Effective 1/1/23, six new positions are requested, including: three Case Managers, one Registered Nurse, one Case Management Administrative Assistant, and a Case Management/Registered Nurse Supervisor. Other expenditure line item changes include adding an estimated 3% COLA effective 1/1/23 and adjusting discretionary items based on anticipated program needs.

Grant revenues are adjusted based on an in depth analysis of current caseload, caseload growth trends, and contract payment rates.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 11 Auditor

**Short Name:** Non General Fund Package

**Package ID #:** 204

**Category:**

**Description:** This package provides expenditure for non-general fund projects in the Auditor's Office.

1) O&M Fund - Provides a total of \$300,000 to internal county departments and offices that are participating in the 2023 Auditor's O&M Fund for Historical Document Preservation.

2) Back Post Project - All county land records are digitized, however only records from July 1976 forward are indexed and available for customers to search online. The goal of the Back Post project is to index and upload recorded documents prior to 1976 into our Landmark recording system so that our customers can fully search and access these documents. We will contract with an outside company that specializes in document digitization and indexing and we will focus the first year on deeds and marriage documents. There are approximately 2.5 million pages of documents that will be part of this large project which will take multiple years to complete. We are asking for \$1 million in expenditure authority in 2023 for the Back Post project.

**Justification:**

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 11 Auditor

**Short Name:** Elections Space Requirements

**Package ID #:** 205

**Category:**

**Description:** This package requests funding to remodel the first floor of Admin West and to retrofit additional contiguous space in Admin West to gain greater Elections operational efficiencies and enhance election security. EXECUTIVE RECOMMENDS use of REET 1 for the General Fund portion of this project.

In 2022 the Department of Homeland Security conducted an audit of our Elections and Voter Registration space and found that the space is currently inadequate in size and is in need of specific security enhancements.

During 2022 the Auditor's Office has been exploring options to gain additional Elections and Voter Registration space within Admin West. Much of the plans rely on other offices /departments moving or consolidating their spaces due to their current telework practices which has greatly reduced in-person office space requirements. The goal is to gain enough square footage of contiguous office space so that the Elections and Voter Registration Divisions can conduct Presidential Elections on campus within one building.

Every four years a massive effort is undertaken to move the entire elections operations to an off-site location. This relocation requires an immense amount of time and energy from not only the elections staff, but also Facilities Management and the Department of Information Technology. In addition, costs to lease and retrofit these spaces as well as ensure high level security does not come cheap. The county has already invested heavily in these relocation efforts to the tune of approximately \$2 million.

With greater numbers of registered voters, each countywide election gets bigger . It is difficult to conduct a large countywide non-Presidential election within the space we currently occupy in Admin West combined with the space we lease across the street from the county campus. It will be impossible to conduct the 2024 Presidential Election within our current space.

We are proposing to pay for the remodel using a combination of grants, the elections equipment reserve fund and general fund dollars. This Priority Package serves as a placeholder as we do not have a firm estimate on what a full-scale remodel of our current space and acquisition and retrofit of additional, contiguous county space would cost. Facilities estimates that 25,000 square feet of renovated space at \$200 per square foot would cost approximately \$5 million.

Cost Breakdown:

REET 1 = \$3 million

Elections Equipment Reserve Fund = \$1.5 million

HAVA 3 Grant = \$475,000

**Justification:**

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 09 Conservation & Natural Resour

**Short Name:** DCNR - Parks Fund 185 Conservation Futures

**Package ID #:** 207

**Category:**

**Description:** The Snohomish County Conservation Futures Program is responsible for administering funds for the purpose of acquiring interests or rights in real property located within Snohomish County which meet open space and conservation requirements as per RCW 84.24.230 and S.C.C. 4.14. Funding for the program is through the collection of up to \$ 0.0625 per \$1,000 of assessed valuation against all taxable real property within Snohomish County.

S.C.C. 4.14.080 establishes a Conservation Futures Advisory Board, consisting of the County representative, two County Council representatives, two elected officials from cities within the county, and two citizen representatives, to make recommendations for projects funded by Conservation Futures revenue. Projects are evaluated and prioritized based on various criteria, including regional significance, multijurisdictional benefit, enhancement to current conservation programs, consequences from development, compliance with open space policies, and/or establishment of a trail corridor or natural area linkage. The board meets as necessary and make recommendations which are forwarded to the County Executive for transmittal to the County Council for final action.

This budget reflects the balance of funding for projects to be completed in 2022 that were approved by the committee as well as operations and maintenance plus bond debt payment and mandatory capital interfund costs. The budget also allows for available funding for new projects as defined by Conservation Futures Advisory Board.

**Justification:** PRESERVE OR IMPROVE THE UNIQUE QUALITY OF SNOHOMISH COUNTY'S NATURAL RESOURCES AND ENVIRONMENT

The projects identified in the package meet the purpose specified in Snohomish County Code of acquiring interest or rights in real property for the preservation of open space land, farm and agricultural land and timber land. These are the projects approved and the estimated balances into 2023; the Conservation Futures Board may meet and changes may occur during the budget approval process.

2023 PLANNED CAPITAL EXPENDITURES- Approved in 2022

Snoh County Parks- Skyview Tracts \$ 77,699  
Snoh County Parks- Whitehorse Trail \$ 74,523  
PCC Farmland Trust - Reinier Farm \$424,250

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 39 Emergency Management

**Short Name:** GF & Fund 124 Housekeeping

**Package ID #:** 211

**Category:**

**Description:** This package proposes small annual adjustments to the GF and Fund 124.  
The 2023 GF is updated to include EOC Debt Service. REET1 funds covered this in the 2022 budget.  
Salary contingency of 5% has been included for FTEs budgeted to Fund 124.

**Justification:** Debt Service for the EOC was covered by REET1 in the 2022 budget. Reverting the debt service to the GF will increase the per capita rate for the 2023 ILA annual service fees from \$1.38 to \$1.55. This increase may cause some of our partner agencies to opt out of the interlocal agreement for emergency management services.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

#### **Expenditures Package Summary**

FUND 002	\$3,826
FUND 124	\$11,026

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Fund 315 Balancing

**Package ID #:** 212

**Category:**

**Description:** This package balances revenue and expenditure in Fund 315 for IT Capital Projects. It contains adjustments to our proforma base budget for line items that carried forward from prior year adopted levels. Revenue and expenditure is anticipated to balance in Fund 315 through proforma budget line items and entries made in this package at \$2,835,000.

