Why would you like to serve on this board/commission? I have served on the Snohomish Health District Public Health Advisory Board since October 2017 and have served as Chair-elect in 2020, Chairperson in 2021 and again in Q3 & Q4 of 2022. I've become deeply invested in the role of public health and feel passionate about its success as it transitions to a new model in the county, and as we transition to a new era of a more endemic level of COVID. I see the role of public health in mitigating the effects of climate change and health inequities as vital to the success of the disparate communities within Snohomish County.

Please explain why you are a qualified candidate, including relevant professional experience, to serve on the board/commission. I have a Master's Degree in Administration, have served in Healthcare since I became a nursing assistant at the age of 16, and have been a nurse for 35 years, with my latest role as being the Director of a 535 tertiary hospital in Snohomish County. My roles have included oversight for Quality, Infection Prevention, Medical Staff Services, Medical Education, Care Management, Patient Safety, and Risk Management. My passion that has driven me has always been the need for justice within the healthcare system.

Please list community involvement/volunteer activities. HOA Board President of Greenview Farms in Snohomish County for 6 years.
Snohomish Health District Public Health Advisory Council member since 2017.

How did you learn of this opportunity? It was brought to my attention through my work on the PHAC.

Do you currently serve on a Snohomish County board or commission?* I serve on the PHAC, but if selected, I would be willing to give that up.

Is there anything else that you would like to share about your education or background for this position? I have a daughter that is 30 years old and a member of the special needs community, currently living in an Adult Family Home. My experiences with her have given me additional insight into the needs of families within the county.
