Snohomish County Council and Mr. Countryman,

Thank you for your diligent work in Motion 21-297, referring proposed code revisions relating to detached accessory dwelling units in rural and resource areas to the Department of Planning and Development Services and Snohomish County Planning Commission. Thank you for the research done by the staff and application of great evidence based findings.

Your hard work does not go unnoticed and my family and I greatly appreciate everything you're doing to help enrich our community while maintaining our property rights. We look forward to the proposed code revision and pray it'll be a smooth process for everyone.

Thank you again!

Valerie Carson (and family)
Snohomish County Resident