**Justification:** This balancing package is necessary to create a foundation that represents the 2023 Technology Replacement Program (TRP) contributions to Fund 315. Expenditures are aligned with our 5-year plan for technology infrastructure improvement.

From this initial package, adjustments to revenue and expenditure based upon policy decisions can be made through separate packages. Any adjustments to this priority package must be carefully considered and are discouraged; this package is designed to mirror initial rate model design, balances at the program level, matches departmental communications, and ties back to audited rate allocations and the IT department Fund 505 balancing package.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>		
FUND	315	\$2,835,000
<b>TOTAL - EXPENDITURES</b>		<b>\$2,835,000</b>

<b>Revenues Summary</b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 39 Emergency Management

**Short Name:** Operational Readiness

**Package ID #:** 213

**Category:**

**Description:** This package proposes the continuation of 1.0 FTE to support DEM's Operational Readiness program. This was a project position that is set to expire 12/31/22. DEM wishes to continue this position DEM7527P

**Justification:** This position currently supports DEM's operational readiness program. This program primarily focuses on our county's ability to respond to natural and man-made disasters. It includes maintaining the readiness of the equipment and procedures for the Snohomish County Emergency Operations Center (EOC); it also includes ensuring we meet the obligations in our interlocal agreements with cities, towns, and Tribes to ensure that their EOC equipment and procedures align with the County's.

To accomplish this, this position researches best practices and incorporates them into standard operating guidelines that detail how each EOC operates. They then work closely with representatives from many County departments, as well as the various jurisdictions, to develop and facilitate the delivery of trainings for EOC staff members. These trainings ensure that EOC staff know their role within the EOC, that they understand their EOC's operating guidelines, and that they are comfortable with the technology used during disaster response. This position also helps develop exercises (i.e., drills) so that EOC staff can practice these skills. The scope of these drills range from exercises to evaluate individual sections of an EOC to multijurisdictional exercises that evaluate our ability to coordinate with partner jurisdictions within Snohomish County, with our regional partners, and with our state and federal counterparts.

This position was integral during the COVID-19 response when, because of the extended duration, we needed to train many people who were new to the EOC. They were also able to evaluate our operations in real-time and implement improvements that not only helped during the pandemic, but will be extremely valuable for future EOC activations.

DEM previously funded this position with an award from FEMA's Regional Catastrophic Preparedness Grant Program. Snohomish County DEM received that award, one of eight awarded nationally, in 2019. Its performance period expires on September 30, 2022. We identified other grant funding to bridge funding this position through the remainder of this year. This request is to continue funding this position as it is integral to our continued readiness.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 13 Human Resources

**Short Name:** Business Process Analyst Reclassification

**Package ID #:** 214

**Category:**

**Description:** Central Human Resources is requesting reclassification of position HRS7568R (Business Process Analyst) from pay grade 244 to pay grade 245, and reclassification to Business Process Analyst Supervisor.  
Executive Recommendation - wait for classification & compensation study results.

**Justification:** Over the past two years, the Business Process Analyst's scope of work has expanded significantly. Based on 1) recommendations made in the 2019 audit, and 2) the Executive Office's initiative to modernize and improve services for employees, Central Human Resources created a separate functional team to:

- Develop reports to provide data in order to make better operational and strategic decisions
- Improve internal processes and procedures in Central Human Resources
- Lead countywide software implementations (Onboard, Learn, Perform, eForms, etc.)

The new software requires a higher level of technological expertise and additional staff to administer and maintain, and the Business Process Analyst now supervises a team of three FTEs. This team has been instrumental in providing data and creating reports not previously available, and these have been helpful to Human Resources, other departments and County Council. The Business Process Analyst has built strong relations with other departments (especially Finance, OPEX and IT) and participates in many cross-departmental projects. The current position title no longer reflects the aggregate of work performed, and we request a pay grade reclassification, and reclassification to Business Process Analyst Supervisor.

**Snohomish County 2023 Budget - Executive Recommended  
Priority Package Detail**

---

**Package Type:** Standard

**Department:** 36 Superior Court

**Short Name:** Miller Trust

**Package ID #:** 215

**Category:**

**Description:** This package increases expenditure authority in the Miller Trust program.

**Justification:** The board that represents the Miller Trust, which is dedicated to the support and betterment of the youth in Snohomish County, has come to an agreement to utilize a larger amount of the fund balance to implement new programs. The board is currently evaluating several proposals from the board members and the organizations they represent to determine the most viable programs for 2023.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>		
FUND 100		\$242,500
<b>TOTAL - EXPENDITURES</b>		<b>\$242,500</b>

<b><u>Revenues Summary</u></b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Innovation: UW Capstone

**Package ID #:** 217

**Category:**

**Description:** The county has an opportunity to bring in a cross-functional team of students from the University of Washington College of Engineering to address a business problem. The Industry Capstone Program brings together UW students and companies to tackle real-world, multidisciplinary engineering problems. Snohomish County IT will bring in a project and provide support to a team of creative, talented engineering seniors who will design and build innovative solutions. The team of 4-6 seniors will be matched to a Snohomish County sponsor and a UW faculty member. This would be worked in partnership with HR to align to the ongoing internship program if and as needed. We are investigating project areas to focus in on where we have an opportunity to look for a combination of workflow streamlining, modernizing of business operations, and introduction of modern technologies to help manage our business.

**Justification:** In addition to solving a business problem for the county with anticipated savings, this project provides a high touch engagement opportunity to assess student talent and recruit for jobs. We will build brand recognition for the County among next-generation engineers, and provides a low cost opportunity for a fresh look at a business problem. Secondary benefits include civic engagement benefits by strengthening ties to the UW College of Engineering, as well as professional development opportunity for the technical mentor.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Innovation: WSU Hackathon

**Package ID #:** 218

**Category:**

**Description:** Sponsoring a hackathon for current students at the WSU Everett Campus will provide an opportunity to build engagement with the student body and administration, as well as support the development of solutions for County business problems. This project was a success in 2020 and this package provides direct sponsorship for the running of the Hackathon, anticipated to occur in early 2023. We plan to partner with Microsoft to provide resources to support the event, and engage with WSU's software engineering department to initiate planning for this event.

We are exploring opening this up for local High Schools as well through direct engagement and sponsorship by each elected council member to be a sponsor for one or more high schools within their district.

