Executive/Council Action Form (ECAF)

ITEM TITLE:

Amended Ordinance 22-068, relating to solid waste disposal; amending chapters 7.35 and 7.41 SCC

DEPARTMENT: Public Works

ORIGINATOR: Lori Ericsson (White)

EXECUTIVE RECOMMENDATION: Approved by Ken Klein 11/17/22

PURPOSE: Approval of amendment to SCC 7.35 and 7.41 to update program requirements related to the disposal of solid waste, clarify use of the household hazardous waste program, and update the list of restrictions related to acceptance of waste at solid waste facilities.

BACKGROUND: Request approval of amendments to SCC 7.35 and 7.41 with an effective date of January 1, 2023. The proposed amendments established in the ordinance provide greater specificity related to restrictions on the acceptance of wastes at solid waste facilities including sewer/wastewater treatment plant screenings and electronic wastes. The proposed amendments also clarify that the household hazardous waste program is intended for residents of unincorporated Snohomish County and municipal corporations with which the County has an interlocal agreement for solid waste services. Additionally, the proposed amendments will establish a minimum container weight of 23 tons for residual reclamation waste (RRW) delivered to the intermodal yard. This adjustment is intended to maximize container transport through the rail system, facilitating more efficient use of the waste export system and RRW customer workflow and operations. It is estimated that implementation of a 23-ton minimum container weight will save 620 containers per year.

FISCAL IMPLICATIONS:

EXPEND: FUND, AGY, ORG, ACTY, OBJ, AU	CURRENT YR	2ND YR	1ST 6 YRS
402 5067064722 Waste Export	\$775,000	\$775,000	\$4,650,000
TOTAL	\$775,000	\$775,000	\$4,650,000

REVENUE: FUND, AGY, ORG, REV, SOURCE	CURRENT YR	2ND YR	1ST 6 YRS
402 3064014372 Solid Waste Fees	\$775,000	\$775,000	\$4,650,000
TOTAL	\$775,000	\$775,000	\$4,650,000

DEPARTMENT FISCAL IMPACT NOTES: If the changes proposed to ordinance chapters 7.35 and 7.41 take effect January 1, 2023 and the concurrently proposed service fee schedule is approved, additional revenue is anticipated to be received from RRW customers who underfill their intermodal containers with the minimum system weight. Conversely, the Solid Waste Division will not collect revenue from the disposal of sewer or wastewater screenings as they are no longer accepted within the system.