**Justification:**

- Possible outcomes could include delivery of an actual solution for the county for a particularly focused business need.
- Community and civic engagement
- Building partnership with WSU Everett and EVCC

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b>Expenditures Package Summary</b>		
FUND	505	\$5,000
<b>TOTAL - EXPENDITURES</b>		<b>\$5,000</b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Software Investment

**Package ID #:** 220

**Category:**

**Description:** This package represents targeted investments during FY2022 in new software and license increases for products that are instrumental to enterprise business operations within Snohomish County. These costs were either unknown or unable to be estimated at the time the 2023 IT rate model was developed and therefore are not included in departmental allocated rates for this proforma budget.

**Justification:** The software maintenance costs detailed within this package are intended to be added into the 2023 budget from IT remaining Fund 505 balance, and will be added into the IT rate model as enterprise software in 2024 and beyond. The software includes the following four items:

- \$32,000 HIGH LINE TMSS (time management self-service) License increase - to acquire user licenses sufficient for a county-wide implementation of TMSS for time and attendance reporting.
- \$21,500 LEASE QUERY GASB 87 compliance software - new financial tool acquired through CIP Fund 315 ERP project funds to enable central finance to record County leases, produce financial statement data in compliance with new governmental standards for financials, GASB 87
- \$60,000 ASANA project management software license increase - adding users to OpEx project tracking platform for increased opportunity for cross-departmental project collaboration and visibility
- \$96,000 MICROSOFT CRM DYNAMICS license increase for County users of CRM Dynamics custom development solutions delivered by IT

### SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:

Expenditures Package Summary		
FUND 505		\$209,500
<b>TOTAL - EXPENDITURES</b>		<b>\$209,500</b>

Revenues Summary		
FUND 505		\$209,500
<b>TOTAL - REVENUES:</b>		<b>\$209,500</b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Innovation: GIS Compute

**Package ID #:** 221

**Category:**

**Description:** Snohomish County's geographic information system (GIS) footprint has grown significantly over the last several years as more departments across the county leverage geospatial tools and technology for their business needs. Increased demand requires significant system resources (processor, memory, and storage) to support the growing demands of the County's Web GIS environment. This package represents the cost of additional network resources in 2023 as a one-time investment.

Ongoing annual spend will be added to rates in 2024 and beyond, and includes approximate annual cost of \$28,000 in capital investment for long-term replacement through the TRP program.

**Justification:** The County's current Web GIS servers are co-located with approximately 350 other county virtual machines and is consuming 1 full node of the County's 9-node Hyper-V environment. It is no longer feasible to allocate additional system resources from the existing Hyper-V environment to the Web GIS environment. IT is requesting the purchase of a stand-alone GIS Hyper-V environment to resolve this limitation and allow for supporting both the current use and future growth of our GIS program.

A stand-alone GIS Hyper-V environment will provide the following:

-Needed scalability and flexibility that is currently not available

-IT GIS staff vs. IT Engineering staff will gain the ability to allocate GIS system resources as system demands change. This would include things like managing virtual CPUs, adding or removing memory, and expanding disk drives to address data growth.

-Reduction in IT administrative overhead including monitoring, adjusting, and managing assigned system resources. It takes less work to managing smaller clusters with fewer virtual machines.

-Decreased patching, maintenance, and troubleshooting complexity

-Improved restore and reboot times

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

<b><u>Expenditures Package Summary</u></b>	
FUND 505	\$170,000
<b>TOTAL - EXPENDITURES</b>	<b>\$170,000</b>

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Application Support

**Package ID #:** 223

**Category:**

**Description:** This package represents the addition of 1.0 FTE in a lead role to the existing IT application support team, currently consisting of three (3) employees. This team performs many critical functions within IT, including:

-Highly available Tier III support resources that respond quickly to escalated application-related issues, including outages for critical enterprise systems (e.g., High Line and Cayenta)

-Ongoing and on-demand support for more than 180 line-of-business applications and tools, many of which are critical department-specific applications (e.g., AMANDA, Cartegraph, and CorEMR) or enterprise applications (e.g., High Line, Cayenta, and Granicus/Legistar)

-Support for IT maintenance work related to or impacting IT-supported applications; these maintenance efforts can be very large, complicated, and require months or years to complete (e.g., 2008 server migration, Actuate to SSRS conversion, DCNR Transition, CorEMR Failover Recovery)

-Creating new solutions and kiosks, and enhancing existing solutions to better meet customers emerging business needs (e.g., SnoBAT ballot tray tracking system enhancements, HMIS homeless tracking system enhancements, Weatherization grant project tracking system enhancements, FME system integrations)

-Participation in projects to implement 3rd party solutions and upgrades for IT customers (e.g., NEOGOV Module implementation, High Line TMSS implementation, Liberty Court Recording, Cayenta Upgrade)

-Communication and coordination with product vendors to facilitate work that requires vendor resources or other assistance, including system outages, issues, and security upgrades

-Initiating support requests with our 3rd party Database Administration (DBA) Service and coordinating with DBA resources to complete that work

-Functioning on-demand as subject matter experts on applications related topics and issues for other service teams, departments, offices, and courts

**Justification:** There are some challenges we face as we try to tackle this body of work on a daily basis and hiring another resource that would serve as a lead for this team would help address these challenges and create some opportunities in the process. The following represent some of the major challenges for this team, along with a brief justification for how adding a lead resource to the team would provide benefit to the team and ultimately the county:

1.Coverage - Highly available support requires at least one resource to be actively monitoring for issues during business hours (so we have timely awareness of issues) as well as the capacity to work on a timely resolution to those issues based on urgency and impact. This is currently challenging for this team, not only due to the sheer volume of work, but also due to schedule issues like leave and meetings, so that it is not always possible to have someone available to respond quickly to these issues. Another resource would help this team to provide better quality and more consistent coverage.

2.Volume of work - There is a huge volume of work here that this group is responsible for moving forward, and

---

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Application Support

**Package ID #:** 223

**Category:**

it is a testament to the value and effectiveness of this group that they are able to accomplish so much. However, there is only so much these three resources can do, and as the demand for their services continues to increase, the backlog of work continues to grow, along with the stress levels of the team (there has been a noticeable difference in how they express their feelings of work and stress since the beginning of 2022). Another resource would help this team to handle this workload more expeditiously, increase the output quality, and improve the mood and stress of the team.

3.Increasing workload - As we continue to transition from our historical manual, paper-based processes to a more electronic, automated, application-focused workplace, the demand for applications and other electronic solutions continues to grow, as does the corresponding support and overhead requirements. There was a large increase in the demand for our services at the start of the COVID pandemic (for reasons that are probably well-understood), and now that we are returning to "normal" that demand seems to only be increasing as the departments, offices, and courts look to re-envision how they do business and engage with customers. Another resource would not only help this team with these current demands for our services but would also help provide greater elasticity to stretch our capacity into the future and to better handle resource intensive efforts as they come along (e.g., the DCNR transition at the end of 2021 and the Health District transition in 2022).

4.Leadership - Given the volume of work this team handles and the increasing demand for their services, it has been difficult for the Applications Supervisor to understand the minutiae of this work, ensuring there is a good fit in these assignments, making sure the work is moving forward appropriately and the correct processes are being followed. Having a lead position for the Applications Support team would help the Applications Supervisor manage this team by providing leadership that enables the team to work more autonomously, without direct Supervision. In addition, a lead could help make decisions regarding assignments, help ensure standard processes are being followed and work is moving forward in a timely manner and would be a communication bridge between the Supervisor and team, ensuring instructions are received, understood, and followed, and communicating issues and barriers are communicated to the Supervisor. Since the Applications team overall currently has thirteen resources assigned to one supervisor, this would help with span of control.

5.Career path - There are two primary types of resources in the Applications team, System Administrator Support (SAS4) resources that make up the Applications Support team, and Business Application Developer (BAD5) resources that make up the Dev team. In a general sense, the Dev team is responsible for building applications and the Applications Support team is responsible for supporting them and moving into a developer position represents a potential career path for resources on the Applications Support team. However, there are a couple of issues with this that having a lead position for the Applications Support team could help resolve. First, in the interests of completing the work expeditiously and limiting the number of resources assigned to each effort (and the number of assignments each resource has to try to manage at once), there is a level of development work that happens at the Applications Support team level. Development skills are not a requirement for the (SAS4) position (it's a nice to have), and not all the resources on the Applications Support team have development skills, but it is highly beneficial for one or more of the resources on the team to have these skills. Establishing a lead position for this team that required some level of development skills would help ensure this team has this important skillset, and this resource could be assigned to efforts that required this skillset. In addition, the jump from a SAS4 to a BAD5 is significant in terms of career path (a BAD5 represents an experienced, highly competent developer), but having a lead position for the Applications Support team that is essentially a junior developer would create a more realistic developer career path for the SAS4 resources on the Applications Support team.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Data Privacy

**Package ID #:** 225

**Category:**

**Description:** This package represents the creation of a dedicated County Privacy Officer residing within the Department of Information Technology with the following focus areas: data privacy and protection; adherence to current and anticipated legislation related to privacy; defining county policies in the privacy field, and ensure monitoring and adherence to these policies; train and guide county workforce on data privacy and protection; partner with IT technical staff to ensure technical solution exists to provide the proper level of data protection.

NOTE: this is a new classification, position not yet established, and this package is using a position classification placeholder for funding estimates only.

Executive Review:

No new FTE at this time.

**Justification:** Snohomish County, like other public agencies, is facing a growing demand for adherence to local, state, and federal regulations regarding data protection and privacy. Currently the county privacy officer is the CIO/Director of IT as defined in county code. The creation of a dedicated privacy officer is to ensure that current and expected future legislation is understood and implemented properly. The role ensures risk-avoidance in the areas of data protection and privacy and strengthens the county's posture in alignment with the Enterprise Data Management program instituted in 2022.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Enterprise: Print Server Management

**Package ID #:** 226

**Category:**

**Description:** The IT department wishes to replace existing on-premises print server hardware with a SaaS (cloud) print management solution called PrintLogic.  
This package represents the annual cost of this new software service, which if funded, will be rolled into 2024 IT rates.

**Justification:** This transition will provide the following benefits to the county:

- Reduces current complexity and administrative overhead associated with managing hundreds of unique printer drivers
- Allows for delegation of print management and administration, providing NAGs or other technical staff the ability to manage their departments' print queues.
- Simplifies the assignment of printers and print queues and empowers users to map to printers and resolve printer issues.
- Eliminates the need for on-premises print servers thereby reducing reliance on NTLM authentication, which is an older and less secure technology.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Security: Email Threat Protection

**Package ID #:** 227

**Category:**

**Description:** This package represents the investment needed to enable more robust messaging and security for County email communications with an annual software subscription service. The Cloud Email Security Platform extends and enhances the email security capabilities of Microsoft Office 365. Over 70% of the vendor's current customers utilize Office 365 in the same manner as Snohomish County.

**Justification:** The Cloud Email Security Platform offers the following additional capabilities:

- Applies dynamic (changing) email banners based upon the nature of the email and the detected threat.
- Analyzes email links both upon delivery and again when accessed (clicked on) by the email recipient. When warranted, user is taken to a landing page that details the threat and prompts the user to intentionally click to bypass.
- Uses Machine Learning to detect email and account compromise.
- Analyzes communication patterns between senders and recipients using behavioral analytics and AI.
- Simplifies the process of identifying and remediating malicious emails which will reduce delays and the associated risks.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Innovation: Community Drone Mapping

**Package ID #:** 228

**Category:**

**Description:** This package details an investment in new software for the County to implement that provides a platform for communication with the public regarding use of Drones/Unmanned Aircraft Systems (UAS).

Airspacelink is an FAA-approved Low Altitude Authorization and Notification Capability (LAANC) Software as a Service system. The application is used to help agencies integrate drones safely into the national airspace. Airspace Link's FLYSAFE program, is an entry level program designed with "Safety First" in mind with the goal of jumpstarting communities in preparation for the increasing use of Unmanned Aircraft Systems (UAS) by the community.

Airspacelink's AirHub platform is a cloud-based, geospatial system used to meet the needs of state and local governments to prepare for, plan, build and manage their UAS community. The AirHub for Government platform can help communicate advisories (e.g., local notices and information) to the public and provide an interactive map for public and UAS pilot reference.

**Justification:** The rapid growth of the Unmanned Aircraft Systems (UAS) industry has outpaced the development of rules and systems to govern their use. The ability for citizens, businesses, and government agencies to know where they can safely fly or conduct complex flights in their communities are limited by fragmented datasets and non-existing systems and processes for managing local infrastructure, as well as land and airspace usage for UAS to ensure safety and compliance with policies and regulations. Airspacelink has partners with the FAA and State & Local Governments to deploy a unified cloud-based community UAS management platform allows for community engagement, safe operations of UAS, protecting citizens, and future-proofing the region for the continued growth of the UAS industry.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Reclass: Lead for Desktop Team (SA5)

**Package ID #:** 229

**Category:**

**Description:** In January 2021, a new strategic plan was released by the Information Technology department. A critical element of successful implementation of a strategy is to align leaders to strategies and align resources to support the strategy. After analyzing the organizational model following implementation of the new strategy, IT recognized that we needed to create a new division and realign resources to support the implementation of our strategies.

One key organizational change involved moving the Desktop Engineering team out from the Service Desk and into Enterprise Technology Services. This increased the Enterprise Technology Supervisor's number of direct reports to 16. In addition, the Desktop Engineering team lost their team lead who remained with the Service Desk.

The intent of this reclassification is to restore a team lead to the Desktop Engineering team and shift some of the day-to-day operational responsibilities from the Enterprise Technology Services Supervisor.

Executive Review:  
Wait for C/C study

**Justification:** This will enable Enterprise Technology Services to improve service quality, increase customer satisfaction and continuously advance this service offering upon which county employees are reliant to effectively serve their constituents.

Key organizational changes directly inform this decision and request. The restructuring and move of the Desktop Engineering team out from the Service Desk and into Enterprise Technology Services, highlights a need for additional, qualified support for the Enterprise Technology Supervisor and staff.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Reclass: Contract Specialist to Sr.

**Package ID #:** 230

**Category:**

**Description:** This package represents the 2023 impact of reclassification of an existing Contract Specialist position to a Contract Specialist, Senior classification. IT expects to authorize a temporary upgrade for the affected employee no later than July 1, 2022 in order for the IT department to continue to experience success in managing contract workload with only one contract specialist FTE.

Executive Review:  
Wait for C/C study

**Justification:** The IT administrative services work group consists of 6.0 FTE reporting directly to the Business Operations and Support Manager. Historically, this work group had two contract specialist positions, one of which was a senior classification. In mid-2020, after the departure of several key personnel and the addition of a new manager to the team, the Information Technology (IT) administrative services work group had vacancies in both funded contract positions: Contract Specialist-DIS ("CS") and Contract Specialist, Senior - DIS ("CS-Senior").

To align resources with the strategic objectives of the department, Information Technology (IT) performed a comprehensive review of contract writing, negotiation, coordination and execution. Streamlining tasks and establishing repeatable processes became the focus for improvement, and IT set a course for changing the approach to contract management by the middle of 2020, saving over 1,200 hours of process waste through refining the approach. In August 2020, IT management decided to fill only one of the vacant FTE positions, seeing that new efficiencies might make the reduction a success, and by hiring at the lower of the two classifications (CS), understood that the new hire would take some time to build expertise and competency before producing work product at a "Senior" level (CS-Senior).

The difference in the two classifications is clear. The CS is responsible for coordination and preparation of contract documents pertaining to consultants, RFPs, Bids, Amendments, and Interlocal Agreements. They oversee the process and ensure tasks are completed by others in the contract process as required. The Senior position, CS-Senior, is responsible for coordination and preparation, and also drafting and maintaining master agreement templates, negotiating contracts, developing the procedures, acting as the IT liaison between departments (Risk, PA, Finance), leading groups of project team members, guiding and mentoring others at varying technical levels, and is the principal advocate within the County for the function.

The changes driving this reclassification have occurred gradually since 2021, with the manager still advising and guiding the CS as needed. With the experience, knowledge and capability demonstrated by the current employee, it is necessary to transition to a higher classification mid-2022, as the employee is capable of performing at the CS-Senior classification, and the IT department has a need for that level of work to be completed. By the beginning of March 2022 the CS had completed the final course in WA State Contract Management training, and has shown competency in all facets of the contract management work.

We consider this reclassification to be a savings to the County, not only in the efficiency of doing the same work with half the staff, but also in the improved contract timelines and being able to move projects forward even faster. For FY2023, IT represents the cost of this reclassification utilizing IT Fund 505 excess fund balance. The anticipated impact during 2023, considering step increases, is estimated at less than \$10,000 in total salary and benefits. If approved, the ongoing position costs will be included in IT's rate model for 2024

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Reclass: System Admin Support 4 to BAD5

**Package ID #:** 231

**Category:**

**Description:** In September 2021, the Department of Information Technology underwent a department reorganization with the creation of the new Enterprise Data Management division as well as alignment of work groups to other divisions. David Jones's position of Systems Administrator Support 4 (SAS 4) is one of the positions that were affected by the reorganization and moved into the new division.

While David was working as a SAS 4 in his previous work group, he provided support and project work consistent with other SAS 4 staff on the team. In addition to this work, he also performs coding and design work for implementing enterprise applications solutions as well as project management and business consultations like other Business Application Developer 5 staff in the Applications division.

Executive Review:  
Wait for C/C study

**Justification:** The OpenText solution for PDS initially required a project position for implementation support. After implementation the employee was hired into a permanent Systems Admin Support 4 (SAS 4) position to continue to provide support resources for OpenText and related applications. While other SAS 4 staff have provided support when needed, David Jones has continued to be the primary subject matter expert for the OpenText solution, as well as Highview, demonstrating skill in primary system support, development, analysis, as well as project management.

As the organizational model has shifted to align with the IT strategic plan and the SAS 4 position is more focused on support, design, and implementation of enterprise data management solutions, the tasks and work assigned to this position expand beyond the typical SAS 4 responsibilities. The reclassification of this position will appropriately reflect the very technical and complex design work that is required of this position.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: Sheriff Transfer Axon

**Package ID #:** 232

**Category:**

**Description:** This package is a partner package with Sheriff Package #290 transferring budget resources from General Fund 002 into DIS Fund 505 for ongoing body worn camera maintenance and support.

The 2022 Snohomish County Council approved budget provided \$750,000 to start a body worn camera program for the Sheriff's Office. The testing and RFP process has been completed and Axon has been selected as the approved vendor. The Sheriff's Office is in the final phase of developing the contract to start and maintain this program.

The contract cost for ongoing maintenance and support is \$393,200 per year on a seven-year contract. The cost for this application will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:** IT has the resources and expertise required to support and maintain the vendor support agreement.

**SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: Sheriff Transfer GreyKey

**Package ID #:** 233

**Category:**

**Description:** This package is a partner package with Sheriff Package #291, transferring budget resources from General Fund 002 into DIS Fund 505 for ongoing software maintenance and support.

Greykey Software:

The Sheriff's Office Digital Forensic Unit is responsible for evaluating, analyzing, extracting, and documenting digital evidence located within smartphones, computers, and tablets. Technology is rapidly changing. Apple, Android, Samsung, and Google all make various devices which now have sophisticated encrypted locking systems making it virtually impossible for anyone to open unless that person knows the passcode. While this higher security is good for preventing criminals from accessing personal information, it has created a barrier for law enforcement to legally access electronic devices searching for evidence. If the Digital Forensic Unit is unable to access electronic devices, many felony cases will not be prosecuted, or prosecution will be greatly hampered due to our inability to access evidence located within the device.

The answer to this problem is the purchase of highly sophisticated software designed for law enforcement to enable detectives to unlock devices which are inaccessible without the software.

If this package is approved in the 2023 budget, the cost for this application will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:** IT has the resources and expertise required to support and maintain the vendor support agreement. Switching the support and maintenance agreement from Sheriff to IT will enable IT to work directly and more efficiently with the vendor.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: Health District Transfer ILA

**Package ID #:** 234

**Category:**

**Description:** This package represents the impact to IT revenue arising from the merger of Snohomish Health District with Snohomish County.

Executive Rec:  
Updated internal rates in pkk to match current billing.

**Justification:** Snohomish Health District will pay IT assessments through departmental rates based on the IT rate model instead of the negotiated external agency Interlocal Agreement rates for service.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: Sheriff Transfer Taser Axon

**Package ID #:** 235

**Category:**

**Description:** This package is a partner package with Sheriff Package #287, transferring budget resources from General Fund 002 into DIS Fund 505 for ongoing taser maintenance and support.

One of the most effective de-escalation tools available to all law enforcement nationwide is the Conducted Electrical Weapon (CEW), or Taser. This tool allows law enforcement to pause dangerous situations and thereby creating an opportunity for greater decision making and a lower-level use of force. The Snohomish County Sheriff's Office equips all road deputies with this critical less lethal tool.

The current count of Conducted Electrical Weapon (CEW), or Taser, in the Sheriff's Office is 259 units. These are all X26P platforms sold by Axon Enterprises. All the units purchased by the Sheriff's Office are warranted for five years through Axon Enterprises. The warranty and support for our current stock of Tasers will expire in 2022 and the end of life for the X26P platform will be sometime in 2023.

The replacement platform for the X26P offered by Axon Enterprises is the Taser 7 (T7). The current contract with Axon for the X26P Taser is \$94,000 annually and is negotiated under the same Master Agreement for services as Interview and Body worn camera systems. The replacement T7 Taser contract will be \$191,000 annually for the next five years.

This request is to cover the increased contract cost of \$97,000 and move funding to IT so they are able to seamlessly administer the Axon Master Agreement and provide contract, administrative and technical support. This will be included in the IT rate model and allocated in the Sheriff's Office IT rates for budget years 2024 and beyond.

**Justification:** IT has the resources and expertise required to support and maintain the vendor support agreement.

### **SUMMARY EXPENDITURE/REVENUE/FTE BY FUND:**

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 14 Information Technology

**Short Name:** Rates: PW Transfer Cartegraph

**Package ID #:** 237

**Category:**

**Description:** This package is a partner package with Public Works #400, DCNR-Surface Water Management #427, DCNR-Parks #434, and Airport #435 transferring departmental application support and maintenance into the IT rates for the Cartegraph contract.

This priority package includes \$18,500 of extra budget authority for IT to add Gold Support services to the Cartegraph contract.

**Justification:** IT has the resources and expertise required to support and maintain maintenance of Cartegraph technology vendor support agreements and centralization makes sense now that this software has become a County-wide enterprise solution.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Operations

**Package ID #:** 239

**Category:**

**Description:** Paine Field is a vital commercial service airport and industrial park serving the Puget Sound Region, with over 590 based aircraft, 70 commercial tenants and serving 1 million passengers annually (pre-pandemic). Major tenants include the Boeing Company, United Technologies, ATS, Propeller Airports, Alaska Airlines, Kenmore Air, Flying Heritage & Combat Armor Museum, Museum of Flight, Esterline/Korry Electronics, Collins Aerospace, Everett Community College, Edmonds College, Washington Aerospace Training & Research (WATR) Center, and many more. In addition to tenant revenues, Future of Flight Aviation Center & Boeing Tour in a regular year (pre-pandemic) attracts over 320,000 local, national and international visitors to the County. WSDOT's most recent Aviation Economic Impact Study reports Paine Field as having a total economic impact of \$59.9 billion annually. (WSDOT, 2020)

Airport revenues include hangar; industrial and commercial leases; landing and fuel fees; Passenger Facility Charges (PFC); and a long-term operating agreement with Boeing for use of the main runway. Airport revenues fund airfield operations, maintenance, fire rescue services, law enforcement, public safety programs, building repairs, debt service on loans and bonds, development requirements and operating costs. Budget drivers at the airport include maintenance and support of the airfield to FAA standards, existing buildings, roadways and utility systems and increasing the long-term revenue and asset base at the airport. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

The Future of Flight Aviation Center & Boeing Tour Facility (FoF) was seeded and developed by the airport as a Public Facility District (PFD) in 2005. FoF has grown to become one of Snohomish County's largest tourist attraction serving over 320,000 tourists and residents annually (pre-pandemic). The airport and Boeing partnered in late 2018 to update the facility through renovation and improved exhibit's while rebranding the new improved facility as Boeing's Future of Flight. Under new Boeing leadership the facility continues to innovate, educate, and challenge the youth of tomorrow on the current and future aviation industry. FoF has an economic impact on the local and state travel and tourism economy estimated at \$75 million (WA State Tourism). It brings tourists from around the world to Snohomish County for their first visit. The debt service for FoF is funded by lease revenue and state sales tax allocation (PFD funding) from the County. Boeing aircraft manufacturing facility tours have not resumed since pre-pandemic, but the airport is hopefully they may resume in 2023.

The airport maintains a conservative operating structure while maintaining both airside (aviation) and landside (industrial) capital infrastructure projects. The airport is responsible for not only airport owned buildings, but all roadways and sewer infrastructure improvements which are reflected in the 2023 budget. The main airport budget driver is the need to provide a safe environment for aviation and industry by meeting FAA requirements and standards. Over 50,000 jobs depend on the airfield. Boeing, ATS, the FAA and numerous industrial/commercial tenants have contractual agreements with the County for facilities and services provided by the airport. These contracts form legal requirements to maintain airport facilities to FAA and commercial/industrial standards.

The airport works closely with the FAA to provide safe aviation facilities that meet national standards, including regular inspections and audits. The FAA Airport Improvement Program (AIP) provides capital

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Operations

**Package ID #:** 239

**Category:**

funding for prioritized improvements to the airfield, but it does not provide any funds for operations and maintenance of the airport. The airport's 2023 capital plans are discussed in separate priority packages.

Operating revenues are projected at \$36.4M in 2023. The airport shall have a market rate appraisal complete in 2022 that updates all leases to fair market value over the next three (3) years, respective to each individual tenant's lease terms. The airport manages about 430 leases that all expire at various times and years which impacts revenues. All tenant changes and estimated revenue increases have been factored into the airport budget for fiscal year 2023 and thereafter.

Operating expenses are estimated at \$31.4M in 2023. This includes debt service at \$5.8M which is inclusive of both the Boeing DOC facility at \$2M, Future of Flight at \$1.5M, and other various smaller projects. The airport contributes \$4.45M in interfund transfers to the General Fund for services provided. Utilities and Storm Water Management (SWM) are budgeted at \$1.1M (partly funded by tenant utility revenues). The Airport Enterprise Fund is stable and financially self-sufficient.

The airport anticipates issuing \$16M in debt service. First bonded project is for \$6.5M to fund the acquisition of three (3) enclave parcels from the Federal Government which shall support future economic development of the Airport. The land acquisition which is contingent upon the property becoming available shall be financed using bonds with a twenty (20) year maturity date. The second bonded project is for \$9.5M to Reconstruct the Inner Terminal Ramp which shall be repaid using PFC funds and a ten (10) year maturity date. This bond may be paid off early as PFC funds increase.

Airfield capital projects are anticipated to be funded by FAA entitlement & discretionary grants at \$14.1M in 2023. The Airport Master Plan and Taxilane Echo Reconstruction are normally funded at 90%, but additional federal grant funds have been allocated this year with no local match required. All remaining projects such as the East Ramp Reconstruction and Runway 16R-34L Reconstruction shall be funded at 90%. All associated CIP projects shall only proceed once grant funds have been secured.

Airport user fees are starting to increase again due to the pandemic travel restrictions being terminated. This affects: Landing Fees, Fuel Flowage Fees, Concessionaire Shared Revenue, and overnight Aircraft Parking Fees which have been below normal since the pandemic began. It's unknown how long it may take for air travel to resume back to pre-pandemic levels; therefore, the airport continues to estimate these revenues conservatively. If air travel resumes quickly to pre-pandemic levels, then the Airport could receive an additional \$1M in revenues in 2023.

The airport is requesting two (2) additional Facility Technician IV's and upgrading a Record Technician from 0.5 FTE to full time (1.0 FTE) to meet required service levels and increased responsibilities. This airport is participating in the Supported Employment Program for individuals with developmental disabilities. This will be adding one (1.0) Office Assistant FTE.

In addition, the Airport has budgeted extra funds this year in Personnel Cost Contingency (DAC) to cover salary adjustments for step, merit, COLA, and potential market rate compensation adjustments. Various other minor adjustments are outlined in the priority package.

The airport continues to work hard to meet revenue goals and is proud to serve the aviation community of

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Operations

**Package ID #:** 239

**Category:**

Snohomish County.

**Justification:**

LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - FTE Requests

**Package ID #:** 240

**Category:**

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Paine Field Airport Enterprise Fund is a growing lucrative enterprise that requires special considerations to meet increased demand for commercial and other aeronautical services. The airport requires several new FTEs to meet the increased demand and responsibilities.

This priority package total request includes two (2.0) additional Facility Technician IV's, upgrading a Record Technician from 0.5 FTE to 1.0 FTE and to meet required service levels and increased responsibilities.

This year the airport will be participating in the Supported Employment Program for individuals with developmental disabilities. This will be adding one (1.0) Office Assistant FTE.

The Airport has budgeted extra funds this year in Personnel Cost Contingency (DAC) to cover increased pay from step, merit, COLA, and potential compensation adjustments.

In addition, several FTE's have been reclassified due to housekeeping corrections. This includes new hires, promotions, transfers, and incorrect title corrections. A few corrections are modifying the titles to backfill the positions that were vacated due to a promotion or transfer. Please see associated comments next to individual reclasses.

The Union also requested a Range Adjustment for the 3 Airport Electricians. This is not in the Exec Recommended Budget pending the results of the classification & compensation study that is currently underway.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Machinery & Equipment

**Package ID #:** 241

**Category:** Large Equipment

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

In 2023, the airport has budgeted approximately \$555,000 for large machinery and equipment including: (1) bucket truck; (1) flatbed truck; (1) Airside Tractor; and three (3) maintenance vehicles as planned in our equipment replacement program. All equipment is funded locally through the Airport Enterprise Fund.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Bldg/Land Constr/Acquis

**Package ID #:** 242

**Category:** Building

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Commercial and industrial capital projects are tied to existing or future tenant demand and future revenue sources along with availability of construction debt-service funding. A total of \$14.3M is budgeted for, but not limited to, the following projects: t-hangar renovations, Building C-3 HVAC replacement, Hangar C-11 & Bomarc Lot 3 building roof rehabilitation, renovation of the new airport administration building, demolition of old (C-23) Tect facility, renovation of Air National Guard facility; and miscellaneous additional repairs for the airport's aging infrastructure. The land & buildings acquisition is bond funded at an estimated \$6.5M which shall acquire the Air National Guard's enclave properties on the southeast side of the airport. All other projects are funded locally through the Airport Enterprise Fund.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). ## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Other Improvements

**Package ID #:** 243

**Category:** Other Improvements

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Capital improvement projects consist of airside and landside projects that maintain targeted safety standards for airport infrastructure. Airside projects consist of, but not limited to, runways, ramps and taxiways while landside projects consist of roadways, stormwater, sewer, security and other infrastructure. Various infrastructure projects are budgeted at \$2.2M in 2023 and being funded entirely by the Airport Enterprise Fund.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). ## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - Grant Funded Projects

**Package ID #:** 244

**Category:** Aviation

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Certain airfield capital improvements are eligible, but not guaranteed, for 90% grant funding by the Federal Aviation Administration (FAA). FAA grants are prioritized by type and are highly competitive. Airfield projects are funded only if they meet FAA guidelines and rank high on the national priority list. FAA Grant Funding is listed in revenues. Grant funded construction projects are started only after the grant funding has been approved.

In 2023, the Airport Capital Improvement Program (ACIP) includes \$2.6M for the Airport Master Plan (AMP); \$5.8M for Reconstruction of Taxilane Echo; \$5.5M for East Ramp Reconstruction and approximately \$250,000 for the initial planning and design phase to Reconstruct Runway 16R-34L. All projects are funded at 90% except the AMP and Reconstruction of Taxilane Echo which are funded at 100%, meaning no local match funds required. The AMP is already underway and will provide new direction for all future capital projects providing a five (5), ten (10), and twenty (20) year projection for all future construction at the airport. Reconstruction of Taxilane Echo is required due to aging infrastructure that is at the end of its useful life. The Reconstruct Runway 16R-34L, Phase I is a multi-year project that is funded entirely from the Airport Enterprise Fund at approximately \$250,000. The airport shall seek FAA Grant funding for all future phases. In total, the airport is receiving just over \$13.1M in grant funding for 2023.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** CIP - Capital

**Department:** 21 Airport

**Short Name:** Snohomish County Airport - PFC Projects

**Package ID #:** 245

**Category:** Aviation

**Description:** Budget drivers at the airport include maintenance and support of the airfield to Federal Aviation Administration (FAA) standards, existing buildings, roadways and utility systems and increasing long-term revenue and asset base at the airport. Development of facilities for the aerospace industries is a priority. Asset and revenue growth at the airport leads to increased economic development, growth and vitality to the County. The Capital projects listed from 2023-2028 address these needs and are driven by the Airport Master Plan. Paine Field contributes an estimated \$12 million each year to local tax collections and an additional \$263.8 million statewide. (WSDOT, 2020)

Paine Field's Passenger Facility Charges (PFC) Program started in November 2020, receives \$4.50 per enplaned passenger. PFC Funds are restricted to be spent on FAA-approved projects that enhance safety, security, or capacity; reduce noise; or increase air carrier competition (FAA). The airport's first PFC funded project is funded at \$950,000 to acquire snow removal equipment to handle the increased frequency of runway clearing from our newly established commercial passenger service. The second project is anticipated to begin construction in 2023 for an Inner Terminal Ramp at a cost of \$9.5M which shall be funded through bonds and repaid using PFC funds. PFC bonds shall have a loan maturity date of ten (10) years with the option for early payoff as additional funds become available. PFC program in total is funded at \$10.45M in 2023.

**Justification:** LEGAL REQUIREMENTS: The Federal Final Policy Concerning the Use of Airport Revenue (64 Federal Register 7696 February 16, 1999) requires that airport revenue can only be used for expenses directly related to the airport. Additional Federal Law Mandates include: Deed Covenants and Grant Assurances. (49 USC 47107 (a)(13) and (b) and Final Policy on Revenue Diversion 64 Federal Register 7696 (1999). Numerous other legal mandates are available upon request. In addition to the statutory requirements for operation and maintenance, the airport has numerous lease agreements and contracts with a variety of legal obligations, including the Joint Use Agreement with Boeing.

The airport is governed by Federal Policy to use airport revenues for expenses directly related to the airport. Budgeted revenues are tied to budgeted expenses. FAA grant projects proceed if they receive the 90% FAA funding or sufficient passenger facility charge (PFC) funding. Capital projects are targeted to aviation safety standards for runways, ramps and other aviation projects. Commercial or industrial capital projects are tied to existing or future tenant need. The airport has sufficient funds in the Airport Enterprise Fund for the 2023 Airport budget.

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** IT Software package for OPD

**Package ID #:** 247

**Category:**

**Description:** This package will allow the Office of Public Defense to continue the RFP process for a data management software system. In 2019, Council approved \$45,800 in the 2020 budget for a case management system for OPD. OPD is still going through the RFP process with Snohomish County IT and not likely to execute a contract with a potential vendor until 2023. The money for the project was not expended in 2022 and OPD requests that the \$45,800 roll over to its 2023 budget.

**Justification:** Caseload management software will assist OPD in keeping track of caseload assignments, workload, and allow for proper supervision of conflict panel attorneys in compliance with the Washington State Bar Association Indigent Defense Standards and Wilbur v. City of Mount Vernon and City of Burlington, 989 F. Supp. 2d 1122, 1126 (2013).

## Snohomish County 2023 Budget - Executive Recommended Priority Package Detail

---

**Package Type:** Standard

**Department:** 32 Office of Public Defense

**Short Name:** Social worker - Involuntary Treatment Act

**Package ID #:** 248

**Category:**

**Description:** The current absence of social workers available for patients involuntarily committed in hospitals has led to avoidable delays in discharge for many of patients. When patients are finally discharged, they often leave with no additional support to help them transition back into the community and/or maintain their stability. Often, they discharge to the same situation they were in originally, or sometimes worse when hospitalization has impacted finances, housing, connections in the community, etc.

While attorneys play an integral role in the protection of rights and due process, they do not have the same skillset that social workers do when it comes to mining resources and networking to find creative solutions to discharge planning and support in the community, especially with the current dearth of BH outpatient resources and the ravages of the Covid-19 pandemic on the BH system as a whole. Further, unlike lawyers, social workers are unable to testify to any less restrictive alternatives that may be available; a defense social worker could testify and make a record to alternatives to detention. Devoted social worker resources are essential as ITA caseloads have increased. In 2017, SCPDA received 1133 petitions for detention. By 2021, that number increased to 1562 with the opening of a new medical detention facility in the county.

In sum, an ITA Social worker would enhance our work in the following ways:

- Decrease the length of hospitalization
- Build support structures for clients upon discharge
- Help clients apply for social security, housing vouchers and assistance, healthcare, transportation, medication management, in-home care, assistance with legal financial obligations and complying with Court cases,
- Addressing needs of marginalized clients directly with targeted training in cultural competency, trauma response,

The cost of an ITA social worker is \$136,338 for 2023.
